

Genius 2531

Chapter 2531

The Golden Colour Mountain is actually made up of three not-so-dwarf peaks.

In addition to the ancestral burial place of the Yang family

The other two are deserted.

If not for the discovery of the mineral veins, no one would have cared about this area.

When Lin Mo and Captain Chen arrived near the Golden Colour Mountain.

Before they even got close, they heard noisy voices.

“Hurry up, hurry up, are you exploration teams white rice eaters?

When will you be able to finish the job at this speed?”

“Equipment department, where is the mining equipment you were told to call in.

You were told to get it ready a week ago.

There’s no news yet.”

.....

When Lin Mo walked in.

He saw a leader with a red helmet standing on top of the boulder.

He was holding a megaphone in his hand, and his face was full of fierce urging.

Underneath, busy workers were doing their jobs, cleaning up and exploring.

It was a scene of total fervour.

And as Lin Mo kept getting closer.

The leader from high up, also spotted Lin Mo’s figure.

“Who the hell are you people.

The Yin family is on business, no idle people are allowed to approach.

Get the hell out of here!”

Along with his loud rebuke.

The attention of all the workers also shifted to Lin Mo.

For a moment, the entire scene was instantly quiet.

In a short while, a dozen of burly thugs dressed in black uniforms gathered around towards Lin Mo in an aggressive manner.

“This gentleman, this room is the Yin family’s territory, please leave quickly.”

Looking at a few of them.

Lin Mo raised his eyebrows.

“Oh? The Yin family’s territory?”

If I remember correctly, this side is the Yang Family’s ancestral mountain, right?

Since when did it become your Yin family’s?”

At these words, it was a few strong men who instantly pulled down their faces.

“You’re f*cking here to cause trouble?”

Lin Mo shrugged his shoulders.

“Troublemaking or something, I don’t know.

I’m just stating the facts, I guess.”

At these words, the dozen or so burly men on the opposite side did not intend to talk more nonsense with Lin Mo.

“Kid, you’re looking for death!”

As soon as the words left his mouth, one of the men at the front raised his ca*serole-sized fist and smashed it head-on towards Lin Mo.

The whistling wind of his fist carried a fierce momentum.

If an ordinary person were to be hit by this punch, his skull would surely be shattered.

But Lin Mo was not in this category.

Since the other party had already made his move.

Lin Mo naturally wouldn’t be polite.

As he sidestepped the shadow of the punch, he struck an elbow towards his opponent’s chest.

Ka ka ka ka!

The sound of broken chest bones could be clearly heard in an instant.

The strong man flew backwards and landed heavily on the ground.

“How dare you touch my Yin family’s men!

Brothers, f*ck him!”

As one of the fighters suddenly shouted.

The rest of his companions instantly started to fight.

More than ten pairs of fist shadows smashed down on Lin Mo one after another.

However, as the crowd watched.

Lin Mo's figure suddenly swayed.

The next second, they heard a violent wailing sound.

Fixing their eyes, they looked.

Only to see the group of beaten men, their faces showing pain as they held their arms.

Above each of their small arms, a tiny bloody hole appeared, and blood continued to ooze out.

The fighting did not stop.

As the dozen or so men lost their fighting strength.

Dozens more rushed up behind them.

However, in the face of absolute strength, numbers seemed more or less powerless.

"Captain Chen, move your muscles?"

With Lin Mo's sudden arrival, he proposed.

Captain Chen also nodded his head with an interested face.

In the next second, two figures took off out.

It was only four or five minutes later.

Lin Mo and Captain Chen stopped their figures at the same time, clapping their palms on one side in a cloudy manner.

And around the two of them, dozens of burly beaters were already lying on the ground, wailing in pain.

Such a scene could be said to have stunned all the workers.

How did such a petite figure burst out with such great strength.

Chapter 2532

Watching all the beaters fall into the hands of Lin Mo's duo.

The red-capped leader, tightly frowning without, sauntered over.

"Who exactly is your Excellency?"

Lin Mo shook the dust off his body as he carelessly returned.

"It doesn't matter what we are.

All you need to know is that this side is the Yang Family's ancestral mountain."

"Next time, if anyone from your Yin family exploits the mountain range privately again.

It won't just be the arm that gets injured."

The words fell.

The leader had a blur before his eyes.

He only heard the sound of a sharp sword returning to its sheath.

He then found a tiny line of blood appearing at the neck of his own neck.

If only his opponent's hand shook, or if the blade moved forward a millimetre, he would be dead.

The brush with death was so close that his feet weakened.

The leader, bracing himself, asked stubbornly.

"We are from the Yin family, do you really want to do this gentleman?"

"Little brother, listen to Uncle's advice.

Although you are uncommonly strong."

"But as long as our Boss Yin says one word, there will be no place for you in the whole of Pan Yang."

Faced with his racket.

Lin Mo did not reply, but only slowly rested his palm on the hilt of his sword.

And when the leader saw this, he was instantly frightened.

"Count on your ruthlessness, let's go.

It's not over at this point, I hope you won't regret it."

With that he turned around and led the group of workers to leave this place in a mighty manner.

After calm was restored in this place.

Captain Chen couldn't help but spit out.

"This Yin family is really lawless.

People's ancestral mountains are dug up whenever they say."

To this, Lin Mo did not care much.

"The Yin family isn't the only power like this on this side of Da Qu United Province.

Of course, there's no need to care, it's just a gra*shopper after the autumn, it won't last long."

Captain Chen also nodded in deep understanding.

With the departure of this group of bandits.

Lin Mo was finally able to check out the environment of Golden Cai Mountain without fear.

However, without looking, one would not know.

Lin Mo had only casually strolled around.

He discovered that there were no less than four or five types of rare ores exposed on the surface of the mountain.

Captain Chen followed behind Lin Mo, and at this moment, he was also confused.

Why was this Lord Zhen Yue so interested in this weed?

He was full of interest and kept picking the flowers and gra*s around this.

The shocking thing was.

Lin Mo was picking and chewing the gra*s and red flowers in his mouth at the same time.

This was followed by a look of excitement.

“My lord, if you’re hungry, let’s go back early.

The weeds in this mountain and wilderness may be harmful to the human body.”

Lin Mo: “.....”

You’re the one who’s hungry, your whole family is hungry.

“Captain Chen, you shouldn’t forget.

I’m not only the Martial Alliance’s Zhen Yue Amba*sador, but also the new Medical Saint of China.”

“This Golden Cai Mountain is truly stunning, not only is it rich in minerals.

And it also contains a vast array of natural herbs.

Like this Awakening Herb, Blood Promoting Flower, White Butterfly Flower and so on, they are all valuable Chinese herbs.”

“If one were to open a medicine shop with the back of this Golden Colour Mountain, one could make a fortune.”

Speaking of herbal medicine.

Lin Mo’s mood also became somewhat exuberant.

And the speaker had no intention to listen.

At this time, Captain Chen was also suddenly enlightened.

Right, Lord Zhen Yue was a medical saint.

Of course, she couldn’t be blamed for this, after all, Lin Mo’s martial talent was too exceptional.

One couldn’t help but overlook this.

Moreover, those who spoke had no intention, but those who listened had an intention.

By the time Lin Mo's words had fallen.

Captain Chen's eyes twinkled.

"Lord Zhen Yue, since that's the case, why don't you start a Chinese medicine pavilion over here!"

The moment these words were spoken.

Lin Mo's eyes instantly lit up.

Right, why couldn't he open a Chinese medicine pavilion over here.

He had had this intention before, but he just hadn't had the chance to realise it due to his chores.

Chapter 2533

Like the thin western mountains, the evening birds returned to their nests.

After strolling around the entire Golden Cai Mountain, Lin Mo and Captain Chen also returned to the villa.

As soon as they entered, he directly approached the Yang family's mother-in-law and daughter-in-law.

"Sister-in-law Yang, auntie, I have something I want to discuss with you."

"It's like this, today, I went to Golden Cai Mountain with Captain Chen for a stroll"

After waiting until Lin Mo had told him about what he had encountered on Jin Cai Mountain.

Yang's mother's face instantly became excited.

"This group of people is none other than bandits.

This is the property left behind by our Yang family's ancestors.

They are simply lawless."

Seeing Yang's mother in an agitated mood.

Lin Mo then hurriedly advised.

"Auntie, don't get excited yet.

I've already sent someone on my side to contact the mineral mining company."

"When there is news from there.

I'm planning to put the side of the Yang family's ancestral tomb aside.

All the mineral veins on the other two big mountains will be excavated."

"On the one hand, this will break their Yin family's mind.

On the other hand, it will also accumulate some assets for you and your sister-in-law.

So I want to ask your opinions.”

Yang’s mother nodded, agreeing and said.

“This gold-coloured mountain, I had intended to give it to you, Mr. Lin.

Just make up your own mind on what to do with it, Mr. Lin.”

After hearing this, Lin Mo continued to add.

“One more thing is that the Golden Cai Mountain does not only contain minerals.

It is also rich in various natural herbs.

So I plan to open a Chinese herbal medicine pavilion in my sister-in-law’s name, over here in Panyang City.”

“At that time, I will leave an industry for you.”

And naturally, Mother Yang did not refuse this offer from Lin Mo.

“By the way, as there are more things on my side.

I still need auntie and sister-in-law’s help in taking care of this Chinese medicine pavilion.”

On the way back, Lin Mo had also considered such a problem.

Although it was said that with the monthly pension from Yang Gouzu, the two of them would not live too tightly in the future.

But when people are idle, they have more thoughts.

In order to distract their attention.

Lin Mo planned to give them full control of the Chinese Medicine House.

As long as they were busy, they would not be thinking about their late Yang Gouluo all the time.

With the Yang family’s mother-in-law and daughter-in-law nodding repeatedly, the matter was settled.

The rest is a matter of recruiting people and choosing a shop.

.....

On the other hand.

Yin Tian Bao and Wang Laosan had just finished talking about their business.

Before he could get up to send them off.

The news was brought to him in a hurry by his subordinate Dog.

“Boss Yin, it’s not good.

The group of people that Rat brought to mine Golden Cai Mountain have been cleaned up!”

Before he could finish speaking.

Yin Tian Bao’s five fingers squeezed, and the teacup in his hand directly split in four.

“Well, good for you.

It seems that I, Yin, have been too low-key for a while.”

“So much so that anyone would dare to sh*t on my head.”

At this moment, his body was already filled with a fierce aura around him.

His face was also terribly gloomy.

On the side, after listening to the whole thing, a person suddenly came to mind in Wang Laosan’s mind.

Within this Pan Yang City, perhaps that person was the only one who had targeted the Yin family’s forces so much.

Thinking of this, he spoke out to persuade.

“Boss Yin, don’t worry.

Why don’t you let them check first to see if the other party has any origin.”

“After all, those who dare to go against the Yin family within this Pan Yang City are all down here now.”

With that, he reached out and pointed to the ground.

“Elder brother Wang is right.”

“Ah Dog, first of all, you should find out who this person really is.

Also the matter of the Golden Cai Mountain side, put it aside for now.

Wait for me to inform.”

With Lin Mo’s sudden arrival.

The original plan had all been disrupted.

The identity of Lin Mo’s Amba*sador Zhen Yue was there after all.

It was naturally impossible for Yin Tianbao to just kill and bury like he did with those people.

“Boss Yin, if there is nothing else, I will go back first.”

At this moment, Yin Tianbao was also in a bad mood.

For Wang Laosan’s departure, he didn’t make much of a stay.

After a polite word, the two of them dispersed as well.

On the way back.

As he walked, Wang Laosan could not help but have a smile on his face.

“It seems that this Lord Zhen Yue Ambassador is determined to carry on with the Yin family to the end.”

Of course the more Lin Mo was like this, the more confident he, Wang Laosan, was.

And when he looked up after.

Dark clouds had slowly built up in the sky.

“The wind is picking up, and the rain is coming soon.”

After muttering a sentence, he quickened his pace.

Chapter 2534

The line of sight returns to Lin Mo's side.

After discussing with the Yang family's mother-in-law and daughter-in-law, the matter of Jin Cai Shan's already Chinese medicine pavilion.

Lin Mo then began to move on without stopping.

It was only after picking a number of shops that these bosses, seeing that he was a foreigner, demanded sky-high prices.

Although Lin Mo was not poor in money, he could not be a fat sheep either.

In this way, after looking at a number of shops, they all ended up in failure.

“My lord, why don't you go back first.

I'll shop around and if there's anything suitable, I'll contact you.”

Faced with Captain Chen's proposal.

Lin Mo shook his head and refused.

“Forget it, since we're all out, let's look around again.”

Only when the two of them hadn't even taken two steps out.

They saw that not far away, there was a large group of people surrounding them.

When they walked in, they realised that the place being surrounded by the crowd was none other than a Chinese medical hall called Kang Rende.

Sickness, health and benevolence, it was a good symbolism.

And the plaques on either side of the front door were a little worn.

But it doesn't matter, a simple renovation at a later stage will do.

It's just that the scene in the middle of the hospital today is not so beautiful.

A dozen strong men dressed in black are beating up a middle-aged man with wounds all over his body.

When he saw the man in such a costume.

Lin Mo directly frowned, for some reason, he did not have a good feeling towards people dressed like this.

For some reason, he had no good feeling towards people dressed like this.

And after the strong men in black had stopped fighting.

The leading man slowly crouched down with a playful smile.

“Boss Zhang, I advise you to be sensible.

Against us, none of those who go against us within Pan Yang will end up well.”

“This fee, you’ve been dragging us out for almost half a year.

We’re all businessmen, it’s only right to pay back debts.”

As for the boss surnamed Zhang, he was crying and desperately arguing at this moment.

“Brother Rat, I’ve already paid you the money!”

After hearing this, the man named Ratzi had a regretful look on his face.

He shook his head and said.

“Tsk ts, Boss Zhang, have you forgotten.

It’s clearly written in our agreement.

What you paid back was only the principal, the interest was not touched.”

Hearing this, Boss Zhang cried out and argued.

“Brother Rat, when I signed the agreement, the annual interest rate was only ten percent.

How can it be that the interest rate has now become ten percent per month and is still rolling over.”

At this moment, Ratzi directly withdrew his smile and his face became gloomy.

“Boss Zhang has written in black and white, it’s clearly written.

Now you want to renege on your debt.”

With that, he slapped him hard on the face.

At that moment, there was a faint voice of opinion from the crowd of onlookers.

“Isn’t this just a loan shark who is forcing people to buy and sell?”

“What an abomination, why doesn’t anyone take care of them.

It really is lawlessness.”

“Hush, don’t you want to die, they are from the Yin family.

They’ve seized so many people’s assets over the years with methods like this recently.”

“I heard about it too, a few days ago the owner of a mining equipment over in the eastern suburbs.

It was because he was unwilling to cooperate that he disappeared the next day.

It’s said that no one has been found yet.”

Lin Mo listened to the discussions of the few people beside him, and his frown grew deeper and deeper.

After coming to Pan Yang, from the very beginning until now, there had been no break in the wind of the Yin family.

This was not a coincidence.

Such a phenomenon indicated that this Yin family was already pervasive throughout the entire Pan Yang territory.

And at this moment, in the middle of the medical hall.

Rat shrugged off his palm and snorted coldly.

“Within this Pan Yang, no one dares to default on our Yin family’s debts.

Not even the King of Heaven.”

After saying that, Rat saw Boss Zhang, his face green and red with indignation for a while.

He suddenly gave a wink to some of his men beside him.

After the latter understood, they directly pressed Boss Zhang, who had collapsed to the ground, to death.

Chapter 2535

As the onlookers, stared in horror.

The hitman then dawdled out a cold, glowing mountain-opening knife.

“Boss Zhang, it seems that you are not seeing the coffin.

In that case, let’s keep one of your hands for today.”

“Tomorrow, we’ll come back, and if we haven’t returned the money.

You can then take your medical school to cover your debts.”

When Rat finished, the men did not hesitate.

Amidst Boss Zhang’s cries and howls, it was raised high.

When he was about to drop the knife.

Suddenly there came a sound of drinking and stopping.

“Stop!”

With that, Lin Mo walked into the medical hall by drilling through the crowd.

“In broad daylight, you are too lawless.

Aren’t you guys afraid of receiving sanctions from the Martial Union?”

Perhaps it was out of surprise.

At this moment, Rat as well as his take group of men couldn’t help but freeze in their tracks.

As one of the Yin Family’s four major groups of fighters.

In all the years that Rat had been doing mischief in Pan Yang, this was the first time he had encountered such a rash young man.

And when he slowed down.

Instead of getting angry, he laughed out loud.

“Where did the rash young man come from, to rush me to barely pretend to be cross.”

“Hahahaha, like to play the hero is not.

Then have you suffer for Boss Zhang.”

As he raised an eyebrow.

The fighter who was holding a mountain-opening sword in his hand then walked towards Lin Mo in an aggressive manner.

“Kid, keep your eyes open in the future.

Don’t be so nosy.”

After saying that, he raised his mountain-opening knife again and slashed heavily towards Lin Mo’s shoulder.

Seeing that a bloodbath was about to take place.

Among the onlookers, those who were a little smaller could not help but cover their eyes.

On Lin Mo’s side, he was also full of anger.

“You have brought this on yourselves.”

As soon as the words left his mouth, he directly pressed himself forward.

Since the other party wanted him dead, Lin Mo would naturally not be soft-hearted.

The moment he struck, it was the extremely deadly Bai Family Scattered Hands.

The fighter didn't even have a second thought before he felt like he was hit head-on by a speeding truck on his chest.

The pain was so great that he was sent flying.

Under the shocked gaze of his companions, the hit man smashed heavily into the wall.

The whole medical hall trembled.

And those beaters beside him first took a look at their men who had fallen to the ground, not knowing whether they were alive or dead.

"Dry ritual food, dare to touch my Yin family."

Without waiting for Rats to order, they directly picked up the machetes in their hands and rushed straight up.

It was just that in front of absolute power.

The number of people was just a number.

Under the siege, none of the dozens of people could even get close to Lin Mo.

This was the moment of the battle.

No one was aware of the situation.

Not far away from the building, a slender young girl was standing in front of the window, watching the fight with curiosity.

"This young man is a good fighter, isn't he?"

Uncle, if you were to fight him, how would you win or lose?"

As his words fell.

A middle-aged man holding a purple sand pot next to the young girl also stood up.

He came to the young girl's side.

The man first looked at the situation on the medical school side for a while.

After taking a sip of his tea, he smashed his mouth in boredom before saying.

"Eldest Miss, this youngster has not even exerted the greater part of his power.

Moreover, this son's sword qi is hidden inside his body and does not show.

The long sword in his hand looks ordinary, but it is extraordinary.

I can't see his full level, so I can't presume to speculate."

If Lin Mo had heard these words, he would have been shocked.

After only looking at him for a moment, he could see through his own roots, so he must be an expert who had hidden himself deep.

After hearing Uncle's words, the curiosity on the young girl's face became even more intense.

"Uncle, shall I go and try him out later?"

At this time, the man beside her, already full of boredom, sat down on top of his seat.

Hearing the young girl's question he then shook his head and said.

"No, we are out here for Elder Zhao's condition.

It is not good to stir up trouble."

Chapter 2536

As the man's words fell.

The young girl could only puff out her goldfish mouth in disappointment.

This Uncle, although he was protecting himself in the name of a bodyguard.

But in reality, he was Grandpa's personal butler.

If she was bent on having her own way, and Uncle went to Grandpa's side and complained, she would inevitably be reprimanded.

Turning back with a pleading look, the young girl's eyes grew frosty.

But the man had long since become immune to her cute tricks.

"Eh, this tea just doesn't smell like wine, it's boring."

He said and shook his head, ignoring the girl.

In this way, the young girl could only give up her inner impulse and turn her head to continue watching the fight in the medical hall.

.....

A few minutes later, Lin Mo had simply finished off all the fighters in front of him.

With a relaxed face, he clapped his palms.

A dozen beaters under his feet were falling to the ground and wailing continuously.

.

At this moment, the rat was terrified, not expecting this kid to be so strong.

But the aura that emanated from his hands made his heart tremble.

"Who exactly are you?"

Lin Mo, on the other hand, shrugged his shoulders indifferently.

“Just a young man with a will to help when the road is not fair.”

In an instant, a bitterly cold aura swept towards Rat.

At this moment, Rat couldn't help but breathe, at this moment it seemed like his heart was being grabbed.

And this kind of powerful to desperate aura, even in Brother Tianpao, had never been seen before.

For a moment, Rat was directly frightened and backed up.

“You, do you know that we are from the Yin family.”

It was just obvious that his plan was going to fall flat.

The Yin family's name might be feared like a tiger to others.

But to Lin Mo, it would not play any role at all.

When the other party had finished speaking, he simply returned in a cloudy voice.

“There is someone to shovel the road if it is not fair, and there is someone to manage the matter if it is not fair.

If your Yin family is doing wrong, someone will naturally come to clean you up.”

With that, he lightly raised his right hand and pushed it forward.

Rat's whole body was like a kite with a broken string, and fell heavily against the wall.

When he said this, the onlookers shouted in shock.

“Who is this young man? He's got a lot of courage.”

“It's the first time I've met someone who dares to sing against the Yin family like that in front of a large audience.”

“Cut it out, he's just young and arrogant, in the end the Yin family will just have another life on their hands.”

As the crowd chattered.

Rat's side violently spurted out a mouthful of fresh blood.

He felt the pain in his body, and his eyes were full of despair.

His meridians were severed.

After that, he would be a ruined man.

And all this was just a casual strike from Lin Mo.

“This is the price for doing evil!”

Seeing how powerful Lin Mo was, the group of fighters didn't dare to stay any longer.

Carrying Rats directly towards the door.

It was also at this moment that Lin Mo suddenly shouted under his breath.

"Stand still!"

Rat shuddered in shock and was dragged back by his breath.

Only to see Lin Mo slowly speak to.

"The agreement stays!"

The situation was stronger than the man, so Rat obediently did as he was told without tears.

Lin Mo also didn't pay any attention to the other party, he just helped himself up to help Boss Zhang.

After taking out a healing pill and taking it for the latter, he then asked.

"Do you have the contract for the loan in your hand?"

Boss Zhang shook his head with a helpless expression.

"They took all the contracts away and didn't leave me a single one."

Sure enough.

Hearing this, Lin Mo frowned tightly.

He wasn't like the other party, who could be so reckless as to play rough and call it frosty.

Without a contract in hand, this boss was the one who was in the wrong after all.

Thinking of this, Lin Mo then turned his head towards Rat and asked.

"How much does this boss owe you guys, I'll pay it back for him."

At these words, Rat said viciously.

"The principal plus interest is only sixteen million two hundred thousand.

How about it, kid still planning to help pay it back?

I can remove a fraction of that for you, sixteen million will do."

Chapter 2537

Now that his meridians have been destroyed, his mind has become even more extreme.

What just did not occur to him was this.

Hearing such a huge amount of money owed to him.

Lin Mo didn't even furrow his brows.

With that, he took out a cheque from his pocket.

“Sixteen million two hundred thousand!

The contract stays.”

Rat looked at the cheque in front of him, the long string of numbers, and suddenly froze for a moment.

One had to know that even if they sold this Kang De Chinese Medicine Hall, it was still far from being worth this amount.

Of course, the Yin family was not short of money.

The main thing was that they wanted to take over the Chinese Medicine Center and form a monopoly in the medical market.

Now that Lin Mo had interfered with it, it was obvious that the Chinese medicine school might be lost.

It was obvious that he might take over the Chinese Medicine Center.

But the words had already been spoken and the contract in his hand was clearly written in black and white.

If he wanted to renege, it would be impossible to do so.

Rat was staring deadly at Lin Mo, his eyes full of anger.

Kid, you’ve ruined my business!

But even though he had no choice, he could only accept the cheque with a gloomy face.

Then he threw the loan contract in his hand.

“Kid, you’ll regret it!”

After a cold snort, Ratty led a group of his men to leave the place with quick steps.

Waiting for their figures to disappear.

Lin Mo then turned around and returned to Boss Zhang’s side, quickly treating his wounds.

“Boss Zhang, are you feeling alright?”

At this moment, Boss Zhang was also in a daze.

He had thought that he was going to die, but he had never expected to be saved by a young man he didn’t know.

It was just that he had never seen this young man in front of him before.

Seeing the other party’s lack of reply, Lin Mo called out again.

Only at this time did Zhang Gong come back to his senses.

With a guilty look on his face, he hastily greeted.

“Thank you, little brother, for saving my life.

I am Zhang Gong, I did not expect this matter to drag you in.”

Lin Mo didn’t care too much about this.

Ever since he had arrived in Pan Yang, the hostile situation between him and the Yin family had been predetermined.

To put it more seriously, Lin Mo wanted to protect the Yang family’s mother-in-law and daughter-in-law, and wanted to purge the prestige of the Pan Yang Martial Alliance.

He and the Yin family would be at loggerheads.

A conflict like this was just a minor matter.

“No need to be polite, Boss Zhang, Lin Mo’s recent such I bully the weak and do wrong things.”

At this moment, Zhang Gong let out a long sigh.

“It’s not that I look down on little brother Lin.

It’s just that this Yin family is so powerful in Pan Yang that it’s desperately huge.”

“Now that you’ve started a conflict with them, they’ll definitely be looking for you in time.”

Just as he said that his eyes suddenly glowed, and then his words changed.

“Mr. Lin, from your accent you shouldn’t be a local, right?”

After waiting for Lin Mo to nod his head.

Zhang Gong suddenly became excited.

“Mr. Lin, listen to a word of advice from Mister Zhang.

The water in this Pan Yang is too deep for you to grasp at your young age.”

“In this way, little brother, while they haven’t made a move on you yet, you should hurry and leave.

Then the money owed, I will sell the medical school and find a way to get it together for you.”

However Lin Mo only smiled and shook his head.

“Boss Zhang, since I, Lin Mo, dare to strike.

Naturally, I’m not afraid of their Yin family, so you can rest a*sured.”

With that, he patted the latter’s shoulder.

This person was kind-hearted and right for this signboard of Kang De.

Without waiting for the other party to reply.

Lin Mo then went on to say.

“And since Boss Zhang, you intend to bid on this Chinese medicine hall.

Bu Fan will transfer this medical hall to me.

As for the sixteen million, how about we just write it off?”

When these words came out, Zhang Gong hastily waved his hand and refused.

“How can I do that? Even if I sell this medical school at a premium, it will only be a fraction of the price.

No way, no way!”

“Mr. Lin, I still have a few houses here in Pan Yang.

I’ll give them all to you then, and I should be able to make it up.”

Chapter 2538

Lin Mo also smiled and asked.

“The house is all given to me, but you don’t even have a place to live, Boss Zhang.”

Just facing Lin Mo’s joke.

Zhang Gong was full of indignation.

“This f*cking Pan Yang is no place for people to stay.

This Yin family doesn’t even give us a chance to live.”

“It’s good to be without these fixed a*sets, so I’ll save my mind, I’ll go to the mainland in a few days.”

Along with his flurry of complaints.

Lin Mo also suddenly realised the problem.

Under the Yin family’s oppression, merchants who did not want to be in cahoots with them would definitely flee the city.

This would undoubtedly add insult to injury to the already economically backward city of Panyang.

By the time the province has been reorganised, there will be a lot of waste to be rebuilt.

This is exactly what is needed to attract investment.

Thinking of this, Lin Mo suddenly had an idea in his mind.

“How about this, Boss Zhang.

After all, you have been running a medical school for so many years.

And I happen to need someone I can rely on as well.”

“Might as well, Boss Zhang, you stay and help me take care of the medical school?”

Faced with Lin Mo's invitation.

Zhang Gong also had a face full of hesitation.

From the book of his heart, he had long been disappointed with Pan Yang's side.

Especially after experiencing this life and death, he was already desperate.

Therefore, he would rather sell all his family business than stay in this Pan Yang city.

And this benefactor, who had saved his life, had suddenly made an offer, so he could not refuse.

At this moment, Lin Mo could obviously see his mood as well.

Rolling his eyes, Lin Mo slowly lowered his voice.

"Boss Zhang, if you trust me, Lin.

I have a word of advice to give you here!"

When Zhang Gong saw this mysterious smile on his face, he was curious for a moment.

"Mr. Lin, please speak!"

Lin Mo slowly spoke after coming closer.

"The Yin family is just a small local power.

Believe me, they are just a grasshopper after the autumn, they won't be able to bounce around for long."

"Boss Zhang, why don't you join me to see what will happen after the fall of the Yin Family!"

After speaking, Lin Mo straightened his stance and waited for the other party's reply with a smile on his face.

At this moment, Zhang Sheng was also full of shock.

But on second thought.

Although he did not know the identity of this Lin Mo.

But from the way he spoke and acted.

This person did not have the slightest fear of the Yin family at all.

With this in mind, Zhang Gong asked with curiosity.

"Mr. Lin, can you tell me where you came from."

"Kyoto, can Boss Zhang recognise it!"

At these words, Zhang Gong's eyes instantly widened.

So everything made sense.

Thinking back to Lin Mo's previous words, Zhang Gong's eyes also grew hotter and hotter.

"Good, I, Zhang Gong, will give up this sound body fat today and join Mr. Lin in seeing the new future scenery of this Pan Yang."

In his excitement, he directly slapped the table and stood up.

But he had forgotten that he was still injured.

This action directly caused him to grimace.

Lin Mo saw what had been done and smiled slightly.

He had his own considerations when he insisted on keeping Zhang Gong here.

He thought that the Yang family's mother-in-law and daughter-in-law had no experience in business.

With this Zhang Gong holding the reins of the medical school, Lin Mo did not have to worry about the operation of the school.

Besides, when the Yin family collapsed and Pan Yang was on the right track.

This Zhang Gong could also contribute to the development of Pan Yang.

Of course, the medical school has been taken, but Lin Mo's business is not yet finished.

The number of people gathered here was just right.

He simply took advantage of the heat and put up the recruitment notice he had originally planned.

"Recruitment for medical school guards, unlimited number, monthly salary one thousand five hundred."

As the crowd read the notice, they couldn't help but snicker.

"Che, this person is too stingy, a thousand and a half a month, I can earn this much from going out to beg for food."

"Really, who are you looking down on."

"And you should know that this medical school has offended the Yin family.

If you really become the caretaker of this medical school, won't you be going up against the Yin family?"

"Yeah, yeah, I thought there was an unlimited number of people.

He wants people to work for a monthly salary of 1,500, I shame!"

Along with more and more sarcastic voices.

The people who were originally watching the fun also gradually dispersed.

Chapter 2539

The story of Kang De Medical School, the recruitment of people, was also spread more and more widely.

For a while, the meagre salary turned into a joke in the city of Panyang.

And within the medical school.

Captain Chen was also full of doubts.

“My lord, why don’t we raise this salary condition upwards.

You see there are no applicants for that one outside this door at all.”

However, his proposal was directly rejected by Lin Mo.

“There’s no rush, let the news spread for a while first.”

With that he approached Zhang Gong again, for this person’s dispute with the Yin family, Lin Mo felt that it was still necessary to find out about it.

And after Zhang Gong learned of Lin Mo’s intention, he did not have any inhibitions.

He recounted his entanglement with the Yin family in its entirety.

From Zhang Gong’s mouth, Lin Mo learnt.

It turned out that this man’s medical skills were not bad, and to be precise, he could be considered a miracle doctor.

It was just that at the beginning of last year.

It was because the medical school needed to purchase a batch of medicinal materials.

At that time, Zhang Gong’s family had sold several new houses.

At that time, Zhang Gong’s family had sold several new houses, so they were unable to supply the money.

After learning this news, the Yin family came straight away and said that they had a batch of herbs that Zhang Gong needed.

They also politely said that they could let Zhang Gong owe the money for the supplies first, and that it wouldn’t be too late to pay them back when they had money.

The interest rate of ten percent a year was not too high, and Zhang Gong really needed the herbs at that time.

So he agreed straight away.

After both parties signed the contract, the other party took back all the original contracts in duplicate on the grounds that they needed to be read by the family head.

Zhang Gong saw that there was no problem with the quality and quantity of the herbs.

He did not think much about it and agreed to the other party’s request.

However, a few days later, the other party suddenly came to the door with the contract in hand.

The original annual interest rate had suddenly become a monthly interest rate.

The interest rate was also rolling.

At this point, Zhang suddenly realised that he had been duped.

But the other party was too powerful.

Although he was furious, he could only swallow it with his teeth broken.

He thought that after buying the house, he would hurry to replace the money.

Only he continued to underestimate the shamelessness of the other party.

By the time he intended to buy the house, all the intermediaries had received a message from the Yin family.

It was simply not accepted by him.

What was even more abominable was that this Yin family also frantically suppressed his medical school's business and did not give him any chance to repay his debt at all.

As for his business friends, they even saw him like a plague and avoided him, so they would not lend him money.

As a result, the original \$5 million debt for the medicine harvesting was increased to \$5 million within a year.

In just one year's time, it had grown to 16 million.

After listening to Zhang Gong's retelling.

Lin Mo nodded his head.

"It seems that the Yin family has not only suppressed the Martial Alliance to death.

It is also powerful within the business circle."

"Moreover, his ultimate goal is to take over your Chinese medicine school.

He wants to take over your Chinese medicine school to achieve a complete monopoly of the entire medical world."

As he spoke.

Lin Mo Lin was also silently analyzing.

It seemed that this Yin family was planning to make the entire city of Panyang his own business kingdom.

Even more precisely, it was his private kingdom.

Wildness is very big, ah, this person justifies that there is no one in the Martial Union?

And along with Lin Mo's side and Zhang Gong explored the Yin family.

A group of teenagers in ragged clothes suddenly arrived at the entrance of the originally cold medical hall.

As soon as they entered, the leading teenager stared at Lin Mo and the others and asked.

“You’re hiring people here, aren’t you?”

Seeing the people who had risen to apply for the job, they actually looked like this.

Captain Chen then prepared to kick them out.

However, before he could act.

Lin Mo suddenly stood up and first sized up the dozen teenagers in front of him.

He then nodded in satisfaction and said with a smile.

“Recruit, of course I’ll recruit!”

The leader of the other party was first shocked to see that Lin Mo was not even a few years older than himself.

Then he asked again.

“Leaving aside the salary, do you guys manage to get food here?”

“Yes!”

“How many people do you want?”

“As many as you have, I’ll recruit!”

“Are there any conditions?”

“Anyone under the age of 25 is welcome!”

With one question and one answer.

The teenager leading the other side, after getting the answer he wanted.

He immediately showed a happy face.

“Alright then, we’ll apply for the guard job.”

With that, he went over to the side of his young companion and ordered a few words close to his ear.

The man then ran out in a frenzy.

At this time, Lin Mo asked with full interest.

“What’s your name?”

“Di Yun, from the White Phoenix Mountain in Hanoi!”

At these words, Lin Mo instantly exchanged glances with Captain Chen with a surprised face.

Chapter 2540

Hanoi's Baifeng Mountain is more than 1,400 kilometres away from Pan Yang.

And looking at their dusty appearance, coupled with those worn-out shoes.

Lin Mo felt something in his heart and suddenly asked.

"You came on foot?"

Faced with Lin Mo's question.

Di Yun nodded bluntly.

"It took almost a month and a half or so to walk all the way in between, right?"

At these words, Lin Mo's eyes widened in shock.

Walking over fourteen hundred kilometres on foot, what kind of concept was that.

And looking at the other party's stance it was obvious that there were other companions.

Thinking about this, Lin Mo once again asked.

"Why is this?"

In theory, your side of Hanoi is rich in agriculture and has a well-developed animal husbandry industry.

Why did you have to travel thousands of miles to come to Panyang City."

At the mention of this matter, Di Yun's originally naive face suddenly grimaced.

With full of anger, he said.

"It's not because of that group of vampires."

"They took back all our fields in the name of consolidation and unified management.

Not only do we have to pay them thirty percent of the harvest every year.

There is even a poll tax per member for each family, and the strong men are doubled."

"Under such circumstances, the strong men like us became a burden to our families.

So we thought that we could make a living."

After hearing this, Lin Mo nodded indifferently.

"All right, I've understood your general situation."

After waiting for a while, Di Yun's companion who had run out, had run back at this time.

What surprised Lin Mo was that he had hundreds of companions behind him.

Moreover, the appearance of those tattered clothes looked like the refugees in the legend.

Lin Mo turned towards Di Yun and asked.

“These people, you know them all?”

After seeing the latter nod his head.

Lin Mo couldn't help but frown.

It wasn't that he disliked too many people.

Looking at the essence through the phenomenon, the greater the number of such people, the harder the life of ordinary people over in Hanoi.

What a lawlessness!

Lin Mo was also disgusted by the practices of those local forces.

But rice had to be eaten one bite at a time, and the road had to be taken one step at a time.

The most urgent task was to finish things like Pan Yang first.

Only after this place was stabilised could the door to the Great Qu Province be truly opened.

As for Di Yun, seeing this expression on Lin Mo's face, his heart suddenly panicked.

“Boss, we don't ask for much in terms of salary.

As long as we manage a meal, and we'll take care of our own accommodation.”

Along the way, they had refused too many times.

The other side took one look at them and saw that they had escaped from Hanoi.

They didn't dare to take them, and with their appearance, they were even more rejected.

If they couldn't find any more work to fill their stomachs.

Many of them would have to collapse from hunger.

At this time, Lin Mo also came back to his senses.

Looking at the other party's anxious faces.

He regained his smile.

“It's alright, there's no need to be anxious.

Except for you, there's still you”

After a roll call, Lin Mo then continued.

“Other than a few of you, the others, I'll take them all.”

And at this moment, the few people who had been named immediately stepped forward with discontent on their faces.

“On what basis? We’re not as good as that group of country bumpkins at that point.”

Seeing this, Lin Mo smiled coldly.

“Just because you guys are not right-minded.

Within Pan Yang City, a random security guard is far more than a thousand and a half dollars.”

“Besides, it is also clear that there is a conflict between this and the Yin family as well.

What do you want me to go on?”

He had been told who he was.

The few people who were still yelling, instantly lowered their faces and fled the place.

Knowing this, Captain Chen then understood the purpose of Lin Mo’s offer of such a super-bottom salary.

This seemingly random act was actually a screening threshold.

Unless one was desperate, there was no ulterior motive.

On Di Yun’s side, when they heard Lin Mo’s decision, the crowd could not help but look excited.

Only Di Yun’s face was cloudy and uncertain, filled with a torn expression.
