

## Genius 2211

### [Chapter 2211 Buddha's Slaughter!](#)

With his five senses lost, ye chen was at an extreme disadvantage. In this space, he was like a floating stone, losing all direction and inspiration. This was the power of the visar a twenty-four-sky Pagoda Formation.

"Momo, Momo, Momo ..."

The vair ū p ā K a spell was activated again, and the frequency of the sound became higher and higher. The energy became stronger and stronger, and it had already exceeded the resistance ability of a Mystic immortal. If a Mystic immortal entered this formation, he would explode and die on the spot without leaving any spiritual power behind. It could be said that both his body and soul would be destroyed.

"Zi Zi Zi!"

Ye Chen's entire body was surrounded by this extreme sound wave attack. He relied on the Dragon Qi to protect his body and resist the resonance.

His entire body sank into darkness, and even the perception of all kinds of energy was cut off by the pagoda of vair ū p ā K A. With all 24 pagodas activated, even a heaven immortal would not be able to escape unscathed if they entered. This was the most powerful part of the Buddha Emperor's cultivation place.

In this place, it was a joke to rely on one's profound cultivation to succeed.

From this point of view, ye Chen's cultivation base was not at a disadvantage at all. Here, they were fighting for their affinity with Buddha, talent, and comprehension ability.

"Only by submitting to Heavenly King Visha can you be considered to have completed your merits!"

At this moment, a voice appeared in the spiritual world. This voice came from the spiritual image of the 24-sky Pagoda, which was the shadow of visar A.

Ye chen, who had lost all his five senses, could still see and hear vari Ana's voice in his spiritual world.

It could be seen that the 24-sky Pagoda could completely surpass the limits of perception and transmit information like an Oracle.

"Ha, I'm here to look for the Buddha Emperor's Supreme treasure, the 24-sky Pagoda. I must get it!"

Ye chen sneered. He was very disdainful of Visha's attempt to subdue him. This made Visha very unhappy. In this Buddha tower formation, no one could escape his control. Not everyone who came here was a Buddha Emperor!

"Since you don't believe my advice," variphar a sneered, "then what awaits you is only the fall of ten thousand generations!"

"Sink into oblivion? I've been in this state for a short time, but no matter what kind of state I've been in, it can't stop my determination to return to the heaven realm. And you, you are the same!"

"You call yourself the heavenly Emperor and look down on all techniques. Ye chen, in the end, you can only become a lonely spirit in the twenty-four sky Pagoda. Hand over your life!"

"Come on!"

Ye chen suddenly opened his spiritual eye. The Buddhist light shone brightly and the divine light was boundless.

The Dragon Qi sensed the shocking changes in ye Chen's body. At the same time, the nine Dragons roared, Thunder God break!

"Roar!"

Zila, Zila, Zila!

The nine Thunder God Dharma laksana reappeared. After absorbing the Thunder Core of the purple lightning Lion, the Thunder God Dharma laksana had now reached the level of a heaven immortal. Whether it was in terms of power or the height of the laws, it was no longer the same as before.

"Boom boom boom!"

The Thunder God's palm struck out, and the world was filled with Thunder!

Boom, boom, boom!

In the blink of an eye, endless divine lightning exploded and attacked the surrounding space. It attacked indiscriminately, wanting to completely destroy the twenty-four heavens!

"Hahaha, the power of the Thunder God is indeed extraordinary. However, it has no effect in the 24-sky Pagoda!"

Vair ū p ā K a gathered the power of the 24 stupa and finally revealed itself in the sky.

Ye chen could not see his figure but with the heavenly spirit Buddha's eyes, ye chen could still sense his existence.

"Visrava, I'll let you understand today that there's always someone better!"

"Are you more powerful than the Buddha Emperor before he died? This King will not believe it. If you don't submit, then die!"

"You can't measure the height of the heavens!"

Relying on the heavenly spirit Buddha's eye, ye chen determined the location of Visrava. The nine Thunder God seals continued to bombard Visrava. Thunder Dragons flashed and lightning flashed. Thunder shook the sky. The vast energy continued to attack, shocking Visrava greatly.

"Impossible. You've lost all your five senses. How can you tell where I am?"

"My fate with Buddha is not something you can imagine. Don't even think about using this method to deal with me!"

Ye Chen sealed off his mind and relied on the heavenly spirit Buddha's eye to continue locking onto the position of Visrava. Having no vision was better than having vision. Such an understanding of Buddhist power shocked Visrava.

Back then, when the young Buddha Emperor came here and faced this formation, he wouldn't even be so confident. Where did this young man's courage come from?

While Varisha was hesitating, Ye Chen had already ascended.

"Burning Sky melting earth hand, six paths of reincarnation fist!"

At the same time, Ye Chen's powerful supernatural power appeared. He wanted to catch Varisha off guard and suppress him first. However, what kind of person was Visrava, the Dharma King? Although it was only a Phantom in front of him, he still had the strength of a celestial immortal.

"Stupa!"

With a cold shout, Varisha released the power of the six stupa and instantly attacked from the sky. In the direction of Ye Chen's attack, the six stupa flickered with Buddhist light at the same time. All the offensive energy was absorbed by the stupa and there was no destructive power at all.

"What?"

Ye Chen was slightly surprised. He did not expect the pagoda to be so powerful that it could even absorb energy other than Buddhist Dharma at such a rapid speed.

"Ye Chen, you're finished!"

Varisha once again summoned the six stupa. The twelve stupa rotated above Ye Chen's head at the same time, forming a huge cage that trapped Ye Chen inside.

This cage sealed Ye Chen's connection with the surrounding space. It was impossible to absorb energy from the surrounding space.

In the face of Varisha's powerful encirclement, Ye Chen's entire body was protected by dragon energy, forming dragon scale armor. Holding the celestial Thearch sword, he soared into the nine Heavens.

Zila, Zila, Zila!

At that moment, the twelve stupa released the Buddhist light lightning chain at the same time and wrapped around Ye Chen's body.

Ye Chen felt that the energy of these lightning bolts was completely different from that of the heavenly Dao Thunder God. It was difficult to absorb it by force and might even create new dangers. It was even more difficult to break through by force.

The power of the 12 Buddha Stupa was already so strong. How strong would the 24 Buddha Stupa be if they were to attack together?

"You're already qualified to be proud," Varisha said with a smile. "You're able to force me out of the 12 stupa when you're in the realm of true immortality. After all, when the Buddha Emperor first entered this formation, he only made me come out of the 16 stupa."

"It's not enough!"

"What?"

Upon hearing ye Chen's words, Visrava was furious. From ye Chen's tone, he could tell that the other party did not care about his twelve stupa at all. How could he tolerate such an arrogant child!

"Kid, arrogance is a character, but it will often cause you to be consigned to eternal damnation!"

"I said Yingluo isn't enough!"

"You! You should die!"

Vira a was furious. He pressed his Buddha Palm down and two stupa appeared again, pressing down on ye Chen's head. With fourteen stupa pressing down at the same time, even a peak abstruse immortal would be turned to ashes in an instant.

At this level, Vishrava believed that ye chen would definitely surrender or even die. He wanted to see how long this kid could hold on.

#### [Chapter 2212 Twenty-Four Buddha Blood Buddha Killing Formation!](#)

With fourteen stupa suppressing him at the same time, ye chen was facing an unprecedented pressure.

"Phew, phew, phew!"

In fact, vairma a released the Holy Buddhist flame and began to burn the entire space. He wanted to further compress ye Chen's living environment and force him into a desperate situation. This was because the fourteen stupa was already the limit vairma a believed. Back then, the Buddhist Emperor was only sixteen stupa. How could a puny human true immortal surpass the limit of the fourteen stupa?

Under the burning of the Holy Buddhist fire, ye Chen's predicament became greater and greater. This was because the Holy Fire was burning the Buddhist power in his body.

As his Buddhist power was gradually consumed, ye Chen's ability to control the position of Visrava would inevitably decrease at the same time. This was Visrava's true plan.

"Don't even think about consuming my Buddhist power!"

Ye chen naturally realized the seriousness of this. Once the Buddhist power was exhausted, he would be blind.

"Darkness pool!"

He released the power of the darkness pool and the sky Snake Black Tortoise reappeared.

"Roar!"

The heavenly snake roared. The Black Tortoise was overbearing. The surrounding Holy Fire was forcefully absorbed by the heavenly Snake Black Tortoise, reducing the pressure on ye chen.

Visrava was shocked at first, but he soon smiled. He looked at ye chen and said, "hahaha, you want to rely on this kind of mystical power to forcibly absorb the Buddhist Holy Fire released by this King? you'll die a worse death!"

At this time, ye chen felt a change in the ancient God Space. He had absorbed a large amount of energy that exceeded the limit before but he had never felt this way. It was clear that the sacred Buddhist fire would be a great restriction on the ancient God Space in the future.

"You should be able to feel it now. No matter what kind of physique you have, you can only be defeated in front of the Holy flame!"

"Hahaha, what a pity, you've miscalculated my physique!"

Suddenly, ye chen retracted the power of the darkness pool. At the same time, he combined it with his ancient God Power and reappeared the black gold glazed body.

Buzz, buzz, buzz!"

As the black-gold glass covered his entire body, ye chen bloomed into the nether King war god form.

"Ah!"

With an angry roar, ye Chen's body was covered with wings. The light of darkness rushed to the sky and earth, resisting the power of the Holy Fire and attacking the fourteen stupa.

"Kill!"

Ye Chen's hands transformed into black-gold glass and turned into Wolf claws, madly cutting at the life in the sky.

Under the Wolf's claws, the Holy Fire shattered in the sky and could not stop ye Chen's movements.

"Impossible!"

The scene in front of him had already exceeded Visrava's imagination. If the fourteen stupa could not suppress ye chen, could it be that his talent was above the Buddha Emperor 's? How could this be possible?

Vari avara did not believe that ye Chen's talent was so strong. However, how could he explain the scene in front of him?

"Buddha Emperor's Saint palm!"

At the critical moment, Visrava activated the Buddha Emperor's divine might and activated the Buddha Emperor's sacred palm, wanting to kill ye chen in one fell swoop.

"Phew, phew, phew!"

Under the guidance of the Buddha Emperor's Saint palm, the Grand sacred fire rose again and burned the entire space.

However, before the black gold glazed body, even the Buddha Emperor Holy Fire could not cause ye chen any substantial damage. Ye chen spread his wings and descended.

"He still can't block it?"

Vishamen's brows were covered in cold sweat and his whole body trembled. All his original expectations had failed. If he wanted to fight ye chen, he could only give up his fearless dignity and release a stronger stupa power.

"Alright, I'll let you witness the sixteen stupa that stopped the Buddha Emperor back then!"

Finally, Visha released the power of the 16 pagodas. The 16 pagodas were killed at the same time, which was a great burden on Visha himself.

"Momo, Momo, Momo ..."

As the Buddha's words and incantations were cast, Visrava released his Foundation. Sixteen stupa appeared at the same time, floating above ye Chen's head.

The sixteen stupa appeared at the same time, but it was very different from the fourteen stupa. Ye chen felt the pressure on his body increase tenfold.

Such power made ye chen lose the capital to charge and kill, so he could only temporarily stop.

Zila, Zila, Zila!

The Golden lightning of Buddha's light descended once again. Combined with the power of the Holy flame, it forcefully suppressed ye chen within the floating slaughter formation.

These golden lightning bolts bombarded ye Chen's black-gold glazed body but could no longer cause any fundamental damage. Although he was in severe pain and his dragon scales were shattered, ye chen could quickly recover with his superb Life Recovery ability.

"Visrava, if you can't stop me, why don't you activate the power of the 24 stupa directly? or do you not have the ability to activate such power?"

"Hahaha, ye chen, don't even think about trying to find out my bottom line. The sixteen stupa is the limit of being a Buddha Emperor. Now that I'm dealing with you, do you think I can do more?"

" 16 pagodas, what a joke. I will destroy your most humble thoughts now!"

"Roar!"

The Dragon Qi around ye Chen's body erupted. The black gold body was not afraid of any attacks and charged at him again.

"Universe collapsing lightning strike!"

Gathering all the power in his body, coupled with the nine Thunder God Dharma forms, ye chen launched his strongest punch.

The earth trembled as the divine lightning turned into a Dragon and shot into the sky. It broke through the encirclement of the sacred fire and repelled the Golden lightning before charging straight for the center of the sixteen stupa.

"Boom boom boom!"

There was a shocking explosion, and the entire space was instantly split open. Countless different spaces appeared one after another. At this moment, the sky was chaotic and unpredictable. The sixteen stupa was broken at the sound.

"Whoosh, whoosh, Whoosh!"

The 16 stupa exploded one after another and charged in all directions.

"Return!"

At this moment, vairmah ā ta had no other choice but to take back the sixteen stupa.

"Hahaha!"

As ye chen laughed wildly, his sword energy soared to the sky. The celestial Thearch sword slashed the universe again.

"The celestial Emperor has ordered the destruction of the misty Heavenly Sword!"

With a command from the celestial Emperor, the nine firmament sword Qi stirred up wind and thunder, and the stupa was destroyed without a trace!

The sixteen stupa had been controlled by ye Chen's sword Qi. They could not return under vari A's command. Instead, they were suspended in the sky, forming a stalemate.

"Momo, Momo, Momo ..."

Varisha MA chanted an incantation to strengthen the connection between the stupa, hoping to take it back, but he still couldn't do it.

Now that things had come to this, Visrava knew that ye chen had definitely surpassed the previous Buddha Emperor. His talent was simply unprecedented!

"Kill!"

When ye chen came, the sword Qi of heaven and earth could not resist. Visrava felt the greatest danger.

"You forced me to do this!"

Suddenly, visar A's eyes turned red, as if he had made the most difficult choice.

"Hahaha, so what if I force you?"

Ye chen was not afraid of Vira A's arrogance. Only by defeating the person in front of him could he continue to move forward.

"Twenty-four Buddha blood Buddha killing formation!"

Visha sacrificed his own spiritual energy to brew the strongest stupa killing array. It was the power of the 24 stupa. However, it needed all of his spiritual energy to drive it, or it would be difficult to execute.

Buzz, buzz, buzz!"

Vishar's figure gradually dissipated and turned into blood Qi. The 24 stupa sensed Vishar's sacrifice and descended.

The stupa that was previously controlled by Ye Chen resonated at the same time. They broke free from their restraints and all rose to the sky!

### [Chapter 2213 The Celestial Search Goes Against The Flow, Only I Am The Dao!](#)

Visha wanted to kill Ye Chen after completely releasing his Ultimate Combat strength.

Facing the twenty-four blood Buddha Stupa, Ye Chen knew that he could not retreat in this battle. Only by breaking through himself would he have a chance of survival.

"Hahaha, Ye Chen, you're a good boy. To think that you can force this King to this extent. That's good. It's been so many years since I've activated this strongest form. I want to see you die here, and your soul, flesh, and blood will be absorbed by the blood Buddha. "

Ye Chen had caused too much damage to Visrava. Visrava's resentment had completely condensed. In the end, he had activated the twenty-four ultimate blood Buddha Stupa power by sacrificing his own soul. If Ye Chen died here, he could replenish Visrava's soul power and greatly increase his recovery speed. This was one of the reasons Visrava dared to sacrifice himself to activate the ultimate stupa.

Otherwise, once the activation of the ultimate Pagoda failed, not only would Vair ū p ā K A's spiritual body be destroyed, but the fourteen pagodas would also be controlled by the opponent. It would be either you die or I die!

Ye Chen had noticed this a long time ago. With the memories of the heavenly spirit Buddha, Ye Chen had an understanding of the twenty-four ultimate pagodas. He had deliberately provoked Var Ana to make him activate the ultimate Pagoda because the twenty-four ultimate pagodas had a strong connection with the sacred monument. Ye Chen had subdued them to forge the sacred cup!

"Ye Chen, you're finished. Die!"

Visar A's blood gushed out and filled the nine Heavens. The 24 blood Buddha Stupa absorbed the power of blood and entered its ultimate form.

"Boom boom boom!"

The killing formation was activated and the twenty-four stupa was suppressing Ye Chen at full power. Ye Chen felt as if his body was Mount Tai and could not move at all. He could only watch as the twenty-four stupa came crashing down. Life and death were at hand.

"Hahaha!"

Ye Chen suddenly laughed, surprising Visha. However, at this time, there was no need to pursue anything. There was only life and death!

"Blood Buddha massacre!"

Varisha unleashed all of his stupa and jolted the air. The bloody Buddhist power swept down like a red tide. The barrier around Ye Chen's body was instantly torn apart. The Dragon energy protection was

shattered in the air and could not resist the red tide jolting attack at all. Such power could easily kill a heaven immortal. Ye chen was only a true immortal. If calculated according to the average true immortal's calculations, the moment the red tide pressed down, his body would explode and die.

However, as the red tide pressed down rapidly, ye Chen's body could still remain calm. He was still many levels above ordinary true immortals, but this was just waiting for death!

"Hahaha, kill! Let your blood become the best nourishment for the return of this King's soul. As long as I can obtain the divine power in your body, this King's sacrifice this time is nothing. Even if I obtain your body, this King can condense a true body and achieve unparalleled achievements. All the plans are right before my eyes. Ye chen, bow down with your life and become a stepping stone for this King!"

Varisha once again strengthened his own sacrifice, allowing the power of the twenty-four blood Buddhas 'jolting kill to be fully unleashed, not giving ye chen any chance.

In the face of such a Grand force, ye chen no longer hesitated and responded with his strongest move.

"Eight gates, seven stars Life Lock, Celestial Emperor-go against the flow, I am the only Dao!"

The Dao of heaven damaged what was more than enough to make up for what was not enough!

Ye Chen's reincarnation no longer possessed the heavenly Emperor's might but the heavenly Emperor's primordial spirit had never been lost. The connection between the power of the heavenly Dao had never been cut off. Only by understanding this could one be the true reincarnation of the heavenly Emperor!

"Boom boom boom!"

Thunder and lightning, the sun and the moon; The appearance of the celestial Thearch's primordial spirit meant the return of the Dao of heaven and earth!

"Roar!"

With a furious roar, the heavenly Snake Black Tortoise turned into its strongest defense, resisting all the destructive power. At the same time, the eight-gate divine disc floated in the sky. The eight gates opened together, drawing the power of the Big Dipper to lock onto the Wheel of Destiny and activate the heavenly path and destiny.

"Zi Zi Zi!"

Behind ye chen, the shadow of the celestial Emperor's primordial spirit appeared. It was extremely majestic, combining the two great divine powers of the ancient God and the underworld God to form its strongest form.

All the energy transformed into the Word "Dao", which was vaguely engraved between ye Chen's eyebrows. It was the symbol of the heavenly Dao.

"Ancient God's eye, evil Demon's Eye, magic martial eye, heavenly spirit Buddha's eye!"

Ye chen activated the strongest energy of the four major eye techniques and fused it with his divine power heavenly Dao. He condensed the elementary-level eye of heavenly Dao between his brows.

"Zi Zi Zi!"

The eye of heavenly Dao glowed, and the Wuji form turned around. The entire space was enveloped by the divine power of heavenly Dao.

"Kill!"

Seeing that ye Chen's Energy Index was growing stronger and stronger, although varipha a was full of confidence in his twenty-four blood Buddha Stupa, he still actively attacked and killed ye chen, not giving him a chance to gather his power again.

"You've lost your chance, ye chen!"

"Hahaha, you're the one who doesn't have a chance!"

In the face of an extreme threat of death, ye chen had made a solemn vow without any scruples.

"Everything about you has already appeared in the eye of heavenly Dao. I can see everything about you, but you can't even see the skin of my divine abilities. This is the difference between you and me!"

"Zi Zi Zi!"

The light of the heavenly Dao illuminated the world. The core of the twenty-four blood Buddha slaughtering array instantly appeared in ye Chen's mind.

"The celestial Emperor has ordered the destruction of the misty Heavenly Sword!"

The same divine power, when released in different forms, would have completely different power. The strongest form was the celestial Emperor form, holding the celestial Emperor sword, releasing the strongest move of the celestial Emperor token, breaking through one's own limits, and then waiting for the peak of the sky, aiming at the core position, and breaking the sky with one sword!

"Zi Zi Zi!"

The majestic sword Qi destroyed the heavens and earth and rushed straight to the core of the killing formation. With a loud bang, the universe changed. The strongest connection core of the twenty-four pagodas instantly exploded and shattered.

"Impossible!"

Under the attack of the heavenly Sword, visar A's last bit of primordial spirit power shattered in the air and turned into nothing.

Zila, Zila, Zila!

The Golden lightning continued to flash. Although the twenty-four blood Buddha killing formation was broken, the twenty-four blood Buddha Stupa was in a chaotic state that no one could control. The boundless destructive power completely annihilated all life in the surroundings. Be it plants or animals, they were all destroyed!

"Seven Star life Lock!"

At this moment, ye chen had activated the seven Star life Lock with the help of the heavenly Emperor body. A Grand formation shrouded the twenty-four stupa to limit their violent movements and collisions.

However, the most powerful force had already destroyed the primordial spirit of Visha. At this moment, the form of the heavenly Emperor could no longer hold on, and the shadow of the heavenly Emperor dissipated instantly.

"Ah!"

Ye chen felt that he could not control his body. Due to the great consumption of energy, the twenty-four blood Buddha Stupa had automatically absorbed the blood in his body.

Ye chen watched as his blood continued to flow toward the twenty-four stupa. He knew that this was a sign of death.

Although he had killed Visrava, his real opponent was the 24 blood Buddha Stupa.

As they absorbed ye Chen's blood, a blood Buddha appeared on each of the stupa. At this moment, the stupa had developed its own consciousness and wanted to devour ye chen to complete its own achievements!

"Hahaha!"

The blood Buddha's laughter resounded through the sky. Could it be that everything was fate?

#### [Chapter 2214 Stupa Sacred Monument!](#)

The twenty-four blood Buddhas revealed themselves and circulated the power of the stupa. They immediately suppressed ye chen.

The situation before him was even more dangerous than before. Without the protection of the celestial Tearch primordial spirit, ye Chen's body was extremely weak. He was practically on the verge of death.

"Ye chen ... Ye chen ..."

The Buddha's voice continued to ring out in the air, causing a mental disturbance. It continued to strengthen the suppression of ye Chen's psyche.

At this moment, once ye Chen's mentality was lost, he would be like a fish on a chopping board, waiting to be slaughtered.

"What's so great about varipha a? the blood Buddha is the ruler of the Buddha!"

"Submit to the blood Buddha, ye chen. This is your only way out!"

"Shrewdness, let us control your body and achieve Supreme achievements. This is your greatest honor!"

All kinds of Buddha's voice reverberated and constantly disturbed ye Chen's mind. In such a state, under the suppression of the twenty-four butchers, even a heaven immortal could not resist the power of the blood Buddha. How could ye chen deal with it?

"You want to control my body? hahaha, what a joke!"

In the face of death, ye chen had long been enlightened. He instantly opened the gate of life of the eight-gate divine disc.

"Zi Zi Zi!"

The life gate opened. With the ancient God Body and darkness pool, ye Chen's body began to recover rapidly. The speed of recovery surpassed any divine ability or secret technique. It was extremely abnormal.

"What?"

The blood Buddha naturally sensed that something was wrong with ye chen. In the blink of an eye, his body had recovered by thirty percent. Soon, the strength of his body rose sharply and even his psyche was recovering rapidly. This was the first time the blood Buddha had encountered such a situation.

"Don't even think about recovering!"

The blood Buddha activated the Buddha power and continued to suppress ye chen. Then, it absorbed the blood in ye Chen's body, trying to suck ye chen dry.

"You're too slow!"

If ye chen was at his weakest, the blood Buddha would still have a one in ten thousand chance. However, now that ye chen had opened the life gate and combined with the darkness pool, he had already transcended the blood Buddha's control with his powerful recovery energy.

"Dragon Fist, splitting the heavens!"

With a punch, the nine Dragons roared and exploded with a powerful force, instantly cutting off the blood Buddha's attempt to absorb ye Chen's blood. All that could be seen was the realm of explosion.

Boom, boom, boom!

No matter how powerful the Dragon Qi was, even the blood Buddha could only Dodge the attack temporarily. Otherwise, if he was injured by the Dragon Qi, his situation would only get worse.

"Ye chen, we've underestimated you!"

"Ha, you are too slow in your comprehension. The 24 blood Buddha Stupa is in my possession!"

"You're too confident. You just had a life-and-death battle with Visha, and now you want to fight against us?"

"Then let's see who's the one who doesn't know the immensity of heaven and earth!"

Ye Chen's eyes suddenly glowed with a dark, cold light. He was going to put his body through another life-and-death trial.

The eight-gate divine disc churned once again. This time, ye chen had activated the death Gate!

When the gate of death opened, ye chen instantly felt that his body's power had increased three hundred times. Yes, he was using life sacrifice to increase his maximum power. The ultimate gate of the eight divine discs was also the gate of destruction, which was the gate of death!

Ye Chen felt as if his heart was about to explode. All the meridians in his body had transformed into a powerful red flame. Such meridians were too shocking.

"Zi Zi Zi!"

All kinds of energy in the body could be completely unimpeded in such a Meridian. This red flame Meridian could even make the speed of these energies to reach the limit, even beyond the limit!

The powerful energy caused Ye Chen's entire body to burn, turning into the flaming ancient God Body!

"Hahaha!"

His maniacal laughter was overbearing, as if he was the only one in the world.

Boundless killing intent filled the sky and the earth. No matter how strong the twenty-four pagodas were, they could not escape the control of Ye Chen's barrier.

"Damn it!"

The twenty-four blood Buddhas were furious at the same time. All the stupa bloomed with blood light at the same time. This was the ultimate battle.

"Blood Buddha's light, brilliant divine demon extermination!"

All the stupa aimed at Ye Chen at the same time, wanting to kill him.

However, in the face of the twenty-four stupa's killing blow, Ye Chen's lips curled up slightly. There was no fear at all. In fact, he even looked excited. After opening the death door, there was only one thought in his mind, and that was to kill!

"Kill!"

Ye Chen's eyes were bloodshot as he transformed into his werewolf form. The Call of the Wild and the power that exceeded his body's limits shocked even the blood Buddha who had killed without end. All the stupa trembled. Their spirituality told them that the opponent before them was a lunatic, a demon, an existence that even the gods would not dare to face.

"Whoosh, whoosh, Whoosh!"

A blood lotus bloomed beneath Ye Chen's feet. Everywhere he went, he was burned by raging flames. There was no life for a thousand miles!

Buzz, buzz, buzz!"

In the sky, Ye Chen's figure turned into a blood-colored meteor, constantly streaking across the stupa where the blood Buddha was.

The twenty-four blood Buddhas were unable to react in time to such speed and power.

This was 300 times the speed and power. Even a heaven immortal would be instantly killed by such an impact!

Countless blood-red meteors streaked across the sky. In the end, in the silence, the surrounding environment was silent as if this place had fallen into ice. It had fallen into a state of no life. This was extreme cold, this was silence.

Only when a mass of fiery Lotus appeared in the nine Heavens could one see the radiance of life again, blooming in front of one's eyes.

The bodies of the blood Buddhas shattered and turned into spiritual bodies that were sealed within the stupa.

"The 24 stupa, return to me!"

Ye chen gave the order and the twenty-four stupa was forcefully summoned and returned to ye Chen's side.

"Buddha Emperor's sacred tablet!"

He threw out the Buddha Emperor sacred tablet. In an instant, the power of the sacred tablet filled all the stupa. The 24 stupa rotated on the sacred tablet and their powers merged.

In the end, the twenty-four stupa turned into runes of Buddha and was engraved on the sacred tablet, becoming a part of it.

"Zi Zi Zi!"

After obtaining the power of the twenty-four stupa, the power of the sacred monument soared directly. The vast Buddhist light soared to the nine Heavens and covered ye chen with countless auspicious clouds. Ye Chen's body was like a spring breeze. His injuries had all recovered.

Restoring his original form and activating the power of the gate of death would originally cause great damage to his body. It might even cause permanent damage. However, with the power of the sacred monument, ye chen did not suffer from any aftereffects. After his body had been cleansed, his ancient God Body and the power of the source of darkness had fused perfectly.

The flames of war subsided, and everything returned to normal.

After mastering the stupa power, ye chen successfully passed the second stage of the Buddha Emperor Peak's test and continued to climb.

On the other mountain paths, demon master bi 'an, Lord Xie, venerable fiery dragon, and the other experts looked solemn. They had already realized that someone had broken through a major barrier and might have found a powerful treasure or some mysterious power.

"Damn it, who is it? is it ye chen?"

Demon master bi an roared in anger. He had already split up with the rest of the mo Wu world to find a better inheritance!

### [Chapter 2215 Heaven's Path Mark!](#)

After leaving the middle section of the top lane, ye chen had successfully entered the upper section of the Buddha Emperor Peak.

Here, the scene ye chen saw was completely different from other places. There were Vermilion Jade and beautiful stones everywhere. The Buddhist light was resplendent and the Buddhist power in the surrounding air was extremely pure. It could even be absorbed directly for cultivation. It was a hundred times stronger than in the outside world.

A hot spring appeared in front of him. It contained a strong Buddhist power, and even the beautiful stones inside were emitting a strange light.

"Mm ..."

Ye chen focused his attention and found that the beautiful stones were engraved with special patterns. With just a glance, the patterns were engraved into the observing mind.

Following that, a series of illusions appeared in his mind, demonstrating the content of the lines after they had been visualized.

"Could it be a Suan ni heavenly Dao imprint?"

Thinking of this, ye chen did not say anything. He took off his shirt and jumped into the water.

The moment he entered the water, ye chen felt all the fatigue in his body disappear. It was as if he had entered the Holy realm. The comfortable feeling made him relax and he slowly closed his eyes.

Sensing the structure of the entire hot spring, ye chen could sense that the hot spring was formed by the fusion of Buddhist power. Under the spring, there were many jades. On these jades, the patterns were engraved. They were the heavenly Dao imprints.

Ye chen was not in a hurry to study the heavenly Dao imprint. Instead, he quickly absorbed the Buddhist power emitted by the spring eye. This way, his physical strength would be completely restored to its peak state. This was because the venerable jiejun had said that although everyone had entered their own mountain paths, they might still meet each other in the end. This place was very much like a gathering place for those who had passed the test.

After an unknown amount of time, ye chen opened his eyes and felt that his entire body was filled with energy. All the side effects of the life-and-death battle earlier had disappeared without a trace.

"What?"

Suddenly, he felt an abnormal energy appear in the surroundings. Looking over, he saw an expert in another hot spring pool. Upon a closer look, he realized that it was demon master Yan Yan.

"Hahaha!"

The demon Lord's laughter rang out, causing ye Chen's eyes to turn cold.

"Ye chen, you didn't expect this, did you? I, the demon master, have also broken through the second stage of the test and come to this Buddha pool!"

"Hmph, so what? do I care about these things? Everyone has their own opportunities. You're lucky to be here, so you should focus on your cultivation!"

After saying that, ye chen touched a piece of Jade and felt the heavenly Dao imprint within.

"How carefree. It's a pity that the Buddhist pond you're in is a low-level one, and the heavenly Dao marks in it are the most basic existences. It can't be compared with the place where I'm in. How about it? are you disappointed?"

"Idiot, shut up!"

Suddenly, ye Chen's domineering reply made demon master bi 'an's heart tremble. He felt waves of powerful killing intent pressing down on him. These killing intents were coming from the blood Buddha Stupa.

"Hmph, there will be a time when this demon master takes care of you!"

The demon master had also entered a state of cultivation. The opportunity to obtain the heavenly Dao imprint was rare. He did not want to waste his time arguing with ye chen.

Ye chen touched the Jade stone. The imprint on it was indeed simple and easy to understand. However, ye chen did not lose interest just because of this. Instead, he continued to grasp and think. He believed that there must be a reason why heaven had allowed him to enter this Buddha's pool.

After some thought, ye chen discovered a certain rule of creation for these heavenly Dao imprints. This rule could only be obtained through the most basic heavenly Dao imprint.

"Hahahaha!"

Ye chen laughed out loud. He had already realized that if he wanted to understand the profound meaning of the heavenly Dao imprint, he had to start from the simplest imprint.

The laughter affected demon master bi 'an but he was disdainful of ye Chen's laughter. He thought that ye chen was just deliberately disturbing his cultivation.

Relying on his superior talent, demon master Yan Yan had now comprehended a rank three heavenly path imprint. This kind of heavenly path imprint could already be used as a means of attack. It was very special, so demon master Yan Yan's confidence instantly exploded.

However, after about six hours, venerable fiery dragon, venerable Cold Moon, evil Paragon Lord, heavenly cosmic evil Lord, and the others arrived one after another.

Evil Dominator and venerable fiery dragon had also descended at the third rank mark Buddha's pool. On the other hand, venerable Cold Moon and heavenly cosmic evil Lord had descended at the terrifying fourth rank mark Buddha's pool. This made the powerhouses other than ye chen extremely envious. Of course, they would not show it directly. They would only remember it in their hearts.

"Hahaha, ye chen, you're only cultivating in this low-grade Buddhist pond and you've never left. Can't you even understand the most basic imprint?"

Lord Xie sneered when he saw ye chen.

Ye chen was the one who had defeated many of the evil spirits 'forces. The evil spirit powerhouses hated him to the core. Now that there was a chance to make fun of him, he would not miss it.

However, in the face of such sarcasm, ye chen pretended not to hear it. He had too many things to do.

That was because he realized that there were more imprints than he could imagine in this lowest-level Buddhist pond.

"Ha, could it be that all the basic imprints are in this Buddha pool?"

If that was the case, ye Chen's arrival at the Buddha's pool this time would not only not cause any losses, but he might even be the biggest beneficiary. This was because once the most basic imprint contained in the Buddha's pool was controlled, could he create a high-level imprint?

Ye Chen was the reincarnation of the heavenly Emperor, so he naturally had a deeper understanding of the profound meaning of cultivation. He understood that no matter whose inheritance it was, if one only focused on the inheritance itself, one would never be able to make a higher breakthrough. Only by mastering the fundamental laws and then creating them was the advanced means of cultivation.

At a glance, ye Chen discovered something even more surprising. This low-grade Buddhist pool was actually extending its range. This meant that the number of basic imprints contained in it might be much more than he had imagined.

"Let's form the Three Pure Ones together!"

How could ye Chen give up such a wonderful opportunity? he released his clones and rushed in three different directions.

Seeing this scene, the other super experts all revealed looks of disdain and contempt.

"This kid is indeed unable to understand high-grade imprints. He still wants to stay in this low-grade Buddhist pond? What a pity!"

"That's right. These are the most basic imprints in this low-grade Buddhist pond. This is the arrangement of the heavens. He can only enter this low-grade Buddhist pond. I guess it'll be difficult for him to come out."

"Hahaha, isn't it easier to trap this kid in this low-level Buddhist pond?"

"You're right!"

The powerhouses nodded at each other and laughed at ye Chen. However, they did not know that ye Chen had already mastered the most basic heavenly Dao imprint. This was the true meaning of the imprint that they had never had the chance to encounter.

The four figures wandered around the low-level Buddhist pond, constantly absorbing the low-level imprints and then rapidly analyzing them through the ancient God Space. Soon, ye Chen had mastered hundreds of the most basic heavenly Dao imprints. He could even use these imprints to create simple rank two imprints.

"Mysterious, truly mysterious!"

[Chapter 2216 The 108 Basic Imprints!](#)

Ye Chen cultivated for forty-nine days in this low-level Buddhist pond. Finally, he had absorbed all the basic imprints.

"Thirty-six heavenly spirits, seventy-two earthly fiends, a total of one hundred and eight heavenly Dao imprints, finally completed!"

He rose from the pool and the other three clones returned at the same time, completing ye Chen's power. The one hundred and eight basic imprints turned into one hundred and eight balls of light, floating around ye chen.

At this time, the powerhouses in the other Buddhist ponds all looked at ye chen.

Demon master lang wo sneered. "This brat has to cultivate for 49 days in the lowest-grade Buddha pool. I don't think he has the chance to even enter the second-grade Buddha pool."

"That's good. We don't have to worry about this kid doing something strange. " Venerable fiery dragon said. Ye Chen's previous actions still left him with a lingering fear. He did not want ye chen to achieve amazing results in this Buddha's pool. This heavenly Dao imprint was left behind by the Buddha Emperor when he cultivated. It was too valuable!

Master Cold Moon looked at ye chen with a heavy expression. He felt that something was not right but could not pinpoint it accurately. He was in a bad mood.

"This kid is abnormal. According to his talent, does he really need to cultivate for 49 days in this low-level Buddhist pool? or has he found something that has been forgotten by other powerful people?"

The doubts in her heart could not be quelled. She decided to continue watching ye Chen's every move. She must find out his secret.

After leaving the lowest Buddha's pool, ye chen walked toward the high-class Buddha's pool.

And now, there were already many experts in the high-class Buddhist pond.

The second and third-grade pools had the most people.

The Buddhist pond that ye chen had his eyes on was occupied by an evil spirit powerhouse. When he saw ye chen coming over, he showed a disdainful expression.

"Brat, are you here to die?"

The evil spirit's tone was unyielding, and his eyes revealed a threatening look. If it wasn't because he was comprehending the rank 2 heavenly Dao imprint, he would have stood up and killed the enemy in front of him. However, he didn't know that his life had come to an end with these words.

"Get out of the Buddha pool and behead me 108 times. I'll give you a quick death!"

Ye chen sneered at the evil spirit. This person was a true immortal level evil energy warrior. When he heard ye Chen's words, he was instantly enraged.

"Bastard, how dare you talk to me like that? die!"

That powerhouse was a low-level cultivator from the Holy monument test. This time, he wanted to show his power against ye chen and wash away the shame of being looked down upon. As long as he killed ye chen, he could openly say that he had surpassed a genius!

"Kill!"

The evil spirit powerhouse flew up, bringing with him countless splashes of water. The heavenly Dao imprint below reacted at the same time. After dozens of days of comprehension, the powerhouse had a basic understanding of the second-grade heavenly Dao imprint. Although he could not control it naturally, he could still use the power of the imprint.

The reason why ye chen had taken a liking to this place was naturally because the mark on the pool contained a powerful energy.

After absorbing and refining the one hundred and eight basic imprints, ye Chen's ability to sense the heavenly Dao imprint was unparalleled.

"The evil power that covers the heavens, come and die!"

The evil spirit powerhouse roared. Two long arms and sharp claws grew out of his back and clawed at ye Chen's head as if he wanted to tear everything in front of him apart.

"[Starseizing hand]!"

In the face of such a powerful claw, ye chen raised his hand slightly. Suddenly, the Starlight condensed into a huge palm and grabbed the powerhouse's long arms. Then, there was a loud explosion. The long arms were shattered and the dark energy dissipated.

Ye chen sneered, "such a lowly mystical power and you dare to be arrogant in front of me. It seems that I've overestimated you." Since there's no fun in fighting, let's end it!"

His eyes turned cold, and his sword Qi soared into the sky like the peak of a mountain. It was the Super Gravity sword!

"Boom boom boom!"

The sky trembled, and the moment the sword Qi descended, the body of the dark-Energy Master was instantly crushed like a mound of earth, and blood flowed out.

When the other evil spirit powerhouses saw this, they were all furious. They did not expect ye chen to dare to kill an evil spirit member in front of so many evil spirit powerhouses.

"Hualala!"

When ye chen stepped into the pool, the heavenly Dao imprint became even more restless. It was as if it had sensed ye Chen's abnormality and hoped to jump out of the water. In the face of such a phenomenon, ye chen naturally agreed to help them talk about imprints.

"Get up!"

He twisted his Buddhist finger and flicked it up into the air. Instantly, the heavenly Dao jades in the pool flew out and floated in front of ye chen.

This scene shocked everyone.

Lei Yun Zhenren was the first to reveal a look of disbelief. He said, "This person has only received the lowest level of baptism in the Buddha pool. This is the will of the heavens. How is he able to cause these rank two heavenly Dao imprints to be so agitated?"

"It is indeed amazing." Venerable fiery dragon furrowed his brows in displeasure. The rank two mark of the heavenly path was not very powerful in the eyes of those with high cultivation. After all, after 49 days, these demon subduing, true evil, and heaven immortal experts had broken through their own limits and upgraded to the rank three or even the rank four Buddha pool.

However, every time ye chen broke through, it would make them nervous. This was because ye chen had caused too many strange things in the past. Even those who belittled ye chen were very afraid of him.

This was especially true for those super powerhouses. They had a wealth of experience and understood that a figure like ye chen was hard to come by in ten thousand years. If he was not killed in the "cradle", there would be endless trouble in the future.

"Hmph, it's just a second-grade Buddha Pond. What's there to worry about? let's start from the lowest-grade Buddha Pond. If your Foundation is too weak, just wait for death!"

The Fiend supremacy Skydragon of the magic martial world shouted.

"No matter what level he is, he dared to kill my evil spirit members before I, the Lord, gave the order that all the evil spirit powerhouses can kill him at will without reporting!

"Hahaha, good!"

Many evil spirit powerhouses revealed their ferocity. They had long wanted to defeat ye chen and obtain his power.

At this moment, in the second rank Buddhist pond, ye chen did not care about other people's comments. Instead, he began to circulate the basic imprint and use it to break down the second rank imprint in front of him. This was the fastest way to learn the second rank imprint.

"Zi Zi Zi!"

Ye chen recognized the many second rank imprints around him as imprints of the Big Dipper system.

"Tiangang thirty-six!"

Ye chen activated the basic imprint. The light of heavenly Dao shone out and instantly enveloped the rank two imprint in front of them. Everyone was shocked.

They did not know what had happened or what ye chen was doing. After all, only the basic imprints could break down the advanced imprints. They had not learned the basic imprints yet. When they had comprehended the advanced imprints, they could only rely on their own talents to forcibly comprehend them. How could their speed compare to ye chen 's?

[Chapter 2217 2221-Bone Cultivator!](#)

After the decomposition and evolution of the basic imprint, no matter how complicated the imprint was, a perfect result could be obtained, not to mention a simple rank two imprint.

These rank two imprints glowed with a strange light. These lights contained the characteristics of the imprints themselves. Only ye chen could understand them clearly. Others could only see the light but not the information within.

In less than an incense's time, ye chen had already comprehended all the second level heavenly Dao imprints in the Buddhist pond.

"Hualala!"

Ye chen walked out of the Buddha's pool and looked around. He found that there were still many powerhouses in the surrounding second order imprint Buddha's pool.

He also saw ye Wushuang, old ancestor yellow spring, old ancestor netherworld, and others.

"Great emperor!"

When everyone saw ye chen, they were all excited. After all, ye chen had walked out of the lowest-level seal's Buddhist pond and reached this point. It was still a great improvement. However, they did not know that the purest profound meaning of the heaven's path seal was in the lowest-level seal's Buddhist pond.

The heavenly spirit thirty-six and the earthly fiend seventy-two were the foundation of all heavenly Dao imprints. The other Buddhist ponds had imprints of the same level scattered in many Buddhist ponds. However, the one hundred and eight basic imprints that ye chen had absorbed and refined were only in the basic Buddhist pond. They were the only existences. Once they were absorbed by someone, the basic Buddhist pond would be destroyed!

"You guys focus on comprehending it. Don't worry about me!"

"Yes!"

Everyone nodded and tried to comprehend the imprints in the Buddha pool.

Ye chen walked toward the area of the third-rank Buddhist pond. Inside the third-rank Buddhist pond, there were more people from other forces who had high cultivation levels.

This time, ye chen saw an empty Buddhist pond. The Buddhist energy in it was very thin. Naturally, no one wanted to cultivate in such a Buddhist pond. However, ye chen had never valued the Buddhist energy but the heavenly Dao imprint in it.

Relying on his super sensing ability, ye chen could tell that this was the most perfect rank three imprint.

"Ye chen!"

Just as ye chen entered the Buddha's pool, a furious roar shook the world. Everyone looked over and saw that it was a group of evil spirit powerhouses who had come to provoke them. After all, ye Chen's domineering killing of an evil spirit powerhouse had embarrassed the evil spirit greatly.

"He fangxiao?"

Ye chen did not even look at him. His attention was completely focused on the heavenly Jade. This made the evil spirit powerhouse extremely angry.

"This general nourishes your bones. Today, I'll let all your bone marrow out and make you mine!"

The bone cultivator held a fishing rod and a bamboo basket in his hands. They floated above the board and released dark energy wildly, filling the air toward ye chen.

When the other evil spirit powerhouses saw this scene, they all revealed sinister smiles, thinking that ye chen would definitely die.

"Hahaha, if a bone cultivator takes action personally, ye chen will definitely die!"

"The bone cultivator is an evil spirit general. After absorbing the rank three heavenly Dao imprint, he will become even stronger. It's a piece of cake for him to deal with a puny true immortal who has just entered the rank three Buddhist pool!"

"The evil spirit's hatred, let the bone cultivators end ye chen!"

Many evil spirit powerhouses looked favorably upon the bone cultivator, hoping that he would end ye chen quickly. Not only would they avenge the previous evil spirit powerhouses who had died, but they would also get rid of a future threat.

The bone cultivator sneered slightly and released the fishing rod.

Suddenly, the dark energy on the fishing rod was strange. Countless dark energy transformed into blood-red threads and attacked ye chen. On the threads, sharp bone hooks kept growing. They were extremely fast and locked onto ye Chen's limbs in the blink of an eye.

"Whoosh, whoosh, Whoosh!"

Several blood-colored threads wrapped themselves around ye Chen's limbs. The dark energy spread out and blocked the energy circulation in ye Chen's body.

"Hahaha, brat, you're about to die. Are you scared silly?"

The bone cultivator thought that he had succeeded, because once the blood-colored thread released from his fishing rod entangled the prey, the prey would not be able to escape. All the blood in the prey's body would be absorbed by the blood-colored thread, and then the skin and flesh would crack, leaving only the bones for the bone cultivator to collect and use.

"Squeak, squeak, squeak ..."

After that, the blood-colored threads of the bone cultivator continued to let out ghostly wails, making everyone shiver.

At this moment, venerable fiery dragon and the other powerhouses of the immortal spirit world shook their heads. Although they had also fought against ye chen, they did not want a human genius to die at the hands of an evil spirit.

"This evil Spirit's magical power is very strange. Look at the fishing rod, there seems to be a mark on it!"

Venerable fiery dragon said.

"That's the heavenly Dao imprint that this person cultivated in the third-rank Buddhist pond. The heavenly Dao is vast and teaches without discrimination. This person has absorbed the third-rank imprint and increased the power of his divine power by dozens of times. I think ye chen will die without a burial place this time!" Taoist master leiyun said.

"It's good that he's dead, it saves us the trouble of making a move!"

"That's right. This person is arrogant and has many opportunities. He's our great enemy!"

"Let's see how the bone cultivator will kill this person!"

The powerhouses of the immortal spirit world all revealed their ugly faces, hoping that the bone cultivators would kill ye chen. That way, they would have one less powerful opponent.

Above the Buddhist pool, the bone cultivators sneered more and more excitedly. It was obvious that they were going to start killing.

"Soul binding spell!"

The blood-colored evil energy between the bone cultivator's brows burst out and was transmitted to the blood-colored threads through the fishing rod. Suddenly, countless blood-colored evil energy bound ye Chen's limbs and began to absorb ye Chen's spiritual power.

In the face of such a dangerous situation, even a Mystic immortal would be as nervous as an ant on a hot pan. However, ye chen had closed his eyes and allowed the spirit binding spell to absorb his spiritual energy.

Such actions made the forefather, Wushuang, and the others tremble in fear.

"Emperor, could it be that the soul binding spell has locked onto your soul and rendered you unable to move?" The netherworld patriarch asked.

"This ..."

Old ancestor yellow spring could only shake his head. However, he had always believed in ye chen. Even though he felt that ye chen was in danger this time, he did not want to act rashly.

Ye Wushuang held his sword and was ready to attack, but old ancestor yellow spring gave him a look, telling him not to be impulsive.

,m "Hehehe, sleep, sleep. Ye chen, just sleep to death like this. Let this general absorb your bone marrow and complete this General's great power!"

Seeing that ye chen had no reaction, the bone cultivator sneered. He thought that he had succeeded. Just as he had expected, it did not take much effort to deal with a puny true immortal. After all, after absorbing the third level heavenly mark, the power of his divine power had increased greatly.

"Eh? It's wrong!"

Suddenly, the bone cultivator's eyes turned cold and his brows furrowed.

"Bone cultivator, what's the matter?" An evil spirit powerhouse asked.

"I actually didn't sense his soul power. This isn't normal!"

"Is that true? did you sense it wrongly? has the spiritual power dispersed?"

At that moment, the bone cultivator felt countless dark matter flowing up from his blood-colored threads, causing him to mistakenly think that it was ye Chen's bone marrow.

"Hahaha, I don't care anymore. As long as I absorb ye Chen's bone marrow, my strength will definitely increase greatly." In everyone's eyes, a genius like ye Chen had absorbed countless natural treasures to cultivate his current body and obtain his bone marrow. He was simply a treasure of heaven and earth!

### [Chapter 2218 Dream Cultivation!](#)

Countless dark substances were absorbed into the body of the bone cultivator. Whether it was spiritual power or bone marrow power, they were the favorite things of bone cultivators. As long as ye Chen obtained these things, he would die.

"Ye Chen, give up struggling. I'll devour all your energy!"

The bone cultivators continued to release the blood-colored threads, and the power of the binding became stronger. Ye Chen lay on the shore of the Buddha's pool as if he was in a deep sleep.

The great ancestor, Wushuang, and the others were very worried about ye Chen's condition. However, they followed ye Chen's previous instructions. When they encountered danger, they must first remain calm and trust ye Chen.

"Great emperor, I believe you this time, but you have to give us an answer!"

While absorbing the heavenly Dao imprint of the Buddha pool, they also paid attention to ye Chen's movements. This was what everyone could do now. Improving their own abilities was the only thing that could really help ye Chen.

The evil spirits revealed sinister smiles as they waited for ye Chen to be devoured by the bone cultivators and turn into a dried corpse.

"This brat ye Chen is a great threat to us. He's destroyed our evil spirit bases many times and killed our evil spirit powerhouses. I bet you didn't expect this day to come."

"Hahaha, as expected of an evil spirit general, bone cultivator. This time, I'll use the most painful method to kill ye Chen!"

"It's just that the kid's soul has been devoured by a bone cultivator. He can't even feel pain now. It's a pity!"

When they saw ye Chen leaning against the side of the pool with his eyes closed, the evil spirit and the other powerhouses thought that the bone cultivator's blood-colored threads had controlled ye Chen's soul and made him fall into a deep sleep, gradually walking towards death in his dreams. However, the bone cultivator knew very well that he had not absorbed any of ye Chen's spiritual power.

He had long suspected this but compared to spiritual power, bone cultivators cared more about ye Chen's power of bone marrow. This was where the profound meaning of bone nourishment lay.

"Absorb, absorb, all of you, come over here!"

Countless dark matter entered the bone cultivator's body in the fastest way possible. He felt the powerful energy and was overjoyed. As long as he absorbed ye Chen's energy, he believed that he could undergo a super-evolution and even have the possibility of becoming a true demon. This had been his plan for a long time. Was it really going to succeed?

"Ah ... Hu ..."

Just when the powerhouses thought that ye Chen was going to die, a yawning sound suddenly interrupted their thoughts. Many powerhouses looked in ye Chen's direction in a daze and realized that the yawning sound was indeed coming from ye Chen. They saw ye Chen stretching his back.

"What ... What's going on?!"

The forbidden insect father, who was also an evil spirit general, asked in shock.

"Ah?"

The other evil spirit generals had the same expression. They did not see ye Chen being sucked dry of his bone marrow and spiritual power. It was more like he had just stretched after a nap!

This extreme contrast made the jaws of the evil spirits drop.

"This, this, this ..."

The bone cultivator was the most shocked of all. Through the reaction of the blood-colored threads, he had indeed completely controlled ye Chen and had even extracted his bone marrow from his body. How could he be completely fine?

His eyes locked onto ye Chen, trying to see through the mystery behind it. However, all he saw was the simplest scene. Ye Chen was completely fine. He was even yawning and stretching. He was very comfortable!

"Don't even think about trying to act mysterious in front of me. Ye Chen, you're dead. Your bone marrow has been sucked dry!"

Of course, the bone cultivator didn't want the crowd to think that he didn't deserve his name. He shouted and began to circulate the special Dark energy in his body, ready to refine the so-called bone marrow he had absorbed.

Ye Chen raised his head and looked at the bone cultivator with a strange smile on his face. The bone cultivator's scalp went numb as if he was a demon who had walked out of hell and had locked onto his soul. The coldness and trembling made the evil spirit bone cultivator take a few steps back unconsciously with a look of fear on his face.

When the evil spirits saw this scene, they shouted angrily, ""Bone cultivator, what are you doing? kill him immediately!"

"I, I ..."

In the face of the pressure exerted by the evil spirits, the bone cultivators were at a loss.

"Don't try to lie to me. I'm going to refine your bone marrow. It's just a fight between trapped beasts!"

The bone cultivator released his secret technique and began to absorb and refine ye Chen's "bone marrow". However, when he noticed the refining meridians in his body, he suddenly realized that his meridians were all stagnant, as if they were sealed by some kind of power.

"What, What is this? Little brat, tell me, what's going on?"

He looked at ye Chen and screamed hysterically because he could instinctively feel that the thing he had absorbed was not ye Chen's bone marrow at all but some kind of special energy that ye Chen had deliberately released.

"Ha, bone cultivator, my bone marrow, is it delicious?"

"You, what did you do?"

"I didn't do anything. I just wanted to give you a present, a Xuanji present that will turn you into dust!"

Suddenly, ye Chen's eyes turned cold. The third rank imprint he had comprehended from the Buddha's pool suddenly came into play.

Ye Chen's entire body emitted a Buddhist light. In this Buddhist light, countless heavenly Dao characters attacked the bone cultivator. In the blink of an eye, the bone cultivator was surrounded by these heavenly Dao characters. He wanted to break through but it was useless. Although these heavenly Dao characters were also at the third rank, they were much more powerful than what the bone cultivator had comprehended before. This was not only because of the difference between the Buddha's pool but also because of the difference in comprehension ability between him and ye Chen.

It turned out that the so-called "sleep" earlier was just ye Chen's cultivation. From the beginning to the end, bone cultivators had not controlled ye Chen's ability to move at all. They were completely immersed in their own world.

Now that the truth had appeared before everyone's eyes, the ones who did not want to accept it the most were the evil spirit powerhouses. The bone cultivators they had placed their hopes on had even joined them in being played like monkeys by ye Chen.

"Bone cultivator, how about I let you die in your own way?"

"What did you just say?"

"Give me your bone marrow!"

Ye Chen opened the Demon's Eye between his brows. Suddenly, the power of the origin of darkness went berserk. The dark matter that the bone cultivator had absorbed was activated at the same time. It broke through the meridians in the bone cultivator's body, cut through his bones, and devoured his marrow.

"Ah!"

The bone cultivator was in great pain. He was like an ant on a hot pan, jumping around madly in the space. As time passed, the movement of the bone cultivator's body became smaller and smaller. He fell to the ground and was on his last breath.

Black blood flowed out of his body. It was already rotten blood. At the same time, his bone marrow was swallowed by the dark material and returned to the darkness pool.

"Roar!"

With an angry roar, the darkness supported a huge chaotic figure that covered the entire sky. It was a terrifying sight.

Even the Super powerhouses broke out in cold sweat when they saw the form of the darkness pool.

### [Chapter 2219 A Perfect Display!](#)

The bone marrow energy that bone cultivators had nurtured for thousands of years had all been absorbed and utilized by ye chen. How ironic!

With the defeat and death of the bone cultivator, ye Chen's cultivation in the third-rank Buddha's pool was also completed. He glanced at the other grade-three Buddha's pools and used the heavenly spirit Buddha's eye to sense the heavenly Dao marks in the surrounding Buddha's pools.

"Zi Zi Zi!"

All sorts of information returned to ye Chen's mind. Then, ye chen automatically combined the basic heavenly Dao imprints in his spiritual space. Soon, the imprints in the Buddhist ponds were all combined. This meant that ye chen did not need to enter the Buddhist ponds to cultivate because his mastery of these heavenly Dao imprints had surpassed those in the Buddhist ponds.

Seeing that ye chen was walking toward the higher end of the pool, the powerhouses of the other forces looked grim.

"Is this brat really that crazy? he's only absorbed the imprint of a rank three Buddha Pond, and he's already trying to advance to a higher rank? doesn't he think that he has lost the chance to cultivate the other rank three Buddha ponds?"

"I don't understand. How can one comprehend the imprints of the second and third-grade Buddha pools in such a short time after walking out of the lowest-grade Buddha pool? What's the problem?"

"A bone cultivator was easily killed by ye chen. Even the various attacks of bone cultivators were useless against ye chen. How powerful is this kid's talent?"

Even the powerhouses who had been cultivating in the third-rank Buddha's pool for a long time would not dare to say that they had comprehended the imprint and could use the power of the imprint. However, ye chen had only slept for a while and could use the third-rank heavenly Dao imprint in the Buddha's pool to kill bone cultivators. This kind of Swift and decisive action was too shocking.

The great ancestor and the other powerhouses were naturally overjoyed. However, the evil spirits, the people of the magic martial realm, and the celestial Spirit realm were different. They were afraid of ye Chen's progress.

Ye chen walked to the front of the fourth stage Buddha's pool's barrier. In order to enter the fourth stage Buddha's pool, the only restriction was to use a complete third stage imprint's power to let the barrier receive a message, which was that one had already comprehended the third stage imprint.

Moreover, the more types of rank 3 imprints one used, the deeper the barrier gate's recognition of one would be.

"Hmph, I don't believe that this brat can really control the rank three imprint in the Buddha pool after a night's sleep!"

Sure enough, some of the powerhouses from the magic martial world were disdainful of ye chen. They thought that it was impossible for ye chen to grasp the third rank imprint so accurately and that everything was an illusion.

These remarks immediately resonated with the other forces. They were too frightened of ye chen. Even if it was a mental victory, they would curse ye chen and want to see ye chen fail at the barrier gate.

The fourth-grade Buddha's pool had already undergone a qualitative change from the first three-grade Buddha's pool, so a protective barrier had appeared.

Now, those who could appear in the fourth-rank Buddha Pond were all super powerhouses of the major forces, such as demon master lang wo, venerable fiery dragon, venerable Cold Moon, evil Sovereign Lord, and heavenly cosmic evil Lord.

Moreover, when they entered the fourth-grade Buddha pool, they had put in a lot of effort and spent several hours to open the barrier door.

Now, everyone's eyes were focused on ye chen. They wanted to see how long this human genius would take to open the fourth stage barrier gate.

"Barrier gate? boring!"

In the face of the barrier gate that even many super powerhouses had to spend hours to open, ye Chen's "boring" instantly made the powerhouses who passed through the gate angry. What did he mean? was he clearly saying that the powerhouses were too weak?

"Hmph, he's just a puny true immortal. Does he think that he can be arrogant just because he got the simplest rank three mark by luck? Let's see how you're going to get through this barrier gate this time!"

"That's right. The Tier 4 barrier gate is not as simple as you think. Brat, don't even think about crossing it in this lifetime!"

"Hahaha, let's see how this kid embarrasses himself!"

All the powerhouses revealed sinister smiles, waiting for ye chen to be rebuffed. In their opinion, they would never believe that ye chen could open the barrier gate in such a short time. Some powerhouses even thought that ye chen might not be able to open the gate at all.

Ye chen glanced at the powerhouses and sneered.

"You're just a motley crew. What capital do I need to be arrogant in front of you? I just need my hands!"

"What?"

The experts were even more furious when they heard this. However, they didn't dare to make a move in the Buddha pool. After all, there were many conditions to comprehend the heavenly Dao imprint. Once they used their true Qi, the various energies in their bodies would become chaotic, and the speed of their comprehension would definitely slow down. In such a life-and-death environment, unnecessary battles were the most fatal.

Ye Chen walked forward, his eyes locked on the barrier in front of him. To open the barrier gate, he had to first find its location.

He stretched out his hand, and the heavenly Dao imprint in the Buddha pool slowly floated into the air, turning into a spiritual hand that stretched out in front of him.

"Zi Zi Zi!"

After that, the Buddhist light enveloped the entire enchantment. Very quickly, the door of the enchantment was revealed.

Some of the powerhouses frowned slightly. When they opened the barrier gate, it was not so simple. They used the marks they had comprehended and searched for at least two hours before they found the gate. However, Ye Chen had found it in the blink of an eye!

The difference between heaven and earth made the powerhouses feel vexed about their lack of talent. They could only wait in their hearts for Ye Chen to not be able to truly open the door.

After finding the door, a confident smile appeared on Ye Chen's face. This time, he wanted to let those who doubted him understand one thing. Without wasting time, he could also control things that so-called powerhouses could not control. This was talent!

"Ah!"

With a cold shout, Ye Chen's body glowed with a golden light. Then, he opened his arms and basic imprints appeared on his palms.

"W-what's that?"

"The lowest level of the heavenly Dao imprint. Hahaha, this kid is crazy. He wants to use such a low level imprint to open the barrier gate. He's simply courting death!"

"As expected, this kid is still not good enough!"

When the powerhouses saw this scene, they all revealed gloating smiles. Many of those who had been afraid of Ye Chen previously also felt relieved.

However, just as they were mocking Ye Chen, the many basic imprints on Ye Chen's palms began to undergo a shocking change. They automatically floated in the air and rapidly evolved. In the blink of an eye, many third order imprints were formed.

"W-what's happening?"

"Those basic imprints, impossible!"

"All of them have evolved into rank 3 imprints. How can he control so many rank 3 imprints?"

Everyone was dumbfounded. The third level imprint that ye chen had released was the combination of all the imprints in the third level Buddhist pond. This was a perfect display!

"Zi Zi Zi!"

The barrier gate sensed all the rank three imprints and immediately responded with a Buddhist light. It opened the only door for ye chen!

When ye chen stepped into it, he was no longer in the same space as the others!

### [Chapter 2220 Special Reward!](#)

"What do you mean? he has entered a separate space?"

When they saw ye chen enter the independent space, the powerhouses' eyes were filled with disbelief. This was clearly the barrier's arrangement. Ye chen had released too many third rank imprints and had obtained the barrier's recognition. This was a special reward.

This was the truth that any expert could see.

After entering the independent space, although everyone could still see ye Chen's position, he was still isolated from the others and could not interact with each other.

"This bastard!"

The powerhouses in the other space were furious. They had thought that ye chen would not be able to enter the fourth stage Buddha's pool domain. However, not only had he entered the fourth stage Buddha's pool domain, but it was also an independent domain automatically assigned by the enchantment. Ye chen could freely comprehend the fourth stage heavenly mark in this domain.

Upon entering this domain, ye chen immediately felt that this space was completely different from other spaces. The power of heavenly Dao contained in it was very clear. He could even feel the imprints in this Buddhist pool "waving at him!"

He walked toward a Buddhist pond. As soon as he entered it, endless Buddhist power surged toward him. Ye chen felt a kind of baptism.

After the baptism, ye chen felt that his entire body was relaxed and at ease. Moreover, he seemed to be ready to face high-intensity challenges.

"What kind of different feeling will a rank four heavenly path imprint give me?"

Ye chen was very curious. He grabbed with his palm and suddenly, many jades in the Buddhist pool floated up. These jades were no longer as simple as before. Although ye chen could sense the heavenly Dao imprint in them, he needed to screen them.

"Heavenly spirit Buddha's eye!"

This time, ye chen used the third level heavenly Dao imprint that he had previously comprehended, combined with his own heavenly spirit Buddha's eye, to exert the Buddha's eye technique to the extreme.

In the Buddha's eye, the heavenly Dao jades hidden among the many jades were revealed one after another.

"Alright!"

Ye Chen's eyes focused on the Jade stone, which had the strongest heavenly Dao energy.

"Analyze!"

Activating the analysis command, the heavenly spirit Buddha's eye quickly determined that the heavenly Dao seal in front of him was a combination of the six heavenly astral seals and the twelve earthly fiend seals. After knowing this, ye chen opened the ancient God Space and instantly entered the system's analysis mode.

Through the heavenly spirit Buddha Eye, all the information of the heavenly Dao imprint in front of him surged into the ancient God Space. Then, through the Tiangang thirty-six and Disha seventy-two basic imprints, he was able to quickly analyze the true structure of the rank four imprint in front of him.

"Zi Zi Zi!"

In ye Chen's ancient God Space, a three-dimensional figure appeared. It was the arrangement of the heavenly Dao marks.

Once such an arrangement entered ye Chen's eyes, he had a basic grasp of the heavenly Dao imprint before him.

Following this sequence, ye chen controlled dozens of heavenly Dao jade stones in a row. This efficiency made the other powerhouses gasp in amazement and almost go crazy.

"I don't believe it. That brat managed to control over a dozen rank 4 imprints in two hours. Do you all really believe it? this kind of efficiency is simply inhuman!"

"This ..."

At this moment, everyone realized that it was meaningless to question ye Chen's intelligence. The truth was right in front of their eyes. Ye Chen's actions had proven many times that he was different from the rest!

"You talk too much nonsense. Instead of caring about this, it's better to improve your own comprehension!"

Venerable fiery dragon roared.

"Hah, you make it sound so easy. Venerable fiery dragon, ye Chen's comprehension efficiency will soon surpass us. By then, I wonder how much his strength will improve!"

Lord Xie laughed.

"We have so many super-level powerhouses, why would we be afraid of ye chen? It seems that the evil spirit is nothing more than this!"

Venerable fiery dragon mocked.

"I advise you not to be so arrogant. My evil spirit Army is just outside. That number is a hundred times that of your immortal spirit world!"

"Hahaha, what a joke. In front of the Buddha Emperor Peak, how many evil spirit armies are just a motley crew? if you have the ability, let them in and let me see!"

"You!"

Although he was furious, he also understood that venerable fiery Dragon's words made sense. If they were to act presumptuously in the Buddha Emperor Peak, it would be disrespectful to the Buddha Emperor. If they were targeted by the venerable, things would probably get worse.

Of course, evil supremacy still had his own thoughts in his heart. Before entering the Buddha Emperor Peak, he had already sent a message to the source of evil spirits. When the time came, even more powerful experts of the evil spirit lineage would definitely come.

Similarly, the magic martial world and the immortal spirit world had done the same. It could be said that other than ye Chen's force, the other forces had a backup plan.

Ye chen was well aware of this. Therefore, he wanted to use the shortest amount of time to improve his strength. This was the most fundamental principle for ye chen when he traveled the universe. At the same time, it was also something he must do. Otherwise, he would die countless times!

In the independent space, ye chen absorbed the fourth rank seal's skin. It was not something that an ordinary fourth rank seal could compare to. It was even equivalent to the level of a fifth rank seal. If one did not cultivate the one hundred and eight basic seals, ordinary talent would not be able to understand these seals even after ten years of enlightenment. However, after cultivating the one hundred and eight basic seals, ye chen could easily use these seals to create offensive divine abilities in just a few hours.

"Rank 4 mark disdains the sword of the heavenly Dao!"

Ye chen waved his sword finger and the fourth rank seal floated in the air. It fused with ye Chen's ancient divine power and turned into a huge sword shape, pointing toward the mountain in front of him.

"Boom boom boom!"

With a shocking explosion, the Super high peak that was filled with Buddhist power laws collapsed in front of everyone.

This attack could completely kill a peak Xuan immortal without any chance of survival!

If a rank four symbol already had such power, then what about a higher rank symbol? could it really fight against a heaven immortal?

Ye Chen's heart was filled with excitement. No matter how fast he cultivated now, it was impossible for him to raise his cultivation base to the heaven immortal realm in a short time. However, strength was

different. The strength of a mutant could break through his own cultivation base and the heavenly Dao imprint was one of ye Chen's means to achieve this.

Ye chen was very satisfied with the power of this attack. The heavenly Dao imprint had enhanced his strength far beyond other powers. This was a good sign.

Ye chen continued to comprehend the heavenly Dao imprint in the fourth-rank Buddha's pool while the other powerhouses were doing the same in their own Buddha's pools.

The old ancestor, Wushuang, and the other experts had already broken through and entered the grade three Buddha pool. This was very important for everyone's information.

They had used the information about the basic imprints that ye chen had secretly passed on to them before he left to complete their self-breakthrough so quickly. Otherwise, even genius cultivators like the great ancestor and Wushuang might have needed to spend a few more hours or even days.

Entering the rank three Buddha's pool meant that they were on the same level as powerful beings like the sky Dragon Demon venerable. This attracted the attention of the other powerful beings. They looked coldly at the patriarch and the others, and a threatening aura automatically emanated from them.

However, old ancestor yellow spring knew very well that these people had reached a critical moment in comprehending the mark of heavenly Dao, so they didn't dare to act rashly!
