

Genius 1611

Chapter 1611

Lin Mo's words caused the scene to burst into an uproar, and Qian Yong'an's face turned fiercely cold.

However, Qian Yong'an quickly sneered, "General Lin, there is no point in trying to show off such verbal skills."

"Since you said that Xu's Pharmaceutical's rejuvenation pills are much better than my Wan Chun Tang."

"Then, you should take out your Xu's Pharmaceutical's reconstructive pills and let us have an eye-opening experience!"

All the people around also shouted, yelling for Lin Mo to show the facts.

Lin Mo said aloud, "Sorry, I came in a hurry this time and didn't have time to bring a sample of Xu's Pharmaceuticals."

"However, I have brought the experimental data of my Xu's Pharmaceutical's Reconstruction Pill."

"There are so many professionals present, I can put the data on the public screen, how about we all look at the data and speak?"

The people from the ten big families immediately looked at Qian Yong'an.

Qian Yong'an was a little flustered in his heart, but he quickly regained his composure.

"Yes!"

"Since General Lin is so confident, then let's show everyone your Xu Pharmaceutical's figures!"

Qian Yong'an said aloud, and at the same time, gave a wink to the person next to him.

This person immediately came over to Qian Yong'an, who whispered, "Keep an eye on it later and compare it with our data."

"If their data is similar to ours, sue them immediately for plagiarising our data."

This person immediately nodded and went down to arrange these things.

Lin Mo actually heard what Qian Yong'an said, but he ignored it and instead took out the USB stick he had with him and dropped Xu Pharmaceutical's experimental data onto the screen.

Qian Yong'an immediately looked at it carefully, and after observing it for a while, the corner of Qian Yong'an's mouth couldn't help but wipe a cold smile across.

This experimental data of Lin Mo was not much different from the experimental data of Wan Chun Tang.

The data from Wan Chun Tang was released before, and Lin Mo, at this time, released the same data as Wan Chun Tang, so Wan Chun Tang could completely say that Lin Mo had plagiarized theirs.

At this time, that person on the stage, also with a group of professionals, went through these data from beginning to end.

After hearing the words of those professionals, this person immediately gestured towards Qian Yongan.

Qian Yongan was even more at ease, he knew that those professionals below had already determined that this data, Lin Mo, was no different from Wan Chun Tang.

In fact, it was within Qian Yongan's expectation that such a situation would arise.

After all, both sides were developing the same drug, the experimental data would certainly not be too different ah.

Qian Yong'an expected this to be the case, which was why he agreed to let Lin Mo release these data.

In this way, he could openly accuse, Lin Mo of plagiarising Wan Chun Tang's data.

Now that he was sure of this, he immediately said without hesitation, "Mr. Lin, this data looks very familiar!"

As soon as this statement was made, an agent on stage immediately exclaimed, "What looks familiar, is this exactly the data of Wanchun Hall?"

"Lin Mo, your data is plagiarized from Wan Chun Tang, how dare you say this is your data?"

The rest of the crowd also cajoled up, especially Yuan De's group, who were even more excited, as if Lin Mo had completely lost.

However, Lin Mo was calm and smiled lightly, "Divine Doctor Qian, why are you in such a hurry?"

"This is only a part of the data, to know how effective our Xu Pharmaceutical's rejuvenation pills really are, we still have to look at another part of the data!"

Qian Yong'an couldn't help but stare: "What other data do you have?"

Lin Mo did not speak, but opened another set of data.

Seeing this set of data, the cacophony of the crowd at the scene gradually stopped, and finally, the scene even turned into a silence.

Everyone was staring straight at the screen, with incredible expressions on their faces.

Chapter 1612

The data shown on the screen is the survival data of normal cells after the cancer cells have been killed.

These data, which are also available at Wan Chun Tang, have been published before.

The main effect of the Regeneration Pill is to kill the cancer cells.

But because of the medicinal properties, it will kill normal cells along with it.

After all the cancer cells have been killed by Wanchun Tang's Re-Creation Pill, all the normal cells in the vicinity will be killed as well.

The survival rate of normal cells is less than 30 per cent.

The survival rate of normal cells in Xu Pharmaceutical's Recycle Pill is now over 95%!

This figure was terrifying.

If one were to follow Wan Chun Tang's figures, after their reconstructive pills had cured the patient's cancer, the patient's body would have suffered a lot of damage, after all, a lot of normal cells would have been lost.

It can be said that even if Wan Chun Tang's reconstructive pills cure the patient, they will still leave some after-effects, and they are the kind of after-effects that come with permanence.

Therefore, Wan Chun Tang's reconstructive pills only preserve the patient's life and are not considered a cure.

However, Xu's Pharmaceutical's Reclaim Pill, that is the real cure for cancer.

By killing the cancer cells but not affecting the normal cells, the patient's body would not be damaged and would not have any after-effects, allowing the patient to return to normal completely.

When the rats helped Lin Mo bring in the experimental data from Wan Chun Tang before, he had discovered this problem.

The reason for this problem was that the secret formula obtained by Wan Chun Tang was not complete.

Several of the key steps were still in Lin Mo's hands.

And the absence of these steps would lead to a heavenly difference in the medicine that was created. And this difference is fatal!

The others did not know the secret of this, however, seeing this, everyone was also stunned.

Wan Chun Tang's rejuvenation pill, which was able to save the lives of patients, was already enough to shock everyone, and it was definitely a great invention that could shock the world.

But now, Xu Pharmaceutical's Reconstructive Pill, instead of just preserving life, could also restore the patient to normal.

This invention was far beyond Wan Chun Tang's Reconstructive Pill!

At this moment, the crowd finally understood what Lin Mo's words really meant.

Compared to Xu Pharmaceutical's Rejuvenation Pill, Wanchun Hall's Rejuvenation Pill was really rubbish!

Imagine two kinds of medicine, both of which could cure diseases.

However, one medicine will leave irreversible after-effects, while the other has no after-effects whatsoever.

What would the patient choose?

They will definitely choose the second medicine!

Therefore, once Xu Pharmaceutical's reconstructive pills came out, Wan Chun Tang's reconstructive pills became obsolete!

The scene fell into a dead silence as Yuan De and the others were completely dumbfounded.

They were all experts in the field of medicine, and naturally they could see at a glance which was more valuable, Xu's Pharmaceutical's Recycle Pill or Wanchun Hall's Recycle Pill.

With Xu's Pharmaceutical's Recycle Pill, then Wanchun Hall's Recycle Pill is a waste, a piece of junk.

Whoever can represent Xu Pharmaceutical's Recycle Pills, will definitely gain huge profits!

And they were the agent of Xu Pharmaceutical in the first place, but as a result, they specifically went to break the contract with Xu Pharmaceutical, and even had a falling out with Lin Mo, getting to this point.

Originally, they thought that by doing so, they would be able to please Qian Yong'an and get a bigger share of the agency rights from Wan Chun Tang.

Only now did they realise what an opportunity they had missed!

Originally, they had spent so little money to get so much agency rights from Xu Pharmaceutical, which was already a huge advantage.

As a result, just because of their lust for profit, they had come to this point with Xu Pharmaceutical.

The profits that were already in their hands have been tossed away by them.

These agents are now feeling remorseful.

Chapter 1613

Wan Chongshan also happened to be standing next to these agents, and looking at those figures on the screen, Wan couldn't help but smile.

He looked at those agents and said with a smile, "Everyone, it looks like I made a bit more of the right choice after all."

"It was really lucky that I didn't break the contract with you guys at that time!"

"It's just a pity for you guys, it was so hard to get the agency of Xu Pharmaceutical, you were able to make a big profit."

"It turned out to be a good thing that such a good opportunity was ruined by yourselves."

"Hey, people, once you make the wrong decision, there is no turning back!"

These were all the words that these agents had mocked Wan Chongshan with before.

Now, Wan Chongshan returned them intact, which sounded even more ridiculing.

However, these agents no longer had the heart to pay attention to Wan Chongshan now.

Everyone was looking at Yuan De in anger, after all, it was Yuan De who had led this matter!

Yuan De himself was on the verge of tears, he had never dreamed that after all his efforts, he would end up with such a result.

If he had known this, he should not have colluded with Wan Chun Tang.

If he had continued to work with Xu Pharmaceutical and seized this opportunity, Yuan De's value would have increased tenfold!

However, now that things had come to this point, there was no point in regretting it anymore.

He had already fallen out with Xu Pharmaceuticals to this point, and it was impossible to turn back.

Looking at the angry eyes of the crowd, Yuan De also felt a little panic in his heart.

He could only try to remain calm and said in a low voice, "Everyone, take it easy."

"This is just experimental data, it doesn't mean anything."

"Let's see what Divine Doctor Qian has to say first."

"Lin Mo is just a milquetoast brat, how can the drug he developed be comparable to Divine Doctor Qian?"

"Maybe, the data is all faked?"

"Besides, this is the launch of Wan Chun Tang, the ten major families in Su Province, they wouldn't just sit back and do nothing!"

With these words, the crowd was finally put at ease a little.

The crowd looked at Qian Yong'an in unison, wanting to see how he would solve this matter.

Qian Yong'an's eyes were also wide, filled with an incredulous expression.

He thought that after he had stolen the secret recipe from Xu Pharmaceutical and developed this Recycle Pill, he would be able to completely steal this miracle medicine.

But he had never dreamed that the medicine he had developed was far inferior to Xu's Pharmaceutical's Recycle Pill.

How could he accept the fact that he had worked for so long and ended up with a basket full of water?

He had originally planned to use this medicine to raise the Qian family's status by another level, surpa*ing the Zhao family and becoming the true number one family in Suzhou Province.

At that time, with his merits and strength, he would definitely be able to become the head of the Qian family, and then he would be the veritable number one person in Su Province.

As a result, things have come to this point, and everything he has done has been in vain. The most crucial thing is that the heads of the ten families are eyeing him intently, putting all the blame on him.

You have to know that the ten families in the province of Suzhou have paid a huge price for this rebuilding pill.

If the development of the reconstructive pill was successful, naturally all would be happy and the financial power of the ten families of Su Province would be multiplied several times.

However, if it fails, the Ten Families will never get back what they paid for.

In such a situation, everyone naturally took their anger out on Qian Yongan.

If he could not solve this matter, then naturally the crowd would not let him go.

Qian Yong'an understood these circumstances very well in his heart, so he did not dare to hesitate.

He coughed and suddenly exclaimed, "Surnamed Lin, you have a lot of nerve!"

"As a company that develops drugs, it is just as well that you are not truthful, but now you dare to falsify these experimental data, have you eaten the heart of a bear and the guts of a leopard?"

Chapter 1614

Hearing these words, the crowd at the scene was stunned.

Everyone stared at Lin Mo with wide eyes and doubts in their eyes.

Could it be that the data was faked?

Yuan De and the others instantly came to their senses.

"I told you, how could there be such a miraculous drug, it turns out that the data was falsified!"

"Hehe, this Lin surnamed, has already jumped to the wall in a dog's hurry? In order to grab this reconstructive pill, he has gone to the extent of falsifying the data, he's looking for death!"

"How dare you take it out and publish it? Once this data is published, it will be subject to legal responsibility. In my opinion, even if Xu Pharmaceutical loses all its money, it won't be able to solve this matter!"

"He deserves it!"

The crowd was laughing and Yuan De's face was full of smiles.

He looked at Wan Chongshan with a smirk, "Mr. Wan, it seems that your choice is not so right!"

Wan Chongshan's expression was calm as he laughed lightly, "Elder Yuan, it's not over yet, it's too early to say that."

"I trust Mr. Lin, he won't let me down!"

One agent immediately snorted, "Heh, a brat who hasn't even grown hair, is he worth trusting?"

"Divine Doctor Qian has been famous for decades, his medical skills are exquisite and no one in the world knows about him."

“You think that brat, Lin Mo, can compare to Divine Doctor Qian?”

Wan Chongshan smiled faintly, “Whether or not he can match it, we will know in a moment.”

Yuan De gave Wan Chongshan a deep look and nodded, “Since you are bent on going your own way, then there is no need for me to persuade you any further.”

“One’s path is all one’s own choice, even if one goes wrong, there is no one else to blame.”

“We are friends, and I have given you a hand, but unfortunately, you did not listen to me, so there is nothing I can do.”

“In a moment, I’ll make you lose with conviction!”

The crowd at the scene was also whispering, and the crowd was shocked before.

However, upon hearing Qian Yong’an’s words, the crowd immediately felt that Lin Mo must have faked this data.

After all, how could any medicine cure a disease without side effects?

Lin Mo’s data was so perfect that it was hard to believe!

“Faking rubbish, what qualifications do you have to attend this launch, get out!”

Someone shouted out.

This voice immediately caused others to start yelling as well.

“Yes, get out, we don’t welcome such liars here!”

“Rubbish person, you still have the face to come to such a high-end launch?”

“Doing science, it should be rigorous. This kind of fake data, can you fool a moment, can you fool a lifetime?”

“Lin Mo, get out!”

“Lin Mo, get out!”

The crowd at the scene almost started shouting in unison, as if Lin Mo was really a fraud that everyone was shouting at.

He Qianxue stood in the middle of the crowd, her face full of anxiety as she shouted, “Shut up, all of you!”

“How do you all know that this data is fake?”

“Lin Mo wouldn’t lie to anyone

This statement immediately led to the anger of the crowd.

A man grabbed a nearby wine gla*s and slammed it at He Qianxue: “b*tch, shut up!”

“You’re in cahoots with that Lin Mo, of course you’re speaking for him!”

“Get out!”

As this man moved, the others all picked up things and threw them at He Qianxue’s side.

Several people around He Qianxue hurriedly shielded her among them, only then did He Qianxue not get hurt.

However, even so, He Qianxue’s appearance was quite a mess.

On the stage, Lin Mo saw this scene, and his face turned completely cold.

These people, they were really deceiving people too much!

At this moment, a member of the Ten Great Families also directly rushed over and pressed Lin Mo’s shoulder, “Get off, you are not qualified to stand here

With that, he then directly pushed hard, trying to push Lin Mo away.

Lin Mo clasped his wrist, grabbed his collar, picked him up by his entire body, and backhanded him into the crowd below.

Chapter 1615

With this blow, Lin Mo dropped this man directly into the crowd, smashing several people to the ground.

These few people, however, were still holding things, ready to smash into He Qianxue.

Lin Mo struck out with this blow, showing no mercy.

These people were smashed to the ground, and all of them fell to the ground, and some unfortunate ones even had their bones broken, lying on the ground and wailing.

At this moment, the crowd below, who were still roaring in anger, froze in their tracks.

No one had expected that Lin Mo would actually make a move in such a situation.

On the stage, when Wan Zifeng saw this scene, a cold aura immediately flashed across his eyes.

“What a big dog’s guts!”

“You want to use violence to scare people after being poked through a lie?”

“For this kind of person, my Wan Family will never condone it!”

Wan Zifeng shouted angrily, and several of the offered experts around him stood out directly.

Looking at that stance, as soon as Wan Zifeng gave the order, they would go all out to besiege Lin Mo!

Wan Zifeng had long had the desire to kill Lin Mo, but he had been sarcastically accused by Lin Mo of bullying the weak and bullying the small with the strong, so he did not dare to make a move.

Now, seizing the opportunity, he wanted to take advantage of this matter to deal with Lin Mo.

Seeing this, the people from the ten major families in Suzhou Province also stood out, staring at Lin Mo with an aggressive manner.

Qian Yong'an, on the other hand, said with a leathery smile, "What's wrong with you, Mr. Lin?"

"Annoyed and angry?"

"Even if you've been poked at for a lie, you don't need to be this angry, do you?"

"To be a man, you still need to have some manners!"

Lin Mo ignored them and just casually flicked his shoulder, as if he was flicking off the dust of the man from earlier.

After that, he swept his gaze over the crowd and finally landed on Qian Yong'an: "Divine Doctor Qian, is this how you treat your guests in the Ten Great Families?"

"You invited me up, and now, before you've finished speaking, someone is moving their hands and trying to drive me down?"

"What, could it be that you are afraid of something? Trying to seal my mouth and prevent me from speaking?"

Qian Yong'an's face changed and he said in a deep voice, "Afraid of you? Hmph, you're really ridiculous!"

"With this faked data of yours, who would be afraid of you?"

"We're kicking you down just because we think a liar is not qualified to stand here!"

Lin Mo: "Who are you to call me a liar?"

Qian Yong'an: "On the basis that you faked these data!"

Lin Mo: "Then what makes you say that these data of mine are faked?"

Qian Yong'an: "You"

He was momentarily stumped for words.

These things, he couldn't produce any evidence or anything.

However, Qian Yong'an quickly regained his composure and said in a cold voice, "But whenever a medicine cures a disease, more or less, there will be some side effects."

"As the saying goes, every medicine is poisonous, and that is the truth."

"Your data, which shows that normal cells, are hardly affected at all, is completely out of line and not in line with normal medical common sense!"

"In other words, it's completely impossible!"

"Is this not even considered data falsification?"

Lin Mo sneered, "Qian Yong'an, if you can't do something, do you think others can't do it either?"

"If you want to say that my data has been falsified, you have to produce evidence, not just dare to make random claims here with empty words, understand?"

Qian Yong'an exclaimed, "Surnamed Lin, don't give me any nonsense."

"If you want to prove whether these data are falsified or not, then you need to go through a lot of experiments to do so."

"You're asking me to produce evidence now, how is that possible?"

"However, those present, are all experts in this field, as well as divine doctors from all provinces."

"Let's put it this way, let's let everyone judge and see if this data of yours, is possible or not!"

After speaking, Qian Yong'an walked directly to the edge of the stage and said aloud, "Friends, do you think, is this data credible or not?"

Chapter 1616

With a question from Qian Yong'an, there was an uproar from below.

Almost everyone's voice was unanimous.

"Impossible, this data is completely impossible!"

"This data is a forgery at first glance!"

"How can there be such a perfect drug, it's a complete fraud."

"Surnamed Lin, what qualifications does a fraud like you have to be a doctor?"

"He should be disqualified from being a doctor, our medical community, which has always been truthful, how can we allow such a fraud to exist!"

The crowd yelled on and on, and the divine doctors from all provinces looked at Lin Mo with disdain.

Everyone was an elite in this industry, and they certainly knew that this figure was completely impossible.

It was in the midst of such uproar that a pale old voice expressed a different view.

"I think that this data, Mr. Lin, should not be faked!"

Hearing these words, everyone turned their heads to look.

The person who spoke was none other than the divine Doctor Xue from Guang Province.

Divine Doctor Xue was also a big name in the medical industry in the southern six provinces.

He suddenly stood up to speak for Lin Mo, which naturally drew a shock from the crowd at the scene.

However, someone soon rebuked angrily, "Xue, how much money did Xu Pharmaceutical pay you, and how dare you say such unconscionable words?"

“We hang pots and pans to help the world, only to universalize all beings, how can you disregard the bottom line just for the sake of money?”

“Heh, what kind of miracle doctor, I think they are all in the eyes of money!”

“Ai, I really didn’t expect that even the divine doctor Xue has degenerated so much, the world is really deteriorating, the hearts of the people are not ancient!”

The crowd continued to mock, and some even started to insult him outright.

Divine Doctor Xue was so angry that his face turned red, but he still insisted, “I believe Mr. Lin, he wouldn’t lie!”

A man next to him sneered, “There’s no point in you believing it!”

“The eyes of the masses are discerning, we all don’t believe it, how can you alone change everyone’s opinion?”

Another person also said, “Yes, look at the scene, you are the only one who speaks for him, who else can you find to speak for him?”

“Divine Doctor Xue, you are so old, you have to love your reputation.”

“Don’t be so close to going into the dirt and then give yourself a whole reputation of cursing, why bother?”

The crowd burst into laughter.

Divine Doctor Xue was so angry that he couldn’t say a word.

Qian Yong’an also sneered, “Don’t get excited, everyone.”

“After all, Divine Doctor Xue is from Guang Province and it’s normal to support the enterprises in your own province.”

“However, I still say that.”

“The most crucial thing for us in this industry is that we must still have a conscience.”

“Medical practitioners are parents, no matter what, we can’t ignore our conscience!”

These words immediately caused a roar of support from the crowd.

He had been famous before Qian Yong’an, but now he was being trolled by Qian Yong’an like this, how could he stand it?

However, he couldn’t even retort now.

After all, he was all alone!

At that moment, another voice rang out from the crowd, “I don’t think that Mr. Lin’s figures are fake!”

At this moment, the whole room fell silent.

No one had expected that someone would still speak for Lin Mo in this situation?

The crowd turned their heads to look, only to see an old man standing in the crowd.

“This is Hai Cheng Lu Sanzhen!?”

Someone exclaimed.

This old man was none other than Hai Cheng Divine Doctor Lu Sanzhen!

Previously at the Southern Six Provinces Medical Conference, he had lost to Lin Mo, and moreover, he had lost heartily!

He also believed in Lin Mo’s medical skills, and that was why he had stood up to speak for Lin Mo.

Moreover, if Lu Sanzhen spoke for Lin Mo, it would carry more weight than Divine Doctor Xue.

After all, Lui Sanzhen’s medical skills and status were both somewhat stronger than that of Divine Doctor Xue.

Plus, Lui Sanzhen wasn’t from Guang Province, so he was a bit more convincing too!

Chapter 1617

Qian Yong’an’s face was chilled, and a fine aura could not help but flash across his eyes.

He had not expected that even Lu Sanzhen would stand up for Lin Mo, which made him sit up a little.

Qian Yong’an took a deep breath and said in a deep voice, “Lu Sanzhen, you and I have been friends for many years.”

“Let me advise you, the way of medicine is the most rigorous, there are certain words that cannot be said indiscriminately.”

“It is not easy for you to achieve the fame and status you have today, don’t let some villain compel you and ruin your years of fame.”

Qian Yong’an was hinting to Lu Sanzhen that if he was really not sure, he should not get involved in this matter.

However, Lu Sanzhen, on the other hand, tilted his head and laughed loudly, “Elder brother Qian, I won’t hide it from you.”

“If these data were brought out by someone else, naturally, I would never believe it.”

“However, if this data was taken out by Mr. Lin, then I absolutely believe in these data!”

“Because, I absolutely believe in Mr. Lin’s medical skills!”

At these words, the whole audience was in an uproar.

Lu Sanzhen actually held Lin Mo in such high esteem?

How was this possible?

One must know that this Lu Sanzhen's medical skills could be ranked in the top ten in the country.

There were really not many divine doctors who could command such respect from him.

And Lin Mo, at such a young age, could make Lu Sanzhen admire him so much, what the hell was going on?

On the stage, Duke Wan couldn't help but glance at Lin Mo.

He had heard that Lin Mo's medical skills were good, but he didn't expect that Lin Mo's medical skills could make both Divine Doctor Xue and Lv Sanzhen so impressed.

From this, it could be seen that this Lin Mo was really no ordinary person!

When he thought about the fact that Lin Mo had saved the Wan family's old man's life with a single word earlier, this made the Wan Gongzi's mood start to get excited.

Lin Mo, maybe he could really cure the old man's illness!

Thinking of this, he couldn't help but glance at Wan Zifeng again.

Wan Zifeng was still looking at Lin Mo intently, looking at that stance, he was really prepared to fight Lin Mo to the death.

The Duke of Wan couldn't help but sigh secretly, things had developed to this point, if he wanted to ask Lin Mo to help cure him, I guess it wouldn't be too easy!

When Qian Yongan heard Lu Sanzhen's words, he could not help but become furious.

His original intention was to advise Lu Sanzhen not to get involved in this matter, but he did not expect that Lu Sanzhen would be so adamant in supporting Lin Mo.

With Divine Doctor Xue and Lv Sanzhen standing up, many people at the scene, too, began to have a skeptical attitude.

Could it be that this figure of Lin Mo, was really possible?

Seeing such a situation, Qian Yong'an did not dare to hesitate any longer.

He directly said loudly, "Lu Sanzhen, you're a handful of years old, I didn't expect that you would still make such a mistake."

"These figures, I can see at a glance that they are not true."

"Thanks to you, you are still called the God Doctor of Hai Cheng, and as a result, you are being played by a hairy boy, don't you feel ashamed of yourself?"

Lv Sanzhen frowned: "Elder brother Qian, you can't say things in such an extreme way."

"You say the data is fake, so can you prove it?"

Qian Yong'an sneered, "You say this data is true, so can you prove it?"

Lv Sanzhen was speechless, this was not nonsense!

At that moment, a voice came from the side, "I can prove it!"

The crowd turned their heads to look, only to see a slightly thin-built man walking in among the crowd.

This man, was none other than Mouse.

He was sweating profusely, holding a phone in his hand, and ran over excitedly.

Qian Yong'an frowned, "Who are you?"

"What can you prove?"

The rat shook the phone excitedly and shouted, "I'm from Xu Pharmaceutical!"

"Don't you guys want to ask if these data are true or not?"

"Here, read the contents of this phone, and you will know whether these data, are true or false!

Chapter 1618

The crowd was in an uproar.

These data, can anyone else prove its authenticity?

Qian Yong'an said in a deep voice, "Is this the data submitted by your Xu Pharmaceutical again?"

"Humph, I'm afraid the data you brought out yourselves is not enough to be believed!"

Lin Mo smiled lightly, "Don't worry, this is not our Xu Pharmaceutical's data!"

After speaking, he turned to Yuan De and said in a loud voice, "Elder Yuan, haven't you always said before that the development speed of our Xu Pharmaceutical's Rejuvenation Pill is too slow!"

"In fact, our reconstructive pills, have been developed successfully long ago."

"It's just that we need some authoritative institutions to help us experiment with the specific effects of this reconstructive pill."

"For this reason, we have asked the three major authorities in China, and nine other authorities in the world, to do clinical validation of our reconstructive pills."

"And now, the results of these verifications have been sent over."

Hearing this, the crowd at the scene suddenly stared in awe.

The data provided by Xu Pharmaceutical was indeed unbelievable.

However, if it was data provided by the three major domestic authorities, and the nine major authorities in the world, then no one would dare to doubt it!

Qian Yong'an's eyes widened as he looked at Lin Mo with a face full of incredulity.

He had never dreamed that Lin Mo would have left such a hand.

He had actually invited these authoritative institutions to do clinical verification for this reconstructive pill.

These data were far more authoritative than the data he had provided!

Lin Mo held his phone and looked at Qian Yong'an with a smile, "Divine Doctor Qian, can I borrow your screen again?"

"Since all of your friends in the medical field are present, such good news should be shared with everyone, don't you think so?"

Qian Yong'an's face was a little stiff, he knew that the fact that Lin Mo was so confident meant that the data was true.

He really didn't want Lin Mo to release these figures here, but the question was, could he stop it?

Those people at the scene, they were all staring straight at this side.

Right now, these people didn't care whose reconstructive pills were more effective, they just wanted to see the best medicine!

In the end, Lin Mo put the data from his phone onto the big screen.

On it, was the data sent from the three major domestic authorities, as well as the nine world authorities, and the proofs they provided.

Seeing the data on it, the crowd at the scene immediately boiled over.

This was because the data verified by these authoritative institutions and the data verified by Xu Pharmaceutical were completely consistent, without any discrepancies.

In other words, the data provided by Lin Mo before was completely true.

Moreover, this time, no one could refute it!

Who could refute these authorities?

The crowd was overwhelmed with excitement, they had witnessed the birth of a miracle pill today!

This is a medicine that can cure cancer patients completely without any after-effects.

The reporters rushed to the front of the stage, wanting to interview Lin Mo.

Those who were too slow to get to the front of the stage turned around to interview anyone related to Xu's Pharmaceuticals.

He Qianxue, God Doctor Xue, Lu Sanzhen, all these people were surrounded by reporters for interviews.

Even Mouse was surrounded by reporters, with dozens of microphones pointed at him, and a crowd of people gathered around him, asking for information about this rejuvenation pill.

The agents, on the other hand, all ran to the side and started to call their subordinates, asking them to hurry to Xu Pharmaceutical and fight for the agency rights of this Recycle Pill.

Those who had already negotiated with Wan Chun Tang as agents before, now ran to cancel their contracts with Wan Chun Tang while desperately trying to please Lin Mo's side and get Xu's Pharmaceutical's agency.

The scene was in complete chaos.

Wan Chun Tang, the top ten families in Su Province, was completely thrown to the side, unnoticed!

Chapter 1619

Amongst the chaos, there were a few people who sat down on the ground, these were the agents who had previously terminated their contracts with Lin Mo.

This time, Xu's Pharmaceutical's Reconstruction Pill was a complete success.

And Wan Chun Tang's Recycle Pill would also become a complete waste.

In other words, there was no more hope for them either.

The profits that they had been handed were ruined by their own hands.

One person who was not in good health even had a heart attack on the spot.

Luckily, the people next to him gave him medicine in time, so he was able to recover, but his eyes were dull and he was almost broken.

Who can remain calm when something like this happens?

Who could accept the fact that billions or even tens of billions of profits had been handed over to them, only to have them thrown away for nothing?

Even Yuan De sat back in his chair, unable to make a sound.

Yuan De had been shrewd all his life, and he had been calculating every step he took, so he was definitely an old fox.

This time, he originally thought that he would be able to follow Wan Chun Tang to crush Xu Pharmaceutical, and, in addition, he would also be able to make connections with the top ten families in Suzhou Province, which would enable him to raise his assets and strength by a notch.

But he had never dreamed that this would be the final outcome.

When he thought about it, he had a good relationship with Lin Mo at the beginning.

If he continued to work with Xu Pharmaceutical, he could definitely make a fortune this time.

But because of his manipulation, not only did he lose these interests, but most crucially, he also completely fell out with Lin Mo, which was what caused him the most pain.

On the stage, the people from the ten major clans also surrounded the Qian family members, asking all sorts of questions about what was going on here.

They had to know that the Ten Great Families had paid a considerable price for this Recycle Pill.

Now that the Wanchun Hall's Recycle Pill had become a spent pill, they would not be able to get back what they had paid for, so naturally they all wanted to find the Qian family for an explanation.

The Qian family head was in a state of anxiety, but there was nothing he could do.

Right in the middle of this chaos, Qian Yong'an suddenly gritted his teeth and shouted fiercely, "Shut up, all of you!"

This shout caused the crowd to stop and look up at Qian Yong'an.

Qian Yong'an's face was fierce, his eyes glowing red as he pointed at Lin Mo and shouted, "Lin Mo, you despicable villain."

"I really didn't think that you would do such a shameless thing!"

Lin Mo's brow furrowed, "What's wrong with me?"

Qian Yong'an: "What's wrong with you?"

"Hehe, tell me, where did you get the recipe for this Recycle Pill from?"

Lin Mo's face was chilled, this Qian Yong'an, still trying to backtrack?

"I developed this myself!"

Lin Mo said back.

Qian Yong'an let out a wild laugh, "You developed it yourself?"

"Lin Mo, what are you capable of on your own that you can develop this divine medicine?"

"Heh, you think I don't know about those past events of yours."

"You're just a secondary school graduate from a technical school, you haven't even learnt a single day of medicine, how can you develop a drug?"

"You were so down and out that you had to become someone's son-in-law, and you say you're a miracle doctor? Who would believe you?"

These words immediately caused a flurry of whispers all around, and many people looked at Lin Mo with suspicion in their eyes.

Lu Sanzhen said in a deep voice, "Qian Yong'an, don't go too far!"

"Mr. Lin is a divine doctor in Guang Province, a man I have seen with my own eyes"

Qian Yong'an said directly, "What bullsh*t divine doctor, it's all fake, it's all paid off by Nanba Tian in advance!"

"Lv Sanzhen, thanks to you being a divine doctor in Hai Cheng, you can't even see this point? How ridiculous!"

Lui Sanzhen: "How is that possible, I saw those patients with my own eyes"

Qian Yong'an interrupted him directly, "What can you do if you've seen them?"

"Those people are pretending to be sick, that treatment of yours, it's definitely useless!"

"I'm telling you, this Lin, is a fraud who knows nothing at all!"

"He stole the recipe for this rejuvenation pill from my Wan Chun Hall!"

Chapter 1620

The moment Qian Yong'an said this, the whole room fell into a dead silence.

After a long time, He Qianxue laughed out first, "Divine Doctor Qian, you really have the face to say that!"

"Lin Mo's formula was stolen from your Wanchun Hall?"

"Don't you think it's ridiculous to say that yourself?"

"Xu's Pharmaceutical's rejuvenation pills are tens of thousands of times stronger than your Wanchun Hall's."

"Who are you to say that Lin Mo's formula was stolen from you guys, huh?"

"What? Is this out of the blue and better than the blue? Hahahaha, you're so funny"

Everyone else followed suit and roared with laughter.

The people from the ten great families also looked at Qian Yong'an indignantly, and even the people from the Qian family were frowning.

In their opinion, Qian Yong'an was completely flustered.

How could such words be said?

Xu's Pharmaceutical's Rejuvenation Pill was far stronger than Wan Chun Tang's.

Even if someone stole the formula, others would only assume that Wan Chun Tang stole Xu's formula, how could it be that Xu's Pharmaceutical stole Wan Chun Tang's formula?

It would be better to say such things than not to say them, it would only embarrass people.

Duke Wan skimmed his lips and said in a low voice, "Stupid!"

Wan Zifeng also frowned, "This man is crazy?"

He was planning to give his full support to Qian Yong'an, but he couldn't help Qian Yong'an when he spoke like this!

However, Qian Yong'an did not feel the slightest bit of shame.

With a solemn expression, he waited for the crowd's laughter to fall before he said in a deep voice, "I know you won't believe it!"

“In fact, if I hadn’t seen this data on Lin Mo today, I wouldn’t have wanted to bring this up.”

“However, this Lin surname is really bullying people too much, and I really can’t stand it anymore.”

“Today, I will make all the facts known to the public right here!”

When the crowd at the scene saw Qian Yong’an’s expression, they were all amazed, could there be any hidden truths in this?

Qian Yong’an cleared his throat and said aloud, “As you all know, as early as ten years ago, we, Wan Chun Hall, had already started the research and development of this rejuvenation pill.”

“However, everyone does not know that more than ten years ago, our Wanchun Hall’s Recreating Pill, had already made a breakthrough.”

“At that time, we were only one step away from success. The data from that time was also the most perfect version we had ever developed, the most perfect one.”

“However, just one night, our R&D centre was suddenly broken into and all the data, at that time, was stolen.”

“Not only that, several of our most important R&D staff at the time were also a*sa*sinated.”

“Such a tragic case caused the entire R&D work, to come to a direct halt and could not continue!”

The crowd at the scene were all shocked, they didn’t expect that there was such a thing before the Wan Chun Tang ah.

Yuan De hurriedly asked, “Then what happened afterwards?”

“Did you guys find out who actually stole the data?”

Qian Yongan sighed and shook his head, “We investigated for a long time, but never found any traces.”

“Seriously, over the years, we had also given up on pursuing this matter.”

“But, to my surprise, just today, I actually saw those familiar data again.”

Speaking here, Qian Yong’an looked directly at Lin Mo and said in a deep voice, “General Lin, I would like to ask.”

“Why are these data you provided so similar to the batch of R&D data that was first stolen from our Wanchun Hall?”

At these words, the whole room erupted.

The crowd burst into a cacophony.

This kind of R&D data, if it appeared similar, could only be plagiarism.

Could it be that it was Lin Mo who stole this batch of data in the first place?

The crowd looked towards Lin Mo, and Yuan De and the others were even more excited.

“In that case, back then, it was Lin Mo who stole this batch of data?”

“Divine Doctor Qian, in that case, you’re right!”

“Xu Pharmaceutical, it was the one who stole the formula from Wan Chun Tang!”

An agent yelled out loud.
