

Genius 1771

[Chapter 1771 Path To Heaven, Immortal Sect!](#)

Looking at the young man climbing the mountain, Zhen Rou and song he felt that he looked familiar.

They looked at him carefully but could not remember where they had seen him. After all, the young man was only sixteen years old. They could not possibly connect him to ye chen.

As ye chen walked up the mountain path, he felt a powerful pressure floating around him, constantly suppressing his path forward.

"As expected, there's something fishy about this."

Ye chen did not show the slightest fear when he felt the pressure. Instead, he was calm and composed, which made him feel a little more interesting.

"Where did this kid come from? why does it feel so easy to walk?"

"Impossible! We can't even move, and this brat is ... Damn it!"

"Could this kid be a genius?"

Seeing that ye chen was climbing the mountain as if it was flat ground, many young men revealed looks of jealousy. They wanted to catch up with ye chen to prove themselves but they had all failed.

As time passed, the people who were climbing the mountain started to sprint. They tried their best to get a good ranking and leave a good impression on the host of the green spirit sect. This way, they might be able to get into the sect of an elder.

"What a bunch of trash!"

Ye chen sneered in his heart as he looked at the people around him who were still struggling to move forward despite giving their all. He was getting a little impatient with such challenges.

His footsteps became faster and faster as he walked towards the top of the mountain.

In fact, many people who had left much earlier than him had already fallen behind him.

"Damn it, what's wrong with this kid? chase him!"

Many young men who thought they were talented wanted to catch up to ye Chen's footsteps but it was all in vain.

Suddenly, a disciple of the green spirit sect shouted, ""The heaven-ascending incense has burned out. Time is up. Those who have not reached the top of the mountain will fail. Junior brothers, please take care of them for now and send them back together later."

"Yes, sir!"

Many of the Qi layer outer sect disciples agreed one after another, and then quickly took action.

"Whoosh, whoosh, Whoosh!"

The Lianqi disciples went down the mountain one after another, and rushed down the mountain with those who hadn't reached the peak.

Many of the youths who had failed cried bitterly. They had been waiting for this moment for a long time and had cultivated for a long time. They had never thought that they would still fail. This was a heavy blow.

"Senior brother, senior brother, please give us another chance. We can definitely do it."

"Yeah, give us a chance!"

Many young men wanted to climb the mountain again, but the outer sect disciples didn't care about that and brought them down the mountain.

At the peak of the mountain, many young men looked at the situation at the foot of the mountain and rejoiced.

"As expected, we're the best. We've finally succeeded. We'll definitely be able to enter the green spirit sect."

"Yes, yes!"

Many youths had smiles on their faces, thinking that they had already succeeded.

At this moment, a figure walked over.

Song he looked at the crowd and sneered. "You've only passed the first trial. You're not disciples yet. Don't be happy too soon."

The expressions of the youths who were still laughing changed drastically. They had thought that they had succeeded, but it was only the beginning.

They all looked at Song he, hoping to get an answer.

"The second test is to test the spirit root!" Song he said.

"Spirit root?"

Everyone was puzzled. As youths who had never cultivated before, they knew too little about cultivation.

At this moment, a disciple from the green spirit sect walked over.

"The spirit root is the most basic condition for cultivation, it is a threshold for cultivation. Without the spirit root, one is destined to be a mortal in this life, and it is impossible to embark on the road of cultivation.

"Ah ..."

Hearing this, everyone was shocked. Many of them were afraid of what would happen if they didn't have spiritual roots.

"There are many types of spiritual roots. There are five spiritual roots, metal, wood, water, fire, and earth. Other than that, there are also mutated spiritual roots, such as lightning spiritual roots, ice spiritual roots, and so on. All the best to you."

"Yes!"

Everyone agreed one after another, secretly thinking that they must have spiritual roots.

"Hurry up and come over!"

A disciple of the green spirit sect shouted, and everyone followed him.

A testing field appeared in front of them, and there were even elders there. Everyone became nervous.

"This is the place to test your spirit root. Line up one by one."

"Yes!"

Everyone lined up and waited for the instructions of the testing disciples.

There was a testing platform in front of them with a huge spiritual stone on it. This spiritual stone was the magical weapon used to test one's spiritual roots. As long as the youths placed their hands on the spiritual stone, their illness would be concealed, and they persevered with their hearts, then the spiritual stone would test their spiritual root attribute.

The youngsters walked over one by one, waiting for their own test.

"You, come here!"

"Yes!"

The young man's eyes were filled with anticipation. He placed his hand on the spiritual stone and waited for the result.

"Zi Zi Zi!"

The spirit stone emitted a faint light, and the young man was stunned.

Then, he tried his best to make the spiritual stone glow, but he still failed.

"Don't waste your energy. It's not up to you to decide if you can or can not." The testing disciple shouted coldly.

Following that, the youth was declared to not possess any spiritual roots.

"Ah, no, it's not like that!"

The young man bawled. For this day, he had waited for five years. Every day, he cultivated with all his heart. He didn't expect that in the end, he actually didn't have a spirit root. What did this mean?

"Send him down!"

"Yes!"

The outer sect disciple grabbed the youth and walked down the mountain. No matter how he struggled, it was useless.

Following that, the hundred disciples were tested one after another, and there were people with spirit roots among them.

Most of them had the five elements spirit roots, such as metal, wood, water, fire, and earth. These were the most common spirit roots. Although they could cultivate, their talent was average.

Among them, those who could achieve three or four spiritual roots were quite talented. Those who achieved the five elements of metal, wood, water, fire, and earth and possessed spiritual roots were very few.

"A variant spirit root?"

Suddenly, the testing disciple shouted. Everyone was shocked and looked in the direction of the testing stage.

At this moment, a young girl was actually tested to have a mutated ice spiritual root. She was extremely talented.

"This is truly unbelievable. There's actually a variant spirit root!"

"This young girl is amazing."

Everyone was amazed. Even Song He and the others were shocked because there were very few people like him.

The news was immediately reported and shocked the entire green spirit sect.

In the sky, the cry of a crane could be heard. A Grand Elder of the green spirit sect arrived on a crane.

This person was an old woman, and her Daoist name was green crane fairy. She was in the advanced stage of the original level and was one of the three Grand elders of the green spirit sect.

Seeing the Grand elder's arrival, everyone was shocked. They didn't expect a variant spirit root to be so precious.

"Child, are you willing to take me as your master?" Asked the green crane fairy.

"I'm willing!"

The girl nodded and was immediately taken away by the green crane fairy. Everyone was envious.

At this moment, Ye Chen walked up.

"What?" The tester was stunned. He didn't expect this kid to be so arrogant to walk up on his own.

"Zi Zi Zi!"

With a burst of light, Ye Chen had the metal, wood, water, and fire spiritual roots.

"Hmph, trash!"

Many people looked at him with disdain, and no elder picked on him.

[Chapter 1772 Heart Tempering Assessment!](#)

"Kid, no one wants you. Hurry up and go down the mountain!"

The testing disciple shouted at ye chen.

Ye chen stood upright without any intention of moving. His arrogance instantly angered the test disciple.

"Who Do You Think You Are, to actually dare be so arrogant?"

The disciple wanted to teach ye chen a lesson but was suddenly stopped.

"What are you doing?"

"Senior Sister Zhen Rou, he ..."

"You can go back!"

"Yes!"

The man resentfully left. Zhen Rou walked over and looked at ye chen.

"I see that you've been quite talented since you came up the mountain. Come with me."

Ye chen nodded slightly and followed Zhen Rou to her master, Daoist blue heart.

"Master, please take this child in."

"Zhen Rou, this kid's spiritual roots are ordinary. Why do you value him so much?"

"When he went up the mountain ..."

Zhen Rou told him about Ye fan's awe-inspiring presence after he came up the mountain. Daoist blue heart shook his head slightly because cultivation was still about the spirit root. Although ye Chen's will was extraordinary, he was not a good seedling.

"Master, it's better to accept him."

"Sigh, you're just too kind."

Seeing how insistent her disciple was, Daoist blue heart couldn't refute her, so she agreed with a black face.

"What's your name?"

"Gu fan,"

Daoist blue heart nodded slightly, indicating that he had accepted him as a disciple.

On the other side of the testing field, the disciples without spiritual roots were all sent back without exception.

"All those who passed the spirit root test, come over here."

Someone shouted.

"You can go!"

Daoist blue heart said.

"Yes!"

Ye chen nodded slightly. It seemed that even though he had been accepted, he still had to participate in the last test.

A disciple of the green spirit sect stood outside the formation and scanned the crowd.

"The purpose of this test is to find out if there are people from other sects mixed in, or if there are people who are hostile to the green spirit sect. Once they are found, they will be killed without mercy!"

"Ah ..."

Hearing this, everyone was shocked.

However, they had waited for so long to become a disciple of the green spirit sect, so how could they turn back now? they all stepped into the formation.

"Zi Zi Zi!"

Suddenly, the Jade slips in the formation emitted a strange light, and one of them was locked on by the Jade slip.

"Ah ..." The man revealed a look of fear and wanted to escape.

"You want to leave?"

Song he's eyes turned cold, and he released his sword energy.

"Swish!"

The man was stabbed in the throat and died on the spot.

Seeing this, everyone's heart turned cold. They didn't expect the green spirit sect to be so cruel.

This test looked extremely cruel, but Ye Fan saw through the profoundness of the formation at a glance. It was nothing more than comparing the cultivator's consciousness to the Jade scroll to determine if they passed.

Ye chen walked through the formation unhurriedly, as if he were taking a stroll in his courtyard.

"Look at that kid. He's not panicking at all. One of them was just killed."

"Yeah, I don't know what to do. I don't dare to do anything."

Seeing how relaxed ye chen was, many people were in disbelief. He did not seem like a young man at all.

Ye Chen's gaze swept across the crowd. Then, his eyes focused on a Jade slip.

"Come!"

He took a big step forward and instantly grabbed the Jade slip.

"Zi Zi Zi!"

The Jade slip emitted a faint light. Ye Chen's mind and spirit were one. He instantly locked onto the light and the Jade slip did not move.

"Hmph, it's just an ordinary Jade slip. I thought you were powerful."

"That's right. The way he strolled around just now was really ridiculous."

"This kind of person is just putting on an act."

Everyone sneered when they saw ye chen grab a very ordinary Jade slip.

Ye chen ignored them and walked out of the formation.

"En!"

Outside the array, Daoist blue heart nodded slightly. This disciple had always been very mediocre. It was already very fortunate that she could get a Jade slip and did not embarrass her.

"Follow Zhen Rou to The Blue Lotus Peak!"

"Yes!"

Zhen Rou accepted the order and everyone came over to call her Senior Sister. Many of the disciples blushed and looked at Zhen Rou in a daze.

After entering The Blue Lotus Peak, Zhen Rou led the group to find her own cave abode.

Ye chen had also obtained his own abode. He scanned the outside and found that the abode was quiet and there was no other energy around.

After that, he probed around and found that there was no formation here. It was clear that no one was watching him.

Since it was a quiet place, it would be good for his cultivation and the purpose of this trip.

Everyone was overjoyed. After working hard for several years, they could finally enter the green spirit sect. To them, this was a great honor and the realization of their own value.

Many people surrounded Zhen Rou and asked her all sorts of questions, trying to make a good impression.

Zhen Rou was a gentle person and naturally answered all questions.

However, ye chen had no interest in this. He had sensed something before but did not know if it was within the Azure spirit sect.

"Ye chen, come here!"

Zhen Rou suddenly shouted.

"Senior Sister!"

Ye chen walked over.

"Everyone else is asking all sorts of questions, why are you leaving alone?" Zhen Rou asked.

"Senior Sister, thank you for your guidance, but I like peace and quiet."

"Gu fan, it's good to be quiet, but cultivators must be firm in their beliefs and try many ways. You must not shut yourself in."

"I'm very clear about this, Senior Sister. "

Ye chen nodded repeatedly. It seemed that this Senior Sister was a good person and knew how to guide the younger generation. However, ye chen was not her junior.

"You must cultivate properly and not be lazy. In a month, the sect will hold an outer sect competition called the secret realm trial. You must seize this one and only opportunity. "

When ye chen heard this, he was overjoyed. It was just as he had expected.

After that, Zhen Rou left and ye chen returned to his cave abode.

With a raise of his hand, sword Qi swept across the entire space. Under the ground, countless sword Qi were hidden, and an array was easily set up.

Sitting cross-legged on the stone platform, ye chen mumbled, ""The secret realm trial. It seems like the thing I sensed before must be in the secret realm of the green spirit sect."

Ye Chen's main body was still in the secret cave in the mountain. It was difficult to cultivate the ancient God Body and he needed many natural treasures.

One of the cores was called the cold spirit ice core. Its purpose was to freeze the blood in the body. Otherwise, once the ancient God Body was cultivated to a critical point, the blood in the body would not be like that of a child. It would flow against the current or even explode. It was extremely dangerous.

The ancient God Body was the creation of heaven and earth. In order to cultivate it, not only did one need to be talented, but one also needed the help of heaven and earth Qi. Ye chen did not dare to be careless.

His real purpose in coming to the green spirit sect this time wasn't to find a master, as his cultivation had far surpassed these people. His biggest purpose was to cultivate the ancient God Body.

Unless he obtained the ice core, it would be difficult to form the ancient God Body!

"Yes, green spirit sect. Let's see if you're my blessed land!"

Ye chen sensed the energy around him. Although the spiritual energy was not rich, it was not bad for him now.

After all, he was just a clone, and there was still a gap between his own strength and his main body 's. Cultivation was a necessary lesson for him.

He slowly closed his eyes and cultivated his mind, waiting for the secret realm trial to arrive.

[Chapter 1773 An Order From The Blissful Summit!](#)

In the next few days, ye chen cultivated in his own cave abode and did not leave.

Such an action was very strange because everyone had just entered the Azure spirit sect and could not wait to understand the situation within the sect and cultivate all kinds of cultivation methods. Ye chen was the only one who closed his door.

Such a cultivation method could not help but make everyone puzzled.

In fact, in ye Chen's eyes, there was nothing in the small Azure spirit sect that could catch his eye.

"Did you guys hear that? they actually said that there's a guy named Gu fan who keeps himself locked up all day long. They all say that his brain is damaged from cultivating."

"Hahaha, everyone is looking for senior brothers and sisters to help. This kid has no foundation at all. He's like an old immortal in closed-door cultivation. Isn't he courting death?"

"This kid didn't look like a smart person when he first entered the sect. He's finally revealed his true colors!"

Many outer sect disciples were discussing this. They were initially surprised but later on, they thought that ye chen was a complete fool.

One day, in the main hall of the green spirit sect.

"Sect leader!"

Many golden core elders gathered together and bowed to Daoist Yun Shan, who was the sect leader of the green spirit sect.

Today, Daoist cloudy mountain had gathered everyone for a meeting. Ye Chen's master, Daoist blue heart, was also among them.

Everyone sat down and waited for Daoist Yunshan to speak.

Daoist Yunshan waved his sleeve and said in a deep voice, ""Elders, I've just received news that the greater sect has sent an edict asking us to look for a man named ye chen closely."

Everyone was puzzled. What did he mean?

"Sect leader, who is this ye chen? how could he be valued by the exalted sect?" Someone asked curiously.

The others all revealed the same expression, hoping for an explanation from Daoist Yunshan.

The green spirit sect was in the spirit realm, a small sect within the borders of Qingzhou. They had little access to information and were not aware of what was happening in the outside world.

Looking at everyone's expressions, Daoist Yunshan smiled.

Then, he took a deep breath and said seriously, ""It's said that this ye chen is a senior human cultivator of the spirit realm. His cultivation base has already reached the void training stage!"

"A cultivator at the void training stage?"

Everyone was shocked. In their eyes, this kind of cultivation was already a super expert.

In a small sect like the green spirit sect, the Grand Elder was only at the peak nascent soul realm. When he met a void training expert, he had to call him "senior".

"Don't be shocked, because the real shocking thing is yet to come."

Daoist Yunshan continued after seeing everyone's surprise.

"Sect leader, what do you mean by this? Isn't a cultivator at the void training stage shocking enough? what did he do?"

Everyone asked.

"This is a cultivator at the void training stage," Daoist Yunshan continued. "Of course, the upper sect wouldn't be so nervous. However, what if this cultivator entered the demon-stricken area alone and caused a huge commotion? not only did he take away the demon race's Supreme treasure, the yuan Sha Saint marrow, but he also killed the demon Lord and demon Emperor, forcing the demon Lord to take action personally?"

"What?"

"The demon master ... Is going to deal with it personally?"

"This, this is a godly person!"

After being described by Daoist Yunshan, everyone was extremely excited. They had never heard of anyone who dared to enter the demon disaster area alone. Even a patriarch-level figure would not do that, right?

"That's right. When I first heard this news, my expression was the same as yours-I couldn't believe it. But this is all true, because this is the news from Paradise. "

"The blissful Summit?"

All the news shocked everyone. The blissful Summit was one of the three top sects in the spiritual realm. It was rumored that the master of the blissful Summit, the blissful scholar, was proficient in the way of dual cultivation between a maiden and her master. His cultivation base was infinitely close to the crossing calamity stage. If such an existence attached so much importance to ye chen, how could they?

"The demon master is an existence comparable to a form synthesis stage ancestor. It was the demon master who suppressed senior ye chen with a single palm."

"Ah ... Then senior ye chen must be dead after suffering such a heavy blow, right?"

At the thought of this, everyone sighed. It would be a great loss for the human race if such a genius were to die at the hands of a demon master.

Daoist Yunshan shook his head and continued when he saw that everyone's mood had instantly dropped.

"Everyone, this edict comes from the high sect's paradise. One of the Almighty's sensed that senior ye chen is still alive. This is the reason why we're looking for him."

"Oh, that's great,"

Everyone was overjoyed. They didn't expect that he wouldn't die after taking a blow from the demon master. Such talent was unprecedented.

"Sect master, don't worry. We'll keep an eye out. I hope senior ye chen will quickly appear so that we can recover from the blissful Summit."

"That's right. Senior ye chen has such merit to fight against the demon master alone. Such courage is admirable!"

"We'll definitely find senior ye chen. "

After the meeting, everyone expressed that they would fully cooperate with the search.

"Huff, Huff, Huff!"

Just as the meeting ended and everyone was about to leave, the spiritual Qi of heaven and earth suddenly moved and the wind and clouds surged.

"What?"

Daoist Yunshan flew out and watched as the spiritual energy around him surged in one direction, as if it was being sucked away by force. This was the first time he had seen such a strange thing.

"This ..." Daoist Yunshan turned pale with fright. He seemed to have sensed that something amazing was happening.

Back mountain, where the Grand Elder of the green spirit sect was in seclusion.

"Boom boom boom!"

The three elders woke up at the same time, their hearts palpitating.

A white-haired yet youthful Grand Elder said, "Why do I feel that the spiritual Qi of heaven and earth is suddenly gone?"

"It's ... It's like it's been sucked away by force?" The other Grand Elder said with lingering fear.

"Whoosh, whoosh, Whoosh!"

The three of them appeared at the green spirit sect at the same time and saw elder Yun Shan and the others.

"Did you sense the fluctuation of spiritual energy?" One of the Grand elders asked.

"Reporting to Grand Elder, we have indeed noticed it, but we have yet to find out what is going on." Said Daoist Yunshan.

"Mm ..."

The three Supreme elders sighed at the same time. Then, they released their power and swept the entire place, trying to find the source. However, no matter what they did, they couldn't find a single trace.

"We should go back!"

"Alright!"

The three of them left at the same time, leaving the crowd looking at each other.

In the cave abode of an inner sect disciple.

"Pfft!"

"I'm about to enter the late stage of the foundation building realm. Why is the spiritual Qi suddenly gone ..." Song hehe spat out a mouthful of blood.

"Senior brother, this ..." Everyone revealed a look of shock, but no one knew what had happened.

At this moment, in ye Chen's cave abode.

He climbed to the West, his chest rising and falling. Countless Dragon-shaped spiritual energy kept entering his nose.

As the saying goes, when one swallows and swallows the great wilderness, the spiritual energy will come!

"Zi Zi Zi!"

A bright light shone from his eyes. Ye chen stood up and felt that his clone's cultivation had reached the foundation establishment stage!

[Chapter 1774 Zhen Rou Visits!](#)

He had forcibly absorbed the spiritual energy of heaven and earth, which had caused the phenomenon of heaven and earth. If he showed that his cultivation speed was too fast, it would not be a good thing if others found out.

Therefore, ye chen had hidden his cultivation base at the third level of the spirit gathering stage.

"Zi Zi Zi!"

Suddenly, there was a strange movement in the formation outside. Ye chen knew that someone had arrived.

Ye Chen's divine will connected with the formation and discovered an outsider.

"It's her?"

Ye Chen's expression changed. He got up and walked outside.

The person standing outside the cave was the female inner sect disciple named Zhen Rou.

Ye chen waved his hand to dispel the formation, then let her in. He said, ""Gu fan greets Senior Sister Zhen Rou."

"Junior Gu, I heard that you've been cultivating in seclusion in your cave for the past half a month?"

Zhen Rou sized up ye chen and said with a slight frown.

Ye chen smiled. "Junior Apprentice brother's aptitude is dull. I know that cultivation is difficult, so I can only cultivate diligently!"

Zhen Rou looked at him with admiration and shook her head. "You can't do this. Cultivation isn't a closed-door training. I heard from my master that in the path of cultivation, wealth, companionship, law, and land are all important. Wealth is the most important."

"The purpose of the sect is to provide us with a place for wealth and magic. You need to go out more often and do some sect missions to earn contribution points. You can use them to exchange for the corresponding cultivation techniques and medicinal pills."

Ye chen smiled and nodded in agreement, expressing his gratitude.

He didn't expect Zhen Rou to be concerned about his cultivation. There were very few people like her in the sect.

Ye chen saw that her face was slightly red and her breath was unstable. He asked, ""Senior Sister, is there a problem with your cultivation?"

"When I was cultivating just now, I don't know why, but I felt like the spirit Qi in the world suddenly disappeared ..." Zhen Rou didn't know whether to laugh or cry.

"Such a thing is very rare. It's not just me, the spiritual Qi of heaven and earth in the entire green spirit sect has been sucked dry. Even the three great elders were shocked by this phenomenon. They came out of seclusion to investigate this matter, but in the end, they couldn't find out what the problem was."

When ye chen heard this, he laughed in his heart. He was the one who had absorbed the spiritual energy. In order to speed up his cultivation, he had released the Taotie secret technique to gather and absorb the surrounding spiritual energy.

Such a secret technique could greatly increase the speed of cultivation, but it would also cause the surrounding space to change.

"The Grand Elder said that some Almighty might have accidentally passed by our green spirit sect and absorbed the spiritual Qi of heaven and earth while he was breathing."

"There's such a thing? It's really strange. "

Ye chen chimed in.

"It's true. You should've sensed it when you were in seclusion in the cave abode," Zhen Rou said with a look of lingering fear. Also, that senior didn't stay for long. It's a good thing he didn't touch the spirit vein of our green spirit sect. Otherwise, our green spirit sect would have been destroyed ..."

Seeing ye Chen's strange expression, Zhen Rou shook her head slightly. Ye chen might not understand what she was saying.

"Forget it, Junior Brother Gu fan. Let's go out and meet our fellow disciples. It's much better than you staying in the cave and cultivating on your own."

"Alright."

Ye chen had just finished his cultivation and went out for some fresh air.

Along the way, under Zhen Rou's guidance, ye chen saw many of the sect's scenic spots and historical sites. He also saw many disciples who were discussing cultivation.

They had just entered the sect, so they were very enthusiastic about discussing martial arts. Many of them gave long speeches to show their talent in martial arts theory.

Suddenly, many disciples appeared in front of them. However, they were not discussing cultivation. Instead, they were discussing something.

"Junior Sister Dong Xuan is indeed a genius," one of the disciples said. "She's only been in the sect for half a month, and she's already at the fifth level of the spirit gathering stage. I'm afraid she'll be able to build her Foundation within a month ..."

"There are differences between people. Junior Sister Dong Xuan has a mutated Ice Spirit root and has even been accepted as a personal disciple by the Grand Elder ..." Another person was extremely envious.

Dong Xuan was the woman who had entered the sect with ye chen and was tested to have an Ice Spirit root.

Now that she had been accepted by the Grand Elder as an inner disciple, she received all kinds of resources on a daily basis, and her cultivation progressed at a tremendous pace. In the eyes of everyone, she was a genius girl.

Ye chen looked up at the sky and saw that Dong Xuan was cultivating The Art of Flight.

This technique was a movement technique, and it required a very high level of inner breath. Only with a stable heart and a smooth flow of true essence could the cultivator move freely.

"Senior Sister Dong Xuan's aura is not very stable."

Ye chen said casually.

"Who is it?"

When they heard ye Chen's words, many disciples immediately turned to look at him coldly. Their eyes were filled with ferocity and dissatisfaction.

Da, da, da!"

A few disciples rushed over and faced ye chen.

"Hahaha, this is ridiculous. Isn't this the guy who cultivated until his brain went haywire? he's actually speaking ill of Junior Sister Dong Xuan, are you worthy?"

One of them said to Ye Fan.

"Right, don't you have points for your own talent? Even the most ordinary four-spirit root owner dares to point his finger at a genius with the mutated Ice Spirit root. Don't you know your own surname?"

"Such a good-for-nothing, yet he's still so arrogant. It seems like he'll be a good-for-nothing for the rest of his life."

Several disciples deliberately spoke loudly, obviously to let Junior Sister Dong Xuan, who was cultivating in the sky, hear it. In this way, they could win her favor.

However, they didn't know that Dong Xuan didn't care about them at all and only focused on her own cultivation.

Even so, the few of them put in a lot of effort in their acting and kept mocking ye chen.

"How can you all say that? Junior Brother Gu fan is also working hard in his cultivation. Seclusion is just a way of cultivating, but it doesn't necessarily mean that he can't do it." Zhen Rou said.

"Senior Sister Zhen Rou, you don't have to protect him. He's a good-for-nothing, and he'll drag you down!"

"That's right, Senior Sister. This person is an arrogant scourge. He was like this when he was testing his spirit root. You really think you're that powerful, but you're just an ordinary spirit root. "

The crowd ridiculed him again, leaving Zhen Rou helpless. After all, ye chen had been in closed-door cultivation ever since he entered the sect. No one knew how far he had cultivated. Now, it was impossible to tell from his aura as if he had no cultivation at all. She could not help him.

"Junior Brother Gu fan, you should have come out earlier to cultivate together with them and form a good relationship with them. This might not be the case anymore." Zhen Rou said.

"Senior Sister Zhen Rou, don't pay attention to this group of useless people."

Ye chen stood with his hands behind his back, exuding the air of a Grandmaster, ignoring the mockery of those people.

"What is it? You're looking for death!"

The crowd was furious. They rushed over and surrounded ye chen.

"Hehe, you bunch of ants are not worth my time."

Ye chen was not afraid and faced them head-on.

"Go!"

Everyone was furious and prepared to attack.

At that moment, Dong Xuan's breathing became unstable in the sky and she fell directly from the sky. Seeing that she was coming in ye Chen's direction, everyone was shocked and retreated.

"What?"

Ye chen took a big step forward. His figure was steady as he stretched out his arms!

[Chapter 1775 Ye Chen's Name Shocks Azure Spirit!](#)

Seeing that Dong Xuan was about to fall to the ground, the consequences were unimaginable, ye chen made a decisive move.

He took a big step forward, his body steady. He stretched out his arms and gently lifted them, just in time to hold Dong Xuan's waist.

This action was too ambiguous. Dong Xuan had noticed it from the sky, but her breath was unstable and she could not resist falling from the sky.

"Junior Sister Dong Xuan, are you alright?" Ye chen asked.

Everyone was stunned by this scene, including Zhen Rou.

That was Dong Xuan, the genius Beauty who had awakened a mutated spiritual root and had been accepted by the Grand Elder as an inner disciple. Yet, she was caught by a "good-for-nothing" and had her arms around her waist. It was an extremely intimate action.

"Shameless!"

The moment she landed, Dong Xuan turned around and slapped ye chen without a word. However, ye chen grabbed her hand.

"Senior Sister Dong, what do you mean by this?" Ye chen frowned.

However, she only gave ye chen a cold look and left in a Huff.

"What?"

Ye Chen's eyes flashed coldly. He had saved her but was almost slapped in the face. What kind of logic was this?!

However, he didn't want to expose his personality since everyone was here, so he acted as if nothing had happened.

"Why is Junior Sister Dong Xuan so unreasonable?" Zhen Rou frowned and said, "she almost hit Junior Brother Gu. If it wasn't for him, she would have been injured. Not only is she not grateful, but she also blames Junior Brother Gu."

"It's fine, Senior Sister Zhen Rou!"

Ye chen shook his head, indicating that it was fine.

"I'm afraid this Junior Sister Dong is a little too arrogant. If this continues, it won't be beneficial to her cultivation," Zhen Rou added.

"Hahaha, Senior Sister Zhen Rou, why are you protecting a good-for-nothing?"

"That's right, how can a trash touch Junior Sister Dong Xuan's jade body? Even if it's to help Junior Sister, you can't do it. Trash will always be trash, and can't be forgiven!"

"You really want to be the hero saving the beauty? It's a pity that he doesn't appreciate it. "

After Dong Xuan left, the crowd laughed and continued to mock ye chen.

"What are you guys doing? Don't you care about right or wrong?"

Frowning in anger, he berated the crowd.

"This ..."

Everyone was submissive and didn't dare to say anything else. After all, Zhen Rou was their Senior Sister and was stronger than them. If they angered her, the consequences would be unknown.

They were all people who bullied the weak and feared the strong. They were not worthy of ye Chen's attention.

At that moment, a gust of wind blew from the sky, and Daoist blue heart descended.

"Welcome, Daoist blue heart!"

Everyone bowed and greeted the Daoist.

"Dispense with the formalities!"

Daoist blue heart waved his hand at the crowd, and they all stood up, waiting for his instructions.

At this moment, Daoist blue heart suddenly looked at ye chen. Everyone was puzzled.

Then, the Daoist revealed a smile. He seemed to be a little surprised, but also a little relieved.

"Gu fan, have you already reached the spirit gathering stage?"

"Yes!"

Ye chen nodded slightly.

"What?"

Everyone was shocked. They had never seen ye Chen's cultivation base so high.

Zhen Rou covered her mouth in disbelief.

"Junior Gu, why didn't you tell us that you've already reached the third level of the spirit gathering stage?" Zhen Rou asked.

"Such a small matter, what's there to worry about?"

Ye chen said.

"This ..."

Those who had mocked ye chen earlier all lowered their heads. They did not expect ye Chen's cultivation speed to be so fast. After all, even the genius Dong Xuan was only at fifth level spirit gathering stage. She had an Ice Spirit root. Now, ye chen only had an ordinary four spirit root. How did he do it?

"Many disciples with three spiritual roots are looking for the feeling of Qi. Junior Brother Gu has already entered the third level of the spirit gathering realm. This is too exaggerated."

Zhen Rou couldn't help but exclaim.

Daoist blue heart looked at ye chen in confusion.

When she had first met ye chen, she had thought that he was just an ordinary boy with nothing special. Moreover, there was nothing special about his four spiritual roots.

However, his current cultivation realm was indeed at the third level of the spirit gathering realm, which was inexplicable.

"Gu fan, did you have any fortuitous encounters?" Daoist blue heart asked.

"This ..."

Ye chen made a mysterious gesture.

"Speak, Junior Brother Gu!" Zhen Rou said.

"This disciple found a Pearl in the spirit well of the immortal's cave and accidentally swallowed it, so I became like this."

Ye Chen's words shocked everyone and made them feel very strange.

Everyone looked at Daoist blue heart. She was the only one who could explain this.

Daoist blue heart was shocked again."It seems like the Pearl you swallowed is a spiritual eye. If that's the case, it's no wonder that your cultivation speed is so fast."

"Spiritual eye?"

Everyone looked at each other in shock.

"I didn't expect this kid to pick up a spiritual eye!"

"It's really too strange. "

"Sigh, why aren't we so lucky?"

The crowd was envious and shook their heads with a sigh.

"This is Gu fan's own luck. You guys can't be more envious." Daoist blue heart said.

"I understand!" Everyone agreed in unison.

Daoist blue heart was overjoyed. Before this, he had thought that ye chen was a good-for-nothing with no possibility of becoming someone great. However, now it seemed that at least he had the destiny that no one else had. Perhaps, with this destiny, ye chen could break through the limits of his talent.

Then, Daoist blue heart said to everyone again, "The reason why I called you all here today is to remind you that the sect will hold a secret realm trial in half a month. I hope you all cultivate well and don't slack off."

"We understand. We will follow master's instructions!" Everyone saluted.

Daoist blue heart didn't leave immediately. Everyone was puzzled. Under normal circumstances, Daoist blue heart wouldn't stay with them for such a long time.

"Many of you are either rich or noble in the secular world. I hope you can send a letter to the secular world and help the green spirit sect find someone."

They didn't expect Daoist blue heart to ask them to look for him. Everyone was very active, hoping to find a sense of existence before the Daoist.

"Master, may I ask who you are looking for?" Someone stepped forward and asked.

"This person's name is ye chen. He's a super genius cultivator in our spirit realm."

"Ye chen?"

Everyone was stunned. They had never heard of this name before.

"Our green spirit sect is located in a remote area, so it's normal that you've never heard of us. However, you must remember his deeds in your hearts to temper your will and open a path for your future cultivation."

"Master, what kind of achievements does he have?" Everyone was surprised.

"This person is a void refinement realm expert. He barged into the devil disaster zone alone and fought a great battle against the devil race. He killed countless devil Lords and even a devil Emperor. Only devil Masters can suppress him."

"Demon Slayer, demon Emperor, and demon master?" For a moment, everyone exclaimed in unison, their bodies full of excitement.

"That's right. This person's strength, courage, and talent are all at the top of the human race. We must find him."

"Yes, don't worry, master. We'll do our best to find such a Big Shot!"

Everyone promised that they would do their best.

Ye Chen's heart skipped a beat. He did not know how the Azure spirit sect knew about this.

[Chapter 1776 The Mystic Realm Competition Begins!](#)

In the next half a month, more and more legends about ye chen were spread in the Azure spirit sect. They were getting more and more bizarre.

People walking on the streets, cultivating in the martial arts practice field, and people they met all talked about ye chen.

"You guys should know by now that a mysterious person has appeared in our spirit realm. He's called ye chen. He charged into a Tiger's Den alone and fought a demon master!"

"Of course, elder blue heart and the others personally issued a search order. That's incredible."

"Killing a demon Emperor and fighting a Demon Lord at the void training stage ... I don't think there's anyone in the spirit realm who has such talent."

"I heard that he survived the devil Lord's attack. This isn't just about talent, but also about luck. That's a matter related to the heavenly Dao. It's not something we can discuss."

Everyone expressed their opinions one after another. For ye chen, other than admiration, amazement, and admiration, there was only admiration.

It should be known that even if the three great old ancestors joined forces, it would be difficult for them to escape from the rear of the demon-stricken area. However, ye chen, a void training cultivator, dared to do so. This was too ridiculous.

"Aiya, we've cultivated for hundreds of years, but we're not as powerful as those in the human world who have cultivated for decades. What's the reason for this?"

"This is heaven's will. It's not something we can decide. Whoever can find ye chen will be handsomely rewarded. However, such a person can't come and go. It won't be easy to find him."

"As long as he's still within the spirit realm of the human race, we'll be able to find him. He's a pillar of the human race, and we have hope!"

"Yes, we have hope!"

Everyone smiled together. With such a human race prodigy appearing out of nowhere, it wasn't impossible to fight against the demon race.

All kinds of news were spreading outside. Ye chen had been in closed-door cultivation all this time. He did not want to disturb his cultivation because of these trivial matters.

He was just a clone of his main body, and his Foundation was too weak. What he needed to do now was to recover his cultivation. Nothing else was important.

Inside the cave abode, ye chen sat cross-legged, completely immersed in the state of absorbing spiritual energy.

Now that his devouring mageweath had been cultivated to the ninth-grade, it could absorb the surrounding spiritual Qi at an extremely fast speed.

As a result, the strange things in the green spirit sect became even stranger.

In order to break through his limits, ye chen used a ninth-grade mageweath to absorb spiritual energy. At such a speed, the spiritual energy in the surrounding space could not keep up at all. As a result, the spiritual energy in the other spaces began to be forcibly drawn over by ye chen.

In an instant, ye Chen's abode had become the center of spiritual energy gathering in the Azure spirit sect.

As ye chen was a new outer sect disciple, he did not have much of a presence to begin with. In addition, ye Chen's incident in The Fiend Race had caused an uproar. Why would anyone care about this person who went by the alias Gu fan?

Of course, since ye chen had broken through to the third level of spirit gathering stage in Gu fan's identity, there were still some people who were discussing it.

However, when compared to ye Chen's experience in the demon race, it was like heaven and earth.

"That fool is still in seclusion. Hahaha."

"Hmph, do you really think that you're invincible just because you broke through to the third level of the spirit gathering stage through some strange method? The limitations of his talent are obvious. His spiritual roots are simply unparalleled, and there's a huge gap between him and us. "

"That's right. With such talent, what's the point of working hard? he might as well cultivate with everyone else. Who knows, he might be able to comprehend something. What an idiot."

"Hmph, isn't that obvious? such a person wants to seal himself up to cover up his incompetence. Ridiculous!"

The crowd looked at Gu fan with disdain and contempt.

However, during this period of time, there had been a huge change in the spiritual Qi in the green spirit sect, which puzzled everyone, even the elders.

The biggest problem was that the spiritual Qi of heaven and earth would dry up once in a while, and then it would return to normal after that, and then dry up again. This matter was too strange, and no one could find out the truth.

The day of the green spirit sect's internal competition arrived.

Inside the abode, ye Chen's eyes shone with a golden light. He was like a Buddha or a God descending to the mortal world!

In the past half a month, he had absorbed spiritual energy from the heavens and earth many times to replenish his Foundation. He had broken through the limit of his cultivation and had reached the Golden core stage.

"Boom boom boom!"

The bell in the green spirit sect rang, and many disciples gathered.

On the square, the various elders had also arrived.

"Whoosh!"

All of a sudden, a cyclone pierced through the sky, shocking everyone.

"Who is that?"

"It seems to be Junior Sister Dong!"

Then, colorful clouds appeared in the sky, and Grand Elder he Xian appeared with Dong Xuan.

Upon seeing this, Taoist Yunshan looked pleased. ""Dong Xuan has awakened an ice spiritual root. Her talent is indeed extraordinary. In less than a month, she has already cultivated to the foundation establishment realm. This is a blessing."

"Sect leader senior brother is right. It's a blessing for the green spirit sect!"

The other elders chimed in.

At this moment, the old crone crane immortal brought Dong Xuan to the front of the crowd.

"We welcome the crane deity!"

Everyone bowed and saluted. Many disciples looked at Dong Xuan with admiration. One was her talent, and the other was her beauty.

At this moment, Dong Xuan's temperament had changed greatly, and she was like a true fairy from the clouds.

Such talent and appearance made countless cultivators exclaim in admiration and envy. Their hearts were stirred.

"Disciples, today is an important day. It's the day of the outer sect competition. All new outer sect disciples must participate in it. You will be led by your Masters to the ice Mystic realm."

"Oh, an ice secret realm. Just hearing it makes me feel cold in my heart. I'll have to be serious this time."

"That's right. Whether or not I can gain a foothold in the sect will depend on my performance this time. I must succeed in this secret realm. "

"I wonder how many treasures there are inside. Once I obtain them, they will be of great benefit to my cultivation and future. I must get them!"

Everyone rubbed their fists and wiped their palms, full of anticipation for this trip to the mystic realm.

"Sect leader senior brother, I have other matters to attend to. Daoist blue heart will be bringing Dong Xuan to the secret realm trial this time." The old crone crane immortal said.

"Yes, crane deity, no problem."

Daoist Yunshan nodded slightly in agreement.

The crane deity walked in front of Dong Xuan and whispered to her before leaving.

At this moment, ye chen appeared with Daoist Blueheart.

Dong Xuan's expression was cold. She walked to ye Chen's side and glared at him. She still bore a grudge against ye chen for hugging her waist with his arms. She thought that ye chen had taken advantage of her.

Ye chen naturally understood what the young girl was thinking. However, he was not someone who would stoop to the level of a junior like her.

"Everyone, let's set off!" Daoist Yunshan gave the order, and everyone set off.

Ye Chen looked ahead, not paying any attention to Dong Xuan, the tracker, and Daoist Blue Heart who were walking beside him.

"Board the spirit boat!" Daoist Blue Heart said.

"Yes!"

Many disciples agreed and boarded the spirit Vessel!

[Chapter 1777 The Four Sects Of Qingzhou!](#)

Everyone sat on the spirit boat and crossed countless mountains.

This was also the first time Ye Chen had seen the vastness of the Qing Province.

About four hours later, a snowy peak came into everyone's view.

The ice secret realm was located on a snow-capped peak. It was extremely steep and difficult to enter.

Everyone got off the spirit boat and followed Daoist Blue Heart.

The snowy peak towered into the sky like a pillar supporting the sky. The surrounding spiritual energy was extremely abundant. Ye Chen could feel the rapid flow of the spiritual energy. He could even absorb a large amount of spiritual energy directly from the surrounding environment.

Of course, he didn't do that to hide his absorption ability.

After all, he had already recovered to the Golden Core stage and had a basic foundation. It wouldn't be a problem for him to resist the mystic realm this time.

Even if there was a problem, after entering the arcane realm, Ye Chen believed that the spiritual energy density there would be much higher than outside.

The mountains were high and surrounded the snow-capped peaks. Under the snow-capped peaks, there was a vast field that was already crowded with people.

Ye Chen looked around and noticed that many cultivators were wearing different clothes. They seemed to be from different sects.

"Junior Brother Gu, they're all from other sects. There's the Beast Trainer Sect, the Elixir River Sect, and the Flaming Sun Sect."

Zhen Rou noticed Ye Chen's confusion, so she explained to him.

"The Green Spirit Sect and the Beast Trainer Sect are known as the four big sects of the Qing Province. The ice secret realm is not solely owned by the Green Spirit Sect, but by the four big sects. When we enter it, we will not only be fighting against the disciples of our sect, but also the competition between the big sects."

Hearing this, Ye Chen nodded slightly. In this way, things would become much more complicated and the previous plan might have to be revised.

However, no matter what difficulties he encountered, for the sake of cultivating his ancient God Body, he would definitely not back down.

At that moment, Daoist blue heart came over.

She had a smile on her face and was very gentle to everyone.

In a sect arena like this, what everyone needed was confidence.

She added, "there are many natural treasures in the secret realm. They are all treasures that can help you break through to the next realm. Your task is to use Ge Ping's methods to collect and compete for these treasures. Then, you can return safely. Whoever obtains the most treasures will be the champion of the competition and receive rewards such as the foundation building pill!"

"Foundation establishment pill?"

Hearing such a reward, everyone's eyes turned red. They naturally wanted a treasure that could help cultivators enter the foundation establishment realm.

Of course, such a reward was not worth mentioning to Ye Fan. Dong Xuan, who had already entered Foundation establishment, was also disdainful of such a reward.

When the others saw this, they were all shocked. As expected, Dong Xuan had already left them far behind after entering the foundation establishment realm. There was no need for her to fight for such a reward.

However, when they looked at ye chen, they realized that he was also disdainful. This was a problem.

"Gu fan, you didn't even flinch when you heard about the reward of the foundation building pill. What do you mean? are you looking down on the foundation building pill?"

One of the hostages asked.

"Hehe, to be honest, I still look down on you." Ye chen replied with a smile.

"What did you just say? Foundation-building pills are treasures to us, and you, a four-spiritual root trash, actually say that you look down on Foundation-building pills? are you calling us idiots?"

"Right, he actually secretly mocked us. Damn it!"

"You've been in closed-door cultivation every day. Why don't you show me your strength? why are you still so arrogant?"

Everyone targeted ye chen and even wanted to attack him. After all, they could not accept ye Chen's disdain for such a precious foundation building pill.

"Hmph!"

Beside him, Dong Xuan also sneered. In her opinion, a good-for-nothing like ye chen needed the help of the foundation building pill the most.

"What's all the noise?"

Daoist blue heart berated.

"Yes!"

The crowd retreated.

"We're facing the enemy of another sect, yet you're having internal strife. It's just a reward of a foundation building pill. It's your own problem whether you think highly of it or not. There's no need to discuss it!"

"But, Gu fan ..."

"Shut up!"

Daoist blue heart was furious, and no one dared to speak again.

At this moment, the four sects had gathered together. A completion leveled elder appeared. They were the leaders of the group.

Da, da, da!"

The crowd had just stopped when a series of footsteps sounded.

Ye chen looked forward. Before the person had even arrived, he could sense that there was something wrong with the footsteps. There was a sense of sharpness in them.

The person walking in front of the crowd was an old man with a gloomy face. When he saw ye chen and the others, he immediately sneered in disdain.

"Aiyo, isn't this the people from the green spirit sect? Why did I hear you guys having an internal conflict just now? hahaha!"

That person laughed loudly, obviously with a mocking intent.

"The people of beast trainer sect have no right to meddle in our Affairs!" Daoist blue heart stepped forward and rebuked.

"You still have the face to say this? in the four sect secret realm competition, your green spirit sect is just a foil. Didn't you come last last year? Hahaha. "

"Hmph, your beast trainer sect isn't any better. You're just a little stronger than us."

"They're still strong. The green spirit sect should disband quickly."

"What did you just say?"

Daoist blue line took a step forward and released his aura.

"What?"

The elder of beast trainer sect also released his aura, and the two sides were at loggerheads.

"Why is that so?" Ye chen asked.

Zhen Rou shook her head and explained, "the green spirit sect and the Beast trainer sect have never been on good terms. The disciples of both sects have fought many times, and there have even been casualties. So, they're always at loggerheads whenever they meet."

"I see!" Ye Chen nodded.

Just as the two sides were about to fight, a core formation elder from the elixir River sect stepped forward to ease the atmosphere. "Alright, you two, quarreling like this in front of so many Junior Disciples, What is this?"

"Hmph!" Daoist blue heart snorted and returned to the green spirit sect's formation.

"Hahaha, I can't be bothered to argue with a woman."

With that, the elder of beast trainer sect left as well.

After the two parties parted, the elder of the elixir River sect walked towards the green spirit sect.

He looked at Daoist blue heart and asked, "Daoist blue heart, I've heard that your esteemed sect has just accepted a genius disciple with a mutated Ice Spirit root. Is that true?"

The people from the other two sects were shocked and looked at Daoist blue heart at the same time.

Daoist blue heart's willowy brows rose slightly as he was overjoyed.

"Dong Xuan, aren't you going to come out and meet the elders of the various sects?" he said with a smile.

"Yes!"

Dong Xuan walked out and stood in front of everyone.

"Ha, she's indeed extraordinary. Not only is she talented, but she's also beautiful. The green spirit sect is going to rise." The elder of the elixir River sect praised.

"I don't dare, I don't dare!" Daoist blue heart replied.

However, the elder of beast trainer sect was not jealous. Instead, he sneered, "My beast trainer sect also has a disciple with a mutated lightning spiritual root."

"Lei can, come out and greet the seniors."

A handsome young man in Black clothes stood up and saluted, looking at Dong Xuan and Zhen Rou with a hint of greed in his eyes.

Many cultivators were shocked to see this person.

"Heroes indeed come from the young. In that case, let's open the secret realm!"

The elders of the four sects unsealed the secret realm together while Ye Chen, Dong Xuan, and the others entered with the wind.

[Chapter 1778 Little Sister Will Definitely Repay You Generously!](#)

The elders removed the seal of the secret realm, and everyone was arranged to the entrance of the cave.

"Be careful when you enter the secret realm!"

After the elders gave their instructions, everyone entered the secret realm.

The frosty Qi invaded his body. After ye chen stepped into the arcane realm, he immediately felt the world spinning around him. The scenery around him changed rapidly.

This was the automatic effect of the restrictions in the secret realm of ice, which would randomly teleport people to various places in the secret realm.

"What?"

The changing scene suddenly stopped. Ye chen felt a void under his feet as if a black hole had appeared.

"What's going on?"

He suddenly woke up. It turned out that he was standing on a cliff that was so deep that he couldn't see the bottom.

"Go!"

Ye Chen's chi force swept across his body and sent out to the surrounding cliffs. With a recoil, he returned to a safe place.

"Al, what a joke. Could it be that the person who designed this restriction didn't treat cultivators as humans? if it wasn't for my strong foundation, this cliff could've easily taken a cultivator's life. It's incredible. "

He smiled bitterly, shook his head, and walked toward the top of the cliff.

A burst of spirit energy came over, causing ye chen to stop in his tracks. He looked to the side and found a spirit snake grass.

"Low rank spirit snake grass, I was wondering what it was."

Ye chen was very disappointed and continued to walk toward the top of the cliff. However, halfway there, he suddenly felt a cold wind behind him and a murderous aura.

It was actually because of him that the spirit snake grass's Guardian beast attacked.

A foul wind blew in ye Chen's face. A huge Python flew out from the bottom of the cliff and attacked ye chen.

"Whoosh!"

Ye Chen's body moved in an instant and dodged the attack. The Boulder cracked and the Python stretched its neck to look at him.

The giant python flicked its tongue and its eyes were extremely cold. Its huge body had a strong suppressive force.

However, it had found the wrong person to provoke.

"A little evil creature dares to provoke me? you're looking for death!"

Ye chen unsheathed the sharp blade in his hand and a cold light shot out. It was the flying blade transformed from the immortal slaying Flying Dagger.

Buzz, buzz, buzz!"

The flying blade spun away, and the Qi was unstoppable. Like a knife cutting tofu, the giant python was cut into several pieces on the spot!

Ye chen did not even turn back to look at it. He walked straight up the cliff.

When they arrived at the top of the cliff, they saw a lush forest. The forest was dark, and there were faint roars of wild beasts.

Ye chen scanned his surroundings. All sorts of information entered his mind and he had a basic understanding of the situation.

After that, he continued to move forward. This time, he was looking for the cold spirit ice core, so he could not waste any time.

Ye chen had not even walked for a moment when he sensed a battle Aura.

"Whoosh, whoosh, Whoosh!"

Ye chen flew away like a gust of wind and arrived on top of a huge ancient tree. He saw two people fighting in the valley.

His eyes flickered as he scanned his surroundings. He immediately saw the reason for the two's argument.

"Sky spirit herb!"

Not far away from the two of them, a sky spirit herb was shining.

These two people were a man and a woman, both of whom had cultivation levels of around the fifth level of spirit gathering stage. Ye chen did not even take them seriously.

"Looking at the service, the man should be from the beast trainer sect, and the woman should be from the elixir River sect." Ye chen watched the two of them fight and did not make a move. After all, it had nothing to do with him.

On the battlefield, the two of them had very similar cultivation levels. However, the fact that the beast trainer sect had a giant python of the fifth level of the spirit gathering realm with them greatly changed the battle situation.

"Hahaha, Junior Sister, you are no match for me. Why don't you leave now?" The man from beast trainer sect said with a smile.

"Hmph, what capabilities do you have? I must have this sky spirit herb."

The girl from the elixir River sect was unwilling to give up and still wanted to fight.

"You really don't know what's good for you!"

The people of beast trainer sect had cold eyes. They rode the giant python and attacked together.

"Pfft!"

When the giant python had used the woman to fight against the man from beast trainer sect, it had swiped its tail at the woman's lower abdomen.

The woman couldn't resist the powerful force at all. She was thrown a thousand feet away on the spot and was in great pain.

Blood kept flowing out of her mouth. She didn't expect that the other party would really kill her. If that was the case, not only would she not be able to get the Tianling herb, she might even lose her life.

"Hahaha!" The man from beast trainer sect laughed and picked up the sky spirit herb.

At this moment, ye chen walked past them and ignored them.

However, when the woman from the river elixir sect saw ye chen, she revealed an excited expression as if she had seen a life-saving straw.

"Senior brother from green spirit sect, I'm song Xueling from the elixir River sect. Please save my life. I'll definitely repay you!"

The woman looked at ye chen with deep affection but ye chen acted as if he did not hear her. He did not want to interfere. After all, this arcane realm trial was a life-and-death one. He could not just save everyone he saw.

Seeing that ye chen was about to leave, the woman's eyes were filled with despair. She knew that the people of beast trainer sect were all ruthless characters. If ye Fan left, she would not only have to take the Tianling herb, but she might also lose her virginity.

How could he bear such humiliation?

"Wait!"

At that moment, a cold voice entered ye Chen's ears.

"What?"

Ye Chen's expression changed slightly, showing his displeasure.

"Hehe, Little Junior Brother, it's not good for you to just leave like this, right?"

The people from beast trainer sect walked over and looked at ye chen with fake smiles.

Ye chen stopped in his tracks and turned to look at the man. He could tell at a glance what the man was thinking. The man was afraid that he would gossip when he walked out.

"Senior brother, is there anything else?" Ye chen asked.

"No, no, I just want to be friends with you!"

The man from beast trainer sect walked over slowly with a smile on his face. However, he didn't know that he was walking towards the abyss of death.

The woman from the river elixir sect next to him looked terrified. She wanted to warn ye chen but did not dare to. If ye chen died, she would be a fish on the chopping board.

"Hehehe!"

Just as the people of beast trainer sect were laughing sinisterly, the giant python suddenly appeared behind ye chen and opened its huge mouth to attack ye chen.

"You're looking for death!"

Ye chen was furious. He did not want to meddle in other people's business but since it was his business, there was no need to say anything more!

Buzz, buzz, buzz!"

A rapid cutting sound came from the air, and instantly, blood splashed, and the giant python was cut in two.

"Ah ..."

Seeing this, the people of beast trainer sect were shocked. They did not expect ye chen to be so powerful. The giant Python's cultivation was not weak. It was at fifth level spirit gathering realm, but the other party could kill it without batting an eye. Such strength was too powerful.

"Spare ... Spare ..." The man was begging for mercy, but the brutal palm energy had already arrived.

"Ah!" He screamed and died on the spot.

"This ..."

Song Xueling could not help but feel terrified when she saw that.

This was because ye chen was able to kill a fifth level spirit gathering stage martial artist in one blow. His strength must be at least eighth level spirit gathering stage or above.

On the other hand, ye chen had only been in the sect for less than a month. Such talent was too terrifying.

Sensing the killing intent in ye Chen's eyes, she immediately fell to the ground and said with a frightened look, ""Senior brother, please spare me. I can do anything, even offer my body!"

[Chapter 1779 1783-Shocking Changes In The Secret Realm!](#)

"You're a smart person!"

Ye chen walked over and said to song Xueling.

"Senior brother, I'm willing to do anything, please spare me!" Song Xueling crawled in front of ye chen and hugged his leg.

"Get lost!"

With a wave of his sleeve, ye chen sent him flying, his expression cold.

"Ah ..."

Song Xueling immediately shouted, thinking that ye chen was going to kill her.

"You don't have to be so frightened. As long as you let me plant a restriction in your body, I'll spare you. Of course, if you go out and talk nonsense, the restriction will activate. You know the consequences!"

"Yes, yes!"

Song Xueling continued to welcome him, not daring to disobey.

Ye chen rushed over and struck her abdomen with his palm energy. He had already planted a restriction in her body.

This kind of restriction could be controlled with one's heart. Once a woman broke her oath, she would explode and die.

"Let's go!" Ye chen said.

"Many thanks for senior brother's mercy!" Song Xueling thanked him and left.

Ye chen continued to search for the frost Spirit ice core. Only by finding it could ye chen successfully cultivate his ancient God Body. This was the most important thing.

Before he left, he kept the sky spirit herb. Although it was not worthy of his attention, it was better than nothing.

As he walked, he heard the howls of the night Wolves. Ye chen smelled a familiar aura.

"Beast trainer sect again!"

Ye Chen's eyes glowed coldly, ready to strike at any moment.

"Hahaha, you have the smell of the sky spirit herb on you,"

Sure enough, the people of beast trainer sect jumped out of the forest and surrounded ye chen with three mystical beasts.

"So what?" Ye chen looked at the man coldly, his face full of disdain.

"Aiyo, you're quite arrogant. I can sense that your cultivation is only at the third level of spirit gathering realm. You want to survive here? what a joke!"

"Level three of spirit gathering realm. It's enough to kill you."

"What did you say? I'm an expert of the seventh level of the spirit gathering realm, and you want to kill me?"

The man from beast trainer sect was furious and ordered the three Wolf beasts to attack ye chen at the same time.

At this critical moment, a graceful figure suddenly appeared.

The sword Qi swept in all directions, killing three Wolf beasts. Then, it concentrated on one point and locked onto the people of beast trainer sect.

"Swish!"

The sword cut through the throat, without any unnecessary movements, extremely natural and unrestrained.

The man from beast trainer sect fell to the ground and died on the spot.

Ye chen was surprised. He turned around and saw Dong Xuan.

When Dong Xuan saw ye Chen's gaze, she revealed a displeased expression. "Trash, your cultivation isn't high enough and you're here to die?"

Although her voice was cold, her act of saving ye chen had explained everything. After all, she did not want ye chen to die Here.

Ye chen was a little surprised. He did not expect that Dong Xuan, who hated him to death, would actually help him. In this cold place, there was more or less some warmth.

She was unruly and willful, but at least she knew how to help her fellow disciples, and she was kind at heart.

Zila, Zila, Zila!

Suddenly, a Thunderbolt swept over.

"Be careful!" Ye chen called out.

"Hmph!" Dong Xuan flew away and cut the power of Thunder with his sword.

The person who had arrived was the genius of beast trainer sect, Lei can.

He sized up the scene and his lips curled up. Then, he said to Dong an with a troubled expression, "Junior Sister Dong Xuan, it's not very nice of you to kill my beast trainer sect's disciple like this, right?"

"He wanted to kill someone from the green spirit sect. That's why I did it." Dong Xuan's pretty face was cold.

Upon hearing this, Lei can's expression turned unsightly as he said, "You killed a disciple of beast trainer sect for an outer disciple who just entered the sect?"

He pointed at ye chen. "I'll give you a chance now. Hand over the trash behind you and I'll let you go!"

Da, da, da!"

At this moment, many disciples of the green spirit sect had also arrived. When they heard what Lei can said, their expressions changed slightly.

Someone walked up to Dong Xuan and said softly, "Junior Sister Dong Xuan, he's just a new outer sect disciple. His spirit root is useless. It's not worth it for him."

A few more female disciples came over to persuade Dong Xuan not to anger Lei can and cause trouble for everyone.

"Junior Sister Dong Xuan, how was it?" Lei can asked with a smug smile.

However, he met Dong Xuan's cold gaze. Then, Dong Xuan said, "Hmph, the people of the green spirit sect aren't easy to bully. Lei can, leave immediately!"

"What did you just say?"

Lei can was furious. He sneered and attacked ye chen.

Ye chen was about to move and kill Lei can but before he could, Dong Xuan blocked Lei can.

"Lei can, you're too arrogant. If you want to kill someone from my green spirit sect, you'll have to get past me first!"

Dong Xuan attacked and fought with Lei can.

Everyone was shocked and retreated.

Both of them were geniuses with mutated spiritual roots. This kind of battle was extremely fierce, and it was possible to lose one's life if one was casually affected. No one dared to get close to watch.

However, ye chen was not afraid. He watched from the side of the battlefield and everyone was shocked.

He nodded to himself as he read. He had to admit that Dong Xuan's Foundation was quite solid.

"This brat isn't afraid of death. He's so close to us. Once he's hit by the martial skill, he'll die for sure."

"That's right, such a piece of trash, his brain isn't working well either!"

Ye chen ignored the crowd's discussion and focused on the battle before him.

"Thunderbolt palm!"

Lei can's entire body condensed the power of Thunder into his hands as he continuously struck Dong Xuan with his Thunder palms.

For a moment, the space trembled as the power of lightning struck him like a venomous Python.

"Hmph!"

"You're courting death!" Dong Xuan shouted. Her aura burst out, and an ice shield condensed in front of her to resist the Thunder palm.

Boom, boom, boom!

The two sides canceled each other out and charged forward. The shock wave shook everyone.

"Damn it!" Lei can was furious and wanted to use his ultimate move. Similarly, Dong Xuan did not want to be entangled with him.

"Dark ice Pearl!"

At the critical moment, Dong Xuan released the Supreme-grade dharmic artifact that Daoist blue heart had given her to choose a weapon Grandmaster. Together with the ice sword, she defeated the enemy with one strike!

"Ah!"

Lei can cried out in pain. He was defeated.

"Junior Sister Dong Xuan is so amazing!" Everyone from the green spirit sect was shocked and cheered.

At this moment, the ground suddenly shook and the mountains shook. The secret realm shook violently.

"Boom boom boom!"

On the peak, the ice River erupted!

"Let's go!" Dong Xuan shouted.

However, someone else added, "Look, what's that kid doing?"

Everyone looked over and saw that not only did ye chen not run for his life, but he was also charging toward the icy storm. Such an action shocked everyone.

"Is he crazy?" Someone shouted.

Dong Xuan's expression changed slightly as she flew forward to stop him.

p "Phew, phew, phew!"

However, just as she was about to move forward, the blizzard arrived. Unable to resist, she could only retreat.

"Does this guy not want to live anymore?" Dong Xuan's heart trembled. He snorted coldly to himself and revealed a look of pity on his face. After all, he and ye chen could be considered to have some ties.

In the next moment, a Blizzard swept through the entire space, devouring everything like a prehistoric beast!

Under everyone's shocked gazes, ye Chen's figure was submerged in the blizzard and disappeared without a trace.

"Hahaha, Junior Sister Dong Xuan, you saved him, but he didn't appreciate it at all and sent himself to death. What an idiot!"

Lei can laughed.

Dong Xuan ignored him and shook her head slightly, feeling sorry for him. Everyone from the green spirit sect also shook their heads.

[Chapter 1780 Is Gu Fan Really Dead?](#)

Just when everyone thought that ye chen had died, a figure stood still in the terrifying icy storm. It was ye chen.

The surrounding environment was filled with violent cutting power. The frost was like a sharp blade that could cut anything.

However, in the center, the blizzard actually split apart to create a path. This was a rare sight.

Ye Chen's figure was on this frozen path, moving forward.

After he passed through, the frozen road was once again covered by the storm, as if it had never appeared.

Although he had passed through the storm, even a nascent soul cultivator would be frozen and killed by the surrounding extreme cold. However, it had no effect on ye chen.

After entering the storm, ye chen was not shocked. Instead, he was happy. He knew that the thing he was looking for might be here.

As he walked towards the source of the power of extreme frost, he could feel the summoning of the powerful force more clearly as time passed.

Outside the storm, Dong Xuan and the others were already feeling a little regretful because they thought ye chen was dead for sure. Moreover, the storm was so fierce that they could only retreat.

"Is Gu fan really dead?" Someone asked.

Everyone from the green spirit sect fell silent. After all, Gu fan's talent was still very strong. As a member of the green spirit sect, he was sad to die in front of them.

"He's dead. "

Dong Xuan replied coldly. She did not know why ye chen had entered the storm to throw away his life but the truth was before her eyes. Ye chen had been buried in the storm. No one could come out alive from that kind of storm.

"Hahaha, the small green spirit sect is already weak enough, and now there's an idiot who's going to die. You guys are really something!"

Seeing Ye Fan enter the storm and die, Lei can could not help but laugh out loud.

"Lei can, don't push your luck!"

Dong Xuan was furious as she rebuked Lei can.

Although ye chen had "offended" her before, he was still a member of the Azure spirit sect. Now, an outsider was pointing fingers at her dead sect member and even spouting nonsense. This was unforgivable.

"What is beast trainer sect trying to do? Gu fan is already dead, and you're still talking like this?"

"That's right. Your beast trainer sect is really powerful. You're joking around with a dead person!"

"We, the green spirit sect, won't let you do whatever you want!"

Everyone stood behind Dong Xuan. At this time, they had to unite against the outsiders.

Seeing the green spirit sect's stance, Lei can's face revealed a sinister expression.

He walked to the front and looked at Dong Xuan with a very offensive gaze. He kept scanning Dong Xuan from top to bottom, from bottom to top, back and forth.

Especially when it came to that towering sensitive part, it even stuck out its tongue to size it up.

Everyone knew what he was doing. Dong Xuan was the sect's genius, and yet she was "violated" like this. Everyone from the green spirit sect was furious.

"Lei can, what are you doing?"

"Close your dog eyes!"

Some disciples of the green spirit sect couldn't take it anymore and cursed at Lei can.

"What?"

"Die!" Lei can was furious, and the lightning in his hand shot toward the man from the green spirit sect.

"Ah!"

With a scream, the green spirit sect disciple was struck by the power of lightning and fell to the ground, unconscious.

"Hmph, do I need you to care about what I want to see? Trash!"

Lei can snorted coldly and cursed at the man who had fallen to the ground. His actions had completely angered Dong Xuan.

"Lei can, you're insatiable. You've humiliated me and the dead of my green spirit sect without any rest. You're scum!"

"Scumbag? Hahaha, I'm still going to be a scumbag. Go, whoever takes down Dong an will be heavily rewarded!"

Lei can's evil heart was stirred. He was prepared to rely on the overall strength of beast trainer sect to take down Dong Xuan and make her his own.

"Damn it!"

The anger in Dong Xuan's heart could no longer be contained. She no longer cared about the rules and had to teach Lei can a lesson.

"Kill!"

Dong Xuan held the Black Ice sword and attacked Lei can.

"I let you succeed by accident. Do you really think I can't beat you?"

Lei can sneered and released his Lightning God art again. The space around him trembled. He released lightning into the ground to hide his technique while he attacked Dong Xuan.

"Kill!"

Dong Xuan was fearless. Such a scumbag could only be killed!

Buzz, buzz, buzz!"

The two of them exchanged dozens of blows, and neither of them had a clear winner.

"Hahaha, Dong Xuan, you're definitely in my bag this time. Do you think you can still escape?"

"Get lost!"

Dong Xuan held her sword and attacked again, her long, shapely eyebrows filled with anger.

"Junior Sister Dong Xuan!"

Seeing this, the green spirit sect disciples were all furious and attacked.

"You guys, stop them!"

"Yes, senior brother Lei can!"

Everyone from beast trainer sect released their secret techniques, and all kinds of poisonous insects and fierce beasts appeared.

"Ah ..."

"What?" seeing all kinds of poisonous insects and ferocious beasts coming at them, the green spirit sect disciples were shocked and retreated.

"Hahaha, a bunch of trash!"

The people of beast trainer sect were even more unscrupulous as they chased after them on their poisonous insects.

For a moment, the people from the green spirit sect were no match for him and were defeated.

Dong Xuan glanced at the battlefield and found that the situation was already irreversible. The situation was very critical.

"Hateful! This group of scum!"

She knew very well that a prolonged battle would be extremely disadvantageous to her. She might even fall into Lei can's hands. She couldn't imagine what a miserable ending she would face if she fell into Lei can's hands.

"Icy heart technique, the sky is filled with frost and dust!"

Dong Xuan used the highest mental cultivation method taught by the crane immortal and used the profound ice sword to release her ultimate skill.

In an instant, the entire space was filled with an ice storm. Even Lei can could not find Dong Xuan's figure.

"What's going on?"

Lei can was anxious as he flew through the storm, but Dong Xuan had long disappeared.

At the same time, the storm continued to gather and suppress Lei can's path.

"Damn it, you little brat. I'll have you one day, hahaha!"

Lei can was furious. He laughed coldly and hysterically.

In the end, Dong Xuan and the others escaped with the help of the ice storm.

Four hours later, the secret land trial ended, and everyone was transported out.

Outside the secret realm, the people of the four sects were all waiting expectantly for the results of their own sect's trial.

The core formation Daoist from beast trainer sect was full of confidence, thinking that beast trainer sect would still be first.

Daoist blue heart of the green spirit sect frowned slightly. He was not convinced by this result. After all, there was the genius Dong Xuan this time.

"Daoist blue heart, it looks like you're very confident in your disciples." The Daoist from the beast trainer sect came over and said.

"Of course, Dong Xuan is a rare talent in our sect. She will definitely succeed."

"What a joke! Don't we have Lei can in our sect?"

The Daoist from beast trainer sect looked at Daoist blue heart coldly, then continued, ""Why don't we use a spirit tool to make a bet and see what the result is?"

"Why can't I?"

The two of them were at loggerheads, unconvinced of each other!

At this moment, everyone appeared!
