

Genius 2051

[Chapter 2051 Using The Nine True Spirit Transformations Again!](#)

"It's just a small trick. It's too weak to perform in front of me."

Faced with the darkspirit rings' encirclement, ye chen stood alone in the void and responded strongly.

"Ye chen, you're too arrogant. We've sent out three small teams this time. This is a lineup that's only used to deal with peak itinerant Immortals. Do you think you can escape?"

The wolf-headed evil spirit said with a sneer.

"Trash, you're on the verge of death, yet you still don't understand the situation. Are you trying to kill me?"

As soon as he finished speaking, the void trembled violently. The abyss was like the mouth of a demon, about to devour the many evil spirits.

"Ah ..."

The previously arrogant evil spirits were now in a state of panic. They gathered together and wanted to rely on their collective strength to fight against ye chen.

At this moment, the wolf-headed evil spirit was baring its teeth at its prey. Not only did it not poison the other party, but it had even been set up by the target. This was a situation that it had never expected.

"Hehehe, even so, you might have forgotten something."

"Oh ... What is it?"

"That's this blood mist town!"

"So what?"

"I always plan for every possibility. Although this blood fog Town looks small, it's actually a blood fog formation that I and many experts designed together!"

With that, the wolf-headed evil Spirit's eyes shone with a dark light. Immediately, the blood mist in the entire space condensed. Then, the blood mist turned into seven streams of evil energy and gathered into various totems, sealing the seven stars above ye Chen's head.

"Oh? Hahaha, I thought it would be boring, but this time it's finally interesting!"

Facing the blood mist formation, ye chen sneered. It would be easy for him to kill these pieces of trash but with this formation, perhaps the game would become more interesting.

"Do you still think that everything is under your control? do you still think that you can survive in this game? do you still think that you are really strong?"

The wolf-headed evil spirit was furious. It gave a look to the other evil spirits, and all of them immediately moved. They released their evil weapons and floated into the air, absorbing the power of the seven great evil energies.

The leaders of the formation were the seven masters of the darkspirit assassin group. They all locked onto ye chen.

The wolf-headed evil spirit was the leader. It stood not far away from ye chen, holding a Wolf bone blade that was still bleeding as if it had just killed someone. It was terrifying.

"Kill him!"

"Roar, roar, roar!" Many evil spirits flew out, holding evil soldiers imbued with evil energy, wanting to kill ye chen in one fell swoop.

"Zi Zi Zi!"

Just as they flew up and were about to slash at ye chen, suddenly, time and space froze. Many evil spirit cultivators were frozen in mid-air, even their expressions dumbfounded.

This scene made the wolf-headed evil spirit turn pale with fright. It had never thought that ye Chen's strength would be so powerful and that his divine power would be so strange and unpredictable.

He did not even have the ability to speak now. He was like a statue standing in front of ye chen.

Ye chen slowly walked over and looked at the "statue" who had a frightened expression on his face. He raised his finger slightly.

"Swish!"

He gently touched the forehead of the wolf-headed evil spirit, and a crisp sound was heard. Then, under everyone's disbelieving eyes, the forehead of the wolf-headed evil spirit split open, and like a statue, it collapsed and turned into dust.

Seeing such a terrifying scene, the evil spirits should have cried out, but they were restricted by the ancient God Space and couldn't even move their eyes.

They could only watch helplessly as the wolf-headed evil spirit turned into dust and fell to the ground.

"A bunch of trash. How dare you block my way? die!"

Ye Chen's eyes flickered with killing intent. Suddenly, the space distorted and all the evil spirits shattered like statues being hit by a heavy hammer, disappearing into thin air.

After that, ye chen walked straight ahead. The entire blood mist array could not stop him at all. It was as if he was walking on clouds.

The blood mist in front of him had even become the snacks of the time and space Rage, all of which were devoured.

"Nine true spirit transformations!"

Ye chen immediately transformed into the wolf-headed evil spirit and charged forward.

Using his dark energy, ye chen sensed that there were other evil spirit experts in a secret cave a thousand miles away.

"Whoosh, whoosh, Whoosh!"

Ye chen operated the spatial rule and leaped forward. He soon arrived outside the evil spirit secret cave.

When he had killed the wolf-headed evil spirit, he had used the soul guiding technique to extract all of its memories.

Ye chen walked out of the secret cave and threw out a jade pendant. It was the evil spirit jade pendant.

"Zi Zi Zi!"

The jade pendant and the mark on the entrance of the cave reflected each other, and the door of the wicked secret cave slowly opened.

"You're back. How's Ye chen?"

A voice came from the secret cave.

"Although this person is strong, he'll definitely die in the blood fog formation and elder Shangguan's poisonous wine!"

"You killed him with your own hands?"

"Of course, this is his head!"

As ye chen spoke, he threw out a head. This head was made from ye Chen's own blood. Ordinary people would not be able to see through it.

"Hahaha, very good!"

In the darkness, a person walked out. It was also a Wolf-headed evil spirit and this person was closely related to the evil spirit that ye chen was playing.

"Big brother, don't tell me you're still worried about me handling things?"

"You've done well, little brother!"

It turned out that the wolf-headed evil spirit in the secret cave was really the brother of the wolf-headed evil spirit who was carrying out the assassination plan this time.

The younger brother's name was ka BA and the older brother's name was BA ka.

"Ka BA, this time, I will ask for your credit in front of elder Shangguan."

"Many thanks, big brother. This time, our clan will definitely rise."

"Of course. Your assassination skills are getting better and better. I hope to take you back to our headquarters in nether prison to see elder Shangguan."

"That's great! I've been wanting to meet the elder for a long time. I want to let him know my ability!"

"Don't worry, I'll Take You There tomorrow!"

"Many thanks, big brother!"

The two of them nodded to each other and then rested in the secret cave.

That night, ye chen carefully read all kinds of memories of ka BA and familiarized himself with his status among the evil spirits. He also knew all the information he knew about the evil spirits. In this way, ye chen knew himself and his enemy.

Ka BA's position among the evil spirits was not high. It could even be said that he was a very low existence. Because among the evil spirits, only those who were not talented enough or had a very low status would become assassins.

The Ka BA that ye chen was playing was very talented but he came from a humble background. Therefore, he hoped to rely on his own efforts to make a name for himself so that his family could raise their heads among the evil spirits.

The next morning, Bacca called out to ye chen.

"Ka BA, let's go!"

"Yes, big brother!"

Ye chen nodded slightly. This time, he wanted to see for himself how the evil spirits operated in the nether prison.

The two of them walked out of the secret cave. Bakar released a spirit boat, and the two of them jumped on it and flew out.

[Chapter 2052 Evil Spirit Nether Prison Headquarters!](#)

Ye chen boarded the spirit ship and under bakar's guidance, they arrived at a secret place.

This area was surrounded by countless craters and countless towering ancient trees, forming a natural barrier. Moreover, some kind of evil energy had been injected into these ancient trees. This energy made the ancient trees look natural from the outside, but in fact, it was useless to try to see the information inside.

"Zi Zi Zi!"

The spirit boat stopped at the periphery of the crater. Then, Kaba released his dark energy towards the crater.

Then, the crater reflected the dark energy, and when the two met, a portal appeared.

"Whoosh!"

The spirit boat suddenly accelerated and flew into the ring-shaped mountain.

After entering the crater, ye Chen's horizons were broadened.

This was actually a small Kingdom. There were all kinds of tall buildings, training grounds, and all kinds of cultivation places. There were even various tribes that were formed here, allowing the different races of the evil spirit race to live here.

This was only one of the nether prison's headquarters. It was unknown how many there were in the divine underworld world. It was clear that the evil spirits' strength had already infiltrated all the regions in the divine underworld world. It would be even more difficult to remove them.

In the square, many evil spirit Warriors were constantly fighting. Ye chen saw that these battles were not training but real fighting. There were many casualties. This was the training method of the evil spirits. It was a real life and death battle.

It was not difficult to understand how ferocious the evil spirit Warriors were in a life-and-death battle when ye chen had planned to eliminate the evil spirit envoy.

The spirit Vessel landed on a huge rock. Then, Bacca brought ye chen into a large hall.

"Walk faster!"

"Yes, big brother!"

Ye chen looked around. All kinds of information were transformed into images and hidden in his mind, ready to be used at any time.

After entering the main hall, ye chen followed behind Bacca and walked toward The Holy Road ahead.

Along this path, ye chen could feel a powerful evil energy spreading. It was like a giant python. As the two of them walked on the back of this giant python, the giant python could devour them if it rolled.

This feeling was extremely strong. Ye chen looked down at the ground. In the Demon's Eye, he saw a writhing body.

"Interesting!"

Most people would have been scared to death at the sight of this but in ye Chen's eyes, it was just something fun to watch as he walked.

At the end of The Holy Road, there was a throne, on which sat a very strange evil spirit.

The man was wearing a long black robe and had two deer-like horns on his head. He was reading a Scripture.

"Elder Shangguan, we are here to report."

Bacca stepped forward and bowed.

"En!"

Elder Shangguan nodded slightly, then continued to read the scripture. The two of them could only stand where they were.

Baka was fine but ye chen could not take it. Was a heavenly Emperor going to be this old man's servant?

"Elder Shangguan, my brothers and I are here to report to you!"

Ye chen shouted.

"Ka BA!"

Hearing this, baka was stunned. He never thought that his younger brother would do such an outrageous thing. In front of him was elder Shangguan, an important Alchemist of the evil spirit lineage. He had the power to execute the evil spirit Warriors at will. Letting the two of them stand here was the greatest honor. He didn't expect that ka BA would actually shout.

"Oh?"

Hearing this cry, elder Shangguan slightly turned his head and looked at ka BA.

Suddenly, an invisible pressure "bit" ye chen like a venomous snake. This kind of momentum wanted to devour ye chen and completely crush his soul. This kind of mental impact would drive even a peak bodiless celestial crazy on the spot and make him kneel and kowtow ten thousand times.

However, this force suddenly disappeared when it approached ye chen.

That's right, that incomparably powerful mental energy disappeared before ye Chen's eyes just like that. Even Bacca did not know what had happened.

"What?"

Elder Shangguan looked at ka BA and revealed a strange smile.

"What's your name? you have great potential!"

"My name is Kaba, I am an evil spirit Warrior and also an emissary!"

"Hahaha, very good, very good!"

An ordinary person would have been a dead body if they had been hit by the previous attack, but the evil spirit in front of him had actually withstood it. This surprised elder Shangguan, but at the same time, he was very happy. Finally, there was a talent that he could use.

"You may leave!"

"Elder Shangguan, my younger brother, it's just for a moment ..."

"I'm letting you down!"

"I, am!"

Bacca glanced at Kaba and revealed a helpless expression. He was very clear that usually, anyone who challenged the authority of an elder like this, no matter what rank he was, whether he was an evil spirit general, an evil spirit Warrior, or even an ordinary Holy envoy, would die Here.

"Little brother!"

"Big brother, it's fine. You should hurry down!"

"A!"

Baka had no choice but to leave the hall. He thought that ka BA would die for sure.

However, he did not know that elder Shangguan already regarded ye chen highly and wanted to entrust him with an important task.

"Ka BA, did you resist my spiritual attack in this way?"

"What spiritual attack? elder Shangguan, are you kidding me?"

"Ah?"

Ye Chen's words stunned elder Shangguan. He had never thought that there would be such an anomaly among the evil spirits. In the world of evil spirits, no one could treat a highly respected elder like this. He was even an apothecary, who had noble qualities and an extremely high status among the evil spirits.

However, the kid in front of him had a frivolous look, which surprised and made elder Shangguan curious.

He was even more curious about how ye chen had managed to resist the previous attack and not die. This was a very important question.

However, ye Chen's response was as if nothing had happened. This made elder Shangguan's brows furrow and his eyes locked on ye chen.

"Mm ..."

He stood up and threw away the Scripture in his hand. His interest had completely shifted to ye chen.

"What kind of person are you? how is it possible?"

He still could not understand how ye chen had managed to resist that fatal spiritual attack. He had to figure it out. Otherwise, he would not be interested in doing anything else.

He studied ye chen carefully but with the true spirit nine transformations and the dark energy surrounding his body, even elder Shangguan could not see through him. He had perfectly replicated ka BA's memory and abilities.

However, in terms of personality, he was completely different from ka BA. Even if he had to risk being exposed, ye chen would not do anything that would hurt his dignity!

"Hahaha, think about it. What happened just now?"

"Elder Shangguan, I don't want to repeat myself. Nothing happened just now!"

"Mm ..."

Upon hearing this response, elder Shangguan's eyes turned cold. Once again, he released his powerful psychic energy, trying to test ye chen!

[Chapter 2053 Apprentice Elder!](#)

A powerful psychic energy was released toward ye Chen's eyes like a venomous Python opening its bloody mouth. This was the most impactful part. Elder Shangguan wanted to see how the kid before him could do it.

"Zi Zi Zi!"

These powerful impacts invaded ye Chen's mind in a frenzy, trying to break through his spiritual defense.

"What?"

However, ye Chen acted as if nothing had happened. He stood in front of elder Shangguan with a puzzled look on his face as if he was asking, 'what are you doing, old man?'

Elder Shangguan was shocked. His spiritual impact was a famous killing weapon but it was completely useless against ye Chen. How was this possible?

He could not understand the reality before his eyes but he could not see what method ye Chen had used to resolve the mental impact. He had to open up another way of thinking. Otherwise, it would be an unsolvable way of thinking.

"Could it be that there's something wrong with this kid's head? he can't withstand my spiritual impact, and this flaw is protecting him instead?"

As a veteran of thousands of years, elder Shangguan naturally had a strong ability to think and judge. This was the best explanation he could come up with because with ye Chen's cultivation base and Foundation, it was impossible for him to resist the impact of his psychic strike.

In his eyes, ye Chen was a peak itinerant immortal. However, if he knew that ye Chen was only a Mahayana stage cultivator, his jaw would drop.

It was not that ye Chen had a problem with his brain that he did not receive the mental attack. It was because these mental attacks were not a problem for an ordinary peak itinerant immortal. However, when they encountered the Demon's Eye, they were nothing!

This energy had already been absorbed by the Demon's Eye and then devoured by the darkness pool. After that, it was refined in the ancient God Space and became nourishment for ye Chen's psyche cultivation.

The best way to cultivate one's mental energy was to extract all kinds of mental attacks from this universe, then analyze and refine them to make one's mental energy as solid as gold.

Most people did not have such a cultivation environment but ye Chen's body had gathered all kinds of powerful energy such as Pandora demon ability, ancient God Power, celestial energy, dark energy, and even various psionic abilities. These powers operated in a complicated way in ye Chen's body and could easily produce a powerful chaotic impact. Most people would have gone into Qi deviation long ago, but ye Chen had been suffering from great mental pain all this time.

It was only when he entered the ancient God Star sea, found the first heaven star, and cultivated the first heaven soul refining skill.

The one Sky Soul refining technique was one of the strongest soul refining techniques of the ancient gods. It could refine almost all kinds of mental energy in the world. It was the most basic cultivation technique for the cultivation of mental energy!

In the end, elder Shangguan could not figure out ye Chen's Secret. He could only think that ye Chen's special physique had offset these mental impacts.

"Ka BA, I have decided to keep you by my side and make you my apprentice. What do you think?"

"That's great! Thank you, elder Shangguan!"

Ye chen knew that this was his chance. If he could become this old man's apprentice, not only could he continue to study the evil spirits 'various spells and martial arts, but he could also improve his status and become a popular figure in the nether prison headquarters. Why not?

"Hahaha, you're much smarter this time. I've read a Scripture here. Read it carefully, it'll be useful."

"Many thanks, elder!"

Ye chen took the Scripture that elder Shangguan had studied before and read the contents on the tree. He was slightly surprised.

This Scripture looked simple and there was nothing special about it, but the contents were all about mental control. What was the other party trying to do by letting him read this Scripture?

Ye chen quickly flipped through a few pages and saw that the content was even more strange and unpredictable, even more cruel and ruthless!

"Ka BA, I'm going to create a kind of spirit controlling ability. You're my best helper."

"I'm willing to help!"

"That's good. Remember to study the content I marked for you. This is the key to becoming my helper!"

"Yes!"

"This Imperial token is a symbol of your status. Take it. I'll have you send you a large amount of cultivation resources as a reward!"

"Many thanks, elder!"

Ye chen bowed slightly, then left with the Scripture.

Once he was out of the door, he saw Bacca discussing with a group of evil spirit powerhouses. They all looked helpless, and many of them were comforting Bacca.

Ye chen understood that this was because they thought he was dead for sure.

"Big brother!"

"Ka BA?"

Seeing ka BA walking out, baka was dumbfounded once again. Anyone who directly challenged the authority of the elders would never walk out of the elder Palace alive. Any evil spirit would understand this. However, what they saw in front of them was really their younger brother ka BA. What the hell was going on? did the elders make an exception? there was no reason for this.

"Tsk!"

When they saw ka BA walk out of the elder Hall, many evil spirit powerhouses showed disdain and sneered at him. They thought that this was one of his tricks and that he was deliberately teasing them

because they knew the consequences of angering the elder. Ye chen walking out of the hall meant that he had not angered the elder and might even be rewarded by the elder. No one could stay alone with the elder for such a long time unless the elder valued him.

"Listen to me, I'm telling the truth!"

"Hmph, don't talk nonsense. We're not in the mood to listen."

"That's right, bakar. You're a piece of trash. You should go back and be a Coolie!"

"Right! Hahaha!"

The evil spirit powerhouses began to mock and curse bakar.

Ye chen looked at the people in front of him with a cold gaze. After all, he was now bakar's younger brother. He had to take action in this matter.

"You idiots, do you know what you're doing?"

Ye chen flew to the path that the group was about to take. He looked at them coldly, his killing intent soaring.

"Tsk, you really think you're something. I'm giving you face."

"Although you brothers are emissaries, you're the lowest level of emissaries. You're just trash who reports on the battlefield, and you want to be arrogant in front of us?"

"You'd better kneel down and apologize to me, or I'll kill you without mercy!"

Those experts were all peak loose Immortals. It could be seen that some of them were close to the true immortal realm. Therefore, they were very disdainful of the Ka BA brothers.

However, they had found the wrong target to vent their anger on.

No matter what his identity was, the only consequence for provoking the celestial Thearch was death!

"That's right. Kneel down and apologize to me immediately. Otherwise, I'll kill you without mercy!"

The same words returned to them in an instant. The powerhouses' faces were filled with murderous intent. At the same time, they locked their brows on ye chen. It was clear that they were completely enraged.

"Don't fight! Ka BA, come back!"

"Get lost, bastard!"

Seeing that bakar was about to step forward to stop him, one of the powerhouses immediately kicked him away!

[Chapter 2054 One Sword To Break Ten Souls!](#)

"You're looking for death!"

That powerhouse coldly stared at ye chen. It was obvious that he had the intention to kill. After all, the status of the Ka BA brothers in this place was relatively low. They were not much lower than the slaves and low-level Warriors. Therefore, as long as they were a warrior, they could order them around.

And now, this expert was paying attention to this point. When he saw ka BA walking out of the elder Palace, he was a little jealous, so he wanted to take revenge.

"Ka BA!"

Bacca wanted to stop ye chen, but how could that be possible? what kind of person was ye chen? how could he endure such a group of ants?

"Ha ha ha, ka BA, it seems that your little brother doesn't understand the cruelty of war. Let's give him a lesson and let him understand that in this place, you two are just two dogs. Ha ha ha!"

"You're right. Two dogs trying to get close to elder Shangguan? what a joke!"

"Kill them!"

Many experts laughed out loud. Their words were harsh and murderous. They just wanted the Ka BA brothers to kneel down and admit their mistakes.

"I'll give you a chance to live. Kneel down and admit your mistakes immediately. Kowtow 10000 times and I'll give you a chance to make a contribution!"

"An ant trying to live, you actually dare to defy the heavens!"

Ye Chen's eyes emitted a cold light. In an instant, a powerful energy swept through the entire scene. One look was enough to kill.

"Swish!"

With a slicing sound, the sword Qi pierced through the throat of the expert who had been shouting the loudest, freezing him in place.

"What's going on?!"

The other experts didn't know what had happened to that expert, and they all wanted to wake him up.

But it was useless. The master just stood there stiffly without any response. Many evil spirits found something wrong and went up to check.

One of the evil spirit powerhouses patted the face of the frozen powerhouse with his hand.

"Gululu!"

Then, with a crisp sound, a round object fell to the ground. Everyone looked over and saw that it was the head of that expert.

"Ah?"

Everyone trembled in fear and looked at ye chen. However, they did not think that ye chen could have done it. He did not have the ability.

The Ka BA brothers' cultivation base was definitely not up to standard here. Therefore, they could only do the work of collecting information, which was why they were looked down upon by these people. Now, if they said that ye chen had killed that powerhouse without anyone noticing, who would believe it?

Bacca also didn't believe it. He quickly came to ka BA's side and whispered, "I don't know how this person died, let's go!"

"Leave? Big brother, aren't you being too submissive?"

"Ka BA, don't try to be brave. Us two brothers can survive here. We can't make any enemies!"

"Hahaha, make enemies? Do you think this group of ants is worthy of being my enemy? What a joke!"

Ye chen walked forward, completely ignoring bakar's obstruction.

"A!"

Bacca had no choice but to pray that ka BA would be fine.

At this time, the other powerhouses had their eyes on ye chen. They did not know how the previous person had died but they thought that ye chen had angered some kind of curse.

"Ka BA, you actually cursed him to death!"

"Hahaha, you want to frame me, right? forget it, you idiots can't find a good reason. Why don't I tell you that I'm the one who killed this man!"

"You killed him? Hahaha!"

The crowd laughed again, and they all revealed looks of disdain.

"Ka BA, it's not that we are looking down on you. Even if there are one hundred of you, you are not his opponent!"

"That's right. However, since this person died in front of you, you have to be responsible. Therefore, you have to pay with your life!"

"A bunch of idiots. Since you want to understand, I'll show you in slow motion!"

Ye chen slowly raised his sword-like fingers and pointed them at one of the powerhouses.

"Hahaha, what is this kid trying to do? does he think he can kill me with just a few fingers? Hahaha!"

Everyone laughed and looked at the two of them.

"Boom boom boom!"

Suddenly, heaven and earth trembled. The sun lost its light, and everything turned dark and chaotic!

"What's going on?"

While everyone was still in shock, they saw that ye Chen's sword fingers had already begun to emit a dense dark energy, and the sword Qi was soaring.

"This, this!"

At this moment, they finally felt ye Chen's strong foundation because this sword Qi would not lie. The power of this sword Qi could even be released by a peak itinerant immortal.

"Impossible!"

Many powerhouses were in disbelief, including Bacca. He was shocked to see how strong his brother was.

"Ka BA, who are you ..."

"Big brother, don't say anything. If these pieces of trash want to die, then we'll deal with them together!"

Ye chen looked at the dozens of powerhouses and sneered.

Those people were now stunned. They released their own power one after another, wanting to rely on their collective strength to fight against ye chen. However, it was all in vain. Ye Chen's sword energy soared into the sky, shocking even ghosts and gods. The Demon's Eye between his brows flickered and a soaring power suddenly descended.

"Boom boom boom!"

The huge sword shape was like the pillar of heaven and earth. It descended with a loud bang and no one could stop it.

Then, the huge sword Qi crushed everything in its path and killed the dozens of itinerant Immortals.

Such a huge earthquake attracted countless experts' attention. They saw that ka BA had killed so many powerful individual Immortals with his own strength. This made them discuss with each other, but they didn't know what had happened.

At that moment, a person stood on the lighthouse of the elder Hall. It was elder Shangguan.

"Ha, this kid is indeed extraordinary. It seems that he has hidden his strength well. To have such strength, he is indeed a genius among us evil spirits!"

After saying that, his figure disappeared.

On the square, those who had looked down on the Ka BA brothers before now showed respect, especially for ye chen. Many powerhouses would be scared to the point of their legs going weak when they saw his eyes. He had killed dozens of itinerant immortal powerhouses with one sword. What kind of strength was this? it was not an exaggeration to become an evil spirit emissary or even an elder.

"Ka BA is invincible! Ka BA is awesome!"

"Yes, yes, brother ka BA is our role model!"

The people who had followed those experts and ridiculed ka BA and his brother now clamored, as they didn't want ka BA to target them.

Ye chen was naturally not interested in these pieces of trash as long as they did not block his way.

"Big brother, let's go!"

"Good, good!"

Bacca was dumbfounded. Since when did his brother become so strong? It was completely beyond his imagination.

"Stop!"

Just as Ye Chen was about to leave with Bacca, a cold voice rang out.

"Not good!" Bacca's heart trembled as he could hear that the cold shout came from one of the six commanders of the Army's frontline, Demon Slayer!

Ye Chen stopped in his tracks and looked to his side.

At this moment, a tall man carrying a huge broadsword walked up.

"Good, good, it's Lord Demon Slayer. With him here, we're not afraid."

"Kill this brat and take revenge for the Army!"

Countless mocking voices rang out again, targeting Ye Chen.

Thump, thump, thump!

With every step he took, the earth trembled and the power of Demon Slayer swept across the entire area!

[Chapter 2055 2060-Unstoppable!](#)

"You killed my Army's people and want to just walk away? Hehe, is that even possible?"

Demon Slayer's voice was rough, as if the word "frustration" had been ground out. It was very rough, but every sentence carried a powerful might, and his voice could make people tremble.

"Ha, a Lion killing a few ants has caused you, the head of the ants, to feel uncomfortable? Do you want to be like them?"

Ye Chen turned around and sneered as he responded strongly.

"Ah?"

Everyone present was shocked. The man before them was one of the ten great commanders, the demon Slayer. He was a half-step true immortal and was fundamentally different from ordinary bodiless Celestials. Such a person could easily kill hundreds or thousands of bodiless Celestials, yet Ye Chen dared to speak to him in such a manner. Who could have imagined such a scene?

It was not just the crowd who had not expected this. The demon Slayer did not expect this either. He looked at Ye Chen coldly, trying to see what was so different about this person that he dared to speak to him in such a manner.

"Ka BA, don't talk nonsense. Apologize now!"

Bacca came over and pulled ye chen, wanting to apologize to the demon Slayer.

"Hahaha, big brother, you've been a slave for too long, don't you know how to behave?"

"Ah?"

Baka froze on the spot. He didn't understand what was wrong with him today.

"Get lost, leave everything to me!"

Ye chen lightly slapped and bakar's body flew to the side uncontrollably. He could not resist at all.

"Do you know who I am?" Demon Slayer asked.

"I know that you're just a weak chicken!"

"Hahaha!"

The demon Slayer laughed loudly. He had never thought that he, a dignified Demon Slayer, would actually be called a weakling by a Mahayana realm "trash." If he did not give an explanation today, he would not be able to stay in the Army.

"Very good. To have such courage, I hope that you will have the same courage when you die."

"Yes, I'll give you the same words!"

Ye chen smiled coldly. He looked at the powerful enemy before him and did not care at all.

"Demonic execution, Kongtong seven kills!"

The power of the demon Slayer soared and the entire sky turned dark. Usually, the demon Slayer would not use such an aura. However, today, his face had been completely angered by ye chen. Only by launching the strongest attack and developing the strongest aura could he regain his face.

Otherwise, he would become the laughing stock of the evil spirit Army.

"I didn't expect that a mere Mahayana realm cultivator could make the demon Slayer master use such an ultimate move. Demon Slayer seven kills, this is the famous ultimate skill of the demon Slayer master. No one can resist it!"

"That's right. With this move, even peak individual Immortals have to bow their heads, let alone a Mahayana realm cultivator!"

"Master Demon Slayer is really angry this time. It's a blessing for this kid to die under this move."

Many evil spirits looked up at the sky and admired the powerful aura of the demon Slayer. The power of darkness that filled the sky was like a prehistoric beast that devoured the sun and moon, killing everything.

"Boom boom boom!"

The demon Slayer guided the waves of destructive power, which descended from the sky like a tornado.

"How is it? are you satisfied to die under such an imposing aura?"

"Ha, it has form but no substance. Useless move!"

Ye chen sneered. In ye Chen's eyes, such an imposing aura was a useless move in name only!

"Hahaha, you're really tight-lipped, but I hope you still have the strength to speak after a while!"

"Come on!"

Ye chen stood alone with his hands behind his back. There was no difference between facing the demon Slayer and the Army Warriors. It was precisely because these people had been equally sad before him.

"Zi Zi Zi!"

Behind him, ye Chen's sword fingers were raised slightly. Waves of pure mental energy slowly gathered on the sword fingers.

"Ah!"

The demon Slayer roared and the sword Qi took shape. A huge Dark Sword shape turned into a fierce tiger. It charged down and swallowed ye chen.

"The evil celestial Thearch looks down on the human sword revolution!"

"Swish!"

A beam of light flashed across the battlefield. No one could see clearly what it was. They only saw that wherever the light passed, everything disappeared!

"Boom boom boom!"

Then, the huge Dark Sword shape descended, and the battlefield instantly became chaotic. Everything turned into a bloody mist, and nothing could be seen.

Many powerhouses wanted to sense the information within. However, under the impact of the extreme energy, they did not have the ability to do so.

This battle immediately attracted the attention of many powerhouses, including many super powerhouses in the division's headquarters.

"Impossible. This man is only in the Mahayana realm. How can he be so powerful? did you see that sword just now?"

"The sword's path is treacherous, and it's so fast that even a peak itinerant immortal can't see it clearly. This person's strength is at least at the level of true immortal!"

"Since when did the evil spirit Army have such a genius?"

The three supreme commanders all looked toward the battlefield in shock.

The three leaders of the evil spirit Army, hei mo, were all at the true immortal level!

The battlefield was filled with smoke. Everyone was nervous and wanted to see the result. However, when the smoke dispersed, what everyone saw was the most terrifying result.

He was fighting alone with a head in his hand. He was like a ghost God that had descended to the world, shocking the heavens and earth.

"It's ka BA, it's really ka BA who won!"

"He actually killed one of the six great commanders, the demon slayers. He's too strong."

Everyone was seething with excitement. In the evil spirit land, the strong were respected. No matter what ka BA's identity and status was before, he was now the absolute strong man in everyone's heart.

Ye chen threw away the head as if he had thrown away a bag of trash. There was no change in his expression.

As the celestial Thearch, he had seen such a scene countless times. How could he be shaken?

Da, da, da!"

He walked off the stage but halfway through, an extremely powerful true immortal's might descended on his head. The pressure was so great that ye Chen's feet sank three feet into the ground.

Crack, crack, crack!

The ground shattered, and the air exploded. Everyone was shocked by this aura.

"It can't be, right? even the Super powerhouses of the headquarters are here?"

Someone shouted in disbelief.

At this moment, one of the three leaders, jabarren, had arrived on the battlefield.

"Kid, the headquarters is interested in you. Are you willing to come?"

"The headquarters? Ha, I can come, but not today!"

"Do you even have a choice?"

"No one can stop me wherever I go!"

"You're looking for death!"

Just as jabarron was about to make a move, ye chen suddenly raised his left hand high. In his hand was an Imperial token.

"What?"

Seeing the order, jabarren frowned slightly. It was the order issued by the great elder of evil spirit, Shangguan, and only his trusted aides could get it.

"This ..."

"What's this? do you know what this Imperial Order represents? get lost!"

"You!"

At that time, jabarren was about to explode, but he still held back. Because in this headquarters, the highest position was not the three heads, but elder Shangguan!

"Ha!"

Ye chen sneered and left the battlefield with Bacca.

[Chapter 2056 Human Experiments!](#)

Ye chen had made a name for himself in one battle. It was difficult for a person who dared to kill a Legion Commander on the spot and even embarrass the three leaders not to become famous.

"This person is too arrogant. He actually dares to speak to the three leaders like that!"

"So what? the human world is under elder Shangguan's command. Who would dare to provoke him?"

"No wonder he's so strong and fearless!"

Everyone looked at ye chen in amazement. He was indeed powerful to have such strength and be highly regarded by elder Shangguan.

After returning to his residence, Bacca had a whole new level of respect for ye chen. He had not expected his brother to be so strong.

"Ka BA, when did you become so strong?"

"I've always been very strong!"

"Impossible. I didn't realize you were this powerful before."

"That's because I was carrying out elder Shangguan's Secret order. Do you think it was a coincidence that he let me stay?"

"Ah? So that's how it is!"

Bakar made an expression of sudden realization. It was clear that ye chen had played with his intelligence.

After a while, someone came to ye Chen's place and arranged a place for him to stay. He had lived with Bacca before.

"Big brother, no one can bully you in the future. Remember, tell me my name!"

"Good, good!"

Bacca responded loudly.

Ye chen left with the emissary and returned to his own residence. This was a quiet place. It was like a villa in the entire headquarters. It was clear that ye Chen's status was now very high.

In the headquarters, jobarran came back in a Huff.

"Hahaha, you didn't expect this, did you? Qiao Barran, you'll fall at the hands of this kid!"

"You're about to become a true immortal. You've lost a great deal of face this time. "

The other two chieftains, faith and barrenck, chuckled.

"You two bastards, pay attention!"

Jabarren was in a fit of anger and shouted at the two of them.

"Where did this person come from? why didn't I notice him before?"

"Ha, this is elder Shangguan's man. How could you notice him? If it wasn't for the demon Slayer, no one would have known that he was so powerful. "

"Forget it. Since he's one of elder Shangguan's men, we have no right to question him. However, we still have to pay attention to him. I have a feeling that he's not ordinary."

The three leaders discussed among themselves. In the end, they were still wary of ye chen.

After that, the three of them each opened a bottle of wine.

"The higher-ups have given US orders to quickly take down the nether prison road!"

Faith's expression became serious as he said.

"Well ... The strongest force on the nether prison road is still nether prison. But if we want to take down nether prison, we must take down the sky cloud sect. It is just a pawn of nether prison."

"Hehehe, the sky cloud martial school is just a small martial school. I don't think we should waste any time!"

"Alright, we'll set out in three days!"

"Should I inform elder Shangguan?"

"Hmph, this is a direct order from our Army Headquarters. Do we need to inform him?"

The three of them looked at each other and sneered.

In his residence, ye chen observed his surroundings and sensed a large amount of dark energy.

"Why is there so much evil energy in this place?"

As he walked, he felt a strong surge of energy under his feet. Ye chen could not help but be suspicious.

"Is there a problem underground?"

He could only come up with this answer!

Ye chen activated his Demon's Eye and instantly saw through the ground. He discovered that there was a huge underground base below.

"This ..."

Upon closer inspection, he discovered that there were many humans and netherworld race people imprisoned in these underground bases.

They were all fixed in a huge crystal container, and the surrounding evil energy was permeating, constantly eroding their body and mind. Many of them were unable to resist such erosion, and their eyes actually changed shape, as if they were under some kind of control.

"This is a human experiment!"

This was a big secret. He did not expect ye chen to be brought to an independent residence above this laboratory. Although the laboratory was tens of kilometers away from the surface, ye Chen's Demon's Eye was too powerful and he could see it clearly at a glance.

"These bastards, how dare they conduct human experiments! I can't let you have your way!"

Ye chen knelt on one knee and touched the ground with his hand.

"Ah!"

With a cold shout, ye chen released the power of the darkness pool and quickly extended downward. Soon, this power had extended to the bottom.

Ye Chen's body transformed and merged into the darkness pool, seeping directly into the bottom layer.

Da, da, da!"

In the underground laboratory, many evil spirit Warriors were busy transporting all kinds of spiritual stones. The destination of these spiritual stones was a huge energy-gathering device.

Ye chen sneered as he watched the spirit stones being thrown into the energy-gathering device.

"So many pure spirit stones are being wasted by you. Why don't you let me do it?"

Ye chen flew into the room where the huge energy-gathering device was located and observed the device before him.

He discovered that this device was very effective in purifying energy. More importantly, there was too much super-strong energy gathered in the center. This energy was the core driving force for the entire experiment.

"Who is it?"

Suddenly, a group of evil spirit Warriors and experimenters rushed into the installation Hall and shouted at ye chen.

"The person who will kill you!"

Ye Chen's eyes narrowed. A cold glint flashed across his eyes and the evil spirit Warriors and experimenters were beheaded in the air!

"True spirit nine transformations: misty spiritual illusion!"

Countless amounts of spirit energy were released and surrounded the hall. Suddenly, everything before them was an illusion. The various evil spirit Warriors were still working inside and the people outside could not see anything unusual. In reality, all the evil spirit Warriors and the evil spirit experimenters had been killed by ye chen.

"Ah!"

Ye chen flew to the device in the air and released the spacetime Fury, madly absorbing the pure evil energy in the device.

"Zi Zi Zi!"

The endless evil energy was devoured by the Chi. Then, it was refined by the eight-gate divine disc and the ancient God Space, quickly becoming ye Chen's own powerful energy.

"Dark energy is really powerful!"

The pure dark energy in the device was completely absorbed by ye chen. He could feel his dark energy Foundation rising in an instant. The various energies in his body were clashing with each other. This was inevitable. The energy was enough to tear apart the body of a peak itinerant immortal. If not for the ancient God Space, ye chen would not have been able to resist it.

Zila, Zila, Zila!

Lightning of various colors appeared all over ye Chen's body. These lightning bolts were the symbols of various elemental energies.

"Ah!"

Ye chen activated the ancient God Power in his body and forcefully suppressed the various elemental energies to calm his body.

However, he had already deeply realized that his Foundation had exceeded the tolerance range of the heavenly Dao. If he did not undergo the Tribulation immediately, he would definitely suffer the backlash of the heavenly Dao!

"Let's go!"

After absorbing the dark energy, ye chen transformed into one of the evil spirit Warriors and walked out.

[Chapter 2057 God Of Destruction!](#)

After walking out of the installation Hall, he was stopped within ten steps.

"How's the energy-gathering device?"

A tall dark Warrior asked ye chen.

"Everything is normal. No problem!" Ye chen said with a smile.

"Mm ... Go to the experimentals 'side immediately to carry out the experiment!"

"Yes!"

Ye chen nodded slightly and quickly left, heading toward the real laboratory. That was also the main control Laboratory that he had seen through the Demon's Eye.

Walking into the underground experiment Hall, ye chen saw countless crystal coffins embedded into the mountain walls. There were various pipes connected to them that continuously supplied various liquids and dark energy.

Many of the coffins were filled with human cultivators, and many of them even had the seals of the sky cloud martial school and other martial institutions.

"Has the dark power device been activated?"

Seeing ye chen enter, one of the evil spirit experimenters walked over and asked.

"Ha, I'm afraid I won't be able to activate it for the rest of my life."

"What did you just say?"

The evil spirit experimenter was furious. Its power was actually suppressing ye chen.

"Eh? Ignorant ant, how dare you be so arrogant in front of me!"

"Swish!"

Ye Chen's eyes flashed, and the five tribulation bodiless immortal experimenter exploded.

After absorbing a large amount of evil energy and transforming into various forms, ye chen was already very familiar with the energy circulation in the evil spirit's body. As long as the other party was not on guard, killing these itinerant immortal evil spirits was as easy as turning over his hand.

"Who are you? how dare you kill an evil spirit experimenter!"

"Catch him! He's a spy!"

"Kill!"

After killing the experimenter, ye Chen's identity had been exposed but there was no need to hide it anymore.

"Zi Zi Zi!"

Ye chen immediately returned to his true form, holding the celestial Thearch sword in his hand, his divine might impressive.

"You evil beings! How dare you capture human cultivators for this experiment! You deserve to die!"

As the celestial Thearch sword was swung, a huge sword-shaped object in the air suddenly pressed down like a tower that reached the sky. Energy exploded in the space, and the roars of dragons and tigers resounded as rocks flew everywhere!

Boom, boom, boom!

The sword slashed down, and the space trembled and shattered. Countless experimenters died on the spot.

"Before the celestial Emperor, all things will be destroyed!"

The Demon's Eye reappeared between ye Chen's brows. The power of the origin of darkness behind him erupted wildly, fusing with the power of the snake heaven serpent and turning into countless venomous pythons that wreaked havoc in the surrounding environment.

"Roar!"

With the power of the darkness pool, the snake Empress transformed into an eight-headed heavenly snake, frantically releasing dark netherenergy.

"Zi Zi Zi!"

Wherever the netherworld energy went, not a blade of grass would grow, and everything would be destroyed.

"Ah!"

Countless evil spirit experimenters screamed in pain. They were the most elite researchers in nether prison's headquarters and were important assets to the evil spirits. Today, they had all died at ye Chen's hands.

"Hahaha, destroy them all!"

Ye chen wielded the celestial Thearch sword and slashed the universe without leaving a trace.

Boom, boom, boom!

The sword Qi whistled in all directions, and the roar of the heavenly snake destroyed the wilderness!

Tens of thousands of experimenters were all killed. Such a Grand light of annihilation instantly attracted the attention of the division's headquarters.

"My Lords, bad news! The underground laboratory has been destroyed by a human cultivator!"

"What? He's just a human cultivator! How is that possible?"

Jabarren roared repeatedly, but he didn't have the time to deal with the evil spirit Warrior in front of him. He flew towards the underground laboratory, as he was the main person in charge of this experiment.

"Whoosh, whoosh, Whoosh!"

His body moved in an instant, and jobarian was like a dragon crossing the river. His powerful might was unstoppable, and many of the surrounding evil spirit Warriors who didn't know the situation didn't have time to Dodge. They were crushed on the spot, blood dripping, and their bones and flesh separated!

At this moment, ye chen was like a god who had destroyed the entire laboratory.

Not only did it absorb all the dark energy, but all the experimental devices were also blown up by the eight-headed heavenly snake. At the same time, hundreds of itinerant immortal evil spirit elite guardians were directly killed by ye chen!

Zila, Zila, Zila!

At that moment, evil energy surged and anger burst out. A person descended from the sky.

"It's Sir Jobarran. That's great, that's great!"

"We're saved! Sir Jabarren is here! Kill this man!"

"All of you, retreat and wait for Milord!"

The remaining hundreds of evil spirit Warriors retreated one after another, giving Jabarren some space to descend.

Boom, boom, boom!

Crack, crack, crack!

The earth trembled and the void was torn apart. The entire environment fell into the strangulation of a violent power.

"You're the one who destroyed the entire laboratory?"

Jobarian asked Ye Chen with bloodshot eyes.

"Hahaha, that's me. What do you think?"

Ye Chen looked at Qiao Barran and sneered. This man had just been humiliated by him in the square above and now he had come down to court death. This time, he would give him a quick and painless death.

"Very good, very good. Today, I'm going to tear you apart and devour your heart, liver, and lungs!"

"Oh ... You're quite ambitious, but you won't have any chance before you die!"

The corners of Ye Chen's lips curled up slightly as he slowly raised the celestial Thearch sword in his hand.

"Kill!"

Chibarun was furious. Without any hesitation, he charged at Ye Chen madly. Only evil energy surged in the world.

"Slash!"

Ye Chen did not hold back. With a slash, all the dark energy was instantly shattered.

Buzz, buzz, buzz!"

The forces of the two sides continued to clash in the void. Each impact created a shock wave that could kill an itinerant immortal. With such power, the evil spirit Warriors did not dare to approach and retreated one after another.

"Die!"

Jabarren released his domain, and a huge dark power tree appeared behind him!

Crack, crack, crack!

The tree kept stirring its trunk. Then, countless branches grew out like giant hands and rushed toward ye chen.

The entire space was surrounded by the evil tree, and many of the dark energy Warriors did not even have time to retreat. As long as they were under the control of the evil tree, they were all turned into a bloody mist, becoming the nutrients of the evil tree.

"Hahaha, bastard, you can't escape from my barrier of the evil tree. You're dead."

"Oh, really? Who gave you the confidence to stop me with such a useless move?"

Ye Chen's eyes flashed with dark lightning again, and the celestial Thearch sword in his hand darkened at the same time.

"The evil celestial Thearch is surging with darkness!"

Holding the sword with both hands, he stirred the wind and clouds in the sky. Suddenly, darkness descended and devoured everything.

The huge scene turned into a shocking beast's mouth, which rushed toward the huge evil tree.

"What? that's impossible!"

Seeing such a move, jabarren's heart trembled. Could it be that the other party wanted to devour his evil tree? that was impossible. He was very sure that no one could do it.

"Swish!"

The huge dark light turned into a dragon's mouth and rushed towards the evil tree. Gradually, the dragon's mouth became larger and larger, like a sky cover, drowning the entire evil tree.

"This, this, this!"

The evil tree was jabarren's strongest barrier, it was his everything. Once the evil tree was taken away, he would become a complete waste!

"Don't even think about it!"

Jabarron roared in anger. Sharp claws grew out of his hands and he charged toward ye chen!

[Chapter 2058 Foundation Erupts!](#)

"A cornered dog will jump over the wall, hahaha!"

Ye chen laughed out loud. The origin of darkness behind him turned into countless crazy devouring beasts and pressed down on jobarian.

"Ah?"

Jabarren paled in shock, the anger and madness from before completely disappearing, because he could feel the powerful underworld God's power from those swallowing beasts. If one were to say who the evil spirits feared the most on this continent, it would definitely be the underworld God's temple!

"Roar!"

The three devouring monsters turned into three clouds of black smoke, madly charging towards chobarran.

"No, no!"

Chibarun's heart was filled with fear and helplessness. He had even forgotten that he was a true immortal realm cultivator!

Genuine Immortals were existences who had comprehended the ultimate rules of immortal spells between heaven and earth. Although they lived on the ground, they were qualified to ascend. However, in order to avoid the unpredictable major heavenly tribulations, they often did not dare to ascend easily.

The underworld realm was a very special existence. It existed between the earth realm and the heaven realm. True immortals could move freely here without any restrictions.

Therefore, many true immortals were hiding in the intermediate realms such as the underworld realm, the immortal realm, and the magic martial realm.

Very few people knew of their existence!

However, as long as one entered these intermediate realms, one would discover that these super powerhouses were not as mysterious as one imagined!

"Roar!"

The devouring monster instantly bit onto jabarren's arms and began to madly devour the energy.

At the same time, the swallowing monster in the middle was staring at jabarren's head, continuously releasing dark energy, as if it was very excited.

"Ah!"

Qiao Barran gradually calmed down. With a roar, the power of the immortal spell in his body burst forth, turning into dark energy as he charged towards the devouring monster.

"Boom boom boom!"

With a shocking explosion, Qiao Barran's powerful might instantly destroyed the swallowing monster.

The other two devouring monsters were also sent flying, returning to the darkness pool's body and fusing!

"Hmph, I'm a genuine true immortal cultivator. I was almost fooled by you!"

Jabarron snorted coldly as if he wanted to get back at ye chen. He had been in a sorry state before this. This was the result of his weak martial will. Although he was at the true immortal realm, his martial will was far from matching the true immortal realm. Therefore, when he faced ye Chen's pressure of the nether God force, he revealed his truth.

"Jobarian, I'll kill you like a dog. Your dignity is worthless!"

"You're stubborn, aren't you? I'm going to kill you today!"

There were evil spirit powerhouses all around him. If jabarlen continued to be suppressed by ye chen in this battle, his reputation would be completely destroyed. He wanted to get back at ye chen, regain his true immortal aura, and then crush ye chen. This was the only way he could regain his confidence.

Faith and barrenck had also arrived at the construction site. They weren't in a hurry to make a move, because they knew that chalvos wouldn't want them to make a move.

"I didn't expect that chobarn would be suppressed by a human brat to such an extent. How strange!"

Faith said with a smile.

Baronk did not laugh. He stared coldly at ye chen. Previously, the violent energy of the darkness origin that ye chen had released was very powerful. The underworld God energy contained in it meant that ye chen must be inextricably linked to the underworld God. This boy had a big secret.

"We must take down this person!" Baronk said.

"Barrenck, what do you mean? are you trying to make the enraged jabarren spare this brat's life? how is that possible?"

"This isn't something he can decide. Didn't you sense the underworld God Power just now?"

"So what? we are deep in nether prison, so we should prepare for the battle in the future. In the end, the nether God Hall is our ultimate enemy."

"That's why we have to keep this person. Only by studying the information on his power can we better understand the dark god clan!"

"Oh, I understand."

Faith nodded slightly. As expected, as the symbol of wisdom among the three leaders, barrenck's thinking was more meticulous. If ye chen really had information about the god of the underworld, then keeping him alive was undoubtedly the best choice.

"However, I don't think this brat will be killed so easily. Let's see how long he can struggle. What do you think?"

"Mm ... I can take a look, but I definitely can't let jobarian kill him!"

"Don't worry, barrenck. With me around, this person won't die!"

Faith revealed an amused smile. He wanted to see what kind of potential ye chen could unleash under jobarian's life-and-death suppression. Faith had always been very interested in potential, so he was the one who came to the underground experimental Hall the most.

p On the battlefield below, in his rage, jabarun released the rules of immortal spells from his entire body and fused them with his own evil spirit power. His aura had already greatly increased.

"Hahaha, before becoming a true immortal, a person in the Mahayana realm is like an ant!"

"Mahayana stage? Hehehe, do you really think I'm still that Mahayana stage person?"

Suddenly, ye Chen's lips curled into a cold smile. Then, muffled Thunder rumbled in the sky. The might of the heavenly Dao was boundless.

"What?"

Seeing such a scene, jobarran frowned slightly. He could sense that this definitely wasn't man-made lightning, but rather divine Thunder of the heavenly Dao. Could it be that this person was going to directly release the power of the heavenly Tribulation here and rely on it to deal with him?

"Hahaha, you think you can scare me off by relying on the Ascension lightning?" chibarun sneered. You're too naïve, ye chen. This method can only scare away those with lower cultivation. Perhaps in your world, it can scare away those in the great circle of the Mahayana stage or even the top individual Immortals because they don't dare to let these divine lightning find their location. However, I, a true immortal cultivator, will never be afraid of these useless lightning. "

"Oh, really? Very well, then please come with me and have a taste of this divine lightning!"

Ye chen made up his mind and completely released his Foundation. In an instant, the entire space was filled with all kinds of energy. The energy cluster in ye Chen's body exploded.

"This, how is this possible!"

In the blink of an eye, jabarren felt that his body was filled with several types of attribute energies. How could he believe that a person's body actually had so many attribute energies?

An average person, even a genius cultivator, could store two types of elemental energy in their body. Three types were the limit of the limit and could be called a genius among geniuses. However, ye Chen's power had exceeded three types!

"How can you make so much power flow in your body? you can't maintain your own stability!"

"That's your knowledge. My body isn't something you can imagine!"

[Chapter 2059 The Hunter And The Prey!](#)

Zila, Zila, Zila!

In the sky, the heavenly Dao divine Thunder rumbled and pierced through the entire mountain, reaching the nine Lands below.

In an instant, unstable cracks appeared on the peaks of the Great Hall formation, making jabarren feel threatened.

There was a large amount of dark energy stored in the mountain. After tens of thousands of experiments, it was found that once the space here was disturbed by an extreme external force, it would instantly enter a state of chaos, or even collapse on the spot!

"Jabarren, what are you waiting for? subdue this bastard immediately!"

Faith shouted from the peak.

"Eh? You shut up!"

Hearing Faith's words, Jabarren thought that this was an insult to him and was instantly furious.

"Hmph, this person is related to the power of the underworld God. I don't want to say too much. Subdue him immediately!"

"Jabarren, Faith is right. You don't have much time left."

The two leaders Faith and Barrenko both put pressure on Jabarren, which made the latter very unhappy. As one of the three leaders, he felt that he was being isolated by the other two.

However, if Ye Chen was really related to the god of the underworld, it would be a great achievement to take him down. At that time, he, Jobarian, would naturally stand tall!

He turned to Ye Chen and said, "hahaha, I didn't expect a human cultivator to be related to the god of the underworld. You've really made me look at you in a new light. However, this will only make your death worse. The god of the underworld is a target that our evil spirit clan must eliminate!"

"A puny ant dares to stand shoulder to shoulder with a God? Qiao Barran, cherish the few minutes you have left!"

Suddenly, a strange smile appeared at the corner of Ye Chen's mouth. It was like the smile of the Grim Reaper, causing Jobarian's heart to tremble. However, he quickly calmed down. He was a true immortal cultivator, an existence that countless powerhouses looked up to. With such a cultivation base, he was a god-like existence in the human world. Therefore, the person in front of him should be kneeling and worshipping Him. He even dared to mock him like this. This was inconceivable and unforgivable.

"You dare to call yourself a God in my evil spirit land? Ye Chen, die!"

Anger rose in Jabarren's heart, and he was filled with evil!

His anger had reached its peak. Suddenly, the power of the evil tree erupted again, trying to devour Ye Chen. However, he had forgotten how he had failed before!

"Good!"

Ye Chen laughed coldly in his heart. He had been waiting for this opportunity for a long time, waiting for the moment when the Jabarren evil tree completely erupted.

"The source of darkness looks down on all things to devour!"

"Zi Zi Zi!"

Behind Ye Chen, the power of the darkness pool rose again. Countless dark matter spread throughout the entire space. Countless mountain walls, the ground, and even the cracks in the rocks were filled with dark matter.

"Roar!"

Immediately after, the dark matter turned into a huge mouth of darkness that covered the sky and destroyed the earth!

Buzz, buzz, buzz!"

The flow of the dark matter became faster and faster, and his physique became bigger and bigger, gradually exceeding the control of jabarren.

"This, this!"

The fear of being dominated once again appeared in jabarren's mind. At the same time, this situation made faith and barrenck, who were on the mountain peak, unable to sit still.

The two leaders looked at each other. They knew that if they did not restrict the flow of ye Chen's dark matter, the entire underground experimental Hall would fall into the devouring network of the origin of darkness. At that time, not only chalvos, but the entire darkspirit headquarters would be implicated. This was because ye Chen's dark matter had an infinite devouring ability, like a prehistoric beast that would never be full!

"Attack!"

The two of them flew toward ye chen.

"Ha, the three of you, go!"

Facing the three leaders, ye chen sneered. He was not afraid of the celestial Emperor's might.

Such a situation made countless evil spirit powerhouses feel fear, anger, confusion, and all kinds of other emotions.

They had never seen such a scene before. The dark matter was like a constantly replicating virus, and the evil spirits, the various devices, and the various spaces had all become the "bacteria" that the virus wanted to devour.

They were all high and mighty powerhouses. Who would have thought that one day, they would become such insignificant life forms as "bacteria"?

"I don't believe that the three leaders can't subdue this guy!"

"That's right. The three leaders are all super experts at the realm of true immortality. Their strength is far beyond this kid's ability to deal with!"

"We evil spirits are the strongest!"

Under the powerful suppression of ye Chen's dark matter, the evil spirits had already lost their minds. They only wanted to use a mental victory technique to make up for the suppressed damage to their minds. This already showed the characteristics of a weak life. This was the powerful suppression of the power of the underworld. Even those so-called strong people had to bow down!

Buzz, buzz, buzz!"

The dark matter extended infinitely, and the speed of the collision was extremely fast. In the blink of an eye, the entire underground experimental Hall had fallen.

"What are you guys doing here?"

Seeing fies and barrenck take action, jabarun was obviously very dissatisfied. He was a true immortal realm cultivator, yet he needed the help of the other two leaders to deal with a person at the Mahayana realm. Was there still a need for him to continue being the commander?

"Don't talk nonsense. This person's strength is far above his cultivation realm. Can't you see that he wants to devour the entire evil spirit land?"

"Jabarron, now's not the time to argue. We're only doing this for safety reasons. The dark matter this person released is the rumored darkness pool. I heard that it's a mass of dark energy left behind by the god of the underworld and it has intelligence. I didn't expect it to be obtained by ye chen!"

"Hmph, I can handle it!"

"Is that so? if you could really deal with him, we wouldn't need to do anything."

Both faith and barrenche cast looks of disdain at jabarren, causing the latter's anger to become even more uncontrollable. He didn't care anymore, he would personally kill his opponent. Only then would he be able to wash away his humiliation.

"Evil tree fusion!"

It was a forbidden technique. Jabarron had actually fused with the evil tree and wanted to have an ultimate battle with the dark matter under ye Chen's control.

"Boom boom boom!"

Jabarren's body completely fused with the evil tree, and his huge face appeared on the trunk of the evil tree.

"Hahaha!"

His heavy laughter echoed throughout the space. Seeing jabarren in such a state, even the evil spirit powerhouses were shocked. They had never thought that jabarren would have such a forbidden technique.

"Ye chen, let the evil tree King end your life now!"

"Prey, Hunter, did you really see clearly?"

"I don't need to see clearly. I'll eat you and I'll be the winner!"

"You still can't see clearly!"

Just as Qiao Barran was about to open the tree's mouth to devour ye chen, he suddenly saw a massive shadow of a rapier on the ground. It was as if the entire world had collapsed.

"Not good, jabarren, get out of the way!"

"What?"

Seeing the exaggerated expressions on faith and barrenck's faces, he didn't know what had happened. However, a giant mouth that could swallow a mountain descended from the sky, and suddenly, he was plunged into endless darkness!

The Grand shadow of the eyes slowly engulfed him, and the latter could already feel the coldness that seeped deep into his soul. A prehistoric behemoth was standing behind him with its bloody mouth wide open. The scene he had imagined was still inevitable. His heart was still indescribable. Despair, pain, unwillingness, everything was brewing.

"Jabarren!"

Faith and barrenck were shocked. At this moment, the darkness pool evolved into unknown ultimate fear.

"Swish!"

The huge beast's mouth devoured the person under its feet, and the rapier shadow passed through, leaving no life behind!

Everything was over. Jabarren's figure had already disappeared. Then, the evil tree rapidly withered. Its energy had already been completely absorbed by the darkness pool.

The entire space was filled with dark matter. These Dark Matters were frantically absorbed by the walls and burrowed into the earth veins. In any case, as long as it was space, it would be occupied. This kind of greed and nature of devouring everything shocked everyone.

"A true immortal, a man who has comprehended the immortal magic of heaven and earth, has been swallowed!"

It was unknown who said this, but at this moment, everyone finally reacted. Their commander, one of the three leaders, jabarren, had completely disappeared.

After absorbing jabarren's energy, the darkness pool kept roaring, and its shape kept changing. All kinds of terrifying scenes made many evil spirit powerhouses present fall into a terrifying consciousness.

The power of darkness invaded their brains. Their legs went soft, and they knelt on the ground, then bowed.

"Darkness pool, accept our worship!"

Many loose Immortals even lost their consciousness. They were completely controlled by the dark power of the darkness pool and recognized him as a true Lord.

Ye chen was suspended above the darkness pool, receiving everyone's worship.

He was now the king of these people!

"All of you, get up!"

Faith roared angrily. As one of the three leaders, how could he watch his subordinate bow to a human?

"Don't be bewitched by this dark force. It's all fake!"

Barrens shouted at the same time. Everything had gone out of control. As the two highest-ranking commanders of the Army, they had gone crazy.

The erosion of the dark power not only made them lose their combat power, but also drove them crazy. No matter how strong one's Foundation was or how high one's cultivation base was, they would lose their calm thinking and behavior in such a frenzy.

"Only death awaits those who resist the celestial Thearch!"

The powerful and heavy voice of darkness made the worshippers even crazier. They kept kowtowing, and their faces were covered in blood.

After all, faith and barrenck were true immortal realm cultivators, and their martial will and mental energy were extremely strong. Their eyes emitted dark energy, triggering the dark energy formation buried deep in the earth veins of the headquarters. They forcibly captured the evil spirit powerhouses and threw them out of the underground experimental Hall.

"Ye chen, you B * stard! You want to bewitch my evil spirit clan? you deserve to die!"

"Don't think that your darkness pool is very strong. You are nothing before the dark energy formation!"

Jabarron's death had a huge impact on faith and barrenck. They did not care what ye Chen's cultivation base was. They wanted to join forces and crush their opponent.

The evil spirit powerhouses who had been thrown out of the underground experimental Hall gradually regained their consciousness. They looked at the scene in the experimental Hall from a distance with lingering fear.

"This ye chen is too dangerous. I've completely lost myself earlier!"

"Yeah, we're also individual Immortals. I didn't expect to be defeated by a person in the Mahayana realm. What's the origin of this person?"

"Even commander jobarlen wasn't his match. Our defeat is inevitable!"

Although they had escaped the control of the darkness pool, the fear they felt for ye chen had been buried deep in their hearts. It was like a brand that they could not forget.

Other than worshipping the evil god, only ye chen could make them so crazy.

Three thousand feet underground, ye chen was suspended high above the darkness pool. Countless dark matter continued to extend around him as if there was no limit!

Faith and Barrens looked at each other. They would not give ye chen a chance to devour them like jorran. They immediately activated their mystical powers.

With the support of the evil spirit formation in the earth vein, the power of the divine ability was reborn.

The two of them released the power of true immortals at the same time. This power was far above that of individual Immortals, and it was a power of a different nature!

Zila, Zila, Zila!

In the surrounding space, lightning flashed and everything was rapidly evolving.

Buzz, buzz, buzz!"

The extension of the dark matter was affected by the powerful dark energy and began to show signs of wretchedness.

"Faith, barrenck, you can only die for targeting me!"

"Hahaha, ye chen, do you really have the ability to call yourself an Emperor? We are not jabarren, we will not fall into your trap. We will use the evil energy formation to devour you, and turn you and the darkness pool into nourishment for the evil energy formation!"

"That's right, let me have a taste of being devoured!"

Barrenko gave the order. Instantly, the entire headquarters started to shake. Then, countless dark powers burst out from the ground. It was the dark energy formation, khaki.

"Boom boom boom!"

Crack, crack, crack!

Countless pieces of the ground crumbled, and a great amount of evil energy began to emerge from the earth vein, turning into giant pythons that covered the sky, winding toward the source of darkness.

The massive dark power formation began to take on its own form, which turned out to be a huge three-headed Python.

They were the symbols of the three leaders. However, now that jabarren had been exterminated, only faith and barrenck had ascended and stood on the two heads.

"Hahaha, ye chen, such a huge Python of evil energy. It must be more oppressive than your darkness pool, right?"

"In our eyes, you're still an ant-like existence. You're dreaming if you think you can fight us!"

The two of them activated the rules of the celestial spell, and their foundations exploded. Their dark energy was strengthened by the rules of the celestial spell, and its power increased crazily. Then, it fused with the dark energy formation and controlled the entire space!

"Roar!"

The three-headed Python roared madly and spat countless toxins at ye chen.

Buzz, buzz, buzz!"

The places that were washed by the poison, even hard rocks, would be rapidly corroded and turned into fine powder.

"Hahaha, you're dead!"

Seeing this scene, Barrens and faith revealed sinister smiles. As long as one was corroded by this poison, it didn't matter if one had a golden body or iron bones, they would still be destroyed.

Just as the two of them were feeling smug, suddenly, countless dark substances formed a dark wall three feet in front of ye chen, blocking the corrosive poison.

Buzz, buzz, buzz!"

The poison began to corrode the wall of darkness, and gradually, a hole actually appeared on the wall of darkness!

"Did you see that? nothing can stop the corrosion of the poison. Ye chen, you're done for."

The two of them continued to generate the three-headed Python's power. As the dark energy was instilled, the three-headed Python seemed to have no limit and madly spewed out poison. Ye chen was in an extremely dangerous situation!
