[Chapter 2181 The Heavenly Book Fragment!](#)

In this space, the surrounding spirit light bloomed and the space flowed with a natural fragrance. This fragrance made ye chen very pleased.

He walked towards the source of the fragrance and saw a huge Lake.

In the center of the lake, there was a huge mirror-like disc. On the disc, a woman in white was cultivating a sword technique.

The mirror flower, the moon in the water, the lake and the mountains!

The infinite sword Qi transformed into fish swimming in the water and birds flying in the sky. The profoundness of the operation of laws amazed ye chen.

"Such a sword technique can only be found in the heavens!"

Ye chen could not help but exclaim.

"Who is it?"

Suddenly, the woman's brows furrowed. She exhaled a sword Qi and directed it at ye chen.

"Ha!"

Although his opponent's swordsmanship was unparalleled, ye chen was not an ordinary person. With a move of his sword fingers, the celestial Thearch sword Qi shot out and collided with the sword Qi. In an instant, waves of sword Qi shock waves swept across the surface of the lake, causing ripples to appear on the clear surface of the lake.

Under the impact of such sword Qi, only a few ripples appeared. It could be seen that this Lake was definitely not an ordinary object.

"Heavenly Emperor ye chen, sorry for the disturbance!"

Ye chen broke through the sword energy and flew out. Since he had come to the host's house, he should act like a guest.

"Heavenly Emperor ye chen?"

When she heard this name, the woman's face actually revealed a shocked expression.

"Young lady, why are you so surprised? Do you think I'm bragging?"

"I just thought of a legend in the immortal spirit world."

"What legend?"

"Once upon a time, in the heaven realm above the nine Heavens, there was a Celestial Emperor who had cultivated to the level of the limitless great overarching golden celestial. He broke through the nine Heavens and was invincible. However, he suddenly disappeared without a trace!"

"Mm ..."

Hearing this, ye Chen's brows furrowed slightly. This legend seemed to be related to his encounter at that time.

"Then, I wonder if the legend described the reason why he disappeared in the end?"

"What a pity, what a pity! My master told me that the man went against the heavens and was suppressed by the ten celestial Kings of the heaven realm before being destroyed by the heavenly Thunder!"

"Hahaha!"

At this point, ye Chen's maniacal laughter shook the heavens. Waves of ancient God Power filled the land in all directions. The entire Lake trembled continuously as if an endless roar came from the depths of the earth. It was terrifying beyond compare.

"What?"

The woman's eyes turned cold. She released all her celestial energy to suppress the trembling sound and then looked at ye chen.

"You're really rude. You broke into my territory. You're just a little true immortal, but you're so arrogant. You deserve to die!"

The female immortal was furious. She flew up, and her sword energy soared to the nine Heavens. In the surrounding Lake, water vapor rose on its own and turned into sword energy. Together with the female immortal's profound sword technique, an exquisite sword formation was formed and locked onto ye Chen's body.

"So what if you're a true immortal? how can the wonders of the world be your territory? Today, I'll let you understand that there are still too many things you haven't seen!"

"Haha, you really dare to say that!"

The female immortal waved the spiritual sword in her hand, causing the lake to surge with boundless sword Qi.

"Whoosh, whoosh, Whoosh!"

Endless sword Qi rushed toward ye chen. Each sword Qi contained a powerful peak abstruse immortal law. Wherever it passed, not even a blade of grass would grow.

Even a peak true immortal would not be able to resist such sword power, let alone an early-stage true immortal. Death was the only outcome.

By releasing such sword might, it was clear that the other party was furious at ye Chen's rudeness and had already developed a murderous intent.

"Although the laws of Mystic Immortals are powerful, they are nothing in front of the Buddha's light sarira!"

Ye chen moved his fingers and guided the Buddha's light sarira to rise. The light of the sarira covered the entire mirror surface of the lake. At this moment, the water vapor sword aura that rose from the lake was absorbed by the Buddha's light sarira.

"Zi Zi Zi!"

Under the powerful suction of Lingyun, the sword Qi released by the female immortal was also absorbed by the Buddhist light sarira.

Following that, energy burst forth and the projection of heavenly spirit Buddha appeared behind the Buddha's light sarira.

"Impossible!"

The female deity was shocked. Ye chen was merely a true immortal. How could he activate such a treasure that could absorb the exquisite sword formation she had released? she had thought about how ye chen would die but she did not expect that not only was ye chen fine, but he had even broken her sword formation.

Such a result put the female deity, who had the home ground advantage, in an awkward situation.

"So what if you're a Mystic immortal? wasn't this magical power easily broken by the true immortal you look down on?"

"Hmph, do you think you can be so arrogant just because you're using such a treasure? If I take out a single treasure, I'll let you die without a burial ground!"

"Oh? Then I'd like to see!"

Ye chen sneered. He wanted to see what kind of treasure this female immortal would take out.

"Zi Zi Zi!"

The female immortal's body emitted golden light as a Jade bamboo scroll appeared in her hand.

She activated her mental cultivation method, and the bamboo scroll emitted multiple rays of light. These rays of light quickly turned into characters that floated in the air.

Each character emitted a light, just like the Golden characters released by the gate of the heavenly Dao. They could judge the suffering of the world and the laws of the world!

"Ah!"

When ye chen saw these words, he felt a sharp pain in his head. He used his ancient divine power to suppress the pain.

"Hahaha, you don't even have the ability to read these heavenly book words. Let me tell you, this is only a fragment of the heavenly book's text. If you want to read it, you'll need to be at the peak of the mystic immortal realm. Anyone below this realm will have a splitting headache and the four symbols will be in chaos once they see these text. They might even die from their head exploding!"

Ye Chen's reaction was completely within the female deity's expectations. However, what she did not know was that ye Chen's headache was not simply because he had seen these words as a true immortal. Instead, it was because these words had triggered his deep memories.

"You're saying that this is only a fragment of the heavenly book? Where was it originally?"

"Ha, rather than calling it a fragment, it's more like a copy of some content made by an ancient expert using psionic power, but it's enough to make you completely sink! As for you wanting to see the original copy, you're really delusional!"

"Since that's the case, I'll take this fragment!"

"What? Hahaha, what a joke. You don't have such ability, trash!"

"What?"

Ye Chen's eyes turned cold and his anger rose.

Ye Chen looked up at the sky again. When he saw those words, he felt a sharp pain in his head. However, it was definitely not because of the damage caused by these words. It was because of a super divine artifact, the Suan ni heavenly book of Jade laws, that he had obtained in his previous life!

The heavenly book of Jade laws had played a key role in ye Chen's cultivation process of becoming a great principal golden immortal. If he had not seen these heavenly book words, he would not have obtained this piece of memory at all. Now that he had obtained this memory, it was necessary to find the heavenly book. The fragment of the heavenly book in front of him was the best clue.

"Little girl, I will let you know to respect your seniors!"

"What? Bastard, you deserve to die!"

When the female deity was addressed in such a manner by ye Chen, she was instantly enraged and filled with murderous intent!

[Chapter 2182 Defeating The Mystic Immortal, Snatching The Heavenly Book!](#)

"Cloud-gathering flying sword!"

Seeing that ye Chen was strong and unshakeable, the female immortal released her own treasures and attacked ye Chen with the heavenly book fragment.

"Whoosh, whoosh, Whoosh!"

Several flying swords flew out. All of them were top-grade Immortal Weapons. They were full of killing intent and were unstoppable.

In the face of such a powerful attack, ye Chen was not afraid at all. His attention was on the fragment of the heavenly book because the memory in his mind made him understand the importance of the fragment.

"[Starseizing hand]!"

Ye Chen circulated the ancient God Power in his body. With the addition of spiritual accumulation, the power of the ancient God Power increased greatly. The star plucking hand that was released with ancient God Power was completely different from before. This was a true divine ability!

Buzz, buzz, buzz!"

The [star plucking hand] swept up the wind and clouds, stirring the stars, and instantly caught several flying swords. Even a Supreme-grade immortal artifact could not escape from Ye Chen's hand. It was clear that the power of the [star plucking hand] was no less than that of an immortal artifact.

"Such a powerful spell. This person isn't using ordinary celestial spiritual energy. What's going on?"

As a peak Mystic immortal, she couldn't even take down a true immortal. This made the female immortal feel extremely humiliated. As a disciple of Reverend Wild Sword, she couldn't afford to lose face.

"Heavenly Book's mighty and disdainful seven stars of death!"

She chanted the incantation and activated the power of the fragment of the heavenly book. At the same time, she activated the ultimate killing move of the seven flying swords. In an instant, the space within a hundred miles was trapped in a boundless killing formation. In this space, the seven flying swords were like Yama demanding for one's life. Even a Mystic immortal would die on the spot if they were trapped in it, let alone a genuine immortal!

Using such an advantage, she believed that she would definitely win.

"Little girl, you're forcing yourself into a dead end!"

Seeing that the other party was determined to kill, Ye Chen smiled coldly and reminded him.

"Damn you, you sneaky brat from the lower realm. You should die here, no need to say anything!"

The female immortal's seven flying swords moved at the same time. They contained the power of the heavenly book fragment and were so powerful that they were more than enough to kill a Mystic immortal.

In the face of such power, Ye Chen would not be careless because he was determined to get the fragment of the heavenly book.

"Ancient God Power brilliant sword vortex!"

Using the ancient God Power in his hand and the celestial Thearch sword formation, Ye Chen's ancient God's eye bloomed between his brows and he activated his ancient God domain.

"Phew, phew, phew!"

The wings spread in the sky, and the ancient God's might penetrated the heavens and the earth. The vast ancient God Power condensed into a huge Celestial Emperor sword that stood a thousand feet in front of Ye Chen. Then, the ancient God Power stirred a boundless cyclone. The sword Qi burst forth, sending chaos into the sky. The powerful suction crushed everything.

"Whoosh, whoosh, Whoosh!"

The seven great flying swords locked onto ye Chen's body. However, when they passed through the celestial Thearch sword vortex, they still lost their ability to fly and were directly controlled by the sword vortex.

"What?"

Seeing this, the female immortal was dumbfounded. This was a sure-kill formation that she had built with the fragment of the heavenly book and the seven great Immortal Weapons. How could it fail?

When she saw that the seven flying swords had not only failed to kill ye chen but had even fallen into his hands, the female immortal's mind exploded.

"Impossible, impossible!"

She kept shouting and activating her abstruse immortal Foundation, trying to crush ye chen with force.

"Ha! Such a Foundation is nothing in my eyes!"

However, ye chen had absorbed the power of nine spiritual reserves. Although he was in the true immortal realm, his Foundation had long surpassed that of a peak abstruse immortal. Even if he were to face this person, he would be at ease.

"Buddha's light sarira ancient God explosion!"

After activating the power of the spiritual accumulation origin, ye Chen's Foundation was strengthened by dozens of times. Coupled with the might of the ancient God, he was even stronger!

"Dragon Fist!" He roared.

"Roar!"

With a Dragon's Roar, heaven and earth shook and the clouds exploded. A Dragon-shaped fist light instantly locked onto the female immortal's position and devoured her.

"Wild Sword Art's earth-destroying style!"

The female immortal knew that this attack was a life-and-death battle, so she forcibly used the most powerful divine ability of Daoist master crazily sword, the misty wild Sword Art, which she had yet to control. This was an attack that was gambling everything.

"Swish!"

The sword Qi filled the sky, and the wild sword brought chaos to the world.

"Roar!"

The Dragon's Roar shook the wilderness, and the ancient God broke through ten thousand miles!

The two powerful attacks bloomed the most beautiful flames in the sky, followed by a super strong shock wave that instantly destroyed the realm in front of him. The mirror-like Lake completely exploded, and the mirror platform in the lake was also destroyed!

"Roar!"

Everything continued to explode. A dragon roar shook the heavens and earth as the Dragon-shaped fist radiance broke through the power of the wild sword and instantly locked onto the female immortal's position.

The powerful Dragon Fist passed by, and the female immortal's body trembled rapidly. She completely lost control of her strength, and all her meridians were shattered, turning her into a cripple.

This was also because ye chen had held back. Otherwise, this person would have exploded and died.

"A fragment of the heavenly book!"

Ye chen used the star plucking hand again and grabbed the fragment of the heavenly book.

All kinds of heavenly book characters appeared on the fragment of the heavenly book, trying to resist ye chen's control.

"Ha, a replica. As expected, you don't recognize this Emperor anymore."

Ye chen laughed coldly. The [starseizing hand] captured it forcefully, not allowing it to disobey.

"Zi Zi Zi!"

In the end, the fragment of the heavenly book fell into ye Chen's hands. In an instant, all kinds of words from the heavenly book entered his mind. The impact of the strengthened consciousness made ye chen feel as if the heavenly book was right in front of him but it was not real.

"This is a replica. Let me study it and see where you achieved your self!"

Ye chen placed the fragment of the heavenly book into the ancient God Space and flew away.

At this moment, the female immortal was lying in a pool of blood. Her entire body was trembling like a child in the rain or a drenched chicken.

Da, da, da!"

With a series of footsteps, several experts arrived in front of the broken mirror platform.

"Senior Sister Xue Yu, what's wrong with you?"

"Who is so bold to treat you like this?"

"Who has the ability to do so?"

Many experts asked, but celestial maiden Xue Yu had already lost consciousness.

After leaving the mirror Wonderland, ye chen came to a place with an open view. He looked at the surroundings of the entire Wonderland and confirmed that this was the celestial Spirit world.

"The celestial spiritual energy in the celestial spiritual realm is indeed powerful. It's much more concentrated than the lower realm. Cultivating in such an environment will definitely be a rapid progress."

Ye chen muttered to himself.

He also knew that a female immortal like her must be extraordinary. With the fragment of the tomes of arcane in her hand, the person behind her was even more powerful. Now that the fragment was in his hands, ye chen did not want to stay any longer. After all, everyone was still cultivating in the sacrificial altar. He had to hurry back.

"Yin Yang wings!"

Ye chen opened his ancient God wings and flew down.

Inside the altar, everyone was still cultivating and absorbing the remaining spiritual energy. Ye Wushuang, the great ancestor, and other talented powerhouses had made another breakthrough and were already on the verge of a half-step true immortal.

Of course, it was not that easy to break through to true immortal. According to their talent, they would need the support of natural treasures. Ye chen, on the other hand, did not need to.

After passing through the floating cloud world, ye chen descended along the alternate space of the sacrificial altar. He soon discovered that the time and space of the floating cloud world were somewhat different from the one below. It was obvious that time passed faster below.

"Great emperor!"

Seeing ye Chen's return, everyone stood up to welcome him.

[Chapter 2183 2187-Daoist Crazblade!](#)

"Have you all made any progress?"

Ye chen asked.

Everyone smiled. Although their cultivation time was short, only a few days, they were much stronger than their previous hundreds of years of cultivation. This was the effect of spiritual accumulation.

Even a few talented cultivators like ye Wushuang had gained even more benefits. This time, the spiritual accumulation cultivation was like a thousand years of effort.

"Hahaha, great emperor, this cultivation experience is simply too awesome. I've never experienced it before. I don't know how much spiritual energy you've absorbed, but you're actually able to hold on. We've already reached our limit in absorbing this spiritual energy. If there's a greedy person, he'll definitely explode and die!"

The old ancestor laughed.

"You're right, patriarch. We haven't even absorbed one-ten-thousandth of the great Emperor's spiritual energy, but we've already reached our limit. The great Emperor's talent is too amazing!"

"Great emperor, did you discover anything from this trip to the upper realm?"

All the powerhouses stepped forward and asked. In their eyes, ye chen had been in the upper realm for dozens of days and they all wanted to know what he had experienced. Ye chen was a person with great fortune and must be different from the rest.

Ye chen nodded and stepped forward. "This trip to the floating cloud world was indeed amazing. Not only did I see a super powerful rogue cultivator, but I've also ascended to the celestial Spirit world!"

"Immortal spirit world?"

Hearing this, everyone was shocked.

The immortal spirit world was an existence above the spirit world. It was the place that immortal cultivators yearned for the most. Whoever could ascend to the immortal spirit world at the true immortal realm would be blessed with several lifetimes of cultivation. Everyone was surprised to see ye chen so relaxed.

"The immortal spirit world is on this altar?" The old ancestor asked.

"I guess so. Above the sacrificial altar is the floating cloud world, a strange space-time. It can be regarded as the transition space-time between the immortal spirit world and the sacrificial altar. When I entered the floating cloud world, I saw a super powerful rogue cultivator, an existence equivalent to the spiritual accumulation origin, heavenly spirit Buddha!"

"Ah? How powerful is that?"

An expert asked, his jaw dropping.

"This person's cultivation is unfathomable. I think he's probably already surpassed the heaven celestial realm, but he hasn't ascended yet!"

"A celestial immortal?"

Everyone was shocked again. Those who entered the celestial immortal realm were qualified to ascend to the heaven realm. According to the legends, the human sword God ao Jiuzhou ascended from the celestial immortal realm. Of course, this was only a qualification. Only the most talented people had the chance to succeed. Many more experts even had to advance to the Golden immortal realm to have a chance to succeed.

This was because the price of ascending to the heavenly realm was the 18 reincarnation Heavenly Tribulation formation. Not everyone could pass through this formation, and basically, less than one in a hundred could survive!

"After that, I entered a spacetime gap from the floating clouds world and ascended to the immortal spirit world, where I obtained this treasure!"

Ye chen threw it and the golden light in the air made everyone unable to open their eyes. Some powerhouses forced their eyes open and saw incomprehensible words. They were trapped on the spot.

"Hold your spirit and strengthen your mind. Otherwise, you will be trapped in the endless reincarnation of the heaven's destiny characters!"

"Ah?"

When they heard the words "heavenly book," the powerhouses were stunned. They had never heard of such a treasure. This was something that only existed in legends and myths. Ye chen had actually

brought it down from the immortal spirit world. How much luck and strength did he have to be able to do this?

At this moment, everyone's admiration for ye chen was beyond words.

Everyone followed ye Chen's instructions and held one hand in the other. When they opened their eyes slightly, they saw the fragment of the tomes of arcane.

Looking at the shining fragment of the heavenly book, everyone felt that their spirits had received some kind of baptism. The feeling was that their whole body was transparent, and their meridians were extremely smooth. However, the strange thing was that they themselves did not know what had happened to their bodies. It was like a gift.

Along with the power of spiritual accumulation that they had absorbed earlier and the effect of the heavenly book's words, everyone's strength rose once again.

"Boom boom boom!"

At this moment, the demonic energy soared into the sky and shook the wilderness.

Countless mountain rocks shattered and fell. The entire spirit accumulation Valley was in an endless shock. This was the sign of the arrival of the demonic Army.

"Everyone, this is an urgent matter. We must set off immediately!"

"Yes!"

Ye chen put away the fragment of the tomes of arcane and led the group away quickly.

At this moment, the sky was extremely dark, and the entire spirit accumulation Valley seemed to have fallen into a dark realm of demonic energy. This place had completely become the world of the demon race. This kind of barrier obviously suppressed everyone's martial arts, and many experts even showed various symptoms of physical discomfort.

In such an extreme environment, everyone could only trust ye chen.

"Ye chen!"

The powerful demonic sound swept over and directly charged into everyone's minds.

"Ah!"

Some powerhouses couldn't resist the brainwashing of the demonic sound and knelt on the ground in a daze.

"Concealment of spirit and Qi!"

Ye chen shouted and released his ancient God Power.

The powerful ancient God Power was even more overbearing than the demonic sound. In such an emergency situation, ye chen could only use this method to forcibly suppress the disturbance caused by the demonic sound.

The might of the ancient God overpowered the effect of the demonic sound. Everyone got up and followed ye chen again.

Ye chen used his spatial power to open up a passage. He wanted to go from the sacrificial altar to the yellow Springs.

However, the mana was rapidly interfering, and the power of space was greatly hindered.

"Darkness pool!"

In a moment of desperation, ye chen used his netherworld energy again. The origin of darkness transformed into a massive tree of darkness that grew endlessly. It wildly extended toward the surrounding mountain walls. Wherever the tree of darkness extended, mana was rendered useless.

"Let's go!"

Under ye Chen's creation, the tree of darkness 'branches turned into a flight of stairs that everyone quickly climbed up.

At this moment, demon master bi 'an had already sensed the presence of the dark energy. He knew it was ye chen.

"You want to escape? dream on!"

Demon master bi 'an released boundless demonic energy, which transformed into a giant sword of demonic energy. It slashed down at the tree of darkness.

"Boom boom boom!"

The Grand demonic sword instantly shattered the stairs, and many experts fell.

"Ah!"

They screamed in fear as they fell into the magical barrier.

"Let's go!"

Ye chen gave the order. No one dared to hesitate and sped away.

"Boom boom boom!"

At this moment, the sun suddenly shone brightly in the sky. Immortal energy circulated in the sky, and a grand space-time portal opened.

"This is ..."

Ye Chen's brows furrowed. He knew the power behind the gate of spacetime!

He released his ancient God Power, and everyone grew their wings. Their speed was unbelievably fast. Ye chen wanted to get everyone out of this dangerous place as soon as possible. Otherwise, they would be attacked from both sides and would die without a doubt.

"Where's Ye chen!"

A powerful thunderous sound shook the surroundings as a majestic figure descended!

"Ha, it seems you're Daoist crazblade!"

"You're ye chen?"

"That's me. How is it?"

"Hahaha!"

Daoist crazily sword's wild laughter shook the nine Heavens as his cold eyes locked onto the person in front of him.

"Hand over the fragment of the heavenly book, and then die!"

[Chapter 2184 True Fiend Vs. Celestial Immortal!](#)

"A fragment of the heavenly book?"

Demon master bi 'an was slightly moved by Reverend crazed sword's words. It must be a treasure for the experts of the immortal spirit world to come here to search for it.

"Hahaha, ye chen, I didn't expect you to steal a treasure from the immortal spirit realm. Why don't you hand it over to me and I'll kill this guy for you?"

Demon master bi an stepped forward and lured ye chen to obtain the treasure.

What kind of person was ye chen? he was only here to show off his insignificant skills.

"Ha, demon master bi an, if you can defeat this person, I'm willing to give you the fragment of the heavenly book!"

Since the other party wanted to play, ye chen naturally "smiled" in response.

"Really?"

"Of course!"

Ye chen laughed coldly in his heart. 'No way. This person really thinks I'll hand over the fragment of the tomes of arcane. Is this the brutal side of the demons?'

If demon master bi 'an was really up against adept crazily sword, ye chen would be greatly relieved. This was a good method.

"Hahaha, good. Three demon lords, keep an eye on ye chen. Let this Demon Lord meet this man from the immortal spirit realm."

"Yes, Lord Qianqian!"

The three demon Venerables surrounded ye chen, ready to attack at any time. It could be seen that demon master bi 'an was not stupid. He had a backup plan.

Ye chen did not move. How could these three pieces of trash watch him? what he wanted to see was the battle between demon master Wufu and adept frenzied sword.

"Whoosh!"

Demon master bi 'an flew into the air and locked his cold eyes on his opponent.

Since he wanted the people at the border realm to descend, they would be the biggest threat to the demon race. This was what demon master bi an was really thinking. Since they were all targets that must be eliminated, he would first get rid of the one he thought was the biggest threat.

"Oh ... You really want to stand up for this kid?" Daoist crazily sword asked.

"Hahaha, Daoist master crazily sword, no need to say so much. Immortals and demons can't exist together!"

"You're quite straightforward. Since that's the case, why should I give you face?"

At first, venerable crazed sword had wanted to target ye chen. However, after seeing the scene before him, he knew that the people of the magic martial world would never let go of their hatred for the immortal spirit world. In that case, the battle with demon master bi an was inevitable.

He also wanted to take care of the biggest enemy before him first, then slowly deal with ye chen.

Both of them thought that they had made the best choice but they did not know that they had fallen into ye Chen's trap.

"Berserk blade!"

With a furious roar, a long sword appeared in his hand. The sword Qi exuded boundless might, causing the surrounding space to tremble rapidly, as if they had felt the most violent shock. Countless devil soldiers and even many true immortal experts trembled in fear.

"What, What is this?"

"What is this person's strength? how can he unleash such power?"

"He's too powerful!"

The demons were frightened and retreated in fear. Venerable crazily sword demonstrated his might with one move.

"Hahaha!"

In the face of such power, demon master bi an laughed wildly. He waved his sharp claws, and demonic flames covered the world.

"Phew, phew, phew!"

Boundless demonic flames burst out crazily, surrounding a hundred miles around Daoist crazily sword and instantly transforming into a misty demonic world.

"Daoist master!"

Many experts from the immortal spirit world shouted.

"Don't get close, retreat!"

"Yes!"

They knew venerable crazily sword's character the best. He could only retreat.

At this moment, Daoist crazily sword held his sword and his immortal energy burst forth, automatically revolving around him and forming a protective barrier.

Buzz, buzz, buzz!"

The demonic flame and the sword Qi collided with each other.

"Kill!"

Daoist crazily sword flew out and charged at demon master bi 'an.

"Come on!"

The demon masters flew up at the same time, waving their sharp claws. The demonic flames around them were like wild pythons, crazily devouring them. As a result, Daoist crazily sword's sword style couldn't exert its full effect, and was devoured by the demonic flames.

In such a disadvantageous situation, Daoist crazily sword knew that this man had an extraordinary Foundation and powerful divine abilities.

"Ha, it's the power of a true devil!"

"To be able to see the source of this demon master's power, you're extraordinary!"

"Kill!"

The high-level swordsmanship that Daoist crazily sword had unleashed was close to the power of a celestial immortal.

The power of a celestial immortal erupted and instantly countered the power of a true demon. The two sides once again fell into a tug-of-war.

Seeing this, ye chen smiled. This was exactly what he had wanted to see. True demonic energy and celestial immortal energy were forms of energy that ordinary people could not hope to attain. Now, he had seen it all.

Ye chen secretly absorbed a portion of the true demonic energy and celestial immortal energy and integrated them into the ancient God Space for analysis.

Although it was extremely difficult to analyze such a power before he had reached such a realm, ye Chen's Foundation was a peak abstruse immortal. He also possessed heaven-defying powers like netherworld divine power and ancient divine power, so he was naturally different.

"Zi Zi Zi!"

In the ancient God Space, the two powers began to fight each other. Ye chen could only use his ancient God Power to suppress them and use his Demon Eye and ancient God's eye to analyze.

At the same time, on the battlefield, the battle between demon master Wufu and Reverend frenzied sword became more and more intense. This battle, to a large extent, represented the struggle between the immortal and demon worlds.

"Mm ..."

The battle progressed very quickly but time passed even faster. After two hours, ye chen had a basic understanding of the power of both sides. Ordinary energy analysis would not take so long but this kind of high-level energy form was completely different. It was too much of a burden on ye chen, who was a true immortal.

"Daoist master crazily sword, you're not at a disadvantage in the Xuanji demon world. Demon master bi 'an's control of the demonic flame had already reached the point of perfection.

Boom, boom, boom!

Under the battle of the two super experts, the entire spirit reservoir Valley was on the verge of collapse. The world was in chaos, and the earth veins were in turmoil. The power of this was earth-shaking.

"Retreat!"

The experts all retreated, not daring to stay in such a place.

Fortunately, the experts of the yellow spring Battle Manor had temporarily left this place under the leadership of the old ancestor and Wushuang. Otherwise, this demonic energy explosion would have clearly affected them.

In the world, the intensity of demon energy and immortal energy had reached the limit, and all kinds of different spaces had already appeared. This was very dangerous. If one was not careful, they would be affected by the power of these different spaces, and they would die.

Boom, boom, boom!

And such a different space kept appearing between the two of them.

"Ha, such a spectacular scene, I really didn't expect it!"

Said demon master bi an.

"Use your blood as a sacrifice for the end of this battle!"

Daoist crazily sword's eyebrows shot up in anger. The battle had already come to an end.

"Ah!"

With a long howl, the wild sword howled into the sky, and bursts of celestial immortal energy appeared.

"You actually gave up the right to ascend!"

"Ha, how is it?"

"Unfortunately, I'm also a true devil of the magic martial world. Do you think I'll lose to you?"

At the same time, demon master bi an released his true demon power, which covered the entire sky.

The strength of both sides had reached the limit, and this strike would determine the victory!

This was exactly what ye chen had been waiting for. Everyone's focus was on the battle between the two Supreme powerhouses. This was the best time for ye chen to make a move. At the same time, he had also locked onto the true demonic energy and celestial immortal energy of the two.

[Chapter 2185 The Sandpiper And Clam Fight!](#)

"Wild sword washing away the autumn rain!"

Like a god descending to the mortal world, Reverend crazysword ascended to the ninth heaven. His celestial immortal energy triggered the heavenly Thunder and thousands of swords. At this moment, a Grand guiding Dharma appeared behind him. It was the manifestation of the heavenly realm's guiding power after he had cultivated to the peak of celestial immortal.

To be able to produce such a Dharma, it was clear that the immortal crazily sword was an outstanding celestial immortal, a person who was truly qualified to ascend to the heavenly realm.

"Hahaha!"

Demon master lang wo laughed in anger and waved his claws at the same time. A heavenly demon statue appeared behind him. Suddenly, boundless demonic power swept across the world, and the power of destruction descended.

"Boom boom boom!"

Instantly, the heavens and the earth changed in everyone's eyes.

"Demonic Imperial resplendent heaven and earth raging flames!"

On the earth of heaven and earth, the demonic flame was growing and the true demon was moving. The shadow of the heavenly demon destroyed Jiuzhou!

At this moment, demon master Yan Yan released the purest and most powerful true demonic power he had cultivated. He absorbed the power of the entire Yan Yan demonic world and released a power that was beyond imagination.

The power of both sides turned into a demonic claw and a sword, attacking each other.

"Ah!"

Whether it was the demon soldiers of the magic martial realm or the celestial experts of the celestial realm, the magnificence of this battle had exceeded their imagination. This was the most powerful direct confrontation they had ever seen in their lives.

"Whoosh, whoosh, Whoosh!"

The sword Qi fought the nine Heavens!

"Phew, phew, phew!"

The demonic flames burned in all directions!

The ultimate attack was right in front of him.

"Boom boom boom!"

The entire scene was chaotic with everything falling in all directions. The entire space was in disorder. At this moment, ye chen suddenly burst out with his most powerful underworld power and instantly devoured the barrier in front of him. The three demon lords all came over. Ye chen had already controlled the power of Yin and yang and flew into the nine Heavens.

"Hahaha, demon master lang wo, Reverend wild sword, why don't you let me give you a judgment?"

"Roar!"

The heavenly Serpent Black Tortoise revealed itself and arrived again after devouring the dome. The heavenly Serpent Black Tortoise guarded ye Chen's true body while devouring the dome to absorb the true demon and celestial immortal's power.

"Phew, phew, phew!"

The entire space was spinning in ye Chen's direction, turning into a dark vortex that sank endlessly.

"Such powerful strength, cool!"

Ye Chen's voice resounded through the sky, shocking both demon master bi 'an and venerable frenzied sword.

The two of them looked up at the sky and saw that ye chen had forcibly absorbed the remnant power of the divine abilities they had released. They were shocked. With this kind of power, even a peak abstruse immortal would explode and die if they absorbed it, let alone a true immortal. They could not believe that ye chen had actually dared to do this.

"This kid is crazy!"

Daoist crazblade said.

"Ha, this man is a madman. I've thought it through."

Seeing ye Chen's actions, demon master bi 'an was already mentally prepared. After all, ye Chen's previous actions had already shocked him. This time, he was even more shocked.

"Since we can't determine a winner, why don't we capture this person together?" Demon master Yan Yan said.

"Hahaha, how can My Immortal spirit world ally with your demon race? What a joke!"

Daoist master crazily sword struck out with his heaven shaking sword again, charging straight at demon master lang wo.

"Hateful!"

The demon master didn't expect that Daoist crazily sword would still dare to use such a sword technique despite his heavy injuries. He was instantly enraged, and the heavenly demon's shadow appeared

behind him again. He sent out a palm strike, breaking the sword technique and capturing Daoist crazily sword.

"Go!"

The perfected being praised with a palm at the same time. The powerful celestial immortal energy triggered the movement of the Dharma form. The might of the heavenly Dao was so powerful that it instantly swept away the demonic barrier.

"Ah!"

Demon master bi an felt his internal breath stagnate and his demonic energy was blocked. He retreated ten meters.

At this moment, ye chen had already absorbed the powers of the two great powerhouses and gathered them in his body. They were carried through the ancient God Space.

"Ah!"

Following ye Chen's roar, the celestial immortal energy and true demonic energy in the surrounding space erupted again.

This time, everyone was shocked and fled for their lives.

Boom, boom, boom!

This attack was no less powerful than the battle between the two experts. It spread out in all directions, and both the demon race and the immortal race suffered heavy casualties.

"Let's go!"

As ye chen watched everyone panic, he spread his wings and soared into the nine Heavens.

As the battle had been too intense, the two super powerhouses were both severely injured. They could barely calm themselves and did not have the ability to pursue ye chen.

The three demon Venerables protected demon master bi an from the immortal world's surprise attack, while the immortals protected Daoist master ku Kuang Jian from the demon world's surprise attack.

This confrontation continued for a moment.

The two experts slightly recovered from their injuries and looked at each other.

"Ha, this battle was truly enjoyable. Daoist crazily sword, do you still want to continue?" Demon master Yan Yan asked with a smile.

"Hmph, demon master bi an, the devil martial realm's move will definitely trigger the immortal spirit realm's counterattack. This is the most unwise choice you've made."

After saying that, Reverend crazily sword released the sword boat. Everyone boarded the sword boat and flew away.

Ye chen left the spirit reservoir Valley. This time, he had gained a lot.

Not only did he obtain the military force of heaven and earth, he even obtained the true demonic energy and the heavenly immortal energy. These were extremely precious energy samples, which would be extremely beneficial for his future cultivation breakthroughs.

With his wings spread and the Golden Lotus step, ye Chen's speed was not any slower than the divine boat magic tool. In fact, he might even be faster.

Finally, after flying for a few hours, ye Chen landed on a high mountain peak.

Here, ye Chen designed an array to protect himself while he sat cross-legged and analyzed the two forces in his body.

The ancient God Space that was enhanced by spiritual accumulation, coupled with the eight-gate divine disc, had a qualitative increase in its analysis ability. It instantly locked onto the two great powers.

,m "Zi Zi Zi!"

Under the rapid analysis of the ancient God Space, the celestial immortal power and true demonic power were successfully analyzed to 70% and 60% respectively.

"Phew ..."

Ye Chen exhaled and opened his eyes. The energy in his body was still surging.

This time, the energy he absorbed was so powerful that ye Chen could not fully digest it even after three days and three nights.

However, the results of the analysis were enough for ye Chen to use.

"Find the forefather and the others!"

Ye Chen was worried about the safety of the great ancestor and the others, so he released his celestial energy to contact Wushuang. After all, as the main body of the celestial Thearch sword, this connection between ye Wushuang and ye Chen transcended time and space.

"Northwest!"

He flew up and charged towards the Northwest.

At the edge of the underworld realm, a huge fleet appeared.

"Lord Xie, we've already arranged all the troops!"

"Let's go!"

"Yes!"

The massive evil spirit fleet charged out of the underworld realm's restrictions and headed toward the lower realm. Their target was the underworld God and ye Chen.

Lord evil's eyes were sharp and his killing intent was hidden.

After learning about ye Chen's previous actions, he was going to face this person personally.

.....

"Zi Zi Zi!"

After obtaining the fragment of the tomes of arcane, it had been resisting ye Chen's will. This made ye chen very confused.

Although it was a replica, it shouldn't be so' rude 'to its master, right?

"Fragment of the heavenly book, are you trying to warn me about something?"

Ye chen thought of another possibility. Whether or not he could find the heavenly book of Jade Law through the fragment of the heavenly book was the biggest knot in ye Chen's heart!

[Chapter 2186 The Desert Boundary!](#)

After leaving the spirit reservoir Valley, Reverend crazysword was furious. As a Supreme expert at the heaven immortal realm, he had failed to kill a puny true immortal and even let him take away his precious fragment of the heavenly book. How could he wash away this humiliation?

Moreover, now that the magic martial realm was invading the spiritual realm on a large scale, the immortal spiritual realm could not sit by and do nothing. They had to respond.

"Immortal, what should we do now?"

"I'll contact the other experts in the spiritual realm immediately. We must keep an eye on demon master bi an!"

Venerable frenzied sword flew to the top of a mountain peak and activated his talisman.

"Celestial immortal summoning!"

After releasing the spirit talisman, the immortal energy in the nine Heavens suddenly became faint. Waves of immortal energy flew in all directions of the spirit realm, attracting the hermits of the immortal spirit realm.

These recluses cultivated in the immortal spirit world, but they returned to their original state and found other cultivation methods. They returned to the spirit world and usually didn't care about the world. However, the moment a powerful being in the immortal spirit world called for them, they would naturally return.

In the various famous mountains and rivers of the spiritual realm, Zhu duo woke up one after another and headed in the direction of the spirit reservoir Valley under the guidance of the venerable frenzied sword.

"Hahaha, this time, I've released the ultimate summoning talisman. As long as it's a powerful being from the immortal spirit world, they'll come to help. Don't worry, everyone. We'll be the vanguard of the immortal spirit world's entry into the human world. What do you think?"

"Wise man!"

The experts all bowed in agreement.

As the summoning talisman spread out, the immortal energy was so faint that it covered the entire space within a radius of ten thousand miles.

Within three days, experts from all over the immortal spirit world came to pay their respects to Reverend crazblade.

"Reverend, we pay our respects!"

"Everyone, there's no need to be so polite. This operation is of great importance. It's like this ..."

Daoist crazily sword told them about the various events that had happened around the spirit reservoir Valley. Hearing this news, all the experts were still very motivated. After all, if they could make some achievements in this Great War of Immortals and demons, they wouldn't need to hide in the spirit realm to cultivate. Instead, they would be able to receive guidance from the Venerables of the immortal realm, and even be bestowed with treasures. In this way, their cultivation would advance at a tremendous pace.

"Immortal, please give us your instructions. We will obey!"

"Very good. I knew it. As long as it's an expert from our immortal spirit world, they're all disciplined. This time, when my main body descended into the spirit world, I was obstructed by demon master bi an, causing the loss of the fragment of the heavenly book. On one hand, you have to monitor demon master bi an's actions, and on the other hand, you have to find this person's whereabouts!"

With that, venerable frenzied sword pointed with his sword-like finger. Instantly, a portrait of ye chen appeared in the air.

"This person is so arrogant. How dare he take away perfected one's treasure?" An expert asked in confusion.

"This person is a madman, but he is extremely talented and has an extraordinary Foundation. You can't act rashly when you see him, or you will die. You must inform me immediately, understand?"

"Understood!"

Although they had made it clear, many hermit powerhouses were peak true immortals or even abstruse Immortals. They really looked down on ye chen, a mere true immortal. They all thought that as long as they could get the fragment of the tomes of arcane and present it to the perfected one, they would be rewarded with infinite rewards. This was the greatest opportunity.

"Let's Move!"

"Yes!"

Everyone flew out one after another, full of energy.

Ye chen used his immortal energy to quickly find clues about the sword boats of the great ancestor and the others. However, according to ye Chen's speculation, the area they were traveling in completely exceeded the results of his calculations. This meant that they might have encountered an unusual phenomenon.

"What's going on? according to My Immortal energy, the sword boat should be within a thousand miles, but I can't find any clues with my divine eyes!"

This made ye chen very anxious and he had been put in a difficult position many times. Although the great ancestor and the others' skills had increased greatly, their overall strength was still between peak itinerant immortal and true immortal. They would have no problem facing an ordinary master but if they encountered a Super Master, they would still be insufficient.

Ye chen had activated his ancient God's eye many times to check on everyone's whereabouts, but he had not obtained any good results.

"Continue searching!"

He would not give up easily. He flew out and headed in the direction he had sensed earlier.

The spiritual realm continent was vast and boundless. Although there were spiritual mountains and great rivers, most of them were desolate lands where no one existed.

This time, ye chen was heading in a direction that he had never been to since he entered the spirit realm.

The place where he first entered was like a desert. The wind and sand traveled for ten thousand miles, and no one could be seen!

Ye chen sensed the form of energy in the surrounding space. He found that the energy here was completely different from the energy around the spirit reservoir Valley. The energy here was very thin but there was still an ancient aura.

After the previous war of the Three Realms, the true spirit Palace of the spiritual realm, the spirit Emperor, and other forces had either been destroyed or sneaked in. The population was still sparse but there was no one here. Moreover, there was a strange atmosphere everywhere. This situation made ye chen very uncomfortable.

"After traveling for a few hours, why is the environment the same for hundreds of thousands of miles?"

Ye chen was very confident in his senses. He did not think that he was lost but had fallen into some kind of realm.

This realm was different from ordinary formations. This was a natural creation that was combined with special nomological laws.

"Mm ..."

Just as ye chen was fuming, suddenly, a melodious sound of a flute came from the distance. The sound of the flute revealed an ancient aura. The master could immediately tell that the flute was guiding him.

"Ha, no matter where this place is, what does this Emperor have to fear?"

Ye chen strode forward, called the nine Heavens Yu steps. With layers of illusions and the seven stars positioning, he soon arrived at the source of the sound.

"Divine he Fang, show yourself!"

An overbearing voice resounded throughout the entire scene.

The surrounding space trembled due to ye Chen's loud voice. Countless sand and stones flew up and filled the sky.

"A song to send you off, a song to break your liver and intestines!"

"Oh? Hahaha!"

Ye Chen laughed out loud and pointed his sword finger at the sandstorm in front of him. Suddenly, the sandstorm exploded and the surrounding environment quickly became clear.

"Is it so fun to be a coward?"

"Ha, young man, you can't be so arrogant!"

"Do I need you to teach me how to do things? I'm asking you, did you see a sword boat?"

"Sword boat? Ha, I didn't see it!"

"What?"

Ye Chen locked his gaze on the other party's eyes and expression. It was obvious that the other party was lying and was even deliberately provoking him.

Since that was the case, if he didn't show some of his strength, the other party wouldn't easily talk seriously.

"Thunderbolt sword!"

Controlling the nine rays of the Thunder God's power, ye Chen's sword energy sped toward the person.

"Oh? Such a powerful sword Qi that contains the heavenly Dao Thunder God law is extraordinary!"

"Receive this!"

The sword Qi broke through the sandstorm and arrived in front of the man's forehead!

"Return!"

However, the sword Qi suddenly froze in the air. Then, space reversed and it attacked ye Chen.

"How is that possible?"

Ye Chen's heart trembled. His ancient God Power automatically erupted to protect his master!

[Chapter 2187 2192-Sand Sword!](#)

"Swish!"

With a clang, the ancient God's star picking hand appeared behind ye Chen's back and instantly caught the sword Qi in front of him.

Then, the ancient God Power forcefully crushed the returning sword Qi, scattering it into sand.

Ye chen thought, 'it looks like the sword aura has been sent back but the sword aura that was sent back was not the one I released. There must be some special process. This person's swordsmanship is amazing.'

"Kid, you have a special energy in your body. You're extraordinary!"

"Old man, I'm also interested in your sword technique."

"Hahaha, if you can take one strike from me, I'll tell you where the sword boat is. If you can 't, how about you give me all your power?"

"Ha, if I can't catch it, do I still have the right to choose? Enough nonsense, come!"

"Smart!"

The flute in the old man's hand spun rapidly, revealing a rotten, dry face. It was like a mummy that had crawled out of the grave, very eerie.

However, ye chen did not care about her appearance. What he cared about was the sword technique she used.

The other party was coveting his ancient divine power. Ye chen wanted to understand the strange sword technique that the other party used and how it managed to reverse his sword Qi.

Ye chen stood with his hands behind his back. His eyes were sharp as he locked onto the swordsman before him.

The swordsman's mouth revealed a very cold smile. Sand and stones flew around him, and chaos was about to arrive.

"Pay attention!"

The flute was thrown into the air. Endless flying sand continued to gather toward the flute along with the sound of the flute. Then, it transformed into the shape of a sword and locked onto ye chen.

It looked like an ordinary sword but ye chen could feel that it contained a powerful and strange power of law. This feeling was very clear. This was ye Chen's natural sense of danger and would not change because of the change in environment.

Ye Chen's eyes narrowed slightly as he watched the sword-shaped figure mix into the sandstorm and attack him.

The speed of the sword Qi was very slow and it seemed to be getting slower and slower as if he had entered a slow-motion space-time. Ye chen felt his movements slow down at the same time. It turned out that the moment the sword form was formed and released, the surrounding space had already entered the control of the sand.

"Swish!"

As the wind and sand blew, the sword's shape slowly became clear. By the time ye chen noticed it, the sword's shape was already in front of him.

"Hahaha, genius? But you're an idiot!"

The old man's overbearing voice was clearly heard by ye chen. It was clear that the other party knew the outcome of the battle. The sword form in front of him had already locked on to ye Chen's life and death.

"Phew, phew, phew!"

At this moment, the sand and wind quickly dispersed. The sword shape attacked ye Chen's brow. Then, the sword shape did not penetrate ye Chen's head. Instead, it turned into countless loose sand and covered ye Chen's entire body.

Buzz, buzz, buzz!"

As the scattered sand settled, ye chen stood like a statue.

Da, da, da!"

The old man walked over with light steps, as if he was taking a stroll in the courtyard, relaxed and at ease.

He walked up to ye chen and studied the "statue" in front of him, smiling.

"Such a mysterious and ancient power is actually in the body of such a young man. It's really strange and a waste. Why don't you let me get it?"

The swordsman extended his withered, slender, claw-like hand and clawed at ye Chen's face.

"Aren't you the one who's stupid to be able to determine the outcome so easily?"

Just three inches from ye Chen's face, ye Chen's voice reached the swordsman's ears.

"No, that's impossible!"

The swordsman instantly retreated ten meters because he felt a life-threatening power brewing.

Boom, boom, boom!

Then, the entire statue shattered instantly, and the sand turned into a Dragon that locked onto the swordsman.

"Sword intent, stop!"

The swordsman once again used an exquisite magical ability, instantly freezing the sword Qi in front of him.

He looked coldly at the unscathed ye chen with disbelief in his eyes. He was too confident in his sword Dao law. Ye chen had definitely been hit just now. According to the law's effect, ye chen could no longer move and had turned into a Sandman. How could he still stand in front of him unscathed?

He could not understand that ye chen had already seen through his sword truth and the laws within had also been cracked by the ancient God Space.

"The sand sword is indeed exquisite. From the first time you turned my sword Qi into quicksand and killed me, I've been analyzing the logic behind it. When you tried to kill me with the sword of sand, I've already seen through it. "

"Impossible! I've cultivated the sand sword for hundreds of years. How could you see through it in such a short time? you're bluffing!"

"Whether it's a Bluff or a well-thought-out plan, there's no harm in using practice to prove it!"

"Damn it!"

The swordsman was furious. His entire body was filled with a murderous aura. The flying sand gathered and formed a huge sword shape that spanned the sky. Then, the sword tip spun and aimed at ye chen.

"This time, I'll let you die without a burial place. Then, give me all your power!"

The Grand sword of sand slashed down from the sky and headed straight for ye chen.

In the face of the sand sword, which was a hundred times more powerful than before, ye chen still stood with his hands behind his back. He did not feel nervous at all.

"I've said it before, I've still seen through your sword path!"

Ye Chen's brows furrowed. The sand and dust in the surrounding space rose at the same time and transformed into a huge sword of sand above his head.

The sand swords of both sides charged at each other at the same time.

"Boom boom boom!"

With a loud sound, the sand sword exploded and turned into countless grains of sand. In the sky and on the ground, they jumped violently, constantly stirring up the wind and clouds.

"No, no!"

Seeing that his sand sword had completely dissipated and there were still several sand swords hanging around ye chen, the swordsman knew that he had completely lost. His art of sword had failed.

He knelt on the ground, his eyes listless. He looked at ye chen as if he was looking at a God. He had cultivated for hundreds of years and comprehended such an exquisite swordsmanship. However, ye chen had seen through it with just a few moves. Who could accept such a contrast?

"Don't waste time. Where did the sword boat go?" Ye chen asked coldly.

"Hahaha, I can tell you, but I hope you won't get too excited!"

Suddenly, the swordsman revealed a strange smile. Although he had lost in swordsmanship, he wanted to make the person in front of him suffer the same pain.

"The sword boat you are looking for has already entered the vipralopa stage. Over there, you will experience true depravity and despair. I believe your friends will all die in there, and if you enter there, you will not even have a corpse left. How is it? are you satisfied with the result?"

"Mm ..."

Ye Chen's eyes turned cold. The other party was clearly taking revenge. What was the use of keeping such a sore loser?

"Since you're a cripple, then, give me your sword Dao!"

"Roar!"

As the shuddering roars shook, the source of darkness appeared behind ye chen. The sacred ancient divine power from before transformed into a violent, dark, and terrifying netherworld energy that swept toward the swordsman.

"Ah, ah?"

The swordsman revealed the most terrified expression. How could he have thought of such an outcome!

[Chapter 2188 Immortals And Demons Descend Together!](#)

The most terrifying devouring dome was suppressed like a primordial beast between heaven and earth. The swordsman's legs turned soft. His profound Foundation was so fragile in the face of divine power.

"Sword of sand. Not a bad sacred art. Give it to me then!"

"You!"

The swordsman looked angry and frightened. Under the devouring dome, his power was completely suppressed.

"Don't even think about treating me like this, sand sword!"

In this desperate situation, the swordsman no longer had any scruples. He released the ultimate sand sword. On the surrounding desert ground, sand danced wildly and the wind and clouds changed. Countless sand transformed into countless sand swords, all aimed at ye chen.

"Hahaha, puny true immortal, you're nothing in my sand sword formation."

The swordsman laughed wildly. He believed that he had the initiative. After all, this was his home ground. As long as he made good use of the surrounding terrain, he would be able to unleash all the laws of sand sword he had buried in this place after cultivating for hundreds of years.

The sand traveled for ten thousand miles, and the sand sword was revealed.

"Oh ... You want to bring the dead back to life with such a formation?"

Facing the powerful wild sand sword formation, ye chen sneered. He did not care about the opponent's home field advantage at all. He did not make a move immediately but waited for the wild sand Swordmaster to release the ultimate wild sand sword formation. In order to obtain the power of the wild sand sword formation, ye chen had to analyze the structure of this power in advance.

"Hahaha, your contempt is your biggest mistake. I will let you die in peace. Even if you have divine power, so what? in my sword array, even gods have to bow!"

"Come on!"

Facing the wild sand sword formation, ye chen sat cross-legged without any defensive posture. He had absolute confidence in the power of the underworld God. Under the engulfing dome, any law would be destroyed.

"The wild sand travels ten thousand miles, and I travel alone!"

Finally, the wild sand Swordmaster unleashed his ultimate attack. All of the sand swords were lifted from the ground and shot up into the sky. Their power was so great that it could destroy the heavens and earth.

"Whoosh, whoosh, Whoosh!"

p Countless sword-shaped sand peaks came toward ye chen at the same time. The Grand momentum was unrivaled.

"It's all in vain. In the eyes of the god of the underworld, only the door to purgatory can be opened!"

Ye chen closed his eyes slightly. Behind him, the eyes of the apparition of the god of the underworld glowed with a blood-red light. The Demon's Eye opened between his brows. The power of the entire engulfing dome was guided to its peak state.

"Phew, phew, phew!"

The all-devouring dark power was like countless Yin souls that attacked the ground. These Yin souls turned into various terrifying forms and attached themselves to the sand sword. They were like gangrene that attached to the bone and gnawed at it.

Buzz, buzz, buzz!"

All sorts of ghosts wailed and howled. Although the sand sword was powerful, it turned into sand and disappeared under the law of the god of the underworld's corruption.

"No, that's impossible!"

"I've said before that your power isn't worth mentioning, but your laws are interesting. They can only shine in my hands. Give up!"

The shadow of the underworld God waved his sharp claws and the star picking hand transformed into the underworld King's star picking hand. He attacked the wild sand Swordmaster from two directions.

"Ah?"

The Pluto star picking hand combined with the engulfing hut. No matter how strong the wild sand Swordmaster was, he was unable to resist such a powerful force. His body gradually shrank and he was crushed into sand and swallowed by the hut.

Now that the wild sand sword formation had lost its master, all its power began to flow toward the dome. In an instant, the entire wild sand sword formation was absorbed by ye chen.

After the wild sand sword formation disappeared, ye Chen's range of perception expanded instantly. However, he still could not accurately locate the sword boat of the ancestor and the others. This showed that what the wild sand Swordmaster had said was not a groundless rumor.

"Hateful!"

Ye chen roared. The sword Qi traveled ten thousand miles and shattered a Thousand Peaks!

"Sand storm!"

After absorbing the wild sand Swordmaster's power of law, with ye Chen's talent and the support of the ancient God Space, he could easily use the wild sand law and comprehend his own divine power secret technique.

In this vast space, using the desert rule was much more energy-efficient than using other powers.

"Whoosh, whoosh, Whoosh!"

Ye chen strolled leisurely on the sand. His perception spread out for thousands of miles and continued to search for the great ancestor and the others.

At the same time, at the 30000-foot border between the spirit realm and the yellow spring, a vast energy impact constantly destroyed the surrounding landscape, causing the collapse of the entire earth vein.

Above the nine Heavens, countless different dimensions were spinning.

The two spacetime passages of the magic martial realm and the immortal spirit realm opened on both sides of the nine Heavens almost at the same time.

Boom, boom, boom!

Then, the demonic energy and the immortal energy swept across the entire scene, clashing with each other and finally forming their own sphere of influence.

"Hahaha, the immortal spirit world finally responded."

Seeing this, Daoist crazily sword laughed wildly, revealing a domineering aura.

He wanted to wash away the humiliation he had suffered before. He had to complete his revenge.

On the magic martial world's side, demon master Yan Chi was also happy. Once the passage to the magic martial world opened, there would be an endless stream of magic Warriors rushing out from it. In terms of numbers, they would completely suppress any other forces in the spiritual realm, including the immortal spirit realm.

Numbers had always been the demons 'most glorious advantage, and this time, they would only be even crazier.

The ones charging at the front were the follow-up troops of the red demon race. They knew that their demon master had already descended into the spiritual realm, and this time, they had been sent here as reinforcements for demon master Yan Yan.

"Demon Lord!"

The experts of the red demon race were shouting in the direction of demon master Yan Yan.

"Hahaha!"

Demon master bi 'an howled and reverberated, giving a reply. The red demon Army received the reply and charged forward madly, rushing towards demon master bi an's demonic battleship.

Reverend thundercloud, Reverend fiery dragon, and Reverend Cold Moon arrived at the spacetime tunnel in the immortal spirit world.

Among the three zhenrens, Taoist master leiyun was the most familiar with the spiritual realm because he had arrived there before and had been observing demon master lang wo's actions.

"Everyone, the magic martial world is invading on a large scale with the red Fiend Race as the vanguard. Demon master bi 'an intended to seize the spiritual power of the Spirit accumulation Valley. Fortunately, Reverend crazily sword arrived in time, and he did not succeed. We will definitely deal a heavy blow to the red Fiend Race this time!"

Taoist master leiyun said.

"Lei Yun Zhenren is right. Since I've come, I won't let the red fiend clan escape unscathed!"

At this moment, a red-haired old man walked up to them. It was venerable fiery dragon.

Venerable fiery dragon was at the peak of the heaven celestial stage and still had the qualifications to cross the Tribulation and ascend to the heaven realm. However, he wanted to cultivate more in the immortal spirit world to increase his chances of success, so he was as strong as the Reverend wild sword.

"So it's venerable fiery dragon. We'll naturally be at ease with venerable fiery dragon here!"

"That's right. Venerable fiery Dragon's true Samadhi fire is one of the best flames on the list of heavenly flames. It's perfect for dealing with the red Fiend Race!"

"We'll follow venerable fiery dragon and kill the red fiend!"

The experts all bowed. Venerable fiery dragon nodded slightly with a proud smile.

[Chapter 2189 The Two-Faced Bodhi!](#)

The boundless desert was filled with sunlight!

As ye chen walked under the scorching sun, the temperature of the surrounding space rose rapidly. Even the sand under his feet became scorching hot.

"Mm ..."

Ye Chen's entire body was protected by immortal energy, keeping his body temperature from rising too much. However, as he continued to venture deeper into the vast desert, he felt that the law of heat here was completely different from before. It was extremely difficult to maintain his body temperature in this place.

"Phew, phew, phew!"

Suddenly, a wave of heat surged like a tide from the distant sand peak. The powerful force seemed to roast the entire sky. Such a powerful attack made ye chen feel impatient.

In the process of advancing, he had lost count of the number of waves of heat like this. If it had been an ordinary true immortal, they would have long been immersed in these waves. However, these waves did not do much harm to ye chen. They were just endless and made ye chen feel angry.

"Block the advance of this place. No matter what's in front of you, destroy it!"

"Vajra ocean-overturning seal!"

Ye chen raised his right hand high. Suddenly, the sky changed color. The temperature in the sky suddenly dropped. Endless water vapor condensed and then turned into a heavy downpour. Like waves, it gathered in ye Chen's hand.

"Go!"

With a single command, the seal of the overturning seas exploded. Like a dragon emerging from the sea, it transformed into endless waves that crashed toward the sand Mountain territory in front.

Boom, boom, boom!

The power of the waves clashed with the heat wave, causing the ground to shake and the sand to shatter.

The heat wave was unable to shake ye Chen's abhijna and could only be devoured by the waves, becoming a part of them. The six tidal Dragons charged at the source of the heat wave. Suddenly, the earth cracked and lava erupted.

As ye chen continued to absorb the power of water vapor, the surrounding space dried up and the water vapor disappeared.

"Dragon Qi enshrouding protection!"

Humans could not survive in such an environment. Ye chen released his Dragon Chi to protect himself. However, a White Dragon had drawn the water vapor from before to surround ye chen, isolating him from the distorted space and the erosion of the Super high temperature.

"Wild sand travel ten thousand li!"

Ye chen activated the power of violent sand again and flew past like a meteor.

Wherever ye chen passed, the space exploded. Countless sand peaks exploded and turned into dust, following behind ye chen.

Ye chen rode the Water Dragon and flew across the nine Heavens, overlooking the vast expanse of violent sand.

In an instant, ye chen had entered another space. Here, the temperature had dropped significantly. Ye chen retracted his dragon energy and stepped on the sand.

Ye chen suddenly felt a sense of familiarity here. It was very strange.

"How can there be Buddha Qi in this land of wild sand?"

After all, ye chen was the inheritor of the heavenly spirit Buddha. Although the Buddhist aura in this space was scattered and sparse, it was of a high standard. The energy density of a single Buddhist aura was extremely high.

"Heavenly spirit Buddha's eye!"

Since there were remnants of Buddhist Qi here, ye chen activated his Buddhist eyes, trying to find the connection.

Soon, he saw a golden existence among the Buddhist Qi.

"Mm ..."

Ye Chen's brows furrowed as he looked into the distance.

9,000 miles away, there was a huge Bodhi tree. It was like a pillar that supported the sky, towering into the clouds.

"Such a tall Bodhi tree is not an ordinary thing!"

When ye chen saw the Bodhi tree, he hurried forward. He wanted to get to the Bodhi tree and find out what was going on.

The Bodhi tree continued to release golden light, like a spiritual spring between heaven and earth. It gave this dry and desolate place a glimmer of hope.

Ye chen rushed forward but he felt that the distance between him and the Bodhi tree did not seem to decrease at all. This situation was very strange.

"Could it be the power of space?"

"The ancient God has opened his eyes!"

Ye chen opened his ancient God's eye but did not find any spatial array in the surrounding space. At the same time, the spacetime Fury did not react enough. It was clear that this was not an array but something else.

Ye chen stopped and looked around. Instead of blindly charging around, it was better to sense the power of law in the surrounding space. Perhaps he could find some clues.

He sat cross-legged in the air and closed his eyes.

A gentle breeze blew in the surrounding space, causing ye chen to feel his mind in a daze. Then, his primordial spirit was forcefully pulled into a different space.

"Who are you?"

"The heavenly Emperor ye chen!"

Ye Chen's heart turned cold when he suddenly opened his eyes. Earlier, he had automatically answered the other party's question. This was not a good sign. It was clear that in this space, his self-defense had become extremely weak.

He could clearly sense that his martial will had become much weaker, and this weakening was forced and irreversible. It was as if it did not have much to do with his martial will's cultivation.

Perhaps, in this space, no matter how firm one's martial will was, one would still have to act in this way.

"What is this place?"

Ye Chen asked coldly.

He suddenly raised his head and looked in front of him. There was a crystal clear ice moon Bodhi tree in front of him. It was completely different from what he had seen in the outside world. The Golden leaves were now like ice crystals, reflecting cold light.

On top of the Bodhi tree, there were some Bodhi fruits hanging. They were colorful and looked like ringtones.

When Ye Chen saw the Bodhi fruits, his eyes became dazed as if his psychic energy was being devoured.

"Damn it!"

With a furious roar, Ye Chen's entire body erupted with a powerful celestial energy. It shook in all directions and quickly swept through the entire Bodhi tree.

"Zi Zi Zi!"

Just as the vibrating force was about to destroy the Bodhi tree, a crystal wall appeared in front of the Bodhi tree to resist Ye Chen's attack.

Boom, boom, boom!

The powerful shock wave hit the water view Wall, but other than the sound waves, it did not cause any damage.

Even after taking Ye Chen's attack, the crystal wall still looked like a mirror, shining brightly.

"Ha, heavenly spirit Buddha's Kasaya jiu Yun Buddhist sword!"

Since the other party was the Bodhi tree, the symbol of Buddha, Ye Chen released the heavenly spirit Buddha's strongest jiu Yun power, merged it into the Buddha's sword, and charged toward the Bodhi tree.

"It's all fabricated!"

As soon as Buddha spoke, the wall of water was formed again.

"Swish!"

The Buddhist Sword's Edge struck the water view Wall. The power of the two sides kept clashing and dissipating. In the end, the Buddhist sword was absorbed by the crystal wall, leaving no trace.

"Interesting!"

Ye chen flew up and locked onto the crystal wall in front of him.

"Then let me see how hard you are!"

"Buddha and demon United strike!"

Ye chen activated the Buddhist demon power and merged it into the form of yin and yang, turning it into a yin and yang double blade. He formed the Tai Chi Sword seal in front of him and vowed to break the crystal wall in front of him.

"Illusory people and illusory things are like flowers in a mirror and the moon in the water, all in vain!"

"I don't care what you're talking about. In front of me, I can only bow!"

Celestial Emperor's overbearing power was activated, heaven and earth shook, the sun and moon lost their color, and the two swords broke the air to cut off the fate of Buddha!

"Zi Zi Zi!"

The Bodhi tree reacted at the same time. The seven-colored Bodhi fruits in it trembled one after another, and rays of colorful light gathered on the crystal wall. It was extremely mysterious!

The yin and yang blades fought against the seven-colored crystal wall, and the stars fell together.

"Kill!"

The two blades mixed together, and the might that could destroy the world burned even more brightly in ye Chen's hands. In the blink of an eye, the two blades, carrying the power of Buddha and demon, struck the crystal wall. Immediately, the seven colors scattered and the crystal shattered.

"Hahaha!"

As ye chen laughed wildly, his sword Qi shot out again. It contained a powerful darkness support devouring power. As long as the laws in these crystal walls revealed themselves, they would be absorbed by the devouring power.

"Zi Zi Zi!"

At this moment, the shattered Crystal wall began to reform. The light of laws that flickered within it was the power of Bodhi.

"Supreme Bodhi, Supreme Dao!"

A Buddhist voice was heard, and a Buddha appeared on the crystal Bodhi tree.

"You've finally appeared. You can't hold it anymore, can you?"

"Ye chen, this is not a wise move!"

"Supreme Bodhi, release my friend. Otherwise, I'll uproot this Bodhi tree!"

"Aiya!"

The eyes of the Bodhi Saint shone with Buddhist light. The Bodhi Saint behind him activated the three tribulations formation.

"With neither sadness nor joy, the heavens and earth no longer exist!"

"Hahaha, Bodhi is so weak. I'll fulfill your wish!"

Ye chen activated the heavenly spirit Buddha's power of the nine reserves and his body's Foundation instantly increased by three hundred times. This was the ultimate tadpole three hundred times Dragon Fist.

"Three hundred Dragon fists, kill!"

The ancient God's body reappeared behind his back. His majestic dragon Fist shook the heavens and earth, stirring the clouds and winds. Everything was annihilated by this endless stirring. It was a terrifying power that could not be contained.

Boom, boom, boom!

In an instant, the area within a thousand miles of the Bodhi tree trembled violently. Mountains and rivers were shattered, and heaven and earth were reversed.

Crack, crack, crack!

The terrifying power of the Dragon Fist completely shattered the Bodhi realm before him.

The crystal Bodhi tree shattered one after another. What he saw was the Golden Bodhi tree.

"Golden Bodhi, show yourself!"

"Hahaha!"

Above the Bodhi tree, the Buddha appeared, and golden light split the sky.

"Zi Zi Zi!"

Endless light enveloped ye chen, and thousands of confusion turned into malicious ghosts demanding his life.

"Squeak, squeak, squeak ..."

Countless ghosts continued to block ye Chen's path. Buddha and demon were just a thought. How could the world be different?

Ye chen looked at the disguised venerated Bodhi without any fluctuations in his heart. He had already expected all these changes. What he wanted was the safety of the great ancestor and the others. No matter who his opponent was, it was the same.

"Heavenly Emperor ye chen, your friends have already entered my destructive Bodhi realm. I don't think they can last more than six hours!"

"Don't you dare!"

When ye chen heard the word 'eye-piercing', his face revealed a Dragon's Fury, and his domineering aura rushed toward the Bodhi Saint.

"Zi Zi Zi!"

With a wave of Lord Bodhi's hand, the Bodhi tree behind him released boundless light and instantly destroyed ye Chen's domineering aura.

"It's not impossible to find them. You'll naturally find them once you enter the destruction Bodhi realm."

"You're telling me the way to find it, is it really not your scheme?"

"How is it? If you're afraid of my schemes, then don't go, hahaha!"

Venerated Bodhi smiled coldly. He was certain that ye chen would not abandon his friends. Although the person before him was very suicidal, now was not the time to be calculative. Ye chen wanted to find the great ancestor and the others. He had to ensure their safety.

"Open it!"

"Hahaha, I knew you wouldn't refuse!"

Honored Bodhi smiled smugly. Ye Chen's talent and strength had already surprised him. This time, letting ye chen enter the destruction Bodhi realm was just a test. Ye Chen's friends had now become the obvious bait.

He formed a seal with his hands and then transformed the dark Buddhist energy, instantly opening the destruction Bodhi realm. The entrance to this enchantment was on the Bodhi tree.

"Hmph, Supreme Bodhi, no matter what your purpose is, you'll regret using me!"

"Do you regret it? That will depend on your ability. "

Ye chen flew into the Bodhi realm's opening technique.

Upon seeing ye chen enter the destructive Bodhi realm, Supreme Bodhi revealed a strange smile.

"Ye chen, you're the person I've been looking for to open the Bodhi's dharma world in my place. I've cultivated here for a thousand years and still haven't opened the vast dharma world. I've almost died a few times. You've passed the crystal Bodhi's test. Now, let me see your true abilities, hahaha!"

It turned out that the Bodhi realm was not a spell realm that Lord Bodhi could freely control. Instead, it was a different world that he had discovered in the vipralopa stage during his cultivation. Only those who were fated could enter it and break the door to the spell realm, thus truly opening the Bodhi realm.

This was one of the most mysterious legends of the Buddha realm. Now, it was going to prove its existence to the world.

In the spirit reservoir Valley, Immortals and demons descended at the same time.

Immortal spirit world's venerable fiery dragon, venerable Cold Moon, venerable thundercloud, and venerable berserk sword were all gathered here to unlock the ultimate secret of this spirit reserve Valley.

At the same time, demon master bi an of the demon Realm led the entire red demon race, as well as the experts of the demon martial realm, to confront them.

"Demon master bi an, you made ye chen disappear in front of your eyes. Do you have any resentment?" Daoist crazily sword laughed.

"Hahaha!"

Demon master bi 'an only laughed in the face of Daoist master crazed sword's mockery.

"Adept crazed sword, not only did you let ye chen leave, but you also lost your Supreme treasure, the fragment of the heavenly book of Kasaya. Now, you're saying that you're an extremely foolish person!"

"You!"

Daoist crazily sword angrily locked onto demon master lang wo. He still hadn't settled the score with him.

"Don't be impulsive!"

At this moment, venerable fiery dragon stepped forward and blocked his path. The man had yet to fully recover from his injuries and needed to rest.

"Demon master bi an, we Immortals and demons have descended together. It's impossible for us to enjoy the spirit Reserves Valley alone. Moreover, I've heard that ye chen has left with the heavenly spirit Buddha's jiyun power. Now, we need to track him down together. What do you think?"

"Oh? Venerable fiery dragon, do you want to cooperate with the demon Lord?"

"That's right, that's exactly the case!"

"Hahahaha!"

Demon master bi an laughed out loud. He didn't think that someone from the immortal spirit world, who thought of himself as a high-tier race, would actually want to cooperate with their demon race. Such a thing had not happened in the past thousands of years.

"Why are you laughing? this is the best choice I've given you. What do you think?" Venerable fiery dragon really wanted to show off his status.

"Ha, no problem. Since we haven't found ye chen, how should we distribute the jiyun power?"

"It's simple, 50 - 50!"

"Very good, this demon master agrees."

Demon master bi an sneered in response. However, both parties knew that things were not that simple.

However, since this simple Alliance had been established, at least they would not have any conflicts for the time being.

"I'd like to ask the powerhouses of the immortal spirit world to show us your skills and track down that brat ye chen!"

"Hmph, of course!"

At this moment, perfected Lei Yun had appeared, representing the immortal spirit world in finding ye Chen's whereabouts.

"Thunder cloud secret technique, time backtrack!"

Lei Yun Zhenren threw out a disc and it spun in the sky. Then, a light screen was formed. In this light screen, ye Chen's previous actions appeared.
