

Gacha 67

67 New Functions

[Ding!]

[Good-Luck Gacha System V.3 Commenced]

"Oh...here its come"

[Hello Host]

"What is the new function after this update, system?"

[System has a few new functions, The first one was Premium Gacha]

"Hoo..." Alex recalled, the gacha in the game often has two types of gacha, the first type was a common gacha where you can buy with the game points such as friendship points or the like. And the other one was a premium gacha where you need a rare gem/ruby or you can also buy them with money.

[It was like what host expected]

Yep, the system knew his thought again. He was already tired to argue with her(?), hmm... just call her with 'system'.

[The premium gacha has a rating system. All the items you got from this premium gacha were classified with a rating. The rating was common(C), uncommon(UC), Rare(R), Super Rare (SR), Ultra Rare(UR)]

"Hmm... the problem is how hard to get the ticket"

[There are a few ways to get the premium ticket. The one you have unlocked this time was the second new function, Mission Function]

"Oh! Let me see it"

Soon, there is a panel of mission functions open and a few listed missions there. But, Alex's face darkened.

"System, all of them are hidden ain't they?"

Alex's face darkened because what he saw was,

[Mission 1

Objective: Hidden

Reward: Premium Ticket x5]

[Mission 2

Objective: Hidden

Reward: Premium Ticket x5]

[Mission 3

Objective: Hidden

Reward: Premium Ticket x10]

"What the use if I have missions if I don't even know how to complete them"

[Host only? unlocked the mission function, not the mission itself]

Alex's face become unbearable, But before Alex snapped, The system continued

[Just Kidding, The one you see was the special mission. This is the repeatable mission that you can finish to get premium ticket]

Alex soon recovered, he saw a few mission.

[Mission 1 #repeatable

Objective: Kill 2000 rank 4 monsters and donate all the cores to the system

Reward: Premium Ticket x1]

[Mission 2 #repeatable

Objective: Kill 500 rank 5 monsters and donate all the cores to the system

Reward: Premium Ticket x1]

[Mission 3 #repeatable Find authorized novels in Webnovel, faster updates, better experience,

Objective: Kill 100 rank 6 monsters and donate all the cores to the system

Reward: Premium Ticket x2]

Alex's face became pale, "System, killing 2000 rank 4? Killing 500 rank 5? They took at least a half month's continuous killing even in the dungeon and just for one ticket... Are you torturing me? And what is this rank 6, I haven't even killed any of them yet"

[The mission as such, but don't worry host. The possible reward on this premium gacha was worth it. They're also a hidden way to acquire the ticket, but If I tell you now then it won't be hidden anymore]

"Oh...How can they compare with my current Sanguin Sword Art and Spear Throwing Art?" Alex decided to ignore the system's last sentence as it was useless so he asked about the reward.

[Sanguin Sword Art and Spear Throwing Art were classified SR and R and also the common gacha can't get any UR item.]

"Can't you let me see the premium gacha first?"

Soon, he saw a panel for premium gacha. The panel has a picture of a box containing a gacha ball. Below the picture, there are two options panels.

"So, I can choose whether I want to use each of my tickets or use them together?"

[Yes Host, there is two option, you can use one ticket draw or you can use five of them together.]

The two option that Alex see just now was like,

[Draw x1 (1 Premium Ticket)]

[Draw x5 (5 Premium Ticket)]

[But if you use the Five draw option, there will be at least one Rare grade item you can get as a guarantee]

"Hmm... The same rank item with my Spear Throwing Technique"

But, Alex felt something wrong or missing, He tried to observe all the system and noticed,

"System, why are there no options for choosing what gacha type I want? Like before you had three types of gacha such as Techniques, Tools, and Materials"

[This is a normal Premium Gacha Host if you want there will be another gacha function in the future, of course, all that function was all in the next system update...probably]

"... You don't even know it... Sigh" Alex can only sigh, he want to rebuked but don't have the energy to do so.

[Don't worry host, for this update. System has a freebie for you]

[Ding!]

[5 Premium Tickets Acquired]

[Since this update introducing host for two new functions. System giving you this five premium tickets]

"Since that's the case" Alex then use his hand to tap the 'Draw x5'

This time, unlike the usual bland animation gacha that will only give him a list of the material he gets. Using the 'Draw x5' The panel surrounded by light and was shaped like a box. The box wasn't that big, its size was similar to the box that used to envelop your usual laptop.

"Poof!" The light was disappeared and leaving the white-colored box in front of Alex.

He carefully opened the box. Inside the box he saw five white and yellow colored gacha balls with 'G' character in the middle, releasing a red and blue aura. The ball size was similar to the tennis ball and the five ball arranged like '5' in dice (The ball in the cover)

"System how do I use them?" Alex asked the system, he was unsure how to open them.

[Host just need to touch the 'G' character on the ball]

After hearing the system, Alex tried to touch the first ball on the top left corner. He wanted to look at how is this new function run.

When Alex touch the 'G' Character, the ball shined it floated a bit above the box. The ball opened up slowly when it was opened a herb appeared from within. The ball soon disappeared to the air and system notification ringed.

[Ley Herb (UC) Acquired]

Alex was surprised, "System, your update... it was amazing animation if I say."

[Of course, it was premium after all]

"But, I wondering how exactly this herb can fit inside the ball"

[Don't mind the small detail Host]

"..." Alex observed the ball again, "Well fine, let's continue"

Alex then opened the second ball on the bottom of the first one. The ball opened and disappeared to the air.

[Mithril Sword (C) Acquired]

This time was a mithril sword, he takes out the mithril sword. This was a good normal sword that was stronger than the one Cornel used back then. Alex had got a mithril sword when he used the normal gacha but it still weaker than this one, but the point is he only got one mithril sword when he used normal gacha so he thought it was rare. But this premium gacha give it easily and it was ranked as a common rank item.

The system's word has proven to be true, the reward was really worth it if you looked at this kind of mithril sword but only classified as a common rank item. He now anticipated what he will get next. He then opened the gacha ball on the right top. He will leave the middle ball as the last, looking at the arrangement position it seems the ball was special.

The third ball opened and a book appeared from within the ball.

[Mesanti Herb (UC) Acquired]

"Oh!"

Alex was surprised by what he got. Because this herb was one of the ingredients for Quenching Fire Pill. The Quenching Fire Pill was classified as a rank 2 pill and with this pill, Alex might breakthrough to rank 6. As the name implies, this pill quenches the fire element in the user body making it helped the user to breakthrough using the user fire element.

Alex suddenly contemplated, "This is only one of the ingredients. Maybe I will ask teacher for the other ingredients?" Alex decided to leave it at that.

He then proceeded to the next ball. This time, a spear comes from within.

Alex was really surprised by this. "System, can I opened them manually? I really want to feel how the small gacha ball brought out a long spear. I am really curious about this"

[Host...Please don't mind the detail. You can classified them as the system Mightiness]

"..." Alex was speechless, "I'm recalling you mentioned something about a special space for the gacha? Something like that?"

[Yes Host. That was like that, so Host didn't need to mind the small detail]

If the system was in a humanoid body, he/she will nod furiously and tried to convince Alex not to be curious about this.

Alex then shook his head as he sighed. He can only discover the secret later, he then looked at the announcement.

[Rank 3 Piercing Sky Spear (R) Acquired]

"Rank 3 spear?" Alex was shocked by this new spear as he frowned. Because his sword alone was a rank 5 magic weapon and this spear was only a rank 3 but it was only classified as a rank 3 spear. "System, how can this spear classified as a rare item as the spear rank was only a rank 3 spear. My rank 5 sword was higher than it, will it be an Ultra Rare item then?"

[Host, Please inspect the spear first]

Alex frowned, then he took out the spear from system inventory. Though it wasn't that convenient since the system inventory can only store what he had from the system.

A silver-colored spear appeared between him, the spear was really beautiful and eye-catching, its body surrounded by a white aura, his eyes widened. Not because he was surprised with the spear beauty but from its aura. Alexander noticed this spear aura was even stronger than his sword. If his teacher was in front of him, he will be shocked because the spear aura was even stronger than his rank 7 weapon. This spear was a rank 8 spear according to this world classification.

Alex inspected the spear body, he really thought it was worth it with the current price. He recalled the time consuming repeatable mission, he thought that time-consuming mission was really not worth it and was only a scam from the system, but now he thought if he had another opportunity opening the premium gacha like this again, then that mission was normal.

Then he thought, there is still a ball left that still unopened, he turned to looked at the ball. 'What will he got from this last ball?' he thought.

As he thought, his hand unconsciously went toward the 'G' character on the ball. As the finger touched the character. The ball opened and an item pops out from the ball.
