

Genius 1961

[Chapter 1961 The Core Of The Immortal Spell!](#)

"What happened? how did he fight the stone giant?"

"Isn't this phenomenon too heaven-defying?"

Everyone stared at the rock giant as he kept twisting his body, as if he was being crushed by some huge force. No one could explain what was happening.

"Shatter!"

With ye Chen's cold shout, like a heavenly Emperor's command, the rock giant's arm broke and shattered.

Boom, boom, boom!

After the rock giant's arm broke, it turned into countless rocks and fell down. The people of true spirit Hall were greatly shocked and dodged.

"Roar!"

With one of its arms broken, the rock giant roared again and again. Its eyes erupted with true rage as it roared at ye chen.

Ye chen stood alone in the air, facing the Furious rock giant.

Thump, thump, thump!

The rock giant charged at ye chen in a frenzy. The fury in its eyes seemed to want to burn the entire sky. The power of the immortal spell that had been condensed on its body was completely unsealed. This was the second stage of the rock giant.

"Boom boom boom!"

The rock giant tried to use its body to resist ye chen.

"Celestial Thearch sword!"

At this moment, ye chen shouted. Ye Wushuang's eyes released the light of the sword spirit. Instantly, the light of the sword spirit condensed into the celestial Thearch sword in ye Chen's hand.

"Slash!"

The celestial Thearch let out a cry, and sword spiritual Qi shot up into the nine Heavens. It transformed into a powerful slashing light that descended.

"Roar!"

The giant used its other arm to smash at ye chen, splitting mountains and rocks, shaking the nine states.

"Swish!"

At that moment, the celestial Emperor sword's power burst out, and the sword light flew under the rock giant's arm.

"Die!"

The rock giant let out a murderous roar, wanting to finish ye chen in one blow.

However, just as he was waving his arms, expecting ye chen to come, the sound of sword Qi reverberated in all directions!

Buzz, buzz, buzz!"

Then, countless sword lights burst out from the rock giant's arm. His huge arm was like an explosive bag that was about to explode, giving off flames that filled the sky.

Then, the arm was completely crushed!

The rock giant's arms were crippled and it became even crazier. It wanted to hit ye chen with its head.

"You don't know your place. Destroy!"

Ye chen was furious, and the celestial Thearch sword in his hand slashed toward the sky.

Boom, boom, boom!

The sword light streaked across the sky, and then, countless energy exploded on the stone giant's neck.

In the end, a flame arc appeared on the stone giant's neck, like a dazzling cutting Halo.

"Boom boom boom!"

Then, the rock giant's huge head was cut off from its neck!

Every part of his body turned into rock fragments and fell into the abyss.

Everything was over!

"Ye chen broke the celestial spell?!"

This was the first thing that came to the true spirit Hall's powerhouses' minds. Ye chen had broken through the rock giant created by an immortal spell with his tribulation passing stage cultivation base. This was too unreal.

"Mm ..."

Even the true spirit Lord was in disbelief when he saw ye chen shatter the rock giant.

He had thought that ye chen would be lucky if he could fight the rock giant for a few rounds. This kind of talent had met the requirements for him to open the core of the Three Realms. However, ye chen had completely crushed the rock giant. This kind of talent made him uneasy.

"This person can help me, but at the same time, he's also a huge threat to me!"

The true spirit Lord muttered to himself.

As the stone giant exploded, the entire violent wind and stone array fell silent.

Many of the true spirit Hall's experts looked at ye chen with reverence in their eyes.

It would be extremely dangerous for any one of them to face the rock giant alone. No one dared to do so. However, ye chen had completely crushed the rock giant with his own strength. This was too shocking.

"Hahaha, fellow Daoist ye, congratulations, congratulations!"

The great ancestor laughed and went forward to congratulate ye chen.

"It's just a small matter, no need to be so happy!" Ye chen said.

The patriarch turned to look at the true spirit Hall. Many experts had already turned their heads to look elsewhere, not wanting to embarrass themselves.

"Where are the people who doubted fellow Daoist ye before? why are they all cowards now? Hahaha, what a joke!"

The great ancestor's words were like needles pricking at them. Those self-righteous powerhouses were furious but they had underestimated ye chen. Ye Chen's strength was far beyond their imagination.

"Hmph, don't be so arrogant, old ancestor yellow spring. So what? true spirit Hall is still the leader here. Only the spirit Lord is the most powerful person!"

"Hahaha, now that you've embarrassed yourself, you're using the true spirit Lord to take the blame?"

"You!"

The powerhouses looked at the old ancestor angrily. His words had already provoked them to the bottom line.

"Don't quarrel!"

At first, the true spirit Lord was also very angry. However, ye chen was still needed for the core matters of the Three Realms, so he did not attack the great ancestor.

After the stone giant was destroyed, the path in front of him became much smoother, and there were almost no obstacles.

"Down!"

"Yes!"

Under the command of the true spirit Lord, everyone from true spirit Hall descended.

At this moment, in the abyss below, the scene became much clearer. There was indeed an altar below, and an energy core was spinning on top of it. This core contained the immortal spell.

"Celestial spell protection, this is the place."

The true spirit Lord was very happy. The protection of the immortal spell was a level of protection that proved that the core of the Three Realms was here.

Thump, thump, thump!

Everyone descended and looked at the altar.

On the altar, there were all kinds of patterns. These patterns contained the power of immortal spells, and only true immortals could see the true meaning of them.

"Zi Zi Zi!"

The true spirit Lord opened his Immortal Eyes and observed the immortal spell arrangement. The power of the immortal spell was too strong, and if it was not controlled properly, no one here could survive except him.

Thus, he had to carefully deal with the immortal formation in front of him.

Ye Chen's eyes were sharp as he looked at the lines. Suddenly, countless lines burrowed into his mind.

The true meaning of the various lines actually jumped out automatically. He didn't even need to comprehend it to completely understand it.

"I didn't expect these immortal spells to be able to activate My Immortal memories!"

Ye Chen was also puzzled by this but it was naturally beneficial to him.

Ye Chen had stored the celestial spell patterns in the ancient God Space. This way, he was not afraid that these celestial spells would go berserk and destroy his consciousness.

"Ah!"

The true spirit Lord had already started to activate the array in an attempt to form a connection with the altar in front of him. He even wanted to decipher the core of the immortal spell.

,m "Very good!"

All of a sudden, the true spirit Lord's eyes were filled with greed. He had already deciphered the meaning of these immortal spells and was beginning to integrate these patterns into his own system of immortal spells.

"It's so exquisite, hahaha!"

[Chapter 1962 1967 Dog Emperor!](#)

Just as the true spirit Lord was absorbing the immortal Technique, Ye Chen was also studying these patterns and making them his own.

In fact, Ye Chen could even sense that as he absorbed and refined the patterns, the power of these patterns was rapidly decreasing. This meant that the total amount of celestial energy in the altar was fixed. Since he and the true spirit Lord were comprehending this celestial energy at the same time, there would naturally be a competition.

"Furious spacetime roar!"

Ye chen secretly activated the power of spacetime Fury. Suddenly, countless celestial spells were swallowed into the ancient God Space by the fury.

As for the ancient God Space that existed as Pangu's divine persona, it was almost infinite.

In this way, ye chen did not need to fully comprehend it and could directly absorb these celestial techniques into the ancient God Space. Moreover, he would absorb them through the space-time rage so it could be said that no trace would be left.

"What?"

The true spirit Lord was a man of great stature. Naturally, he could sense that the amount of immortal spells was rapidly decreasing. He looked around, but everyone was looking at the altar. He could not see who was absorbing the power.

Of course, the biggest suspect was ye chen because the true spirit Lord knew very well that the so-called powerhouses of the true spirit Hall would never be able to comprehend immortal spells.

However, the true spirit Lord did not believe that ye chen, a tribulation passing stage cultivator, could comprehend the exquisite celestial spell before him.

"Ye chen, you're trying to comprehend these celestial spells?" To be on the safe side, he still asked ye chen.

"Celestial spell? what celestial spell?"

Ye chen sneered in response.

"Mm ..."

The true spirit Lord looked into ye Chen's eyes but could not see any flaws. Ye Chen's body was not even moving, so how could he absorb the celestial techniques?

He fell into a state of confusion. However, seeing that the number of celestial spells was decreasing, the true spirit Lord did not have the time to deal with ye chen. He could only turn around and begin to absorb these celestial spells madly.

Although the true spirit Lord's cultivation level was far above ye chen 's, ye chen had used the spacetime Fury to absorb the celestial technique into the ancient God Space. The speed of absorption and storage space were infinite. No matter how strong the true spirit Lord was, he still needed to comprehend and refine it. This would waste too much time and was no match for ye chen at all.

Ye chen sneered at the true spirit Lord, thinking that if this old man knew that he was using such a method to absorb the celestial Method, he would probably explode.

"Zi Zi Zi!"

Countless immortal spells were like ice and snow, and the time and space angry roar was like the sun. It frantically melted the ice and snow, and then drank the snow water.

Such a powerful celestial power surging into the ancient God Space put a lot of pressure on ye chen.

"Who is it?"

The true spirit Lord roared in anger as immortal force surged out of his body and exploded in all directions.

Boom, boom, boom!

The space around him trembled and then countless rocks rolled down from the sky. The powerful aura shocked everyone around.

"Spirit Lord, what's the situation?"

Ling Jun went up and asked.

"Someone is absorbing the celestial spell from the altar, and it's extremely fast!"

The spirit Lord said.

"There's someone who can absorb immortal Arts faster than the spirit Lord?"

"This person naturally can't be faster than me, but I don't want him to waste my celestial spell!"

The true spirit Lord had lied to save his face. Ye chen sneered in his heart.

In reality, ye Chen's speed of absorbing the celestial technique was more than a hundred times faster than the true spirit Lord. The true spirit Lord needed to comprehend it first, but ye chen did not need to do so at all because of the existence of the ancient God Space.

At this time, the sky was covered with dark clouds, and powerful demonic energy swept across the land. Everyone looked up at the sky. They knew that the true netherworld elites had arrived.

"Hahaha!"

As the wild laughter continued to erode everyone's eardrums, they saw a huge demonic shadow descend.

The demonic Shadow's body was covered in flames. It was a huge dog God.

"Dog Emperor!"

Ye chen recognized this person at a glance. The incident with su Yuhan was still vivid in his mind, and the dog Emperor was one of the eighteen emperors of the underworld that su Yuhan had told ye chen about.

"Ye chen, I didn't expect you to come to the netherworld in person. Are you looking for su Yuhan? It's a pity that su Yuhan is the Lord of the Underworld, not your wife!"

"Bastard!"

Ye chen was furious that someone was making fun of him with su Yuhan.

"Celestial Thearch sword Astral Slash!"

Without any mercy, the celestial Thearch sword spirit floated above his head. Ye chen waved his sword fingers and suddenly, the sword Qi rushed up to the nine Heavens and headed straight for the dog Emperor.

"Hahaha!"

Seeing ye chen so angry, the dog Emperor felt that his words were very interesting.

Buzz, buzz, buzz!"

However, in the face of ye Chen's celestial Thearch sword spirit, the dog Emperor did not dare to be careless. It waved its sharp claws and suddenly, several cold glints descended, constantly attacking the celestial Thearch sword spirit.

The celestial Thearch sword Spirit's body emitted Supreme light. The sharp claws began to collapse when they came into contact with the light.

Buzz, buzz, buzz!"

These rays of light contained ancient God Power. How could netherworld energy resist such extreme power?

"In just a few years, you've become so strong!"

The dog Emperor still remembered the information that the netherworld had found out at that time. Ye chen was only a soul formation stage cultivator. However, the person he was seeing now was a tribulation passing stage powerhouse. In fact, his hidden strength was far above that of a tribulation passing stage powerhouse.

"As expected of the nether Lord's man, die!"

As one of the eighteen emperors of the netherworld, the dog Emperor naturally could not suffer such a loss. His whole body's power was fully displayed, and he was a cultivator who had reached the great circle of tribulation passing.

"Dog Emperor, you want to kill me with such a cultivation base?"

"How is it?"

"You're looking for death!"

Ye chen rebuked angrily. Those who dared to make fun of su Yuhan must die!

"Boom boom boom!"

With a loud noise behind him, the time and space Fury turned from invisible to tangible, and the surrounding space swept up an irresistible storm and waves.

These gales were formed by ye Chen's ancient God Power.

"Sprinting Thunder Strike!"

Ye Chen's eyes released electricity. He had completely refined the disastrous Thunder he had absorbed during the previous tribulation. Now was the time to use it.

Zila, Zila, Zila!

With lightning and thunder, ye chen stepped on the divine Thunder and went straight for the dog Emperor.

"What?"

The dog Emperor was greatly alarmed. These divine Thunderbolts were his nemesis. His face was extremely distorted as he transformed into the shape of a dog.

"Dog Emperor form!"

After transforming into his battle form, dog Emperor's power increased by more than ten times. His Foundation had already reached the edge of the Mahayana realm.

"Hahaha, ye chen, you're not far from death for using a Mahayana stage Foundation to fight you!"

"Mahayana stage? Hahaha!"

Ye chen laughed wildly.

"I don't even care about loose Immortals. Puny Mahayana realm, die!"

"You're boasting!"

Dog Emperor naturally did not believe that a tribulation passing stage person could cause any damage to his Foundation of the Mahayana stage.

His face was filled with a confident and maniacal smile. He was in a state of madness. He wanted to gnaw on ye Chen's flesh and bones. He wanted ye chen to die in front of his eyes.

Buzz, buzz, buzz!"

Dog Emperor's figure rapidly moved forward, his speed so fast that it couldn't even be seen!

Ye chen did not expect this person's movement technique to be so fast. His brows furrowed and his eyes glowed with extreme light.

"The true Samadhi fire looks down on the divine Thunder of the heavenly Tribulation!"

The lightning and fire tribulations were unleashed at the same time. The space trembled and the world shook. At this moment, ye chen was the master!

[Chapter 1963 Ten More Lives Left?](#)

In the time it took for a spark to fly off a Flint, ye chen had already arrived at the dog Emperor's side. The divine Thunder of tribulation and the true Samadhi fire had completely sealed off the dog Emperor's path of movement. This was ye Chen's strategy.

No matter how fast the dog Emperor was, it could not escape from his thunder fire blockade.

Buzz, buzz, buzz!"

Very quickly, the dog Emperor's burning fur in the space betrayed his location.

"Kill!"

Drawing the power of Thunder and fire, it condensed into the shape of a long spear and rushed toward the dog Emperor.

"Ye chen!"

The dog Emperor was furious that his fur was set ablaze by the Thunder fire. He revealed the image of a dog head on his face, like a desert death god, baring his teeth and crazily charging forward.

Buzz, buzz, buzz!"

The dog Emperor used its sharp claws to continuously push away ye Chen's sword Qi. At the same time, it grabbed the Thunder fire divine spear that was charging at it.

Buzz, buzz, buzz!"

The Thunder fire divine spear was influenced by ye Chen's command and began to spin. Its penetrating power was extremely strong.

The dog Emperor's palm continued to exude intense pain as blood flowed out.

"When did you become so powerful? It's impossible!"

"How can an ant's vision measure the heavens?"

Ye chen flew into the nine Heavens, and the light of the celestial Emperor appeared behind him. It was supreme majesty and dazzling.

Although everyone could feel the unparalleled Majesty of this celestial phenomenon, no one knew what kind of image it was. No one had ever seen the true Celestial Emperor. Even the true spirit Lord was shocked by the celestial phenomenon behind ye chen.

"Damn it!"

The dog Emperor was angered by ye chen and its body began to grow shiny fur. These fur became immune to thunder fire and were very strong.

"Whoosh, whoosh, Whoosh!"

The dog Emperor's body moved in an instant and headed straight for ye chen, its speed getting faster and faster.

Buzz, buzz, buzz!"

Ye chen could feel the dog Emperor's sharp claws whistling beside him. Even his face could feel the wind of the dog Emperor's sharp claws.

"Oh? Are we going to enter a different dimension?"

He immediately realized that the dog Emperor had used a secret technique of the netherworld to enter a different space to launch a sneak attack.

Entering a different space was the strongest movement technique because one could launch sneak attacks from different directions. One could even move to any position in the space. It was extremely difficult to defend against such an attack.

"The dog Emperor of the underworld already has the foundation of the Mahayana realm. Ye chen is in danger by using the underworld's special technique to enter the alternate space."

"That's right. Although ye chen is extremely talented, he's only in the early stage of the crossing calamity realm. It'll be difficult for him to deal with the dog Emperor. Moreover, we're in the netherworld, and the dog Emperor's home ground is the battlefield. The difference in Foundation and various conditions are not favorable for ye chen. It'll be difficult!"

"In such a dangerous situation, is the spirit Lord not going to do anything?"

Many of the true spirit Hall's powerhouses thought that ye chen would not be able to last more than a few rounds and his life might be in danger.

In this operation, everyone could see that ye chen was extremely important to the Three Realms 'core. They were all waiting for the true spirit Lord to save ye chen.

However, the true spirit Lord did not move and was watching with interest.

Everyone shook their heads and waited for ye Chen's defeat.

"Ha, a bunch of motley crew. How could they know of fellow Daoist ye's might?!"

"You're courting death!" The forefather said in displeasure upon hearing the discussion of the true spirit Hall members.

"Old ancestor, why do you need to care about these idiots? it's enough that we know master's strength!" Wushuang said.

"Hahaha, you're right!"

The old ancestor laughed.

"Ha, old ancestor yellow spring, you're overconfident. The difference in strength between ye chen and the dog Emperor is obvious."

"That's right, old ancestor yellow spring. You can't save ye chen by shielding him like this. I think you guys should hurry up and help him!"

"That's true. It's not bad to die together. We'll settle your funeral matters together."

A few experts from true spirit Hall stepped forward to mock him.

"Ha, you guys, since you're so confident that ye chen will be defeated and killed, why don't we make a bet!"

"Oh?"

When the crowd heard that they were going to bet, they all stepped forward.

"My netherworld sword is a spiritual treasure. Which one of you is willing to bet your own spiritual treasure?"

"Spirit treasure? Spirit treasures are forged from the essence of heaven and earth. Your Broken Sword?"

Some people showed a look of disbelief.

"There's no harm in trying!"

"Alright!"

The man took the netherworld sword and wanted to command it, but suddenly, a powerful sword Qi of the netherworld burst out from the sword. His face instantly turned pale because he felt a strong killing intent.

"Alright, we believe you!"

The man quickly said.

The others didn't doubt his words.

"Let's bet on the numinous treasure. I still have a few other treasures on my side. I'll bet with you all!"

"Alright, do you think I'm afraid of you?"

The experts of true spirit Hall gambled their numinous treasures and looked at the battlefield.

At this time, the dog Emperor was attacking wildly. Ye Chen's figure moved instantly, constantly dodging. The dog Emperor's figure suddenly disappeared.

"Hahaha, alternate dimension ambush killing technique. Ye Chen's dead for sure."

There was actually an expert who could recognize the divine power and secret technique used by the dog Emperor. This was because true spirit Hall had been studying the divine power of nether prison for a thousand years in preparation for their large-scale invasion. Among them, the martial arts techniques of the eighteen emperors were naturally the key.

"Zi Zi Zi!"

Dog Emperor's figure disappeared, unable to be locked on.

Ye Chen stood alone in the void and swept his gaze in all directions, but he did not find the dog Emperor's position.

"Very good!"

He closed his eyes.

"Do you really think you're an expert when you close your eyes? Hahaha, he's seeking his own death!"

Many powerhouses thought that ye chen was overthinking because after entering the alternate dimension, even the dog Emperor's voice had disappeared. It was impossible to find his location by listening.

The great ancestor and ye Wushuang did not panic at all. They watched calmly, waiting for the result that would shock these idiots to appear. There would be no accidents because the person who was fighting was ye chen!

Ye Chen's eyes were half-closed, and his entire body was in a state of meditation.

Although it looked as if he had done nothing and had his eyes closed, in reality, his eyes were burning with flames, and his flaming golden eyes had been opened long ago.

Under the burning of the true Samadhi fire, ye Chen's eyes could completely see through the boundaries of space. After all, the space-time rage was an expert in the rules of space. The dog Emperor's sneak attack with the alternate space technique was like showing off his skill in front of an expert.

The time and space Fury and ye Chen's spirit were one. In addition to the fiery golden eyes, it was not difficult to see through the dog Emperor's trick.

"Giggle!"

Suddenly, a sneer came from the void. This was the dog Emperor's method of intimidating ye Chen's mind. He wanted to make ye Chen's mental defense collapse because he had killed countless powerhouses in this way.

"Ye chen, you can't find any trace of me. Even if I speak, you can't determine my exact location because I've entered a different space that you can't lock on to. I can see you, but you can't see me or even sense my energy. How long do you think you can last?"

"I don't know how long I'll live, and I'm not interested in knowing. But I know that you only have ten seconds left!"

[Chapter 1964 The Death Of The Dog Emperor!](#)

"Ten!"

Suddenly, ye chen said the first number.

"Ah?"

Everyone was stunned. They had thought that ye chen was just putting on an act. They did not expect him to be counting. This was a little abnormal.

"Hahaha, this kid really thinks he can win?"

"What's laughable is that he was really counting down. Killing a dog Emperor with ten numbers, is this a joke?"

"I'm not joking. It's ... A fantasy story. Hahaha!"

The crowd laughed out loud, mocking ye chen.

The great ancestor, on the other hand, looked disdainful. He was not worried about the safety of his spirit artifact at all because he had never lost a bet on ye chen.

On the battlefield, in the face of the dog Emperor's alternate space killing technique, ye chen stood alone as if he was deliberately becoming a target for the opposite side. In the eyes of ordinary people, it was simply an act of putting his face above his life.

"Nine!"

However, at that moment, ye Chen's second number appeared.

"What?"

In the alternate dimension, the dog Emperor's expression turned serious because he could see the seriousness in ye Chen's actions. Ye chen was definitely not joking. He was really shouting numbers.

"Damn it, does this brat really want to kill me within ten numbers? Hahaha, funny, funny! I'll stay in this alternate dimension and see how you're going to deal with this after ten numbers!"

The dog Emperor thought that he was very smart. This method would ensure that he would not make a mistake, and ye chen would not be able to kill him within ten numbers.

Everyone looked at the battlefield and found that dog Emperor had not only disappeared, but had also disappeared.

"This, what does the dog Emperor mean?"

"Don't tell me you're afraid of ye chen?"

"That shouldn't be. The dog Emperor is a person with the foundation of the Mahayana realm. He can't be afraid of ye chen!"

As the crowd discussed, someone suddenly figured it out.

"Haha, I know, this dog Emperor's move is very sinister!"

"What do you mean?"

Everyone came up to ask.

"Ye chen said that he would kill the dog Emperor within ten numbers but the dog Emperor is hidden in his own alternate dimension. If ye chen were to count to ten, wouldn't he be slapping his own face?"

"You're right, you're right, the people of the netherworld are indeed evil!"

"Hahaha, but this is good too. We can win back our treasures!"

The crowd looked at old ancestor yellow spring with mockery.

This time, even old ancestor yellow spring was a little upset. After all, according to these people, if the dog Emperor really hid in his space and did not come out, ye chen would really have no way out.

"This!"

The great ancestor looked at Wushuang but the latter still seemed to have absolute trust in ye chen.

"Ancestor, don't worry. Since master said to kill him within ten numbers, then it's ten numbers!"

"Hahaha, why would I be worried? I'm just drinking!"

The old ancestor quickly took out his wine gourd and took a sip. He was really a little nervous. After all, he was betting all his assets.

However, thinking back to ye Chen's previous miraculous performance, the great ancestor still approved of ye chen in his heart. He only hoped that ye chen would quickly kill the dog Emperor and win the bet.

At this moment, on the battlefield, ye chen did not move. He only said the third number, ""Eight!"

"Hahaha!"

At this time, the dog Emperor's voice came from the void.

"Ye chen, you're overconfident. I can use the alternate dimension to kill you but I've got a new interest. I'd like to see how you'll kill me with ten numbers. It's ridiculous but also interesting."

"Ye chen, every time you say a number, you're counting down to your own life. After ten numbers, I'll make my move and kill you completely!"

"Hahaha!"

The dog Emperor's laughter was getting louder and louder, making people feel terrified.

"Seven!"

However, ye chen did not do anything. He was just counting.

Soon, the number reached the last three.

"Three!"

"Two!"

"One!"

The moment the word "one" came out of his mouth, the surrounding space instantly froze, as if it had fallen into the reincarnation of time and space, unable to be shifted.

"Ah?"

Everyone looked at the scene in front of them in shock, but their bodies seemed to be frozen by something, unable to move. This scene made them extremely frightened.

This was ye Chen's ancient God Space!

Before this, ye chen had been counting. During this process, others might have seen him doing nothing but in reality, ye chen had done a lot.

During this process, due to the dog Emperor's suspicions, he did not attack ye chen. At the same time, he hid in his own alternate space and shouted.

These actions gave ye chen the opportunity to crack the alternate space.

If the dog Emperor did not attack, ye chen did not need to defend. He only needed to observe the flaws in the surrounding space.

At the same time, the dog Emperor would not be able to help but mock ye chen, which would risk exposing its position. In the end, ye Chen's fiery golden eyes with ancient God Power would see through it.

Ye Chen's goal was to use this time to find the dog Emperor's true location!

Everything was within ye Chen's calculations. For safety's sake, the dog Emperor did not touch it. Instead, it continued to hide in the alternate space while mocking ye chen so that ye chen could find its true location.

"Celestial Thearch sword puppet, kill without mercy!"

"Kill without mercy!" The celestial Thearch sword spirit behind ye chen released the sword aura of judgment and flew out.

"Ah?"

The crowd watched as the celestial Thearch sword flew into the void. They did not know why ye chen had attacked in that direction. The dog Emperor had said before that when the number was over, it would be his time to attack.

In that case, releasing the celestial Thearch sword was the most unwise choice because he would lose the opportunity to protect himself.

How could they predict the heavenly Emperor ye Chen's thoughts?

"Swish!"

Just when everyone thought that ye chen was the most unwise and might even lose his life because of such a reckless action, blood suddenly splattered in the air!

"That's the blood of a Suan ni!"

Some of the experts were quick to react and immediately recognized the thing that appeared in the void.

Then, strange light kept shining in the void, and the surrounding space shattered.

Crack, crack, crack!

From the shattered space, a corpse fell.

"BOOM!"

As the corpse landed in front of everyone, all the experts were stunned. The corpse in front of them was the Suan ni dog Emperor!

"The dog Emperor ... Is dead?"

"Just one sword?"

"Ten numbers?"

At this moment, all the memories from before reverberated in their minds like a movie. Everything was so illusory, but the scene in front of them was so real.

"How is that possible?"

The crowd could not believe what they were seeing.

"Hahaha, as expected of the person I've chosen!"

At this moment, the true spirit Lord laughed out loud with an excited expression.

"The dog Emperor is dead!"

At this moment, in the sky, hei Tong was dumbfounded. His body was injured and he was about to faint!

[Chapter 1965 The Lake Of Darkness!](#)

"Hahaha, don't look so shocked. As long as fellow Daoist ye doesn't do anything wrong, I'll accept the treasure."

Old ancestor yellow spring laughed and put away all the spirit treasures with a smug look.

"You!"

"Shameless!"

"Detestable!"

The experts of true spirit Hall immediately revealed ferocious expressions and scolded the forefather. However, the forefather did not care about this and kept the treasures. He had made a huge profit this time.

"Ye chen, you've done well this time!"

The true spirit Lord said.

"True spirit Lord, I don't need your approval!"

Ye chen replied coldly. He was not the true spirit Lord's subordinate. This operation was only a deal, so he did not need the true spirit Lord's approval.

"Impudent!"

Many powerhouses rebuked ye chen but were stopped by the true spirit Lord.

In order to open the core of the Three Realms, one would need the help of a person with great talent. This was a test of the core of the Three Realms. Although the true spirit Lord's Foundation was unfathomable and his cultivation was profound, he was not confident in his talent. According to ancient records, the core of the Three Realms needed a person with unprecedented talent.

That was why he had taken a fancy to ye chen, a talented mutant.

Now was not the time to fall out with ye chen. He had to stabilize ye chen. After he had achieved his goal, how could he keep such a talented person?

The true spirit Lord turned to look at the altar and continued to comprehend the immortal spells within.

"He's really greedy!"

Ye chen sneered. However, he knew very well that most of the celestial techniques had been secretly absorbed by the space-time rage and entered the ancient God Space.

Therefore, as long as ye chen sat cross-legged and pretended to meditate, he could secretly cultivate those celestial techniques.

When the people from true spirit Hall saw ye chen sitting cross-legged to regulate his breathing, they all thought that he had used up too much spirit power in the previous battle and needed to rest.

"This kid is exhausted. He's not as powerful as I thought!"

"That's right, the spirit Lord is still the most powerful!"

Many experts of the true spirit Hall were still numbing themselves. They were well aware that even the true spirit Lord could not compare to someone who was able to kill a body integration expert with a Foundation at the Tribulation passing stage.

Ye chen sat cross-legged and meditated. Wushuang stood not far from him to guard him while the great ancestor began to study the spirit artifacts he had obtained this time.

In such a harsh environment, one could die at any time. The great ancestor wanted to improve his combat power as much as possible, and these spirit artifacts provided him with this possibility. He did not want to be a burden to ye chen.

At this moment, ye Chen's primordial spirit was sitting cross-legged in the ancient God Space.

Around him, all kinds of immortal spell patterns rose into the air and took on all kinds of magical forms.

"These celestial spells are strange. It's not a formation, but more like this immortal did it on a whim. This immortal is very powerful, possibly even stronger than the true spirit Lord. Otherwise, the true spirit Lord wouldn't value these celestial spells so much and still look for the person who' stole 'them."

Ye chen studied the celestial techniques in front of him carefully. Countless laws and regulations emerged in his eyes.

The underworld energy contained in these immortal spells was very strange, more like demon energy.

"If that's the case, then I'll use that eye technique!"

"Fire Eyes!"

Ye Chen's eyes emitted a dark light. Suddenly, the surrounding space changed color. Ye Chen's eyes seemed to be endless and far, seeing through everything.

"Zi Zi Zi!"

As Wu Tong's eyes continued to look at the immortal spells, the most profound laws of the immortal spells gradually appeared.

"Very good!"

Relying on his various experiences from his previous life, ye chen quickly integrated these rules and then evolved them into his own rules through the ancient God Space.

If the true spirit Lord were to find out about such a shocking speed of comprehension, he would probably be enraged or even give up on himself. He could not imagine that there was such a fast way of comprehension in the world, just by relying on a pair of sorcerer's eyes!

Countless immortal spells surged over like a tide, and all of them became clear in the vision of the Sorcerer's eye.

After comprehending so many immortal spell patterns, ye Chen's law level was constantly rising.

"Ye chen!"

Suddenly, a cold voice woke ye chen up.

"What?"

Ye Chen's eyes widened and a dense burst of demonic energy erupted, causing the surrounding true spirit Hall powerhouses to retreat in shock.

"What's wrong with this kid? what was that power just now?"

"It feels like mana, but it's not exactly like it. It's a little strange!"

Everyone was suspicious, but no one gave an answer.

The true spirit Lord narrowed his eyes slightly but did not pursue the matter.

"Ye chen, the altar has been activated. Come with us immediately!"

Ye Chen's eyes turned cold and he followed.

The three of them followed the group and entered the altar's door.

In the sky, among the clouds, hei Tong continued to release his netherworld energy and sent a message to the Hall of the Dead.

Within the Hall of the Dead, the Yama Emperor, the Hades Emperor and the arch-Emperor were all present.

"Reporting to Lord Yama-Emperor, Lord dog-Emperor has died in battle!"

"What?"

The Yama Emperor turned pale with fright and stood up abruptly. He could not believe who could kill the dog Emperor.

"Is the true spirit Lord really that powerful?"

Youhuang asked.

However, the messenger stammered, causing the Hades Emperor to be furious.

"Speak!"

"Yes! Reporting to Lord youhuang, it was ye chen who killed the dog Emperor. And, and he crushed it!"

"Kill?"

Youhuang's eyes bulged out as he gritted his teeth.

"How is that possible? If the dog Emperor fights to its limit, it can improve its Foundation to the form synthesis stage. Although ye chen has extraordinary talent and amazing cultivation speed, he's only at the early stage of crossing tribulation. It's impossible for him to kill the dog Emperor!"

"Lord arch-Emperor, I wouldn't dare to lie. This is a message from hei Tong up ahead!"

After saying that, the powerhouse released his netherworld energy, and an image appeared in front of everyone.

"Zi Zi Zi!"

On the screen, the detailed information of ye chen killing the dog Emperor appeared.

"This!"

The Three Sovereigns were shocked at the same time. Ye chen had indeed killed a dog Emperor!

"This kid's talent is actually so powerful. He's truly worthy of being someone that the nether Lord values!"

"The nether Lord has not returned yet, and there are many people in the netherworld who are coveting the position of the netherworld Lord. We can not let the netherworld fall into chaos!"

"Mm ..."

The Three Sovereigns sighed at the same time, thinking about how to deal with ye chen and the others.

At this moment, ye chen and the others had already crossed the altar and arrived at the depths of the Emperor of the dead mountain range.

"Zi Zi Zi!"

The true spirit Lord released the dark spirit Pearl again to continue searching for the core of the Three Realms.

"This way!"

He pointed out a direction, and everyone rushed in that direction.

Soon, a Lake of Darkness appeared before everyone's eyes.

Everyone stopped and looked at the lake. They found that the water was extremely dark, and they couldn't see what was below.

"Zi Zi Zi!"

The dark spirit Pearl was floating by the lake, as if it was hinting at something.

"Could it be that the core of the Three Realms is beneath this Lake?" The true spirit Lord thought to himself.

"You, go into the lake and take a look!"

"Ah?"

[Chapter 1966 The Darkness Pool!](#)

The person who was called out was stunned. How could he have thought that he would be the one being cheated?

"Spirit Lord, I"

"Cut the crap, speed up!"

Ling Jun, who was beside him, berated.

"Yes!"

The man knew that he couldn't avoid it, so he could only jump into the lake.

"Bang!"

As the figure entered the water, everyone looked at the surface, hoping to see some information. However, they saw nothing, and the person who entered the water had also disappeared.

"What?"

Many experts came to the lakeside, wanting to see what was going on, but they still couldn't see the scene.

Ye chen did not look at it directly because he knew that there was a barrier in the lake to prevent outsiders from seeing the information inside.

He was using his senses. He wanted to sense the power in the lake and analyze the information.

"Zi Zi Zi!"

He closed his eyes and focused as waves of energy fluctuations entered his body.

"There's something strange about this water!"

Ye chen could sense that the lake contained a powerful energy but he could not even see the source of this energy clearly.

What was this powerful energy? ye chen wondered if this was the core of the Three Realms that the true spirit Lord had mentioned.

"What's going on? why aren't you coming up?"

An expert asked, clearly impatient.

"Hmm.....This kid couldn't have died in there, right?"

Just as someone was shouting half-jokingly, suddenly, there was a shock on the surface of the water, and then an astonishing scene appeared.

Buzz, buzz, buzz!"

In front of everyone, a skeleton was thrown out.

"Ah?"

Seeing the skeleton, it naturally made people think of the expert who had entered the water.

"It seems that there is indeed killing intent in the water!"

The true spirit Lord said, but a smile appeared at the corner of his mouth.

He walked to the lakeside and looked into the lake.

"Spirit Lord, be careful!" Ling Jun shouted.

"Ha, the core of the Three Realms is within this Lake!"

The true spirit Lord said with a smile.

Ye chen remained unmoved. Although the energy he sensed was powerful, he did not think it was the core of the Three Realms. This meant that there were other forces in the lake.

However, he didn't know if the true spirit Lord didn't sense it or if he was just putting on an act.

"Boom boom boom!"

At this moment, the sky above the Emperor of the dead mountain range was filled with muffled Thunder.

"It seems like they're here."

The true spirit Lord said as he looked up at the nine Heavens.

"The eighteen emperors of the netherworld won't let you obtain the Three Realms 'core so easily." Ye chen said.

"So what? I can get it immediately and you can open it!"

"True spirit Lord, let me give you a piece of advice. It's not that simple underwater."

"Hahaha, do you think I'm afraid?"

The true spirit Lord laughed coldly. He thought that ye chen was deliberately misleading him. After all, he had not taken out the nether energy crystal to let him find su Yuhan all this time. It was normal for him to bear a grudge.

Seeing that the true spirit Lord did not listen to his advice, ye chen did not say anything more. He would wait for the right time and his only goal was the nether energy crystal!

"Ling Jun, bring some people to guard the mountain range. Within two hours, don't let them enter!"

"Yes!"

Ling Jun brought the many experts who were absorbing the power of the dark water and flew up towards the mountain range.

Ye chen and the other two stood by the lake, waiting.

"Plop!"

The true spirit Lord jumped into the lake and fell asleep, disappearing without a trace.

Fellow Daoist ye, did you sense something?"

The great Grandmaster saw that ye chen had been closing his eyes and concentrating. He knew that ye chen must have done something.

"That's right. There might be another powerful force underwater, and that expert might not have been devoured by the core power of the Three Realms!"

"What do you mean?"

"The core of the Three Realms is such an important thing. Do you think the eighteen emperors of the underworld would be so careless in guarding it?"

"That's reasonable!"

The forefather looked at the splashes in the lake and revealed a gloating smile. He was waiting for the true spirit Lord to encounter some "surprise."

At this moment, the true spirit Lord had already jumped into the water and was flying toward the bottom.

"Ah!"

Releasing his spiritual energy as a reverse thrust, the true spirit Lord pounced directly at the underwater secret treasure.

"Boom boom boom!"

At this moment, there was a loud noise underwater. The true spirit Lord almost lost his balance due to the powerful water tornado.

"What?"

The true spirit Lord could sense the strangeness and power of this power, and he released a psionic shield all over his body.

"Could it really not be because of the core power of the Three Realms?"

At that moment, he recalled ye Chen's advice. Could it be that ye chen had sensed this power long ago?

The true spirit Lord was still in disbelief. He had not sensed it before, so how could ye chen have sensed it? could it be that ye Chen's perception was above his?

However, he was the true spirit Lord after all, the strongest expert in true spirit Hall. No matter how dangerous it was, he would not panic.

"The eye of true spirit!"

He opened his spiritual eye and observed the surrounding water. Under the water, he discovered a huge dark matter.

"This is ..."

The true spirit Lord immediately recalled the power of the dark water he had absorbed at that time, which was somewhat similar to the characteristics of this dark matter.

"No way, this is the darkness pool?"

Although he didn't want to believe this conjecture, the power in front of him and the power he had absorbed were indeed from the same source. The power here was many times stronger than the power he had absorbed before. This was the true source of the dark water!

"Boom boom boom!"

The source of darkness below kept making loud noises, as if a beast was going to devour everything in front of it.

This kind of terror and the mental suppression caused by the water pressure would cause even a Mahayana realm martial artist to collapse in an instant or even die on the spot. This was the reason why the strong man had turned into bones.

The true spirit Lord continued to strengthen his protective barrier. He knew that the consequences would be unimaginable if the dark energy touched his body.

"True spirit immortal spell: jade light wheel!"

The true spirit Lord formed a seal with both hands and released an immortal spell. Instantly, waves of spiritual energy circled around his body and finally turned into a Halo like a full moon. It enveloped his body and prevented all darkness from approaching.

Boom, boom, boom!

Just as the Lord true spirit formed the Jade light wheel and was about to investigate further, the darkness pool suddenly exploded. Three masses of ink-like matter rushed toward the Lord true spirit.

"True spirit immortal spell: Soaring Dragon Mist!"

The true spirit Lord's glabella glowed and he spat out a true spirit abhijna. A Jade Dragon swept out.

"Roar!"

The Jade Dragon stirred up the water, forming a frenzied attack that charged straight at the three balls of ink.

Boom, boom, boom!

The energy under the water exploded, shaking the earth and the sky.

On the water, ye chen and the other two were shocked to see such a scene.

"Hahaha, fellow Daoist ye, it looks like that old thing is having a good time underwater!" The old ancestor said with a smile.

"The true spirit Lord is very conceited. This time, I'll teach him a lesson. However, the nether energy crystal is still with him. I can't let him really die!"

Ye Chen's eyes narrowed as he walked toward the lake.

[Chapter 1967 Despair True Spirit Palace!](#)

Ye chen walked to the lakeside, his eyes glowing with a fiery light. Under the blessing of the fiery golden eyes, he could faintly see that under the water, clusters of dark matter were fighting the true spirit Lord, even putting the true spirit Lord at a disadvantage.

The true spirit Lord was a Supreme expert at the level of an individual immortal. Such a figure would not make a move easily. Once he did, it would be earth-shattering. He did not expect that the power under the water would actually make him so embarrassed. It was clear that this power was extraordinary.

"Roar!"

At this moment, ye chen suddenly felt the time and space Fury in his body start to go berserk. This made him very puzzled.

"Don't tell me ..."

He looked at the power under the water and could not help but think that the time and space Fury had some kind of connection with the power under the water. The power under the water was even summoning the time and space Fury.

"Wushuang, forefather, you guys stay up there and don't move!"

"Alright!"

Seeing ye Chen's serious expression, the great ancestor knew that he was going to do something big. The two of them stayed on the shore.

"Plop!"

Ye chen jumped into the water and released his psionic power to speed up the sinking.

In the water, the true spirit Lord was surrounded by three masses of dark matter within a hundred-meter radius.

Thump, thump, thump!

These dark matter had all sorts of forms, and they could even take on various forms.

Ye chen saw three huge fists continuously hammering the true spirit Lord.

Ye chen was amused by this scene. The powerful and invincible true spirit Lord was like a student who had made a mistake and was beaten into a sandbag.

Thump, thump, thump!

The power of each punch was so great that it could even easily produce waterspouts that could overturn the heavens and earth. However, this dark matter seemed to limit the spread of these powers and focused them on attacking the true spirit Lord.

Ye chen did not alert the true spirit Lord. Instead, he watched from the side. He wanted to see what this dark matter was and where the source of the darkness was.

"True spirit immortal spell, boundless sword of execution!"

At this moment, the true spirit Lord was already in a mess because of the dark matter. He kept attacking with all kinds of immortal Arts and supernatural powers, but when he encountered the dark matter, it was like punching cotton. The sense of powerlessness made the true spirit Lord feel despair.

"How hateful!"

The true spirit Lord was furious. Spiritual energy burst out from his body. At this moment, a huge jade light wheel appeared behind him, and its power shot up into the nine Heavens.

Outside the Emperor of the dead mountain range, Ling Jun and the other experts from the true spirit Hall were guarding the place.

They had to face Emperor Yama, the netherworld Army led by Hades Emperor himself.

"What?"

Seeing this light, the Emperor of hell sneered.

"Ha, it seems that the true spirit Lord has fallen into the trap!" The Yama Emperor said with a smile.

"That's right. If you're entangled by the source of darkness, even if you're an itinerant immortal, so what? you'll die!" Youhuang continued.

"What are you guys talking about?"

Hearing their words, Ling Jun could sense their deep malice and felt very guilty.

"Ling Jun, the true spirit Lord is dead for sure this time." Youhuang spoke.

"How laughable. How could the spirit Lord have died? No danger will be able to harm the spirit Lord. Since our true spirit Hall has obtained the core of the Three Realms, the netherworld, the spirit realm, and the devil realm will all be under our control!"

"Hahaha!"

Hearing Ling Jun's words, Emperor Yama laughed out loud.

"What are you laughing at?"

"I'm laughing at your naivety!"

The Emperor of Hell Revealed a fierce expression.

"The core of the Three Realms is such an important thing. Do you think we'll let the true spirit Lord take it away so easily? Let me tell you, the thing in the lake is the most ancient source of darkness. It is an existence that only the nether Lord can communicate with. Even we don't dare to get close to it, let alone the true spirit Lord!"

"What do you mean?"

"The darkness support can absorb any kind of energy. The stronger the true spirit Lord is, the more energy it can absorb. When the true spirit Lord's Qi and air are exhausted, it will be devoured by the darkness pool!"

"I don't believe it!"

Ling Jun howled in rage, his eyes bloodshot. He was already unable to control the power of the dark water in his body.

"You've absorbed the power of dark water. Although your Foundation has improved a lot, you're also under the control of the power of dark water. The power of dark water is an extension of the power of the darkness pool. Ling Jun, you've actually fallen into it as well."

"No!"

Ling Jun wanted to make a move, but she suddenly felt that she was no longer in control of her body.

"Impossible!"

He couldn't believe it, and his eyes bulged as his body began to explode. The experts of true spirit Hall fell into panic.

"Lord Ling Jun!"

They watched as Ling Jun fell apart and was unable to move.

In fact, many powerhouses who had absorbed the dark water had such symptoms. They had been told that they could ascend by absorbing the dark water, but no one had told them about the side effects of the water.

"Ah!"

Ling Jun let out a roar. He was going to make his last gamble.

"The true spirit is enraged, and the Jade is shattered!"

It was better to be broken Jade than intact tiles. Ling Jun knew that his body had already reached its limit and was about to self-destruct, so he flew towards Yama Emperor.

"Oh?"

However, all of this was within Emperor Yama's control. The reason why Ling Jun was like this was because he had secretly used a special technique to activate the dark water power in the leader's body.

"Emperor Yama, kill the Phoenix!"

Emperor Yama let out a furious roar, and his powerful netherworld energy transformed into a huge hand. It stretched out from the dark clouds in the sky and grabbed Ling Jun.

"No!"

Ling Jun felt that his body had already reached its limit and was unable to get close to Emperor Yama. This kind of despair caused him to cry out in a heart-wrenching manner.

"Lord Ling Jun!"

The experts from the true spirit Hall fell into despair. Even Ling Jun couldn't touch Emperor Yama, so what could they do?

The spirit Lord had told them that they were invincible by absorbing the dark water, but they were like ants when they met the Emperor Yama.

Such a contrast caused their minds to completely collapse. Of course, the dark water played a part in this.

As a power derived from the darkness pool, which controlled mental power, it was extremely powerful in disturbing the mental state of people in the spirit world.

"Hahaha, kill!"

"Yes, Yama-Emperor!"

The netherworld powerhouses attacked mercilessly when they saw that the true spirit Hall members were paralyzed.

For a moment, the smell of blood filled the sky and countless experts of true spirit Hall died on the spot.

At this moment, the true spirit Lord was releasing his true spirit super power to resist the darkness pool.

Buzz, buzz, buzz!"

With the passage of time, the true spirit Lord's power was rapidly lost. This was because the darkness pool was extremely devouring all kinds of powers. This was its instinct and nature, and nothing could escape its control.

Thump, thump, thump!

The three fists were still hammering the true spirit Lord. Although each punch was not fatal, they were breaking the true spirit Lord's defense, not only his physical defense but also his spiritual defense.

In other words, these dark masses not only had netherenergy attacks, but they also had spiritual control.

"Phew ..."

All of a sudden, a heavy breathing sound came from the surrounding space, making people extremely uneasy.

"What?"

Ye chen, who had been observing for a long time, felt that he was being watched.

[Chapter 1968 Nether Energy Crystal!](#)

"Phew, phew, phew!"

Suddenly, clusters of dark matter surged toward ye chen. The lake was the domain of the source of darkness and ye chen had long been under his observation.

"As expected, they're here!"

Ye Chen's mind jolted and the flame in his eyes shot out.

Even in this underwater world, the power of the true Samadhi fire did not decrease. When it exploded, even the water had to make way for it.

The dark matter could not get close to the true Samadhi fire. This gave ye chen the space to continue observing.

At this moment, the dark matter that had attacked the true spirit Lord earlier began to split. The three punches from before had turned into six, then nine ...

Such a powerful life force and splitting ability surprised ye chen. How was such an energy form formed?

"Roar!"

At this moment, the time and space roar roared again, as if it had a strong obsession with the dark matter.

"What?"

Ye chen was puzzled. He began to use the spiritual link to obtain the intent of the time and space Fury.

At this moment, the dark matter attacked once again. This time, the dark matter was completely different from the previous ones. It contained an even stronger power, even the power of the natural order, which caused the surrounding water to change.

Boom, boom, boom!

The Lord true spirit was trapped within the mass of dark matter and was constantly receiving heavy blows. His Foundation was continuously weakening, but the darkness pool did not weaken at all. On the contrary, it continued to strengthen. This situation where one was losing while the other was gaining put the Lord true spirit in a great disadvantage.

"Impossible! How could this spirit Lord fail here!"

The true spirit Lord also noticed that he was in danger. He realized that it was extremely difficult for him to even leave the lake, let alone destroy the darkness pool and obtain the core of the Three Realms. It was almost a dead end.

"Phew, phew, phew!"

The darkness pool spurted out a strange energy that was like ink again and surrounded the true spirit Lord. This energy was much sharper than before.

Boom, boom, boom!

These energies took on various forms and flew at the true spirit Lord.

In the beginning, the true spirit Lord could still deal with it with ease. However, as time passed, everything became different.

"Ling Jun!"

The true spirit Lord transmitted his voice from thousands of miles away, wanting to call Ling Jun over to help him escape. However, he did not know that Ling Jun had already failed.

In the outside world, the experts of true spirit Hall were all killed by Emperor Yama and youhuang. Even the experts of true spirit Hall who stayed above the lake did not have time to save the Lord true spirit because Emperor Yama had already arrived.

"Since you dare to enter the netherworld, then you'll be walking on the path of death!"

The Yama Emperor released his Yama flames and the surrounding space instantly turned into a purgatory. Such a powerful force trapped the experts of the true spirit Hall.

"This, this!"

They couldn't resist the power of the Yama's flames at all. Then, they realized that their life force was continuously flowing away. The power of the dark water that they had absorbed before was now flowing in the opposite direction, starting to hinder the circulation of their spirit power. They were completely in a dead end.

"Hahaha!"

The Yama Emperor laughed loudly. With a wave of his hand, the Yama Emperor's blade took a life without mercy!

Buzz, buzz, buzz!"

The heads of countless powerhouses flew up one after another, their bodies and Dao vanishing.

"Phew, phew, phew!"

After that, these people's corpses were completely burned by the Yama's flames, leaving no traces behind.

Under the water, the true spirit Lord could clearly sense the aura of Emperor Yan and the others, and he became even more anxious.

He understood that Ling Jun and the others were definitely in grave danger, and he was the only one they could rely on now.

Ye Chen opened his fiery eyes and looked at the outside world. He also saw the figures of the Emperor of Hell and the others. The great ancestor and Wushuang were already trapped by the Emperor of Hell. Ye Chen was not at ease either.

"Now it's a game of time!"

What he wanted was to wait for the moment when the true spirit Lord revealed a flaw. At that time, he would obtain the nether energy crystal and find Su Yuhan.

However, in the outside world, the old ancestor and Wushuang were also in danger. This was the importance of time. However, this time depended on how long the true spirit Lord could last.

As the dark matter under the water continued to increase, the pressure on the true spirit Lord's body grew stronger and stronger. He had already fallen into the control of the darkness pool.

"No, it's still too slow. The true spirit Lord's Foundation is too strong. If the darkness pool is relying on itself, it might take too much time!"

Ye Chen's eyes were filled with killing intent. He was going to take a gamble and do it himself.

Only by giving the true spirit Lord enough pressure would he have more opportunities.

"Yellow Spring Nirvana finger!"

Ye Chen activated the Qi of Slaughter and opened the gates of the netherworld behind him. He pointed his sword fingers at the true spirit Lord.

"What?"

Before his life was in danger, the true spirit Lord immediately sensed Ye Chen's killing move.

"Ye Chen, it's you!"

"True spirit Lord, hand over the nether energy crystal and I'll help you escape!"

Since he had been discovered, Ye Chen did not hide anything and showed himself.

"Hahaha, if you want the nether energy crystals, you'll have to help me get out of this predicament first!"

"True spirit Lord, you don't seem to be able to see the situation clearly!"

Ye Chen's eyes turned cold. Without a word, he attacked.

"You!"

The true spirit Lord did not expect Ye Chen to be so decisive. He turned back to look at the lake and sneered.

"Ha, it seems that your two friends above the lake are in danger."

"What?"

Ye chen attacked in anger. The underworld finger stirred the water and headed straight for the true spirit Lord.

"Boom boom boom!"

It swept over in an unstoppable manner. The true spirit Lord was shocked and unleashed all his immortal spells to resist the predicament before him.

As an itinerant immortal, the true spirit Lord's Foundation was undeniable. He was an absolute powerhouse. Even when faced with the double pressure of ye chen and the dark matter, he still chose to resist.

"True spirit immortal spell: jade light wheel!"

This time, the true spirit Lord released three great Jade Halo wheels. Two of them resisted the dark matter while the last Halo resisted ye chen.

However, he had underestimated ye Chen's strength. This time, ye Chen's underworld Nirvana finger contained not only spiritual energy but also demon energy. It was a dual cultivation mystical power.

Boom, boom, boom!

The power of the Finger of Death burst forth and broke the light wheel of the true spirit Lord.

"Swish!"

The finger of Styx went straight for the true spirit Lord and pierced through his shoulder.

"You!"

The true spirit Lord was furious. He was an Overlord, but he had fallen into such a situation.

"You don't have much time left."

Ye chen did not give him any chance to catch his breath.

"How hateful, here!"

The true spirit Lord had no other choice. If this continued, he would die without a doubt. His only chance of survival was to cooperate with ye chen.

He tossed the nether energy crystal. Ye chen closed his fingers and the nether energy crystal fell into his hand.

"Very good!"

After putting away the nether energy crystal, ye chen looked at the darkness pool. He did not want to save the true spirit Lord but it was not reliable to fight against the emperors of the underworld on his own. He needed the true spirit Lord to share the burden. Also, the space-time rage was very excited about this dark matter. He had to find out the reason.

"Nine Heavens rumbling Thunder palm!"

Ye chen directed the divine Thunder of tribulation and gathered it in his palm. Then, he thrust his palm toward the darkness pool!

[Chapter 1969 Facing The Darkness Pool!](#)

"Boom boom boom!"

The thundering palm reached the source of darkness, and the violent vibration caused the tide to roar like an angry dragon, soaring into the nine Heavens.

Such a huge tremor naturally attracted the attention of Emperor Yama and youhuang.

"It seems like the true spirit Lord is having a tough battle!"

The Emperor of hell smiled sarcastically. He thought that this was the true spirit Lord's doing but in reality, it was ye chen who had triggered it.

"In the domain of the darkness pool, even loose Immortals can't escape. The true spirit Lord will definitely die this time. Using the Three Realms 'core to eradicate a great calamity for the netherworld is quite appropriate!"

Youhuang spoke.

"Why aren't you all bowing your heads and accepting your death?"

Yan Huang looked at ye Wushuang and old ancestor yellow spring and said.

"Ha, let's see if you have the ability to do so."

Old ancestor yellow spring sneered. The Qi of yellow spring was released from the sword of yellow spring in his hand, which rushed toward Emperor Yama like a gust of wind.

"Useless move!"

The Yama Emperor angrily rebuked, and the Yama Emperor judgment ruler appeared in his hand.

"Phew, phew, phew!"

He waved the judge ruler, and waves of Yama's Qi transformed into the form of a Hellhound and attacked old ancestor yellow spring.

"Forefather, be careful!"

Ye Wushuang attacked at the same time, and the celestial Thearch sword Qi cut in front of him.

"Boom boom boom!"

The celestial Thearch sword cut through the Yama Emperor's aura and protected the ancestor.

"Oh?"

The Emperor of hell was surprised that his Emperor of hell aura had been destroyed by a "young boy."

"Humph, ye Wushuang, I didn't expect you to improve so much!"

"Yama-Emperor, master is about to come out of seclusion. Just wait for your deaths!"

"Hahaha, you really don't know the immensity of heaven and earth!"

Hearing ye Wushuang's domineering words, the Emperor of hell laughed wildly. There was no trace of ye chen in the surroundings. He was just scared underwater. He would die with the true spirit Lord, so there was no need to worry!

Therefore, as long as he could get rid of old ancestor yellow spring and ye Wushuang, all the people of the spiritual realm would be annihilated!

.....

Under the lake, ye chen used the thundering palm to attack the darkness pool. Unexpectedly, the palm energy was like a clay ox entering the sea. It had no effect at all and only created waves!

"It can actually absorb energy!"

Ye chen finally understood that the darkness pool in front of him had the same devouring ability as the time and space Fury. Moreover, this power had undergone some kind of evolution. This was the reason why the time and space Fury was so obsessed with it.

If he could obtain the power of the darkness pool, the spacetime rage would definitely undergo a second evolution!

With this in mind, ye chen had a goal. This time, not only did he want to get the nether energy crystal to help the true spirit Lord escape danger, but he also wanted to obtain the power of the source of darkness to allow the spacetime rage to evolve a second time.

Ye chen was very interested in the second evolution of the time and space Fury.

Although he was not severely injured, ye Chen's palm had angered the darkness pool.

"Phew, phew, phew!"

Dozens of masses of dark matter rushed toward ye chen. They formed a dark mass and each of them had the power to devour a peak-stage crossing calamity powerhouse.

"Hahaha, ye chen, it's your turn to be in trouble now."

The true spirit Lord did not show any gratitude after being saved. Instead, he was mocking ye chen.

"True spirit Lord, watch your mouth!"

"What did you just say?"

"Are you deaf?"

Ye chen glared at the true spirit Lord, not giving him any face at all.

The true spirit Lord was furious. After all, he was the master of the true spirit Hall and even the ruler of the spirit realm on the surface. One could imagine how he felt when he was mocked by ye chen.

However, this could not erase the fact that ye chen had saved him!

"Hateful!"

The true spirit Lord threw a palm at ye chen and then flew toward the world outside the lake.

"Trash!"

Ye Chen's eyes released a fiery light and instantly broke through the true spirit Lord's palm energy.

"Phew, phew, phew!"

At this moment, more dark matter came toward ye chen. It was clear that the origin of darkness had lost interest in the true spirit Lord and had locked onto ye chen again.

"Very good, come on!"

Ye Chen's sword Qi spread out for three thousand miles and fought in all directions!

Boom, boom, boom!

Wind following sword, raging sea!

The entire lake water was lifted by ye chen, turning the world upside down.

Huge waves surged into the sky, and the darkness pool released supreme power that devoured everything.

"Phew, phew, phew!"

All the surrounding lake water was devoured by the darkness pool and turned into countless bubbles, surrounding ye chen.

At this time, the Emperor of hell and the others looked down at the lake. Ye chen and the darkness pool were both exposed.

"Ye chen didn't die!"

The Emperor of hell and the Emperor of Hades were shocked. Not only ye chen, but even the true spirit Lord had flown out. Could it be that the two of them had joined forces to resist the source of darkness?

The two of them looked puzzled at the same time. In their opinion, even if ye chen and the true spirit Lord joined forces, they would not be a match for the darkness pool.

"Phew, phew, phew!"

The power of the darkness pool finally burst out and devoured all matter.

Feeling this terrifying power, everyone fell into a state of shock.

"It seems that the darkness pool was not able to unleash its full power. This might be related to ye chen!" Yama Emperor said.

"That's right. This kid is too abnormal. Every time we meet him, there's a big problem. I think he's most likely the one who saved the true spirit Lord." Youhuang spoke.

Upon hearing youhuang's words, the true spirit Lord was even more furious. He did not expect that someone would really believe that ye chen had saved him. If that was the case, he would lose even more face.

"The true spirit race has invaded the netherworld. Damn it!"

Emperor Yama no longer cared about the old ancestor and ye Wushuang. Instead, he turned to face the true spirit Lord. After all, among the people of the spiritual realm, the true spirit Lord was the biggest threat to them.

"Hahaha, trash like you are not worthy of talking to me?"

In the face of Emperor Yama and Hades Emperor, the true spirit Lord still maintained his unparalleled dignity and aura.

"Hmph, this is the netherworld, not your spirit world. True spirit Lord, your end is here."

"We're just holding you back. Once the arch-Emperor arrives, you'll all be dead!"

The two Emperor's eyes caused the true spirit Lord's heart to tremble. He had heard of the arch-Emperor's name. He was one of the top nine emperors among the eighteen emperors, and his strength was far above that of Emperor Yama and Emperor youhuang.

"You guys die first!"

The true spirit Lord took the initiative and attacked Emperor Yama and youhuang.

At this moment, ye chen was facing the darkness pool alone in the world below.

"Phew, phew, phew!"

Without the lake water, the darkness pool turned into a ball of dark aura, bursting with Supreme demonic power.

"Zi Zi Zi!"

The dark matter that had been released earlier had all gathered on the entire body of the darkness pool, forming a dark armor. It made the darkness pool look like a human, and it looked very majestic.

Following that, the darkness pool released a darkness ray that headed straight for ye chen.

"Zi Zi Zi!"

Countless dark rays flew toward ye chen.

"Whoosh, whoosh, Whoosh!"

Ye chen used the nine Heavens Yu steps and the seven stars flickered. His figure changed and he dodged the rays.

"Roar!"

At this moment, the spacetime rage howl roared again and appeared behind ye chen.

"Since you're so obsessed with it, I'll help you fulfill your wish!"

After ye chen finished speaking, he faced the source of darkness together with the spacetime wrath!

The darkness pool sensed the power of the time and space Fury and went berserk at the same time. These two powers clearly could not co-exist!

[Chapter 1970 Comparable To A Loose Immortal?](#)

"Phew, phew, phew!"

Upon sensing the power of the Furious howl of time and space, the darkness pool began to spew out dark matter wildly. It seemed to be very afraid of the power of the howl and wanted to destroy it in a concentrated manner.

"I see!"

Sensing the "fear" of the darkness pool, ye Chen's eyes turned cold and he flew into the sky.

"Time and space Fury, release!"

Ye chen released the might of the Furious Roar of Time and space. His massive figure rushed toward the source of darkness in a violent and terrifying manner.

Thump, thump, thump!

The power of the time and space Fury was gradually released, and the surrounding space rapidly transformed. The dark matter that attacked the fury was actually all trapped in the alternate space that the fury had opened up, unable to stop its advance at all.

"Very good, go!"

Ye chen held the celestial Thearch sword and attacked the darkness pool at the same time.

"Phew, phew, phew!"

The darkness pool felt a great threat, and a large mass of dark Qi began to take shape.

"Whoosh!"

He transformed into a human, and the source of darkness grew two horns. His entire body was dark, and he was covered in scales. He exuded an evil and devouring force of nature.

"Roar!"

Seeing that the darkness pool had taken the form of a human, the space-time Fury once again rushed forward to devour the dark core.

"Puny human, die!"

The darkness pool spoke in the human language. It was in a crazy state, like the arrival of a ghost God. It was so powerful that it was unstoppable!

In the face of such a dark and evil power, ye chen wanted to end the battle quickly without any hesitation.

"Ancient God's might!"

Ye chen roared. His entire body bloomed with golden light. His ancient God Power circulated through his meridians and he transformed into a thousand-foot-tall giant.

Pangu's divine spark, golden body growth!

"Dark immortal spell, Kasaya, tear the enchantment!"

All of a sudden, the darkness pool released a dark immortal spell, and a nameless power of darkness suddenly appeared in the surrounding space.

Boom, boom, boom!

Ye chen could feel his body shaking continuously. His massive body was on the verge of exploding and tearing apart. This kind of power was very strange and almost impossible to resist.

If it wasn't for the fact that the ancient God Body was too tough, even someone at the peak of the Mahayana realm would have exploded in an instant.

"Such violent power, interesting!"

This kind of power had completely piqued ye Chen's interest. If he could take it for his own use, then his spatial dimension laws would soar to a new level.

"Unparalleled ancient God!"

Ye Chen's eyes emitted a fiery light as he activated the second stage of the one-star ancient God. In an instant, the tremors of his entire body stopped at the same time. His indestructible muscles spread out his arms and created an ancient God Space.

"Zi Zi Zi!"

With the completion of the ancient God Space, the darkness pool was completely sealed in the space.

"What?"

The darkness pool felt the powerful binding energy of the ancient God Space, which made it lose its freedom.

"How hateful!"

With a furious roar, the scales all over the darkness pool stood up like hair!

"Dark immortal spell, misty extermination!"

Reversing the tearing force from before, the darkness pool once again released the immortal extermination spell.

"Zi Zi Zi!"

An incomprehensible black hole appeared above the darkness pool.

The power of the black hole twisted time and space, continuously twisting everything.

"Roar!"

Even furious owl, who could control the power of spacetime, was unable to resist the power of this black hole and was constantly falling in its direction.

"Furious spacetime roar!"

Ye Chen's expression changed and he flew toward the black hole.

"Hahaha, idiot, you will definitely die if you enter the black hole!"

In the face of the darkness pool's mockery, ye chen did not hesitate at all. The space-time raging flames was the foundation of his space-time law. Once the raging flames were destroyed, his space-time law would be destroyed as well. This was something ye chen could not accept.

"Whoosh, whoosh, Whoosh!"

Under the influence of the black hole's gravitational pull, ye Chen's speed became faster and faster, like a flashing meteor.

Finally, ye chen caught hold of the Furious owl.

"Come back!"

Ye chen released his spiritual force and fused it with the consciousness of the roar. Instantly, the space-time roar returned to ye Chen's body.

"Ah!"

With a long howl, ye chen activated his ancient God Power and forcefully reversed the black hole's might.

However, in front of this black hole, even ancient God Power became extremely weak. After all, ye chen had only used the power of a one-star ancient God.

"Hahaha, go to hell!"

The darkness pool was also fascinated by ye chen. He could already feel the endless divine power in ye Chen's body. This power was what he needed most to ascend as a human.

"Collect!"

He once again erupted with his strongest power of darkness. The black hole's power was still increasing. Such a violent force caused ye Chen's massive body to fall continuously.

,m The people who had been fighting were all dumbfounded when they saw this. They put down the battle in their hands and looked at the battle between ye chen and the darkness pool.

The darkness pool's strength was obviously at the level of an itinerant immortal. It even had a certain characteristic that allowed it to continuously improve its strength in battle and set a target according to the opponent's strength.

When facing ye chen, the power of the darkness pool had already reached the level of an itinerant immortal. This meant that ye Chen's strength was actually comparable to an itinerant immortal!

This terrifying fact was already recognized by Emperor Yama and youhuang.

"This kid actually has the strength of an itinerant immortal. How is this possible?"

The Yama Emperor called out in shock.

"What did you just say?"

At this moment, the true spirit Lord was equally shocked. He looked in the direction of the Emperor of hell and youhuang. The two emperors were shocked at the same time. It was clear that what the Emperor of hell said was not false.

"This kid!"

The true spirit Lord's brows trembled. Although he knew that ye Chen's talent was one of the best in the human race and could even be a hundred-year genius, it seemed that he might be a one-in-a-million genius. No one could display the strength of an itinerant immortal in the Tribulation stage. This was a scene that could only be seen in myths.

"Hahaha, kid, you're making me even more interested!"

The darkness pool's energy was still increasing because ye Chen's energy level was increasing.

"Kill!"

The darkness pool stretched out its hand and its arm continued to extend. Then, it became incomparably huge and waved at ye chen.

"What?"

Ye chen was equally shocked when he saw the giant arm that was almost as large as an ancient God's body. However, he would not panic no matter what he faced.

"Ah!"

He shouted in anger and grabbed the arm with both arms.

"Swish!"

The two oddities had actually started a head-on battle here!

This was a powerful battle of inner force. The power of the darkness pool continued to increase but ye chen would not fall behind.

The two's energy levels were rising too quickly, causing the surrounding space to change.

Boom, boom, boom!

The space began to explode on its own. Such a terrifying power had long surpassed everyone's imagination.

Even the true spirit Lord, a super expert among the loose Immortals, felt that kind of fear.

"Impossible! No power can shake my spiritual barrier!"

The true spirit Lord felt that his spiritual world was still in shock!
