

Genius 2661

[Chapter 2661 2666-Climbing The Mountain Together!](#)

"So it's very likely that you are the key that can take us away."

Lin Mo's eyes were filled with hope and determination. He looked at ye chen as if he was a sincere partner.

Ye chen understood what his companion meant and nodded.

The environment they were in now clearly showed that they couldn't escape easily.

This was especially so for Lin Mo and the six-tailed ROC. Now, ye chen was a proposed target point.

They didn't know why it had appeared in their lives, but it was like a sudden hope.

"Alright, since this thing can only point us in the right direction, we can't delay any longer. We'll take a short rest after eating and then set off together."

Ye chen was very straightforward with the two of them.

Lin Mo nodded. Although his face was still expressionless, his heart was actually starting to churn with a different feeling.

Previously, she might have only been testing ye Chen's abilities but now, she had placed all her hopes on ye chen.

After listening to Lin Mo's retelling, Peng Fei roughly understood what he meant and was naturally very happy. He flapped his wings to express his mood, but the wind he brought up was a little stronger.

"Alright, alright. Stop flapping your wings. There are many ways to express your feelings. Don't use this one."

Ye chen immediately used his spiritual energy to press down on the wings and pushed them aside.

He had not fallen asleep yet. When he was resting, he flipped through the book and read it twice. He then picked up the map and looked at it. It was obvious that he took this matter very seriously.

After that, he was indeed a little sleepy, so he put the things in his brocade robe and fell asleep. When he woke up again, the outside had completely returned to calm.

The weather had also turned for the better. The dark clouds had been driven away, and there was a feeling of spring with a faint cool breeze.

Ye chen stretched his muscles and bones. He scanned his body with spiritual energy once to make sure that there were no fluctuations before he stood up.

"Let's go. I feel that my current condition is really good. It doesn't take much effort to go out and climb the mountain. "

Ye chen stretched lazily from left to right, as if he was doing a warm-up.

Then, he led his two companions out of the cave where they had lived for a few days and walked towards the mountain behind the forest.

The fact that this mountain was able to stand by the forest meant that it was different from the rest.

In any case, everything that existed here was reasonable and strange.

Along the way, Peng Fei told them some legends about the mountain, but they were all told by the elders of their clan.

However, the legends were very effective in scaring children. Back then, when Peng Fei was young, he had been shocked by the legends here.

Even though he and his companions had the idea of taking risks, they didn't dare to get close to the mountain. They only dared to play around at the foot of the mountain.

After all, it was too boring in the forest. Other than finding fruits and learning his own skills, there was almost no joy.

Fortunately, he had understood a lot after growing up and did not have much of a shadow over the mountain. Not to mention, he had two companions by his side now.

Lin Mo stood between Peng Fei and ye chen, acting as the central translator. As soon as he finished listening, he turned to look at ye chen.

Along the way, he also heard about the legend of the mysterious mountain.

It turned out that this mountain was called Mt. Bewitching. According to the elders of the clan, there were many dangers on this mountain.

The place was filled with ghosts who were dead but unwilling to leave. However, they could only be sealed in this mountain and could not escape.

Legend had it that as long as someone went up the mountain, they basically never left in one piece.

The only exception was that many years ago, there was a person who seemed to have escaped alive, but he had become crazy.

The man had been running around in their forest and had been given some fruits by his friends. He had managed to survive for a while.

It was a pity that he still died in the forest, and the seniors of the ROC clan even buried him.

As for the other people who had entered the mountain, they had completely lost contact.

In short, the news that came out of this mountain had always been mysterious and terrifying.

The elders in the family had also been teaching them that they must not go up the mountain no matter what. Once they went up the mountain, they would never see their family and friends again.

Ye chen nodded as he listened to the story. He had a rough understanding of the meaning.

It seemed that the idea of entering the mountain this time was not very sloppy, but it would definitely encounter a lot of trouble, right?

Fortunately, ye chen took a look. He and his two teammates, the three of them, could almost be called a Desperado team. Moreover, they were a Desperado team that could cooperate with extremely tacit understanding.

"This time, I'll bring the two of you up the mountain. No matter what we encounter, we'll face it together."

Although ye chen said so, he had a lot of trust in his companions because he knew that he was probably the only one who could take them out of this place.

Otherwise, they would have to live in this dark place forever. Who knew if such a crazy massacre would happen again?

Therefore, all three of them had to break the curse in this cave. Perhaps there were some changes in the process.

He hoped that Lin Mo would be able to become a normal person in the future and not be like how he was back then.

Just by pulling off the White cloth on his body, he had directly changed from a young appearance to a white-haired old man.

If the curse was still in his body, he would not be able to survive even if he left this place.

No one would live under a piece of cloth forever, at least not as a normal person.

The three of them gradually approached the foot of the mountain. After that, no one spoke anymore. At the same time, they all showed a very vigilant expression.

His speed did not decrease, but in reality, his entire body was in a battle-ready state.

Every possible danger that they might encounter would bring about uncertain factors, so there must be no problems in the middle.

At the very least, he had to ensure that he completed his mission and protect his body as well. He had to try his best not to get injured.

Peng Fei nodded seriously because he knew that this trip to the mountains wasn't just to change his own fate, but also the fate of his entire clan.

As long as they could leave this place, they would no longer have to endure the endless cycle of massacres.

"Pengfei, if you're in danger, try to shrink your body as much as possible. Don't worry and don't fly around, okay?"

Ye chen said to his Mount in a serious tone.

After all, even though Lin Mo and he looked like normal people, they were still much smaller than Peng Fei.

So if they were to encounter danger, it was very likely that Peng Fei would become the biggest target.

He didn't want his good friend to end up in that kind of situation, so he had to try his best to avoid such a thing from happening.

Peng Fei was indeed the weakest among the three of them. Even if he became a Nine-Tailed ROC, he still did not have the strength to fight against the enemy.

In any case, ye chen and Lin Mo were still stronger in comparison, so sometimes, they were needed to protect Peng Fei who was following behind.

The three of them had a brief discussion about the things they needed to pay attention to, and then stepped into the intersection of the mountain together.

It was indeed similar to Peng Fei's description. From afar, they could already feel the cold aura on the mountain. There was something wrong with it.

This mountain was even lonelier than the forest behind it. In comparison, it was like winter and spring.

The trees here had all withered, and it looked like a desolate mountain.

The sky was still bright, but as soon as they stepped onto the mountain, they felt that it had suddenly become much darker.

Ye chen did not pay much attention to the way he walked. He looked up at the sky and then down at the ground. Soon, they both realized something.

There were many skeletons of birds and other spine-like animals on the ground. It seemed that they had already been separated into different parts, with no skin or flesh left.

Only the bones remained in the soil, stubbornly unaffected by the wind, but it was only a matter of time.

If there weren't many of them, it wouldn't be too surprising. After all, every mountain should have such things.

However, they had seen too much time on this mountain, so much that they couldn't ignore it!

They had only walked a few hundred meters, but they had already seen countless skeletons along the way. There were all kinds of animals.

As ye chen walked, he showed a disgusted expression.

"What is this place? How did you make so many bones that I can't even walk properly?"

He said unhappily. As he walked, he kicked the bone beside his foot away.

Although this thing didn't look particularly terrifying, it inexplicably gave them a sense of insecurity, not to mention that it could be seen everywhere.

When they saw the bones of these creatures, they would subconsciously think of what had happened to these animals.

Moreover, they should have suffered the same damage at the same time.

"Lower your aura. There's a problem with the air here."

As Lin Mo listened to ye Chen's words, he also observed his surroundings. He did not pay much attention to the things on the ground. After all, he was floating in the air, so his perception of the air was more clear.

The faint gas floating in the air seemed to have fused with the air, but in reality, there was a slight difference.

It was very likely that if they didn't notice this small point, it would bring them a fatal disaster.

When ye chen heard Lin Mo's words, he was shocked and quickly shut his mouth. His breathing immediately weakened.

No matter what, he was a capable person, so it wasn't difficult for him to use this bit of spiritual energy to breathe.

On the other hand, the Nine-Tailed ROC was a little hesitant. After hearing Lin Mo's words, it also wanted to hold its breath, but it could not control its expression. It even looked a little funny.

Lin Mo flapped his wings and explained to him in the bird language,

He said that he was standing higher, so he was further away from the gas and didn't need to be so serious.

He just needed to breathe slowly and do as little breathing as possible.

Peng Fei heaved a sigh of relief when he found out. Thus, they carefully walked up the mountain path in this manner, looking for the hidden cave in the mountain.

"I think this map is just like that piece of trash. Once I get up the mountain, I can't even figure out the way. How am I supposed to find the cave? the map is also in a mess!"

Ye chen threw the book in his hand to the side and sat on the rock, feeling indignant.

Logically speaking, they should be halfway up the mountain by now, but they had not seen the cave marked on the book and the map.

Lin Mo, on the other hand, had always been a steady player. He did not pay any attention to ye chen when he saw him like this. Instead, he began to observe the surrounding terrain.

It was still bright today, so everything could be seen clearly. Even if it was faint and a little blurry, it would not affect much.

At this moment, a gust of evil wind blew in from somewhere, enveloping them like a black net. In an instant, the few of them felt a little breathless.

Ye chen was slightly shocked and quickly wrapped his body with his spiritual energy, protecting the two of them at the same time.

The evil wind blew for about fifteen minutes before it finally stopped. Ye chen hurriedly took a deep breath.

"What was that just now? I felt like I was tied up tightly. Fortunately, I reacted quickly, otherwise, I don't know what would have happened!"

Ye chen shook his head hard to shake his consciousness back.

He didn't want to become a lunatic like that legendary person and run down the mountain. That would be a huge loss.

Sometimes, the enemy that they faced head-on was not scary, but the danger mixed in with the wind was even more creepy.

In any case, after the wind just now, ye chen and his two companions did not intend to continue staying here.

They decided to continue searching. If they could find the cave as soon as possible, they might be able to avoid some of the danger.

Of course, no one could guarantee that they would not encounter greater difficulties.

After aimlessly searching for a while, they stopped again. The Nine-Tailed ROC suddenly looked around warily, as if it had discovered something.

Then, there was another round of bird language that ye chen could not understand.

"Pengfei said that he found this cave, but it might be hidden behind this kind of rock."

Lin Mo explained as he stood by the side. At the same time, he was a little surprised to see the stones that were placed in an irregular manner.

When ye chen heard this, he immediately looked over. However, these stones looked almost the same. There were big and small stones everywhere. How could he distinguish them?

[Chapter 2662 2667-Breaking Through The Fog!](#)

Ye chen rubbed his head helplessly.

"Since Pengfei said that it's behind these rocks, why don't we look for it one by one? we shouldn't be too far away and search a small area before moving to another place."

Ye chen said for safety's sake.

Of course, Lin Mo and Peng Fei agreed with him. After nodding, the three of them began to attack the stones, turning them over one by one with all their might or using their spiritual power to explore.

Because they didn't know the size of the cave entrance, they couldn't insert any stones that had the chance of becoming the entrance.

After blindly searching for a while, they all stopped, because there was no such thing here!

"No, I can't just keep looking like this. I can't just keep looking without any clues. It'll be more troublesome."

Ye Chen looked at the surrounding mountains and felt that the cave was not far from them but he could not come out.

"Why don't we use our spiritual power to blow up these rocks? or perhaps this rock with a cave behind it might be different from the others?"

Ye Chen's eyes fell on the rocks in the distance. What this mountain lacked the least was withered trees and rocks of all sizes. The bones of animal carcasses could be seen everywhere at his feet.

Now, he was certain that he had gone in the wrong direction. Otherwise, it wouldn't have taken so long. It seemed to be useless.

"Forget it, let's narrow down the scope first!"

"Pengfei, can you roughly determine where this bunch of rocks should be? we can't continue like this. It's so blurry, and we have to look around aimlessly."

Ye Chen turned to the Nine-Tailed ROC and said. Peng Fei then nodded.

Then, the bird flapped its wings and flew up, circling around the mountain.

He seemed to be trying to use his own spiritual power to test which part of the body was different.

He thought he wouldn't find anything after going one round, but Peng Fei wasn't willing to give up, so he flew one more round in the air.

This time, he saw it!

There was a small area with a faint golden light in front of them, about three hundred meters away.

The area wasn't small either. It looked to be at least 200 square meters.

"It's really troublesome. The end point written in the book and the map are completely useless. Look, this only circles the mountain and tells us that there is a cave inside. There is no detailed marking of the exact location!"

Ye Chen flipped through the book from the front to the back again. He looked at the map and felt speechless.

Lin Mo was indeed very calm and composed at the side. He did not seem to be in a hurry at all, as if all of this had nothing to do with him.

After the Nine-Tailed ROC flew down from the sky, it began to speak in bird language.

Ye Chen could tell from his expression that he must have gained something, so he put the things away and stood up.

Lin Mo could finally relax a little. He turned around and explained what he had just said to Ye Chen.

"Pengfei discovered the location of this cave over there, but the area isn't small either. It's probably a large area, but it's more convenient no matter what."

Lin Mo said in a relaxed tone. Ye Chen, who was standing at the side, finally smiled.

"That's great. Now, fly us there. We'll find this cave today and solve this matter. Once we're done, we'll go back. "

Ye Chen's mood was always on the rise. Now that he heard that there was a way to find the cave, he suddenly became excited as if he was on steroids.

The Nine-Tailed ROC flew up and stopped again, and it didn't take more than ten seconds.

When they were buried, Ye Chen and Lin Mo, who was standing at the side, looked at each other at the same time.

They had just come down to this piece of land, but they could already clearly feel that something was not right.

It was as if there was some kind of control that stretched out from the ground, as if it was grabbing their feet and making it difficult for them to even walk a few steps forward.

Of course, it was fortunate that the two of them weren't affected much. It was just that they didn't expect to feel such an obvious attack.

"Alright, alright, let's get started. We need to find this cave quickly."

Ye Chen happily stretched his back and began to inspect the rocks in front of him. Lin Mo also walked to the side and pried open the rocks one by one.

At this moment, Ye Chen walked to a huge rock about ten meters away and stared at it. He felt that the lines on the rock were not simple.

The lines seemed to extend out from the same place, forming a seemingly messy picture. However, upon closer inspection, it was actually a pattern!

"Come over and take a look. What is this?"

Ye Chen cried out in surprise. He then called his two companions over. The three of them gathered around and looked at the big rock.

Ye Chen could not see what was drawn on it for the time being but he suspected that the cave they were looking for was behind this rock.

Therefore, he was prepared to use his spiritual power to pry the stone open.

Who knew that when he poured out his spirit power, it had no effect on the stone.

He couldn't quite believe it, so he tried again. Who knew that the effect was still the same? the stone didn't move at all.

"If I'm not wrong, this should be the stone right now, but I can't pry it open. Why don't you two try it?"

Ye chen had never liked to show off. When he saw that he could not do it, he immediately let the two of them try.

Lin Mo stepped forward and pressed his hand against the white shirt. He seemed to be exerting force, but the stone had the same effect and was not affected at all.

Tengfei also moved over, and then directly used his body to hit the stone. He wanted to use his mouth to lift the stone, but he couldn't.

"It looks like we have to find a way to open it. Could the lines on the stone be some kind of clue? Then let's study it again!"

Ye chen said as he stepped back and looked at the image on the screen.

"If it's not related to this image, could it be related to the things around the stone? After all, most of the time when we cleared the game, we would find some grooves and use the key to open them. "

After he said that, the three of them groped around the stone and carefully inspected it. They found nothing and could only focus on the pattern.

Ye chen took out the book and the map that he carried and laid them on the ground. He found only a few patterns but they were completely different from the ones depicted on the stone.

The Nine-Tailed ROC stood to the side and stared at the pattern, but he revealed a thoughtful expression.

He really felt that he had seen this pattern before, but for some reason, he couldn't remember where he had seen it.

Could it be that he had read about it in his family's records?

"It seems like there's a game on it. Do I have to follow the dots on it and walk?"

Ye chen opened up his mind with all his might, trying to figure out the contents of the book.

At this moment, Peng Fei, who was standing at the side, suddenly had an idea. He remembered when he had seen this pattern. It was the one his mother used to play games with them to relieve their boredom when they were young!

Although his mother did not draw it in such detail, he could still tell that it was this image.

Would it be possible to crack it by using the same method at that time?

Fei flapped its wings anxiously and ran to Lin Mo's side. It started to speak in the bird language.

Lin Mo listened to him and nodded. He carefully memorized the rules of the game and passed them on to ye chen.

"He said that this game is similar to jumping squares. After finding the beginning, two people will jump from two sides and form a pattern, which is a miniature version of the pattern above."

Ye chen was overjoyed when he heard that. How difficult was this game?

"Okay, okay, okay. Then you can get Pengfei to make a miniature of this pattern, and we'll play."

After ye chen had finished speaking, the Nine-Tailed ROC used its mouth to draw a miniature pattern. It looked very similar to the pattern on the big rock they had found.

Ye chen and Lin Mo found the center of the stone. Then, the two of them stood in symmetrical positions and began to form the shape according to the points on the pattern.

"This way. Yes, I'll jump this one."

Ye chen jumped three times to the left and had Lin Mo follow him.

"Turn this way again."

Although the two of them looked very sloppy, they actually walked over according to the prescribed pace after careful study. After a short while, there were only two steps left.

"If we take these two steps together and use the same speed, we should be able to achieve the final success, right?"

After ye chen had finished speaking, he motioned for Lin Mo to lift his foot with him and step on the last spot. The two of them supported each other as they stepped on it.

"You have to wait for five seconds. The effect will only be effective after the five seconds are up."

Lin Mo said softly, frowning slightly. The two of them held each other's arms, and the Golden Rooster stopped there on its own.

A rumbling sound suddenly rang in their ears. The mountain in front of them seemed to have suffered a huge tremor, and the stone they were aiming at seemed to have begun to loosen.

"Quickly Dodge!"

Ye chen called out to the Nine-Tailed ROC, then immediately pulled Lin Mo, who was standing beside him, and hid in the other side.

As soon as he finished speaking, the big rock rolled out as if there was a force pushing it. It passed by them and rolled down the mountain.

After the rock fell, the cave behind it was revealed.

Compared to the size of the stone, the cave was obviously smaller, as if it was half the size of the stone.

It was still daytime, but only the few meters near the entrance of the cave were bright. It was dark inside, and the width of the cave was unknown.

After the rock rolled down the mountain, the mountain returned to its calm state, as if the tremor just now was just an effect.

"Let's go in and see how we can break the curse on you. Maybe there's something good in there?"

Ye chen said with an eager smile. After all, it was very likely that there would be some peerless treasures in such a place.

At that time, if he could obtain it by accident, it could be considered as his luck and fate.

The Nine-Tailed ROC had been shocked, so its body had grown bigger. Now that it had calmed down, it shrank its body.

After all, if they wanted to follow ye chen and the others in, they would not be able to shrink in. They might even squeeze in the hole.

The six-tailed ROC couldn't do this, but the evolved Nine-Tailed great ROC could, and it could even shrink as it pleased.

Ye chen walked in front and had the two of them follow behind him. In his hand, he held a piece of wood he had picked up outside and lit it.

The first few dozen meters of the cave was the same. The area was filled with ordinary soil, and it was smoky, but there was no danger.

"It feels much more ordinary than I thought. Did we go to the wrong place again?"

This kind of cave was likely to be designed by the designer to be a cunning rabbit with Three Burrows. Therefore, if they went the wrong way, they could only admit that they were unlucky and look for another one.

However, it was clear that ye chen was overthinking it because after they walked through this somewhat sealed and sullen road, they were met with a large hole.

"It's much more spacious here, come over quickly!"

Ye chen jumped into the small hole and brought the two of them down. The hole that appeared in front of them was much larger and even had some light coming from somewhere.

When ye chen walked over to take a look, he realized that the stones on the ground were glowing on their own, like night pearls illuminating the cave.

"Could this really be a night-luminescent Pearl? It's as common as ordinary rocks. It seems that we've come to the right place. Let's go and take a look further in. "

Lin Mo stopped and looked around as well. He picked up a stone and weighed it in his hand out of curiosity.

They did not stop for long before ye chen called out to them and walked forward. The cave seemed a little crooked but fortunately, there were more or less these luminous pearls on the ground to light up the cave.

When they reached a corner, ye chen stopped and took out the map. On the map, they would see a large Python crouching in the cave and a mural that could create illusions.

"We haven't encountered any of these yet. It seems that we have to be more vigilant in the future. Let's move closer."

The drawing on the map was still somewhat tattered, but he could still barely make out this.

At the very least, they had to get past the giant python and the mural before they could continue down.

The two humans and one bird continued to walk forward. When they passed a cave, ye chen suddenly stopped and hurriedly reached out to stop his companions behind him.

[Chapter 2663 Still Water!](#)

He seemed to hear a rustling sound, like smooth skin brushing against the ground, but it was particularly clear in the empty cave.

Ye chen was very sensitive to these strange sounds, so he immediately asked everyone to stop.

The sound was suddenly near and far, as if it was hovering in one place. It clearly had not discovered the three of them.

"There's a problem inside. "

Ye chen used his lowest voice and his hand gestures to signal to Lin Mo and Peng Fei that there was danger inside.

They had to go there quietly, or even if there was a sudden danger, they had to be prepared in time.

Peng Fei was a bird, so the movement of his legs would be relatively quiet. Thus, ye chen gently hooked his finger and had him stand in front.

Although his strength might not be enough, at this time, he needed Peng Fei to be bold and go check out the situation. He was much more reliable than the two of them.

Of course, ye chen would not easily push his own teammates into deep trouble. Therefore, he only did this after careful consideration.

Moreover, he was right behind Peng Fei, and if there was any danger, he would immediately step forward.

It had to be said that Peng Fei, this bird, had indeed followed ye chen wholeheartedly after having a master. If he was told to move forward, he would move forward. Even if he knew there was danger, he did not have the slightest intention of backing down.

Thus, the three of them walked forward bit by bit, sticking to the wall.

As they walked further in, they felt that the light was much dimmer. They looked around in confusion, but they still felt a little uneasy.

Ye Chen's hand had already grabbed his sword. At this moment, they once again heard the sound of skin brushing against the ground.

There was still light up ahead, probably the same kind of luminous underground stones.

The light from the two sides faintly shone on the dark area in the middle. The three of them were so scared that they stopped in their tracks.

That was because it was a huge thing, and it looked like a snake that was hibernating.

His skin and flesh were all black, but there were tiny dots between the lines, as if he could see a faint blue light.

It really made them subconsciously want to look away.

What was even more terrifying was that when they saw it clearly, the big black thing actually turned around and looked at them!

The huge eyes were shining brightly under the light of the night illumination stones behind them.

There was even a faint blue light in the cave. They were less than a few dozen meters away from the snake.

Ye chen looked at the giant snake's vigilant expression and knew that it was going to charge at him next. Therefore, without any hesitation, he immediately left Peng Fei behind.

Then, he pulled out his sword to block the attack. As expected, the snake stretched out its neck and stabbed him with its bloody mouth wide open.

It was a pity that ye Chen's sword had slid down to her chin. She should have hit the soft flesh or perhaps it would have gone through. However, after hitting it, it felt like she had hit metal.

A crisp sound rang out in the cave.

Ye chen was stunned for a moment and quickly pulled out his sword. Then, he flipped over and jumped on the snake's head.

He ruthlessly pierced the arrow again, using almost all of his strength. Unfortunately, the snake did not seem to be affected, and his sword did not even go through it.

He saw that ye chen was only half-dressed, as if he had only cut someone's wound. Ye chen was suddenly thrown down.

Compared to the other two sections of the cave, this cave was simply enormous. Therefore, when this unidentified black snake attacked them, it had a huge space.

As ye chen had bought them some time, Lin Mo and Da Peng had managed to Dodge the attack.

Meanwhile, Lin Mo saw that ye chen had almost been injured from the fall. He quickly attracted the black snake's attention while Peng Fei quickly caught ye chen and flew back to his original place.

For a moment, it was as if everything had exploded in a mess.

Ye chen did not stop. After being rescued to a safe position, he once again rushed forward with his sword.

He knew that he was the strongest among the three of them, and this snake was slightly different from the ones he had encountered before. However, its weakness should be the same.

Therefore, he quickly took the opportunity to draw the snake's attention and went to the back.

He nimbly stepped on the snake's body and once again rushed to the snake's head.

When the snake raised its head again and was about to roll it down, he stabbed his sword into one of the snake's eyes.

This time, he had indeed touched a soft part, so he was able to put it on in an instant!

Ye chen did not hesitate. He pulled out his sword again and pierced the other one.

It was as if the snake's nerves had been triggered, and it began to shake its head wildly.

However, he was unable to tell where the enemy was, and he kept knocking his head against the cave.

Its body was so huge that the mountain would probably collapse after a short while.

At that time, none of them would be able to escape!

"No, I can't let him hit me again. I have to kill him!"

Ye chen realized this problem and immediately pulled Lin Mo and the Nine-Tailed ROC over. He then briefly told them that he needed to go up and kill the snake.

Therefore, the two of them had to make some noise to attract attention.

The three of them didn't dare to talk much and could only communicate quietly. Now that the snake had completely lost its mind, they didn't have to worry too much.

After the discussion, ye chen immediately retreated to a huge rock.

Peng Fei immediately rushed to the other side and began to use his claws to grab rocks and throw them at the snake.

As expected, the snake stopped ramming into the cave and instead headed towards its attacker. Lin Mo immediately activated his Hurricane.

One by one, they kept harassing the snake, making it difficult for him to do two things at the same time.

The reason why they did this was not only to stop the snake from attacking the cave, but also to make him lower his body.

Ye chen had already observed that this huge snake had a soft and fatal part, which was its jaw.

Therefore, he had been waiting for an opportunity. When he saw the snake gradually lower its body, he pulled out his sword and ran away.

It ruthlessly pierced through the snake's lower jaw, only to hear a mournful sound that came from an unknown place!

The snake stopped moving, and its body and tail stopped moving.

Ye chen slowly pulled the sword out and the huge body fell to the ground.

The dust on the ground was immediately lifted up by the loud voice, causing them to choke and cough a few times.

"I've finally killed it. Why is this thing so annoying? I almost got hurt. Are you two okay?"

Ye chen glanced at his two companions. After making sure that there were no other wounds on their bodies, he prepared to move on again.

Fortunately, the three of them only spent a little effort, but this also indicated that the next encounter would only be more troublesome.

"It seems that the map is right. We should be meeting another wall next. There should be many traps on this wall."

Although ye chen said so, he knew in his heart that there might be more trouble in this.

This map might not be the complete picture, so he could not let his guard down easily.

Who knew if there were greater dangers behind this?

This snake was the obstacle they had encountered when they had just entered the cave for a few hundred meters. It was hard to imagine how difficult it would be to encounter it later.

"Indeed," Lin Mo chimed in from the side.

Ye chen put away the map in his hand. Then, the three of them went around the snake and went in again. The cave was still as strange as before.

Only the middle part with the big snake was empty. As they walked further in, they still returned to the mountain path that could only be passed by one or two people.

"Wait a minute, did you hear the sound of water? why do I feel that the sound of water is a little clear?"

Ye chen said with a frown. As he spoke, he slowed down.

If there was light, water, and such a living thing here, could there be something even weirder behind this cave?

Sure enough, after he finished speaking, the two people behind him also replied that they could hear that after Peng Fei had successfully evolved, he could almost slowly understand human speech.

Hence, they followed the depth of the water and gradually moved forward. Slowly, the cave became wider again.

It was as if they were about to enter a dangerous place. In short, they were still very cautious.

"If there's any danger later, you two can just hide behind me. As long as it's something I can deal with, you two hide."

Ye chen felt like an old mother when he said this, but he still had to say it.

After all, he really didn't like stupid teammates, but fortunately, his two friends were very reliable when they did things.

Lin Mo nodded indifferently before turning to look at Peng Fei. Peng Fei naturally nodded his head quickly in response.

The three of them slowly walked down the road. The sound of water was getting closer and closer, and at the same time, they could hear the sound of something splashing.

The three of them were shocked. Could it be that there were fish here? of course, if there were fish, it could only be considered good news.

However, it would be a different story if they were raising something else!

It would not be an exaggeration to say that there were some strange creatures in this place.

After all, the giant python just now was already ugly enough, and this water would make people feel even more dangerous.

After all, any water that could not be seen would have a feeling of being bottomless.

Ye chen was already thinking to himself that if there were any strange things in the water later, he would have Peng Fei fly them over.

He didn't want to get his clothes wet, which would be more troublesome.

As they got closer and closer, the opening of the cave was another shocking scene.

The three of them stopped and stood there in a row, as if they were stunned.

This was because the scene that appeared in front of them was like entering some Water Moon heavenly cave. There was no black water like they had imagined. In fact, the water was extremely clear!

Under the refraction of the blue light in the cave, it seemed to be poisonous.

He did not know where the cold voice he had just heard came from.

In any case, the water level was now extremely quiet.

Ye chen had thought that although the mountain was large, it was not that big. However, after entering, he realized that the size of the cave was beyond their imagination.

When he saw the place where the big snake lived, he felt that it was much wider. Who knew that the pond he saw now was even wider.

He briefly ignored the fact that there was more than a hundred meters between their current position and the other side of the water.

"There shouldn't be anything there. I haven't seen it yet. Why don't we just fly over? Peng Fei?"

Ye chen took a brief look and did not feel any danger, so he turned to Peng Fei and asked.

Peng Fei was about to nod in reply when Lin Mo suddenly spoke.

"Wait, there's something wrong with the water."

Lin Mo's gaze stopped on the surface of the water. He looked from the left to the right, and from the right to the left. The water was strangely calm, as if it had been silent for many years.

How could the water remain so clear without any flow? This was completely unrealistic.

Lin Mo picked up a dried branch from the side and slowly lowered it near the water. He placed the dried branch into the water.

However, it was stuck to him. He tried to pull it out, but he couldn't. After he let go, the branch was completely stuck.

They had thought that they would fall into the water, but now they had disappeared in front of their eyes!

"Damn, this water is too scary. What's going on? No, no, let's think about it before we fly. It'll be dangerous if something jumps out and drags us down. "

Ye chen hurriedly pulled his two companions back, trying to stay as far away from the water as possible.

But now, he thought that the water might have some kind of corrosive effect, and it could be cleaned up in a few seconds.

It might seem peaceful now, but in reality, many things or creatures had fallen inside.

"If it doesn't work, let's see if there are any other ways to go. This water is really strange."

Ye chen frowned as he looked at the two sides of the river.

He picked up a stone and threw it into the water. There was no sound at all as it sank in.

Then where did the sound they heard at that time come from?

Could the way to get into the water be related to the creatures that could live in the water?

He immediately perked up and ran over to the two.

"Maybe we can try to find out what the living thing in the water was. We've all heard the sound of the water just now; however, it's as still as dead water now. There's definitely something wrong!"

[Chapter 2664 Monster In The Water!](#)

This cave was much brighter than the snake's cave, so he could see clearly what was on both sides.

There were some fine luminous stones on the ground. Ye chen walked to the side and squatted down to take a look. He found that the water did not affect the things around him.

Logically speaking, there should have been some corrosion on the shore, but it seemed as if the shore was not affected at all.

Therefore, ye chen could more or less guess that the water had such a strange effect because there must be something in the water.

It was just that they had not been forced out yet, so they had not seen it for the time being.

But to be honest, he also found it hard to imagine what kind of creature could swallow everything in the water. Why did the water turn into this?

"Come on, come and sit for a while and rest. I don't think we can pass for the time being!"

Ye Chen pulled over a large rock next to him and sat down as if he was not afraid of anything.

Peng Fei and Lin Mo were no longer anxious when they saw Ye Chen's expression. Moreover, when Ye Chen showed such an expression, he must have had some thoughts in mind.

Therefore, she didn't need to ask him directly. He would tell her later.

"The only thing I can't think of now is how to force this monster out of the water. As long as he leaves the water, the water should return to normal."

Although Ye Chen's plan was just a hypothesis, he was already seventy to eighty percent confident.

After all, based on the sounds he had heard and what he had just seen, the monster in the water was probably using a smokescreen.

That was why they couldn't see what had fallen into the water, which made things even more terrifying.

However, in reality, it was just a matter of careful identification. The most difficult thing was that the monster was hiding underwater, but they could not determine where it was.

How big would this thing be?

Therefore, if he rushed up rashly, it was likely to bring unexpected trouble.

Therefore, the three of them had to think about it again. They definitely couldn't fall into the water. Otherwise, judging from the consequences of the stone and wooden stick, they knew what would happen.

In short, there was no poison in the air, and the three of them were indeed a little tired from fighting the big snake. They could take a break here.

He took the time to see if the monster in the water would rush out because he couldn't hold it in.

If that was the case, it would be for the best.

As long as he dared to face it head-on, Ye Chen and the other two would not let this monster escape!

Thus, the two people and one bird sat there to rest.

He had been like this for almost two hours. Ye Chen felt that if he continued to sit there, his feet would go numb.

So he stood up, stretched, and walked around the shore. He couldn't help but complain in his heart that this thing was too patient!

The three of them should be standing here as prey, but this Hunter seemed to be conserving his energy, not even willing to take the initiative to come out and hunt.

He was really too lazy!

Ye Chen helplessly shook his head as he looked at the water. Who knew that at this moment, a small Whirlpool would suddenly appear in the middle of the water!

Ye chen subconsciously took two steps back and walked closer to Lin Mo and the others. Of course, his eyes were fixed on the problem in the water.

Then, the three of them looked at the tiny vortex in unison.

This was different from what Lin Mo had done. It was as if it had come from the bottom.

There was a strange feeling, as if something was about to burst out from below.

Just as ye chen waved his hand to signal his two companions to step back a little, as expected, a huge splash suddenly appeared in the spot he had been looking at!

The whirlpool of water rushed up to the top of the cave.

The color of the water was slightly blue, so in order to prevent poisoning or any other accidents, ye chen quickly retreated.

This prevented the three of them from being splashed by the water.

When all the water had gone down, a black figure appeared in the middle.

However, when the water stopped splashing, they realized that this person wasn't a real human. Instead, he looked like a terrifying mermaid.

It was almost impossible to tell what he looked like from his face. His hair was a mess, and there was even some seaweed wrapped around it.

The moment he left the water, the color of his face seemed to have changed greatly.

The clear blue had turned into a thick black. The bottom of the water couldn't be seen, and what was in the water couldn't be seen.

Ye chen heaved a sigh of relief in his heart. This was more or less what he had thought.

Fortunately, there were no other deviations, or else it would definitely be accompanied by other accidents.

And everything that had just happened was exactly what he had expected, and it wasn't too difficult to deal with.

Although the merman's face could not be seen clearly, his eyes were surprisingly big, almost twice the size of an ordinary human.

Therefore, it was even more terrifying under this blue light. Ye chen could not help but feel terrified.

He even felt that the merman in front of him, who didn't look very big, was even scarier than the big snake he had just seen.

Lin Mo was not too afraid at the time. He walked directly to ye Chen's side and stood in a row with him.

Peng Fei felt a little resistant to this monster that had just appeared, so he had been standing at the back. Of course, he did not need ye chen and Lin Mo to be in front.

"Pengfei, take a few steps back and hide. Leave this to us!"

Ye chen glanced at his companion behind him and said in an understanding manner. Then, he walked forward with Lin Mo and soon reached the shore.

"Who are you? Why did you come in?"

A very ethereal voice came from all directions of the cave. It clearly seemed to be said by this person, but it was as if there was a speaker playing Chinese.

Moreover, ye chen had just carefully observed this Merman. He did not even move his mouth, so he could not see where his mouth was.

Ye chen did not mind his questions at all and even took the initiative to answer.

"We came in here to break a spell. I wonder if it's convenient for us to go in?"

Although he was asking, it was just a casual question.

After all, the other party had already stopped here, and had come out at this time. Presumably, they were not prepared to send them over in good faith, so it was inevitable that a battle would be inevitable.

"No one can come with me."

After hearing the mermaid's words, ye chen immediately placed his hand on his sword.

He didn't want to waste any more time talking. After all, since the other party had already said so, there was no need to discuss it further.

Besides, he had already wasted some time sitting there. It would be unnecessary to waste any more time on this mermaid.

It wasn't like he couldn't beat him. Besides, he had Lin Mo by his side to help him!

Ye chen was already in a battle-ready posture. His fists were clenched tightly and his eyes were fixed on the merman, wary that he would use some special moves.

"We will definitely go over. If you are not willing to let us go, then we can only fight. Let's cut the crap and come up!"

Neng Chu looked at the other party with bright eyes and said in a very serious tone.

The cave itself was empty enough, so his voice was not very loud, and it was basically clear.

The merman looked at ye chen as if he was looking at an insensible prey. Then, he suddenly flew out of the water and pounced toward ye chen and the others.

With a swing of his fishtail, the water in the pond was lifted up to the size of a bucket and thrown toward the two.

Ye chen quickly unsheathed his sword as if he was cutting off a source of water. He spun his sword very quickly, blocking the water that was splashed over from their bodies.

This move clearly shocked the merman, and made him even angrier.

The fishtail was obviously his weapon, and it was obvious that his nerves weren't very strong. That was why the mermaid was throwing it left and right as if he was using someone else's tail.

However, ye chen could not see anything else. He only saw that the mermaid only knew how to attack with her tail. Even the water that she guided out was from this pond.

"I think we can cut off his tail first. That way, his offensive power will be greatly reduced."

Ye chen whispered to Lin Mo while they were fighting.

The two of them hit it off, and Lin Mo immediately created two vortexes that attacked the mermaid from both sides.

Following that, the mermaid was pushed to the front. Ye chen raised one of his swords and cut at the big tail that he was preparing to raise.

With a flash of silver light, the tail fell directly into the water, and the merman was instantly at a loss, as if his weapon had been knocked away.

"Let's kill him now!"

Ye chen shouted. Lin Mo immediately had his two whirlpools approach the merman.

The merman without a tail was instantly sucked in, and his body lost all balance.

When he left the surface of the water, his entire body seemed to have been attacked by something and began to Twitch.

He became extremely pained and tore himself apart.

Ye chen could not help but take two steps back from the shore because it did not look very good.

Soon, the merman was devoured by the vortex, and not even his bones were left.

Lin Mo slowly retracted his hand, and the water returned to its calm state. The mermaid had been dealt with.

The water returned to its original black color. There was water in the corner of the shore and it started to flow.

It was just a small movement, but it was much safer than the clear water he had just seen.

"We should be able to go over now, right?"

Ye chen waved his hand and called over Peng Fei, who had been hiding behind him.

"Let's go. We should head over and see what we'll encounter next!"

He and Lin Mo sat on Peng Fei's back and flew through the cave at a low altitude.

He tried not to touch the water and stopped at the other side.

Although this process only took a few seconds, in fact, the two of them clenched their fists and were sweating, constantly on guard against any other danger.

Peng Fei was also a little scared.

Fortunately, the strange phenomenon in the water back then was also caused by the mermaid who could not be seen clearly.

Therefore, now that the thing was gone, the water was no longer a threat.

Otherwise, anyone who thought that this place was like a swamp, where there would be nothing left once they sank in would be filled with fear.

Moreover, flowing water was much more difficult to deal with than mud and quicksand.

Looking at the ugly pool, they did not stop. They had rested for a long time on the shore, and now they had to hurry on.

"How can this mountain be so big? I thought we were in a cave and we would be done after walking for a few hundred meters. Who knew we would have to take such a long way to get in!"

Ye chen said helplessly. After all, this was a little too different from what he had expected.

"There must be other places behind this mountain."

Lin Mo said indifferently from behind. Even though he had not said much from the beginning to the end, he had actually been estimating the direction they were going and the length they had walked.

This was his innate talent, and his judgment was even more accurate than ye chen 's.

Then, they stopped. Lin Mo picked up a luminous stone from the ground and shone it on the wall in front of him.

Then, he picked up a sharp stone and drew a picture on the wall. It was the rough path they had taken.

"We should be about two-thirds of the mountain."

"If we still have to walk forward, then it's very likely that the gate shown on the map is the gate to leave this mountain."

Lin Mo's explanation was very clear, and even Peng Fei understood what he was saying.

Ye chen nodded. This was indeed what he was worried about.

If the final door they walked to was really the door to leave this mountain, where could they find the key to open the curse?

"It's okay. We don't have to be too depressed now. Maybe the curse will be lifted after we open the door. Don't overthink it. Let's go and see what strange things we'll encounter next!"

Ye chen patted Lin Mo's shoulder and continued to walk forward. However, after walking for a while, the three of them realized that something was not right.

The road seemed to be slowly tilting towards an angle.

Then, after another 15 minutes, they arrived at the place where they had drawn the map!

"No way, we can even encounter a ghost in here? What was going on? Don't tell me you've also fallen into a cycle?"

Ye chen supported himself with one hand on the wall and carefully examined the pattern on the wall. It was indeed the one that Lin Mo had drawn.

[Chapter 2665 2671-Killing The Flood Dragon!](#)

"In this case, we'll have to find other passages."

When ye chen and the others arrived at the place where the sign had been drawn for the second time, he no longer intended to continue waiting like this. Otherwise, it would only bring trouble.

They had thought that they would be able to pass through the mountain and see what was behind it, but it seemed that the maze in the middle was not going to let them out.

This was even a direct act of a ghost hitting the wall.

Of course, ye chen had never been a pushover. These moves were nothing in his eyes.

Therefore, he immediately led his companions to the symbol.

Since there was a sign here, and he was able to reach this place every time, this was a huge opportunity.

So he just sat there.

Lin Mo and Peng Fei did not understand what ye chen meant, so they looked at him with a puzzled expression.

"Come on, you two should stop here. Don't worry, this should be a camouflage. Moreover, these roads are luring us to keep going back, so it's useless to walk more. It's better to take a temporary rest here!"

After ye chen finished speaking, he took out a steamed bun from the bag on his back and poured two sips of water into his mouth.

Of course, it was fortunate that the other two companions did not need to eat, so ye chen only had to sit there and eat and drink.

After staying there quietly for a while, ye chen stood up. He did not bring his two companions but took a few steps forward.

He was pressed against the wall, so he quickly stopped at a place, raised his hand, and slapped it down.

Lin Mo, who was standing behind ye chen, heard a sudden earth-shattering sound. At the spot where ye chen had slammed his palm, a layer of stone about the thickness of a fist collapsed with a loud bang, revealing a hole behind it.

Of course, they were shocked. What was going on?

How did ye chen know that this place was empty? they almost wanted to continue walking in this circle two more times to see if they could find anything extra.

However, because of ye Chen's action, he did not need to do anything.

After all, wasn't it obvious? they thought that they were going around in circles, but in fact, they were thrown into a maze.

And how many of the escape routes had been blocked?

He was indeed a little too cunning!

He didn't know who had designed this place, but it looked like it was full of traps.

And it was under the premise that they didn't have time to react, and such a big problem had already happened.

Ye chen stood there and nodded very seriously, a smile on his face. He had been observing both sides since he sat there.

For some reason, he had a feeling that the exit was somewhere on the left and right of the sign.

When he noticed that a leaf on the ground had been gently blown up, he had already determined where it was.

That was why he stood up unhurriedly and slapped her hard with his palm.

He wasn't afraid that he would hit the wrong place, because he had already confirmed that this area was definitely empty.

Ye chen smiled and had his two companions follow him. Then, the three of them walked along the road.

As expected, they could sense that the road was straight as soon as they arrived because there were also some fine luminous stones.

Although it was really little compared to the outside. However, they could still see the direction of the road.

Hence, ye chen continued to stand in front while his two companions stood behind him and walked forward.

This path was clearly wider than when they first entered the cave.

"You're really amazing. "

Although Lin Mo's tone was calm, he was sincerely praising ye chen.

"Of course, don't you know my strength? It's my ability to be able to do this. "

Ye chen had never rejected compliments, not to mention that this was Lin Mo!

The people who didn't even want to talk nonsense before had gotten closer after a long time together.

The three of them continued to move forward. Ye chen was more worried about the wall drawn on the map.

Everything else had been verified, but this wall was the only one left. He didn't know what was going on.

He had never cared too much about external factors, even if it was a snake or some other aggressive Merman.

What made him feel even more dangerous were the hidden mechanisms that he didn't know when they would be activated. These were the ones that gave him the most headache.

Just as they increased their speed, they suddenly heard a violent crash coming from ahead.

It was like the feeling of the big snake hitting the mountain. In an instant, many debris fell from the top of the cave.

"What's the matter? Why did it suddenly become like this? let's go and take a look!"

Ye chen immediately said with a frown. The three of them quickened their pace. No one knew if the cave would suddenly collapse or something.

At that time, there would really be no way to escape. He had to quickly find out what was causing this panic.

The three of them increased their speed, and not far ahead of them, the place suddenly flickered as if something was flashing.

Ye chen had already grabbed his sword with one hand and stood in front of his companion. He strode over. He was not afraid of these things. On the contrary, he felt that it was a little challenging.

After a short while, they had already reached the edge of the cave, and in front of them was a long strip of things. Below it was a dark abyss, and they couldn't see what was down there.

However, sisi's voice could be heard from time to time, just like the sound of a snake sticking out its tongue.

He had clearly heard the sound of the collision just now, but it had disappeared at this moment.

Ye chen frowned and felt that it was not as simple as it seemed. He subconsciously took two steps back and conveniently pushed his companion behind him.

If he had not guessed wrongly, the sound of the collision just now was deliberately used to attract them over, and the culprit should be in the abyss now.

The middle bridge did not even have any obstacles on both sides. It just stood there straight, but the bottom of the bridge seemed to be solid.

However, this still couldn't reduce the sense of danger. In short, if he wanted to go over, he definitely had to solve the danger hidden inside the black hole.

Otherwise, once they crossed the bridge, it would be even more difficult to run over and escape the danger.

"It seems that we have to draw out the thing under the ground. Try not to make any noise, I'll take my sword and test it out."

Ye chen turned around and said to his companions. Without waiting for Lin Mo and the others to reply, he pulled out his sword and strode to the edge of the cliff. He looked down boldly.

In the darkness, ye chen suddenly felt a force rushing out. He raised the arrow and quickly retreated!

And that force was enough to push him back as if he was being pressed hard!

Ye chen was stunned. At this time, the thing hidden at the bottom of the cave finally revealed itself.

Ye chen frowned as he looked at this ugly black thing. Compared to the snake he had encountered before, this one looked even more disgusting.

Moreover, it wasn't in the shape of a snake, but rather, it didn't look like anything.

He took a few more glances and thought to himself, this might be the legendary flood Dragon?

However, it was still far from becoming a dragon. Instead, it was like a dead snake in the gutter, extremely ugly.

The reason they came here was to break the curse. Why were there so many troubles in between?

This black thing that had suddenly appeared had the same intention as the huge snake from before. When it saw ye chen and the others, it opened its mouth and came for them.

It was as if he had already seen the delicious food on the table. He was direct and violent, not hiding anything.

Ye chen frowned and stepped on a huge rock behind him. Then, with a sudden leap, he cut off one of the dragon's teeth.

With a plop, the thing fell to the ground.

Under the refraction of the blue light, it was still emitting white light, but the smell it emitted was extremely disgusting.

As ye chen was closer to the tooth, he could smell it very clearly. It almost made him suffocate. He quickly fanned his nose and walked to the other side.

"What's wrong with this monster? why do its teeth have poison attacks?"

Lin Mo did not want to be protected by ye chen anymore. He floated to a higher place in the cave and stretched out his hands. Two vortexes immediately appeared.

But this time, it was different from before. This time, it was like two sharp swords standing in the air!

Then, he raised his hand and released the sharp sword, pointing it at the black flood Dragon!

The flood Dragon, who had just lost a tooth, turned its body with all its might to relieve the pain. Who knew that two more attacks would suddenly appear?

He immediately flicked his tail to avoid it, but who knew that the two Hurricane arrows would directly Pierce into his tail.

Ye chen, who was watching from the side, was stunned. What was going on? Was this even possible?

He had not expected Lin Mo's so-called Hurricane attack to be even more useful than his sword. After all, the sword carried a certain weight on him, and he only needed to summon it gently!

Peng Fei saw that the two of them were working hard, and it wouldn't be good if he didn't move.

Moreover, if it were not for ye chen and Lin Mo's protection at the merfolk's place, he would have been so scared that he would have turned around and run.

So this time, Peng Fei perked up and flapped his wings, directly pouncing over. The wind created by the flapping of his wings also drew a dart-like attack towards the flood Dragon.

The ugly flood Dragon opened its mouth and pounced at Peng Fei with all its might, wanting to bite off his wings.

She might have thought that this way, she would be able to control one of them first. Unfortunately, ye chen had already seen through her plan.

After Peng Fei finished his attack and turned around, he returned. Ye chen once again flew out with his sword.

Then, he ruthlessly hacked at the left horn of the so-called flood Dragon. It seemed that the horn had not fully grown.

It was like a bald tree stump, which didn't give people a good impression.

When he had cut off the tooth, ye chen had some doubts in his heart.

That was why he had turned around and hit the second hardest part of the flood Dragon's body.

After all, teeth were supposed to be the hardest, but he had easily cut one off, and it was a sharp tooth.

Therefore, he already had a rough guess in his heart.

Sure enough, this time, the skill was easily dealt with. Thick black blood began to flow out from one of his horns!

If that was all, ye chen would not be too alarmed.

However, when he saw the black blood immediately evaporate and turn into black gas, he realized that this might be another kind of attack!

Hence, he shouted loudly!

"Hold your breath! Its blood should be poisonous!"

Ye chen shouted. Then, he used his spiritual energy to control his breathing. Suddenly, he rushed over and raised his hand to form a spiritual energy fist. He suddenly punched at the thing.

Of course, this was far from enough for his sword to slash at half of the flood Dragon's body when he passed by it.

He cut off half of it in an instant, while the other half was finished off by Lin Mo behind him.

As a result, the ugly black thing was split into two, but at the same time, a thick black gas floated up, thinning the air.

"No, we have to cross the bridge quickly!"

Ye chen said. Then, he waved his hand and had the ROC fly over. He and Lin Mo quickly jumped up, flapped their wings, and flew over the cliff.

As soon as they landed, they heard the bridge behind them collapse. Even the cave had been covered, and they could not see anything.

The flood Dragon that had been arrogantly trying to eat them had been completely buried by the rocks, leaving only dust and poisonous gas in the air.

"This is too scary, but not too dangerous. Let's leave quickly. This black gas is likely to still have a corrosive effect. It's best not to come into too much contact with the skin."

Ye chen raised his hand and led them away quickly. They walked along the cave in front of them again.

He also had a faint premonition that the next thing he had to face was the door drawn on the map!

I wonder if it will bring any other unexpected surprises?

He also knew that it had been too easy to deal with the flood Dragon.

If this was the thing that had crashed into the cave just now, it was obviously not true.

The flood Dragon's body had already become so fragile, so how could it still have the energy to hit those mountains?

When ye chen suddenly thought of this, he felt a chill all over his body. His hand that was holding the sword also paused.

[Chapter 2666 The Giant Centipede!](#)

Ye chen was worried that something would suddenly appear, but on the surface, he pretended not to be afraid.

He couldn't tell his two friends about this matter for the time being, because they were now charging forward in one go.

At this thought, ye chen sped up even more. The sound of the collapse behind him grew louder and louder, rumbling.

If he didn't guess wrong, the road they had taken on their way here had basically collapsed.

Therefore, there was no way out for them now. They could only keep moving forward. This way, they would have the greatest chance of surviving.

However, at this moment, the ground under their feet seemed to suddenly loosen and shake violently.

In an instant, ye chen lost his balance. Peng Fei and Lin Mo, on the other hand, were fine. The two of them did not rely on the strength of the ground to walk, so they were not affected much.

However, he was also shocked by ye chen. Peng Fei quickly carried his master on his back and ran forward.

Ye Chen's hands immediately grabbed Peng Fei's feathers.

No matter how fast they were, they still couldn't block it. The speed of the pursuit was almost at the speed of light.

Thus, the three of them were bounced up by the soil with a bang and subconsciously closed their eyes.

Ye chen curled up his body as he felt as if rocks had just brushed past him.

For some reason, ye chen had lost consciousness.

When he woke up again, he opened his eyes in a daze and felt as if something heavy was pressing on his body.

Before his brain could react, his body had already started to shake.

When she tried to get rid of the thing on her body, she gradually woke up and opened her eyes.

It was only then that he realized that it was a huge tree branch that was pressing down on him.

He used his arm to support his upper body as he sat up and looked around. It was still dark here, not even illuminated by the night pearls.

He broke off a small branch from the tree branch he was wearing and lit a small flame to light up the place.

Only then did he see that Peng Fei and Lin Mo, who had fallen not far away, did not seem to be in a better state than him. They were unconscious and he did not know how they were.

Ye chen pushed the branches on his body with all his might. After using a lot of strength, he finally managed to put some distance between them and quickly pulled his leg out.

He broke off a few small branches from the big tree and lit a small fire at the side. He then ran to Lin Mo's side and shook him.

"What's going on? Wake up, are you hurt?"

Ye chen hugged his body and shook it hard. Just as he was about to continue screaming, the person in his arms had already opened her eyes.

"I'm fine,"

Lin Mo seemed to have come to his senses after he finished speaking. He propped himself up and the two of them went over to wake Peng Fei up.

In short, he had escaped death and wasn't really injured. At most, he had only scraped his skin.

To them, this kind of wound could be healed very quickly.

After the three of them stood up, they still couldn't tell where they were. After all, the place they had first escaped from should be a cave.

But now, it was completely dark, and he couldn't tell where he was.

"Was that the sound of the collapse? it really gave me a fright."

Ye chen broke off a few more branches from the side and stuffed them into the fire to reignite it.

"It should be, but I don't know where it came from."

Lin Mo looked around helplessly as he could not find a way out.

If he didn't guess wrong, they should still be in that mountain.

The collapse of the mountains and the appearance of strange underground creatures from who knows where had led them to this situation.

Furthermore, if it weren't for this tree root that had fallen for who knew how many years, which temporarily protected their safety, they would probably have been buried in the ground a long time ago.

He could be considered to be very lucky this time!

"There should still be caves nearby, because look at this fire."

Ye chen pointed to the fire and told his two companions that if there was not enough air circulation here, it would be impossible to keep burning here.

There was still a chance to escape.

Moreover, from the looks of it, the collapsed root was relatively strong.

Even if they couldn't find a way out in a short time, they could still hold on.

Ye chen did not hesitate and began to search for an exit in the small area they could see.

It was just like when he broke through the ghostly labyrinth. He had slammed his palms on the wall.

Unfortunately, after a while, he felt that they had almost completed the whole circle, but they still did not find a cave that was big enough for them to pass through.

He was really tired, so he sat by the side and sighed helplessly.

Ye chen, who was sitting there, suddenly raised his head and looked at the top of this narrow place.

Suddenly, he realized that there was a gap in the root that was pushing them, and the root there was actually swaying slightly.

This meant that there was a flow of air in this place, so it was very likely that they could escape not from below, but above!

"Look over there! Isn't it moving?"

Ye chen stood up abruptly and pointed at the spot for them to see. At the same time, he took two steps forward and walked to the spot below.

He was about to jump up and try, but unfortunately, he was not tall enough. So he pulled out his sword from behind him and stabbed it directly at that place.

A large piece of soft soil smacked his face, almost turning him into a dirty little man.

"Pei Pei Pei!"

Ye chen hurriedly spat out the dirt in his mouth and looked up. As expected, there was a small hole.

However, the hole was much smaller than they had imagined.

If the entrance at the beginning could allow one person to pass through, this one could only allow one person to climb through.

Not to mention that he was on top, so he had to rely on his body's support to get up.

Of course, other than ye Chen, Lin Mo and Peng Fei did not need these.

Ye chen believed in his physical strength, so the three of them looked at each other and decided to go up through this hole.

They wanted to see if there were any other dangers or if they could escape.

It was better to find a solution than nothing, and this time, Lin Mo chose to be the first to step out.

This time, ye chen did not take the initiative to say that he wanted to be the first to go. After all, some of the strength in his body would be wasted if he crossed this cave.

It would be safer for Lin Mo to stand first. After all, he did not need to rely on his physical strength to climb up.

Not to mention, if there was any danger up there, he might fall down as soon as he made a move.

It would be dangerous to step on the two companions below.

In short, the three of them quickly came to an agreement and squeezed into the small cave with great tacit understanding.

They slowly climbed up. Fortunately, the cave was not particularly difficult to climb. After climbing up for about a few dozen meters, ye chen looked up and saw some light above.

After a while, Lin Mo reached out and pressed the button, jumping out of the hole. It was obvious that there was space above.

Therefore, ye chen raised his head and sped up. It did not take long for him to reach the shore. He reached out with one hand and Lin Mo held his other hand. With a few steps, he jumped up.

Peng Fei followed closely behind.

However, he didn't expect that the situation up there wasn't very good either.

It looked smaller than the cave they had just passed through, but in fact, it was only enough for three people to stand there steadily. This was still not the final exit.

However, this time, ye chen felt a lot more relaxed. This was because he had touched the wall for a while and then slammed his palm hard on a spot.

After that, the wall collapsed, revealing the cave behind it.

"Let's go. I think we'll have to face the most troublesome door next. "

They sped up towards the twisted road and finally walked out of this narrow place. What appeared in front of them was indeed a huge door.

Ye chen heaved a sigh of relief. According to his guess, after passing through this door, it was very likely that they would reach the other side of the mountain.

Although it was just a guess, based on the distance Lin Mo had mentioned before, they should be here. In short, they had finally passed the most troublesome part of the road.

"Let's go. The curse on you might be lifted after we pass through this door. At that time, you two will have to leave this place with me. "

After ye chen walked out of the narrow cave, he stretched his back and stretched his body.

This door was much larger than the ones they had encountered before, and there was not even a gap in the middle.

Therefore, according to ye Chen's guess, this door should be lifted from the bottom to the top. There must be some kind of mechanism here.

"This place is quite convenient. There's no gold or treasure here. Fortunately, the three of us have a tacit understanding. Otherwise, I feel that if we were to act separately, we would have died several times."

Ye chen was more or less a Chatterbox, so while he was groping around the wall, he was still talking nonstop.

However, his two companions didn't like to talk much, and even if Peng Fei could understand what he was saying, he couldn't fully understand it, so he couldn't communicate with him in bird language.

Ye chen was not in a hurry at all. Another reason was that he felt that it would not be so easy to pass through the door.

Moreover, he still remembered the sound from the cliff and the mountain that suddenly exploded from the bottom of his feet.

It was very likely that all of this was being controlled by a strange creature that was guarding the mountain, so it would probably appear again soon!

"Both of you, be careful. I have a feeling that something might suddenly appear behind us, so be on your guard and don't let the attack hit you."

Ye chen touched the wall but found nothing. So, he looked at his other two companions and gave them instructions.

Lin Mo nodded, understanding what he meant.

No matter what, Lin Mo was a thousand-year-old monster. Even though he did not say it, he knew it very well in his heart.

He had already encountered this kind of dangerous creature that liked to hide in the dark several times.

Not to mention, many of the processes that had occurred in the middle of this time were things that they themselves could not understand. So, it must have come from a power from somewhere else.

Although Peng Fei did not understand why, he still listened attentively to ye Chen's words.

There was actually another reason why ye chen had chosen him as his Mount so directly. The six-tailed ROCs were a very special race.

They didn't recognize a master, but once they did, they would give their lives to their master.

Furthermore, he would listen to his master's arrangements seriously and carry them out carefully.

Just like the current Peng Fei, ye chen could be considered to have picked up a treasure. Not only was he young, but he was also so beautiful after being purified. He was even so obedient to ye chen.

Right at this moment, Peng Fei's sharp beak suddenly stopped at a spot, and then he gently pressed down. That place actually caved in.

It was also at this moment that the sound of the sky falling and the earth cracking came from the cave again!

It was the same feeling they had when they were running at their maximum speed.

Ye Chen's brows immediately furrowed into a deep frown. He rushed forward and pulled Peng Fei and Lin Mo to the big rock in the corner.

Sometimes, the collapse of a cave followed a triangular law. As long as the cave was strong enough, it would not be affected by the collapse.

Ye chen was well aware of this, so he reacted quickly.

"Quickly jump away!"

Ye chen pushed Lin Mo away and gave Peng Fei a kick. The two of them were kicked off the big rock.

He did a somersault and landed on the empty ground in front of him. The moment he landed, the large rock he was on was shattered.

The place he was standing on was no longer flat ground, but a centipede with many legs had emerged from below!

Ye chen almost lost his balance and fell. Fortunately, he managed to regain his balance immediately. However, when he lowered his head and saw the thing he had picked, he wanted to jump up.

This kind of multi-legged animal already gave people goosebumps when they were young.

Not to mention that this one looked extremely long, big, and red!

"Quickly hide! This thing is poisonous!"

As soon as ye chen finished speaking, Lin Mo and Peng Fei immediately flew to the sides. Meanwhile, the huge centipede under his feet shot out a stream of liquid from an organ on its face!

It shot towards the large stone door, and in an instant, a hole was corroded in the stone door!

"This can't be. His attack is too strong. I must not let him touch me!"

[Chapter 2667 2671-Battle At A Stalemate!](#)

The biggest centipede seemed to be much more sensitive than the previous two. It had just finished shooting its venom, but it clearly felt the pressure on its body.

So, he turned his head around, which gave ye chen a shock.

After all, the two roots were only a few meters away from him. He was so scared that he jumped up and stepped on the top part of the centipede's head.

"You two, get out of the way, don't let him spray poison!"

Ye chen raised his sword and slashed at the whisker on the left of the five palaces. After the strike, the whisker fell down.

This time, the centipede under his feet was even more enraged, and it directly stood up.

Ye chen lost his balance and hurriedly somersaulted backward. He scuttled to the middle part of the centipede's body and then jumped onto the big rock next to it.

The only good thing was that the open space was not very large, so the centipede did not have much space to display its abilities.

However, that wasn't the worst, because they heard the sound of insects coming from the other side of the cave.

Soon, he saw countless palm-sized centipedes crawling toward him.

When Peng Fei saw this, he immediately flew over and used bird language to tell his master and Lin Mo to take care of these little things.

"Control the power in your body. Don't chew those centipedes into pieces. Their blood might be poisonous too!"

Ye chen shouted at Peng Fei and immediately raised his sword to block one of the centipede's legs.

"This thing is too disgusting. Why does it have so many legs? I can't even cut them all!"

He jumped up and landed on the centipede's body again. He was thrown up by the centipede and used the centipede's strength to jump upstairs.

He raised his hand and cut off the other tentacle, so it wouldn't spray venom.

However, the tentacles still didn't seem to be very obedient.

Just as he was about to retreat, a centipede's leg appeared behind him and slapped directly at him. He hurriedly blocked it with his sword, but who knew that it didn't break. He just held on like that.

Lin Mo had just blocked a dozen little centipedes. When he saw that ye chen needed help, he said,"

Lin Mo's body was light to begin with, so when he floated over, his speed was extremely fast. In an instant, he was in front of ye chen.

Then, he erected a solid barrier to block the consolidated reverse attack.

Then, she turned around and took ye chen to hide in the back. After all, she could not hold on for long.

Sure enough, when he turned around, the centipede had already smashed into the spot.

The centipede was gone, and the two maggots seemed to have become more agitated. They began to shake their bodies and crash into them.

This time, it was a little harder. After all, this centipede's shell was much harder than the other two.

Ye chen had just ruthlessly stabbed his sword into it but found that it had only penetrated a little into the shell.

He first turned his head to look at Peng Fei, who was still fine.

Although it was a bit of a waste of breath, the group of small centipedes at least did not have enough strength to deal with such a large ROC.

"They'll go around from both sides to see if there's any soft spot on him. I don't think he can handle it here. Or should I cut off all his legs?"

Ye chen raised his hand with all his might to block the attack in front of him. Then, he once again borrowed the strength of the centipede's shell to jump to the opposite corner.

The two of them quickly started searching from the left, but they couldn't find a way in.

Ye chen could not take it anymore. After all, the centipede's attack was too fierce.

If this continued, it would be very difficult for them to rush out, not to mention that the little centipedes behind them were also coming in an endless stream.

Although they could deal with it for now, if the number continued to increase, they might not be able to hold on.

In his current state, some small centipedes would scuttle over from time to time, so he could only rely on Lin Mo and him to guard the back and deal with them.

"No, I can't do this. If it really doesn't work, I can only use force. Even if I have to break his shell, I must break through!"

Ye chen saw that the two of them were struggling, so he did not plan to continue looking for any shortcuts. If it did not work, he would just press on!

This time, it was really difficult to fight against this martial art. Both of them were injured to varying degrees.

Ye Chen's arm had been cut several times but fortunately, there was not much on his legs. Moreover, they were only external injuries that would heal in a while.

The most important thing now was to quickly get rid of this martial art. They couldn't continue to fight.

Moreover, when he turned to look at Peng Fei, he saw that Peng Fei was already retreating.

After all, he had hoped to get rid of all the centipedes, but it was obvious that he could not do it perfectly.

I suddenly saw a large wooden board next to the huge stone leaning against the wall.

He immediately thought of using a lever to lift the stone and hit the head of the martial arts practitioner. If he could do that, he would be able to control the centipede's body with great restraint.

Ye chen did not have time to think. He turned around and shouted at Lin Mo.

"You go. Lure him over first. I'll use this big rock to smash his head!"

This was a risky move. After all, ye chen did not know if he could succeed completely.

However, they had no other choice now. Hence, he and Lin Mo immediately cooperated.

Lin Mo jumped to the other side and ran from the front to the back. The centipede was furious and kept shaking its body, trying to bite the agile human.

Unfortunately, the centipede was still unable to keep up with Lin Mo's speed.

It was just that it would consume some physical strength, so he could not do it for a long time.

Therefore, ye chen did not waste any time and quickly jumped over. He moved the wooden board over and clenched his hands tightly, transferring all the energy in his body to his two feet.

He took a deep breath and slowly felt the Ling energy in his body moving.

Then, he suddenly jumped down. With a crack, the wooden board cracked, but he couldn't care so much at this time.

Ye chen jumped down with all his might and the rock was lifted up by him.

And because he used a lot of strength, he flew up in a huge arc, raised in the air and then fell down hard.

"Lin Mo, lure him over here!"

Ye chen shouted and jumped up, kicking the stone in the air.

On the other side, Lin Mo had also seen through his intentions and quickly ran over.

Sure enough, the head with his martial arts came over as well. With a very clear sound, his head was crushed by a large stone.

The centipede's body was still wriggling, but it couldn't exert any strength at all.

He could only flip his body and try to knock the rock down. How could ye chen give him the chance to do so?

"I've finally got the chance. I'll kill you!"

Ye chen laughed and went up to her. Then, he raised his arrow and aimed it at the leg next to his husband's tail.

The centipede couldn't even raise its head at this time, so cutting off all of its legs was the most suitable method!

Moreover, it could be done with the highest efficiency.

Lin Mo saw that ye chen had no more problems so he immediately turned around and ran toward Peng Fei.

For some reason, the small centipede on Peng Fei's side became violent after the big centipede was controlled.

The number of small centipedes suddenly increased, and Lin Mo went over to help him.

Ye chen nimbly disposed of all the other centipede legs. Then, he raised his arrow and ruthlessly stabbed it at the centipede's first neck.

After he slashed down, the centipede seemed to have been subdued in an instant. It no longer made any sound and its body no longer attacked.

The number of small centipedes that had just rushed in gradually decreased, and finally stopped, leaving only the corpses of the small centipedes on the ground.

Ye chen, who was standing at the side, heaved a sigh of relief.

He got off the centipede and walked toward his two friends.

The three of them were injured to varying degrees, so ye chen leaned against the wall and used his spiritual energy to heal himself.

Other than some superficial wounds and slight scars, the rest had almost completely healed.

Lin Mo was even faster. After all, he was already a 10000-year-old monster. His body was no longer comparable to that of a normal human.

The one slightly slower was Peng Fei. After all, he had used too much energy just now, and he was still panting from exhaustion.

Just as the three of them were taking a break, the body of the big centipede in front of them actually disappeared bit by bit!

Then, the bodies of the little centipedes also disappeared from their sight.

It was as if nothing had happened here. If they weren't really tired and the big rock that had been thrown down, this would really have been like a fleeting cloud!

It was very fast, but he didn't know where to start.

Just as the three of them were still confused, the door in front of them actually opened a gap in the middle and opened to both sides!

"Great, so it's that simple. We just need to kill all the monsters inside, and the door will open?"

Ye chen supported his two companions as they walked toward the door. Of course, at first, he only dared to watch from a distance.

Who knew if there would be any strange monsters waiting for them behind!

Fortunately, when the door opened, what they saw was not particularly dangerous. It could even be called a paradise.

The first thing he saw was a sea of green. The trees here were very dense. Compared to the forest where the giant Roc and the others had been, this place was completely sunny.

This place wasn't affected at all, and it was obvious that it was well protected.

"It can't be. This place is too beautiful. Could it be that the back of the mountain is like this?"

Ye chen subconsciously let down his guard and wanted to walk forward. However, Lin Mo, who was standing beside him, pulled him back.

The two of them looked at each other. Ye chen could see the doubt and worry in his companion's eyes.

Lin Mo's face could not be seen clearly at all. Only his eyes could be seen through his white clothes.

Ye chen understood what he meant and looked over there again. As expected, he found that something was not right.

The trees here were green and the sky was blue, but everything seemed so fake that he didn't notice it just now. He even thought it was real.

But now that he looked carefully, he felt that something was wrong. There was no grass on the ground, and the trees were all neatly arranged.

There was even a faint floral scent. Ye chen immediately held his breath and told Lin Mo and the ROC to do the same.

Of course, no matter what, the three of them would definitely leave the cave.

Therefore, after confirming that they had set up temporary protective measures, ye chen still took the lead.

Then, the three of them left the cave together and entered this place that seemed like a paradise.

Sure enough, their impression was correct. They had just walked out of the cave and not long after, they could already see the wonder not far away when they looked up.

In the area they could see, there was a faint blue light that enveloped the entire forest, and on the other side, there seemed to be some kind of ritual.

Ye chen and the others could only quietly circle around the trees and approach the area.

Only then did they realize that there was a group of savages gathered there, and there were also wild beasts that they should be riding on!

This was probably some kind of sacred ceremony. Otherwise, they wouldn't be in a circle, raising and lowering their weapons.

When ye chen got closer, he realized that these savages were not ordinary humans.

Their appearance was almost completely covered by color, and their ears were elven ears, and their hair was also not black or brown.

"Lulu Lulu da da da!"

Ye chen and the others could not understand what the ritual meant at all. They could only hear the words.

And in the middle of this group of savages, there was a huge basin-like thing that was filled with boiling water.

There was a fire below, and a struggling bird was hanging above.

Ye chen had only caught a glimpse of it but the bird was too special. Its entire body was colorful and the two very prominent feathers on its head shone with a strange light.

In any case, although ye chen could not tell what kind of bird it was, he knew that this thing was not simple.

However, looking at the current situation, this bird was about to be executed. It looked like it was going to be cooked in a pot.

"Good fellow, we actually ran into it. Should we save it?"

Ye chen did not want to cause any trouble but from afar, he saw that beautiful bird staring at him.

Moreover, her mouth was still opening and closing, saying something unknown. Since that was the case, he would save her and listen to her!

[Chapter 2668 2672-Elf Race](#)

"I'll go and save that bird now. "

Ye chen suddenly opened his mouth to speak. Lin Mo, who was beside him, reacted and wanted to hold him back.

Unfortunately, he was still a step too late. Ye Chen's tone was not one of negotiation but a direct statement.

Therefore, before his companions could react, ye chen had jumped out and stepped on the branches of the tree next to him.

Then, he turned around and stepped on a wooden block in the middle of the barbarians. When he reappeared, he was already on top of the pot in the middle.

His sword glowed, and the bird that he hadn't been able to control just now was released.

However, just as the bird was about to take off, it was caught in the hand again. There was no room for it to struggle.

What was even more shocking was that the savages surrounding them did not know what had happened. They only saw that the sacred object that they were about to put into the pot had been taken away!

Moreover, ye chen was still standing on the shelf looking down at them. The savages were immediately enraged.

However, they still did not surround him directly. Instead, their gazes all fell on the slightly older-looking elder in front of them.

The old man of the Barbarian tribe held a walking stick in his hand and slammed it on the ground, glaring at ye chen.

He mumbled a string of words, but ye chen could only make out a dozen of them.

The general content should be telling him to quickly put down the bird in his hand and then roll down.

He naturally wouldn't let go so easily. Moreover, he had only taken the bird down in a moment of rashness.

At the end of the day, it was because he wasn't afraid at all, so he didn't feel anxious at all even though he was surrounded by a group of actors.

A Golden Rooster with one leg stood on the wooden stake in the middle. He could even feel the steam rising from the hot water below.

Lin Mo could understand the language of these races, so his expression changed when he heard the elder's words.

Then, it quickly floated over and stood in front of the pot. It turned its head and roared at ye chen.

"Hurry up and come down. This is their rule here. I'll talk to you after you come down!"

Lin Mo turned around and walked to the elder after he finished speaking. He stopped at a safe distance and spoke in their language.

After ye chen jumped down from there, he stood beside his companion. From the conversation between the two, he roughly understood that this race had such a ceremony every three years.

The bird in ye Chen's hand was the Hatchling of their race's enemy, so it looked no different from an ordinary bird.

However, in reality, when it grew up, it would endanger the survival of their entire race. Therefore, they would usually get rid of the Hatchling when it was still young.

Otherwise, he could wait for the bird to grow up three years later and then find its own opposite sex.

Furthermore, if the next generation were to be born, it would be a disaster.

Of course, this kind of thing happened every year, so they could only use this ritual to warn the birds hiding around.

After a brief understanding, ye chen realized that this race was made up of human elves and not the savages he had initially thought.

Furthermore, this elf had lived here for hundreds or even thousands of years. Although he was not as old as Lin Mo, he was no ordinary person.

Ye chen nodded when he heard this. Without much hesitation, he looked down at the bird and patted its head before handing it over to the elder.

After all, in the short period of time that he had caught the bird, he had already fully felt the strength that the bird was resisting.

If he hadn't been using a little bit of spiritual power to control the bird, he might have accidentally broken free.

The muscular elf next to the elder grabbed the bird and locked it in a cage with his other hand.

He was so fast that the bird almost flew out.

In the end, they could only fly around the cage angrily. However, due to ye Chen's sudden interruption, the ceremony could not continue today.

However, it was clear that the entire clan was very interested in the sudden appearance of ye Chen, Lin Mo, and the Nine-Tailed ROC.

They did not attack him directly. Furthermore, Lin Mo was very friendly to outsiders when it came to communication.

Therefore, what ye chen had just done was not a big mistake. The ceremony was pushed back to three days later.

Ye chen also went up to them and asked them some questions. In short, the elves were curious about this human who looked similar to them but was not very similar to them.

The hostility was very weak.

Therefore, ye chen had already guessed that these elves were not usually invaded by foreign clans. Otherwise, they would not be so unguarded.

Then, the chief of the elf clan led them into a cave, which looked like where they lived.

To be honest, it wasn't very good, but it did show their identity as natives.

Ye chen walked in with the shrunken Peng Fei and Lin Mo.

"Where did you come from? why did you suddenly appear in our territory?"

The elder brought in warm water and some snacks on stone plates from his elves.

"We should be growing crops in the eastern part of the mountain, a race of six-tailed ROCs. In order to break the curse on their race, we had to pass through this mountain. It's just that we didn't expect to accidentally enter your territory. I'm sorry to have offended you."

At this time, ye Chen's attitude had softened a lot, and his tone was also very good.

The fairy clan's chief was very easy to talk to. After hearing ye Chen's words, his eyes revealed a very shrewd light.

To be honest, a large part of the reason why they could so easily let go of ye Chen's offensive behavior was that they could not solve this problem.

However, the mysterious guest who had come from afar seemed to be much more powerful than them.

As an Elf race, they could be considered the weakest race because their ability was to heal people's wounds.

Compared to the other aggressive elves, their survival rate was extremely low.

Therefore, there were times when they really wanted to find some allies to help them. At this time, ye Chen and the others' appearance was very appropriate.

In fact, ye Chen and the others had a premonition in their hearts. After all, their attitude was so good. If they did not have a request, they would not be like this.

Therefore, when they came in, they had already whispered to each other. At that time, the three of them thought that if the other party asked for help, they would do their best to help as long as it was within their means.

Sure enough, after a short exchange of greetings and understanding each other, the elf tribe elder immediately changed the topic to serious business.

"There's another reason why I've kept all of you here. I hope that you can help us with something!"

After saying that, the elder called the other people in the clan.

Judging from the attire and temperament of the leader, he was different from the others.

Sure enough, the elder introduced the middle-aged man as the fairy clan's chief.

"If you need any help, just tell us. As long as it's within our means, we'll do our best."

Ye Chen had always been a very loyal person. Moreover, from his observations just now, he could tell that this elf's combat power was not high.

The other party couldn't even sense it if it was just a spiritual power test.

Therefore, he quickly sensed that these people were almost all in the weak second stage realm.

Other than the clan leader and this elder, who were slightly higher in rank, there were almost no exceptions.

In ye Chen's eyes, these people were all weaklings, so he did not intend to bully them anymore.

Moreover, even though the bird was strong, it was not that strong.

Even if he grew up, he wouldn't be very powerful!

However, this elf seemed to be very afraid of those birds.

"We've been harassed by those birds all these years. All the food, or fruits, that we get on a daily basis will be stolen. We can't even eat them while lying down. Moreover, they'll come at us in large numbers for a period of time, and we don't have the strength to fight them."

The elf clan was truly miserable. After all, ye chen had never thought that there would be an elf clan who would even have their food snatched away.

Moreover, they would also be injured in this huge plunder. At that time, they would only be healing themselves.

In short, this vicious circle had continued for several years, but they had no way to deal with it.

They could only rely on the young clansmen to steal these birds as a warning to others.

Unfortunately, the effect was not very strong, and he would still be attacked from all directions from time to time.

The reason why they could live so long in this forest was because as long as they didn't step out of the forest, their lives would not end.

This sounded like a curse that would make people feel even more hopeless.

In any case, when he heard that ye chen was going to help the ROC clan and Lin Mo to break the curse, the elder clearly thought of their own clan.

Therefore, they also placed their hopes on this human who didn't look very old.

Moreover, the strength that ye chen had just displayed was no longer that of an ordinary person.

The reason why he was so confident was that the elven elders had a crystal ball that could predict the future and detect strength.

Therefore, before ye chen arrived, he had already secretly tested it and found that this young man's strength was unfathomable!

This included Lin Mo, who was following him. He could not be detected at all.

In short, they were willing to stay with such a good attitude. The few of them also hoped to form an alliance and then beg for their help.

"To tell you the truth, my guest from afar, we can't leave this place. If we stay here, our species will change forever, but in the middle of it, we've been hurt by these birds again and again."

The clan leader said these words with great difficulty.

As a clan leader, he was only taking on the responsibility of the clan. He used this identity to protect his clansmen, but his strength was not very high.

"Alright, since that's the case, we won't hide it anymore. We're willing to help you."

As ye chen spoke, he picked up a fruit from the table and began to eat it. The sweet and sour taste was much better than he had imagined.

Of course, his attitude made the elven patriarch and his tribesmen very happy.

Next, ye chen learned more information from the group leader and the clan elders.

Only then did they know that in three days, they would be facing a very violent bird attack.

There would probably be more than 20 colorful birds that had grown up like the young birds from that day coming to their residence and plundering them crazily.

As for the elf race, there were only about 40 people in total.

Those birds were at least three times bigger than their bodies, so when these birds came, they usually hid the food in the innermost area.

However, they still had to put some on the outside. In short, there was a certain cut so that it would not be dug deeper.

However, this did not satisfy the birds, and they continued to demand more from them.

"Okay, I roughly understand. Leave this matter to me. When the day comes, take your people and hide in the dark to store all the food. Don't let a single bit out, or you can take a bit and just let me hold it in my hands."

When ye chen heard what they said, he already had a small plan in mind.

He also felt that it was more appropriate to do so, so he also took a table full of food and blocked it.

This way, he would be able to attract the birds as quickly as possible and let his other companions hide in the other two places.

"At that time, Pengfei shouldn't have too much of an advantage. After all, he's from the big Bird clan. But after he expands his body, he should be a little bigger than his opponent, right?"

Of course, Peng Fei nodded seriously when he heard ye Chen's words. After all, even if it was still a young bird at that time, it was much bigger than the one they had seen the other day.

"Lin Mo, when the time comes, go to the other side and hide in the dark. We'll set up a few traps in advance and capture all these birds."

Ye chen thought of the most primitive method, which was to use a net to catch these birds.

Didn't they like to eat fruits and plunder food? in that case, he would leave their meat for a taste. He hadn't eaten it before!

After ye chen and his companions had come up with this plan, they shared it with the people here.

[Chapter 2669 2674-Massacre!](#)

When the elf clan's chief took them to see something, ye chen realized that the people of this clan lived worse than he had imagined.

He didn't know where these birds came from, but it was too difficult to find them!

"Forget it then. Just give me three fruits, then move a big rock over and place the fruits on it."

Ye chen thought about it. One was too little, so it was better to bring three just in case.

"Which direction are these birds coming from? it's good to be prepared."

Ye chen asked the clan leader beside him.

"They've always come from the Northwest,"

After getting a general idea of the direction, he let the elf tribe leader take them around the forest and quickly found a place that was easier to arrange.

They were quite lucky. As soon as they arrived, they found a huge slope that completely exceeded the height of the trees.

Therefore, ye chen had chosen this place at first glance. He went up to look around and also helped Lin Mo and Peng Fei find a place to hide.

"When the time comes, I'll just stand here and they'll definitely all gather here. When that time comes, Pengfei, you go around from the back, and Lin Mo, you come to help me from the side."

Ye chen stood there and studied the map carefully. He quickly made arrangements.

The elves in the middle even asked him if he needed their help.

However, they were rejected by ye chen with a righteous tone.

After all, the elves, who had no ability to fight back, could not really help at all.

"Just take your food and hide in the dark. Don't worry about the rest. We will take care of it."

Ye chen patted his chest in a serious manner.

The elves didn't know where this came from. Humans could actually help them, and they seemed to be very reliable.

Two days passed by quickly.

A whole day had passed since midnight the day before when ye chen and the others had brought their things to the hillside that had been prepared in advance.

This small hillside was just enough to place a table. Ye chen sat behind it, waiting for the upcoming plunder.

The other two companions had also made arrangements.

They were attracting the fire here, while the elf clan leader, who was hiding in the dark, was far away from them.

This way, he could achieve the greatest protection.

It also prevented any sudden accidents from affecting the elite people.

After all, ye chen could tell that these clansmen were not well-nourished these days, so they were all skinny.

If the people this time were to take away all the things they had stored for so long like before, there would be fewer and fewer people after this lowly one.

Moreover, ye chen had also heard that their race itself had more than a thousand people.

Because of this, the one-time reduction in food had led to many people losing their lives due to illness or lack of nutrition.

They could only do their best to help. As medical spirits, they hoped that they could save their own kind and clansmen.

However, when it came to the problem of malnutrition, there was nothing they could do.

Therefore, in order to prevent their race from going extinct, they could only look to outsiders for help.

Meanwhile, in the cave where all the elves were hiding.

"I'm not too bitter. Do you believe those people now? They clearly look like two people and a Big Bird. If they can't do it, then the birds will attack even more. "

One of the clansmen said worriedly.

However, when the group leader heard this, he shook his head seriously. He did not know why he trusted ye chen so much.

Moreover, he subconsciously felt that ye Chen's strength was really strong. The ability he had displayed was also excellent.

Therefore, when ye chen expressed that he could help them, he was very happy.

Moreover, they felt that this human who had suddenly intruded into their territory would change their cruel curse.

Time passed by slowly, and the originally bright sky suddenly became filled with strong winds, as if a storm was coming.

Ye chen sat there steadily. He pulled a branch from the side and used it to shield his head.

Looking at it now, it wasn't enough to make him feel afraid, so he didn't even look up and just sat there calmly.

He even reached out one hand to hold the fruits down.

After all, these fruits were used to lure the birds. If they were blown away, they would be asking for trouble.

Following that, as the sky grew darker and darker, the sunny day just a moment ago could no longer be stabilized.

At this moment, a very sharp cry came from the sky. At first, it was only a short sharing of the sound, but it gradually became longer and longer.

Ye chen looked at the colorful birds that were gradually circling above his head. He estimated that they were still half the size of his Peng Fei.

Therefore, he wasn't too worried. He even picked up two fruits from the table and stuffed them into his pocket.

Only the other one was still caught in the hand, exposed in the air.

He didn't even want to waste these three fruits now. This one was enough.

Sure enough, this time, the big birds first patrolled the sky. It was similar to what the elf clan leader had said. They would first look for targets, places where humans were.

Then, he started to search for it.

The things they wanted had also been discovered by some of their predecessors.

Therefore, they split up, thinking that one part of them could protect the food and fruits, while the other part could defend against the birds.

It was a pity that these birds seemed to have special abilities, and they could accurately find their positions every time.

After that, he would snatch away all the food that they had worked so hard to obtain.

They had no way to face such a situation and could only be frustrated again and again.

Later on, the elven tribesmen gradually did not dare to resist, and could only try their best to fill their stomachs before the day came.

This did not sound like a very useful move.

However, it was different this time. Ye chen pulled out the arrow from behind him and peeled the fruit, revealing the tender flesh inside. He opened his mouth and took a bite.

After he had chewed two mouthfuls of the sweet fruit, ye chen raised his hand and waved proudly at the bird in the sky.

It looked like a provocation, and soon, three colorful birds flew down.

Its target was the fruit in his hand. It was obvious that even if these birds could find the location of food and fruit, they couldn't tell if the person in front of them was an elf.

They were still as arrogant and domineering as before. When they rushed down, they did not hesitate at all and did not think that they would miss.

However, a sword light flashed before their eyes. Ye chen raised his hand and the three birds' necks were instantly cut off.

The shrieks also stopped at once.

At this time, ye chen did not intend to continue standing there. Anyway, he had already put away the fruits. This hillside was no longer useful.

He suddenly jumped onto a tree at the side and whistled. The sharp sound of the birds and Magpies was very unique.

When Peng Fei heard this sound, he leaped up from the forest and spread his large wings, as well as his beautiful nine tails.

He was like the king of this flock of birds as he appeared out of nowhere.

Ye chen was naturally very satisfied with this. After all, this was his own Mount. It was really cool to do this.

Peng Fei's sudden appearance had clearly given the birds a huge fright.

Compared to ye chen, a human, who had killed three of their kind in one go, the Peng Fei, a species that looked similar to them, was so huge.

This was obviously a stronger deterrent, and Peng Fei flapped his wings and rushed over very quickly.

It pecked a colorful bird that was about to attack ye chen to death and then gently landed under ye chen, taking its master into its body.

At the same time, Lin Mo, who was waiting on the other side, did not give in at all. He quickly floated into the air and attacked the flock of birds from behind.

All of a sudden, two huge gusts of wind blew towards the center, making the birds unable to resist.

They couldn't fly with their wings, so even if they wanted to escape, they could only try their best to fly upwards.

But in fact, if he wanted to save himself in this situation, he should fly down like crazy. That was the safest way.

It was a pity that this group of brainless colorful birds didn't know this.

"Not bad, Pengfei, our tacit understanding is getting stronger and stronger. Next, let's continue to show off our skills!"

Ye chen looked at these colorful ugly birds but did not know what they were talking about. Thus, he looked at them from a distance and shouted at Lin Mo.

"Come on, let's have a competition and see who can kill these ugly things the fastest. What do you think?"

As ye chen said this, he had already disposed of another one with a raise of his hand. Moreover, Peng Fei, who was under him, had a larger attack range than him, so he did not stop talking even when ye chen shouted.

Wave after wave of fierce attacks seemed to be more effective than the others.

Naturally, Lin Mo did not expect it to be so easy this time, so he agreed to ye Chen's words with a smile.

"Alright," he said.

This time, ye Chen's chances of winning and losing were even higher. He immediately drew his sword again and stabbed toward the other side.

In fact, the number of birds they had encountered this time was more than 20 as described by the elf clan leader.

At a glance, there should be around thirty to forty of them. Ye chen did not want to be concerned about this at this time. Perhaps the elf elder was afraid that he would not help, so he used a fake number to confuse the public.

However, the current ye chen was only angry for a second or two before he immediately integrated into this very lively situation.

At the same time, he consoled himself that if there were only 20 to 30 of them, it would not be enough for him and Lin Mo to show off their skills!

At this time, ye chen noticed these birds. One of them was very agile. Moreover, it was extremely fast when it charged. Ye chen could feel that this bird's energy was different from the others.

He instantly knew what the reason was, so he jumped down from the flying body with a smile and let him play on his own.

He jumped from tree to tree with his sword, and it didn't take long for him to move to where the bird was.

He suddenly jumped, and a burst of spirit power burst out from his body, pushing him into the air.

"It should be much easier to get rid of you, right?"

This bird was indeed different. Just as ye chen was charging at it, the bird suddenly changed its direction.

It was only then that ye chen realized that this bird's Blue beak was different from the other birds.

Moreover, when it opened its tongue, it was still green. This made ye chen even more interested and he put away his sword.

He was like an agile monkey, leaping in the air and grabbing the bird's neck, putting it behind him.

It was as if he was treating the bird as his own Mount. However, this size might not even be able to withstand ye Chen's physical strength.

Moreover, ye chen had deliberately increased the gravity on his body by more than two times.

The child obviously wanted to break free, but he couldn't get rid of the burden no matter how much money he threw. It was useless even if he turned his body around.

Ye chen had already grabbed its shoulder tightly. Then, he heard the bird's cry again!

Those who were closer to him seemed to be controlled and attacked ye chen.

He didn't want to give it any more chances. He took out the sword he had just put away and cut down the bird that seemed to be of the highest status in his hand.

,m To be honest, he found it a little funny because these twisted bodies were not long, and their necks were short. Even in that state, they couldn't turn around to Peck him.

"I'm already at the 15th one. How are you guys?"

Ye chen elegantly raised the sword in his hand and flew around the area once before dealing with these arrogant birds.

Although Lin Mo had not said anything, his methods were not soft at all.

The hurricane he had just created had already sucked in a few birds, and almost none of them survived.

The others also felt the power of this floating person and instead attacked the Nine-Tailed great ROC that looked like one of them.

[Chapter 2670 2675-Meritorious Service Celebration!](#)

To them, this battle wasn't particularly difficult. At least, from the looks of the flock of birds they had seen so far, their attacks weren't particularly strong.

It was just that when facing the elves who were about the same size as them, they were indeed suppressed in terms of strength.

As for the elves, they only knew how to heal their own wounds.

Ye chen looked at the disgusting birds scattered all over the ground. The blood flowing out of their bodies was gray in color.

He subconsciously wondered if these birds were the same as the entire elven race and had been cursed.

However, he didn't need to think so much at this time. He stopped and flew down from the sky.

After Peng Fei placed it on the ground, he circled around in the air again, trying to find any that might be lucky enough to escape, but there was nothing.

They had all been captured and killed here.

"There are more birds than we expected. It seems like the elf tribe's chief still doesn't trust us."

Ye chen chuckled as he looked at his companion, Lin Mo, who was walking over from a distance.

Lin Mo nodded. He no longer had any good intentions toward the elf tribe because of this.

In fact, if ye chen had not proposed to help this race, according to Lin Mo and Peng Fei's personalities, they would not have taken the initiative to come over and say what they wanted to do.

However, they were a small team, so if ye chen said he wanted to help, they would not refuse.

Not to mention, this was a complete advantage in strength for these people, and it would not cause any pressure.

After taking care of everything, ye chen and the others did not go looking for the elf clan member. They just waited there.

The elves in the cave heard the howling outside, but they only dared to shiver.

They couldn't take the initiative to look out until the sound gradually faded.

The elder's heart that had been in his chest finally relaxed, because this was much faster than they had imagined.

After all, if ye chen and the others were not here, those abominable birds would have already rushed down at this time.

Then, they surrounded them and tried to find a way to take something out of their bodies.

But now, not only was there no such situation, even the noise outside had become softer.

In that case, there was only one explanation that could be explained, and that was that ye chen and the other two had done it.

And it was done very beautifully. Although they felt that it was safe outside, they didn't dare to go out rashly.

The clan head and the clan elder were standing at the place closest to the half-closed entrance and watching outside.

"The benefactors outside should know about the matter that was concealed at the time. Since that's the case, let's go out and have a look. We'll have our clansmen stay here first."

"That's right. If you want to admit your mistake, then let's talk about it in private!"

After the clan head and the elder finished their discussion, they walked out of the cave.

The rest of the clansmen were left in the cave, waiting for the notice before coming out.

Sure enough, when the two of them came out and saw that the sky had almost become bright, and the forest was filled with the smell of blood, they felt very excited.

The two of them could not help but pick up their pace and rushed to the place where ye chen and the others had stopped.

Along the way, they saw countless dead bodies of those birds on the ground, their blood flowing on the ground and seeping down.

The birds were completely lifeless, which was the best news for the two of them in hundreds of years.

"That's great! All of them have been eliminated!"

The elder looked at everything in front of him and even wanted to throw away his walking stick. He stood there and applauded.

He had never seen such a Grand occasion before, and he never thought that his race would have such a good opportunity one day. It was simply too fortunate!

He could only hope that ye chen would not be angry with them.

No matter what the consequences were, they would be able to bear them. After all, ye chen had been very loyal to them for everything he had done so far.

"They're here. "

Ye chen had already sensed their energy before the two elves had even approached. When he looked up, he saw the two of them, so he looked up and said to his companion.

Now that they had solved the problem here, they themselves wanted to find a way to break the curse, but they had yet to find it.

Thus, he didn't know if he could get Lin Mo and Peng Fei out of here.

Therefore, ye chen felt rather troubled. He did not want to spend so much effort just to help others.

There must be some secrets that the elves had yet to reveal.

And he might even help his companions break the curse. In that case, they wouldn't have to be trapped in this place forever.

Of course, the only good thing was that the companions could not move on their own except for following him.

That was why they could not split up in this small team. Otherwise, they would be controlled by the power and return to where they were supposed to be.

In short, ye chen was also a key to their guidance, but they did not know what to do in the end.

Just as he was thinking about this, the clan leader and elder walked over and smiled at ye chen. They immediately bowed deeply.

"Thank you for your help. On behalf of all our people, we express our deep gratitude to you!"

Ye chen stepped forward and helped him up. His face was expressionless as he spoke casually.

"It doesn't matter, it's just an easy fight. I just didn't expect that our strength wasn't recognized by the two of you. Why don't you tell us how many there are? How can we be scared away by these ordinary stinky birds?"

Ye chen did not want to play dumb. He did not want to let this matter go so easily.

Besides, even if it was just for fun, he felt that it was quite interesting, so he took the initiative to say it.

He kept looking at the two people in front of him, waiting to see their reaction.

As expected, after ye chen finished speaking, the elder's expression changed. The clan leader's expression did not look good either. Then, they apologized to ye chen and the others together.

He did not lie to them by saying that it was that little before. Instead, he sincerely said that he was afraid that ye chen and the others would not be willing to help.

Therefore, he tried his best to minimize the danger and even praised the abilities of ye chen and the other two.

In any case, she had already believed that ye chen and the others would be able to do it before she lied.

"Alright, our entire clan would like to express our gratitude to the three of you. We'll set up a banquet tonight."

The elder from the clan seemed to be more generous and had a high EQ.

He felt that the atmosphere was a little awkward, so he immediately smiled and said that he would invite them to stay here for a while.

Of course, ye chen did not refuse. After all, this was also considered physical work!

It would not be too much to ask for some food, drinks, and accommodation as payment.

Moreover, they did not care how fast time passed, so everything became natural.

Ye chen also wanted to ask the clan's elders during the banquet if they had any clues about how to break the curse.

I've helped them so much, they wouldn't go so far as to hide it, right? That would be too much.

Just like that, the group leader quickly brought ye chen and the others to a warm cave and placed fruits on the table for them.

Then, he took all his clansmen out and told them that he was safe.

Then, he collected all the colorful birds that had been disposed of on the ground and prepared to marinate the meat.

This way, they could preserve as much food as possible, and it would not be in vain for these hateful fellows to rush over and steal so much food every time.

Now, he had given a lot of returns. It was what he should do!

At the same time, the elder had his clansmen put away the dead birds and carefully identify them.

After confirming that he had found the sparrow with some sense of leadership, he finally felt relieved.

After all, they didn't know about the other dangers yet, but from what they knew, the biggest bird that could control birds was a big problem.

Every time, he was the one who determined the location of the fruits, food, and the elves.

This was even more helpful in every snatching, so it wouldn't be too bad even if the stinky bird died!

It was night time. Ye chen and Lin Mo brought the shrunken Peng Fei into the palace that looked like the clan leader's residence.

However, it was just a slightly more detailed cave. There were no unnecessary decorations and everything was simple.

Ye chen could not help but think to himself, 'no matter what, this is still an Elf race. After so many years, don't they have any advanced technology?'

It was as if he had suffered a great grievance. However, on second thought, it was indeed a little unlucky for a flock of birds to come and snatch things every three years.

Fortunately, he didn't have to worry about it now. He had already helped them deal with this problem.

After ye chen and the others took their seats, the clan leader and the elders of the clan also took their seats. The rest of the clan members had also gathered.

One by one, they saluted ye chen and the others before sitting in their respective seats.

To be honest, ye chen felt extremely embarrassed sitting there. He could only pass by and bow his head in return.

After all, he knew that in the eyes of the elves, they were like gods sent by the heavens to help them survive the crisis.

Ye chen did not plan to leave immediately. He planned to stay here for a few more days to make sure that the birds would not have any other companions coming for revenge before leaving.

Lin Mo did not eat much, so most of the food on the table was shared with ye chen. He only drank a small cup of bamboo leaf tea.

On the other hand, ye chen and the others were indeed clean and efficient. They did not even have any wounds on their bodies.

At most, there were a couple of holes in his clothes, but there was nothing else.

In short, everything was great, so the only healing effect of the ethnic group was not useful at all.

After everyone had taken their seats and listened to some compliments, ye chen saw that the time was right and asked what he wanted to ask.

"Elder and patriarch, you should know that we came here by chance and we are also looking for a way to break the curse, so I hope to ask you if you have any clues."

Although he had asked this question in front of everyone, ye chen was not worried at all.

After all, in his eyes, after he left this place with his companions, he would never return to this place again.

These elves couldn't leave this place, so sometimes it was important to go straight to the point.

Not to mention that he just wanted to exchange it for a profit of equal value.

It would be best if they had any clues, but if they didn't, they would just be helping others.

When the elf elder heard ye Chen's question, he was silent for a few seconds before he raised his head and answered him.

"We do have a mysterious item, but we're not sure if it's what you want."

After the elder restored ye Chen, ye Chen did not immediately ask any more questions. He nodded and picked up the food on the table and continued to eat.

However, he was extremely happy in his heart, because it seemed that there was a chance. As long as there was a little clue, it meant that he had at least taken a step forward. Otherwise, it would be like he was walking in the same place.

The banquet finally came to an end with everyone's cheers. The elven tribesmen were clearly happier than before.

They were singing and dancing around the bonfire, which looked very interesting.

Ye Chen played with them for a while before retreating to the back. Then, he took the initiative to find the clan leader and elders.

"Benefactor, come and take a look with me. The place on this crystal ball is in the northeast corner of our forest, but only the two of us know about this. The clansmen don't know about it, so it's a very safe location."

The elder brought ye Chen to the crystal ball and let ye Chen place one finger on it. The elder then placed his other finger on the crystal ball.

As expected, a carefully caved-in part of the flat ground appeared.

The inside became transparent. When he went over, he saw a box below.

Ye Chen sighed in his heart. The people of the ethnic group had been too calm recently!

If he encountered such a situation, he would immediately turn around and go out, and then check what was inside.

The fact that the elven tribesmen could keep this secret, day after day, year after year, as if he didn't exist, was really impressive.

"Okay, I'll go and take a look. If it's of help, thank you. If not, I'll look for something else."

Ye Chen was not an idiot. He would not be so sure of his words.

After all, they had already lied to him once before, so it was more important to be cautious now.
