

## Genius 2451

### [Chapter 2451 Participating In The Immortal God Palace's Assessment!](#)

A heaven's favorite equivalent to Jia Shen, an invincible fire level. If ye chen could join the assessment with him, it would be a great help to him.

Ye chen had seen long Zhan's strength. To be able to suppress Wang Changsheng, his strength had definitely reached the level of Jia Shen.

She wondered how he cultivated as a rogue cultivator. It seemed that he had encountered many fortuitous encounters to have such combat power.

However, everyone had their own fortuitous encounter, so ye chen did not ask much.

After all, everyone had their own fortuitous encounters. Ye chen could not deprive him of it. Ye chen was still relatively kind to long Zhan.

"Brother, are you going to take part in the entrance test of the immortal God Palace? Great! With your strength and mine, we can definitely enter the immortal God Palace. "

Long Zhan was overjoyed. A peerless prodigy like ye chen usually traveled alone. Why would he travel with anyone? this kind of prodigy was very arrogant.

Long Zhan did not expect ye chen to take the initiative to ask to travel with him and participate in the immortal God Palace's entrance trial assessment together. Naturally, he was overjoyed.

The entrance test of the fairy God Palace was extremely difficult. It was said that even the top ten geniuses of the first era could not enter. Long Zhan was not confident.

With the addition of ye chen, the difficulty of passing the assessment would be much higher if the two of them participated in the assessment together.

"Just passing the test?"

Ye chen chuckled in his heart and did not say anything more. His goal was far more than just passing the assessment.

What he wanted to do was to shine during the assessment and let the emissary notice him!

"Let's go then. But we killed Wang Changsheng of the Wang family. They won't let us go. I'm afraid we'll be assassinated along the way."

Long Zhan said.

The Wang family was not a kind person. The Wang family had been the Overlord of the light world for countless years, but no one had ever killed a genius of their family.

Now that elder Wang had died, the Wang family would surely receive the news soon. Then, ye chen and ye mo would be hunted down endlessly.

As for mo Luo's identity, whether or not he was a peerless prodigy of the Shadow Realm, the Wang family would soon discover the fact that mo Luo had a bounty on his head.

"Pursue and kill? You don't have to worry about that. "

Ye Chen smiled but did not tell Long Zhan about the tall young man's combat strength. The tall young man's combat strength was equivalent to a peak second-level immortal God. Even the Shadow Realm and Fire Heaven Realm combined would not be able to do anything to him, let alone the Wang clan.

The defensive power equivalent to the third-stage immortal God Realm was no joke.

"There's still some distance to the immortal God Palace test. Let's go together." Su Mo said.

Long Zhan said. Although he did not know why Ye Chen was so confident as if he was a peerless powerhouse, he still chose to believe in Ye Chen.

He had no choice. Even if he did not follow Ye Chen, he would still be hunted down by the Wang clan. He might as well follow Ye Chen. Perhaps he might have a chance to fight against the Wang clan.

Soon, the two of them arrived at a large mountain.

Xuan Huang Divine Mountain.

It was said that an existence above the immortal God level had descended here. Therefore, the entire mountain was shrouded in a strange aura, which was extremely terrifying.

The location of the assessment was here.

There were already many people gathered here. They sat down by the stream and cultivated. Most of them were resting with their eyes closed.

The test of the immortal God Palace was extremely difficult. Those who dared to take the test were all heaven's favorites who were very confident in themselves. Therefore, everyone's aura was not weak.

"There are so many people. People from the Fire Heaven Realm, Ten Thousand Laws Realm, Shadow Realm, and Light Realm have all come."

Mo Luo looked over and couldn't help but take in a deep breath.

There were simply too many people.

At a glance, there were at least a few million people.

A few million people was like a sea of people, almost endless.

Even with their vision, they couldn't see the end of it at a glance.

Most of them were from the Fire Heaven World, Ten Thousand Laws World, Shadow World, Light World, and other large worlds. All of them had a proud look on their faces, and they were all quite proud.

These people weren't weak, and many of them had the same combat strength as Jia Luo.

Many heaven's favorites didn't even look at the others. They thought they were invincible.

"There's really a lot of people. "

Ye chen was also a little surprised. He had to admit that the immortal God Palace's assessment was really impressive. There were really too many people.

One must know that these people were all heaven's pride level figures. A few million suddenly came. This was simply frightening.

Of course, this was because there were too many people in the myriad world. There were trillions of people, so there were also many geniuses.

It was impossible for a realm like the Shadow Realm to take out a few million geniuses.

Among these heaven's favorites, there were many who were like long Zhan. They were all heaven's favorites from the Rogue cultivators. They were terrified because they had not seen anything big.

"Eh? That's Ye chen?"

"Am I seeing things? is that ye chen?"

"Ye chen!"

At this moment, a series of exclamations came from the surroundings.

At the same time, many gazes fell on ye Chen, Long Zhan, and the others. Each of them had a strange and surprised look.

They were all surprised that ye chen still dared to appear here.

Was he not afraid of death?

"Ye chen!"

BOOM!

A terrifying aura descended from the sky. It was at the second level of the immortal God Realm.

A skinny old man stepped on a dark cloud and appeared in the sky. His face was extremely gloomy and his eyes were locked on ye chen below.

"You little bastard!"

BOOM!

Another two auras soared into the sky. One was a red-robed old man, and the other was a white-robed old man. The two of them stood side by side and came to the side of the skinny old man, staring at ye chen.

"It's the patriarchs of the fire heaven realm, ten thousand laws realm, and shadow Realm. "

Someone exclaimed.

"Heavens! Three great patriarchs? What are they doing here?"

Some of the unaffiliated cultivators who did not know about ye chen exclaimed in surprise.

"You don't even know this? Just a few days ago, ye chen came out of the ten thousand realms Mystery Land with one of his servants. It's said that he killed the prodigies of the three major realms and angered the three great ancestors. In the end, he was blocked by the servant alone and forced back by the three of them. "

Someone explained.

Hiss ... Hiss ...

Everyone couldn't help but gasp.

One against three?

And he was fighting against three great ancestors?

Is this a joke?

At this moment, the proud heaven's favorites all looked at ye chen with a dumbfounded expression. This was too much.

"Let's watch a good show. "

"I wonder if the three forefathers will make a move again today."

"They've already suffered losses last time. This time, they should be prepared."

The crowd began to discuss.

The last time the three great forefathers had made a move, they had been forced to retreat by the tall youth.

#### [Chapter 2452 The Messenger Descends!](#)

Could it be that they wanted to make a move this time?

Had they forgotten how they were defeated last time?

Everyone was looking forward to it. Could it be that the three great forefathers had brought many experts over?

"Ye chen, you little bastard. You've killed so many of our realm's prodigies. You deserve to die a thousand deaths!"

The three forefathers roared.

"Haha, what a joke. It's obvious that they wanted to kill me, and I was only forced to retaliate. How did it become me killing so many of your heaven's favorites?"

Ye chen laughed.

What a joke.

From the beginning to the end, ye chen had not been the one looking for trouble. It was the people of the Three Realms who had taken the initiative to attack him. From the beginning to the end, ye chen had only been forced to fight back.

Could it be that these three old fogeys wanted him to stand still and let the paragons of the Three Realms kill him?

It was truly laughable.

"You're really eloquent! You'll soon know how cruel the world is. "

The skinny old man snorted coldly. In any case, as long as the immortal God Palace's assessment started, ye chen would be dead.

One should know that one could not rely on external forces in the immortal God Palace's assessment. Puppets like the tall young man could only wait outside for ye chen to come out.

So ye chen wanted to rely on the tall young man?

That was impossible.

After entering the immortal God Palace's assessment, the peerless geniuses of the Three Realms would come out in full force and enter the assessment. At that time, they would see how ye chen would die.

For now, they would let ye chen be arrogant for a while.

After entering the arcane realm, ye chen would die a terrible death.

The three patriarchs knew what the test was about. After all, they had lived for countless years and seen countless geniuses.

Therefore, in their eyes, ye chen was not that strong and was destined to die.

"Hehe, do you think I don't know what these three old men are up to? even without the tall youth, I can still pass the test on my own."

Ye chen sneered in his heart.

These three old ancestors didn't know that he had already broken through to the intermediate Immortal King realm.

Otherwise, they would not be so certain that ye chen would die at the hands of the prodigies of the Three Realms.

After an unknown amount of time.

Boom, boom!

Bolts of golden lightning descended from the sky, and chains that were millions of kilometers long descended rapidly like heavenly pillars.

The messenger of the immortal God Palace was about to arrive.

As a power of the immortal God Realm, any Messenger of the immortal God Palace would be a high-level figure in the immortal God Realm.

Everyone looked over and saw a golden figure slowly walking out of a crack in the void.

The Golden figure was wearing battle armor. It was a young man in gold armor.

This was the messenger of the immortal God Palace.

He was also a super expert.

"Everyone, is everyone here? I don't want to say anything unnecessary. Since you want to take part in the assessment, then you should be prepared to die. "

The Golden-armored young man didn't want to waste his breath on the others.

"Those who want to leave but don't want to take part in the assessment can leave now. Those who want to take part in the assessment, stay."

Almost no one left after he finished speaking.

What a joke. Since they had already come here, they were all heaven's pride experts who were very confident in themselves. They had made ample preparations. How could they leave just like that?

Seeing this, the young man nodded slightly. If many people left, he would have no hope of finding a new student.

"If that's the case, then follow me!"

The Golden-armored young man turned into a beam of light and flew off in a certain direction. However, he slowed down his speed so that everyone could keep up with him.

The crowd hurriedly rose into the air and followed the young man.

Ye chen was also among the crowd. He flew into the distance with long Zhan, mo Luo, and the tall young man.

Soon, the Golden-armored young man led the group to a large mountain.

This mountain was called the dark mysterious divine mountain, and it was in the same direction as the dark yellow Mountain.

"All of you will take the first round of assessment in the secret realm created by the immortal God Palace. Whoever obtains the top 10000 points will pass the first round."

The Golden-armored young man waved his hand, and a ray of light flew out and landed somewhere below.

**BOOM!**

A huge black hole appeared, showing the terrifying power of the immortal God Palace.

Creating a secret realm out of thin air was one of the tricks of the immortal God Palace.

Many people's expressions changed drastically. This was simply too terrifying.

They had lived for so long, yet they had never heard of anyone who could create a Mystic realm out of thin air.

Although it was very likely that the Golden Kai youth had relied on the special connection between the black Yellow sacred mountain and the black nether sacred mountain to create this secret realm, it was still very impressive.

Such a method was not something they could imagine.

"Okay, those who are going to enter the secret realm, go in as soon as possible. Remember, there are a large number of demonic beasts inside. You can obtain points by killing demonic beasts or by killing your opponents. In any case, as long as you can obtain points, it's your choice!"

The Golden-armored youth said.

Everyone nodded slightly. It seemed that the demonic beasts in this secret realm were also very terrifying.

This kind of demonic beast should be called a divine beast.

In fact, at their level, divine beasts were equivalent to immortal kings. The demonic beasts they had to face had even reached the immortal God Realm.

It should be called an immortal beast.

"Let's go!"

"Let's go in!"

"Let's go in and take a look!"

"I'll take one of the immortal God Palace's spots this time!"

Everyone was excited. As long as they could pass the test, they would become a disciple of the immortal God Palace.

The immortal God Palace was a high and mighty existence. If they could join it, their future would be limitless.

The immortal Palace!

If they could join the immortal God Palace, it was certain that they would become Immortals and gods in the future. It was even possible for them to reach a higher level.

Once they joined the immortal God Palace, they would be able to achieve great things.

There were too many experts in the immortal God Palace, and any one of them was an immortal God.

It was even rumored that there were experts above the immortal God Realm in the immortal God Palace.

Above the immortal God stage was the true God stage, which was also divided into nine stages.

Above the true God Realm was the immortal King realm.

Even in the immortal God World, a Celestial King was a legendary existence. A true God could completely destroy ten thousand worlds with a single move!

This was the capital and strength of the immortal God Palace!

"Let's go in!"

Seeing everyone flying into the black hole one by one, ye chen looked at long Zhan and Mo Luo and said.

The tall youth could only stay in the outside world.

Therefore, only the three of them were allowed to enter.

"BOOM!"

At this moment, a terrifying blast of air rolled over. A black-robed figure exuded a terrifying aura from all over his body, like a god of darkness.

"Ye chen, I'm going to take your life."

The black-robed young man grinned, and his eyes flashed with a strong killing intent.

"It's actually him. "

[Chapter 2453 2458-Appearing Out Of Nowhere!](#)

"It's actually him!"

Those who hadn't flown into the secret realm couldn't help but exclaim when they saw this scene.

"Jia Shen, one of the top ten geniuses of the first era!"

Needless to say, this black-robed young man was Jia Shen.

Jia Shen!

He was a super heaven's favorite who was close to the top five in the Shadow Realm.

He was even stronger than the heaven's favorites from Huo Xing Chen.

"BOOM!"

Another violent aura burst out, and flames curled around it. A young man in a red robe stepped forward with cold eyes. It was Huo bubai.

Some of the unaffiliated cultivators who did not know the situation finally understood. The Supreme prodigies of the Shadow Realm and the fire heaven realm were looking for trouble with ye chen.

This ye chen was simply too abnormal. He had actually provoked so many top-tier heaven's favorites to kill him.

One must know that not everyone could have this kind of treatment.

Ordinary people didn't need such geniuses to make a move.

"Ye chen, when we enter the arcane realm later, I'll see how you're going to die without that tall youth!"

His strength was equivalent to an expert at the first level of the immortal God Realm. His cultivation base was at the third stage of the peak of the immortal King realm, and he was also a super genius, so his combat strength was comparable to an expert at the first level of the immortal God Realm.

This was also the reason why he was so confident that he could kill ye chen.

Even if ye chen could kill Huo Xingchen, so what? if he ran into him, there was only one word for him-death.

The tall young man was the reason why they were defeated even when they joined hands with Jia Shen. They couldn't do anything about it. The combat strength of this puppet was too strong.

Once they entered the arcane realm, without the puppet, it would be a piece of cake for the two of them to kill ye chen with their strength.

When that time came, they would like to see how ye chen would die.

"You want to kill me? You guys can come at me. "

Ye chen sneered.

Wanted to kill him?

What a joke!

"You don't know what's good for you."

Huo bubai snorted coldly. He was very displeased with ye Chen's attitude. He and Jia Shen, two great prodigies, had joined forces to kill ye chen, but ye chen had sneered at them. This was too arrogant.

However, after they entered the arcane realm, he would use his strength to tell ye chen that ye chen would die without a doubt.

His arrogance now was laughable.

Whoosh, Whoosh!

Jia Shen and invincible fire entered the black hole and disappeared.

"Brother ye, these two are the absolute geniuses of the Shadow Realm and the fire sky Realm. You ..."

Long Zhan's expression was extremely ugly. The combat strength and reputation of these two people were famous for being terrifying. Being targeted by these two people, the outcome would probably not be too good.

Each of these two geniuses was equivalent to a first-level immortal God.

Although long Zhan's strength was strong, he was not a match at all when facing two great geniuses joining forces. Fighting alone was more likely.

"Don't worry, with my master here, what are you worried about?"

Mo Luo laughed.

Long Zhan did not know ye Chen's combat power, but Mo Luo did.

"Alright, let's go."

Done talking, Long Zhan flew head-first into the black hole.

Ye Chen followed. After flying in, everything was dark and he felt dizzy. Then, he found that he was standing on a piece of land.

This piece of land was crimson red in color, and a scorching aura soared into the sky, enveloping everyone.

The endless flames would burn anyone who wasn't an Immortal King to death in an instant.

Just the violent scorching Qi alone would burn anyone who wasn't an Immortal King to death. Of course, to everyone, it was like a breeze blowing on their faces, not worth mentioning.

"Brother ye."

Long Zhan was at the side. He noticed Ye Chen's direction and immediately flew over.

After everyone had gathered, Ye Chen planned to kill the mystical beasts first.

As for the people from the Shadow Realm, Fire Heaven Realm, and Ten Thousand Laws Realm, he would not bother with them for the time being. He would wait for them to come to him.

"Roar!"

With a loud roar, a demonic beast immediately appeared in front of them. The demonic beast's body was covered in flames, and it had six claws, making it look like an ancient immortal beast. Its Qi was incomparably terrifying, no weaker than Jia Shen's, and its defensive power was much stronger.

It was equivalent to the defense of a second-level immortal God.

BOOM!

Ye Chen and the other two immediately attacked. With the three of them working together, their power was astonishing. Two black sword Qi and a Spear's gleam landed heavily on the immortal beast's chest.

"Ah!"

The immortal beast let out a furious roar, and its body trembled violently. It was immediately sent flying back hundreds of thousands of feet.

"So strong!"

Long Zhan immediately felt the incomparably violent power when Ye Chen attacked. Originally, this immortal beast's defense was very strong, equivalent to a second-level immortal God expert. Just Long Zhan and Mo Luo alone could not injure the immortal beast.

However, the moment ye chen attacked, the violent surge of power made long Zhan's heart tremble. This kind of power was much stronger than mo Luo and him.

"Roar!"

The immortal beast stood in the air, and its front claws tore the space apart. BOOM!

The claw rays formed a spider web and attacked madly.

"You guys don't need to do anything, let me do it."

Ye chen said to mo Luo and long Zhan.

Shua!

Ye chen shot out like a cannonball. A black sword ray, like a huge mountain range, descended from the sky. It was millions of kilometers long and directly shattered the claw ray.

BOOM!

The sword light hit the immortal beast and sent it flying again.

"So powerful."

Long Zhan was dumbstruck. Ye Chen's strength alone was probably equivalent to long Zhan and Mo Luo working together.

This was simply much stronger than if they were alone.

That was right. This was ye Chen's combat strength after he had broken through to intermediate Immortal King.

It was simply shocking.

"Divine sword three slashes, second slash, kill!"

Ye chen shouted coldly. Countless black sword Qi burst out from his body and madly rushed toward the immortal beast.

Ah, ah, ah!

The immortal beast let out a series of roars, but it was useless. It was drowned in the black sword Qi.

When he reappeared, he was already a corpse with sword wounds all over his body.

Even with a second-level immortal God's defense, he still could not block ye Chen's attack.

At the same time, the token in ye Chen's hand had an additional one hundred points.

And his ranking had directly jumped into the top ten.

The top 1000.

This token had been given to them by the young man before they entered the secret realm. Everyone had a token that showed their points.

Every time he killed a demonic beast or someone else, he would be able to obtain points. By killing someone else, he would be able to plunder the points from them.

"Brother ye, your battle power ..."

Long Zhan flew over, his eyes full of pleasant surprise.

With such combat strength, there was no need to fear the two heaven's favorites!

"What?"

At this moment, ye chen suddenly felt that something was not right.

Whoosh, whoosh, whoosh, whoosh, whoosh, Whoosh!

One after another, figures appeared in the surroundings out of thin air like ghosts.

Ye chen had never seen their movement technique before.

[Chapter 2454 The Evil God Three-Eyed Race!](#)

"Who are you?"

Long Zhan opened his mouth and asked.

Ye chen and the others had never seen these people's movement techniques before, so he was very curious about who they were to surround them.

This kind of strange movement technique had never appeared in the major worlds.

Originally, long Zhan thought that it was the people from the light world's Wang family who came to find him. In the end, looking at the movement technique, it was not the case at all.

The movement technique of the Wang family of the light world was completely different from this movement technique.

Hence, long Zhan was very curious about who the other party was.

Furthermore, these people looked very strange. They had two curved horns on their heads, were naked, and had dark skin. Each of them was holding a variety of divine weapons.

"Us? The person who will kill you!"

One of them said in a cold voice.

That's right, they were going to attack ye chen and the others.

Each of their cultivation bases was at least at the late-stage Immortal King realm. Among them, there were many powerhouses at the peak of the immortal King realm. With their strength, it would be a piece of cake to deal with ye chen and the others.

In fact, with their lineup, it was a piece of cake for them to go out and kill outsiders. It was very easy and could be said to be arrogant.

They were confident that they could kill ye chen and the others.

He didn't even need to use much strength.

"Don't waste your breath on them, hurry up and kill these outsiders!"

Someone shouted.

"Kill them!"

"Kill, kill!"

"Bring their heads back. The leader will definitely give you a lot of resources!"

"Kill!"

The crowd roared. Immediately, they turned into streams of light and bombarded ye chen and the others. All kinds of attacks bombarded them with great power.

"I'll do it!"

Mo Luo roared and took a step forward. BOOM!

He was surrounded by a black mist. At the same time, a black sword Qi condensed into a huge sword light and slashed forward.

Boom, boom, boom, boom!

The two sides continuously clashed, and massive waves of energy formed terrifying shockwaves that created massive gales.

It even formed a storm.

Ah, ah, ah, ah!

Miserable shrieks were heard from the crowd. Instantly, several late immortal kings of those strange creatures were swept by the powerful Qi, their bodies exploding and dying on the spot.

Some of the weaker peak-stage immortal kings were hit by the energy, and their bodies exploded, dying instantly.

"How is that possible?"

"You guys, how can you guys be so strong?"

"Impossible!"

"This is absolutely impossible!"

These strange creatures let out roars of shock and anger.

The weakest of them was at the late Immortal King stage and the majority of them were at the peak of the immortal King stage. With their cultivation base, they should be able to easily crush mo Luo, who was at the peak of the immortal King stage.

However, the outcome wasn't what they had imagined. Mo Luo's battle strength had far exceeded their expectations.

Mo Luo's battle strength was a little too strong.

Many of the strange creatures looked at mo Luo with fear in their eyes. Before this, they had thought that ye chen and the others were prey that they could easily kill on the spot. After all, they had so many peak immortal kings, while ye Chen's side only had two peak immortal kings, long Zhan and Mo Luo. Ye chen was only an intermediate Immortal King, so they did not take him seriously.

However, the battle power that mo Luo had exploded out with far exceeded their expectations. A full powered attack had killed so many of them.

Many strange creatures were already afraid.

"Damn it, we have so many peak immortal kings, why should we be afraid of him? Kill, continue to kill!"

At this moment, a strange creature roared.

"You're right. Let's join forces and kill the few beside them first!"

There were also strange creatures who glanced at ye chen and the others and sneered.

They did not believe that ye chen and the others would still have such strong combat power when mo Luo was so strong.

Mo Luo's strength was already freakish enough. He must be the strongest among ye chen and the others. That was why his combat strength was so freakish. Otherwise, how could he be so strong?

As for ye chen and the other man ...

They believed that with their strength, they could easily kill the two of them.

"Kill!"

A strange creature stepped out, holding a giant axe, and attacked ye chen first.

This strange creature's cultivation base had reached the peak of the immortal King realm. It was no wonder that it was so confident in killing ye chen. After all, ye chen was only a mid-Immortal King.

The gap between the intermediate stage and the peak stage was unimaginable. One should know that this was the immortal King stage. The gap between each small stage was huge.

Not to mention the difference of two minor realms.

All the strange creatures were confident that ye chen was dead for sure.

"You're looking for death. "

Ye chen spat out.

BOOM!

A black sword Qi instantly condensed in front of him and then expanded into a sword light of millions of feet. From top to bottom, it pressed down like an ancient divine vein.

"What?"

"Not good!"

"Retreat, quickly retreat!"

"Retreat!"

Sensing the power of this attack, the attack was not only aimed at the strange creature, but at all the strange creatures.

Therefore, their expressions changed drastically as they roared repeatedly. Each of them held a weapon and attacked the sky, trying to block this attack.

Ah, ah, ah, ah, ah, ah!

Countless screams resounded in the sky.

The black sword Qi directly crushed down, and in an instant, countless strange creatures were killed.

This included the strange being with the giant axe.

Not only that, the remaining strange living beings all lost their arms and legs and were seriously injured. The scene was like hell and extremely terrifying.

"Impossible, how is this possible?"

"That's impossible!"

"He's only an intermediate Immortal King. How can he be so powerful?"

All the strange creatures were so scared that they peed their pants.

You must be joking.

If they had known that ye chen was so powerful, who would have dared to attack him?

This was simply courting death!

"He really doesn't know what's good for him."

Long Zhan laughed.

Of all the people he could have attacked, why did he have to attack ye chen?

This was simply an act of courting death. Long Zhan had just witnessed ye Chen's terrifying combat power with his own eyes and these strange creatures had found ye chen in the blink of an eye.

If this wasn't seeking death, what was?

"Come over here!"

At this time, mo Luo waved his hand and a black Whirlpool formed in his palm. It produced a terrifying suction force that sucked in all the weird creatures that were trying to escape.

"Imprisonment!"

Long Zhan moved as well. One large golden net after another trapped these strange life forms within.

"Tell me, who are you guys?"

Ye chen said coldly.

These strange creatures wanted to attack ye chen and the others as soon as they met. Naturally, ye chen would not show them any mercy.

"Outsiders, you bunch of outsiders, we are the Honorable three-eyed race of the evil god. If you dare to kill us, our leader will not let you off!"

[Chapter 2455 2460-The Wang Clan Is Here!](#)

One of the strange creatures roared.

Evil god three-eyed race?

Ye chen took a closer look and found that these strange creatures did have three eyes. Was this the so-called evil god three-eyed clan?

He had never heard of this race before.

At first, he didn't recognize this evil god three-eyed race.

Since the other party had said that ye chen and the others were outsiders, then these strange creatures must be the natives of the assessment arcane realm.

"You are all natives here. If I kill you, won't I get a lot of points?"

Ye chen suddenly thought of something. If killing the mystical beasts here could earn him points, what about killing the natives?

The strength of these Aborigines was not weak. Among them, there were many at the peak of the immortal King realm. However, they were unlucky to have encountered ye chen and the others, so they appeared weak.

In fact, the strength of these three-eyed race evil gods wasn't weak. One should know that the vast majority of the heaven's pride experts who had entered this time were either intermediate Immortal King or late Immortal King. There were even some who weren't as strong as Jia Luo.

Although the heaven's favorites formed groups, if they encountered the evil god three eye race, even if they didn't die, they would suffer a huge loss.

These natives were not weak.

It was precisely because of this that if ye chen killed them, would he not be able to obtain a large number of points?

The more powerful the creatures in the secret realm were, the more points they would get.

Ye chen took out the token and saw that the points on the token were indeed increasing.

"825th place."

This was ye Chen's current ranking.

Ye Chen took out another token. This token showed the number of points he had. He noticed that those who were ranked in front seemed to be madly hunting mystical beasts or the evil god three-eyed clan. Their points were jumping wildly.

Ye Chen's killing of the evil god three-eyed race had also increased his points by a lot.

His ranking had already reached 825.

"Killing the evil god of the three-eyed race, I can indeed get points!"

Ye Chen's gaze was fixed on the trapped evil god of the three-eyed race.

"Not good!"

"Damned outsider, you dare to kill us?"

"If you kill us, our leader will not let you off!"

Amidst the screams, the evil god three-eyed clan members were killed by ye Chen, Long Zhan, and Mo Luo.

Ye Chen and the other two's points were also jumping wildly. Long Zhan and Mo Luo's points were also increasing. Soon, their rankings entered the top one thousand.

As long as one's ranking remained in the top 10000, they would be able to pass the first round of assessment.

Don't look at the top 10000. In reality, there were too many heaven's favorites who came in this time. At the very least, there were millions or tens of millions of heaven's favorites. To be able to make it into the top 1000, one must be a heaven's favorite among heaven's favorites.

"Let's go, we'll continue hunting. "

Ye Chen's figure moved, turning into a stream of light and flying toward the sky.

Just as ye Chen and the others had flown a short distance away, streams of light came from the distance. After discovering ye Chen and the others, they immediately chased after them.

"Eh? Who is it?"

Ye Chen and the others looked over.

Whoosh, whoosh, whoosh, whoosh, whoosh, Whoosh!

One figure after another surrounded ye Chen and the others.

The figure in the lead suddenly stepped out. It was a young man in battle robes.

"Haha, long Zhan, I finally found you!"

The battle-robed youth grinned.

"Not good, it's the people from the Wang family of the light world."

Long Zhan's heart skipped a beat. He immediately thought of ye Chen's terrifying combat power and felt more at ease.

Even so, long Zhan was still very nervous. Although ye Chen's combat power was strong, could he be a match for so many prodigies of the light world and this young man in battle robes?

Long Zhan did not know how strong the immortal beast that ye Chen had defeated was. He could only judge that it was at the immortal God stage.

Therefore, long Zhan did not have much hope for ye Chen.

"Long Zhan, come out obediently and let yourself be captured. Don't resist. You killed my Wang family's heaven's favorite in the outside world. You have to pay a painful price!"

The battle-robed youth sneered.

He would definitely have to pay a terrible price for killing the Wang clan's heaven's pride.

The Wang family was not to be trifled with. The Wang family was a Leviathan in the light world. Even if a very weak genius of the Wang family was killed, the Wang family would still investigate to the end.

Since he found out that it was long Zhan who did it, then long Zhan this person must die.

It could be said that long Zhan was already on the Wang family's bounty list and blacklist. To long Zhan, the Wang family wanted him dead.

"The Wang clan?"

Ye Chen's lips curled into a cold smile.

Wang Changsheng's actions were truly despicable. For the treasure map, he had secretly attacked long Zhan. If the Wang family was all like this, ye Chen did not mind making the Wang family pay the price.

"You, What are you looking at? Hurry up and get lost. Oh no, I just happen to be lacking points. You guys, will all die!"

The battle-robed young man said coldly.

Killing other people in the secret realm could Rob all the points of the other party.

Just based on this point, whether ye Chen and Mo Luo had anything to do with long Zhan or not, the two of them had to die.

Ye Chen and Mo Luo's cultivation base was at the intermediate Immortal King stage and the peak of the immortal King stage. With the strength of the battle-robed young man and the others, killing the two of them was a piece of cake.

The only thing that made them a little apprehensive was long Zhan's combat power. They knew that long Zhan's strength was very strong, enough to be ranked in the top ten in all realms.

In order to deal with long Zhan, they specially sent out many experts this time to besiege long Zhan, so the battle-robed young man was very confident that long Zhan was dead this time.

"Are the people of the Wang clan so overbearing?"

Ye chen sneered.

"We're just that overbearing. You, must die too!"

The battle-robed young man said coldly.

Whether it was for the sake of points or to avenge Wang Changsheng, long Zhan and the others had to die.

"Very good, then you guys can make your move. Who's going first, or do you want to attack together?"

Ye chen said indifferently.

Silence.

The space was silent.

"Hahaha, did I hear you wrong? you're so confident, kid. Do you believe that I'll break your limbs and cripple you?"

The battle robed youth laughed.

It was truly laughable.

An intermediate Immortal King brat actually dared to speak arrogantly and asked them to attack him together?

To deal with an intermediate Immortal King, was there a need for all of them to attack together?

Even if they sent one of their men to deal with ye chen, would it not be a piece of cake?

BOOM!

A man from the Wang family. The bald man suddenly took a step forward and stepped on the void, causing waves of air to sweep out in all directions.

"Brat, I'm here to kill you. Remember, the name of the person who will kill you is sky axe!"

The bald brawny man said coldly with a huge axe in his hand.

"Heaven's axe?"

Ye chen was slightly taken aback, but soon a cold smile appeared on his lips.

If these people knew that the last person who had died at ye Chen's hands was Skyblade, who knew what they would think.

One was Skyblade, and the other was Skyblade.

[Chapter 2456 2461-Defeated In One Move!](#)

"Kill!"

Heaven's axe roared. The giant axe in his hand suddenly turned into a stream of light. From top to bottom, it was like a mountain as it hacked at ye chen.

The power of this axe was so great that ordinary late-stage immortal kings would be hacked to death instantly.

It should be known that sky Axe's cultivation base was at the peak of the immortal King realm. To deal with ye chen, a mere intermediate Immortal King, was making a mountain out of a molehill in the eyes of the people of the light world.

"He's dead. "

"This kid is dead for sure."

"That brat is merely an intermediate Immortal King. He's going to die for sure in the face of this heaven Axe's strike."

"What a pity. The points have been taken by the heavenly axe again. I had wanted to personally take care of this kid, but I didn't expect the heavenly axe to beat me to it."

The people of the light world were discussing.

They all thought that ye chen was dead for sure.

What a joke! An intermediate Immortal King was definitely going to die in the face of a peak Immortal King.

Even a super genius couldn't cross two minor realms to fight a peak Immortal King at the intermediate Immortal King realm.

Furthermore, heaven's axe and the others were no ordinary people. They were all heaven's pride level existences.

In this way, ye Chen's death was certain.

"Hehe, I'll defeat you in one move."

Ye chen suddenly sneered.

"What did you just say?"

Skyaxe asked as he forcefully retracted his attack, his expression turning extremely unsightly.

He thought he had heard wrong.

"I said, I'll defeat you in one move."

Ye chen stood with his hands behind his back and said indifferently.

Could it be that these people's ears were not good?

Ye Chen's lips curled into a cold smile.

He wanted to defeat heaven's axe with a single move.

Only this way would it be interesting.

What?

The people from the light world thought that they had heard wrong.

An intermediate-stage Immortal King wanted to defeat a peak-stage Immortal King genius with one move?

Was he crazy?

"He's gone crazy,"

"It seems like this person has been scared out of his mind."

"Hey, skyaxe, why are you so cruel? don't scare the little kids!"

Everyone from the light world said one after another.

They mocked ye chen, thinking that he had gone mad.

It was impossible for an intermediate Immortal King to defeat a peak Immortal King, let alone defeat him in one move.

In their eyes, ye chen had lost his mind and was no different from a lunatic.

"Hmph, so what? I still have to kill him. The points are mine!"

Heaven's axe said coldly. Ye chen had said that he would defeat him in one move. This made him very unhappy.

An intermediate Immortal King trash actually said that he would defeat him with one move. Even if this person was crazy, this still made sky axe very dissatisfied.

Normally, a weakling at the intermediate Immortal King stage would be considered lucky if he did not kneel down and beg for mercy in front of ye chen. However, not only did ye chen not beg for mercy, but he had even arrogantly said that he would defeat him in one move.

As long as one was human, they would be unhappy.

Therefore, sky axe had decided to kill ye chen with one blow so that ye chen could feel the huge difference in combat power between the two.

He wanted ye chen to understand what true strength was.

"Go to hell! Stop talking nonsense! One strike of the godly axe!"

Sky axe roared as the giant axe in his hand turned into a mountain range that descended from the sky and pressed down.

The space within a radius of hundreds of thousands of kilometers was crushed by the power of the axe, and it exploded.

"Small tricks."

However, ye chen merely sneered and extended a finger.

He used his fingers as swords.

Shua!

A beam of sword Qi emerged from his finger and soared into the sky to meet the giant axe.

BOOM!

An earth-shattering boom was heard.

Heaven's Axe's body trembled violently as a look of disbelief appeared in his eyes. Then, he was sent flying backward like a cannonball.

Defeated in one move!

Silence.

Everyone present was dumbfounded.

He was stunned.

They were completely stunned.

Because they had seen something that they would never see in their entire lives.

A mid-stage Immortal King had defeated a peak-stage Immortal King genius with one move.

"How is that possible?"

Someone was the first to shout in disbelief.

"How, how is this possible? an intermediate Immortal King defeated heaven axe with one move?"

Even though everyone knew the truth, they still couldn't help but shout.

Because this was too shocking.

There was a huge gap between the intermediate Immortal King realm and the peak Immortal King realm. The gap between them was two small realms.

An ordinary peak-stage Immortal King could kill a group of intermediate-stage immortal kings with a casual strike.

Moreover, the people from the light world were not ordinary people. They were all famous geniuses. Heaven's Axe's status in the light world was similar to Huo mie Tian 's.

Such a heaven's favorite, an existence at the peak of the immortal King realm, had actually been defeated by ye chen in one move.

This was hard to believe.

"This guy has some ability."

The battle-robed young man's pupils shrank, as if he had made a mistake.

"Hmph, so what if you have some combat strength? sky axe is the weakest among us. If we send an expert to deal with you, you will die without a doubt!"

The battle-robed young man let out a cold Humpf. He was extremely unhappy. No matter what, heaven axe was still a member of the light world. However, heaven axe was beaten up right under their eyes. This made the battle-robed young man extremely dissatisfied.

If they did not get rid of ye chen, where would the light world's face go?

He had to kill ye chen!

However, ye Chen's combat power was not weak. Therefore, the battle-robed young man planned to send a stronger subordinate to kill ye chen.

"Guangli, you go and kill this brat. Remember, I want him to die a horrible death!"

The battle-robed young man looked at a yellow-robed young man and said coldly.

"Yes!"

Guang Li nodded slightly and took a step forward. He stood in front of ye chen with a cruel smile on his face. "Kid, I'll let you know what cruelty is!"

Since the battle-robed young man had spoken, Guang Li would not let ye chen die so easily.

"Remember, the person who will kill you is called Guang Li!"

Guang Li said with a cold smile.

Although he was also at the peak of the immortal King realm, he was much stronger than sky axe in terms of combat strength.

With his combat strength, he could defeat heaven's axe in one move, so he was certain that ye chen was no match for him.

"The last person who said that has been sent flying. You will be the next."

Ye chen said indifferently.

"Haha, how arrogant!"

Guang Li was so angry that he laughed.

"Too arrogant, this brat is too arrogant. Kill him!"

"Guangli, let him know what a strong person is!"

"You think you're strong just because you defeated sky axe? Kill him!"

The crowd clamored.

The people from the light world were very unhappy with ye chen at this time. He had dared to hit heaven's axe in front of their eyes. He truly deserved to die a thousand times.

The Wang family of the light world was a colossal force. Their people had been beaten up by ye chen, so it was impossible not to kill him.

### [Chapter 2457 Why Wouldn't I Dare?](#)

"Arrogant brat, you will regret this!"

Guang Li's eyes were filled with disdain as he looked at ye chen. His hands did not slow down. He immediately waved his hand and shot out a large Crimson palm with a Halo. This large palm seemed to be able to crush space directly as it pressed toward ye chen.

"Die, kid. Of all people to offend, you had to offend the Wang family of the light world. You're really tired of living!"

He had already said that he felt that the blow just now was definitely enough to kill ye chen. The other Wang family members also thought the same and began to make a fuss.

"That's right, that's right. A mere rogue cultivator dares to go against our Wang family?"

"The next one is that long Zhan and that trash beside him."

"Long Zhan, that audacious one, actually dared to kill the Wang family. You asked for it."

However, before they could say anything more hurtful, ye chen pointed out another sword Qi finger. The sword Qi seemed to be only a wisp but it instantly dispersed the large palm of light Li's Scarlet Halo. Not only that, the remaining sword Qi shot directly toward light li.

"Block it!"

With the flying hatchet as a precedent, Guangli's reaction was considered fast. He immediately moved to block the seemingly weak sword energy, but only when he came into contact with it did he realize how terrifying it was.

"How is that possible, ah! Pfft!"

Before light ray could finish his words, he spat out a mouthful of blood and was sent flying.

There was another period of silence.

"How can a rogue cultivator be so strong? he shouldn't have been so unknown in the past."

"Even if he's a super genius, I've never heard of an intermediate Immortal King defeating a peak Immortal King with a single move. Besides, Guang Li is considered weak."

"How is this possible? an intermediate Immortal King fighting a peak Immortal King in one move?"

One should know that there was an indescribable gap between Immortal King Peak stage and intermediate stage. It was as easy as moving a finger for an Immortal King Peak stage to kill an intermediate stage Immortal King.

But now, not only had such an unbelievable situation occurred, but he had also been defeated in one move.

The battle-robed young man's face turned black as he looked at the other young man who was holding a big blade and wearing yellow clothes.

"Wang He, don't embarrass the Wang family!"

The young man nodded and stood up. Although he was only an intermediate Immortal King, he had already reached the first stage of the peak of the immortal King realm, which was much stronger than Guang Li. In addition, his talent was also several times greater than Guang Li 's. It wasn't something that Guang Li, a vassal family of the Wang family, could compare with.

"That's a member of the Wang family. His talent and strength are only below that of the leader!"

Long Zhan said as he looked at Wang He.

"So what? to my master, he's just an unremarkable little character."

Mo Luo didn't even look at Wang He, making Wang He so angry that he started cursing.

"You people are just small fries in front of our Wang family. None of you who bring shame to the Wang family can live more than three days. Let me teach you what true strength is."

With that, he drew his sword and slashed at ye chen.

"Tiger King saber! Tiger King descends the mountain!"

The blade brought with it the illusion of a ferocious Tiger. It was like a huge divine beast that wanted to tear the void apart as it came at ye chen.

Ye chen snorted coldly.

"I'm just not in a hurry to get points and play with you guys. Do you really think you're some Big Shot?"

Ye chen was not flustered. He drew his sword and slashed at the Tiger Phantom. The black sword light carried an unstoppable momentum and split the Tiger Phantom in half with a loud bang. The Tiger's momentum was lost and it shattered in front of everyone's horrified eyes.

"Impossible!"

"How is that possible?"

"He's only an intermediate Immortal King. How can he be so abnormal?"

"Who is he? how can he be so strong?"

Wang He, who had unleashed the ferocious Tiger, was in an even worse state. He was at the peak of the immortal King realm and his talent and strength were much higher than that of heaven axe and light ray. The power of his blade attack was also many times stronger than that of heaven axe and light ray combined. It was actually broken by a single sword.

The battle-robed young man's face turned even darker. After all, although the people he had brought with him were all from the vassal clans of the Wang clan, he had embarrassed himself in front of them. He would definitely be punished when he returned to his clan. So, he could only kill them first and bring their heads back. That way, his punishment would be reduced.

"Don't play anymore. Everyone, attack! Bring their heads back!"

Everyone agreed in unison, but after going up, they all avoided ye chen and charged toward mo Luo and long Zhan. Although they were here to take part in the immortal God Palace's test, it didn't stop them from killing people first instead of demonic beasts. After all, they were all vassals of the Wang family, so they could only listen to the Wang family.

Wang He and the battle-robed young man ignored them and charged straight at ye chen.

"Since you dare to stand in our Wang clan's way again and again, I can only take your heads back to report on my mission."

Ye chen looked at the battle-robed young man and smiled.

"There are many people who want to kill me. There's the Shadow Realm, the fire heaven realm, and the realm of ten thousand laws. They can't do anything to me, let alone you, a small Wang family from the light realm. Who Do You Think You Are?"

This shocked the two men from the Wang family.

"You're the ye chen from the Shadow Realm who offered a reward of 50 billion immortal stones and a King-tier immortal Meridian?"

"Hahahahahaha!"

The battle robed youth suddenly laughed.

"The heavens are on my side. I'll exchange your head for the reward. I don't have to worry about being punished when I return to the Wang family."

Wang He said to the battle-robed young man.

"Big brother Wang Luo, it's probably simple for this person to be able to escape from the pursuit of the Shadow Realm, fire heaven realm, and ten thousand laws realm until now. Looking at how relaxed he is, could he have some dangerous trump card?"

That Wang Luo laughed even more happily.

"Don't worry. I heard that he was able to escape from the encirclement of the Three Realms by relying on a puppet passed down from the immortal God. However, he can't use that puppet in this secret realm. You and I will fight together and Exchange our heads for the reward. From now on, our position in the Wang family will be more stable than it is now. "

Ye chen sneered before he could even finish rejoicing.

"My reward will not only raise your status in that small Wang family, but you actually only want to be the king of that family in the light world. It's really sad. You can only be a small figure for the rest of your life. Do you really have the ability to kill me?"

These words directly angered Wang Luo, who was still laughing just a moment ago.

"Good! Let's see what you can do without an immortal-level puppet! Take my move!"

"Swish! Swish!" Two sounds of wind were heard. Wang Luo and Wang He attacked with both their sword and saber. The sword Qi and saber ray rushed toward ye chen. Ye chen pulled out his sword and a black sword Qi collided with them. There was a loud explosion and the surrounding space was shaken. Mo Luo and long Zhan, who were fighting with the Wang family's vassals at the side, also moved away.

It was only then that the two Wang clan members realized that ye Chen's sword was an immortal celestial weapon. Wang Luo's heart was especially excited. He was originally a sword user. If he had this immortal celestial weapon, he would definitely be even more powerful. At the same time, he was jealous of ye chen. Why was ye chen so lucky to have an immortal celestial weapon and an immortal puppet?

### [Chapter 2458 Annihilate The Wang Clan!](#)

The more Wang Luo looked at ye chen, the more jealous he felt. However, on second thought, as long as he killed ye chen, everything would be mine.

"You're really lucky to have so many good treasures. But as long as I kill you, they'll all be mine!"

Wang Luo and Wang He attacked again and this time, they used their full strength. Ye chen sneered. These two brothers must have killed many people and robbed them of their treasures. However, today, they had encountered ye chen, a hard rock. Even the three major worlds could not take him down, let alone the Wang family from the light world.

"Divine sword's three slashes, first slash!"

This was the first time ye chen had used the three cleavers of the celestial sword in this battle with the Wang clan. In reality, it was not because the two opponents' killing moves could pose much of a threat to ye chen. He did not take them seriously. It was because since the other party wanted to kill them and take their treasures, they could kill them and take their Storage Treasures. After all, they were the ones who gave it to him first.

BOOM!

The two Wang clan members thought that the two killing moves would cancel each other out like before. They did not know that ye chen was afraid to scare them away and held back. Now that both sides had made up their minds to kill, they were no match for ye chen.

"Not good, quickly block this sword Qi!"

After the sword Qi shattered their killing moves, it continued to rush toward them without any reduction in momentum. The two of them hurriedly blocked it.

"Not good, I can't block it. How can he be so strong!"

"How is this possible? it's just a single sword, and we can't even block it with the two of us?"

Bang!

There was another loud noise. The two of them were sent flying back as they couldn't withstand the black sword light. There was a deep sword wound on their chest, and blood was flowing out. The Wang family's subordinates who were fighting with long Zhan and Mo Luo also heard the noise and wanted to

go back to check on the situation. However, long Zhan and Mo Luo took the opportunity and used two killing moves. They were both injured, and those with weaker cultivation died on the spot.

When he saw that ye chen had severely injured Wang Luo and Wang He with one strike, he had a new understanding of ye chen. It could be said that he was now completely convinced of ye Chen's abilities.

Ye chen also wanted to let them escape. He immediately sent out another sword energy and beheaded the two men, leaving no chance. Long Zhan and Mo Luo did not want the remaining Wang family vassals to escape either, so they chased after them and killed them all.

Ye chen was not idle either. After clearing up the remaining things with long Zhan and the others, he packed up all the storage Treasures of the Wang family. Ye chen also distributed billions of immortal stones to long Zhan. The few of them began to chat as they walked, preparing to continue earning more points. After all, although it was fine as long as they were ranked within the top ten thousand, it was their first time participating in the immortal God Palace's assessment. The higher the points, the better the resources they could obtain in the immortal God Palace. However, they were not in a hurry, so they chatted as they walked. Let's slowly look for our prey.

"What do you think is going on with the three-eyed race of evil gods? there were already some in the secret realm, but we threw them in to the participants after we came in. After all, they are different from demonic beasts and obviously have their own organization. Also, the examiner of the immortal Palace only said that there were demonic beasts, but he never said that there was a special race that could earn points."

Just as they were talking about this topic, they noticed that the evil god of the three-eyed race's movement technique, which they had never seen before, had appeared again.

The three of them were surrounded again, but they were already prepared. They were still worried about how to find points, and now they were here. However, they also noticed that there was an even stronger aura among the evil god three-eyed race. They knew that they were exposed, so they didn't hide anymore and directly appeared in front of the three.

The leader of the evil god three-eyed clan had already reached the third stage of peak Immortal King. He was only one step away from becoming an immortal God Mirror Master. In terms of strength, he might not be as strong as invincible fire or Jia Shen but he was an excellent Whetstone for ye chen. After all, ye chen had not fought with an expert of this level since he had broken through to intermediate Immortal King. Mo Luo was too weak and the defense of the tall youth's immortal God puppet was too strong. There was not much effect.

However, just as they were preparing their opponents, the most powerful evil god from the three-eyed race spoke first.

"We, the evil god three-eyed race, are not just some secret realm's points. We are one of the tribes that serve our great evil god Xuan Ming, the three-eyed tribe. That damn immortal God Palace, if we didn't have to guard Xuan Ming sacred mountain, we wouldn't be trapped in this secret realm and be treated as points by you!"

Ye chen was even more confused now. He had never heard of these things before. What was this xuanming evil god? he had never heard of it either. However, from what he said, he must be an enemy

of the immortal God Palace. Otherwise, he wouldn't use it as points with the demonic beasts. Now, we're here to participate in the immortal God Palace's assessment.

"Then there's no need to say more, do it, three eye tribe!"

Since he knew that he had to fight, there was no need to hesitate. Ye chen was not an indecisive person. He raised his hand and pointed, and a black light shot out.

The leader of the three eye tribe was a little unbelievable, an intermediate Immortal King? He actually dared to take the initiative?

Seeing this, ye chen could roughly see how difficult it was to deal with the other party. However, it was just a small test of the other party's reaction. After all, ye chen was confident that he could defeat Jia Shen or Huo bubai. Moreover, the strength of the leader of the three-eyed tribe was not even comparable to the two super heaven's pride experts.

"Are you looking down on me?"

The leader of the three eye tribe stared at ye chen and said in a deep voice.

In his opinion, the other party had two peak immortal kings and one intermediate Immortal King. How could they still have the courage to fight him and attack him? Even if they were to attack, it should be the Golden spear wielding Immortal King Peak stage, not an Immortal King Middle stage scum.

Ye chen could tell that the other party had been angered by his probing and smiled.

"You're still not worthy of my respect. Three divine slashes, first slash. "

This sword was not only aimed at the strongest Man of the three-eyed tribe, but also at the other three-eyed tribe members in the surrounding in a crescent shape. The powerful sword Qi swept across. The strongest Man of the three-eyed tribe could still protect himself, but the few late immortal kings and two peak Immortal King evil gods around him couldn't resist the powerful sword Qi and were directly annihilated in the void.

"How is this possible? you're only an intermediate Immortal King. How can you be so powerful?"

Although the evil god three eye race member managed to block it, he didn't feel good either. Even his giant hammer had a huge crack. From his expression, it seemed like he felt worse than if he had been cut. Although the evil god three-eyed race had a divine weapon each, if the other party had the ability to destroy their own, then he would also have the ability to destroy others '. Moreover, this was a divine weapon! Even if the other party had an immortal God-level weapon, the destructive power of destroying his divine weapon with one strike was truly terrifying.

"Kid, Who are you? How can an intermediate Immortal King have such power?"

Now, this expert of the three eyed race was a little regretful. He had heard from the leader that there were several powerful humans who were even stronger than him. He had thought that the leader was trying to warn him not to be careless. Who knew that he would really meet a super heaven's pride expert who was already at the intermediate Immortal King realm.

"Could it be that you're the reincarnation of some immortal God?"

Ye chen was taken aback by the three evil god clans 'question. They must be treating him like some old monster. However, ye chen was too lazy to answer them. After all, he had many good things to have such strength. Why would he tell an irrelevant three-eyed evil god clan?

It wasn't difficult for long Zhan and Mo Luo to fight a few Immortal King tertiary stage and ordinary Immortal King Peak stage.

Those evil god three-eyed race beings had already been converted into points.

Now, there was only one opponent left. Ye chen wanted to end the battle quickly and get rid of him as soon as possible. Then, he would walk around the arcane realm to see if there were any hidden rules.

However, he could ask the three-eyed race first. After all, he had been in this secret land all this time and might have gone through the immortal God Palace's test more than once.

#### [Chapter 2459 2464-There's One More Person!](#)

"How long have you been in this secret land? do you know if there are any hidden rules in the immortal God Palace test? If you know anything, just tell us. If you answer my question, it's not impossible for us to let you go. "

Ye chen was now more and more interested in this arcane realm. Although this three-eyed race was much stronger than an ordinary peak Immortal King, it was already at the third stage of peak Immortal King. However, it was not much of a threat to ye chen. He could also end the assessment faster.

"Hmph, I don't know if you humans can be trusted or not, but I definitely won't answer you. Even if I die today, our leader won't let you guys have a good time!"

Without waiting for ye Chen's reply, he dragged the cracked sledgehammer and smashed it at ye chen and the others. This was probably his last-ditch effort. Although the divine artifact hammer had been cracked by ye Chen's previous strike, the three-eyed race's desperate attack was still extremely terrifying. The giant hammer materialized and smashed toward ye Chen's small boat like a monstrous wave. The terrifying pressure seemed to want to shatter the space.

When ye chen saw that the man did not want to negotiate and had even launched a desperate attack before he could strike, he did not say anything more. He drew his sword and slashed at the giant hammer. It looked as if the little man on a small boat was going to resist a monstrous wave.

"Divine sword's third slash, second slash!"

"If you don't tell me, I'll go find it myself. Now that you want to risk your life, I won't hold back."

The three-eyed man finally realized that ye chen had not used much of his strength against him. He was no different from his fellow clansmen in front of him.

Although he thought this way, he had already gone all out, so there was no need to think so much. He directly used all his cultivation and gritted his teeth as he smashed over. Even if he died today, he wanted to hurt him. That's right, the three-eyed race no longer wanted to kill ye chen. They only wanted to risk their lives.

The giant hammer and the black sword Qi collided, creating violent and mottled slashes and blunt attacks. The surrounding space was torn and shattered.

However, the giant hammer no longer had the momentum it had before. It was just like the person who had smashed it.

On the other hand, ye Chen's sword was just like ye Chen's. Not only did it become more and more majestic, but it also had more energy left.

The three-eyed race being could only watch with hatred as the seemingly endless black sword light and the huge hammer were devoured together, disappearing in regret and unwillingness.

Just like that, a stage three peak Immortal King died under ye Chen's sword that did not even use his full strength!

"I'm afraid that even Jia Shen and Huo bubai wouldn't be able to match up to this sword. I'm afraid that neither Jia Shen nor Huo bubai would be able to withstand brother buye's sword. "

Long Zhan and Mo Luo saw that the battle had ended and came over to talk to ye Chen. However, ye Chen knew that if it was really Jia Shen or Huo bubai, it would not be so easy to determine the winner. After all, they were the Super geniuses of the two worlds. Who knew how many trump cards they had? For example, he did not know how many more of the immortal God talismans they had used last time. Those things could be used in the mystic realm.

However, ye Chen did not need to rely on the immortal God puppet to suppress them now. Ye Chen could do it himself, so there was no need to be afraid. At most, he would fight them again when the time came.

"Jia Shen or Huo bubai are no match for my master. They'd better not come here to cause trouble, or they'll be the unlucky ones."

Ye Chen had not even said anything when Mo Luo spoke. However, Long Zhan also remembered that Mo Luo was one of the ten great prodigies of the Shadow Realm. Why did she come here to be ye Chen's servant? Could it be as the three-eyed clan had said, that ye Chen was the reincarnation of an immortal God Mirror Master? However, it didn't matter to Long Zhan. It was good to make friends with people with such combat power. When they arrived at the immortal God Palace, they could take care of each other and not be suppressed by the big families of all realms.

"I don't care what they do. I'm not interested in them now. But this secret realm and the immortal God Palace are much more interesting. The evil god three-eyed race said that they were guarding the Xuan Ming sacred mountain, but no one knew that there was an evil god race in the Xuan Ming sacred mountain. And this secret realm belongs to the immortal God Palace, which means that they were actually locked up in the secret realm by the immortal God Palace, and no one from the other realms knew about it."

Long Zhan also thought of this, but after thinking about it, he felt that it was not right. He could not understand it either, so he directly opened his mouth to ask.

"But if they open the secret realm to take the test and recruit new disciples, wouldn't that expose these evil god races to the various large worlds? Does it mean that everyone in the immortal God Palace knows about these things?"

Ye chen was also thinking about this question but he could not find an answer no matter how much he thought about it. He would wait until they arrived at the celestial Palace. After all, he was going to the celestial Palace to find a great opportunity. He could not possibly not go just because of this.

Now that their points had reached the top 300, they thought they should have enough points to go to the immortal Palace. They didn't wait any longer and went directly to the center of the secret realm. They all thought that there might be something in the center that could solve their doubts.

At the center of the arcane realm, a few people were already fighting a mystical beast. It was Jia Shen and Huo bubai who had entered the arcane realm before ye chen and the others. The two of them walked around their landing point after entering the arcane realm, trying to find traces of ye chen. They had also killed many mystical beasts and the evil god three-eyed clan. Their points were already in the top 100. If they had not wandered around the landing point, they might have been even higher.

The demonic beast they were fighting had an aura equivalent to the second level of the immortal God Realm. Although they could not fight back against the two super geniuses, many people had died under its claws and teeth before they arrived. The ferocious demonic beast was already under their feet.

"Hmph, if we weren't looking for ye chen, we would've killed our way into the center of the arcane realm and be in the top ten. If we meet him, we can't let him die a happy death. We'll humiliate him and let him know the consequences of angering us!"

There was another person beside Jia Shen and Huo bubai. That person was wearing a blue battle robe, and his aura was not inferior to Jia Shen and Huo bubai. His status and strength should not be inferior to the two of them. The blue-robed young man spoke slowly.

"There's no need to be so anxious. That ye Chen's cultivation base is only at the early Immortal King realm. Even if mo Luo and a peak Immortal King are with him, he won't be able to hold on for long. After all, the mystical beasts and evil god races get stronger the closer you get to the center of the secret realm. Who knows, he might have already died somewhere on the way. "

Ye chen and the others planned to go to the center of the secret realm to see what was going on. However, along the way, they also realized that the mystical beasts and evil god races were stronger the deeper they went.

There had even been a few celestial mirror mystical beasts or the evil god three-eyed clan's appearance. Fortunately, ye chen had an extraordinary combat power.

Along the way, no major dangers occurred. At most, long Zhan suffered some minor injuries.

After all, he was already slightly weaker than mo Luo. He was a rogue cultivator and being able to reach the peak of the immortal King stage was already enough to show that he had shocking talent.

Not to mention ye chen, who could defeat a peak Immortal King in one move despite being an intermediate Immortal King. Even those mystical beasts and the three-eyed Demon God that were equivalent to a first-stage immortal God mirror were killed by his sword in two or three rounds.

Just as they were about to reach a huge rock that was emitting a scorching aura, they sensed the aura of a fight ahead.

They went up to check and found that it was a demonic beast that was at least at the second level of the immortal God mirror. It was fighting with a few evil god three-eyed race members, and three of them were not weak.

For example, the second time ye Chen's group met someone with a sledgehammer, the evil god three-eyed race was almost the same.

Moreover, he even brought along a full set of divine artifacts, from top to bottom. Divine artifacts were not considered rare items to begin with.

However, it was a different story if there were so many divine weapons in this barren secret realm. This could only mean that this secret realm had opened several times in the past.

"And what's with all these divine artifacts? isn't this secret realm used for testing? How could they have so many materials to make divine artifacts for them? I thought this place was just a wasteland. Or did the immortal God Palace give it to them? That's not strange. "

"The demonic beasts and the evil god race in this secret realm are actually fighting among themselves. Haven't they been locked up in this secret realm together for countless years? Could it be that they had been fighting like this for countless years? I'm afraid that this small secret realm can't bear their consumption. Divine artifacts are all based on a person's hair. "

Long Zhan was also surprised. The few of them didn't reveal their aura at the same time. How did they observe the battle situation by the side of the huge rock? the points started to fight by themselves. They were naturally prepared to be the fishermen, waiting for them to fight until they were almost done before going down to pick up the points.

However, even with a full set of divine artifacts, the difference in combat power was too great. The evil god three-eyed clan members were being pushed back and could only barely defend. This made ye chen want to go up and help.

"Quick, use all your strength to block that beast's fire!"

"I'm already using all my strength! However, that beast is indeed a little strong!"

"Let's find a way to get back to the leader first! This beast won't dare to go over. "

"We'll still need a chance to run. Right now, we can only think of a way to withstand the wave of attacks."

Seeing that the evil god races had been forced into a corner, the demonic beast's attacks became even more frequent. It seemed to be furious that someone had actually invaded its territory.

When some of the three eye race members were already frightened and only thought of running away, the Furious demonic beast seized the opportunity to stretch out its claws and break their formation.

Then, it pounced on the man who was scared out of his wits. The giant claws, which carried a terrifying aura, were extremely fast. That day, before he could even stand still, he was directly smashed into pieces by the demonic beast.

He immediately attacked the remaining two, but they had already reacted and were prepared. One of them slashed with a knife and the other stabbed with a spear.

They pushed away the demonic beast that had turned to them after killing one person, but they could only push the demonic beast away. They couldn't hurt it too much.

After all, it was a demonic beast equivalent to a second-stage immortal God. Even if it wasn't very smart, its powerful body wasn't something that two ordinary third-stage peak immortal kings could easily injure with a divine artifact.

"How could that idiot die so easily? otherwise, we could at least hold on until chief finds out and sends someone to check on the situation."

"There's no other way. We can only continue to hold on for a while. If we really can't do it, we can only run first. "

Ye chen and the others, who had originally wanted to take a look at the situation, could not wait any longer when they heard this.

If a few peak stage Immortal King or even immortal God mirror evil god three eye race members came to check, wouldn't they have nothing to pick up?

Then what about that second-level immortal God mirror demonic beast? who knew how many points it would get?

With the wave of points, they were basically in the top 50, although they didn't know if the immortal Palace would reward those with high points.

However, a higher ranking would also leave an impression on the examiners and the higher-ups of the immortal God Palace. When they thought of how ye chen and the others were not waiting, they all jumped out.

"Divine sword's third slash, second slash!"

"Divine sword's three slashes, first slash!"

"Don't run! Stay here! Combat Dragon Strike!"

Ye chen slashed his sword at the mystical beast while mo Luo and long Zhan attacked the two three-eyed demons of the evil god.

Without waiting for them to react, they were directly hit and flew out. Then, long Zhan threw out a large golden net and controlled them all.

On the other side, ye Chen's sword had sent the second-level celestial mirror mystical beast rolling on the ground several times before it stopped.

There was also a large cut on their bodies, and the two people who were caught were already seriously injured.

Now that they saw a man who could hurt a second-level immortal divine mirror demonic beast, they knew that they were doomed. Therefore, they just watched quietly.

The demonic beast knew that the person in front of it wasn't easy to deal with after being slashed by the sword, so it began to be cautious.

It growled and stared at ye Chen, ready to pounce at ye Chen and bite his head off at any moment.

Ye Chen did not have much interest in the mystical beast. After all, mystical beasts were not very intelligent.

Even if his cultivation base was at the second stage of the immortal God mirror realm, he was just a wild beast to him. He could only use it to practice his sword so that it wouldn't feel too rusty.

"However, a second-level mirror-level demonic beast? I'm more interested to know what kind of powerful enemy is in the center of the secret plane. "

Although the mystical beast did not have a high IQ, it could still sense that ye Chen was distracted for a moment.

Like a shooting star, it rushed toward ye Chen at a speed that left afterimages behind. It was prepared to tear this dangerous prey into pieces before he could react at the fastest speed.

Long Zhan shouted anxiously, but he had to control the spell that bound the three-eyed race and couldn't help.

Mo Luo was still calm, maybe to him, that beast wasn't anything to be afraid of in front of his master.

For a moment, ye Chen also thought that he had been careless. However, he still pulled out a large black net in front of him as fast as he could and blocked the mystical beast between him and it. He then quickly retreated to the side.

The black net only lasted for less than two breaths before it was torn to pieces by the mystical beast's sharp claws. However, these two breaths were enough for ye Chen to quickly leave the mystical beast's attack range.

Even the current ye Chen could not take a second-tier immortal God mirror attack carelessly. Of course, it would be a different story if he could take it with his sword.

The mystical beast's first attack had failed. It wanted to ambush ye Chen before he could stabilize his footing, just like when it killed the three-eyed race.

The aura that belonged to the immortal God mirror burst out and grabbed at ye Chen again. However, ye Chen was not the idiot from the three-eyed tribe.
