[Chapter 2301 The Ghost Bull King Takes Action!](#)

"Kill!"

The steel tree King spun its body, and all the steel spikes on its body stood up, turning into endless sword Qi that rushed toward ye chen.

This time, the power of the male attack was stronger than before. Ye Chen's Dragon Qi Shield actually cracked.

"Ye chen, I'll make you pay for underestimating this King!"

"I'd like to see what kind of price you can make me pay!"

Ye chen turned around and threw a punch at the steel tree King with the power of Thunder. The latter's brows furrowed and a recondite steel heavy sword appeared in his hand. As the blade turned, ye chen felt an unprecedented majestic sword Qi being born naturally. It resonated with the surrounding environment and countless sword gleams gathered to form a shape.

"Hahaha, I'll let you try this King's steel tree sword of judgment!"

The iron tree King shouted. A heavy sword without a sharp edge was useless! The universe was endless, and the sword took an unconventional path!

The heavy sword suddenly struck down. Ye chen felt as if the entire sky was falling. It instantly crushed his Lightning Fist and came straight for his face.

"Ah!"

With a furious roar, the sound of the eight Dragons reverberated strongly. Ye chen did not move at all. He relied on the Dragon Qi reverberating force to shatter the heavy sword energy. Such a powerful posture shocked the iron tree King.

The power of his sword was clear. It was enough to kill a heaven immortal in seconds. However, ye chen had relied on his own dragon energy to counter the shock. How confident was he in his own defense?

"It seems like this King will have to take you seriously!"

The steel tree King reevaluated ye chen and revealed a serious expression.

"Ha, you're still far from being acknowledged by me with such a sword. Steel tree King, I think it's better for you to let the person behind you help you!"

Ye chen glanced at The Phantom Ox King behind him. The moment their eyes met, waves of profound energy collided invisibly. Even the iron tree King could feel the collision of energy. It was as if the heavens and earth were being split apart, lawless!

"This!"

The steel tree King, who was caught between the two experts, instantly felt boundless pressure, but he couldn't leave. For the glory of the ghost king's bloodline, and for the sake of King Duan mie's glory, he had to hold on.

"Iron tree blossoms!"

Suddenly, the iron tree King roared in anger and the surrounding space was instantly trapped in the iron tree enchantment. This was taking advantage of the moment when ye chen and the ghost bull King looked at each other to activate its own domain power.

Buzz, buzz, buzz!"

The steel tree enchantment extended wildly. Taking advantage of its geographical advantage, it quickly trapped ye chen within. The sword Qi around him sped up and the steel tree grew infinite branches. Each branch grew a new sword Qi law to limit ye Chen's range of movement.

She wanted to trap ye chen in sister tie Shu's arms.

Once ye Chen's hands and feet were bound, the advantage of the heavy sword would be revealed. This was the iron tree King's plan.

Ye chen was a man of character. He could see through the steel tree King's scheme at a glance. However, the momentary distraction earlier had indeed given the steel tree King a slight opportunity. Ye chen did not care at all because he needed such a trial.

"Iron tree King, you must not disappoint me within the iron tree realm!"

"Hahaha, ye chen, I'll show you the true hell!"

"Hell of trees of steel!"

Summoning the unparalleled power of the realm of law, the steel tree King released his own sword Qi laws and blood, allowing the realm of law to ascend and develop the steel tree infernal realm!

Crack, crack, crack!

Countless steel trees burst out of the ground, shattering vast rocks and breaking through many peaks. Like Living Steel, they continued to extend themselves and the direction of these extension was with ye chen as the center.

"Ah!"

Of course, ye chen would not sit still and wait for death. He waved the spear in his hand and suddenly, a fist of spear light swept out in all directions.

"Phew, phew, phew!"

These spear lights triggered a divine power whirlwind, wanting to quickly sweep the entire field and break these iron trees.

It was indeed a success at the beginning. Many of the steel trees were broken by the divine whirlwind, but very quickly, the steel trees bloomed and grew again. The barrier that could not be broken was exactly like this!

"Hahaha!"

At this moment, the ghost king Duan mie burst out laughing.

"Ye chen, break through this King's bloodshadow realm but you can't break through the steel tree King's steel tree hell. Kneel and surrender immediately!"

"A defeated opponent still dares to talk nonsense, go!"

Ye Chen's eyes shifted. Suddenly, a sword Qi shot out from between his brows. Like a meteor chasing after the moon, it was extremely fast and instantly hit the king of destruction.

"Ah!"

The moment he said "yes," the king of destruction felt his spirit slacken and he was in extreme pain. It turned out that the sword Qi had already engulfed his entire brain, causing him to fall into a state of endless madness.

"No, no!"

The king of destruction found himself but it was too late. Ye Chen's sword-wielding psyche was stirring up his mind, causing him to lose control of himself!

"The king of destruction!"

The iron tree King shouted but the king of destruction did not respond. It was clear that the king of destruction's mental energy had been cut off by ye Chen's sword and he had lost himself!

"Mm ..."

At this time, the ghost bull King crossed his arms in front of his chest and revealed a heavy expression. He did not expect ye Chen's strength to be so powerful that it made him, who had no intention of fighting, lose his interest. After all, if the iron tree King failed, he could still protect his final glory.

"Demon bull King, please save the king of destruction!"

"Ha, this kind of trash, there's no need to save him. You'd better kill this person quickly. Otherwise, the two of you will be sinners of the eighteen palaces, unforgivable!"

"You!"

The iron tree King glared coldly at the ghost bull King but now was not the time to argue with him. Only by defeating ye chen could he safeguard the glory of the eighteen palaces.

"Steel tree sword halberd!"

As soon as he gave the order, the boundless land grew wildly. Sword Qi whistled, and swords and halberds appeared. The people in the land were killed!

Ye chen watched as countless sword concubines grew from the iron trees below him. He suddenly threw the Holy monument.

"Buddha Emperor's sacred tablet!"

The sacred tablet transformed instantly, from a three-inch object to a Pagoda as large as a mountain.

"Suppress!"

"Zi Zi Zi!"

The sacred monument was guided by ye Chen's instructions and emitted a Supreme Buddhist light. It was the blooming of the Buddhist Emperor's law.

The Buddha's light was vast and shook the greater world!

The swords and halberds that had attacked ye chen earlier were all shattered when they came into contact with the Buddhist light. Moreover, the suppression of the sacred monument was even more powerful. The iron tree spell boundary was actually restrained.

"Impossible!"

Seeing that his dharma world had been restricted by the Buddha Emperor's tablet and was unable to work, the iron tree King fell into despair.

"Trash!"

The ghost bull King cursed and had no choice but to attack.

Ye chen turned around and stared at the ghost bull King. This person's strength was far above that of the iron tree King and King Duan mie. It would not be easy to defeat this person.

Moreover, from ye Chen's perspective, there were still two more temples at the end. That would be an even more intense battle. He had to preserve his strength.

"Ghost bull King, you've finally made your move!"

"This is also your last bit of arrogance. Ye chen, this King's attack will represent your death."

The ghost bull King's eyes flashed with a blood-red light. Instantly, his six arms and eight legs turned at the same time, and the surrounding space rapidly evolved. The space-time distortion caused by the destruction of the three palaces all gathered and extended in the direction of the ghost bull King!

[Chapter 2302 The Appearance Of The Ancient God And The Ambush Of The Demon Ox!](#)

With the Holy monument activated, the iron tree spell was completely suppressed by ye chen. The ghost bull King could not stand it anymore. He did not want to waste any more time here because he could already feel the sound of battle coming from the seventeenth Palace. The intensity of the battle there was not any weaker than here. In fact, it was even stronger. Faced with such a special situation, he could not hold back.

Originally, the eighteen palaces did not move around with each other. However, ye chen had caused too much of a commotion in the thirteen palaces and had broken the spatial barrier. Now that the Three

Kings had appeared in the same Palace at the same time, they had broken the rules. Their ultimate mission was to guard the spirit vein. Now that so many people were interested in the spirit vein, guardians like them no longer needed these rotten boundaries.

Naturally, the iron tree King had also sensed the situation in the seventeenth Palace. They wanted to quickly finish off ye chen and then head to the seventeenth Palace.

"You guys seem very anxious!"

Ye chen had keenly observed these flaws. With a single sentence, he had incited the iron tree King and the ghost bull King's strong will to fight.

"Ye chen, you're too arrogant and condescending. You'll be consigned to eternal damnation!" The iron tree King roared.

"Hahaha, little human, you're so confident. I'm surprised, but everything is about to end. I'm going to clean up the mess!"

The Bull Demon King laughed coldly and waved his six arms. Instantly, six demonic weapons appeared in his six hands.

"Go!"

He waved his hand in front of him, and a knife, a sword, and a gourd flew out at the same time, staring at the sacred tablet of Buddha's light.

"What?"

Ye chen scanned the three demonic weapons in front of him and found that they were all Supreme-grade immortal artifacts. The three of them had locked onto the Holy monument at the same time, which put a lot of pressure on the Holy monument.

"Immortal flying knife, Celestial Emperor sword!"

He naturally wouldn't let his opponent succeed. The immortal flying knife and the celestial Emperor sword were unsheathed, floating in the air to protect the sacred monument.

Buzz, buzz, buzz!"

Instantly, the six divine weapons clashed and shook each other. The scene was so Grand that it did not lose to a battle of life and death between powerhouses. Such a scene was shocking and crazy.

"Straightforward!"

Facing two kings at the same time, ye chen knew that this was a good opportunity to train himself.

He chanted the Buddhist Emperor's spell, and the nine heavenly Dao appeared.

"Zi Zi Zi!"

Countless words of the heavenly Dao and Buddha persevered on the sacred tablet. The sacred tablet glowed brightly and fed back the immortal-slaying Flying Dagger and the celestial Thearch sword. Instantly, the power of the two divine weapons doubled.

Buzz, buzz, buzz!"

In the battle of divine weapons, the immortal-slaying Flying Dagger and the celestial Emperor sword clearly had the upper hand.

The three demonic weapons of the ghost bull King were restricted, which triggered the anger of the ghost king. He stretched out his six arms and released all six demonic weapons. For a moment, ghosts wailed and wolves howled. The sky turned dark, a sign of death.

"Ha, profound sword, Wandering Dragon Sword!"

Ye chen was not to be outdone. With two heavenly soldiers, he had an even greater advantage. The four heavenly soldiers, under the blessing of the Holy monument's Buddhist light, suppressed the six great demonic soldiers.

"Zi Zi Zi!"

The battle between the divine weapons had been decided. It was ye chen who had the upper hand. The six great demon weapons of the ghost bull King had been defeated one after another.

"Steel tree King, go!"

"Alright!"

The iron tree King had been preparing for a long time, and when it felt that the time was right, it struck again.

"Heavy sword edgeless heaven splitting slash!"

"Boom boom boom!"

In the sky, among the clouds, the shadow of a super heavy sword slashed down.

The Grand sword ray could transcend the limitations of time and space and instantly arrived in front of ye chen. Its killing intent was insufferably arrogant!

"Hahaha, ye chen, you're dead!"

Seeing that ye chen was being held back by the ghost bull King, the iron tree King used all its strength to strike, vowing to finish him off.

Just as the majestic sword Qi was about to hit ye Chen's head, a majestic figure appeared behind him. It was a three-star ancient God!

"Swish!"

The ancient God stretched out his arms and put his palms together. He caught the blade with his bare hands and controlled the descent of the sword light.

"What?"

The iron tree King was extremely shocked and his heart was filled with relief. His ultimate heavy sword had been blocked by ye chen. What was this majestic figure in front of him? why did it have such unshakeable power?

In front of the ancient God, the steel tree King felt how small he was and how unfathomable the world was.

"Ancient God peerless Suan ni, smelt!"

With a thought, a huge universe furnace appeared behind the ancient God. On his arms, the lava refined by the furnace was constantly corroded from his arms to the sword light. In the blink of an eye, the huge sword light was corroded by the universe furnace until nothing was left.

Buzz, buzz, buzz!"

The sword Qi was gone, and the crisis was over!

"This, this!" The steel tree King was completely stunned. How could there be such a powerful person? he was only a Xuan immortal, how could he be like a god?

"Mm ..."

The Bull Demon King let out a low sigh. His body was growing rapidly. In less than an incense's time, the Bull Demon King's body was as huge as a mountain as he charged toward the three-star ancient God.

"Swish!"

The ancient God stretched out his arm to block the attack, but the six arms of the ghost bull King attacked at the same time, leaving the ancient God with no way to Dodge.

"Go to hell, ye chen!"

The demon Ox King released countless fist gleams in an attempt to kill ye chen.

At that moment, the heavenly Snake Black Tortoise sensed that ye chen was in danger. It reappeared with the Black Tortoise armor!

Countless waves turned into Black Tortoise armor, blocking the ancient God and nullifying the attack of the ghostly bull King.

"Damn it!" The ghost bull King cursed in rage. He began to gather energy in his mouth, preparing to shoot out the deathlight nether Qi wave.

"Zi Zi Zi!"

Seeing that the basin-like mouth was about to unleash the ultimate world-destroying might, ye Chen's brows furrowed coldly. He once again used the three-star ancient God's unique theurgy.

"Go to hell!" The ghost bull King activated the ultimate nether energy wave!

The wave of nether energy was unstoppable. It broke through all obstacles and reached ye chen.

"Three-star ancient God Suan ni Eight Trigrams reversal!"

Just as The Phantom Ox King thought that ye chen was going to die, ye chen unleashed the ultimate skill of a three-star ancient God. The death nether wave was actually reflected back by several times.

"Ah, ah?"

The ghost Ox King's eyes widened. He had never thought that ye chen would have such a move.

"Zi Zi Zi!"

Boom, boom, boom!

Under the explosion of the nether energy, the ghost bull King's large body crumbled. His entire body was bleeding and he did not look at ye chen at all. This was the outcome of going against ye chen.

Seeing that even the ghost bull King had failed, the iron tree King was even more terrified. At this moment, should he still continue to fight?

"Get lost!"

Ye chen roared and the steel tree King knelt on the ground, not daring to move. On the other hand, The Phantom Ox King could not continue to stop ye chen because of his severe injuries.

Riding the Black Tortoise, ye chen broke through the three-King limit and headed toward the second last Palace.

In the seventeenth Palace, the battle was extremely intense. The seventh source released a strange power, and the poison Dragon ghost king took advantage of the geographical advantage to receive the attack.

Boom, boom, boom!

The power of both sides continued to cross and explode, causing the mountain peak to collapse continuously. The battle had entered a state of white heat!

[Chapter 2303 The Changes On Thousand Blade Peak!](#)

Ye chen rode the Black Tortoise and broke through the spatial barrier, entering the outer perimeter of the seventeenth Palace. Before him, the sea of poison churned and the sun and moon dimmed.

The surrounding space had already been completely shattered by the seventh fountain, and Dragon King's poison domain had already spread out like an ocean. Although the seventh fountain was powerful, it was unable to break through it in a short time. After all, the strength of the poison was too high, and it could not hack into it directly.

"Hehehe, you bunch of people who want to obtain the spirit vein are destined to rot in my sea of poison!"

Sensing ye Chen's arrival, the poison Dragon King no longer idle and released the ultimate venom.

Buzz, buzz, buzz!"

Countless venomous liquid gushed out from the ground, splattered in all directions, and fused into the venomous domain, making everyone in the domain feel as if there was a dagger on their back.

"Roar!"

Feeling the attack of the Super-poisonous liquid, the Black Tortoise roared and used the Dragon Qi Shield and the water shield to resist the poisonous liquid.

The seventh source also sensed ye Chen's presence and a cold smile appeared at the corner of its mouth.

"Heavenly Emperor ye chen, we meet again!"

"The seventh source. I didn't expect the evil spirit to want the spirit vein of the underworld!"

"The spirit vein was born from the heavens and earth, and everyone can obtain it. It's the greatest honor to fall into the hands of an evil spirit!"

The seventh source was determined to get the snacks. He had already sent out a message through the evil spirit Source's mutation power. As long as the sixth source received the message, it would naturally make a move. He just had to hold the experts back and wait for reinforcements to arrive.

And what he didn't know was that the evil spirit abyss was currently in an abyss of suffering.

With the arrival of Emperor darkness and brilliant spirit, the pressure on the sixth RiverSource increased.

"To invade the evil spirit abyss is no different from seeking death. The magic martial world and the immortal spirit world will be destroyed!"

Even though the sixth RiverSource was facing two powerful experts, its aura was still very strong. As one of the upper-middle tier combat forces in the RiverSource, he had to hold the ground against the two people in front of him and let the other forces understand the might of their RiverSource!

Buzz, buzz, buzz!"

As he spoke, dark energy surged from the ground below. All kinds of dark energy tentacles rose from the ground like mountains and rushed toward The Dark Emperor and Ling Huang.

"Small tricks. Sixth RiverSource, you are underestimating us!"

The Emperor of Darkness sneered coldly. He raised his hand, and demonic energy soared into the sky. It transformed into a massive demonic blade that slashed down. Instantly, the earth crumbled, and the stars dimmed. The blade's radiance burned brightly as it cut down all the tentacles.

But then, the ground beneath them cracked open, and countless dark energy Warriors charged out, charging towards the two powerful beings.

"Hahaha, you're just a motley crew of ants, yet you dare to be impetuous?" This time, it was brilliant Spirit's turn. With a point of his psionic finger, the earth shook. A beam of light swept across the entire area, turning tens of thousands of dark energy Warriors into dust.

"You guys!"

The sixth RiverSource's eyes narrowed, and a ferocious look appeared on its face.

"The power of the source!"

He activated the power of the source and wanted to fight the two powerhouses head-on!

Meanwhile, at the thousand blade peak in the underworld, ye chen had entered the thirteenth Hall and seen the poison Dragon fighting the seventh Fountainhead. Both sides had not given in to each other. However, when they saw ye Chen's arrival, they both stopped. After all, those who could make it this far were the strongest among the strong.

"Poison Dragon King, do you still want to continue?" Ye chen said.

"Oh? Kid, you want to help this man?" The poison Dragon King asked with a sneer, as if he was not flustered by the current situation at all.

"My goal is to obtain the spirit vein. Anyone who stops me from obtaining the spirit vein is my enemy!"

"Hahaha, the evil spirits are causing chaos and harming the six worlds. Kid, I can see that you possess the underworld God Power and have a deep relationship with the underworld. Why don't you work with me to kill this man?"

At this point, the seventh RiverSource's expression changed drastically. He had obtained information from the poison Dragon King that ye chen had such a relationship with the netherworld. Then, would he really help the poison Dragon King to target him?

Ye chen had just slaughtered everyone in the evil spirit abyss and was unstoppable. If he were to join forces with the poison Dragon King now, even he would find it difficult to resist!

At this thought, seventh Yuanyuan's brows furrowed, and his heart trembled.

He quickly turned to ye chen. "Ha, don't listen to this person's lies. Ye chen, if you want to get the spirit vein, you have to cooperate with the RiverSource. You should know that this is only the seventeenth Palace. The real test is in the eighteenth Palace. Without the help of the RiverSource, do you really think you can safely enter eighteen points and get the spirit vein's core?"

When ye chen heard the choices offered by the poison Dragon King and the seventh RiverSource, he smiled and held his chin. Now, the entire situation seemed to be under his control. Whoever he helped would have a higher chance of winning.

"That's right, the seventh RiverSource. With the combination of such battle prowess, we really don't know what kind of monsters we'll have to face when we get to the eighteen palaces. Your suggestion is not bad!"

"That's right then. Let us all kill the poison Dragon King together, then charge into the eighteen palaces and seize the spirit vein!"

"Ye chen, you!"

The poison Dragon King was furious. He flicked his tail, and the venom splashed up to a hundred feet high.

The seventh RiverSource waved its sharp claws at such a large area of attack. Instantly, the earth trembled and the clouds changed colors. The evil energy triggered the power of the RiverSource, which turned into an evil energy mountain range, frantically blocking the attack of the poison.

Under such restraint, the poison Dragon King's attack missed.

"Nine Heavens rumbling Thunder palm!"

Ye Chen's palm print shot out. The power of Rolling Thunder galloped toward the poison Dragon King.

"Ye chen, you'll pay the price for your choice!"

"I've said it before, whoever stands in my way must die!"

Ye Chen's eyes glowed with a murderous light. The vigorous power of Thunder transformed into an annihilating sword ray and shot toward the poison Dragon King.

At this moment, thousand blades peak suddenly appeared. Countless sword blades fell from the peak, transforming into a Grand sword shape that rushed down.

Boom, boom, boom!

With a burst of explosion, ye Chen's thundering palm print disappeared in an instant, unable to cross the pool of Thunder!

"What?"

Ye chen looked up at the sky and realized that they had been surrounded by the thousand blade peak. They were surrounded by mountains and these mountains contained a powerful and strange energy. This energy was filled with Pandora demon ability, netherworld ability, and even some unknown energy. These energy fluctuations seemed to tell everyone present that there was a hidden force in the thousand blade peak.

"Hahaha! You can't bear the anger of thousand blades peak!"

At this moment, the poison Dragon King laughed out loud, as if the Jia Hui He had been waiting for had arrived.

Ye chen and the seventh RiverSource were on high alert at the same time. The thousand blade peak was very strange to begin with. Where did the various energies contained in it come from? both of them had tried to investigate before but in the face of the strange energy of the thousand blade peak, all methods of investigation were blocked. It would not be easy to get the real answer!

"Hmph, no matter how powerful the energy is, I'm going to take the spirit vein of the netherworld today!"

Ye chen took a step forward and his vigorous divine energy swept out. He actually swept a path through the poison Dragon King's poison domain!

[Chapter 2304 Liuxian Poison-Breaking Dragon!](#)

In the evil spirit abyss, the sixth Fountainhead was fighting against Ling Huang and the Emperor of Darkness. No matter how much he schemed, he was still at a disadvantage.

"The sixth RiverSource, where are the other riversources?" The Emperor of Darkness asked coldly.

"Hahaha, no comment!"

The sixth RiverSource laughed and shouted, still not holding back.

"Hmph, if you don't tell me, I'll completely destroy your evil spirit abyss and make it impossible for the evil spirits to descend!"

"You!"

He looked at the center of the evil spirit abyss, where the altar was located. If it was really destroyed, the evil spirits' great efforts would be in vain.

"Mm ..."

Under such circumstances, the sixth source made up his mind and said, "Hmph, you still don't know, do you?"

"What?" Ling Huang asked.

"According to the information from the seventh source, ye chen is looking for the spirit vein of the netherworld. He's about to succeed!"

"Spirit vein of the netherworld?"

Hearing this, Ling Huang and the Emperor of Darkness were both shocked. As old experts of this level, they naturally knew about the legend of the spirit vein. It was rumored that whoever could obtain the spirit veins of the six realms would be able to rule over the six realms and become the one and only Supreme!

Therefore, this was a very important confidence for the two of them. Naturally, they did not dare to be careless!

"So, the seventh RiverSource has already gone to the netherworld?" the Emperor of Darkness asked.

"That's right. If you want to rise up, hurry to the netherworld and get a share of the loot!"

"Mm ..."

Ling Huang and the Emperor of Darkness looked at each other. If they were to fight to the death with the sixth RiverSource, they would have to pay a heavy price even if they could kill it. They might as well head to the netherworld to find the core of the spirit vein and achieve their great goals!

"Hmph, the sixth source, you betrayed your own brother. You're really something!"

"Hahahaha, sixth RiverSource, we'll be taking our leave!"

With that, Ling Huang and the Emperor of Darkness ascended and disappeared.

"Execute the evil spirit descent plan immediately!"

After Ling Huang and the Emperor of Darkness left, the sixth source looked at the experts behind him coldly and shouted angrily.

"Yes!"

The powerhouses at the back were still shocked by the betrayal of the sixth RiverSource, but once they heard the order, they had to obey it. This was something that sinistress had engraved in her genes.

After the complaint, the sixth source quickly returned to its Hall and closed its eyes to rest, waiting to cast the spell.

After leaving the evil spirit abyss, Ling Huang and the Emperor of Darkness returned to their own territories, leading the experts to make preparations and set out for the netherworld.

At the entrance of the netherworld, two large fleets descended. They were the armies of the magic martial world and the celestial realm.

In the netherworld, old ancestor yellow spring and the others received the news through a defensive formation.

"Old ancestor yellow spring, it's the Army of the magic martial world and the immortal realm. How could they appear outside the underworld at the same time?" The netherworld patriarch asked, puzzled.

"It seems that these two families have really formed an alliance. Things are not good!"

Old ancestor yellow spring's brows trembled and his eyes focused. He was worried about ye chen.

"What should we do?" An expert asked.

"Before the Emperor left, he said that we must not act rashly. We must guard the last spiritual land of the underworld and then cultivate the Buddha Emperor's heart technique!"

"Yes!"

Now that ye chen had left, the most powerful person here was old ancestor yellow spring. Everyone would follow his orders.

In the distant sky, the sound of explosions rang out continuously. It was the great army of Liang that had activated the charging light pillar and destroyed the protective formation of the netherworld.

"Boom boom boom!"

The two fleets entered the underworld and headed toward the thousand blades peak.

In the thousand blade peak, on the seventeenth Palace, the poison Dragon King was very confident. The thousand blade peak around him was in a frenzy. Countless strange auras drifted over, causing ye chen and the seventh RiverSource to fall into a tense situation.

Ye chen looked coldly at the thousand blades peak. Countless dark auras floated around. He could sense the powerful mixed energy within. Who was the ruler of the thousand blades peak?

The answer to this question was very complicated, but he had to get past the poison Dragon King.

"Seventh RiverSource, do it!"

"Ha, let's do it together!"

"Kill!"

Ye Chen's eyes turned cold as he unleashed the might of his sword.

"Whoosh, whoosh, Whoosh!"

In the blink of an eye, endless sword might swept across the entire scene. The poison Dragon King could not overturn the rivers and seas and was suppressed by ye Chen's powerful force.

Taking advantage of this moment, ye Chen's seventh source had already arrived above the poison domain, looking down from above.

"Nine Heavens thundering palm: disdainful Shura sky shaking strike!"

Ye Chen's palm struck out again. It was a life-taking divine ability that closed in on the poison Dragon King. At the same time, the seventh Fountainhead released the power of The Fountainhead's mutation. Countless dark power horns appeared all over its body and grew endlessly.

These dark power horns grew infinitely, turning into sharp blade-like things and stabbing wildly.

Soon, they arrived in front of the poison Dragon King.

"Giggle!"

The poison Dragon King didn't panic at all in the face of these two great killing intents. He must have something to rely on.

"Thousand blades peak, the power of demonic breath!"

The poison Dragon King opened his mouth and absorbed the strange aura flowing from thousand blades peak. After absorbing the aura, his power increased by a hundred times.

"Phew, phew, phew!"

In an instant, the entire gambling domain erupted again, causing all the power in the surroundings to surge towards the core of the poison liquid. Using the power of demonic breath, the poison Dragon King retaliated.

"Poison liquid rush, go!"

The poison Dragon King opened his huge mouth and spewed crazily at the two people in the sky.

Countless green poisonous lights bombarded the sky, and the frequency of the attacks became higher and higher, making it impossible for the two to Dodge.

"This person's strength has actually improved so much. How is this possible?" The seventh source asked in confusion.

Ye Chen looked coldly at thousand blades peak. The poison Dragon King's sudden increase in strength was clearly related to thousand blades peak. However, what was the relationship?

At this moment, he could not think too much. Ye Chen took out a divine artifact, the liuxian bottle.

"Pangu flowing celestial bottle!"

High in the sky, ye chen held the liuxian bottle and released its power. Instantly, the endless venom was absorbed by the liuxian bottle.

The boundless venom domain, which was like a sea, was completely absorbed by the liuxian bottle without any resistance!

"What?"

The poison Dragon King had obtained the power of demonic breath with great difficulty, and the thousand blades peak had helped him. Now, it was all in vain. How could he bear it?

"Road to the yellow Springs of poison!"

With a sudden shout, the poison Dragon King's ultimate poison law was activated. All the poison sacs in his body were opened, like an unrestricted poison gas maker. He released poison gas into the surroundings madly, vowing to shatter the liuxian bottle and kill ye chen and ye mo.

"Ha, it's just to create materials for me!"

Above the nine Heavens, ye chen smiled coldly. He was not afraid at all.

The liuxian bottle was like an endless space in the universe. No matter how much poisonous gas or venom there was, it would absorb all of it!

The poison Dragon King was panting and exhausted, but it still had no effect.

"You, you!"

"Pfft!"

The poison Dragon King spurted out a mouthful of blood, unable to release any more poisonous gas.

[Chapter 2305 Demonic Breath Reincarnation King!](#)

"Hahaha, I didn't expect you to really defeat the poison Dragon King. Thank you for your help!"

Just as the poison Dragon King was unable to get up, the seventh fountain flew up and charged toward the eighteenth Palace in an attempt to snatch the spirit vein core. However, ye chen was not in a hurry to give chase. Instead, he sat in the seventeenth Palace and watched from the sidelines.

After the battle with the seventeen palaces, ye chen had come to realize that the most mysterious thing about the netherworld eighteen palaces was the strange energy on thousand blade peak. It could easily raise the poison Dragon King's power to such an extent. It was clear that if there was really a powerhouse on thousand blade peak, their strength was not on the same level as the poison Dragon King 's!

Behind the seventeenth Palace, the door opened, and the strange aura was still spreading. The seventh RiverSource rushed in, but what he saw was a blank face. There was no physical body at all.

"What's going on?"

He had thought that he could see the spirit vein, but he was wrong. Not only did he not see the spirit vein, but even the way back had disappeared.

From the outside, ye chen saw that the seventh source had stopped in its tracks. He did not know what it was doing.

"What?" Seeing that the seventh source was still in a daze, ye chen realized that this was not normal. He might have fallen into some kind of mental control.

At the same time, the fourteenth, fifteenth, and sixteenth Palace's three great ghost kings that had been broken apart earlier also descended.

Although they had been severely injured by ye chen, they still had basic combat strength.

"Hahaha, you're all done for!"

The ghost bull King shouted at ye chen. At this moment, the seventh source had already submerged into the dark energy. At the same time, the entire space was shaking.

Zila, Zila, Zila!

However, two majestic warships appeared in the sky. It was The Dark Emperor and Ling Huang.

The two of them stood in front of their respective battleships, coldly looking down at the experts who had descended to the mortal world. They were like judges, high and mighty.

"Hahahaha, it's just as the sixth RiverSource said, ye chen!"

The Dark Emperor's cold eyes locked onto ye chen as he laughed loudly.

Ye chen looked up at the sky. The matter of the spirit vein could not be covered up. Moreover, the seventh source must have informed the sixth source. It was just that he had been betrayed. The appearance of The Dark Emperor and Ling Huang made the situation even more chaotic.

Sensing the celestial demon power, ye chen knew that they were from the magic martial world and the celestial Spirit world. Previously, the magic martial world and the celestial Spirit world had invaded the spirit world many times. This time, the strength of the two people before him was far above the others. It could be seen that they were the rulers of the two worlds.

"Ye chen, you know me?" The Emperor of Darkness asked.

"Who is it?"

"You're so disdainful. Do you really think that you're invincible after defeating the explosive Demon Lord? This Emperor is the leader of the magic martial arts realm. This time, the netherworld spirit vein is mine!"

"The magic martial arts world!"

Ye chen revealed a disdainful smile. There were too many people who wanted the spirit vein. It did not matter if there was one more person in the magic martial world.

Ling Huang also locked onto ye chen at the same time. Several perfected beings who came to the spirit realm were annihilated. He would also hold ye chen responsible for this.

"Boom boom boom!"

Just as the various experts were scheming against each other, another wave appeared in the sky. Countless strange auras filled the air and the entire space of the eighteen netherworld palaces started to tremble. As for the ghost bull King and the others, they revealed a crazy smile. It was as if they had seen the person they idolized the most about to appear.

"Hahaha, all of you are going to die Here! The hell of avicinaraka has appeared, and all of you are going to die!"

"Demonic breath cakravarti King, hahaha!"

"Before the demonic breath, all things sink!"

The fourteenth, fifteenth, and sixteenth ghost kings bowed to the cakravarti King.

In the sky, countless strange auras gathered and formed a huge figure. The huge wheel behind him kept spinning, and ghostly Qi came out of his body. He was like a giant looking down at all the Masters.

"What?"

Ling Huang and The Dark Emperor were still not in the mood to target ye chen because they could feel the immense pressure coming from the sky. This pressure could completely affect their martial heart. This meant that the existence in the demonic breath thousand blades peak had unfathomable strength and could even suppress them.

The Dark Emperor and Ling Huang looked at each other, and their expressions became serious.

Within the armies of the devil martial realm and the immortal spirit realm, many of the soldiers were suppressed by the demonic breath cakravarti King's overpowering mental strength. They all revealed looks of fear, and some even fell to the ground.

As for the seventh RiverSource that had entered the eighteen palaces, it had disappeared without a trace, its fate unknown.

The Grand Power of the wheel caused the battleships of the magic martial realm and the immortal spirit realm to sink and fall.

"Boom boom boom!"

In the end, the two battleships fell from the sky, creating a Grand scene.

The cakravarti King's eyes were also cakravarti, and they were constantly rotating. Countless runes were rotating within them, constantly releasing a strange aura.

"The great Dao of Samsara, kneel for eternal life!"

A powerful voice descended, suppressing the auras of all the experts. It was an unstoppable force!

The power of the entire thousand blades mountain enveloped and circulated around the cakravarti King's body, causing his figure to become even more massive, like a god!

When the powerhouses saw this situation, they felt a little relieved. The cakravarti King before them was too powerful. If they wanted to fight him, they had to join forces.

"Hahaha, all of you shall die!"

The poison Dragon King and the other three ghost kings laughed wildly. They could finally see the cakravarti King taking revenge for them.

The thousand blade Peak's countless peaks released their own power, which was transformed by the countless Masters who had died here. They were infused into the cakravarti King's cakravarti. All the Masters felt like they had fallen into hell.

Ye chen stood on the Black Tortoise, his body blazing with Buddhist light as he resisted the energy of the chakra.

However, the light of Buddha instantly caught the attention of the cakravarti King.

"Six Dao death transformation!"

The cakravarti King threw out several cakravarti and headed straight for ye chen.

Zila, Zila, Zila!

The Dragon-holding spear appeared to protect its master, and the power of the heavenly Dao divine Thunder swept across the wheel. "Boom, boom, boom!" The wheels were broken one after another, unable to resist the Dragon divine lightning.

Ling Huang and the Emperor of Darkness were watching the show. If ye chen died at the hands of the cakravarti King, the cakravarti King would be willing to let him exhaust the latter.

"Linghuang, we need to assemble the formation immediately. This monster is too powerful!"

"Understood!"

Ling Huang and the Emperor of Darkness joined forces and started to set up the formation.

In the sky, ye chen looked coldly at the cakravarti King. Countless ghostly Qi surrounded the cakravarti King's body. Then, the thousand blades peak floated in the air and transformed into a sharp sword that was aimed at ye chen.

"Thousand-blade sword array!"

The cakravarti King bellowed. The thousand blades peak transformed into a sword array and flew out.

"Whoosh, whoosh, Whoosh!"

Countless unstoppable mountains came crashing down.

"Dragon Tooth fist: glorious hundred Dragons tearing the sky!"

Ye chen activated the Dragon Qi in his body and turned it into a hundred Dragons fist ray to counterattack.

Boom, boom, boom!

In the blink of an eye, the thousand-blade sword array and the 100-Dragon Fist radiance collided with each other. The sky was in chaos, and no one could see what was happening.

As the dust scattered, ye chen stood on the Black Tortoise and aimed his Lightning Spear at the cakravarti King.

"Thunder Dragon God's nine divine Spears!"

Zila, Zila, Zila!

An endless amount of lightning power gathered together. At the same time, the universe furnace released a smelting power, increasing the energy density of the lightning power by a hundred times!

[Chapter 2306 The Cycle Of Life And Death!](#)

Ye chen had actually managed to contend against the cakravarti King. Such a feat shocked Ling Huang. The Emperor of Darkness and the other powerhouses all looked grim. The situation was complicated and difficult to determine. They could only adapt to the situation.

Zila, Zila, Zila!

Above the nine Heavens, the cakravarti King was surrounded by nine bolts of divine Thunder. With the power of the Qiankun furnace, even the cakravarti King, who was as large as a mountain, was entangled in a battle.

As he took a breather, ye chen swept his cold eyes across the entire place in search of the spirit vein. This time, his only goal was the spirit vein. He would save as much as possible. Therefore, ye chen did not have the determination to kill the cakravarti King.

"Demon's Eye!"

Ye chen activated his underworld Demon Eye and used the power of the same origin to find the spirit vein.

All sorts of information entered ye Chen's mind. As expected, around the cakravarti King, countless strange auras blocked ye Chen's vision, making it impossible for him to see where the core of the spirit vein was. Time was of the essence. Ye chen could not hesitate. He flew out and searched for it on his own.

"Keep an eye on him!"

At Ling Huang's signal, master Chong Xu of the immortal spirit realm flew out and stared at ye chen. A demon general of the magic martial world received the emperor's order at the same time and carried out a similar operation.

Ye chen did not care about the pursuit of the magic martial world and the celestial Spirit world. These small fries were not in his eyes.

The only thing he needed to pay attention to now was the cakravarti King. The nine thunder gods were still fighting the cakravarti King. This was ye Chen's chance.

He continued to fly and passed countless peaks. The ghostly energy on thousand blade peak became stronger and stronger. A powerful energy of the cakravarti King seeped out of it. This energy had even sensed ye Chen's existence and was beginning to take shape.

"Squeak, squeak, squeak ..."

Their energy condensed and took form, all of them moving out to pursue ye chen.

"Kill, kill, kill!"

All kinds of killing sounds rang out, and ghostly Qi filled the air.

"Immortal flying knife!"

"Yes, master!"

The immortal slaying Flying Daggers rushed out of the ancient God Space and rushed into the group of small ghosts with formed aura, killing them crazily.

In front of him, more and more little ghosts were taking shape. These little ghosts were clearly stronger than the previous ones. However, ye chen was happy that they were not enough. This meant that he was moving in the right direction, toward the energy core.

"Roar!"

Sure enough, powerful demons appeared in front of them. The aura of these demon dwellers was obviously stronger than those little ghosts, and they had the strength of heaven Immortals.

"Kill, kill, kill!"

These great demons' killing intent was even stronger. They all released their divine abilities and secret techniques to target ye chen.

The netherworld energy, ghostly Qi, and demonic energy surged into the sky in an overwhelming manner.

"Celestial Thearch sword, centipede, stand in the universe!"

In front of his target, no one could stop him. This was the majesty and confidence of the heavenly Emperor. The celestial Thearch sword slashed out with the power of heaven and earth, and the entire path ahead was cut open. Even if a group of great demons appeared, they still couldn't resist the slash of the heavenly Sword.

"Boom boom boom!"

A powerful sword power filled the nine Heavens, and a light pillar between the stars exploded in all directions.

"Ah, ah, ah!"

All kinds of great demons were sent flying. In front of the absolute power of the heavenly Sword, so what if they had the strength of a heaven immortal? they were defeated!

Ye chen was like a shooting star, dashing past and heading straight for the energy core.

"Zi Zi Zi!"

The demonic light swept across a thousand-mile radius in front of him and instantly triggered an infinite energy reflection. This allowed ye chen to lock onto the location of the final energy core. It was under an abyss of the demon breath thousand blades peak.

"Down!"

Ye chen stomped his foot and everything within a hundred-mile radius collapsed. His body fell toward the abyss along with the collapse.

The powerhouses from the immortal spirit realm and the magic martial realm who followed ye chen could not keep up with his pace. They only saw him descend into the abyss and sent messages to Ling Huang and The Dark Emperor. When the two of them received the news, they flew toward ye Chen's direction, leaving behind two large warships to work with the nine thunder gods to block the demonic breath cakravarti King's massive figure.

"Zi Zi Zi!"

On the battleship, demonic and immortal energy shockwaves were continuously shot out in an attempt to slow down the cakravarti King so that he could not stop the others from finding the core of the spirit vein.

Below, the ghost bull King, the poison Dragon King, and the other experts all made their moves.

"Kill!"

The immortal spirit realm and the magic martial realm's Army were also charging towards them, tangling with them.

In the abyss in front of him, the core of the spiritual vein released dark energy after being stimulated by the Demon's Eye, shooting up to the nine Heavens.

"Ah!"

Ye chen was going to face this powerful shock wave and walk down. The difficulty that he had to overcome was obvious.

"Dragon Tooth fist, mistook the thousand Dragons dangyue!"

"Roar!"

Ye chen unleashed the second form of the Dragon Fang fist, the might of a thousand Dragons. It suppressed the shockwave from the spirit vein core and continued to fall.

Above the abyss, Ling Huang and the Emperor of Darkness had already descended. However, they were affected by the powerful shock wave and could not keep up with ye Chen's pace.

"This can't go on!" Ling Huang said.

"What do you mean?" The Emperor asked.

Ling Huang looked down coldly. "We can't catch up to ye chen if we keep chasing like this. The only way is to use both our strengths to break the shock wave before us!"

"Hmm ... That makes sense!"

The two of them began to channel their own techniques, and waves of demonic and immortal energy turned into light balls at the same time. They gathered together and forcibly rushed down into the abyss.

"Boom boom boom!"

The combined power of the two experts was earth-shaking, and they instantly destroyed the shock wave of the spiritual vein in front of them, helping them to descend rapidly.

At the bottom of the abyss, the spiritual vein continued to attack. Endless energy was erupting like a torrential River and could not be stopped.

"Heaven shaking Stomp!"

Of course, ye chen sensed the arrival of the two powerhouses above him. He stomped his feet again and used the heaven-shaking stomp. The power of space rapidly distorted, increasing ye Chen's speed.

"This kid can still accelerate!" The Emperor of Darkness was shocked.

"Let's move together!"

"Alright!"

The two powers increased their power once again and kept up with ye Chen's speed.

On the outside, the demonic breath wheel King's shadow sensed that the top three had entered the abyss of thousand blade peak and was furious.

"Demonic wheel Sky Conqueror!"

With an angry roar, the demonic wheels of heaven and earth flew up one after another and turned into endless Wheels of Destruction. They went berserk in all directions, like the wrath of gods and the spread of demons!

Boom, boom, boom!

The surrounding space rapidly exploded. Ye Chen's nine rays of Thunder God's power were instantly destroyed. At the same time, the demonic wheel continued to be destroyed. The two major armies of the immortal spirit realm and the magic martial realm were instantly annihilated, and the warships were destroyed.

Rivers of blood and mountains of corpses!

The cakravarti King turned around and looked at the abyss of the thousand blade peak. He grabbed at the ground with his big hand!

Zila, Zila, Zila!

A powerful force was injected into the earth vein, connecting with the core of the spirit vein.

In the abyss, the spirit vein was about to reach the power of the cakravarti King and was activated at the same time. Endless cakravarti rushed out of the spirit vein and attacked ye chen and the other two indiscriminately.

"Dragon Qi Shield!"

Ye chen released the Draconic Aura shield to resist the power of the wheel while Ling Huang and the Emperor of Darkness moved at the same time to release their immortal and demon divine abilities.

However, the power of the wheel continued and its power gradually increased. The three of them were under pressure!

[Chapter 2307 2312-Wheel True Body!](#)

The ghostly energy that seeped out of the spirit vein turned into a powerful energy wave that continued to suppress ye chen and the other two, forcing them to slow down. However, this process did not last long. Ye chen waved his Dragon-holding spear and swept three thousand miles. The nine-layered heavenly Dao divine Thunder completely crushed an obstacle.

The Dark Emperor and Ling Huang, who were at the back, had benefited from ye Chen's help to successfully enter the Earth vein.

At this time, ye chen could not care less. He wanted jin ke to see where the spirit vein was.

"Evil demon Eye!"

Ye chen continued to release the power of the Demon's Eye and found the spirit vein's core as quickly as possible. This was because he could clearly sense that the cakravarti King was already on his way.

"Zi Zi Zi!"

Under the illumination of the Demon's Eye, the spirit vein's core finally appeared in ye Chen's mind. However, Ling Huang and the Emperor of Darkness did not see it. They only saw ye chen seemingly inspecting it but only ye chen himself knew the results.

Since ye chen had the initiative, the other two could only watch ye Chen's movements and hope that he would move quickly so that the two of them could also find the core of the spirit vein. However, ye chen did not move. He would not let these two guys reap the benefits without doing anything. Since he had found the location of the spirit vein's core, he could act at any time.

"Ye chen, have you found the core of the spirit vein? once the cakravarti King enters this place, it'll be difficult for us!" The Emperor of Darkness said with a smile. He wanted to pressure ye chen and make him move faster. Ling Huang, who was behind him, had the same intention. Seeing the two of them so anxious, ye chen sneered.

"Are you all in such a hurry?" Ye chen asked.

"We are just worried about you. The cakravarti King's attention is on you now. What do you think will happen to you after he arrives?"

"Ha, you don't have to worry about me. If you want to find the core of the spirit vein, we'll have to move together. I haven't found its exact location yet!"

"Mm ..."

The two of them looked at each other. They both knew that things would become more and more troublesome as time passed. If they didn't act now, when would they?

"Alright, let's look for it together!"

The two of them knew that if they did not do anything, ye chen would not do anything himself. They could only cooperate with ye chen.

The three of them moved together. In less than half an incense's time, the ground rumbled and the earth veins exploded. Countless ghostly Qi gathered, which was the sign of the arrival of the cakravarti King.

Ye chen had sensed the arrival of the cakravarti King in advance and had long hidden in a secret place. However, Ling Huang and the Emperor of Darkness did not notice. When the cakravarti King arrived, he saw the two of them searching for the core of the spirit vein.

"All of you, die!"

The cakravarti King was furious. "Die!" He shouted and waved his long arms. Countless cakravarti were released and chased after the two of them.

The speed of the wheel was extremely fast and its energy coefficient was extremely high. Even a heaven immortal would be seriously injured by this kind of pursuit power. The two dodged and searched for ye Chen's figure. However, all they saw was nothingness. There was no trace of ye chen at all.

"What's going on? where's Ye chen?" Ling Huang asked.

"I didn't notice. Weren't you looking for the core of the spirit vein with us just now?" The Dark Emperor's face twisted.

The two of them frowned. They knew that they had been tricked. Ye chen had hidden himself long ago, exposing the two of them to the cakravarti King. In other words, ye Chen's sensing ability was above theirs and he had long known that the cakravarti King had descended into the world.

"This bastard, he actually sneaked away on his own!"

"The only way to continue searching for the core of the spirit vein is to defeat the cakravarti King!"

At this point, the two of them had no choice but to fight the cakravarti King to the death. After all, they were confident in their own strength and they would definitely defeat the cakravarti King if they joined forces.

Ling Huang flew forward and threw out countless spiritual talismans. These spiritual talismans were imbued with the Supreme laws of the immortal spirit world. Once they were contaminated, they would be Under Ling Huang's control. It was the puppet technique.

"Whoosh, whoosh, Whoosh!"

These talismans rushed toward the cakravarti King's massive figure and attached themselves to his body.

"The Grand Supreme Decree, obey my orders, die!"

Ling Huang pinched a talisman between his index and middle fingers and released the burning talisman. The laws contained in the talisman were broken apart and turned into energy, floating in the direction of the cakravarti King.

"Phew, phew, phew!"

This power quickly merged with the spiritual talisman on the cakravarti King's body. The cakravarti King suddenly felt that his body could not move and was dumbstruck.

"Hahaha!" Ling Huang laughed. He had thought that it would take a lot of effort to deal with the cakravarti King, but he did not expect that it would be settled with a mere Taishang spiritual talisman. Looking at the cakravarti King, who was as still as a bronze statue, the Emperor of Darkness 'heart trembled. He thought, 'if I were to be cursed with this talisman, wouldn't I be at the mercy of others?'

As such, the Emperor of Darkness was very wary of Ling Huang.

Naturally, Huang Ling had noticed this. However, this was a display of his power, and he was very proud of it.

"Hmph, a mere cakravarti King wants to be my enemy? you're overestimating yourself. Emperor of Darkness, let's quickly find the core of the spirit vein!"

"Alright!"

The two of them split up, searching for the source of the spiritual vein's energy.

Ye chen, who was hiding on the rock wall, sneered. Although the shadow of the cakravarti King was controlled by the spiritual talisman, his real body was the most terrifying. He had never shown himself and this was also the variable that ye chen was most afraid of. Therefore, he was not in a hurry to act. The best time to act was to let Ling Huang and the Emperor of Darkness force out the real body of the cakravarti King for him.

"Boom boom boom!"

Just as Ling Huang and the Emperor of Darkness made their move, the cakravarti King's massive body disintegrated and turned into fine powder.

"What?" The two powerhouses revealed solemn expressions. This phenomenon was clearly abnormal. This meant that a change was about to occur.

The ground of the entire thousand blades peak trembled. Then, the thousand blades peak collapsed one after another. Endless rocks flew and hit everywhere. It could be said that the sky and earth were turned upside down and the sea was flowing.

The two strongmen didn't dare to bring such a Grand energy fluctuation with them, so they released their own Qi barriers to protect themselves.

At this moment, in the middle of the rubble, a powerful ghostly Qi burst out. The true body of the cakravarti King had appeared!

"All you did was destroy one of my avatars, and you think you can defeat me? What a joke!"

In the cakravarti King's eyes, there were countless wheels spinning. He shot out ghostly lights that contained countless mini wheels. Once hit by these ghostly lights, these mini wheels would enter the cultivator's meridians, causing their energy to flow in reverse, and the cultivator's meridians would be destroyed.

"Zi Zi Zi!"

Wherever the ghostly light passed by, not a blade of grass grew. Only then did Ling Huang and the Emperor of Darkness understand the true power of the cakravarti King.

"I didn't expect the netherworld to have such a powerful person. This shows the importance of the spirit vein. Emperor, we can't miss this time!"

"Ha, that's natural!"

[Chapter 2308 2313-Return To The Spirit World!](#)

Ling Huang and the Emperor of Darkness were not afraid of the cakravarti King's true form at all, showing the demeanor of Kings.

However, the cakravarti King's cold eyes were filled with nothing but killing intent. It was this pure killing intent that made his battle extremely simple and effective.

"Infinite reincarnation formation!"

The cakravarti King didn't hesitate and immediately unleashed his ultimate move. Countless cakravarti rushed out of his spiritual veins and floated in mid-air. They were all aimed at the two powerhouses.

"Kill!"

With a sudden shout, the cakravarti King leaned his arms forward and thousands of cakravarti struck out at the same time, sweeping the entire scene.

In front of him, everything that the wheel passed by exploded. Nothing could stop the wheel. Furthermore, the cakravarti King was still absorbing energy from the spirit vein to generate the power of the wheel. Even Ling Huang and the Emperor of Darkness were suppressed for a while.

"I didn't expect this monster to be so strong. I've underestimated him." Ling Huang had to admit that the cakravarti King's strength was above his expectations. Otherwise, he would not have been so confident. The Emperor of Darkness was equally shocked. There were tens of thousands of cakravarti in front of them, and each of them had the power to severely injure a heaven immortal. Even if their strength was far above that of a heaven immortal, they were still helpless in the face of so many attacks.

At this moment, ye chen, who was in the hidden space, had been observing the changes in the cakravarti King's energy. Compared to the location he had previously determined through the Demon's

Eye, the difference was not much. It was clear that the place where the cakravarti King was absorbing energy was near the core of the spirit vein.

"The demonic wheel of life and death!"

The shadow of a huge wheel appeared behind the cakravarti King. The power of the infinite cakravarti formation continued to increase, and the two powerhouses were in danger.

"We can't be in a hurry, we still need to wait!"

Although ye chen had determined the location of the spirit vein's core, he was still very calm. The cakravarti King still had a lot of energy left in the battle. If he made a move under such circumstances, he would definitely suffer a fierce counterattack from the cakravarti King. He might even let Ling Huang and the Emperor of Darkness take advantage of it. Ye chen would not do such a thing.

In the center of the battlefield, the cakravarti King's power continued to rise. Ling Huang and the Emperor of Darkness looked at each other. They knew very well that the cakravarti King had the home ground advantage. If he continued to be suppressed, the outcome would be unpredictable. The only way was to fight back.

"Emperor's Misty Moon-swallowing art!"

The Dark Emperor rose into the air, causing the entire sky to change color. The heavens and earth shook as the moon devouring demonic energy descended with a loud bang. Mountains and rivers crumbled, and the sun and moon sank.

"Boom boom boom!"

The Grand demonic power instantly reversed the wheel formation. At the same time, Ling Huang attacked.

"Taishang spiritual talisman, support from all directions!"

"Zi Zi Zi!"

Countless spiritual talismans floated in the air, summoning the shadows of many gods. They all released their magical powers to resist the wheel martial technique formation.

The cakravarti King was actually being suppressed by the two ultimate techniques. This situation made the cakravarti King extremely angry and the 18 true Lords exploded.

"Ah!"

With a long howl, the cakravarti King continued to absorb the power of the spiritual Meridian. At the same time, his body had reached its limit. This was a sign of the final battle.

Ling Huang and the Emperor of Darkness looked serious at the same time. They naturally knew that once the cakravarti King's power was unleashed, it would be the most terrifying destructive power.

"The empyreal King's world-destroying demonic flame!"

The Emperor pushed his mana to the limit and unleashed his destructive might without holding back.

"The spiritual brilliance ethereal Grand Supreme demon-sealing token!"

At the same time, Ling Huang released his divine weapon, the Taishang token, and it floated in the air. All the spiritual talismans around him were boosted by the Taishang token and their power increased tenfold.

"Infinite revolution, six Dao destruction!"

At the same time, the cakravarti King activated the spiritual pulse's most powerful combat power. All the cakravarti gathered together and transformed into a level-less cakravarti. This was the ultimate battle.

The two sides fought to the death. Heaven and earth were overturned, and the sun and moon no longer existed!

As the cakravarti King's most powerful ability was activated, the spirit vein's core instantly appeared. Ye Chen's eyes locked onto it.

"Furious spacetime roar!"

The Black Tortoise opened a spacetime tunnel and swallowed the core of the spiritual vein.

"What?"

The cakravarti King turned to look at ye chen, his heart trembling in fear. The spirit vein's core was right in front of him. The heavenly snake swallowed it in one gulp. Then, the Furious Roar of Time and space activated a vortex teleportation. In the blink of an eye, ye chen was still a hundred miles away.

Boom, boom, boom!

At the core of the battle, countless explosions occurred. The infinite wheel continued to be destroyed, the Supreme demon sealing formation exploded, and The Dark Emperor's demonic flames disappeared without a trace.

"Ah!"

The two powerhouses were sent flying, while the cakravarti King's body continued to shatter as he knelt on one knee.

"I want you all dead!"

The cakravarti King was even more furious. He triggered the last of the power of the Spirit Meridian to erupt. The two powerhouses saw this and did not dare to face him head-on. They used their strongest movement divine arts to escape from the thousand blade peak.

"Zi Zi Zi!"

In the abyss of the thousand blade peak, a beam of light shot up into the sky. The entire mountain range of the thousand blade peak split open because the core of the spirit vein was taken away.

The heavily injured Ling Huang and the Emperor of Darkness had left far away and returned to the sky above thousand blade peak. They were greeted by hundreds of defeated soldiers. The battleships had

been destroyed, and the Army had been destroyed for a long time. The two of them were in an extremely low mood.

Ye chen, who had obtained the spirit vein's core, had released the power of spacetime many times and had already arrived at a safe position.

"I've already obtained one of the spirit veins of the six worlds!"

Ye chen stretched out his hand. The spirit vein core was spat out from the heavenly snake's mouth. It was like a dark ball of light that constantly emitted a dark light. It was very mysterious.

"The next one is the spiritual realm!"

After finding the right direction, ye chen rode the Black Tortoise and broke through the barrier, entering within three thousand feet of the yellow spring. Then, he rushed straight into the spirit realm.

The land of the spiritual realm had been contaminated by evil spirits. There was an aura of evil energy everywhere. Many people had even been transformed into evil spirit Warriors by the evil energy. It was a tragic sight.

It would be a little troublesome to find the core of the spiritual realm in such a place.

Fortunately, ye chen had previously cultivated dark energy spells through the ancient God Space. Now that he had achieved some small success, such an illusion would not have a negative impact on him. It could even promote the progress of his dark spirit spells.

Ye chen recalled his previous experience in the spirit realm and thought of the vast true spirit Hall!

As the most powerful Holy Land in the spirit realm at that time, the true spirit Palace was the existence that controlled the entire spirit realm. It must have been the place with the most abundant spiritual Qi. However, because the Lord true spirit died, the entire true spirit Palace collapsed and disappeared without a trace.

Today, the heavenly Emperor ye chen had once again set foot on this place to find the core of the spiritual realm.

"The laws of the heavens!"

Ye chen activated the power of the heavenly Dao and the profound immortal law. It filled the entire space and instantly suppressed all the dark energy around the true spirit Hall so that his movements would not be discovered by the dark energy.

Walking into the ruins of true spirit Hall, there were broken walls and even piles of bones. It was obvious that the place had been destroyed by the evil spirits.

"Eight-gate divine disc!"

Ye chen threw out judgement. The mirror of darkness continued to emit light, scanning the surroundings. All kinds of information were continuously returned to the judgement, reflecting a reconstruction of true spirit Hall in the air!

[Chapter 2309 Twenty Thousand Miles Underwater!](#)

"Zi Zi Zi!"

As the strange light appeared in the sky, another scene appeared above the ruins of the true spirit Palace. It was the true structure of the true spirit Palace. In this structure, countless spirit lights floated. These spirit lights seemed to be telling ye chen the true story of this ancient spirit land.

The sky full of spirit light dazzled ye chen but when he activated his ocular skill, he saw the source of all the spirit light. The vast psionic energy made ye chen feel like it was the origin of the entire spirit realm.

"Ha, the core of the spiritual realm. I'm coming!"

Ye chen chuckled. He put away the divine disc and rushed toward the place where the spiritual energy was gathering.

Above the ruins, at lightning speed, ye chen arrived in front of a vast ocean. This ocean was the sea of true spirit.

"Phew, phew, phew!"

From time to time, the sound of thunder could be heard above the sea. Thunderclouds appeared above the sea.

Purple lightning struck and a heavy rain fell from the sky, as if welcoming ye Chen's arrival. However, ye chen was a little surprised by this welcoming method.

"Ha, Thunder Dragon, this is your ingredient!"

"Naturally!"

The Dragon-holding spear flew up to the nine Heavens and Supreme Thunder Dragon revealed himself.

Zila, Zila, Zila!

Purple lightning continued to strike down from the heavens. However, not only was this power unable to cause any damage to him, it even increased his power rapidly.

"Come, let me enjoy the Thunder from the nine Heavens!"

Venerable Thunder Dragon absorbed the endless power of divine Thunder and his cultivation base rose at the same time. Below, ye chen rode the celestial Thearch sword and flew up.

He looked down at the sea from mid-air.

On the surface of the sea, huge waves continued to rise as if a force was stirring the wind and clouds. This made ye chen excited. It was as if he had seen the location of the spirit vein.

"Swimming Dragon Sword!"

"Roar!"

With the sound of the wandering Dragon, the sword flew into ye Chen's hand. Then, he threw it into the sea below.

"Boom boom boom!"

The wandering Dragon Sword was like the ocean-stabilizing divine needle. It kept transforming itself and became incomparably vast. It was like a pillar that held up the sky. The currents of the ocean kept attacking and spinning around the wandering Dragon Sword, but they could not cause any effect.

Then, the wandering Dragon Sword unleashed the power of a heavenly weapon and opened up a path to the bottom of the sea for ye chen.

"Let's go!"

Ye chen controlled the celestial Thearch sword and followed the passage created by the wandering Dragon Sword deep into the sea.

The surging seawater could not approach the spatial passage created by the wandering Dragon Sword. Ye chen felt as if he was walking on flat ground.

As he quickly entered the deep sea, ye chen could feel the surrounding psionic energy burning. This was definitely the place with the most psionic energy since he came to the spirit realm.

"The Buddha's eye shines upon the world!"

Ye chen activated the Buddha Emperor's eye and instantly saw through the greater world under the sea. Countless information gushed into ye Chen's mind.

"So the most ancient true spirit Palace is here!"

Ye chen suddenly opened his eyes, his face full of excitement. He had never thought that the true spirit Palace was not the one built by the true spirit Lord. Instead, it was hidden under the sea, in the deepest trench. This was the true ancient true spirit Palace.

"Overturn rivers and seas!"

Ye Chen's palms circulated. His ancient God Power was like a prehistoric beast, opening up a new path under the wandering Dragon Sword.

Along the way, ye chen saw all kinds of creatures swimming past him. When they saw ye chen, they also looked surprised. However, these creatures did not have any ill intentions. On the mainland, these little guys could not be seen.

If it were not for the fact that he had something important to do, ye chen would really like to stay and take a closer look at this underwater world.

However, the deeper one went into the sea, the greater the pressure. At a depth of twenty thousand meters, even a celestial immortal would not be able to withstand it. However, as a human cultivator at the profound immortal stage, ye chen was still able to move with ease. On one hand, it was because of the divine weapon, but at the same time, it was because his Foundation was strong enough.

As ye chen continued to move deeper into the sea, he felt a powerful spirit light shining toward him. In such a dark space, such a spirit light was an extremely abnormal phenomenon. It could only be a spirit vein!

Just as ye chen was gradually approaching the spirit vein, suddenly, a wave of darkness covered the sky and earth. Ye chen seemed to be wrapped in shadows and could not see clearly.

At the same time, many of the spirit beasts in the deep sea fled, obviously sensing the danger.

"What?"

Ye Chen's eyes turned cold. With his spiritual eye, he saw an underwater creature the size of a mountain staring at him.

The creature's head was extremely large, and its blood-red eyes were like two blood moons. To be able to move and live freely in such a deep place, it was obvious that this creature was extremely powerful.

Furthermore, he had been absorbing the spiritual realm's core energy for an unknown amount of time. It was difficult to estimate how high his cultivation was now.

"Roar!"

The huge creature roared at ye chen. Ye Chen's palm released a massive energy explosion that produced an underwater flame. Ye chen saw that the creature was like a whale but its mouth was full of sharp teeth. There was even a lot of pus oozing out of its throat.

Ye chen immediately felt a great threat. This pus was definitely a highly toxic substance and might even be highly corrosive.

"Dragon Qi Shield!"

Ye Chen's entire body was covered in a Dragon Qi Shield to resist the thick venom in front of him. At the same time, ye chen flew up and released the immortal slaying Flying Dagger.

"Whoosh, whoosh, Whoosh!"

Countless beams of light cut through everything.

p The scales on the demonic whale's body were being madly cut off, and blood flowed out, making it even more brutal.

"Roar!"

As it continued to roar, hundreds of tentacles appeared on top of the demonic whale's head, just like an octopus.

These tentacles frantically stirred the seawater, entangling the countless blade lights, making them unable to harm the demonic whale's body.

"I still dared to be impudent before!"

In the face of such a demon, ye Chen's eyes widened and he let out a powerful Heavenly Dragon roar.

The water exploded for 30000 feet, and the sound of the explosion spread for 10000 miles!

The demonic whale felt an extremely strong impact. Even with its ten-thousand-ton body, it was forced back by ye chen. The scales on its body cracked open and it was in unbearable pain.

"Ignorant junior, you actually dare to harm me like this!"

Enraged by the pain, the demonic whale in front of him could actually speak human language. It was indeed a demonic creature with a profound cultivation base.

"If you're able to cultivate to such a state by absorbing the energy from the true spirit Hall's outer ring, then the core of the spirit vein must be even more amazing!"

When it heard ye Chen's words, the demon whale trembled slightly and said, ""You want to enter the true spirit Hall?"

"How is it?"

"Hmph, that's impossible, you brat!"

"Oh?"

Ye chen saw the demonic whale land's disdainful expression. It seemed to be in complete disbelief that he could enter the true spirit Hall.

However, from the way he stopped his attack, it seemed that the demonic whale was the one who really wanted to enter the true spirit Hall. It had even spent a lot of time doing this, but it had failed!

"Who are you?" Ye chen asked when he saw that the demonic whale seemed to be very interested in the true spirit Palace.

The demonic whale shook its mountain-like body as if it wanted to create some momentum. However, it had just been sent flying by ye Chen's Heavenly Dragon roar. No matter what it did, it was still a head shorter than a human. In the end, it could only respond honestly.

"This demonic whale old man has been cultivating here for three thousand years. Your only wish is to enter the true spirit Hall. You've never succeeded in a hundred years, so what makes you think you can enter the true spirit Hall?"

He looked at ye chen with disdain but he was very excited. After all, this was the first time he had seen a powerful fighter who could travel twenty thousand miles under the sea and still be so at ease. He seemed to see something different from ye chen. If ye chen could really help him enter the true spirit Hall, that would be the best thing ever.

"Hahaha, even the heavens can't stop me, let alone the vast ocean."

"Don't boast, kid. Do you know how powerful true spirit Hall is? Even a celestial immortal can't pass through the external formation alone. I've cultivated to this point and am close to the celestial immortal level, but I've tried many times and returned without success. I hate it!"

"It's just a piece of cake. Demonic whale old man, how about you follow me into the true spirit Hall?"

"Hmph, brat, if you can really bring me into the true spirit hall, I'll submit to you even if it costs me ten thousand lives!"

"Alright!"

Ye chen did not expect the old man's obsession to be so strong that he was insistent on entering the true spirit Hall. This way, he could use the old man's obsession to help him open the true spirit Hall's door and fulfill the old man's wish at the same time. He could even obtain the old man's loyalty, killing three birds with one stone!

Under the demonic whale old man's guidance, ye chen successfully found the true spirit Palace. It was at the place where the flames were erupting at the bottom of the sea. Around it, dozens of volcanic-like things were constantly spewing lava. The power of this lava was extremely strong. Each eruption had the explosive force of an abstruse immortal rank.

Boom, boom, boom!

The spewing lava mixed together and constantly attacked in all directions, putting the entire true spirit Palace in an extremely dangerous state. If anyone wanted to enter, they didn't need to go to the array area; just the lava in front of them was enough to keep them a thousand miles away.

"Ha, brat, are you shocked by what you see and don't dare to move forward?"

"Old man, my name is ye chen. Today, I'll show you the power of the heavens!"

Seeing that the demonic whale old man still had some doubts about his strength, if he wanted to completely subdue this person, he would have to display a considerable amount of ability.

Ye chen walked straight ahead, unafraid of the lava's power. The demonic whale old man was dumbfounded.

"Ye chen, you're going to die?"

While the demonic whale old man was still in shock, ye Chen's body was flowing with dark matter. The ancient God Body covered his body with black-gold glaze, forming a powerful protection. Even if there were thousands of lava, they could not hurt ye chen in the slightest.

This scene made the demonic whale old man even more shocked. He finally understood that the strength of the young man in front of him wasn't something he could reach. The so-called realm was nothing but nothingness. Only true strength was King.

"Phew, phew, phew!"

Of course, the lava flowing around the true spirit Palace wasn't just for show. Sensing the abnormal energy entering, they all went berserk and fired their super-strong lava cannons.

At this moment, ye Chen's body was surrounded by the Dragon Qi Shield. With two layers of protection, it was extremely strong.

"Zi Zi Zi!"

Finally, it acknowledged ye Chen's strength. The formation on the door of the true spirit Palace flickered and activated!

"Be careful, this light indicates the activation of the formation. My true body has not even gone to the first level of the formation once!"

Seeing that ye chen was about to encounter the first level of the formation, the demonic whale old man quickly reminded him. Once touched by such a formation, one would be crushed to pieces with no chance of survival. The demonic whale old man himself had used body transformation several times to test this formation and had not been spared.

His transformed body was also at the level of a high-tier abstruse immortal. He was no match for ye chen. Now, ye Chen's cultivation base was only at the abstruse immortal level. This made the demonic whale old man a little nervous.

"As your master, do I need your reminder?"

"You brat, you haven't fulfilled the conditions of your promise and you want to be my master now. Aren't you being too arrogant?"

"Just watch!"

Ye chen no longer paid any attention to the demonic whale old man. He turned around and looked onto the formation above the true spirit Hall's door.

"Buddha's eyes shine on the world!"

Ye chen activated the Buddha Emperor's eye and looked straight into the formation before him. Countless confidence entered his mind and formed a picture. In this picture, there was a powerful underwater pressure law. It turned out that the true spirit Hall was able to remain so safe underwater due to these laws.

Boom, boom, boom!

With several rumbling sounds, the surrounding space rapidly compressed. The pressure was so great that it could not be stopped.

Buzz, buzz, buzz!"

Ye chen felt his steel body produce a strong distorted sound. The black-gold glass began to shake but the darkness pool awakened and continued to release dark matter to replenish the strength of the glass. Soon, no matter how strong the pressure was, it could not stop ye Chen's advance.

"Ah?"

Just the momentum of walking forward already surpassed the demonic whale old man's by a lot. After all, for many years, demonic whale old man had only used his transformed body to test, and didn't dare to personally test it.

It was because he couldn't break the pressure formation on the door of true spirit Palace.

"Ah!"

Following ye Chen's roar, the surrounding space distorted rapidly. The sound turned into a powerful sound wave that gradually shook the surrounding space. The power of lava shattered and could not get

close. At the same time, it also activated the array above the true spirit Hall's door and began to devour wildly.

"Boom boom boom!"

The pressure came wave after wave, like a tsunami, crushing everything in its path.

"Demon's Eye, the god of the underworld, has awakened!"

Under the extreme pressure, ye chen awakened the power of the underworld. The origin of darkness behind him turned into a Black Sun and rose from his back.

Buzz, buzz, buzz!"

Then, countless scales grew out of the darkness pool's body and rapidly turned into cutting wings. It rushed forward so fast that it didn't even take a blink of an eye. If ye chen wanted to kill him, it would be as easy as turning his hand.

"This, this kid is a demon, a God!" Although the demonic whale old man had a cultivation base of several thousand years, he did not dare to look at the current ye chen.

Buzz, buzz, buzz!"

Countless slicing wings charged forward in a frenzy. All the lava was shattered and all the pressure was cut, unable to gather. All that could be seen was chaos, distortion, and disintegration.

"Argh! The celestial Thearch swords gathered!"

A spiritual light flashed between his brows, and the celestial Thearch sword pointed forward. Countless sword Qi gathered on the peak. There were no divine powers, only concentrated intent.

"Zi Zi Zi!"

The sword Qi burst out and the blade rushed towards the door of the true spirit Hall!
