

## Genius 2461

### [Chapter 2461 Three Eye Tribe's Leader!](#)

Ye chen slapped the mystical beast's claw to the side with a backhand swing of his sword. Then, he turned around and slashed at its neck.

A terrifying black sword light wrapped around the blade of the sword and directly cut the neck of the demonic beast.

With just one sword strike, the demonic beast's head was separated from its body. With another sword strike, the demonic beast was directly enveloped in black light and turned into ashes that drifted away, disappearing without a trace.

On the other hand, ye Chen's ranking had risen by two places. One must know that ye chen was already in the top five.

Meanwhile, the top five had already accumulated tens of thousands of points. Ye chen had surpassed the second place in one go and was now ranked third.

The two three-eyed race members who were captured were stunned, their eyes filled with disbelief.

This was because they could sense that ye chen was only an intermediate Immortal King.

He could actually kill the demonic beast directly. This was simply unheard of. After being shocked, he completely gave up and gave up on resisting.

He might be able to escape from the demonic beast, but now that he was injured and such a monstrous human had appeared, it was even more impossible.

"Do you know what level of experts are in the center of the secret plane, or what secrets there are?"

After ye chen had killed the mystical beast, he was at ease.

As if he was casually picking up a kitten, he walked over to them and asked them questions. They didn't have any thoughts of running away and came clean to them.

It turned out that the one in the center of the secret realm was the leader of the evil god three-eyed race that he had first met.

Not only that, but the leader had also captured a peak second-stage mirror-level demonic beast and tamed it. He himself was a third-stage mirror-level three-eyed race's strongest expert!

As for the two of them, including the unlucky fellow who was torn to pieces in front of them, they were all sent out by the leader to find suitable demonic beasts.

After that, they would return to inform the tribesmen, and then return to capture and domesticate them.

In the end, although they had found the location, they were also discovered by the mystical beasts. Then, because ye chen and the others had barged in, they were the ones who were captured.

"With this strength, he would be able to rule a large world in the outside world and become the master of a world, right?"

Long Zhan said in shock, looking around with a little more caution in his heart, on guard against the three eye tribe people who might come over to check.

"I'm afraid it's not just their combat power. They all have divine artifacts, strong or weak. The leader's weapon is probably even better. It's likely to be an immortal-level treasure."

"That's not all. If we include the peak second-stage immortal God mirror-level demonic beast tamed by the leader and the other experts of the three-eye tribe, they won't be easy to deal with!"

Long Zhan and Mo Luo, the two of them, started to guess the three eye tribe's combat power.

Ye Chen thought about it. The prodigies from all realms who had more than ten thousand points should be almost here by now.

It might even be faster than them. Otherwise, they would directly slow down.

He would let the other heaven's pride experts waste some time with that leader first, while he slowly got closer to figure out the situation before making his move.

Before they realized that the demonic beasts in the center of the secret realm were stronger, they felt that the points might be useful for the lower ranks.

Therefore, they found demonic beasts or people of the evil god three eye race nearby and killed them to get points. As they went deeper and deeper, they found that the stronger the demonic beasts and three eye race were, the more points they would get.

Only then did they start to walk straight in, not caring about the small fish and shrimp.

"What exactly is your evil god three-eyed race? why are you locked up in this secret realm by the immortal God Palace? why are these demonic beasts used as points for the immortal God Palace's assessment? The dark mysterious evil god?"

Ye Chen's questions were thrown out one after another. He had not been that interested in knowing the answer before.

After all, he had to enter the immortal God Palace no matter what. Since someone could answer his questions, he might as well ask them all to satisfy his curiosity.

The two three-eyed race members also replied one by one.

It turned out that even though the evil god three-eyed race called themselves the evil god race, they were actually just servants of the Xuan Ming evil god.

Tens of thousands of years ago, the Xuan Ming evil god fought with the immortals and divine officials of the immortal Palace. In the end, he was defeated and fled to the Xuan Ming sacred mountain to recuperate.

And their tribe had been brought here to serve as servants.

However, the xuanming evil god was still found by the immortal God Palace and suppressed in this sacred mountain.

Their clan had also been locked up in the secret realm as a trial for the inner disciples. However, they were also able to kill many participants to obtain various treasures when the secret realm opened for the trial.

After tens of thousands of years, everyone had a divine artifact on them, but because this secret realm would consume their potential, there were only a few people who had the immortal God mirror.

"So that's how it is. It seems like even the immortal God Palace in the immortal God World isn't the only power. There are still many enemies. Sure enough, no matter where one is, one's own strength is the most important."

Ye chen already had an idea. Previously, the examiner of the immortal God Palace had said that only those who ranked within the top ten thousand in points could enter the immortal God Palace.

In other words, as long as he was in the top 10000 before the end of the mystery realm, he only needed to survive.

The main point was actually whether they could survive until the secret realm closed, because there were tens of millions of people who had entered.

In a secret realm like this, where peak-stage immortal kings and even immortal God mirrors were everywhere, at least 99% of them had been eliminated.

Although ye chen often encountered some heaven's pride experts at the peak of the immortal King stage who fought against the immortal God stage, that was because ye chen himself was also a super heaven's pride expert of a freakish level. There was no other one like him in the major realms.

Ordinary heaven's pride experts were nothing in this secret realm. Just by looking at the divine weapons of the evil god race, one could tell how many self-proclaimed heaven's pride experts had died in this secret realm.

Therefore, they could either earn points in the corners of the secret realm and obediently display their wisdom, or they could fight their way to the center of the secret realm to show their strength.

No matter which method you used, it all depended on whether you had the ability to survive until the mystery Land closed and still stand in the top 10000 on the leaderboard.

"However, in the cultivation world, strength is everything. Those who can be at the top of the points list will definitely be more valued. This is for sure. So, get ready. Let's go to the center of the mystery Land and kill our way there!"

On a hot stone slope not too far away from the center of the secret realm, three young men had just killed two second-level immortal God mirror demonic beasts.

The three of them weren't too tired either. The blue-robed man with the green token checked the leaderboard, and his expression changed again and again.

With a strange expression, he spoke to his companion who was adjusting his breath.

"Jia Shen, it seems like you have been pushed down the leaderboard just now."

"What? Who actually has the ability to push me down? we'll find him and kill him, and his points will be ours!"

That's right, Jia Shen, invincible fire, and ten thousand extremes law were the three heaven's favorites of the Three Realms.

"How did he get so many points? he's only an intermediate Immortal King and he managed to push Jia Shen off the rankings?"

As Huo bubai asked, he also took out his token to check. He saw that ye Chen's name had reached the third place and was not far from him. He could not help but Mutter.

"It's really him!"

"He probably went to kill some small characters in the corner of the secret realm to get the points."

Jia Shen retorted.

"If it was so easy to get points, we wouldn't be so far behind those trash after the top 10."

"Then what did he rely on? The two that were with him? A second stage peak Immortal King and a third stage peak Immortal King? It can't be that he hit himself!"

Wan jifa looked at ye Chen's group with disdain. He felt that they could not have gotten so many points on their own.

On the other hand, Huo bubai laughed.

"Hehe, who cares what method he uses. When we find him, no matter how many points he uses, we'll still kill him. Why care so much?"

Jia Shen also said.

"That's right. He has so many points now. Killing him will help us stabilize our ranking, right?"

[Chapter 2462 2467-Secret Land's Central Area!](#)

"That's true. Then, we'll set off directly. Do you want to look around?"

Wan jifa asked the two of them. It was not that he did not want to kill ye chen, but he was more interested in meeting the powerhouses in the center of the arcane realm than ye chen.

"I don't think there's a need. Let's go directly to the center of the secret plane. We're almost there."

"If ye chen is really killing people in the corner of the arcane realm to get points, he won't come over. It's a waste of time to look for him, isn't it?"

In any case, Wan Ji Fa wanted to go to the center of the secret realm first. He was not very interested in ye chen.

Wasn't he just an early Immortal King?

It was just a matter of waving his hand.

Although he had heard that ye chen had an immortal God puppet, he could not use it in this arcane realm.

Although the other two wanted to kill ye chen first, they felt that they still had time.

After all, no one could leave the secret realm after it ended. If they couldn't fight, they could just walk around the entire secret realm.

This secret realm wasn't small to them, but it wasn't big either. It wouldn't take them much time to search the whole secret realm, so they agreed.

On the other hand, ye chen and the others had a smooth journey without much obstacles.

When he had dealt with the two three-eyed clansmen of the evil god, ye chen had also taken two usable divine artifact armguards from them. They did not care about anything else.

They all recognized ye Chen's storage ring and treated it as a collection. Ye Chen's trip to the arcane realm this time was considered a fruitful one.

Not only did he get a lot of divine artifacts, but he also got a lot of immortal stones. Of course, the immortal stones mainly came from the Wang family of the light world.

Then, there were always people who wanted to assassinate him and Exchange his head for the reward from the Shadow Realm.

They were all turned into immortal stones and kept in his and long Zhan's storage rings. Of course, it was the immortal God Palace's Secret realm after all, so there would not be as many gains as the last secret realm.

"I can already feel that we're about to reach the center of the secret plane."

Because the closer he got to the center of the secret realm, the more intense the earth Fire aura became.

There were more and more of the three eye tribe and fewer and fewer beasts.

He had even seen a three eye race with a slightly weaker demonic beast on patrol. Those should be the demonic beasts that the three eye race had raised.

However, because they had been tamed, their wild instincts had become weaker, and their cultivation levels were not high.

"There's the aura of another battle nearby, and it's not just in one place. As expected, the heaven's pride experts from all the realms have arrived?"

Before they could chat more, another patrol team of the three eye tribe discovered them.

The leader of the patrol team was a level-one mirror warrior, so he must be someone powerful. He must be the general under the three-eyed tribe leader.

The other party noticed ye Chen's group and immediately rushed toward them.

Ye Chen and the others did not intend to speak at all. They were too lazy to waste time with the other party and immediately started fighting.

That three-eyed race's general immediately charged towards Long Zhan because in his perception, Long Zhan was the one with the highest cultivation among the few of them.

However, before he could fight Long Zhan, he was forced back by Ye Chen's sword gleam.

There were even a few three-eyed race patrols who did not take Ye Chen, an intermediate Immortal King, seriously. They were directly obliterated by this black sword light.

Only a few who had some strength and quick reactions and the general were left behind. They looked at Ye Chen in shock.

"Who are you?"

Long Zhan looked at the other party and smiled without saying anything.

Ye Chen's face was filled with helplessness. This was the fourth person to ask this question.

It was not that Ye Chen's group had only encountered four teams. It was just that some teams had not even had the time to ask before they were directly obliterated by Ye Chen's sword gleam.

It was only when they were close to the center of the mystery Land and the strength of the patrol team had increased that someone could start to ask questions, but it was the same question every time.

"I might have answered you who I am earlier, but now, I'm the one who will kill you!"

"Divine sword's third slash, second slash!"

Before the three-eyed general could ask any questions, Ye Chen had already drawn his sword and slashed.

Just like that, the first-tier celestial mirror general died under Ye Chen's three slashes with a face full of fear.

Beside him, Long Zhan and Mo Luo had also attacked the moment Ye Chen made his move. They finished off those passing patrols who had been shocked by Ye Chen's sword energy.

However, just as Ye Chen and the others were about to continue walking toward the center of the arcane realm, Ye Chen suddenly felt a murderous aura coming toward him.

He didn't even look at his finger as a sword. With a casual point of his finger, a black sword Qi shot out from his fingertip.

Although the killing intent had disappeared, Ye Chen's sword Qi did not feel like it had hit him. Ye Chen found it strange.

He turned around and saw a man in a black robe running to the left.

Ye Chen felt that there must be a treasure on this person. Otherwise, his black sword energy would have already taken his life.

He immediately chased out with long Zhan and Mo Luo, you want to take my life and now you want to run? No way!

Ye chen immediately used his movement technique and instantly passed by the black-robed assassin to catch up with long Zhan.

Mo Luo immediately attacked that person, and that person knew that he couldn't run, so he immediately cast a protective spell.

However, he was still a step too late. Ye Chen, Long Zhan, and Mo Luo's attacks were already close.

With a loud bang, the man was turned into powder by the joint attack of several people.

Just as ye chen had finished collecting the Assassin's inheritance, he suddenly looked toward a high ground.

Long Zhan and Mo Luo also looked towards that high ground, and the few of them could feel it.

It was a technique from the Shadow Realm. Not only the Shadow Realm, but also the fire heaven realm and the ten thousand laws realm.

"Looks like it's them. I'm afraid it won't be easy to deal with them all at the same time. Brother ye, do you want to shake them off first?"

Long Zhan saw that the three great prodigies were actually together and wanted to try to persuade ye chen to not go find them for the time being.

However, he felt that with ye Chen's personality, he would not agree, so he was ready to fight.

As for mo Luo, he was originally a servant controlled by ye chen using the Secretary in the immortal God's inheritance.

As long as ye chen gave the order, he would carry out the order as usual.

However, the two of them seemed to have guessed ye Chen's thoughts wrong.

"No, don't fight with them yet. I feel that there's something good in the center of the secret realm. It's something that even the three slashes of my godly sword are telling me where it wants to go!"

Since ye chen had said so, mo Luo did not have any objections to long Zhan.

Thus, the few of them did not care about the Three Realms 'prodigies who were fighting nearby and headed straight for the center of the manuals.

Fortunately, the three eye race's patrol teams in the vicinity seemed to have been mostly killed by the heaven's favorites from the Three Realms.

Along the way, ye chen did not encounter any obstacles. He wondered if this was the luck brought by the last secret realm's sky-climbing ladder.

By the time they reached the central area of the secret plane, they realized that there were not many people around.

There were only two or three of them, and they were easily dealt with. The three of them had also seen what was in the central area!

### [Chapter 2463 Ancient Sword Scar!](#)

It turned out that the center of the secret manual was the sword mark left by the immortal God official of the immortal God Palace when he suppressed the Xuan Ming evil god!

"Brother ye, aren't you a swordsman? This truly is a great stroke of fortune for you. No wonder your sword-Arts were all warning you. "

"That's right, my master has climbed the heaven staircase before, in addition to his ability and luck, he has great opportunities everywhere he goes. "

When long Zhan saw the sword mark, he praised ye chen for his great fortune while mo Luo spoke with a tone of certainty.

Ye chen smiled and did not say anything more. He told long Zhan and Mo Luo to help him guard.

It allowed him to comprehend and absorb the profoundness of this sword scar better and faster. Long Zhan and the other man did not say much and immediately started to protect him.

They had even set up a perception array and a protective barrier around them, even though neither of them were professional array Masters.

However, he could still casually use simple and general array techniques. After all, he couldn't be sloppy in this matter. He had to use whatever he could.

Ye chen had already begun to absorb the unparalleled sword Qi in the sword mark.

Xuan mi, the leader of the three-eye tribe, who was still fighting with the Super geniuses of the Three Realms, sensed something.

"It seems like someone has already entered the hall of sword scars? That shouldn't be the case, I should have set up a barrier. "

Xuan mi, who had wanted to play with invincible fire and the others for a while longer, was about to leave when he was stopped by the Supreme talents of the three fields again.

The Super heaven's favorites from the three fields all wanted to have a good fight with this strongest warrior of the three eyed race.

Because in their eyes, the demonic beasts in this secret realm and the three eye tribe were all their stepping stones.

That was why they all rushed towards the three eyed tribe's leader as soon as he arrived, because they had also felt the aura of the sword scar in the center of the secret realm.

They just didn't know the exact location, so they went straight to the leader of the three eye tribe, wanting him to tell them where the treasure was.

However, they also knew that this leader was a third-level immortal God mirror expert.

However, that was also a third-stage immortal God mirror, which was much stronger than them now. That was why they had tried to get information from him.

However, this leader didn't seem to want to say anything to them. He directly commanded his demonic beasts to launch a siege on them.

However, they weren't people who would be easily killed by a few domestic dogs.

With the various trump cards that the three big worlds had given them, they had killed all the demonic beasts and exchanged a few blows with Xuan mi.

Now, Xuan mi was planning to leave directly? How could that be easy? they had even used two immortal God talismans.

Her heart ached so much. How could she let Xuan mi go so easily?

In fact, that sword mark was basically useless to Xuan mi. However, he just felt that he could not give it to the human race.

However, if the hall of sword scars had already been occupied by the humans, he would not mind. After all, he did not use a sword.

He only wanted to know who had taken over the hall and why his barrier had disappeared without any reaction. That's right, it had disappeared. It had not been broken but had simply disappeared.

When invincible fire and the others saw that Xuan mi was ignoring them, they became even more irascible.

"If you don't tell me where the treasure in the center of the secret plane is, don't even think about leaving!"

Invincible fire roared angrily. He took out his immortal God talisman and was about to use it, but at this moment, everyone outside the central area was shocked by a shocking sword Qi.

Xuan mi, on the other hand, increased his speed and went straight to the hall of sword marks. Invincible fire and the others looked at each other and followed behind Xuan mi.

A portion of the heaven's favorites who had just fought their way out of the central area had also given up on fighting each other. They were like friends.

Some of them used movement techniques, while others directly used magic techniques to travel.

They were all different, but their destination was the same, which was the central area of the secret plane.

And long Zhan, who was already in the hall, mo Luo was the most surprised.

This was because they could feel the sharpness of ye Chen's body. This sharpness made his entire person seem like a sword.

He only needed to kill the second-level mirror-level demonic beast with one strike!

As the heaven's favorites from all realms and the three eye tribe returned to defend, they also noticed it.

However, the simple barrier that was originally used for protection had long been destroyed by ye Chen's sharp sword energy, so it was discovered.

"How did you guys get in?"

Before they could even see the person, they could already hear a loud roar. Whether it was ye Chen or the prodigies who were rushing over, they could feel the pressure from the voice. It was the third level of the celestial mirror realm!

However, even in the face of the terrifying aura and pressure of the third-level immortal God mirror, ye Chen was not timid. Facing Xuan mi, he said calmly,"

"I walked in!"

Just as ye Chen and Xuan mi looked at each other and were ready to attack at any time, another roar came from the sky.

Although the voice was also very loud, it did not have Xuan mi's aura at all. However, the anger of the owner of the voice could be heard. It was Huo bubai!

Ye Chen was still staring at Xuan mi as if he did not care about invincible fire at all.

The fact that the two of them were ignoring him made him even more furious. Fortunately, ten thousand extreme technique was rational enough to hold him back.

After all, the biggest enemy now was definitely Xuan mi, a third-level immortal God mirror evil god from the three-eyed race. Jia Shen naturally had his eyes on mo Luo, and he couldn't wait to kill this thing that disgraced the Shadow Realm.

With the return of the heaven's favorites and the evil God's three eye race, the two sides were in a stalemate.

Although the prodigies from all the different realms had some enmity and grudges with each other, the evil god race was still the biggest threat right now.

Moreover, those who could stand here in the immortal God Palace's assessment this time were basically those who could pass the assessment. They might have to cultivate together in the future, so it wasn't good to make things too awkward.

### [Chapter 2464 The Third Sword!](#)

Not to mention the three-eyed clan of the evil god, Huo bubai, who was still with the human exam candidates, would definitely want to kill ye Chen more than Xuan mi and the others.

After all, it was already a life-or-death relationship. Ye Chen had even taken the treasures in the central area of the arcane realm one step ahead and kept them in his own bag.

This made it even more difficult for Xuan mi, the leader of the three-eyed tribe, and invincible fire, who had been fighting with them for a long time.

They had used all kinds of trump cards but in the end, ye chen, the person they had always wanted to kill, had benefited. It really made them so angry that they wanted to vomit blood.

"I don't care how you guys came in. Since the secret realm hasn't sent you guys out yet and you're all still here, I might as well kill you all. It'll be good for the human race to lose a few more geniuses."

It seemed that Xuan mi, the leader of the three-eyed tribe, wanted to capture them all in one fell swoop. However, ye chen seemed to have gained something new and did not take his words seriously.

Ye chen was confident that he could easily kill Xuan mi even if they were to fight head-on. Therefore, he looked relaxed and did not feel any pressure.

The other heaven's favorites were all scared out of their wits. After all, he was at the third level of the celestial mirror realm, which was even higher than the realm Lord of their realm.

Xuan mi had already made his move and his target was ye chen, who had bypassed them to steal the sword mark.

He was only an intermediate Immortal King thief, and Xuan mi had only struck him casually.

However, this casual strike also contained the power of the immortal God law domain. Just this casual strike had the terrifying power to lock the space and make it impossible for anyone to escape.

However, since the target was only ye chen, the other heaven's pride experts managed to escape the attack range.

It was better to say that Xuan mi had done it on purpose to intimidate the human race and make an example of them. Invincible fire and the others were a little happy.

He immediately dodged to the side to watch the fun. Almost everyone had already retreated.

However, ye chen was still standing in the same spot. Other than long Zhan and Mo Luo, everyone else had already retreated dozens of miles away.

However, she realized that there were still people standing next to ye chen. The two peak immortal kings must have been scared silly by the third-stage immortal God mirror.

He did not even know how to hide. After all, other than ye chen, who had been locked on, the only other way was to leave the range.

That punch wouldn't have chased after them, so the two of them must have been scared silly.

"It's a pity. Those two are pretty strong. "

"What's the use? you'll still die with that intermediate Immortal King. "

However, whether it was ye Chen, Long Zhan, or mo Luo, they were not people who cared too much about other people's opinions.

Let them say whatever they want. In any case, the three of them knew that they would not die.

Ye chen looked at the fist that had locked onto him and was crushing space. He used his palm as a sword and slashed at the fist.

"What does he mean? he's looking down on third-level Mirror Masters. No wonder he's being hunted down by the Three Realms.

Eh. "

"He's brave enough to fight back against a third-level Mirror Master. I'm impressed ..."

The elites around him had mixed opinions about ye Chen's actions. Some thought he was stupid while others thought he was at least brave.

However, before he could finish speaking, Huo bubai noticed that the people of the three major realms seemed to have a grudge against ye chen. He quickly shut his mouth but heard someone exclaim.

Huo bubai and the others also looked at ye chen again and saw that the fist print had been split open by the black sword Qi that used the palm as a sword.

It even carried some power and killed a few three eye race members that were too close to it.

"What?!" Xuan mi was shocked as well. He was a third-level immortal divine mirror expert!

That was the power of a third-level immortal God mirror. How could it be split open by an intermediate Immortal King thief?

Even a first stage immortal God mirror cultivator doesn't have this ability.

He secretly thought to himself that he must kill ye chen. He must not allow the human race to have another abnormal powerhouse.

"How is this possible? how can ye chen be so strong? isn't he only an early Immortal King?"

"He's only at the intermediate Immortal King stage, but he's already able to fight against a third-stage mirror cultivator. How terrifying would he be if he reached the immortal God mirror stage?"

The ones who were most shocked were Huo bubai and Jia Shen. When ye chen was still an early Immortal King, he was no match for them at all.

If not for the immortal God puppet, they would have killed ye chen Long ago and only advanced to intermediate Immortal King.

Even if the third level of the mirror was built up over time and countless celestial stones, it was impossible for ye chen, who was only an intermediate Celestial King, to be able to fight against it!

Ye chen could not be bothered to check the reactions of the people around him. He just wanted to try and see how strong he had become after absorbing the sword mark.

In his heart, he was also secretly planning to find a way to get a physical body cultivation technique or treasure next time.

After all, his attacks now had the divine sword's three strikes, which had absorbed the ancient sword scar. His movement technique was mainly focused on speed, so he was only lacking a treasure that could strengthen his physique.

While everyone was still in a daze or discussing, Xuan mi was ready to attack with all his might.

Before ye chen could become stronger in the future, he would kill this human with such abnormal talent.

"Go to hell. People who are too talented are very envious!"

With a punch, even the sky darkened. A huge light blue fist print came toward ye chen.

The sky, the earth, and everything around it became blurry. This was the result of being enveloped by the immortal God mirror's domain power.

It was also because the space in this world was almost unable to withstand the immense pressure and was beginning to shatter.

The shattered space was like a spider's web, trapping ye chen in the middle as if it did not want him to escape.

"You guys run away. You're not his target!"

Ye chen immediately pulled out his sword to withstand the pressure. He spoke to long Zhan and the other man, and they did not hesitate.

He turned around and turned into a stream of light and left. The people around him, who were stunned by ye Chen's combat power, finally reacted.

He also turned into a stream of light and left. For a moment, the sky was filled with streams of light, and even the sky was once again illuminated.

"Divine sword's third slash, third slash!"

When ye chen saw that long Zhan and Mo Luo were far away, he finally made his move. So it was the third strike of the divine sword's triple slash!

The black sword light seemed to dye the world black as it slashed toward the huge fist print.

Even the space that was shattered by the terrifying power of the fist print was dyed black and disappeared again.

When the fist seal and the sword mark met, the world seemed to lose its color. It was as if the world only had the black sword and the light blue fist.

With a loud bang, everyone who had retreated far away looked at the battle and exclaimed.

"Such strength, is he still an intermediate Immortal King?"

"If this person doesn't die, I'm afraid he'll be able to reach the Supreme realm above the immortal God Realm in the future."

#### [Chapter 2465 End Of The Assessment!](#)

When invincible fire and the others saw this, they felt that ye chen deserved to die. The ancient sword mark should have been theirs but it had now become ye chen 's.

He was filled with hatred.

In the distance, the confrontation between the sword light and the fist seal was still ongoing. However, the sword light had already shattered the fist seal, and it was likely that it would not last much longer.

Xuan mi was in disbelief as well. However, he was also a little helpless. Why was he still killed after cultivating to this realm with great difficulty? why was he stuck at this stage for countless years?

In the end, it was the sword ray that devoured and dyed the light blue, becoming the only thing in the world.

Xuan mi and a few of his subordinates, who refused to leave, were also swallowed.

Ye chen and Xuan MI's battle had ended. Although the arcane realm was not injured, it was still in a state of shock.

Everyone outside the secret realm could feel the turmoil inside. The examiner of the immortal God Palace also looked at the shaking secret realm and nodded in satisfaction. It seemed that he was quite satisfied with the candidates in the secret realm.

Meanwhile, ye chen, who was in the arcane realm, was clearly very satisfied with the power of the third slash of the celestial sword's three slashes.

He felt that if he reached the peak stage of the immortal King realm now, Xuan mi wouldn't be able to last that long.

The crowd in the distance had their own thoughts but most of them were amazed by ye Chen's talent and combat power.

However, things were different for Huo bubai and the others. They were now thinking of ways to kill ye chen.

After all, with ye Chen's current combat strength, even if they joined forces, they would end up like Xuan mi.

The test this time didn't care about life or death. He might not have this chance again when he went to the immortal God Palace.

"Now, before the assessment ends, I have to find a way to kill him. Show your trump cards!"

"Can we really kill him even if we use all our trump cards? Look at how relaxed he is right now. I'm afraid he didn't even use his full strength in that attack. "

Just as Huo bubai was about to convince the other two to use their trump cards Against ye chen, he was choked by Wan jifa's words.

Initially, he was already angry that ye chen had snatched his opportunity. Now that Wanji fa had choked, he turned his anger to Wanji fa.

"Ten thousand extreme technique! Are you afraid of that ye chen?"

"This isn't a matter of being afraid or not. It's already good enough that they haven't come to find us. You're just rushing to your death, right? or are you able to take that sword?"

Seeing that the two of them were about to fight, Jia Shen finally spoke.

"No matter what, we won't be able to block that sword, but don't forget that he only has him and two pieces of trash."

When invincible fire and the others heard this, they also fell into deep thought.

"Are you saying that the immortal God Palace is asking the patriarchs and seniors up there to attack?"

It turned out that this was not the first time the immortal God Palace had recruited people. The patriarchs and seniors of their major realms had entered the immortal God Palace first. In this way, even if ye chen reached the immortal God Palace, he would still be hunted down by the three major realms. Jia Shen nodded.

"Do you think it's worth it to fight ye chen here or wait for the celestial Palace to ask for help?"

The other two were also deep in thought. After all, if they went to the immortal God Palace to ask for help, they would only be scolded and lose face.

It was much safer than ye chen, who could fight against a third-level immortal God Mirror Master. Moreover, the ancestors of the immortal God Palace were much stronger than the three-eyed race of the evil god in the desolate secret land.

"Alright, we'll do as we've been told. Let's avoid ye chen for now and wait for the arcane realm to end."

The few of them used their movement techniques to quietly leave the battlefield. They had enough points anyway.

Now, other than ye chen, the others did not have as many points as them. It did not matter if they avoided him. They could just wait until they reached the immortal God Palace and take his life.

At this time, ye chen had already regrouped with long Zhan and the other man. The precious sword mark in the center of the secret realm had also been absorbed.

Now, whether it was points or combat power, ye chen was already the well-deserved top dog. He did not want to go and farm points anymore. He let long Zhan and the others do it while he held the Fort at the side.

Time passed very quickly. A few days had passed just like that, and it had been very peaceful the entire time.

Ye chen was too lazy to look for invincible fire and the others. Therefore, other than those who were too weak, no one had died in the past few days.

At this moment, the voice of the immortal God Palace's examiner came from the sky, telling them that the assessment would end in an hour.

After they left the secret realm, the examiner of the immortal God Palace didn't say anything and just disappeared from the xuanming sacred mountain with everyone.

Everyone only saw a flash before their eyes, and they arrived on a vast Red Land that stretched as far as the eye could see.

This piece of land was extremely fertile, and it even exuded a pleasant spiritual Qi, but there were no spiritual herbs or medicines on it.

At that moment, the examiner also spoke.

"This red earth is the place where all the qualified candidates will gather. Once the other examiners have finished their tests, they will bring you all to the immortal God Palace. For now, you can all wait here for the others."

It turned out that the red earth was only a temporary gathering place. It was indeed a big deal.

Ye chen wanted to use his divine sense to check out how big this place was but found that he could not see the end at all.

As such, he tried to explore further down, only to find that his spiritual sense could only explore less than one-tenth of it.

Just as they were feeling strange, they heard the examiner answer his question.

"There's a huge floating life stone below. That's the true body of this temporary gathering place. "

"This red soil is just a little bit of dust from the lower realm that was brought to the upper realm from the top of the small worlds and the bottom of the immortal God Palace. After countless years, it formed this red soil land that wrapped around the floating life stone."

Perhaps it was because he was able to stand at the top of the assessment point board despite being an intermediate Immortal King.

The examiner felt that ye chen was a good seedling. Seeing that he was a little confused, he patiently explained this little knowledge to him.

Many other candidates were very envious. After all, it was the appreciation of an examiner of the immortal God Palace.

However, since they had all seen ye Chen's combat power in the secret realm, no one dared to say anything. Invincible fire and the others could only gnash their teeth in anger but did not dare to say anything.

After ye chen thanked the examiner, he began to think about the information in this paragraph and combined it with what he had said earlier.

Other than the few worlds he was familiar with, there were many other small worlds that were far away.

Other than the immortal God Palace, there seemed to be several other powers in the immortal God Realm, such as the evil gods.

Does that mean there are countless lower realms on the side of the evil gods? what about the realms above the immortal God Realm?

It seemed that he was still too weak. When he got to the immortal God Palace, he would have to find a way to improve his cultivation.

Even though he could be considered as a low-level immortal slaying divine mirror cultivator without any pressure, he was still in the same realm.

However, the people in the immortal God Palace were not as talented as Xuan mi. They were all geniuses of various levels. If they did not improve their realms, they would probably die without a burial place.

### [Chapter 2466 The Great Immortal Of The Immortal God Palace!](#)

Just as the people from the various realms were chatting to themselves, they suddenly felt an extremely powerful aura tear through space and suddenly appear beside the floating life stone.

The examiners had sensed the aura before the examinees and had already rushed in the direction of the aura.

There were even a few bold ones who wanted to go and take a look, but they exploded with a huge immortal God force. The residual power swept over and jolted those bold ones back. Some of them were even killed by the shock. No one dared to go and watch the battle.

While everyone was still in shock from the immortal God's power, the examiners had already returned to the crowd of candidates. However, they all had serious expressions, especially on the side where someone had died from the shock. The examiner's face was frighteningly dark.

"Damn the evil God's minions. They actually want to kill Xian Miao before we return to the immortal Palace."

The shocked candidates knew the reason, but they were even more terrified now. This was the immortal God Palace, a behemoth with immortal God mirrors everywhere. Someone actually dared to go against the immortal God Palace.

And from the gloomy faces of the examiners, everyone knew that even if the examiners attacked together, they could not stop the person who dared to intercept the immortal seedlings and go against the immortal God Palace. What the hell was this evil God's minion?

Wasn't that Xuan Ming heretic God suppressed under the Xuan Ming sacred mountain? There were probably more than one or two evil gods.

Ye chen was also in disbelief. Initially, when he saw the evil god race and the suppressed evil god Xuan Ming in the assessment Mystic realm, he had thought that it was not a big force.

But now that he thought about it carefully, the fact that he dared to start a war with the immortal God Palace and still hadn't been destroyed by the immortal God Palace spoke for itself.

Now, they could only wait for everyone to arrive and hurry to the celestial Palace to be completely safe. The current ye chen might not even be able to withstand the aftershock of the attack.

After this near-ambush experience, the examiners no longer had the mood to chit-chat, especially the examiner who had just lost a candidate. He wished that the other party would have the same expression again, and had been using his divine sense to observe the surrounding situation.

However, in the end, he didn't dare to do it again, and the second half was calm.

Finally, the last examiner led the candidates to the floating life stone. He had wanted to chat with the other examiners, but he was scared by the stares of the other examiners. After understanding the situation, he gathered the candidates and finally prepared to go to the immortal Palace!

The four examiners immediately cast a protective spell on the candidates to prevent any unexpected situations from happening.

It also allowed the candidates to pass through the void of the upper realm more safely. Then, they joined forces and flew toward a light. When they got closer, they saw that the light was a round light door with golden light. After entering the light door, they entered the void passage that connected to the immortal Palace.

After passing through the tunnel, they finally arrived at the immortal Palace!

"Is this the immortal God Palace?"

Ye chen looked at the palaces and celestial mountains floating above the clouds. Below him was the boundless Galaxy and void. If he fell, he would only be ground into specks of Starlight in the endless void. Above him was an endless sea of clouds. He could also feel the aura of countless Masters in the endless sea of clouds. The palaces and celestial mountains above should also be there.

"I'll take you to the place where the newbies are reporting. Follow me, don't be slow, hurry up."

While ye chen and the others were still observing the immortal God Realm, a few guides had already greeted the examiners and then shouted at ye chen and the others.

Ye chen also realized that it was not just them. Many other clouds were also repeating the same scene.

Only then did ye chen look behind him. It was not only this void passage that had people coming out. There were also dozens of void passages with examiners leading people out. However, their batch was the earliest to come out.

After that, ye chen and the others followed the guide to an immortal mountain. The mountain was filled with countless immortal herbs and medicines that grew all over the mountain like weeds.

At the top of the mountain was a huge Palace, and in the middle of the palace was an immortal tree that was much taller than the palace. Before they even reached the palace, they could feel the immortal God Qi from the tree. It was indeed the immortal God Palace, even the immortal tree was an immortal God Tree.

"You're quite lucky. This place is called the wondrous life Palace, and the master of this Palace is also the master of this immortal God Tree. He's called the wondrous life immortal, and everyone calls him the wondrous life great immortal.

You were only allowed to come here because he told the palace Master that the first batch of people from shangxian divine Palace would be sent here. The great immortal wondrous fate had to personally choose them, otherwise it would be difficult to even see him. "

The guide didn't care about the crowd's surprise and reaction and kept talking.

"By the way, I'll tell you something. The great immortal has said that if anyone caught his eye this time, he'll take them as his personal disciple!

And no matter what talent or combat strength it is, as long as it's something that the old man likes, it's fine. You should know that great immortal wondrous fate hasn't accepted a personal disciple for hundreds of thousands of years. Even the palace Master thinks that something big is going to happen. "

This was incredible. Everyone felt that their innate combat strength was not as good as ye Chen's but since they did not look at these, they still had a chance!

However, sensing the immortal God mirror aura on this Chatterbox guide, not many dared to go up and ask. Just as Huo bubai and the others were about to go up, ye chen was already one step ahead and asked.

"Senior, may I ask, how does great immortal wondrous fate choose his disciples?"

The Chatterbox guide didn't put on any airs and only calmly replied,

"I don't know about that. He's different every time. Sometimes, he'll only pick a few people in a group, and even their positions aren't fixed. Sometimes, he'll only pick two or three people to do odd jobs, and sometimes, he'll pick a few people and assign them to his disciples and Grand-disciples at once, becoming the inheritors of his bloodline."

This time, everyone was excited again. After all, even if they couldn't become a personal disciple, they could still become a disciple or a grand-disciple, although they might also be called to do odd jobs.

However, at least there was a way to get rid of ye Chen's shadow. That's right, ye Chen's unparalleled combat power and abnormal talent in the assessment arcane realm had become a shadow in the hearts of all the prodigies. Didn't you see that even the Super prodigies of the three major realms did not dare to pick a fight with him?

However, in their original world, they were all unparalleled prodigies. Naturally, they did not want to live with such a shadow in their hearts for the rest of their lives. Now was a great opportunity to join the mystical fate immortal's sect and work hard to surpass that freak ye chen.

#### [Chapter 2467 2472-Wood Man Forest!](#)

The guide was still pointing at the divine Tree in the distance as he spoke to the crowd. Huo bubai and the others had already contacted their respective elders with the communication treasures left behind by the old race members before they came to the divine Tree.

However, their replies were all the same. If they could enter the wondrous fate immortal's lineage, they must enter. In this regard, they were even more determined to not let ye chen enter.

However, even the great ancestor had said that the great celestial was an incredible figure. Ye chen wondered how the great celestial would choose him. However, if talent and combat strength were not considered, at least ye chen might not be selected.

While they were talking, the Chatterbox guide had led them to the gate of the palace. The gate of the palace was wide open. According to the guide, the gate of the strange life Palace would not be closed when people came out, because no one would dare to break in or steal anything.

The guide led the group straight in. Along the way, people greeted the guide. Ye Chen and the others also learned the guide's name. It was Liu Xiu.

He was the youngest disciple of great immortal wondrous life's branch. No wonder he knew so much about the wondrous life Palace. However, although this man was a Chatterbox, he had never talked about him on the way here.

He led the group through the front hall and directly headed to the largest meeting hall. There were already a few middle-aged men waiting inside who Ye Chen could not tell what their cultivation base was.

There must have been a few big shots who came to see if there would be a lucky immortal seedling chosen by the great immortal of wondrous fate.

Liu Xiu brought them in and bowed to the people above before leaving the hall. He then spoke to a middle-aged man who was wearing a black suit and a pair of immortal divine artifact handguards.

"All of you know that the hall Master of my strange life Hall has chosen one of you to become his personal disciple. You should also know all sorts of things about my strange life Hall, right?"

It seemed that this person knew Liu Xiu very well. He knew that the Chatterbox had already told them everything they needed to know.

Everyone agreed in unison. The middle-aged man nodded and looked at the servant next to him. The servant also understood tacitly and directly walked to the back of the hall.

Then, the middle-aged man explained the various rules of the extraordinary life Palace to Ye Chen and the others. Since he did not know how the great immortal would choose, nor who he would choose, he might as well tell everyone.

"By the way, I'm also one of the direct disciples of great immortal wondrous fate, as well as the Vice Palace Master of the wondrous fate Palace. You can just address me by my title. After all, I still don't know who my junior martial brother will be."

After the Vice Hall Master introduced the rules to everyone, he smiled and explained his position to them. It felt like the people of the strange life Hall were all quite casual and easy-going.

Then, he began to introduce the other people who had come to watch great immortal wondrous life select his disciples. They were all big shots like peak Masters and Hall Masters, and many elders had come as well.

The legendary great celestial with a mysterious fate had finally arrived. He was an old man with white hair but was still full of energy. His every move did not carry the aura of the celestial mirror but he could still give off the aura of a strong man. This old man had probably reached the Supreme realm above the celestial mirror. Although this was only Ye Chen's guess, what did Ye Chen's intuition tell him?

The old man greeted the others and slowly walked to the main seat. After he sat down, everyone bowed to the unfathomable Palace Master. This was also a small rule that the Deputy Palace Master had told everyone. The palace Master was the title the old man would use after he took the main seat in the main hall. Usually, he would be called the extraordinary immortal or the extraordinary great immortal.

The ten Hall Masters of the immortal God Palace sat in the main hall. There was a difference between them and the ordinary Immortals.

The old man first looked at the batch of immortal seedlings in front of him. When he saw ye chen, he even paused for a while, making Huo bubai break out in cold sweat.

He thought that if he became the disciple of the wondrous life immortal, even the old ancestors and seniors in the immortal God Palace would not be able to touch him. However, the old man did not stay for long after that, which made him feel relieved. However, the old man did not stay on them for even a second.

"There are a few good ones among you, but I don't think they're interesting."

No one understood what he meant by "boring person", but they felt that there was no hope. However, at that moment, the old man said something that no one understood.

"Let's all go to the trial Hall first, which one is more spacious. "

Although everyone was a little confused, they had a general idea of what this trial Hall was. They all felt that they were still going to fight to see who had the talent.

However, when they arrived at the trial Hall, everyone was confused again. There were several wooden dummies. Did they want us to hit them? What was this?

However, ye chen could see some clues. He was someone who had obtained the inheritance of immortal God-level puppets. Naturally, he could see that those wooden puppets were not well-made immortal God-level puppets.

However, it was nothing compared to the one he had. The thing in front of him was just a puppet, and it did not have the combat power of an immortal God.

To the people of the immortal God Palace, it was indeed just a wooden dummy. However, it was just enough for these people who had just come to the immortal God Palace. Of course, they had to exclude people like ye chen. Not just anyone could kill a third-level immortal God mirror cultivator at the intermediate Immortal King realm.

Although ye chen could tell that it was a puppet, he still had no idea how the man with a strange fate was going to choose. Forget it, he would just take it one step at a time. Moreover, the man himself had not arrived yet. He had only asked the Deputy to lead the group to this large but barren trial Hall.

The so-called Hall was actually just a piece of barren land. It could be seen that people often sparred here. But other than that, nothing else could be seen.

After that, more and more servants brought tens of thousands of wooden figures to the center. There were at least 30000 wooden figures. They couldn't be guessing that the wooden figure was hollow, right?

And then, immortal wondrous life finally reappeared.

"One of these wooden dummies was transformed by this old man's main body using a spell. The one standing here is only a clone, and the rule is to find the wooden dummy that this old man has

transformed into. Of course, you can't use destruction, dismantling, spells, or divine sense to find it. It will end in an hour, and each person can only choose one. After confirming that you can't change it, the one who is correct will be this old man's disciple."

This ...

Everyone was stunned by this random selection method, but no one dared to say anything. After all, the method used by the strange life immortal was also random, and it might even be more random than today.

They had no choice but to search among the 30000 wooden dummies. In fact, they were just randomly looking around in the woods, fiddling with the wooden dummies' hands and feet, picking them up and putting them down.

Because they couldn't use magic arts or treasures, and they couldn't destroy the wooden puppets, they could only be very careful. Some people even gave up and took a wooden puppet and went back to wait.

Ye chen had no choice, so he fought long Zhan and Mo Luo split up to find their own way.

The result

#### [Chapter 2468 The Result!](#)

After an hour, everyone had finished choosing their wooden puppets and waited anxiously for the results. To be honest, most of them had chosen randomly. If they didn't say that the test would end in an hour, they would have finished long ago.

"You've all chosen, don't regret it. "

Oddlife immortal said to the crowd.

No one had any way to verify if the wooden giant was actually a spell. They could only say that they would not regret it. What if they were lucky enough to succeed?

Ye chen was quite confident. After all, those wooden figures were actually puppets. Only he, who had obtained the immortal God puppet's inheritance, could tell.

This made things easier. Ye chen could just go and find the one that was not a puppet. Moreover, as ye chen had guessed, there was only one fake puppet. Therefore, ye chen took it directly. Several people thought that ye chen had also given up on looking for it and had to rely on luck.

"Then let's reveal the answer. Do it yourselves."

Just as everyone was wondering what was going on, some of the puppets suddenly began to move on their own. Then, they saw them remove the target marked with a red circle in front of their heads, revealing the puppet core inside.

"The golems that have the core definitely didn't get chosen."

After that, ye chen did not say anything. He looked straight at the puppet he had chosen. After the red target was removed, an old man's face was revealed. He smiled at him and loudly announced the

selection results. He had found a disciple. With that, a burst of immortal energy surrounded him and he returned to his human body.

She led ye chen up to the stands. Many people below were sighing in despair. They were afraid that they would be killed by someone of their generation for the rest of their lives. Now, he had become the direct disciple of the extremely senior great immortal, the wondrous fate. Even his seniority could crush them.

This was especially so for invincible fire and the others. Their faces were so ugly that they looked like they had just eaten lemons, but they couldn't say anything.

In order to leave a good impression in front of the elders and peak Masters, they even had to congratulate him. They felt even more uncomfortable in their hearts. How were they going to kill him in the future? with his talent and combat strength, if they gave him a chance to develop in peace, he would probably grow to a level that they didn't even dare to imagine.

"Let's think about it. Given the current situation, I'm afraid we can't do anything to him in the short term."

"I told you that I should have used all my cards to kill him in the secret realm. Great, I can't move at all."

The other two completely ignored him. Back then, he was the only one who agreed with them, but now he pushed the blame to them. However, since it was indeed the idea of ten thousand extreme technique and Jia Shen, they didn't say anything.

"Alright, I'll have to pick a few more later to find two disciples for my little grand-disciple so that he won't only be chatting with others all day long."

The old man with a strange fate sat in the main seat and drank the tea that ye chen had offered. He kowtowed and acknowledged ye chen as his master before he said this.

Chat? He should be talking about the guide, Liu Xiu, who was supposed to pick them up. However, he didn't seem to be in the trial Hall right now, so he could only choose a few people first and then take them to Liu Xiu. There was no hurry.

Just as everyone thought that he was going to do something strange again, he randomly picked a few people who were still waiting to listen to the rules.

That's right, he just randomly picked a few people. There was no selection test, no careful consideration, and he didn't even see if they were men or women, humans or demons.

They didn't know what kind of expressions they should have. They were happy, but this was too casual.

And among these few people, myriad extreme method, who happened to be chosen, looked at long Zhan beside him with a mixture of joy and pain.

Long Zhan also looked at him awkwardly. After a slight greeting, he fell silent again. Wanji fa then thought that if this was the case, ye chen would become his elder and might be ordered around.

But even so, he would not have the idea of backing out. In the previous free time, he had used the communication treasure left behind by the ancestor to communicate with the ancestor of the world of ten thousand laws.

It turned out that the great immortal's lineage didn't like to take in disciples. In the past hundreds of thousands of years, there had only been one generation of disciples. Most of the others had only come to the foot of the mountain to listen to the great immortal's speech. They couldn't even be considered as external disciples, and could only claim to be from the wondrous divine mountain.

Only people like long Zhan and ten thousand extremes man who had been selected could be considered to have truly entered the lineage of the extraordinary life immortal and were qualified to call themselves the lineage of the extraordinary life Palace.

He was also qualified to call him Grandmaster oddity. Of course, with ye Chen's current status, other than the disciples of the oddity immortal in the past, the Wanji fa and the others had to call ye chen grand-master.

Every ten years, great immortal wondrous life would give a lecture to his disciples and Grand-disciples, and those who had no talent and combat strength, or could only be servants, and those of the lowest level, would go to the foot of the mountain.

They couldn't listen to him anywhere else, and the gate of the wondrous life Palace wouldn't be closed when they came out, so the sound of his speech could be heard at the foot of the mountain. This was a chance for those who had always been at the bottom of the society.

However, there were so many people who had come to the immortal God Palace. Only about 20% to 30% of them were selected, and there might be more.

The rest of them could go to the palaces or the mountain to be servants. At least they would have some low-level resources to take.

If they did well, they might be rewarded with a disciple position, but it was almost impossible to find their own opportunities, and there was no chance to survive in desperate situations.

It was almost as if he had given up on his future choice, but the benefits were naturally more stable. After working for a long time, he could also get a position in the management, and there would be no lack of resources.

The other option was to give up on entering the various mountains and halls and enter a place called the cleansing yard. This place only provided a small room, which was only enough for them to rest. If they wanted to obtain more resources, they would have to go to dangerous places by themselves.

For example, the void beasts in the void could be captured, and their bodies were all good stuff. Their skin, bones, and blood could be refined into Dharma artifacts or supplementary materials for alchemy. There were even powerful void beasts whose scales, skin, and bones were immortal-level treasures. They didn't need to refine themselves and could be used directly. In short, the entire body of a void beast was a treasure.

However, it was the void after all. Why would they go in and grab the void? not to mention the danger, there was nothing good in the void. Although it was said that there was a great opportunity in the void,

no one had ever found it, so it was regarded as false news and no one took it seriously. Moreover, it was not easy to catch the void beast. It required the cooperation of several people.

This courtyard was a place where he could find teammates and imprison void beasts. Although void beasts didn't have intelligence, they knew how to fight back. Some of them could even kill a few sixth-level cultivators with their sixth-level cultivation. It was extremely dangerous.

In addition to the void beasts, they and all the people who belonged to the immortal God Palace had one main place to obtain resources and merits.

### [Chapter 2469 Ye Chen's Confusion!](#)

This place was where the battle with the various evil god forces took place. There were void passages of different sizes in front of the immortal God Palace.

However, none of them were the passages built by the immortal God Palace. In the middle of these passages, there was a singularity emitting the power of the evil god. This singularity would constantly have all kinds of evil god races or evil god minions, and even the evil god itself might appear.

The void passages were randomly opened, and no one knew if the diabolic energy was in them.

Thus, someone needed to check if the evil god origin was in the randomly appearing void passages, and there was a high chance that there would be a fight inside.

This became the main task of the various palaces and peaks. Because these people who had inherited their inheritances from the various peaks and palaces were originally immortal seedlings with top talent and combat strength, they were the main combat power against the evil god forces.

Those who were in the courtyard could also go to the area that was specially allocated for them to check on the source of the evil god and kill the evil god forces in exchange for merit points and resources. After all, it was impossible for the various palaces and peaks to guard the void passages in all places. Moreover, these void passages appeared randomly without any rules.

The third source was to explore the endless immortal God World, which was to leave the immortal God Palace and go to the unknown distance to find their own opportunities.

The fourth one was the various competitions held by the immortal God Palace, as well as the other competitions held by the various mountains and palaces. They were all used to test the strength of their own disciples.

Therefore, the unaffiliated cultivators in the courtyard could also take part in the challenge. If they won, they could even get some resources as a reward.

If it was a large-scale competition organized by the immortal God Palace, you could get all kinds of rare treasures, large amounts of immortal stones, or all kinds of immortal God weapons based on your performance.

In fact, if one's performance could stand out among the crowd, it was not impossible for them to join an immortal's sect. From then on, they would not have to worry about resources, and their cultivation base would soar all the way. Eventually, they would become Immortals, and it was not impossible for them to become the patriarch of a branch. This had all happened in the past, and it was the truth.

As a result, there were still countless people in the cleaned house yard. Basically, those who were not selected were all here. A few of them went to do odd jobs as servants, and a few of them went directly to unknown areas.

In such an environment, people like great immortal wondrous fate, who directly opened the mountain Gate and gave a speech, were also selfless people who made their contributions to the mountain and let all kinds of people at the foot of the mountain hear it.

This was also one of the reasons why he didn't choose his disciples according to their talent and combat strength despite his high status.

There were people at the foot of qishen mountain every day, begging him to take them in. They always talked about talent, which made him irritated. Even if he chased them away, there would be more people coming in a few days. After that, he would continue to take in disciples. After that, he would directly announce that only those who were selected according to his method could enter. No one else would be accepted.

Moreover, they would only choose when the immortal God Palace opened its doors to accept people. This made the people who knelt down at the foot of the mountain give up completely.

It had been hundreds of thousands of years since then, and it was not until now that he was finally ready to take in another disciple. This was also the reason why the palace Master of the immortal God Palace had to call an elder to come and watch the whole process, because no one knew why the extraordinary life immortal suddenly wanted to take in a disciple.

"Then, senior brother, have any of those who went to the outer realms returned?"

When ye chen finally finished listening to the whole story of this disciple recruitment, he asked his senior brother, the Deputy Hall Master, Yao Chen. There was no other way. After where was the extraordinary life immortal, he seemed to have gone to the palace Master of the celestial Palace for some matter. Therefore, before he taught ye chen anything, he threw ye chen to Yao Chen, gave ye chen a cultivation technique, and disappeared with a puff of celestial energy.

Right now, ye chen was listening to Yao Chen tell him some interesting stories about the immortal God Palace. As for the cultivation method, he would wait until the wondrous immortal returned.

This was because it only took him a few hours to get a general idea of this cultivation method. After ye chen looked at it, he felt that it was not suitable for him. Yao Chen and ye chen had a spar. While he was amazed by ye Chen's innate combat power, he also understood why this cultivation method was not suitable for ye chen.

This cultivation method was similar to ye Chen's previous cultivation method but it could not take into account the speed aspect. Ye Chen's original cultivation method was faster than it. Everything else was similar. The original cultivation method was faster. To put it nicely, it was not suitable or not as good as mine at all. To put it bluntly, it was too low-level and not worthy of me.

This made ye chen and Yao Chen a little embarrassed. This master was not reliable. Therefore, they found a Pavilion to sit down and chat about all kinds of interesting things while waiting for the return of the master who looked like a celestial but was actually a little unreliable.

"They've never returned. In any case, I've never seen anyone return from the outer realms. I've seen those fished out from the Galaxy of the void who haven't died. So don't think about going to the outer realms in the future."

Ye Chen nodded but he was still a little interested in the outer realm. Another thing was the evil God's forces. The one who had ambushed them under the void passage between the lower realm and the immortal God Palace was the evil God's minion. It was not even the evil god Himself.

He was already able to escape from the combined forces of four examiners. It could be seen that the true evil god race was definitely not as weak as the three-eyed tribes in the assessment Mystic realm.

"Yes, I understand. But senior brother, I want to ask a few more questions."

"It's good that you know. Just ask whatever you want to ask. We're all fellow disciples, so there's no need to be so polite. Just ask."

Yao Chen no longer had the air of a Deputy Hall Master. With his honest face, he did look like the Big Brother of the neighbor's house.

Seeing this, Ye Chen did not hesitate to voice his confusion.

The first was that this master was of the same generation as the current Palace Master of the immortal Palace, and the fact that he couldn't come to the immortal Palace to take her as a disciple.

He even sent someone to check on the situation. After accepting a disciple, the great immortal with a mysterious life immediately ran to The Purple Cloud Palace of the palace Master. They must be brothers who had a very good relationship.

"Of course! Master tells us every day about how he used to fight the evil god with the palace Master. I'm getting calluses from hearing it. "

"I see. But why are we in the lower level of the immortal God Palace? isn't the immortal Qi weaker the closer we are to the Galaxy?"

Previously, Ye Chen had heard Yao Chen talk about the dangers of the void galaxy. He had heard that all immortal Qi and demonic Qi would be devoured by the void. Therefore, the deeper one went into the void, the thinner the immortal Qi would be. It was difficult to find immortal stones, immortal herbs, and immortal medicines.

And those immortal herbs and medicines on this wondrous divine mountain were all transplanted from other places at a great cost. This was not right. Since he had such a good relationship with the palace Master, why was he assigned to such a barren place? there must be some hidden reason.

Yao Chen looked at Ye Chen and covered his mouth as he laughed secretly. This made Ye Chen even more confused. 'Am I wrong?

"Junior Brother, have you ever wondered why the void is constantly wearing down and devouring everything, but this world is not affected at all? Why is it that everyone is still cultivating and fighting the evil gods? why is everyone not worried at all?"

[Chapter 2470 The Fallen's Legacy!](#)

"I really don't know. Please enlighten me, senior brother."

Of course, ye chen did not know why. He had just arrived in the immortal God Realm.

Thus, he naturally obediently asked this kind senior brother to give him some guidance.

"Then listen to your senior brother's explanation."

"This Galaxy in the void has existed for who knows how many years. It's been wearing down and devouring everything, even space itself!

However, it will also continue to give birth to everything endlessly. Devouring space will give birth to a new space, so countless things will also be born in the void. Do you understand what I mean?"

Ye chen was stunned for a moment before he immediately understood.

"In other words, there will also be countless treasures born in the void and floating up to the immortal God World from the void galaxy?"

Yao Chen saw that this new junior understood the situation quite quickly, so he smiled and continued.

"That's right, and these newly born treasures all have a fixed point. We usually call it a phenomenon called the birth of a treasure, and when it's devoured by the void, it's called the ultimate."

"Below the immortal God Palace is the place where the Phoenix is born."

Yao Chen saw that ye chen still did not understand why their territory was the wondrous God mountain at the bottom, so he did not pretend to be mysterious and explained it to ye chen.

"As for master, it was precisely because he was on extremely good terms with the palace Master that he was given this wondrous divine mountain. That's because all of the new treasures born in the void are ownerless.

Our wondrous divine mountain has the right to choose first. "

Ye chen now fully understood why it was said that only those with connections could get close to the mountain Gate in the void. Before ye chen could say anything else, Yao Chen had already interrupted.

"Are you thinking that even so, because you are too close to the void, the spirituality of the treasure will be indirectly damaged, and the loss outweighs the gain?"

Ye chen had already guessed the reason but he still let Yao Chen explain the situation.

"Actually, there are two reasons. The first is that the palace on the wondrous God mountain is a huge treasure, and it has a barrier that can resist the erosion of the void.

You'll find out about this in the future. First of all, this barrier is already enough to ensure that the treasures we obtain won't lose too much of their spiritual nature. "

"I see. However, there should be a limit to the number of treasures we can choose first. It's impossible for us to take all the benefits."

Yao Chen was happy that ye chen could understand this, so he explained the problem to ye chen first.

"Yes, the priority of choosing the treasures will go up one by one. Although we can choose first at the bottom, we can only choose two treasures. For every floor we go up, we can choose two more treasures, but the quality might not be very high."

Ye Chen fully understood this rule. In other words, although there were not many treasures in Wondrous God Mountain, they were all high-quality and more precious treasures. On the other hand, although there were many treasures in the upper levels, they were all lower quality treasures that were easy to obtain.

This should be a rule set to balance the interests of the upper and lower levels. This way, everyone wouldn't have to run to the lowest level to fight for it.

If the higher-ups wanted high-quality rare treasures from the lower-levels, they could also exchange them with a large number of low-quality treasures. If the lower-level disciples wanted a large number of low-quality treasures, they could also exchange high-quality treasures for the resources of the higher-ups.

However, the secondary power of choice was still something that most people would be envious of. This was one of the powers of the ten Palace Masters.

Then, when Yao Chen saw that Ye Chen had also understood, he began to talk about the second reason.

"The second reason is that this void birth can give birth to anything, including immortal mountains and divine halls like this one."

Ye Chen suddenly understood what Yao Chen was trying to say.

"So you're saying that great immortal Wondrous Fate's lineage has more than one territory?"

Yao Chen laughed.

"Of course, the ten Palace Masters only have one territory. How can we face one of the major powers in the Immortal God Realm?"

"We have more than a hundred immortal stone veins under our name, and they are all Supreme-grade veins. As for the high, middle, and low-grade immortal stone veins, we have more than ten thousand in total. This does not include the various immortal herb gardens, spirit beast islands, various branch halls, and treasure vaults."

"It's just that most of them don't have any treasures that can resist the erosion of the void, so they're a little far from us. I'll take you there when we have time. "

Ye Chen was stunned. He had thought that they had spent a lot of money to buy all kinds of immortal herbs. It turned out that they were all from his own business.

It could even be changed every day. No wonder it was called the ten great halls. Other than the ten great halls, only the palace master was richer than the ten great halls.

As expected of the Immortal God Palace, this was normal.

Just as ye chen was still lamenting, the jade pendant that his new master had just passed to him suddenly reacted. Then, the voice of the extraordinary life immortal rang in his and Yao Chen's minds.

"My disciple, the palace Master and I have just discussed this. We will hold the entrance Trial Competition in a month's time. All the disciples who have just been accepted as Palace Masters must participate."

"Then, you can ask your big senior brother to take you to the treasure vault to choose a few immortal divine artifacts for you to keep. After that, he will take you to your residence to have a look."

Ye chen expressed his gratitude to his master joyfully. He had learned that several of his senior brothers and sisters lived on immortal islands with abundant immortal Qi and could also obtain a few good treasures for protection.

It should be known that ye chen did not have any good immortal celestial artifact to use. For example, the armguard he was wearing now was seized from an assassin of unknown origin.

The sword he used was only a treasure left behind by the mirror in the lower realm. It was a treasure in the lower realm, but in the immortal God World, it was only of a standard that was barely enough.

Now, they could exchange for something good. Ye chen was happy, but so was miracle immortal. This disciple of his seemed to be an interesting person.

An intermediate Immortal King was the most powerful among that group. Of course, he would not ask why. After all, it was ye Chen's fate.

Yao Chen had also heard the voice of the extraordinary life immortal. He stood up and led ye chen to the Treasury where the celestial artifacts were stored. The group of celestial-level treasures dazzled him.

If this item was in the lower realm, it would be a treasure that would be fought over. Now, ye chen could choose at will.

The first thing he needed to exchange for was naturally to find a good sword. Ye chen searched among the many celestial swords based on his intuition and finally found a sword that suited him.

It was a greenish-black sword with golden patterns on the body that looked like auspicious clouds. The blade was silver-white and the hilt seemed to be made of wood but it felt like black iron and fine steel. Ye chen played with it and felt that it was smooth and easy to use.

"This is it!"
