

Gacha 318

318 Bye

"Is there any problem with my arrangement?"

With that cold glance of him, it immediately struck fear deep into their bones. Of course, no one dared to voice up their opinion, whether it was the sect master or the people from Blackwade Clan.

Of course, no one from these six people had a thought like that to Alex. But no one would know the future. They might have a change of heart in the future or something, so it was only a precaution from Maxwell.

But different from the sect master, the first elder, or Charya. Song Yu and Song Jia were thinking about Maxwell's advice. They were wondering why he said they would need to protect Alex even if it meant the extermination of their family.

Maxwell said in a roundabout way where he said, 'When the truth comes to light, they will not regret it.'

They could not understand anything. Only Song Yu knew about Alex's golden lightning tribulation, and she thought there must be a relation to that. She decided to protect Alex as much as she could afford for the time being. Of course, it would not be related to her family.

After making the key to activate the array, Maxwell came to Alex and made a Sound Insulation Array.

He could see that this Blackwade clan was also searching for Alex. And the reason was apparent.

Because of a certain goddess that often came to his place, asking about Alicia's cure. She often bragged everything she saw (From the system) to him. Of course, when Alex endured his golden lightning tribulation, they were surprised.

There was a time where she suddenly came in a bad mood. If not because of his wife, he might not be able to escape unscathed. He found out later that Alex was almost grasped by a Martial King because of his golden lightning tribulation.

Of course, he did not know that the 'Martial King' in her mouth was the green-haired old man in the crowd that he had just killed. If he knew it was him, he might need to do 'something' to him before killing him.

He made a Sound Insulation Array to talk with Alex alone this time. After all, this was the only matter he thought he needed to conceal.

"About your golden lightning tribulation... I want to make a special realm for you so you can undergo your lightning tribulation at ease. Unfortunately, I am only a Will. And I cannot make it since I am not in my main body, and there are no ingredients to make a realm.

"So, I have another solution for that. A few thousand years ago, when I roamed in this continent, I made a special realm that could hide your lightning tribulation. No one would be able to feel or see what inside. However, that realm could only handle your tribulation once.

\\"You can undergo your Martial Lord lightning tribulation there, and the realm would shatter after you finished.\\\"

Alex was surprised. He never expected that Maxwell also made a special realm. He was wondering what kind of realm he made. The only special realm he had seen was Zwaka's place. But there was a question that was bugging him.

\\"Master, is it only a Space Element Array Master that could make a special realm?\\\"

Maxwell was astonished to hear that question. He smiled a bit and nodded. \\"I am surprised you can notice that. That's right. Only a Space Element Array Master could make a special realm. In the future, I am sure you can make it too. Of course, you need to deepen your understanding of Space Element.

\\"A special realm is similar to a barrier type array. But unlike a barrier type array, you need to control the flow of life.\\\"

\\"Flow of life?\\\"

\\"Yeah. You need to separate between outside and inside but yet, you also need to connect them. I do not know if you can feel it, but when you used a barrier type array, do you feel that you got separated from the world? No flow of energy or whatsoever?\\\"

Alex was astonished as his eyes opened wide. He could certainly remember when he went around inside his Jadeite Mirror Array, he was indeed trapped inside the barrier. In fact, after he erected the barrier, he could see with his Spirit Eyes that no Spiritual Energy from outside came inside the barrier.

\\"I think I have felt it before. When I made the Jadeite Mirror Array, the Spiritual Energy from outside did not come inside the barrier.\\\"

\\"That's right. A barrier-type array completely isolated between inside and outside. A special realm also isolated between inside and outside. But the flow of life, such as Spiritual Energy, air, and the others that could sustain life, would be able to flow to the outside or the inside.

\\"Of course, if your attainment in Space Element was high, you could choose to block one of the elements like Spiritual Energy from flowing to inside or outside. My special realm was able to prevent everyone from seeing what was inside the realm. However, the Spiritual Energy was still flowing like normal.

\\"So, it would be perfect if you chose to breakthrough there since you would be completely hidden,\\\" Maxwell said.

\\"Where is that realm, Master?\\\" Alex asked.

\\"In the south, I made the realm in the south. It was in the forest, and the forest name is... if the name is still the same, then the name of that forest is Nemu Forest.\\\"

Alex was shocked by him again and again. There were just too many coincidences. When he said that, a picture came to his mind. It was a special place that held a massive dark aura. But he was wondering if his master made such a dark aura.

\\"Master. I crossed a special place inside Nemu Forest. But that place was full of undead and massive dark energy. Is it your place?\"

\\"Undead? Dark Energy? No, my realm should be fine, and I think I conceal it pretty well. It might not be my realm. You can check it when you come around that place and activate my token. It should give you a reaction if it is my realm.\"

\\"Understood.\" Alex nodded.

\\"Do you want to ask anything more? This might be the last time we would meet before you become a god.\"

Alex pondered a little and asked, \\"Then, how can I make a special realm?\"

\\"Hmm... First, you need to be a Space Element Array Master. Second, the array is a rank 6 barrier type Array. It is called Ruby Phantasm, but for us Space Element Array Masters, who usually used this array as the foundation of our special realm, we often called it... Extended World.\"

\\"Rank 6...\" Alex was surprised to hear that. He never expected the requirement would be that high. As a careful person, he thought he could use Maxwell's realm to advance to the Martial Lord. And when he wanted to advance to Martial King, he could build the special realm himself. Unfortunately, he would not be able to make a rank 6 Array at that time.\"

\\"I know what you are thinking. You might be worried about your Martial King's tribulation as I am sure you won't have any problem in your Martial Emperor's tribulation since you should be able to make a special realm for yourself.

\\"Well, this is my advice to you. Since those people from the Nilis Continent have invaded this continent. Why do not you head over there and make a ruckus with your tribulation? Then, you can go back to this continent then continue your journey to the Northern Continent.\" Maxwell said with a sly grin.

Alex was dumbfounded. He never thought his master would suggest something like that. Alex thought about the possibility of that. He might not be able to teleport back to Willow Continent from Nilis Continent. But if the golden lightning tribulation appeared again and forced him to sit down for a while. With Maxwell's way of building the array, he could hold it for a second and make a teleportation array.

The array would teleport him away from that spot. Then he could journey back to the Willow Continent. His tribulation would bring a big ruckus in that continent. Just like the Northern Continent, the Sacred Continent would immediately search around the Nilis Continent.

They would not let such a person go to Willow Continent. So, the chance of him being found out that he came from the Willow Continent would be low. The people from Nilis Continent seemed only from one influence. That meant, as long as he killed the one that knew about his information in that influence. He would not be found out.

With that, he could make the people in Sacred Continent a bit busy. Of course, what he wanted was the people from Devil Blood Sect to be busy since he had promised Zwaka to exterminate them. If they became busy, he could just leisurely gain strength in the Northern Continent.

Maxwell did not know about this, though. He only wanted to make a ruckus since Nilis Continent came to this continent. If they found out it was Alex, then there would be a continental war between Willow Continent and Nilis Continent, or between the Northern Continent with Sacred Continent.

If that happened, Alex might be forced to join. He would then mature, and the need for power would rise inside him. He then would try to gain strength as fast as possible. He never cared about the fate of the Heavenly Sword Sect or Blackwade Clan.

Alex nodded his head. \"Yeah. I can do that.\"

\"Sure. Is that all you wanted to ask?\"

Alex pondered a bit and nodded his head.

Maxwell nodded his head and removed the Sound Insulation Array. The people who got their memories sealed were still in a daze as Maxwell had locked their consciousness for a while.

He looked at Song Yu and Song Jia. \"People of the Blackwade clan should go back to your own continent.\"

Without giving a chance for Song Yu and Song Jia to talk, he then clapped his hands.

\"Bam!\"

A big array appeared in front of them. Then it was followed by many small arrays around the big array.

Maxwell said coldly. \"People that were not from Willow Continent should not be here. So, go back and don't come back!\"

Of course, the only ones who could hear this were the people he targeted. So, no people from the Zhou Kingdom or the Southern Kingdom or any other influences on this continent would hear it.

\"Haiz, I need to use my divine Intent to make this array. Really troublesome.\" Then he clapped his hands once again.

After he clapped his hands, the array activated, and many arrays started to appear in a few corners of the Willow Continent. These people were the ones who came from the Northern Continent to search for Alex.

They were surprised by the sudden appearance of an array beside them. And before they knew it, they had come back to the Northern Continent. He didn't teleport Song Yu, Song Jia, and Sana back since he let them a little bit more time to say goodbye.

Then his figure started to disappear. However, before he disappeared, he left a message... or a lie in front of everyone. It was the last thing he could do to protect Alex for a while.

\"It is time for me to go back. I have sent all the people from other continents back to their continent. It is good to see you again, and I will surely look forward to where you can arrive in the 'Heavenly Continent.'

\"I am telling you, do not rely on me. But if there was really such a matter again, make sure to call me. After all, my disciple is not good to bully.\" He said in a cold tone as he disappeared.

Everyone gulped down when they heard that as they could certainly understand. If they tried to kill Alex and Alex summoned him again, they would only die in front of his majestic master.

Alex bowed his head and said, \"Thank you, Master.\"
