

Gacha 302

302 Inner Disciple Tournament 7-Little Revenge

The next day,

Alex went out of his house, and he was surprised to see Charya and Evelyn outside his house.

"Big Sister Song Yu asked me to watch over big brother like yesterday," Evelyn said.

"I am just watching you so that vixen won't try anything funny," Charya said.

Alex knew that the 'vixen' in her mouth was the sixteenth elder. She was afraid if the sixteenth elder did something to Alex when she was too occupied on Putri.

She asked Song Yu to take care of Putri while she watched over Alex in the arena.

Alex didn't mind about it, though. He had several plans to protect himself, and most of all, he had recalled Anna back to the card.

Anna said that she could summon herself without his permission, like what she did when Song Jia tried to grab him.

Alex thought the other spirits also could do that, but she said it was her privilege. It was because she had become his woman that she could do that. Anna told him to check his card and surprised to see there was a heart mark on her card. It was the proof.

Alex then wanted to take advantage of this feature to bring her to the arena. So when he became a little bit bru-harsh and whatever elder tried to attack him. Anna would appear and protect him.

But seeing Charya also came with him, that plan might be unnecessary. But better be safe than sorry. Alex then flew to the arena with Charya and Evelyn.

When they arrived in the arena, Charya's eyes glued into the silver-haired figure with full hatred. Alex looked at the green-haired beauty without an expression. She tried to taunt him by making a sinister smile to make him remember about Putri, but Alex didn't care about it.

Not long after, the tournament started again. This was the fourth round. After 1024 disciples reduced to 512 to 256 and finally to 128 in the third round. This round would let the people see the top 64th disciple in the inner disciple tournament.

But as expected, the most exciting match today was Alex versus Intan. After what happened to his Senior Sister, the people were wondering what he would do and what kind of fight he would show them. Just thinking about it could give goosebumps.

The third elder finally started the match. Alex's turn came after another hour.

"Alexander Sirius versus Mega Indrajaja."

Alex took his time to go to the arena. Of course, he hated this Mega since he was the same as John. Both of them were their best friend, but sadly, all of it was only a fake.

Alex considered this Mega as a desert before his fight between Intan. He looked at this Mega and said, "I hate the fake friend to the bone."

He suddenly remembered. When Intan whispered something to Putri after she defeated her, Putri denied it. But after looking at a person in the crowd, Putri suddenly broke down.

Putri said that she only had Mega as a friend, her fiancée, and her family. There was only Eric and Mega as the possibility since her family wouldn't be able to come here.

But he knew, after destroying the Kasmanan Family, Eric would lose his backing and would not do something like that. So the last possibility was the princess. After Putri looked at the princess, she broke down.

"You never know the struggle for someone who wants the throne." Mega didn't deny it any longer.

"But I know someone who never wants to have a struggle for the throne despite being a princess," Alex said, remembering Alicia, Mia, and Lea. Alicia just wanted to be with him, and he didn't really understand Mia. As for Lea, she only wanted to be a proud knight.

At the very least, he knew all of them didn't want to struggle for the throne. Instead, they wanted a peaceful family.

"You-!" Mega gritted her teeth. This guy should have died when she sent the assassin. But instead of bringing his head and his space ring, she only found that the men she sent had disappeared mysteriously.

But with Alex's cultivation, there was no way Alex could kill them. And because of the war thing, she suspected that the Zhou Kingdom had hindered her plan. Even so, she looked at him greedily, especially when she looked at his space ring.

Alex looked at Elder Dolf and nodded.

"Match Start!"

As soon as the match started, Mega immediately deployed her sword domain. It was a fifteen-meter sword domain. Even though it was not at Alex's level, it would protect her for the time being.

On the other hand, Alex took out twenty swords again and shot them to Mega. Mega suddenly took out a big metal shield. She used her Sword Domain to weaken the swords and used this shield to block them.

She knocked down the sword one by one. Surprisingly, when the shield knocked his sword to the ground, he suddenly lost control of that sword.

Seeing her strategy was working, she laughed. "Haha, I paid a huge price for this shield. You won't be able to win as long as I use this shield."

Alex frowned as he activated his Spirit Eyes to take a look on that shield. According to the color of the shield from his Spirit Eyes, the shield had a metal element. When his sword touched the shield, it lost its affinity and made him unable to control it again.

He recalled his remaining swords and let them hover around him. Mega managed to knock fourteen swords, so there were only six swords around him.

Mega thought she had won when she saw Alex recall his sword. Alex then released the swords from his control.

He only smiled at his situation and raised his hand. Ten swords appeared above his head, and he made the swords fly toward Mega's shield.

Obviously, Mega continued blocking his swords one by one. She almost forgot about this. This was his original Omnislash. Luckily her shield was still working. When she blocked his Omnislash, the sword then broke.

But Alex just summoned them again and again. He let them fly toward Mega's shield since losing these swords was nothing to him. After all, they were only illusory swords.

Mega suddenly felt something wrong. She could not approach him while using her shield to go toward him. At this rate, she would just become a perfect punching bag.

The tip of her sword suddenly shined. Alex furrowed his eyebrows when he saw this. He tried to look at it with his Spirit Eyes.

Mega pointed her sword toward him and suddenly shot out a yellow colored ball toward him. The ball flew at him like a bullet, and Alex couldn't help but used his sword to destroy it by instinct.

This was the first time he saw Mega's element. Her element turned out to be a light element. He realized that this was the first time he fought with a light element user. And that attack just now was like a laser beam.

After dodging it, he looked at the wall that was pierced by the light. The light managed to make a one-meter deep hole in the wall. And it had that much speed to boot.

This attack was evil. If a person wanted to attack from a distance, she would use her shield to block it. And if they wanted to approach her, she would shoot that attack again.

"Light Piercer." She shot it again and again.

Alex tried to slash each shot with his sword while dodging some of those attacks. It looked like he was getting suppressed by Mega. And this made Mega even more fired up to shoot him.

Unbeknownst to him, there was a green-haired beauty and the beautiful blonde in the farthest seat in the arena. The blonde was watching him with a worried expression while the green-haired beauty clenched her fist. They were Song Yu and Putri.

At the time the match started, Putri suddenly came out of her room. Song Yu was shocked to see that. She remembered Alex said Putri was a strong woman, and what she needed at that time was a push.

Alex gave her that push. Although she had yet to accept the result, she decided to watch Alex today. When Putri said that, Joy immediately filled Song Yu's heart. She smiled brightly and said, "Yes. Let's go."

They sneaked into the arena and didn't tell Charya and Evelyn since Putri requested her not to inform them about this. She just wanted to watch silently from the side.

"You are not that weak." Putri murmured when she saw Alex's situation.

In the arena, Alex tried to adjust his Spirit Eyes so he could get used to this Light Piercer speed. It was indeed one of the fastest attacks he had seen.

After a minute of adjusting, he finally got used to it. He suddenly stopped parrying the attack and didn't move from his track.

Mega smiled when she saw this. She thought she had won as Alex stopped moving. She attacked him with another few balls. And Alex had no sign of moving.

Even the third elder was getting ready to move at any moment.

But suddenly all of them, including those elders in their special room, saw something very unbelievable.

"Swoosh!"

The bullet suddenly passed through Alex and pierced the wall.

They dropped their jaws as soon as they saw this.

"What is that?"

"Did he dodge those balls?"

"What just happened at that moment? I didn't see him move, but those attacks just passed him without hitting him."

The people were confused by such an incident. Only the third elder could see what just happened in the arena. From others' perspectives, Alex might seem as if he didn't move. But he could clearly see it.

Alex had indeed moved his body. But it was only a slight movement that could be ignored. The most surprising thing was because of that slight movement, none of those bullets hit him.

'Did he know their trajectories?' He couldn't help but ask himself that question.

Mega also didn't understand what just happened. She looked at Alex with a surprised look and felt a chill when she saw his gaze.

"Light Piercer!" She attacked him again.

Alex started walking toward Mega. When the second wave of the bullets came to his way, he only turned his head to the side. And he once again passed those bullets.

All the people, especially the third elder, suddenly realized that Alex could see that lightning speed bullets.

"Light Piercer! Light Piercer! Light Piercer!" She attacked him again in panic. Normally, a person with 7-Star Martial Grandmaster Stage cultivation would not be able to follow the speed of her bullets. But it was different from Alex that could see it with his Spirit Eyes.

Alex continued walking like nothing happened while Mega attacked him desperately. Unfortunately, no bullets managed to hit Alex yet, and it seemed that none of the bullets would be able to hit him today.

When he was close enough, he suddenly jumped forward. He waved his sword toward Mega.

"Hii!" Mega tried to block his attack with her shield.

"Immovable Step."

The powerful strength came toward his hand that was holding the sword. With the four dragon strength, Alex swung his sword toward the shield.

"Clang!"

"Boom!"

In just a moment after that metallic clash, they could hear a crashing sound. They looked at the arena and didn't find Mega in front of Alex. She crashed into the wall with that swing alone. Regrettably, Alex couldn't destroy the shield.

But it was no problem. Alex didn't intend to stop there. This would be the perfect time to get rough. He disappeared from the arena.

"Flash Step."

Using the speed of his Flash Step, Alex appeared again in front of Mega with his foot trying to stomp Mega.

Mega used her shield again to block him, but Alex didn't give her mercy.

"Immovable Step!" He stomped Mega's shield with his full strength.

"Boom!" Alex's stomp made a huge crater on the arena floor. And Mega's scream followed afterward.

"Ahhh!"
