\ "WHERE IS ALEXANDER SIRIUS?\"

\ "!!!\" That shout immediately startled everyone in Heavenly Sword Sect. Even Charya and the others were surprised to see someone shout Alex's name. Only Anna and Alex knew what was happening when they heard the shout.

\ "Not good!\" Alex sweatdropped. He tried as hard as he could to make a Spatial Gate but to no avail. He felt like he could not utilize the Space Element completely.

\ "Alex?\" Anna looked at him with a worried expression.

\ "I can't make it. There is something that prevented me from making it.\" Alex said.

\ "Gh!\"

\ "Alex, what happened? Is someone targeting you?\" Charya asked.

\ "COME OUT ALEXANDER SIRIUS!\"

The sect master immediately came out of his room and met the person who shouted Alex's name. There were around eighty people.

\ "Who are you? Who dares to trespass my Heavenly Sword Sect?\" The sect master stood in the sky, looking at the trespasser.

He suddenly got shocked when he saw them. There were three people who seemed to be the leaders. The green-haired old man, the white-haired middle-aged man, and the other one was a masked man with short blue hair.

However, his main concern was their cultivation. He could see those three cultivations were Martial Kings. There were only three other Martial Kings in this continent. But he never knew about these three.

He then looked at the rest of the people, and he was startled once again. He never expected there were around 80 7-Star or above Martial Lords in front of him. Even his sect did not have that many Martial Lords.

He cursed Alex inwardly. He did not know how Alex offended these people. Especially when he saw two 4-Star Martial Kings. He was only a small 2-Star Martial King, how can he fight with these two Martial Kings.

\ "I am the sect master of Heavenly Sword Sect, Xiang Bai. May I know why seniors come to this place?\"

\ "Hmph. I only need a person named Alexander Sirius. Then I will give all of you a quick death.\" The white-haired guy said.

\ "What?\" The sect master was obviously startled when he heard it. \ "What do you mean by quick death, Seniors?\"

"I do not need to explain it to a dead guy like you." He snorted. He then looked at the disciples and elders from the sect then shouted, "Whoever tells me where this 'Alexander Sirius' is, can live."

"What?" That statement made all people baffled. They had been shocked when they heard their sect master was considered a 'dead guy.' After all, he was one of the four Martial Kings in the continent.

"I only give you one minute before I massacred the entire sect."

"1..."

"Seniors, there must be a misunderstanding. I wonder if our sect made a mistake? We can discuss this." The sect master tried to reason this person.

"Your existence alone has been in our way. So we decided to massacre the entire sect." He said coldly.

When the elders heard that, they could not take it. All elders, except the sixteenth elder who was carrying Intan back to Makmur Family, came out from their room and stood behind the sect master.

In Charya's room, after Charya left, Song Yu came to him and asked, "Alex. What is happening? Do they want to massacre us? Or are they your personal enemies?"

"..."

Seeing no response from him, she decided to activate her Blackwade Token. If she did this, her little sister would know about it and made a rush to this place.

"I activate my Blackwade Token. My sister will come to this place to help us. I do not know why, but I felt the presence of three Martial Kings outside. Alex, I hope you can explain this." Song Yu asked.

Alex's body shook. He never thought of that possibility. He remembered the person that came with Song Yu's sister. She was a high-level Martial King. She might be able to solve this problem.

Alex did not know why he never thought this. It might be because of the pressure since the problem came so suddenly, or Alex did not want to owe them. But he should be able to consider it after all this would be a matter of life and death.

Alex gritted his teeth, regretting why he never thought of that. However, it was not the time to regret it. He must solve the business first. He calmed down a little and looked at Song Yu.

"They came from the Zhou Kingdom, and you know about the Blood Pill and Berserk Pill that Putri told you, right?" Alex explained.

Song Yu nodded.

"Because of those two pills, they managed to make Martial Kings."

"You mean, all those Martial Kings are from the Zhou Kingdom?" Song Yu asked again.

"..." Alex looked down a bit before shaking his head. "No, I don't think so. They must come from another continent. Blood Pill and Berserk Pill did not originate from this place. Instead, they came from Nilis Continent, so I assume they came from that continent."

"What? Do they think they could do everything they want on this continent? Are they not afraid by the retaliation from the Northern Continent?" Song Yu shouted.

Because she came from Northern Continent's Blackwade clan, she knew how the people from the Northern Continent considered the people in this continent. The Northern Continent and Sacred Continent always had conflicts.

But because of their distance with each other, they usually fought in the Heavenly Continent. The opposite of that, the distance between the Northern Continent with the Willow Continent or Sacred Continent with the Nilis Continent was not that far. So, Northern Continents always considered Willow Continent as theirs. It was also the same for Sacred Continent.

If the people from Nilis Continent wanted to trespass Willow Continent, they would invite the wrath from the Northern Continent. That was the reason why Song Yu was confused.

"Do not worry. My sister will come to this place as fast as possible. We just need to buy time for them to arrive!" Before she finished, she heard a loud sound outside.

"Boom!"

They could see a person crashed onto the arena's ground. When they saw who it was, they were surprised.

"Master!"

It was Charya. Because those people were going to take Alex and massacred the entire sect. With her personality, she was the first person who could take it anymore.

They saw Charya got heavily injured by them. There were many wounds on her body as the blood kept coming out from those wounds.

Alex and the others immediately came to check her.

Because of the room, they could not see those people. However, when Alex saw them, he recognized one of them. It was the old man with green hair. He was the one who tried to capture him after he broke through to Martial Lords.

Alex could never forget that face. If the green-haired guy noticed him, he would immediately recognize him.

Alex immediately took out his mask and put it on. But before he managed to put it on, there was a sudden shout from his side.

"It is him. He is Alexander Sirius!"

The sudden shout alarmed everyone, including Alex's group. When they saw the one who shouted, it was Eric Kasmanan.

Those Martial Lords immediately looked toward Alex.

Alex furrowed his eyebrows. He immediately locked eyes with the green-haired old man.

"That's him." Of course, the green-haired old man immediately recognized him as Alex had yet to put his mask because of Eric's shout.

"So, you are Alexander Sirius!" The white-haired man looked at him. He then said coldly, "You have two choices. Submit to us or die!"

He did not care about Alexander, so he did not care whether to talk politely or not. As long he submitted under Heavenly Oath, he did not care anything else. If he chose to die, then he would bury him along with the entire sect.

"You won't be able to touch him as long as I am here." Charya suddenly rose from the ground and appeared in front of Alex with her injured body.

Alex was startled to see that. After all, they were facing three Martial Kings. If she fought them because of him, she would likely die.

"Wait!" But Song Yu suddenly shouted. She then took out a wooden token with 'Blackwade' written on it.

"I come from the Northern Continent's Blackwade Clan. He is under our protection. By coming to this continent from Nilis Continent, you have trespassed the continent. If you go back now, I will not report you coming to this continent."

Song Yu was trying to buy time for her sister, and Sana came to this place. Alex also thought it was a good move. If the Martial Kings could be taken care of, Alex could summon all of his spirits along with their True Spirit Bodies.

He could try to level them up as much as possible with the Gacha Tickets in his possession. Leoz and Anna were the strongest. But even with their 5-Star Martial Lords cultivation as well as their True Spirit Bodies, they could not fight a Martial King.

Unfortunately, he and Song Yu made a big miscalculation. They thought those people would hesitate after hearing her identity. It might be able to shock everyone from Heavenly Sword Sect as Song Yu's identity was only known by Charya and Alex.

Sadly, her statement only triggered the people from Brynhildr Kingdom. The white-haired man glared at Song Yu and Alex, "Change of plan. Grasp those two and kill anyone else. We can torture him to make him submit, and that Blackwade Clan girl will be useful to us.

"I heard the Blackwade Clan is a well-known merchant family. Whatever her position, we will grasp her first and negotiate."

Eighty Martial Lords immediately released their pressure. It came together and made a massive and overbearing pressure. The pressure was so hard for ordinary disciples to bear.

But suddenly, the pressure alleviated a little. The sect master and the other elders released their pressure. Although they were less than twenty people, at least they could decrease the pressure that the disciples got for the time being.

\ "People of Heavenly Sword Sect, hear me out. This is not a problem for one person. But this is the problem of our sect that could lead us to be destroyed. All Outer and Inner Disciples, flee toward the south. All elders and Inner Disciples, please follow this old man to give the younger generation a chance.

\ "No matter what, this sect had made us like this. I am not ordering you to fight, but I am asking you if you feel it is worth it. Please follow this old man to fight for the sect, because this old man has decided to live and die with the sect.\ " The sect master said with his crude words.

But everyone could tell he was genuine. He was planning to fight to the last breath to protect this sect. The Inner disciple and Outer disciple started running away in panic.

\ "The sect has given me this life, so my life and death are with the sect.\ " The first elder was the first one to come up.

\ "I will too.\ "

\ "Long Live Heavenly Sword Sect.\ "

The other elders, along with Core Disciples, started to shout. They looked angrily toward them.

\ "Do you think you can run from us!\ " The people from Brynhildr Kingdom shouted.

\ "Alex, you should also run from this place.\ " Charya looked at him. Even though she had been heavily injured, she was trying to fight again. \ "You have talent. In the future, you will surely be stronger than any of them. At that time, please avenge us.\ "

Before Charya came toward the sect master and other elders, Alex grabbed her. He gritted his teeth.

[Host, it seems you have decided.]

\ "Yes. Like hell, I will let tragedy happen once again when I can solve it. Even if the spirits can't, there is still one person who can solve this.\ " Alex said while taking out a token from his space ring.

He activated the token and said with a disappointed tone, \ "I never thought I would use this fast.\ "
