

Gacha 137

Chapter 137 - Alex's Tribulation (2)

The clash between the Tyrannical Sword Wave with the Almighty Golden Lightning created a powerful shockwave and vibrated the entire Capital City.

The powerful shockwave blew eight old men who witnessed this scene. But, they can't be shocked at this moment. They immediately regained their bearing and formed a defense line to stop this shockwave from reaching the capital. Because all of them are Rank 8, they can somehow block this shockwave. The shockwave completely repelled and didn't go toward the Capital City. They finally relieved after confirming that.

But the most shocking phenomenon they have ever seen is when the Sword Wave cut down the mighty Golden Lightning. The Sword Wave still continue flying upward and slash the cloud. The cloud was split into two, and the dark cloud moves toward the fissure like it was absorbed by it. The Dark cloud slowly vanished, and the previous spark of the Golden Lightning looks like a golden light that illuminates the world.

...

Meanwhile, Alex on the ground, After clearing his tribulation. His energy was refined into the new form of energy, which is the Spiritual Energy. This is the energy that symbolizes that he finally stepped into the path of true cultivation. Just when he wanted to try this new energy, a big pain is coming into his head. He holds his head and crouched to the ground.

"Ah!"

"Ah!"

A huge pain continue revolving in his head. He felt his head was about to spread open. The pain was revolving for about two minutes before it disappeared. When it disappeared, he slowly stands up. He picked his spear and his sword that he dropped because of the pain on the ground. He first picks the Sword up and stored it into the System. He had used a considerable time. He needs to do some acting now. But when he picked the Spear. He suddenly felt something. He unconsciously swings his spear.

"Boom"

A few trees fell to the ground like it was cut just now. He was shocked, as he immediately looked at the spear. There is an unknown energy that covering his spear. But he felt this energy is similar to his Sword Intent. He quickly comes to a realization.

"This is...Spear Intent?"

He wanted to explore this 'Spear Intent' longer, but he didn't have time to do that. He can explore it on the lowest floor of the dungeon before he finally went to the 'Dangerous' Upper World. With that thought in mind, he suppressed his curiosity. He makes a big wing made by Fire and a crown above on his head also with Fire. His expression becomes Solemn and Aloof. He looked like a Fire God now. He slowly ascends to the air.

Because of all those previous scenes, all eyes that watch those phenomena still have their eyes lock in Alex's direction. Of course, the one who noticed Alex first is the eight old men since they are the closest to him. They can see Alex's expression now, Aloof and Majestic. With the addition of the golden lightning spark that still in the sky. It boosts Alex's appearance. It was like a golden ray from the sky, and a god is born.

Five of them unconsciously let out tears, including Bryan.

"Ah..."

"I finally see it"

"I never thought I could see something like this"

"Now that I have seen something like this. I didn't mind if I die at any moment."

"My Grandson-in-law is god."

All those five can't help but comment. Of course, the one who called him 'Grandson-in-law' is Bryan. The rest of them was also shocked. The one who is the calmest at the moment is Alex's Teacher. He looked at him, and his eyes seem telling Alex, 'Go, my student, I'm proud of you.

Not only those old men. Because of those shocking scenes, The Citizens' eyes still locked on his direction, when they finally saw Alex's appearance. With his Mighty Fire Wing and Majestic Fire Crown. They can feel the suppression feeling inside their hearts. Especially those who have Fire Element.

In the academy.

Students and Teachers who saw this scene were dumbfounded. They were very shocked by the whole phenomenon. And inside their hearts, they felt reverence and worship. Those who have fire elements got the suppression feeling inside and can't help but worship on bended knees.

"Our Fire Prince become a Fire God"

"Fire God"

"Fire God"

In the street.

People are crying in the street, people are dumbfounded, some people also can't help but worship in bended knees.

"Acacia finally has a God."

"A God is Born at this moment."

"A God with Fire... Fire God"

"Long Live Fire God"

"Long Live Fire God"

The deafening cheers were heard from the capital city. Even the spies that planted in this capital city were dumbfounded at this moment. After this, they need to send a word back to their own kingdom. God was born. This made the people think not just twice, but thrice and more before they wanted to act toward Acacia Kingdom. Boosting Acacia Kingdom's Prestige even further.

Alex slowly ascends to the sky. He looked at those old men, then toward the Capital City. "I will always be watching you."

After he said that, He ascended to the golden light and disappeared. It was like a god ascend to Heaven. Not long after, the golden light was starting to dim down before it is completely gone. The people were cheering inside the capital city.

Because of this, Every year on this day, there will be a festival to celebrate the ascension of Fire God Alexander Sirius who hailed from Acacia Kingdom. And Firia, Alex's wife also choose this day to Ascend three years later, which make the kingdom mark this day as the Festival of Ascension. But that story was for later. And every time the story about him always told in the academy and became the role model in the academy.

...

Meanwhile, Alex continues flying above the cloud. When he was sure there was no one notice him, he descends to the ground. He took out a long robe to cover his face before he went inside the Maka Town. From the atmosphere in the city. It seems that no one still realizes what just happened in front of Capital City. It is convenient for him, though. He went inside the dungeon hurriedly. He easily passed those first ninety floors. From 91st floor onward, he called Anna and Leoz, thus making him passed the later floors faster. Until he reached the Last floor, the 100th floor. In front of him, A big ape standing in front of him. Now that he finally reached Martial Master Stage, he can feel the Ape standing in front of him also in Martial Master Stage.

He took out his Spear and his sword. He looked at the Ape solemnly.

"Roar" Noticing Alex came in front of him, the Ape roared toward him as he charged toward Alex.

Alex smirked, "You will be my Practice target today."

The Ape throws his Punch toward him, Alex only smirked as he coated the Spear Intent to his spear. He planted the spear body on the ground as he stepped back. Maybe, because no one appeared in here for a long time, the Ape lost its fighting instinct. The Ape can't stop its strike and was pierced by Alex's Spear like tofu. Because the spear still planted on the ground. Alex didn't need to use his own strength to counter the punch's power.

"I really wanted to do this. I don't need to counter strength with strength. The sword is too short to be planted on the ground after all."

"Roar!" The Ape roared in pain. With the spear still planted on its hand, the ape endures the pain and throws another punch toward Alex. Alex blocked it with his sword. He let go of his spear from his left hand.

"Fire Claw"

A big fire claw extended from his left hand. It grabbed the ape's head before tossing it away. The ape was flying away. Alex grabbed his spear. He coated the spear with 'Spear Intent' once again.

"That's right. How did I do that before? I think it was like this..." He recalled the scene back then. He swings his spear toward the ape. Suddenly a stream of light appeared from his spear toward the ape. Alex observed the light, and its shape looks like his Sword Wave. The ape panic and dodged it, but it still cost him one hand.

Alex was surprised, "It is like my Sword Wave."

He checked His Spear Technique. He tried to coat his spear with Spear Intent, like when he used the Sanguin Sword Art with Sword Intent.

"Luminous Spear Technique. Pierce"

A blue stream of light flew toward the Ape. Alex purposely missed the target. The stream of light pierced the dungeon wall and made a quite long small hole on the wall. Because of the Spear Intent, the power multiplied by many times. That is the reason why this technique can pierce the dungeon wall. Alex too was surprised. He then used his Throwing Art.

"Spear Throwing Art. Power Throwing."

"Boom!"

The spear crashed to the wall and made a big crater on the wall. Yes, the spear still carried his spear intent thus, the impact was even stronger than the usual. But... he looked at his left hand.

"Why do I get the feeling..." He turned to his right hand that was holding a sword at the moment. "Why do I get the feeling that I can coat my 'Spear Intent' to my sword?"

He decided to trust his feeling. Thus he tried coating His sword in his right hand with Spear Intent. And...he succeeded.

The sword now was covered with Spear Intent, Alex was surprised, he didn't know why but it feels very natural for him. He decided to do 'That'

He looked at the scared Ape, the Ape's eyes telling Alex to 'Kill him already'. Alex then pulled his sword as he wanted to make a thrusting motion.

"Luminous Spear Technique. Pierce!"

He thrust his sword and used his Luminous Spear Technique with a sword like he is holding a spear. The usual stream of light that usually appeared when he used this technique, finally appeared and flew toward the Ape. It pierced the Ape's head and killing it.

Alex looked at his sword, astonished. He really just coated his Sword with 'Spear Intent' and used a spear technique, and he even felt this is only natural for him to do so. With his curiosity, he pulled his spear that stuck on the wall. He tried to channel his 'Sword Intent' to His spear, but...

"Ouch"

Clang

He let go of his spear because of the sudden pain when he channeled his 'Sword Intent' to the spear. He failed to do it. He tried to grab the spear and did it a few times more, but the result still the same. For some reason, he can't channel his 'Sword Intent' into his spear. So he abandons that thought for now. Using His Spear Intent alone in his sword was a big boost for him. In the future, he might be able to channel his 'Sword Intent' into his spear and might be able even to fuse the two intents together. And this is the First Step for him to do so.

After that, he finally went toward the door behind the Ape. He opened the giant door. Inside the giant door is a small room with a teleportation array inside. It must be the Teleportation Array to the Upper World, he thought. There is nothing to do for him. After checking his new capability with his new Spear Intent. He went inside the teleportation Array and activated it. The array started glowing and Alex disappeared. He finally went on his way toward the new world, the Upper World that hold bigger opportunities.

...

somewhere far away. The Nature Goddess is looking at her screen. Alex finally went on his way toward the Upper World. She frowned.

"Golden Lightning Tribulation?" She never knew about this Golden Lightning Tribulation. But there is something that she can confirm from it. "It gave Alex his previous Life memory about 'Spear' in his unconsciousness. That is the reason why Alex can suddenly use his Spear Intent so naturally. And with that, his advancement in Spear will go unobstructed. But... Is that the only Golden Lightning Tribulation he will get?"

She suspected this tribulation came from the Previous Alex. She suddenly recalled the last thing the Previous Alex said, 'Please take care of the future me and please make me in love with you again.'

She came to a realization and stood up, she approached the window, placing her hand on the window, she is missing him, even the shadow of her on the window become Alex. It felt like their palm would be touching if there is no window separating them in the moment "Using Spear like using a sword and using a sword like using a spear. Combining the two intents and make it absolute. That is the Twin Intents that only he can master. Even without me taking care of you. You already made pre-arrangements for yourself. Please get stronger as soon as possible, I really missing you here."

"It seems that the Golden Lightning Tribulation will appear every time he advances and challenge his Lightning Tribulation. It seems that it will be carrying a piece of memories to his unconsciousness. It can be his techniques or any others. Haiz... Please make you fall in love with me again? Why just don't you pass your memories to the future you?" The goddess shake her head, "It is so like you. The past is the past, and the present is the present. It is so like you. I will make sure that you fall in love with me again. After all, I am yours, and you are mine, forever and ever"
