

## Gacha 388

### 388 Heavenly Sword Sect and Rainbow Flower Sec

One minute ago,

In the arena, Alex was shocked to see the situation. It was more chaotic than he expected. Thiveapia Kingdom aside, he could not understand the reason why Hazel Kingdom attacked them.

When it reached this point, he immediately came toward Xiang Bai's room. As expected, Xiang Bai was almost flared up when he saw his disciples get attacked by four teams. However, Alex immediately tapped his shoulder.

"Young Alexander?"

"Our situation is in a pinch. But I am sure Evelyn should be able to solve this problem." Alex said.

"What do you mean? They are surrounded by four teams!"

"I know. But if they can escape from that encirclement, they should be able to regroup with Rainbow Flower Sect. Considering our sect relationship, they should fight together. After all, the Rainbow Flower Sect attacked Mount Hua Sect in the war a few months ago. Without knowing their position, they should be able to ambush them one by one. And in the worse case, they would not be able to win this competition by escaping outside the boundary."

"I don't care about it. But they are the disciples that will make our sect proud, especially Evelyn and Florinda. And I send them to death!" Xiang Bai gritted his teeth.

Alex shook his head. "Calm down. We will kill those people who attacked them!"

"How can I calm down? So what? Even if we kill those people, our disciples' lives..." He looked at Honda Sana in anger. He could not do anything because it was all under her supervision. If he acted carelessly, he would be killed by her. At that time, Heavenly Sword Sect would be under suppression from other influences.

It would be fine since Alex would be there to protect it. But, he knew Alex would not stay in Heavenly Sword Sect forever. He would leave the sect and ultimately leave the continent.

"Calm down. I leave Evelyn a trump card to escape this situation."

"Trump card?"

"Yes. I leave her..."

...

At the battlefield,

"Shut up! I don't want to hear anything from you! It is foolish for me to believe in the Milian Family! To think the most loyal family even turned his back on me!"

Riolet shuddered. He was really in a difficult situation. He never turned his back on Evelyn or the Royal Family. After careful consideration, he decided to do this so that he could protect Evelyn's safety.

Evelyn might consider the relationship between Rainbow Flower Sect with Heavenly Sword Sect. But she did not consider the relationship between Southern Kingdom and Alex. It was true that the Southern Kingdom had been defeated, and even their royal family had been exterminated.

After the new royal family was born, they knew they might attack Heavenly Sword Sect. After all, it was not easy to wash that grudges, just like the grudges between Heavenly Sword Sect and Mount Hua Sect.

He thought by finishing Florinda and the others before she arrived, he could then hide and let the other do the rest. They had promised they would not kill Evelyn. So, He just chose the most logical path for Evelyn's safety.

Sadly, when Evelyn already came back to this place and saw him like this. And before he could explain, Evelyn already shut him up.

Evelyn was consumed with rage by his 'betrayal' and her wounded teammates. And with this situation where the Heavenly Sword Sect was surrounded by four teams. Evelyn immediately branded him as a traitor and tried to come up with a plan.

She saw the wounded Florinda and gritted her teeth before remembering Alex. With the others also gathered around them, they indeed had a chance to escape from this situation.

She let out a chuckle, "To think big brother Alex even saved my ass in this situation. Is this my luck, or could he see the future?"

"Evelyn?" Florinda and the others were confused.

"We are escaping from this situation," Evelyn said with a serious expression.

"Hahaha... escape from us? It is futile because you would not escape from our pursuit." Erol laughed.

Evelyn only gave him a cold gaze. She then shouted, "Everyone! Ready to battle!"

When they saw Evelyn's determined gaze, they immediately picked their weapon again. They did not know why Evelyn's voice could encourage them even in this hopeless situation. Just seeing her determined eyes could lit a fire in their hearts again.

They rose once again and were ready to engage these many people in the battles.

"Hmph, you won't be able to escape. As soon as they make a move, kill all of them, except her." Erol said while pointing at Evelyn.

Evelyn was surprised to see that, but she did not have time for that. Just when the situation became tense, Evelyn smiled as she took out a huge paper from her space ring. She said, "There is no rule in this competition, so we can use this."

When they saw the paper was filled with symbols, they immediately recognized what it was.

"Be ready, she is going to use an Array Plate!" Erol shouted and made the people retreat a few meters back.

The people became tense and raised their guard. Sadly, it turned out very different than they expected. The Array Plate started glowing, and the array appeared beneath their feet.

"Haha! To think you are going to use an Array Plate, you are even more cunning than me." Erol shouted as he examined the array under the Heavenly Sword Sect team. He did not know what array she used, but looking at the fact that the array did not attack them soon enough. It was very obvious it was not an attack type array since it would be useless for a surprise attack that could not be used instantly.

"Even if you use a barrier type array to hold us back, you won't be able to escape from us."

Meanwhile, Evelyn smirked when she saw this. She clapped her hands while activating the array plate.

"Who says I am going to use a barrier type array? It will only withstand all of your attacks for a while."

"Teleportation Array!" The array shined brightly as all the people from Heavenly Sword Sect disappeared.

"!!!" They were shocked to see Evelyn used a Teleportation Array. After all, no array like that could be acquired. And she used it just like that.

Meanwhile, in the north,

There were a few female disciples trying to get the token that was lying on the ground. They were in a peaceful situation before suddenly eight people appeared beside them.

Sadly, because no one, even Evelyn, expected something like this, all of them fell to the ground. They immediately rose from the ground and checked their surroundings. They were surprised to see eight female disciples in this place.

At the same time, Evelyn recognized one of them. It was Nakagawa Hiina.

"You-!" Both of them shouted at the same time.

"You are the homewrecker that pestered big brother Alex!"

"You are the whore that was being tricked by Alexander Sirius!"

"What do you mean by homewrecker?!"

"What do you mean by whore?!"

Evelyn and Nakagawa Hiina started insulting each other.

"Stop!" Florinda suddenly shouted as she looked at the female disciples in front of her. "Rainbow Flower Sect?"

"Heavenly Sword Sect?" There was a violet haired female that suddenly came to the front. If Alex were here, he would immediately recognize this woman. After all, she was the one who came to Zwaka's place with Letizia, Mina Sim.

After that incident, she was ordered to have close door cultivation as a punishment. However, she used that time to understand the Martial Art that she got from Zwaka. And because of that, she was able to increase her strength and became one of the disciples that represented the sect. She also became the captain of this team.

"Yes. We are from Heavenly Sword Sect." Florinda nodded. "We are ambushed by Mount Hua Sect, Zhou Kingdom, Thiveapia Kingdom, and Hazel Kingdom. We somehow escape from them."

"What? You are getting attacked by four influences?"

"Yes. Because of the grudge of the war a few months ago. And I am sure, Rainbow Flower Sect will be the same after they dealt with us." Florinda said.

"What did you say?!" Nakagawa Hiina glared at Florinda.

Mina suddenly stopped her. In fact, after getting punished for more than a year, she had matured a little bit. When they heard this, although she wanted to curse Heavenly Sword Sect, she knew that her sect was also on the list.

It was like what they said. They would probably attack them after they defeated the Heavenly Sword Sect.

"The elders also want us to go together. We can't because our position is too far, so we slowly gather the token for us. But now you are here, I think it will be good for an alliance since they are going to come at us after dealing with you." Mina said.

"But even with this alliance, they have still outnumbered us," Florinda said.

"Indeed. This is a problem. If they just split up or something, we can ambush them." Mina agreed.

At this time, Evelyn suddenly said, "Why don't we hide for the time being? I mean, we still have time. After they get their share of tokens, I am sure they are going to fight it out. At that time, we can ambush them. Don't worry, they don't know about our position."

"!!!" Florinda and Mina frowned when they heard that. After contemplating for a while, Mina and Florinda nodded. "It is a good option for the time being."

"Follow me, our original position is good enough to hide since the trees are pretty dense in that place," Mina said.

All of them nodded and followed her. Although the people from Rainbow Flower Sect were reluctant to do this, after listening to their conversation, they could not say anything. And their elder also asked them to befriend Heavenly Sword Sect to the point where they were sucking up on them.

After arriving at Rainbow Flower Sect's original position, the group did not do anything. Florinda and the others that got injured immediately tended their wounds. Evelyn was sitting a bit far from them.

She had hidden her emotion for a bit because of their situation. But, when they arrived at a somewhat safe place, the feeling came back so suddenly.

She had seen Riolet when she was inside the castle. He was supposed to protect her sister, Lena, in the castle. So, Evelyn often saw him but did not dare to talk to him. That was the reason why she seemed a bit cold to him. However, she knew that he was supposed to be loyal to the Royal Family.

It might be because of the pressure of their situation, Evelyn was on edge. So, when she saw the hopeless situation occurred because she placed her trust in the wrong person. She immediately angered.

She was not angry because of him. Instead, she was angry toward herself because she made a mistake in trusting him. She almost forgot about the incident where her big brother, the crown prince, wanted to kill her.

She could not help but let out tears. Florinda watched her before she decided to come toward her.

"It is not your fault." Florinda tried to soothe Evelyn's heart. "We have underestimated them. To think Hazel Kingdom also joined the fray, we would never expect something like this."

"I... I just want to be alone for some time," Evelyn said weakly.

Florinda only sighed and left her. But before she left, she added, "I am sure that person does not want to see you like this. Our current problem is not why they joined hands. Instead, it is what we will do now they have joined hands."

Evelyn closed her eyes. She knew about it even without her asking and Alex... No, she also did not want him to see her like this. She took a deep breath and calmed herself down. She needed to gather her resolve and made another plan for this.
