

## Gacha 371

### 371 Quick Story

"Please let me have the chance to help him," Alicia said with a serious expression.

"No need to be that tense. Well, since Vera already left her post to help Alex, we should crown you as the new Ice Phoenix Queen. Well, it is for later. For now, I think I should explain about Alex first." Lin Xingzhi said.

Alicia and Firia suddenly did not say a single thing. They were very curious about Alexander Sirius in his previous life.

"Well, this is about the war a few thousand years ago."

"Is that the war with Alex's current home planet?" Firia suddenly asked.

"Oh, it seems, Maxwell has told you about it."

Firia shook her head. "Uncle Maxwell just told me about the world type. And we stopped when he told me about the spaceship."

"Well, we can start from there. I will just explain it briefly. There are five types of world. The world you lived in previously is Lower World. Alex was currently in the Upper World. This world is a Divine World that could have many gods and goddesses. The other one is an abandoned/ruined world as well as Exiled World."

"Divine World... Are you..." Firia noticed something off. She remembered that only god or goddess could stand in outer space. And she was standing like normal in outer space. She realized the one in front of her was a goddess.

"Yes. I am Nature Goddess. Well, there are rankings for gods and goddesses, which are rank 10 to rank 1 or God King. However, we will talk about it in the future." She said. "Hmm, where should I start... A few thousand years ago, there was this brazen world that challenged the entire universe. And many gods and goddesses were fallen in battle, including my father."

"Ah... Sorry."

"It's fine." Lin Xingzhi smiled. "Anyway, at that time, our universe that holds countless worlds is in danger. When many gods and goddesses died, a beast suddenly came to this universe. A beast that was stronger than a God King came and rampaged this universe.

"Many worlds were destroyed. And because our strength was weakened at that time because almost all of our God Kings died in the battle with that brazen world. There were only a few God Kings left in this universe, and one of them was Alex.

"Alex was the absolute king of this world, Spirit King. He governed this entire world... well, not exactly him since he sucks at this. Anyway, the one who helped him in governing this world is the middle-aged man that you saw before. He was Alex's right hand man as well as his sword. His power is only second to Alex in the Spirit World, and he currently is a rank 2 God."

"Anyway, that beast started rampaging in this universe. At first, Alex was not bothered by him. After all, Alex would not care about strangers. However, when his friends or family were hurt, he would become crazy that even made the Death God or the Battle God cower." Lin Xingzhi said while reminiscing the scene in her mind.

"Then... did he fight the beast because of..." Alicia opened her mouth in surprise.

"Yes. At first, two of his best friends tried to pry the beast's strength. They were Fire God and Strength God. Both of them were cute, especially the Strength God. He loved battle, but every time Alex was in a bad mood, he would hide himself as Alex would beat him to a pulp every time. However, after an unfortunate incident, the beast discovered them and killed both of them."

Alicia and Firia gasped. If it were like she said, Alex would immediately...

"Yes. Just like what you are thinking. Alex immediately searched the beast's location. It was at that time he found out the beast was coming toward this place.

"That battle was crazy. Even with his power, he could not defeat him. They fought for a month, destroying many worlds around them. However, it was still futile. Although I am a God King right now, back then, I was only a lowly rank 5 God. Even Anna and Anya only a rank 10 God. We... became his weakness." Lin Xingzhi clenched her fist tightly.

"Because he knew he would not have an advantage if he fought that beast while protecting us. He tried to evacuate us. However, the beast was able to know about that and destroyed our plan.

"It was at that time, Alex had no other choice. To protect this universe... to protect this world... to protect me... to protect us..." Lin Xingzhi was shaking. "Alex decided to use his life to seal that beast."

Alicia and Firia had goosebumps. They knew how hurt it was to see your loved one die... especially when you were too powerless and became the cause... They did not know why, but the tears came out.

"I tried to search for his reincarnation these past few thousand years but to no avail. To think he was a rebirth in that Exiled World... Anyway, it was at that time I found him in your Agar World. I never expected that he somehow got dragged to Agar World by that summoning.

"However, I truly thankful that he got dragged to Agar World. It was because of that, I could meet him again. If I was not wrong, the god in charge of that world a few thousand years ago was Dungeon God.

"He controlled a very special space element. He was also one of the God Kings that died in the battle with that world a few thousand years ago. I assumed he made a teleportation array before he died there. And that caused Alex to have a chance to teleport to this universe again."

"!!!" Alicia and Firia were startled not because of her story. In fact, they were startled on how much she loves Alex. Even after a few thousand years of yearning, it did not make her give up in searching for him and love him again.

"Around a thousand years ago, I made a power called Gacha System. I don't know how it came to this place, but I felt this power did not come from this universe.

"I thought since I met Alex again, I should have grabbed him to this place instantly. I... no, We really missed him. However, we knew that it was not the best option. He is not someone who likes that. So, we decided to help him bit by bit instead of cultivating him in this place.

"And because of the world barrier that prevented us from being with him, we could only use this system to communicate with him. Well, I am the only one who communicates with him though, since Anna and Anya decided to be converted as one of his spirits and summoned to help him."

She then walked toward a computer and let them see the screen. "Well, this is a machine that I found a few thousand years ago. After fusing it with the Gacha System, it became the host of this Gacha System."

Alicia and Firia looked at the screen. They could see a black-haired teenage girl. She looked very cute and youthful. They felt this girl had the potential to be a beautiful lady.

"This is what Alex sees right now. Well, I always observe him this entire time. And this girl is Evelyn... whatever. I forgot. I should go through the log again later." Lin Xingzhi smiled.

"Wait! Observe him this entire time..." Alicia suddenly felt something off.

Lin Xingzhi puffed her fist on her chest. "Ehem. Of course, I also watched you doing that with Alex, and both of you had great vigor back then. At that time, I was so envious."

Alicia and Firia immediately blushed. Their face was even redder than a tomato. They never thought she would see that scene. They were too embarrassed.

"Haha... You don't need to mind that much. We will become sisters, and we might even do it together in the future. How about some wifey training with me? I can teach you many things, from the kiss to positions. Anna was so shy to learn it back then, while Anya was so eager to learn everything. Ahem, I taught her everything from teasing to seduction... Fufu, just kidding." Lin Xingzhi teased them. If Alex were here, he would curse in his heart, saying something like, 'So, it is you who corrupt Anna to become troublesome like this.'

Alicia and Firia could not look up anymore. They were too embarrassed to even lift their head at this point. They tried to picture that scene, where they, Lin Xingzhi, along with Anna and? Anya do it with Alex together...

They became too embarrassed when they thought about that. Although they had done it together with Alex and they had accepted Alex to be together with other than them. However, they never envisioned that scene where all of them gathered in one room.

"Fufu... Anyway, both of you will get stronger and stronger. And maybe we can set up a time to occasionally meet in this place, well, I also want to know more about my two new sisters. You can even talk to him through this. But training comes first, I guess. You can leave Alex to me for the time being." Lin Xingzhi said.

When Alicia and Firia heard they could talk with Alex through that 'screen,' they nodded their head furiously. However, they knew they had a more important task.

(A/N: Maybe I can make a side story where Lin Xingzhi, Alicia, and Firia talked about every person Alex encountered from the Grand Duke, his teacher, etc. to people he meets in the upper world. It might be hilarious, making their reaction toward those people.)

"Don't worry. Even if you pursue power, you will only pent up stress. So, occasionally meeting me here and talking together with Alex through the system is what you should do." Lin Xingzhi said while shrugging her shoulder.

Alicia and Firia looked at each other and nodded their heads.

"I almost forgot about this. You talked about Spaceship, right? Well, a spaceship is a ship that could cross in outer space. They are fueled with Spirit Stones and protected by Array so they could withstand the condition in outer space. Well, if you reached God Stage, you would not need to care about that since your body could practically withstand that condition. Anyway, you will slowly learn about the knowledge while increasing your strength. For now, let's meet both of your respective masters first who will teach you, shall we?"

Alicia and Firia nodded.

"Korzan, we are going to Ice Phoenix Spirit Tribe, tell the elders there to get ready." She sent a thought transmission to Korzan.

"Since Alicia is going to be Ice Phoenix Spirit, I will have the elder in Ice Phoenix Tribe to teach you. Well, I will also occasionally drop by to teach you. However, for Firia, Firia will have Maxwell's wife to be your master.

"I assume she will bring you to another world so she could teach you intensively. Well, I will ask Zark if you want to meet with us. Let's say we can chat once in one or two months... maybe more. Well, when you start cultivating, your sense of time will get mixed up a little bit." Lin Xingzhi said.

Alicia and Firia nodded their heads. They followed Lin Xingzhi to another room, and they could see two people in that room. The first one was Maxwell, and the other one was a silver-haired woman. She had this gentle smile on her face that made her seem approachable.

Her appearance was very seductive. However, this smile made people could not say anything vulgar or have a bad thought about her.

"Nature Goddess..." She stood up and greeted her. Her movement was elegant, and her voice was very soothing.

"Aiya, you are still acting so stiff like that. We have been acquainted for a few years already." Lin Xingzhi said.

"Hurhur... my habit." She said.

"Firia, this is your master who will teach you everything. She is Maxwell's wife, and her strength is equal to rank 9 God. Her name is..."
