[Chapter 2351 2356-Enlightenment!](#)

The Tianyuan space opened and ye Chen's primordial spirit swam in it, constantly looking for all kinds of information that matched the situation in front of him.

His body was like a floating fairy, constantly flying in this space. All kinds of memories were suspended in the void but it was extremely difficult and painful to establish a connection with these fragments. After all, he was still in ye Chen's form and had not returned to the heavenly Emperor's complete body.

Ye Chen activated his ocular skill and his ancestral sense, searching for memory fragments that could be opened.

However, the information contained in these memory fragments was not what he wanted.

"Void Spirit realm, Void Spirit realm!"

Ye Chen kept calling out this name in his heart, hoping to hint to the celestial Emperor's primordial spirit so that the Tianyuan space would send out the information fragments he needed.

Zila, Zila, Zila!

Due to ye Chen's intense mental activity, the void became extremely unstable and began to produce chaotic lightning. This was not good for search and artistic films. Even ye Chen's primordial spirit would be greatly impacted and might even be severely injured.

Suddenly, a memory fragment rushed into ye Chen's mind. This fragment flashed with an illusory light and was very special.

"Go!"

Ye Chen activated his primordial spirit power and charged toward the memory fragment.

Zila, Zila, Zila!

Soon, the mental storm in the Tianyuan space was activated, blocking ye Chen's various actions. This situation continued to occur.

"Celestial Thearch sword!"

Ye Chen released the celestial Thearch sword to block the storm's assault while he comprehended the contents of the memory fragments in front of him. Ye Chen quickly entered them.

In this memory fragment, ye Chen actually saw the nine Heavens Buddha Emperor again.

At this moment, the Buddha Emperor was discussing with the celestial Thearch.

"Are you still not going to do anything about the matter of the void Spirit realm?" The Buddha Emperor said.

"Ha, although the void Spirit realm is a mysterious place in the chaosverse, I'm not interested in it. I need to deal with the chaos origin Heavenly Tribulation now. This is no joke!"

"It's indeed powerful!"

"Then I'll have to trouble you, friend!"

"Mm ..."

The Buddha Emperor muttered to himself, and then the image disappeared instantly.

Zila, Zila, Zila!

As the image disappeared, ye Chen's mind fell into a chaotic storm of lightning.

Next was the second fragment. Here, ye Chen saw countless peaks and a vast battlefield. The Buddha Emperor's figure appeared again. Ye Chen quickly realized that this was most likely a message transmission between the Buddha Emperor and the heavenly Emperor, and what he saw was the result of the transmission.

He had only seen the tip of the iceberg of the Grand immemorial war. But this time, it was a shocking display. Even the Buddha Emperor couldn't cover the sky with one hand, because of his nemesis, the six paths dark Buddha!

"Hahaha, Nine Heavens Buddha Emperor, your time is up!"

"Dark Buddha, come to your senses, you can't get the heaven's secrets banner!"

"Nonsense! The "heavenly secret banner" belongs to this Lord, no one can take it away!"

Boom, boom, boom!

The battle between the two sides could not stop. The information ye Chen wanted was the location of the battle. He wanted to find clues about where Su Yuhan was heading. The Holy maiden had not told him the exact location for a long time. Ye Chen could not help but suspect that the location of Void Spirit Mountain might not be fixed. Even the Holy maiden could not make an accurate prediction.

"Analyze!"

Ye Chen activated primordial spirit analysis. All kinds of confidence entered his mind through the ocular skill. Then, he analyzed and calculated using the ancient God's powerful Creation Law to obtain the result.

After various 3D measurements and his own senses, ye Chen finally understood the general structure of the void spirit realm. However, this structure was quickly denied by him. This structure was only a time period structure because many of the data was very inconsistent with the places he had been to before.

There was only one explanation for this situation. Xuanji felt that the entire Void Spirit realm was undergoing a change, and it would be extremely difficult to find someone here!

"Hateful!"

Ye Chen let out a furious roar. He stood up and forcefully devoured the memory fragments in front of him before leaving the Tianyuan space.

What he saw before him was still chaos. In this chaos, countless spatial fragments were spinning rapidly. After exploring the Tianyuan space this time, ye chen had a new understanding of the rules of this world.

He began to use all his strength to sense these spatial fragments. Through data analysis, he found some rules of these spatial changes.

"The trend of space evolution, so that's how it is!"

Indeed, following this line of thought, ye chen could sense a trend of space evolution.

He rushed towards a low valley.

"Whoosh, whoosh, Whoosh!"

He released his movement Divine Art and used the spatial laws. His speed was extremely fast, and even the chaotic primal space couldn't stop him from advancing.

Wisps of ethereal energy reappeared, continuously proving that ye Chen's train of thought was correct. He had to continue down this path.

"Boom boom boom!"

Suddenly, there was a violent tremor and the path in front of him completely disappeared. Countless spaces collapsed and turned into a surging torrent that flooded toward ye chen.

Ye Chen's eyes turned cold. He struck out with his sharp palm and the world trembled!

"Sky-turning stamp!"

The massive palm print shot out, bringing with it an energy that could overturn heaven and earth.

Soon, these energies collided with the surrounding space torrents, exploding and eliminating each other.

Buzz, buzz, buzz!"

However, countless spatial boulders continued to fall. These boulders actually contained an extremely powerful destructive force. Once corroded by this force, one's body would fall into a state of bone disintegration.

These boulders broke through ye Chen's Dragon Qi Shield and tried to attack ye Chen's body.

"Dragon Tooth fist: glorious hundred Dragons tearing the sky!"

At this moment of crisis, ye Chen's chi swept across his body. The hundred Dragons form went berserk and all the boulders in the surrounding space were shattered!

At this moment, the entire ground began to move. Then, the deep valley Rose from the ground and turned into a high mountain.

"Hahaha!"

Seeing this, ye chen laughed out loud because this was his prediction. The information hidden in the spatial fragments had finally been proven.

"It seems that there's a powerful spatial manipulation power hidden under the ground. This is the reason why the entire virtual spirit realm is constantly changing!"

Ye Chen's understanding was profound. He saw through the illusion in front of him with a single glance. All space operated according to some kind of rule, and this rule was likely to come from the directional power of the ley lines. This was perhaps the greatest secret of the void Spirit realm.

"All living things have a spirit!"

Using the heavenly Emperor's eye, ye chen activated the all things animalistic domain boundary. Under the stimulation of ye Chen's heavenly Emperor primordial spirit, the surrounding earth began to take form as if it had turned into a living person.

All the spirit bodies came to pay their respects to ye chen because in their eyes, ye chen was their creator!

"We pay our respects to the great emperor!"

"Did you all sense that someone has entered the virtual spirit world?"

The sprites split up and thought about it, trying to give ye chen a satisfactory answer.

[Chapter 2352 Void Spirit Holy Maiden!](#)

Many spirits were deep in thought while ye chen waited for the result.

He thought that he should give these guys a portrait to make it easier to identify them.

"Zi Zi Zi!"

Ye Chen's sword fingers moved slightly, and a light shadow appeared in the void. This light shadow was the image of su Yuhan, vivid and dazzling.

These sprites were all convinced by this light and shadow. They chattered and went forward to watch.

"Do you know him?" Ye chen did not want to waste time and asked directly.

The elves were eager to try. They looked left and right, and some jumped out and said, ""She looks like the goddess of slaughter from that day!"

"God of killing?"

When ye chen heard these two words, he raised his eyebrows as if he had a bad feeling. "Look carefully, do you know him or not?" he asked again.

"Although her temperament is different, her appearance is the same. It must be her!"

"She's too terrifying. Even thousands of immemorial fighting souls are not her match!"

"I don't know how many war souls have died in her hands. She's a monster!"

The fairies all looked frightened, which made ye chen even more worried. It seemed like it was just as the Holy maiden had said. Su Yuhan had been summoned by the ethereal spirit and had opened the ethereal imprint. Her strength should be very strong now, but judging from the panic of these fairies, the situation was not optimistic.

"Yuhan, you must be safe!"

"All of you, shut up!"

The elves didn't dare to say anything else.

"Quickly track down this person's whereabouts!"

With that, ye Chen's consciousness moved and he immediately used his psyche to leave a mark on these sprites. This way, he could see all the information that these sprites saw.

"Go!"

"Yes!"

"Squeak, squeak, squeak ..."

The group of elves flew in all directions and then disappeared into the ground.

Ye chen stepped on the Golden Lotus and ascended to the nine Heavens. He expanded his vision and looked in the direction of Xu Ling mountain.

Xu Ling mountain was hidden in the chaos, and it was barely visible. Moreover, the landscape of Xu Ling mountain changed with time, so finding the true Xu Ling temple was easier said than done.

"Eight Heavenly Dragon Demon subduing mirror!"

Ye chen threw the eight-part Heavenly Dragon Demon-subduing mirror into the air. The eight gates gave birth to the eight trigrams. The eight trigrams turned the universe and eight rays of light shone in all directions.

"Zi Zi Zi!"

The bright sky immediately attracted the attention of many powerful fighting souls but ye chen did not have the time to care about this. As long as he found su Yuhan, he could face any difficulties.

"Giggle!"

"Such powerful mental energy is the ingredient we've been looking for!"

"This person possesses unparalleled power. If we offer him to King kui, we'll definitely benefit!"

"Catch up!"

"Whoosh, whoosh, Whoosh!"

In the chaos of the void, many immemorial Battle Spirits were chasing after ye chen.

Ye chen naturally sensed their presence but ignored them.

"Zi Zi Zi!"

Ye Chen activated his ocular skill and scanned his surroundings. With the eight lights of the demon subduing mirror, the wind and clouds in the surrounding ten thousand li were all under his control. In an ordinary environment, a heaven immortal could control a hundred thousand li without a problem. However, in this chaotic environment, even a golden immortal could only control a thousand li at most. Ye Chen's ability to control ten thousand li was simply amazing.

Zila, Zila, Zila!

"Boom boom boom!"

At this moment, the chaotic thunder above the void continued. The deliberately linked lightning seemed to indicate that something of great importance was about to happen. This situation attracted Ye Chen's attention. He could clearly sense that the energy in this world was getting stronger and stronger. This was a common phenomenon. It meant that more and more powerful beings had appeared in this world, causing the average energy density of the world to rise rapidly.

All of a sudden, an elf was killed thousands of miles away.

"Mm ..."

Ye Chen saw the information the elf had read before he died. He was from the dark domain.

After that, the elves of many regions were killed. Powerhouses of different forces appeared in these places. Ye Chen even saw familiar outfits. They were the powerhouses of the nine paths of cultivation from other universes.

"This place is really lively!"

Ye Chen's expression was cold. So many people from major forces had appeared in the void Spirit realm. They must be after the Supreme treasure of the void Spirit realm, the heaven's secrets Clarion. Moreover, all the major forces had sent their elite powerhouses this time. Many of them were golden Immortals and some even surpassed the level of overarching heaven Supreme Immortals. The situation was complicated!

"Your life is your priority, don't advance rashly!"

Seeing that the number of sprites was rapidly decreasing, it was very disadvantageous for Ye Chen to find Su Yuhan. He immediately issued a divine telekinesis command and had these sprites dive underground.

"Hehehe, who is this little brother?"

"Hehe, is there a need to say more? This is our gift to King Kui!"

"Surrender, brat!"

Just as Ye Chen gave the order, many fighting souls appeared around him and surrounded him.

With a quick glance, Ye Chen immediately sensed the strength of these fighting souls. They were basically close to the level of a golden immortal. However, this was not enough!

"Did you see this person?"

Ye chen ignored their murderous intent and played su Yuhan's image.

"Ah?"

Many of the fighting souls were surprised. This man who was about to die not only did not panic, but he even asked them about strangers. Did he not take them seriously at all, or did he not realize the danger he was in?

"This kid is crazy!"

"Kill!"

The many fighting souls could not suppress their anger and attacked.

"I really won't be convinced until I'm beaten!"

Ye chen sneered and raised his right hand slightly.

"Sky and sea overturning Azure Dragon Seal!"

"What?"

The moment ye chen put it up for sale, these powerhouses felt an irresistible power that fell from the sky. This power was creation, destruction, and invincible suppression.

"Boom boom boom!"

With the arrival of the Grand Palm print and the Dragon's anger genuine Qi, dozens of fighting souls prostrated on the ground without any resistance.

"Have you all seen this person?"

Ye chen asked with a smile as he looked at the dozens of fighting souls.

"Ah ... This, this!"

Many fighting souls had to lower their heads and look at the image. One of them almost jumped up in shock when he saw the image.

"What?" Ye chen looked at him coldly. The man trembled and did not dare to speak.

"Speak!"

"This person, I've seen this person before. She's too terrifying. That's the death god, that's the God of killing!"

"Bastard, calm down!"

Ye Chen's eyes glowed with a sharp light. Instantly, his mental energy forcefully suppressed an zhanhun's mind.

"That's the void Spirit Holy maiden, the void Spirit Holy maiden!"

"That's the descent of death ..."

Ye chen lost his patience as he listened to the war Spirit's nonsense. He asked, "Where did you see him?"

"There, over there!"

The war spirit pointed in a direction with a dazed expression. Ye chen glanced at it and then burst out with all his might. The war spirits were sent flying hundreds of miles away in pain!

[Chapter 2353 Dark Phoenix!](#)

Walking on the path pointed out by the fighting spirit, ye chen saw countless battles along the way. The surrounding sky had turned blood-red, as if foreshadowing the arrival of a terrible end.

Boom, boom, boom!

Suddenly, the mountain in front of them exploded and flames flew out, blasting thousands of miles of space and turning the ground into a sea of flames.

Ye chen flew up and rode the Golden Lotus into the sky, looking down at the tall mountains below.

Then, the Grand geographical change began again. The terrain in front of him changed rapidly, completely different from the previous spatial form. This was the evolution of the laws of the entire Xu Ling mountain. Ye chen quickly memorized the new form of change and compared it with the old form in his mind, obtaining a new structural diagram.

"Let's go!"

The Golden Lotus flickered with a golden light. It carried ye chen beyond the peak of flames and entered a new world.

"Phew, phew, phew!"

The chaotic Qi became more violent and continuously attacked the Golden Lotus. However, ye Chen's Foundation was too strong. With the Dragon Qi Shield, he could completely resist the chaotic Qi before him.

"Where do you think you're going!"

With a cold shout, ye chen suddenly turned around and saw the man from the hidden domain who had slaughtered the elves.

"The people of the Dark Zone are here to die?"

Ye chen was about to speed up his search for su Yuhan. Now that the people from the dark domain had appeared, it was really not the right time.

"Hahaha, a puny human celestial immortal dares to boast so shamelessly?"

"Big brother, why don't we bring it back to the Dark Zone base and offer it to the Lord?"

"Hmph, then let's bring a corpse back. This kid has been looking for the whereabouts of the Holy daughter. It seems that his relationship with the Holy daughter is not ordinary. This is our bargaining chip!"

These people from the Dark Zone already knew ye Chen's intentions and surrounded him, wanting to capture him.

"Ants Live! You're not even as good as ants!"

"Huh?!"

The experts from the Dark Zone had cold expressions on their faces. Ye Chen's words had clearly angered them. These people were all elite Dark Warriors, comparable to advanced-level heaven Immortals. How could they bear with ye Chen's words?

"Kill!"

Several Dark Warriors attacked at the same time. The earth rumbled and the entire space was filled with dark energy.

"The Qiankun furnace is where you will be buried!"

Ye Chen's eyes flickered. The vast and boundless heaven and earth furnace appeared behind him. Countless flames burned within it, and countless dispirited vapors rose. It was the official end of life. It was the refinement of spirit.

"Phew, phew, phew!"

The furnace rose, and the world shook!

"Such powerful strength! How is it possible?!"

"Big brother, this man is not easy to deal with!"

"How can a human have such talent?"

The experts of the hidden domain all revealed shocked expressions. How could they have imagined that a human race heaven immortal could actually possess such a treasure?

As the power of the furnace continued to evolve, the temperature of the surrounding space rose rapidly.

"Hmph, what's there to be afraid of when we have more people? the three of you, hold him!"

"Yes!"

"Whoosh, whoosh, Whoosh!"

The three great warriors took action and threw out magical weapons from three different places.

"Zi Zi Zi!"

These magical weapons released dark energy. Then, the dark energy condensed into a net and extended toward ye chen.

"Laughable!"

The heaven and earth furnace emitted a powerful flame fluctuation and erupted wildly into the surroundings. The dark energy net that wanted to trap ye chen dissipated in the air when it came into contact with the flames of the furnace. Not a single one of them could touch ye chen. Such a powerful burning flame made the dark Warriors extremely frightened.

"N-no way! This kid is too strong!"

"The flames of this furnace contain a powerful death Qi. The power within it is even above ours!"

"Impossible! This kid has killed many opponents who are stronger than us?!"

The more they thought about it, the more they felt that something was amiss. However, they had no chance to regret it. The current ye chen was like a furnace, burning with rage.

"The gates to hell open!"

"Boom boom boom!"

The shadow of Hades opened the gate of hell with both hands, and the doomsday Dark Dragon devoured everything in front of it.

"Ah!"

The three Dark Warriors who tried to weave the net were the first to be swallowed by the dark Dragon.

Within the gate of hell, all sorts of mental and spiritual sounds were heard, causing the dark Warriors to turn into pieces and dissipate completely.

"This!"

The rest of the dark Warriors were terrified. They knew that they had offended another god of death.

He had wanted to capture ye chen and threaten to find su Yuhan. Now, he had not done anything and had even lost three primordial spirit lives.

"Let's go and immediately inform the chief sovereign!"

"Yes!"

"A bunch of trash!"

Ye chen did not have time to pay attention to these people. He flew away and the other fighting souls did not dare to stop him.

"Boom boom boom!"

As the earth continued to evolve, Xu Ling mountain once again entered a new form. Under this form, ye chen discovered something surprising. The entire Xu Ling mountain had actually transformed into the form of a Phoenix. This must mean something.

"Phew, phew, phew!"

On the Phoenix's wings, there were countless dark flames, like Phoenix Feathers, fluttering in the wind.

"Zi Zi Zi!"

On the Phoenix's head, a strange light flashed and caught ye Chen's attention.

"Could that be the core of Xu Ling mountain?"

Ye Chen's cold eyes locked onto the flickering light on the Phoenix's head and he swooped down.

Ye Chen was like a shooting star as he landed on this part of Xu Ling mountain. Dark Fire was everywhere. The moment he landed, Ye Chen felt a great sense of danger. These dark fires were not ordinary mystical fires. Even he would feel great pain if he came into contact with them.

"What the hell is this?!"

Sensing the source of the strange fire around him, Ye Chen only felt confusion, deep sadness, a kind of desolation, a rhythm of death.

All kinds of strange emotions surged up. Ye Chen even felt that these emotions were destroying his perception. However, these emotions were generated automatically and not controlled by the outside world. This was the most difficult thing to deal with.

"Could it be the power of the heaven's secrets banner?"

Ye Chen suddenly felt this and confirmed in his heart the horror of the heaven's secrets banner. This thing had caused the Great War of the immemorial era and caused countless deaths. There must be some unknown secret, and this Xu Ling mountain was where this secret was hidden.

"The true Samadhi fire!"

Ye Chen fought fire with fire, releasing his own true Samadhi fire to resist the surrounding Dark Fire.

Although he still maintained his strength, Ye Chen could advance safely by relying on his strong foundation and endless power of the furnace.

After Ye Chen left, the powerhouses showed themselves in the sky.

Their target was naturally the "heaven's secrets banner." "Was this a reenactment of the immemorial war, or was it another story?"

As Ye Chen entered Xu Ling mountain from the Phoenix's eye, he could feel the dark Fire around him getting stronger. These flames were inextinguishable and seemed to be rising from the ashes, which was the explanation for the Phoenix's form.

Therefore, the only way was to fuse with these flames and live in peace.

It was just that Ye Chen had not found a suitable method yet. After all, these deviant flames and the smelting furnace were in great conflict!

[Chapter 2354 2359-Experts Surrounding!](#)

The Dark Flame also had the ability to change a person's perception. The deeper ye chen went into Xu Ling mountain, the more he felt that the space around him was rapidly decreasing. The extent of this decrease was much faster than the chaos Qi outside. Soon, he could only sense a distance of less than a hundred miles in this place.

This was a huge limitation for ye Chen's super-sensitive perception.

"Phew, phew, phew!"

The vigorous Dark Fire continued to burn on the surrounding land. They were extremely excited, as if they were waiting for some ceremony, a sacred and extremely high event to happen.

"Eight Heavenly Dragon Demon subduing mirror!"

"Zi Zi Zi!"

The eight rays of light appeared again. Through the light of the demon subduing mirror, the space ye chen gave you was rapidly blinking. Ye chen could see those things through the light.

"Ah, hahahaha!"

"Oh, hu hu hu!"

The eerie laughter came from all directions like the wails of ghosts from hell. It was terrifying.

Ye chen stopped in his tracks and looked around. Countless dark flames were taking shape. The battle Spirits formed by these dark flames had special attributes. They were completely different from the battle Spirits in the outside world. The sense of oppression was so strong that even ye Chen's Draconic Aura shield was rapidly corroded.

"Hmph, there's so much trouble!"

Along the way, ye chen had encountered too many problems in his search for su Yuhan. Although he had resolved them all, he was still annoyed.

"A puny Dark Fire elf wants to stop me?"

,m "Hehehe! Human ye chen, don't go any further, or it'll be too late to regret!"

"What?"

Ye Chen's heart skipped a beat when he realized that these Dark Flame fighting souls knew his name. This was a signal from No. 1 middle school, a hidden message.

"Ha, take me to your master and you'll know everything!"

"You're too smart, but it's futile!"

"Wouldn't it be futile to lose your life?"

"I'm powerless, and it's futile!"

"Giggle ..."

All sorts of strange words and hints were hidden in them. However, no matter what kind of mountains of swords and seas of flames lay ahead, no matter how futile it was, ye chen could not turn back!

"You have too many pneumonia! I'm getting impatient!"

Zila, Zila, Zila!

He waved his Dragon Spear, and the power of the Thunder God spread out in all directions, instantly forcing the dark Fire elves back.

However, those sprites did not give up and did not leave at all. In fact, more and more powerful sprites appeared. They did not take the initiative to attack but wanted to trap ye chen and force him to leave Void Spirit Mountain. Ye chen naturally understood this pattern of behavior. These Dark Fire sprites were most likely su Yuhan's warning to him to leave.

What kind of danger could threaten ye chen now? what ability did su Yuhan have to deal with all this and still protect ye chen to leave?

These doubts made ye chen even more certain that su Yuhan was the most dangerous person at this moment. If he did not go and find her, he would regret it!

"If you don't leave, don't blame me for being merciless!"

"Kill!"

When the fighting souls saw that ye chen would not leave, they attacked one after another, trying to force him.

"Ha, you're looking for death!"

Ye Chen's sharp palm destroyed life, Nirvana reincarnation.

"Asura sky shaking kill!"

"Roar!"

The Shura roared and the heavens and earth trembled. A huge palm print appeared in all directions and the deviant flame spirits were unable to resist it and were crushed.

"Ah!"

With a shrill cry, the elf shattered, but the dark Fire fragments actually regrouped and transformed again. There were countless of them.

"As expected!"

This was what ye chen had thought of earlier. These sprites were one with the surrounding Dark Fire. They had received mental instructions, so they could transform. It could be seen that the person who commanded them had a very high spiritual cultivation base, not even inferior to his.

"Hmph, do you think you can stop me if you don't die?"

"What?"

Many Dark Flame fighting souls were confused.

At this moment, ye chen was completely relaxed and opened the Tianyuan space again.

"Celestial Emperor spirit controlling technique, Suan NI's consciousness freezing!"

"Zi Zi Zi!"

The eye of heavenly Dao between ye Chen's brows flickered continuously. The fighting souls that were hit by this light were unable to move and became statues.

As he strode forward, the light of the heavenly Dao illuminated the surroundings, and all the dark Fire spirits froze.

"Hahaha!"

Ye chen laughed. He was invincible!

After leaving the area disturbed by the dark Fire elves, ye chen saw a vast space. Under this space, countless Flaming Mountains were erupting!

Boom, boom, boom!

The ground below was even more terrifying than purgatory. It was completely filled with flowing lava and all living things were destroyed!

"Mm ..."

Ye chen was slightly moved. Even a golden immortal would die if they went down.

"Yuhan, I think I can see your figure here. I can see you moving forward in pain. Your pain is my pain. I want to walk your path again!"

In order to experience su Yuhan's pain, ye chen transformed into his ancient God Body and stepped into the lava.

"Hualala!"

The lava burned and corroded his body. Ye chen relied on his ancient God regeneration power to force his way forward.

His body was in endless pain. The scales were melting and growing again. Each time was the greatest torture to his body. Ye chen lowered his head and did not say a word. He walked step by step. With every step, he seemed to be able to think of something. He did not know whether it was his own thoughts or an illusion created by this environment.

The end is in front, hold on!

Ye chen saw hope when he saw the stone door in front of him.

"Ah!"

With a furious roar, ye chen flew out and stood in front of the stone door in the blink of an eye.

"What?"

But what was in front of him? it was still the same environment and the same furnace. It was no different from before.

Seeing the same scene, ye chen was not disappointed. He continued to move forward. As long as he thought that this was the same pain that su Yuhan had suffered, everything would be meaningful.

"This kid is crazy!"

"Hmph, let him open the true Xuling Mountain Gate for us!"

"Hahaha!"

Laughter reverberated in the air as powerful auras swept through the nine Heavens. No one knew the true faces of these people with cold eyes and dark hoods. They were constantly emitting the most terrifying aura of death, as if they had come from hell.

On the other side, there was a similarly powerful aura. Countless dark tentacles were moving around, and a pair of green eyes emitted the most disgusting light.

They stared at ye Chen's position at the same time and saw through the entire Void Spirit Mountain.

At the same time, in another direction, the god of the underworld and the saintess descended invisibly.

"It seems like it's really an inevitable tribulation!" The god of the underworld said.

"The form of the dark Fire Phoenix has appeared on Xu Ling mountain. It's the opening of the sacred Hall that only happens once in a thousand years!"

The Holy maiden looked at Xu Ling mountain, and a light flashed between her brows. She communicated with the entire Xu Ling mountain again, but very quickly, she opened her eyes again.

"Impossible!"

"How is it?"

"Could it be that Yuhan really ..."

The saint's anxious expression made underworld God feel that something was wrong.

"The dark Fire Phoenix is the most fatal omen for the void Spirit tribe!"

[Chapter 2355 2360-Decisive Battle](#)

The rumbling of the surrounding ley lines, the various shocking changes, and the repeated circulation of the surrounding powerhouses' energy made ye chen realize that this matter was not as simple as it seemed.

"No matter what's in front of us, I'm going to find you, Yuhan!"

Ye chen released his aura forcefully, not caring if his position was exposed. All he wanted was su Yuhan's position. She would definitely recover.

The powerful aura continued to spread out, triggering more variables. The experts of the universe descended one after another, especially the people of the Shura world. They were the most convenient. The excitement after the seal was removed made them unable to control their desire to kill.

The people from dark domain, sin domain, and dark domain all moved out.

"Hahaha, this brat is indeed arrogant!"

"That damned guy. If he can lure out the void Spirit Holy maiden, he'll be a very good target!"

"The birth of a Holy maiden will make her an existence even more powerful than the void Spirit Holy maiden. This is our best chance!"

The immemorial battle soul, the universe's powerhouses, had gathered together to capture su Yuhan and obtain her Dark Fire Phoenix Power, and even the heaven's secrets banner. According to the void Spirit race's legend, the "heaven secret banner" was written by the void Spirit Holy maiden. This secret was finally revealed during the immemorial war, which resulted in such a large number of deaths and injuries. However, the Holy maiden did not appear at that time, and only a Holy maiden was born, so the "heaven secret banner" naturally could not be revealed.

And this time, the appearance of the dark Fire Phoenix represented the birth of a Holy daughter, which would attract even stronger people to compete for it.

"Phew, phew, phew!"

All of a sudden, the wind and rain surged in the nine Heavens above. Countless dark flames shot up into the sky like a cover, shocking everyone.

All the experts looked up at the sky, which was the dark Fire Phoenix.

This kind of automatic behavior puzzled many experts. Could this be a provocation from the Holy daughter? or was it a sign of writing the "heaven's secrets records"? for such an important matter, no one would let go of any details.

"Boom boom boom!"

The powerhouses revealed themselves one after another. The powerhouses of the Asura world and the other powerhouses in the universe who had received the news appeared in front of ye chen.

"Ha, brat, why aren't you paying your respects when you see us?"

The sin realm expert sneered at ye chen.

"You're just a Motley crowd. It's a joke that I have to bow to you!"

In the face of such a powerful lineup, ye chen was still domineering and not afraid at all.

Such an action would cause all the powerhouses to target ye chen at the same time. After all, his actions had already caused everyone's dissatisfaction.

"If you want to be an Emperor, you'll have to die first!"

Suddenly, a combatant of the dark domain made his move. He had heard of ye Chen's name long ago. At the same time, he also knew that ye Chen had killed the dark domain's war spirit. This time, he wanted to challenge ye Chen personally and see what this kid was capable of.

Seeing the experts of the hidden domain make their move, all the experts watched from the sidelines. They all wanted to preserve their strength and then watch the others go into battle.

After all, ye Chen had released a powerful energy fluctuation. Everyone knew that if this person did not offend them, he could not be a second-rate character. Instead, he was an expert worth fighting. This was the reason why the hidden domain powerhouse had attacked. He wanted to kill ye Chen and at least avenge the hidden domain fighting spirit. This would also be a contribution.

"Kill!"

A powerful dark energy surged out and transformed into two large hands that attacked ye Chen.

"Useless move!"

Ye Chen retaliated strongly, striking out with his sharp palm and roiling Dragon Qi.

Crack, crack, crack!

The powerful dragon energy instantly shattered the dark energy hands in front of him and created a huge flame in the sky.

"Ah?"

The expert was shocked. It was impossible for a heaven immortal to break his hands of dark energy to such an extent. Even a golden immortal couldn't do this. This man's cultivation base was far above heaven immortal.

"So you're hiding your strength. It's a pity that you have no chance of survival in such an environment!"

An Yu sneered. Then, he activated the Supreme dark energy in the outer realm. The surrounding space trembled rapidly, and even countless mountain rocks began to boil. They all surrounded ye Chen.

"Heavenly array!"

The dark energy in the surrounding space expanded rapidly and evolved crazily. Its power was a hundred times stronger than before. The powerhouse was serious. He wanted to prove to everyone that the Dark Zone was an absolute existence and that the human boy would die in their hands. He wanted to use ye Chen as a bargaining chip to find Su Yuhuan and even the heaven's secrets banner.

Seeing this scene, everyone was actually very nervous. They were all waiting for the right time to make a move. The key was to capture ye Chen.

"Phew, phew, phew!"

The dark energy surged without limit. The power of the dark Heaven matrix made ye Chen feel a trace of pressure. The people of the Dark domain were indeed extraordinary.

"Buddha Emperor holy light!"

Ye chen retaliated strongly. The Buddha Emperor's shadow appeared and the secret technique was transmitted. The heavenly spirit Buddha's eye!

"Zi Zi Zi!"

Wherever the Buddha's eye shone, the heaven-illuminating formation would indeed retreat. It could be seen that the power of the Buddha Emperor and the heaven-illuminating formation had a great influence.

"I see!"

Ye chen sneered and quickly activated the Buddha Emperor's power. Together with the heavenly spirit Buddha eye's nine spiritual reserves, the super-strong Buddha's light suppressed the heaven shadowing array. This was the natural suppression of the Buddha Emperor's power on the people of the Dark Zone.

This situation made the people of the hidden domain look fearful. After all, their nemesis was the Buddha Emperor.

"This kid has inherited the Buddha Emperor's legacy and obtained the Buddha Emperor's power. This is not good for us!"

"Is this good?"

"Let's go together and take him down!"

"Alright!"

Several hidden domain powerhouses attacked one after another, wanting to take down ye chen with overwhelming strength.

"Hahaha, you want to keep the prey for yourself? dream on!"

However, the surrounding environment was complicated. It was not only the people from the dark domain who were interested in ye chen. The people from the dark domain and sin domain also made their moves in an attempt to cut him off. As a result, the internal conflicts of the Asura world erupted. At the same time, the powerhouses of the universe and some mysterious powerhouses gathered one after another and targeted ye chen.

In the face of such a situation, even if ye chen was the reincarnation of the heavenly Emperor, he would still feel great pressure.

"You're only targeting me because of Yuhan. You're making me angry!"

Ye chen was furious and retaliated.

"Nine refined God spear, Thunder God destruction!"

Zila, Zila, Zila!

He waved his dragon-slaying spear, and powerful purple lightning and thunder shook the entire space. Its endless power turned into several lightning dragons that charged toward the hidden domain expert.

"What?"

The powerhouse's heart was filled with shock. He was an existence that had surpassed golden immortal but in front of ye chen, he seemed so insignificant. The other party's overwhelming power was not something he could accept at all.

"Ah!"

Crack, crack, crack!

With a series of shocking explosions, fresh blood sprayed into the air as the hidden domain expert exploded in midair!

"Don't you dare!"

Seeing that the hidden domain's experts had been forcefully killed, the other hidden domain's people revealed looks of extreme anger and murderous intent.

[Chapter 2356 2361-Death Match!](#)

As ye chen killed the hidden domain's experts, the surrounding experts all released their cold killing intent, intimidating ye chen.

With so many powerhouses coming, ye chen realized that if they found su Yuhan, she would be in real danger. Therefore, in order to protect su Yuhan, he made a crazy decision to fight them all!

Since su Yuhan wanted to complete her transformation, she might as well complete it and raise her strength to the strongest. Otherwise, she would be courting death when facing so many universe Masters.

After understanding this, ye chen turned into an expressionless machine!

"Kid, you don't have a chance. Surrender now, or I'll kill you!"

"Before the Shura world, who were you?"

"You dare to kill the experts of the hidden domain? you must be tired of living!"

The powerhouses spoke one after another, trying to give ye chen a strong psychological pressure so that his psychological defense would collapse and he would surrender without putting up a fight. However, they did not know how high su Yuhan's position was in ye Chen's heart. He wanted to protect his woman personally.

"You all have too much nonsense. All of you, come!"

One arrogant statement ignited the battlefield. One person challenged the heroes of the universe. What kind of spirit and dignity was this!

"You're looking for death!"

The experts of the hidden domain all took action. For the sake of the hidden domain's dignity and for the sake of bloody revenge, they had no choice but to take action.

"Lightning Spear sweeps ten thousand li!"

The Dragon Spear swept out, and the power of lightning struck in all directions. The violent Dragon stopped the evil spirit.

Boom, boom, boom!

The powerful energy shook and exploded in front of the experts, forcing them to stop in their tracks. However, this time, they were really determined to kill. How could such a level of obstruction be effective?

"Dark energy explosion, kill!"

Waves of dark energy gushed out like a destructive waterfall, surrounding ye chen. The crushing power rapidly developed and the formation domain formed automatically. These forces continuously destroyed ye Chen's own Draconic Aura shield. At the same time, even the surrounding space completely destroyed ye Chen's law domain.

Soon, ye Chen's entire body was surrounded by this dark energy and he could not move.

"Dark energy flying blade!"

At this moment, the other dark energy powerhouse threw out three Flying Daggers. The seemingly ordinary Flying Daggers merged with the dark energy explosion that he had released earlier after being thrown out. The three of them turned into three, and countless Flying Daggers pierced toward him.

Buzz, buzz, buzz!"

When these Flying Daggers were about to hit ye chen, the black-gold glazed tile appeared around him again to resist these Flying Daggers.

"Oh?"

The dark energy expert who sent out the flying Daggers looked interested and started to chant a spell.

"Momo, Momo, Momo ..."

Dark energy surged and began to gather on the flying Daggers. This convergence made his dark energy Maxim extremely sharp, and it was getting sharper and sharper. The sharpness was beyond imagination.

With the continuous assassination attacks, ye chen felt that his black-gold glazed tile had a flaw. This was a rare situation. It was clear that the other party had made some active changes to his cultivation method. These powerhouses were completely different from the ones he had dealt with before.

"The spear strikes like a dragon!"

In the face of such a shocking change, ye chen was not flustered. He turned the Dragon's Bane in response.

"Phew, phew, phew!"

As the Dragon-holding spear spun, the space in front of him distorted rapidly and turned into the core of the storm. Although the flying blades were extremely sharp, they were still blocked by the thunderstorm

before they could attack ye chen. Their energy was greatly reduced. When they attacked ye Chen's body, they could no longer break his armor!

Seeing this, the dark energy Master was shocked.

"A mere heaven immortal not only has an amazing Foundation, but he can also adapt to the situation and deal with all kinds of dangers in extreme danger. This kid is extraordinary!"

"That's right. This kid's talent is indeed astonishing. Wouldn't it be great if he could join the hidden domain?"

"Right, why don't we ..."

The three dark energy powerhouses whispered in their ears and looked at ye chen.

Many of the other powerhouses around them were discussing and guessing what the dark domain powerhouses were up to. In such a complicated environment, they did not want to fight directly. They wanted to see the outcome of the battle between these dark energy powerhouses and ye chen and find the best time to strike.

"Momo, Momo, Momo ..."

All of a sudden, the three dark energy powerhouses began to chant an incantation. Countless colorful incantations appeared in the surrounding space. These incantations continued to grow in size and then floated in three directions above ye Chen's head.

"Ye chen, if you're not going to surrender now, when are you going to?"

As one of them uttered these words, the three major incantations were activated at the same time. Ye chen felt his body and mind begin to move restlessly.

"This is!"

Ye chen immediately realized that this was an extremely evil transformation secret technique. They wanted to completely change his spiritual perception and make ye chen submit to the hidden domain.

"Bastard!"

Under such immense pressure, ye chen rebounded strongly. His own power increased sharply and he continued to release power into the surrounding space. He wanted to shatter the curse seal formation before him. However, when this energy came into contact with the curse seal, it was absorbed in an instant and had no effect.

The powerhouses around them also understood the dark energy powerhouse's intention and were ready to make a move. After all, once ye chen fell into their control, it would not be so easy to capture him.

"Sin cleansing summoning!"

The people from sin realm made the first move. The strongest among them had released sin realm's evil seal in an attempt to use the dark energy to summon and snatch ye Chen's mind control from the people from dark realm!

As a result, ye chen suffered from the powerful mental tug-of-war of both sides and was in great pain!

Zila, Zila, Zila!

All thoughts in his mind were extinguished. Only two forces were rapidly going back and forth, constantly consuming ye Chen's psyche. If an ordinary heaven immortal were to suffer such a tug-of-war, they would go crazy on the spot. They might not even be able to resist the internal psyche resistance and self-destruct!

However, ye chen still managed to withstand it!

"Boom boom boom!"

At this time, a third force intervened. A large claw grabbed at ye chen, also trying to seize ye Chen's spiritual memory.

In this way, a three-sided seesaw battle was formed. Ye chen became the medium of their power protagonist, and all the pressure was on ye chen.

The other hidden ones looked interested. They had already regarded the scene in front of them as a play for fun. No one cared about ye Chen's life or death. All they wanted was fun!

Zila, Zila, Zila!

Ye Chen's face was rapidly flashing with lightning. His head was splitting. Under such conditions, even a golden immortal or an overarching heavenly Supreme immortal might be forced to stop thinking. However, ye Chen's mind did not stop. He was still holding on.

"In this situation, I'm almost at my limit!"

"Let's see if this kid will go crazy or explode to death!"

In the air, the most mysterious experts conversed.

One of them was actually filled with evil energy, and the purest evil Qi that erupted from him was far from what the evil spirits could compare to.

The other person's eyes were sharp as he locked onto ye chen. What he saw was the spiritual battle in ye Chen's mind!

[Chapter 2357 2362-Reaping What You Sow!](#)

"Why haven't you given up yet? in the battle of secret techniques, we shall be the Lords!"

Sin realm's members shouted.

The expert from the hidden domain sneered, and said, ""The cultivation of secret techniques and the surge of dark energy. You're just superficial and dare to compete with us, the hidden domain? This person is definitely under our control!"

With that, the man from the Dark Zone increased the strength of the curse seal again, trying to control ye chen completely.

Similarly, the other two sides also strengthened their secret techniques. In this way, all the power hit ye Chen's body. Ye Chen had never experienced such a powerful wave of psyche.

Zila, Zila, Zila!

At this moment, the immense pressure caused the Tianyuan space in ye Chen's mind to open again.

"Heaven Yuan space!"

Sensing the opening of the Tianyuan space, the corners of ye Chen's mouth curled up slightly. He circulated the power of his primordial spirit and guided these mental abilities to attack the Tianyuan space madly.

"Phew, phew, phew!"

The vast psyche found an exit and surged wildly. The pressure on ye Chen's body decreased rapidly.

The experts quickly sensed this and revealed puzzled expressions.

"Impossible. This kid is able to withstand the pressure from three sides and even devour the power?"

"What's going on? my mental energy is being forcefully transferred?"

"What ability does he have to transfer such a vast amount of power? what is going on?"

The three powerhouses could not understand ye Chen's operation at all. The Tianyuan space was like an endless void. No matter how the three powerhouses urged their psyche, they could not destroy the structure inside.

With the strong infusion of power, ye Chen used the psychic energy from the three sides to open up a higher level of Tianyuan space.

"Spiritual attraction!"

His essence spirit circulated and absorbed the power of the three sides, then he used the ancestral charge in the direction he had determined.

"Boom boom boom!"

The powerful psyche crashed into the memory fragment, causing the Tianyuan space to tremble rapidly. The memory fragment reversed and tried to devour ye Chen's primordial spirit.

"Ha, whether or not we succeed this time will depend on your contributions!"

Ye Chen's primordial spirit operated a wonderful technique and continued to guide the curse seals of the three powerhouses. These curse seals bombarded the memory fragments without moving, resisting the memory fragment in front of him.

This way, ye Chen could effortlessly resist the mental backlash from the memory fragments with the help of the three major curse seals.

"Roar!"

The memory fragment let out a beast-like roar and the surrounding space trembled rapidly. The impact of the psyche force backfired on ye chen.

It was annihilated by ye Chen's curse seal!

"Asura shakes the heavens, resplendent mist, rain, and clouds!"

Seeing that the time was right, ye chen caught the three major curse formation and activated the super-strong Asura Dharma. Together with the heavenly Sword and Dragon Spear, he struck.

The powerful energy impact completely shattered the backlash from the memory fragments in front of him.

"Zi Zi Zi!"

All kinds of memories surged into ye Chen's mind. This kind of mental fluctuation made his brain even more painful but he still resisted it. After all, these were his own memories.

"Ah!"

After absorbing the memory, ye chen let out a powerful roar and his entire body's psyche exploded!

Instantly, his psychic energy turned into the Chi of the eight Dragons and retaliated against the powerhouses who had launched the curse. While they were casting the spell, it was equivalent to establishing some kind of spiritual connection with ye chen. It was impossible for him to escape at any time. The Chi of the eight Dragons surged powerfully, sweeping across thousands of miles and hitting the nine Lands!

Boom, boom, boom!

The three spell formations were instantly shattered, and all the experts were severely injured.

"Ah!"

Screams rang out as the experts fell from the sky one after another, all of them suffering from the mental energy formation's backlash.

On the other hand, ye chen had obtained the memory energy of the Tianyuan space and his strength had increased greatly.

"Phew, phew, phew!"

Around ye Chen's body, the blue flame of spirit appeared and turned into six flames. They floated behind him and formed a Flame Wheel. It was extremely powerful!

"Oh ... This is interesting!"

The powerful man from the dark regions, who was hidden in the void above, sneered slightly. The change in the drama below had once again piqued his interest.

On the battlefield below, ye chen stood high above, coldly looking at the powerhouses from the three sides.

"Hmph, I have to thank you for the power you gave me!"

"What do you mean?"

The powerhouses had no idea what ye chen was talking about, and they did not need to know.

Ye chen slowly walked toward the people from the hidden domain. They were the first to launch the mental attack, so they naturally had to be dealt with first.

"You, what do you want to do?"

The experts of the hidden domain no longer had their previous imposing manner, and all of them revealed looks of fear.

"The pain you inflicted on me is now in your place. Fair!"

Ye chen sneered and raised his sharp palm high. Then, a boundless spiritual storm was created on its own. The powerful spiritual storm instantly swept through the people of the hidden domain before him and invaded their brains, causing them to fall into chaos and confusion.

"How's the favor I've bestowed upon you?" Ye chen asked.

Zila, Zila, Zila!

As the spiritual lightning flickered, the eyes of these hidden domain powerhouses flashed. They actually knelt down of their own accord and acknowledged ye chen as their master.

"Hahaha!"

Ye Chen's maniacal laughter reverberated in all directions. The other powerhouses who had dealt with ye chen all revealed looks of fear. Only now did they understand how terrifying ye chen was. In just a short period of time, his psyche had become so powerful that he could even control the fighters of the hidden domain. Had he been acting all along?

Of course, it was not an act. Ye chen had obtained the memory energy of the Tianyuan space, the heavenly Emperor's Secret technique, and the powerful psyche stored in the memory fragments. This allowed his spiritual cultivation to soar, allowing him to control these dark domain powerhouses so easily. After all, they had already suffered a backlash.

"And you guys!"

Ye chen and the others turned to look at sin realm and the other universe powerhouses who were targeting them. They kept retreating, thinking about how to escape.

"Let's go!"

In an instant, the people from both sides ran in opposite directions.

"Foolish!"

"Idiot!" Ye chen shouted. The six flames behind him burned rapidly and a spiritual net descended from the sky. No one could escape the hellish net woven by the six flames. All the powerhouses were captured.

"You all should also submit!"

With a loud shout, a powerful spiritual pressure swept out like a tidal wave, instantly engulfing the defeated powerhouses in front of him. Soon, the powerhouses' spiritual defense line fell and they became ye Chen's puppets.

Then, ye Chen looked up into the sky and said coldly, "It's time for the conspirators hiding in the nine Heavens to show themselves!"

"Ah!"

A sharp palm shot out, and a powerful palm force swept through the dark clouds in the sky, shocking all directions. The dark regions' powerhouses who were hiding within were the first to reveal themselves.

"Evil Qi!"

Ye Chen was no stranger to evil energy but the evil energy he felt this time was far above that of an evil spirit powerhouse. However, it had the same origin as an evil spirit powerhouse.

"Hahaha! Kid, you have guts!"

The mysterious man from the dark regions spun his body and descended. A majestic aura swept out and closed in on ye Chen.

[Chapter 2358 A Heaven-Defying Battle!](#)

"All of you, stand down!"

Under the influence of heavenly primordial energy, the powerhouses could only obey ye Chen's mental command.

After the powerhouses had retreated, ye Chen faced the mysterious powerhouse.

"Are you the source of the evil spirit?" Ye Chen glared coldly at the mysterious man before him. He could sense an ancient evil energy from this man that was even more ancient than the powerhouses at the source of the evil spirits. It was very likely that this man came from the vilest place in the universe.

"Hahaha, the evil spirits are just a bunch of low-class citizens that have extended out from the dark regions. They left the dark regions in hopes of creating their own glory. Unfortunately, they do not understand the extent of their own limitations."

The mysterious evil man sneered a few times, his disdain for the evil spirit was apparent.

"Hmph, don't even think about entering the ethereal temple!"

"Oh? It seems like you really do have a close relationship with the void Spirit Holy maiden!"

"You talk too much. If you want to enter the ethereal temple, you have to step over my dead body!"

Ye Chen's eyes shone with a strange light. The most chilling murderous intent and the most furious expression revealed an unshakeable determination. For su Yuhuan, he would fight to the end!

"Hahaha!"

The voices of the surrounding experts kept coming. It wasn't just the mysterious evil person. At the same time, there were also super experts from other universes.

"Boom boom boom!"

Heaven and earth shook, and the sun and moon lost their order!

Three more experts descended, and their might shook the entire area. All three of them had the power of an allheaven Supreme celestial.

There were even stronger people hiding in the dark, and the situation was extremely dangerous.

Faced with the siege of so many powerhouses, ye chen knew that this battle would be extremely dangerous. Even if he activated his ethereal force, he did not have the confidence to win. However, he would not retreat. He could not retreat!

"Hahaha, before the celestial Thearch, all living things will sink!"

Ye chen brandished his Dragon Spear, shaking everything within ten thousand li! The ancient God Power was filled with thousands of DAOs!

Dragon Qi surged and Dragon roars shook the sky. The time for the final battle had finally begun.

"Sky-turning Sun-Moon Strike!"

He opened his palms and the divine spear returned. A powerful force was released and the ground exploded in all directions.

Boom, boom, boom!

Ye chen had no qualms about facing a group of heroes whose cultivation bases were far above his own. He could only fight!

"Mm ..."

All the powerhouses felt ye Chen's powerful attack and retreated one after another, weakening ye Chen's might and then easily resolving it. It was clear that they were not boorish but scheming people. Coupled with their own strong foundations, ye chen was in the greatest danger.

"Evil explosion, kill!"

The mysterious evil man's eyes were sharp and green. He instantly sent out a palm that carried supreme evil energy toward ye chen.

At the same time, the three people behind him attacked one after another. The combined attack of the four powerhouses was so powerful that it was enough to kill a golden immortal on the spot!

"Dragon Qi Shield!"

Ye chen activated his entire body's primordial energy. The Draconic Aura shield was created with great vigor and the eight Dragons circled.

"Boom boom boom!"

The four powerhouses 'group photo attacked ye chen together. The evil energy covered the sky and the killer move was destroyed. Ye chen felt as if his body was engulfed in endless flames. His skin, flesh, bones, and armor were all burned. The pleasure increased his will to fight again.

"The cosmos furnace!"

Ye chen summoned the heaven and earth furnace and forcibly absorbed the power of the burning. However, although this method was effective quickly, it left behind a problem for himself.

This energy was also continuously seeping into the furnace and destroying it. It could not be eliminated in a short time.

"Phew, phew, phew!"

As the power of the four powerhouses was absorbed by the furnace, ye chen took the initiative and flew out.

"Immortal flying knife, profound sword, Wandering Dragon Sword!"

With a single command, the three mystical powers unsheathed themselves at the same time and charged toward the three powerhouses behind them. Ye Chen's main body was going straight for the mysterious evil person, who was the biggest obstacle.

"Ha!"

The mysterious man chuckled. Ye Chen's plan was all within his expectations.

"The evil sect's upper spell, the evil energy, is boundless!"

His fingers formed a seal, and the evil energy responded. The area a thousand feet in front of the mysterious evil man fell into the chaos of evil energy. This kind of evolution seemed to have no limit as it madly attacked ye chen. Such a powerful encirclement made ye Chen's room for sexual advancement smaller and smaller. He had lost the opportunity to take the initiative to attack the mysterious evil person.

"Dragon Tooth fist!"

Ye chen threw a punch and the Dragon Qi burst out, sweeping away the surrounding boundless evil energy. However, after this energy was swept away, it actually regathered without end.

"Phew, phew, phew!"

The evil energy trapped ye Chen's body. It was as if he had fallen into a bottomless abyss and was entangled by the evil energy.

"Damn it!"

Ye chen did not know what was going on outside. He could not let anyone affect su Yuhan. His ancient divine power erupted again.

"Four-star ancient God, reverse Eight Trigrams!"

"Zi Zi Zi!"

The four-star ancient God revealed himself and the eight trigrams reversed. When all the dark energy came into contact with ye chen, it was reflected back. The suppression of the law instantly lifted ye Chen's predicament and allowed him to soar into the sky.

The boundless evil energy was suppressed by the reversal of the eight trigrams. He could see that the three divine weapons were also in a difficult position in the battle against the three experts. The power of the allheaven Supreme Immortals and the restrictions of the heaven realm had prevented the three divine weapons from displaying their full strength. If this continued, they would definitely be subdued by the three experts, and the consequences would be unimaginable.

"Collect!"

Ye Chen's divine thought moved and led the divine weapon back.

"Hahaha, it's not that easy to take back the divine weapon!"

The three powerhouses would not let ye chen withdraw his divine weapons so easily. They all released an array and trapped the three great divine weapons inside.

In the face of such an unfavorable situation, ye chen erupted with an even colder murderous aura.

"Eight Heavenly Dragon Demon subduing mirror!"

The eight gates opened, and the divine disc evolved!

"Zi Zi Zi!"

The eight rays of divine light shone in all directions and the entire domain changed again. The surrounding space was in an extreme state of shock. Even the mysterious evil man could feel the immense pressure from ye chen.

Such power attracted the attention of other experts at the same time.

"This kid is extraordinary. I have to give him more pressure. Otherwise, I'll just be stalling for time!"

"Not bad!"

The hidden powerhouses attacked one after another, all targeting ye chen.

Suddenly, lightning flashed and the space trembled. Countless energies attacked from different directions, instantly suppressing the eight-gate divine disc.

"The mo Wu Emperor, the Dark Lord, and the nether King!"

Ye chen released his two great identities and fought with his main body.

His mystic energy and dark force were able to resist the crowd.

"Hahaha, even if you're a genius, you can't stop us!"

Many powerhouses felt a little regretful. Ye chen was a peerless talent, but now he was going to walk down the path of no return. How sad was that?

"Boom boom boom!"

The powerful force broke through the eight-gate divine disc's restrictions and directly suppressed ye Chen's body. In this way, he was at a complete disadvantage against the mysterious evil person.

"Evil energy sky explosion!"

The mysterious evil man used another shocking magical power. He gathered the evil energy from all directions, causing the earth veins to move and the sky to suppress. Between the heaven and earth, only the evil energy surged, and the light of slaughter appeared! Such a powerful pressure caused the space around ye Chen to distort and squeeze rapidly. He had no chance to resist at all.

"You're making me angry!"

Ye Chen's body erupted with unparalleled anger. His strongest potential soared once again.

"Four-star ancient God Power!" He exclaimed.

With ancient God Power flowing through all his meridians, ye Chen was going to defy the heavens!

[Chapter 2359 2364-Slaying An Exalted Immortal!](#)

"The heaven and earth Dragon control spell: the eight dancing dragons: the Dragon incinerate the heavens and annihilate the world!"

Ye Chen's body was burning with strange flames. The true Samadhi fire combined with the power of the Dragon holding spear. A fire Dragon and an electric dragon soared into the sky and wreaked havoc in the universe.

Boom, boom, boom!

Zila, Zila, Zila!

The power of fire, the surge of electric energy, and the endless power attacked all the experts indiscriminately.

"Hahaha, no matter how powerful it is, it can't last long. What kind of Foundation can support such an explosive power?"

"What a pity, such a talent is going to die Here!"

The powerhouses retreated one after another to avoid the sharp edge. Then, they released their remarkable powers and secret techniques at the same time, putting ye Chen in the greatest danger.

Boom, boom, boom!

The energy of various attributes constantly backfired on ye Chen. All the attacks were ineffective, so ye Chen could only fall into defense.

"Heavenly explosion, astral obliteration!"

The mysterious evil man once again unleashed the power of the heavenly explosion. A vigorous palm print carrying a powerful evil energy headed straight for ye Chen. In the face of the destructive power as great as Mount Tai, the ancient God's shadow appeared behind ye Chen. It opened its arms and faced the massive palm print. The most powerful impact and collision occurred. However, ye Chen was not

only facing this person. The hidden powerhouses and the ones who had appeared all attacked. This was a power that far exceeded the power of an overarching heaven Supreme celestial. How could he resist it?

Buzz, buzz, buzz!"

Even the ancient God's shadow let out a trembling sound. Although the ancient God Power was strong, no one could resist against so many mysterious powers.

"Pfft!"

Fresh blood flowed from ye Chen's mouth. It was already a miracle that he had been able to hold on until now!

"Bone-chilling cold!"

Suddenly, a sharp palm shot out from the hidden space. The icy poisonous gas, combined with the strange law, instantly hit ye chen.

Suddenly, waves of cold poison froze ye Chen's meridians. His entire body was paralyzed and all kinds of feelings were disappearing.

"Squeak, squeak, squeak ..."

At this moment, a monkey's cry was heard. Then, the mystical Fire burned for thousands of miles.

"Ye chen, little sun is here!"

Everyone looked up and saw that it was the Samadhi stone spirit.

The strange fire burned all over the rock spirit, and there was actually countless Dark Fire power in it. It could be seen that the Samadhi rock spirit had absorbed a large amount of the dark Fire Phoenix's power.

"Phew, phew, phew!"

The chaotic flames instantly enveloped ye Chen's body. Under the burning of these flames, the frost poison that had locked onto ye chen could no longer invade his meridians. It even suffered the brutal backlash of the chaotic flames and dissipated.

Crack, crack, crack!

Then, ye Chen's own strength burst out and the ice completely shattered. Ye chen was free from the control.

He flew up, and the eye of heavenly Dao between his brows instantly locked onto the place he was hiding. With a sharp killing intent and immortal-slaying light, he charged straight at it.

"Swish!"

A cutting sound was heard, and the person in the dark was hit.

"Uh!"

"Ah!" The man cried out in pain. He could no longer hide his body and fell straight down. He was a sinner.

"I won't allow you to hurt me in the dark!"

Ye Chen's eyes flickered with cold light. He locked onto the sin realm traveler and drew the celestial Thearch sword.

"The heavenly Emperor has ordered the destruction of the Xuanji judgment Heavenly Sword!"

The celestial sword's light in ye Chen's hand grew infinitely, extending to the entire sky. It turned into a sword Ray as Grand as a mountain and aimed at the sin Realm Walker.

"What does he want to do?"

"Is he going to kill an overarching heavenly Supreme immortal?"

"This is impossible!"

Everyone trembled in shock. From ye Chen's aura, it was clear that he was about to do something heaven-defying. An allheaven Supreme celestial was an existence who had truly mastered the laws of the heaven realm. Their mastery of the laws of the heaven realm had still reached the stage of perfection. As long as they advanced one more step, they would be able to reach the high immortal realm, an existence who had comprehended the great Dao!

Now, ye chen, a mere celestial immortal, wanted to judge and sentence such a person. Was it really possible?

In this situation, no one would believe such a thing but ye chen was different. His Foundation and comprehension were far beyond those in the same realm. He was an anomaly!

In this world, the most mysterious and unacceptable thing was the oddity, because the oddity was a person who was out of the control of the heavenly Dao and out of the normal logic!

"You deserve to die!"

The person who had been hit by ye chen had now regained his senses and the gate to the heaven realm appeared behind him.

"Zi Zi Zi!"

A bright light shone from within the heaven Gate, and waves of heaven realm Qi were instilled into that expert.

"Hahaha, puny heaven immortal, I'll show you how to comprehend the true force of the heaven realm. Only I can judge you!"

"Evil sky of sin realm, Heaven's Retribution!"

The sin realm traveler released a bewilderment curse, and a series of curses floated around him. These curses contained powerful runes of the heaven realm's laws. These runes all listened to this person's

orders and fused with the heaven realm's advanced immortal energy. He had to kill the enemy in front of him!

Under such circumstances, everyone was certain that ye chen did not stand a chance. He could only bow down and accept his death!

"Zi Zi Zi!"

Countless runes transformed into a sin realm Demon Claw and reached toward ye chen.

At the same time, ye Chen's strongest move of the heavenly Emperor token, which combined the power of the heavenly Dao's judgment, also descended.

"Boom boom boom!"

The heavenly sword's sword radiance clashed with the demon Claw's command spell. Buzz, buzz, buzz! The sword-shaped shuttled between the talismans. The two sides rubbed against each other, producing the sound of metal clashing. The powerful energy impact eliminated, resisted, and destroyed each other. Victory and defeat were only a matter of an instant!

The talisman continued to dissipate the power of ye Chen's sword gleam. A flaw actually appeared in the Grand sword gleam and it began to break apart. The shape of the sword was greatly damaged.

This was the phenomenon that everyone had predicted. In fact, many people had predicted it to be much worse. It was a miracle that ye chen had been able to hold on until now, but it was also about to end.

"Heaven origin spirit sense!"

Just as the outcome was about to be decided, ye chen suddenly activated the heavenly Emperor's Secret technique. His vigorous mental energy continued to sustain his spatial ability for the rest of his life, adding to the heavenly origin judgment sword ray.

Instantly, the sword Ray's power flourished and once again entered its peak state.

"What?"

The sin realm traveler naturally did not expect such an outcome. After the sword rays dissipated, they converged again, and they were even stronger than before. How could he fight against such an existence?

"No!"

With a scream, the arrogant sin realm traveler was executed on the spot.

Following a series of explosions, the powerhouse's body exploded in the air. Blood splattered everywhere and the bloody aura spread throughout the battlefield, showing ye Chen's arrogance!

"Who dares to come and fight!"

A powerful voice reverberated in the surroundings, and the smell of blood reached the ears of all the experts. How could such an aura come from a heaven immortal? Everyone was shocked. They could never have imagined that a human cultivator could do this.

"Unbelievable!"

Finally, ye Chen's strength was recognized by the hidden powerhouses. Their goal was the void Spirit Temple and the Holy maiden. They could not let ye chen stop them!

"What a pity, what a pity. Let this old man end you!"

[Chapter 2360 2365-Crazy Power Of Sin!](#)

At this moment, an old man walked out. This person was the hidden Almighty from sin realm, bi 'an, the Honorable Sin Origin!

"Sin creation domain!"

The old man's eyes glowed with a strange blood-red light. The powerful light quickly spread across the entire battlefield. Ye chen instantly felt an invisible pressure on his body. This pressure made his body lose control. This was the strongest suppressing force he had ever encountered. At the same time, these forces contained mysterious rules that caused rapid changes in ye Chen's meridians.

"This is the power of the sin of ridicule!"

Ye Chen's brows were tightly furrowed, and his heart could not help but tremble. This was not poison but the power of sin, a power that could cause the opponent's body to mutate.

"Hahaha, that's right. It's my power of sin. In front of the source of sin, you're just an ant!"

The sinful origins venerable laughed maniacally as he cast the bewilderment spell. Ye chen felt as if countless dirty poisonous bugs had rushed into his meridians. These poisonous bugs grew on their own and began to corrode ye Chen's body. This feeling became more and more intense until ye chen could not tell whether this was reality or an illusion!

"Heavenly origin heart technique!"

Ye chen guessed that this secret technique must have used mind control. He used the celestial Emperor's mental cultivation method in an attempt to use his mind power to remove the changes in his body. Streams of divine will power rushed into the meridians in his body, and what he saw was actually a scene like purgatory. It was an environment created by the power of sin.

In this environment, ye chen saw his own appearance and even saw different versions of himself. There was the mo Wu Emperor, the Dark Lord, the nether King, and even the ancient Celestial Emperor. They were killing each other with the most evil smile on their faces. Their bodies emitted a strange light as they fought endlessly. Blood stained the entire earth.

"This!"

At this moment, ye chen was already somewhat unconscious. After a series of battles, he had faced allheaven Supreme Immortals. How could he not be tired?

It was already impossible for him to persist until now. Only his love for su Yuhan kept supporting his will. Were these ugly human figures really him?

This kind of suspicion became even more serious. This was the effect of the power of sin. It was like gangrene attached to the bone, and it could not be cut off!

"Impossible, impossible!"

Ye chen shouted. His mental and physical strength were rapidly declining like a mad man.

In the outside world, when the powerhouses saw ye chen in such a state, many of them looked regretful. If he were not an enemy, many of them would want to take ye chen as a disciple.

"Ah!"

Ye chen roared, his hands holding his head, completely in a state of madness.

"Hahaha, no matter how strong your will is, you'll still fall into the furthest domain of my venerable self because you'll see the vilest side of yourself. This is your original sin, your inevitable fall. You've experienced the power of the sin realm for yourself, ye chen!"

The Honorable one was extremely confident in his sin domain. Let alone a puny heaven immortal, even a golden immortal or even an overarching heavenly Supreme immortal would suffer the same torture if they fell into it. Once they fell into it, they would die without a word!

Ye Chen's entire body glowed with a strange light. This was the current color of his meridians. He was on the verge of going crazy.

"Ye chen, get rid of your evil self!"

The Honorable Sir sinful essence gave the order. Ye chen actually began to self-harm, the blade waving at him and the divine weapon stabbing at him.

Buzz, buzz, buzz!"

Wounds appeared one after another and blood flowed out. Ye Chen's body was getting weaker and weaker.

This was the most extreme test, this was the closest to death.

"Hahaha!"

The origins of sin laughed heartily as if to show off his Supreme secret technique. He was the one who had easily subdued ye chen. Now, whether those powerhouses who had fought with ye chen before felt ashamed or not, this was the difference!

In the introspective world, ye chen began to fight his Evil Avatar. Every battle, in the outside world, would manifest as self-harm. This was the drama that the Honorable origins of sin loved to see the most, forcing his opponent to commit suicide in the cruelest way.

"The secret technique of the origins of sin Knight is truly exquisite. Even this brat can't resist it!"

"I've heard that even the allheaven Supreme Immortals can't resist this secret technique. It seems like it lives up to its reputation!"

"I'll let this brat die in my own hands!"

They pretended to look at the scene in front of them and smiled sinisterly. They were not kind people. It was a pleasure to see others in pain. In the universe, it was a world where the weak were prey to the strong. There was no pity at all.

"Ye chen!"

At this time, the Samadhi rock spirit continued to roar in an attempt to wake ye chen but it was all in vain. This was the influence of the internal source of sin. The Samadhi rock spirit could not wake him up.

"Kill, kill, kill!"

Ye chen went crazy. His entire body erupted with the strongest energy. Even the Samadhi rock spirit had to Dodge.

"Damn it, what kind of curse did this old man cast on you?"

The rock spirit looked at the old man. He was thinking if he could start with the old man. As long as he killed the old man, he might be able to remove the spell on ye chen.

However, the root of sin Knight saw through the rock Spirit's thoughts with a single glance and laughed, "Little thing, you're still far from being able to deal with me!"

"Is that so?"

The Samadhi rock spirit was ridiculed and immediately became furious. Chaotic flames burned all over its body, and a fire staff appeared in its hand. It flew toward the old man and attacked.

"Oh? Good!"

"Hmph!" Facing the savage attack of the Samadhi rock spirit, the Honorable origins smiled coldly and sent out a palm.

"Evil sin palm!"

Dozens of palm prints attacked at the same time, locking on to Samadhi rock spirit from different directions. The latter knew how powerful these palm prints were, so he wrapped himself in flames and threw out his Fire Stick at the same time.

Buzz, buzz, buzz!"

The fire Stick spun and began to attack the palm prints.

All kinds of flames exploded in the sky. Strange flames soared into the sky and the power of the source of sin swept through. Many powerhouses retreated. They did not expect ye chen to have such a powerful spirit beast by his side. A little monkey actually had such abilities.

"Could this be the manhuang tribe's dark Samadhi stone spirit?"

Suddenly, an old expert recognized the origins of the Samadhi rock spirit and was extremely shocked.

"Why is the Wild Tribe's Samadhi stone spirit here?"

"What?" many experts revealed doubtful expressions. At this moment, the Samadhi rock spirit continued to attack. The power of the mystical Fire continued to erupt, turning into a firestorm that engulfed Sin Origin Knight.

"Hmph, impudent!"

The old man shouted, "How dare you!" Instantly, the sin realm curse appeared behind him. The curse mark spun and emitted a strange light. The Samadhi rock spirit was instantly enveloped by the strange light.

"Squeak, squeak, squeak ..."

The Samadhi rock spirit shrieked loudly. The strange light continued to surround him, and he was also in danger.

"Ha, why go through so much trouble? why don't we quickly kill this brat and then enter the ethereal temple?"

"That's right, that's exactly the case!"

Many powerhouses began to ask for ye Chen's death. At first, the Honorable origins of sin wanted to play a little longer. Now that he could not withstand the pressure from the crowd, he could only agree.
