

## Genius 2251

### [Chapter 2251 2256-Reversal!](#)

Although ye Chen's battle against the blood Python was not to save these people, the harm he had done was to help them escape from the control of the blood Python and blood Orchid. Those powerhouses were now very grateful to ye Chen and their attitudes had clearly changed.

"I didn't expect him to be so powerful. Who says experts from the chaosverse are useless?"

"That's right. This man is able to fight the blood Python alone. The blood Python is an existence that has been strengthened by the blood Orchid. Such a huge creature is very powerful. It's very likely that it has already surpassed the strength of a heaven immortal. This is too exaggerated."

"This person is so powerful. I think he's not far from crossing the Tribulation and becoming a celestial!"

Everyone thought that with ye Chen's talent, he would surely be feared by the heavens. Even if ye Chen suppressed the timing of his tribulation transcendence, once he was envied by the heavens, he would still descend the heavenly Tribulation and forcefully transcend the Tribulation.

This was the hidden danger in ye Chen's body!

At this moment, a person flew over. Everyone looked over and saw that it was the wandering Dragon Sword.

"You're here, Wandering Dragon Sword. It seems like you can't fight ye Chen!"

Seeing the arrival of the wandering Dragon Sword, many powerhouses sneered. Many of them knew about the Grudge between the heaven immortal sect and ye Chen. Now that ye Chen had fought the blood Python alone and intimidated everyone, the deterrence of the wandering Dragon Sword was still not enough to convince them.

"Get lost!"

The wandering Dragon Sword was furious and shouted at the crowd coldly.

After that, a massive wave of demonic energy also gathered into ye Chen's body. It was the return of the Mowu Emperor.

Among these powerhouses, there were also members of the demon clan. When they saw such a massive amount of demonic energy, they were even more surprised by ye Chen. They even wondered if ye Chen was a hidden expert of the demon clan.

"Roar!"

Just as everyone relaxed, the blood Python suddenly roared and stirred up a storm again.

"Boom boom boom!"

Its huge body circled in front of the blood Orchid again, its cold eyes locked on ye Chen.

"Ye Chen!"

He roared angrily and threatened ye chen with all his might. However, it was useless. How dare a defeated opponent speak of courage?

"Blood Python, I'll give you one last chance. Surrender to me. This is your only chance!"

"Phew, phew, phew!"

The blood Python panted heavily, but it knew in its heart that even if it used the power of the blood Orchid, it might not be ye Chen's match. Now that everyone was surrounding him, if it fell into their hands, the consequences would be even worse.

Moreover, the Dragon-holding spear in ye Chen's hand had shocking power. It was also the nemesis of the blood Python physique. Submitting to ye chen might not be a bad choice.

Zila, Zila, Zila!

Suddenly, ye chen flicked the dragon-slaying spear and a bolt of lightning was instilled into the blood Python's body. Then, all kinds of information entered the blood Python's brain through this power of lightning.

Everyone thought that ye chen was going to attack the blood Python and eyed it covetously, wanting to take advantage of the situation. However, the blood Python suddenly calmed down and no longer looked at ye chen with hostility. This scene puzzled everyone.

"Everyone, ye chen has released an evil art to confuse the blood Python. We can't be fooled by him!"

The roving dragon Sword had already received the information from the sudden Thunder. Now that the blood Python was acting this way, it was obvious that it had reached some kind of agreement with ye chen. This was not what the roving dragon Sword wanted to see. In fact, it was not what everyone wanted to see either. Although ye chen had saved their lives, they would not let ye chen off just because of their interests.

"What does the wandering Dragon Sword mean?" An expert asked.

"Ye chen and the blood Python are coming to an agreement. They might want to kill him to silence him!"

"What?"

When the crowd heard this, they were instantly enraged. They all looked at ye chen coldly, their killing intent soaring.

The wandering Dragon Sword was happy to see this. He turned to ye chen and said, "Ye chen, Blood Python, stop acting. Hand over the blood Orchid essence immediately and you might have a chance to live!"

"Oh? I didn't hear it wrong, did I? you bunch of trash dare to talk to me like that? If I join forces with the blood Python, who will be the one who will not survive?"

Ye chen turned around and swept his cold gaze across the powerhouses. Suddenly, the powerhouses felt an immense pressure and looked frightened. However, the blood Orchid essence was right in front

of them. Such a treasure might not be obtained even if they searched for ten thousand years. This was their last chance.

"Everyone, let's work together to kill ye chen and obtain the blood Orchid's essence. We'll share the essence and all of us will ascend. How about it?" The wandering Dragon Sword said.

"Yes, that's exactly the case!"

Many Giants in the wild universe began to respect the wandering Dragon sword's suggestion. After all, the wild universe and ye chen also had conflicts.

"What do you think, Blood Python?" Ye chen turned to the blood Python and asked.

"Hehehe, I think we should kill Xuanji without mercy!"

The blood Python revealed a sinister smile. The blood-colored mist around its body rose and spread wildly.

"Hahaha, very good!"

Ye Chen's eyes widened and a murderous smile appeared on his face. Together with the blood Python, this scene was very strange.

When everyone heard this, anger appeared on their faces. They thought that ye chen was overestimating himself. In that case, they would kill ye chen together, exterminate the blood Python, divide the essence of the blood Orchid, and ascend to the heavenly realm!

Everyone understood this idea. They looked at each other and attacked ye chen one after another.

Ye chen sat cross-legged in the air, not panicking at all as he watched the powerhouses attack.

"Blood Python, since you've surrendered, let me see what you're capable of!"

"No problem!"

The blood Python shook its head. It was still feeling a little uncomfortable because it had been knocked out by ye Chen's Dragon Spear. However, the blood Python had been absorbing the power of the blood Orchid for many years. Its body was different from ordinary magical beasts. It was indestructible.

"Roar!"

The blood Python roared and the blood Orchid released a strange fragrance. The boundless strange fragrance barrier once again disturbed the spirits of the experts. Many experts stopped in their tracks, especially the experts of the giant clan. After absorbing the strange fragrance, they fell into an illusion as if they saw a charming giant woman rushing toward them. They could not control their impulses and stopped their attacks.

"You bunch of idiots!"

The wandering Dragon Sword roared in anger. However, the current situation didn't allow it to attack the giant tribe. It could only lead the other experts to attack.

However, on their way to attack ye chen, they had to face the blood Python first.

"Giggle!"

Since it had submitted to ye chen, the blood Python had to perform a meritorious deed and show its value.

"Blood Orchid!"

"Zi Zi Zi!"

The power of the blood Orchid surged wildly and poured into the blood Python's body. However, new heads kept growing out of the blood Python's body. The three-headed Blood Python's transformation was precisely the triple Foundation.

"Boom boom boom!"

The giant tail moved like a landslide. Countless experts were pushed away by this aura, unable to get close.

"Zi Zi Zi!"

At the same time, the three of them shot out blood-colored beams at the experts. Those who didn't react in time were immediately beheaded.

"Ah!"

The crying and wailing continued, and the situation was reversed!

"This, this!"

All the powerhouses were in chaos. The wandering Dragon Sword could not control the situation at hand. It looked at ye chen with respect. A human true immortal could be so powerful!

### [Chapter 2252 Six-Armed Asura!](#)

Ye chen flew up and stood on the head of the blood Python's heart. He looked down at the powerhouses below like a god looking at an ignorant mortal. His Grand aura shook the world.

"Roar!"

The blood Python's breath swept the surrounding land madly. More experts fell into it and instantly lost consciousness, being swallowed by the blood Python.

The power of the blood Orchid behind them surged like an endless supply of internal strength, causing all the experts to feel the greatest despair.

"I'll add something to your story!"

At this moment, ye chen no longer hesitated. He immediately activated his own tribulation transcendence. Today, he would definitely break through the peak of the true immortal realm and climb to the peak again.

"Blood Orchid power!"

Ye Chen activated the darkness pool and the heavenly Snake Black Tortoise appeared. The blood Orchid absorbed energy wildly, causing the nine Heavens to shake and the world to be shocked. Above the sky, several heavenly path Dharma laksanas descended. It was the heaven realm's fatal tribulation.

"Ah? W-what was that? Could it be the God tribulation of the heavenly realm?"

When they saw the several heaven realm dharmas above the nine Heavens, the powerhouses fell into a deeper shock and panic. The heaven realm dharmas were powers that would only appear when the heaven realm received celestial Immortals. However, Ye Chen was only a true immortal. When he was crossing the Tribulation, the heaven realm dharmas had appeared. It could be seen that in the eyes of the heavenly Dao, Ye Chen still had the qualifications to be a celestial immortal.

"This is unbelievable!"

You Longjian's brows were tightly locked and his heart was in a panic. Even a peak heaven immortal like him was shocked by Ye Chen's talent. He thought that even if he himself transcended tribulation and ascended, it was impossible to produce such a Grand heaven realm Dharma.

The three Dharma laksanas suddenly descended and faced Ye Chen. However, due to the limitations of the environment, this was not only a test for Ye Chen but also a calamity of life for all the powerhouses.

"This, this!"

All the experts were in a panic. They all gathered around the wandering Dragon Sword, hoping that he could think of a solution.

"Wandering Dragon Sword, you have the highest cultivation here. What should we do now?" An expert asked.

The wandering Dragon Sword looked at the domineering Ye Chen's true body on the three-headed Blood Python and shook his head slightly.

"This man is unprecedented. He's able to trigger the heaven realm's divine tribulation that's enough to shock celestial Immortals when he's in the realm of true immortal tribulation transcendence. We can only wait for the right time. What we need to do now is not to kill Ye Chen, but to resist the heaven realm's divine tribulation."

"Wandering Dragon Sword, do you mean that we still have to help Ye Chen fight against this divine tribulation?"

"There's no other way. If we go against Ye Chen now, we'll be cutting our own chances of survival. We'll use Ye Chen as an excuse to fight against the heavenly Tribulation, and then we'll find a chance to escape."

"Alright, we'll all listen to you!"

In such an environment, none of the experts had a backbone. They could only listen to the arrangements of the stronger ones.

At this moment, in the sky, the three Dharma idols moved at the same time. Their target was Ye Chen.

"Hahaha, good!"

However, after absorbing the blood Orchid and controlling the three-headed Blood Python, ye chen was not afraid at all. In this battle, he wanted to show the powerhouses who was truly the strongest!

"Swish!"

With a thunderclap and tens of thousands of stars, the Dragon Spear appeared in his hand.

The Thunder Dragon roared and the clouds moved.

"Kill!"

Ye chen held the Dragon Spear and pointed it at the sky. Instantly, lightning filled the sky and turned into a Thunder Dragon that charged toward the three Dharma idols.

"Boom boom boom!"

One of the Dharma forms opened and closed its huge palm. As it descended, the power of the Thunder Dragon was instantly shattered and turned into nothingness.

This scene made everyone feel complicated. They didn't know if it was good or bad.

They naturally hoped that ye chen would die under this heavenly extreme divine tribulation. However, if ye chen was defeated, these so-called powerhouses would also have to resist the remaining power of the heavenly Dao. No one knew if they could really retreat in one piece. After all, what ye chen had triggered was not a simple Heavenly Tribulation. It was a heaven realm tribulation that only the strongest celestial Immortals could trigger.

These three Dharma laksanas were the symbols of the heaven realm's venerable. At the same time, they contained the Super power of the heavenly path. Ordinary strong people could not resist them at all.

"Al, is this kid really not going to make it?"

Seeing that ye Chen's Thunder Dragon power was instantly broken, some powerhouses believed that ye chen could not resist such a Heavenly Tribulation and would die without a doubt.

"Ha, don't be anxious. This is just the beginning. This man is so abnormal. I don't know what he will bring us."

"That's right. This kid's talent is unparalleled. It's the first time I've seen such an amazing Heavenly Tribulation. Let's see how he solves it. When he solves the heavenly Tribulation and saves us from danger, we can kill him when he's tired. Isn't that great?"

"Hahaha, good idea, good idea!"

All the experts agreed that this method was the way to benefit from the situation.

Riding the three-headed Blood Python, ye chen suddenly soared into the sky.

"Whoosh, whoosh, Whoosh!"

The giant python spiralled and its three heads shot out red beams, burning the giant palm in front of it. Ye chen held the Dragon Spear and attacked again.

"The power of the heaven realm. Let me see how the power of the heaven realm can resist the Lord of the heaven realm!"

As the incarnation of heaven and earth, ye chen did not care about the so-called divine tribulation of the heaven realm. This time, he wanted to experience for himself how powerful the heaven realm was.

"Whoosh, whoosh, Whoosh!"

The blood Python swung its tail and swept out three sharp lights. It carried the power of the blood Orchid and the might of three heads.

Boom, boom, boom!

In the blink of an eye, the three Dharma images were shocked and an energy impact zone appeared in front of them. It was precisely because these three Dharma images had a protective formation that blocked the three extremes of the blood Python.

"Very good!"

Ye chen flew up and separated from the blood Python in front of him. He waved his Dragon Spear and nine Thunder God Dharma forms appeared.

"Dragon Spear silver flash, space-crushing strike!"

Suddenly, White Lightning swept wildly. Ye chen waved his divine spear and the White Lightning transformed into a White Dragon that charged toward the strongest Dharma power in the middle.

"Impudent!"

The middle Dharma opened its eyes and grabbed with its large hand. In an instant, ye chen felt the entire world pressing down on him. Even a peak heaven immortal would not be able to resist such a terrifying power. The powerhouses below shook their heads. This was ye Chen's sure-kill attack.

"It's over. We have to be prepared to deal with the remaining power of the heavenly Tribulation. This kid is going to die!"

"That's right. This kind of powerful palm print can definitely kill celestial Immortals, let alone true immortals. "

All the experts were ready to take action to resist the remaining power of the heavenly Tribulation, but the wandering Dragon Sword smiled and said, ""You've underestimated this person. I fought with him, and his true strength is not only this!"

"Oh?"

The experts were all confused. A power that could kill a heaven immortal couldn't kill a genuine immortal? no one would believe this absurd conclusion. However, since it was said by the wandering Dragon Sword, they had to think about it seriously.

At this time, a huge palm print fell from the sky and suppressed ye chen.

"Ah!"

With a furious roar, the ancient God Dharma behind ye chen reappeared. At the same time, after absorbing the blood Orchid, the ancient God Dharma appeared in the form of the six-armed Asura together with the mcmau Emperor, the Dark Lord, and the nether King!

"Kill!"

The six-armed Asura threw out countless punches, and all of his anger turned into fist radiance that bombarded the heaven's path palm print.

### [Chapter 2253 2258-Change Of Master!](#)

Everyone was shocked to see the six-armed Asura. They couldn't imagine that it was a human cultivator. It was a God!

"This is a heavenly God! He really is a heavenly God!"

Some of them were unable to resist the might of the six-armed ancient God Shura in front of them and directly knelt on the ground, constantly praying.

More and more experts followed his movements. This was the first time they had seen such a shock in their lives. The prayers of these powerhouses turned into heavenly fate and blessed ye chen. As a result, the might of the ancient God was even more powerful.

Boom, boom, boom!

The six arms struck out with boundless fist radiance, finally shattering the palm print in front of him and countering the first Dharma.

"Kill!"

The three Dharma laksanas were furious. Ever since they landed in the human world, they had never met a genuine immortal tribulation Transcender who could compete with them. This was completely impossible. This time, they would not fail, and they would maintain the dignity of the heaven realm.

However, they didn't know that the person in front of them was the Lord of the heaven realm!

"Zi Zi Zi!"

The three Dharma powers suddenly shone with divine light. Then, the divine light merged, and the power of the three Dharma powers also merged.

"Three phase origin returning mayfly is destroyed!"

"Zi Zi Zi!"

The entire space was filled with the laws of destruction. These laws were the pinnacle of the celestial immortal realm. This time, the three great Dharma forms had joined forces to completely destroy ye chen.

"Hahaha, you're not the only one with three xiangs. I'm also a three xiangs!"

"Zi Zi Zi!"

The six arms converged, and the three of them were of the same origin. Ye Chen activated ancient God Power, netherworld God Power, and demonic martial power. Together with the Dragon-holding spear, he made the most powerful counterattack.

"Myriad ancient dragon's wrath against the nine paths of heavenly punishment!"

"Roar!"

Suddenly, Ye Chen's chi of the nine Dragons burst out and surrounded the Dragon Spear. At the same time, the Thunder Dragon Lord fused with the nine Thunder God Dharma forms and developed the strongest lightning strike! At this moment, Ye Chen was the adjudicator. The celestial Emperor's primordial spirit trembled, triggering the recovery of the memories in the Tianyuan space. A memory fragment rushed into Ye Chen's mind.

"Celestial Emperor dragon control art!"

A bolt of lightning struck Ye Chen's mind and he was enlightened!

At the same time, in the face of such a counterattack, the three Dharma powers actually split into nine Dharma powers, which were the strongest Dharma powers in the celestial immortal tribulation!

The appearance of the nine heaven realm Dharma forms instantly shocked the surrounding area. All the strong cultivators, including the wandering Dragon Sword, were so shocked that their legs went soft.

Zila, Zila, Zila!

Out of the nine Dharma powers in the heaven realm, the three powers of Guiyuan actually evolved into the nine powers of Guiyuan, increasing its power by 27 times!

This was equivalent to twenty-seven strongest heavenly tribulations at the heavenly immortal tier converging on Ye Chen alone. Such a scene was still inexplicable and indescribable!

On the other hand, Ye Chen knew that he could not hesitate in this moment of life and death. He immediately used the heaven Earth Dragon control technique that had just entered his mind. It was because the celestial Emperor's primordial spirit and Ye Chen were of the same origin. The memory entered his mind and he instantly understood it.

"Nine Dragons break!"

The nine Dragons 'Qi, with the help of the secrets of dragon control, was 81 times more powerful. The nine heavenly punishments turned into 81 heavenly punishments, which could change one's fate!

"Kill!"

He threw out the Dragon Spear, which carried the anger of the celestial Emperor and shot into the sky.

"Boom boom boom!"

The nine-phase origins-returning formation faced the eighty-one dragon lightning of heavenly punishment. Suddenly, the boundless chaos of the sun and moon sank, and the universe was destroyed!

A majestic sound instantly swept through the surroundings. Many experts were caught in it, and many of them fainted.

"Swimming Dragon Sword!"

The wandering Dragon Sword saw that all the experts were about to die in this catastrophe, so he released the sword and activated the strongest mental cultivation method of the heaven immortal gate to suppress the force of the vibration in all directions. However, with his strong foundation, he was unable to resist it and spat out a mouthful of blood.

"Pfft!"

However, don't cry was a powerful divine weapon. With its strong will and the fact that the experts were trying to save their lives by forcefully transferring energy into the sword, the storm gradually stopped.

After the storm, light reappeared, and at the center of the light, the celestial Thearch stood alone!

"Argh! He's too strong!"

"Heavenly Emperor ye chen. Is he really the reincarnation of the heavenly Emperor?"

"Welcome back, heavenly Emperor!"

Many experts still didn't care about their own safety. Even the Giants knelt on the ground and didn't dare to raise their heads.

Seeing the powerhouses bowing their heads and worshiping ye chen, the wandering Dragon Sword was under great pressure.

After breaking through his own limits and reaching the profound immortal stage, countless profound immortal laws surrounded ye Chen's body. It should be known that these profound immortal laws were completely different from ordinary profound immortal laws because they were obtained through the celestial immortal-level divine tribulation of the heaven realm. In other words, ye Chen's laws were completely comparable to celestial Immortals.

"Zi Zi Zi!"

The light of law on ye Chen's body illuminated the earth. The instant the wandering Dragon Sword sensed it, it understood that the other party's law was higher than his.

"This, this!"

The wandering Dragon Sword now understood that before ye chen, it still had no advantage to speak of. In terms of Foundation, nomological height, and talent, it was behind in all aspects.

"Swimming Dragon Sword!"

Ye chen was furious when he saw the powerhouses bowing their heads but the wandering Dragon Sword did not bow.

With an angry roar, the wandering Dragon Sword felt its body shake and its legs went soft again.

"How is it?"

However, the dignity of the heaven immortal sect still made him want to fight against ye chen. However, this was the most impossible wish.

"Roar!"

The blood Python roared angrily. Ye chen descended on the blood Python, and a powerful pressure swept across the entire field. The wandering Dragon Sword felt its whole body go numb and almost collapsed.

At this moment, the blue sea Wandering Dragon Sword in the sky started to shake and was out of control.

"Ah? You!"

You know the wandering Dragon Sword, but ye chen still attacked.

However, by the time he wanted to take control of the sword, it was too late. The sword had fallen into ye Chen's hands.

"You're not worthy of using such a divine weapon!"

"Bastard, give it back to me!"

The wandering Dragon Sword was furious. Its sword finger pointed toward the sky. Suddenly, ten thousand swords came out and locked onto ye chen.

"Hahaha!"

Ye chen sneered and pointed his Dragon Spear. Ten thousand stars appeared and the Dragon lightning broke through ten thousand swords.

Boom, boom, boom!

The ten thousand sword Qi in front of him could not even get close to ye Chen's true body. They exploded in the sky. The wandering Dragon Sword was also shocked by the Dragon-holding spear. It spat out blood and fell to the ground.

This kind of divine might was even more intimidating to the other powerhouses. Even the wandering Dragon Sword could not withstand a single move from ye chen. What could they do?

"Ah!"

He knelt on one knee and all the meridians in his body went against the flow. The insufferably arrogant Wandering Dragon Sword could only do this in front of ye chen who had broken through.

"The heavenly Emperor is mighty! The heavenly Emperor is mighty!"

The powerhouses cheered and ye Chen's luck was like the sun in the sky.

"The wandering Dragon Sword will only be buried in your hands. In my hands, it's a heavenly weapon!"

A spirit light flashed between ye Chen's brows. The ancient God's might reappeared. Ye chen threw the wandering Dragon Sword into the heaven and earth furnace to absorb the power of the blood Orchid and the remaining might of the heavenly Dao. He refined it continuously. A Supreme-grade celestial artifact had finally broken through its own limitations and become a heavenly weapon!

"Zi Zi Zi!"

The wandering Dragon Sword had been Reforged, obtained the blood of the celestial Emperor, and acknowledged ye chen as its master!

The sword Qi rushed in all directions, all the experts bowed their heads, the Dragon split the sun and the moon, unparalleled in the world!

### [Chapter 2254 Spirit Stone Of The Wilderness!](#)

With the wandering Dragon Sword taken away, the powerful Wandering Dragon fell into despair. He was no longer on the same level as ye chen. If he wanted to fight again, he would be courting death.

"Do you still want to fight?"

Ye chen looked at the unconvinced powerhouses and shouted coldly.

Those people looked at each other. Although they were all powerhouses of the universe, they had completely lost their confidence before ye chen. No matter how powerful their own universe was, they knew that the person before them was an absolute genius who had surpassed the limits of the universe, the limits of resources, and even the limits of the heavenly Dao.

"We don't want to fight!"

Finally, an expert couldn't help but shout.

"Hahaha!"

Ye chen laughed out loud and then put away his palm. In the blink of an eye, the boundless infernal Blood Orchid and the three-headed Blood Python were all sucked into the ancient God Space.

Crack, crack, crack!

Ye chen forced open a spatial passage and jumped in.

In the end, the group of universe great beings were left behind, completely stunned.

After leaving the hell Valley, ye chen entered the divine peak in the South. The strength of the cultivators here had increased again. The celestial immortal realm was the basic realm. There were even intermediate-level and above celestial Immortals. These celestial Immortals could still comprehend the elementary heavenly Dao. Their strength was on a completely different level from ordinary celestial Immortals.

For example, the roving dragon Sword. Comprehending the heavenly Sword Dao had caused a lot of obstacles to ye chen. However, before ye chen absorbed the power of the blood Orchid, it was still vulnerable.

Stepping into the southern divine peak, ye chen could feel that there were many powerful forces hidden in the mountain. With his current super-sensitive perception and absorption ability, he could instantly absorb the power of a Boulder if he placed his hand on it.

Moreover, here, he gradually discovered a strange phenomenon. These rocks still did not contain simple celestial and Buddhist energy, but there was also demonic energy, and even netherworld and dark energy. This shocked ye chen greatly.

In the eyes of the nine Heavens Buddha Emperor, this energy could indeed be condensed into one body. In that case, the Buddha Emperor cultivated the great Dao of the universe.

On the other hand, ye chen relied on the ancient God Power to cultivate the incomparably complex cosmic power. These powers might conflict with each other but under ye Chen's adjustment, they coexisted in the ancient God's body. In such an environment, ye chen was like a fish in water.

"Hahaha, Nine Heavens Buddha Emperor, I really want to see your real body. I want to know what kind of friendship you had with me in the past!"

Due to the limitations of his memory, ye chen only knew that the Buddha Emperor and the heavenly Emperor had a friendship. However, he could not figure out how close they were or whether they were only brothers on the surface. What he needed to do now was to seek the most opportunities and obtain the most resources. Only then could he recover more memories and take a step closer to restoring his true body.

As he encountered more powerful opponents, ye chen understood more and more that the heaven realm was not necessarily the peak of the universe. Otherwise, he would not have fallen to the human world. For the sake of the people he cherished the most on earth, he had to recover the power of the heavenly Emperor as soon as possible.

"Zi Zi Zi!"

As ye chen walked, he absorbed the energy. Whether it was Buddhist energy or dark energy, ye chen absorbed all of it regardless of the difference between them. In this way, if he said that he was second in efficiency in using the southern divine peak, no one would dare to say that they were first!

After absorbing enough energy, ye chen used the heaven and earth furnace to refine all of them. Before this, without the heaven and earth furnace, he could only use the ancient God Space. However, the ancient God Space focused on computing power and not refining. On the other hand, the heaven and earth furnace was completely different. It was a top-tier refining divine artifact and was embedded in the ancient God Body. One could imagine its great effect.

Using the heaven and earth furnace, regardless of what kind of ability it was, once it entered, it would be refined and transformed into divine origin. When ye chen needed it, this divine origin could be transformed into its previous form for his use.

Ye chen walked on the divine peak for about three months. As expected, the southern divine peak was much larger than the Western divine peak.

Finally, he saw the existence of universe powerhouses.

Thump, thump, thump!

The loud voice was not Thunder, but the footsteps of the Giants. The people in front of them were the Masters of the desolate universe.

These powerhouses were completely different from the ones ye chen had seen on the other divine peaks. The height and cultivation realm of these people were not comparable to the previous ones.

"What?"

Naturally, they had noticed ye chen. One of them looked at ye chen with a cold gaze but did not take the initiative to attack him. It was clear that the savage Giants they had encountered in the East and West divine peaks had not sent any information to these people.

"I can't believe that a little brat from the chaosverse is able to come to the southern godly peak!"

One of the Giants sneered.

"Hmph, don't worry about him, let him die on his own!"

"That's right. We must find the savage barren spirit stone this time. We must get it!"

"Let's go!"

The group of desolation Giants quickly moved forward, shaking the earth and the mountains.

"Spirit stone of desolation?"

Ye Chen's perception was naturally amazing. He heard the core phrase, "Savage barren spirit stone."

He was wondering if the experts who appeared here all had a fixed purpose. This judgment was very important. If that was the case, then these treasures were incomparable to those scattered Abao.

As for ye chen, the Dragon Spear and the blood Orchid he had obtained earlier were extremely special cases.

Ye chen watched as they walked away. He concealed his figure and followed their footsteps.

These Giants were running toward a Shining Mountain. Their speed was getting faster and faster. At the same time, the surrounding temperature was getting worse. Ye chen felt as if he had fallen into a furnace. The baking energy was very strong.

"Netherworld God Power!"

In such a situation, ye chen used his netherworld energy to cover all his meridians. Then, the night Demon Armor and dragon scales formed on the surface of his skin to protect him.

In this way, as long as his meridians were not affected and he relied on the night Demon Armor to protect his body, ye chen would not have any problems whether he was in front of a Flaming Mountain or a furnace.

"Hahaha, look, fire Forest Peak is up ahead. Let's go!"

"Yes!"

The giant powerhouses went into a frenzy and were full of energy. Ye Chen nodded Wei Wei. He knew that the savage spirit stone these people were talking about could be here.

"A desolation spirit stone. You do have some spirituality. Let me see what you look like!"

Ye Chen continued to conceal his body and even used the mimicry function of the night Demon Armor. He only relied on the netherworld energy to protect his meridians but the surface temperature of his body rose rapidly. This way, the temperature around Ye Chen was consistent with the surrounding space. This way, it would not be so easy to sense his existence.

#### [Chapter 2255 2261-Tragic Battle](#)

"Such a temperature is exactly what the wild spirit stones like. My spirit stone is also reacting."

One of the Giants took out a stone the size of a small mountain. However, in the hands of the giant, it was like a small ball. It did not affect him at all.

"Zi Zi Zi!"

The spirit stone emitted a sensing power and continued to draw energy towards Fire Forest Peak. Rumbling sounds continued to be heard, and the entire mountain peak began to shake. There were even countless boulders that rushed down. However, to these Giants, these were not a problem. In fact, it was impossible to hurt them.

"It's that direction!"

"En!"

The leading giant nodded slightly and then directed the group to rush in that direction.

Ye Chen's entire body was scarlet red like a piece of lava in the Fire Forest Peak. As he followed the Giants, they could not sense Ye Chen's existence at all because the Giants' sensing ability was very rough and weak to begin with. Coupled with Ye Chen's disguise, he was safe.

As Ye Chen advanced toward the Fire Forest Peak, he suddenly felt an energy that was different from the Giants. This energy was violent and boundless, like a fire demon that devoured flames. It was frantically releasing its own energy. Ye Chen wondered, 'is this the power of the savage spirit stone?'

As he followed the crowd, a crack suddenly appeared in the sky.

Zila, Zila, Zila!

Lightning struck and the sky split open. A powerful energy attack came crashing down, targeting the savage Giants.

Boom, boom, boom!

The energy hit the ground, instantly creating a huge Gully, blocking the giant from moving forward.

Then, several people rushed out of the cracks. These people were all dressed in luxurious robes and had delicate faces and extraordinary temperament. However, each of them exuded an extremely cold aura, forming a huge contrast with the fiery Giants in front of them.

"Not good, it's a Frost Giant!"

A giant shouted.

Ye chen was puzzled when he heard this shout. These people did not look like they were from the giant clan but what did this Savage giant mean by "Frost Giant"?

"Hahaha, remnants of the wilderness, do you still want to turn the tables with the wilderness spirit stones? Unfortunately, when we descend, all of you shall die!"

The young man in front had a frosty face and a sinister smile. He gave off a cold and terrifying feeling like he was from hell.

He looked at the wild giants with a strange smile and revealed a murderous look. The wild giants were very cautious, obviously afraid of these people.

"Hmph, ice Vulture, this Prince will definitely not let you have your way."

"Oh my, Prince Yan lie, what can you do? in front of me, you have to bow down to me in order to have a chance to save your life!"

"Wu dan, immediately take them to find the spirit stones."

"Your Highness!"

The Giants looked troubled. They didn't want to leave their Prince. After all, the frost Giants were too cunning and ruthless. They had seen it before. What they saw in front of them was one of the most sinister villains in the frost Giant lineage. How could they be at ease?

"You want to give orders for Kang?"

"I don't dare!"

"Go!"

"Yes!"

Wu Dan's brows were tightly knitted, and his face was filled with a conflicted expression. However, he could only obey the Prince's orders and lead the group toward fire Forest Peak.

"Hehehe, how naive. Yan lie, I'll let you die Here first!"

"Hahahaha, if you want this Prince's life, let's see what abilities you have!"

Prince Yan lie shouted. A huge mountain-like stick appeared in his hand and he pointed it at the ice Vulture.

"Giggle, very good!"

The ice Vulture sneered, then gave the surrounding experts a look. They all nodded, then disappeared into the space.

Seeing this, Prince Yan lie knew the ice Vulture's plan and instantly activated the flame barrier.

"Ah!"

He suddenly waved the flame Wolf in his hand. Immediately, the area within a thousand miles was filled with a world of flames. No one could walk out of this area easily. This was the solution that the Prince of flames had thought of long ago. As long as these people were trapped and Wu dan got the help of the savage spiritual stone, everything would be fine. Therefore, he had to use all his energy to block these Frost Giants during this time.

Ye chen was watching excitedly from the side. He did not expect to see a battle of life and death between two tribes here.

Due to the domain power that was surrounded by the flames, the frost experts who were hiding revealed themselves. Prince Yan lie's domain power was indeed powerful.

"Hahaha, if you want to hunt down my subordinates, you'll have to get past me first!"

"You're really looking for death!"

Ice Vulture's expression was ruthless. His mission this time was also to find the savage spiritual stone. According to the legend of ice and frost, once the savage giant tribe obtained the savage spiritual stone, it would be the end of the frost tribe. How could he let such a terrifying thing happen to him?

"Zi Zi Zi!"

At this moment, frost Qi began to condense in the ice Vulture's hand. Finally, it turned into a long frost spike. This long spike looked like a long sword but the sharp teeth on it made ye chen realize that this weapon was definitely not a sword.

"Raging inferno!"

Prince Yan lie attacked first. He waved his flame Wolf. Instantly, a wave of fire surged from the nine Heavens. The powerful wave of fire formed a Prairie Fire and crazily attacked in the direction of ice Vulture. However, ice Vulture was not afraid at all. He even revealed a cold smile.

"Ice Vulture, Black Crow!"

"Let's go!" He shouted coldly. In the nine Heavens, the wind and clouds surged, and darkness descended. Countless dark ice crows traveled through the terrifying storm of ice crows. No matter what was in front of them, they were going to be devoured. It was like the roar of a devil or the opening of the gate to hell. At this moment, thousands of people were going to die!

"Ah?"

Seeing this, even Yan lie was shocked. He didn't think that a mere frost Duke would have such powerful ice vultures. It was clear that the frost giant's lineage was far stronger than the savage giant's. However, he couldn't give up. As long as he found the savage spirit stone, everything could be reversed.

"Ah!"

Prince Yan lie let out a heart-wrenching roar. He held the flame Wolf and madly rushed forward. Heaven wanted to use its body to resist these ice crows. He wanted to open a bloody path for Wu dan and the others.

At this point, ye chen could not help but sigh for Prince yanlie. This was because in ye Chen's eyes, the battle was already over. He had predicted the course of the battle through the eight-gate divine disc and the ancient God Space.

Boom, boom, boom!

The flames exploded and the heavens and earth were shocked. But then, ice crows filled the sky and instantly froze everything. Prince Yan lie's huge body froze like a mountain statue. His face was still filled with anger and battle intent, but his eyes no longer moved!

### [Chapter 2256 The True Samadhi Fire!](#)

"Giggle ..."

On the battlefield, the flames were extinguished, leaving only the ice Vulture's cold laughter reverberating. Wu dan, who was charging at the front, felt the hidden aura of the flames below and immediately realized the result. He was in great pain.

"Wudan leader!"

"Let's go!"

Wu dan roared and rushed forward with the help of the spirit stone, followed by many Giants.

Below, the ice Vulture had defeated Yan lie and was leading the group towards fire Forest Peak.

After ice Vulture and the others had left, ye chen appeared.

"Yan lie is indeed brave!"

Ye chen glanced at Yan lie. Initially, he wanted to take Yan lie's divine weapon, flame Wolf, but when he remembered that Yan lie was fighting to his death for his clan, ye chen decided to give him a glorious way to die. He would take his weapon and go on his way.

Ye chen followed the frost Giants 'footsteps and galloped toward fire Forest Peak.

On the fire forest mountain, countless flaming trees were swaying in the wind. Their leaves were all surrounded by flames, constantly releasing heat energy. In this place, ordinary heaven Immortals could not even survive for a few hours. The cruel environment had created a desperate situation.

"Lord ice Vulture, fire Forest Peak is extremely unfriendly to our ice and frost lineage. We might only have 20 hours!"

"Hmph, there's no need for me to say how important this mission is. Yan lie is dead, and the enemy no longer exists. What can those trash like Wu dan do to me? Therefore, as long as we find Wu dan and the others this time and bring back the savage spirit stone, we will be the great heroes of the frost giant's bloodline. At that time, it will be reasonable for us to be conferred the title of Marquis!"

"Good, good, good!"

Upon hearing this, the frost powerhouses began to roar. It was clear that they valued the glory of battle very much.

Although the fire Forest Peak was a hundred times harsher than before, ye chen could still walk through it effortlessly with the help of the darkness pool, the night Demon Armor, and the Dragon Qi Shield.

In front of them, an ice expert took out an umbrella-shaped magical artifact and chanted an incantation. The umbrella turned into a frost canopy that floated above their heads. Then, the canopy became invisible, but it was enough to resist the invasion of the fire power.

"I see!"

Ye chen glanced at the sky. All kinds of information entered his mind. The various information structures of the frost canopy appeared one after another.

"Lord ice Vulture, we've already locked onto Wu Dan's position. The spy we've planted this time is really good!"

"Hahaha, this is the result of consuming ten flame pills. How can it not be good?"

The ice Vulture laughed loudly and then led the group forward quickly.

In the inner circle of the fire forest mountain, Wu dan led everyone to rush towards the place where the spirit stones could sense the most clearly. The power of the flames here was getting stronger and stronger, and one of the experts in the team was still unable to withstand it.

"Are you alright?" Wu dan asked the man.

"Leader Wudan, I ... I'm fine. You can't delay the search for spirit stones because of me!"

"Mm ... Good job!"

Wu dan nodded slightly and patted the man's shoulder. Then, he led the group forward.

After two hours of searching, they finally arrived at the end of fire forest mountain. Here, they saw an extremely large and deep valley. In the deep valley, a spiritual light constantly flickered and shot up into the sky.

Then, the power of flames was attracted by the spiritual light and surged toward the source of the spiritual light like a whirlwind.

"What's with this flame power?" An expert asked.

"Hahaha, Prince Yan lie was right. This direction is where the savage spiritual stone is. The flame energy that you saw was attracted by the spiritual stone and flowed in the same direction. It is the savage spiritual stone's food!"

"Food?"

"That's right. The other races only know that we wild Giants worship the wild spirit stone, but they don't know that the wild spirit stone is actually alive. What's nurtured in it is the greatest hope of our wild

giant race. Whoever gets the recognition of the wild spirit stone will be the Emperor of our wild giant race. This is the rule set by our ancestors!"

"Ah? That's great! I must get the recognition of the savage barren spirit stone!"

One of them jumped down without a care for his own safety. His desire to become Emperor made him forget about all the dangers.

"You can 't!"

At this moment, it was already too late for Wu dan to stop him. By the time he made his move, the man had already been devoured by the spiritual light. Then, the power of fire burst out, and the man's body was wrapped in flames. These flames were the true Samadhi fire. Even the fire resistance of the wild giant could not resist it and could only die.

"Ah?"

Everyone was shocked. They were so weak in the face of the true Samadhi fire.

"Al, how can you succeed if you're so reckless? As you can see, this is the true Samadhi fire, which is the natural defense mechanism of the spirit stones. These red balls can help us resist the true Samadhi fire temporarily. One for each of us!"

"Yes!"

Everyone swallowed the red balls one after another. They felt their entire bodies becoming restless and restless. Their muscles continued to grow and evolve, and red scales grew all over their bodies.

However, one of them didn't eat the red pill, which made Wu dan very confused.

"What's wrong with you?"

"Leader, I've suffered too much impact from the power of the flames, and now I'm feeling unbearable pain all over my body. If I eat this red ball, I might explode and die."

"How are you going to get down?"

"I'll stay here and wait for your triumphant return. Once the frost Giants come, I can also send a signal!"

"Mm ... You're right. You have to be careful!"

"Yes!"

Wu dan nodded to the expert and then flew down.

An hour later, the ice Vulture arrived with everyone.

"There's a Savage giant there. Let me attack!"

"You can 't!"

"Ah?"

Seeing the confusion of the frost expert, ice Vulture laughed and said, ""This person is one of us!"

"Our people?" Everyone was even more confused.

"The ice Vulture released a cold air and hit that person!"

"Lord ice Vulture!"

That person instantly revealed himself. Although his body was still huge, he had turned into a Frost Giant. It was the spy.

"Hahaha, how's the situation?"

"Lord ice Vulture, they've all gone down. The situation is like this ..."

The spy explained the situation clearly, and the ice Vulture smiled and threw out a frost bullet. It exploded with a loud bang, and the energy was all replenished on the frost sky.

"Now, all of you, follow me!"

"Yes!"

Everyone followed the ice Vulture into the frosty sky and then jumped down.

At this moment, ye chen had also arrived.

"Mm ..."

Sensing the powerful flame energy below, ye chen knew that this descent would not be easy.

"So what if it's a heavenly flame? I'll take it!"

However, there was nothing that could stop heavenly Emperor ye chen. He suddenly jumped down. Suddenly, a strong wind blew and the true Samadhi fire boiled and surrounded ye chen.

"Oh ... True Samadhi fire, interesting!"

### [Chapter 2257 The Samadhi Rock Spirit!](#)

Wu dan and the other Giants who were running in the front suddenly felt the strong icy aura behind them. They immediately knew that their enemies were coming.

"There are still people guarding the top. Why didn't they send any information?"

A giant expert shouted angrily.

"It seems like things aren't that simple."

At this moment, Wu Dan's brows were tightly furrowed. He immediately recalled that the expert's expression was very strange when he saw him. Then, he connected it to his behavior and his unwillingness to come down directly. It was clear that this person was likely to be a spy.

"Don't worry about it. We're the hope of the boorish desolate race now. We must find the boorish desolate spirit stone and bring it back to the boorish desolate race. "

"Yes!"

The various experts of the Wildlands all agreed. Under such circumstances, they had no other choice but to advance.

Under the guidance of the spiritual stone, everyone came to the bottom of the blaze Valley and continued to look for the dark yellow spiritual stone. However, the environment below was even worse. Even the power of the red ball could not resist such a terrifying power of the flame. This was the flame with the law of Samadhi fire. The power of the red ball had been consumed a lot, and there was still too little left in everyone's body.

In such a disadvantageous situation, they could only continue to speed up their search.

In the rear, the ice vultures continued to lead the ice and frost disciples in pursuit. Such a harsh environment also put great pressure on their ice and frost canopy. As time passed, the power of both sides would gradually decrease.

Behind these two groups of people, one person was secretly observing. It was ye chen.

With his multiple layers of defense and the advantage of his fundamental body, even the true Samadhi fire had a limited effect on him. After all, these true fires were only generated automatically by the environment of the savage spirit stones. They were on a completely different level from the power of the true fire emitted by the spirit stones themselves.

On the ground below the blaze Valley, there were many towering blazing mountains. The surroundings were almost entirely scorched earth. No one could imagine that there was any life aura here. However, even in such an environment, there was still an ancient essence of creation at the center of the deep valley.

"Wudan leader, look!"

A giant discovered the location of the savage barren spirit stone and shouted frantically.

"Hahahaha, I'm going to activate the spiritual stone attraction technique immediately. I must take the spiritual stone essence with me!"

"Yes!"

The Giants scattered and stood still in the star position, ready to use the spiritual stone traction method.

At this moment, the spiritual stone in the center started to shake. Then, a strange sound came from it.

"Squeak, squeak, squeak ..."

Listening to these cries, one could not help but think of some monkey-like thing. It was very strange.

"Secret technique of traction!"

Wu dan threw out the spirit stone and began to channel energy into it. This energy was the purest life force of the Giants in the wild. According to the legends, only this pure life force could awaken the wild elves.

"Zi Zi Zi!"

With the infusion of this energy, the life force of the savage barren spirit stone became more and more intense, as if it had given birth to a super powerful life form.

"Ah!"

At this moment, as the life aura in the spiritual stone Rose, the power of the true Samadhi fire in the surrounding space was obviously stronger. It was clear that the source of the true fire was the savage barren spiritual stone.

"Hold on!"

"Use your life to persevere!"

The bodies of the giant experts in the defense array began to disintegrate. It was because of the powerful destructive power of the true Samadhi fire that the power of the red ball disappeared completely. Their bodies were completely unable to resist the attack of the true Samadhi fire.

Buzz, buzz, buzz!"

Their disintegrated bodies turned into ashes and scattered in all directions. However, how could the giant give up? if they lost this opportunity, the entire barbarian tribe would face a great crisis. They could only use their lives to resist.

"Zi Zi Zi!"

The continuous infusion of life force caused cracks to appear on the savage desolation spirit stone. It could be seen that the life form within the savage desolation spirit stone was taking shape and even wanted to rush out.

The vast power of the primordial fire swept across the entire area and shot into the sky.

Such a vast amount of energy instantly attracted the attention of the White frost Giant. Bing Jie's brows furrowed, and he led the experts in a mad rush towards a place. He had already locked onto the location of the spirit stone.

"Rock spirit of Samadhi, don't even think about helping the manhuang tribe!"

The ice Vulture roared, and countless frost power rose from its body, instantly increasing the power of the frost cover, allowing everyone to break through the realm of true fire and enter the core area of the savage spiritual stone.

"Lord ice Vulture, they're setting up the formation, and are trying to release the Samadhi rock spirit!"

"Hahaha, don't even think about it!"

At this moment, the ice Vulture flew up and released countless icicles from its hand. These icicles gathered around the savage barren spirit stone and formed a barrier, blocking the main life force of Wu dan and the other Giants.

The two sides were in a stalemate. It was clear that the situation of the wasteland race was not good.

At this moment, high up in the sky, a person was observing the situation. It was ye chen.

"The Samadhi rock spirit, what kind of mysterious object is it? I'm interested now."

Seeing the life force of the rock spirit decreasing, it was clear that the ice thorn barrier had an extreme restraining effect on the formation of the Barbarian spirit stone. In fact, these ice thorns had even restricted the life force of the rock spirit. Under such circumstances, the rock spirit was about to die.

"Squeak, squeak, squeak ..."

Pained cries continuously came from within the savage spirit stone. It was clear that the rock spirit itself wanted to break through the barrier and be born!

"Damn you, ice Vulture!"

Wu dan roared in anger, but he had no choice.

"Go and kill them!"

"Yes!"

Under Wu Dan's command, the other giant powerhouses also attacked ice Vulture and the others.

"Hehehe, let them come!"

The ice Vulture laughed sinisterly. Then, with a thought, countless icicles flew towards the charging Giants.

Buzz, buzz, buzz!"

In the blink of an eye, the Giants fell to the ground, blood flowing.

Everything in front of him was crimson red. Under the burning of the true Samadhi fire, all kinds of auras of blood and Qi were floating in the sky.

"Ha, interesting, interesting!"

At this moment, ye chen revealed himself. He stepped on a Golden Lotus and walked in the air, looking at the crowd.

"Who is it?"

Ice Vulture looked at ye chen coldly. He did not see any powerful cultivation from ye chen. He was only an abstruse immortal. To a powerhouse like him, an abstruse immortal who could dominate the spirit realm or even the immortal realm was nothing.

Ye Chen's appearance caused an anomaly. The desolate Wudan frowned slightly while the ice Vulture glared coldly. Both sides were wondering what ye chen was going to do.

"Rock spirit of Samadhi, I would like to see what this fake is. What do you think?"

"You're looking for death!"

Upon hearing this, the ice Vulture was enraged and released another icicle!

[Chapter 2258 Smelting Furnace To Refine Shi Lingsheng!](#)

Countless icicles turned into sharp blades and attacked ye chen. This time, the ice Vulture did not hold back. His goal was simple. No matter who the person in front of him was, he would kill him!

However, these icicles could deal with the savage giant. Against ye chen, they were useless.

"The cosmos furnace!"

Ye Chen's eyes widened in anger and he spread his arms. Instantly, ancient divine power swept through the world and the heaven and earth furnace appeared.

The heaven and earth furnace floated in front of ye chen. Then, the endless ancient God Power transformed into a vortex. The ice thorns that were charging at ye chen could not escape the control of the vortex at all and were all absorbed into the heaven and earth furnace. Then, there was a loud bang inside the furnace. The countless ice thorns were all refined by the ancient God Power and turned into ice water. This was the energy of the frost lineage and was stored in the furnace.

"Just this?"

Ye chen sneered at the ice Vulture and asked.

"What?"

The ice Vulture glanced over and knew that ye chen was hiding his strength. He was not a simple abstruse immortal. Otherwise, he would not have come to the South of the divine peak.

"Ha, Who are you?" Ice Vulture asked with a smile.

"The celestial Thearch is disdainful of ye chen!"

"Ye chen?"

Hearing this name, ice Vulture and Wu dan both revealed a puzzled expression. They had never heard of this person. Originally, ye chen had been in contact with the Barbarian race. However, the Barbarian Giants had not been able to send a message to Wu dan in time. After all, they were in the South. The situation here was too special and was restricted by the information barrier.

As for the frost Ice Vulture, it had no impression of ye chen. It had no idea where this kid had come from.

"Ye chen, I don't care who you are. If you cooperate with us to kill the Samadhi rock spirit, I'll recommend you to the Ice King. At that time, I'll give you all kinds of cultivation resources and rare treasures!"

"Oh? There's such a good thing?"

Seeing that both sides had their own requests, ye chen was not in a hurry. In any case, he still needed time to secretly analyze the internal structure of the savage barren spirit stone.

"Of course, I'm a Duke of the frost lineage. I'm a famous figure in the entire Savage universe. I wouldn't lie to you!"

"Hmm, not bad. What about you?"

After hearing the ice Vulture's words, ye chen turned to look at the dark Pill.

Wu dan was stunned. He did not expect ye chen to ask him how he was.

"Ha, the Samadhi rock spirit is the most precious treasure in the wilderness. We don't know how many wonders it contains. As long as you help us release the rock spirit, it will have its own spirituality and help you break through and ascend. It will be a piece of cake!"

This was a response that Wu dan had thought of after much effort. After all, the desolation race did not like to be tempted and plot. They were not sure how to make ye chen happy, so they could only use the rock spirit to make ye chen interested. After all, ye chen had also said that he was interested in the rock spirit.

"Does this thing really have a spirit?" Ye chen asked, pretending to be suspicious.

"Of course, this is the most precious treasure of the boorish desolate land. There's no mistake about it!"

Wu Dan's eyes were firm. He did not dare to be careless. Now, ye chen was the balance point between the two sides. Once he sided with one side, the situation would change.

"Squeak, squeak, squeak ..."

At this moment, the rock spirit within the savage barren Spirit Rock shrieked again. It was obvious that the vitality was not enough for it to hatch. If this continued, it might cause the rock spirit to be completely destroyed.

Wu dan was extremely nervous. Before he came, the elders of the clan had told him about the characteristics of failure. Once the formation could not be completed, the consequences would be unimaginable. He looked at ye chen and shouted, "what are you waiting for? once the rock spirit is destroyed, you won't get anything!" Besides, the frost Giants are cunning and sinister. Do you really think that the ice Vulture will keep its promise?"

"Hmm ... That makes sense!"

"Hehehe, all of you shall die together!"

At this moment, the ice Vulture suddenly made a move and threw out a wheel of ice and frost. This wheel constantly released a super strong power of ice and frost, freezing the surrounding space rapidly. Even the true Samadhi fire couldn't burn again and fell into a state of dormancy. After all, these true fires were continuously produced in the environment and not spontaneously generated by the rock spirit.

Seeing the situation collapse, Wu dan raised his head and roared, "Does the heavens want us to die?"

The ice Vulture was high up in the air, its eyes filled with disdain as it said, "Hmph, negotiating with you two idiots for so long was just a waste of time. Now, I'm going to take care of you both!"

"Two idiots? Wait, don't tell me you're bringing me along?" Ye chen asked coldly.

"Hahaha, you call yourself an Emperor, but you're just an idiot. A mere Mystic immortal dares to show off in front of me? you're looking for death!"

With the help of the frost wheel, the ice Vulture broke free from its restraints. The power of frost burst out from its body, as if it had a body of frost that could seal everything.

"Frost mega avalanche!"

All the frost Giants flew up and stepped on the ice wheel. Then, the entire mountain turned into a mountain of frost. Countless snowflakes fell from the sky and turned into the most brutal destructive force, wanting to bury everyone.

"I'm a sinner of the Wildlands!"

Seeing that the unsealing of the savage barren spirit stone was in vain, Wu Dan's heart jumped and he fell to the ground.

At this moment, suddenly, a magnificent figure stood upright. Under the collapse of blood, someone actually resisted. The shadow of the ancient God held the heaven and earth furnace with both hands. Suddenly, the power of heaven and earth and the beginning of all phenomena emerged. In an instant, the vigorous power swept over the savage spiritual stones and they were instantly absorbed into the furnace.

"Wild spirit stone!" Wu dan roared and wanted to snatch it. However, with just a look from the ancient God, Wu dan felt that his body couldn't move. His body even fell backward unconsciously as if something was pulling him.

One must know that Wu dan was a wild giant as tall as a mountain. What kind of power could do such a thing?

"Phew, phew, phew!"

All of a sudden, a violent wind howled within the furnace, and the power of the divine disc was activated at the same time.

"The life gate is open!"

Ye Chen's consciousness moved and the door of life opened with judgment. An endless stream of life force was poured into the spirit stone.

"Squeak, squeak, squeak ..."

Instantly, cries of pain could be heard from the spiritual stone. However, this time, it was not a cry of pain. Instead, it was a cry of excitement.

"What?"

On the ice wheel, the ice Vulture powerhouses were shocked. The unparalleled mega avalanche had been blocked by ye chen. He had even absorbed spirit stones into the heaven and earth furnace. What was he trying to do?

Just as everyone was puzzled, a shocking explosion was heard. Within the furnace, the savage spiritual stone instantly disintegrated, and a ball of spiritual light flew into the nine Heavens!

"Hahaha!"

Accompanied by a super violent laughter, a little monkey baring its teeth and burning with true fire descended from the nine Heavens.

"All of you, go to hell!"

As soon as the little monkey was born, it spat out a mouthful of true Samadhi fire at all the powerhouses of the frost Giant race.

"Phew, phew, phew!"

The power of the true flame was incomparable to the past. It was like a raging wave that instantly engulfed all the frost Giants!

"Ah?"

### [Chapter 2259 Lord Of The Wildlands!](#)

"Phew, phew, phew!"

All he could see was the destruction of the world by the true fire, and no life.

The powerful true flame instantly swept through the entire ice wheel. Many frost experts were trapped within and were unable to escape.

"Ah!"

Pained cries continued to ring out, and on the ice wheel, blood instantly flowed like a river. A burning aura spread out, and only Bing Jiu managed to escape.

"Ye chen!"

The battle had failed at the last moment entirely because of ye Chen's appearance. The ice Vulture's hatred for ye chen had reached its peak. However, the situation had been reversed. The strength of the Samadhi rock spirit was far beyond imagination. If they fought again, they would die without a doubt.

"This Duke will remember this debt!"

"Hahaha, get lost, trash!"

Ye chen sneered and shouted.

"You!"

Ice Vulture gritted his teeth, but it was useless. The Samadhi rock spirit had already charged out towards him. The rock spirit law was a complete counter to the frost Giant. He couldn't take it head-on, so he could only escape.

"Squeak, squeak, squeak ..."

At this moment, the rock spirit had ascended to the nine Heavens and was colliding with everything in its surroundings. It was curious about everything in its surroundings, but its power was too strong. After a few collisions, the blaze Valley showed signs of collapsing.

"Benefactor, we can't stay here for long. We'll take you out!"

At this moment, Wu dan came over and shouted. Ye chen nodded slightly. Then, he put away the ancient God Dharma and the heaven and earth furnace. He jumped onto Wu Dan's shoulder and rushed out of the blaze Valley with the Barbarian tribe.

On fire Forest Peak, due to the stirring of the frost Giants, the temperature still dropped.

After everyone landed, the rock spirit flew out at the same time, breathing wind and clouds in the surroundings, and burning the sky with raging flames.

"Lord rock spirit, stop it!"

At this moment, Wu dan and the others shouted at the rock Spirit in the Sky.

"Hahaha, why do you care about the rock Spirit's matter? I'm just going to make trouble!"

"This ..."

Wu dan and the others were speechless. The rock spirit was the most precious treasure of their barbarian race, a Saint. Whether it was in terms of status or strength, they couldn't disrespect the rock spirit. Therefore, they couldn't control what the rock spirit wanted to do.

Just as everyone was at a loss, a cold voice suddenly rang out, "'Come down!'"

Everyone was shocked when they heard this. It was ye chen who had shouted at the sky.

"Ah? Benefactor, you can't do this!"

Wu dan and the others panicked, afraid that the rock spirit would get angry and kill them all.

"Whoosh!"

"Boom boom boom!"

In the blink of an eye, the rock spirit was standing in front of ye chen, a deep pit of fire under its feet. It smiled at ye chen, then walked over and leaned on him, rubbing against him. It was obvious that it was very dependent on ye chen.

"Ah?" This time, Wu dan and the others were completely dumbfounded. The Samadhi rock spirit was the most violent and impossible to submit to anyone. This was a legend of their barbarian clan since ancient times. However, the rock spirit was completely obedient to ye chen. How could this be?

"Master, do you have any orders?"

"Master?"

Hearing the way the rock spirit addressed ye chen, everyone was even more surprised. Wu dan and the others looked at each other, completely unaware of the scene in front of them.

However, the truth was right in front of their eyes, and they had no choice but to believe it.

"Who's your master? that's not proper!" Ye chen said.

"Hehe, you saved me from the spirit stone. You are my master."

"This way, it makes sense!"

"Of course, I'm very smart. If it wasn't for master, I would have died in the spirit stone. It was really dangerous!"

"You're quite smart. How about following by my side from now on?"

"Yes, sir!"

The series of actions in front of them made Wu dan and the others speechless. All of them were impossible, but they had all happened.

"Wait, benefactor, this rock spirit is the most precious treasure of our Wildlands race. You can't take it away!"

"What?" Ye chen looked at Wu dan coldly. Suddenly, a wave of cold killing intent made Wu dan take a few steps back. His huge body was actually unable to resist.

At this moment, the rock spirit rushed forward. "Tsk, what does the removal of the rock spirit have to do with you? you dare to stop me?"

"I don't dare, I don't dare!"

Wu dan and the others knelt on the ground one after another, not daring to raise their heads.

"It's just that the Samadhi rock spirit is related to the survival of the Wildlands. If Lord rock spirit really wants to follow ye chen, we can only respect ye chen as the Lord of the Wildlands!"

"The Lord of the Wildlands? Hehe, it's a good idea to let my master be the Lord of the Wildlands!"

"What?"

Ye chen was speechless. He did not expect this to be the end result. For some inexplicable reason, he wanted to be the Lord of the Wildlands.

"Benefactor, please return to the Wildlands with us. There will naturally be a coronation ceremony!"

"Hmm ... How about this? all of you return to the boorish desolate first. I still have to tour the northern part of the divine peak!"

"The northern lands?"

Upon hearing this, Wu dan and the others trembled and said, "The North is the most dangerous place in the ninth technique. There are many geniuses from the most powerful forces in the universe. Benefactor, you must be in great danger!"

"Hey, what are you all talking about? with the rock spirit accompanying master, what danger is there?"

"This ..." Wu dan and the others naturally did not dare to disobey the rock spirit and could only agree. They left the information of the route and returned to the desolate universe according to ye Chen's instructions.

After watching the Barbarian tribe leave, ye chen pointed at the rock spirit. Instantly, the rock spirit turned into a ray of spirit light and entered ye Chen's ear. Then, ye Chen's left ear turned Crimson and the hair around it was like flames. It was very strange.

"Northern lands, I'm coming!"

After subduing the Samadhi rock spirit, ye chen had gained a super helper. His overall strength had increased greatly and he was full of confidence as he rushed toward the northern lands.

Along the way, ye chen met some treasure-seekers in the South. However, the treasures they were looking for were not worthy of ye Chen's attention. They could not be compared to the Dragon-holding spear, the rock spirit true fire, and other treasures that ye chen had obtained. He could only give up.

After traveling through space for three days and three nights, ye chen finally arrived at the North Peak!

As soon as he stepped into the North Peak, ye chen sensed that the energy here was completely different from the other peaks. The energy of a heavenly Dao imprint had appeared here.

"Are the nine heavenly Dao hidden here?"

"It seems like I need to find a place and create my own eighth heavenly Dao!"

This was something ye chen had to do. Only by completing the eighth level heavenly path imprint in advance would ye chen have the foundation to cultivate the ninth level heavenly path.

Ye chen entered a secret place. Then, with the help of the rock spirit, after forty-nine days of cultivation, he successfully mastered the eighth level of heavenly Dao. Ye chen did not expect the rock spirit to comprehend the eighth level of the heavenly Dao on its own. If not for the rock Spirit's help, ye chen would have needed forty-nine years to comprehend the eighth level of the heavenly Dao.

After cultivating the eighth heavenly path, ye chen had officially entered the final ninth-level technique, the Buddhist realm. This was the place where the Buddha Emperor's treasures and secret manuals were the most advanced and rich.

"Nine Heavens Buddha Emperor, is this Emperor satisfied with my performance this time?"

Ye chen said to the sky.

A Buddha seal appeared in the sky. It was mysterious, complex, and ever-changing!

Ye chen smiled as he looked at the Buddhist seal in the air.

"The heavenly spirit Buddha eyes is the eighth level of the heavenly Dao!"

Ye Chen's Buddhist light was blazing. The Buddha appeared in the nine Heavens. Nine rays of spiritual light surrounded his body and his Foundation improved rapidly.

After his Foundation had improved, ye chen looked at the Buddhist seal again. Indeed, he saw a different scene. It was the symbol of the eighth level of heavenly Dao.

"Break through the Buddha seal in front of me and I will meet you again!"

"Alright!"

Ye chen ascended and rushed directly into the world of the Buddha seal. In this world, everything around him was formed by the eight levels of heavenly Dao. It intertwined into a complicated, grotesque realm. In this realm, ye chen could clearly feel that he was an outsider.

There was something wrong with this feeling. The Buddhist Emperor's Zen philosophy was profound. This feeling seemed to be hurrying ye chen. Although he had entered this world, he did not understand it at all.

After activating the basic heavenly Dao imprint, ye chen continued to observe the various things in the predicament around him. He found that these things were constantly changing their forms and did not have a stable state at all. Why was this?

"Could it be that my understanding of the basic heaven path mark is still not deep enough?"

This was the first thing that came to ye Chen's mind. After all, the basic heavenly Dao imprint was the foundation of other heavenly Dao imprints. Even if it was a ninth-level heavenly Dao imprint, it must be forged from the basic heavenly Dao imprint.

At this time, the sky was filled with thunder and lightning. Suddenly, a Grand anticipation appeared before ye Chen's eyes.

"What?"

Ye chen raised his head slightly and looked at the huge chessboard. Before his eyes, there were countless strong people standing on it.

"This is ..." He immediately realized that these experts were likely to be like him. They had passed the Buddha Emperor's test and were chosen.

From the corner of his eye, ye chen could sense many heavenly Dao auras emanating from these people. There were even a few powerhouses whose auras were at the eighth level of heavenly Dao. It was clear that these people had similar experiences as him. The universe was vast and there were countless geniuses. Those who could stand here must be the best of the best.

Ye chen noticed that Buddhist characters had appeared above these people's heads. They introduced these powerhouses' names, origins, and cultivation realms.

At a glance, he could see the primordial universe, the savage universe, the Flying Cloud universe ...

There were countless universes, and most of the experts had extremely noble identities. They were either members of the royal family or princes of powerful sects.

Ye chen raised his head and looked at the top of his head. There were also Buddhist light characters, introducing his origin.

"Hahaha, you're from the chaosverse. I'm not seeing things, am I?"

A burst of laughter rang out. Ye chen was already used to this. Even at the lowest divine peak, he could still encounter people who laughed at him. This was the ultimate trial ground of the nine heavenly Dao. It was more logical for such a person to appear.

"Emperor Qing Yun, don't underestimate this person. Anyone who can reach this point is not simple!"

Another person spoke. This person was tall and had a buzz cut. His entire body was muscular like a Vajra and he looked very mighty. Ye chen looked over. This person was from the vast universe and the one who laughed at ye chen was the Prince of the Flying Cloud universe's Emerald Cloud sect, Xuanji Huo Qingyun!

Ye chen ignored Huo Qingyun's mockery and immediately gathered everyone's information. This was because these Buddhist light characters seemed magical but their energy was very thin. In other words, they could not exist for long.

Indeed, they all disappeared in less than five minutes.

Many powerhouses were observing the chessboard and didn't pay attention to the information of the people around them, which caused the information to be unclear.

On the chessboard, there were many masters. Everyone occupied a position, and the chess pieces under their feet were their own identity pieces.

Ye chen was stepping on a "car."

"All of you, listen to my orders!"

A loud voice reverberated throughout the entire area. Ye chen turned his head and saw that it was Prince Azure cloud. He had stepped on "handsome!"

It seemed that, according to the status of the chessboard, it really had to listen to his orders. However, the experts who had come here were all absolute geniuses. It wouldn't be easy to get so many people.

On the other side, there were also many experts standing there. They were also stepping on identity chess pieces, and the one in the center was the general.

"Could it be that both sides are going to kill each other?"

In such a situation, this battle was inevitable. What was the purpose of killing each other?

"Zi Zi Zi!"

Suddenly, the light of Buddha shone brightly. Above the nine Heavens, Buddha Ming Wang descended.

"This Lord is the Acalanatha King. I'm very happy to see you all here today. This formation was left behind by the Buddha Emperor to wait for the fated person to enter it and comprehend the nine levels of heavenly Dao!"

"Acalanatha? Hahaha, are you trying to scare us?"

"That's right. We're all peerless prodigies of our various great cosmoses."

"What is your purpose?"

Many powerhouses looked at Acala with displeasure, showing disdain. It was clear that they had no respect for him. After all, they were all too powerful.

"All of you, silence!"

Suddenly, Acala let out an angry roar, and the surrounding land trembled at the same time. The entire chessboard kept letting out a rumbling sound. Then, all the experts were surrounded by golden lightning released by the chess pieces under their feet.

Zila, Zila, Zila!

"Ah!"

Surrounded by the Golden lightning, the people who had wanted to challenge the wisdom King's authority were all punished by the heavens. They were in great pain.

"Ah?"

Upon seeing this, everyone finally understood that the person in front of them was likely to be the God who controlled their fate. They had to respect him, or they would die without even knowing how they died.

"We're convinced, and we don't dare to be rash!"

"Yes!"

The powerhouses bowed to the Ming Dynasty one after another, not daring to move.

Ming Wang ignored him and continued to explain.

He was suspended in the air with nine reincarnation images behind him. Ye Chen looked at him and saw too much incomprehensible heavenly Dao power. The nine reincarnation images behind this man were most likely the core of the nine heavenly Dao.

"The one who obtains the ninth layer of the heavenly Dao in the end is the one who makes it to the end by killing each other in this chess game!"

"What is the meaning of this? There are so many experts here, but only one of us can obtain the power of the ninth level of heavenly Dao. Are you playing with us?"

"Yeah!"

"Who dares to fabricate the Buddha Emperor's order?!" Fudo Ming King sneered.

The power once again shook the area, and the hearts of all the experts trembled. They deeply felt that this was no ordinary formation. Once they tried to plot, they would definitely suffer a backlash and die.

"I, I want to quit!"

Suddenly, an expert shouted in a trembling voice.

"What?"

Ming Wang turned around and looked at the man, revealing a mysterious smile.

"You want to quit? Are you sure?"

"I'm sure, I'm sure! I don't want to get involved in such a dangerous fight!"

"Hahaha, what a pity, what a pity. Ever since you entered these nine techniques, if you want to leave, you're courting death!"
