

## Genius 2681

### [Chapter 2681 Can't Refuse!](#)

"So you're saying that the curse is left behind by you? then you should know the way to solve it, right?"

Ye chen said bluntly.

"You can say that."

"But why are you doing this? Logically speaking, there should be no conflict between your two races. You two shouldn't even touch each other. Why did the Foxes of your race suddenly attack them together?"

Since he was already going to ask, he might as well ask thoroughly.

This secret had always been hidden, and no one knew why the ROC clan had encountered such a thing without knowing it. No one could easily accept it.

Ye chen knew in his heart that there must be a bigger secret hidden here. According to the timeline that Peng Fei and the others had told him, their main clan had been trapped there for a long time.

However, for some unknown reason, they had suddenly suffered a violent attack some time ago, and their entire race had almost been left with no way out.

He did not know if it was fate or destiny, but Peng Fei happened to find ye chen when he was looking for someone.

Ye chen was like a god who had descended upon them and saved them from their predicament.

"We received orders from the heavenly court. That's why we wanted to set up a formation to trap them."

The Black Fox King's words immediately stunned ye chen. What was going on? Why did this happen?

He had never thought that something that happened in the human world would involve the heavenly court!

"W-what? Do you even know what you're saying? you can't blindly spread rumors about this!"

Ye Chen's tone was very straightforward. At this point, he did not care about hiding anything. He did not want this matter to cause a bigger problem.

He had thought that the Black Fox King was joking, but the Black Fox King shook its head and continued,"

"You see, you don't believe me even if I tell you this, but we did indeed receive instructions from the heavenly court, and then we did that."

"Not only did he give us a task, he also trapped us here and used our formation to control other people or other demonic beasts, but he is not willing to let us go."

When the Fox King said this, it was obvious that he felt a stab of pain in his heart.

As the only Fox who had left his tribe and gone to the heavenly court to accept his first mission, he really wanted to go back to the past and refuse this matter.

"I've been to the heavenly court once, but I haven't been there much since. But every time there's a mission, an immortal Lord will come down to tell us and take us there."

That sounded half-true and half-false, but ye chen did not think there was a need for the Black Fox King to lie to him.

However, if the heavenly court was really behind this, did he really have the ability to resist all of this?

At the thought of this, ye Chen's expression became a lot more complicated. He had thought that he would only need to find the source to break the curse.

However, now that he had found the source, he had no way to use it.

And from the looks of it, there should be a lot of secrets hidden below!

"Alright then, I'll believe you for now. Tell me what you've done."

It was obvious that the group of foxes they had encountered this time were much stronger than the other races they had encountered before, so it was very likely that there were more than just these few races.

When the Fox King heard ye Chen's words, he thought that ye chen was mainly asking about the ROC clan, so he did not hide anything.

"The ROC clan was our first mission. I didn't think much about it at that time. After all, I followed them directly to the celestial heavens."

As the Fox spoke, he also recalled that back then, they could really be said to be newborn calves who were not afraid of Tigers.

The Fox, which had always been very fierce and free-range, had suddenly received such a big task.

Moreover, he had been directly invited to the heavenly court, so he instantly felt very honored.

However, what they didn't expect was that this seemed like an ordinary beginning, but in fact, it had directly pushed them into the abyss of eternal damnation.

At that time, the news they heard was that this ROC clan was wreaking havoc everywhere, so they needed to trap them in the forest, unable to escape forever.

This required a huge formation to suppress it, and the Black Fox clan was very good at making formations.

This was especially so when a siege formation could be maintained for an infinite number of years.

Unless it was changed as a last resort, there was really no way to save it.

In short, they sent a small fox to try it out.

After making sure that the ROCs would return to the forest at night, they began to implement their plan.

Peng Fei was listening to the Fox King's story from the side, and he was so angry that his entire body was trembling.

It immediately stood up and ignored the concerned gazes of ye chen and the others. It turned around and ran out with its long legs.

Ye chen did not stop him. After all, he knew that no matter who it was, it would be difficult to accept such a thing. Therefore, it might be better not to hear it at times.

It was good to run out like this, and just listen to what was said.

The rest would be up to him, the master, to help understand!

Moreover, he would definitely take care of everything.

The Fox King was interrupted by this sudden situation.

However, ye chen remained calm and asked him to continue. He wanted to know what happened after that.

And what happened next was not much different from what he had guessed, not to mention that Peng Fei had already told him.

At that time, the ROC clan did not have any expectations for this unexpected disaster.

So that night was the same as usual, with only two ROCs keeping watch. Who knew that such a serious thing would happen that night!

None of them had ever thought that the cute black Fox they had encountered during the day would bring them such a serious consequence.

The Black Fox clan was strong to begin with. Compared to the ROC clan, it was simply a suppression of strength.

Therefore, they quickly stood in their positions and started to attack the poor bird clan.

The latter part was almost the same as what Peng Fei had said, which was the terrifying curse passed down among their friends.

After that incident, he had never left that area.

Perhaps if they had not been exterminated later on, their race would never have been able to leave this place.

It was because of this sudden massacre that their race was almost in shambles, and there were not many who survived.

Therefore, Peng Fei had taken the opportunity to escape and found ye chen and Lin Mo, his two saviors.

He knew what happened after that.

In short, this curse had been in place for a long time, bringing them unerasable trouble.

For nearly a hundred to a thousand years, he had been trapped.

"So, you said that this was just the beginning. Then, will there be more races that will be violated by you?"

Ye Chen had never liked to beat around the bush.

Obviously, these Black Foxes did not investigate clearly and just listened to the so-called arrangement. Then, they treated a race like this. From their tone, it was obvious that there would be many more.

When the Fox King heard Ye Chen's words, it was clear that it was not happy that he had described itself and its clan in such a way.

"We don't know either. In our eyes, we're just exterminating evil officials. We didn't do anything wrong, so you don't have to do this!"

Ye Chen did not know what to say about her unwillingness to believe in reality. After all, it was obvious that she had done many wrong things.

"What are they doing this for? Why do you have to trap all these beasts and elves in place, as if you don't want them to have any contact?"

When Ye Chen thought of this, he was very confused.

"And that so-called immortal master you mentioned, who is he?"

Ye Chen's words were just right. He remembered that the Fox King had also said that apart from the first time, all the people he had encountered later were immortal Lords. In that case, perhaps there was a way to start from here.

The Fox King nodded, and his thoughts drifted back to many years ago.

They were very happy when they completed the mission for the first time, and they also felt that it was a good thing for the Jade Emperor of the heavenly court.

Therefore, when the immortal Lord came to assign them tasks, they were very eager to go.

Of course, other than the first time they encountered Peng Fei's race, which were slightly easier to deal with, the ones they encountered later were not easy to trap.

Therefore, after completing three missions in succession, the Fox King was no longer willing to continue, because during the third confrontation, they encountered a group of beasts in the land of the reptile.

As land foxes, they were at a disadvantage in this aspect, so they lost almost one-fifth of their foxes that time.

After they returned, the people of the clan wanted to stop. They didn't want to hurt others like this. At the same time, they didn't have any benefits.

Ye Chen continued to ask after hearing his words.

"Since you've been the ones using up all your energy and are helping to trap others, why are you still here? why can't you escape?"

"Because my people didn't want to do this, so they wanted to leave. When they came back from the fifth operation, many of them wanted to leave the forest and live elsewhere, away from this conflict. I couldn't refuse them."

When the Fox King said this, his face revealed a very guilty expression and a helpless bitter smile.

What happened after that really made his heart ache. He even regretted how he had become such a King.

If he couldn't even protect his own race, how could he be considered a good king?

He would always tell them what had happened next. At that time, he didn't deliberately control his clansmen who wanted to leave, but who knew that they would be discovered by the people in the sky!

He still remembered that the immortal master had flown down from the heavenly court in a very angry manner. He had found him and had reprimanded him as soon as he had arrived.

"What do you mean? Do I still need your help? He had no choice but to do it. What was going on with the heavenly court? It doesn't sound appropriate!"

The more ye chen listened, the more sympathetic he became. Not only did he sympathize with the Black Fox race, but he also sympathized with the other races who had been hurt.

The damage that appeared again and again seemed to be an attack that had no warning at all.

To be honest, ye chen did not believe that these races were trapped because they had done something bad.

If one had to put it this way, it was clearly the Black Fox clan that was in the most danger.

After all, if one was strong, they would do whatever they wanted, and they might do things like bullying the weak.

However, the other races were weak at that time, especially the elf race that he passed by that time. The entire race was a healer.

Other than healing his own wounds, he had almost no ability to resist. It was hard to believe that he would hurt others instead of helping them.

He really couldn't think about all of this in detail. As long as he thought about it carefully, there were many things that didn't make sense.

"So, after that immortal master came down and scolded you, he directly trapped you here?"

Ye chen asked again, borrowing his earlier words.

The Fox King nodded in silence. After a while, he continued to tell ye chen and the other man.

At that time, other than him being scolded, all the clansmen who had run out were caught and brought back.

Moreover, he had even pulled out a bone in front of them. After that, they could only stay in the forest without enough physical strength to fight against the enemy.

When this incident had happened in this oasis, it had been a very serious matter.

The Fox King almost flew into a rage, but he didn't dare to fight against a high immortal!

After the immortal Lord had dealt with the few foxes that had escaped, he did not even turn around to say anything to the Fox King.

However, after glaring at him in exasperation, he turned around and flew away with the cloud.

At that time, they had not completely controlled the Fox clan. At that time, they could still act. However, they had to kill the chicken to warn the monkeys, so they could not leave.

Later on, they had to complete a mission. When they returned, they were ready to leave together, but they found that the Oasis had been sealed off.

Just by taking a step out, they could feel the scorching temperature of the desert as if it was going to burn them all.

No matter which direction they went, they could only see golden sand.

As a leader, the Fox King could no longer sit and wait for death. He could only try his best to protect his own people.

Later on, the time span of the missions was very large, almost once every few decades.

#### [Chapter 2682 2687-Nightmare!](#)

The Fox King brought his people here to train their bodies and improve their strength.

This way, he could protect himself and the people important to him with the greatest advantage.

This was also why Ye Chen and the others had only stayed here for less than a day and had already been observed. Then, they had all rushed up to prepare for a duel.

Everything from the outside world was aggressive to them, and it was the beginning of a disaster.

"Anyway, I can only tell you that it was really painful every time we were sent out."

Peng Fei walked back from the entrance of the cave and sat back down in his seat. He didn't say a word, and it looked like he still hadn't completely calmed down.

"So you actually want me to help you escape from here?"

"It's also a gamble because we can't stand this kind of life anymore. We're also afraid that those people in the celestial heavens will take action when they find out."

The Fox King had been worried about this since the beginning.

Of course, he had thought of breaking the spell himself and leaving this place together, but as soon as he remembered that the other party was from the heavenly court, he was suddenly filled with a strong sense of powerlessness.

That lesson didn't seem to be very serious, but it made him very clear and profound that if he made a mistake, the consequences would be serious.

Without the help of anyone else, the immortal Lord alone had captured all the Foxes who had escaped.

"Of course, I can help you."

When ye chen heard the other party's words, he readily agreed.

"But if you want me to help you, then help me do one thing first. It won't be too difficult for you, and that is to release the Pengs from their confinement and remove your formation."

He said this because he knew that the other party would definitely agree.

The Black Fox King looked like he was ready to give up. In that case, he would take the opportunity to ask for his help. Of course, he would go with the flow.

Moreover, it was impossible for him to make a move without paying anything.

Peng Fei, who was sitting at the side, had been looking straight ahead. When he heard ye Chen's words, he immediately turned his gaze over, his eyes full of surprise.

And when he heard the Fox King's approval, he was even happier.

"Anyway, if you want to deceive our trust, you have to show us your sincerity first. Since you have agreed to let me help you, I hope that this curse can be lifted within a day."

When ye chen was negotiating terms, he always liked to put on a straight face. Anyway, as long as he was serious enough, the other party would be appropriately afraid.

The Fox King was actually very anxious.

He knew that the heavenly court would receive the news very quickly.

Therefore, they had to complete the mission that ye chen had set for them by tonight. Then, he would have enough bargaining chips to ask ye chen for help.

However, he suddenly thought of a very serious problem. With their current status, it was impossible for them to leave this place alone.

Not to mention breaking the curse of the ROC clan, even they themselves would not be able to escape.

"Sigh, it might not be resolved immediately."

Before ye chen could celebrate, he looked up and saw the Fox King. His expression instantly turned dejected and he said this with some guilt.

Ye Chen's mood immediately fell and he asked him again, somewhat unhappily.

"We can't leave this place unless the immortal master takes us somewhere else,"

Of course, the Fox King was also a little embarrassed. After all, if it wasn't for the fact that some of the Foxes wanted to escape, the immortal Lord wouldn't have trapped them here. However, there was no other way.

Ye chen nodded when he heard this. Indeed, he had not thought of this.

From the looks of it, he would have to release the Foxes first. Only then would they be able to help Peng Fei's clansmen out.

"Alright then. Now, tell me what's so different about your formation. Or perhaps, have you found the formation's eye?"

In such a large forest, it might be difficult to find his face, but the Fox King and his group of foxes had been living here for so long, so it was impossible for them to not have any clues.

So, in order to avoid wasting time by doing too many other things, it was better to ask directly.

Maybe the Fox King knew where it was, but he didn't know how to solve it.

As expected, the Fox King immediately nodded at ye Chen's words.

The Fox King looked very anxious as if it was overjoyed to know that it could escape from this place. Ye chen could not help but keep an eye on it.

At this moment, he suddenly thought of another condition. As long as the Fox King followed him, even those who were trapped in the circle would be able to leave without much restriction. Could the Fox King do the same?

When ye chen thought of this, he was ready to say it out loud.

However, he quickly stopped himself from thinking about it and asked the Fox King.

"I want to know how many foxes you need to break the curse of their race, or do you want to bring all the Foxes with you, like the immortal master?"

He asked casually but the Fox King did not understand what he meant. It did not know that he had gone out with ye chen so si Hao answered him without hiding anything.

"I only need two of my followers to do it because they won't be able to find the array eye. Only we know the array eye of our Fox clan, so we just need to go over and break it."

"In that case, I think we should solve my problem first. I can take you out."

"What do you mean it's impossible? without the immortal master's guidance, we can't leave this oasis."

When the Fox King heard ye Chen's words, he immediately wanted to refute him. However, ye chen did not wait for him to continue and shook his head. He then revealed a calm smile and said,"

"You don't have to worry too much about that. As long as you have me, I'll definitely be able to bring you out. Your two followers will be fine as well. Go and break the curse on that side first, then leave this side to me."

Ye Chen's tone was very decisive. It could be seen that he had spoken of this matter with no room for doubt.

Moreover, it seemed like he had to get an answer. After all, he did not completely trust the Fox race.

The Fox was a cunning animal.

No matter the time, situation, or place, he had to leave himself a way out and not wholeheartedly help them.

The Fox King and his group of foxes were already at daggers drawn as soon as they met, as if they had met an enemy.

Now, she had a good expression on her face. It was obvious that she wanted to ask ye chen for help.

If it were an ordinary person, they would have died long ago. In short, if they really wanted his help to break this array, would he let them go?

The premise was that he had to break the other curses. Although ye chen did not say anything unnecessary, he had always been curious about this matter.

Furthermore, according to the Fox King, the high immortal would definitely show up after they encountered this formation.

At that time, let's see if he's a human or a ghost!

Using the Black Fox's lack of trapping array to bully the other ordinary races was simply ridiculous, so this excuse would not work on him at all.

When the Fox King heard ye Chen's words, it stood there in silence and looked up at ye chen.

She could see the unhappiness on his face, so she immediately put on an amiable look.

"Okay, okay, okay. Then let's set off tonight. It's best if it's at night. That way, we won't attract any attention."

The Fox King's attitude was completely different from the attitude they had just encountered.

However, ye chen did not care about this. After all, he could bring them benefits now, so it was only right for the other party to suck up to him.

"Alright, in that case, arrange a place for us to stay first. Then, when the night is almost dark, we will set off together!"

"Just bring whoever you want, but just like you said, no more than three. Otherwise, it'll be very troublesome."

"And that looks like a big target."

Ye chen did not spare the Fox King another glance after he had finished speaking. He turned around and left the cave with his good friends Lin Mo and Peng Fei.

They were led by the female fox to the right for a few hundred meters before they stopped outside a hidden cave.

Then, the Fox pulled away the branches outside the cave and revealed itself. The decoration behind the cave was not bad.

There were also two beds in the house, covered with soft hay. It looked very comfortable to the naked eye.

After the female fox brought them in, two other foxes came in and brought them a pot of water, a plate of apples, and a plate of grilled fish.

Indeed, there was nothing else to serve here.

However, to ye chen, this was much better than the things he could get from other places.

Besides, he hadn't had meat for a long time. Although the fish looked like it had a lot of bones, it was not bad to taste.

After ye chen ate some, he let Peng Fei, who was standing at the side, pick some fruits to try.

Lin Mo, on the other hand, had no interest in these things. He sat on the bed he had prepared and began to meditate.

After ye chen was done with his thoughts, he poured himself a glass of water. After drinking it, he felt his body warm up and lay comfortably on the bed.

This bed made of grass was so comfortable. Although it looked a little shabby, it was not much worse than the better quality beds.

The sky outside was still bright, and it would probably take a few hours before it set.

Moreover, he would have to stay longer in the desert, so ye chen fell asleep without any worries.

After closing his eyes and falling asleep, ye chen felt as if he had fallen into a dream. He felt as if he was lying in a white place with no end in sight no matter where he looked.

It was like a prison that trapped people. He tried to speak and struggle, but he found that he couldn't make a sound.

It made his breathing sound much louder when he was sleeping, and it gradually became more rapid.

Lin Mo, who was not asleep at the side, heard the sudden change and his eyes widened.

Then, he got down from his bed and walked over to ye chen. He went up to him and pinched his wrist, then checked his pulse.

If he didn't guess wrong, this person should be in a nightmare.

Lin Mo saw that ye Chen's expression was about to change. Without any hesitation, he tapped twice on ye Chen's chest and then gently pressed on his belly button. Only then did ye Chen's condition gradually ease.

In ye Chen's dream, there seemed to be something pulling him away from the restraints on his body, which made him sober.

He slowly opened his eyes, but his body was extremely weak, as if he had just experienced a huge battle.

Lin Mo stood at the side and looked at him. When he opened his eyes and the two of them looked at each other, ye chen was shocked. After all, no matter who it was, they would be shocked to see someone standing by the bed after waking up.

"What are you doing? Don't you know how scary it is to see you standing here? I was just having an uncomfortable dream, and now I'm scared back by you when I open my eyes!"

Ye Chen used his arms to support his body and sat up. He took two deep breaths and gradually recovered his body. He no longer felt as heavy of a pressure as before.

Lin Mo did not want to explain himself but seeing Ye Chen's nonchalant expression, he decided to do so.

"You looked like you were having a nightmare when you fell asleep just now. Your breathing was loud and rapid. So, what did you dream of?"

Lin Mo had nothing more to say to Ye Chen's complaints.

However, he was still more concerned about his comrades. He looked cold, but his heart was actually very warm.

Ye Chen had initially thought that it was only for a few seconds. However, after hearing Lin Mo's words, it turned out that he had already had such an obvious reaction when he had just fallen asleep.

"I don't know what's going on either. I just feel a little uncomfortable and have a little bad feeling. Forget it, it should be nothing serious."

After all, this matter was indeed not very coherent, so he could not figure it out and did not want to continue thinking about it.

"Although I didn't sleep well, I've slept for several hours. Let's warm up and get ready to go!"

After Ye Chen had finished speaking, he walked toward the cave entrance while stretching his waist and starting to exercise.

There was almost no light in the sky outside. Only a faint light seemed to be struggling in the distant mountains.

The Fox King had also called two of his men over and roughly explained the next plan to them.

To be honest, both sides were betting, but they just wanted to see if they could win because no one was willing to continue.

### [Chapter 2683 2687-Curse Lifted!](#)

"Your Majesty, do you really think that these few outsiders can help us?"

One of the Fox King's Men asked from behind him, his tone full of worry.

The Fox King stood there and heard what he said, but he did not answer immediately. Instead, he was silent for a while, and then he said helplessly.

"This is the only way."

Although he did not want to admit it, he had indeed placed the hope of his entire race on Ye Chen.

If they made the wrong bet, they would be completely annihilated. What could they do then? It could only be considered a punishment for himself!

All these years, he had watched as the clansmen he had brought with him gradually lost all hope of survival. He knew that he had made a mistake from the beginning, and now he was trying to redeem everything.

He slowly walked out of his cave. It was completely dark outside. The desert was always particularly cold at this time, even if they were in the Oasis.

Therefore, most of them would have already retreated back into the cave by this time.

His two underlings were following him when they heard their boss say that they were leaving.

Ye Chen had been warming up at the entrance of the cave for a long time. He did a somersault and stood upside down. Then, he saw the figures walking over. It was the Fox King and his two subordinates.

"Since you're here, let's not waste any more time. Let's go. I'll take you out of here, and then let Peng Fei take us there."

Initially, Ye Chen had thought that they would go directly from the desert to the forest where the ROC clan was. However, on second thought, they would not be able to reach there by just relying on their speed.

And he might not even know the way.

However, Pengfei was different. How could he not know the way home?

Moreover, his flying speed after transforming into the Nine-Tailed ROC was several times faster than before.

Without further ado, Ye Chen immediately brought them onto Peng Fei's back and slowly took off from the ground.

Peng Fei's heart was filled with complicated emotions. He had never thought that he would one day bring his enemies home to break their curse.

He was initially very resistant to these Black Foxes but Ye Chen had just reasoned with him for a long time and told him that this was the only way.

He was forced to endure it. After the curse was lifted, he would not meet this group of Black Foxes again.

Peng Fei's flight was steady and fast. Ye Chen, who was curled up in its feathers, could not feel any cold wind.

The Fox King sat there and thought that everything was amazing. His two subordinates no longer had any doubts about Ye Chen.

It had been many years since they had left the forest oasis alone!

Now, she could actually fly out of there with Ye Chen. She did not even have the physical pressure and the force that kept pulling her back.

The three foxes looked at each other and could see the surprise and surprise in each other's eyes.

Ye chen was too bored lying there, so he began to count the time. He felt that he had been flying for almost two hours. At this time, his body was slowly falling.

Feeling that the impact of the wind was much weaker, ye chen stood up and saw that they had indeed arrived at the highest point of the forest.

Peng Fei was clearly very excited, and his flying speed increased. When he landed on the ground, he even called out softly.

After a short while, in the night of the ROC clan, The Guardian flew over. When he saw that it was Peng Fei, he relaxed. However, he did not expect a few foxes to follow behind him and their life-saving God, ye chen!

It was obvious that they were very afraid of the Black Fox, so the two friends on night duty nervously took two steps back.

Peng Fei immediately explained that the Foxes were here to help them break the formation.

As long as they were released, they would be able to move freely and would not be trapped here forever. Ye chen had helped them find this, and they would definitely be able to!

Ye chen did not care if his friends could understand them. The most important thing was to quickly undo the formation and go home.

Otherwise, they would waste too much time here at night, and they would be easily discovered if they returned in the day.

The Fox King did not want to have any interaction with the two ROCs.

Therefore, she brought her two little Foxes and ye chen along as she headed toward the relic they had set up first.

Soon, they reached a corner of the forest of deception. At this time, ye chen realized that the so-called testimony was in the exact same position he had been in the last time.

The tall Hill looked ordinary, but it turned out that there was such a relationship.

After he arrived, he stood aside. The Fox King and the other two foxes formed a triangle.

He stood on the hill and called out to the sky together.

A blue light suddenly appeared, shooting straight into the sky from the center of the triangle they were occupying!

Ye chen could feel that something was constantly fluctuating. He stood to the side and took a deep breath. He was not too affected.

His eyes then turned to look at the trees in the forest. Many leaves had already fallen from the trees.

Above them, a faint layer of light appeared, covering the forest like a layer of film.

Perhaps this was the formation that had trapped them all this time!

The blue light continued to shine, and after about an hour, the glowing barrier above them began to crack.

Then, the crack grew bigger and bigger, and a very clear sound rang out in the forest, Breaking the Silence.

Ye chen could tell that the formation had been broken just by looking at the three foxes' movements. It seemed that it was much easier than he had imagined. In any case, it did not take him much effort.

Peng Fei also explained the situation to his clansmen, and then they also saw everything that had just happened.

In an instant, the forest was filled with the chirping of the ROC. Everyone was very happy and excited to hear it.

Peng Fei ran toward ye chen, two small figures following behind him.

When he got closer, ye chen realized that these were the two blue-patterned ROCs that they had protected together.

It had only been a short period of time since he last saw her, but she had already grown to such an extent. She had already completely taken the shape of a ROC.

It was not like how it was when he first saw it. It was even a little bald. Now, it was obviously much better looking.

"See, I told you I would definitely help you, I didn't lie!"

Ye chen said with a chuckle.

The three foxes walked over as if there was no one else around. The Fox King's expression seemed to be a little worse, but there was no other problem.

"Shall we go? Now that their curse has been lifted, we should go back. "

Although he didn't say it explicitly, he was still a little scared when he saw the Fox King's expression.

Ye chen attributed this strange feeling to this. The Fox King had never brought his own people out alone.

It was obvious that the immortal Lord had intimidated him greatly, which was why he was so worried.

"Alright, let's go then. We've already settled things here."

Ye chen turned around and called for the Nine-Tailed ROC to come over.

"You can have a few more words with your clansmen, and then we can leave together."

"No, no, let's go back first!"

Peng Fei laughed as he called out. He then squatted down and spread his wings, allowing them to get on his body. He then turned around and called out to his clansmen, before gradually flying up.

Now that the Black Fox King had helped ye chen with this, it was his turn to deal with this immortal Lord who could bring unknown dangers!

By the time Peng Fei brought them back, the sky was already bright. The sun had just risen from the other side of the mountain, and the dew rolled slightly on the leaves, sinking into the ground after a while.

The Fox King brought his subordinates back to their residence while Ye Chen followed Peng Fei to the cave they had settled in yesterday.

Lin Mo had also woken up and was sitting there tasting the fruit and dew that the female fox had brought over in the morning.

"How is it? Has the curse been lifted?"

"Yes, and it's much faster than I thought. Those foxes seem to specialize in this, so they're very fast."

Ye Chen said casually and sat down beside him. He picked up a fruit and ate it.

"That's good. "

He had thought that it would take a long time, but he did not expect it to be resolved so quickly.

They had no choice but to stay in the Oasis for the time being. After all, this was the only way to protect the black Foxes.

Moreover, Ye Chen had to wait until noon when the sun was at its peak to see if the formation's eye in this oasis could be broken.

"Later, when we have to look at that person in the eye, you can go with me. Maybe we can work together."

Ye Chen asked his friend Lin Mo as he ate.

"Of course, no problem. I'd like to see what this formation from the heavenly court looks like."

Lin Mo had always been a meticulous person, so he was still suspicious of this matter. He thought that it would be better to see for himself if there was anything.

After the two of them had eaten their fill, they stood up and walked out together. Although Ye Chen did not sleep at night, he was not too tired.

Peng Fei, on the other hand, seemed to have recovered from his excitement and was extremely tired.

Ye Chen did not let him out. Then, he and Lin Mo went to find the fox King.

After the Fox King had returned and taken a short rest, he heard that Ye Chen had come to look for him. He immediately perked up and stood up. He tidied up his tired appearance before walking out.

"Didn't you say that you've already found the witness? Then where was it? Take us there now, I'll see if I can handle it today. "

Ye Chen had always liked to end things immediately. The longer things were dragged on, the more troublesome it would be. It was better to make plans early.

When the Fox King heard that ye chen was going to help them break the formation, he immediately perked up and greeted ye chen with a smile. Then, he led them out of the cave.

"We've actually been looking for the core of this formation for a long time, but no matter what we did, we couldn't solve it. "

The Fox King sighed and said sadly.

If he could undo this formation, perhaps their race would suffer less damage. Unfortunately, he had no way of doing so.

"Then what's different about this formation core? Just like yesterday, didn't you take your subordinates to deal with their formation core? didn't you deal with it easily?"

Ye chen asked casually.

The Fox King might have made a comparison in his heart and then replied to him.

"That's not the same. The ROC clan's formation is our Black Fox clan's killing technique. This is all we can do. However, this trap was created by the heavenly court. We've tried many methods but to no avail."

"Alright, then I'd like to see how strange it is. No matter what, I've broken many formations, but I've never seen one that I can't handle."

Ye chen was looking forward to the Fox King's words. After all, it had been a long time since he had cracked a formation.

Soon, they gradually walked into the depths of the Oasis. This piece of land seemed to be completely unrelated to the peaceful years on the other side.

This place gave off the feeling of black gas. After two or three turns, they finally arrived at a place.

This place was relatively flat compared to the surrounding areas. There was a huge square stone in the middle, and it didn't look like an ordinary thing.

As expected, the Fox King brought them to the stone and said to ye chen,"

"This rock is the core of our trapping formation. To be honest, we've tried to move it many times, but we couldn't break it open. Sometimes, we were even counterattacked."

The Fox King said this because they had tried countless times and had been injured many times. In the end, only he and his men dared to approach this place.

As for the other clansmen, he simply forbade them from coming to this place.

Ye chen nodded after hearing his explanation. Then, he walked around the stone.

It was obvious that there were some signs of damage on the stone, so the Fox King and the others seemed to have exhausted their abilities.

The black gas wrapped around the stone and ye chen could not help but wonder if it really came from the heavenly court.

If that was the case, why would it be shrouded in black Qi instead of white light?

In short, there were many suspicious points in this place. Just looking at it, ye chen felt that there were many of them but he did not intend to delve into it at this time. He might as well use this time to break the formation first.

He roughly groped around and felt that it was not difficult to break the array. The reason why the Black Fox clan could not break it was most likely due to the limitations of their own abilities.

It could be said that the person who set up the array itself gave them a great threat, so even if this group of Black Foxes wanted to resist, they still felt like they were going to obey.

If it wasn't for the fact that he couldn't hold it in anymore, he would probably have lived like this for a long time. But now that he was here, everything would be rewritten.

### [Chapter 2684 Nine Origins Celestial Lord!](#)

"You guys wait at the side. I'll go up and see if Lin Mo wants to come with me."

"Fox King, you don't have to follow us. I'm sure you're already familiar with this stone. We'll just look at it ourselves. You can just wait there."

Ye chen was extremely familiar with the situation. After he finished speaking, he jumped onto the flat stone with Lin Mo. As soon as they stepped on it, they could feel the resistance of the black gas.

Ye chen even found this kind of straightforward resistance quite interesting.

"This place is indeed the eye of the eye. Moreover, the force on this stone is the strongest. I should need your help. Let's break this array together!"

Ye chen smiled and patted Lin Mo's shoulder. Then, he stood on the rock and began to find a place to exert himself.

Lin Mo did not say anything and only nodded. Then, he smoothly stood in front of ye chen.

The two of them were tall to begin with, and they stood there like two slender bamboos, pleasing to the eye at first glance.

One of them was dressed in white while the other was dressed in black. They looked like the two rings of Tai Chi.

The Fox King watched this scene from under a big tree. For some reason, he felt at ease. He also believed that ye chen would solve this.

They were complete strangers before they met, and even now, they were just driving each other on for benefits.

However, she had that irresistible intimacy.

For some inexplicable reason, the Fox King was no longer so afraid of the so-called immortal Lord.

He was willing to bet everything so that his people would no longer be controlled by others.

Meanwhile, ye chen and Lin Mo, who were standing on the rock, began their preparation time.

The first thing he had to do to solve this formation was to clear his mind and focus all his attention on it.

This was not difficult for the two of them, so they settled down very quickly.

The sun had risen to the center of the sky, so they were facing the bright red sun above their heads.

The warm aura dispelled a lot of the black gas around them.

In addition, ye chen and Lin Mo had used the spirit energy in their bodies to reduce the black energy on the stone on their feet.

Then, they both reached out a hand at the same time, pressed on an acupoint in their bodies, and quickly pushed it out.

A golden light suddenly appeared from the sun above their heads and connected to their fingers. A power that was even more shocking than yesterday had appeared!

This time, it didn't cause the leaves to shake. Instead, the temperature in the air began to drop.

The desert's temperature was so high that they felt like they were about to be roasted to death the moment they left the Oasis.

But now, it was as if he was in the desert where the sun was about to set, and he felt much more comfortable.

Their speed was much faster than the Fox King and the others. Soon, the Golden barrier that was hidden above the Oasis had appeared.

Although ye Chen's eyes were closed, he could clearly see everything.

So, they exerted their strength again, and their strength quickly twisted into a steel-like fried dough twist, and then fiercely hit the barrier.

The sound of something breaking could be heard!

The array was easily broken by the two of them without any unnecessary backlash, and the situation that happened to the Fox King and the others did not occur.

The Fox King, who was leaning against the tree, felt a very strong hot wind, and then it was suddenly knocked to the ground.

He didn't even realize that he had seen the broken barrier. When he came back to his senses, he was so surprised that his heart exploded.

All the living beings in the Oasis saw this.

It was as if the black Foxes had been reborn. They even began to dance and express their feelings with their heads on the ground.

"Not bad, it's done really well. It's much easier than I thought!"

Ye chen jumped down from the rock and stretched his back.

Lin Mo also smiled and nodded.

The rock that they had occupied earlier had already returned to being an ordinary rock.

And the land here seemed to have been reborn, just like the Foxes.

The black-colored weapon that was shrouding it seemed to have been burned by the intense sunlight in just a few seconds, and then it disappeared!

This green land was just an ordinary green land now. There was no formation to trap him, and there was no black gas that continued to shroud him!

However, their cheers didn't even last for a short while before the sky suddenly changed. The originally clear sky seemed to be shrouded in darkness.

The dark clouds appeared above their heads as if they were targeting the Oasis. The desert around them seemed to be empty.

When the Fox King saw this sudden change, it was of course very afraid.

Although he was the king of his race, he still felt afraid in the face of a threat that had a bad influence on them.

Therefore, he immediately ran to Ye Chen's side and used his eyes to ask for help.

Ye Chen gave him a reassuring look and patted his shoulder, explaining to him.

"Don't be too afraid. Leave this matter to me. I'd like to see what this immortal from the heavenly court looks like. Maybe we can even compare notes!"

Ye Chen placed his hands behind his back as if he was watching a show. He looked at the clouds in the sky and thought that it would be very comfortable if it rained now.

After all, the temperature in the desert wasn't that cool even in an oasis. It was really cool when it rained!

"Take your men and hide in the cave. Of course, if you want to stay here, you can also have a chat with that immortal master."

Ye Chen had wanted the black Foxes to go back together but he thought that this so-called immortal Lord should know the Fox fur, so he could connect.

The Fox King was obviously worried about this as well. At the same time, he didn't care much about his own life.

He still hoped that his people and subordinates could live well, instead of becoming puppets like him.

So, he firmly walked to his two men and settled them down.

"Immediately tell everyone to return to their own caves. No matter what happens outside, no one is allowed to come out. The food is already stored in the caves!"

"I've stored them all!"

The Fox King had already anticipated this day. After seeing ye chen for the past two days, this thought had become even more intense.

Therefore, he had all the Foxes store food and prepare to stay in the cave for a few days.

His two subordinates quickly received the order and immediately made arrangements. Everyone had prepared together and knew that this was a very important decision.

Ye chen did not say anything when he saw that the Fox King had stayed behind. He turned his gaze back to the sky.

The dark clouds were extremely dense, and very quickly, lightning flashed through the clouds. Thunder followed closely behind, and with a loud rumble, heavy rain poured down.

Lin Mo had found an umbrella from somewhere. He opened it and stood beside ye chen while the Fox King sneaked under the tree.

After all, it was more than enough for the two of them to stand under one umbrella, but it might not be the same for the others.

The rain came in a menacing manner and left very quickly. It didn't wet much of the area before it returned to calm.

Ye chen looked at the rain that was gradually stopping and felt a force of unknown origin slowly approaching.

He walked out from under the umbrella and looked up at the sky again. Even now, there were still dark clouds after the lightning and thunder, but it felt much better.

At this moment, a ray of light spread out from the middle of the dark clouds. Then, a figure appeared from the middle. He was dressed in white and green clothes, which were dotted with some green threads. He looked dignified and serious.

Just like that, ye chen met the man's gaze. He could tell that this was the high immortal that the Fox King had mentioned!

Ye chen still had some reservations about the authenticity of this immortal Lord.

After all, in his eyes, if he really was a member of the celestial heavens, why would he do such things?

It was a bit strange to deal with the ordinary demonic beasts that didn't have much damage and then trap them.

He had never believed in what others said unless he saw it with his own eyes, heard it with his own ears, and went head to head with it. Only then would he know if he should believe it or not.

Therefore, he still had a lot of doubts about this matter.

He stood on the slope and watched the immortal master fly closer and closer.

Of course, the Fox King, who was standing behind ye chen, saw it too. Therefore, he walked over to ye chen with heavy steps.

Then, he looked at the immortal Lord with them and whispered to ye chen.

"That's him. Other than the first time we went to the heavenly court, he was the one who led us to do the rest of the things."

Ye chen nodded at his words.

"Then let me meet this so-called immortal!"

As soon as he finished his sentence, the immortal master had already stopped above them.

He was standing on a cloud and looking down at them like a god.

"Who are you? Why are you here?"

Before ye chen and the others could speak, the immortal Lord asked first. His gaze swept past the two of them and stopped on the Fox King.

It was obvious that the higher-ups already knew that the formation had been broken. Otherwise, they wouldn't have come so quickly.

"Who are you? Shouldn't we introduce ourselves to each other since we don't know each other? Why are you so arrogant?"

Ye chen did not show any fear toward this so-called late Emperor standing in front of him. He spoke as if they were equal.

This was something the Black Fox King couldn't do on its own. After being found by the heavenly court, it immediately placed itself in the position of an ordinary person.

In this way, he would be easily controlled by others, and then he would be arranged by others to do things, without knowing whether the other party was real or fake, whether it was good or evil.

"I'm immortal Lord nine essence from the heavens. I'm here to investigate the reason why the Fox race was suddenly unsealed."

When the immortal Lord said this, he was very proud as if he looked down on ye chen and the other commoners.

When ye chen saw his performance, he was overjoyed.

It seemed that his guess was right. There was something wrong with this immortal master. It was very likely that he was a person from somewhere else in disguise!

Also, what the fox King said about the heavenly court and the Jade Emperor was probably a trap set up by someone.

It could be said that they were not clear-headed enough to not realize that they had been used for such a long time.

"If you have to put it this way, then I'll tell you the truth. I'm also from the heavenly court, and I don't know when this array was set up. It even restricts the freedom of these Black Foxes, and it's the same for other places. I've never heard of someone like you in the celestial heavens. "

Ye chen spoke eloquently, startling the Black Fox King.

He looked at the man in shock. Ye chen waved at him with one hand behind his back, indicating that he should not talk too much.

As ye chen said this, his eyes were fixed on this so-called immortal Lord Jiuyuan.

Sure enough, when he said that he was also sent by the heavenly court, the immortal master raised his eyebrows.

"How dare you, Wudi! I think you're just talking nonsense. There's no one like you in the heavenly court. Look at you! You're just a Rascal!"

Her tone and expression combined to show that she was angry from embarrassment. Ye chen smiled.

"You can eat whatever you want, but you can't say whatever you want. I was sent by the heavenly court, or else I wouldn't have been able to deal with this formation so easily. I should be suspicious of your identity."

As ye chen spoke, he pulled out the arrow from behind him. He stood there like a swordsman who was wandering the world. His back seemed to be shining.

"You're deluding the public with your lies. You're just talking nonsense. Give me your life. I can't let a demon like you succeed!"

As the immortal said this, he gave the Fox King a look, trying to wake up the Fox that had been under his control for a long time.

It was a pity that the Fox King was very uncertain now, and he had an inexplicable feeling that there was something wrong with this nine essence immortal Lord!

"What? you don't think that this Fox that you've controlled for almost a hundred years will continue to listen to you, do you? you're really cunning!"

Ye chen rebuked the immortal master angrily.

"I left your Fox race here for your own good. How can there be people who can't see right from wrong?"

Immortal master Jiuyuan was really thick-skinned. Ye chen had already said so, but he still insisted on his own opinion and resisted strongly.

The Fox King didn't want to listen anymore and didn't want to say anything more. He turned around and walked to the tree at the back as if all this had nothing to do with him and he didn't want to get involved in the fight.

#### [Chapter 2685 2690-Domineering Defeat!](#)

"Fine, you want me to prove it? How about you prove your real identity? do you really think that nobody knows what you've done over these years?"

Ye chen was now certain that this so-called immortal master Jiuyuan was up to no good, so even his words became very impolite.

At most, they would fight to the death, and judging from immortal Lord nine elements's appearance, he was obviously a bully.

Now, even ye chen was uncertain about this judgmental gaze.

"Fox King, what are you doing hiding behind? Now you're afraid!"

Seeing that he was ignoring ye chen, immortal Lord ninesoul was about to call the Fox King out.

He was really angry. It was obvious that the warning he made a few hundred years ago was not fully effective!

Otherwise, this group of foxes wouldn't be so disobedient. They even found some so-called external help from somewhere.

From the looks of it, he wanted to fight to the death with him!

"You've deceived our entire Fox race and even trapped us here for so long. Do you really think that we won't resist at all?"

The Fox King still felt guilty for the people whose spines had been hurt, so he had been suppressing his anger and hatred.

"You don't even want to listen to the words of the heavenly court. It seems that you're ready to give up your life. Forget it, a disobedient dog will never be cooked!"

Nine essence immortal Lord looked as if he had suffered a great grievance. He even looked remorseful and thought that he had suffered a loss.

Ye chen was not willing to watch the show from the side, so he stood in the middle without mercy.

"Alright, alright, cut the crap. Let me see your strength. Don't try to play tricks here, you won't be able to do anything later!"

Ye chen raised his hand with a smile and pointed the sword in his hand at immortal Jiuyuan's face.

They had been slightly shocked by his move, so they subconsciously retreated a step on the cloud, their faces filled with even more dissatisfaction.

"Do you need my help?"

Lin Mo glanced at ye chen and felt that he did not need to help. However, he still asked. After all, he had come to help.

"No need. I don't think he's a real immortal Lord now, and I think I can beat him back with a sword. You go to the back. Don't let me hurt you by accident."

Ye Chen's tone was extremely relaxed, as if all of this was a piece of cake for him.

It was obvious that immortal master ninesoul had not lived for so many years in vain. Therefore, when he heard ye Chen's words, a fire was lit.

Then, he angrily took out a cane from his back.

Seeing that the other party had also drawn his weapon, ye chen, who was already prepared, chuckled and rushed forward.

However, his eyes and smile suddenly became sharp when he jumped up.

Then, he thrust his sword forward, clean and neat.

The nine element immortal Lord did not expect ye chen to block it with his staff so quickly. At the same time, a burst of spirit energy erupted from his body and formed a barrier.

However, he did not expect that he would still be weak when faced with ye Chen's Silver sword light.

It managed to block the attack on his body, but the layer of barrier and his barrier were shattered.

The cane in his hand instantly suffered a huge impact, shaking him so much that the area between his thumb and forefinger hurt.

This time, he couldn't continue to pretend. After all, this opponent looked like he was really going to use force and didn't intend to let him leave alive.

Lin Mo cupped his fists and watched from behind, ignoring the Fox King at the side.

It could be said that ye Chen's side was getting braver as the battle progressed, while the so-called immortal Lord on the other side was holding his staff with no place to exert force.

He could only continue to resist, and his eyebrows were about to stand up in anger.

However, his physical strength was not enough. This was really a little ridiculous.

"I think you'd better not pretend. What's the use of pretending here? I know you're a fake the moment I see you!"

"You're saying that I'm the one who came from the heavenly court. I'm trying to expose you, you fake immortal who came from nowhere!"

As ye chen fought, he continued to ramble on and on. Looking at the situation, he had to use his words to suppress the other party.

Ye chen already had the upper hand in this aspect. He could not see how this so-called nine element immortal Lord was so powerful. In fact, his operation was somewhat ordinary!

In any case, ye Chen's confident look inexplicably made the other party unable to resist.

"Don't talk nonsense. I'm the one from the celestial heavens. What you said is all fake!"

"Fox King, you've even met the Jade Emperor, yet you're still supporting this so-called villain. You're too much!"

The man saw that he could not win against ye chen, so he once again gave the initiative to himself and began to criticize the Fox King.

Naturally, Lin Mo could tell that the so-called nine elements star sovereign had been harping on this matter.

He thought it was interesting, so he took the opportunity to get closer to the Fox King and asked him.

"He said that you guys really went to the heavenly court to meet the Jade Emperor. Is that true? I don't believe you. "

"He did bring me to the heavenly court and I met someone. He looked like the Jade Emperor. He even gave me a very serious task at that time. That's why I've been convinced for so many years."

The Fox King shook his head helplessly and said.

In the beginning, he truly wanted to work for the heavenly court with all his heart. However, he did not expect that he would bring irreversible danger to his people in the end.

"Are you sure that's the Jade Emperor? What did the place he took you to look like?"

Lin Mo had already heard that something was wrong from the side, but the Fox King did not realize it at all.

"If you want to ask me this, I don't have much memory left, but I still remember that the person I saw was wearing a Golden Dragon suit. He looked like an extremely noble person."

The Fox King had been reminiscing for such a long time and only managed to come up with this one sentence. Lin Mo was rendered speechless. This sounded too much like a scam!

So from the beginning to the end, you've only seen these two people from the so-called heavenly court, right?"

The Fox King nodded. Indeed, he had only seen these two people.

Because he was told at that time that his task was very difficult, so he could not be known by others, and he was told in a Hall.

From the beginning to the end, he was toying with him as if he was a fool.

"Although it's a little cruel to tell you the truth now, you've indeed been deceived, brother."

The Fox King had obviously realized this, so he bent down in grief and held his head in pain, then buried his head in his knees.

If he had really been deceived, then what he had done would be to the extent of being punished by the heavens.

He had never thought that he would one day encounter such a situation, and that he had been completely played for a fool.

In the past hundred years, almost everything he did was done with fear.

Even as the Fox King, he was still like this, not to mention his clansmen.

"Alright, alright, don't be too dejected. Isn't that your enemy? Just watch how I beat him up later. "

At this moment, Lin Mo was also inexplicably interested. He wanted to see what it was like to watch a show without minding the matter.

When the Fox King raised its head again, its eyes were already burning with rage.

In the end, he still had a certain Foundation of power. Otherwise, he wouldn't have been able to help this so-called person from the heavenly court do bad things for so many years to trap one beast herd after another.

Now that he had fallen into such a state, he would definitely not let this despicable person off easily.

This could almost be called a big enough enmity!

He would never let this so-called immortal Lord and the Jade Emperor of the heavenly court, whom he had only met once, off easily. He was too naive in the past, but he would not do so now.

On the other hand, ye Chen's side was gradually suppressing the other party until they could not lift their heads.

"I advise you to let go of me now. You don't really think you can beat me, do you? it's meaningless to waste our time here. You might as well let me catch you. Don't worry, I won't kill you before I get to the bottom of things."

Ye chen said with a smile. His words were like those of a devil, and the nine element immortal Lord was obviously frightened by him.

At the same time, the suppression of his strength also made him realize that he had been a little reckless this time.

He had thought that it was because he had not been strong enough to kill the chicken to warn the monkeys last time, so this group of foxes wanted to rebel.

Who knew that they would invite such a powerful external helper and now he was blocking in front of them!

Even he couldn't resist it. This was really too troublesome!

"Just you wait, you'll get your retribution. Besides, I was sent by the heavenly court, and I'll bring the heavenly soldiers and generals to deal with you. And you foxes are a bunch of disobedient dogs. Just you wait!"

Nine essence immortal Lord watched as he was gradually being beaten until he couldn't even find the North.

This time, he finally didn't dare to continue being arrogant, but his mouth was still very unforgiving.

He had already turned around and was about to escape, yet he was still cursing.

Ye chen stood in the distance and listened to his words. He did not even look at him.

Such a disgusting person could only use such a ridiculous method to make people feel the so-called deterrence.

But in reality, when she understood his ignorance, she was no longer afraid.

Could it be that immortal Lord nine essence thought that he would be so worried that he couldn't sleep because of this Jade Emperor he had found out from who knows where?

"Okay, then get out of here now. I'd like to see how many celestial soldiers and generals you can find, as well as your so-called Jade Emperor. Why don't you just come down with them? I'll see if they can defeat me!"

Ye chen looked at the figure who fled into the sky and almost laughed out loud like a drowning dog.

After immortal Lord nine essence left, the dark clouds in the sky had almost dispersed.

However, the rain it brought was pretty good.

Ye chen felt the sun dry his clothes as the dark clouds dispersed. The comfortable feeling was like he was in a sauna.

Moreover, oasis was unusually cool after the rain.

Every now and then, the Foxes hiding in the cave would run out to feel the gift from nature, which they didn't know if it was a blessing or a curse.

Ye chen walked down the hill and stood in front of the Fox King and Lin Mo.

"How is it? Wasn't I very handsome just now? I've shown off my skills and even made that immortal Lord run away with his tail between his legs. "

Ye chen was in a great mood. Even if he had to see the so-called Jade Emperor again soon, he did not care.

The Fox King, on the other hand, was a little unstable because of the words that the so-called nine essence immortal Lord had said before he left.

In the beginning, he still believed that this party was lying to him.

However, because of these few words, he felt that he had been too careless.

At this time, he would need ye chen and Lin Mo to give him a few words of advice.

"You're clearly a Fox King. Why are you so cautious in everything you do? look at you now. Do you have any aura of a leader?"

Ye chen went up and gave the Fox King a slap, saying resentfully, "you've failed to live up to my expectations."

Lin Mo did not expect that the man, who had been so aggressive about taking revenge, would suddenly become so unstable. Wasn't he too easily swayed?

"You still don't understand the situation? I don't know why he wants to control these authorizations, but he must have his reasons, and it's definitely not something good!"

Lin Mo had never liked to talk too much and liked to know when to stop. However, he found it a little difficult to control himself this time around when he was facing such a rash person!

The Fox King nodded stiffly after hearing the two's reprimanding words, feeling a little embarrassed.

"Alright, don't just stand there like an idiot. Hurry up and go see your clansmen!"

"They should be out by now, but they can't stay here for too long. When it's getting dark, get them to hide quickly."

"I don't know when he'll bring people here, but he said that even if they're not celestial soldiers or celestial generals, he'll definitely bring other subordinates."

"In any case, leave these matters to the three of us. Just protect your subordinates and clansmen. Alright, I'm a little tired now. I'll go rest first."

After ye chen finished speaking, he did not want to look at the useless Fox King anymore. He turned around and walked back to his place.

Of course, he also pulled Lin Mo along. The two of them walked back with their arms around each other's shoulders, as if they were brothers.

"How is it? Your brother's performance this time was not bad, right? next time, we'll definitely come together. "

"You've done a good job. I'd like to see what these celestial soldiers and celestial generals look like. "

Ye chen could not help but laugh at his serious expression.

#### [Chapter 2686 2691-Recuperate!](#)

"I have to have a good sleep today. Maybe I'll see the Jade Emperor tomorrow!"

Ye chen chuckled and joked. He was really curious about how she had managed to deceive the Fox King for so long!

The two of them returned to the cave with their arms around each other's shoulders, and saw Peng Fei waiting there.

Ye chen did not ask Peng Fei to go with him today. After all, he would not be of much help. It would be useless even if he went.

However, Peng Fei did not show any signs of unhappiness. After all, with ye Chen's help, he was now completely free. His clansmen were all free ROCs!

He had already come back to digest this news for a long time, but he was still very happy.

As soon as ye chen entered the cave, he went straight to his straw bed and lay down.

On the other side, the Fox King stood in place for a long time before he came back to his senses.

He didn't want to dig up this matter, but he couldn't ignore it.

Step by step, he left the place with heavy steps and walked towards his small palace.

When he walked to the door, two of his men came to greet him. They could also see the sadness in their King's eyes.

However, there were more important things to report and to listen to the king's arrangements.

"If we go up, do we still have to continue hiding for all our clansmen? You can even move freely?"

Today, when the dark cloud suddenly woke up, the Fox King settled his tribesmen down and hid them in the cave.

And now, the matter had not been completely resolved, and it was likely that there would be an even more serious battle.

Therefore, it was best for them to all hide and let him, the culprit who had made the most mistakes from beginning to end, bear all of this!

"Just like the original plan, let them all hide well. It should last for a few more days, so don't be in a hurry to come out."

"The same goes for you two. After you're done with the arrangements, hide inside together and don't come out. Just wait for my orders."

After the Fox King finished speaking, he let his two subordinates do the work.

"Your Majesty, aren't you going in with us? It's very dangerous outside. "

They knew all about the legends from before, and of course, they also knew how cruel the punishment from the late King and the Jade Emperor was.

Could she really leave this matter to ye chen and the others, who had never had any interactions with each other?

Moreover, the Fox King would definitely be punished if he stayed outside. Why not hide with them and let ye chen and the others deal with it?

After all, the two of them looked quite strong, and even if something happened to them, they were still outsiders.

However, the Fox King did not think so. He had always known that the Fox grieved when the rabbit died. If the lips died, the teeth would feel cold. Therefore, at this time, it was even more important to help ye chen and the others defeat the other party.

No matter how big the problem was, now that he had made his stand clear, there was no way to reverse it.

"I'll be fine. You two, remember to take care of your clansmen. I'll solve this problem with the two foreigners. It won't take long before we can leave this place forever. I've had enough of this oasis. "

The Fox King was not only ready to give up, but he also knew that if he won this time, it would prove that everything was fake.

What he had to do was to take his people and leave this oasis forever to live in a gentle forest.

Anyone could go wherever they wanted. Even if his race could never be United, he didn't want to be trapped here forever.

The two subordinates quickly went to do their work, and then the Fox King sat in his seat.

They had lived here for a long time, from the time they first slept in the open to now. They had searched for caves one by one and started to build their own homes.

This oasis was a place that they truly had feelings for.

However, it was also a place that controlled them. It was really hard to let go of the intertwined love and hate.

The Fox King had yet to tell his tribe about the cause and effect of the incident, because he felt that it was not the time yet.

But when all this was settled, he would explain his sin and the ins and outs of this matter clearly.

He wanted people to choose whether to leave or stay, or to punish him, and he would accept it.

At the same time, ye chen had already fallen asleep. Before he fell asleep, he had only taken a few bites of the fruit on the table.

After all, those foxes had already gone into hiding, and no one had come to deliver fruits or water from the stream for the past few days. They had to go out and get water themselves.

The fruits were sent a few days ago, but there was a lot of them, and they could barely last for a few days.

However, he was also tired of eating, so he might as well lie down and sleep.

Their cave had the best sleep that night. The other caves had foxes who were very nervous.

The Fox King woke up early the next morning and walked out of his cave toward ye chen and the others.

These few days, the other foxes in his tribe had already gone into hiding, so it was better for him to stay with these foreigners.

At the very least, she felt a strong sense of security when she was with ye chen and the others. Sometimes, strength was the absolute truth. It was unquestionable at all times.

Ye chen had already woken up. He slept early so he was very comfortable. Waking up early was also a form of morning exercise.

"Why did you come over so early? What's wrong? Are you afraid that the immortal Lord will attack you?"

Ye chen teased.

Of course, the Fox King could hear ye Chen's words but he could not care less at this time. He could not possibly continue to talk back!

Therefore, he just smiled and sat on the big rock.

Compared to the other foxes, this Fox King's evolution was more complete.

It seemed to be able to do these things like a human, and it could speak without any difficulty.

Because it was already dawn, the heat of the desert had already come from all directions to this small oasis. Even with the trees and water, it was still a little hot.

Ye chen wiped the sweat off his forehead and walked into the cave. The Fox King followed him in.

Lin Mo did not like warm places, so as long as he had nothing to do, he would always stay in the cave and would not go out easily.

When he saw ye chen and the Fox King enter, he only raised his eyes to look at them and closed them again without giving them any more attention.

Ye chen returned to his seat and had the Fox King sit opposite him.

"It just so happens that you're here to find me. Let's talk about what's going to happen next!"

"You don't have to be too afraid. The so-called heavenly soldiers and generals are probably just pretending. Also, if the Jade Emperor or the immortal Lord comes, let's fight. I want to try it too."

Ye chen did not hate the Fox King. Moreover, after knowing that he had been deceived, he felt that the Fox King was rather pitiful.

Besides, he was quite fond of helping others.

Moreover, he really wanted to make friends with the Black Fox clan. At that time, he would be able to make friends all over the world.

"By the way, do you still remember what the Jade Emperor looked like?"

Ye chen suddenly thought of this and asked him.

The Fox King, on the other hand, seemed to have been ignited. He clenched his fists and clenched his claws, opening and closing them. He looked extremely angry as he said to ye chen.

"I'll never forget what he looks like. I'll remember what he looks like for the rest of my life, and I won't let him have an easy time. "

In the Fox King's heart, there was a deep hatred. He wanted to get rid of all those people who were treated like fools by him, no matter who they were!

"If I really see him, I don't need you to do anything. I will fight him to the death. At worst, we will die together."

Ye chen was shocked when he saw him like this and quickly said.

"It's fine, it's fine. It's not that bad. "

"Even if he deserves to die, we have to protect ourselves. There's no need to die together."

Ye chen really wanted to say that he was not stupid. Based on the current situation, it could be said that this group of Black Foxes had entrusted the Fox King to him.

If he were to die while Lin Mo and the rest were unharmed, he would be the one in trouble.

After all, he thought that he could take a good rest in the butterfly cave after dealing with these things. However, if the Fox King was accidentally killed, wouldn't he be in trouble?

The group of foxes would definitely suspect them, so they had to ensure that the three of them could survive while dealing with the opponents.

"Anyway, we'll see how many people will come. Although he said he'll bring celestial soldiers and celestial generals, I don't think there will be many people."

As ye chen and the others were talking about this, they heard a loud rumble outside. It was like an earthquake.

The vibration quickly spread to their feet, and the two big rocks at the entrance of the cave were shaken up.

Of course, this sudden feeling shocked everyone. At this time, ye chen could not care about anything else. He hurriedly led them out.

After all, if the cave collapsed, they would be killed before they could even see the Jade Emperor!

"Hurry, hurry, hurry, go out and see what's going on. Don't stay in this cave!"

Ye chen shouted as he ran out first.

At this time, the weather outside had also changed. A strong wind blew in the desert, as if the sky was covered by yellow sand, and other scenes could no longer be seen.

From the looks of it, the so-called Jade Emperor was about to appear.

When all of them had run out, ye chen looked up and saw the white light in the middle.

A ray of white light seemed to have been cut down by a knife, splitting the yellow sand into two and opening a path from the middle.

The road stretched down from the sky, and the first person to appear was the so-called immortal Lord. His arrogant look made it seem like he had recuperated and had come back for revenge.

Usually, ye chen did not care about this immortal Lord at all because of this immortal Lord's strength. When he had fought with him the other day, he had more or less understood that this person was not just a little bit weaker than him.

Therefore, he didn't need to worry about it.

Then, behind them, there was a man in golden clothes. A bearded middle-aged man with a beautiful crown on his head walked out.

This person indeed looked like a Sage, but if one only looked at him, the immortal master was also quite real. In fact, he was also putting on an act to deceive others.

Ye chen watched on expressionlessly as if he was watching a farce. After all, the so-called Jade Emperor in front of him was just an ordinary person who seemed to be very powerful.

However, this was clearly not the end. In addition to these two people, six figures appeared behind them.

From the looks of it, he was wearing armor, so he should be playing the role of a heavenly soldier!

This segment of the entrance was finally over. Ye chen stood there and was about to curse helplessly. Fortunately, he stopped when he knew when to stop.

"Immortal Jiuyuan, is the man behind you the Jade Emperor? it's ridiculous. I'm really honored that the Jade Emperor would come to see me!"

Ye chen laughed. He did not look afraid at all and even treated it as a joke. This had obviously angered the people opposite him.

"How dare you speak to the Jade Emperor like that? I think you don't want to live anymore!"

Immortal master Jiuyuan did not expect ye chen to be so disrespectful and not give him any face at all. He really did not want face!

"Why are you still angry? I just said that I'm very happy that the Jade Emperor has come to see me. It seems that my status is very high. How can I wait for the Jade Emperor to come to see me?"

As ye chen spoke, he walked toward the air step by step. It looked like it was all air but its steps were like taking stairs.

"Who the hell are you? Why are you here to destroy the balance?"

The Jade Emperor had not expected ye chen to be so sharp-tongued, so he asked him angrily.

When ye chen saw that this person was addicted to acting, he wanted to play with him.

"I'll tell you guys today. I don't know why you want to control all these demon beasts and sprites, but you definitely have bad intentions!"

"You say you're trying to keep the balance, but is keeping them trapped inside and not letting them out your balance? It's simply laughable. You've corrected the natural selection of living creatures. "

Ye chen glared at the so-called Jade Emperor. To be honest, he was also very angry!

After passing through these forests, it was hard not to be touched by the people who were trapped and suffering in their land.

Such a ridiculous method could only be used to deceive the Fox King. Even a smart human would not believe it!

"How dare you speak so rudely! It seems that you will be punished this time!"

[Chapter 2687 2692-Struggling On Whilst At Death's Door!](#)

"Celestial soldiers, celestial generals, capture this stupid human!"

The so-called "Jade Emperor" was so angry that his face turned red. It seemed that he was really angry.

As soon as he finished speaking, the six celestial soldiers and celestial generals behind him picked up their weapons and flew toward ye chen on the auspicious cloud.

The guns in ye Chen's hands looked real but compared to the sword in ye Chen's hand, they were like clowns.

Ye chen narrowed his eyes and smiled.

When the celestial soldiers and celestial generals were only a few meters away from him, he quickly drew his sword from behind him and jumped up from the spot, swinging his sword at the celestial soldiers and celestial generals!

He had been waiting for this moment. Because of this distance, he could make full use of everything and then hurt the six celestial soldiers and celestial generals.

The power of the sword light was clearly very effective. The six celestial soldiers and celestial generals raised their hands to take their Spears and tried to block the attack.

Who knew that it would be broken in the middle!

All that was left was the piece of wood they were holding in their hands.

Now, he didn't even have his most important weapon. How could he fight?

The few of them looked at each other, clearly not expecting to encounter such a situation.

This was really a little different from what he had imagined. The fake Jade Emperor standing behind was so angry that he was gritting his teeth.

What's going on? why can't these people even handle such a small matter? I just asked them to arrest a person, but it was settled so easily!

They were really a bunch of trash who couldn't do anything!

These celestial soldiers and celestial generals were obviously unwilling to lose face like this. Thus, they seemed to be angry and formed a circle around ye chen. Then, they threw away the wooden sticks in their hands and raised their hands. A force was released from their hands.

Then, it charged at ye chen. Ye chen jumped up lightly and stepped on the sword.

With a very fast rotation, he blocked these forces, completely cutting them off in front of him.

The celestial soldiers and celestial generals were quickly pulled back by the force they had produced and then knocked into each other.

With a series of thuds, they all fell to the ground. They hit the ground so hard that they felt like they were about to die.

However, ye chen did not stop. He kept the sword again and quickly jumped toward the Jade Emperor.

He raised his hand and gathered a force in his palm. It looked like he was going to slap the other party down.

Of course, when he did this, he smiled faintly, because he wanted to see the Jade Emperor make a fool of himself.

The Jade Emperor was shocked. He quickly raised his sleeve and flicked it. A faint light appeared in front of ye chen and formed a weak barrier.

The Jade Emperor quickly retreated.

It was hard to believe that the father and son were the so-called Jade Emperor.

Moreover, ye chen did not think that the real Jade Emperor would appear here after being provoked a few times. How could there be such a free manager of the heavenly court?

This old man was in cahoots with the Jade Emperor, and it was obvious that after exchanging a few blows, he could figure out that the former was stronger.

Therefore, all of this must be part of their scheme.

However, since ye chen had appeared, they could not be allowed to continue like this. Of course, when it was time to expose them, they had to do so as soon as possible without leaving any room for retreat.

"Look at these celestial soldiers and generals. They're not enough. I feel that you've brought too few people. Otherwise, it's a waste of time to call some people to stay here with me."

"It won't be good if you get injured. After all, you're the Jade Emperor. If I beat you up, what will I say when I go back?"

Ye Chen's tone was very casual, but his words were targeted at her.

The Jade Emperor had probably been putting on an act in the past and enjoyed the feeling of being subdued by others. Now, he had suddenly encountered a tough iron block like ye chen.

He was really powerless to resist!

After all, even if he was not strong enough, he was not stupid. Just from the two exchanges, he deeply felt that ye chen was really dealing with him in moderation.

If this person really didn't use his full strength from the beginning to the end, then weren't they just playing with themselves after provoking him for so long?

On the other hand, ye Chen's thoughts were not as complicated as theirs. Ye chen only wanted to know why they were doing this. They pretended to be Immortals just to control the groups of mystical beasts. Were these mystical beasts a threat to them?

Just as ye chen was still thinking about this, the six heavenly soldiers and generals stood up again, wanting to attack him again.

However, he did not expect that this time, he would not need to get close to ye chen. Lin Mo, who had been standing behind him, was there.

Although he didn't say a word, he was very sensitive to the movements of the six celestial soldiers and celestial generals, so he jumped over without any hesitation.

Then, he stood behind ye chen and began to face them head-on. He had always liked to use his vortex against these heavenly soldiers and generals, even in such a place.

As a result, a huge vortex appeared in the void all of a sudden and swept up these celestial soldiers and celestial generals.

Before they could even react, they lost their center of gravity and their bodies were thrown out. Then, they began to circle in the air.

They couldn't get away from the vortex and could only keep calling for help, but the Jade Emperor didn't care at all.

Lin Mo had initially planned to knock them out and then throw them out. Who knew that the sound would become weaker and weaker in his vortex?

He had thought that they had fainted, but to his surprise, after the vortex gradually weakened, the celestial soldiers and celestial generals inside had disappeared!

He could guarantee that he definitely did not kill them, and he would not destroy their corpses to erase all traces, but why did they disappear?

Of course, ye chen was also shocked when he realized this. He quickly jumped over to Lin Mo and asked him.

"What's going on? Why did he suddenly disappear?"

"I don't know. I can't get rid of them. I just wanted to throw them out after they were confused. Who knew they were really gone!"

The two of them were obviously a little confused about this sudden situation and didn't know what was going on.

"Hahaha, as expected, you are still stupid!"

The sound of the Jade Emperor's laughter behind them immediately attracted ye chen and Lin Mo's attention. The two of them were clearly furious and glared at the man with serious expressions.

"Do you think you're that great just because you're using this kind of smokescreen?"

Ye Chen's angry expression disappeared. He turned around and even laughed. Then, without any hesitation, he drew the sword on his back and leaped forward.

The sword was pointed at the Jade Emperor.

Ye chen had always been a person who would take revenge. For those who had offended him or caused him trouble, he would naturally slap them back on the spot.

Immortal Lord nine element looked at ye Chen's situation. They had indeed encountered a tough opponent this time. Moreover, it was useless to just use this name to embarrass him.

He could only bite the bullet and continue running!

However, they did not expect ye chen to not let them escape unscathed this time.

The last time he escaped, it was to lure out the Jade Emperor. Now that he was lured out, he found out that it was just a fake.

Moreover, the imposter was so obvious, so naturally, he would not give them any other chances.

This time, Lin Mo did not watch from the side. He floated up in a few moments and stood beside ye chen as well. Then, he attacked the nine Origin immortal Lord.

The two of them fought one-on-one and were not at a disadvantage at all. Ye Chen's side was the sharper kind of confrontation while Lin Mo's side was using softness to overcome hardness. His softness was also the kind of softness that had thorns in it.

Seeing that there was no way for Yuan Xianjun to escape except for using a big move, he didn't dare to hesitate.

He began to recite the incantation while ye chen had already kicked the Jade Emperor away. Then, he ran back to the tree and wrapped a rope around his hand that he had prepared in advance. He wanted to tie the two of them up.

"I'll throw the Jade Emperor down after I tie him up. You keep an eye on him and don't let him escape, okay?"

When ye chen was on his way back, he spoke to the Fox King an. The Fox King nodded seriously.

The incantation that the immortal Lord of nine elements chanted was like a spell that would give people a headache, and it was very uncomfortable to hear.

Ye chen could not care less at this time. He first used the rope in his hand and rushed to the front of the fake Jade Emperor. He quickly pressed it down, then used the rope to tie it up. He turned around and kicked it down, then let the Fox King catch it.

The fake Jade Emperor really had not reacted yet. However, before ye chen used the real rope, he had first used his own spiritual energy to form a rope and tied him up on the spot. Therefore, he could not resist and was tied up.

Of course, immortal Jiuyuan did not expect ye chen to make such a move. However, he could not even protect himself now, so he could not care less. Almost all his attention was on Lin Mo, who was in front of him.

He didn't want to fight anymore. He only hoped to control these people and then quickly escape. At most, he would make all the things he had hidden all these years public.

However, he only wanted to live. If he stayed here, the Fox King would not let them off easily.

Lin Mo clearly did not expect the immortal master to do such a thing, so he was caught off guard and the voice entered his ears.

As a result, his body was somewhat uncontrollably frozen there, and he could no longer exert any strength. It made him feel a little anxious, but there was nothing he could do.

Ye chen, on the other hand, was more capable. He could tell that there was something wrong with the voice, so he had long used his spiritual energy to read his ears.

It completely isolated all the sounds from the outside world. This way, they would be able to avoid being affected by the incantations to the greatest extent.

Ye chen did not care about the funny things anymore. If he were to relax now, he would be giving the enemy a chance to escape.

Therefore, he drew his sword from his back and ran forward with all his might, even if the sounds of the other party were getting more and more intense.

It was almost all hitting his ears, trying to break through that layer of power and then control his thoughts.

The two forces gathered in the air. Ye chen could see that this Jiu was the original Jun who had used almost all his skills in order to escape.

He tried his best to deal with ye chen but unfortunately, this kind of Sound Attack could not compete with the powerful force at this time.

Although ye chen could not hear him, he could still continue to speak, so he tried to interrupt him.

"You don't really think that you can control me with such a trick, do you? look at what happened to the Jade Emperor. You'll end up like him in a while!"

After ye chen finished speaking, he suddenly exerted his strength. Without waiting for the other party to reply, he rushed in front of him and lifted his leg to kick away the other party's palms that were clasped together in front of his chest.

The noisy chanting stopped at that moment, and Lin Mo finally caught his breath and quickly floated down.

The sun in the sky was a little hot, so his body couldn't bear it. Now was a good time to take a break.

Meanwhile, ye chen took out the rope on his body. He had also thrown out a rope with spiritual energy and tied up celestial master nine elements, who had stopped casting the spell.

His entire body was tied up tightly and he could not struggle at all. Ye chen kicked him off the cloud and stood on it.

He wanted to experience how fun these clouds were.

In less than half a day, these two fake Immortals who were pretending to be gods had been captured. Ye chen still kept them alive and did not even attack them completely because he wanted to get some information from them.

Moreover, there was no enmity between them. It was just a heroic act. The Black Fox King could handle everything.

Even if they wanted to beat up these two fake Immortals, ye chen could not stop them. As long as they were alive and could talk, it would be fine.

Ye chen felt extremely comfortable as he floated down on the cloud. This thing was like a ball of soft cotton. It was very comfortable to stand here and he could also control it at will. He only needed to use a little bit of spiritual energy to fly it left and right.

The Fox King stood there and looked at the two people who had deceived him for so long. The anger in his heart was burning, but he was also glad that all the danger had been resolved.

"Can I ask the two of you to help me look after these two for now? I'll call out all of my clansmen, and then I'll imprison them."

"Of course, no problem. I also want to ask him a few questions."

Ye chen nodded in agreement.

### [Chapter 2688 Immortal Herb Antidote!](#)

"What are you doing this for? If you want to cause so much trouble, just trap them all in place. If you don't say anything, we'll just throw you two to those foxes, and we won't care if you live or die. "

Ye chen was not negotiating now. He was giving them a chance. If they did not grasp it, they would be beaten to death. They deserved it.

These two people really didn't say a word. After looking at each other, their faces were stern and their mouths were tightly shut. They looked as if they weren't afraid of being beaten up.

"It seems like you are prepared to die Here. You don't really think that you can defeat the Fox King without the two of us, do you? now, as long as I control these two ropes, you will never be able to break free."

Ye chen guessed that the two of them must have thought that he was tied to them and that the rope could be easily broken. That was why they were so persistent. However, in reality, this kind of spiritual energy binding rope had to be released by the owner. Otherwise, it would be useless.

"We were forced to do this!"

The Jade Emperor couldn't hold it in any longer and said fiercely. He seemed to have thought of something and his tone became harsh.

Upon hearing his words, immortal Lord nine essence rolled his eyes and glared at him.

Ye chen saw his expression and asked with a smile.

"What's wrong? Are you not willing to tell me?"

"If he doesn't want to tell me, then you can tell me. Since you've already ended up like this, why don't you tell me your story?"

Ye Chen's performance from the beginning to the end was the same. It was as if he was playing and did not get serious. He did not attack them with all his might but only temporarily controlled them.

This kind of attitude and performance easily gave others a friendly feeling, so the Jade Emperor subconsciously leaned his thoughts toward ye chen.

"What's there to hide? I'm going to say it today. If it weren't for old ancestor yellow spring, we wouldn't have come to this point!"

The name that the Jade Emperor said stunned ye chen. After all, he was very familiar with the name old ancestor netherworld. However, why had he appeared here?

"Who's this old ancestor yellow spring you mentioned? How could he have suppressed you two great Immortals, and used so many tricks just to deal with him?"

Ye chen pretended not to know the name and asked curiously.

Immortal Lord Jiuyuan heard that the fake Jade Emperor had basically said everything that could be said, so there was no need to hide it anymore.

After all, they did do so much to escape. Otherwise, who would be willing to endure it and resist it?

"Old ancestor yellow spring trapped us here and let those demonic beasts torture us. He didn't let us leave either. That's why I came up with this idea to make use of these stupid Black Foxes," said Jiang Chen.

When immortal Lord nine essence said that, he didn't feel ashamed at all and even looked very proud.

Ye chen was truly helpless but he suppressed the feeling of rejection in his heart and continued to ask.

Lin Mo stood at the side and listened without saying anything. After all, he did not know the name of the person who said it, and he did not care about these so-called disputes.

"You guys must have done something wrong. Otherwise, how could he control you so easily?"

Ye Chen's words hit the nail on the head of the two.

In an instant, their expressions changed, and the awkwardness on their faces could not be concealed at all.

When ye chen saw that the two of them did not say anything, he knew that they had tacitly agreed. Therefore, he laughed out loud and had a rough idea of what had happened.

However, he really didn't expect that these two seemingly stupid bad people who came from God knows where could be so clever when doing bad things. Otherwise, they wouldn't have come up with such harmful means.

Just as they were almost done talking, the Black Fox King had already called out all of its subordinates and told them that they would all be free.

Then, he brought his men and clansmen over and saw the immortal Lord and the Jade Emperor tied up.

The clansmen only knew that they really wanted to resist the people of the heavenly court, but they didn't expect that it was all fake. Furthermore, the two fake high Immortals were right in front of them and were tied up on the ground.

"How is it? How are you going to deal with these two?"

Ye Chen had already found out everything he had asked, so he did not need to put on an act to deceive the two bad guys.

They had done many evil things, so no matter what punishment they received at this time, they deserved it. Even if they died, it should be the same.

At that time, immortal Lord Nine Essence had extracted the spine of several foxes who had escaped, and some of them had already died in this oasis because their bodies could not bear it.

This was a huge problem in the hearts of the Fox race. Now, it was time to settle the accounts.

The Black Fox King did not respond to Ye Chen's words. Instead, it led its clansmen and subordinates to bend their knees and kneel in front of Ye Chen and the others, giving them a deep bow.

Then, the Fox King stood up and expressed his gratitude to Ye Chen and the others on behalf of all the foxes.

After that, the two fake high immortals were taken away. They did not care how they would deal with Ye Chen.

Anyway, he definitely wouldn't let go of the rope easily. It was not easy to catch the bad guys, how could he let them escape?

"Then you can all go back. We will stay in our cave. We will leave in two days. Anyway, your problems here have been solved. Oh, there is one more thing."

As Ye Chen spoke, he suddenly thought of something else, so he stopped the Fox King who was about to leave.

"Besides Peng Fei's race, you must have made copies of other races, right? Find a time to release all of them. It's a good thing for yourself. Otherwise, you'll get retribution for all the bad things you've done. Even if you didn't mean to help the evildoers, it's still bad!"

Ye Chen's words were very reasonable. The Fox King nodded seriously after hearing them. Then, he left Ye Chen with his subordinates and returned to the cave with Lin Mo. They were ready to rest and set off later the next day.

"Right now, the most troublesome thing in my heart is how to get rid of this poison in your body!"

The sun once again rose early in the morning. The scorching sun's warm light shone on the ground, and the heat brought by the desert was much stronger than the usual land.

Ye Chen and the others enjoyed the fruits that the foxes had sent them and some clean water to prepare to leave at night.

The Fox King had even come over and brought a huge surprise.

"We heard you say that this person also has poison on his body?"

After the Fox King entered, he did not say much before mentioning Lin Mo, who was meditating beside him.

Ye Chen nodded. There was no need to hide this matter. Anyway, the poison would not affect much.

"Our clan has an immortal herb that can cure hundreds of poisons. Maybe we can let this person try it."

As soon as the Black Fox King said this, Ye Chen's spirits were lifted. Lin Mo, who was sitting at the side, opened his eyes in an instant.

"What do you mean by 'something good'? Why didn't you say so earlier? You're only telling us now? We're already getting ready to leave!"

After Ye Chen finished speaking, he felt that he had been too anxious, so he suppressed the unhappiness in his heart and asked again.

"Where is this thing you're talking about? If we can really cure him, then we'll be friends in the future. If you need any help, just come to us."

The Fox King was also very happy to hear Ye Chen's words and replied.

"Because we've already done enough. This is also a way to repay the two of you. This immortal herb will only grow once every hundred years. A new one has just matured in the past few days. Let's go and get it now."

The two of them perked up and followed the Fox King out of the cave. They walked to the other side of the Oasis and followed the stream to the edge of the Oasis.

Indeed, he saw a tall grass standing there. This grass was obviously out of place with the surrounding grass. There was a blue flower on it that was almost invisible.

In this oasis, the Fox King and his tribesmen regarded this immortal herb as a good thing to protect their safety.

Now that everyone had regained their freedom, they no longer needed this kind of blessing. In that case, it was better to give this immortal herb to their benefactor and end their favor!

"Let's just go and get it directly. Is there a problem?"

After all, Ye Chen still felt that he should be more careful, so he asked this question before he walked over.

The Black Fox King nodded seriously and stretched out its arm. It stopped the two of them and rushed over.

After circling the immortal herb three times, it lowered its head very devoutly. Then, it used its two claws to dig up the soil below and pulled the immortal execution herb out of the soil.

Ye Chen and the other two watched quietly from the side. After all, this was probably some kind of ritual, and it was not convenient for them to participate.

After the Black Fox had cleaned up the soil, it picked up the immortal herb's root with its mouth and ran to Ye Chen and the others, placing the immortal herb in Ye Chen's hand.

The Pearl immortal grass was still very different after being taken out, but its luster had weakened a little. Perhaps it had left the land and lost its vitality. This should be the case.

"It seems that you have to eat it quickly and see if it has any effect. If it really does, it will be a big surprise!"

Ye chen brought Lin Mo to a nearby stream and washed the immortal herb with clean water. Since they were downstream, it would not affect them. He then placed the immortal herb on a leaf and handed it to Lin Mo.

"Here, try it."

Lin Mo looked at the results for a few seconds before stuffing it into his mouth. He chewed a few times before swallowing.

After the thing entered his stomach, he felt as if his body was emitting heat from the inside out.

It felt like it was going to envelop his entire body, but after a short while, it became a cold feeling.

His vision turned black, and he lost consciousness. Everything that happened after that felt like a dream, and it kept entangling with his body, as if it was trying to pull his soul out of his body.

From the outside, ye chen and the others could see that Li Mo, who had been hiding behind the immortal herb, suddenly twitched and froze for a few moments. Then, she fainted and fell to the ground.

Ye chen quickly went up to check but the man had already fallen unconscious.

There was no other way. He could only bring her back and observe her in the cave.

However, before ye chen helped him up, he took his pulse and felt the two forces colliding in his body. He had a rough guess in his heart.

This thing should be useful, but it would need a certain buffer period. Now, Lin Mo could only struggle to redeem himself.

Of course, the Black Fox King was also shocked. It took the initiative to take on the responsibility of sending Lin Mo back to the cave and brought them into the cave.

Finally, he placed the unconscious person on the straw bed. He was a little tired after walking around the area, so he sat down and drank some water.

His eyes, however, looked at the cold person on the bed. Even when he was unconscious, he could tell how much she was struggling.

His entire body was swaying left and right, and his fists were sometimes clenched and sometimes released.

Ye chen did not know what to do at this time, so he could only wait for time to pass.

The person lying there started twitching, then quivered, and then completely relaxed, as if he had fallen asleep.

At first, ye chen was still shocked. He went over to check his heartbeat and breathing before sitting down at the side with a peace of mind. The unconscious person on the bed slowly woke up.

"How is it? Do you feel better now? Have a sip of water first!"

Ye chen passed him the warm water he had prepared and let him drink it slowly.

By then, Lin Mo had already regained his senses. He felt that many of his acupuncture points had been cleared, and his entire body felt comfortable and relaxed at times. In short, the feeling was not bad, but he did not know what the effects were.

"How long have I been asleep?"

"We went out when it was dark just now. It's already early in the morning. Let's sleep for a while more. Let's try out the immortal herb tomorrow morning!"

After ye chen finished speaking, he lay down first. It was really troublesome to take care of a patient. Pengfei could not help much and could only guard the entrance of the cave.

Of course, the two of them didn't talk anymore and slowly fell asleep. When they woke up again, it was already dawn.

"Let's go out and take a look. If you still feel uncomfortable, we can only find another way. It'll be great if you're fine!"

Ye chen and Lin Mo walked out of the cave together and stood in a place where the sun was shining. There were no trees blocking the way.

"Is it effective?"

[Chapter 2689 2694-Inn!](#)

Lin Mo did not answer immediately after hearing ye Chen's question. He stood there and took two deep breaths before slowly opening his mouth.

"It feels like every bone in my body has been wiped clean. It's really effective!"

The sun shone directly on his body. It had been a long time since he felt such warmth. The curse was like a customized cage for him.

The poison spread throughout his body, causing him to be forever cooped up in the dark of the night. It was impossible for him to live well under the light during the day.

But now, this immortal herb had fulfilled his wish to live.

He had never felt like this before. He wanted to continue living well and did not want to be manipulated by fate. At least, he felt that the excessive mistakes he had made in the past had been punished.

Back then, after his entire family was exterminated, he killed all the cold and hateful people in the entire city.

To be honest, there was no way to correct who was right or wrong, and his mistakes should have long been forgotten.

Being able to live under the sun again made him feel extremely comfortable. He stood there and looked up at the sun above his head. Even though it was glaring, he couldn't look away.

"Not bad, not bad. Now that your curse and this poison have been removed, we're all free men!"

Ye Chen said happily. At the same time, he did not want to bind these two companions to him.

Of course, before leaving this place, Peng Fei would definitely help them leave, but he wouldn't force anyone to follow him.

When he returned home and saw his daughter and wife, he would just live a good life. He did not want to be homeless and miserable for the rest of his life. He did not want to be in such an environment where no one was willing to go and there was no end to it.

Now that the other problems had been solved, he was ready to leave. After all, he couldn't stay in this oasis forever.

Moreover, now that his poison had been detoxified, they could leave during the day as usual. It was more convenient this way, so they did not stay for long. When the desert was not so hot in the afternoon, Ye Chen and the others bade farewell to the Black Fox King and the others.

"If you need any help, you can come to this oasis to find me."

The Black Fox King said seriously before Ye Chen left.

"I see that many of your clansmen have already left. Do you really want to stay here?"

"Yes, I've decided to stay here. My clansmen and subordinates, whoever wants to stay can stay here. Or if they encounter any problems or dangers in the future, they can come to me for help. I'll be here forever."

After the Black Fox King finished speaking, Ye Chen understood what he meant and nodded. Before he left, he took some water and fruits. Then, he sat on Peng Fei and waved his hand. Peng Fei took off.

It was almost evening, and the temperature of the desert was not as high as before. Peng Fei flapped his wings and carried his master and Lin Mo at a low altitude. They kept flying forward. According to the direction given by the Black Fox King, they would be able to see the edge of the desert as soon as possible from this direction.

After flying for almost an entire night, Peng Fei's physical fitness was still relatively strong. Moreover, Ye Chen would occasionally send some spirit energy into his body. Therefore, he continued to fly forward without stopping, without a single rest in between.

Just as the sky began to brighten, Peng Fei's eyes widened because he saw a few houses in front of him.

Moreover, the land in front of them was no longer as golden as the desert, which did not give people a way out.

Instead, it was a very natural color of earth, which made them feel surprised.

"We've finally left this desert. It looks like we've escaped!"

Ye chen said with a chuckle.

As Peng Fei saw hope, he even sped up his flight. Soon, they stopped on the ground at the edge of the courtyard. Then, ye chen and the others jumped down.

Although the courtyard looked a little run-down, it was probably an Inn. Ye chen walked over with Lin Mo while Peng Fei stood guard outside.

After entering the courtyard, I took a quick look around. There was nothing much to see inside, and it could almost be called simple and crude. I pushed open the door and walked into the inn with large strides. The lady boss was standing at the front desk opposite the door.

"My Inn can still welcome guests these days. It's better to stay here!"

The lady boss was not surprised to see a guest like ye chen who came from nowhere, so she asked casually.

"Let's stay here for the night. Is there any food to be made? How much do you want?"

Ye chen asked the lady boss as he walked over with Lin Mo.

Now that they had left the secret realm and returned to their normal lives, Lin Mo was no longer like before, floating in the air and not even bothering to walk. He could now walk freely like a normal person.

After hearing the lady boss's offer, ye chen was not too surprised. After all, this was a remote area. If there was food to eat, it was natural that he would extort more.

He took out a gold bar that he had picked up in the House of Gold and slapped it on the table.

The lady boss's eyes brightened. She quickly pulled it over and put it in front of her eyes to take a look. After confirming that it was real, her expression and attitude became much better.

After that, ye chen and the others were brought upstairs and settled down in the shop.

As he lay comfortably on this proper bed, ye chen could not help but sigh. These days were really getting fewer and fewer with each passing day!

Now that he had left that dark place, his first thought was to find his daughter and wife.

He was already exhausted from running around outside all day. He just wanted to live a happy and healthy life, not stay here.

After taking a short nap on his bed, he heard the sound of someone stepping on the stairs. He sat up and walked to the door to open it.

This time, he saw that it was the waiter who served the dishes. There were only two stir-fried side dishes with a little bit of meat in the middle and two big white mantou.

After sitting there and eating a delicious meal, ye chen finally felt at ease.

There were basically no opportunities to eat in the mystic realm. He only had a little bit of roasted meat at the Black Fox's place. That was considered a treat. He might as well have a good fried dish here!

"Waiter, bring me a hot pot of water!"

Ye chen called out to the waiter who had just left the room. After hearing a response, he continued to eat.

After he had his fill and drank a pot of warm water, he went downstairs.

No matter what, he couldn't stay in this Inn for too long. The most important thing was to leave this place and return to the Central Plains.

His usual longing for her might have been suppressed by those things, but it didn't seem particularly strong. Now that he had left the desert, he felt that his feelings had become very clear. He really wanted to go home now.

"Lady boss, do you know the fastest way back to the plain?"

"You've asked the right person. All these years, there have been many people who passed by my place and went back. I was the one who showed them the way."

The lady boss then told him that they would pass through a forest in the middle of the road. Although there was a large controlled monster in the forest, as long as they went around it, they would be fine.

After going around the forest, they would see a small town after walking for a dozen miles. They could rest there for a day or two before continuing.

After crossing three mountains, they were almost in the plains. They only needed to walk for two more days before they would see the big city.

When you go in, you can ask where exactly is the place you want to go.

The lady boss had obviously told a lot of people about it. Sister suo was very smooth when she explained it to him. She even drew him on a piece of paper with a brush.

Of course, her attitude was so good because of the piece of gold he had given her.

All these years, the people who passed by the inn were more or less the kind of people who wanted to go to the desert to find treasure. However, there were almost no rich people who came out of the inn and went in. This time, ye chen had given a few people the road fee to come!

After he was almost done with his inquiries, ye chen went upstairs to pack up his things. He was ready to sleep for the night and leave early the next morning.

Peng Fei was thrown some fodder outside but Peng Fei was a bit picky and only ate the fruits he had taken out earlier. The next morning, ye chen sat on Peng Fei's body with Lin Mo and flew back into the sky.

Ye chen was quite curious about the forest monster that the boss had mentioned.

However, he didn't want to waste his time dealing with the trouble in the forest. As long as it didn't hurt the innocent, he didn't need to care. Sometimes, survival was like this. There was no need to be too far-fetched.

The ROC's wings flew faster and faster. Soon, ye chen could see the forest that he had taken according to the route.

The forest was shrouded in a very gloomy feeling. It was almost obvious that there was something wrong inside.

However, ye Chen's original intention was that as long as the other party did not take the initiative to find trouble with him, he would not deal with them.

However, he didn't expect that while he didn't take the initiative to provoke the other party, the other party was different. He saw a huge black shadow suddenly rush out of the forest and charge towards them in the sky.

Fortunately, Peng Fei reacted in time and dodged to the left. However, ye chen and Lin Mo were only slightly affected.

Ye chen looked down and found that it was a huge Scorpion. Compared to the other mystical beasts he had seen before, this one was not very strong.

However, he was quite ambitious. He even wanted to try it when he was flying in the sky. In that case, he couldn't be blamed for meddling in his business.

"Let's go, Pengfei. Let's go down and take a look. I haven't fought with such a big thing in a long time. Let's go down and fight!"

When ye chen said this, he could feel a bloodthirsty look on his face, so it was obvious that his fighting power had been provoked.

Of course Peng Fei would listen to his master. After all, he knew how powerful his master was. And now this big scorpion actually wanted to attack him. Since that was the case, he would let his master settle it!

And so, Peng Fei immediately changed directions, and then landed on a stable spot in the forest. As expected, the Scorpion immediately sensed it.

The huge Scorpion waved his two eggplants. From the way he looked, one could tell that they were poisonous.

However, ye chen did not care about him at all. He did not even let Lin Mo and Peng Fei come forward. He drew his sword from his back and rushed over.

When the Scorpion swung its pincers, it even cut off many branches of the trees in the middle.

Those huge eyes looked at ye chen as if they had already spotted their prey.

From the looks of it, it probably used to be like this!

However, he did not expect to run into a tough one this time. He had run into someone like ye chen, so he could forget about leaving!

As ye chen Ran forward, he turned the hilt of the sword to the back, a very straightforward smile on his face.

Just like that, when the two of them met, the Scorpion raised its pincers. Unfortunately, it did not expect ye chen to cut its pincers in half the moment he saw it!

Scorpion in the reception office obviously did not expect the immense pain, and his entire body went numb.

What was even more intense was his great anger. He raised his other pincers ruthlessly and was determined to stab ye Chen's stomach. Only by breaking through it would he be able to vent the hatred in his heart!

"Don't blame me for not warning you. If you continue to provoke me at this time, you can only die Here!"

It was obvious that the Scorpion did not understand what ye chen was saying, so its attack was extremely fierce.

However, his countless attacks were all useless. They were all interrupted because ye Chen's sword had directly stabbed into the soft part of his head and burst it!

To be honest, ye chen still had a shadow in his heart. After all, the smell was really too unpleasant.

So, he immediately pulled out his sword and listened to the Scorpion's sudden landing. He even wiped his sword on the tree next to him in disgust.

"Why did you provoke us? Look at you, you were a tyrant in this forest, but now you can only go to hell!"

Although ye chen said this, the expression on his face was still a smile. After he had wiped the sword clean, he put it away and flew back to Peng Fei's body.

"Isn't it a good idea to be a good person halfway? in the future, people who pass by here won't have to bother the big scorpion. It's troublesome to go around this forest. Let's just go through the forest!"

Ye chen said with a smile.

#### [Chapter 2690 2738-Chance Encounter With The Patriarch!](#)

"Look at the small town in front of us. That should be the place we're going!"

When ye chen saw this, he was so happy that he immediately stood up on Peng Fei's back.

In truth, even though it wasn't a big place, it was still filled with people. No matter what, he was happy.

After all, staying in the forest really made him feel like a Savage.

Tengfei felt both anticipation and fear. After all, all of this was very unknown to him. From the time he was born to the time he left the forest, he had never seen any novel things.

Lin Mo was the same. In his eyes, all of this made him very curious.

The scenes that he had seen when he was young, scene after scene, had been constantly flashing in his eyes over the years, but he had never felt so excited to see it in real life.

The three of them soon arrived at the city gate. After Peng Fei put them down, ye chen asked him to shrink his body to the smallest possible size.

This way, it could be taken in as a pet bird.

After all, the two of them were considered normal people, and Peng Fei was an extremely large bird. They couldn't just leave him outside the city, right?

Even though Peng Fei would feel a little uncomfortable if he shrunk his body, he could indeed move freely like that.

Therefore, he did not hesitate and quickly became smaller.

Then, ye chen led the two of them toward the city gate. Just as they reached the gate, they saw two soldiers standing guard outside.

It was obvious that although these were two soldiers, their town should not be particularly rich, and it looked very idle.

"Wait, wait, don't leave yet. Where are you going from?"

The soldier standing on the left walked over with big steps and stopped them.

"We just came back from the desert and passed by here to stay for a few days. We should be able to enter, right?"

"Sir, you can see that there's a lack of food and water outside. We really can't stay here, so we wanted to come in to replenish our supplies. How about it? can we go over?"

Ye chen had a way with words, so after every two sentences, the two guards let them in.

This small town should be a County, and the highest official in it was probably the county Magistrate.

However, there was no need to know all this. The most important thing was that they had entered and they couldn't wait to go to the market to take a look.

Ye chen rummaged through his luggage as he walked. There was a small cloth bag in the inner layer of his luggage. It was filled with some gold and silver pieces. It was just the right time to use them to buy things.

It could be said that he had foresight, otherwise, he really wouldn't have any thoughts about gold and silver.

Lin Mo was obviously surprised that ye chen had taken out the money. After all, they had traveled together all the way here and had not seen ye chen store any money. He had actually left a backup plan?

"Where did you get this money from? Why didn't you tell me earlier? if you had told me earlier, I would've decorated The Golden House as well. "

Ever since Lin Mo had left, he had become much more cheerful and talkative.

"I've lost some weight on the way, but I didn't expect it to be useful here. Don't you think I have some foresight? let's go and see what we can buy now!"

Ye chen said smugly. Lin Mo also smiled. Although he did not have any, as long as ye chen was certain, he would help him with anything he wanted.

The three of them walked a few dozen meters before they arrived at the small market in the town. It was a very suitable time.

Therefore, when he came over, there were many people selling things around him. There were vendors with small stalls on both sides.

It looked very interesting, and the things on display were also very gaudy.

"Let's go and have a look. Maybe we can buy some good food and drinks on the way. It's been a long time since I've eaten something that makes me happy!"

Ye chen would definitely be the first to take the lead. After all, of the three people present, the remaining two were actually curious about other things. Only ye chen was bent on buying some good food to satisfy his craving.

A small vendor had just walked over and was selling large meat buns. The steamer had just been cooked. When the first lid was opened, the aroma of the buns immediately overflowed. Other than ye chen, who was standing at the side, Peng Fei was also happy and almost jumped up.

"Seeing how anxious you are, I can tell that we are fated."

"Boss, how much is it for three big meat buns?"

After ye chen finished asking, the shopkeeper quickly told him the price. He took out a small ingot of silver and gave it to the shopkeeper. He even found a large string of copper coins.

He weighed the copper coin in his hand and realized that it was really not worth much. He had bought Three Buns and still had so much money left.

The three of them were wrapped in paper, each holding a bun, and continued walking forward.

"This meat stuffed bun is really good. I feel like I haven't eaten it in a long time."

Ye chen said with a chuckle after taking a mouthful and exhaling a breath of cold air.

It had really been a long time since they had felt so relaxed. There were many people on the road, but no one was curious about the two people and the bird that came out of nowhere.

It was as if they were supposed to be here, and it was a very comfortable feeling.

They went forward to buy some food, and the rest of the things they passed by just looked at. After all, there was no use in buying them. They were all just little tricks.

Of course, ye chen had also spent some copper coins to buy himself a new cloth bag. It looked brand new.

After a while, they were almost at the edge of the store. They looked up and saw a store that sold clothes.

"Look at our Dirty Faces and let's go. I'll buy you and me a new set of clothes. Forget about you, what clothes are you wearing? don't burst me when you grow bigger!"

Ye chen said jokingly. Then, he led them in.

"Boss, you're going to customize a set of clothes for the two of us. Or rather, is there anything suitable for us to wear? I want to buy it now."

As ye chen spoke, he picked up a small hat hanging on the shelf next to him. It looked like it was for children. Then, he pressed it on Peng Fei's head. It was surprisingly suitable.

"I want this hat too!"

After the three of them had spent their money and put on their new clothes, they looked extremely refreshed.

"The new clothes are really different. It's so comfortable!"

Their next destination was the inn in the small town. They would find a slightly better Inn to rest for the night and prepare to set off the next day.

This time, it was much cheaper to stay in the inn than the last time. After all, ye chen had not spent money for a long time last time, so he gave them a large gold ingot in one go.

The lady owner of the inn obviously did not intend to look for him. Moreover, she could tell that ye chen did not care at all, so she did not say anything.

This time, two people and one bird were staying in two rooms. They even spent a little bit of silver to settle down.

Although they were staying in two rooms, they ate together. The two of them sat at the table downstairs and ordered a few dishes. Peng Fei was sitting at the side, his legs tucked in like a big goose.

"What are your plans next?"

Ye chen asked casually as he picked up a peanut in vinegar sauce that had just been served and threw it into his mouth.

"I haven't decided yet, but I've always wanted to go to the city I was in."

Lin Mo clearly had strong memories of that place, so he had been telling himself that he had to go and take a look.

"How about you? Do you have any other thoughts? Or what are you going to do?"

"I don't have many thoughts now. The most important thing is to find my daughter and wife as soon as possible. I haven't seen them for a long time. I'm afraid that my daughter won't be able to recognize me if I don't see them again!"

He shook his head and said helplessly.

Because of some uncontrollable factors, he had not seen his family for a long time. Every time he thought about it, he would feel a heart-wrenching pain.

"Fine, let's have a good drink and have a good sleep tonight. I'll leave when I wake up tomorrow morning!"

Ye chen said loudly when he was in a bad mood.

Then, he asked the waiter to serve two more jugs of wine. The two of them ate and drank, and even fed Peng Fei at the side. Just like that, they finished all three jugs of wine.

Ye chen had almost forgotten how he had returned to his room. He only remembered that he had almost fallen down the stairs while swaying. When he woke up again, it was already morning. He had no dreams and was very comfortable.

After they got up and had a meal downstairs, they left the inn together. Their next stop was to go to a bigger city, where they would be separated.

Of course, ye chen and Peng Fei would not be separated. After all, Peng Fei had completely treated ye chen as his master. Since he had left that dark land, all the sunlight would come for his master in the future.

Once they were out of the city, they sat on Peng Fei's back and flew towards the three mountains. As long as they crossed the three mountains, they would be able to see the next place they wanted to go.

In short, there was no trouble on the way, and the lady owner of the inn didn't say anything.

The flying wings kept flapping, and they flew very steadily. After a few hours, they had already flown past several mountains. In the distance, they really saw a forest. After this, they would reach the city.

But what they didn't expect was that in this forest, there was actually a hidden mystery.

As soon as he flew over, he heard the sound of fighting below. It was not a soft sound, as if someone was fighting above his head. Ye chen was not someone who liked to join in the fun.

However, when he looked down, he found that the one fighting was none other than old ancestor yellow spring. How could they meet here?

"Wait a minute, wait a minute Pengfei, stop for a moment and fly down. Let me see if I've seen the wrong person."

He still couldn't believe it, but when Peng Fei really flew down, he confirmed that the person who paid the deposit was indeed old ancestor yellow spring. How did he end up in such a state?

There were about five or six people standing in front of him, all of them looking like assassins. They were all dressed in black, and even their faces could not be seen clearly, only their eyes could be seen.

"What happened? How did he end up like this? You can't even beat a few idiots?"

Ye chen jumped down from Peng Fei's back and stepped on a branch to stand steadily behind old ancestor yellow spring.

Old ancestor yellow spring knew who it was as soon as he heard the mocking tone. He didn't even turn his head to look at him.

"I've only just started fighting. Do you think these small fries can really stop me?"

Old ancestor yellow spring said unhappily. At the same time, he glared at the few people with an unconcealable killing intent.

This group of people obviously did not expect ye chen to appear in the middle of the mission. However, their mission this time was to get rid of old ancestor yellow spring. Therefore, even if there was one more person, they could only get rid of them together!

"They probably don't know why I'm called that. I'll show you how I die."

Old ancestor yellow spring's eyes turned fierce.

Ye chen stood behind them, showing no intention of helping. He also glanced at Peng Fei and Lin Mo, who had also stopped not far away. However, they maintained a safe distance.

Then, they saw the six men in Black rush up and form a circle. They then drew their swords from their backs and attacked old ancestor yellow spring.

However, he didn't expect that before he could even get close to them, the two people in the front were directly knocked down by a wave of his sleeve, and they were hit right in the chest.

The remaining people still didn't seem to be afraid of death. It seemed that the money had been paid and they didn't plan to go back alive.

However, they couldn't defeat this old ancestor yellow spring easily!

What was the person behind this thinking?

They only sent a few stupid black-shirted men here. Weren't they looking for trouble and deliberately sending themselves to their deaths?

"A bunch of overconfident things."

After old ancestor yellow spring finished his words, the remaining four fell to the ground with a loud bang. They were also injured in the chest.

They didn't have a way to get old ancestor yellow spring up immediately because he was the wound they wanted. Although they thought they were going to kill him with their eyes, they couldn't exert any strength physically.

"In my opinion, if you run now, you can still keep your lives. If you don't run, you'll be stuck in this forest forever. That's too miserable!"

Ye chen acted as if it was none of his business and even cupped his fists to watch the show.

Unfortunately, in the eyes of the Men in Black, his kind words seemed to be colliding with them.

As a result, they surrounded him again, and a few of them even used hidden weapons.

Ye chen was about to warn him when he realized that the man's hidden weapon had disappeared into the air. It then reappeared and stabbed at the man who had attacked!
