[Chapter 2671 Entering The Forbidden Area!](#)

The fairy clan's chief's attitude was very good. As soon as he came up, he immediately asked one of his younger clansmen who seemed more reliable to lead ye chen and the others to this place.

This was a forbidden area that the entire race had a tacit understanding of.

However, this time, ye chen had done so much for them in return, so naturally, they could not be stingy.

The young man led them around the forest for an hour before stopping in front of a low fence.

"I can't go any further in, but the place the elder said is inside. Remember, it's best not to touch any of the branches here, because they are poisonous."

"Of course, some of the branches are facing inwards, so there's no danger. But we have to avoid those with branches facing outwards. If we encounter any strange creatures inside, we don't have to worry about them."

"As long as you don't provoke those things, they won't attack you. Of course, other than the thing that the elder mentioned, it's best not to touch anything and not to bring anything out."

This young man had obviously been arranged by the group leader, so he explained these things in great detail. He was afraid that ye chen and the others did not hear him clearly!

"Okay, we probably know about it now. Thank you for bringing us here. Will you take us back when we come out?"

Ye chen asked. After all, if the thing they found here was of no use to them, they would have to go back.

He didn't think that there weren't any other clues. Since he was already here, it would be a pity if he didn't bring anything back.

The young Clansman obviously didn't think of this, but after a short pause, he immediately nodded and agreed.

"Our entire tribe will be outside to protect our benefactors and help them get what they want."

"Alright, I know. You can go back now!"

Ye chen waved his hand, then gently pushed open the half-closed gate.

Ye chen was quite curious about this place. After all, the small land that they had just entered was not much different from the ordinary forest outside.

It was just that there seemed to be more weeds here, and there were no edible fruits that were specially planted outside.

The trees here were all black, and their leaves had a hint of green.

It somehow made the atmosphere here seem even worse.

However, the three of them were already sick of seeing such a scene. Wasn't it the same scene in the forest of the ROC clan?

Therefore, the three of them followed without changing their expressions. According to the map that they had seen from the patriarch and the elders, the elder had personally drawn a short route.

He told them which way was the fastest and safer way to get in from the fence.

Ye chen took the map and followed the route on it. After turning two corners, he saw the huge tree. The thing they were looking for was buried under this tree.

It seemed like a thin layer of fallen leaves on the ground, but there was something unknown hidden under it. It was hard not to be a little excited.

When ye chen saw that, he quickened his pace and walked to the tree. Lin Mo and Peng Fei followed behind him.

Peng Fei also curiously stuck his head out to look at the tree.

Lin Mo, on the other hand, did not care about what was buried underground. Instead, he walked around the tree.

"That's easy to find, but why is this place classified as a restricted area? doesn't it look the same as the outside world? There's no danger!"

Ye chen said, puzzled. Then, he walked to the position he had seen on the crystal ball and squatted down.

He didn't need a sword to dig a hole like this, so he casually took out a small knife and stabbed it into the soil.

He thought that there would be no one around, so the place should be very hard. However, he didn't expect the knife to go through it so easily.

Moreover, this place even looked a little soft.

Ye chen reached out a finger and pressed down. As expected, this place was very humid. However, when he had first entered this forbidden area, he had clearly felt that the soil on the ground was quite hard.

However, even though he felt that it was strange, he didn't care about such a small matter.

He quickly used his knife to start running on the ground, and his two friends couldn't help him.

After all, Lin Mo didn't have the tools, and Peng Fei couldn't possibly use his own mouth to Peck, right?

Ye chen could see dozens of centimeters down but he still found nothing. He wondered if he had run to the wrong place.

At this moment, his Knife Hit something hard!

"I found it, I found it! Fortunately, I didn't change location!"

If he couldn't find it by another five centimeters, he might really have to walk in the other direction. Who knew that it would be such a coincidence?

He immediately removed all the soil on it, and as expected, an old box was revealed.

It was exactly the same as what he had seen in the crystal ball, just with a slight difference in color.

This didn't matter. After all, the crystal ball was completely emitting a blue color, which was full of strangeness.

Now, the two companions also came over. "You stay here." Then, ye chen took out the box and placed it on the flat ground at the side.

There was a crack in the middle of the wooden box. It looked like it was open but ye chen did not know where it was opened. He picked up the knife beside him and was about to insert it into the crack and open it.

However, Lin Mo grabbed his arm and shook his head, telling him not to do so.

Lin Mo then took the box and gently touched the top of the box to the bottom of the box. He successfully found a hidden button that was extremely difficult to discover!

Then, with a light press, the box actually opened with a bang!

"Great, so there's such a troublesome process. Quickly open it and see what's inside!"

Ye chen looked at the box happily, his eyes almost popping out of their sockets. Then, he reached out and opened the box. There was a piece of emerald green jade inside!

"What is this? Wasn't it supposed to be a piece of paper or a map? Why was it another piece of this kind of thing? What's the use of that?"

Ye chen reached out to touch the piece of Jade. Who knew that just as he touched it a little, it was as if he was frozen and he subconsciously withdrew his hand.

"This can't be, why is the cold Qi in this Jade so strong? It was just a light touch, but I feel like my fingers are about to freeze. "

Ye chen put his finger to his mouth and exhaled a breath of hot air. Only then did he feel better.

Lin Mo touched it as well. Even though his sensory nerves were not particularly strong, he could clearly feel the difference in the Jade.

"If we only have this, we can't see any clues now."

Ye chen said helplessly. Then, he used his knife to push the Jade to the side.

After that, he realized that there was nothing else in the box.

Since he couldn't touch the Jade now, he closed the box and looked it up and down, hoping to find some clues.

Unfortunately, it was of no use at all. The Jade wrapped in the red wood was a complete piece of wood.

Other than the hidden button that could open the switch, the rest of the exterior was so flat that not even a single stroke could be found.

He shook his head helplessly. They didn't know what was the use of this, but at least they didn't come for nothing!

Although he didn't find any useful clues, this piece of Jade didn't seem to be a simple item.

In short, the three of them prepared to leave the big tree and return the way they came.

When ye chen stood up, he even stuffed the soil he had just dug out into the ground.

At that moment, the huge tree in front of them began to shake slightly, as if it had been touched by something.

Ye chen was shocked. He quickly pulled his two companions and took a few steps back to maintain a distance.

Just as they were on guard against anything strange that might appear on the tree, they suddenly heard a faint noise.

It sounded like a small animal's cry?

Of course, ye chen remembered what the elf clan member had said before he came in but he was still somewhat curious.

He turned around and saw a Fox peeking at them from behind a small tree not far away.

The Fox looked out of place here because its entire body was gold with a slight tinge of red.

It was as if it was an animal that should not exist here.

Of course, ye chen would not let his guard down just because of this one characteristic.

The Fox had only lost a little of its breath when it saw them, but it quickly jumped over them and ran straight to the tree.

Then, it climbed up the tree, causing more leaves to fall.

However, as soon as he climbed up, the vibration disappeared. Ye chen was extremely surprised.

Then, he didn't see the little fox jump down from the tree. It walked over like a mature human.

He raised his beautiful head and met ye Chen's eyes. Then, he opened his mouth and spoke in human language.

Compared to the words spoken by the elves, the Fox's words were clearly more standard and did not have their own native language.

This immediately piqued ye Chen's interest.

"Take him and come with me!"

The Fox only said this before turning around and walking towards the back of the tree with light steps.

Only then did ye chen realize that the Fox was referring to the beautiful jade in his hand.

He glanced at his companion beside him. Lin Mo seemed to be quite interested in this as well.

Thus, they followed after the Fox with a tacit understanding. Peng Fei was at the back while ye chen and Lin Mo followed behind the Fox.

Ye chen did not forget what the clan member had said when he had entered.

However, no matter what kind of consequences he would face in the future, he could bear it, so he didn't have to worry about it for a while.

Moreover, he really couldn't suppress his curiosity. He really wanted to know what else was in this mountain.

He was still not completely at ease with the patriarch and the elder of the elf tribe.

After that, they followed the Fox Forward, and after a few turns, they stopped at a very hidden cave.

The Fox used its mouth to pull away the two branches, revealing the small hill and the dark entrance.

The little fox didn't say anything else after that.

Even when they reached the entrance of the cave, they did not need ye Chen's help and just walked forward by themselves.

Ye chen and Lin Mo quietly discussed for a while and decided to follow. At most, if they encountered any problems, they would face them head-on. At times like this, there was nothing to be afraid of.

Perhaps, through this cave, he could find more unknown content?

He had not found the gate on the map in the mountain he had passed before, so it was likely that it would appear here again.

In short, according to the description in the book and the content on the map, this door was a huge key!

The moment they entered the cave, they were immediately covered by the black surrounding and were trampled by the clusters of weeds on the ground.

He was also shocked, but he quickly recovered.

Ye chen raised his hand and a small flame appeared. With the help of the faint light, he walked forward. After all, he did not know if there was any big wood around the torch.

The Fox stopped at a corner and continued to speak to ye chen and the others.

"The one you're looking for is here."

When ye chen heard this, he immediately opened his mouth to ask what it was and what he would face next. Who knew that the Fox would just jump into the cave and disappear after saying that?

Ye chen tried to ask a question, but he had only managed to say two words when his voice was completely distorted by the empty cave. He even felt that there was a sound wave attack.

Therefore, he immediately shut up. This time, he definitely couldn't open his mouth to speak loudly. He could only speak quietly.

"Since we're already here, let's go in and take a look. It won't make a difference if we stay for a while longer."

Ye Chen was convinced by the Fox that the Jade in his hand would be useful in a while. Perhaps it could lead to the answer to the mystery they had been trying to solve!

Therefore, he didn't refuse and went in to take a look.

At most, he would just come out with his tail between his legs. It didn't matter if he had a little more time. Wouldn't it be even more unfortunate if he returned empty-handed?

Following this principle, when Ye Chen saw that the Fox had also left, he picked up a small branch from the ground and used the small flame in his hand to light it up. As expected, it was much brighter.

After turning the corner, all they could see was darkness. Even though there was a fire, they could only see a small area.

"We still have to be careful. Pengfei, you stand at the back. If there's any danger, just give a light cry."

Ye Chen's voice was extremely soft. Of course, they could hear him because they were closer.

[Chapter 2672 2677-Treasure Cave!](#)

Because the cave was too dark to see the road clearly, they moved forward very slowly. They had only walked a few dozen meters after a short while.

Ye Chen held the torch carefully and looked around the cave with every step he took. He was much more careful than before.

After all, if he was too reckless, he might encounter some unexpected trouble, so it was better to be cautious.

In short, avoiding these troubles was the best thing to do, even if it meant wasting some time.

"This cave is really expensive. It's so dark and I can't feel any wind at all, but the oxygen here is very high and it's not depressing at all."

Ye Chen felt that it was strange, so he could not help but ask Lin Mo, who was beside him.

Lin Mo nodded slightly and observed the surroundings as well.

Compared to Ye Chen, he was more careful and would be on guard in most situations.

After continuously walking for a while, an ordinary-looking path appeared in front of us. No matter what, it was more like the end of the cave.

If Ye Chen had not gone up and dug a few times subconsciously, he would have seen the hard stone behind him. Only then would he be sure that this was a door and not a dead end.

However, it was obvious that this door without any decorations had nothing to do with the cold Jade in his hand!

"Why did the Fox only bring us to this small area and leave us behind in this dark hole? it's really unreliable!"

He grumbled in a low voice. Of course, although he said so, his hands did not slack at all.

He immediately packed up the things, and then used his spiritual power to feel for any mechanisms on the door.

However, when he really got close to the door, his ear gently pressed against the door and he heard the sonorous and powerful shouts from inside. He was so scared that he stopped moving. When he reacted, he immediately retreated.

"What's going on? Did you guys hear this strange sound?"

Ye Chen's action of taking two steps back immediately attracted Lin Mo and Peng Fei's attention.

"What's wrong? Did you hear something?"

Lin Mo felt that something was amiss, so he quickly went up to ye chen to ask.

"Of course. Didn't you hear a very thick sound? when I put my ear close to it, it felt like my ear was knocked."

Ye chen raised a hand and rubbed his left ear as he said unhappily.

There was clearly nothing wrong with the door, so how could there be such a loud sound?

"Al, what's going on? it's so long, can I only hear it if I stick it there? I'm fine standing here. Why don't you go over and try, or maybe it's just my illusion?"

Although ye Chen's ear had indeed felt uncomfortable earlier, he was also very suspicious when he saw the confused expressions on the faces of the two people around him, so he put his right ear on again.

Who knew that there would be another 'plop' sound, which scared him so much that he retreated a few meters.

"No, no, there's something wrong with him. The two of you should go up and listen. I'm not the only one who can hear it, right?"

Peng Fei and Lin Mo stood at the back and could not hear anything. They only saw ye Chen's strange behavior and heard his words.

Lin Mo did not hesitate to walk up and place his ear on the stone door.

Ye chen stood behind Lin Mo and saw that Lin Mo was also shocked. In fact, it was much more serious than he looked. He immediately squatted down.

He covered his ears with both hands. It seemed that the strange sound had directly damaged both his ears!

"Pengfei, don't go over there. It seems that as long as you get close, you'll become like this. As expected, even the attacks in this strange place are so different."

"How is it? Are you feeling better?"

Ye Chen's ears had almost fully recovered. After all, he had only pressed his ears against the wall for a moment before pulling them back.

Therefore, he asked Lin Mo, who did not seem to be in a good condition, with concern.

"Sigh, I'm still okay."

When Lin Mo heard ye Chen's question, he rubbed his ears again and slowly stood up.

"Then how do we pass this thing? I didn't feel any mechanisms on it."

"If we really can't do it, we'll just blow it up. After all, we don't know what's behind it."

Lin Mo said helplessly.

Of course, if he had to find a way, he would have to use the spiritual power in his body.

Of the three of them, other than Peng Fei, the other two were indeed very strong.

Therefore, at this time, he didn't care about anything else. Since he would be hurt if he went over, he might as well use a louder voice to deal with the other side.

The crack in the middle of the stone door was so weak that he couldn't even see it clearly, so there was no other way than to blow it open.

In ye Chen's heart, he was thinking that since they were already here, if he did not investigate clearly, he would be at a disadvantage. Thus, he persisted in his thinking.

He even thought that this was rather interesting and wanted to know what was behind the stone door.

"Then I'll say three, two, one, get ready, and then we'll pour out our spiritual energy together and blow up this door."

"Yes, I can."

Lin Mo actually felt that the sound he had just heard might be the effect of the stone door itself, and he was not sure what was behind it.

In short, they were going to blow up the door together, so they didn't need to talk much.

The two of them looked at each other and took a few steps back together, letting Peng Fei stay a little further away. This way, he wouldn't be affected or suffer any additional injuries.

Ye chen took a deep breath and felt the power in his body rising from the bottom of his feet, breaking through the restraints of his hands. Then, a faint golden light directly fixed itself on the door.

It was the same for Lin Mo, who was standing at the side. His light was a light purple, and two opposing lights seemed to be pressing down on it.

The two spiritual powers continued to be transferred up. They were waiting for a peak value, and then they would explode here.

The surrounding temperature was rising bit by bit, and the power of the two of them, one hot and one ice, wrapped around each other was more powerful.

This was not a big problem for ye chen, so he stood there and watched the door start to shake non-stop, causing the dust around it to start flying.

However, this didn't stop their movements. The two people's spiritual energy was getting faster and faster.

Peng Fei, who was at the back, had already buried his head in his own feathers, and he had to keep retreating.

The attacks that giant ROCs like them could use were only attacks that relied on the flexibility of their wings and the relay of their attacks with their beaks. Even if he was a Nine-Tailed giant Roc, he would at most have a deeper level of spirit power.

However, in reality, they were still far from being comparable to humans. This was also the reason why they could only be mounts and not Masters.

In the end, ye chen simply closed his eyes. Although he continued to exert force, he did not suffer any damage.

After an unknown period of time, a very clear and small explosion suddenly sounded by his ear.

The sound wasn't really loud, and the stone doors that had been trembling from the high pressure had already cracked into countless small pieces.

However, what was more troublesome was the yellow soil that instantly rose up in front of him. Ye chen choked and sneezed a few times.

Lin Mo quickly dodged to the side and wasn't affected much. After all, he didn't like to breathe.

When ye chen was done rubbing his eyes, he looked up at the broken stone door and found that it was still dark. The sound of the door had not come at all.

After Lin Mo walked over, he picked up a stone from the ground and placed it by his ear. As expected, he heard the rumbling sound again, which was very suffocating.

When ye chen saw his expression, he felt that something was wrong, so he quickly went over and picked up a stone. He also put it by his ear.

As he was caught off guard, his ears were once again jolted.

"You don't know anything, so you reminded me. I almost went deaf. I didn't know that this broken stone would make such a sound. It didn't come from behind!"

Ye chen angrily threw the stone to the ground, then strode over to the other end of the cave.

Lin Mo followed closely behind.

Peng Fei had also recovered. Seeing that the door had already opened and his two companions had already walked over, he immediately ran over with his long legs.

To be honest, ye chen was a little disappointed by what he saw. After all, he had always thought that what he saw behind the stone door would be very exciting.

In other words, she would be able to find the door on the map that she had been looking for and use the Jade in her hand.

In reality, it was impossible for the time being, so they continued to move forward without stopping.

The two sparks in his hands lit up the place.

"I'm so unlucky. If this continues, I'll really feel bored and want to turn back."

Ye chen shrugged and said helplessly. Just then, a Black Rock suddenly appeared in front of them and blocked their way.

"What's going on?"

Ye chen took two quick steps and squatted down to pick up a stone. Suddenly, his feet loosened and he lost his balance in an instant. Then, he fell into an empty hole below!

"Why is there a hole here?!"

Li Mo and Peng Fei only saw that ye chen had disappeared as soon as he bent down. They quickly ran over and saw the hole.

Without any hesitation, Lin Mo jumped down, and Peng Fei followed suit.

Ye chen rolled around in the cave, not knowing where he was. He felt that he had to dive for a long time for a few hundred meters before he stopped.

When he was rolling just now, he tried his best to curl up his body to avoid getting hurt.

He was lucky that there were no extra stones in the cave, almost all of which were soil.

He didn't know who had dug it up, but he was really unlucky.

Just as he was about to stand up, he heard the sound of rolling behind him, which gave him a shock. He quickly crawled two steps forward and dodged to the side.

As expected, she had just finished her work when she saw Lin Mo, who had fallen behind her.

However, she looked much better than he did. He was in a sorry state when he came down.

Peng Fei, on the other hand, was a little different. When he came down, he couldn't completely lock his body, so he could only run down as if he was diving.

As soon as the big body crashed down, it ran toward ye chen and instantly carried him to the ground. It even arched him in a circle.

"Can't you find another way to get it? Why did it come to me? Just look at you!"

Ye chen stood up and said jokingly. After all, he had just dusted off a large portion of the dirt on his body and now he was covered in it again.

Peng Fei stood up and laughed in embarrassment.

The three of them stood up and looked around.

This place was like a small confinement room, but it was not dark. There was even light.

There were some luminous pearls on the ground and some wall lamps on the wall.

However, these weren't the most eye-catching things. The most eye-catching things were the scattered gold and other things on the ground.

This was like a treasure room. He had overreached himself by falling into this place.

"What's the use of hiding so much gold here? I thought the people here didn't use this currency? Could it be that it's prepared for us outsiders? But we don't need money. "

Ye chen was not in a good mood because the place they had come to might only be liked by misers. It was completely useless to them.

He walked over helplessly and kicked the box, knocking the gold off.

The box was kicked open by him, revealing a leather map!

"Sure, I knew it. There's definitely nothing ordinary!"

The two of them leaned over, opened the map, and laid it out on the ground. However, they couldn't understand it at all, because the words written on the map were all hieroglyphics.

He could only vaguely make out that some of them might be the images of animals and people.

At first, they thought that this thing was a map. I opened it up to take a look, but I realized that there were only a few strokes. It seemed to be a drawn route.

However, there was no head or tail, so he couldn't see where it was.

"Forget it, since I can't figure it out now, I'll just install it!"

He folded the paper and stuffed it into the side of his pocket.

"There should be another door here, or we should have taken it away. I don't want to turn around and go back to this cave. I don't know how long I'll have to crawl."

Ye chen turned his head and looked at the hole he had rolled down from earlier. He still gave up on that path resolutely.

In any case, he would just search the surrounding area. If he couldn't find it, he would just blow this place up.

He kicked away the gold beside his feet and walked forward.

[Chapter 2673 Resurrection Of The Mural!](#)

The pile of gold in the corner was relatively high, almost half of ye Chen's height.

There was nothing wrong with the walls on both sides, so his main suspect was that the wall he was targeting looked a little strange.

There seemed to be some carvings on it.

Ye Chen was very surprised and very curious, so he immediately used his spiritual energy to push all the gold under his feet to the side.

Including the people in front of him, they opened up a very clean path.

At this moment, he realized that the ground they were standing on had carvings that looked like words, very similar to the ones on the walls.

Just as he looked up and down in surprise, these words gradually appeared on the surrounding walls.

Lin Mo and Peng Fei immediately moved closer to ye Chen. Then, the three of them watched everything unfold with their backs against each other.

After seeing the changes in their surroundings, they realized that it was far stranger than they had imagined.

This was because the words weren't completely stable after they appeared. They would even suddenly disappear from time to time, fading before their eyes.

"What? do you know the words on it? Every time I couldn't recognize him, he would change locations, so I couldn't even see what the higher-ups were talking about. "

Ye Chen grumbled.

Lin Mo was getting a little impatient because of this. Furthermore, he really did not understand these words.

Of course, ye Chen knew that he could not continue like this, so he and his companions said 'I have to take two steps back' and retreated to the place where they had rolled down.

There were no symbols here, and you could see the words on the wall.

He couldn't be too impatient at this time, so he gradually calmed down and let Lin Mo and Peng Fei each look at one wall, while he looked at the other two.

These words seemed to move in a regular pattern. For example, the words on the wall in front of him just now turned to the side after a while.

Although this seemed to take some time, it was the only way to escape.

Therefore, after hearing ye Chen's suggestion, the three of them quickly got to work.

Of course, he was also recording the words on the wall.

After all, there were no words on the ground where the teaching materials were used, and the soil was relatively soft.

Thus, each of them took a tree branch, and even Peng Fei used his mouth to break a tree branch. He looked at the words on the wall while drawing on the ground.

Their memory abilities were not the same, so their speed was different.

Ye Chen's speed was faster. Soon, he had drawn out both sides that it was looking at, and he had even drawn them clearly.

Then, he stood at the back.

The other two Lin Mo's also finished quickly, except for Peng Fei, who was a little slower.

Ye Chen helped to write half of it and there were no more problems with the rest.

The three of them stood in an open space on the side and looked at the words that had just been arranged on the ground.

It seemed to be in a mess, and there was no connection at all. Moreover, the content on it did not seem to have anything to do with whether they could escape.

This made Ye Chen extremely irritable. He sat at the side with a dark expression.

Of course, it only took a short while for him to regain his senses. He stood up again and began to study the words.

He stood in a corner and continued to observe the endless words that were still moving nimbly.

Suddenly, he realized that the pattern of these words seemed to be more complicated than he had imagined. The speed of up and down was also different.

There was no time to tell Lin Mo and the others all his thoughts, so Ye Chen began to study it himself.

He soon realized that when these words stopped at one spot, they would be a few seconds slower than the usual reversal.

This might be the biggest clue!

Ye Chen quickly emptied out all the corresponding words and then wrote them exactly like what Lin Mo had written just now behind Peng Fei's.

In this way, the words on the four walls had completely formed a square matrix.

"But what can you see from this?"

Lin Mo walked over and said helplessly. After all, he had not reacted to what had happened.

Ye Chen seemed to be greatly affected and quickly got to work.

The two of them stood at the side, somewhat at a loss. It seemed that the words on the ground could be reassembled.

Ye Chen looked carefully from the horizontal to the vertical and the oblique, trying to find some clues.

But even with his Dragon sail, he couldn't find a way to hit the target.

"Why would it be wrong? Logically speaking, this should be how it was done. Why can't I tell?"

He, who was standing at the side, was about to fly into a rage out of humiliation.

Lin Mo reminded him.

"Perhaps it's related to the number of rows and columns?"

Of course, he was just testing the waters. In any case, he had not realized that all of this would have to be solved by ye chen.

When ye chen heard this, he immediately began to study it carefully from the front to the back. He tried to recognize the words in the middle and then arranged them.

He had actually discovered that there was a mystery behind this!

"The secrets of heaven in the North, South, East, and West have been revealed!"

It was only then that ye chen realized that they needed a combination of small paragraphs and then take one end out. This way, he could clearly see what was written on it.

The general meaning of this was that they could find a way to escape from a small rock in the southwest corner.

"Come here, he's probably here. Let's see if there's really a crack in the small stone."

To be honest, the most troublesome thing now was that they couldn't tell the difference. There wasn't a single word on the North, South, East, and West, so they needed to find all four corners clearly.

However, this wasn't difficult. Anyway, it was clearly marked on the top. There was indeed a small rock that could be loosened at the bottom.

This way, they could be found quickly. Therefore, ye chen took the two of them and began to search one by one.

Fortunately, his luck was still quite good, so he had already touched it when he found the second one.

When ye Chen's fingers stopped on the small stone, he could not believe it.

After all, he had already searched this area thoroughly, but he did not find it. Now, he had really found it!

"Quickly come and look! This is the place!"

He shouted happily.

His two companions quickly came over and the three of them squatted in the corner. Ye chen pressed the stone nervously.

However, after he pressed the button, he didn't hear any loud noise. Instead, the wall behind them actually began to move slowly.

However, it didn't affect his surroundings, even if there was a pile of gold around him.

Ye chen and the others stood up and walked over to take a look. It could gradually open, and what was exposed behind it was actually an extremely deep flight of steps.

Moreover, these steps continued all the way up, leading to an unknown place.

Ye chen subconsciously thought of them. Could it be that after going up this step, they would end up on the road they had just taken?

This was really full of twists and turns. He didn't gain anything from the first trip, and then he had to go up again.

But at this time, he didn't care too much. After all, it was much better than being trapped in this place.

Besides, there was nothing good here, so it didn't matter if he took the gold or not.

However, he still took one and stuffed it into his pocket as a memento!

Since they had no place to go, the three of them decided to stick to their previous formation.

Ye chen took the lead and walked up the stairs. He maintained a slow pace because the stairs looked too slanted.

Ye chen was more calculating than usual, so he even counted the steps one by one as he went up the stairs.

Finally, they passed through the dark, long, and slanted steps and reached the top.

Compared to the seemingly flawless ground they had fallen from, the place they had come up from now looked rather neat and tidy.

After the three of them finally climbed out, ye chen sat on the ground and dusted off the dirt on his body tiredly. He was ready to rest for a while before moving on.

It was even more annoying after they came up, because it was still dark on both sides and they couldn't see anything.

He picked up a branch beside his feet and started a fire.

Although they only stopped here for a short while before continuing to move forward, the place they were about to arrive at looked a little wider.

Ye chen heard the sound of water dripping, so he subconsciously slowed down.

After all, he didn't want to recall the scene when he heard about water.

So, he placed the fire in front of him. As expected, the ground became wet, and he couldn't see anything around him.

"Wait a minute. Stop for a moment. Why is there water in front again?"

Ye chen raised his hand to signal for his companions to stop as well. Then, the three of them stood in a row and looked forward together.

After the torch shone over, he found that it was actually a small palace-like place.

And it was much better than the treasure room he had seen before!

Because they were in a hexagonal room, the place they were standing on was wet, but it was indeed a small step.

Therefore, ye chen walked down without much worry, leaving the two behind him.

The four sides of the palace were covered in murals, and there was a round ceiling above their heads.

It was a painting that looked like the Dunhuang totem.

"What is this place? Why are there so many strange things under the forest of the elf clan? and we haven't found the place where we can break the curse. "

Ye chen said impatiently.

At this moment, he suddenly saw that the patterns on the walls around him were emitting a faint golden light. It was getting heavier and heavier, almost lighting up the whole place. Ye chen was shocked.

"Let's get together!"

Tengfei suddenly cried out at this moment and went up to ye chen in a hurry to give him a Peck with his mouth.

Then, he looked at the wall that they were facing.

Ye chen was shocked by his sudden action and quickly looked over. He looked up and found that there was a gap there. The shape was very familiar!

"It's that cold Jade!"

Ye Chen's eyes glowed as he immediately took out the box from his backpack. Then, he opened it and took out the Jade.

Of course, he still had to cover it with his sleeves a little, otherwise, his fingers would be numb from the cold again.

Then, he walked forward without stopping. However, the height was far from enough. After all, the wall was almost five meters long.

On the other hand, if ye chen was still a distance away from jumping, he would probably only be able to touch the lower part of the groove, let alone stuff it in.

When Peng Fei saw that his master was unable to hold on, he hurriedly ran over, squatted under his master's body, and slowly lifted him up.

Ye chen also successfully lifted the frost Jade and pressed it into the groove.

It was really a very tight suture. After pressing it in, it was perfectly carved on the surface, as if the Jade itself was supposed to be on it.

Ye chen jumped down from Peng Fei's body. Then, they saw the Jade shine with a strange light, suppressing all the golden light around it.

Ye chen had thought that it would bring some good news but to his surprise, the totem drawn on the wall they were facing suddenly came to life.

Lin Mo's reaction was very fast. Only ye chen and Peng Fei from the Alliance retreated to the steps they had come in from.

The totem slowly came to life on the wall, and in just a few seconds, half of its body was out.

Moreover, his Lion was still struggling there, baring its fangs and brandishing its claws. Its two round and bright eyes stared directly at ye chen and the others.

It was as if a hungry wolf was going to pounce on its prey in the next second. Wasn't this too direct?

Ye chen decisively drew his sword and stood in front of him. He even pushed Tengfei to the back.

After all, Peng Fei's strength was the weakest among the few present, so he naturally had to protect his own Mount.

Lin Mo sensed danger because of you, so a white mist immediately surrounded his body.

The lion had jumped out in front of them and was heading straight for them.

Fortunately, the palace was relatively large. When the lion came over, ye chen blocked it with his sword and the two of them quickly ran to the side.

"How did it end up like this?"

"Forget it, I won't say any more nonsense. Let's deal with this big thing first!"

Ye Chen's sword was extremely sharp, so the lion immediately retreated after turning around.

It turned around and jumped towards Peng Fei, who looked the weakest and could be used as food, opening its mouth!

Lin Mo was relatively close to that place, so he raised his sleeves and brought Peng Fei back with a gust of wind.

[Chapter 2674 2678-Crisis Resolved!](#)

"Ride on his body!"

Ye chen shouted. He raised his sword and slashed again. Peng Fei immediately brought Lin Mo to the back of the lion.

At this time, ye chen discovered something that was even more difficult to deal with. He realized that the lion in front of him was not a real Lion. Even its body was not completely real.

When he used his sword to cut at it, it would either brush past it gently or cause a small splash.

This time, ye chen was not prepared to continue dealing with it like this, so he put it away and flew up to the left on the wall.

His speed was extremely fast. The lion tried to bite him from behind, but there was no way.

"What should we do?"

Of course, Lin Mo had also seen how ye chen had dealt with the lion.

"Don't worry. I don't believe that we can't find his weakness."

Ye chen was not nervous at all. Although the last few moves had exceeded his expectations, he would not let his guard down.

In his eyes, everything in the world had a weakness. As long as he was patient, he would definitely be able to find it.

Moreover, although this Lion looked extremely ferocious, its attack power was not particularly strong.

He had been chasing after them, but he didn't see how fast they were. He didn't know how to use tactics.

Then, this kind of opponent, who wasn't very smart, was easier to deal with.

According to ye Chen's guess, these Divine-Beast-like lions and the dragons and black tortoises on the other walls must have been placed there because of the frost Jade in their house.

However, if he didn't do it, there was no other way to take the next step.

It seemed that there was no other way to continue this operation except to get rid of all these troublesome things.

As he held the stone and continued to jump, he noticed a strand of brown hair in the middle of the stone. It looked out of place with the surrounding colors.

Moreover, he inexplicably felt that the shape was very similar to the Jade he had obtained at that time, so he immediately figured it out!

"Quick, one of you go and take down that piece of frost Jade. They will only disappear if you take that down!"

Ye chen did not want to play dumb with the lion in front of him. Moreover, he did not want the surrounding creatures to pop out after he finished dealing with them, so he might as well solve this problem in advance.

On the other side, Lin Mo and Peng Fei quickly nodded when they heard this. Earlier, they had been distracted by ye chen, so he was more relaxed on this side.

Now that ye chen had said so, the two of them immediately took action.

Lin Mo could float on his own, so he didn't need Peng Fei's help.

And Peng Fei's words of using his own sharp beak to peck at the Jade didn't seem too realistic.

Therefore, Peng Fei immediately ran to ye Chen's side and helped him Dodge left and right, attracting the lion's attention.

The tomb behind him quickly floated to the sky, and then he reached out to take out the Jade.

However, he did not expect that just as he raised his hand and was about to touch it, the lion that had been chasing ye chen and the others suddenly seemed to be summoned by something!

It suddenly turned its head and looked at Lin Mo!

"Be careful!"

Ye chen had wanted to continue luring the lion to follow him. He only needed to hold on for another ten seconds or so and Lin Mo would have succeeded.

However, he didn't expect that the lion would sense it the moment he touched the Jade!

It seemed that it was very difficult for them to rush out once, and they clearly knew that they were summoned by the Jade.

Of course, ye chen did not hesitate at all. After all, if he hesitated, the lion would quickly attack the copy. It would be even more dangerous then.

Therefore, he jumped onto the lion's head. Fortunately, although the lion wasn't real, it still had a certain level of power.

It didn't seem like it was stepping on air.

Therefore, ye chen immediately wanted to use his own strength to attract the lion.

Of course, Suzuki also felt the coldness of the Jade, but his perception was not very strong, so he held back for a while and reached out to take the Jade directly.

Meanwhile, ye chen only heard a deafening sound and the lion under his feet disappeared.

Fortunately, he had reacted in time, so he did a backflip and stood on the flat ground at the side, so he didn't fall.

Lin Mo did not expect that the cold feeling would disappear after he took the Jade off. The lion that had been so scared a moment ago had also disappeared.

The mythical beasts on the murals that were about to attack them from both sides also returned to the murals.

They didn't have any intention of coming out at all. All of this was like a dream that they had together, very illusory and without any sense of reality.

"Where are you guys looking at!"

Ye chen came back to his senses. When he looked up, he realized that the three murals were connected to two large pillars.

The two pillars had been withdrawn after the loud rumbling, revealing two secret passages.

"What's the meaning of this? Why were there two more paths? Then how should I choose?"

Ye chen felt a little strange and walked over. He looked at the left road and then the right road. They looked exactly the same.

He could see that there were a few steps in the distance, but it was not completely dark. There were even night pearls embedded in the wall that stretched into the distance.

Then, they might have disappeared around a corner. It was the same for the other road.

"I can't see anything different from this. So, how should we go?"

Ye chen said, a little vexed. After all, it seemed that there were no other clues this time.

Lin Mo did not pay attention to these two paths as his attention was completely focused on the stone in his hand.

Then, he took the frost Jade and raised it in front of ye chen.

"What do you mean? Shouldn't this thing be very cold? How can you hold it so easily? Don't tell me we're different?"

Ye chen subconsciously asked when he saw his action. After all, his fingers had only touched it once and were frozen as if they were numb.

Lin Mo saw that ye chen was so understanding, so he smiled and nodded.

"That's right, that's what I mean. Touch this piece of Jade yourself, it no longer has any freezing effect.

"What? Let me see!"

Ye chen obviously did not quite believe it, so he took the Jade from his companion.

When he put it in his hand, he could feel that the Jade still had a certain temperature!

It was still a little cold to him, but not as cold as the first time he took it out.

Right now, this piece of Jade seemed to be just an ordinary beautiful jade.

"What's the meaning of this? Could it be that it could not be used again after being used once? You should have said so earlier. I thought he was born there. Who knew that he was just a key?"

Ye chen said with a chuckle. If he had known this would happen, he would have taken it out the moment he put it on the table. This might have been more effective!

Moreover, he wouldn't have to waste time thinking about how to deal with the lion.

"What should we do now? Which path should we take? I really don't see any directions here. "

Ye chen put the Jade back into his pocket and continued to look at the roads on both sides, hoping to find some differences and then figure out which one to take.

"Why don't we take a look at the totem on his body and see if there are any instructions?"

Of course, Lin Mo did not notice anything, so he took the initiative to say this.

"Alright, then."

They looked carefully but did not know where to start. Ye chen focused his attention on the appearance and direction of the divine beasts on the totems, hoping to see something different.

"Look at the direction of his totem. Don't you think it's a little different from the others?"

Ye chen immediately realized that there was a problem with this, so he immediately shouted out happily.

When Lin Mo heard ye Chen's words, he immediately looked over and saw the differences ye chen had mentioned.

It turned out that the divine beasts on the totem were all looking in different directions, and three of them were facing different directions.

It wasn't obvious in this state, but because the lion had come out and then went back to hide, it was very obvious.

"I don't know if it's true, but this is the only way we can go now. Since that's the case, let's not wait anymore?"

After ye chen had finished speaking, he stood at the entrance of the road on the right and looked inside.

Lin Mo nodded, and the three of them headed down the same path.

Anyway, no matter what they would encounter, this was the path they had chosen. Moreover, it didn't seem to be a big problem for now. Besides, they might really choose the right one. If they did, wouldn't that be good luck?

In any case, the clues that could be found now could only point to this one path, and nothing else could be seen.

The path was only as wide as the pillar, so it didn't look long.

They could only move forward in a front-back formation and then move forward together.

"If it takes two to three steps to go up a step, it should be going up. Are we going to the other end of this forest? I'm really curious. "

Ye chen did not like to be in an awkward situation, so he joked to himself.

It was also to liven up the atmosphere, but his two companions didn't like to talk and answer.

Lin Mo observed the surrounding terrain as he walked. After all, he had encountered a situation like the ghostly labyrinth the last time, and he hoped that he would not fall into the same situation this time.

From the looks of it, the path they were taking was a straight line, and there was no difference.

As time passed, their speed continued to increase, and gradually, they could hear the faint sound of the wind.

To be honest, he didn't even know if it was day or night.

They didn't know how long it had been, but the elves probably wouldn't care if they returned or if something like this happened.

Peng Fei's neck was still slightly longer, so he could only walk with his back slightly bent. He was very aggrieved, so he was very anxious to reach the finish line.

At this moment, ye chen stopped in front of them. Lin Mo stopped as well. There was no more road ahead.

The flight of steps actually stopped here, and it was pitch black above him. He had no idea how far it was from the ground.

"No way? How could this happen?"

Ye chen was stunned. He had thought that he would end up in a place similar to the previous Palace. Who knew that he would end up in a dead end?

"Or else, we'll blow it up."

Lin Mo really did not say anything for a while, but once he did, he would shock the world.

Ye chen wanted to reject her directly but then he thought about it. He had no other choice but to blow it up.

"Then, we can only try this method. But they don't know how thick it is."

This question was obviously more important, because if they didn't know how thick it was, a simple explosion might not do any good except to collapse the place.

"Then let's use spiritual power to measure it first?"

After ye chen finished speaking, he stepped forward and pressed a hand on the black soil above their heads.

A faint spiritual power spread out from the center of his palm, bit by bit, and then slowly entered the soil.

He gently closed his eyes and used his brain to sense how high it was.

This black hole soil had some resistance, but he could use his spirit power to judge whether he encountered air resistance or not.

They had thought that after walking for so long, they would be walking on a flat path. Even if they were to rise, they wouldn't rise much.

However, he didn't expect that he would be able to reach the top with less than a meter.

"This place will do!"

Ye chen happily retracted his strength and almost jumped up.

Although they didn't find the door they were looking for, they could finally leave this dark underground world.

After walking all the way, it seemed like he didn't gain anything, and this piece of cold Jade was useless.

After all, he didn't expect the little fox to be so unreliable!

"Then we don't have to wait for anything else. We'll just blow it up now!"

Ye chen rubbed his fists and was eager to try.

Last time, he didn't use much strength to blow up the stone door. It was very fast and useful. He shouldn't be able to get much this time.

However, he could also imagine how much trouble this place would be in after the roof exploded.

"It's fine. At most, I'll be covered in black soil. At most, I'll clean it up when I go up." Ye chen said with a chuckle.

[Chapter 2675 2681-Breaking Out Of The Roof!](#)

Now that the two of them had come to an agreement to continue blowing up this place, they didn't wait any longer.

After all, wasting time meant that they would have to stay down there for a while longer. This enclosed space was really uncomfortable.

Therefore, ye chen waved his hand and had Peng Fei hide at the back as usual.

The well they were going to open up this time was less than a meter high, but it was still the fastest way to do it.

Moreover, it wasn't as difficult to operate as the stone gate, so this kind of soil should be faster.

However, Peng Fei couldn't do anything. He might as well hide at the back so that he wouldn't suffer any harm.

Although it seemed like they had not found a way to break the curse, the three of them had been through thick and thin together for a long time.

And after the constant communication, Peng Fei could basically understand what they were saying, and could even say a few short sentences from time to time.

In short, it wasn't without gains!

"I didn't expect that we would have to blow it up to leave this place. To be honest, I'm still a little curious about where that road leads to."

"I'll stand in this corner, you can stand in that corner over there. "

Ye chen told Lin Mo his plan. Then, the two of them stood in opposite corners and raised their hands to look for the sturdiest place in the small square above their heads. They needed to use spirit energy to cause the ground to shake rapidly. It would not be very strong but the vibration would directly spread to every inch of the ground, turning them into empty holes and then blasting them to the ground.

Although it had not started yet, ye chen could already predict that he would be covered in dirt in a while.

Of course, this was completely unavoidable. After all, there was only Lin Mo and him. No matter where they stood, they would not be able to escape from these two corners.

The two of them looked at each other, and without any hesitation, they pressed a finger on the spot they had just found, and then closed their eyes together.

In less than two seconds, the spirit energy in their fingers began to spread through the small area they were pressing.

It spread to the surface of the ground and shook slightly.

As expected, it was much easier here compared to the stone wall. They had just climbed up, and not long after, soil started to fall down.

Ye chen subconsciously raised his other hand and tried to block it to avoid injury.

Lin Mo did the same, lifting the sleeve of his white shirt to block many of the injuries. He also conveniently covered his face.

Peng Fei, who was standing at the side, could see it more clearly. The soil was really falling faster and faster, and more and more fell. He subconsciously took a few steps back.

Moreover, the foddors in front of them did not take long to set. Immediately after, they heard a rather silent sound, and then a gust of cold air blew in from the top of their heads.

For a moment, ye chen could not care less about the foul dust. He took a deep breath and felt much more at ease.

The previously sealed space above their heads had been completely opened up, leaving this place without any suspense.

In any case, he was not willing to stay here any longer. Perhaps the other path would lead to a more dangerous place, or perhaps he would obtain something good.

However, now that ye chen had broken through this roof, he felt very carefree and did not regret it at all.

"I'll go up first, then I'll pull you guys up!"

After ye chen had finished speaking, he placed his hand on the ground outside and jumped out with all his might. Then, he pulled Lin Mo out.

Peng Fei, who was following behind, didn't need to do so, because he could jump out himself.

Ye chen stood up and looked around. This place was very unfamiliar. It did not even look like the forest they had been locked in.

There was nothing here. It was as if they had just walked out of the forest of the elves, and they had walked quite a distance.

"Oh my God, it looks like we've entered another world. It doesn't have to be like this every time, right? it's so strange."

The main eating technique was extremely irritated by this place. Their surroundings were like a desert.

Moreover, the sky was dark and the temperature was extremely low. There was no place to hide.

He looked around and only saw a huge rock a few hundred meters away. He guessed that he could only hide there.

"I don't know if I can break the curse now, but you two will have to follow me."

Ye chen said optimistically. After all, the three of them were alone here and did not know what happened to their friends from that race.

In any case, ye chen felt that he had done his best. He had done them such a big favor in exchange for the current Peng Fei to be by his side.

Everything was very reasonable. After all, no matter what time it was, there would never be a free lunch.

And bringing Peng Fei with her would obviously give him a better experience. Otherwise, wouldn't he be unable to move in that forest?

From the looks of it, regardless of whether the curse had been broken or not, as long as they followed him, they would not be expelled or brought back by force.

In this way, he could be considered to have gotten two very good assistants and companions for no reason.

If they were to walk this distance, the wind would definitely stop them along the way. Therefore, ye chen decided to let Peng Fei take them there.

After all, the three of them walking over together was better than having Peng Fei bring the two of them over. Of course, the latter would have a smaller loss.

Moreover, with Peng Fei's huge body, it would at most take some effort to bring them over.

"Let's go, let's go. We can only take one step at a time now. I hope we can live a little more relaxed. "

Ye Chen's tone was full of relief.

Then, Peng Fei flapped his wings on the spot and flew into the air. With a flash of his large wings, he headed toward the large rock that ye chen had just seen.

Ye chen and Lin Mo were lying inside the huge soft feathers. As expected, they blocked many of the sharp feathers and stopped without feeling anything.

No matter how big Peng Fei's body and mind were, he was still a bird, so he had the least resistance in flight. He quickly flew to the side of the rock, then tied his wings and slowly descended.

"Oh my God, the stone I saw from afar wasn't this big!"

Ye chen sat up and saw the big rock at the side. It could completely shelter him from the wind and rain because the rock was slightly tilted.

Compared to the size it had been when he first saw it, ye chen truly felt that this stone had surprised him.

But at this time, he couldn't care so much. He could only hide here for a while and wait for the arrival of the day to see which way he should go!

Because he didn't have anything to compare with just now, he thought that the stone would at most be able to block the wind for them. Now, it seemed that it really stood out.

On the surface, ye chen seemed to be invincible all along the way, but in reality, his strength was slowly rising without stop.

He didn't even feel much about it, but sometimes, actual combat experience would fill him with power and make him stronger.

It was still too cold to just sit there, so ye chen jumped on Peng Fei's back and fell asleep in the thick feathers.

Lin Mo was not in need of rest, so he simply stopped at the side and wrapped his clothes tighter around himself before closing his eyes.

Peng Fei bent his legs and laid down in a rather round sand pit to rest.

This rest was like a temporary peace for them, but it was still a temporary relief.

Otherwise, if he kept running around like this, no matter how much spiritual power he had, it would be impossible for him to not be affected at all.

Ye chen lay in the warm feathers and felt the wind in his ears gradually fade. He had also entered Dreamland.

It had been a long time since he had such a light and relaxing sleep.

The sun was like a bonfire, and the temperature of the surrounding air rose by several degrees.

Ye chen opened his eyes in a daze. The blinding sunlight had almost blinded him temporarily.

"The contrast between day and night is too great. I'm almost blinded!"

Although the warmth of the sun would make one sleep very comfortably, it was really unbearable to be exposed to the sun for a long time.

Therefore, ye chen immediately used his hand to block the dazzling sunlight before his eyes and jumped down from Peng Fei's body, hiding to the side.

There was a small shadow on the side where he could stand and take a break.

Lin Mo seemed to be in more pain than he was. He had already curled up by his side, completely leaning on Peng Fei's small shadow to breathe slowly.

Ye chen suddenly recalled that Lin Mo had always been like this.

Back then, she had been too curious, so she had pulled his mask off before they had become friends.

It caused him to look as if he had aged a few decades in a second, and he would probably be in even more pain now.

"No, we can't continue to wait here. Otherwise, you won't be able to take it. Pengfei, let's fly somewhere else. We have to at least find a cave where we can hide. Otherwise, Lin Mo's body won't be able to take it."

Ye chen said seriously. He took out a carefully folded black cloth from his bag and covered Lin Mo's body.

Then, ye chen lifted Lin Mo up and jumped onto Peng Fei's back.

The black cloth effectively blocked the light. Ye chen also took out the frost Jade.

Although it wasn't as cold as it was when he first touched it, it still had a certain cooling effect.

Therefore, he stuffed it into Lin Mo's hands without any hesitation.

Peng Fei's advantage was revealed at this time. His flying speed was much faster than the average friend.

Furthermore, his eyesight was extremely good. Very quickly, he found a huge rock in the middle of the desert.

Moreover, this rock was curved inwards, which meant that it was actually a small rock-like cave. At least, it could allow them to hide for a while.

Ye chen knew very well that what they needed to do next was to find an oasis in the desert.

Otherwise, there would be a certain amount of danger for them to continue living. At least one thing was for sure, they had finally left the ruins.

However, he did not know when he would be able to return to his normal life.

Once inside the cave, ye chen quickly helped Lin Mo down and leaned against the rock.

Fortunately, it was rather cold inside, and the rocks were very cold. Lin Mo's breathing soon calmed down.

However, it was clear that he had already suffered a lot of injuries before he had fully woken up.

Furthermore, from the situation just now, it could be seen that Lin Mo did not even have the strength to fight back when he was attacked by the intense sun.

Otherwise, he would have woken her up long ago.

"Do you have any way to get better? If we continue like this, we can't just not see the sun forever, right?"

Ye chen felt that something was not right. If it was because of the curse, it would be fine if she was by his side.

However, Lin Mo was different, so there must be something he did not know.

Lin Mo secretly shook his head and sighed. After much thought, he decided to tell ye chen about this.

"It doesn't matter if I'm poisoned or cursed. It has nothing to do with whether I'm with you or not."

It was only then that ye chen realized that these were not the same thing. It was true that they could only leave the forest by following him.

However, that did not mean that the strange condition in Lin Mo's body would disappear after he followed her.

"Do you know how to cure this poison? If this continues, so what if you leave with me? you won't be able to live for long, will you?"

Ye chen was a little angry that Lin Mo had kept this matter a secret, so he said this in a slightly displeased tone.

Of course, Lin Mo could feel ye Chen's unhappiness but he had no other choice!

"I don't know how long I've been poisoned. I can only say that he's been poisoned as long as I've been in the forest. Anyway, thank you very much for taking me out. When the time comes, life and death will be up to the heavens!"

Lin Mo's extremely negative tone made ye chen even angrier. Even he could not guarantee how long he would be able to live.

However, he wanted to help his companions survive!

Since he had already brought them out, he had an obligation to let them follow him all the way, instead of getting off halfway.

"No, I won't let you die on the road because of this. I said I would take you out, so I won't go back on my word."

[Chapter 2676 2681-Mirage!](#)

Ye chen was extremely angry at Lin Mo's passive attitude.

Peng Fei was in a daze at the side. He seemed to understand what they were saying, but he didn't dare to take the initiative to talk.

"How's your body's spiritual energy? Then we can only wait here for the time being and go out together at night. After all, the Oasis is not a Mirage, and it can still be there at night. "

Although ye chen was angry, it was also a feeling of disappointment. Therefore, although he was good with his words, he was still very concerned about his companion.

"Okay, thank you."

Naturally, Lin Mo understood what ye chen meant, so he nodded and did not say anything more. He just sat at the side and slowly recuperated.

Because Lin Mo was by her side, their journey would be extended.

After all, it was impossible for Lin Mo to leave so quickly in his current state.

They could only move around in the dark and find their next resting place in the cold night wind.

Fortunately, the three of them didn't need to eat anything to maintain their strength, so they just sat there and rested as if they were adjusting their bodies.

Although it was cold inside, ye chen was sitting near the outer area.

The warm air outside still rushed in, but it turned cold by the time it reached where Lin Mo was sitting.

On the other hand, ye chen felt quite comfortable sitting there. They did not know what time it was and could only vaguely judge the current time from the direction of the sun and its altitude.

Ye chen unconsciously closed his eyes and immersed himself in his cultivation.

When she opened her eyes again, it was already dark outside.

From afar, they could only see that the sun was about to set and the surrounding sky had turned red.

Ye chen slowly stood up and took a few steps out.

The endless desert was originally yellow sand, but now it was dyed red by the color of the sky, and it looked a little magnificent.

He stood there and looked into the distance, feeling that his eyes were much more comfortable.

"Are we leaving?"

A voice suddenly came from behind him, interrupting ye Chen's thoughts. He turned around and saw Lin Mo standing up and walking over.

It was obvious that he had completely adjusted his breathing. Compared to when the sun had just shot down in the morning, he was much more energetic and ye chen could rest assured.

From the looks of it, the afterglow of the setting sun did not seem to hurt Lin Mo very much, so it was most likely the strong light that was the most serious.

Of course, Peng Fei had also rested well. When he stood up, he even kicked his legs and flapped his wings, shaking off all the sand on his body.

"Let's go. It's not too cold yet. Let's go out and see if there's an oasis that can make us feel better at night. I'm really thirsty!"

Ye chen patted the sand off his body, then turned around and strode toward Peng Fei. With a flip, he jumped on Peng Fei's back. Lin Mo followed.

When Peng Fei touched them, his body would automatically become bigger, and he would look much stronger.

However, he liked this look very much because it was very convenient for him to fly.

Just like that, they flew out of the stone cave that they had been hiding in for a day and began to look for the next place to stop in the desert.

It would be best to find an oasis, even if there were people living there.

Peng Fei's biggest wings flapped very slowly in the air.

Ye chen sat on top of him and used the forest's light to create a protective shield around him. This way, he could block the wind from passing through.

Then, his eyes fell on the places they had flown to, but he found nothing.

They didn't know how long they flew, but the sky was already dark. This way, the area they could see would be greatly reduced.

After all, in a place like this, once darkness enshrouded them, there was no light to even light up a little.

There were only a few stars in the sky, and the moon had long been covered by dark clouds.

This was the night in the desert. If one was not careful, they would fall into darkness and have no place to go.

Now, he could only move forward slowly. Fortunately, ye chen was not too bored. After all, Lin Mo could sit up and chat with him for a while.

At this moment, he casually looked up and saw that there seemed to be trees not far away!

Naturally, he was very happy and immediately straightened his upper body.

"Pengfei, look over there! Let's go over there and see if we can stop there!"

Ye chen hurriedly commanded. Peng Fei naturally turned his head when he heard his Master's words. His eyes naturally lit up and even his flying speed increased.

After all, even though he was already a Nine-Tailed ROC, he would still get tired after flying for too long!

Not to mention that flying in the desert without any hope was far more tiring than usual.

Hence, they perked up together and flew over. Of course, each of them felt as if a fire had been lit in their hearts, and they woke up.

Unfortunately, the reality had broken their hearts.

Ye chen was furious when he saw that the trees that had been here a moment ago had disappeared when they flew over.

Logically speaking, there should not be any mirages at night but they had really encountered one now. Therefore, ye chen was so angry that he almost jumped up.

"What's going on? Why would I see it here?"

"Maybe it's because of the light around us, so I can see it!"

Lin Mo said indifferently.

That was indeed the case, and they didn't see it clearly just now.

He only saw the shadow of a tree, the kind of dark shadow, and felt that he might really encounter an oasis.

Who would have known that it was just because the moon had already escaped from the dark clouds, so it had accidentally created a beautiful illusion for them?

"Sigh, it's fine. There's no need to go through so much trouble. Since we can see a Mirage here, it means that the Oasis does exist. So, let's look carefully again."

Lin Mo consoled him from the side and said in a serious tone.

Of course, Ye Chen understood this. However, this sudden change in status would still make him uncomfortable.

He had thought that he would finally be able to find the location of the information, but it was a pity that he was now in a situation where the goods were confiscated.

Furthermore, he was not the one who was worried about himself. He was worried about Lin Mo. When the sun rose the next day, were they going to continue hiding in a stone cave?

It was definitely not a good idea to continue like this, so he was inevitably a little anxious.

"Don't be too discouraged. There must be an oasis around here. It's just a matter of distance. If we continue searching, we'll definitely find something!"

As Ye Chen spoke, he had Peng Fei retreat to the direction where they had just come from.

Then, based on the knowledge he knew, he roughly calculated the direction of the Mirage.

This kind of situation was generally very difficult to find, but he couldn't completely eliminate all the methods.

"It's just a simple test. It'll be great if you can find it. If you can't, you can try again. Don't be too depressed."

After Ye Chen had said this, they flew forward together. No one knew what was ahead of them and could only hope that they could find a safe place to stay.

"Where are you looking!"

Ye Chen continued to fly like this for an unknown period of time. He felt a little drowsy and his eyelids were about to droop.

The wind in the desert at night was really strong. Sometimes, you couldn't even hear any extra sound. You could only hear the whistling of the wind. It was a torture in this place.

Just as they were about to give up, they suddenly saw a tree in the distance.

The sky was almost bright now, and the sun was slowly rising from the horizon.

However, the temperature had not increased yet, so Lin Mo did not feel any discomfort for the time being. Just as they were about to find a large rock to hide behind, Lin Mo's body suddenly froze. But he found a new location!

Peng Fei naturally saw it too and immediately increased the speed of his wings.

After a short while, they were already hovering in the sky!

When ye chen looked down at it from such a close distance, he felt that it was somewhat unreal. However, it was true that this was not a Mirage but a real oasis.

"Quick, quick, quick! Let's go down and take a look!"

Ye chen hastily patted Peng Fei twice. Peng Fei also slowed down and slowly stopped at the edge of the Oasis.

After all, it was impossible to tell if there were any people living in the Oasis or if there were any other races.

So, in order not to offend him, he decided to stay outside for now. This was also a basic etiquette.

Moreover, they were not in a hurry. There were still quite a lot of trees here.

Therefore, Lin Mo was lucky to be able to recover after going down.

The sun had completely risen from the other side of the mountain, and the temperature was slowly rising. They had landed in a safe area.

"This place isn't necessarily safe. After all, this is the only good place in the entire desert."

However, it was already good enough that he could find it. Even if they encountered any danger, ye chen could guarantee that he could leave this place with his good friends. Moreover, they were only staying here for a temporary rest.

"I'm really a little too thirsty. Let's go find a place to drink water first!"

Ye chen and the others strode into the forest.

After walking for a while, he heard the sound of water in front of him, so he sped up.

What they didn't realize was that something in the forest seemed to be staring at them.

"I think there must be someone else living here. Although there isn't much living environment, I don't think I see any weeds. Someone must be taking care of it."

Ye Chen's general analysis said that he did not have much understanding of this area. However, based on the current situation, he would definitely need to be more vigilant.

"Look, it's a small stream!"

Peng Fei wasn't good at speaking, but because he was too excited, he actually said it!

Moreover, looking at his arms and legs dancing with joy, ye chen, who was watching from the side, laughed.

Of course, even though they were laughing, they did not slow down. Instead, they walked faster and soon reached the stream. Ye chen took out his water bottle from his bag.

The kettle had been empty for a long time. If he hadn't finally come here, he didn't know if it would continue to be empty.

He didn't drink much water in the elf forest before. He only ate some fruits to replenish his water.

Now that he finally saw clean, cold water, he put the kettle in and filled it to the brim.

He first drank half a pot of water, then refilled it, screwed the lid on, and put it into his bag.

"It's really too carefree!"

After ye chen finished drinking, he stood up and stretched lazily. He felt as if he had been reborn.

Lin Mo, on the other hand, did not have much desire. He only gently scooped some up with a leaf and drank it. Peng Fei, on the other hand, directly went up to drink it.

The feeling of finally getting some dew after a long drought was not bad, not to mention that he had spent the past two days in the desert. No matter what, he would still be able to absorb the water in his body.

After the three of them had their fill, they went to a tree at the side and found that there were still small fruits on the tree. Ye chen quickly climbed up and plucked several ripe fruits.

The color was beautiful, and the taste must be good.

Peng Fei's body was relatively large so he could eat the fruits directly with his head raised. After ye chen came down, he gave two to Lin Mo and finished the rest.

This peace that he had finally obtained was really pleasant. Ye Chen's heart felt warm.

"I think we can stay here for a few days. I don't want to leave right away. Let me enjoy a few more days of comfort before we leave for somewhere else!"

Ye chen laid down under the tree and casually found a rather square stone to rest under his head. Then, he crossed his legs and said,"

Lin Mo also nodded.

He naturally had his own considerations. After all, the fact that even the sun couldn't be confirmed was very troubling for him.

And if this continued, it would not be good to escape. After all, normal days would be more sunny.

At the moment, by following ye chen, they could at least go to other places.

To be honest, Lin Mo knew very well that the day he followed ye chen, even if he was exposed to the strong sunlight, he was not in too much danger.

In any case, it was very convenient to stay by ye Chen's side. Moreover, it would indeed reduce his injuries. Therefore, he could not leave for a while.

The poison in his body might need some kind of medicinal herb, or perhaps he could find some immortal to ask for a panacea to cure it!

Lin Mo fell into a deep sleep as he thought about this. The three of them huddled under the tree and went to rest.

[Chapter 2677 Black Fox!](#)

After resting for a short while, the sun had already risen.

The tree they had chosen was very big, so they covered them with shadows almost without leaving anything out.

Ye chen was just about to sit up and drink some water when he suddenly sensed a small black shadow darting past him from the right.

The shadow was very fast. If he wasn't in high spirits, he might have missed it.

"Lin Mo, get up."

Ye chen reached out and grabbed Lin Mo, who was standing at the side.

In fact, Lin Mo had just woken up. Although the sun did not affect him much, he still felt a little uncomfortable.

Thus, he had been enduring it, trying his best to calm himself down by breathing gently.

When ye chen had woken up, he had also seen the dark shadow in the distance.

Peng Fei did not wake up and ye chen did not plan to wake him up. After all, Peng Fei's body was too big and it would easily attract other people's attention.

So, it was better for the two of them to stay here and quietly see what it was!

The black shadow seemed to have been observing from a distance. When it was certain that ye chen and the others had not noticed it, it gradually circled around the trees and approached.

Ye chen did not look in that direction but in reality, he had been paying attention to that side the entire time.

On the surface, the two of them were still pretending to be unconcerned, but their spiritual energy had already quietly moved, sensing that the small figure was constantly approaching.

Just as the Black Eagle was about to charge at him, ye chen leaped up and picked up a branch beside him. Then, he whipped it toward the Eagle.

However, he didn't draw it toward the black object. Instead, he drew it toward the small space in front of him. It was almost there.

The little black figure was obviously frightened and jumped up immediately!

Ye chen chuckled and looked over. Only then did he realize that the person who was quietly approaching was a big-tailed little fox.

This little fox wasn't the Hong Sheng that they had seen before. The fiery red color had turned into a black color, but its fur was especially shiny. Its pair of big eyes looked very shrewd as it blinked at them.

Although ye chen did not want to pay too much attention to it, he could not ignore the wariness and hostility in this little Fox's eyes.

Although ye chen seemed to be sleeping soundly, in reality, even the slightest sign of something wrong would immediately wake him up.

If he didn't want to rest more last night, he might have gone to look for the strange figure behind them in the middle of the night.

But now, it seemed that he had made the right bet and only encountered such a small thing.

"Can you speak?"

Ye chen asked naively.

When the little fox heard what he said, it was obvious that she didn't understand. She thought that it was an outsider who was trying to show off his strength.

He opened his mouth and revealed his sharp teeth.

However, only the little fox herself might feel intimidated. In ye Chen's eyes, it seemed to be a little interesting.

"Do you think it's the only one or that it has other companions?"

Ye chen noticed that the Fox was not very talkative, so he asked Lin Mo who was behind him.

"There should be,"

Lin Mo said softly as he looked at ye chen who was standing under the sun. After all, he did not like to see the light, so he subconsciously did not rush forward.

Moreover, ye chen could handle it by himself and did not need him to follow.

It was just a little fox, and it wouldn't bring them any trouble. It even looked a little pretentious.

"Forget it, you can go!"

Ye chen did not take the little fox seriously, so he raised his hand and waved it away.

However, the little fox was not very obedient. It even jumped up and wanted to bite his finger.

Of course, ye chen would not let the little fox bite him. He used his arm to stop the little fox and threw it hard on the ground.

To be honest, he didn't want to, but it was obvious that this little thing had used a lot of force. If he really bit it, he would probably bleed and break the skin. He was not willing to.

"You little thing, you can't tell the difference at all. Are you tired of living? I told you to leave quickly, but you actually dared to bite me. Do you believe that I can get rid of you with just a little force?"

Ye chen looked down at the little fox. As expected, it had calmed down after being beaten up.

However, after baring its fangs and brandishing its claws at ye chen a few more times, it turned around and quickly fled.

Lin Mo looked at the Black Fox that had run far away and revealed an uncomfortable expression.

The meaning of this kind of Black Fox was not very good, and in ancient legends, it could be called a taboo.

In short, it would most likely bring bad news.

However, it seemed that the little fox had come to take a look because they had suddenly broken into the Oasis. For the time being, it had not discovered any other dangers.

Ye chen did not care about the little fox at all. After watching it run far away, he walked to the stream and took out a kettle to drink the water in it. Then, he filled the kettle to the brim.

When Peng Fei heard the sound and woke up, he saw that the little fox had already run away.

It was not sure what was going on, so Lin Mo simply explained what had happened to it in a few sentences.

He had thought that everything would be fine, but he hadn't expected Peng Fei to be so anxious after hearing Lin Mo's words that he almost jumped up.

Ye chen was shocked by his sudden reaction and quickly walked over to ask.

"What's the situation? Where do you feel uncomfortable?"

Lin Mo, who was listening to Peng Fei's words seriously, also had a look of disbelief on his face. At the same time, he felt a chill behind him.

Ye chen stood at the side, feeling very anxious as he did not understand anything.

After all, Peng Fei had only used his own language because ye chen was in a hurry. Ye chen could only understand a few words.

Ye chen had no choice but to wait quietly at the side.

Then, he found out that all of this was due to an ancient curse.

Lin Mo's knowledge was only one-sided, but Peng Fei's friend's clan had a very deep understanding of this curse.

This was because a Black Fox had once appeared in their race, and this Fox was not just one, but many.

When they first came, they wanted to maintain a friendly relationship, but who knew that one day, these foxes would all go crazy.

They had even set up a huge formation to trap their entire race.

It was just that they didn't know what happened in between, so the elders of the ROC clan only told them the troublesome part of this curse.

The elders also told them to quickly avoid the Black Fox and never get close.

However, Peng Fei never knew why these foxes would suddenly change their minds and even use such a huge curse to completely trap the entire ROC clan.

This sounded more serious than the attacks or other protective measures he had imagined.

In short, when Pengfei saw the little black Fox running away, he thought of the saying in his family.

He was immediately scared out of his wits. Furthermore, they had persisted for so long. Wasn't it just to break the curse?

The Black Fox had appeared again, but no one knew if it was a good thing or a bad thing.

Ye chen did not have much fear of this kind of curse but it was enough to intimidate Peng Fei and Lin Mo who were currently under the curse.

"So that's the reason. Since that's the case, we shouldn't stay here for too long, otherwise it'll definitely cause more trouble."

Ye chen said. However, they were also facing another problem, which was to leave this place.

If they couldn't find a place to live in time, it might be more troublesome, but now that they had encountered this Black Fox, they really had no choice.

After all, ye chen had wanted to stay here for a few more days. This way, he could relax a little. Moreover, life in the oasis in the desert was more comfortable than living in the city.

Moreover, no one was in charge of this place, so there were no unnecessary disputes or troubles. However, he liked this kind of carefree life.

However, it seemed that they could not stay for long. In order to avoid unnecessary trouble, they had to leave quickly.

"The Foxes you mentioned usually appear in groups. This one should be here to test us, right? there will definitely be more later."

Ye chen had already begun to plan in his heart.

And when he thought of this, he subconsciously felt a little thirsty. He quickly went to drink another pot of water and picked a few fruits from the tree. He sat there and ate while thinking.

Although they had already decided to leave this place as soon as possible, they were not in a hurry.

Moreover, the little fox didn't seem to be particularly dangerous. According to the rumors, there should be some grudges between them, so she suddenly cursed him!

Of course, he could not rule out the reason for the Black Fox's sudden riot. In short, there was no special reason for them to leave quickly.

Moreover, the most important thing was to let Lin Mo rest well. The curse was important but ye chen was confident that he could handle it.

At most, it would be a little difficult to resist. At worst, he could just leave, but he couldn't mess up the most basic plan.

Sitting there, the more he thought about it, the angrier he got. It was not easy to find this oasis after he was fat. He drank some water, took a nap, and ate a few fresh fruits.

No matter how he heard it, he felt comfortable. Who knew that such a huge plot would appear out of nowhere.

It made him extremely distressed, and he didn't know how to get rid of all this.

Lin Mo knew that it was not good for him to go out and see him under the sun, but he was still very nervous since he was in the Oasis.

From time to time, he would worry about the danger that would come again.

To be honest, although he said that he would leave it to fate, it was hard not to be anxious when such a situation really happened in the world.

This was his own life!

He had stayed in that boring place for so long that he had almost forgotten what the outside world was like. Now that ye chen was willing to take him out of there, he was really glad.

Therefore, he really didn't want to fall into another trap.

Regardless of the probability, if he made a mistake, the consequences would be more serious than he imagined.

In his eyes, this was something that he had to take seriously, so it was really difficult for him to go all out and charge in.

"How's your body doing? Can we leave tomorrow?"

Ye chen asked doubtfully. However, when he thought about how Lin Mo would definitely feel uncomfortable if they left during the day, he immediately changed his mind and said that they should leave tonight.

Lin Mo nodded, temporarily agreeing to his suggestion.

Peng Fei looked very scared. He had been out of his mind since he had told ye chen about this in the morning. In fact, ye chen wanted to comfort him.

But on second thought, it was also good to be a little more careful. Even if they wouldn't be hurt later, there was no harm in dodging appropriately!

"Get ready to go!"

Ye chen said as he looked at the dark sky. He had drunk another pot of water before he left!

To be honest, ye chen still liked this oasis more. Moreover, after suffering for so long, he had finally found a piece of sweetness. Anyone would feel a little bit of pity. If he left like this, he would be a little reluctant to let it go.

"All good things must come to an end. I really like this oasis, but I can't stay here forever. If that's the case, I might as well leave early. Otherwise, I'll get addicted to staying here."

Ye chen said in a joking tone.

Lin Mo nodded. Of course, it was impossible for him not to feel anything. However, for the sake of his own safety, he definitely hoped that he could leave as soon as possible.

At worst, he could just find another stone cave and wait until night time to come out and act.

It would be best if he could leave this desert forever. That way, he wouldn't feel like everything was being controlled yesterday.

After eating a few fruits, Peng Fei placed the core man into the grass, then stretched his legs and wings and squatted down.

Ye chen immediately perked up and led Lin Mo up. At this moment, the ground of the Oasis began to tremble.

It was as if something had passed by the land below them.

"What's going on?"

Naturally, all of them could sense it. Moreover, a murderous intent was heading in their direction. Ye chen subconsciously thought of the little black Fox that had tried to bite him the other day.

Peng Fei didn't take off immediately. The vibration under his feet made him panic.

"Could it be that those Little Foxes are really here? But why did they come down from the bottom?"

Ye chen furrowed his brows slightly and said in disbelief.

Of course, they didn't expect the situation to come so quickly and so suddenly.

Tengfei's two feet that were about to take off seemed to be standing on the ground, unable to leave!

[Chapter 2678 2682-Surrounded!](#)

However, Peng Fei was extremely anxious, so he had already started to cry out. One could tell how terrible it was just by hearing that miserable cry.

Of course, ye chen realized that something was wrong and jumped down from his body. He immediately wanted to help him but realized that this was not something they could control.

Ye chen did not know where the force coming from was coming from. He used his spiritual energy to control it like crazy to lift his feet.

The moment his feet touched the ground, he could clearly feel the suction force.

"What's going on? It's impossible for the desert to collapse!"

After ye chen said this, he looked up and saw a dark shadow in the distance. Although the sand on the ground of the Oasis was still a little hot, it did not feel that strong. However, it was different now.

The one who was the most afraid was naturally Peng Fei, because he had heard about that terrifying curse from the elders of his family since he was young.

So even if he had fantasized about it in his heart, he did not dare to look at it directly. But now, it really appeared in front of his eyes!

It was the group of Black Foxes that he had only seen in his dreams or in his imagination.

These Black Foxes were several times larger than the small one that had come to spy on them.

One by one, they looked at ye Chen's group with their big, round eyes.

It was really hard to suppress the hostility inside. It even made the Oasis, which was directly illuminated by the sun, much colder.

Ye Chen could not care less at this time. He drew his sword from behind him and looked over with the same eyes.

He had never been afraid of such so-called shock or suppression, not to mention that the other party was just a group of Black Foxes.

He had never believed in heresy, and the so-called curse was in his eyes. It was just a lack of firepower.

He had thought that he could avoid it, but now it seemed that he couldn't.

In that case, he would face the difficulties directly. At most, he would be injured. In short, as long as he didn't die, these foxes could only become the targeted prey.

Lin Mo flicked his sleeves. His white clothes had already become mottled, but as he stood there, his clothes still appeared as white as snow.

This might be a person's temperament. He was afraid of these Black Foxes, but now that they had appeared in front of him, what else was there to think about?

At most, he would fight to the death. He was an old demon who had lived for thousands of years. If ye Chen had not brought him out, he would probably have stayed where he was or died there.

In that case, there was no need to think too much about the future!

When there were no worries, he would feel a little free and easy doing anything.

As the Foxes got closer to the ground, the tremors grew stronger and stronger. Peng Fei could only endure the pain of being grabbed and pull his feet out of the ground.

This might be the ability of these Black Foxes, but he had no idea where this power came from.

They were quite unlucky. They had finally found an oasis, but they had barged into someone else's territory.

However, ye Chen did not think that they had done anything wrong. After all, they had no choice but to come to this place. Moreover, who set the rules for who should be in this oasis?

After they came in, they had only drunk a little water and were not prepared to stay for long, but this group of foxes could no longer hold back.

It was time to teach them a lesson. Otherwise, if there were still people who wanted to come over, they would be directly bullied by them!

"I've never taken the initiative to provoke anyone, but if the other party insists on doing this, then just wait to suffer!"

Ye chen revealed a confident smile. His hands were not too much, but they were not too little either. They were also stained with blood.

However, almost all of them had offended him on their own initiative, which led to such consequences.

The fact that he was able to walk out of the ruins and experience so many things proved that he was no ordinary person.

They had originally planned to stay with this group of foxes for a few days before leaving, but who knew that this group of Black Foxes was really too territorial.

In that case, there was no need to say that they did not give each other a chance. Ye chen did not think that he would end up in a life-and-death situation.

Because he would use his greatest ability to obtain a very intuitive victory.

Peng Fei could feel his master's fighting spirit, so he tried his best to calm himself down. He didn't stand on end and explode.

Dozens of Black Foxes had surrounded them from the outside and had used their own unique laws to freeze ye chen and the others in place. It was impossible for them to escape.

Then, they attacked him together.

These foxes didn't look like ordinary foxes. Their black skin and fur were extremely oily, and even emitted a faint light.

Their mouths were different from ordinary foxes, and there was even a touch of red brown fur on them. This might be the difference between them.

The little fox that ye chen had met when he had led them into the cave earlier looked much more innocent and adorable.

And at most, they could be called clever, unlike the ones they had encountered today.

The little fox that had offended them the other day was also jumping left and right in the middle of this group of big foxes, as if it was taking advantage of the Tiger's might.

Ye chen stretched his neck, ready to fight. In his eyes, the little fox was just a piece of trash, no different from any other Fox.

And these big foxes at most had some magic, that so-called curse. He must have borrowed the strength of others.

It was impossible that they had brought a group of ordinary foxes with them. They were quite good at putting on an act.

"They might focus their attacks on you later, so Lin Mo and I will protect you. You can only stand here and try to avoid them."

Ye chen quickly realized that the Foxes would not eat much here. In that case, the Nine-Tailed ROC would most likely be their target.

So he definitely couldn't let such a thing happen. Peng Fei was his Mount now, and he would always be.

As a master, he had the responsibility to protect his Mount from being hurt!

A bunch of foxes, did they really think that he would be afraid?

Lin Mo was still standing on Peng Fei's body. As the sky had already turned dark, his strength was no longer restricted by the range of his attack, and he could fight to his heart's content.

He knew how much strength he had, so he was not afraid at all!

The group of Black Foxes quickly gathered around. Because the sky was too dark, the green light emitted from their eyes was like a Night Pearl.

Ye chen took a step forward and stood in front of the tree.

They were still close to the stream, so there was nothing behind them.

In front of him was the leader of the pack of foxes, the big fox. It jumped two times in a row and then stopped a dozen meters in front of ye chen.

He stood there, about the same height as ye chen, but his body was extremely wide.

If ye chen was not mistaken, this should be the most powerful person in this group of foxes.

The power he emitted seemed to be even stronger than the group of small foxes around him, or rather, the medium-large foxes!

She looked rather old. Of course, when ye chen was so close to her, he subconsciously thought about whether he should negotiate first.

If it wasn't necessary to fight this battle, or if it was possible to stop, then both sides would not suffer losses.

"Do you think he'll agree if I want to negotiate with him? if I don't understand or he doesn't understand me, can you come over and translate?"

Ye chen turned to Lin Mo and said.

Lin Mo was already prepared to respond to the call for a stop. However, when he heard ye Chen's words, he felt that it made sense. Therefore, he jumped down and walked a few meters with ye chen.

"You're asking me what it means? Why didn't he come over all of a sudden? We're already preparing to leave, why won't you let us go?"

Ye Chen's tone was not too good. After all, if Peng Fei's feet were not being controlled, they would have left the Oasis by now.

He didn't really want to look for trouble, but who knew that this group of foxes would actually use their own method to trap Peng Fei's feet, to the point that he couldn't leave now.

Lin Mo translated ye Chen's words from the side and told the Fox King.

However, what he did not expect was that just as Lin Mo finished speaking, the Fox opposite him seemed to have been jabbed by something and immediately went crazy and roared loudly.

Lin Mo did not understand what she meant, but the group of Little Foxes around him immediately surrounded her.

Although its body wasn't as huge as this one, it was about the same size as them.

A thick murderous intent rose in the surroundings. Ye chen looked at the Fox that was charging at him. At first glance, he must not want to cause any bloodshed. Otherwise, there would be no point in discussing.

Therefore, he kicked the Fox out of the room.

However, he didn't expect that his feet would be numb from the shock. This Fox was even more abnormal than he had imagined.

When the Fox was brushed out, it fell hard on its companions and was immediately helped up.

It looked like he had suffered some internal injuries, but ye chen had held his strength well.

So he controlled himself. He wasn't particularly fierce. He just wanted to negotiate with this Fox.

The Fox King was obviously slightly shocked.

Based on ye Chen's kick just now, he could roughly guess the difference between these foxes. Their black color meant that their strength would be completely converted into their weight, which was why the kick just now was a little difficult to put on. However, this was nothing to ye chen.

Ye chen suddenly felt that they might not be cursed.

It was very likely that they had only barged into the nest of this group of Black Foxes. It could be considered fate.

Of course, he also had a thought in his heart. Could it be that the breaking of the curse of the ROC clan was directly related to this group of Black Foxes?

Would he be able to find a way to crack it from them?

The more ye chen thought about this, the more he felt that this battle could not be fought so easily!

"Lin Mo, I think that breaking Peng Fei's curse has something to do with this Fox race. Why don't we try to stop fighting and see if we can reach an agreement with them?"

Ye chen immediately told Lin Mo about his idea.

Lin Mo had not expected this and was extremely surprised. However, he quickly understood ye Chen's intention and was very supportive of it.

The Fox King didn't express any opinion on what he had just said. However, if he mentioned the ROC clan, would they have any reaction?

Ye chen was just trying. He did not know if it would really work.

However, looking at the current situation, he would not suffer any losses if he tried. Moreover, he was prepared to fight. At most, he would just ask first before fighting!

Lin Mo briefly mentioned Pengfei's tribe, but the Fox obviously knew about it because his expression changed.

The Fox King, who had just been ordering its subordinates to charge forward, suddenly raised its claws to stop them.

Ye Chen's heart, which had been hanging in his chest, suddenly fell. He took a deep breath.

Then, the Fox King howled twice, as if it was talking.

Lin Mo clearly understood and immediately began to relay the message to ye chen.

"How did you guys know?"

The Fox King's gaze was fixed on Peng Fei as he spoke, but he was probably also very confused.

After all, how did a six-tailed ROC become a Nine-Tailed great ROC? I've never heard of evolution before.

Of course, ye chen noticed his gaze, so he went with the flow and replied.

"This is a branch of their ROC clan."

"We only wanted to stay in this oasis for a few days. Who knew that you wouldn't welcome our guests? you even want to kill us. What a joke!"

Ye chen did not care much at this time. At most, he would just make it clear. Anyway, he was not afraid of these foxes.

When the Fox King heard his words, it only frowned deeply and did not intend to reply.

It was obvious that he had a strong sense of resistance.

Ye chen did not know what they had gone through before but if they were to be on guard like this, wouldn't their race be the one who would be hurt in the end?

"Could it be that you guys are also trapped here? If that's the case, then he should be the one who deserves it!"

Ye chen said happily, his tone full of sarcasm and ridicule.

When Lin Mo heard ye Chen's words, he suddenly had an idea.

But who was it that had trapped these old foxes here, and in the same situation as Peng Fei and the others?

However, it did make sense.

[Chapter 2679 The Secret Of The Curse!](#)

Ye Chen's gaze shifted from the Fox on the far left to the Fox on the far right.

This made him realize that these foxes were not young. Although they did not have a different strand of brown hair like the one in the lead, it was connected. They both looked dispirited.

Other than the little fox that he had met at that time, the others were probably all old.

It seemed that he had been trapped here for too long, which was why he had become like this.

"I don't know why you're not willing, but I've already told you that if you really can't do it, we'll have a fight."

After ye chen finished, he had Lin Mo quickly relay the message.

After hearing ye Chen's words, Lin Mo now felt that his side had the upper hand, so his tone became more arrogant.

He had originally wanted to take a gamble, but who knew that he had actually made the right bet? moreover, this Fox King seemed to have some hidden secrets.

This must be a trap. Ye chen was more upset now because he thought that he had escaped from that primitive place and he had left with his companions.

However, he didn't expect that it would still be here.

However, he could find out how to remove Peng Fei's curse from this group of Black Foxes.

"Just tell them directly that I can help them resolve the curse or solve their problems. However, I also need them to tell me information regarding the ROC clan."

Since they were the ones who put the curse on him, it was impossible for them to not have hidden something.

Moreover, based on the Fox King's performance just now, he knew that there must be something hidden here.

Ye chen had never liked to give face to others, so he continued without any hesitation.

"Of course, if you don't want to negotiate with us, we can start a fight in a while. Your group of foxes are just waiting here, but do you really think that no one can beat you?"

Ye chen said as he pulled out the sword that he had just put in.

Sometimes, a very direct deterrent was the most important. It was much faster than those so-called lies.

Sometimes, one only needed to say good things once, but threatening words had to be said a few more times to achieve the greatest effect.

When the Fox King heard ye Chen's words, it was very angry. After all, it had been a King for its entire life and had never felt threatened by anyone.

However, ye chen had said such words so blatantly. All his subordinates were here now.

The intimidating power of ye Chen's sword was indeed strong. Moreover, the kick he had just delivered was enough to show his strength.

After all, it was impossible for an ordinary person to kick a Black Fox down.

Black Foxes like them had the ability to directly convert their power into gravity, so that kick just now was not weak at all.

They usually wouldn't use this kind of direct attack to defeat each other when they were training with each other. That would be too much of a loss!

However, ye chen was only a small human now and he dared to do this. It was truly shocking!

After a while, the Fox King couldn't take it anymore and took a step back.

Of course, the black Foxes under him understood their boss's meaning and did not restrain themselves like him. Only then did ye Chen's clenched fists relax quietly.

Judging from the current situation, there shouldn't be any other animals in this oasis. Only this group of Black Foxes had been guarding here.

It was just like the place where their friend's clan was at that time. Why did such a situation occur so frequently in the forest? this was not a simple matter!

This included the fairy clan. Of course, they didn't know why the fairy clan had become like this.

However, the ROC clan and the Black Fox clan had already been cursed.

If Lin Mo and the rest had done something wrong, that was why they were trapped there and treated as a barrier to protect the ruins, what about the other things?

"Let's not care about anything else for now. Let's ask them what exactly happened to the ROC clan to be cursed."

As the master of the flying ROC, ye Chen's greatest desire now was to know if his companion had a chance of breaking free from this curse.

Peng Fei looked very worried and was very resistant to all this.

After all, he couldn't stand being with this group of Black Foxes after the teachings of his family.

However, he had also heard what Lin Mo had whispered to him. Master was doing this for his own good.

Otherwise, he would have dealt with this group of Black Foxes a long time ago. What he wanted to know now was how to break his curse.

This way, she could bring him away safely!

At the same time, he might even be able to find some medicine that could help Lin Mo detoxify.

In short, once there was such an opportunity, it was better not to let it go easily. Not to mention, they were not at a disadvantage now.

On the other hand, the group of Black Foxes on the other side also seemed to have other matters to ask for help from ye chen and the others.

The black Foxes were the ones trapped here, so they probably wanted to leave!

The environment of this oasis was much better than the place where the elves lived, or the place where the ROCs lived.

As the Black Fox led them forward, the others who had surrounded them had already left. Only the Fox King was left with two foxes who looked like his close subordinates.

And then there was the little fox that was jumping around.

Ye chen and the others were then brought into a cave that seemed to be well-made.

Although they were in a cave, it wasn't particularly cold, because the inside was separated by wood.

The tables, chairs, and other things were arranged very beautifully, and looked much more formal than the previous ones.

Ye chen was led to the side by a Fox that looked like a human.

To be honest, he actually wanted to say that the black Foxes here were not like the birds of the flying ROC tribe at all. Instead, they were more like the elves.

They still looked like foxes, but they could walk like humans instead of running on four legs.

Especially when they entered this place, the Foxes who brought in fruits and warm water seemed to have been trained.

It was very formal, and ye chen could not help but look at it in a new light.

"There are only small fruits. Don't dislike them."

The Fox King's attitude was obviously much better after he sat down. He was not as serious as he was outside.

The Fox King clearly took ye Chen's words very seriously.

They did not expect ye chen to be someone who came out of nowhere. He had guessed that they were also trapped here without even saying a few words.

Moreover, when their Fox clan went to complete the law of the cursed ROC clan, they left almost everything out.

It was impossible for it to escape all the time, and the more he looked at the one in front of him, the more he felt that something was wrong.

He had not thought of it at first but when ye chen mentioned this friend's clan, he instantly thought that this Nine-Tailed great ROC might also be a member of that ROC clan.

He should have been cursed, but now he had escaped, and he didn't even seem to be affected at all.

In that case, should he also take a gamble and place his hopes on ye chen to see if he could win a round?

At most, he would just waste some fruits and drink some water from the stream.

However, if they could really get ye chen to help them escape from this place, they would not lose out at all.

The curse was placed on them by a God. Many of the tragedies that happened at that time were done by the Black Fox clan, so they had a very serious bad reputation.

Who knew that the situation would get more and more out of control.

The heavenly court had also trapped their race here, only releasing them when they were needed and asking them to help complete missions.

They usually lived in this oasis, although it seemed that life in the Oasis was not bad.

After all, they were surrounded by a desert, and they wouldn't be able to survive for long if they were trapped in the desert.

However, that was under the circumstances that they couldn't escape. If they could escape the desert, they would definitely have a more exciting life.

After all, no one wanted to be trapped in one place. Furthermore, they were like weapons. They could be used when needed and sealed when not needed.

Of course, all of this could almost be considered a heavenly secret because no one had investigated these things. Their Black Fox clan had already been beaten into a very cruel curse by the outside world.

Ye Chen did not know much but he had already figured out from these clues that everything was not as simple as it seemed.

After all, just by looking at these races, one could see that there were countless connections between them.

Moreover, they were all trapped in one place, as if there was a pattern to it.

If one were to say that there was no difference between the ROC tribe and the elf tribe, or that there was no connection between them, then ...

However, things were different now that he had joined the Black Fox clan.

After all, according to Peng Fei, the reason why the ROC clan had become like this was because of the curse of the Black Fox clan.

It was as if they were a race that brought them extreme danger.

However, from Ye Chen's current perspective, he felt that there was still room for redemption.

The Black Fox race was obviously trapped as well. In that case, it would be better to link them together and see if they could solve it together.

The ROC clan didn't know anything at all because they were being controlled. But the Black Fox clan was different.

Not only were they trapped here, but they were also controlling the other elven races.

"Since we're already sitting here, let's cut to the chase and get straight to the point!"

Ye Chen finished the tea on the table in one gulp, then smiled at the Black Fox King.

The Black Fox King clearly had something to say as well, so it immediately raised its hand, indicating that ye chen should speak first.

"Since you want me to say it, then I won't be polite."

Ye chen said, looking very clever.

"I want to know what kind of enmity you have with the ROC clan. What kind of grudge do you have? why did you give them such a huge curse, and then trap their entire clan in that forest?"

Since the other party had said so, there was no need for him to be reserved. Besides, this was the reason why he stayed, so he put the other things behind.

When the Fox King heard ye Chen's words, the smile on its face froze.

The atmosphere remained in a stalemate for a while, and the Fox King was obviously unable to hold on any longer.

It had made a huge decision in its heart but it still decided to speak up. After all, there were only two people and a Nine-Tailed ROC on ye Chen's side.

Although he never took the initiative to say it, there was still the Fox King. Every time he went out to deal with an accident, it was very torturous.

Because he didn't know why these missions were assigned to them.

At first, he was very happy when he thought that he was doing something for the Jade Emperor.

However, when the curse gradually fell on their heads, everything became less fun.

In short, the Black Fox clan was actually very upset because they had never thought about why they had to take on such a great responsibility.

As for the heavenly court, the so-called "they" only brought fear and anger from the other races.

Moreover, every time they went out to do this so-called curse law task, they would lose a few Black Foxes. Their group was also very large.

Their group had gradually become smaller and smaller after each mission.

If that was the case, it was better to throw the pot to the ground. Perhaps after meeting ye chen this time, he would really save them.

Don't stay in this place anymore!

The group of Black Foxes had had enough, and the little fox that they gave birth to would repeat the same mistakes and complete these abominable missions when she grew up.

Ye chen clearly did not look very old, but for some reason, it made them feel very comforted in their hearts. They even felt that they would definitely make the right bet this time.

"In fact, we didn't do this of our own accord. The curse was indeed cast by our Black Fox clan."

After the Fox King finished saying these two sentences, he lowered his head indifferently and did not look at the Nine-Tailed shed. In fact, he was somewhat remorseful in his heart, which was why he was like this.

"You said that you didn't want to do it, so why did you keep doing things that hurt others but were not beneficial to you in the past?"

The ROC clan was in a terrible state. If ye chen had not gone there at that time, it was likely that the entire clan would have been exterminated in the forest.

After that, the forest would return to its deathly silence.

In short, if it wasn't for the curse, he wouldn't have been trapped there like a beast.

[Chapter 2680 The First Crisis!](#)

"So you're saying that the curse is left behind by you? then you should know the way to solve it, right?"

Ye chen said bluntly.

"You can say that."

"But why are you doing this? Logically speaking, there should be no conflict between your two races. You two shouldn't even touch each other. Why did the Foxes of your race suddenly attack them together?"

Since he was already going to ask, he might as well ask thoroughly.

This secret had always been hidden, and no one knew why the ROC clan had encountered such a thing without knowing it. No one could easily accept it.

Ye chen knew in his heart that there must be a bigger secret hidden here. According to the timeline that Peng Fei and the others had told him, their main clan had been trapped there for a long time.

However, for some unknown reason, they had suddenly suffered a violent attack some time ago, and their entire race had almost been left with no way out.

He did not know if it was fate or destiny, but Peng Fei happened to find ye chen when he was looking for someone.

Ye chen was like a god who had descended upon them and saved them from their predicament.

"We received orders from the heavenly court. That's why we wanted to set up a formation to trap them."

The Black Fox King's words immediately stunned ye chen. What was going on? Why did this happen?

He had never thought that something that happened in the human world would involve the heavenly court!

"W-what? Do you even know what you're saying? you can't blindly spread rumors about this!"

Ye Chen's tone was very straightforward. At this point, he did not care about hiding anything. He did not want this matter to cause a bigger problem.

He had thought that the Black Fox King was joking, but the Black Fox King shook its head and continued,"

"You see, you don't believe me even if I tell you this, but we did indeed receive instructions from the heavenly court, and then we did that."

"Not only did he give us a task, he also trapped us here and used our formation to control other people or other demonic beasts, but he is not willing to let us go."

When the Fox King said this, it was obvious that he felt a stab of pain in his heart.

As the only Fox who had left his tribe and gone to the heavenly court to accept his first mission, he really wanted to go back to the past and refuse this matter.

"I've been to the heavenly court once, but I haven't been there much since. But every time there's a mission, an immortal Lord will come down to tell us and take us there."

That sounded half-true and half-false, but ye chen did not think there was a need for the Black Fox King to lie to him.

However, if the heavenly court was really behind this, did he really have the ability to resist all of this?

At the thought of this, ye Chen's expression became a lot more complicated. He had thought that he would only need to find the source to break the curse.

However, now that he had found the source, he had no way to use it.

And from the looks of it, there should be a lot of secrets hidden below!

"Alright then, I'll believe you for now. Tell me what you've done."

It was obvious that the group of foxes they had encountered this time were much stronger than the other races they had encountered before, so it was very likely that there were more than just these few races.

When the Fox King heard ye Chen's words, he thought that ye chen was mainly asking about the ROC clan, so he did not hide anything.

"The ROC clan was our first mission. I didn't think much about it at that time. After all, I followed them directly to the celestial heavens."

As the Fox spoke, he also recalled that back then, they could really be said to be newborn calves who were not afraid of Tigers.

The Fox, which had always been very fierce and free-range, had suddenly received such a big task.

Moreover, he had been directly invited to the heavenly court, so he instantly felt very honored.

However, what they didn't expect was that this seemed like an ordinary beginning, but in fact, it had directly pushed them into the abyss of eternal damnation.

At that time, the news they heard was that this ROC clan was wreaking havoc everywhere, so they needed to trap them in the forest, unable to escape forever.

This required a huge formation to suppress it, and the Black Fox clan was very good at making formations.

This was especially so when a siege formation could be maintained for an infinite number of years.

Unless it was changed as a last resort, there was really no way to save it.

In short, they sent a small fox to try it out.

After making sure that the ROCs would return to the forest at night, they began to implement their plan.

Peng Fei was listening to the Fox King's story from the side, and he was so angry that his entire body was trembling.

It immediately stood up and ignored the concerned gazes of ye chen and the others. It turned around and ran out with its long legs.

Ye chen did not stop him. After all, he knew that no matter who it was, it would be difficult to accept such a thing. Therefore, it might be better not to hear it at times.

It was good to run out like this, and just listen to what was said.

The rest would be up to him, the master, to help understand!

Moreover, he would definitely take care of everything.

The Fox King was interrupted by this sudden situation.

However, ye chen remained calm and asked him to continue. He wanted to know what happened after that.

And what happened next was not much different from what he had guessed, not to mention that Peng Fei had already told him.

At that time, the ROC clan did not have any expectations for this unexpected disaster.

So that night was the same as usual, with only two ROCs keeping watch. Who knew that such a serious thing would happen that night!

None of them had ever thought that the cute black Fox they had encountered during the day would bring them such a serious consequence.

The Black Fox clan was strong to begin with. Compared to the ROC clan, it was simply a suppression of strength.

Therefore, they quickly stood in their positions and started to attack the poor bird clan.

The latter part was almost the same as what Peng Fei had said, which was the terrifying curse passed down among their friends.

After that incident, he had never left the forest.

Perhaps if they had not been exterminated later on, their race would never have been able to leave this place.

It was because of this sudden massacre that their race was almost in shambles, and there were not many who survived.

Therefore, Peng Fei had taken the opportunity to escape and found ye chen and Lin Mo, his two saviors.

He knew what happened after that.

In short, this curse had been in place for a long time, bringing them unerasable trouble.

For nearly a hundred to a thousand years, he had been trapped.

"So, you said that this was just the beginning. Then, will there be more races that will be violated by you?"

Ye chen had never liked to beat around the bush.

Obviously, these Black Foxes did not investigate clearly and just listened to the so-called arrangement. Then, they treated a race like this. From their tone, it was obvious that there would be many more.

When the Fox King heard ye Chen's words, it was clear that it was not happy that he had described itself and its clan in such a way.

"We don't know either. In our eyes, we're just exterminating evil officials. We didn't do anything wrong, so you don't have to do this!"

Ye chen did not know what to say about her unwillingness to believe in reality. After all, it was obvious that she had done many wrong things.

"What are they doing this for? Why do you have to trap all these beasts and elves in place, as if you don't want them to have any contact?"

When ye chen thought of this, he was very confused.

"And that so-called immortal master you mentioned, who is he?"

Ye Chen's words were just right. He remembered that the Fox King had also said that apart from the first time, all the people he had encountered later were immortal Lords. In that case, perhaps there was a way to start from here.

The Fox King nodded, and his thoughts drifted back to many years ago.

They were very happy when they completed the mission for the first time, and they also felt that it was a good thing for the Jade Emperor of the heavenly court.

Therefore, when the immortal Lord came to assign them tasks, they were very eager to go.

Of course, other than the first time they encountered Peng Fei's race, which were slightly easier to deal with, the ones they encountered later were not easy to trap.

Therefore, after completing three missions in succession, the Fox King was no longer willing to continue, because during the third confrontation, they encountered a group of beasts in the land of the reptile.

As land foxes, they were at a disadvantage in this aspect, so they lost almost one-fifth of their foxes that time.

After they returned, the people of the clan wanted to stop. They didn't want to hurt others like this. At the same time, they didn't have any benefits.

Ye chen continued to ask after hearing his words.

"Since you've been the ones using up all your energy and are helping to trap others, why are you still here? why can't you escape?"

"Because my people didn't want to do this, so they wanted to leave. When they came back from the fifth operation, many of them wanted to leave the forest and live elsewhere, away from this conflict. I couldn't refuse them."

When the Fox King said this, his face revealed a very guilty expression and a helpless bitter smile.

What happened after that really made his heart ache. He even regretted how he had become such a King.

If he couldn't even protect his own race, how could he be considered a good king?

He would always tell them what had happened next. At that time, he didn't deliberately control his clansmen who wanted to leave, but who knew that they would be discovered by the people in the sky!

He still remembered that the immortal master had flown down from the heavenly court in a very angry manner. He had found him and had reprimanded him as soon as he had arrived.

"What do you mean? Do I still need your help? He had no choice but to do it. What was going on with the heavenly court? It doesn't sound appropriate!"

The more ye chen listened, the more sympathetic he became. Not only did he sympathize with the Black Fox race, but he also sympathized with the other races who had been hurt.

The damage that appeared again and again seemed to be an attack that had no warning at all.

To be honest, ye chen did not believe that these races were trapped because they had done something bad.

If one had to put it this way, it was clearly the Black Fox clan that was in the most danger.

After all, if one was strong, they would do whatever they wanted, and they might do things like bullying the weak.

However, the other races were weak at that time, especially the elf race that he passed by that time. The entire race was a healer.

Other than healing his own wounds, he had almost no ability to resist. It was hard to believe that he would hurt others instead of helping them.

He really couldn't think about all of this in detail. As long as he thought about it carefully, there were many things that didn't make sense.

"So, after that immortal master came down and scolded you, he directly trapped you here?"

Ye chen asked again, borrowing his earlier words.

The Fox King nodded in silence. After a while, he continued to tell ye chen and the other man.

At that time, other than him being scolded, all the clansmen who had run out were caught and brought back.

Moreover, he had even pulled out a bone in front of them. After that, they could only stay in the forest without enough physical strength to fight against the enemy.

When this incident had happened in this oasis, it had been a very serious matter.

The Fox King almost flew into a rage, but he didn't dare to fight against a high immortal!

After the immortal Lord had dealt with the few foxes that had escaped, he did not even turn around to say anything to the Fox King.

However, after glaring at him in exasperation, he turned around and flew away with the cloud.

At that time, they had not completely controlled the Fox clan. At that time, they could still act. However, they had to kill the chicken to warn the monkeys, so they could not leave.

Later on, they had to complete a mission. When they returned, they were ready to leave together, but they found that the Oasis had been sealed off.

Just by taking a step out, they could feel the scorching temperature of the desert as if it was going to burn them all.

No matter which direction they went, they could only see golden sand.

As a leader, the Fox King could no longer sit and wait for death. He could only try his best to protect his own people.

Later on, the time span of the missions was very large, almost once every few decades.
