[Chapter 1731 The Earth Changes, And My Cultivation Improves!](#)

After a long while, ye chen put the letter away. He took a deep breath and walked out of the room.

Wu Lan and the others had been standing guard at the door. When they saw ye chen come out, Wu Lan's heart tightened and she could not help but shed tears. "Little Chen, can we still see Yuhan and Mengmeng?"

"I can! I definitely can!"

Ye chen nodded heavily, then with a bitter expression, he sighed. "But it's very troublesome. Unless I can go to the spiritual realm and reach the crossing calamity stage, it'll be as difficult as ascending to the heavens."

"Why?" ye hai asked, puzzled.

Old ancestor yellow spring explained, "the underworld and the spiritual realm are of the same status. Earth is just a small chiliocosm, so there's no passage to the underworld. Only the spiritual realm has one. Moreover, if one's cultivation isn't high enough, it'll be difficult to move a step in the spiritual realm. It's extremely dangerous and you can die at any time."

After saying that, he sighed, as if he was recalling something.

When Wu Lan heard this, she became even more nervous. It was actually so dangerous. She could not help but worry about ye chen.

"Why is Yuhan able to go to the underworld from earth?" ye hai asked after a moment of thought.

Ye Chen's eyes flashed and he explained, "that's because Yuhan inherited the nether Lord's memory and power. She can summon the netherworld gate." We can only go to the netherworld through the passage to the spirit realm. "

After a pause, he promised his parents firmly, ""Don't worry, I will definitely bring Yuhan and Mengmeng back. Our family will be reunited soon. "

After everyone had left, ye chen stayed behind alone. The room still seemed to have a familiar aura. He could not help but recall the little bits and pieces of his life with Yuhan, as well as that beautiful and moving, tall and exquisite figure. His longing multiplied.

Ye chen took a deep breath and pulled himself together. He took stock of his gains during this period and planned how to go to the netherworld.

The ancient God Body needed five kinds of extreme energy to build a foundation. He had already absorbed the earth, fire, wood, and metal, so he was only left with water. According to Huo Xuan, the water element Energy should be on planet Haimin, but because of the ancient God divine spark, it had become a dead zone with no life.

Planet Neptune had already dried up. In the vast sea of stars, where could he find other planets?

Moreover, his cultivation was stuck at the half-step crossing tribulation realm. No matter how hard he cultivated, he couldn't make any progress. It seemed that he could only go to the spiritual realm to seek opportunities.

Now that the crisis on earth had been resolved, it was time to plan a trip to the outer realms and find the ultimate water-attribute energy. Then, he would break through to the Tribulation stage, head to the spirit realm, find the passage to the netherworld, and find Yuhan and Mengmeng.

However, he also had to make good preparations for Earth's protection. After all, the Earth's Foundation was almost completely exhausted in the last war. He had to leave enough means behind before he could leave in peace!

With a soft sigh, ye chen walked into the mountain behind the ye clan. On the green path, the sun shone through the leaves and sprinkled golden spots. Birds sang in the mountain and the spring water chimed. Such a beautiful scenery was very comfortable.

However, ye chen was not in the mood to appreciate it. He walked into the depths of the back mountain alone. His shadow was slowly elongated, leaving only the back of a lonely man.

.....

Time flew by, and in the blink of an eye, a month had passed.

In the past month, Earth's cultivation world had been in a state of chaos. One major event after another had happened, and it was too much for the eyes to take in.

Outside of earth, there were originally many sects from the outer realms. The spiritual energy on the Holy Lands was like clouds, and green smoke was rising. There were all kinds of rare and magical beasts. Many powerful Daoists rode the clouds and mist, as if they were in a paradise.

But now, they had all disappeared. All the Daoist sects and celestial sects seemed to have moved overnight and left earth, their whereabouts unknown.

Everyone was extremely surprised, as if an unsolved mystery had been left behind.

Only a portion of the top powerhouses knew that ye chen had personally visited each of these sects on the second day of his return.

After old ancestor yellow spring and the others took the spirit stones and treasures ye chen had brought back from the Big Dipper, they went into closed-door cultivation. During this month, the aura of a breakthrough was released almost every day in all parts of China, and the pressure filled the sky.

The Chinese were all cheering and celebrating the birth of the strong.

However, ye chen had not cultivated since he returned and rejected all those who wanted to visit him. Instead, he spent all his time with his family, just like any other person.

On the mountain behind the ye clan, ye chen was holding his son, Ye Ming, and enjoying the most pleasant time together.

In the past, he had always been fighting and neglected his family. This time, with Yuhan and Mengmeng's departure, he understood the importance of family and the beauty of family.

Ye chen lowered his head and looked lovingly at the small and cute Ye Ming. With a kind face, he said softly, "Daddy, I'll definitely find your mother and sister."

Ye Ming was also just laughing and laughing. His innocent laughter spread all over the back mountain.

Suddenly, a trace of enlightenment rose from the bottom of his heart. In an instant, his thoughts were clear, and his aura rose.

He carefully sensed and discovered that the cultivation in his body had actually advanced a little.

Although it wasn't big, it was enough to make him only half a step away from the early dujie stage!

Ye chen was enlightened. This one month of peace and quiet had allowed his cultivation base to stabilize.

At this moment, old ancestor yellow spring came out of his seclusion cultivation and said with a sigh, "I wonder what plans fellow Daoist ye has for the future?"

Ye chen looked at him. In the past month, the great Grandmaster's cultivation base had soared and he had also entered the soul splitting stage. However, his aura was a little unstable. He was in a hurry to break through and his realm was unstable.

"You want to go back, don't you?" he asked.

Old ancestor yellow spring's eyes flickered. He nodded slightly and said with a heavy tone, "The old ancestor almost died there in his previous life. There are many grudges that need to be resolved. I want revenge!"

Ye chen sighed softly and turned to look at the ye clan with a profound gaze. "Yeah, it's time to leave ..."

Although earth was his home, it was not the end.

"However, before I leave, I have to tell you to wait a few more days."

Old ancestor yellow spring was overjoyed and laughed. "No problem. I'll go and make some preparations."

After saying that, he disappeared.

Ye chen looked at old ancestor yellow spring's departing figure and sighed. Revenge was easier said than done. He could only hope that old ancestor yellow spring would not die.

Three days later, ye chen appeared alone in the depths of the void. The Pangu axe flew out of his shadow and circled around him, resonating with the Pangu divine spark in his body. It seemed like it was reluctant to part with him.

Ye chen held Pangu in one hand and consoled him softly, "Go, earth is what you need to protect."

With a loud shout, he cast a Supreme divine ability. A drop of golden blood essence flew out from his fingertip and condensed into a blood-red Charm in the air. He thrust out his palm, and the charm fused with the Pangu axe, which had turned into a beam of gray light.

The world Spirit placenta ancient axe seemed to have understood ye Chen's words. It slashed a sharp light in the void and shattered the void as if to answer ye chen, 'I'm very powerful. I can definitely protect Earth.'

Then, he flew away and went back to sleep in the depths of the green Hell.

The Pangu axe was the spirit embryo of the earth and its last resort!

He shouldn't have taken it away. He should have let it stay and continue to protect Earth.

[Chapter 1732 The Trick Before Leaving!](#)

In the future, if a descendant of the ye family could step into the soul formation stage ...

He could sense the existence of the Pangu axe with the bloodline mark he left on it. It was a little trick he left behind.

After sending the Pangu axe away, ye chen appeared in the sky above China.

His eyes flickered as he waved his sleeve. Nine brass-colored spirit cauldrons appeared, and each of them had a lifelike five-clawed spirit Dragon on it. Each of the spirit Dragons had a different expression, either fiendish, kind, or thunderous ...

The nine brass spirit cauldrons floated in the air, shining with dazzling Starlight. They gave off five-colored divine light and spiritual energy. They were extraordinary.

These were the nine spirit cauldrons that ye chen had forged three days ago at the cost of his cultivation base and countless natural treasures. They were called the nine heaven-stealing cauldrons.

This cauldron could suppress fate, gather the spiritual veins of the nine regions, and protect the mountains and rivers!

The next moment!

With a wave of his hand, the nine brass spiritual cauldrons rose into the air and flew in nine different directions in China.

"Boom boom boom!"

As it came down from the sky, nine rays of five-colored light shot up into the sky and gathered above China, shining in all directions.

Ye chen stood in the air, holding the Emperor brush in his hand. He wrote on the colorful light. One after another, mysterious runes glowed in the air, layer by layer, as bright as the stars.

"Suppress!"

As soon as the word "suppress" fell, a five-colored light shot up into the sky, piercing through the clouds and straight into the starry sky. The bright white moonlight was plated with a layer of five-colored light.

The nine pinnacles mountain river formation was complete!

This array could suppress China's fate and make China prosperous for centuries!

Ye chen stood proudly in the air and looked at China, which was surrounded by the nine pinnacles mountain river formation. He frowned and said to himself, "This method is still not safe enough. I need to add one more. This way, I can leave earth without any worries. Even if I encounter a strong enemy, I can still block it."

In the next moment, he took a step forward and left earth. He once again stepped onto the ancient starry sky path. Countless stars flashed by, and the Starlight was dazzling.

Ye chen glowed with a golden light. He used the power of his physical body to cast the ancient God divine ability. With a clench of his hand, he caught the star that flashed by like a ray of light. It was a newborn star. The astral Soul in the core was full of vitality. The innate spirit energy inside was almost condensed into crystals. In a few hundred light-years, it would give birth to a new life.

Ye Chen's cultivation base exploded and he did the same thing. He captured three more newborn planets and forcibly extracted a star soul that was about the size of earth.

Ye chen was panting heavily. He returned to the sky above earth, drenched in sweat. With a wave of his right hand, the soul of the stars, as white as light, poured down into the earth like the Milky Way falling from the nine Heavens.

At this moment, the entire earth underwent a violent change.

The earth quaked and the mountains shook! Spiritual veins broke out from the ground and the mountains and seas shifted horizontally! The rising spiritual energy condensed into clouds in the sky. Not long after, it started to rain heavily! That was spiritual liquid, countless spiritual liquid!!

Everyone on earth felt the surge in spiritual energy. Countless cultivators' cultivation levels rose sharply. Some of the elders who had been unable to break through for a long time now easily broke through and returned to their youth. Many newborns even awakened their innate spiritual meridians. The strength of the Earth's immortal cultivation world had increased greatly.

The sky cleared up after the rain. At that moment, everyone on earth felt that the world seemed to have become stronger. Their energy was more exuberant, and their cultivation speed had also increased.

Emperor ye was the only one who could do such a thing!

Many experts couldn't help but kneel towards the depths of the sky and said gratefully, "Thank you for your kindness, great emperor!"

At the same time, ye chen was heading to the ancient barren world and the purple sky World.

He used his Immortal Technique again, causing the space to tremble.

The cultivators of the two worlds looked up and saw that the void had shattered in the sky. Two passageways spiraled out like vortexes, and the ten-colored flowing light inside formed the passageway barrier, sealing off the violent and dangerous space-time turbulence, making the passageway extremely safe.

The two worlds would be completely connected to earth.

The two worlds were in turmoil, and the cultivators were all shocked. It was like a legend.

"Who is that? It actually has such a divine ability!"

"That's Emperor ye!" Some cultivators recognized the powerful figure and bowed deeply in the direction ye chen had left.

Ye chen did not stay for long. He soon arrived at Mount Kunlun.

Due to the infusion of the soul of the stars, Mount Kunlun had also undergone a tremendous change. Spiritual Qi was abundant, spiritual plants grew wildly, flowers bloomed everywhere, and the mountain was like spring all year round.

p The spiritual Qi was as refreshing as the spring breeze. There was even a celestial Lake filled with spiritual liquid. It was as if the majestic wind of the ancient Holy Land of cultivation had reappeared. It was the number one celestial mountain in the world!

Ye chen went deep into Mount Kunlun and formed a seal with both hands. He struck out divine patterns in the void. The void sparkled like water and a round door slowly took shape. It was the resplendent ruins of Kunlun of the upper three heavens.

That was where the transcendental forces of the early Earth were located!

Ye chen pushed with his arms and the door suddenly stabilized. A white light shot out from the other end of the passage. He could faintly hear the exclamations of the crowd on the other side.

Ye chen stepped into the passage and quickly appeared on the other side. His disciple, Xiao Ya, had led everyone to pay their respects.

Ye Chen's eyes surveyed the area and slowly said, ""The crisis on earth has been resolved. I will reopen the upper three heavens and the ruins of Kunlun will appear again."

He looked at his disciple, Xiao Ya, and said in a low voice, ""I appoint Xiao Ya as the master of the ruins of Kunlun. I must rebuild Kunlun Mountain as the number one Holy Land for immortal cultivation."

Xiao Ya was overjoyed. She knelt down on one knee and shouted, ""This disciple will definitely not let you down."

He then left behind a portion of his inheritance in the ruins of Kunlun and told Xiao Ya telepathically, ""I'm leaving Earth. You have to cultivate well and bring our sect to greater heights!"

"Yes!" When Xiao Ya heard that her master could leave earth, she had mixed feelings in her heart. She secretly made up her mind to become stronger and catch up with her master.

After a few days of hard work, ye chen finally returned to Lin city. He gathered the ye clan and established the ye clan's ancestral temple.

At the ye family's ancestral hall ceremony, almost all the members of the ye family, both direct and branch families, came. They just wanted to bring their juniors to meet the legendary Emperor ye.

After the ancestral hall ceremony ended, ye chen looked for his father, ye hai, and said, ""Dad, I'll be leaving Earth in a few days."

Ye hai sighed and patted ye Chen's shoulder. He said earnestly, "I know that you're all grown up now and have your own ideas. There's no rush in finding Yuhan and the others. You have to wait until you're strong enough before you plan."

Ye chen nodded in agreement and then said to his father, ye hai, "After I leave, when second uncle and second aunt reincarnate and regain their memories of their past lives, father can let them acknowledge their ancestors and return to their clans."

Ye hai nodded.

Ye chen spoke again, "I've set up an abhijna formation in the Lin family's ancestral hall. In the future, if the ye family is in danger of being exterminated, they can escape to this place to take refuge. As long as someone with the ye family's bloodline drops a drop of blood on the ancestral Hall's spiritual altar, the formation will be activated. Once the formation is activated, all living beings within a ten-thousand-meter radius will be exterminated. Use it with caution!"

[Chapter 1733 Farewell, Earth!](#)

Today was the day ye chen would leave earth.

At the entrance of the ye family.

The ye family's main door had a retro atmosphere, and the two words "ye Manor" were written on the plaque.

Cultivators could see the spiritual light flashing on it. It was a protective spiritual treasure. As long as someone attacked the house of ye, it would activate the shield and only those at the form synthesis stage could break it.

On each side stood a stone statue, which was also a spirit artifact puppet. The Azure Dragon on the left and The White Tiger on the right had lively expressions and were lifelike. The two of them together could rival a late-stage soul separation powerhouse. Ye chen had spent countless treasures and even shattered a Supreme Spirit artifact to refine them.

In addition to these, ye chen had left behind many other means. It could be said that if the Pangu axe was not used, the ye residence would be the safest place on earth.

After ye chen had breakfast made by his parents, the family walked out of the house.

Ye Wen, Xiao Ya, Yang Hao, Yang Tian, and the others were already waiting at the door.

Everyone looked at ye chen, reluctant to part. Some lowered their heads and cried, while some could not stop their tears from flowing.

His cousin, ye Wen, in particular, ran and threw herself into ye Chen's arms. Her tears wet ye Chen's clothes and she sobbed, "Brother, can you take me with you? I don't want to be separated from you. "

Ye chen consoled her, "silly child. You have your own path to walk. You can't stay by my side forever. I promise you that once I've stabilized my position in the spirit realm, I'll come back to pick you up."

Yang Tian was also reluctant. He pursed his lips and said with a trembling voice, ""Old ye, when you get there, you must Miss Me More."

The two of them looked at each other, the reluctance in their eyes clear.

"I will. After all, you're the best brother I've ever had in my life." Ye chen smiled and teased.

Yang Tian immediately burst out laughing.

She laughed so hard that she cried.

Ye chen turned to look at the four Grand Wizards standing behind the crowd and asked, ""Are the four of you sure you don't want to leave with me?"

The four ancestors of sorcery shook their heads. "We are still connate living beings of this world. Our responsibility in life is to protect this world. After you leave, we will turn into stone statues and sleep to continue our mission."

Ye chen nodded and could only give up. He then bowed deeply to the four great wizard ancestors, showing respect to the four of them who had adhered to their mission and lived to protect.

Everyone stepped forward to bid farewell.

In the end, ye hai stepped forward and hugged ye chen tightly. He sobbed, "I'll take good care of the house. Don't worry, go ahead and bring back Yuhan and Mengmeng. Go home early!"

Wu Lan hugged Ye Ming and had already turned around. Her back was facing ye chen as she sobbed.

Ye Ming seemed to have been infected by the emotions of everyone's departure. He pouted his little mouth and looked at ye chen with eager eyes.

Ye chen turned around to look at everyone's faces and engraved them in his heart. These were his closest family members and his most trustworthy brothers and sisters.

The next moment!

He stepped on the void and quickly rose into the sky along with old ancestor yellow spring, ye Wushuang, Yi, the Golden ape, and the Golden Toad.

He couldn't bear to look at it anymore. Even if home was the warmest, he had things he had to do. Even if he died, he had to press forward!

The people on the ground waved goodbye to the stream of light that was leaving.

At that moment, in every part of China, ye Chen's old friends all looked up at the sky. They could not help but recall the days they spent with ye chen. That young man had become the hero who saved the earth and was now going to the outer realms to write his own legend!

"Mr. Ye, farewell!" He said to himself in a low voice.

This was because many of them had limited talent and were destined to experience life, old age, illness, and death.

Perhaps, by the time ye chen returned a few decades later, they would have already turned into dust.

However, it was worth it to be able to get to know the god-like Emperor ye!

At the same time, the world Spirit placenta ancient axe in the depths of the green nether trembled slightly as if it was saying goodbye to ye chen and then continued to sleep.

On Mount Kunlun, Xiao Ya, the new master of the ruins of Kunlun, was in high spirits.

Her eyes were firm, as if she could see through the layers of clouds and see the figure in green leaving. She clenched her fists and said, "Master, I will definitely complete your task! I must become stronger!"

On earth, everyone looked up at the void in unison, as if they had a telepathic connection.

Although they couldn't see it, they could all feel it. Someone very important was leaving them, going far, far away, to a place they would never be able to reach in their lifetime.

They had already guessed that today's earth legend would eventually leave!

At that moment, countless people knelt down and looked into the distance.

Emperor ye, goodbye!

Some children were very confused and asked the adults what they were doing. The adults would tell them a story: There was once an evil demon who wanted to destroy the earth. At that time, an expert appeared. He descended like a god and killed the great demon, saving the earth.

That man was the great emperor ye!

Ye chen might have left, but his story would continue to be passed down. The Earthlings would remember everything he had done!

In the far north of the ocean, there was an extremely dark place.

It was bustling with noise and laughter, as if they were celebrating something.

On the table, there were many fierce faces, looking at the sky with hatred.

One of them, a burly man with thick eyebrows and big eyes, smashed his wine bowl and said happily, "That ye is finally leaving. Once he's gone, it'll be our chance to shine."

"That's right. The day he leaves, I'll destroy his family. I'll capture his son to practice divine arts and turn his parents into corpse puppets. In short, I won't let anyone with the surname ye off!"

The black-robed man hiding in the dark corner laughed eerily.

"That's right, hahahaha ..."

Everyone laughed heartily.

All of them were either enemies that ye chen had offended over the years or evil cultivators who had committed heinous crimes.

Most of them were half-crippled or were hiding like rats, afraid of being killed by ye chen.

Therefore, they hated ye chen to the core. It was ye chen who had caused them to lose everything and be forced to hide in this godforsaken place.

All of them gritted their teeth, wishing they could pull out his tendons and refine his bones, dismembering him into a thousand pieces.

Now, the butcher's knife on their necks had finally been put down. They finally did not have to hide here and there, living in fear.

As long as ye chen was far away, they would slaughter the entire ye family. They must not leave even a chicken or dog alive!

Many people laughed sinisterly, celebrating ye Chen's departure. It was as if they could see the moment when the ye clan was destroyed. Their smiles became even more terrifying and sinister.

"BOOM!"

Suddenly, a huge foot descended from the sky and stomped everyone to death!

The earth trembled, and the huge hole created by the step was quickly filled up by the sea.

The entire world fell silent.

In the air, ye chen shook his head slightly and laughed. "Do you really think this ye is deaf? It'll be easier to kill you than to stomp an ant. "

The next moment.

He led his people and flew out of Earth. The earth became smaller and smaller until it became a blue bead.

At the same time, he sighed in his heart and looked at the starry sky with determination.

Farewell to earth!

Yuhan, wait for me!

[Chapter 1734 Back To The Big Dipper Constellation!](#)

In the depths of Mount Jiangjun.

Ye chen led the group to the ancient starry sky teleportation formation. An old formation was engraved on the stone plate. It looked ordinary.

Everyone looked at ye chen. They looked at the runes on the paper in a daze, completely lost.

Ye chen took a step forward and with a wave of his hand, a pile of spirit stones appeared. The formation was activated and the spiritual energy on the spirit stones was instantly absorbed, turning into fine powder and disappearing into the starry sky.

"Is this the space teleportation formation that fellow Daoist ye was talking about?" Old ancestor yellow spring's eyes flickered as he immediately recognized it.

"It is!"

Ye chen nodded slightly.

The ancient starry sky teleportation formation spell glowed brightly and a ball of light suddenly rose up. The Starlight wrapped everyone inside and sent them into the tunnel.

"Are they leaving?"

He saw the star behind him fly past him like a white line.

The Earth and the Moon were left far behind.

Ye chen could not help but look back and feel the stars that were connected by blood gradually drifting away. A trace of melancholy grew in his heart.

Then, his body, which was originally just flying at a high speed, suddenly accelerated. His speed was the same as that of the planet beyond the barrier of the channel, which had surpassed the speed of light. The two of them moved opposite each other.

"Is this space teleportation?" Feeling the unbelievable speed, everyone couldn't help but sigh.

Ye chen nodded. His eyes flashed and he explained, "In the starry sky, if you want to go to other star areas, you must rely on the starry sky teleportation formation. If you travel alone in the starry sky, you will never be able to reach it."

"It's that far? We don't feel that far now. "

Ye chen chuckled and pointed to the outside of the passage. He continued, ""That's because of the tunnel barrier. The planets in the area aren't moving. They're just white lines when we fly past them."

Everyone looked outside and was amazed.

Ye chen continued to explain. "The flow of time in the passage we're in now is different from the outside world. We've flown one meter here. It's equivalent to flying one light year outside, or even further."

Everyone came to a realization!

On the deserted Sea Owl Star, the surrounding Starlight suddenly gathered in one place. The Starlight flowed and countless ancient mysterious runes jumped out of the water like fish, forming a gate to the starry sky in the void.

Ye chen took a step forward and the group finally arrived at the Big Dipper constellation.

"Is this the Big Dipper constellation?"

Some people looked up at the starry sky for the first time, and there was only endless darkness and silence. The stars under their feet were shattered, and countless gravel floated in the void. Life had been extinguished, and only the stars in the distance were shining.

"This is just a barren land. Let's go!"

Ye Chen waved his right hand and a spirit boat transformed into a stream of light from his sleeve. It grew larger and larger in the void. There were pavilions and pagodas on the spirit boat, and all the living facilities were available.

The group of people got up and flew out. They boarded the spirit boat and quickly crossed the void, heading towards the vast starry sky.

In the main hall of the spirit ship, everyone sat in a circle. Ye Chen took out some fine wine and spirit fruits and drank a cup. He put down the cup and slowly said, "Although the starry sky is beautiful, it's also extremely dangerous. You must remember what I'm going to say next."

When everyone heard this, their joy at the starry sky disappeared, and they frowned as they listened attentively.

"There are countless dangerous places in the starry sky. There are space-time turbulences, ancient Forbidden Lands, and even some beautiful space wonders. They're just traps for hunting. There's a kind of life form that travels the Galaxy in the void called star beasts. They're very powerful, so try not to kill them easily. "

He paused for a moment and continued. "The most common ones are space pirates. They are a group of dangerous cultivators. They rob passersby. They are extremely vicious."

Old Ancestor Yellow Spring and the others were also sharing their experiences of exploring the starry sky in their previous lives. They could help them understand the starry sky so that they could quickly adapt to the cultivation life here.

At the same time.

In the starry sky, there were many Star Fragments or some huge Star Stones floating. These Star Stones were some common minerals and small stars that had not been able to produce life. Their surfaces were full of potholes, and they were hidden in the Rocky Belt. It was a paradise for space pirates and criminals.

The abandoned Chuanshui Star was the base of the notorious Anyang pirate gang nearby.

"Boss, boss, there's a big fish." A dumb-looking space pirate rushed into the hall.

The captain of the Anyang pirate gang, who had a scar on his face and was drinking wine, suddenly stood up and said in joy, "Where are you? Lead the way. "

He picked up the blood-red long saber by his feet and stepped out of the door.

The other space pirates followed behind and grinned cruelly. There was business at their door.

"Boom boom boom!!!"

In the distance, a stream of light struck the spirit boat's shield and exploded. The spirit boat shook violently, and the shield dimmed a little.

After the conversation ended, ye chen and the others, who were meditating and resting in their respective rooms, heard the commotion and quickly rushed to the deck.

All they saw were all kinds of flying boats appearing around the spirit boat, blocking the group's path.

Looking around, many space pirates on the flying ships were holding weapons and looking eager to try. The brawny man in the lead had a long saber on his shoulder and laughed wildly. He looked at the spirit ship with a greedy look. "Spirit boat? We're rich this time. "

The leaders of the various flying ships were actually soul splitting stage experts.

In the Big Dipper star area, a cultivator at the soul separation stage was already an Overlord. After all, the form synthesis stage didn't appear often.

As a result, they had been successful in this part of the starry sea time and time again. They were wanted by the countries of many large stars, and the bounties were frighteningly high.

Unfortunately, they had encountered ye chen and the others today.

Ye chen looked around and examined the leader's body with disdain for a few seconds. Then, he sneered. "Wushuang, go and kill the leader."

Ye Wushuang nodded and slowly stepped out of the spirit boat with his sword on his back. He faced the pack of wolves with his sword!

The leader of the Space Pirates was furious. He was a soul splitting stage expert, but the other party dared to come alone and look down on him. He was courting death!

"Kill him!" Blood Blade pointed and shouted, "boys, attack together and kill him!"

All the Space Pirates in the surroundings flew forward. The leader's cultivation was unleashed and his blood-red Zhen Yuan soared into the sky. He held a blood-red long saber that was surging with red light and charged straight at ye Wushuang.

"Die!"

A blood-red blade light streaked across the sky like a Scarlet half-moon, splitting the sky and earth as it swept towards ye Wushuang.

Ye Wushuang stood proudly in the void, his Taoist robe flying in the wind, his right hand holding a sword.

"Woof!"

A crisp sound resounded through the starry sky. He unsheathed and sheathed his sword in one go!

A bright white sword light instantly appeared in front of everyone's eyes. It was like a thin line that condensed and slashed toward the saber Light.

"BOOM!"

Saber Light and sword shadows crossed each other.

When the huge blade light met the thin line, it melted like snow meeting fire. Then, it quickly rushed toward the leader. Before he could react, the sword light flashed.

[Chapter 1735 1739-Trading With The Mysterious Star!](#)

Silence.

The starry sky suddenly fell silent.

The remaining space pirates looked at the body that was floating in space and was split into two. They were so terrified that their faces turned pale and they broke out in cold sweat.

It was too terrifying!

Quickly run!

The rest of the Space Pirates were scared out of their wits. They trembled in horror and fled in all directions on their flying ships.

Ye chen stood at the edge of the deck. He was also surprised by ye Wushuang's sword. He had made a breakthrough in his sword technique.

Suddenly, he spread his fingers and extended his palm. A powerful suction force swept toward the escaping flying boats.

The nearest dark black flying boat was being sucked in tightly.

A person on the flying boat realized in horror that he was getting closer and closer to the spirit boat. He shouted madly, "No! Quickly save me!"

No one responded to him. The Space Pirates felt that the aura of the person who had just attacked was even more terrifying. Instead, they burst out with even faster speed and flew away in different directions without looking back.

The man kept unleashing his soul formation cultivation, but it was of no use. He could only watch in despair as he was sucked to the deck.

Ye chen looked down at him. Tears were welling up in his eyes, but he did not dare to cry.

"Is there any place nearby where we can stay or trade information?" he asked.

Ye chen needed the ultimate energy of the water attribute and to find a way to go to the spirit realm. The simplest way was to buy information.

The man's body suddenly trembled, and it took a long time for him to come back to his senses. He kowtowed to the ground with all his might, and he cried bitterly, "As long as ... You let me go, I'll tell you everything."

"Or, you die," ye chen said coldly.

"I said, there is a trading planet nearby. It is called the dongxuan planet. I often go there with boss to fight for things." The man kneeled on the ground and answered hurriedly.

"The so-called trading planet is a planet that provides free trade for cultivators from the surrounding planets," sky-treading old Daoist explained.

Ye chen nodded.

He had known this before.

Not long after, a corpse that had died with his eyes wide open floated in the starry sky. This was something that happened every day in the starry sky.

No one took the interlude of the Space Pirate robbery to heart.

At this moment, the referee stepped forward and after a long time of preparation, he said, ""Ye chen, I want to leave on my own."

"Why?" ye chen frowned and asked softly.

"I have my own path to walk, I hope we can meet again in the future," Yi took a deep breath and said firmly.

With that, he disappeared into the void.

Ye Chen's expression was complicated but he understood.

Yi was a proud person, the Emperor of the ages. He was the most brilliant person in the world, and he could only become stronger by persisting in his own Dao.

Moreover, Richard had helped him many times, and he was very grateful to have such a close friend.

Ye chen cupped his fists in respect as he watched the house disappear.

Soon after, the Golden ape and the Golden Toad also walked out and said in a muffled voice, "We are going to follow master's footsteps. Everyone, let's part ways here. We will meet again if fate permits."

After saying that, he left.

Ye chen cupped his fists and bid farewell again.

"Fellow Daoist ye, we should also go."

Tatian old Daoist was also leaving and invited ye chen to visit the clan.

Ye chen shook his head in refusal.

He shook his head and left with Hong Xiu.

Looking at the half-empty deck, ye chen felt sad that more than half of the people had left.

Old ancestor yellow spring also sighed and consoled, "This is how cultivation is. Birth, old age, illness, death, gathering and separating are all very normal."

Ye chen nodded. They all had their own paths and missions. It was impossible for them to always be with him. However, he could not help but feel a little lonely. There were fewer people on the same path as him. He could only hope that they would be safe.

Planet dongxuan was a free-trade planet in the Big Dipper.

No matter who you were or what identity you had, you could trade here and be protected by planet dongxuan. Therefore, this place was well-liked by space pirates, pilferers, and scammers.

The spirit ship that ye chen and the others were on finally arrived at the trading star, Black Planet. The three of them concealed their auras and looked like mid-stage golden core cultivators as they descended on the planet.

Along the way, ye chen discovered that the planet was not very large. Most of the planet's surface area was ocean. The planet was filled with cultivators. The lowest cultivation level was the Golden core stage while the highest was the soul splitting stage.

"Big brother, what are our plans?" ye Wushuang asked.

"Of course, I'm looking for the Ascension passage to the spirit realm," ye chen replied after a moment of thought.

The spiritual realm was a greater world. It could not be reached by crossing the void. One had to find a passage to ascend to it.

The group strolled around planet dongxuan. There were many cultivators setting up stalls, selling treasures and spiritual plants from dangerous places and historical remains.

Ye Wushuang had been walking around to gather information.

When they passed by the sea, an old Daoist took the initiative to approach them. After looking at the three of them, he invited them, ""Fellow Daoists, are you also going overseas to search for the snow ink?"

The old Daoist's cultivation was only at the late-stage of the Golden core realm. Behind him were three men and a woman. Their cultivation levels were similar. It seemed that they were rogue cultivators.

The inksnow liquid he mentioned was one of the main ingredients to make the nascent cultivating pill, and it was relatively rare.

Ye chen was not interested in this. Just as he was about to refuse, a young man behind the old Daoist suddenly said, ""Fellow Daoist, it's said that there's a passage to the spirit realm overseas."

Ye Chen's heart skipped a beat, but his mouth remained unmoved. "The spiritual realm is so far away. Could it be that fellow Daoist wants to trick me into being your fighter?"

The young man immediately became anxious and hurriedly said, ""There really is a passage to the spirit realm. I personally saw a deity transformation-stage senior leave through it."

Ye Chen's eyes shifted and he pretended to smile. "The Ascension passage is not attractive to me. After all, I'm only a mid-stage golden core cultivator. But this fellow Daoist's snow ink is attractive to me."

The three of them agreed to join the old Daoist's team.

The old Daoist then proudly introduced, "I accidentally discovered an ancient ruin in the depths of the sea. I have been on the periphery all this time. Later, I discovered that there was the existence of the snow ink in the depths. However, my strength is limited, so I can only invite you all to help me."

The old Daoist continued, "I was the one who discovered the snow ink. I want 30%. The rest will be split equally between you two. Any objections?"

Everyone shook their heads and had no objections. This distribution method was also reasonable.

Everyone waited at the mouth of the sea for a while. After the old Daoist invited another young Woman in Black who was in the exceptional gold core realm to join them, he led everyone to the ocean.

Ye Chen's eyes swept over The Woman in Black and discovered that she had hidden her cultivation base. Her true cultivation base was actually at the early void refinement realm.

He laughed coldly to himself.

Along the way, the young man had been trying to chat with the black-clothed woman.

The black-clothed woman was disdainful of everyone and said very impolitely, "With your cultivation levels, going to such a dangerous place would be suicide."

After that, she deliberately glanced at ye chen and said coldly, "Especially you!"

The others were furious. The black-clothed woman had offended them with just a few words.

[Chapter 1736 The Ancient Ruins Under The Sea!](#)

Through the introductions, ye chen found out that the Daoist priest's surname was Xu, the young man's name was Cheng Gong, and a man and a woman were Cheng Gong's siblings. The Woman in Black called herself Lian. The eight of them set off.

Along the way, Daoist elder Xu was as passionate as fire. He introduced the various treasure and dangerous places on Tong Xuan planet to everyone, imparting his experience in trading and so on.

Then, he changed the topic and asked ye chen, "Fellow Daoist ye, where are you from?"

"The three of us are itinerant cultivators from the fire spirit planet." Ye chen smiled to himself.

"I heard that something big has happened on fire spirit planet recently," Cheng Gong said. "I wonder if you can tell me about it?"

"Are you talking about the destruction of the wood spirit star and the fact that the three stars are the ruler?"

Cheng Gong shook his head. "I heard that there's been an unforeseen event in the fire domain of your fire spirit planet."

Ye chen pretended to be confused and said in surprise, "Fire domain? We're just ordinary itinerant cultivators. How could we know about the fire spirit clan's sacred land?"

Cheng Gong smiled and changed the topic. "I only heard about it through hearsay. Fellow Daoist ye, please don't take it to heart."

Ye chen waved his hand.

After that, Cheng Gong chatted with Lian.

Lotus, however, put on a cold face and ignored him.

The group soon arrived at a small island and was transported to the depths of the sea through a teleportation array.

Old Daoist Xu led the way in front and kept diving in the deep sea. Suddenly, ye chen noticed a slight movement in the deep sea in front of him. He used his divine sense to explore and found that it was the nest of two ferocious sea beasts.

Ye Chen's eyes flickered. He realized that old Daoist Xu had been walking around outside the nest on purpose. He had brought them here on purpose and then went straight into the sea beast's nest.

"Ang!"

The two sea beasts roared and charged at the crowd with their mountain-like bodies.

"It's a male and female late gold core giant whale!" Old Daoist Xu pretended to be surprised, and then rushed to the male whale with the three people from the Cheng clan, shouting, "Fellow Daoist ye, the four of you will deal with that one."

Ye chen used a little physical strength against the rampaging female whale beast and the two collided.

"Bang!!!"

The ocean water churned and the waves rose.

Although ye Wushuang and han bingxue had the attack power of an ordinary golden core cultivator, it was like a drop in the ocean to the huge female beast.

At this time, Lotus teleported to the top of the female giant beast's head and stabbed an inch of green light down. With a bang, a powerful Zhen Yuan exploded in its body, and the female giant beast violently churned.

Lotus attacked again. Suddenly, the red light on the beast's body brightened. It had reached the full foundation of the Golden core stage. Its huge tail slapped towards Lotus.

Lotus was shocked but when she saw ye chen charging at the beast, she was furious. "Quickly go away!"

Ye chen was sent flying dozens of feet away by the giant beast.

Lotus burst out with an even stronger true essence. A sword light like a Green Peak streaked across, and the giant beast died.

On the other side, old Daoist Xu and the others had also finished their battle.

The crowd gathered together and saw that ye chen only suffered minor injuries. They could not help but breathe a sigh of relief.

Old Daoist Xu was very vexed. "It's all my fault for leading you the wrong way."

"Fellow Daoist ye, are you alright? I have some healing medicinal pills here." Cheng Gong came up to ye chen and asked.

Ye chen did not dare to take his medicinal pills. "It's fine. My body-tempering cultivation technique is very good. It's just a minor injury."

The group set off again.

The old Daoist took everyone around the sea again, constantly releasing some aura-eliminating formations or ambushing other people's magic weapons. He said that this was to prevent people from following them, killing them, and snatching their treasures.

Ye chen was surprised. This old Daoist was still very careful. However, in the face of absolute strength, these little things could not even withstand a single blow.

After a long time, when the group was getting impatient, the old Daoist finally arrived at the so-called ancient ruins.

The old Daoist took out a token from his inner pocket and chanted an incantation in a low voice. His hand cast a spell, and soon a light film appeared in the void. Red light flowed on it, and the formation patterns were exquisite. The restriction at the entrance of the ruins was activated.

The old Daoist pointed ahead and said, "the ruins are right below us. We have to work together to break the restriction. Only then can we enter."

Everyone attacked together, and the seabed immediately overflowed with light. The terrifying pressure had already scared away all the creatures within a hundred miles.

"Boom boom boom!!!"

The restrictive barrier shook crazily. The red light dimmed and was broken through. The impact caused huge waves to spread in all directions.

The restriction was broken, revealing a broken stone door with complicated carvings. The huge stone pillars on both sides all showed the glory of the ancient times and the extraordinary nature of the owner of the ruins.

The old Daoist took the lead and entered the ruins, followed by the rest.

Within the ruins, there were broken rocks everywhere, and the walls were broken. Many decorations made of spiritual plants had long decayed and gone through the vicissitudes of life. The air was filled with the smell of decay and moisture.

"Be careful, I've only stayed in the outer area. There are still many formations and traps in the inner area." The old Daoist passed through the periphery with ease and soon came to a passage. On the other side of the passage, a Palace appeared faintly.

The old Daoist looked at the passage nervously, "I came here last time and didn't dare to go any deeper. Let's think of a way to get there together."

Ye Chen had observed the layout of the ruins along the way and combined it with the decorations. He guessed that this ruin was an underwater immortal cultivation sect from ancient times. The outer sect disciples were in the outer sect area while the inner sect was behind this passage, the real sect land.

On both sides of the passage were dark and deep abysses at the bottom of the sea. Even a soul clone would die if he fell in.

However, this was the only passage, and a killing formation had been activated. Along the way, there were many killing formations that were linked to each other. Anyone below the void training stage who tried to break through them would definitely die.

He had to find the formation eye in this place to break it!

The old Daoist looked at the passage with a bitter expression. "It's difficult for us to resist the killing array on this passage. How can we pass through it?"

At this moment, the young man took the initiative to step forward. He looked at the passage and revealed a confident expression. "I know a thing or two about formations, so I'll give it a try."

After he finished speaking, he floated towards the tunnel. The formation suddenly exploded, and countless blade lights appeared out of thin air and shot towards the young man. It was as if the young man would be pierced by 10,000 blades in the next second.

"Break!"

The young man shouted and took a step forward. The young man's clothes fluttered without any wind, and a storm rose to the sky, destroying the blades around him.

After that, the young man broke several arrays in a row. When he found the eye of the array, his Zhen Yuan exploded. With a slap, the floor shattered, and gravel flew everywhere. The killing array in the passage was broken!

The old Daoist was overjoyed and quickly led everyone to follow.

"With young master here, the snow ink is in the bag." He smiled.

The old Daoist led the way to avoid the traps while the young man broke the formation. They soon arrived at the inner gate.

Ye Chen looked at the two's cooperation and clicked his tongue in wonder. Did they really just get to know each other?

The group quickly entered a dilapidated Palace. Many broken stone pillars had fallen to the ground, and only half of a broken plaque was left hanging. On it was written the words "hidden treasure."

"It's the treasure Pavilion!" The old Daoist exclaimed. "That's where the sect gives out treasures to the inner sect disciples. There must be a lot of treasures inside."

[Chapter 1737 1741-The Dagger Is Revealed, The Phantom's Shadow!](#)

Just as everyone walked to the middle of the hall, a hoarse and sharp scream suddenly came from the small rooms in the corners. It was like the sound of a sharp nail rubbing against a metal sheet, making people feel cold in their hearts.

"Bang!!!"

The eight zombies were absorbed by the aura of living beings. They rushed out from the corners like mad demons and surrounded the crowd.

"Not good! They were all late-stage golden core zombies! One of them is at the peak of the Golden core stage!" Old Daoist Xu's expression was grave as he held the weapon in his hand tightly.

"Kill!!!"

Lotus charged at the zombie at the perfected golden core realm.

Ye Chen said to Ye Wushuang and Old Ancestor Yellow Spring, ""Don't reveal your cultivation. Just fight with your golden core cultivation."

The eight of them quickly engaged in a battle with the eight zombies.

This kind of zombie was cultivated by the sect using the corpses of their disciples in medicinal baths. Their skin was invulnerable and they were not afraid of pain. They could only use their powerful true essence to destroy the heart in the body.

When cultivators of the same realm encountered zombies, most of them were no match.

Within the hall, the explosion of true essence shook the air, causing dust to fly into the air.

Ye Chen was more than enough to deal with a golden core zombie. As he fought, he secretly observed.

Wind rose under Cheng Gong's feet, and the wind blades in his hands shot out repeatedly, bombarding the zombie's heart. A hole opened up in the zombie's chest.

Lotus was even more powerful. Using the green light as a sword, she displayed a sharp sword technique. The green light was like an arrow, forcing the zombie to retreat step by step. His heart was almost exposed.

The others were in a difficult situation. Their moves had limited damage to the zombies, and the zombies were still roaring and pouncing.

Suddenly, something happened on Daoist elder Xu's side. His true energy hit the broken stone pillar by accident, and the stone pillar fell toward Ye Chen and the others.

"Be careful!" The Cheng siblings shouted.

The golden light on Ye Chen's body brightened. His cultivation base was still at the Golden core stage, so his physical strength was stronger. He forced the zombie back with a punch and shot up. He jumped to the top of the stone pillar and kicked out like a whip.

"Bang!!!"

The stone pillar broke into pieces in the air and flew in all directions. Then, ye Wushuang and the others easily destroyed the broken stone pillar without any injuries.

When Cheng Gong saw that ye chen and the others were safe and sound, a trace of malice flashed in his eyes.

Ye chen landed on the ground and fought the zombie again. His cold eyes swept over elder Xu.

"Kill!!!"

Lotus unleashed a stunning sword strike. The green sword radiance condensed into a needle and pierced through the air, heading straight for the Zombie's heart.

"Bang!!!"

The Zombie's heart shattered, and black blood flowed out of it. It fell like a stone.

After that, Lotus turned around and joined forces with Cheng Gong to kill the zombie before helping the others.

In the end, all eight zombies were lying on the ground. Their black blood emitted the smell of rotten plants. After a great battle, only two people were slightly injured. After all, zombies had no intelligence, and it was difficult for them to kill everyone.

Old Daoist Xu was panting and his hand that was holding the weapon was trembling. He looked at ye chen apologetically. Fellow Daoist ye, I almost killed you in the battle just now."

Ye chen pretended to be exhausted and exhausted. He said in a low voice, ""This was an accident, and I'm fine."

Elder Xu cupped his fists at ye chen and said, ""Let's continue forward. "

In the end, Daoist Xu led everyone through a narrow passage. His eyes lit up. On the left was a large shelf filled with porcelain bottles. The shelf was made of high-quality spiritual plants. It was a treasure in itself, and it still looked new.

On the right side of the weapon rack, there were some Dharma Treasures that shone with spiritual light. The rest of the place was filled with spirit stones and materials for refining weapons and medicine.

"This is the Treasury."

When old Daoist Xu and the others saw the magical treasures and medicinal pills that made countless low-level cultivators go crazy, they were extremely excited, and greed was about to burst out of their eyes.

Ye chen pretended to be healing from the side. In reality, he was just watching coldly without any interest.

Everyone swarmed in and the old Daoist shouted, ""Fellow Daoists, we still need to find the snow ink. Let's split these treasures equally."

Everyone calmed down a little and continued to move forward after splitting the treasures.

Ye Chen and the other two were the last. Ye Wushuang transmitted his voice, "Big brother, that old Daoist just now did it on purpose."

Ye Chen nodded and chuckled. "I know. I just wanted to see what they were up to."

After passing through the maze-like passage again, they finally came to a huge Palace. It was so huge that they couldn't see everything at a glance. The palace was well preserved, with spiritual wood carvings, marble floor tiles, and Grand decorations.

There was a transparent artifact in the center of the hall. One could see the ink-like spiritual liquid inside. It was constantly emitting bursts of multicolored light, like a celestial light circulating. There was a cold air flowing around the artifact, forming ice crystals in the air.

"Snow ink!" The crowd cheered in excitement.

At this moment, Cheng Gong and elder Xu, who had been standing at the entrance on purpose, suddenly burst into laughter.

The Cheng siblings looked at the two of them and asked, "Brother Cheng, what are you guys laughing about?"

Ye Chen and the others looked at each other and were secretly on guard. The surrounding atmosphere was extremely strange, especially the demonic nature on Cheng Gong and old Daoist Xu's faces, which made people's hearts turn cold.

Cheng Gong and Daoist Xu laughed out loud at the same time, and their laughter echoed throughout the entire Palace. At the same time, they cursed, "A bunch of idiots."

The crowd suddenly realized that the two's actions, expressions, and even the tone of their words were exactly the same!

Everyone was shocked. Someone pointed at them in horror and said in a trembling voice, "Old Daoist Xu was actually refined into a puppet by Cheng Gong."

Cheng Gong smiled hideously and said in a dark voice, "This will be your burial ground. You are only master's food!"

The Cheng siblings were dumbstruck and said fearfully, "No, we're brothers. You can't do this to us."

The smile on Cheng Gong's face became more and more terrifying, and the demonic Qi in his body surged. He was extremely vicious. "What's the use of you? As long as I feed you to my master, my strength will increase greatly, and I'll go back to be the successor of the clan leader!"

With that, the palace shook violently, and dust and gravel kept falling from the top of their heads. The main hall in front of them was suddenly torn open, and demonic Qi poured out from it, covering the sky and the earth. The entire Palace was shrouded in demonic Qi.

A terrifying pressure spread out, causing everyone's expression to become sluggish. They saw a thick broken horn stretch out, followed by a huge body as black as ink. The hands were even larger than the torso, and could easily hold the stone pillars in the palace that were as large as sea beasts.

The ancient devil had awakened!

Everyone was scared out of their wits. The Cheng siblings' faces turned ashen and their bodies stiffened. This was an ancient devil at the void training stage!

Ye Chen's eyes flickered and suddenly found that Cheng Gong and old Daoist Xu had long disappeared. He frowned and realized that Cheng Gong had long been possessed by the ancient demon. The ancient demon was Cheng Gong.

The ancient devil seemed to be sealed in this Palace. It could only use Cheng Gong's identity to spread the news of the ruins and use the treasures as bait to attract cultivators to come and take its life essence. Only after becoming stronger could it break the seal and leave.

[Chapter 1738 Obliterating The Ancient Devil, Spiritual Realm Passageway!](#)

He looked at the monstrous demonic shadow that almost covered the entire underground Palace.

At this moment, everyone's expression changed, as if they had not expected such a terrifying existence to exist in this place.

"Run, quickly run!"

The Cheng siblings were shocked and turned to run without a word.

"BOOM!"

With a loud bang, all the exits of the hall were blocked.

No way out?

Everyone couldn't help but reveal a look of despair.

Ye Chen, who was in the crowd, looked at the ancient demon's Phantom in surprise even though he had long realized that Cheng Gong was up to no good.

However, he didn't expect an ancient devil to be here.

Ye Chen subconsciously glanced at The Woman in Black and found that Lotus was not surprised by the appearance of the ancient demon at all. In fact, he could even sense a monstrous hatred in her eyes.

Almost at the same time, Lotus took off her black robe, revealing her beautiful face. Her heroic features revealed her deep hatred for the ancient devil.

"That's fairy Green Lotus!" Someone recognized The Woman in Black at a glance. She was fairy Green Lotus.

Fairy Green Lotus was ranked ninth on the heaven's Pride Board of the Big Dipper constellation. The genius of the wood spirit clan who had chased after Huo Xuan was only ranked in the thirties.

With only a few hundred lotuses, she was able to defeat an expert in the refined void martial stage with her perfected golden core realm cultivation. Now that she had advanced to the refined void martial stage, she would definitely be able to defeat the ancient devil.

When everyone saw her, they were overjoyed. They calmed down as if they had found a pillar of support.

Fairy Green Lotus looked at ancient devil coldly and said through gritted teeth, ""You've finally shown yourself. My father died because of you. Today, I'm going to avenge him. "

Lotus walked toward ancient devil step by step. With each step she took, her hatred for ancient devil grew and her cultivation became stronger. Her aura went from the peak golden core realm to the peak golden core realm. Then, her Zhen Yuan surged and she broke through to the refined void realm!

For 500 years, the elder Devil had controlled cultivators like Cheng Gong and ordered them to lure low-level cultivators to this place to become his food. Fairy Green Lotus's father was one of the victims 500 years ago.

"Back then, you used the method of treasure hunting to lure my father to death. Today, I'll use the same method to kill you!"

"Woof!" The green Lotus sword seemed to be able to sense Green Lotus fairy's hatred. It kept vibrating in the void, emitting a sharp sword light that cut through the void.

Fairy Green Lotus wielded her sword and her vital essence surged. The green light seemed to be able to break through the palace as she charged at ancient demon!

"Kill!!!"

The two sides fought, shaking the void and causing the earth to shake. It was as if the ruins were about to collapse.

At the same time, Cheng Gong and old Daoist Xu, who had disappeared in the demonic Qi, rushed toward the crowd.

Their bodies were shrouded in demonic Qi and they looked ferocious. Their cultivation had actually reached the half-step void refinement realm!

"Be careful!" Ye chen shouted. A person rushed toward Cheng Gong.

Ye Wushuang faced elder Xu. In the middle of the battle, he transmitted his voice to ye chen, "Big brother, are we going to attack?"

"There's no need to rush. I've noticed that there's something strange about the ancient fiend's body. That fairy Green Lotus can still deal with it for now. "

As ye chen transmitted his voice, he was being pushed back by Cheng Gong.

Cheng Gong laughed strangely and said proudly, "boy, your body is very strong. You must be a delicious blood food."

"Cloud ladder leg!"

Ye Chen's leg lashed out.

"Bang!!!"

His kick was surrounded by the devil Qi of Cheng Gong. It was as if he had fallen into a swamp. He lost all his strength and was stuck in it, unable to pull out.

Cheng Gong laughed when he saw ye chen trapped in the demonic Qi. He took the opportunity to close in and thrust his demonic palm into ye Chen's heart!

Ye Wushuang suddenly burst out and joined the battle. With one sword strike, he cut off Cheng Gong's demonic palm that was trying to take ye Chen's life and forced ye chen to retreat.

On the other side, green lotuses bloomed around fairy Green Lotus. It was like a lotus pond in autumn, fascinating but dangerous!

The green lotuses shot toward the elder Devil. Black blood splashed everywhere, and the giant palm was badly mangled.

"Hahaha, the seal is finally lifted. I have recovered my strength!"

Suddenly, the elder Devil laughed. An even more powerful energy burst out of his body and destroyed the green Lotus.

A powerful impact spread in all directions.

"Bang!!!"

Many stone pillars crumbled and dust flew as everyone was sent flying. The Cheng siblings' true essence shield was broken through and they were smashed into the wall, heavily injured and unconscious.

When the dust umbrella was gone, the palace was in a mess. Everyone gasped when they saw ancient devil.

The elder Devil's cultivation had reached the early soul clone stage!

Fairy Green Lotus coughed out a mouthful of blood. She stood up and faced the ancient Devil's terrifying aura.

He was unwilling to accept this, "am I going to die at the hands of this demon today?"

She gritted her teeth, her eyes filled with the will to die, and shouted to the crowd, "Let's go, I'll hold it back!"

However, Cheng Gong and Daoist Xu suddenly appeared at the exit and said viciously, "Today, you will all die!"

The strange thing was that Cheng Gong's arm had actually grown back.

At this moment, ye chen stepped forward. He stood between fairy Green Lotus and the ancient demon, facing the ancient demon directly!

Fairy Green Lotus looked at ye chen in shock and then said angrily, "I told you to leave!"

The ancient demon looked at ye chen, who was running to his death like a fool. It revealed its bloody mouth and said ferociously, "No one can escape! We all have to die!"

Ye chen chuckled. His confident voice rang out like the sound of nature.

"Wushuang, you guys go and kill the barking dog at the door! Let me handle it!"

Ye Wushuang grinned and his cultivation really exploded. He raised his sword and pounced at Cheng Gong and Daoist elder Xu.

Fairy Green Lotus was extremely shocked that ye Wushuang and ye mo were at the soul splitting stage!

Then, he looked at ye chen, who was now extremely mysterious.

"Burning Sky palm!"

The air around them suddenly began to burn, and the Crimson flames gradually formed a palm that pressed down on the ancient devil!

Ancient Devil's demonic Qi gushed out like a tsunami, and his aura climbed. He pushed out his giant palm, and a powerful force exploded like a storm, shattering the void and shaking the world.

"Bang!!!"

Flames exploded!

"No! What kind of power is that?"

The ancient devil was shocked to find that its powerful strength as a soul clone was useless. It could not even withstand a single blow from ye chen. The heaven-burning fire easily burned away its demonic energy.

"Ah!" The ancient Devil's screams echoed throughout the ruins as the flames of divine punishment burned him.

Fairy Green Lotus watched as ye chen killed the ancient fiend with a single palm!

They were dumbstruck as they looked at the back of that mysterious and powerful figure.

"No, please let me go. I'm willing to be your servant."

The elder Devil's pitiful cry for mercy woke up the dazed fairy Green Lotus. Then, she shouted at the top of her lungs, ""Kill! Kill it!"

,m The flame seemed to hear her thoughts and quickly burned the ancient devil to ashes.

A stream of light flew out from the ashes. Ye chen took it into his palm and refined it.

It was the ancient Devil's mental memory!

After ye chen had digested it, he came to a complete realization.

It turned out that this ancient devil came from a small plane in the spirit realm called the heavenly origin realm. A long time ago, a heavenly origin realm human cultivator created a passage to escape to the Big Dipper star system. Unfortunately, he was discovered by the expert of the underwater sect and sealed here.

Sure enough, he found the passage to the spiritual world in his mind!

[Chapter 1739 Lightning Of The Void, A Strange Land!](#)

On the other side, ye Wushuang had already finished off Cheng Gong and elder Daoist Xu. The three of them had gathered.

Fairy Green Lotus watched as ye chen walked toward her like a celestial being. She endured her injuries and stood up. She bowed deeply, tears streaming down her face. "Thank you, senior, for saving my life and helping me kill my father's murderer!"

Ye chen looked at her serious injuries and sighed softly. With a wave of his hand, fairy Green Lotus fainted and fell to the ground.

"This woman has the heart of a child!"

Ye chen looked at her and shook his head. With a wave of his sleeve, he erased a part of her memory.

"Let's go inside and take a look!"

Ye chen said, and the three of them walked into the depths of the palace.

According to the ancient Devil's memories, the three of them quickly found the passage to the spirit realm within the palace.

It was an underground Palace, surrounded by tall dark brown walls. There was only a staircase in the middle that seemed to lead to the heavens. As they walked up the stairs, a huge teleportation array appeared in front of them.

The teleportation formation runes carved on the wall were ancient and profound. The stone wall glowed with Starlight, as if one could see the starry sky of the distant spirit realm.

Ye chen looked straight ahead and took a deep breath.

The other side was the spirit world!

The three of them looked at each other. There was no need for words. Their gazes said everything!

With a wave of ye Chen's sleeve, an overwhelming amount of spirit stones poured out. With the infusion of spiritual energy, the teleportation formation was suddenly activated. It was as if a huge mouth of the abyss had appeared on the boundless wall.

Ye chen and the other two stepped inside.

"Spirit world, here I come!"

.....

A Halo enveloped ye chen, old ancestor yellow spring, and ye Wushuang. Then, they disappeared, leaving only the ashes of the spirit stones echoing in the underground palace.

In the tunnel, the three of them had just appeared. Before they could look around, a purple lightning bolt struck them!

"BOOM!!!"

"It's the void lightning!"

"How can there be void lightning here?" old ancestor yellow spring's expression changed drastically.

"Be careful!" Ye chen shouted. He activated his true energy shield and blocked the Thunderbolt. The powerful impact shook the three people's internal organs.

They found that the dimensional gateway was extremely unstable. There were spatial storms everywhere, bombarding the three of them.

The three's true energy shields flickered. Ye chen set up a stabilizing formation while ye Wushuang's sword aura blocked it. Old ancestor yellow spring's true energy burst out and poured into the shield.

The three of them heaved a sigh of relief.

"Boom boom boom!!!"

An earth-shaking Thunder came from the distance. Even though it was far away, people could not help but feel fear when they heard it.

Before the sound of the Thunder had died down, a Thunderbolt as large as a giant beast split the void and turned into a Lightning Dragon that whistled toward ye chen and the others.

The massive dark purple lightning was even mixed with black void lightning.

That was the lightning of the void! Even dujie stage cultivators would be terrified by this lightning. If they tried to resist this lightning, they would be in danger of dying.

Old ancestor yellow spring's face turned pale and he was in despair. Was the old ancestor going to die Here today?

"Full power! Don't hold back!" Ye Chen's calm voice reached her ears.

His hands turned into phantoms. With the Emperor brush in his hand, he drew one formation after another in the void and created mysterious runes.

The night Demon Armor transformed into a Black Shield that protected the three from the inside out.

A golden light burst out from his physical strength and fused into the shield.

"Immortal flying knife!"

"Yi Qi turning San Qing,"

"Emperor Qing MU's finger."

A powerful energy burst forth, shaking the void. Even the barrier of the passage was trembling.

"Bang!"

Ye Chen's mystical power was torn apart by the Thunder Dragon. The terrifying impact also weakened the power of the lightning but the Thunder Dragon still headed straight for the three of them!

Ye chen stood in front of the lightning Dragon to protect the two of them, resisting the void lightning alone!

"Bang!!!" The void exploded, and countless spatial storms were shattered.

"Pfft!"

Ye chen was sent flying. A large mouthful of blood spurted out of his mouth. The blood floated in the air and glowed with golden light. Ye Chen's body was severely injured.

"Big brother!"

"Ye chen!"

Ye Wushuang and ye mo quickly caught ye chen, who was floating in the air powerlessly.

Ever since he had embarked on the path of cultivation, this was not the first time ye chen had taken a teleportation formation.

However, this time, it was incomparable to the past.

This time, they were flying to a greater world like the spiritual realm. Even he could not easily withstand the nomological power and void lightning contained within it, let alone the shattering of the void.

As the space was compressed, the storm shook.

After an unknown period of time, the space finally stabilized.

At the end of the tunnel, he could finally sense the aura of living beings. The stable spatial exit was emitting a dazzling white light.

Ye chen finally heaved a sigh of relief. His tensed mind relaxed and his seriously injured body suddenly lost strength and he fainted.

.....

In the desolate and uninhabited Valley, there were bare and withered trees everywhere. The caws of crows echoed in the mountain forest. The earth was very dry, and there were cracks everywhere. It was shattered, and the whole world seemed to be dyed red with blood.

Ye chen slowly woke up and slowly felt his injured body. Fortunately, only his spiritual energy had dried up and his meridians were damaged.

He laughed bitterly in his heart. He had been too careless and should not have opened the teleportation channel so rashly. After all, no one could guarantee the safety of this teleportation channel.

Then, he forced himself to sit up and looked around. He found himself in a dark, barren Valley. He couldn't see the end of it.

No matter if it was trees or flowers, they were all withered yellow or dead gray, without any signs of life. The nearby rivers all gave off a rotten smell.

A blood-red sun hung in the gray sky above his head, and three identical suns hung on the horizon.

Everything was so strange.

Ye Chen's expression changed slightly when he felt the faint demonic Qi around him. "Demonic Qi? Could it be that he has come to the devil realm by himself?"

At this time, he was shocked to find that ye Wushuang and old ancestor yellow spring had disappeared.

He released his divine sense to cover the surrounding area, but he did not detect the aura of the two at all.

Feeling it again, he couldn't help but let out a breath.

Fortunately, he could still sense ye Wushuang. However, he did not know where ye Wushuang was.

Ye chen did not know whether to laugh or cry. This so-called teleportation channel was probably a random teleportation. Different people would be teleported to different places.

He couldn't help but smile wryly. He only hoped that old ancestor yellow spring and old ancestor Black Spring were also in this realm. Otherwise, it would be difficult to find them in the vast spiritual realm.

At this time, he suddenly sensed the traces of a fight in the distance.

He controlled his spiritual will to look over and saw three ferocious-looking men with murderous auras chasing after a female human cultivator.

Ye chen immediately recognized the three as demon dwellers.

The female cultivator had been running toward him. When she saw ye chen, her lips moved and she fell to the ground in exhaustion.

The three demon dwellers caught up with them, and one of them smiled cruelly when he saw the female cultivator. The ferocious reproductive organ in his lower body went through the woman's body, and then he stuck out his Scarlet tongue and swallowed her whole.

Ye chen could only watch as the man died. He wanted to save him, but his body was damaged and his spiritual energy was exhausted. He was powerless to do anything.

At this time, the three demons had already noticed ye chen and said in demon language, "Human?"

The man-eating demon was about to kill ye chen but was stopped by the demon leader. "Hold on, this person is quite handsome. Keep him alive and bring him back to see Demon King memantha."

Ye chen could not help but look a little stunned.

He was just thinking about how to deal with these two people, but because of his good looks, he managed to avoid a disaster.

This reason gave him a strange feeling.

However, since there was no danger for the time being, he chose to remain silent. Instead of running around in his current state, it was better to endure and find out the situation.

The leader of the demon dweller seemed to do this kind of thing often. He examined ye Chen's appearance, then tied ye chen up with a Dharma Treasure and took him away.

The blood-red sun was much dimmer, and the dark red sunlight fell on the narrow path in the valley. The roars of demons came from the withered forest on both sides, which made people feel cold.

The man-eating demon was particularly excited. It pointed at ye chen and asked the leading demon, "Hall, what do you think the Queen will reward us with when we return to the gathering place?"

Huo er smiled. He was also very happy that he had caught someone as good-looking as ye chen. He said in satisfaction, "Demon King memantha likes those beautiful human male cultivators very much. If you serve her in bed, she'll definitely reward you handsomely."

At this point, the man-eating monster trembled and said to Hall in a very low voice, ""Last time, I saw Demon King memantha eat those human male cultivators. She won't let them die. She'll eat them bit by bit before finally dying. It's a fate worse than death."

When Hall heard this, he was instantly enraged and cursed, ""Shut up!"

A monster that had just eaten a human would actually be afraid. How cruel was the way Demon King memantha ate?

Ye chen listened quietly, his eyes twinkling.

He found out that this place seemed to be the Xuanji Shengtuo clan, the gathering place of the demon race. The Lord was a female demon at the void training stage. She was called memantha and was extremely lecherous. She liked to keep beautiful human male cultivators.

She would devour any human cultivator she got tired of playing with.

Ye chen could not help but wonder if he had really been teleported to the devil realm.

Along the way, ye chen was heavily guarded by Huo' er. Soon, he was escorted to the gathering place of the demon race.

As soon as ye chen entered the colony, he saw a shocking scene.

There were mines on both sides of the gate. Many human cultivators were enslaved, and they were mining there with shackles on their feet.

Once someone slacked off or even made a little move, the demon dweller next to them would whip them.

With a "pa" sound, the skin on their backs split open and flesh splattered. There were even demon dwellers who swallowed human cultivators alive in front of everyone.

The other human cultivators were still working as if they were used to it. There was no expression in their eyes, only numbness. They even seemed to be in despair that being eaten by the demon dwellers was a relief.

Ye chen had never thought that the human race, enslaved by the demon dwellers, would live like this.

He couldn't help but think of earth. If he didn't defeat the demon master, would earth be the same, and his family would be eaten?

Thinking of this, a ball of anger rose in his heart. His eyes swept over the demon dweller with a strong killing intent.

Huo' er brought him into the dungeon. The environment inside was even worse, and the human monks were even more miserable.

The dark dungeon was extremely humid, and the surrounding cages were filled with human cultivators. Their scapula was locked, and their cultivation was sealed. They were hung on the wall, dying like The Walking Dead.

"Hahaha."

The demon dweller's wanton laughter came from the front. Ye chen passed by and took a look. His expression was slightly ugly.

After seeing his expression, Hall sneered. "You humans are destined to be the slaves of my sacred clan!"

Ye chen sighed to himself.

If not for the fact that he had lost all his cultivation, he would have already started a massacre.

He saw some young demon dwellers torturing and killing human cultivators, and some demon dwellers were wriggling on the bodies of human female cultivators. They were worse than beasts.

Ye chen closed his eyes tightly and did not want to see it anymore.

It was as if he had passed through a long and dark passage. Ye chen was thrown into the dungeon. The demon at the side held a torture instrument in his hand and was about to penetrate ye Chen's shoulder blades.

When Huo' er saw this, he flew into a rage and kicked the demon dweller away. He scolded loudly, "This man is a tribute to the Demon King. Don't hurt him. Look after him."

He then turned around and left.

After all the demon dwellers had left the dungeon, ye chen looked around.

When they saw the cultivators who were locked up with him, they all looked at him with sympathy.

An old cultivator in the corner looked at him and couldn't help but sympathize, ""That slutty witch has another male companion now."

They were speaking the language of the spirit world?

Ye Chen's heart stirred.

Could they be spirit realm cultivators? Could this not be the devil World?

Thinking of this, ye chen could not help but ask in the spirit world language, ""My fellow Daoists, what is this place?"

The old man from earlier looked at him in surprise. "You don't know that this is the Shengtuo clan?"

"Truth be told, something went wrong with my cultivation, causing my memory and cultivation base to be damaged ..." Ye Chen shook his head and said in a deep voice.

When everyone heard this, they all shook their heads.

The old man sighed helplessly and slowly said, "This place is called the heavenly origin stage. It's a plane in the spiritual realm,"

"Heavenly Yuan stage?"

Ye Chen's eyes flashed.

A few million years ago, the spiritual realm was still a single entity. However, following the successive Wars with the demon Realm and the netherworld, the spiritual realm was shattered into countless pieces of plane fragments.

And this heavenly origin stage just so happened to be one of the small plane fragments.

However, the sky origin region was a demon disaster area. Besides a small number of human settlements, most of them were demon settlements.

The demons enslaved all human cultivators, and only a small number of human powerhouses formed their own regions and survived the siege of the demons.

This Demon King Memañtha was one of the 36 demon kings in the heavenly origin stage. She was a demon general with a cultivation base equivalent to the void training stage. This place was called the Shengtuo clan. Above her, there were 18 demon emperors in the soul splitting stage and nine demon masters in the form synthesis stage.

Soon after, the old man sobbed with an emotional expression, "Those demon beasts captured human cultivators and crippled their cultivation. They fed them the demonic powder and made them do hard labor such as mining and feeding demonic beasts. There are also some people ..."

At the end of his sentence, he was sobbing.

Ye Chen shook his head slightly. He had just seen those people. They were probably living a life worse than death.

Thinking of this, he couldn't help but worry about old ancestor Yellow Spring, Ye Wushuang, and the others.

It seemed that he had to recover his strength as soon as possible.

He secretly made up his mind and asked, "Why can't I feel the existence of spiritual Qi in this world?"

Along the way, Ye Chen was surprised to find that there was no spiritual energy here. His dried-up spirit vein had not absorbed any spiritual energy at all.

The cultivator beside him sighed and explained, ""The spirit Qi of this world was turned into demonic Qi by a powerful being of the demonic realm. This world is no longer suitable for human cultivators to cultivate."

"Then is there any way to absorb spiritual energy and recover my strength?" Ye Chen asked, frowning.

The cultivator shook his head. "Yes, there are spirit stones in the mine outside. With spirit stones, one can recover their strength. However, the spirit stones are strictly controlled by the demon race. It's as hard as ascending to the heavens to get spirit stones."
