

Genius 1641

Chapter 1641

Once the instruments were brought to the site, the examination of these patients began immediately.

From the results of the tests on site, it was clear that all these patients were indeed getting better.

As more and more examination results came out, the crowd's astonishment increased.

The crowd gradually began to choose to believe Lin Mo, after all, those famous doctors' examinations, as well as the examination of these instruments, were all seen by the crowd with their own eyes.

At this moment, the faces of the ten major families in the Su Province were all extremely ugly.

They had originally thought that they would be able to use such a method to defeat Lin Mo, but to their surprise, they had lost so badly this time.

If they couldn't even match Lin Mo's medical skills, then this time, Wan Chun Tang would have completely lost!

On the stage, Wan Zifeng's face was even more unsightly.

He had been on Qian Yong'an's side from the start, saying with all his words that Qian Yong'an was the best divine doctor.

Now it was good that Lin Mo, who had never been favoured by him, was going to surpa*s Qian Yong'an instead, how could he accept this?

To Wan Zifeng, it did not matter which one had the higher medical skills, what mattered was his face.

If it was proven that Lin Mo's medical skills did surpa*s Qian Yong'an's, then what face would he have to face?

Not only that, but the most crucial thing was that he had now completely offended Lin Mo.

If Qian Yong'an's medical skills were not as good as Lin Mo's this time, then when the time came, wouldn't the Wan family still have to invite Lin Mo back to treat the old man?

At that time, how could they go about inviting Lin Mo?

Thinking of this, Wan Zifeng's face became grim.

For the sake of his own face, for the sake of his position in the family, this time, he could not let Lin Mo win no matter what!

It didn't take long for all these examinations to be done at the scene.

And based on the results of the tests on site, it was clear that these patients were truly cured of their conditions.

The crowd at the scene also basically chose to believe in Lin Mo.

As for Qian Yong'an, the number of people who supported him was getting smaller and smaller now.

Apart from those who had interests entangled with him, everyone else, now basically, had turned to Lin Mo's side.

Prince He Qianxue was all filled with joy, and the prince said excitedly, "Now that the result is so obvious, Qian Yong'an, are you still not admitting defeat?"

Qian Yong'an's face was blue, he gritted his teeth and always insisted, "The examination results are not yet done, I haven't lost yet!"

The prince bristled, "You really don't see the coffin and don't shed a tear!"

"Since you insist repeatedly, I will let you lose!"

"Come, take them to the hospital and have other comprehensive examinations."

"After the tests are done, send me back the results!"

A team of people immediately rushed out beside the poisonous spider and escorted the group to do the examination.

Qian Yong'an turned his head to look at the Ten Great Families, hoping that the Ten Great Families would also send someone to keep an eye on them.

However, the Ten Families were all indifferent and no one spoke up.

These people already knew that they would lose this time, and now they did not want to toss and turn anymore.

Qian Yong'an's face was pale, he knew that he was now abandoned by the Ten Families.

He was resentful to the core, but there was nothing he could do about it.

That was how people's hearts were, when you won, everyone would flatter you.

When you lose, everyone will step on you, including your loved ones!

Just as the ten clans were silent, Wan Zifeng stood out and said aloud, "Since we're going to the hospital for an examination, we need to send more people over to keep an eye on it, who knows if someone might fake it from there?"

"A few of you, go over together, I want you to watch these people do the examination with your own eyes."

"If anyone dares to tamper with the test results or threaten the medical staff, there's no need to report to me, just take them down!"

Hearing these words, the crowd around the room burst into a cutting whisper.

Wan Zifeng, this was obviously aimed at Lin Mo.

Even at this point, Wan Zifeng, still wants to go against Lin Mo?

Chapter 1642

In response to such a situation, Lin Mo only gave Wan Zifeng a deep look and did not say anything.

Wan Zifeng was actually a little flustered in his heart after being given this stare by Lin Mo.

However, now that things had come to this point, he could only hold on to the end.

He had already secretly decided in his heart that once Lin Mo won this time, he would find a way to a*sa*sinate Lin Mo no matter what, otherwise it would be hard to quench his heart's hatred!

Next to him, Duke Wan was filled with helplessness and said in a low voice, "Second Uncle, why are you doing this?"

"It's already this time, the big picture has been decided, why are you still supporting Qian Yong'an?"

Wan Zifeng was annoyed, "Shut up!"

"What do you know?"

"Didn't you see how I was beaten by them? Did you not see how many people died in our Wan family?"

"These sons of b*tches don't even care about our family."

"If I don't fight them to the end, won't that make people think that our Wan Family is afraid of them?"

Duke Wan sighed, "Second Uncle, even if the Wan Family has suffered a loss here, it's not Lin Mo's fault!"

"We've already said when we came here that the Wan family only came to ask the divine doctor to return to help cure the illness, we don't care about anything else."

"You have no grudge against Lin Mo, this time it was all because you insisted on supporting Qian Yong'an that it came to this."

Wan Zifeng was furious: "What do you mean?"

"Are you saying that I've done something wrong?"

"What is your status? What are your qualifications? How dare you speak to me like that?"

Duke Wan's face swelled red as he clenched his teeth and clenched his hands into fists.

Seeing such a situation, Wan Zi next to him reached out and gently pulled at Duke Wan, gesturing for him not to continue arguing.

The Duke sighed and turned his head to the side, paying no more attention to Wan Zifeng.

After being counted out by Duke Wan, Wan Zifeng became even more irritated.

"This Lin is just a clown, what does he know about medicine?"

"I just don't believe it, this Lin surnamed can win today!"

"I tell you, even if the test results prove in a moment that these people are really cured, I will definitely not approve of the results!"

"I want to trace these patients to the end, maybe it was that Lin who arranged them."

"He had someone cure them in advance and then put them here to pretend to be deceiving people!"

"This son of a b*tch, despicable and shameless, insidious and cunning, what can't he do?"

Wan Zifeng gritted his teeth and said.

Duke Wan was utterly speechless, he could see that this Wan Zifeng was now bordering on madness.

It wasn't that he didn't trust Lin Mo, he was simply too hateful towards Lin Mo, and that was why he was frantically trying to find ways to suppress him.

And this Wan Zifeng's character had always been like this.

It was only that, in the past, outside, others were afraid of the prestige of the Wan Family and treated him with respect.

Even if they had a grudge against him, the other party would immediately apologise and beg for forgiveness, so Wan Zifeng had always flaunted his power.

This time, in front of Lin Mo, the Wan Family's name was useless, and Wan Zifeng had suffered such a loss, how could he accept it?

However, Duke Wan was really worried in his heart.

If Wan Zifeng continued to make trouble like this, there would definitely be no good results.

Lin Mo, the Prince of Poisonous Spiders, these were not good fighters.

If he really provoked them, I'm afraid it wouldn't end well if things got too big!

Besides, Prince Wan still wants to invite Lin Mo back to treat the old man's illness. If he really offended Lin Mo, would he still be able to invite him back?

After a moment of silence, Duke Wan took a step back and quietly took out his mobile phone and sent a message to his father, giving a general overview of what was going on here and asking him to make a decision.

On the other side, Wan Zifeng was still totally unaware of what Duke Wan had done.

He was still standing at the door waiting anxiously, and when he saw that those who had gone over to do the examination had returned, he immediately jumped up and asked loudly, "How did it go? What are the results of the examination?"

Chapter 1643

Among these people, a few of them were from the Wan family's side.

One of them was full of frustration and waved his hand helplessly, "Second Master, these people, they're really cured!"

Wan Zifeng directly froze, and then broke into a curse, "Bullsh*t!"

“How is this possible?”

“That Lin doesn’t even come from a medical school, he’s just a son-in-law who eats soft rice, how could he have cured all these patients?”

“I don’t believe it!”

“I don’t accept this result!”

On the stage, Qian Yong’an was frozen.

What was this?

Before he could retort, Wan Zifeng had already spoken first?

The prince was furious and shot up, “Who are you, who are you to not accept?”

“You were the ones who said it was a fair competition just now, and your Wan family also put out someone to be the judge.”

“Now that the result is out, you say you don’t accept it?”

“D*mn it, people from the Wan family, are they that unreasonable?”

All the people around were also in an uproar, this matter, now that the dust had settled, Wan Zifeng still didn’t accept it, this was really unjustifiable.

The Duke of Wan was also anxious and said in a low voice, “Second Uncle, there are so many people here, what are you going to do?”

“This matter, if it gets too big, our Wan family’s face will be lost, others will only say that our Wan family can’t afford to lose!”

Wan Zifeng was furious, “Shut up!”

“I just won’t accept this!”

“This is not logical, why should I accept it?”

“Surnamed Lin, let me ask you, you haven’t even learnt the art of medicine, what makes you so capable of healing so many people?”

“And, still, using that method, throwing silver needles out casually and curing people, do you really take us for fools?”

“It’s obvious that you arranged everything beforehand, cured these people in advance, and then acted here, trying to raise your own price!”

“Do you really think that everyone is stupid and can be fooled by you?”

“I tell you, you can fool others, but not me, Wan Zifeng!”

The crowd at the scene looked at each other with stunned faces, could it really be that Lin Mo had bought these people off beforehand?

Lin Mo's expression was calm: "Wan Zifeng, what you said is all your own guesses!"

"You said that I have never studied medicine, hehe, this matter, in itself, is nonsense."

"It's true that I didn't go to a medical school, but how do you know if I've learned the art of medicine in private?"

"Does it mean that you are a roundworm in my stomach?"

The crowd burst out in laughter.

The prince immediately said, "Well said!"

"Humph, Wan Zifeng, you have the ability to produce facts to prove that Lin Mo has really faked!"

"If you can't produce factual evidence, you are slandering!"

"Even if you are a member of the Wan family, you can't slander others at will, can you?"

Wan Zifeng's face swelled red, yet he couldn't answer a single word.

Just then, Qian Yong'an suddenly spoke up, "Who said there was no evidence?"

Everyone turned their heads to look at him, and Wan Zifeng immediately looked at Qian Yong'an excitedly, "Doctor Qian, you have proof?"

The prince, on the other hand, bristled, "Surnamed Qian, you're still not dead yet?"

"Fine, show us the evidence and let's take a look!"

Qian Yong'an's expression was indifferent as he walked directly in front of Lin Mo and said in a deep voice, "Surnamed Lin, I expected from the start that you would definitely make a move on this competition."

"But I never dreamed that your power would be so great that even the patients selected by our Wanchun Hall could be bribed by you!"

"It seems that I have really underestimated you!"

"However, even if your power is as great as it is, in the end, man's plan is not as good as heaven's plan."

"You probably didn't expect that I had also left a little trap for you inside this competition, right?"

Chapter 1644

Hearing these words, the surrounding crowd was astonished, what other traps had Qian Yong'an left behind?

Wan Zifeng was immediately filled with excitement, "Qian Yong'an, what kind of trap did you leave behind?"

"Did you take a video of him bribing these people?"

"Is there any evidence? Transfer records are fine, show them to everyone!"

“Surnamed Lin, you son of a b*tch, I’ll see how you’ll explain this incident!”

The crowd around was also in an uproar, could it be that Qian Yongan had really filmed the video of Lin Mo bribing these people?

Lin Mo, on the other hand, had a bland expression and always had a smile on his face: “A trap?”

“Heh, Qian Yongan, what you think is a trap may not be a trap!”

Qian Yongan couldn’t help but stare, he really couldn’t figure out what Lin Mo meant by this.

However, at this point in time, he didn’t bother to think about it that much.

He took a deep breath and suddenly pointed at one of the patients, “You, stand out!”

This patient stepped out from among the crowd.

“My trap, that’s him!”

Qian Yong’an exclaimed.

The crowd around looked at this patient in unison, and Wan Zifeng even jumped off the stage in excitement, grabbing that patient’s arm: “Where’s the evidence?”

“Where’s the video?”

“Where are the transfer records?”

“Bring it out, bring it out!”

The patient looked at Wan Zifeng with a bewildered face, indifferent.

Qian Yong’an walked over, “Mr. Wan, you’ve made a mistake.”

“There is no evidence, no video, and no record of the transfer.”

Wan Zifeng said sharply, “Then what kind of trap is this?”

Qian Yong’an laughed and said softly, “The trap I am talking about is about this person, who doesn’t have any disease at all!”

At these words, the whole room burst into an uproar.

Wan Zifeng first froze, then looked at the patient with wide eyes, “You are not sick?”

“You’re not sick, you Why are you standing here?”

Yuan De, on the other hand, immediately shouted, “He’s not sick, then how did Lin Mo cure him?”

“Lin Mo, you give us an explanation!”

Only when he heard these words did Wan Zifeng finally understand what was meant.

He also immediately slapped his thigh, “Yes, this man is not sick, how did Lin Mo claim to have cured him?”

“And brought him for examination? And feeding him medicine?”

“Ouch, this is interesting.”

“Come on, come on, Lin Mo, explain to us, what’s going on here?”

The crowd around them all looked at Lin Mo in unison as well, and the expressions of all of them became agitated and angry.

They only felt that they had been completely tricked by Lin Mo!

The prince was anxious: “You are talking f*cking nonsense?”

“This man is not sick, what do you mean by bringing him here?”

Qian Yong’an sneered, “I told you, this is a little trap I set up to guard against you guys.”

“Nanba Tian was able to help him bribe those patients in the first place, making him the winner of the medical exchange.”

“This time, of course I have to be on guard.”

“Putting such a person in, he even said he gave a cure, heh, that’s a quick test to find out he’s a liar!”

The prince said sharply, “What kind of bullsh*t reasoning do you have?”

“Just now talking about a competition of medical skills, you let such a person in and gave Lin Mo medical records, you you’re simply lying!”

Qian Yongan: “Heh, a real divine doctor only needs ordinary looking and smelling to see if the person is sick.”

“If Lin Mo was really a divine doctor, he would naturally be able to see that the person wasn’t sick.”

“So, I’m not really lying here!”

The crowd around them roared in approval, and Wan Zifeng even clapped his hands in excitement, “Well said, well said!”

“Doctor Qian, you’ve done a great job!”

“Hahahaha, Lin, what else do you have to say now?”

Chapter 1646

As soon as Qian Yong’an finished asking, the crowd at the scene spoke up, saying that this man was not sick at all.

Yuan De and the others, even shouted insults at Lin Mo, saying that Lin Mo was simply clamouring for attention here.

He Qianxue lowered her head, her mood was also sullen, she really couldn’t understand how such a thing could happen.

Only when the crowd's voices had fallen did Qian Yong'an look at Lin Mo and sneered, "Divine Doctor Lin, you just said that every doctor's judgement is different."

"However, these hundreds of doctors on the scene have unanimously decided that he is not sick."

"Do you think that it would happen that hundreds of doctors, all judged wrongly?"

Lin Mo smiled lightly and said softly, "Why wouldn't it?"

When this statement was made, the whole room was in an uproar.

With this one statement, Lin Mo had offended the entire audience!

Those doctors opened their mouths in anger, while Yuan De and others even cursed, saying that Lin Mo had insulted those who studied medicine.

Lin Mo was very calm as he stood with his arms folded and said in a loud voice, "All of you here are considered famous doctors."

"Don't you think that this patient has a yellowish complexion and his eyes are faintly red?"

One agent said directly, "Lin, don't talk such nonsense!"

"What's wrong with a yellow face and red eyes?"

"When we diagnose someone, we look at the results of the person's examination and speak from the data, not from the colour of his face!"

"Some people are just born with yellow skin and red eyes, so what's wrong with that?"

Qian Yong'an also sneered, "Lin Mo, do you know why I asked him to come here?"

"Just because his face is yellow and his eyes are red, he looks a bit like a sick person."

"I didn't expect that you would judge him to be sick with this."

"Heh, this medical skill of yours is laughable!"

"Only a charlatan would judge someone like that, right?"

The crowd around them all laughed loudly, looking at Lin Mo with contempt in their eyes.

Lin Mo smiled faintly, "It seems that you guys really don't understand his situation!"

"Since that's the case, then I won't hide it!"

After saying that, he suddenly took a step forward, pointed at the patient and shouted, "Let me ask you, next to your left thumb, is there a black mole on your left foot?"

The patient froze for a moment, "How do you know that?"

The crowd at the scene was also puzzled, and one agent glared, "Surnamed Lin, are you sick?"

"People have black moles on their feet, you want to care too?"

Lin Mo ignored him and continued to ask, "This black mole started to appear when you were eight years old."

"At first, it was only the size of a pinpoint, and you either didn't notice it at all."

"But, then this black mole, grew bigger and bigger."

"Now, it's almost as big as a soybean, isn't it?"

The patient's eyes glazed over, "How do you you know that?"

"I did have such a black mole, and it did start growing when I was eight years old."

"But, this these things, I have not told anyone else ah"

The crowd at the scene was in an uproar, how did Lin Mo know about this matter?

Wan Zifeng sneered, "Surnamed Lin, you actually even bribed this kid's family?"

"Talking about some things from his past and trying to bluff people here?"

"Heh, we're talking about whether he's sick or not, we didn't ask you to tell his fortune!"

The patient scratched his head, "This thing, even my parents and my daughter-in-law don't know about it, ah."

The crowd at the scene was in an uproar, and Wan Zifeng was anxious: "What are you talking about?"

"You have such a big mole, your family doesn't know?"

Patient: "They know I have a mole, but they don't know how old I was when I started to grow this mole."

"I'm the only one who knows about this mole I started growing at the age of eight!"

"Lin Lin Shen He, how do you know that?"

Chapter 1647

When the patient said these words, the whole crowd was confused.

This was something that only this person himself knew, so how did Lin Mo know about it?

Wan Zifeng's face changed, and then he said angrily, "Surnamed Lin, you have even bought this person together, trying to lie to us here?"

The prince spat directly, "Wan Zifeng, are you f*cking sick in the head?"

"If we bribed this man along with you, then why didn't we just say before that he wasn't sick and didn't need to treat him, why did we still need to let you have a public trial like this?"

"Are all of you from the Wan family as stupid as you are?"

Many people in the room laughed out loud.

Wan Zifeng was extremely angry, but he was unable to refute, and was only so angry that his face turned blue with indignation.

Lin Mo looked at the patient and continued, "When you were a child, your skin wasn't yellow like this, and your eyes weren't red."

"Your skin gradually turned yellow and your eyes began to glow red from the time you grew this mole, right?"

The patient's eyes widened, "How do you know that?"

"What is this mole all about?"

"I've been to many hospitals, seen many doctors, had many tests and they they all said it was just an ordinary mole!"

"This condition of my skin and eyes, is it related to this mole?"

The eyes of the crowd at the scene also widened, the development of this matter, it seems to be suddenly out of the crowd's expectation ah.

Could it be that this person, really, had a disease?

Lin Mo calmly said, "For all these years, your whole body would ache every half a month."

"And as soon as you rub this mole, the pain will ease, right?"

Hearing these words, this patient shivered and fell straight to his knees, "Divine Doctor, you even know all these things?"

"I What the hell is going on with me? You save me, you save me"

This time, the entire crowd was stunned.

Lin Mo had gotten everything right, what difference was there between this and a god?

Qian Yong'an's face also changed, he suddenly realized that the situation had developed out of his control!

The main reason he had chosen this man to pretend to be a patient was because of his appearance, as if he was sick, in order to confuse Lin Mo.

But he had never dreamed that this person, who was normal in all aspects of the examination, was really sick?

If that was the case, then wouldn't he have helped Lin Mo this time instead?

Even He Qianxue was full of curiosity and said in surprise, "Brother Lin, what kind of mole does he have here?"

Lin Mo shook his head, "This isn't an ordinary mole."

"It's a poison!"

The people around were all shocked, "Poison!?"

The patient's eyes were even wider as he said urgently, "You are saying that I've been poisoned?"

Lin Mo nodded, "That's right, you are poisoned!"

"Moreover, it's a rather peculiar poison."

"After being poisoned, the toxicity will bruise together and form the appearance of a black mole."

"A normal examination wouldn't find anything special, it would just treat this as an ordinary mole."

"In ancient times, this was called the Five Poison Black Star, a very scary poison."

"Once the toxin has accumulated to a certain level, this Five Poison Black Star is completely mature."

"At this time, the black mole will rupture and the toxin will be released to the whole body, causing the patient's whole body to rot and die."

"And this, is not the most horrible thing, the most horrible thing is that the rotting flesh and blood, is also poisonous."

"If the person next to him or her accidentally touches it, they will also be similarly poisoned and eventually become this way as well."

"In a way, this is an extremely terrifying infectious disease. Once it breaks out, it will be like a plague, and many people will die!"

At these words, the surrounding crowd all exclaimed in shock.

The people present were all in the medical profession, and they knew very well what kind of horrible results would occur once such a toxic outbreak occurred!

Chapter 1648

He Qianxue was full of joy, "Brother Lin, this patient is lucky to have met you."

"Otherwise, once this poison breaks out, he will be dead."

"Not only that, the people next to him don't know, once they are exposed, that is not sure how many people will die!"

"You have really saved a lot of people this time!"

The crowd at the scene also lamented that Lin Mo had really done a heavenly good deed this time.

Wan Zifeng stood on the stage, he had a disdainful look on his face, "Just alarmist talk!"

"In my entire life, I've never heard of this Five Poison Black Star, it's simply unheard of!"

"Pretending to deceive people here, humph, do you really take everyone for fools?"

Qian Yong'an also said directly in a cold voice: "Surnamed Lin, you needn't scare people here!"

"You said he was poisoned, then I ask you, how exactly was he poisoned?"

“You said that this kind of poison is only poisoned when you come into contact with the toxin.”

“And had he been exposed to a similar patient, before?”

“And did this patient, in turn, cause a great plague?”

“How come I’ve never heard of such a thing in all these years?”

These words immediately led to many people nodding their heads.

Lin Mo smiled faintly, “The poison he was poisoned with did not come from another patient.”

“As I said earlier, the Five Poison Black Star is slowly growing. It’s only after it matures that the toxicity becomes so terrifying.”

“If he had come into contact with a patient who had been poisoned, that kind of poison, which was able to directly cause his whole body to rot and die, would not have formed this kind of black mole at all.”

Qian Yong’an said in a cold voice, “Then how did he get poisoned?”

Lin Mo looked at the patient and asked, “When you were eight years old, you made a fortune, right?”

Everyone was surprised, and Wan Zifeng frowned, “Surnamed Lin, what are you talking about?”

“Now I’m asking you to tell me how he was poisoned, who asked you anything else?”

Lin Mo didn’t answer, he just looked at the patient.

A light flashed in the patient’s eyes, “How do you know that?”

The crowd gasped again, and Wan Zifeng stared in awe, “You are still saying that this isn’t collusion?”

“You can tell he’s poisoned, that’s what doctors are capable of.”

“But how did you tell if he was rich or not?”

“Don’t tell me that you’re still a magician!”

The others were also looking at Lin Mo with puzzled faces, this was just too bizarre ah.

Lin Mo smiled lightly and looked at the patient, “Come on, tell me, how did you get rich?”

Speaking of this matter, the patient was obviously very proud and said excitedly, “When I was a child, I grew up in the mountains.”

“My family’s conditions were very poor, so I would often go into the mountains with other children and pick some mushrooms or wild fruits or whatever and take them back to sell them.”

“When I was eight years old, I went into the mountains and accidentally got separated from the others and got lost in the mountains by myself.”

“Unexpectedly, while I was lost, I mistakenly entered a mountain stream.”

“Inside that mountain stream, I came across a two-metre-tall heavy tree with nine leaves!”

Hearing this, the surrounding crowd simultaneously exclaimed in shock, most of them were full of shock.

The prince was bewildered and looked at He Qianxue in amazement, "What what the hell?"

"What heavy building?"

He Qianxue said, "Chonglou is also known as Seven-leaf One-branch Flower, a very treasured medicinal herb that is also rarely seen."

"A normal medicinal heavy lou is at most a few dozen centimeters tall and has only seven leaves."

"A Chonglou that can grow to over a metre is of high value."

"And a Chonglou that can grow to more than a metre and a half is extremely rare."

"What he encountered was over two metres tall and, moreover, a heavy lou with nine leaves."

"This is a divine medicine that can only be found within the records of medicine books, and this medicine alone would have no problem selling for tens of millions of dollars nowadays!"

The prince's eyes widened, "There's still such a thing?"

"Wow, then this kid really made a fortune at that time!"

Chapter 1649

The people around were all in the medical industry, so naturally they knew very well what kind of value this nine-leafed, two-metre-tall Chrysanthemum had!

Wan Zifeng also understood all this, but he was still unconvinced, "Surnamed Lin, explain to me, how did you know about his encounter with the heavy building when he was a child?"

"Did you investigate about his past?"

Lin Mo glanced at him, "Wan Zifeng, are you really stupid?"

"From the time his identity was revealed until now, I've been standing here, not even contacting the outside world, so how could I investigate his past?"

Wan Zifeng stuttered a bit and said indignantly, "Then how did you know about this heavy building?"

Lin Mo: "I don't know that he encountered a heavy building, but I know that he must have encountered a very rare and precious medicinal herb!"

All the people around were bewildered, and one man was surprised, "Why?"

Lin Mo smiled, "Because he was poisoned when he was eight years old."

"Moreover, he was poisoned with more than one type of poison at that time, but these poisons inhibited each other and eventually formed this Five Poison Black Star."

"So, my guess is that he encountered several kinds of poisons at that time."

"And these poisons, too, are all very rare and rarely gather together on a normal day."

“Only under some special circumstances, such as when certain divine medicines are ripe, will these powerful poisonous creatures gather together to fight for the divine medicines, and only then will such a gathering occur.”

“Therefore, I guess that he must have encountered a divine pill and it just so happened that there were poisonous creatures competing for this divine pill, and that’s why he got poisoned in this way!”

Hearing this, the surrounding crowd all froze.

These words were so well-reasoned and justified that they directly convinced everyone ah.

Even Qian Yong’an on the stage was unable to say a word at this moment.

He Qianxue clapped her hands in excitement, “So this is how Brother Lin predicted, I finally understand!”

“My grandfather also told me, but all divine medicines are guarded by poisons, otherwise they can’t grow either.”

“This patient, the heavy building he encountered, can already be said to be a divine medicine, there must be poisons around it.”

“No wonder he was poisoned, so that’s what happened!”

Those famous doctors at the scene were all nodding their heads at this moment.

Although they rarely went into the mountains to collect medicine, they were all clear that all things born are inherently mutually exclusive.

Where there were poisonous insects, there was bound to be an antidote.

And where there was a divine medicine, there was bound to be a poisonous thing to guard it, this was the law of nature!

Therefore, Lin Mo was not a divine calculator at all, but a speculation based on this patient’s condition.

At this point, the crowd became even more impressed with Lin Mo.

He was calm, meticulous, and not arrogant, this was what a divine doctor should be like!

Many people at the scene began to roar in approval, and some even clapped their hands in praise.

All these people had been completely convinced by Lin Mo!

On the stage, Qian Yong’an Wan Zifeng and the others were dumbfounded.

They had originally intended to use this patient to deal with Lin Mo, but never in their wildest dreams did they think that this patient, in the end, would just make Lin Mo’s prestige even higher!

The prince was full of triumph and said gleefully, “Qian Yong’an, Wan Zifeng, do you two have anything to say now?”

Qian Yong’an’s face was blue and he could not say a word.

Wan Zifeng gritted his teeth and suddenly jumped up violently, "I don't believe it!"

"These words are all the words of that Lin Mo, who knows if he has conspired with this patient to deceive people?"

"What the hell is going on, this hasn't been authenticated yet, I'm just not convinced!"

Hearing this at the back, Wan Gongzi almost collapsed: "Second Uncle, how do you"

Wan Zifeng waved his hand angrily, "Shut up!"

"Surnamed Lin, I just don't believe you, if you have the guts to prove to me that he was indeed poisoned!"

Chapter 1650

The crowd was in an uproar.

Honestly, the crowd did not believe in Lin Mo before.

However, the crowd now basically believed Lin Mo completely.

At this time, Wan Zifeng was still so obsessed and shouting for Lin Mo to prove it, which was really despicable.

The prince was furious: "Wan Zifeng, I think you're either sick in the head, you're just purely bad!"

"From the very beginning, you've been all sorts of yelling about Lin Mo cheating and lying."

"Now it's this time and you're still not convinced?"

"What's wrong? How much money did the top ten families in Su Province give you, and all your Wan family members, ran off to be dogs for them?"

Wan Zifeng thundered, "What did you say?"

"You dare to call my Wan family's people dogs?"

"I'm telling you, this matter, my Wan Family and you will never die together!"

The prince was also furious: "I'll just scold you, what's wrong with that?"

Wan Zifeng was so furious that he took out his mobile phone and bellowed, "I'll call the family now!"

"Even if I die here today, I will never let you insult my Wan Family like this"

Before the words left his mouth, the phone rang first.

Wan Zifeng froze for a moment, and the number displayed on it was the family head's number.

Surprised, he picked up the phone, "Big brother, what's wrong?"

An anxious voice came from the other side of the phone, "Zifeng, where is the divine doctor you hired?"

"The old man is in a very bad condition!"

Wan Zifeng's face changed greatly and he hurriedly said, "Big brother, the divine doctor is right next to me."

"Wait, I'll put him on the phone now!"

Wan Zifeng finished speaking and hurriedly handed the phone to Qian Yong'an, "Divine Doctor Qian, quick, quick!"

Qian Yong'an picked up the phone and hurriedly said, "Family Master Wan, what's the situation?"

Family Master Wan told him the general situation and Qian Yong'an was directly confused.

Where had he ever seen such a situation before?

Seeing Qian Yong'an stammering and not speaking, Wan Zifeng couldn't help but be filled with anxiety, "Divine Doctor Qian, you think of something quickly, save my old man first ah"

Qian Yong'an looked embarrassed and said stiffly, "First first give the old man with a thousand years of ginseng, this can temporarily save the old man's life"

"Other things, wait for me to go over there"

Wan Zifeng breathed a sigh of relief and shouted into the phone, "Big brother, go and fetch the thousand-year ginseng quickly."

"The one I bought some time ago is sitting in the old man's room"

Just then, an icy voice suddenly came from below, "If you don't want your old man to die a violent death, don't use the thousand-year ginseng!"

The crowd turned their heads, only to see Lin Mo standing not far away, the person who spoke, was none other than Lin Mo!

Wan Zifeng was furious: "What the f*ck do you know, surnamed Lin?"

"Thousand year ginseng, in critical moments, has a life-saving effect!"

"You won't let us use thousand-year-old ginseng, what are you thinking?"

"Are you trying to get my old man killed?"

Lin Mo shrugged, "A healer's heart."

"What should be said, I've already said."

"It's up to you guys whether you listen to me or not, I couldn't care less!"

Duke Wan hurried over, "Second Uncle, let's believe in Divine Doctor Lin!"

Wan Zifeng's face swelled red and he said indignantly, "Why should I trust him?"

"I believe in Divine Doctor Qian!"

"Big brother, just give the old man a thousand years of ginseng!"

Duke Wan was anxious, "Second Uncle, you How can you be so obsessed?"

"Divine Doctor Lin has saved the old master before ah"

Wan Zifeng was furious: "He's a liar, I won't believe him!"

"Big brother, you're right to listen to me"

There was a panic on the other side of the phone, and suddenly, a voice with a crying voice came: "Old Master What's wrong with Old Master?"

"Why are you vomiting so much blood?"

"Quickly do something"

The sound was so loud that it reached directly to the scene and almost everyone heard it.

At this moment, the scene fell into a dead silence.

The old man of the Wan family, was really going to die a violent death?
