

Gacha 389

389 Plan

After a while,

Evelyn came back to the others. She eventually could not come up with a single plan for this. After all, they were still under the onslaught of four teams. As long as those teams did not split up or something, defeating would be a pipe dream since she was not like Alex or anything.

The others were also the same, even after an hour, they could not think up a single feasible plan.

Evelyn remembered she still had another rank 4 Teleportation Array Plate from Alex. With that item, she just thought of an absurd plan.

"We have two choices... Escape and abandon this competition or fight until the last drop. I want all of you to choose this first." Evelyn said with a serious expression.

Of course, no one could easily choose either of those two options. In fact, they were dumbfounded when Evelyn said that.

Evelyn continued, "Our situation is still the same. And I doubt those four teams will separate with each other until they defeat us."

"Hehe... Isn't it because you are betrayed?" Nakagawa Hiina said spitefully.

For Evelyn, it was a direct attack on her heart. She suddenly took out her sword and swung it toward Nakagawa Hiina, "You b*tch, care to repeat it again? I don't mind killing you right here right now."

It was normal for her to react like that. To begin with, she was not in the mood for that. Despite that, Nakagawa Hiina still hated Alex, so she still spat those forbidden words.

"That's fine by me! If you can kill me, that is!" Nakagawa Hiina also took out her sword.

At the same time, Mina suddenly stood up and roared. "Nakagawa Hiina! I am the captain of this team. And the instruction from our elders is to move together with Heavenly Sword Sect. It is true that you are the disciple of the Fourth Elder, as well as one of our biggest geniuses.

"However, if you can only train and make trouble for our sect. Then I will need to cripple your cultivation so you will start cultivating from the bottom again! You can taunt anyone, but you can't taunt her, or the man called Alexander Sirius. This is the order the sect master gave me before the tournament started! If you understand, then apologize and shut up!"

Nakagawa Hiina was startled when she heard that. She never knew that Mina could shout like this, and she could not understand why the name of that person suddenly in her mouth, especially when it concerned the order of the sect master.

Mina's expression showed her that she was serious about it. She did not know how Alexander Sirius knew someone like her sect master and even made their sect master give an order like that.

"If you don't believe me, then you can try to taunt her again and see what will happen after this!" Mina said coldly. "It is also the same for everyone. If you understand, then shut up as we need to discuss our plan!"

Evelyn looked at Nakagawa Hiina coldly. She never expected an apology from this self-centered person.

Even with this foul mood, she knew she needed to explain her plan to them. She used her sword to draw their position. She drew two squares in the north, and everyone immediately recognized it was them.

She then drew four squares, which symbolized the four teams that would attack them.

"We should not be hoping for them to split up their force. They should know that we are going to meet with each other, and if they split up their force, it would be a foolish decision.

"That's why I want you to choose whether you will give up this competition or fight till the last drop. In case you choose to fight until the end. Then, we will meet these four teams after this."

"But it is impossible for us to fight them." Florinda frowned. The others also agreed with her.

"Yeah. It is impossible for us to defeat all four of them simultaneously." Evelyn nodded.

Mina was the first one that understood her hidden word. "Do you want to separate them?"

"Yes."

Everyone was surprised by her decision. But the problem would still remain the same. They were still outnumbered. Evelyn then continued, "Of course, we are still at a disadvantage. That's why I want us to make the battle become two versus two teams. After we defeat the first two teams, we will then defeat the other group."

"!!!" If that was the case, they were sure they could defeat them. But, they could not think about how they could do that.

Evelyn suddenly took out an array plate and handed them to Mina. The people from Heavenly Sword Sect were too shocked since they knew what the scroll was. It was another Teleportation Array, and Evelyn gave it to Mina just like that.

"This is a Teleportation Array Plate. My plan is to separate them by making us go our separate way. I am sure they will chase both of us with two teams each in our tail. After we get separated by a certain distance, I want Rainbow Flower Sect to use this Teleportation Array Plate and teleport to our position.

"That way, we will be able to fight them with equal numbers. I can't use this once more since they would already be wary about it. Big brother Alex has left this item to me, and with this, we can acquire our victory. So, if you shall become the second Thievepia Kingdom team, then you won't deal with me anymore. Instead, you will personally face big brother Alex. I can't say anything, but he is surely a scary man." Evelyn said while looking at Mina and the others without an expression.

Everyone would say she was foolish to give this teleportation array to Rainbow Flower Sect. But, it was not because of this priceless treasure. Instead, they were thinking about how she could give it to them when she just got betrayed by her own people.

It was a matter of trust. But what they did not know was she, in fact, did not trust them at all. She had given up trusting someone in this competition. That was the reason why she said they would need to face Alex to do account, not her.

In other words, she was gambling her life away in this competition. If they did not use this Teleportation Array Plate, Evelyn and the others would be killed. She did not know whether Alex would do something if that happened, but considering the past event, he might really do it.

She did not know why, but maybe because she got betrayed, she dared to gamble her life like this. If Alex was here, she might be slapped hard by him. After all, Alex would never gamble his life like this and would make everything he could to make the situation in his favor.

Unfortunately, Evelyn was not Alex, and she thought she would be able to fight like Alex by fighting together with Thiveapia Kingdom. Sadly, they had stabbed her from the back. She had decided that she would kill them after this as they also had endangered her life.

Evelyn looked at Mina and the others, waiting for their decision.

"For Evelyn to use another priceless treasure like this, I... and the others from Heavenly Sword Sect would surely support the captain until the end." Florinda was the first one to answer. She said while looking at the other teammates who nodded their heads with determination.

All of them knew how priceless a Teleportation Array Plate was. Evelyn decided to use two of them in this competition, and the first one was to save them. So, of course, they would join her until the end.

Evelyn nodded with a serious expression, she then said, "I will need someone to search their position."

When they heard that, Kokonoe Shigure, the ninja that Alex fought in the Inner Disciple Tournament, immediately came to the front and said, "I will investigate their position. Should I give a clue so they could trace our position, captain?"

Evelyn shook her head. "We will hold our position as long as possible. The enemy motivation will decrease as time passes since they also sacrificed their time to immediately go to our position earlier. They should not have any tokens right now, so they will start searching for the token. I just want their general position so we can pick a place to fight them.

"Understood! I will be back in an hour." Kokonoe Shigure nodded before he disappeared to complete his mission.

"Everyone needs to recover your energy first." She looked at the rest of her teammates. At this time, Mina finally said politely, "Since Captain Evelyn has gone through such a length, I will also join you in defeating all of them. I will surely use this Teleportation Array Plate wisely.

"And I am sure? I can represent my teammates as the captain of the team..." Mina then looked at her teammates, who slowly nodded their heads. Even Nakagawa Hiina nodded her head docilely. "To join this battle so we can win this competition."

Evelyn looked at Mina for a while before nodding her head. Her plan had finally been established. So, all she needed to do now was to recover their energy as well as searching for an advantageous position.

She also needed to calculate their distance and battle time since they would need to defeat two teams before the other two teams came back.

Of course, Mina and the others also helped her in this calculation.

After an hour, Kokonoe Shigure finally came back.

It was like Evelyn expected. They really had a couple of arguments for the token. All of them wanted the token, but the number was limited, thus resulting in an argument. It was especially true because they had four teams.

There could only be three winners in this competition. But because they had four, one of them would lose. No one wanted to lose since this competition was solely for the share of Spirit Stone Mine, not for the sake of killing Heavenly Sword Sect.

Even Zhou Kingdom and Mount Hua Sect knew that. It was at this time the Thiveapia Kingdom stood out. They just wanted to protect their princess Evelyn, but because everything happened previously, they had become traitors in Evelyn's eyes. Of course, this made them feel guilty.

At first, they thought they could switch sides and fought them in three versus three together with Heavenly Sword Sect and Rainbow Flower Sect. But there was still the Southern Kingdom that had yet to show their fang. As for Buddha Sect, they had yet to know their intention, and they did not know whether the Buddha Sect had been convinced by Mount Hua Sect or not.

So, they could only endure and grab as many tokens as possible for now. If it was possible, they were hoping to clear this misunderstanding with the share of the Spirit Stone Mine.

Several hours later, all of the tokens in the arena had been taken. Heavenly Sword Sect and Rainbow Flower Sect only got two tokens each for the time being while the majority was in that alliance.

It was only two hours before the time limit, so Evelyn decided this was the right time for them to move. They had agreed on the place and the distance. This was also useful not only for the timing but also for the Teleportation Array.

If they did not know their destination or distance, the teleportation array would become useless. And the fact that Heavenly Sword Sect could meet Rainbow Flower Sect with that Teleportation Array completely because of luck.

They then revealed their position to the alliance. Of course, they made sure no one would know their position since the plan would be ruined if another team joined this battle.

Finally, the final battle would soon start.
