

## Genius 2651

### [Chapter 2651 2656-Fist Fight!](#)

The giant crocodile viciously bit down with its teeth, thinking that the human's body would be broken in an instant.

However, it did not expect that ye chen had already seen its weakness. The flat upper jaw inside the teeth was extremely soft!

There was some elasticity to the kick, so ye chen naturally entered the crocodile's mouth.

Without any hesitation, he pulled out his sword. From the outside, a white light flashed.

The crocodile's eyes immediately widened, and its pupils expanded. It didn't show any signs of life.

"This is so funny. Do you think you can beat me when you're playing?"

Another white light flashed and the body was cut in half. Ye chen jumped out unscathed.

For now, these were just some appetizers that couldn't attack his body in any way. It didn't even consume much of his physical strength.

After shaking off this dirty body, ye chen strode forward, wanting to see what was next.

As expected, after he walked past a few rocks, a roar came from the grass in front of him, and the one that appeared was the king of the forest.

This body was also several times larger than an ordinary Tiger, and its huge eyes were emitting golden light.

It was as if just a slight refraction would directly flash an attack.

In any case, this aggressive appearance was clearly much stronger than the previous ones. However, this was nothing to ye chen.

His expression gradually became a little sinister, but he still had a smile on his face. If the Tiger in front of him was willing to escape immediately, he might let it go.

However, if they really wanted to stay here and fight head-on, then they could only be like the previous few, leaving their lives here and never being able to live again.

Ye chen kept his expression and put away the sword in his hand.

He wanted to use his hands to beat the Tiger in front of him.

In any case, in this wilderness, it was impossible for anyone else to come and get involved. So, how about a carefree and satisfying melee battle?

He walked forward step by step, and the Tiger was now a huge prey in his eyes.

What he had to do now was to use his own strength from the wilderness to subdue this Tiger.

This wild beast's sensitivity was indeed very strong. However, it did not expect ye Chen's killing intent to be more ferocious than a pure-blooded beast like itself.

This sense of danger made him feel unsafe, but as a beast, when it saw prey, it should do its best.

"Come, let me see how much power you have."

Ye chen chuckled and clenched his fists again. Then, he suddenly quickened his pace and ran over.

He stepped on a slightly higher rock and instantly jumped three feet high.

The two fists were like two huge bags that fell down fiercely!

Naturally, the Tiger was not to be outdone. With such a large body and such a powerful system, how could it allow ye chen to attack it?

The Tiger immediately wagged its tail and ran to the other side. However, it was caught off guard, so its ribs were still hit hard.

A deafening roar was heard once again.

Ye chen was also very agile. He covered his ears. After all, the situation was dangerous no matter how he looked at it. Sometimes, the roar of such a huge beast was more powerful than their fists.

As expected, the lion's loud roar woke up all the birds in the forest.

The birds quickly flew up into the sky, and many of them didn't have time to hide, so they were all knocked to the ground by the sound.

Ye chen released his hands from his ears and turned his neck hard.

It seemed that this match would be more interesting than he had imagined. This Tiger was quite powerful.

The tiger's roar was like a show of force. At the same time, it boosted its morale and it pounced at ye chen again.

It bared its fangs and brandished its claws, trying to press the human in front of it to the ground.

Unfortunately, he had still underestimated ye Chen's spirit activity.

Of course, ye chen had seen such a big move, so he quickly curled his body into a ball and rolled to the side.

It used the least friction to avoid the damage, and after making sure it was safe, it stood up and punched the Tiger's back.

This punch seemed to be very light but in reality, the rib on his back had been crushed by ye Chen's punch. It was as if a large gap had been created in an instant.

Ye chen raised an eyebrow. He still felt that his posture was not up to standard. This punch should have landed in the middle. Otherwise, his entire rib cage would have been broken.

It was time for the Tiger to surrender, or it would turn into a soft worm!

In short, the Tiger's body was already covered in wounds, but the huge spirit body would not let him give up so easily.

Therefore, when ye chen attacked him from the back, he suddenly flicked his tail and turned his head around fiercely. He opened his mouth and bit down.

It was a pity that ye chen had already grasped the strength of the Tiger in front of him.

He quickly grabbed the Tiger's raised left claw with both hands and threw it backward, then raised a foot and kicked on the Tiger's stomach.

With a loud cracking sound, the Tiger fell from the sky and landed on the ground with a thud.

Ye chen stood to the side and gently wiped the sweat from his forehead.

To be honest, although the first two teams were dealt with quickly, there was no sense of confrontation at all. However, the feeling of this Tiger was very pleasant.

He really didn't expect that there would be a day where he would have to fight with this broken Tiger for so long.

But fortunately, even if it looked like a little bit of effort, the actual result would not change.

He took it as a good exercise. After sweating, he felt refreshed.

He stretched his back comfortably, then strode to the front of the Tiger and gave it another kick.

It was the first time he had seen such a huge Tiger. He had just accidentally become his opponent.

Otherwise, he would have really wanted to spar with this big tiger and make it his Mount!

Of course, there was no need to say that now. After all, it had been cleaned up. It wiped all the blood on its body on the Tiger's fur.

Then, he patted off the dust on his body, stood up, and walked into the depths of the ruins.

The more he fought, the more bored he felt. From the beginning until now, he had only encountered some wild beasts with exaggerated sizes. He had no real opponents at all.

And now that he had obtained the medal for killing three beasts, it was time to see if there were any stronger ones.

He walked towards the stone tablet step by step, using all the strength in his body to suppress the thoughts that came from nowhere in his mind.

"It seems this thing is quite troublesome."

In his current thoughts, this stone tablet should be the so-called mind control!

In this case, as long as they fell into the trap, they would not have to wait for the crocodile and Tiger to appear.

The bird from before was enough to eat him whole.

He simply found this scene, which seemed very powerful but was actually filled with illusory power, extremely funny.

So, when he suppressed his thoughts and walked to the stone tablet, the stone tablet that was originally shining gradually dimmed.

It was as if it had been coated with a layer of gold powder. When one got close to it, there was no reflective feeling, and it became inferior.

Only then did he see clearly that the words on it should belong to the so-called Python clan. In short, the words were winding and did not look like they were written by humans.

At first, he felt that it was quite annoying. After all, he couldn't understand this thing.

However, he didn't expect that the scene in front of him would perfectly overlap with the situation he had encountered when he first entered this place.

The complicated text was right in front of his eyes, and he translated it word by word.

"Miracles can bring death, resurrection, eternal damnation, and immortality."

Looking at the sentence that appeared in front of him and then looking at what was written on the stone tablet, the difference was just too great.

As expected, the words written by these strange snake-like creatures were not something that ordinary people could understand!

He didn't think too much about this sentence. After all, he wasn't afraid of any of the situations that would occur from this sentence.

So far, it was really difficult to find the next opponent, so let's see how difficult it is to enter this place!

That was quite mysterious. How could he be resurrected?

Looking at this group of B \* stars now, he didn't even have the chance to die.

He gently let go of the stone tablet, and then walked around it without looking at him.

It was just a deep forest, so it didn't matter if enemies were everywhere.

At this time, a giant spider that was in the middle of ascending slowly opened its pneumonia. Every move in the forest was monitored by it.

Its huge spider web could capture any prey in its hands, and then quickly swallow this small forest. It was the king here.

At this moment, he felt a strange power that didn't belong here. It was slowly approaching, as if it was a sudden attack. It was extremely strange.

So his eyes suddenly burst out with light, because this meant that his new prey was coming.

It seemed that someone was going to break this ordinary life that had almost no waves.

However, what the venomous spider did not expect was that the prey it thought was the prey was actually the real Hunter.

Ye chen walked forward as he looked around. Only then did he realize that the small forest in front of him was emitting a thick black fog.

It felt like a rotting corpse. Could there be a spirit in it?

This thought that suddenly appeared in his mind was immediately dispelled by him.

It was obvious that the forest wasn't big enough, and this was a relic. Logically speaking, it should be a similar type of monster.

Of course, there was no trace of fear in his heart. In his eyes, no matter what appeared now, he would kill whoever came. He was just afraid that he would not kill them enough.

"I'd like to see if there will be any new surprises this time. Don't Let Me Down. "

When ye chen thought of this, his footsteps became much lighter. He even wanted to whistle.

At this time, the spiders in the forest began to work non-stop, weaving a web. This web was not an ordinary web, but a huge poison formation.

Almost every outsider who tried to pass through him would fall into his poison array and be completely corroded, turning into his food.

After all, he needed a lot of energy to deal with such a large poisonous Spider.

And if it was a human, then he would get even more good things.

The huge poisonous net was quickly woven and slowly disappeared from the ground.

When he saw ye chen walking into the forest from the dark, he became even more excited.

This was because it was more nutritious than he had imagined. This man was much better than the previous trash. If he could become his own nutrition, it would be too rich!

Ye chen walked forward step by step, approaching the center of the forest little by little. His heart was calm, and what appeared in front of him was a huge spider web.

He started to complain in his heart, "the beast hidden in this forest is actually a big spider. Is it trying to wrap me up with such a big net?"

To be honest, he was a little uninterested. After all, it was not as good as he had imagined. It was even a little bit of a drag.

The new opponent he had been looking forward to for a long time turned out to be a stinky Spider that had turned the forest into a foul place. It seemed that he had to get rid of this public hazard this time.

He pretended not to know anything and walked to the middle of the forest. He looked at the big spider that he thought had not been discovered and felt that it was extremely ugly.

The venomous spider did not know that ye chen had already discovered it. Therefore, in its eyes, it still thought that its prey was extremely stupid!

To walk to the center with one's own energy and then be consumed and turned into one's own food, this was too shocking, right?

Without any extra attacks, this human had fallen into the trap!

The giant venomous spider approached ye chen step by step. Its dark face could not hide its greed.

Ye chen could not hold it in any longer because the spider's saliva smelled like a toilet.

If he didn't take action now, he would really vomit from the smell.

Ye chen really did not want to wait any longer, nor did he want to use his hand as a tool for attack. Instead, he instantly drew the sword on his body.

"You stinky thing, I'll cut you into pieces."

He suddenly jumped up, and before the spider could react, he slashed his sword across the air.

#### [Chapter 2652: The white-robed figure!](#)

Whether he should say it or not, the pig's eyes were really powerful, and they were more detailed than those of other wild beasts.

It noticed ye Chen's little trick at a glance and quickly stretched out its front two legs to subdue ye chen. However, to his surprise, just as the two legs stretched out, there was a flash of silver light. Ye chen had only gently cut them with his sword and they were neatly cut off from there!

There wasn't even enough time for blood to flow out, but in this dark world, it didn't matter even if there was.

From the moment ye chen had entered the forest, he knew that the spider was poisonous.

Therefore, he had been holding his breath since the beginning, and he was very light to not touch the spider.

The venomous spider's every movement was very ingenious, and even waving his big legs was of no use.

"As expected, big things like you don't have brains!"

He laughed out loud, stood up, and stepped back.

This venomous spider had also become manic at this time.

It really didn't expect that its almost foolproof formation would be so much weaker at this time.

When it saw that ye chen had finally retreated, the venomous spider immediately began to reel in its web!

This was the last resort. He had never done such a tedious step before.

In the dark, the huge spider web in the forest quickly retracted. The sound of the threads bouncing didn't seem to be very loud.

However, in reality, this frequency was enough to disturb the nerves of every living creature, of course, except for ye chen.

It didn't care if other creatures could survive. It was obvious that there were other small animals in the forest.

Now, all of them had been killed because of the venomous spider's anger.

Unfortunately, the venomous spider had miscalculated because ye chen was not afraid of these things

at all.

Of course, ye chen had also heard the noise but he was not affected. He just really hated this kind of noise.

A gust of wind blew past, and a small spark appeared out of nowhere. Then, the spider silk that was gathering quickly was instantly ignited.

The venomous spider that was standing there was completely shocked!

At this time, he didn't care whether his body had suffered a loss from this ordinary-looking young man in front of him.

It only wanted to escape from this demon-like man. Even if it was greedy, it couldn't possibly be willing to die Here!

In the eyes of a mutated insect like him, the animal's agility was even more intense.

Unfortunately, he didn't have the chance to continue doing so.

Ye chen watched as the huge fireball gradually gathered in the forest. He quickly retreated and jumped out of the circle of fire.

The spider couldn't leave, because the most important thing about the poison formation made of spider silk was that it needed the master of the center to guard it.

Moreover, it came out of his body, so there was no way to avoid it.

The venomous spider was extremely afraid. It threw away its remaining six legs and wanted to climb out of the circle of fire. Unfortunately, there was no chance this time.

When the Ring of Fire reached the center, it became a complete fireball, and the foundation of this ball was Du Zhong's fat body.

Ye chen looked at the fire that was burning not far away but still did not care.

If the person hiding in the dark was not willing to make a move, what else could he do?

In any case, he had come to these ruins just to walk to the end.

The problems and losses encountered in the process should not be borne by him. Instead, the so-called beasts and sinners who guarded this place, or rather, the so-called beasts and criminals who were controlled here, should deal with all of this.

He just had to boldly walk forward.

He went around the huge fireball, trying to leave the small forest.

Because of the poisonous spider's influence, the forest was very gloomy. The cold wind kept blowing.

Compared to the normal temperature outside, it was like a cellar.

Of course, other than the warm area around the fireball, the other areas remained the same.

Suddenly, a slightly different energy appeared in this ordinary air. Ye chen did not move but he could not help but smile.

Sure enough, as long as he made a big enough move, people would definitely find out that he had deliberately set the forest on fire in order to lure out the person behind this.

The stinky Spider did not occupy any of ye Chen's strength at all, so it had the energy to deal with the people guarding the ruins.

They might even be able to make friends if they exchanged pointers.

Of course, he had always been used to being alone, and even if he made friends, they were just acquaintances.

Ye chen strode forward, his face expressionless as if he knew nothing.

They were already halfway through their journey, and they would be out of the forest in less than a kilometer.

To be honest, ye chen was still a little puzzled. Could this person be so good at holding back that he was only willing to show his face after ye chen entered the depths of the arcane realm?

He shrugged his shoulders helplessly and strode forward, increasing his speed. However, he had only walked a few hundred meters when a figure appeared not far behind him.

It was as if a hurricane was heading toward him.

Ye chen smiled.

As expected, he didn't wait for nothing. Wasn't he here?

He continued to move forward according to his original plan.

"Who are you? After burning down the forest, they actually turned around and left?"

A white figure floated out from behind him and appeared in front of ye chen like a cloud.

He looked at the White figure in front of him and realized that it was floating in the air. This was really unnecessary!

Did he think that he would be frightened by such a fake move?

"My friend, you're wrong. I was just defending myself. That Spider wanted to kill me in that forest. You didn't come out then, but now you're coming out?"

"I think you're a little too late to uphold justice!"

After ye chen had finished speaking, he sat down on a Flat Rock at the side leisurely.

He picked up a blade of grass beside him and put it in his mouth. He raised his eyebrows and looked at the White figure.

There was no fear in his eyes, and he even seemed to want to negotiate. His tone was extremely good, and his attitude was also fine.

It was obvious that this white figure had been here for God knows how long, so it was very resistant to everything outside.

He had never met such a strange person who was not afraid of him and was even inexplicably getting closer to him.

"The destroyers of the forest should be killed."

The White figure stood there, unaffected by ye Chen's jesting tone.

"Indeed. I've already taken care of that poisonous Spider."

"How is it? Did I do the right thing? As for the innocent trees that were burned, they were all because of the huge web that the spider had laid. "

He said in a carefree tone.

However, the White figure had no intention of listening to ye chen continue to waste time.

"He should be killed."

The two words were light, but they were very clear in the quiet environment.

When ye chen saw the little white Spirit's stubborn appearance, he did not intend to continue pretending to be a good person. His eyes instantly became ruthless.

"Alright, then come!"

Now, he really wanted to know what that head covered with a piece of white cloth looked like. It couldn't be that there was nothing below, right?

In any case, who knew if they would encounter more strange things in the remains?

He didn't draw his sword, because he subconsciously wanted to fight with this man in white who was pretending to be mysterious.

Only close-range attacks could expose him.

The white-robed figure quickly floated toward ye chen who was on the rock.

However, what he did not expect was that the figure that was in front of him a second ago had suddenly disappeared!

“Little brat! Look at this!”

With the help of the moonlight, ye chen appeared behind the White ghost without anyone noticing and pulled the step off its head!

What ye chen did not expect was ... The bright moonlight shone on the face of the person in front of her. It was a very young face, even a little delicate.

Judging from her appearance, she should be a girl.

Why did the voice sound a little rough, as if it was from a middle-aged man?

He had thought that he would be beaten up in the next second, and a slap from an innocent beauty was nothing.

Who knew that the figure of doctor Bai would quickly cover his face with his hand, as if he had the strength to suffocate himself.

”

A miserable scream came from the body and ye chen subconsciously took a step back.

At this moment, he saw that the young face was rapidly aging, as if every year was like a second.

“I’m sorry,” she said.

Therefore, this monster should have been able to exchange a few moves with him.

However, when ye chen suddenly lifted the veil, it was as if they had completely lost their ability to fight.

As expected, the reason for the aged voice was found, because the current appearance matched the voice.

“I’m going to kill you!”

The moonlight was slowly covered by the dark clouds, and the figure kneeling on the ground seemed to have returned to normal.

He immediately stood up and covered his head with the cloth again. Then, he opened his hands and all ten of his fingers instantly turned into long and thin silver needles.

“You’ve changed your attitude way too quickly. There’s no warning at all.”

Ye chen glanced up from the corner of his eye at the half-hidden Moon. He had a rough guess in his heart.

It seemed that this was also a punishment from the remains!

She would never die and would always maintain that appearance.

He probably couldn’t come out during the day. After all, even the moonlight at night had made it impossible for him to hide.

At this time, ye chen really felt that the process was very interesting.

The treasures that belonged to the ruins were guarded by so many strange guys. It would definitely bring a lot of surprises. This was simply an interesting test.

The five fingers glistening with silver light instantly streaked across his face, only a few millimeters away from it.

Ye chen heaved a sigh of relief as he dodged. He stepped on the tree next to him and jumped into the sky.

Before the hem of his clothes could fall down, he dashed toward the back of the White figure and kicked him ruthlessly.

The feeling of being kicked so hard made ye chen retreat in an instant. That kick felt like he had stepped on a ball of cotton, so it was likely that the white shirt was empty.

Of course, another possibility could not be ruled out, which was that this old monster should have been so thin that he was only skin and bones!

He was worried that there was no one to lead him in the next direction, and now the best helper had come.

This was much more interesting than the traitor he had met outside, and he must be more reliable! The more he thought about it, the happier he became. He couldn't help but list the White-clothed figure in front of him as his subordinate.

"You must be having a hard time here. Why don't I help you escape and be a normal person?"

"Don't tell me you like to live like this?"

Ye Chen's mouth did not stop moving. It was better to keep dodging. He did not restrain himself or even take the initiative to attack.

"What a joke. How much power do you have? you're actually still here fantasizing about taking me out?" He seemed to have thought of something. He laughed while his body trembled, and his shadow became faint.

This expression and this action made ye Chen's head hurt. It seemed that this damn thing in front of him had already been deceived.

"I think there are very few people who can reach this place, right?"

Ye chen dodged the sharp nails again. He could not hold it anymore and destroyed one with a raise of his hand.

"Not too many, not too few, but none of them can leave alive."

Ye chen was a little vexed by his stubborn look, so he could only try to persuade him again.

"Look at your current strength. I want to know what it takes for you to agree to my request."

Ye chen had just finished speaking when he destroyed another sharp nail.

Since that was the case, why not just get rid of this overbearing thing directly?

Even cats would be more obedient after their nails were cut off, let alone this person.

The white-robed man, whose strength had been weakened by two waves, was immediately enraged and charged forward again.

His claw immediately left five marks on the tree behind ye chen, and half of the trunk was pierced through.

Ye chen stood on the tree and looked down at the man in white with a slightly serious expression. Then, he raised his eyebrows again as if he was breaking the ice.

"It seems like the lesson wasn't enough. You still think I'm easy to deal with, right?"

The sword behind ye chen was slowly pulled out. Under the moonlight, ye chen looked like a swordsman. He quickly jumped down and swung his sword!

The man in white was stunned because the ten thick silver needles in his hands had all been broken.

### [Chapter 2653 Huge Palace!](#)

"You want to leave this place, right? as long as you follow me, I can take you away."

Ye chen quickly retreated. It was a complete slap and then a date!

After all, the man in white didn't even realize that his nails and silver needles had all been broken.

This could almost be called his most powerful attack, but who knew that it would be cleaned up by this young man in front of him in two to three moves?

Even though the man in white already felt that there was no difference between being alive and dead. However, he did not expect to encounter such a powerful enemy for the first time. He was so stunned that he could not retaliate.

Ye chen had also seen the situation clearly and seized the opportunity to state his most tempting conditions.

"I don't think you're stupid. You should be able to see how strong I am now. Although I didn't show much, I did break your nail, right?"

Ye chen said in a relaxed tone, as if it was a very friendly discussion.

After all, everyone knew that the strong would always have the advantage during negotiations. They could also relax as much as they wanted, because being strong was already the most effective attack.

"I can't give you too much time to think about it. You decide for yourself. You can either come with me or I'll destroy you here forever. Then, I'll leave by myself."

The reason ye chen was willing to go on and on was that he could feel the struggle in the heart of the man in white.

It was because of this struggle that he was able to persuade the other party to leave more smoothly.

As expected, Bai slowly backed away. He was still floating in the air, but he felt a little depressed.

It looked even more like a ghost than when it had first come out. It was floating in the air, its white body incompatible with the dark night.

The wound on his hand was healing rapidly but ye chen was not afraid at all. After all, the speed at which he broke was much faster than it grew back.

"Alright, you only have three seconds to think about it. I'll start counting down now. If you still can't make a decision, then I'll give you a big gift bag to keep you away from war."

After hearing the enemy's words, the man in white stopped retreating. He even floated forward with determination, as if he didn't care about his life.

Ye chen almost laughed out of anger when he saw his expression. Was it that difficult? He wasn't afraid of losing his life if he followed him. Besides, what was the use of having this life in this ghostly state?

Of course, he could only think about it in his heart. He definitely couldn't say it out loud. Otherwise, he would be the one who offended her.

"Are you sure you can ask me to take you out of here?"

After the man in white approached ye chen, he was silent for a while before asking in an icy tone.

Ye chen nodded very seriously. Although he could not see the man in white's eyes, his eyes were still fixed on the man as if he could see through the White cloth.

"If you can't take me out of here, I'll hunt you down forever until you die."

Ye chen nodded nonchalantly again, but it gave people a strange sense of security.

In reality, ye chen really wanted to laugh out loud. What was the meaning of these words? was he trying to scare him?

With the man in white's current strength, how was it possible for him to fight him to death?

Not to mention, who knew what other situations he would encounter after he brought it out!

Thus, the two of them came to a consensus at this time. In any case, they would just charge forward, and ye chen needed a helper to recognize the way.

This way, it would be easier and faster to save time.

The man in white had been trapped here for countless years, so he was eager to leave and was not willing to be The Guardian of this broken forest.

After they hit it off, the man's attitude softened a lot. He kept a distance from ye chen and followed him.

"Yes, yes, yes. We're partners now, so don't think about playing tricks behind my back. Besides, you should know my strength."

Ye chen had already made it clear before he left, so there was no need for further explanation.

Although the man in white had a grudge, he was not an unreasonable person. After confirming ye Chen's strength, he quickly decided to support ye chen.

It could also be considered a struggle for himself. After all, he was here. This damn place had been sealed for tens of millions of years.

He really didn't want to stay here any longer. Even if he had to leave this place, at least he could go out and see the outside world before dying alone.

That was still much better than being disposed of by ye chen here.

Thus, the black and white figures walked forward together, but in this gloomy forest, it was as if the black and white impermanence existed.

At this time, ye chen had probably discovered that there were very clear dividing lines here, just like now when they had walked out of the white-robed man's watch range.

"You should know what I'm going to encounter next, right? introduce me."

Ye chen had already seen the scene in front of him as he walked forward. It did not seem like it would be easy to deal with.

It was a huge Palace, but it looked a little illusionary.

To see such a new palace in a place like this, it was simply too fake.

Therefore, ye chen only needed one look to know that the person guarding this place probably had the ability to transform.

As expected, he heard the white-robed man give him a simple introduction of the so-called next person.

The person guarding this place was an old monster who had been trapped here for an even longer time. He was almost like a Divine Dragon that was elusive.

Compared to the previous predicaments, this one was clearly more tricky.

This was because he wouldn't directly confront people, but he would make people fall into this illusion forever, and they wouldn't be able to escape until they died of old age.

In short, as long as one's willpower wasn't completely firm, once they were drawn to a small gap, as long as they controlled it, there would be no room for them to turn things around.

This might sound strange and even difficult to understand, but in fact, many people would run through all the difficulties in front of them, but they still couldn't leave this Palace.

This place would completely reveal a person's desires, analyze the deepest desires in one's heart, and turn them into reality, so no one could escape.

"You make it sound so impressive, but I might not believe you. If you say no one can escape from those behind, does that mean no one can really go there?"

After all, there were still many difficulties ahead. If what the man in white said was true, then he was obviously a little too sure.

"Someone probably went there, but I don't know. I don't like to care about these things."

The white-robed man said coldly.

Ye chen did not continue to ask. He would be able to see it in a while anyway, so he wanted to see how fun this so-called environment was.

"We've never really seen this old monster's appearance. We only know that this Castle is sometimes bright and sometimes dark. "

He walked alone behind ye chen and suddenly said this again, which sounded even more terrifying.

The two of them quickly approached the large Palace. After walking in, ye chen realized that this place looked much more real than it did in the distance.

When ye chen got closer to the huge Palace, he saw that it was a magnificent place. Ye chen roughly understood where the temptation came from.

After all, even if people came to these ruins, almost all of them were after good things.

In this place, this big demon should be able to create a lot of good things that made people drool and unable to move their feet away. It sounded full of temptation.

"If you want to go in with me, will you be affected as well?"

Ye chen glanced at the man in white beside him and asked with a raised brow. Of course, he hoped that this helper would follow him in.

"Of course I can, but I'll be more or less affected. I might even drag you down."

There was a hint of resistance in his tone but ye chen did not allow him to resist. He grabbed the man in white's arm and did not care if it was uncomfortable or not.

Thus, the two of them walked straight into the door of the palace. As soon as they pushed the door open, they saw a huge Hall.

It was just that the existence of all this was actually too exaggerated.

How could it feel real in such a place? This was a historical site, and it had a history of tens of millions of years.

No one knew how many old monsters were controlled here, but they must have brought a very troublesome obstacle.

The two of them had been moving at a very fast speed since the beginning. After all, they had to pass through this Palace in order to leave this environment. It was really a headache.

Ye chen kept looking forward as he walked, trying to use his steady breathing to stop his thoughts.

This feeling sounded very direct. After all, the impact of these gold, silver, and jewelry was not weak. However, ye chen did not have any desire at all, so he could walk over calmly.

In fact, he was still a little surprised. Why could those people not resist such temptation?

Logically speaking, since he had already reached this stage, what was the use of this money?

He reckoned that there would definitely be more powerful traps waiting for him, so he would wait and see.

Ye chen did not feel much fear but he did not expect the white-robed man beside him to lose his balance and slow down his pace.

Moreover, he seemed to be surrounded by something. Ye chen was shocked when he heard his weak whimpers.

He turned around and found that the man in white had stopped in his tracks, holding his head in his hands.

It was as if he had heard something terrifying, but he had clearly not seen anything!

Could it be that the illusion had already begun? And what was this man in white afraid of?

Then, ye chen saw a terrifying scene. The man in white started to hit his head against the ground.

His expression wasn't as ferocious as before. Instead, he started to laugh violently.

"Wake up! What's wrong with you?"

Although he didn't have any feelings for this suspicious person, he would usually just turn around and leave.

But now, he still needed to help. Not to mention, this man in white had brought him here. Since it was appropriate to lend a helping hand, it was nothing.

"Bear with the pain, I'll help you up first."

As soon as ye chen said this, he kicked the man in white, separating him from the ground. Then, he quickly grabbed the two wrists and broke them.

Of course, it was not over yet. After all, this person looked a little crazy.

Ye chen pressed the man in white against a pillar and began to recite the calm heart Sutra in his ear.

This method was also the fastest and steadiest method ye chen could find at the moment. After all, this person was jumping around too wildly. If he did not apply pressure, he would immediately go berserk.

Ye chen shook his head helplessly as if he had found trouble. Fortunately, although this old monster was not a thousand years old, he was still quite skilled. After a while, he gradually calmed down.

After the white-robed man regained his composure, he seemed to have not had enough. He stood there in a daze and did not say a word. When ye chen asked him a few questions, he only replied with a few words.

"If I had known, I wouldn't have brought you in. Look at your willpower. It's too weak. You were controlled so easily. I haven't even seen it. I only left for a short while and you're already controlled."

Ye chen shrugged his shoulders helplessly. He pulled the man in white and strode away.

This place was really mysterious, and he didn't know where all these strange things came from.

The man in white was stunned and allowed ye chen to lead him forward. He did feel the illusion earlier but he could not escape because it had always been a sore point in his heart.

The reason why he was imprisoned here was because he had committed many evil deeds. At that time, he had slaughtered almost everyone in the city and even burned the city down.

This didn't sound like much of a psychological burden for a demon. The biggest dilemma was in that city and his family, who had been with him for a lifetime. He had grown up in that city.

In the tens of millions of years that he had been locked up, there was not a single day that he did not recall these things.

And the biggest punishment this place gave him was to make him never forget that gentle memory.

Although that was his childhood, it was undeniable. It was also the happiest time of his life. Now, he didn't have much desire to escape. He just wanted to see the city.

Ye chen kept walking forward, but it seemed like he could not get out of this place. After going round and round, he seemed to be in the palace. Was there no back door?

"What's going on? Are you really not going to let me out?"

He frowned and pulled one of them over. At the same time, he took a quick look around. Indeed, there was no way out. It was like a huge hollow area.

Although he didn't want to admit it directly, he could clearly feel that he had become a little irritable.

He didn't know if all these things were related to this place, or if they were influencing him subtly.

### [Chapter 2654 2658-Polarization](#)

He could faintly hear some small voices in his ears.

It was as if these sounds had come from somewhere unknown. They had no time to come up, but they were almost undiscovered. The most terrifying thing was that the danger it brought was simply unpredictable.

Fortunately, ye chen had already noticed his mood. For some reason, after walking for such a long time, he began to feel irritated.

To be honest, he had told himself that everything had to be peaceful ever since he came in.

Logically speaking, he shouldn't have been so irritable in such a short time.

But now, it had become like this uncontrollably. If there were no accidents, it should be caused by this resplendent Palace. As for the person hiding behind all this, he had to find him today.

To be able to create such a huge illusion, he must not be a simple person!

However, even though ye chen thought this way, he did not intend to bring this person to his side.

A person who could easily conjure an illusion was much more dangerous than someone who could attack you casually.

This was because they brought about a subtle influence, a danger that was simply unpredictable.

Ye chen stopped in his tracks and reached out to grab the man in white beside him. Then, he ran in the opposite direction with him as if they were escaping to the place they had entered earlier.

This seemed very strange. After all, if he ran back like that, wouldn't everything he had done be in vain?

They had only traveled a short distance. If they went back now, all their previous efforts would be in vain.

The man in white just did not understand one thing, so he subconsciously tried to break free but ye chen held his wrist tightly.

Suddenly, the two of them were stunned by the scene in front of them. When they ran back, everything that they had just passed by seemed to have disappeared.

The place had turned into ruins.

However, when he turned his head around, he realized that the path was still the same. It was as if they were two extremes of the world.

In an instant, the two of them stopped in their tracks and looked at each other in surprise.

The man in white did not expect this to be the scene. He had seen this Palace before and it was slightly dilapidated. However, he had never thought that it would turn into ruins. Could this be the most primitive and real scene?

"Oh my God, I didn't expect to be so unlucky. But I'm not afraid, I just find it a little funny."

Ye chen looked at the two sides, not knowing if he should or should not. The things created by this illusion were really strange.

The man in white did not say anything. He just stood there in silence, as if he was at a loss.

"By the way, what's your name? I don't want you to forget my name after I bring you out. I was about to tell you to leave, but I forgot, so I grabbed your wrist. Is that okay?"

Ye chen looked up at the man in white and smiled.

The man in white looked at ye chen with mixed feelings. Why was this human so strange? no matter what he did, he seemed to be unconcerned.

And he, an old monster who had been guarding this place for tens of millions of years, still seemed to be calculative about everything. This might not be a good thing!

"I'm Lin Mo. "

He said in a very calm tone. His eyes also swept to the other side. He seemed very unfamiliar with this name because it had been a long time since he had mentioned it.

To him, this name seemed to be something that no one had ever remembered. Even the people who passed by would only call him the man in white and the monster in white.

Many years had passed, and no one had ever heard this name.

Ye chen nodded thoughtfully after hearing that and smiled.

"Not bad. Your name is Lin Mo. That's a good name. Although you're not as handsome as me, it's still not bad. It suits your spotless appearance better."

The fact that he could not bear to hear me mention this word made the white-robed man a little uncomfortable. After all, his hands had seen so much blood that they were not worthy of being spotless.

However, he did not expect to be caught by ye chen again before he could even explain a few words. She ran towards the door.

"Let's go, let's go. There's a way out. "

On the surface, ye chen seemed to have been talking all this while, but in reality, he had been observing his surroundings as he spoke, as if he was trying to see through something.

This indeed made him see that something was wrong. The ruins seemed to have no way out, but in fact, there was wind.

That was why some of the things on it were rolling.

However, the most important part was the vent. Even though it was in ruins, it was possible to vaguely make out the location of three corridors.

These three paths all extended from the opening under their feet. It was obvious that they had to go the right way. Otherwise, all their efforts would be in vain.

An ordinary person might have tried to pick one but ye chen had noticed that there was something wrong with the letter. Even if it was very subtle, he could see something floating in one place. This was the biggest piece of information.

The two of them didn't say anything else. The man in white didn't have much thought about whether he could escape or not. He felt that it was quite interesting to be able to make a trip like this.

Ye chen, on the other hand, strode toward the road with wide steps. His confident look did not make the man in white refuse or deny it. After all, he had not observed it.

So the two of them walked in this direction, and at this time, the remaining two roads beside them collapsed with a loud bang. Below them was an endless abyss, and only this road was still intact, stretching forward.

"That scared me to death. Fortunately, I managed to protect this point. Otherwise, this would be too tragic."

Ye chen patted his chest as he spoke, heaving a sigh of relief.

"By the way, Lin Mo, what's the reason for you staying here? How long have you been here? And who trapped you here?"

Ye chen was just asking casually. He thought that since it was him, he would answer if he was willing to. It was fine if he was not willing to answer.

After hearing his words, Lin Mo shook his head and said softly,

"It's just that I've made a mistake that I'll never be able to make, so I'm staying here to atone for it. "

After he finished speaking, ye chen had a rough idea of what was going on so he did not continue asking. The two of them quickened their pace.

Finally, they had walked through the ruins and entered another cave.

"It's almost the same as what I guessed. I knew it was a huge scam."

After finally entering the cave, ye chen said smugly.

This was a cycle. If he and the man in white continued to walk down that path, they would not get any results.

On the contrary, they would be affected by the sounds there and gradually become agitated. In the end, they would definitely die a very miserable death.

But it was different now. He had found a way, and it was indeed much more suitable!

However, before he could stay for long, a huge stone wall appeared in front of him, and there were two figures standing at the door.

"Is that a human?"

They were a little far away so ye chen could not see clearly. He asked Lin Mo, who was beside him.

"I don't know,"

The cave was pitch black, and he could only see that place. There were indeed two human-like figures guarding it.

No matter how strong they were, they still had to be on guard. So, the two of them slowed down at the same time and walked slowly toward the door.

He didn't expect to find that the burly figure in front of him was actually two soldiers made of stone.

"I was wondering what it was, so it's just two fake people. But How do I open this door?"

With that, ye chen stepped forward and prepared to use the same trick he had used before, which was to detect if there was anything wrong with his spiritual energy.

However, he didn't expect to be stopped by the man in white just as he reached out.

"It's best not to use spirit energy in here, or else it'll be very easy to be affected. "

The reason why Lin Mozhi was so confident was that he had been very calm at the beginning. If he had not felt that something was wrong with this place and used his spiritual power, he would not have fallen into such an obvious trap.

When ye chen heard what he said, he immediately retracted his hand resentfully. 'I didn't expect this to happen. I can't help it then.'

They could only use their current most direct method, which was to touch it with their hands. Of course, they could only do it gently.

Otherwise, if he accidentally triggered another mechanism, who knew what danger would suddenly appear?

Hence, the two of them split up, one from this side and the other from that side, searching for the mechanisms here.

There was nothing on the huge rock that was tightly sewn together, so ye Chen's eyes fell on the two Dummies. He stepped forward and directly prodded the guns in their hands.

Just as Lin Mo was about to touch the one on top of it, a rumbling sound was heard.

The two Dummies in front of him suddenly moved. Two beams of light even shot out from the place where the eyes of the armor were closed.

"Hide behind!"

As soon as ye Chen's voice fell, he quickly pulled the man in white behind him. As expected, a spear crouched down at the place where the two of them had been standing.

Ye chen was so frightened that he felt a little scared.

However, after they came back to their senses, they couldn't let go of this thing that had scared them so much.

Ye chen flew up and kicked the stone statue's head with great force.

As expected, he kicked the helmet to the ground, but there was nothing on it.

The man in white did not report like ye chen. Instead, he pulled out a white strip from his side and tied it around the armor's neck. The pin broke when he pulled it back.

The helmet of the armor also fell to the ground. He thought that it would reduce the attack power of this thing, but who knew that it would suddenly become more violent!

The two headless armors held Spears in their hands and stabbed wildly in front of ye chen, as if they were constantly missing the area in front of them.

Of course, ye chen could not be persuaded to leave just like that. He stomped on the wall beside him and flew up onto the heads of the two armors. Then, he smacked them hard.

The spirit power gathered in this palm was not little at all, so when it hit the chest of the armor, a piece directly melted.

The other one was thrown at the other armored body at the same time, and in an instant, their upper bodies were also turned into ashes. Their two arms fell to the ground. They were all just armor, and the inside was empty.

Of course, this was not enough. The two legs were still moving, and Lin Mo, who was at the side, did not hold back either. With a sweeping kick, all four legs fell at the same time, and the armor was shattered into pieces.

At this moment, he thought that it was over, but a crisp sound suddenly rang out, and something fell out of the armor.

It rolled one round and reached ye Chen's feet. He looked down and saw a small round ball.

He picked it up with some doubt and found that it was a small ball wrapped in a very thin package. He pinched the bottom of it and there was a silver-white key.

The silver-white key looked strange. It did not look like a traditional key. Instead, both ends were round. Ye chen looked at Lin Mo after he picked it up.

"This thing looks like a key, but where should I put it? when we touched the door just now, I didn't find such a groove."

Lin Mo nodded, feeling a little strange as well. Since that was the case, he would have to look for it again.

In order to escape, it was not a problem to encounter such a small problem, so the two of them very quickly continued to search.

The shape of the groove was strange, and it was also a very thin key, so he had to touch it more carefully.

Ye chen touched his hand from top to bottom and felt that he could not find anything. Just as he was about to give up, his fingernails touched an empty space.

It turned out that the key was supposed to be placed inward instead of overlapping with the inside. Ye chen immediately called the white-robed man over and stuffed the key in.

Boom! Boom! Boom!

The door seemed to have suffered a huge shock and began to tremble. It slowly opened to both sides and ye chen took a few steps back with Lin Mo, just in time to avoid the falling stones above him.

By the time the noise died down, the doors were all open, and the floor was a mess. However, the two of them didn't care and quickly passed through the door.

However, what they did not expect was the scene behind the door, which was even more shocking.

It was like a prison for the wild beasts. After they entered through the door, they found themselves in a long corridor.

On both sides, there were some extremely fierce and huge wild beasts.

Perhaps it was because not many people had come in here before, so when the group of beasts heard the door open, they immediately showed a very manic expression. One by one, they all knocked against the iron cage, wanting to rush out.

#### [Chapter 2655 2661-Overcoming Difficulties!](#)

,m Although these wild beasts looked rather terrifying, ye chen was not too afraid because he could see that the iron fence was extremely strong. It was almost impossible to break out.

Moreover, this was an illusion. How could there be anything that was worth being afraid of?

As long as he was clear about this, he would not encounter any danger. The most important thing was to overcome the fear in his heart.

"Lin Mo, close your eyes and just walk with me."

Ye chen said to the man in white beside him. Why did he push the man in white behind him? the two of them walked forward, one in front and one behind, without looking sideways.

After taking two steps, they closed their eyes at the same time. Of course, this didn't affect their walking.

Even if their eyes were closed, it was impossible for them to leave? This was because their snacks would detect if there was any danger ahead.

The beast's voice was getting weaker and weaker, and the two of them continued to walk forward like this. When they were sure that there was no sound, they opened their eyes.

This place was really extremely strange.

Of course, it was impossible for them to walk out of such a huge Palace so easily.

The genius who had created the illusion had not expected ye chen to be so difficult to deal with.

The people they had encountered before had either taken advantage of the situation and ran over, or they had barged in as forcefully as ye chen.

No one could leave easily. Almost all of them died. They could be considered experts. After all, he actually made it to the last stage.

"This door looks good. It should be the last one. Open this and we can go to the next wave."

Ye chen finally heaved a sigh of relief. After all, he had gone through so much trouble. Finally, there was a result.

Compared to the previous Starlight, this illusion was really more troublesome and troublesome.

He would rather waste some energy than sit there. Who wouldn't feel tired after walking for such a long time?

The man in white nodded his head slightly and did not say anything. After all, this was just a normal thing for him.

Furthermore, Lin Mo also wanted to see who the person who created the environment was. Even if he did not know who the person was, he still wanted to see his face.

After all, a person who could do this couldn't be too weak.

He reckoned that she must have done something terrible like him, using the little ability she had to hurt others.

Although he had his own difficulties at the time, after reflecting on himself for so many years, he knew that sometimes, a decision made in anger was simply irreversible.

The two of them strode forward. They were now in a wide area.

Ye chen was not afraid at all because he knew that he was about to face a very interesting scene. Of course, he hoped that he could have fun.

Just as they were walking forward, they suddenly heard the sound of a collapse behind them. They turned around and found that the road they had just passed had been turned into ruins.

This huge Palace was originally a dark land of ruins. At a glance, one could only see a small mountain of stones and tiles.

"That's not giving them a way out at all. It seems like there's no way to run away from the ruins this time. However, it's impossible for me to go back. I'll leave this place as soon as I push open this door."

Ever since he came to this monument, ye chen had seen many new things. They sounded very fun and could not stop him.

"Alright, come out. What kind of man are you to hide? of course, you're just an old monster."

After ye chen finished speaking, he changed the topic and even laughed a few times. The meaning of his ridicule was too obvious.

In this empty place, his words could even echo. If there were others here, they would think that he was sick.

However, he did not expect ye chen to start running madly after he finished speaking.

Then, he stepped on a large pillar beside him and took a few steps upwards. He flew up to the beam of the house and kicked a dark shadow.

Lin Mo was dumbfounded as he did not sense any aura at all.

He did not even know why ye chen had such a big reaction. What surprised him even more was that his kick had really hit something!

He saw that the black shadow paper had only been touched by the force of the throw, but it had not been completely kicked.

Because he had also reacted. He quickly jumped down from the beam and stood in front of the gate.

Ye chen said in amusement after he jumped down.

"You've really changed my opinion of you. Why are you creating dreams for others here? why are you on the beam when you're used to it? Are you going to be a thief?"

He had always liked to hit the nail on the head, not to mention that this person's methods were indeed sneaky enough.

Although it was his ability, this method was also despicable. If he had the ability, why not have a real fight and see?

"How dare you! No one can escape from my predicament!"

The middle-aged man in front of him said in a crazy manner and even laughed out loud.

At first, ye chen did not think much of it. However, now that he saw that this person's spirit did not seem right, ye chen felt a little uncomfortable. He took two steps back and maintained a safe distance.

"No way. Is the person who created the illusion a genius or an idiot? he looks a little crazy."

Ye chen whispered to Lin Mo who was beside him.

"I don't know. I've never seen him in person before."

When ye chen heard what he said, he realized that this madman had been using this environment to trap him in here.

He was also affected by this environment. If he tricked others into coming in, he would only be tortured, and he himself would not be able to escape.

However, ye chen would not feel sorry for this person. He was just a passer-by. Feeling sorry for this kind of person would only bring bad luck to himself.

"Forget it, forget it. Let's cut the crap. It's just a fight. If we win, we'll leave through this door. We won't meet again in the future. Let's go, follow me up to take a look."

Ye chen said in a relaxed manner. Naturally, he was not too afraid.

He was just a lunatic. Now that he didn't have the protection of the illusionary realm, there was no point in talking about anything else.

"Come on, let's exchange a few moves and let me see your strength. This way, we can still compete."

He strode forward and arrived in front of the man in just a few steps. He did not draw his sword. Instead, he teleported to the man's side and slapped him.

The middle-aged man obviously didn't react in time. He only heard a crisp slap in the empty Hall.

Lin Mo, who was watching from behind, was stunned. What the hell was this man doing?

There was such a big physical attack? it simply didn't give people any face.

Of course, he was only thinking about it in his heart. After all, when he had met ye chen before and saw him slaughter the spiders, it was already cruel enough.

Although everyone was a bloody person, when they really looked at others, they were more or less surprised.

Ye chen, on the other hand, did not feel that anything was amiss. He even turned around and smiled at his companions behind him before running back.

Ye chen had approached the man and slapped him just to divert his attention. In reality, ye Chen's purpose was to test the man's strength.

It was indeed not bad. He had the strength of a fifth stage God Emperor. Compared to the Lou Lou that he met outside, he was indeed much stronger.

This kind of person must be very arrogant, so wouldn't it be a little funny if his arrogant wings were broken?

After being hit by ye chen, the man would not let it go so easily. After he had dodged, his large machete rushed out and the machete became twice as long!

"You think you can fool me with this little trick? Lin Mo, hide further away. "

After ye chen finished speaking, he drew his sword from behind his back. Not many people had seen this exercise clearly.

This was because as long as he showed this, almost no one would be alive. Moreover, ye chen had always upheld the principle of 'stop after a fight' and did not drag things out.

"Not bad, not bad. Let's see if my sword or your saber is tougher. Let's see how you'll cry after I break it in one move!"

Ye chen raised his head and laughed maniacally before charging over. The sword in his hand seemed to have transformed into a ray of light.

"What a joke. I don't believe that anyone can escape from my place. So what if you're at the end of the line? those who deserve to die still have to die!"

The man in expensive robes pulled out his large sword and aggressively slashed at ye chen.

Who knew that when the two collided, the Golden and silver light would directly open up a path in the middle. Then, ye Chen's side would heavily crush the other party.

From the ground, one could see the shadow of the light. It was no longer light, but a force that had turned into a physical entity. The one opposite it had been ground into a thin rope.

The master of the illusion fell to the ground with a thud, bleeding from his seven orifices. There was no chance of him surviving.

All deals were set in stone. The place had returned to silence. Ye chen only glanced at the man lying on the ground and the man looked away.

The master of the environment had already lost his life, and this illusionary realm had also suddenly become illusionary.

The ruins were still ruins, but the hall and the palace in front of him had also disappeared, revealing the deep blue sky.

Even the clothes of the man lying on the ground had turned to ashes. His body was also blown away by the wind and disappeared.

It was as if there had never been such a large Palace in this place.

"Alright, let's go. We should go to the next place to take a look."

To be honest, ye chen was very suspicious that this place was a trap set by the heavenly Snake Clan.

The Divine Master secret dimension was said to be a place that they had searched and guarded for a long time, but in truth, it did not have much good stuff.

Not to mention that the ones being controlled here were all old monsters.

It was rare for him to come here to benefit the world. He would save them a little, or just free them directly.

The set of doors that he thought he would need to do something to crack had disappeared with the passing of its master.

It took the two of them some time to walk through the ruins. After all, the road was not as wide as a person's, and it was full of stones and some fine debris. If they were not careful, they could hurt their feet.

Of course, Lin Mo did not have such a problem. His entire body was floating in the air, as if he was a ghost.

The two of them walked together for a long time. This path was much longer than the medicine path they had walked before, and they even felt a little tired.

"No, no, let's rest for a while. I really can't walk anymore. How can it be such a long journey?"

Ye chen could not figure it out. He felt that they had encountered a ghost. Otherwise, how could they have walked for so long and still not reached the final exit?

Lin Mo felt helpless as well. After all, he was in the forest, and even if he could see the palace, it was only a Palace. He was not sure what was in the next stage.

Therefore, the two of them were aimlessly searching and moving forward. Moreover, the other party was in the dark while they were in the light. Most of the time, they could only keep a low profile.

Right at this moment, a sharp bird's chirping could be heard from the sky, as if it was searching for something.

Moreover, the sound was getting closer and closer. Ye chen wanted to avoid it but he did not feel any hostility from the other party.

After a while, the giant bird slowly landed on the clearing where they were.

Then, it glared at ye chen and Lin Mo with its big round eyes.

At first, ye chen could not identify what kind of mystical beast it was. When it flew down, ye chen realized that it was a six-tailed ROC.

"What's the meaning of this? It doesn't look like he's here to cause us trouble, right?"

Ye chen asked the person beside him in confusion. Unfortunately, Lin Mo did not give him much of a response and only shook his head lightly.

The two of them did not sense any hostile aura from the bird, so they did not make a move at the same time. The six-tailed ROC strode with its big claws and walked closer to the two of them.

Then, he lowered his leg as if he was squatting down.

Usually, this kind of demonic beast would do this either to rest or to carry people with its body.

This made the two of them puzzled. According to the reaction of this friend just now, it was impossible for him to be resting here.

The other option was to take them away, but why? was it another test?

"Let's go up and try. There's nothing else to choose from anyway. I'm tired of walking."

After ye chen had finished speaking, he strode toward the six-tailed ROC and stepped on its feathers to get on its back.

Lin Mo had some doubts in his heart but when he saw ye chen so relaxed, he did not ask any more questions. He followed ye chen and climbed onto the ROC's back.

After making sure that the two of them were standing firmly, the six-tailed ROC propped up his legs like this, then spread its wings and flew into the sky.

[Chapter 2656 The ROC Clan!](#)

"What's the meaning of this? Could it be that time can really take us out? that sounds quite interesting, don't you think?"

Ye chen sat on the ROC and gently stroked its soft back with one hand as he turned to ask Lin Mo.

Of course, Lin Mo knew that everything seemed calm, but it was strange no matter how he thought about it. However, he did not say it out loud and only gave a faint reply.

"It's better to be careful. "

"What do we need to be careful of? Look at my strength, and look at your identity as a thousand-year-old demon. Wherever we go, we'll be the strongest!"

Ye chen said jokingly.

As soon as he finished speaking, the ROC he was sitting on jolted and almost threw him off.

The six-tailed ROC's speed was getting faster and faster. Finally, when the two people on top of it couldn't sit still anymore, it slowly slowed down.

Then, the two of them looked down and were very surprised.

There was a huge forest below. At first glance, it was not green at all. There were even some black and red bloodstains floating everywhere.

"What happened here? Why did it become like this?"

Ye chen and Lin Mo finally understood that the six-tailed ROC had found them and brought them here. It was probably just a coincidence that it had come across them and was looking for help.

Sure enough, the six-tailed ROC led them around the most central part of the forest, where the dispute was, and to a secluded place. Then, it put the two of them down.

Ye chen had just come down when he saw the ROC flapping its wings anxiously and pointing the way for the two of them with its long beak.

Ye chen noticed that something was not right, so he strode over. He was not afraid of these slightly large mystical beasts anyway.

After all the leaves had been peeled off, ye chen and the white-robed man finally saw that the bird had brought them to find two little ROCs.

It looked like it hadn't been born for long, and its hair hadn't even grown out yet. Although it looked a little ugly, it was very strange.

This was because it was not the same species as the six-tailed ROC behind him.

Their feathers glowed with a faint blue light. Ye chen glanced at them in shock before turning to the six-tailed ROC.

"This is a blue-patterned Peng?"

When the six-tailed ROC heard ye Chen's question, it immediately nodded.

As they tried to approach the two birds, they suddenly heard a sharp bird call from behind, which was getting closer and closer.

Ye Chen's sharp senses detected this aggression. He stood up immediately and looked in the direction of the sound.

Of course, the six-tailed ROC could tell what it was. Its expression immediately changed and it stood in front of ye chen and the man in white.

Then, she heard him call a few times, probably hoping that the two of them would take the two little blue-patterned ROCs and leave first.

"Then there's no need. You're actually their Guardian? It's better for you to look after them. "

Ye Chen's sudden words frightened the six-tailed ROC. He thought that ye chen was not willing to help but was immediately followed by his words.

"Let's go. Take me to see what kind of monsters and ghosts they are. I haven't met any strong opponents yet. I'll help you settle this wave first!"

His tone was very relaxed and natural as he spoke and patted the six-tailed Peng.

Therefore, the six-tailed ROC did not really trust ye chen but it felt that it had no other choice.

Moreover, the power that this human exuded was inexplicably very unfathomable.

"Lin Mo, you stay here and look after these two birds. We'll be back in a while."

"No problem," he said.

Lin Mo nodded and sat on a rock at the side.

This location was relatively safe and hidden. As long as ye chen and the six-tailed ROC left this place quickly, they would not be discovered.

The six-tailed ROC seemed to have suffered some internal injuries, but there was no blood on the outside.

He should have been protected all this time, but in this kind of situation, he really had no choice but to ask me for help!

He wasn't too old and should be considered the older brother of the two blue-patterned ROCs.

While he was thinking, they had already flown out of their hiding place, quickly flying to the other side and out of the sky above the trees.

There were a few humongous creatures that looked like eagles, and there was a person standing on each of them.

The armor they were wearing was pitch-black, just like the emissaries of the night.

In short, it looked strange and eerie at first glance.

Ye chen could not help but complain in his heart. These people did not even look as comfortable as the man in white, Lin Mo.

"Now, I'll show you how convenient and useful it is to find me!"

Ye chen took two steps forward and patted the six-tailed ROC's head. Then, he jumped forward and into the air.

The Eagle flying towards them had sharp eyes, its gaze like a knife.

Unfortunately, it was just a glance, and the sword behind ye Chen's back had already flashed with white light.

The Man in Black armor was obviously shocked. He quickly flipped backward, and his armor was cut at his waist.

However, the wound on his body wasn't very big, so he didn't hurt anyone.

However, his Eagle wasn't so lucky. It was directly cut in the middle and fell to the ground.

The man was obviously angry and shocked. He was quickly rescued by his companions and attacked ye chen again.

Just like that, the four eagles that flew over were also dealt with.

The six-tailed ROC was scared out of its wits by ye Chen's attack.

These Eagles and their Dark Knights were like a disaster that had descended from the sky.

In this forest, almost all of their comrades had been killed.

There were only a few that were still alive, but they were all injured.

As for the two little blue-patterned ROCs, they had to protect them. These were children that they absolutely couldn't let be snatched away.

In any case, ye chen had dealt with the few that had rushed over and discovered their tracks. Then, he leaped down from the sky and returned to the six-tailed ROC.

"Let's go. We'll go back quietly. No one should know about this."

While ye chen was dealing with the situation, he had already determined that this location was a certain distance from their hiding place.

Moreover, they were also very agile and dodged all the blood stains from the attackers, not leaving a single one.

The six-tailed ROC had also listened to ye Chen's words and hid far away, so it was also not contaminated.

Now that the crisis was over, the six-tailed Peng finally saw the power that came from the foreign tribe. It was so scared that it didn't even make a sound.

After carrying ye chen on her back, she felt that he was a little heavier than before.

On the other hand, ye chen did not feel anything. On the contrary, he felt a lot more relaxed. It could be considered a slightly more carefree battle, but of course, it did not take much effort.

Just like that, the friend brought ye chen back to where they had been hiding.

Lin Mo was obviously helpless against the two hatchlings and stood at the side like a guard.

He was really taking care of their safety, but he didn't know how to do anything else.

Ye chen smiled and walked over to Pat him on the shoulder. Then, he sat on the rock beside him.

"I don't know what happened to this place. It's already a massacre outside. I don't think many of their race are still alive."

Ye chen lowered his voice and said helplessly. After all, even if he knew that they might not understand, it still sounded quite hurtful.

Lin Mo seemed indifferent to all this, but he also expressed what he wanted to say at the appropriate time.

"We can't stay here any longer. There isn't enough nutrition here, and these two blue-patterned ROCs need it the most."

Of course, ye chen agreed with him, so he nodded and said to the six-tailed ROC at the side.

"We have to leave now and find a place for them to eat and drink. Otherwise, these little things won't live long."

After the six-tailed ROC barely recognized what ye chen said, it nodded seriously. Now, it was very relieved.

Because the two people in front of him were really strong, and for some reason, they made him believe in them, and he felt a real sense of security.

The six-tailed ROC quickly carried the two of them on its back, as well as the two young birds, and then flew into the sky again. Of course, it didn't dare to fly too high.

Otherwise, they would be seen. It was not easy to reach the northern part of the forest, where the six-or five-tailed Peng birds used to live. There was enough food here.

At the very least, he could take care of the two children and provide ye chen with some food at the same time.

Of course, the only things that he could eat were some fruits. As for the rest, ye chen lost his appetite with just a glance.

After settling down, ye chen sat on the side and tried to communicate with the six-tailed ROC. However, he did not expect that it was a different species and could not understand the language.

"What should we do? we can't even understand what he's saying. It's like playing the zither to a cow."

Ye chen said helplessly. Lin Mo, who was standing at the side, said something shocking.

"I can roughly understand."

As soon as he said that, ye chen was about to die of anger. He had been fiddling here for so long and he had not seen him fart at all.

He only said it now, and he had to ask himself. Couldn't he tell?

"You're really interesting. Do you think you'll die of exhaustion from talking to me? Forget it, forget it, I don't want to talk to you anymore. It's fine as long as you can understand. "

The giant Roc roughly understood what they meant, so it began to talk about the cause and effect of what had happened here.

It turned out that this forest had always belonged to their ROC clan. Most of them were six-tailed ROCs, and only a blue-patterned ROC would appear every hundred years.

Therefore, these two hatchling were actually very precious to their race, because they were one level higher than them.

Whether it was in terms of aptitude or ability, they would also be better developed and protected in the future.

Who knew that this year, their Queen would suddenly give birth to a pair of dragon and phoenix, which were the pair of blue-patterned ROCs in front of them.

This was a good thing for everyone. Everyone was very happy to support it, but they didn't expect that this matter didn't seem so lucky.

This was because such good news could be considered a disaster.

No one knew where the Eagles in the sky came from, but they had started to attack their clansmen with a clear goal.

The one thing that the six-tailed ROCs all shared was to protect their King, the blue-patterned ROC.

And the goal of those Eagles and the Black Knights was to take away these two blue-patterned ROCs.

As a result, the war began, and it became more and more violent. Every day, many clansmen would die in this war, but no one would give up or surrender.

This was just a sudden and unexpected disaster that had almost wiped out their entire race.

After ye chen heard this story, he nodded. He felt a little emotional. Sometimes, this mystical beast race was more determined than humans.

They would never abandon the lives of their clansmen. Just like what the six-tailed ROC had said, there were not many of them left alive.

Then, the six-tailed ROC seemed to be even more excited. It even knelt down in front of ye chen and the man in white with its slender legs.

"He hopes that we can save him and his clansmen."

Lin Mo listened for a while more before he turned around and passed on the message to ye chen.

After ye chen heard this, he looked at the six-tailed ROC thoughtfully. He felt that the six-tailed ROC was quite loyal.

"Okay, I can help him. I can deal with those Black Knights and Eagles as long as he is willing to follow me. I'll help him if he agrees. "

Ye chen asked Lin Mo to pass on the message.

When the six-tailed ROC heard ye Chen's words, it pondered over it again and again before nodding seriously and agreeing to his request.

Of course, ye chen was very satisfied. Now that he had some benefits, he could help with things. This was nothing to him.

"Lin Mo, you stay here and look after these two little things. Leave the rest to me!"

"It's been a long time since I've shown off my abilities. This is a good opportunity. Not bad, not bad."

Ye chen said with a smile and did not ask anything else.

After walking for so many days, he was a little tired. Now that he had agreed to such a physically demanding job, he had to take a good rest.

"Alright, that's all for now. After I get a good night's sleep, I'll bring you along tomorrow to clear out all those ghostly things."

,m He had always been a man of his word, not to mention that he had just asked the six-tailed Peng a simple question.

Now, those who had survived had basically hidden well and would not be in danger.

However, the Eagles and the Black Knights would still come out during the day to search.

### [Chapter 2657 2662-Kill Them All!](#)

Early the next morning, ye chen was already asleep at the crack of dawn.

He stretched lazily and went to the nearby pool to get some water. After rinsing his mouth, he stood up, feeling hungry.

He thought about the pile of food that the six-tailed ROC had left behind when it brought them over yesterday.

Without any hesitation, he opened the can and took out a piece of dried mantou to chew on.

Although the conditions were limited and the taste wasn't that good, it was already good enough to know something.

Not to mention that it would be a tough battle outside today. He had to protect himself against the enemy and also look after the six-tailed Peng under him.

This race was already in tatters, and there weren't many living creatures left. He still hoped that the fewer injured ones there were, the better!

After he was full, he turned around and saw that six tails had woken up. Ye chen could not sleep at all. The man in white, Lin Mo, continued to watch over the two little ones.

He took out his sword and wiped it clean, then rode on the giant Roc and flew out of the cave they were hiding in, rushing into the forest.

They were flying toward the place where people were fighting.

"Let me see what's going on with this group of demons and ghosts. I still don't know what kind of strange Black Knights they are. This is a good opportunity for me to see them all at once."

And so, just like that, they directly flew into the sky. This kind of eye-catching movement was naturally very quickly discovered by the Black Knights who were constantly patrolling.

In an instant, more than a dozen Eagles and their master surrounded them, forming a huge dark shadow.

Ye chen looked at the scene with a disdainful expression and even laughed.

These people couldn't keep their cool anymore. He didn't know if they had found the bodies of the people they had disposed of yesterday.

He should have done it in front of them. That way, he could still have some deterrent effect, but he could do it now.

Ye chen had wanted to bring the six-tailed ROCs with him but he did not expect that after the group of Eagles surrounded them, they would let out a very tragic cry.

This sound was like a silver needle piercing through one's ear, ruthlessly piercing over.

He could hold it in, but it was obvious that the six-tailed Peng under him couldn't.

Its entire body seemed to be trembling.

When ye chen saw his condition, he quickly patted him and asked him to put him down.

"You can go back. I'll handle this matter. You can come and pick me up in two hours."

Ye chen said in a very casual manner. Then, he jumped up the tree.

He used the spiritual energy in his body to temporarily reduce his weight to zero, and he stood on the top of the tree as light as a feather, just like a swordsman.

The six-tailed ROC could not hold it in any longer. Even if it wanted to help ye chen, it had no choice but to turn around and leave.

The Eagles subconsciously wanted to give chase. After all, their goal this time was to exterminate the entire race.

Unfortunately, ye chen, who was standing in front of them, would not let them do so.

The sharp-headed Eagles seemed to have mutated. Their eyes were black, and so were their bodies.

They seemed to be one with the Black Knight.

Ye chen looked at the one that was charging at him without a care. He did not even use his sword and just kicked the other one in the head.

This caused the Eagle to be stunned. It then drew its sword behind it, and in a flash, The Dark Knight above was cut in half.

The Eagle's neck had been slit.

Perhaps no one had paid much attention to this earlier and even thought that ye chen was just an ordinary human.

However, the scene that was happening in front of them instantly made the other Black Eagles and their Black Knights alert.

Just how powerful was this person to be able to completely deal with him without even waiting for them to make a move!

"Come on, let me play with you guys. You should have expected this day to come when you're bullying the weak."

Ye chen stood where he was. A layer of light blue light instantly appeared around his body like a faint barrier and spread outward.

The group of Black Knights were all shocked by the scene, but a few of them still rushed in very quickly.

They did not think that it would be that dangerous. Who knew that as soon as they rushed in, ye chen would wave his sword and kill two more Black Eagles and black Knights?

It seemed like an unintentional action, but in fact, it was a killing move.

On the surface, the Black Eagles looked like high-level demonic beasts, but in reality, their thoughts were all under control.

Each Dark Knight was connected to a Black Eagle. When ye chen realized this, he almost laughed out loud.

So, in fact, only one end needed to be cut off, not all of them needed to be dealt with, which would be unnecessary.

"Who the hell are you? Why are you here? don't get involved in our business, otherwise, I'll definitely kill you. "

Ye chen almost jumped in shock at the familiar voice.

He turned around unhappily and found that it was another Dark Knight.

This Black Knight was clearly different from the others, because his helmet was slightly golden.

Based on what he had just said, ye chen guessed that this should be the leader of the group of Dark Knights!

It seemed like they could speak. He had thought that this group of Black Knights were all mute!

"You don't have the right to know who it is yet. I only came to help because I saw that they were in such a miserable state. Since you can speak, why don't you tell me some information?"

As soon as ye Chen's voice fell, he did not care about anything else and rushed toward the Golden-helmeted Dark Knight.

When he reappeared, he was already behind The Dark Knight, a sword pressed against his neck.

As expected, ye Chen's guess was correct. As soon as he made this move, the other Dark Knights stopped.

She didn't even dare to get closer and looked at him with some fear.

"Don't move. If you don't move, I won't kill you. But I have to ask you something. "

The leader of the Black Knights finally realized that he had accidentally exposed his identity and was now being threatened.

"What do you want to ask?"

He said in a very irritable tone.

Of course, the group leader wouldn't let him do as he pleased. He pressed the piece of clothing deeper, and a faint bloody mark appeared.

"I'm warning you, you better speak normally. "

"Speak, who sent you here and what do you want?"

Ye chen felt that something was not right. If they only wanted to take the two little ones away, there would be many ways to do so. They would not have to fight to the death like they were now.

Although the six-tailed ROC clan had indeed suffered heavy losses, the other party did not seem to be doing well either.

Compared to playing some small tricks, this kind of loss was too much. It was definitely not worth it, so there must be some other reason.

This Black Knight with a little gold on his head obviously cherished his life more. Otherwise, he wouldn't have been willing to come out after seeing his subordinates being killed so ruthlessly.

After that, all he did was say a few words, and he even hid so far back.

Now that ye chen had placed the blade on his neck, he was indeed trembling.

"You actually dare to threaten us? aren't you afraid that you'll be killed as well?"

Ye chen wanted to laugh when he heard this.

Although he had not deliberately revealed his ability, this method was already enough to make people have enough combat power!

Not to mention, he had not even used half of his strength. Who was the person hiding behind this?

"Do you think that no one else can tell me anything besides you? if I kill you and throw you on the ground, I can still bring the other Dark Knights here for questioning."

Ye chen said coldly. He did not intend to spare this dog's life anymore. Who knew that when he was slightly exerted, this person would let go!

"Wait a minute! I'll tell you. "

"We're here to kill these six-tailed Pengs because each of their friends has a light blue gem in their bodies,"

When ye chen heard this news, he was completely stunned. After all, he did not know about this!

It seemed that the young six-tailed ROC had hidden so much information from him.

However, even though he had just found out about this, ye chen did not cause trouble for anyone immediately.

Besides, he wasn't greedy for this. He just felt a little bit cheated.

"Are you sure you have nothing else to say?"

"What use do you have for these things?"

"We don't know about that."

Ye chen continued to ask the man. After all, this could be another big conspiracy. Although it had nothing to do with him, he was still a little curious.

In any case, as far as the current situation was concerned, these people's strength wasn't very strong, so it could be said that they could suppress the six-tailed ROCs, but they were still far from being comparable to him.

Ye chen would not believe that these people were unorganized and undisciplined.

From the looks of it, there must be other important people hiding behind this.

And these should all be that person's subordinates, specifically coming here to take these blue gemstones. Could it be helpful to improve their strength?

In any case, no matter how one looked at it, it was extremely excessive to slaughter such a large race for such a reason.

This was a complete disregard for other people's lives. Therefore, ye chen was really willing to uphold justice for these six-tailed ROCs today.

Therefore, ye chen did not have any doubts. He knew in his heart that he would not be able to get any more information from this person.

His sword only needed to press down lightly on The Dark Knight's neck, and The Dark Knight's body would be cut off, and he would fall down rapidly.

Ye chen did not intend to ask any more questions, so it did not take long for the rest to be resolved.

In less than two hours, the Black Knights and their Black Eagles who had committed so many crimes in the forest had all died.

Ye chen had nothing to say about all this. After killing them, he stood at the original spot and waited for the six-tailed ROC to come and pick him up.

Sure enough, after a short while, he heard the sound of flapping wings, and then the six-tailed Peng that had just run away came back.

Ye chen walked over and did not mention the sapphire at all. Instead, he smiled and said to the ROC.

"Let's see how I'm doing. I've already dealt with all of them, but you should hide your surviving clansmen first. Who knows if someone else will come? when they come, I'll continue to help you."

Ye chen casually agreed. After all, it was just a little bit of physical strength for him.

The six-tailed ROC's eyes almost reddened when it saw the enemies in front of it fall to the ground. It looked at ye chen with eyes full of trust and admiration.

How could there be such a powerful person? there were so many enemies that almost killed 70 - 80% of their entire clan.

On the other hand, ye chen had finished him off with his own strength!

This wasn't a strength that ordinary people could touch!

After that, ye chen sat on the six-tailed ROC and remained quiet throughout the journey. He did not say anything. Just as they were about to fly to the entrance of the small cave, ye chen patted the six-tailed ROC's body.

"Put me down!"

After he jumped down from the ROC's back, he didn't walk into the hole. Instead, he stood there.

"I've already helped you settle this matter. From now on, you'll have to follow me. I don't recommend you to hide the sapphire from me. "

He was just a stranger he had never met before, and he suddenly asked for help in hopes of getting help.

And now, the six-tailed Peng probably didn't expect that the person it had accidentally found would be so powerful, even to the point where he could look down on all living beings.

The six-tailed ROC obviously did not expect ye chen to already know about this, so his expression was a little frozen.

Then, she slightly lowered her head, curled up her legs, and lay on the ground.

This expression matched with this action made it seem like he was at the mercy of others. Ye chen was so angry that he almost laughed. What did this mean?

Could it be that he had deceived her in order to tactfully express himself, so he felt embarrassed in his heart? was he repenting here?

"Get up? It's not like I'm coveting that little bit of sapphire of yours, so you don't have to look at me like that. "

"Since you've already agreed to be my Mount, then you just have to do your job properly."

Ye chen said this very casually as if he did not care about this matter at all.

After he finished speaking, he didn't look at the six-tailed Peng again and walked back to his room.

Of course, ye chen had asked them not to come out for the time being because he felt that these Dark Knights were just ordinary attackers.

The person who took the sapphires later for important purposes was the one he had to be most careful of.

In any case, he would see if this person was willing to come out. At worst, he would just stay here for a few more days.

#### [Chapter 2658 2663-Two People In Battle!](#)

After ye chen walked into the cave, he saw Lin Mo standing there, looking bored.

"You're done?"

Lin Mo asked casually when he saw ye chen enter.

"Of course. They're just a bunch of small fries. In front of me, I've dealt with them easily."

The six-tailed ROC followed behind and walked in. It didn't look very interested. After coming in, it went to take a look at the two little things first and then nested at the side.

As if nothing had happened, ye chen casually found a few fruits from the side and ate them. Then, he lay down and prepared to sleep for a while.

Who knew that the originally quiet cave would suddenly be filled with extremely loud Thunder!

Ye chen had just closed his eyes when he was jolted awake.

She was already in a slightly bad mood, and now she was even angrier when she woke up even before she went to sleep. So, she patted off the dry grass stuck to her body and stood up.

"What's going on? Wasn't the weather outside pretty good just now? Why was there Thunder all of a sudden? Come, let's go out and take a look, don't hang your head there dejectedly. "

Ye chen patted the six-tailed ROC and asked it to get up.

"Right, you don't have a name yet, right? since you're already following me, it's better to give you a name. You'll be called Pengfei from now on!"

Ye chen said casually. After all, the name sounded very easy to remember.

The six-tailed ROC did not expect ye chen to not be angry and even gave him a name. It chirped happily and its mood turned for the better. It then flew out of the cave with ye chen. The wind was blowing wildly outside and the sky was filled with dark clouds.

Ye chen only had to look up to have a rough idea of what was going on. It was just as he had guessed.

So many of his men had been killed all of a sudden. He didn't believe that the higher-ups hiding behind him wouldn't come to take a look.

Sure enough, he was a little too impatient. He had just finished dealing with the previous wave and the next wave was already here. However, ye chen had never rejected anyone.

Today, he had patted Peng Fei's back and had him fly down a little, shuttling through the forest.

It quickly went to the place where the fight had taken place in the morning and found that the bodies had all been disposed of.

There was only a pool of black water left at the bottom. It gave off an unpleasant smell, as if it was rotten.

After ye chen took a look, he immediately had the ROC fly higher. He tried not to touch those things as they might even have some corrosive effect. It was best to stay far away.

The dark clouds seemed to be pressing down slowly, gradually turning the entire Sky Black.

Moreover, it was filled with a very oppressive feeling, making people feel extremely depressed.

Peng Fei flew around the place with ye chen. With ye Chen's protection, Peng Fei was not too afraid. He just looked around cautiously.

The wind whistled past his ears.

Ye chen did not take the initiative to provoke him. In any case, he knew that this person hiding in the dark would not be able to hold back for long and would come over to test his strength.

"Take advantage of this time to move all of your surviving clansmen to the same place. Don't tell me, as long as they can guarantee their own safety."

He casually said to Peng Fei, and then they also landed on an open space.

This round of patrol was almost useless because they did not find anything. However, ye chen did not feel that there was anything wrong.

After all, the person who was once in the dark was probably trying to intimidate him, but it was just a small trick to him.

After receiving ye Chen's instructions, the six-tailed ROC quickly went to gather its companions and had them hide under the cave.

Ye chen did not have any special interests in such things.

However, it was different this time. He could even get himself a Mount.

What's more, Peng Fei's personality was actually very simple, and just by looking at his actions from the beginning to the end, it was clear that he would definitely be a loyal Mount in the future.

When ye chen returned to the cave they were in, he saw Lin Mo standing there. Something did not seem right.

His body seemed to be trembling slightly, so he quickly went over to check the pulse of the man in white.

"What's going on? How did this happen all of a sudden?"

Ye Chen's first instinct was to wonder if this was because he had left the forest.

Lin Mo was silent for a moment before he replied weakly.

"Don't worry about it. This is a strong fluctuation that my body has to have every month."

When Lin Mo finally recovered, ye chen finally realized that his symptoms had occurred almost once a month since he had stayed here.

It was as if he was being told how long he had been here, and he was unable to resist.

This thing was like a poison that was planted in his body, and he couldn't remove it.

He had only said a few words when Lin Mo's body started to tremble again as if he was being controlled.

Ye chen watched from the side and felt a little sorry for him, so he pressed his hand on it and transferred some of the spiritual energy in his body to him.

The pale yellow light seemed to have entered Lin Mo's body and provided him with a safety barrier. Indeed, the pain was reduced by half.

After a while, Lin Mo returned to normal and gestured gratefully to ye chen.

Ye chen smiled and waved his hand, indicating that this little favor was nothing.

"I'm predicting that this monster will launch a sneak attack at night. I think it'll be at midnight."

Ye chen said casually when he saw Peng Fei return. He was also very optimistic about his own Mount.

"If you have the time, you should rest for a while. We still have to go out at night. Your night vision should be quite strong, right? I remember that your race sees almost the same thing at night as during the day."

Ye Chen's words were acknowledged by the six-tailed ROC. At the same time, it also expressed that it would do its best to protect its master, which was ye Chen's safety, at night.

This time, Lin Mo did not plan to continue guarding the place. Although the two little things were important, he was also very powerful.

It had been a long time since he had dealt with people, especially people who were massacring people like this. Now, he would make up for his mistake!

He took the initiative to go out with ye chen and the others. He would let Peng Fei take care of these two little things and send them to the elders in their clan to take care of them!

"Are you sure you want to go out with me? don't scold me when I order you around."

Ye chen said with a chuckle. Of course, he would not do that. He was just joking in advance.

"I've already been cooped up in this cave for several days, and you still won't let me out?"

Lin Mo did not take his joke seriously. He turned around, sat down, and began to meditate.

Time passed by. Ye chen had slept for more than two hours before he woke up.

He could vaguely feel the place where he was lying on shake slightly.

The other bird and human had not sensed it yet. Only ye chen had such a sharp reaction.

"Wake up, it looks like our enemy is here."

Ye chen called his two helpers to his side and walked toward the cave entrance together. Once they were out of the cave, the two of them got on Peng Fei's body and flew up.

Compared to the yin days just now, the outside world was like heaven and earth.

The entire world seemed to be shrouded in darkness. Ye chen could not see anything clearly. He could only blink as much as he could to get used to the darkness.

Lin Mo and Peng Fei were more used to the darkness than he was, but the three of them could see it as well, and they continued to search the area.

Ye chen stood up and stood on Peng Fei's back. He looked into the distance and saw a dark blue object appear on the dark horizon. It looked like it was flying over.

"Looks like we're going to have a beautiful battle. Come."

With a wave of his hand, ye chen pulled Lin Mo up as well. Then, the two of them rode Pengfei and charged straight at the group of blue figures.

When they got closer, they saw that the group of dark blue shadows was also a strange kind of bird. They looked like those big black sparrows.

This time, there was no one standing on top of them. However, judging from the huge eyes of the demonic beasts, it was obvious that they were being controlled.

"Since you've come out to fight demons with me, then let's split it in half. Do you need Peng Fei to follow you? If you don't need it, I'll just ask him to take me there. "

Of course, ye chen was just asking out of politeness. After all, Lin Mo could float on his own without even using much effort.

When they had first met, Lin Mo had looked like a wandering ghost in his white clothes.

"I don't need it. I can do it myself."

After saying that, Lin Mo jumped off the six-tailed ROC and floated steadily in the air, flying up to meet the dark sparrow.

Ye chen was rather curious about Lin Mo's attack this time. After all, he had not seen Lin Mo attack since he had fought with him for a while. Now, he could take this opportunity to test his companion's strength.

Lin Mo flicked his sleeve, and a hurricane suddenly appeared in front of him, sweeping toward the big black sparrow. One of the birds was instantly sucked into it, and its wings could not resist at all.

Just like that, a large bird was quietly caught in the wind, and then it was ruthlessly thrown to the ground countless times, losing its life.

This was also the first time ye chen had seen Lin Mo's attack method. He stood at the side and thought to himself that if it were not for the fact that he had a few people to deal with on his side, he would have stopped and clapped.

"Come on!"

Once again, Lin Mo flapped both of his sleeves, creating a huge gust of wind that instantly brought the three large birds in.

This was even fiercer than the previous one. He didn't even have time to react before he was devoured by the wind.

Even if they were to attack, they could only attack from a close distance by relying on the strength of their bodies.

Now that their wings had been dismantled, they could be said to be completely defenseless.

Ye chen was helpless. This was much easier than him!

If he had known earlier, he would have brought this ice block out directly last time, saving him the time of wasting less than two hours to clean up those scums.

Ye chen took one more look and stopped looking because he also needed to deal with his side. Anyway, it was a group of people who had taken the initiative to provoke others, so there was no need to stay.

Compared to the previous few times, he didn't plan to attack this time. After all, it was more convenient to kill such large birds with his sword.

Not to mention that the weakness of this kind of Big Crow was their neck. As long as they cut their neck, the other limbs would not have the strength to fight back.

"Is this the side dish to go with wine?"

Ye chen stepped on Peng Fei's head and jumped into the air. He did not care whether the six-tailed Peng was still alive or not. With a flash of his sword, he cut off the neck of the big dark sparrow at the front.

The blue figure fell into the dark abyss.

The rest of them were obviously afraid of ye Chen's strength. They quickly formed a circle and surrounded ye chen in the middle.

"Is this how you guys play? It's a pity that I don't know if you can understand human language. If you can, just fly back and tell your boss. If you don't come out, I'll kill all of you. "

After ye chen finished speaking, he still felt that he had been too long-winded, so he did not continue speaking. The sword in his hand was almost sweating from his grip.

He urgently needed some cold air to decompose it.

He did a somersault in the air and rushed toward the two large birds. Then, he killed them in an instant.

At the same time, it also opened a hole in the formation. The others were also shocked, but it was obvious that they had been trained for a long time. They immediately opened their big sharp mouths and stabbed at ye chen.

"It's a waste of time,"

As soon as ye Chen's voice fell, he swung his arm again, and two more big black sparrows fell down.

He estimated that there were more than 30 of them, and in less than an hour, the two of them had finished them off.

"What are they doing? Don't tell me that they surrounded us just to test our strength? What a pity, I didn't even use 20% of my strength. "

Although ye chen was talking to Lin Mo, he raised his head and shouted loudly at the sky because he knew that someone was watching in the dark.

As expected, as soon as he finished speaking, two bolts of lightning appeared, followed by the sound of thunder.

Someone was preparing to hide in the sky when it suddenly started raining heavily as if it was taking revenge. Fortunately, the six-tailed ROC had been waiting at the side.

When it saw this situation, it hurriedly flew over. The two of them took advantage of the situation and jumped onto Peng Fei's back. Then, they turned around and hurriedly flew towards the cave.

### [Chapter 2659 The Secret Of The Sapphire!](#)

Ye chen, who was sitting in the cave, had an inexplicable bad feeling.

"Lin Mo, do you feel something very wrong?"

Ye chen could not fall asleep, so he turned around and asked the man in white beside him.

After all, only the two of them could communicate normally. Even though Lin Mo did not speak much, he was quite reliable.

As expected, Lin Mo nodded when he heard ye Chen's question. Indeed, he had also felt this abnormal energy. He had clearly just repelled a wave of energy but now, it seemed like an even greater pressure was appearing.

"No, I think I still need you and Pengfei to relay the message. I don't have any ideas about their blue gemstone, but I need to know what it's used for."

Ye chen stood up and walked to the side. Then, he called out to the six-tailed ROC who was dozing off.

"Help me ask him."

Ye chen said to Lin Mo.

Lin Mo then mumbled something in a bird language, which was very similar to what the six-tailed ROC and the others had said.

When Peng Fei heard this question, he was clearly stunned at first. He subconsciously looked at ye chen, his eyes flickering.

After a moment of silence, Peng Fei began to reply with a short paragraph of bird language. On the other side, Lin Mo listened to ye chen, who nodded and turned his head to explain everything he had just said.

It turned out that these blue gems were actually the hearts of their six-tailed Pengs.

Taking this thing away was the same as taking away the inner core. It could directly transfer the power of the ROC clan's body.

This was a completely crazy act. None of them had thought that they would encounter such a disaster, but on such an ordinary day, this danger had appeared.

It was only then that ye chen realized that Peng Fei and the others had seen the Big Shot behind this man who wanted to take their lives. He was a man wrapped in black cloth.

He was wearing an extremely terrifying mask and had suddenly appeared while riding on a large Condor.

This mysterious man had brought along the Black Knights and the Black Eagles from the other day. They had all hidden away as they had sensed the danger.

However, they didn't expect these intruders to come out of nowhere and take away the most important things in their bodies.

The reason why Peng Fei had hidden the blue gemstone from ye chen was that the mystical beast had to be killed in order to retrieve it.

Even if they didn't die, there was basically no room for them to turn things around. In short, the consequences were extremely serious.

When they took out the sapphires, not only would the power belong to the person, but it could also heal wounds very quickly and was extremely useful in improving one's abilities.

Finally, the matter was explained clearly in front of each other. Ye chen nodded after listening.

This wasn't much different from what he had expected, and he felt that this didn't constitute a lie to him. He was just hiding something.

After all, these blue gems did sound very tempting, but he didn't have them.

"Alright, alright, alright, I know. Can't you just say it now? Alright, then there's no need to continue discussing this matter. Next, let's deal with this so-called boss behind the scenes!"

Ye chen stood up and stretched his back. He stood there for a while to warm up. After all, he was likely to face a huge opponent soon.

He still had some hope in his heart. After all, the strange things he had encountered along the way were not very strong.

Fortunately, he had found a helper in time, and now he had a Mount, so he could be considered to be doing well.

Lin Mo did not have much expectations for this power either. After all, he felt that he was already an old monster after living for so many years. He really did not have much desire to improve his strength.

After a moment of silence, ye chen could clearly feel that the tremors under his feet had become more serious.

Even Lin Mo could sense that the six-tailed ROC had already transferred the two little things to the hands of another elder of the family.

Therefore, the three of them were fighting side by side against the enemy.

Before ye chen went out, he pulled up a huge piece of cloth from the ground and wrapped it around his body.

At this moment, they looked like the black and white ghosts, which corresponded to the man in white, Lin Mo, beside them.

Ye chen was very satisfied with this set of clothes because it could block the wind and also put on a show. It had a certain deterrent effect.

The two of them strode towards the entrance of the cave. Then, they jumped on Tengfei's body and flew into the sky as usual.

They really wouldn't have known if they hadn't seen it. The moment they saw it, they were shocked. They flew into the air and looked down. The vibration they felt was already considered relatively weak.

At the edge of the forest, the place that was connected to the stream had already collapsed.

Ye chen was shocked. He quickly asked if Peng Fei's clansmen were hiding in these places. After receiving an answer, he finally breathed a sigh of relief.

Then, they also noticed something strange. The shaking was not from the bottom to the top, but from the ground.

This was because they saw a few huge black creatures in front of them, which looked like the Black Bears.

However, it wasn't the ordinary kind. Its entire appearance seemed to have mutated.

"The black bear has really become a spirit. I wonder how many dangerous things this so-called boss has done to harm the human world. So many animals have been used by him."

Ye chen said with some disgust. He really hated people who were not strong enough and used some tricks to control other animals, or people who used their lives to protect him and become his tools.

"It seems like we haven't forced him enough. That's why he's still sending out these weak beasts."

The rain had stopped, but the ground was still wet. The black bear spirits stomped down hard as if they had gone crazy.

"It just so happens that I have a new skill. Let's fight these black bear spirits. It will save us from being too bored here. Moreover, the sooner we deal with this, the sooner the ROC clan hiding in the dark can come out and take a breath of fresh air."

Ye chen chuckled. After that, he jumped down from Peng Fei's body.

He rushed toward the three black bear spirits that were gathered closely.

If he wanted to play, he had to play more ruthlessly. He didn't believe that he would never be able to force this person out!

"Come, play with me?"

Ye chen stood on the branch of the tree and looked at the three black bear spirits with a smile, provoking them.

In his eyes, this group of black bear spirits was nothing more than a big piece of trash.

As expected, the three black bear spirits immediately perked up and looked at ye chen. The man who had suddenly appeared in front of them was immediately assigned as prey in their eyes.

Ye chen did not even prepare his sword. He fought these black bear spirits with his bare hands.

It was just like the last time he fought with the Tiger. He wanted this kind of carefree feeling.

The leading black bear spirit clenched its fist and punched the tree ye chen was on.

Before the black bear Spirit's fist could land on ye chen, he had already flipped over and stepped on the black bear Spirit's head. Then, he jumped onto the black bear Spirit's shoulder.

Then, he did a somersault and landed on the head of another black bear spirit. This was a big trick.

He had stepped on all the black bear spirits. Even if he had not actually attacked them, he was already full of mockery.

Obviously, his somewhat sloppy action had already made these few black bear spirits extremely angry!

Therefore, the three black bear spirits attacked him, trying to use their strong bodies to surround him and beat him up.

Ye chen clenched his fists and the spiritual energy in his body suddenly gathered here.

He punched the head of the black bear spirit in front of him ferociously and instantly made the black bear spirit lose its sense of direction.

He could barely keep his eyes open. Then, the black bear Spirit's body was kicked to the ground again. It was another heavy earthquake.

However, this was not a big deal. After all, this place was a little far from where the clansmen were hiding. That was why ye chen was so presumptuous.

,m When they saw that ye chen had easily taken care of one of their companions, the other two black bear spirits were so angry that their anger burned to the top of their heads.

They opened their claws, revealing their sharp fangs and claws, and swung them at ye chen.

Ye chen, on the other hand, jumped on one of the bear's heads with a smile and slapped the bear's face.

His speed was very fast. He had wanted to kill ye chen in the first place, so he had used a lot of strength.

The black bear almost stumbled and fell from the slap. At this time, ye chen jumped out and kicked it from behind.

He had taken advantage of the situation and killed another black bear spirit.

There were only three of them but ye Chen's endless noise was enough to attract the attention of the black bear spirits who had not paid much attention to them.

They all had a crazed expression on their faces as they charged at ye chen.

"Come on, then let's play!"

At this time, ye chen did not fight with his bare hands like before. He unsheathed his sword from behind and strode toward the Black Bears.

She went up and directly cut off the arm of the black bear spirit in front of her.

Before the blood could be seen, he wiped it on his neck and the black thing collapsed.

The rest of them seemed to be brainless. Even though they saw that their companion in front of them had fallen, they did not compromise at all.

At this time, ye chen had already sensed that something was wrong. However, his expression did not change at all. He seriously killed all the black bear spirits under his sword.

At this moment, he seemed to have accidentally jumped onto a tree next to him. He turned around the moment he stepped on the branch.

As expected, the tree that he had rushed over to had been cut down.

He didn't know where this strange force came from, but it was like a sharp knife, trying to kill him.

"It seems like you're willing to come out. Then let's fight face to face. Don't hide behind me."

Ye chen called out to the sky behind him. At the same time, he shot a look at Lin Mo and Peng Fei, who were standing in the sky, telling them to land in the forest for the time being and not fly out.

"Where did these demons and ghosts come from? how dare they disrupt my plan!"

The voice seemed to come from the soul and came from all directions.

It seemed to be quite intimidating but in ye Chen's eyes, it was all a trick. Instead of making so many fancy moves, it was better to come out and fight directly.

"Didn't you want to take away all the sapphires in this place? Then why don't you do it yourself?"

"I want it now too, so let's have a head-on fight. Whoever wins will take it, and whoever loses will make way."

Ye chen said arrogantly on purpose. He had even revealed that he wanted to own a sapphire, but in reality, he did not.

Of course, he had already told Peng Fei about this before, but it was just a temporary disguise.

Otherwise, the so-called gang leader might not have believed this person who had been hiding behind his back.

Sure enough, when it came to benefits, this figure who had been hiding behind the scenes couldn't hold it in any longer.

When ye chen heard the sound, he looked up and saw a huge bird flying out of the layers of dark clouds.

It was just as Peng Fei had described. The man was wearing a huge mask that covered his entire face.

The other people were also dressed in black, but their clothes were more formal.

On the other hand, he had only casually found a piece of cloth to cover himself.

Of course, these were just simple external factors. Ye chen did not pay much attention to them. He was now very happy that he had forced out the culprit who had been hiding for so long.

"I thought you'd be like a turtle hiding behind its back. It turns out you still dare to come out."

On the surface, ye chen did not seem to be hostile, but in reality, he was full of sarcastic words.

Judging from the force that had broken the tree, ye chen could tell that it was not particularly strong. Moreover, this person did not notice his little move, so the damage from the previous attack was not even there.

If it were him, the other party would have been dead by now. Therefore, ye chen would not show any fear in terms of strength.

"No matter how you look at it, you're just bullying the weak. So, in my opinion, you'd better hurry up and go back to your hometown!"

Ye chen had asked Lin Mo and the others to hide under the tree so that he could face this person on his own and not have to worry about his companions getting hurt.

"Laughable, then hand over your life as well!"

[Chapter 2660 Nine-Tailed Great ROC!](#)

Ye chen felt that this person should be the same as him, a human-shaped person.

However, what he did not expect to happen next shocked him.

Because after the Man in Black lifted his sleeve, his two hands were as sharp as those dry and flat claws.

The claw was like a five-fingered mountain that was trying to crush ye chen from above.

Ye chen raised his head and looked at the black Claw. The thick black Qi almost covered the size of the claw. It was just a ball of black.

Of course, he was also very surprised. Could it be that his body had been controlled like Lin Mo 's? could it be that his age had been controlled? How could it have such a mutation?

Before he could think about it, he took a step forward and quickly jumped onto the tree next to him, then quickly moved a few steps to the left.

After all, the black claws would not affect him much, but he would be hurt a little.

When there was no fighting, the forest was completely silent. Other than the six-tailed Peng, there were no other goods left. It was unknown if they were all hiding or had already died.

Ye chen did not have time to study this thing. He did not know if it was a human or a ghost. He jumped into the air and pulled out the sword on his back. In a flash of silver light, he was already behind the black man and stabbed forward.

The Man in Black was extremely vigilant. As soon as he appeared behind him, he quickly turned his head.

Although he was hit, it only made a big cut on the lower half of the clothes.

The power in his body gathered in his two hands without making a sound.

Ye chen fused the coldness of the arrow in his hand with his own heat, erupting with a powerful force and slashing at the shadow.

The black shadow dodged quickly. Ye Chen's lips curled into a smile. As expected, the target had taken the bait.

Because his target was not that person, but the big Bird he was stepping on.

A sharp bird's cry rang out in the void. The Man in Black obviously didn't expect this. By the time he realized it, he only saw that his Big Bird had been cut off, and its wings had fallen from the sky.

"Alright, you've really angered me. Hand over your life!"

The Man in Black grabbed with both hands at the same time. It looked like there was nothing, but the black gas in his hands condensed into a two-meter-long blade.

His arms grew rapidly as if they were about to explode, and his black clothes were about to burst.

When ye chen saw this, he felt nauseated. How could there be such a mutation? it was better not to change!

At the very least, she looked like a human in those clothes!

In any case, ye chen knew that the most important thing now was to get rid of this strange mutant thing.

Therefore, he didn't have any adverse reaction because of this disgusting look. He jumped up and started fighting again.

The sword in ye Chen's hand clearly showed that the other party was very angry but he had been dodging and trying to attack him from behind.

"What a joke, you dare to play with me with such little tricks?"

Ye chen did not care how the black-clothed monster fought. Instead, he was jumping around agilely.

After all, his body was still relatively small, and his target was also very small. His attack power was extremely strong.

However, the black-clothed monster realized that it was impossible to defeat ye chen in this state. If the two of them continued to be in a stalemate, it would be the one who lost in the end.

Therefore, he immediately came back to his senses and shouted towards the sky. Suddenly, whistling sounds came from all directions, and countless little wings flapped and ran over.

The ugly figure waved his arm as if he was recruiting something.

Ye chen frowned and looked to his left and right. He realized that there were countless big black bats flying over. This was not going to be easy to fight.

Although these bats looked small, each of them should be the blood-sucking type. He simply couldn't take care of both sides, and it was very likely that he would be injured.

At this moment, Peng Fei flew up from the forest with Lin Mo. He greeted ye chen with a smile and blocked his way.

"You deal with that ugly thing, we'll deal with the rest."

Lin Mo took the initiative and left his back to ye chen. He followed Peng Fei and flew toward the bats.

The two of them were separated as well. Lin Mo liked to float in the air, so it was more suitable for him to fly.

Lin Mo had never been afraid of these heroic things, so he immediately went up and waved his hand, creating a huge vortex in front of him.

Those bats were much easier to deal with than his previous friends. The only thing that was hard to guard against was the bats.

He was afraid that the bats would attack him if they got close.

However, Lin Mo was not worried as his body was already immune to all poisons. Even if the bats were poisonous, they would not affect him at all.

As a junior of a friend's clan, the elders in his clan had already taught him many ways to deal with these little things.

After all, they had to deal with these little things if they wanted to hunt and survive here.

Even if it was poisonous, they could still eat it to supplement the nutrients their bodies needed.

As a result, the bats that had come to help the Men in Black had fallen into an even more difficult situation.

When ye chen saw that his back was so steady, he turned around and charged at the Man in Black again.

"After committing crimes for so long, you didn't expect to fall into such a situation, did you? now, let me deal with you!"

Lin Li and ye chen were like a Lightbringer as they crumpled the sword into two pieces. They kept their swords behind their backs and attacked the Man in Black.

A ray of light turned into a sharp knife and pierced through the black man's arm.

Ye Chen's expression did not change as he kept his weapon. Then, he turned it into a dart and threw it out. He maintained a certain distance and dealt the most painful blow to the other party.

Logically speaking, now that they were at the final stage, they only needed to cut off this strange and ugly thing from the neck.

However, his two darts flew from the left to the right and crossed each other in the middle, but they were not completely cut.

Ye chen had a puzzled expression on his face. He saw the Man in Black gasping for breath as he took out a blue medicinal pill from under his clothes.

Peng Fei, who had just finished dealing with the bats, let out an extremely miserable cry when he saw the pill!

Furthermore, he charged at the Man in Black without any regard for his own safety. His eyes were filled with anger, and blood was about to burst out.

When ye chen saw that the situation was not right, he subconsciously thought of the blue medicinal pill that had appeared here.

These must be the blue gemstones that belonged to the dead members of Peng Fei's family!

This thing was really detestable. It turned all these basin birds into sand sculptures just to get that blue gem and forge it into a medicinal pill just to become stronger?

"Wait, don't rush over!"

Ye chen yelled at Peng Fei because he saw the Man in Black put the pill back in his hand and quickly turn to look at Peng Fei.

Although the six-tailed ROC was born with an acute sense, it was a huge blind spot when he was faced with such a situation that he could not make sense of.

Before it could react, the Man in Black had grabbed its thin neck.

The Lord was shocked and hurriedly drew his sword from behind him. He jumped up and slashed at the arm.

However, he didn't expect that black had already seen his movements and retreated to the other side, only injuring his arm.

That person's grip seemed to be getting stronger and stronger, and Peng Fei, whose neck was being held, seemed to immediately be unable to breathe.

Ye chen was about to step forward to rescue Peng Fei again but he did not expect that the trapped Peng Fei's white feathers would suddenly emit a golden light as if it was wrapped up.

And this sudden burst of power also directly caused the black-clothed man who was holding him to seem to be burned.

He quickly flung his hand away, and there was even a charred patch on his hand. His clothes had been burnt to nothing.

Ye chen and Lin Mo, who were standing at the side, were stunned. What was going on? Could it be that this race had the ability to evolve?

Peng Fei didn't flap his wings, but his body continued to rise.

In an instant, the air around Peng Fei seemed to have become a little hotter, and the dark clouds in the sky slowly dispersed, falling apart in two directions.

In just a short moment, the ordinary six-tailed ROC had turned into a Nine-Tailed great ROC!

Ye chen was dumbfounded. To be honest, he knew that this mystical beast was very powerful and had a certain potential.

However, he had never thought that there would be such an evolutionary form. It was as if he had ascended to the next level.

A light blue feather appeared on Peng Fei's head, and three feathers that were much longer than before appeared on his tail.

It looked like a transformation.

Peng Fei seemed to have matured a lot, and he flapped his wings and flew towards the black-robed man again.

It opened its mouth and snatched the blue pill back from the man's hand. Then, it grabbed the man with both of its legs and threw him to the ground.

When ye chen saw that it was time for him to make a move, he pulled out his sword and jumped over. Before the man could fully struggle to his feet, he stabbed his sword through his heart.

As expected, the entire place quieted down.

Peng Fei's emotions seemed to be a little unstable. After stopping there, he placed the blue pill in his mouth on the ground, then used his claws to dig a small hole and kicked the pill in to bury it.

Ye Chen and Lin Mo stood to the side and did not stop him. They just watched. Although this medicinal pill must have a miraculous effect on the growth of strength, they were bystanders and did not have any greedy thoughts about this power.

Thus, he didn't take the initiative to go over. He waited until Peng Fei was in pain for a long time before he was done, and then they walked back to the cave.

After the Man in Black had been pierced through his heart, he had turned into ashes, leaving only his torn black robe on the ground.

This sudden disaster in the forest was finally over. Ye Chen lay on the grass and slept soundly.

Although the incident with Pengfei was sudden, Ye Chen was very happy. After all, it would be his Mount in the future. It would not be a loss if it was stronger.

"We can be considered partners now, so let's keep going like this."

Ye Chen patted Peng Fei and put his arm around Lin Mo's shoulder.

But just as he was about to leave, Peng Fei took out a cloth bag and threw it in front of him.

Lin Mo stood at the side and translated briefly, saying that this was a package that someone who had been here before had left here.

None of their clansmen had opened it before, so they did not know what was inside. They wanted to see if Ye Chen needed anything.

"Since there's such a good thing, let me see what's there. Those who can come here shouldn't be too weak!"

Ye Chen stepped forward and opened the package. Inside, there was only a book and a leather map. It was already very dark and one could tell that it had been there for a long time.

Ye Chen casually sat down on a rock at the side and opened the book to read. He found that there were many mysteries in it and hurriedly took the map over and laid it on his lap.

Lin Mo also walked over curiously and sat beside him. They both looked over, and their eyes widened.

The secrets recorded in this book did not come from this forest.

There was actually a mountain behind the forest, and there was a huge cave in the mountain.

The cave contained the secret of the friends with the blue gemstones. It turned out that these friends were trapped in the same place as Lin Mo back then, unable to leave.

Although it seemed like the Man in Black had been dealt with, in reality, the Pengs here would still live the same way they did in a few years.

It was as if it was an endless cycle, and the secret behind all of this came from that cave.

Someone had to crack it in order to let these ROCs regain their freedom.

The man nodded thoughtfully after reading it. The general meaning of the book was that they had to do something if they wanted to take Hengfei away. They could only take him away after they finished this task.

Otherwise, they would have continued to exist in this cycle and would not have left, including Lin Mo. Therefore, even though they had left his dark place, they still did not have freedom.

Ru asked Li Mo, who was beside her, with curiosity.

"Did you feel any discomfort at that time? By right, there should be other adverse reactions if you follow me out, right?"

Lin Mo shook his head lightly, indicating that he did not.

"But it's true that I could only escape by following you. When I first came here, I also tried to escape, but it was all in vain. Even if there was someone beside me, I couldn't sneak out."

"But it was different after you appeared. I thought that since you asked me to follow you, I was just playing with you. After leaving that forest, I would be driven back. Who knew that I would actually come all the way here?"
