

Genius 2471

[Chapter 2471 2476-Meeting My Benefactor By Chance!](#)

When Yao Chen saw that ye chen had chosen his sword, he introduced it to ye chen. This sword was called tai. It was forged by an immortal God mirror swordsman. It was not a natural treasure born in the ruins but its quality was not bad. It was suitable for ye chen, who had not reached the immortal God mirror yet.

After that, they picked a few more defensive treasures. The two of them walked and stopped while Yao Chen patiently introduced the various treasures to ye chen.

In the end, ye chen also chose a bracelet and a belt-shaped treasure. The bracelet's effect was to resist void erosion and various negative effects.

For example, the influence of miasma, poisonous gas, or mental-type spells. The belt was equivalent to a small portable energy-gathering formation. It allowed ye chen to use the celestial energy to nourish his body even if he was not on the celestial mountain. It could make up for his current lack of physical cultivation and improve his physical strength at any time and place.

Ye chen, who had finally chosen his treasures, followed Yao Chen to his own small celestial mountain. Although the rich magical mountain was not too close, it was not too far away. There was an entire high-rank celestial stone mine on the mountain that ye chen could use as he wished.

After that, he made an appointment with Yao Chen to visit the other properties of the extraordinary life immortal's branch. Then, they parted ways. After all, Yao Chen was also a Deputy Hall Master and he had things to do.

Before Yao Chen left, he also gave ye chen a few bottles of medicinal pills that were considered low-level to him. However, to the current ye chen, they were still very helpful. After all, ye Chen's current cultivation level was too low.

He was still in the intermediate Immortal King stage. Although he had already killed a third-level immortal God mirror powerhouse with this cultivation base, that was because the opponent was too weak and not how strong ye chen was. Of course, in the same realm, ye chen was still stronger.

"I have to think of a way to quickly increase my cultivation level. There's still a great competition in a month's time. I have to test out what kind of combat power the people from other worlds have."

"But let's go and take a look at long Zhan first. At any rate, they're people who cleared the mystic realm together."

Mo Luo and ye chen were not worried. He had not been chosen by the wondrous fate immortal. However, he had been chosen from the third level of honesty peak and had become a disciple there.

Earlier, he had confirmed his identity through ye Chen's Secret technique's slave imprint. No one could tell that he was a slave. This made ye chen think more highly of this secret technique.

After all, he didn't think that he was the only one who knew this secret skill. At least, there were two immortal God Mirror Masters who had created this secret skill, including him. He didn't want to become someone else's slave, and a willing one at that.

"Looks like I'll have to find out who created this secret art and how to take precautions. I'll also have to find out who the original owner of the puppet inheritance was."

Ye Chen was still somewhat interested in the puppet. After all, he had seen that tall young puppet. Even if Ye Chen used it now, it would be a good shield. It had the defense of a third-tier immortal God mirror and the attack power of a second-tier immortal God mirror. The Dao of puppets was not weak at all.

As Ye Chen was thinking about this, he had already returned to the wondrous God mountain. After searching for a long time, he finally found Long Zhan. However, he was not so happy now.

This was because he had been assigned to the same mountain as Wan Ji Fa. After all, they were the disciples of Ye Chen's grand-disciple, Liu Xiu. Their seniority was not high enough and they did not have any merits to speak of. Naturally, it was impossible for each person to have one mountain and an entire high-level mineral vein to use.

Long Zhan had been assigned by Liu Xiu to live on a small hill with the ten thousand extreme method and a young man from the golden light world. Therefore, Long Zhan's expression was not good.

He also knew that Ye Chen had a grudge with the world of ten thousand laws and he was Ye Chen's brother. However, Liu Xiu did not care about this. In any case, they were all his disciples. It was up to him, the master, to make the arrangements. He had no choice but to go to the mountain with the ten thousand extreme method and Ye Chen came looking for him.

However, that ten thousand extreme method did not look down on Long Zhan just because his cultivation was high. They were already Masters, and he did not want to make things too awkward, so his attitude was still considered kind.

Ye Chen felt that there was no need to worry. After all, according to seniority, he was their Grandmaster. Long Zhan was also Ye Chen's friend. The ten thousand extreme method would not be stupid enough to offend him. That would be equivalent to betraying his master and destroying his ancestor.

"Now that I think about it, I'm also your grand-disciple, right?"

Long Zhan felt that Ye Chen had gained a huge advantage.

"It's fine. No one's looking at us now. We're still friends in private. It's none of our business."

"That's right, did your master tell you that there will be a competition in a month's time? All the new disciples of the palace Master level will have to participate. Did he tell you what the reward for the competition is?"

To Ye Chen, Long Zhan was still a friend. There was no change. Now, he was more interested in the rewards of this tournament. He had forgotten to ask his eldest senior brother before.

"I've heard of it, but the rewards are different every year. It could be a spirit pill or a martial arts weapon. It seems that it hasn't been decided yet."

"Then I'll find an opportunity to ask my master directly. They should be discussing the details with the palace Master. Also, this is the wondrous rock peak I'm at."

Ye chen gave long Zhan the coordinates of the mountain with the high-level mineral vein. After confirming that the ten thousand ultimate technique was not in the mood to target long Zhan, he left first. What ye chen needed the most now was to improve his realm as soon as possible. With this in mind, he returned to his wondrous rock peak.

Ye chen checked the total number of celestial stones in his storage ring. There were 610 billion celestial stones. It was enough for an ordinary person to forcefully pull their cultivation base to the second stage of the pinnacle of the immortal King realm. To ye chen, it was far from enough. Fortunately, he still had an entire mine and he already needed the medicinal pill that eldest senior brother Yao Chen had given him before he left, the celestial Spirit pill. This medicinal pill could also reduce ye Chen's need for celestial stones.

Therefore, ye chen was prepared to at least raise his cultivation base to the peak of the immortal King realm. His peak Immortal King realm should be enough for him to fight against a fourth-tier immortal God mirror.

After all, the fourth-level mirror in the immortal God Palace was different from the mirror in the secret realm. The three-eyed race in the secret realm had their potential sucked dry, so their combat strength was low. However, those in the immortal God Palace were not the Supreme talents of their own worlds, so their talent and combat strength were much weaker.

"Anyway, let's try it first."

Ye chen ate the celestial Spirit pill and took out all 610 billion celestial stones. He even sat directly next to the mine, afraid that he would not have enough celestial stones. Then, he first activated the defensive formation of wondrous rock peak before going into seclusion to prepare for his breakthrough. However, just as he was about to start, the jade pendant glowed and the voice of the extraordinary life immortal entered his mind, telling him about the reward for the competition.

"My disciple, the rewards for the competition have been announced. The winner will be rewarded with a hundred realms fruit, a battle suit made from a ninth-tier immortal God mirror void beast skin, and a king grass pattern pill. There are three treasures in total. You don't have to fight for them. It's just the reward for the entrance competition, and there will be better ones in the future."

"Master, I still want to try my best in this competition. First, I want to see how far I can reach with my own abilities. Second, I want to see what kind of abilities the heaven's pride experts from all the worlds have."

Ye chen was speaking from the bottom of his heart. Of course, it was also because the hundred world fruit and the king grass pattern pill had helped him. However, after this breakthrough, he wanted to test his combat power.

[Chapter 2472 Breaking Through To The Peak Of The Immortal King Realm!](#)

"Alright, since you want to broaden your horizons in the tournament, I will naturally not stop you. Just follow your heart."

Ye chen already had an idea. After breaking through, if he had the time, he would go to the cultivation method Pavilion and find a cultivation method to increase his physical strength. It would be best if he could cultivate speed as well as his own movement technique.

They were all speed-type weapons, and they would definitely increase his combat power by a large margin. After all, he had already used the divine sword's three slashes in terms of attack. Although he didn't have any good methods for defense, he could still go to the treasure house and pick a higher grade defensive treasure if he had enough merit points in the future.

In terms of cultivation techniques, he could directly find some cultivation techniques that could directly improve his combat power. He already had the advantage of fast movement techniques, so he wanted to develop them at a faster speed and strengthen his offensive ability.

"Yes, I forgot to tell you. We have a warehouse full of chaos pills and chaos fruits. If you want to use them, you can go to your eldest senior brother directly."

Just when ye chen thought that the conversation had ended, he suddenly heard the words 'rich man'. Once again, ye chen had a more intuitive understanding of the sect's wealth.

It was finally time to start. Ye chen tidied up his mind and began to control the activation of the wondrous rock Peak's defensive formation again to prevent any accidents during the breakthrough. He could finally start to break through in peace.

"One hundred realm fruit, one king grass pattern pill, and a battle suit made from a ninth-tier immortal God mirror void beast skin."

Long Zhan listened to these rewards. Although he thought that he was already considered knowledgeable in the lower realm, he had only heard of these things in various legends and had never seen them before.

Now that these legends had been regarded as the prize of this competition, he clearly realized that all the legends he had heard before were coming true one by one in front of his eyes. He, who was only a rogue cultivator, already had a big backer. He was also deeply moved.

"These rewards should all be in brother ye's bag, right?"

However, he didn't know what legendary items he could get.

How far can I go in a month? brother ye's combat power should be able to suppress a fourth-stage immortal God mirror, right? I have to cultivate quickly too.

Huo bubai and the others had finally met their old ancestors. However, when they found out that the people they wanted to kill had already entered the sect of the great immortal and were his direct disciples, they immediately gave up on helping to kill ye chen. The ten great Hall Masters were not people they could afford to offend.

In the lower realm, the fire heaven realm was a large realm but in the immortal God Palace, it was just a small world. They could not afford to provoke the current ye chen. Even Huo bubai and the others were scolded by the fire heaven realm patriarch for provoking ye chen.

For the next few days, Huo bubai's face was dark and extremely sullen. Moreover, there was still a big competition later. If ye chen won, he would receive a reward that would increase his combat power even more. Ye chen was a ruthless mid-stage Immortal King who could defy the heavens and kill a third level immortal God mirror. This made Huo bubai even more depressed, but there was nothing he could do.

Ten days passed just like that as the newcomers were busy with their own things. Ye chen successfully broke through and came out of his closed-door cultivation.

Feeling the power of a stage three peak Immortal King, ye chen was extremely excited. For one, it was a pleasant surprise to break through to the third stage directly.

This was because ye chen had a detailed understanding of the immortal God's domain. In addition, ye chen was already extremely talented. After all, he was the last one to survive the immortal Ascension stairs. Secondly, the great array of wondrous rock peak gave ye chen a surprise. This great array not only had spirit gathering and defense, but it also had the effect of increasing the comprehension of those in seclusion.

This allowed ye chen to directly comprehend the true essence of the immortal God domain. Thus, he advanced to the third stage of peak Immortal King without any pressure.

Not only that, but even the immortal stones were not consumed to the point where they needed to use the mineral veins. This should also be the effect of the belt he chose. But no matter what, there were still 20 billion immortal stones left, which should be enough for a while.

"I wonder how strong I am now. I really hope that the competition will start soon."

Ye chen really hoped that the competition would start soon. He felt that he could easily suppress even a sixth-level immortal divine mirror heaven's favorite. However, he still had to try to find out.

Just as ye chen was immersed in the joy of his breakthrough, his jade pendant glowed. Ye chen knew that his master had something to say, so he immediately put away his thoughts and listened quietly.

"Disciple, you should have finished your breakthrough, right? your eldest senior brother found a celestial mountain floating over from the outer domain at the border of the immortal God Palace. You should go and take a look with him. Come directly to the front hall."

"Yes, your disciple will be there soon."

Ye chen had thought about telling his master about his breakthrough but he could not hide it from his master.

It was just a small island that had floated over from the outer region, yet the eldest senior brother, the Deputy Hall Master, had to go there personally?

As he thought about this, he had already arrived at the front hall to meet with eldest senior brother Yao Chen. He finally saw second senior brother. He was a handsome young man who didn't talk much. He was the complete opposite of eldest senior brother, but both of them could see through cultivation.

"We're just going to take a look at the island today. We're not going to do any big exploration. "

"Little Junior Brother, didn't you ask me not long ago if the people who went to the outer region have returned?"

Ye Chen did not understand why she was saying this at this time.

"Floating over to that Island is one of the reasons why they want to go to the outer realm. They think that if there are floating islands in the outer realm, there must be more islands in the outer realm and there must be a spawn point. That's why they want to go out, but no one came back, not even a corpse."

"That's why I don't recommend you to explore in this direction."

So it's because of him. He's indeed a little interested, but he's worried that I'll go in by myself if I go too deep.

"Don't worry, eldest senior brother. I won't go in. I'm just a little curious."

Yao Chen acknowledged and did not say anything else. He brought Ye Chen and second brother Cao Xiuming to the floating island and found that this floating island was not much different from the ones around the Immortal God Palace. Perhaps there really was a birth point in the outer realms. After all, they knew nothing about the outer realms.

"This should be a spirit beast Island, but we can't be sure what it is. We still need to observe more."

The second brother observed the surroundings and said. Then, the few of them continued to fly deeper into the island and finally found the first spirit beast. It was a creature that looked like an ape.

However, their fur was snow-white, and even their eyes were completely white. There was no other color on their bodies at all. Eldest senior brother did not know what it was either, so he could only look at second senior brother Cao Xiuming like Ye Chen.

[Chapter 2473 The White Ape Clan!](#)

"Roar! Human, get out of our territory!"

One of the White ape-like creatures let out a loud roar, and the aura on its body suddenly erupted. It was clearly at the second level of the Immortal God Realm.

The pressure that belonged to the second level of the Immortal God Realm pressed down. If they were not in the Immortal God Realm, the space would have been shattered.

Of course, in the stable space of the Immortal God Realm, this bit of pressure was nothing.

Even a sixth or seventh-stage Immortal God Realm expert would not be able to shake the space of the Immortal God Realm.

Unless they were true gods.

A random spirit beast had the cultivation of the second-tier Immortal God Realm?

Ye Chen's heart stirred.

A second-level immortal God was an ancestor-level existence in the lower realm. He was almost invincible and could shake a large realm with a full-force attack.

On this small island, any random spirit beast was at the second stage of the immortal God Realm. This was simply too shocking.

The immortal God Realm was not that easy to advance. The further one advanced, the more difficult it was to advance each minor realm.

Even in the immortal God World, many living beings would have to spend several years just to break through to the next minor realm.

"This kind of ape-like creature is called the White ape. It's a kind of immortal beast that can usually reach the first or even the second stage of the immortal God Realm after reaching adulthood."

Cao xiuming explained to ye chen and the others about the origin of this ape-type creature.

As for the White ape's roar and threat, no one took it to heart.

"Human, I told you to get out!"

The White ape roared in anger. Its body was like a gust of wind, madly sweeping toward ye chen and punching him.

BOOM!

Ye chen did not hesitate and also threw a punch.

Force against force!

With a crack, the White ape flew out at a speed faster than when it came. It screamed in pain as the bones in its hand were completely shattered.

"How is that possible?"

The White ape let out a roar of disbelief.

It was at the second level of the immortal God stage. As it sensed the unfathomable aura of Cao xiuming and the others, it chose to attack ye chen.

In its opinion, ye chen was just a mere third stage peak Immortal King human. He could kill it with a casual punch.

However, the truth was the opposite.

Not only was ye chen not killed by a single punch, but he had also sent it flying with one punch.

"Good human race, are you going to invade our territory?"

"You're really looking for death!"

"You don't know what's good for you!"

Whoosh, whoosh, whoosh, whoosh, whoosh, Whoosh!

White figures flew out at an extremely fast speed. Each of them had a cultivation base no lower than the second level of the immortal God Realm. Most of them were at the third or fourth level.

At the same time, a huge white ape walked over step by step. Its two arms pounded the ground, and the aura on its body was particularly terrifying. It was a sixth-level immortal God.

Sixth-level immortal God Realm.

Even Cao xiuming was a little surprised to see the White ape. A sixth-level immortal God spirit beast had actually appeared here. One must know that the strength of a sixth-level immortal God was not considered weak in the immortal God Realm.

A sixth-level immortal God could be considered an inner sect disciple in the immortal God Palace.

"Humans, don't think that you can bully our white ape clan just because your cultivation is high!"

One by one, the White apes clamored. With the appearance of the huge white ape to support them, their courage swelled.

"The cultivation of these spirit beasts is not bad. It seems that there must be a secret on this Island."

Ye chen said in a low voice.

A fourth-level immortal God Realm spirit beast was still acceptable, but most of these spirit beasts were obviously at the fourth-level immortal God Realm. If they were in the lower realm, they would be terrifying.

Any fourth-level immortal God Realm spirit beast could probably kill all the experts in the myriad world.

"That's right, we've discovered a secret, that's why we brought you here. "

Cao xiuming nodded slightly.

Generally speaking, it was not easy to cultivate a fourth-level immortal God Realm spirit beast.

Furthermore, the vast majority of these white apes were at the fourth-stage immortal God Realm, which was somewhat unreasonable.

This Island definitely had a secret.

"Hmph, human, do you dare to come and fight me?"

One of the fourth-level immortal God white apes sneered.

Then, he turned into a man in white and stepped forward. The pressure of a fourth-level immortal God bloomed out. It was extremely terrifying.

"Although that human's cultivation base is only at the peak of the immortal King realm, he's quite capable to be able to defeat a second-stage immortal God with one punch. Bai Bai, don't let us down!"

The White apes clamored.

Naturally, they were talking about his previous record of being defeated by ye chen with a single punch.

They did not dare to underestimate ye chen and immediately sent out a fourth-level immortal God white ape.

They were quite confident in sending albinism out.

"Don't worry, I can kill this human with just a finger!"

The fourth-level immortal God Realm white fox sneered.

With his fourth-level immortal God Realm cultivation base, wouldn't he be able to kill a peak Immortal King in seconds?

So what if he could defeat a second-stage immortal God?

The difference between the second and fourth stage wasn't something that the immortal King stage could compare with.

"Are you sure you want to fight me?"

Ye chen looked at the White ape in front of him with great interest and said indifferently.

These spirit beasts were very powerful. They were born with great strength and speed. Although their control of the immortal God domain was not as good as that of humans, they had the advantage in strength and speed.

In a battle of the same realm, most humans were not their match.

Although the White ape in front of him was at the fourth-level of the immortal God Realm, it was strong enough to fight against a fifth-level immortal God human.

"What? you're just a puny peak Immortal King. Do you really think you can fight me?"

The albinism frowned and a terrifying light flashed in its eyes.

He felt that he was being underestimated.

He was extremely unhappy.

Bai Hua was very displeased. Logically speaking, a human at the pinnacle of the immortal King realm could only submit to him. He could easily defeat a fourth-level immortal God Realm human, let alone a pinnacle Immortal King.

Moreover, ye chen was a peak Immortal King.

However, ye Chen's performance was so casual that it was as if he could defeat albinism.

If Cao xiuming and eldest senior brother were not there, and Bai Hua was afraid of them, he would have attacked and torn ye chen to pieces.

"Very good. Then, make your move. Three moves."

Ye chen said indifferently.

What?

Everyone was stunned.

"Three moves to defeat you? haha, I don't need three moves to deal with you. One move is enough!"

,m Albinos laughed.

"No, what I said was, I'll defeat you in three moves."

Ye chen said.

Silence.

The space became silent.

The air froze.

"Hahahaha, what is this human saying?"

"Three moves to defeat albinism?"

"Not to mention a peak Immortal King, even a sixth-level immortal God of the human race wouldn't dare to make such a big statement!"

"He's too arrogant!"

All the White apes burst into laughter. They laughed so hard that they almost had cramps in their muscles.

It was truly laughable.

Ye chen had said he would defeat Bai Hua in three moves.

This was simply too laughable.

[Chapter 2474 Defeated In Three Moves!](#)

A peak-stage Immortal King actually said that he would defeat Bai Hua.

Moreover, he was defeated in three moves.

The gap between the peak of the immortal King realm and the fourth level of the immortal God Realm was huge. The gap was several small realms, and the gap was unbelievably huge.

One had to know that a difference of one minor realm could form a crushing suppression, let alone so many minor realms.

The difference between them was absolutely huge.

It could be said that a casual strike from a fourth-level immortal God expert could kill countless peak immortal kings.

It was like the difference between an elephant and an ant.

The difference was simply too ridiculous.

In their opinion, ye chen was already considered a prodigy among the human race for being able to defeat a second-level immortal God. It was very impressive.

But to defeat albinism?

And he was defeated in three moves?

What a joke!

Not only was ye chen not afraid of albinism, but he was also arrogant enough to say that he would defeat albinism in three moves?

What a joke!

This was too laughable!

"Hahaha, you want to defeat me in three moves? Interesting, this is really interesting!"

Bai Hua laughed out loud. Then, his eyes turned extremely cold. Being treated so arrogantly by a peak Immortal King, Bai Hua's desire to kill ye chen had reached an extreme.

He was clearly looking down on him, a fourth-level immortal God expert.

"Make your move."

Ye chen said indifferently.

Since he said he would defeat albinism in three moves, he would do it in three moves.

If he said three moves, then there wouldn't be any more.

"Arrogant! You're really arrogant and ignorant!"

"Since he wants to die, I'll fulfill his wish. Albinism, kill him!"

"Albinism, kill him!"

The White apes roared.

Albinism was humiliated, and so were their faces.

He had to kill ye chen to get rid of this humiliation.

"Kid, I'll let you know what power is!"

Bai Hua roared. One of his arms suddenly expanded as if it had turned into a pillar and lashed out at ye chen.

This whip immediately revealed the tyrannical power of a fourth-level immortal God.

The fourth-level immortal God Realm was not something that the third or second-level immortal God Realm could compare to. In terms of strength alone, the difference was more than double.

An ordinary fourth-level immortal God could instantly kill a third-level immortal God, and a second-level immortal God could be killed with a single slap.

This was the difference.

Facing such a ferocious attack, ye chen was dead for sure.

All the White apes thought so.

At this moment, ye chen also threw a punch.

There wasn't any fancy movement, just a punch.

BOOM!

A fist print shot out like a cannonball and heavily collided with the White arm.

Bang! Bang!

The White figure took a step back. Ye chen also took a step back.

They were evenly matched!

"What?"

This time, it was everyone's turn to be shocked.

How was that possible?

Could ye chen, a person at the peak of the immortal King stage, block Bai Hua's attack?

Under normal circumstances, a peak Immortal King should be no different from an ant in front of a fourth-stage immortal God.

Even if ye chen was a genius, he could not escape the fate of being killed in seconds.

However, ye chen had managed to withstand Bai Hua's attack.

This was enough to shock everyone.

"I didn't expect you to have some ability. No wonder you're so arrogant."

After Bai Hua took a step back, his expression turned extremely ugly. With his fourth-level immortal God cultivation base, he could not even finish off ye chen with one blow. He had lost face.

A fourth-level immortal God was much, much stronger than a peak Immortal King.

From Bai Hua's point of view, he could kill a hundred ye Chens with a single slap.

Moreover, could ye chen withstand his attack? This was something he had never expected.

Could ye chen be a peerless prodigy of the human race?

However, no matter how peerless a genius he was, he had never heard of anyone who could block a fourth-stage immortal God with a peak Immortal King cultivation base.

The difference between them was too great. It wasn't something a heaven's favorite could compare to.

If albinism had not seen it clearly, he would have suspected that ye chen had used some secret treasure to help.

,m "Make your move. That was the first move. I said I would defeat you in three moves, so I will do it."

Ye chen stood with his hands behind his back and said indifferently.

"Good, good, very good, you're really arrogant! Human, I will make you die a very, very miserable death today!"

The albinos growled with a cold expression.

Ye chen, a person at the peak of the immortal King stage, had blocked an attack. If this news spread, it would be a joke.

If he did not kill ye chen today, he would not have the face to continue living in the future.

"White ape secret technique!"

"Die!" The White beast roared as a powerful aura erupted from its body. It seemed to form a white pillar of light that shot into the sky.

Such an aura was enough to destroy a small world like the fire sky World or the light world.

The albinism's entire body swelled up. His height continued to grow, and his muscles bulged, turning him into a huge white ape.

This was the White ape secret technique, a special secret technique of the White ape clan.

When this secret technique was used, it could greatly increase one's strength for a short period of time.

Furthermore, there were no side effects. It was extremely shocking.

"Go to hell!"

"Die!" Bai Hua roared and slapped ye chen.

BOOM!

This slap was like a mountain falling from the sky, aiming at ye Chen's position. If it had been an ordinary peak Immortal King, he would have been crushed into powder before the slap even reached him.

Such strength and speed definitely belonged to the fifth-level immortal God Realm.

Moreover, it was considered powerful even among fifth-level Immortals and gods.

His albinism's combat strength was already comparable to a fifth-stage immortal God of the human race. Now that he had used the White ape secret technique, his strength had soared, and his strength could be considered tyrannical even among fifth-stage immortal gods.

Even a fifth-level immortal God human would not be able to withstand such power and speed.

Let alone a peak-stage Immortal King.

"He's dead. "

"He's finished this time. "

"Who asked him to be so arrogant? how dare he claim that he can defeat albinism in three moves?"

"Sigh, to be able to defeat a second-level immortal God, he can be considered a genius of his generation. In the end, he was too arrogant and died just like that. What a pity."

Everyone said one after another.

However, they saw that Cao xiuming and eldest senior brother had been calm the entire time.

It was as if he knew how terrifying ye Chen's true combat power was.

"The second move!"

At this moment, ye chen moved.

Rip!

A black sword Qi, extremely huge, swept across the sky.

"Ah!"

A shrill cry was heard as albinism immediately retracted his hand. His palm had almost been cut off by the sword.

However, this was only the beginning.

Whoosh, whoosh, whoosh, Whoosh!

Countless streaks of black sword Qi stopped instantly like a spider web. In the next moment, they appeared in front of Bai Hua.

This was the third move.

"Not good, block it, block it!"

Bai Hua's expression changed drastically. With a loud roar, he punched out violently. The sound waves were ear-piercing, and each punch could kill a fourth-level immortal God.

However, his fist was like trash in front of the black sword Qi.

In just one exchange, Bai Sheng's body shook violently and he was directly blown away. He flew tens of thousands of feet away and disappeared.

Silence.

The space was silent.

All the White apes opened their mouths wide and were dumbfounded.

[Chapter 2475 Defeating Bai Xuan!](#)

What was happening?

The White apes were dumbfounded.

They thought they were seeing things.

How could a human at the peak stage of the immortal King realm defeat Bai Hua in three moves?

Albinism was a fourth-stage immortal God Realm prodigy of the White ape clan!

Defeating albinism in three moves?

This was not realistic at all.

That was impossible.

Silence.

The space was frozen, and it was quiet.

It took a full three seconds before the silence was broken.

"Heavens, how is this possible?"

One of the White apes let out a cry of disbelief.

He realized that he was not seeing things because albinism had indeed flown out.

"This, this is impossible! Albinism, a fourth-level immortal God, was defeated by a human kid at the pinnacle of the immortal King realm?"

Some of the White apes were dumbfounded.

It was too unbelievable.

Bai Hua, who was at the fourth-level of the immortal God Realm, was actually defeated by a human kid with a cultivation base at the peak of the immortal King realm in three moves.

Normally, even if albinism was suppressed, it would be a shocking thing.

However, not only was Bai Hua suppressed, but he was also sent flying by the three moves. It was unknown whether he was Dead or Alive.

"A peerless heaven's favorite! He must be an invincible heaven's favorite among the human race!"

The expression of the giant white ape in the lead was also moved. Someone who could defeat Bai Hua in three moves with his peak Immortal King cultivation base was definitely a top genius of the human race.

He was very surprised that such a heaven's favorite would appear on this Island.

However, it did not matter if he could defeat albinism.

Albinism was not the only one of the White ape clan's prodigies.

In fact, albinism was at the bottom of the pack among the White ape clan's prodigies. He could barely be considered a prodigy.

The giant white ape believed that as long as it sent out a stronger heaven's favorite, it would be a piece of cake to deal with ye chen.

"Who else wants to challenge me?"

Ye chen roared.

It wasn't that he was deliberately causing trouble, but since the other party was looking for trouble, he didn't mind helping them.

It just so happened that these white apes were all experts at the fourth level of the immortal God Realm, and some of them were comparable to sixth level human experts.

Such a lineup was more than enough for ye chen to train.

Ye Chen's current combat experience still needed to be increased.

After all, he had yet to face a sixth-level immortal God expert. Now that he could encounter one, it could be considered a real combat experience.

"Arrogant!"

"Don't think that you're strong just because you defeated albinism. Albinism is just at the bottom of the list of geniuses."

The White apes roared.

"Oh? Who else do you want to send out to fight?"

Ye chen smiled.

"This ..."

The White apes were dumbfounded.

Although Bai Hua's strength was at the bottom of the heaven's pride level, ye chen was able to defeat Bai Hua in three moves. He was obviously very powerful.

It would not be easy for them to find someone who could defeat ye chen.

"Let me do it. I'll defeat this arrogant brat."

At this moment, a white ape with muscles all over its body walked out. This white ape was huge, like a small mountain.

He was not much weaker than the leading white ape.

"It's Bai Xuan!"

Many of the White apes were in an uproar.

Bai Xuan was the most powerful heaven's pride of the White ape clan!

Although he was also at the fourth level of the immortal God Realm, his combat strength was equivalent to a sixth level immortal God Realm expert of the human race, or even stronger.

"You're not bad, but I can still take three moves against you. "

Ye chen said indifferently.

Silence.

The space was silent.

All the White apes opened their mouths wide. Even the leading white ape frowned.

"W-what did you just say?"

Bai Xuan was a little angry.

He was the most powerful heaven's pride of the White ape clan, the pride of the White ape clan, and yet he was being looked down upon.

He was being looked down upon by someone at the peak of the immortal King realm.

"Make your move."

Ye chen could not be bothered to waste his breath.

"Since you want to die, I'll fulfill your wish!"

Bai Xuan raised his fist, which exuded an extremely terrifying aura, like the descent of a prehistoric beast.

"Kill!"

Bai Xuan growled and stomped his feet. He rushed out like a cannonball.

Then, he threw a punch at ye chen.

This punch formed a white light pillar that swept across the space and the air, as if it had the power to suppress the world.

"So powerful."

Even ye chen was moved.

It would have been difficult for him to deal with such strength before he went into seclusion.

"BOOM!"

A black sword Qi shot out from ye Chen's body and shattered the White pillar of light.

"What?"

Bai Xuan frowned. With his strength, even a casual attack was not something Bai Bai's full-power attack could compare to.

Then, he remembered that ye chen had defeated Bai Hua in three moves and felt relieved.

"Interesting."

Ye chen could feel the violent power in the white light pillar and could not help but reveal an expression of anticipation.

This Bai Xuan's strength was indeed very, very strong.

It was many times stronger than albinism.

The power of this casual attack alone was twice as strong as the White ape secret technique.

If ye chen had not broken through to the third stage of peak Immortal King and gained initial control of the immortal Dao domain, he would have to go all out in the past.

"This is the first move."

Ye chen said.

Even if Bai Xuan had displayed astonishing strength, ye chen was still confident that he could defeat Bai Xuan in three moves.

"Arrogant!"

Bai Xuan was finally angry.

BOOM! BOOM! BOOM! BOOM!

One after another, fist gleams fell from the sky like dazzling meteors, crashing toward ye chen.

The power of each punch could kill a peak fifth-level immortal God Realm.

Even a sixth-level immortal God would be severely injured.

This was Bai Xuan's full combat power.

"What a shocking power. Can this Little Junior Brother withstand it?"

Even Cao xiuming could not help but want to help ye chen.

Such power could kill a sixth-level immortal God in seconds.

He could even fight a sixth-level immortal God genius.

Bai Xuan was worthy of being the pride of the White ape clan, the strongest heaven's pride. Such combat strength was simply terrifying.

Ye chen, a human at the peak of the immortal King realm, wanted to resist such an attack? It was too ridiculous.

"No need to attack."

The eldest senior brother smiled as if he had guessed how terrifying ye Chen's combat power was.

"Good!"

Ye chen shouted angrily.

Whoosh, whoosh, whoosh, whoosh, whoosh, Whoosh!

Streaks of black sword radiances seemed to be able to make heaven and earth lose its color.

These black sword radiances seemed to be able to cut through the sky and split the space. They streaked across the air and struck at the fist radiances at an extremely fast speed.

"Ah!"

A shrill cry was heard as everyone saw the fist radiance being destroyed by the black sword Qi. Countless wounds immediately appeared on Bai Xuan's fist, and it was a ghastly sight.

"How is this possible, how is this possible? This is impossible!"

Bai Xuan was stunned at first, then he screamed like a woman who had been molested.

Everyone was stunned and stunned.

They could not believe that ye chen could defeat Bai Xuan because this was too fantasizing.

[Chapter 2476 A Mysterious Zone!](#)

That's impossible!

All the White apes were dumbfounded.

Disbelief appeared on their faces. This was the second time they had such expressions.

The first time was when ye chen had defeated Bai Hua. This was the second time.

However, this time, it was much more shocking than the last time.

Bai Xuan was the pride of the White ape clan. His cultivation base had reached the peak of the fourth-level immortal God Realm and his combat strength was much stronger than that of the sixth-level immortal God Realm of the human clan.

Ordinary sixth-level immortal gods would not be able to withstand one move from him.

Even sixth-level immortal God Realm geniuses in the human race might not necessarily be Bai Xuan's match.

Such a peerless heaven's favorite had been defeated by ye chen.

This was simply too unimaginable.

"Peerless heaven's favorite. This has already surpassed that."

The pupils of the giant white ape in the lead shrank. It was also extremely shocked. Although Bai Xuan's combat strength was not as good as his, it was not much worse.

Such a Supreme prodigy had been defeated by ye chen.

Moreover, he was defeated in three moves.

Then, how strong was ye chen?

From the beginning to the end, ye chen had defeated his opponents in three moves. He had only used three moves. No one in the White ape clan could see ye Chen's true combat power.

Every time, it was so shocking.

"This monster must be eliminated."

The White ape's eyes flashed with a cold killing intent.

Shua!

At this moment, a figure appeared out of thin air.

The pupils of all the White apes contracted, and they revealed an extremely shocked expression.

True God!

Without a doubt, Cao xiuming and eldest senior brother were both true God-level powerhouses.

It was a realm above Immortals and gods.

This kind of majestic aura was the representative of a true God.

"You ... Wanted to make a move just now?"

Cao xiuming's gaze swept over the huge white ape, and the huge white ape could not help but tremble. It was terrifying, too terrifying.

Facing the pressure of a true God-level expert, he was like an ant.

It had just wanted to attack and kill ye chen, but when Cao xiuming and the others appeared, it immediately dispelled the thought.

What a joke, they were two real gods.

In the face of a true God-level powerhouse, the giant white ape and all the other white apes would not be able to withstand a single blow.

"Get lost!"

Cao xiuming growled.

"Run!"

"Run!"

All the White apes immediately fled into the distance. If they stayed any longer, they would probably die.

Ye chen was speechless. He did not expect his second senior brother to have such a dignified side.

However, he also had a preliminary understanding of true gods in his heart.

A true God expert's strength was much stronger than that of an immortal God.

Such an expert could destroy the myriad world with just a flick of his finger.

Even in the immortal God World, it was an existence that could shatter space.

If not for the fact that ye chen was the great immortal's disciple, he would not even spare a second glance at such a powerful fighter.

"Let's go, we'll continue on our way. "

Cao Xiu said.

Ye chen nodded slightly and flew into the air. The three of them hurried on their journey.

Soon, they crossed the territory of the White ape clan and came to another strange area.

It was pitch black below. Ye chen did not know why but he felt an extremely dangerous energy emerging from below. This energy was like an ancient giant beast lurking below. It was extremely terrifying.

What was down there?

Ye chen was shocked.

Such a terrifying aura, even a true God-level powerhouse would not be able to compare.

"Little Junior Brother, go down and take a look. We'll stay here."

At this moment, the eldest brother spoke.

"What?"

Ye chen was stunned.

To let him go down and take a look alone?

Wasn't this courting death?

With such a dangerous aura down there, there must be some terrifying creatures lurking there. After all, this Island could give birth to the White ape clan, so there must be other clans.

Some of the more powerful races might even have the power of a true God.

With ye Chen's current cultivation base, he would be courting death if he went down.

"Hurry up and go."

The eldest senior brother looked down. He had to get ye chen down.

Ye chen did not hesitate and flew down.

Since senior brother had said so, there should be no danger down there.

After all, eldest senior brother would not harm him.

Of course, ye chen was not that stupid. His eldest senior brother had enough trust in Him. After all, he was now the disciple of the great immortal.

"You're just going to let ye chen go? Aren't you afraid that he'll be in danger?"

Cao xiuming could not help but ask.

"Dangerous? There's no danger. On the contrary, it's a great fortune for him. "

The eldest senior brother grinned.

What?

Cao xiuming didn't know what his eldest senior brother was talking about.

Even Cao xiuming felt his heart palpitate at the dangerous energy below. Ye chen would be courting death if he went down.

Below.

Ye chen quickly flew down.

Even with his vision, he could not see what was down there.

"The aura of this mysterious area is too shocking. Even a true God wouldn't be this terrifying. What's in there?"

Even with ye Chen's temperament, he could not help but be curious.

With such a terrifying aura, he wondered if he was at the legendary Immortal King level.

In any case, ye chen felt that he was no different from an ant in the face of this power.

Whoosh!

Suddenly, ye Chen's figure moved.

Pfft!

A ray of green light pierced through the wall beside him, directly opening up a passage that was tens of thousands of meters long.

The speed of the light was fast, extremely fast, like lightning.

"You're looking for death!"

A cold glint flashed in ye Chen's eyes. With a wave of his hand, a black sword Qi was sent out.

"Ah!"

A strange scream was heard as the green light was split into two.

Ye chen finally saw what it was.

It was an insect-type creature with a green light shimmering all over its body and two sickle-like arms. The green light just now was formed by its charge.

What was this?

Ye chen furrowed his brows and pondered.

However, he couldn't tell what the insect-like creature in front of him was or what its name was.

"What astonishing speed. Even ordinary sixth-level immortal gods would be hit."

Ye chen recalled the speed of the green light and was a little surprised.

Even ordinary sixth-level immortal gods couldn't match such speed.

If Bai Xuan were to face this insect-type creature, he might be able to win with brute force, but it would be impossible to kill it without injury. He would be injured.

Ye chen could not determine the insect's attack power but just by looking at its two sickle-like arms, he could tell that its attack power was extraordinary.

"Let's continue deeper. "

Ye Chen's figure continued to fall.

With what had happened earlier, he immediately used his celestial energy to form a protective shield that covered his entire body.

[Chapter 2477 Bug Tribe Soldier!](#)

Whoosh, whoosh, whoosh, Whoosh!

One figure after another turned into green light and shot from below at an extremely fast speed. Each figure's speed was even faster than an ordinary sixth-level immortal God.

"Haha, look, it's a human!"

"Humans, I didn't expect it to be humans. Humans have actually invaded."

"Kill, kill him, kill this human!"

These figures stopped in the air and stared at ye chen, growling.

Ye Chen's eyes swept over them and found that these figures were all insect-type creatures. Most of them looked very similar to the insect-type creature that had attacked ye chen before. They all had two sickle-like arms.

The cultivation bases of these bug race beings were very high. The lowest cultivation base among them was at the fourth-level immortal God Realm, and there were many at the fifth-level.

"I'm going to kill him!"

One of the insectoids growled excitedly. Its body flashed and it appeared in front of ye chen.

"Peak stage of the immortal King realm. A human kid at the peak stage of the immortal King realm can actually come here?"

The insectoid sized ye chen up.

"Sigh, it's a pity that the human's flesh and blood were snatched by betta."

"Who asked you to not hurry up and attack?"

"I haven't eaten human flesh for many years."

"Sigh, what a pity."

"Damn you, beta."

The bug tribe warriors discussed among themselves but they were all mocking ye chen, thinking that he was dead for sure.

With so many fourth and fifth-stage immortal God Realm bug soldiers, even a sixth-stage immortal God Realm human would be easily killed here, let alone a peak Immortal King.

In their opinion, a peak-stage Immortal King could be killed with a flick of a finger.

"Kill!"

The bug tribe warrior known as beta's eyes flickered with a terrifying killing intent. With a loud roar, its body moved like a bolt of lightning and rapidly closed in. At the same time, its two sickle-like arms slashed toward ye Chen's head.

One had to admit that this bug tribe soldier was really, really strong.

This attack alone was not inferior to Bai Xuan's previous casual attack.

"Is he scared silly?"

When they saw ye chen standing still in the air, the bug tribe warriors laughed out loud, thinking that ye chen had been scared silly.

However, the next moment, they could no longer laugh.

Pfft!

Ye chen condensed a black sword ray in front of him and accurately struck one of betta's arms. Then, many bug tribe warriors saw betta's arm instantly cut off.

"Ah, no!"

Betta cried out in pain. His entire body was cut in half by the black fist radiance. His flesh and blood flew everywhere. He couldn't be more dead.

A fifth-stage immortal God Realm bug tribe soldier had died.

Just one move.

"What?"

When the bug tribe warriors saw this, they roared in anger. Betta was one of them but he was easily killed by ye chen?

"Damn it, I'll kill him!"

"I'll do it!"

"Get lost,"

Immediately, several bug tribe warriors fought to be the first to fight ye chen.

"I'll do it!"

At this moment, a rather tall and human-shaped bug tribe soldier walked out step by step, his eyes shining with a mocking light.

"With mo Luo's help, that human is dead for sure!"

"Mo Luo is an elite of our bug tribe soldiers. He's a top-notch soldier among fifth-stage immortal God Realm experts. He can easily defeat sixth-stage human immortal God Realm experts!"

Many of the bug soldiers laughed coldly.

Ye chen was dead for sure.

With mo Luo's strength, he could definitely kill ye chen easily.

Even if ye chen could kill betta in seconds, so what? this bit of combat strength was not worth mentioning in front of mo Luo.

"Human brat, you dare to kill my companion? you're quite bold."

Mo Luo's voice was low.

"Don't worry, you'll soon be like your companions. "

Ye chen said coldly.

It was quiet.

The space fell silent again.

"Hahahahaha, I'm dying of laughter!"

"Arrogant human!"

"Mo Luo, tear him apart!"

The bug tribe fighters burst into an uproar. Some of them laughed while others were furious. They felt that ye chen was too arrogant.

Mo Luo's cultivation base was at the fifth-level of the immortal God Realm, the same as betta 's. However, mo Luo's combat strength was much stronger than betta' s.

It was already unbelievable that ye chen, a human at the peak of the immortal King realm, could defeat betta. Now, he wanted to defeat mo Luo? There was no such possibility!

"Make your move."

Ye chen said indifferently.

Although ye chen did not know the origin of these bug tribe warriors, he would use absolute strength to tell them that strength was the foundation.

"Good boy, you're looking for death!"

Mo Luo bellowed in rage, his two scythe-like arms suddenly slashing out.

Whoosh, whoosh, whoosh, Whoosh!

Rays of saber gleams, like heavenly blades, flashed and then slashed at ye chen.

Hurry up!

It was too fast!

In an instant, the saber ray was in front of ye chen.

It was unbelievably fast.

Ye chen also condensed a sword ray in front of him and collided with his opponent's saber ray.

BOOM!

Ye chen and Mo Luo's bodies trembled and they flew backward for a few thousand meters.

"To be able to block one of my attacks, as expected, your combat strength is not bad!"

Mo Luo licked his lips and said excitedly.

This was the first time he was blocked by a human peak stage Immortal King, and his desire to fight was aroused.

"Is that all you've got?"

However, ye Chen's reply was a sneer.

Silence.

The space fell silent again.

Countless bug tribe warriors were dumbfounded. Ye chen dared to mock mo Luo. He was too bold.

"Very good, then you can go to hell!"

Mo Luo roared out in rage, "shua, shua, shua!"

Countless saber gleams seemed to cut through space as they charged toward ye chen.

"Divine sword's third slash, third slash!"

A black sword ray seemed to want to dye the world black.

"Ah!"

Mo Luo let out a blood-curdling screech as his body was sliced into two, following in the footsteps of betta.

Mo Luo, dead.

"Heavens! This human is way too strong!"

"Run, run!"

"Quickly run!"

Many of the bug tribe soldiers could not help but let out a cry of fear.

Ye chen could not be bothered with them and let them escape.

Ye chen continued to fly downward.

After an unknown amount of time.

"Who's that?"

Ye chen was shocked.

Although ye chen had already guessed it, he could not help but be shocked when he saw this scene.

In front of him was a huge pile of insect eggs that covered the sky. These eggs were really beautiful and were seven-colored. They were beating like hearts, showing the life within.

There were simply too many eggs. They were everywhere.

Ye chen could not see the end of it.

The eggs were simply in the hundreds of millions.

Right in front of them, there was a huge insect race being lying flat on a huge piece of ice. This insect race being looked like a human, except that it had a pair of wings on its back.

[Chapter 2478 Enslave The Queen Mother!](#)

The face of this insect race being was no different from a human 's. To think that it would be an absolute beauty! Not only that, its figure was even more exquisite.

Other than the pair of transparent wings on its back, it was no different from a human.

It just lay quietly on the huge ice, not moving, as if it was sleeping.

Even so, it still exuded a terrifying aura that was even more powerful than a true God.

"What, What is this?"

Ye Chen's heart was in turmoil.

The Zerg.

And it had a human face.

It was the same again, and there were countless eggs around.

Without a doubt, this was the legendary bug Clan Mother nest.

Bug Clan Mother nest!

This was a very terrifying thing, so terrifying that even true gods and above would have to pay great attention to it.

In the legends, if a mother nest appeared, then that sector would be finished.

If the bug tribe Queen Mother's combat power wasn't very strong and was equivalent to a true God at most, the countless bug tribe soldiers under her command all had the combat power of a true God. It would be an extremely terrifying situation.

Countless true God-level bug tribe soldiers!

It was terrifying just thinking about it.

A true God could destroy countless small worlds in the lower realm with a snap of his fingers, not to mention countless true God-level bug tribe soldiers.

It could even produce stronger bug tribe soldiers that were on the level of true gods and above.

This was the terrifying aspect of the mother nest.

The Queen Mother's combat strength wasn't very strong, but it could use a special secret technique to breed countless bug tribe soldiers, triggering terrifying attacks.

One queen was equivalent to countless bug soldiers.

The Zerg in front of him was clearly a Zerg Queen.

Ye chen could not help but look at the bug clan Queen Mother. It was terrifying, too terrifying.

If the Queen Mother was awakened and produced endless bug soldiers, even the immortal God Palace would suffer a huge blow.

Although the bug tribe Queen Mother's strength wasn't strong, once the bug tribe soldiers were nurtured to maturity, it was normal for them to have true God-level strength.

One bug tribe soldier already had the combat strength of a true God. If there were hundreds or thousands of them ...

How terrifying would that be?

Ye chen did not dare to imagine it!

"Wait, this bug clan Queen seems to be in a deep sleep?"

Ye chen suddenly realized something and was shocked.

Oh my God.

He suddenly had an idea. This idea was very absurd, but it was possible to achieve.

That was to use a secret soul technique to control the bug clan Queen Mother, and from there, all the bug clan soldiers.

The current bug tribe warriors could not be called true bug tribe warriors. Even ye chen could easily kill the bugs outside. It was clearly because the bug tribe Queen Mother was in a deep sleep.

Otherwise, there was no need to breed a true God-level bug clan. Even if it was only at the eighth or ninth level of the immortal God Realm, it would be enough to kill ye chen.

"I can try!"

Ye Chen's expression changed. In the end, he decided to give it a try.

He used a soul technique to control the bug clan Queen.

Even those above the true God Realm would not dare to do so.

This was because if the control failed and the bug tribe Queen Mother was forced to wake up, even those above true God would find it difficult to escape.

After all, under normal circumstances, there should be countless bug tribe soldiers around the Queen Mother, all of whom were true God-level soldiers escorting her.

It was almost impossible to escape in that situation.

"Come, let's give it a try!"

Ye chen was not an indecisive person. Since he had chosen to do it, then he would do it.

Ye chen immediately walked over and looked at the bug clan Queen Mother's face with a complicated expression.

It had to be said that the Queen Mother of the bug clan was extremely beautiful. As the human race was a super race in the vast immortal God World, many living beings with intelligence and powerful foreign races liked to transform into humans.

However, the Zerg empresses were born with the appearance of humans, and he didn't know what was going on.

"Star descent art, control!"

Ye chen roared. A strange power instantly enveloped the bug clan Queen Mother who was lying on the ice.

The moment it wrapped around him, ye chen felt an extremely terrifying force that could bounce back at any time. Fortunately, he had a very good control method and did not completely startle that force.

"What a wonderful structure."

Ye Chen's eyes brightened.

When he tried to control the bug tribe Queen Mother through the STAR technique, he was also studying her body.

,m The Queen Mother was a creature born in the immortal God Realm. She was blessed by the heavens, and her genes were many times more terrifying than those of the human race.

If he could study its genes thoroughly, it would be extremely beneficial to his own cultivation.

"Not good."

At this moment, ye chen felt an extremely terrifying power erupting from the bug clan Queen Mother's body.

Bang! Bang!

Ye chen was sent flying. If he had not stopped in time, he would have hit one of the eggs.

"What's going on?"

Ye chen noticed that the bug clan Queen Mother had not woken up and could not help but be very puzzled.

With his technique just now, he should be able to control the Zerg empresses.

Because he had once enslaved mo Luo like this.

This STAR technique was a secret technique left behind by a top-tier immortal God from the immortal God stairway. It was a true God-level secret technique. Ye chen had now cultivated it to the highest level and should be able to enslave the mother Empress.

"Could it be?"

Ye chen suddenly realized something and his eyes lit up again.

He immediately flew over and used another technique to control the Zerg empresses.

BOOM!

Another burst of energy shot out and sent ye chen flying.

However, the power this time was clearly much smaller than before.

"It's like this, it's really like this!"

Ye chen grinned.

He realized that the last realm of the star Palace Grand magic would cause him to suffer the greatest backlash.

However, if he used the first realm, he would have a chance to penetrate it.

All of this should be because the structure of the Zerg empresses was different from that of the human race.

After all, this cultivation technique was specially designed for the human race.

"Let's continue trying!"

This time, ye chen used the first stage of the astral Grand technique to form a strange force that directly penetrated the Zerg Empress 'body.

Roar!

Ye Chen's consciousness appeared in a strange place.

"Surrender, surrender!"

Ye Chen roared. BOOM!

The entire world collapsed.

The world had exploded with Ye Chen's roar.

When he regained consciousness, the bug tribe Queen Mother was still motionless.

However, Ye Chen's face showed a satisfied smile.

It was a success!

He didn't expect that he could actually enslave the bug tribe Queen Mother.

"Master."

At this moment, the Zerg Empresses moved and let out a soft sound.

This voice was transmitted from the soul.

[Chapter 2479 Mechanical-Type Zerg!](#)

"Queen Mother,"

Ye Chen transmitted his voice.

Since he was in control of the bug tribe Queen Mother, he could communicate with her through his soul.

This was also a unique secret technique.

Ye Chen was excited just thinking about it.

He really managed to enslave the bug clan Queen Mother.

This was a miracle!

"Master, Zerg Empress Saro is at your service."

Zerg Empress Saro transmitted her voice respectfully.

Although she knew that she had been enslaved by Ye Chen, after being enslaved, she would feel that Ye Chen was her master from the bottom of her heart. Even if Ye Chen asked her to die immediately, she would do it without hesitation.

This was the terrifying power of the soul Control technique.

In reality, if the bug clan's Queen Mother had not been severely injured and was in a deep sleep, it would be almost impossible for Ye Chen to enslave the Queen Mother with his cultivation base.

However, Ye Chen happened to run into it.

It was such a good opportunity.

"Master, I was heavily injured in a battle with a Godking back then. That's why I've fallen into a deep sleep here,"

Zerg Empress Saro explained.

Ye chen was shocked.

God King?

That was an existence that was above a true God.

However, it was normal after thinking about it. After all, the bug tribe Queen Mother was a unique and mysterious living being that controlled countless bug tribe soldiers. It was not impossible for her to be able to fight a God King.

"Alright then, Shama, can you introduce me to how I can produce bug tribe soldiers? And your role?"

Ye chen asked.

He wanted a useful Zerg Queen, not a useless one.

Only being able to produce countless bug soldiers was what he needed.

"I can produce a total of three types of bug soldiers."

Queen Mother Saro said, "the first type is the scythe type, which is the type that master saw earlier. The second type is the mechanical type, which has a mechanical appearance and many attacking methods. The third type is the all-around type."

"All-rounder type, all of their techniques are very strong. In terms of collective attack power, they are not as good as the mechanical type, and in terms of single attack power, they are not as good as the sickle type. However, this type of bug tribe soldier wins in all-rounder abilities."

There were three types.

Ye chen understood.

The bug tribe soldiers that he had met before, such as mo Luo and betta, were of the sickle-type, which was also the first type.

The speed and single attack ability of these bug tribe soldiers were very strong, even stronger than the White ape clan. Within the same realm, the human tribe would be swept away.

The reason ye chen could easily defeat them was because he was too freakish.

Otherwise, if it were any other heaven's favorite of the human race, they might not even be able to defeat betta, let alone mo Luo.

The second type was the mechanical type.

Ye Chen's eyes brightened.

This type of Zerg had a very strong collective attack ability.

This was exactly what he needed.

"What's the price for nurturing a second type?"

Ye chen asked.

This was what he was most concerned about.

There was a price to pay for nurturing the Zergs, and they weren't created out of thin air.

"Breeding a machine-type bug tribe. A sixth-level immortal God-level machine-type bug tribe requires ten billion immortal stones."

Said the Zerg Empress, Saro.

What?

Ye chen could not help but gasp.

So expensive?

The price was too high.

A sixth-level immortal God Realm machine-type bug tribe required 10 billion immortal stones. He only had 20 billion immortal stones on him now, which was less than enough to build three.

"There's no other way, master. It takes time to breed the bug race. If we don't use celestial stones to breed it, it will take at least several years for a sixth-level immortal God Realm bug to be born."

Zerg Empress Saro said helplessly.

Ye chen nodded slightly.

After all, to experts like them, it was already quite efficient to have one every few years.

However, to ye chen, this efficiency was too low.

"A ninth-stage immortal God-level machine-type bug tribe will cost 500 billion immortal stones. A true God-level bug tribe soldier will cost five trillion immortal stones."

Ye chen felt a headache.

He was too poor.

An ordinary sixth-level immortal God should have over 100 billion immortal stones in assets.

However, ye chen only had twenty billion.

In fact, he was only at the peak of the immortal King realm.

With his current combat strength, he would need at least hundreds of sixth-level immortal God Realm bug soldiers to be his trump card.

However, how many immortal stones would it cost to kill hundreds of sixth-level Immortals and gods?

It seemed that he had to find a way to earn more immortal stones!

"Let's go, we're leaving this place. "

Ye chen now knew that the eggs next to him needed the energy of a celestial stone to be activated and bred. Otherwise, they would just be empty shells.

Hence, there was no point in taking away the eggs.

Ye chen waved his hand and kept the bug clan's Queen Mother Saro into his storage ring. Then, his figure moved and he flew toward the outside world.

With his speed, he quickly flew to a high altitude. He once again saw his eldest senior brother and second senior brother Cao xiuming floating in the sky.

"How is it? did you encounter something?"

Cao xiuming asked with great concern.

"I didn't encounter anything."

Ye chen had intended to tell Cao xiuming, but when he saw his eldest senior brother giving him a look, he decided not to.

When he heard that ye chen did not want to tell him, Cao xiuming did not say anything. Everyone had their own secrets. Otherwise, he would not have been able to cultivate to this level.

The three of them decided to leave the island.

With their speed, they flew in the direction they came from and soon disappeared in the sky.

.....

Ye Chen's group of three quickly left the island and returned to the sect.

They didn't encounter any danger along the way.

If ye chen wanted to breed bug tribe warriors now, he would need a large number of celestial stones.

How could he get immortal stones?

Ye chen thought of an idea, which was to do sect missions.

A sixth-level immortal God mission would still cost 100 billion immortal stones.

With ye Chen's strength, it should be a piece of cake for him to take on a sixth-level immortal God mission.

In fact, he could even take on seventh-level immortal God missions.

Hall of mission.

After ye chen entered, he was prepared to take on a seventh-level immortal God mission.

It had to be said that there were quite a number of experts in the hall of missions. Fifth and sixth-level immortal God disciples were as numerous as the hair on a cow. Ye chen even saw several seventh-level immortal God disciples.

However, it was rare to see someone at the eighth or ninth level of the immortal God Realm. Such a figure should be cultivating in seclusion in his own residence, preparing to break through to the next realm.

"This one."

Ye chen grinned.

He had killed Chi kui, an inner disciple of the Scarlet Flame sect.

Ye chen returned to his residence. Tomorrow, he would meet up with the other three and set off.

"Scarlet Flame sect."

The Scarlet Flame sect was a force that was neither big nor small. Although it couldn't compare to the immortal God Palace, it was still a decent force in the ancient Desolate Divine Kingdom.

Chi kui was an inner disciple of the Scarlet Flame sect. However, he was wanted by the immortal God Palace for some unknown reason.

Chi kui's cultivation was at the early stage of the seventh level immortal God Realm.

It matched the difficulty of the mission.

[Chapter 2480 2485-LAN Kang!](#)

"Seventh level of immortal God?"

Ye chen mumbled.

With his current combat strength, he was quite confident that he would be able to reach the seventh level of the immortal God Realm.

The third slash of the divine sword's third slash was extremely powerful. Ye chen had yet to encounter a seventh-level immortal God expert so he did not know how strong his true combat strength was.

However, according to the previous comparisons, he felt that he was still very confident in dealing with a seventh-level immortal God.

Although the seventh-level immortal God Realm was powerful, it was impossible for it to be much stronger than the sixth level.

It was only a difference of a small realm.

Ye chen could easily kill a sixth-level immortal God in seconds. He must be very confident in dealing with a seventh-level immortal God.

Moreover, up until now, ye chen had not used his full strength after coming out of his closed-door cultivation.

He did not know if he could kill a seventh-level immortal God.

According to the information, Chi kui was at the early stage of the seventh firmament immortal God Realm, so he shouldn't be too strong. The difficulty of this mission would definitely not be too dangerous. Otherwise, no disciple would accept it.

As for the reward ...

If he could kill Chi kui, he would get 500 billion immortal stones.

This was also the standard for completing the mission.

If they were not killed but captured alive, they could still get 500 billion immortal stones.

Anyway, as long as he could capture or kill Chi kui, that would be enough.

After completing this mission, he would receive 500 billion immortal stones, which was enough to create 50 sixth-level immortal God-level mechanical bug tribe soldiers.

Of course, fifty sixth-level immortal gods were not very strong for ye chen. He still needed more immortal stones.

On the contrary, ye chen was looking forward to seeing if this Scarlet Flame sect disciple named Chi kui had any great wealth on him.

This was the only way ye chen could quickly earn enough celestial stones.

"It's time to go to the mission meeting point. "

Ye chen stood up and walked out.

Shua!

With ye Chen's speed, he quickly left the immortal God Palace and did not encounter any obstacles along the way.

Soon, he arrived at a large hall. There were a few people standing in the hall. There was a woman, a white-haired middle-aged man, and a blue-haired brawny man.

When they saw ye chen arrive, they could not help but reveal a look of disdain. A peak Immortal King was actually worthy of participating in this mission?

Wasn't this too laughable?

"Who are you?"

The white-haired man asked.

An Immortal King Peak stage kid actually came to participate in the mission to kill Chi kui?

He thought he was seeing things.

"I'm here to participate in the mission to kill Chi kui. "

Ye chen said.

After saying that, he took out a mission token, indicating that he was really one of the people who had participated in the mission.

Silence.

The space was silent.

Then, everyone laughed.

"You said you're here to participate in the mission to kill Chi kui? You're a mere peak Immortal King trash, how can you be qualified to participate in the mission to kill Chi kui? Chi kui is at the early stage of the seventh firmament immortal God Realm. With your strength, he can kill you with just a breath. Get lost, kid!"

The blue-haired brawny man stepped forward with a sneer on his face as he mocked.

The others couldn't help but reveal a look of ridicule. An Immortal King Peak stage trash wanted to participate in this mission? this was simply an insult to them.

"It's ridiculous that a peak-stage Immortal King scum wants to join our operation. I suggest kicking him out of the team!"

The blue-haired man said coldly.

The three of them were at the peak of the sixth level of the immortal God Realm. It would be difficult for them to kill Chi kui together.

Now, a kid at the peak of the immortal King realm had entered and wanted to join in. This meant that he would have to share ye Chen's celestial stones.

How could they endure this?

"Get lost, you little bastard. If you don't get lost, I'll kill you!"

The blue-haired man said with a sneer.

"Young man, you should leave. He's from the LAN family. You'd better listen to what he's saying,"

The white-haired man sighed.

LAN Kang was a member of the LAN family.

Furthermore, the LAN family's influence was extremely great.

A peak-stage Immortal King dared to participate in this mission?

It was too laughable.

"You're only at the peak of the sixth level of the immortal God Realm, yet you want to participate in the mission to kill Chi kui? I think you should be the one to get lost!"

Ye chen said sarcastically.

The mission clearly stated that Chi kui was an expert at the early seventh firmament immortal God Realm. With the combined strength of the three of them, they might not be able to kill Chi kui.

"What did you just say? You're looking for death!"

LAN Kang was furious.

He was a mighty peak sixth-level immortal God, yet he was mocked by ye chen, a peak Immortal King. This made him extremely angry.

"It's over. This kid doesn't listen to advice. He just has to provoke LAN Kang!"

The white-haired man said in a low voice.

"This little bastard doesn't know what's good for him. He's overestimating himself. But it's good that he's killed by LAN Kang in advance. That way, there'll be one less person to share the rewards with."

The woman said with a cold smile.

A mere peak-stage Immortal King trash wanted to participate in the mission and get a share of the loot, which really made them very unhappy.

It would be best if ye chen could be beaten to death by the blue-haired brawny man.

"What did I say? You're just a peak sixth-level immortal God trash. I'll defeat you in two moves. "

Ye chen sneered.

Silence.

The space fell silent again.

"You, what did you say? Can you repeat that?"

LAN Kang shouted.

"Arrogant, he's too arrogant. I've seen arrogant people before, but I've never seen someone this arrogant. How arrogant is he?"

"He's simply asking for death!"

"You don't know what's good for you."

Even the White-haired middle-aged man and the woman couldn't help but shake their heads, speechless.

Ye chen was too arrogant.

A peak Immortal King actually said that he would defeat a peak sixth-level immortal God in one move. This was no longer a matter of arrogance.

,m There was simply something wrong with his brain.

Everyone knew that a peak sixth-level immortal God could crush a peak Immortal King to death like an ant.

Ye chen still dared to speak arrogantly.

"Brat, you're dead!"

When LAN Kang heard this, he flew into a rage. He jumped up and threw a punch at ye chen.

BOOM!

A fist print roared and rushed out. Like an ancient mountain, it pushed forward with extremely terrifying power.

The peak of the sixth-level immortal God Realm was not something that an early-stage sixth-level immortal God could compare to.

Bai Xuan, whom ye chen had once faced, was in fact at LAN Kang's level.

"He's dead. "

"This kid is dead for sure."

"Isn't it good to be alive? why must you seek death?"

The white-haired middle-aged man and the woman shook their heads.

Ye chen was dead for sure.

In the face of LAN Kang's full-powered attack, even a sixth-level immortal God would be killed with a single punch, let alone ye chen, who was a peak Immortal King.

The difference between them was simply unbelievable.

"Small tricks."

However, ye chen said coldly.

Shua!

A black sword light suddenly slashed out. With just one collision, LAN Kang's fist light was crushed.
