

Gacha 96

96 Bawon Fortress 5

Alex grabbed another spear. After killing the first one, he can't waste time. It needs a while for the whole monsters group noticed a rank 6 monster died in their ranks.

He aimed toward the second rank 6 monsters. This time is a rank 6 fox but unlike Sherry. This fox didn't have any cuteness at all, on the contrary, this fox was totally ugly and ferocious, with a huge body, it let out its tongue and some sticky mucus flow out from its mouth. Alex felt slightly annoyed.

"No cuteness like Sherry, ugh, so ugly. -100000 points. That guarantees you, death" As he said that in his mind, he threw the spear in his hand.

"Spin Throwing"

On the side, suddenly Sherry jumped around in joy. "Wuu Wuu"

She didn't know why, but he got this feeling in her body and need to let it out.

"Sherry?" Alicia and Firia were confused as to why Sherry suddenly act like that. If Alex looked at Sherry at this moment, He might embarrassedly scratch his cheek or he retorted her. Unfortunately, he can't be bothered with that for a moment.

The spear appeared in front of the fox's head and penetrate it skull thus killing it instantly. The spear also broke this time after it pierced the fox.

Another rank 6 monster died. Leyfon was too shocked as to how easy Alex killed this rank 6 monsters. Sila looked down embarrassedly. She was very ashamed of acting like before. While Franky didn't have any face to look at Alex anymore, he just wanted to find a hole and hide. That way Alex can't look at him and he didn't need to embarrass himself anymore.

Actually, he can just jump out of the wall. That way, he didn't need to face the embarrassment and completely hidden in the dark.

Alicia and Firia were also astonished by Alex's power. But that's all. They didn't get any shock from it. If you were together with Alex for a long time. You can somehow get used to his abnormality. While Sherry jumping around in joy while saying "As expected of my Master". And of course, nobody can understand her.

Alex grabbed another spear, as soon as he threw the previous one. This time, the monster is a rank 6 wolf. As he threw the spear. another monster died. But after this third monster. Alex seems to notice something.

"Sir Leyfon"

"What is it? do you feel tired? After using that marvelous technique continuously, you must be tired. You can rest first, you helped us enough" He somehow recovered from his shock after Alex called him.

"No no, I'm still fine. But, I just noticed this after killing the third monster. Ain't their race similar? Looked, first I killed a werewolf, the second is a fox, the third is a wolf and another fox beside them, and-"

"Oh right, now you mention it. they were similar... Don't tell me..."

"Sir Leyfon, you know something?"

"I think their leader is a rank 7 rock wolf"

"Rock Wolf?"

"Yes, like its name. Its characteristic was very similar to that of a wolf. But its body made of rock. It was very hard to kill them after all their body was very strong and hard. It was hard for a warrior to beat them with their weapon, as its body was stronger than your average weapon. Though we can wear it out somehow, so you don't need to worry. Leave the leader to me"

Alex nodded. As he wanted to grab another spear. A high pitch sound was heard.

"Auuuu" The sound was heard from the left. Where Alex concentrated at.

Alex immediately sees what is happening. "The monsters have noticed me"

Leyfon also knew that. He shouted. "The monsters will charge at us now. Ready your weapon. Archer starts charging your bow.

"Aoooo"

"Auuuu"

"Aoooo"

A series of howling echoed on the battlefield. it is like a trumpet sound on the battlefield to signal the start of the battle. And true. As soon as that series of howl. The monsters started charging toward the wall. The people on the wall were taken aback. Though they knew that the monsters will attack them at this moment, it was still very surprising to see this kind of scene where a monster horde attack you. Find authorized novels in Webnovel, faster updates, better experience,

"Don't fear. We have our proud wall that continues standing even after continuous attacks from those beasts. Make sure to kill all of them" Leyfon rallying a battle cry.

"I will continue to snipe them with my spear" Alex said to Leyfon

"I leave it to you" Leyfon nodded.

But before Alex continues. He went to Sherry first. "Sherry, are you okay? After all, they are your kind..."

"Wuu Wuu Wuu" Sherry said anxiously. Alex understood her, she seems telling him 'Don't lump me together with them, I only need master"

Alex smiled a bit, he stroke her a bit. Then immediately went to his position once again without saying anything.

Alex threw another spear to a rank 6 wolf. But because it is already prepared. The spear failed to kill it. But fortunately, it still blow one of its leg away. its battle efficiency will be decreased. Alex then aimed toward it once again. Because of its injured leg, the wolf can't dodge Alex's second spear and killed on the spot.

"Huh... I really hope the system has some recall function. With a few high-rank spear and recall function, won't I become a sniper with my 'Spin Throwing' or like an RPG with my 'Power Throwing' ?"

A shout come from his left. "FIRE!"

Many arrows immediately flew into the air. The voice came from Leyfon. The monsters already come inside the range.

The arrows raining into the ground. Many monsters started to die because of the arrows. But it's only managed to kill a low-rank monster, rank 2 or lower. For rank 3 monsters, some injured, some dodge. As for rank 4 monster? Yep, none of them was hit.

If you wondering about the rank 5 monsters or above, they still lazying around the back. While lower rank monsters charged first. But it is convenient for Alex. They can just stand there, as he snipes them one by one with his spear.

Alex threw another spear to a rank 6 monster. But sadly, the monster already prepared enough and dodge his spear completely. Unlike, the rank 6 wolf from before where Alex needs to throw two spears to kill it. It was basically pointless to aim them for the second time for this uninjured and prepared monster. Thus He changed the target, he aimed toward another rank 6 monster but failed again and another monster again but to no avail. From the look of it, it was hard to target the rank 6 monsters after they had prepared for his spear with this distance.

"Sir Leyfon, I think it will be hard to hit those rank 6 monsters since now they had prepared for my spear. I will try to change my target to rank 5 monsters."

"Sure, You already help us greatly by killing a few rank 6 monsters"

Alex nodded, "I will target the rank 5 monsters for now. If the rank 6 monsters come closer, I will target them back. We will see if my spear is faster or their speed is faster."

As he said that, Alex grabbed another spear and target the rank? 5 monster. This time, even though the monster already prepared for his spear. It didn't manage to dodge Alex spear. Alex continued throwing a few more spears. By then, the monster reaches the wall. Though the monsters were butchered when they reach the wall since they have the height advantage, but the monsters ferociously charged toward the gate

"Archer, target those at the wall gate. Don't let them breakthrough." Leyfon shouted. "Andreas, take a garrison to prepare for a charge. Charge toward the outside, we will have the earth mages to make a temporary gate. I will join you after that"

If you wondering why the monsters only target one gate, the reason is simple, it was because the earth mages make out an earth wall to make a temporary wall that looks like (_/_), with this, the monsters focused on one gate without bothering to go around for another gate.

"Yes, Father" Andreas immediately carry out his order. But surprisingly, Franky also followed him. It seems that he wanted to leave this place. He can't bear this embarrassment.

No one cares about it though.

"Aoooo!" A high pitch howl suddenly heard on the battlefield. The monsters suddenly stopped for a while and charged at them once again with more ferocity.

"It's have come" Leyfon looked at the darkness.

"Come? You mean..." Alex was surprised.

"Yes, the rank 7 monster, Rock Wolf"

Alex then tried to see the darkness where the howl was heard. He can't see anything because of the dark.

Soon enough, there is a shadow between the darkness. The shadow become bigger and bigger. The shadow then took a shape. With five meters height and a huge body, make the shadow really scary. Soon, the body was uncovered. A brownish rock skin with a few rock spikes on the top of its body. Ferocious eyes and sharp fangs. It let out a howl once again.

"Aoooo!"

Suddenly a few rank 5 wolves under its command immediately charged toward the gate. With much faster speed than the previous monster. The monster reached the wall in a few seconds. Alex was surprised by the emerging rank 7 monster, that's why he was unprepared when the rank 5 wolves charged toward the wall.

What is more surprising is that the wolves suddenly went into a strange formation. Six wolves surrounded by many wolves charged toward the wall. Suddenly, the six wolves jumped from the ground.

"Fool, they think our wall was short and they can pass it with just a jump?" A soldier near him mocked the wolf.

But the mocking becomes a shock. The three wolves suddenly leap once again with the support of the other three wolves. They jumped and sacrifice its comrade body. And their target is...

"Alex, Be careful" Leyfon who was caught off guard, shouted to Alex.
