

Genius 1371

Chapter 1371: Return to the ancient barren world!

The founding ceremony of the stellar Tower was held in a simple manner.

Ye chen gave a public lecture during the ceremony and even told her about the many strange things he knew about the cultivation world.

Even so, it still shook the entire purple sky World. Many of the soul formation stage cultivators who had been secretly dissatisfied were even more shocked after hearing this. They were now convinced by ye chen.

This was because ye chen had let them know that the purple sky Realm was just a drop in the ocean in the vast world. Above the purple sky Realm, there were still the nine Heavens and ten lands.

It was also ye chen who let them know that above the soul formation stage, there were Supreme realms such as void refinement, spirit division, unity, and tribulation transcendence.

When a person's knowledge and experience skyrocketed, their mentality would undergo a tremendous change, and their vision would no longer be limited to one river or one river.

The Tongtian mountain was also renamed the star Mountain. From then on, everyone in the purple sky Realm knew that the celestial Hall had been replaced by the star Pavilion.

The stellar Tower would become the Overlord of the purple sky Field!

Zicang calendar, year 36584, the 3rd of April. On the stellar mountain, a giant teleportation formation exploded with terrifying power.

This formation used to belong to the immortal's Hall and could lead to the ancient barren world. Now, it was strengthened by ye chen and old ancestor yellow spring.

At this moment, outside the teleportation formation, ye chen held su Yuhan's hand and quietly looked at the dark mass of people in front of him. They were all the higher-ups of the stellar Tower.

"Ye Tianjun, are you really leaving?"

Qin Cang of the Qin family, who was now the master of the stellar Tower, looked at ye chen with a reluctant expression. His eyes were filled with gratitude.

His Cangwu Qin family was only a third-rate cultivation family in the sunset region and his cultivation had only just stepped into the Golden core stage.

However, ye chen had made him the leader of the stellar Tower, the number one Overlord of the purple sky Realm. This honor made him feel a little dazed, as if he was in a dream.

Just think about it, a little golden core cultivator leading a group of soul formation elders, anyone would be trembling in fear.

"All good things must come to an end ..."

Ye chen nodded slightly, then glanced at su Yuhan beside him, his face tender. "Moreover, I just want to accompany my wife and live a peaceful life now ..." He said.

Su Yuhan also looked at him with tender eyes.

Seeing that ye chen had made up his mind to leave, Qin Cang could not help but bow to ye chen. "No matter what, you are the true master of the stellar Tower in my heart. If you need us in the future, this old master will definitely follow you in life and death."

"We might meet again one day."

Ye chen smiled faintly. "That's why I'll have to trouble you to take care of my family business for me. Cultivate the cultivation technique I've imparted to you well. If you encounter anything you don't understand, you can ask the other divine transformation realm elders."

He had originally intended to let Hall Master bei Ming and the others take on the positions of the stellar Tower's master. However, Hall Master bei Ming and the others had rejected him without the slightest hesitation.

Most of their inheritances had been destroyed after the turmoil in the ancient barren world. They only wanted to rebuild their orthodoxies so that they could face their ancestors.

"Let's go!"

In the end, ye chen took another look at the zicang world. Then, he held su Yuhan's hand and flew into the teleportation formation with old ancestor yellow spring and the others.

At that moment, the huge teleportation formation burst out with a dazzling light, and then a terrifying teleportation power burst out.

Qin Cang stared at ye chen and the others as they disappeared into the teleportation formation. Then, he bowed deeply. "Ye Tianjun, have a safe trip!"

Behind him, all the members of the Qin clan knelt down on one knee silently because they knew that ye chen had helped them to achieve what they had today.

.....

In the ancient barren world, on a deserted island in the Central Plains, dozens of figures landed with a brilliant light.

As soon as he landed, ye chen staggered and grunted. A trace of blood seeped out of the corner of his mouth.

His face was getting paler.

Su Yuhan held his hand tightly, and there was a heartache between her brows that couldn't be resolved. "Ye chen, are you alright?"

"I'm fine!"

Ye chen wiped the blood from the corner of his mouth and gave her a comforting smile. However, his complexion did not improve. Instead, it seemed to be getting worse.

“Big brother ...” Ye Wushuang stepped forward to support him.

Everyone had already noticed this change in him, and while they felt sad, they felt even more regret.

Old ancestor yellow spring sighed inwardly, ‘if it were someone else, they would’ve died after using up the only three drops of heart blood. It’s already not easy for fellow Daoist ye to hold on until now ...’

Ye chen glanced at the crowd, his eyes focused on the northern Sea temple master and the others. “Do you all want to return to your sect’s ruins to take a look?”

Before this, he had already told everyone that he came from earth. In addition to the shock, everyone also expressed their willingness to follow ye chen to earth.

“Then please wait for a moment, heavenly Lord ye!”

Emperor Hua of great Xia took a step forward and cupped his fist at him. Then, he turned into a long rainbow and flew into the sky.

Hall Master beiming and the other powerful cultivators from the ancient barren world were no exception. They all headed for the ruins of their respective sects.

After all, they didn’t know when they would be able to return to Earth. It was necessary to inform the future generations before they left.

Su Yuhan looked around quietly and said in a low voice, “Ye chen, did you descend from earth to this place before you went to the purple sky Field to find me?”

“Yes,” Ye chen smiled and nodded.

“Can you take me to see it?”

Su Yuhan gritted her teeth and looked at him with anticipation. “I want to know how much you’ve suffered in order to find me,”

Ye chen wanted to refuse, but he could not stand her sad and beautiful eyes. In the end, he gave ye Wushuang a look, then held su Yuhan’s hand and flew away on a sword light.

After he left, old ancestor yellow spring said, “You guys wait for me here too. I’ll be back after I settle some private matters.”

Ye Wushuang nodded and stayed to protect ye hai and his wife.

.....

Ye chen summoned the true martial thousand Thunder sword and flew on the sword. He began to travel with su Yuhan from the heaven wind sea region. He patiently explained his experiences to her every time they passed by a place.

His complexion was getting worse.

Heaven wind sea region, the shepherd king's castle.

The shepherd king was lying on the ground, drunk, his hair disheveled, and his unfocused eyes were fixed on the two paintings in front of him.

The people in the two paintings were both women with extraordinary auras. One of them was mu Caiwei's painting.

"Caiwei ..."

The shepherd king took a sip of wine and looked at mu Caiwei's portrait quietly. His voice trembled as he said, "You shouldn't have saved that person back then. Father shouldn't have allowed you to do what you're going to do next ..."

"Father doesn't hate him ..." He said.

"Father only hates himself. Otherwise, you wouldn't have died ..."

The current Shepherd king's castle was extremely desolate. It was so desolate that there was not even a servant to serve the shepherd king. The shepherd king was like a drunkard. He drank until he was drunk every day, looking at the painting scroll and muttering to himself.

What he did not know was that, at this moment, outside the shepherd king's castle, there was a young man and a young woman looking at him silently. The young man had a complicated expression on his face.

The young man was ye chen.

Su Yuhan, who was beside him, held his hand tightly and said softly, "Ye chen, is this the Father of the young lady mu you told me about?"

As the two of them walked, ye chen had already told her about how he met mu Caiwei and how they had fallen out.

Ye chen nodded slightly.

Su Yuhan bit her lips and couldn't help but say, "As a woman, I can feel that miss mu is really in love with you ..."

At this point, she couldn't help but sigh. "Even though miss mu did that kind of thing after that, her starting point was also for you ..."

"It's all in the past," Ye chen did not want to mention it.

"No!"

Su Yuhan shook her head slightly. "Ye chen, I'm not a jealous woman. Take me to see miss MU's grave. I want to see her ..."

There were two gravestones in the back mountain of the shepherd king's castle, and many offerings were placed on them. It seemed that the shepherd king often came to pay his respects.

One of them seemed to have just been repaired. There was a small green grass wrapped around the grave, and the words "mu Caiwei's grave" were written on it.

Su Yuhan walked over, squatted down, and gently pulled the grass blocking the tombstone. Then, she looked at the tombstone and muttered to herself.

At that moment, ye Chen's eyes burst with Heavenly Divine fire. He saw through the coffin deep underground. Other than a few women's clothes, there was nothing else.

The shepherd king must have built a Cenotaph for mu Caiwei.

"Miss mu, are you Dead or Alive?"

Ye Chen's expression was complicated as he mumbled to himself. Before this, he had learned that mu Caiwei's grave had exploded and her body had disappeared. Ye Dongli had not mentioned it to him before he died, so he must not have known either.

"Yuhan, let's go!"

Ye Chen took a deep breath, walked over, and held su Yuhan's hand. They rode the sword light and escaped. The shepherd king in the room drank the wine in the pot and found that the taste had changed. It was as if there was a trickle of water nourishing his body.

However, the sad Shepherd King did not care at all. He continued to be drunk like a drunkard, living in grief ...

The ancient barren world, the Central Plains, the great Luo dynasty.

Dongzhang village had changed its name to Dongzhang city. It was no longer a village with a population of less than 500, but a giant city with hundreds of thousands of people.

Ye Chen held su Yuhan's hand and walked leisurely on the lively Street. The two's extraordinary temperament made many pedestrians look at them.

When they passed by a stall, su Yuhan suddenly stopped and pointed at a wooden hairpin on the stall. "Ye Chen, I want this ..."

Ye Chen immediately stopped and looked over.

The stall owner was an honest man. Seeing this, he couldn't help but come forward and say, "Which hairpin do you two like?"

Ye Chen picked up the wooden hairpin that su Yuhan had asked for and smiled. "How much is this thing worth?"

The stall owner was stunned. He didn't expect that the two luxuriously dressed people in front of him would ignore the golden hairpin and want a wooden one.

However, he still smiled and said, "It's only ten wens. However, I can see that the two of you have a special relationship. I won't take your money. Just consider it a gift from me."

Su Yuhan smiled playfully and pointed at her white hair. She said shyly, "Ye Chen, put it on for me."

“Alright!”

Ye chen smiled and carefully inserted the wooden hairpin into her hair. However, when he looked at su Yuhan’s white hair, his heart sank.

“Ye chen, do I look good?” Su Yuhan looked at him with a little apprehension.

Chapter 1372: We’ll get married after we get back!

“You’ll look good in anything. ”

Ye chen looked at her with a gentle gaze. The stall owner’s eyes also brightened.”This little brother is not wrong. Even if it’s just a wooden hairpin, it’s still extremely exquisite when it’s put on your head.”

Su Yuhan was happy to hear that.

“Let’s go ...”

Ye chen smiled. As he held her hand and was about to leave, he suddenly heard a commotion at the end of the official road.

The Black Mass of people immediately dispersed to both sides of the street, clearing an extremely wide path. Then, a group of extremely mighty people stepped forward.

There were less than a hundred of them, but their bodies were filled with a monstrous baleful aura. The most shocking thing was that they were all women, and behind them, there was a wedding sedan being protected.

“It’s Princess Zhang’s wedding team ...”He said.

The stall owner beside ye chen seemed to recognize something and immediately said to ye chen,“”Little brother, move aside.”

“Princess Zhang?” Ye chen was surprised, but his eyes did not move away from the wedding sedan because he felt a trace of an old friend’s energy from it.

The stall owner could not help but explain.”Little brother, you’re an outsider, so you don’t know that Dongzhang city used to be called Dongzhang village. Later on, it’s said that an immortal came from Dongzhang city. The current city Lord of Dongzhang city, Princess Zhang, is the disciple of that immortal ...”

“Then who is the person she is marrying?” Ye chen said with a smile.

“It’s rumored that he’s a young prince from the imperial family of the capital, but it’s said that this young prince married into our Dongzhang city ...”The stall owner said.

He didn’t even believe this rumor. After all, in the eyes of the poor, the children of the royal family were the royal family. How could they be so shameless as to marry into a small city?

“Little brother, you’d better get out of the way!”

“Princess Zhang may have a mild temperament, but her female guards are not to be trifled with ...” The stall owner said kindly.

However, ye chen did not move. He quietly looked at the wedding sedan that was being escorted by the crowd and a smile appeared on his lips. “This girl is finally married. Very good.”

“Phew ...”

Seeing that the road was blocked, the female soldier leading the way immediately pulled the reins and shouted at ye chen, “Who’s there? Today is the day the princess is getting married, why aren’t you moving away?”

In an instant, everyone on both sides of the street looked at ye chen in unison, pointing and discussing.

Even the stall owner from before had retreated far away.

“Foundation establishment? You’re working hard ...”

In the face of the former’s scolding, ye chen did not move. His eyes showed a look of relief, and then he disappeared into thin air with su Yuhan.

Seeing the two living people suddenly disappear, everyone was stunned. The stall owner’s mouth was wide open.

“Immortal!!!”

The stall owner only reacted after a long time. His throat moved a few times, and then he bowed his head and said, “Immortal, I can’t believe that I, Guo Yi, would be able to see an immortal with my own eyes in my life. The immortal even bought something from me.”

As he said this, he suddenly felt a heavy weight in his pocket. He subconsciously took it out and what he saw almost made him faint.

There were more than ten spiritual stones!

Not only him, but all the female soldiers who were leading the way on their horses were also shocked and couldn’t react for a moment.

At this time, a loud and clear voice came from the wedding carriage, “Sister LAN, what happened?”

The commander of the female soldiers called sister LAN suddenly woke up. She got off her horse and walked to the wedding sedan. She stuttered as she explained what had happened.

Before she could finish her sentence, a woman in a wedding dress suddenly shot out from the sedan. The woman’s eyes were almost trembling as she looked around. “Is that you?”

At that moment, all the female soldiers who were protecting her were in disbelief. They had never seen their Princess lose her composure like this.

“Since you’re here, why don’t you see me ...”

The woman in the wedding dress ignored everyone’s gazes. She seemed to be crying and excited, but she was more at a loss.

.....

In the territory of the Daluo dynasty, on a main road thousands of miles away from Dongzhang city, ye chen and su Yuhan stood side by side.

Su Yuhan looked at ye chen with a faint smile. "The woman in the wedding sedan just now should be the blacksmith's daughter you told me about who saved you, right? And you even got married to her ..."

Ye chen bit the bullet and nodded.

Su Yuhan smiled slyly. "Now that you've seen her get married, do you regret it?" she asked. "If I were you, it's still not too late to go back now."

Ye chen knew that she was teasing him. He could not help but smile bitterly. "Don't tease me."

"Sure,"

Su Yuhan obviously didn't want to let him go. She gritted her teeth and said, "Now, bring me to your third girlfriend, and I'll let you go ..."

.....

In the northern region of the ancient barren world.

A great imperial court. The current great imperial court had long unified the vast Northern Territory. The court was filled with civil and military officials, and the entire country's people regarded the Empress as a God.

However, at this moment, the palace of the great dynasty was filled with a gloomy atmosphere. All the ministers were kneeling outside the Empress's bedroom with grief.

Their dynasty's Empress was seriously ill and had been unconscious for three days straight, unable to eat or drink.

Countless citizens silently prayed for the Empress.

On the Dragon bed in the bedroom, a cold-looking woman in a dragon robe was lying on it. Her face was thin and her eyes were sunken.

"Your Majesty, the officials of the Imperial astronomer have already built an altar and prayed for you!"

A Palace maid was holding a bowl of ginseng soup. She knelt on the ground and cried, "You should eat more and take care of your dragon body ..."

"I can't live ..."

Yun Yi, who was on the Dragon bed, spoke with all her strength. Her sickly gaze sized up the people kneeling below and she said weakly, "Chun Tao, go and invite the Minister over. I have something to say ..."

The palace maid called Chun Tao's eyes ached. She held back her tears and quickly walked out. Not long after, she came in with a white-haired old man in luxurious clothes.

The old man knelt down heavily, disregarding his old age. "Minister of rites, Xu Changling, pays his respects to Your Majesty. May the heavens bless Your Majesty with a healthy dragon body and rule the world for a long time ..."

"Minister Xu ..."

Yunyi's voice trembled. "Write a posthumous edict for me. I have no children in my life. After I die, the throne will be passed on to the daughter of the former king of Langya. Today, the Grand Marshal Liu Fei will be appointed."

"At the same time, order the Imperial Guards and the Imperial Army to seal off the Imperial City and cooperate with general Liu's Ascension. If there are any objections ..."

"Kill!!!"

"Your Majesty ..." The old man hit his head on the ground, extremely mournful.

"Do you want to disobey the decree?!!"

Hearing this, the old man could only slowly stand up, take the Imperial edict handed to him, and write with trembling hands ...

Yun Yi looked at Gong Yun with listless eyes.

She wasn't afraid of death, and she didn't have too many regrets.

Her only regret was that she had never met him again after he left, and there was no news of him at all.

Now that she was about to die, she could only carry these emotions hidden in the depths of her heart and bury them under the yellow soil.

Just as the old man was about to stamp the Jade seal, the sound of hurried footsteps suddenly came from outside, "Your Majesty, great news, great news!"

It was the commander of the Imperial Guards. He knelt on the ground and held something in his hands. "A wandering Daoist asked me to give this to His Majesty, saying that it can save His Majesty!!!"

Looking at it again, the object in his hand was a sachet. The word "Yi" was carved on the sachet with gold thread.

Yun Yi, who was originally on the verge of death, stood up in shock. His eyes were fixed on the sachet, and his body trembled violently. "Where is he?"

"After that person handed this item to me, he left on a cloud ..." The commander of the Imperial Guards said respectfully.

"It seems like he doesn't want to see me ..."

Yun Yi smiled bitterly, then sat down heavily and sighed faintly, "Fine, as long as I know he's fine, I'm content ..."

On the same day, a piece of good news came from a great dynasty. The Empress had recovered. Not only that, but she was also in high spirits and had risen to the court to handle state affairs.

Regarding the Empress's sudden recovery, there were countless secrets circulating among the people. The true inside story was only known by a few people in the palace that day.

In the great sects 'Imperial City, su Yuhan held ye Chen's hand and looked a little pale.' "Ye chen, I'm tired. Let's go back ..."

"Alright, we'll register our marriage after we return to Earth. I want to give you a grand wedding!!!"

Ye chen smiled. He took her hand and stepped forward. They instantly teleported and disappeared from the Imperial City.

He was extremely affectionate towards this woman. She didn't mind the existence of those three women, but urged him to come over and take a look. Obviously, she wanted to satisfy his Dao heart.

At the same time, in the ruins of the e Imperial Kingdom in the eastern barren territory.

Old ancestor yellow spring stood facing a gravestone for a long time. On the gravestone were the words 'tomb of Jiang Lei, Empress of the e Huang Kingdom'.

"The ancestor is leaving ..."

Old ancestor yellow spring had a complicated expression as he muttered, "I've always been dissolute and uninhibited, but you've died for me. Don't worry, when I return to the cultivation world, I'll start looking for your reincarnation ..."

"When the time comes, I'll personally help you unlock the memories of your reincarnation and take you on the path of cultivation. You'll have a place in my 3000 harem ..."

Then, he left quietly.

.....

Heaven wind sea region, on a desolate Island!

Ye chen descended from the sky with su Yuhan and landed in front of the crowd. He looked up and sized up the crowd. He could not help but ask in surprise, "Where's the forefather?"

Palace Master beiming and the others had returned, but the old ancestor was not around.

"The ancestor said that he had a private matter to settle ..." Ye Wushuang said.

Before he could finish his words, the void in front of them distorted and old ancestor yellow spring slowly walked out.

If one looked closely, one would notice that his expression was somewhat lonely.

Ye chen walked over and patted him on the shoulder. Then, he took a deep breath. "Let's go, it's time to return to Earth ..." He said.

With a wave of his sleeve, a huge wheel that looked like a star appeared in the void.

It was the time-fixing plate.

As soon as the time-fixing plate rose into the sky, it expanded to a thousand feet in size. Countless stars surged on it, making it look extremely vast.

“Let’s go!”

Ye chen gave the order and took su Yuhan’s hand as he stepped onto the star positioning compass first. Behind him, dozens of figures followed.

Chapter 1373: Enemies from the outer realms, earth in danger!

In the lonely universe, in the dark starry sky, there was no trace of human life. There was a planet that was specially taken care of by the sun.

As far as the eye could see, the earth was like the product of a lava explosion. It was reddish-brown, cold and desolate, remote and dead. The huge rocks protruding from the ground were like barren tombstones.

As a shocking storm descended like a comet falling from the sky, dozens of figures were revealed.

“Where are we?”

As soon as the dozens of figures stood firm, they immediately looked up and sized up their surroundings. However, the desolate scene that entered their eyes caused many of them to be confused.

This group of people was ye chen and the others.

Ye chen put away the time-fixing plate and spread out his divine sense. He could sense everything within a thousand miles.

Su Yuhan grabbed his hand tightly and looked around with her teeth clenched. “Ye chen, where are we?”

“Mars!”

Ye chen spoke slowly, “we’ve landed on Mars. In ancient times, Mars was called Mars Mars. I think there was an error in the time-fixing plate left behind by ye Dongli and it brought us here ...”

“This is Mars?”

Ye hai and Wu Lan were completely dumbfounded.

They did know about Mars, but they had only seen it on TV. At their age, China was still busy developing people’s lives.

The first country to land on Mars was the former Soviet Union’s “Mars One.” However, “Mars One” was later lost in contact. After that, the United States and North Korea began to launch space exploration, one after another launching probes and satellites.

They had never thought that these existences, which had once been so far away from them, would actually descend on Mars.

“Then what do we do?”

Su Yuhan looked at the Blue Planet in the deep part of the universe and said nervously, “You must know that the closest Mars to earth is more than 50 million kilometers ...”

“This doesn’t matter.”

Ye chen smiled. “Our flying speed is more than a thousand times faster than a rocket. At most, we’ll just have to spend some time and we’ll reach earth.”

At this point, he seemed to have thought of something. “We’ve used up a lot of spiritual power on the way here from the ancient barren world.”

“Alright!”

Everyone nodded and took out their spiritual stones to recover.

The distance between the ancient barren world and Mars was more than 40 million kilometers. There were also spatial rifts along the way. Everyone’s spiritual power was almost exhausted.

At this time, Mengmeng, who was in Wu Lan’s arms, struggled out and ran toward ye chen. “Dad, I want to see Mars.”

“Alright!”

Ye chen smiled and immediately picked her up. Then, he held su Yuhan’s hand and walked into the distance. Along the way, he explained all kinds of knowledge about Mars to the little guy.

After old ancestor yellow spring and the others had recovered their spiritual energy, they followed ye chen closely with ye hai and Wu Lan.

At this time, someone exclaimed and pointed to the distance, “Look, what’s that?!”

Everyone immediately looked in the direction of the sound and saw that in the depression in front of them, there was a huge wreckage that had long been corroded.

“It’s a battleship!”

Old ancestor yellow spring took the lead and walked over to take a look. Then, he could not help but look back at ye chen. “Fellow Daoist ye, it’s a fallen Space Battleship.”

The battleship was huge. The hull was made of special materials and had countless firing holes. There was also an energy cabin at the bottom of the ship, but no one was inside ...

Ye Chen’s gaze was fixed on the red and white flag on the ship’s hull. He could not help but ask, “It’s the US and North Korea’s warships!”

“It’s indeed a us and North Korean warship. Did it crash here?” old ancestor yellow spring frowned.

“It doesn’t look like it.”

Ye chen shook his head. "The technological power of the United States and North Korea has always been ahead of the world. There's no way a crash would happen. Moreover, even if it did crash, what about the people in the cabin?"

Old ancestor yellow spring came back to his senses immediately. He quickened his pace and continued to investigate. Soon, he found another spaceship.

The spaceship had a Chinese flag engraved on it.

"A Chinese spaceship!"

Ye Chen's eyes narrowed. This spaceship was exactly the same as the previous warship. It was severely damaged and there was not a single person in the cabin.

The only difference was that there were many runes engraved on the spaceship, but the runes had already collapsed.

"Continue to search!!!"

For some reason, ye chen suddenly had a bad feeling.

The palace Master from the northern Sea Palace and the others immediately spread out and began a carpet search along the surface of Mars. They soon discovered spaceships and battleships from many countries, but they were all broken and disintegrated.

"What's going on? Could it be that the countries in the world are fighting for supremacy over Mars?"

Ye chen felt more and more uneasy.

At this time, Shi qianhan's sorrowful voice came from the distance, "Brother ye, look here!"

In front of him stood a huge tombstone. Names and characters were carved on the tombstone. There were Chinese, English, and Korean ...

"The outer space underwent great changes and the enemy from the outer space descended. The fate of Earth's humans was in danger. The various countries formed an alliance in outer space to fight the enemy from the outer space. However, the technological power that we were so proud of couldn't withstand the enemy's flying swords, talismans, and spells ..."

Ye chen silently read the words on it, his heart heavy. The people buried here were countless elites from all over the world.

There were more than three thousand people!

Shi qianhan took a deep breath and said, "Brother ye, it seems that the enemies from the outer realms have finally arrived while we were away ..."

Ye hai and Wu Lan's hearts felt as if a huge rock was hanging in their hearts, "I wonder how ye Wen and the others are doing, and how our country is doing ..."

At this moment, patriarch green spirit and the others sent a voice transmission talisman. "Ye Tianjun, there are many gravestones here ..."

Everyone hurriedly went over to take a look. What entered their eyes was a tombstone, desolate, tragic, deathly silent, desolate ...

Ye Chen took a deep breath and walked to a gravestone. He lowered his head to read the words on it.

"I am Daoist Lei Yang, the master of the Dao sect of the upper three heavens in China. I joined hands with many fellow Daoists of the upper three heavens to intercept the foreign land here. However, the enemy from the foreign land was menacing, so we could only repay our country with our broken bodies ..."

"The leader of the demonic sect in the ruins of Kunlun, Ying Xuan, killed five early-stage nascent soul realm cultivators, two mid-stage nascent soul realm cultivators, and one late-stage nascent soul realm cultivator. In the end, he self-destructed and severely injured a perfected nascent soul realm cultivator ..."

"BA liming, the master of the ghost faction in the ruins of Kunlun, led the experts of the ghost faction and fought here for three days and three nights. They were all killed, and not even their bones were left ..."

"The master of the stellar sect, Xing Yuanzi, performed a blood sacrifice to the stellar sect and summoned a meteorite to kill a peak nascent soul realm cultivator ..."

"The master of the spirit talisman sect, Yuan Fuzi ..."

Looking at the inscriptions on the gravestones, everyone fell silent. The atmosphere between heaven and earth suddenly became extremely heavy.

Sorrow, endless sorrow emanated from Ye Chen's body.

He recognized all the names on the tombstones. These people used to be his enemies, but in the face of the earth's crisis, they were still fearless and chose to die for justice!

This was the future of mankind!

This was the Chinese martial artists, they dared to fight and dared to die!

Shi Qianhan's face was extremely pale, and his whole body was trembling. Even though he had not experienced the tragic battle at that time, he could still feel it through the tombstones.

When Ye Chen's gaze stopped on the last tombstone, he could not help but close his eyes. Tears welled up in his eyes.

Ye Wushuang knelt heavily in front of the gravestone and almost choked with sobs.

It was Elder Qing Xuan, the master of the ninth peak in the ruins of Kunlun. "I'm Qing Xuan, the peak Master of the ninth peak in the ruins of Kunlun in China. In the winter month of 2019 AD, China was the first to bear the brunt of the invasion from the enemies from the outer realm. In order to kill the soul formation stage experts of the enemies, I used myself as bait to buy time for the God slaying cannon of China ..."

“This old man will carve a tombstone before I die. If the future generations of China see it, I hope they won’t let us down ...”

“Pfft!”

Ye Chen’s lips moved slightly and he finally spat out a mouthful of blood!

He was dead. All the higher-ups of the upper three heavens had died in battle. Even elder Qing Xuan, who had once been his benefactor, was dead!

“Elder Qing Xuan ...” Ye Wushuang was extremely mournful.

He would never forget that it was elder Qing Xuan who took him in when he was all alone in the sword sect in the ruins of Kunlun!

He could not forget that when he became the enemy of the sword sect, it was elder Qing Xuan who protected him with no regard for his life!

Su Yuhan held ye Chen’s hand tightly and said with a sad face, “Ye chen, my condolences ...”

“I’m fine!”

Ye chen took a deep breath, then his body trembled as he bowed solemnly to the tombstones in front of him. “Everyone, have a safe journey. This ye swears that if I don’t slaughter all the outer realm people, I’m not a human!!!”

The killing intent caused the sky to change color.

Ye Wushuang, Shi qianhan, ancestor yellow spring and the others all bowed, including patriarch green spirit.

Ye chen stood up and slowly walked over. With trembling hands, he collected all the tombstones into his sleeves and mumbled, “Everyone, today, I’ll take you home. You’re heroes, and your souls shouldn’t fly out of the sky!!!”

At that moment, they heard a Sonic Boom in the distance. Old ancestor yellow spring couldn’t help but ask, “Someone’s coming!”

“Huang Fan, in front of us is the place where the natives of the immortal burial planet died, which I told you about before ...”

“The lowly Aboriginals of the immortal burial star are overestimating themselves. How dare they stop us from descending to the immortal burial star? I’m going to pee on their tombstones in front of everyone ...”

Two sneers could be heard.

Ye Chen’s expression was frighteningly calm. After a while, two rays of light shot toward them, revealing two young men.

The two of them were dressed strangely, different from ye chen and the others. However, their brows were filled with ruthlessness and cruelty.

The two of them were both in the Aurous core stage.

“Yi, there’s actually someone who arrived here before us?”

The two men were shocked when they saw ye chen. One of them, a burly young man, could not help but step forward and say, “I’m Huang Fan, a disciple of the Huang family from planet violet blue. May I know which world you are from?”

However, what caused his expression to change was that no one spoke. They all stared at him coldly, their gazes making one’s heart palpitate.

“Not good! They are from the celestial burial planet!”

Huang Fan seemed to have sensed something. His expression changed and he tried to escape on his sword light!

“I want him alive!”

Ye chen slowly turned around, his voice devoid of any emotion.

Chapter 1374: The mysterious earth!

How could two golden core cultivators escape from ye chen and a group of Almighty experts? they were captured almost effortlessly.

After searching his soul, ye Chen’s expression turned cold to the extreme.

It turned out that a month after he left for the ancient barren world, Earth’s space barrier collapsed, completely exposing earth to the universe. It then triggered an invasion from the outer realm.

This alien enemy was beyond ye Chen’s previous knowledge. A total of eight major star fields had crossed the starry sky and descended. Countless major sects of the starry sky had joined forces to force their way to earth ...

The two people whose souls were being searched were from the violet blue Planet.

On that day, the earth fell into unprecedented panic. Some people woke up to find that the entire world had suddenly changed.

The starry sky sect, the Return of the Maya civilization, the descent of the hundred races, the aliens ...

That day, many small countries in the West tried their best, but they couldn’t resist the vanguard of the extraterrestrial enemy and were destroyed on the spot. Only big countries like China, the United States, and North Korea survived.

It was also on that day that the alarm bell rang all over the world. All countries abandoned their former enmities and established a community for the fate of mankind. They exhausted all resources and mobilized countless technological forces that were beyond the era to intercept in space.

As for the cultivators on earth, regardless of whether they were from the East or the West, many of them were brave enough to fight and die. They went to Mars, the moon, and other nearby star systems to face the enemies from the outer realm without hesitation.

The battle was unprecedented.

There were space beasts that opened their bloody mouths and swallowed nuclear bombs, extraterrestrial experts that split battleships, and aliens that turned into the higher-ups of various countries to disrupt the war ...

At that moment, all the countries in the world had to admit that the nuclear weapons and other technological forces that they were so proud of were too insignificant in front of the enemy from the outer realm.

In the end, the enemy from the outer realms had successfully descended on earth.

The two golden core cultivators didn't have any more information. It seemed that their status was low and this was the first time they had come here from their mother star.

When ye chen told everyone everything he knew, the world suddenly cooled down and a gloomy cloud hung over it.

Endless sorrow covered the sky.

Whether it was su Yuhan, ye hai, Shi qianhan, or the other people on earth, their hearts were extremely heavy at this moment.

Earth was their home, their home planet, where their country and their family were ...

Old ancestor yellow spring sighed and looked at ye chen with a serious expression. Fellow Daoist ye, have you ever wondered why these great enemies from the outer realms want to invade earth at all costs?"

His words immediately reminded everyone.

"The old ancestor is right!"

Shi qianhan took a deep breath and said with a bitter smile,""From what we know, these enemies are more powerful than those in the purple sky World. Earth is even weaker than the ancient barren world. Why would they pay such a price to invade earth?"

"It's not that this ye hasn't thought of it. "

"This question has appeared in my mind more than once, but I suspect it has something to do with Earth's ancient name," ye chen said seriously.

"The immortal burying star?"

Shi qianhan seemed to have thought of something. He couldn't help but ask,""Could it be that our earth really buried Immortals in the past?"

As soon as these words came out, everyone couldn't help but be shocked.

The word “immortal” was too distant and ethereal to everyone. If Immortals were really buried on earth, it would overturn everyone’s understanding.

“This is just a guess.”

Ye chen nodded slightly and could not help but look at the little girl Qianqian beside him. At this moment, she was looking at everything around her in a daze, her thin body trembling non-stop.

“Qianqian, what’s wrong?”

Ye Chen’s eyes flashed with a strange light. He quickly walked over and pointed a finger between her brows.

“Big brother, Qianqian doesn’t know either.”

Qianqian bit her lips as tears fell. “It’s just that Qianqian suddenly feels so sad. I really want to cry ...”

“Child, are you scared?” Wu Lan hurriedly picked her up and took out a handkerchief to wipe her tears.

Ye chen asked her a few more questions but the little one could not remember anything at all and kept crying.

“Fellow Daoist ye, it seems that earth is extraordinary ...” Old ancestor yellow spring gave him a deep look.

Before this, he had thought that the earth was just a barren small chiliocosm. But now, after experiencing so much, the earth had become more mysterious in his heart.

Ye chen shook his head without a word and continued to lead the group forward. He wanted to see if there were any tombstones of powerhouses from earth left behind.

These people, regardless of their nationality or skin color, had protected everything with their heroic deeds when earth was in danger!

They were heroes, and heroes shouldn’t have their souls fly out of their bodies. Heroes should return to their homeland and enjoy the worship and respect of their descendants.

The further down they went, the heavier everyone’s mood became. Even Wu Lan and su Yuhan’s eyes were red from crying.

Too many remains, too many tombstones ...

The people who stood alone in this desolate and dead land were like lonely spirits.

When ye chen looked at the Blue Planet in the distance, he found that the Blue Planet was filled with a trace of vast Chi activity. If one looked at it for a long time, it would actually make one shudder.

“Is it an illusion?”

Ye Chen’s eyes flickered imperceptibly. He could not help but secretly transmit his findings to old ancestor yellow spring.

Old ancestor yellow spring also looked at the earth in the distance. He took a deep breath and sent a voice transmission, "Earth is extremely terrifying. It's like a giant beast of fear that has fallen into an endless slumber ..."

"As expected ..."

Ye Chen's heart trembled and he continued to walk forward.

Ye Wushuang suddenly stopped and looked down at a red stone tablet under his feet. The stone tablet was extremely ancient and had a rotten smell.

There was a sword mark on it that was difficult to see with the naked eye.

"Sword marks!!!"

When ye chen and old ancestor yellow spring saw this, they could not help but reach out to touch the surface of the monument and feel it with their hearts. Suddenly, they felt as if they had fallen into a monstrous sword River. The ancient and endless sword will stabbed toward them.

"Ancient sword scar ..."

Shi qianhan took a few steps back and looked at the stone tablet in fear. His face was pale. "This is an ancient sword scar. It's far too ancient and ancient. It's actually not destroyed after ten thousand years ..."

The rest of the people felt their scalps go numb.

What kind of sword mark could remain undying for ten thousand years? And the sword intent in it was like an inextinguishable fire seed?

"This is ..." Shi qianhan mumbled to himself. "Could it be that ten thousand years ago, someone from earth fought the enemies here, and this sword mark was left by an ancient sword cultivator?!!"

"Why hasn't this thing been discovered by anyone before?" Old ancestor yellow spring gasped inwardly.

"Because Mars has changed ..."

"The things that were once buried on Mars have been covered up by the dust of history, and now that they have appeared again ..." Ye chen made a bold guess.

"In ancient times, Mars was known as the Mars of Mars, and the word 'Mars' represents disasters, disasters, main disasters, and military disputes. For generations, China has been extremely superstitious about the celestial phenomenon of 'Mars guarding the heart'."

Chapter 1375: The ancient altar, the stars!

"Earth, you have too many secrets ..."

At this point, he mumbled to himself. At this moment, he could not help but wonder if Chang 'e flying to the moon, Hou Yi shooting the sun, and the various myths in Chinese history really existed.

The group continued to move forward because there was a vast aura and boundless celestial bodies shining over.

An hour later, everyone stopped and stared ahead in a daze. There was a magnificent ancient altar.

The altar was extremely large. From a distance, it looked like a huge city that had been specially built on Mars.

The altar was engraved with ancient patterns and words, which looked like birds, bugs, and fish, but contained profound bitterness.

At that moment, everyone could not help but hear a strange sound. The sound was extremely empty and distant, as if it had crossed time and space.

“This is the sound of the ancient people worshipping the heavens and earth ...”

Shi qianhan’s heart trembled as he mumbled, “I’ve read in an ancient book that the ancient people revered nature and gods. Therefore, they often held sacrificial ceremonies and read the scriptures of the sacrificial ceremony ...”

“Not bad!”

Ye chen also nodded. “The society before the Zhou Dynasty was centered around the gods. They paid attention to the power of the monarch. For example, the emperors of the Shang Dynasty claimed to be the descendants of the gods.”

At this point, he couldn’t help but pause for a moment before continuing, “This is also the reason why deification ceremony wanted to recruit all kinds of grass-headed gods to surrender. It was to separate the era where humans and gods ruled by dividing the boundaries with the end of the Shang Dynasty ...”

After saying that, he took the lead and walked forward.

The closer they got to the altar, the more intense the sounds of the ancestors’ worship became. Fortunately, it was not aggressive, as if it was just a replay of an ancient memory.

After crossing the desolate stone steps, everyone’s eyes were fixed on the altar in the distance. It was unknown what material the altar was made of, but it was as smooth as the surface of a Lake.

There were many offerings on top of it. There were interstellar beasts that looked like kui cows, spiritual wine that reeked of alcohol, and even human heads. The eyes of the human heads were wide open as if they had died with grievances. Their facial features were different from those of Earthlings ...

“Why are there offerings here?”

Everyone stopped in their tracks and looked at the many offerings on the table. Their eyes were filled with wariness.

Su Yuhan couldn’t bear to look at it.

“And it’s with a human head as a sacrifice!”

Ye Chen's gaze fell on the head and he frowned. "These people should be from the outer realms, and they seem to have died not long ago. However, who killed them and placed their heads here as an offering?"

"Could it be Yi?"

A thought suddenly flashed through his mind.

In the purple sky Realm, after he had joined forces with Phoenix and ye Wushuang to destroy the celestial Palace, Phoenix had left. Before he left, he had not said a word to ye chen. He was extremely reclusive.

At this moment, the altar that looked like a lake was full of strange phenomena. It was bright and dazzling. There were many stars the size of millstones floating in the sky above the altar.

As far as the eye could see, there were at least a hundred of them. These celestial bodies were extremely life-like, with different colors and life-like existences. Although they were arranged in a disorderly manner, they were moving in their own unique orbits.

Although these stars were small, each of them faintly emitted a Great Terror. Like radioactive elements, they constantly overflowed with a monstrous aura to the outside world.

At that moment, ye Chen's expression finally changed. "This is a universe star map?"

"Looks like it's indeed a universe map ..."

Old ancestor yellow spring nodded heavily and his eyes wandered over the stars. "However, it doesn't seem complete. There are only 108 celestial bodies ..."

At this point, he seemed to have thought of something, and his expression changed. "No, fellow Daoist ye, these are the strongest 108 celestial bodies in the universe!"

"The top hundred stars of the universe?"

Ye Chen's eyes flashed with lightning, piercing the sky. "This is one of the top 100 stars in the universe. I didn't think that the ancient people of Earth had already begun to understand the stars and worlds 10000 years ago."

"Pfft!"

At this moment, the soul formation stage cultivators behind him all spat out a mouthful of blood. Their faces were extremely pale, and they felt a sharp pain in their hearts.

"Don't try to probe the secrets of each star ..."

"Each of these celestial bodies is stronger than earth, and their laws are even more astonishing. If you explore them rashly, you'll easily alert the Almighty heaven-illuminating powers in these celestial bodies ..." Ye chen hurriedly shouted.

As soon as he finished speaking, everyone couldn't help but hurriedly withdraw their divine senses. They were as afraid as a Tiger, and when they looked at the stars again, their gazes were filled with endless horror.

They had thought that they were soul formation stage cultivators who could roam the starry sky, but they had been injured by a star map.

As beiming temple master was shocked, he could not help but look at ye chen. "Fellow Daoist ye, what are the top hundred stars? What is the heaven-illuminating spell?"

"I'll explain it to you,"

Without waiting for ye chen to speak, old ancestor yellow spring said, "In the universe, there are many celestial worlds similar to earth. The 100 stars on this star chart are the most powerful existences in the heavens."

"How many stars are there in the universe?" Someone said.

"Who knows?"

"But I guess there are at least 100000 ..." Old ancestor yellow spring chuckled.

Deathly silence. The scene suddenly fell into an endless deathly silence.

Shi qianhan, su Yuhan, and the others were silent. Patriarch green spirit was petrified and his heart was in turmoil.

The 100,000 celestial bodies were one thing, but the 100 celestial bodies in the star map in front of him were the strongest among them.

Su Yuhan let out a heavy breath and asked, "Then how are these stars arranged?"

"The power of the strong!"

Ye chen explained patiently, "in every star, there will be countless mighty people who will break through to a higher realm over thousands of years. These people also carry the fate of the star they are in. Their energy will shine toward the stars outside the mother star. Their ranking will be determined by the length of the shine."

He was afraid that su Yuhan and the others didn't understand, so he made an analogy and said, "For example, countless companies are producing light bulbs, but the brightness and power consumption of each company's light bulb are different. Some light bulbs not only save energy, but they can also light further in the same dark environment ..."

After his analogy, everyone finally understood.

"Fellow Daoist ye's analogy is quite vivid."

"The cloud mortal world I'm in has many small planets, and each planet has billions of lives. They're divided into rank 1 to rank 9 cultivation planets. The highest cultivation level on rank 1 cultivation planets is the foundation establishment realm, and on Rank 2 cultivation planets is the Golden core realm, so on and so forth ..." Old ancestor yellow spring smiled.

He slowly said, "when a cultivator on a rank 1 cultivation planet reaches the Golden core stage, the planet they live on will be promoted to a Rank 2 cultivation planet. Similarly, if a cultivator on a Rank 2

cultivation planet reaches the nascent Soul Stage, the planet they live on will be promoted to a rank 3 cultivation planet ...”

Chapter 1376: Former glory, today’s humiliation!

“I see ...” Everyone came to a sudden realization.

“The higher a star’s rank in the heavens, the more fate they’ll be able to enjoy. In turn, it’ll be fed back to the billions of living beings in the astral world.”

He continued, “the strong ones who shine on the stars will also receive great benefits. First, they will receive the blessing of the mother planet. Second, they will enjoy the worship of millions of Joss flames. Most importantly, they will be worshipped by countless stars and worlds.”

“The benefits are too great ...”

“Worship the heavens and the myriad domains, enjoy the incense and endless offerings ...” Old ancestor yellow spring chuckled.

Many people’s eyes turned red when they heard this.

To put it bluntly, ye chen meant that one could be awesome in the countryside but not as awesome as in the city. One could be awesome in the city but not as awesome as in the world. One could be awesome on earth but not as awesome as in the universe.

“The only thing that shocked me was that the ancient people of Earth actually knew the secret of the top 100 stars 10000 years ago ...”

Ye chen looked at the altar in front of him in a daze and mumbled, “Doesn’t this mean that earth also had a glorious era, so glorious that it was reflected in the universe ...”

“So you’re saying that our earth also had a Supreme Being that could illuminate the heavens in the past?”

Shi qianhan was so excited that he said, “I wonder what’s Earth’s current ranking in the universe?”

“Hehe ...”

Ye chen smiled, then reached out a hand and pointed at the universe’s starry sky map in front of him.

“Chi ...”

The starry sky map trembled violently, and then endless Starlight rippled out, revealing a Blue Planet.

A string of ancient characters that looked like birds, beasts, insects, and fish appeared in the ripples. “Immortal-burying star, 135862 ...”

” 130000?”

Seeing this string of numbers, everyone felt as if they had lost their parents. They only felt that their enthusiasm had been completely extinguished by a basin of cold water.

Old ancestor yellow spring said that there were more than 100000 stars in the heavens, and earth was ranked 130000. Did that mean it was at the bottom of the heavens?

No wonder they couldn't stop the enemy from the outer realm ...

As if sensing everyone's disappointment, ye chen could not help but comfort them, "This is only Earth's current ranking ..."

"Could it be that Earth's ranking was higher in the ancient times than it is now?" someone asked with a bitter smile. Even so, I don't think it's much higher,"

"Ye chen, there's a tablet over there ..." Su Yuhan suddenly said.

Everyone looked towards the source of the sound and saw an incomplete stone tablet in a blind corner of the altar. The stone tablet was only average looking and it was covered in dust. If one did not look carefully, they would not be able to recognize it.

Ye chen walked over and reached out to brush the dust off the broken monument. He saw a string of ancient characters on the monument.

Someone tried to interpret it, "the immortal-burying star, sixth place ..."

Before he could finish his sentence, he suddenly stopped. Then, his eyes widened and he stood still, his entire body trembling.

"Is this the ranking of earth in the heavens?!!"

"Sixth place? Earth was once ranked sixth?"

"My God, unbelievable, simply unbelievable!!!"

This time, everyone was shocked. They could not believe their eyes, even ye chen and old ancestor yellow spring were exceptions.

"Sixth place ..."

"A small chiliocosm once ranked sixth among the hundreds of thousands of stars in the universe. It's unbelievable!" Old ancestor yellow spring's throat trembled.

"What kind of era was the ancient times?"

Ye chen took a deep breath. His heart was in turmoil. "What kind of existence appeared in the ancient times to be able to illuminate the heavens to such an extent?!!"

"But why did the ancient era end?"

"And why did the ancestors of earth who once illuminated the heavens, swept across ten worlds, and suppressed ten worlds disappear?!!"

"The immortal burying star ... Has the immortal burying star really buried Immortals?"

"....."

At that moment, countless thoughts flashed through ye Chen's mind. Similarly, there were too many questions ...

He was not the only one. The rest of the people were also silent!

The altar in front of them told them too much. The pride and glory of the past, the shame and desolation of the present ...

The earth, which was once ranked sixth in the universe, was now invaded by many powerful enemies from the stars that had once been suppressed.

If this wasn't a humiliation, then what was it?

"Everyone, let's go!"

Ye Chen took one last deep look at the huge altar in front of him, then suppressed the many doubts in his heart, flicked his sleeves, and left.

Although earth was far away from Mars, it looked like it was very close from Mars, so there was no need to use the time-fixing plate.

"Roar!"

Blackie revealed its true form.

Ye Chen took su Yuhan's hand and stepped forward, immediately landing on Blacky's back. The rest of the people quickly followed.

After everyone had stabilized themselves, the little black flood Dragon's body trembled, and then it charged toward the earth in the distance at an extremely fast speed.

The closest distance between Mars and earth was more than 40 million kilometers. With Xiao Hei's early divine transformation realm cultivation, it would take him at most half a day to arrive.

Behind him, ye Hai suddenly coughed and looked at ye Chen. "Xiao Chen, before we go home, I have to give you an order."

"I don't care what's the matter after we get back. You and Yuhan should get married first," he said without waiting for ye Chen to speak.

"Your dad's right."

Wu Lan also came back to her senses. She looked at su Yuhan with heartache, "Yuhan has given up too much for you. She even gave birth to two children for you. You have to give her a proper status."

Old ancestor Yellow Spring and the others couldn't help but laugh. "That's great, we'll be waiting for the wedding wine ..."

Su Yuhan's pretty face heated up, and then she could not help but turn to look at ye Chen, her eyes full of sweetness and anticipation.

"Dad, mom, I know."

Ye Chen did not know whether to laugh or cry. "I don't need you to say anything. I know what to do. Don't worry. I'll marry Yuhua as soon as I get back."

Hearing this, Ye Hai and Wu Lan revealed satisfied expressions.

Su Yuhua's grip on Ye Chen's hand tightened.

No woman didn't look forward to the wedding scene!

She had worn wedding dresses twice in her life, but neither of them had been for Ye Chen. This was something that she had never been able to let go of.

Now that she was about to wear it for Ye Chen to see, how could she not be happy? Even though she knew that she only had half a year to live, she still felt content.

Half a day passed by quickly!

"Whoosh!"

The earth became clearer and clearer in everyone's eyes. Blackie flashed through the atmosphere and entered the earth completely.

At that moment, Ye Chen ordered, "Xiao Hei, restrain your aura and hide your figure. You must not alarm anyone!"

The reason why Ye Chen gave such an order was that he was worried that they would be easily regarded as a great enemy from the outer realms if they descended on earth in such a high-profile manner. It was bound to cause unnecessary panic and trouble.

Chapter 1377: Returning to Earth, and the world will change!

With Ye Chen's instructions, Little Black immediately turned invisible. The moment it carried everyone through the atmosphere ...

The mountains and rivers on the surface of the earth suddenly appeared in everyone's sight, and countless skyscrapers gradually became clear.

At the same time, an incomparably dense Heaven Earth essence Qi gushed out, and the spirit Qi in the air had reached a point where it could be seen with the naked eye.

"It's changed ..."

After sensing this change, Ye Chen was extremely surprised. "The spirit Qi on earth is getting thicker and thicker compared to before we left ..."

"Not bad."

Old Ancestor Yellow Spring closed his eyes and sensed for a while, then nodded. "The density of the spiritual Qi here is not any weaker than that of the Purple Sky World."

"What's going on?"

It was also at that moment that the faces of the northern Sea Palace Master and the others changed. "Why do I feel like my cultivation base is fading away?!!"

A late divine transformation realm expert said in a terrified manner, "My cultivation level is the same. It's like a pair of big hands absorbing the spiritual energy in my body ..."

"It's as if the spiritual energy and cultivation base in our bodies are all flowing away ..." Another mid divine transformation realm expert said in a trembling voice.

"I'm the same ..."

The rest of the people were all shocked by this strange change.

When Ye Chen heard this, his heart tensed. Ever since he lost the third drop of heart blood in his body, his cultivation base had been regressing, so he had not noticed this change.

He couldn't help but look at Old Ancestor Yellow Spring.

Old Ancestor Yellow Spring took a deep breath and said with a solemn expression, "The patriarch's cultivation level is also dropping, but it's very slow ..."

"How could this be?!!"

Everyone was terrified. They had never experienced such a scene before.

When Ye Chen heard this, he immediately closed his eyes and sensed this subtle change. Then, he seemed to remember something and suddenly opened his eyes. "The laws, the laws of earth have changed!!!"

"The laws of heaven and earth have changed!"

Old Ancestor Yellow Spring came to his senses and said in a deep voice, "The laws of heaven and earth on earth are suppressing us ..."

"In fact, our cultivation hasn't regressed. Instead, we're being suppressed by the laws of heaven and earth, which gives us a sense of crisis and illusion ..." He explained.

"Not bad!"

Ye Chen nodded slightly. "You can think of this change as Earth's own defense mechanism being increased. The higher your cultivation base, the more obvious the feeling is."

"This planet is too unfathomable ..."

The rest of the people felt their hair stand on end. Although their cultivation levels had not truly regressed, the feeling of being suppressed by the laws was even more terrifying.

Ye Chen looked at the changes in everyone and finally came to a conclusion. "It seems that the laws of heaven and earth on earth reject people with profound cultivation base. If late-stage soul formation cultivators are scared, then perfected soul formation cultivators and even void training cultivators are absolutely terrified ..."

As Xiao hei gets closer and closer to the surface, it also becomes more and more difficult for him. Not only is his spiritual power being consumed at an extremely fast rate, even his own gravity has increased by countless times.

“The laws have indeed changed ...”

Ye chen reached out his hand and gathered the spirit Qi within a thousand feet radius. He frowned. “It’s normal. With the same divine ability, I can gather spiritual energy within a three-thousand-meter radius. But now, I can only gather three hundred meters.”

“Not only that, even the law of gravity has changed.”

Old ancestor yellow spring threw a heavy object into the sea below. The heavy object fell at a speed faster than light, which completely violated the previous gravity and Newton’s law.

30,000 meters, 90000 meters, 80000 meters ...

Soon, Blackie descended to an altitude of less than 1000 meters from the ground with everyone on its back. Then, it stopped descending and stabilized itself at an altitude of 10000 meters.

“What is this place?”

Everyone stared at the ground below, only to see a vast grassland. There were countless strange beasts on the grassland, and these strange beasts were dozens of meters in size.

In particular, there was a huge Honey Badger that looked like a Honey Badger. It was fighting four ferocious pythons that were more than twice its size at the same time.

“BOOM!”

Flatheadbro howled in rage. It grabbed a giant python with its claws and tore it into a mist of blood, not even noticing its existence in the air.

“This is the African savannah ...” He said.

Ye chen took a long look at the Golden core bro flattop and said to Blackie, “Xiao hei, fly northeast ...”

At the same time, his heart was heavy.

The Honey Badger, which everyone used to think of as “indifferent to life and death and fight if you’re not convinced”, had mutated to a size of more than ten meters and had the cultivation of the Golden core stage!

He had only left earth for a year and a half. How could such a drastic change have happened ...

.....

China, three provinces in the South, Lincheng city.

When Blacky carried ye chen into the sky above Forest City, ye Chen’s expression was complicated. “It’s changed. Everything has changed ...”

He looked down at the ground from high up in the air. All he could see were tall buildings that rose from the ground. There were modern buildings and also retro-looking pavilions in the sky.

Whether it was real estate or pavilions, they were easily thousands of meters long. Any one of them could be compared to Mount Everest.

On the ground, there were demonic beasts in their original forms on the streets, walking on foot like humans. The humans around them were not afraid, but instead laughed and mingled with them.

There was a middle school student wearing a school uniform who was flying in the air on two Dharma wheels, as if he was in a hurry to get to school.

A delivery man landed in front of a villa on his flying sword. He took out a roasted meat the size of a calf from his storage ring, then collected a few spirit stones and left on his flying sword.

A Park Grandpa in his seventies or eighties was actually practicing Tai Chi in front of everyone. Each of his moves and stances actually formed a strange phenomenon that contained the profound meaning of Tai Chi ...

In just over a year's time, the changes that had happened to his former homeland were unbelievable.

Not only him, even ye hai, Wu Lan, and the others behind him were also unfamiliar with this place. This place was far too different from the homeland that they had been thinking about day and night.

The two of them suspected that Blackie had gone the wrong way.

Su Yuhan subconsciously grabbed ye Chen's hand and bit her lip. "Ye chen, is this Lin city?"

"Maybe ..."

Ye chen smiled complicatedly. He was not sure. Then, he said to little black, "Blackie, go to Kowloon Bay ..."

Jiulong Bay was ye Chen's second home after returning from the immortal world. One of the villas had been given to him by old master Gu from the Grand Gu family of the South.

Later, after ye chen founded stars Corporation, he bought the entire ninedragon Bay. Before he left earth, stars Corporation had already become the country's largest business Overlord, suppressing the three provinces of Tian Nan.

"I wonder how ye Wen and the others are doing ..."

Ye Chen's heart was suddenly filled with anticipation. Based on his memory, he gave little black a general direction ...

Little black was extremely fast. In a few minutes, they had arrived above nine Dragon Bay. However, the scene that entered ye Chen's eyes made him furious.

Chapter 1378: Do you believe that I won't dare to kill you again?

The man-made lake that used to be protected by the man-made lake in the past had been transformed by ye chen into nine Dragon Bay. The spiritual energy was like fog and there were countless treasures.

The Holy Land in everyone's eyes had now become a stinking ditch. The lake water was sticky and black, with countless garbage floating on it.

The villa complex and the beautiful sacred mountain that was surrounded by the moat no longer existed. In its place was a factory that occupied an area of dozens of miles ...

A chimney that looked like a pill furnace stood tall, and black smoke filled the air. An endless amount of dirty water was being discharged into the nine Dragon Lake, and it was so polluted that not even a single plant could be seen.

Ye hai, Wu Lan, and the others couldn't believe what they had just seen!

This place used to be their home, but now it had become someone else's factory and a place that was polluted beyond measure.

"Ye chen, is this the ninth Dragon Bay?" su Yuhan's heart ached.

"Why did this happen?!!"

Ye Chen's face was ashen. He felt the rage in his heart was about to pour out. "Where are ye Wen and the others? Where's stars Corporation?"

Before he left, he instructed ye Wen, Xiao Ya, tangning, and the other core members of stars Corporation to protect everything!

How could he not be furious at the current scene?

At his age, he couldn't help but take a deep breath and turn to the crowd. "You guys wait for me here. I'll go down and take a look!!"

"Ye chen!"

"I'll go with you ..." Su Yuhan stopped him.

"Alright!"

Ye chen held her soft and boneless hand. Then, his body swayed and he landed on the ground in an instant.

"It's changed ..."

The two of them looked at everything around them, and they couldn't help but think of the grass and trees they had seen in the past. Their mood sank to the extreme.

"Ye chen, you see ..."

Su Yuhan pointed at the black and sticky Lake. The hand holding ye chen trembled slightly. "The nine Dragon Lake used to be so beautiful. You even used the spiritual energy of the lake to help me cultivate ..."

Before this, she had been looking forward to going home with ye chen to start planning their wedding!

But now, his home was gone ...

“Yup ...”

Ye chen raised his head and looked at the chimney that was like a giant pillar that held up the sky. His heart trembled slightly.

“I’m a little worried about ye Wen and the others now. ”

Su Yuhan’s eyelashes trembled, and she said worriedly, “With their personalities, how could they just sit back and watch nine Dragon Bay become like this ...”

Ye chen patted her hand. Just as he was about to comfort her, he heard a scolding voice from a distance. “Who’s there?!!”

In an instant, a figure could be seen speeding towards the two of them.

It was a woman in her twenties, dressed in gorgeous clothes. She wore a pair of gold-rimmed glasses and exuded an air of superiority.

The most eye-catching thing about her was that her cultivation base was at the foundation establishment stage. She was also holding a Black Tibetan Mastiff in her hand. The fur on the Tibetan Mastiff’s body was standing on end as it barked at ye chen and ye mo.

The Tibetan Mastiff was in the foundation establishment stage.

Su Yuhan’s face paled, and then she subconsciously grabbed ye Chen’s hand. The Tibetan Mastiff was too fierce.

“Who are you people?”

The woman held the Tibetan Mastiff and stared coldly at ye chen and ye mo. “Why are you sneaking around in my Cheng family’s factory? Are you trying to steal something?”

“This is your Cheng family’s factory?”

Ye chen looked at the former with an almost scrutinizing look, and his eyes flashed imperceptibly. “Which Cheng family?!!”

“You don’t even know about the Cheng family, one of the top three families in Lin city?”

The woman’s eyes turned cold, thinking that he was just being unreasonable. “I’ll ask you one last time, Who are you? Why did you come to my Cheng family’s factory?”

As if sensing her impatience, the giant Tibetan Mastiff next to her could not help but glare at ye chen and Xiao Luo with a murderous look.

Ye chen did not seem to hear her. He narrowed his eyes and looked at her gloomily. “Where did the original owner of this place go?”

“Bastard!”

The woman's eyes turned cold, and she was furious. "What are you? How dare you ignore my questions again and again!"

"Ye chen, let's go ..." Su Yuhan bit her red lips and subconsciously pulled ye chen. She was kind by nature and did not want ye chen to get into a conflict with others.

"Leave?"

The woman sneered and blocked the two's path. She said with a murderous look, "In such a big city like Lin city, who doesn't know that this is my Cheng family's territory? if you don't give me an explanation today, don't even think of leaving."

When he heard this, ye Chen's footsteps, which should have moved, suddenly stopped. He looked back at her expressionlessly.

"What's wrong? Do you want to make a move?"

The woman crossed her arms and seemed to be disdainful. "You dog, you wouldn't dare to touch me even if I lent you ten times your courage. Otherwise, my Cheng family will make you disappear from this world in minutes!"

"Oh?"

Ye chen narrowed his eyes and examined her from head to toe. "You keep talking about the Cheng family. I'd really like to see the means of your Cheng family,"

"You?"

The woman seemed to be so angry that she laughed. She sized him up with a slight contempt, "If I wanted to kill you, there's no need for my Cheng clan to make a move!"

"Black-maned, teach him a lesson!"

After saying that, she immediately released the microphone in her hand.

"Roar!"

The giant Tibetan Mastiff, which had been sitting still, roared and suddenly pounced at ye chen at an extremely fast speed. It had a terrifying might.

"Lowly ant, if you kneel down and apologize to me now, I might spare your life ..."

Seeing this, the woman's lips curled into a cold smile. Her expression was bitter as if she had seen ye chen being torn to pieces by the mystical beasts she had raised.

However, the next scene made her smile freeze.

Just as hei lie was about to get close to ye chen, he suddenly stopped and knelt on the ground. His body trembled as if he had been extremely frightened.

"Bastard, get up!" The woman urged.

"Pa!"

At this moment, she only felt her vision go black, and then a large hand slapped her face heavily, causing her to see stars.

It was too fast, so fast that even she, who was in the Foundation Stage, couldn't react in time.

"Pa pa pa ..."

Three more slaps landed on her face.

When the last slap landed, the woman's figure staggered a few times. She held her painful face and looked at ye chen in disbelief. "Bastard, you ... You dare to hit me?!!"

When she, Cheng lixue, walked out of the Cheng family, she was like a high and mighty Princess in the huge Lin city. Who dared not to be respectful to her?

But now, she was actually beaten up?

Ye chen smiled. His smile was like a spring breeze but it was extremely cold. "I dare to kill you, do you believe it?"

Do you believe that I would still dare to kill you?

The extremely short nine words were like thunder that exploded in Cheng lixue's mind, making her extremely frightened.

She covered her face and tried to speak a few times, but just as the words reached her mouth, she swallowed them back.

She was really afraid that ye chen would kill her!

Ye chen looked at her indifferently, but his voice was unquestionable. "Ask the head of your Cheng clan to come here and see me at this time tomorrow. Remember, I'll only give you one day!"

Then, he turned around slowly, held su Yuhan's hand gently, and left. They disappeared in the blink of an eye.

After that, Cheng lixue also woke up from her daze. Her eyes were filled with extreme grievances and monstrous hatred.

She gritted her teeth and said with extreme hatred, "I, Cheng lixue, have never been humiliated like this in my life. Just you wait, if I don't kill you, I'm not a human!"

Chapter 1379: Promise me, don't let me die with everlasting regret!

Ye chen held su Yuhan's hand and ascended the stage without saying a word. However, those who knew him knew that this was an expression of extreme anger.

As if she sensed his mood, su Yuhan couldn't help but hold his hand tightly and said softly, "Ye chen, promise me that you won't get into a conflict with anyone unless it's absolutely necessary, okay?"

“You’re too hot-tempered,” she said, her eyes misty, “if you get into a conflict with someone, it’ll definitely affect everything, and it’ll only get worse ...”

“I don’t have much time left. I just want you to stay by my side and live a simple life in the time I have left ...”

At this point, she looked at ye chen almost pleadingly. “Ye chen, promise me, don’t let me die with my eyes wide open ...”

“You won’t die,”

Looking at her pale face, ye chen suddenly felt a sharp pain in his heart. “Trust me, you won’t die.”

Then, he took a deep breath and nodded, “Alright, I promise you that I won’t make a move unless I have no other choice!”

Su Yuhan smiled sadly. “How nice it would be if we were all ordinary people. Although life is only a few decades long, at least we don’t have to take on so many responsibilities. We don’t have to face mutual deception, you kill me, I take ...”

Ye Chen’s heart ached again when he heard this.

Return to being an ordinary person?

Was that even possible? Once one entered the immortal cultivation world, the greater the power, the greater the responsibility. How could it be easy to retreat?

Ten thousand meters above the ground, when ye chen and su Yuhan returned, ye hai could not help but ask, “Xiao Chen, how is it?”

“It’s changed ...”

Ye chen covered his mouth with his hand and coughed a few times. He quietly hid the blood on his hand and said with a dim gaze, “Our house has been occupied by a rich and powerful family called the Cheng family ...”

“Rich and powerful?”

Ye hai was stunned at first, then he thought for a while and couldn’t help but say, “Before we left, Lin city didn’t have this so-called rich and powerful Cheng family, right?”

“Then what should we do now?”

Wu Lan was worried. She wiped her tears. “Our home is gone. I don’t know where ye Wen and the others are ...”

“What should we do next?” old ancestor yellow spring frowned.

He had also seen the scene of ye chen and Cheng lixue on the ground. He did not agree with ye Chen’s approach!

However, when he thought of su Yuhan’s physical condition, he sighed quietly and sighed in his heart.

“We’ve been travel-worn, so the most important thing now is to find a place to settle down and understand the current situation. Then, we’ll think of a way to find out more about ye Wen and the others ...”Ye chen said without hesitation.

“Alright!” Old ancestor yellow spring nodded.

Ye chen glanced at the northern Sea temple master and the others again.””Everyone, it’s not suitable for us to walk together. We’re too big a target. You should all go your own way. If there’s any news, inform me at any time.”

After saying that, he immediately took out a blank Jade slip and recorded the information of ye Wen and the others into it. He then handed it over to the northern Sea Palace Master and said,””This is the person I’m looking for. If you meet him, tell me immediately.”

“Alright!”

The northern Sea Palace Master received the Jade slip and obtained the information about ye Wen and the others. He then passed it to another person and everyone passed it around to record it in their hearts.

Ye chen reminded them again,”the situation on earth is still unclear. Everyone needs to be careful. Don’t expose yourself to avoid unnecessary trouble.”

The crowd nodded and left.

Old ancestor yellow spring also looked at ye chen and chuckled. Fellow Daoist ye, I won’t disturb your family any further. If you need anything, just contact me.”

With that said, he turned into a flash of light and disappeared into the horizon.

Ye chen watched him leave, not knowing whether to laugh or cry. He did not need to think to know what the great ancestor was doing.

“Let’s go!”

He looked at his parents for the last time, then had Xiao hei transform into a human and land on the ground.

After a few rounds of cash flow, ye chen had bought a house in the suburbs Lin city that was similar to a courtyard house. Even so, it still cost him three hundred low-grade spirit stones.

Everyone realized that the earth was different from the past. The currency in circulation had become spirit stones. This meant that the money ye chen had saved in his card in the past had become a string of numbers.

“Dad, mom, you guys can rest here for a while.”

After settling everything, ye chen said to his parents,””I’m taking Yuhan out for a walk ...”

“Remember to buy more things for Yuhan,” Wu Lan said with a smile.

The eyes of the Mengmeng little fellow in her arms lit up with anticipation.””Dad, I want to go too.”

“You’re not allowed to go anywhere!”

Wu Lan immediately glared at her and said in an unpleasant tone, “When mom and dad go shopping, are you going to be an electric bulb?”

“That’s right. Look at how well-behaved your brother is. You should learn from him ...” Ye hai held ye Chen’s second child in his arms.

The little guy had not come up with a name yet, mainly because ye hai was more traditional. He said that naming a name was a big deal and he had to read the family records and cited classics.

In the past few days, the little fellow had been fed with deer milk. It did not cry or make a fuss, but only observed everything with its black eyes.

“A little brother is a little wimp ...”

Meng Meng rolled her eyes, “he doesn’t know anything other than eating and sleeping.”

“Alright, listen to Grandpa and Grandma. Mom and dad will be back soon. We’ll buy you some food while we’re at it ...” Ye chen said with a straight face.

The little fellow nodded unwillingly.

Only then did ye chen lead su Yuhan out of the door. Ye Wushuang and little black had consciously chosen to stay at home.

.....

Compared to the past, not only had Lin city undergone earth-shaking changes, layers of high-rise buildings rose from the ground Urban area expanded, and even the population density had increased by countless times.

Walking on the bustling Street, ye chen and su Yuhan passed by the business street and saw people shouting at the top of their lungs at each store.

“If you want to cultivate, come to the summer training class on Green Mountain. We have professional Foundation establishment teachers, and the subjects include alchemy, weapon refining, sword arts ...”

“I’m not afraid that the students won’t be able to take in the Qi. Please take note of the Wanglong education institution. The Wanglong institution will take care of everything ...”

The opposing voice also sounded, “What’s so great about immortal cultivation? Martial arts are the strongest in the universe. One force can break all techniques. No matter what flying swords or magic weapons you have, I can smash them all with a single punch. Those poor people who don’t have the aptitude for immortal cultivation, come to my Xuanwu martial arts training class!”

The two sides seemed to be in a competitive relationship. They shouted at each other from a distance, their faces red and their ears red. The pedestrians passing by were stunned.

At this moment, the owner of a restaurant walked out with a scarf wrapped around his neck. “Even if cultivators don’t abstain from food, they still have to eat. Everyone is welcome to come to our shop to try. We have eight Treasure spirit cranes and a thousand-year-old turtle salad ...”

“I’ve changed, I’ve changed a lot ...”

Su Yuhan listened to their conversation in silence. Her eyes were full of disappointment. She didn’t know whether to be happy or sad that the earth had become like this ...

Ye Chen’s bright moonlight was parked on a telephone pole by the side of the road. There was an expensive advertisement for a child.

Chapter 1380: Meeting an old friend at the wedding dress shop!

“Wang xxx, female, 28 years old, height 1.72 cm, voluptuous and charming, trespassing on dual cultivation technique.”

“Hubby is a golden core stage old ancestor, but because of his cultivation, he chose to castrate himself, so he lost his fertility ...”

“After negotiation, we are looking for a young, healthy man with the potential to cultivate to fulfill my mother’s dream. If he is satisfied, he will immediately give me 1000 low-grade spirit stones as a deposit, and if he is pregnant, he will be paid 2000 low-grade spirit stones ...”

Ye Chen’s expression was one of shock. He was once again attracted by the advertisement on another pole.

“The fifth branch of the Cheng clan of Lin city is looking for a live-in son-in-law. The groom must be 25-35 years old, 1.8 meters tall, unmarried, at least in the early-stage of the foundation building realm, and can refine elixirs. If both parties are suitable, the bride’s family will immediately send 5000 low-grade spirit stones and a middle-grade spirit weapon as the dowry, and provide a cave abode of 100 square meters with complete facilities for the groom ...”

After reading it, ye chen could not help but smile bitterly. “I’m starting to suspect that I’m not back on Earth, but in an unfamiliar world ...”

“Ye chen, there’s a wedding dress shop over there ...”

Su Yuhan looked into the distance, and her sad eyes suddenly lit up. “Why don’t we go over and take a look?”

“Alright!”

Ye chen met her expectant gaze and smiled. He immediately held her hand and walked toward the wedding dress shop in the distance.

The name of the wedding dress shop was very poetic and immortal. It was called the fairy couple’s residence.

Outside the bridal shop, there was a small array set up with alarm and anti-theft functions.

“Welcome to the restaurant, you two!”

As soon as ye chen and su Yuhan reached the door, a luxuriously dressed woman came out to greet them. "Are the two of you here to try on wedding dresses?"

The woman was only in her early 20s, but she had the cultivation of the early stage of the spirit gathering realm, and her facial features were very otherworldly.

Ye chen nodded slightly. A token appeared in the former's hand. He then removed the formation in front of him and led the two inside.

The store wasn't big, about a hundred square meters. There were many clothes hangers in an orderly manner, on which were colorful wedding dresses. It was not an exaggeration to describe it as a dazzling array of clothes.

Dust-repelling arrays had been set up on the hangers to prevent the wedding dresses from being stained with dust.

"May I know what kind of wedding dress you two are looking for?"

The woman smiled as she looked at the two of them. She introduced, "The wedding dresses in our shop are divided into spiritual artifacts, spiritual artifacts, and bejeweled artifacts. They are also divided into low-grade, medium-grade, high-grade, and top-grade ..."

After saying that, she turned around and pointed to a snow-white wedding dress on a hanger. "This wedding dress is a low-grade magical weapon. It was refined by a skilled weapon refiner by plucking the goose feathers from a snow crane. It is resistant to water and fire and is worth 100 low-grade spirit stones ..."

"There are so many wedding gowns too?"

Hearing this, su Yuhan's brows furrowed, as if she was extremely surprised.

Her feelings at this moment were extremely complicated. In the past, the wedding dress was just an ordinary piece of clothing for marriage. She did not expect it to become a magical artifact now.

When she thought of this, she subconsciously looked at ye chen and asked, "Ye chen, what should we buy?"

"It's up to you," Ye chen said with a smile.

Su Yuhan then turned back to look at the woman, biting her red lips. "Sister, do you have ordinary wedding dresses in your shop?"

"An ordinary wedding dress?"

The woman was stunned at first, but then the smile on her face turned cold. "You two want the kind of wedding dress that ordinary people wear, right?"

"Yes," Su Yuhan nodded hurriedly.

Her mindset was still stuck in the past. She only wanted to wear an ordinary wedding dress and marry ye chen. As for magic tools, they were worthless in her eyes.

“I’m sorry.”

The woman stopped smiling and said coldly, “Our shop doesn’t have such cheap things. You’re in the wrong place. You should go to the slums. You can find what you want there ...”

Su Yuhan seemed to sigh in disappointment. She turned to ye chen and said, “Ye chen, let’s go ...”

Ye chen frowned. Just as he was about to leave with su Yuhan, he saw two figures coming in from the door.

It was a man and a woman, both in their early 20s. They were dressed in an extraordinary way, and their every movement had the aura of a big family.

When she saw who it was, the woman who had been impatient with ye chen and the others suddenly rejoiced. “Qing Yu, why are you here?”

“Sister Qiao na, I’m here with Cheng Bo to try on the wedding dress.” The woman called Qing Yu smiled as she walked up to him.

“It seems that your marriage has been set.”

Qiao na was extremely shocked. She looked at the young man called Cheng Bo and smiled, “Then I’ll congratulate you. Whichever you like, I’ll give it to you.”

Cheng Bo was a third-generation disciple of the Cheng family, one of the three most powerful families in Lin city. Although he did not have a high status in the Cheng family, he was still a member of the Cheng family. He was not someone she, the owner of a wedding dress shop, could afford to offend.

Qing Yu suddenly looked at ye chen and su lingyue and asked, “Sister Qiao na, which one did they take a fancy to?”

“They?”

Qiao NA’s smile turned cold. “They didn’t see anything in it. They came to my place to buy ordinary wedding dresses for the poor.”

When he said this, Qing Yu was surprised. She looked at ye chen and ye mo with a hint of contempt.

Who would still wear an ordinary wedding dress these days?

The young man named Cheng Bo looked at ye chen with a half-smile and said, “I admire your courage to come here and buy ordinary wedding dresses ...”

“Let’s go ...”

Ye chen did not seem to see them. He held su Yuhan’s hand and walked out of the store.

Seeing this, Cheng Bo’s eyes turned cold and he immediately shouted, “Stop right there!”

As a disciple of the Cheng family, when had he ever been ignored? Moreover, it was done by the two people in front of him who seemed to be from the slums.

Ye chen turned around and glanced at him. Su Yuhan quickly tugged at the corner of his clothes. "Let's go!"

"Go inside!"

"You've affected my mood today," Cheng Bo sneered. "I won't leave so easily."

Seeing this, Qing Yu hurriedly stepped forward to smooth things over, "Cheng Bo, forget it. There's no need to be angry over them."

"Yes, young master Cheng." Qiao na also advised.

"If you want to, forget it."

"I don't care!" Cheng Bo sneered. "As long as they get out of here, I'll let it go."

Ye chen stopped in his tracks. Then, ignoring su Yuhan's attempts to stop him, he turned around and stared at her coldly. "You're courting death!!!"

For su Yuhan's sake, he could tolerate this ant's clamoring, but if this ant crossed his bottom line ...

Then, he could only pinch her to death!

At that moment, an old voice came from outside the wedding dress shop, "Qing Yu, which one do you like?"

Then, a beautiful middle-aged woman slowly walked in. However, when the beautiful woman's eyes fell on ye chen, her body trembled and her eyes were filled with disbelief.

"M-Mr. Ye!!!"

She was only in her thirties, but her Phoenix eyes revealed the vicissitudes of life, as if she had experienced many hardships.

"You are miss Gu?"

Ye chen was stunned at first, but then he could not help but size her up a few times, a hint of surprise surging in his expression.

The beautiful middle-aged woman was Gu Yingying!

She was once the eldest daughter of the Gu family, a wealthy family in the South!

He had never thought that the young lady of the Gu family, who had countless suitors but was only 27 or 28 years old, would have aged to such an extent!
