### [Chapter 2691 2696-Ins And Outs!](#)

,m Old ancestor yellow spring's moves were simply unnoticeable to the naked eye. Before anyone could react, he had been completely shaken off.

Therefore, it was very obvious that the six so-called assassin hackers who had rushed over had become fish on the anvil without any ability to resist.

Old ancestor yellow spring didn't intend to waste any more time with these so-called assassins after he had dealt with the two people who had thrown the hidden weapons.

So he raised his hand and very gently waved from left to right, smacking the person on the left.

Before it was even two meters away from his body, it was already thrown out fiercely, and the other side was the same.

Ye chen, who was standing behind them, was overjoyed. It was as if he had just watched a very cool battle, and it was extremely satisfying.

"Well, you're really amazing. You didn't give your opponent a chance at all. You're really impressive!"

The sound of ye Chen's applause was very clear in the quiet forest.

Old ancestor yellow spring turned his head and patted his sleeves. He hadn't touched anyone, but he looked as if he had gotten dust on his sleeves.

Old ancestor yellow spring turned around and walked toward ye chen. At the same time, he spoke to ye chen in a very familiar manner.

On the other hand, Lin Mo and Peng Fei, who were at the back, suddenly seemed out of place. After all, they didn't know this expert who had appeared out of nowhere.

"Are you going back to the city now? Then come with us, I have a Mount that can fly back directly, it's much easier than you going back by yourself. "

Ye chen said generously. After all, he had Peng Fei with him.

The Nine-Tailed ROC was extremely rare in their territory. Almost no one had seen it before, so they wanted to show it off in front of old ancestor yellow spring.

Obviously, old ancestor yellow spring was indeed attracted by it. He walked over with a smile.

"Where did you go? Why did he bring it back after coming back? It's such a good Mount. "

Ye chen could hear the envy in his voice and was even happier.

"Let's go, let's go. I'll take you for a spin now. I have something to ask you too."

After ye chen finished speaking, he walked over with old ancestor netherworld. Then, he flew up with Lin Mo and the Nine-Tailed ROC toward the city in front of the forest.

He briefly introduced Lin Mo and the Nine-Tailed ROC to them along the way, but he did not reveal anything about their background or identity.

However, he remembered that the Black Fox King had said that the two people were controlled by old ancestor yellow spring, so he decided to ask them now.

"Yes, we met two ruffians in the desert. I heard that they were controlled by you. Who knew that they would play tricks on themselves? but I've already dealt with them."

Ye chen said casually, but his eyes were observing old ancestor yellow spring's expression.

"Let me think about the two useless people in the desert. I remember now. It's those two people!"

Old ancestor yellow spring's memory was brought back to a few hundred years ago.

"Those two people were indeed under my control. They were also the first to commit evil. Otherwise, there wouldn't be so much trouble!"

It was obvious that he had thought of something that made him unhappy, so when he said this, he could even hear that he was gritting his teeth.

Ye chen was still puzzled. This old ancestor yellow spring would make decisions for others. This was obviously impossible.

Therefore, even if the other party didn't say anything, he knew that the two of them must have violated old ancestor yellow spring's interests, which was why they were punished so severely.

He just didn't expect the two of them to play tricks and bully the small groups in the forest.

"He actually dared to do this. It's really ridiculous. It seems that I have to deal with it when I have time. I originally wanted to let those little things torture the two of them, but who knew that they would be countered!"

After hearing ye Chen's story, old ancestor yellow spring was obviously furious.

At first, he had thrown the two of them into the desert after catching them and ignored them.

After all, as long as they walked further into the desert, they would encounter demons and ghosts, and they would definitely not be able to leave them alive for long.

Even if they stayed in the desert, they would die if they were not careful. However, they did not expect that these two people would accidentally kill them.

He even took control of the Black Fox Tribe that was in the desert oasis.

That was why it led to the subsequent tragedy. They relied on this largest race to suppress the surrounding elves and demonic beasts, which was really too infuriating.

"But you don't have to deal with it when the time comes, because I've already taken care of it."

Ye chen was very happy to say this. After all, he did not expect to encounter such a strange thing when he was just passing by. Moreover, it was actually true.

"What do you mean? You killed those two people. "

When ye chen heard old ancestor yellow spring's question, he told him everything that had happened in the Black Fox Forest and what the black Foxes had done.

In any case, he had finally figured out the cause and effect!

He would just give the two of them to the black Foxes. They would probably not leave alive.

After all, the Fox race could be said to be the most vengeful. After hiding it from them for so many years, it was time to teach them a big lesson.

After chatting for a long time on the Nine-Tailed ROC, he finally flew out of the forest and saw the town they were going to.

Naturally, just like the last time, he dropped them off before they reached the city. The Nine-Tailed ROC transformed into a small body and entered the city with them.

Since ye chen had met someone he knew, he now hoped to see his wife and daughter as soon as possible. It would be fine even if he had to get the news first before looking for them.

After entering the city, ye chen had wanted to treat them to a meal. After all, he had quite a lot of silver now.

Who knew that just as he walked to the market, he would see a photo posted on the noticeboard outside.

Although the drawing was a little blurry, he could recognize that it was him based on the basic features of the appearance!

But why would it be stuck here?

He thought that he was wanted, so he quickly walked forward and carefully read the text below, only to find that he was overthinking it.

And the name that was written below the missing person notice was his wife's name!

This feeling of missing his family had reached its peak. He went up and tore the paper off.

"What's going on? Who did this?"

Lin Mo did not see the words clearly, so he walked up and asked doubtfully.

"My wife caused this. She must be looking for me anxiously, so I have to hurry home."

As he led the group forward, he opened the paper and read it carefully.

It recorded the process of his wife's search for him. It also indicated that if anyone found him, they would receive a large reward as long as they reported the news.

At this moment, he also noticed another bright point. The notice had not been posted for a long time, and even the paper showed no signs of turning yellow.

Therefore, it should have only been recently attached. In that case, it was very likely that his wife was still here and had not left.

When he thought of this, his mood immediately improved. After all, he had never thought that he would find a clue so quickly.

"Let's go. It's almost noon now. Let's go to a restaurant and have a drink. We can also talk about the things that have happened these days. "

Ye chen knew this in his heart. Although they had walked together for such a long time, he was not sure what to do.

However, Lin Mo had other things to do after he came out, so he would definitely not keep following her.

Therefore, after this meal, he would give Lin Mo some money and let him go out on his own!

However, if there was anything he needed help with, he could always come back to him.

The group found the best Tavern in the city and walked in together. Ye chen shouted when he was done and asked for a few pots of wine and a few dishes.

He didn't know that his casual shout had attracted the attention of a figure not far away.

This person was constantly looking for his wife. He had already gone through several towns but there was no news of ye chen at all!

He had come to this city near the desert with the intention of giving it a try. He was prepared to leave in the afternoon.

However, he didn't expect to actually hear it here. The voice was almost engraved in his mind!

Ye chen was chatting happily when suddenly, there was a force behind him. A palm came close and almost hit him.

He subconsciously dodged to the right, and the small teacup on the table in front of him spun a few times, then fell to the ground and broke into a few pieces.

It was obvious that this action had angered him. He stood up abruptly and turned around to look.

And the first thing that entered her eyes was that figure that she would definitely think of when she was tossing and turning in the middle of the night!

"I thought you had already died outside. It looks like you're still alive?"

To Lin Mo, this was a woman who had come out of nowhere. Furthermore, she looked extremely unreliable and impolite.

He was still a little puzzled as to why ye chen did not resist. Then, he saw his old friend rush forward and hug the girl.

Old ancestor yellow spring obviously knew their identities, so he raised his cup silently and sipped his wine.

"I escaped back from the desert. It was a waste of effort to finally get here. It's not that I didn't want to find you, but I was in the secret realm at that time and couldn't leave. Fortunately, I'm out now."

Of course, Ye Chen knew that all of this was because of him. If he had not wanted to challenge the secret manual, there would not have been so much trouble.

He didn't have to waste so much time on his own. Although he didn't have the skills, it was easy to guess.

He had not seen his beloved wife and daughter for a year. How could he not miss them?

"Since we've met, let me introduce you to my friends. They're people I met in the desert. We've dealt with some trouble and came here."

"This is Lin Mo, and this is my Mount, Pengfei. We can ride him back home!"

Ye Chen happily introduced his friends to his wife.

It was supposed to be a very good encounter, but they didn't expect that just as they were eating, drinking, and chatting, a very loud rumbling sound suddenly came from outside.

It was as if something had crashed into him. Ye Chen did not pay much attention to it and thought that someone was causing trouble outside.

Anyway, they were just ordinary people in the restaurant now. They didn't need to find trouble to care about things that had nothing to do with them.

Who knew that the rumbling sounds would get louder and louder, as if the door was going to be smashed. Furthermore, there seemed to be countless people passing by.

Just as he was about to stand up and go out to take a look, more than a dozen soldiers rushed into the tavern and stood in two rows!

An official who looked slightly older walked out from the middle.

"Everyone, stop your chopsticks. We're in the middle of catching a fugitive. Someone's surrounding us!"

The man shouted and took out a scroll from his waist. He pulled the rope and opened the scroll, then raised it high.

Ye Chen joined in the fun and looked in that direction. Wasn't he the one drawn on it? Moreover, it was drawn in a much more detailed manner than the one his wife had drawn. It was obvious that he had come prepared.

"What's the matter? How could I have met such a person? Could it be that some cultivation sect is after me?"

Ye Chen said unhappily with a frown.

Before he entered the secret realm, because he was too strong, there were people who constantly found trouble with him and wanted to steal his spirit energy.

However, he was also clear that he had not offended anyone who had nothing to do with it. Moreover, when he entered the secret realm, his strength was only in the third stage realm in the eyes of others.

"Search! Once you find this person, capture him immediately!"

"Let's not look for trouble and leave. Let's leave from the back door first. If we're really caught, then we'll go up and fight. I also want to see who it is. It's been more than a year and they're still trying to get their hands on me."

Ye chen stood up and left with the people around him. Their seats were slightly to the side, so they were prepared to leave quietly from the back door.

He didn't want to go against these so-called people who were here to search. After all, they looked like people who were paid to do things.

He didn't need to kill them all, but unfortunately, this was what he thought, and the person who was using the Fox to intimidate the Tiger didn't intend to let it go.

"Wait, don't leave. Where did you guys come from? you can't leave until you've been inspected. Otherwise, you're guilty!"

#### [Chapter 2692 One-On-One Suppression!](#)

Although ye chen knew that he had travelled far and wide and offended many people, he was still very confident in himself.

However, he had never thought that one day, he would be searched like a carpet, and it didn't look easy to hide.

Ye chen stopped in his tracks when he heard someone calling out to him from behind. He slowly turned around.

Even though he did not seem to have any change in expression, he was actually already thinking about how to escape in the fastest and most direct way.

He didn't want to waste his time here. After all, although this group of seemingly weak ordinary people had been ordered to capture him, he didn't have to deal with them.

Moreover, even if it was easy to deal with so many people, it would take some time.

This was not ye Chen's favorite solution, so he would rather leave quickly. Unfortunately, it did not seem like his escape was so smooth.

The man who had swaggered in front of him earlier had now walked over to him. He looked at ye Chen's face and then at the scroll in his hand.

He was so happy that he grinned. He really didn't expect that the person he thought was very difficult to find, who he couldn't find for a long time, would actually be here today!

Wasn't this because the heavens had eyes? If they captured this person this time, they would definitely be greatly rewarded. At that time, they would definitely be promoted and rich.

"Go and capture this person, as well as all the people around him!"

The man waved his hand and ordered his men to come over and arrest them.

Ye Chen was not someone to be trifled with. Although he looked expressionless, the spiritual energy in his body was already surging out.

In an instant, a protective circle was drawn around him. Then, those who rushed over rashly and wanted to know who he was were suddenly spread out, and some even directly fell two or three meters away.

Just by looking at it, one could tell how strong this thing was!

Seeing his underlings like this, the arrogant man subconsciously took two steps back.

His face was also filled with fear. He didn't want to lose his life here!

"Keep an eye on him, don't let him run away. You two, go and report the news!"

This city was called border city. It was said that it was still a distance away from the desert, but it was the only big city that they could pass through.

Moreover, there were all kinds of vendors here, big and small, and many of them were shady deals.

In short, in this kind of no man's land, money was the most important thing. Someone must have paid these people to find him and catch him.

It was a pity that he had underestimated his strength. These were just ordinary minions. Even if they surrounded him, Ye Chen would not think that they were powerful.

In his eyes, this group of people was just a group of ants that had no power to resist, not to mention that he had a few experts by his side.

Any one of them would be able to subdue all of them.

"So, are you willing to continue playing with them here? If not, let's go now. This group of people can't stop us anyway."

Ye Chen's casual question was not meant to cause trouble. After all, no matter who it was, he was not willing to meet them.

However, he didn't want to show off or cause trouble, but Old Ancestor Yellow Spring didn't.

"I'd like to see who's looking for you. You'll have to go somewhere else in the future anyway. You can't keep hiding like this."

Old Ancestor Yellow Spring's words made a lot of sense. Ye Chen nodded and smiled.

So, after a few people looked at each other, they actually stood there with a tacit understanding.

After a short while, someone actually kicked the door open and strode in.

Ye Chen felt that this person looked somewhat familiar when he met his eyes. After thinking about it, he finally remembered. Wasn't this one of the young elders of the Dragon sect?

Why did he suddenly want to find trouble with me? moreover, if a person of this level met me, he could only negotiate. After all, if he fought, he would lose without a doubt.

"You dog thief, you've finally shown yourself. This time, we'll definitely capture you and bring you back to die as an apology for your sins!"

Ye Chen's expression changed as soon as he heard this baseless infamy. He had never liked people shouting at him.

Not to mention that the person in front of him should have no enmity with him.

But now, he actually wanted to step on her. Wasn't this a fool's dream?

Ye Chen's expression was already very happy. His face was ashen as he pushed his wife behind him and took a step forward.

As he took a step forward, the few soldiers around him immediately retreated in fear, as if they were snakes or scorpions. It was really disgusting.

"Look at the subordinates you brought. They don't even dare to get close to me, and now you want to take me away? you should take a look at your strength."

As long as he was willing to fight back against external provocations, he would definitely not let the other party laugh, just like now.

From the young elder's clothes, he should have been promoted, probably because his strength had doubled as he grew older. It was a pity that he was still as careless and reckless as before, not weighing his strength at all.

"Since you said you're here to catch me, then come and have a one-on-one fight with me. I'll see how strong you are. As long as you can push me to the ground, just once, I'll let you take me away. If you lose, there's no need to negotiate, I'll kick you out directly."

Ye Chen's straightforward response to the challenge simply angered the young elder standing there.

There were many civilians and soldiers around watching. If he wanted to go there in the future, it would be impossible.

"What? you don't dare to fight me? But that's true. You should be thinking of looking for other outside help right now. After all, even though you've come over, you're indeed not as good as me. "

Ye Chen's provocative tone was truly difficult to grasp.

Just like the young elder who was standing there, he could hear that she was playing hard to get, but he couldn't suppress the anger in his heart.

So, he met ye Chen's eyes fiercely and replied.

p "It's just a fight. Come on, as long as you're pressed to the ground by me, I'll let it go. You said it yourself!"

He was really not confident, so he subconsciously repeated it.

"Of course you can, but that depends on whether you have the guts to come. Let me see if your ability has improved over the years."

After ye chen finished speaking, he did not stop for a moment. He jumped up from the ground and onto the chandelier on the second floor.

He didn't use much strength to hang his body in the air, so the chandelier didn't even shake.

It was obvious that the young elder had not been able to defend against it, and this move had already embarrassed him.

So, he was instantly furious and stepped on the table next to him and jumped up. He kicked the chandelier.

Unfortunately, ye chen did not have the strength to do so. Therefore, his kick only sent the lantern flying!

The fire inside had already set the outside on fire. When it fell down, it was a panic. The people around them hurriedly used the tea on the table to put out the fire. Only then did they avoid a small disaster.

However, it seemed that these two people were fighting too fiercely. After a short while, the people who were eating in the restaurant all quietly bent their backs and ran away.

They were not willing to watch a show and lose their lives!

These two were obviously experts exchanging blows. Ordinary people like them shouldn't join in the fun. Otherwise, wouldn't they be looking for trouble?

Ye chen looked at the shopkeeper who was standing at the front desk and was about to beat his chest and stamp his feet. Of course, he felt a little embarrassed.

When he raised his head again, the young elder's foot kicked his face, almost hitting him.

He suddenly stepped back and kicked up from below, kicking his leg up and causing him to somersault backward.

The two of them were now very close to each other. With this move, ye chen raised his hand and took the money bag from the young elder's waist.

His speed was extremely fast. Before the other party could react, he kicked him again. It was very effective in stopping the elder and elder from feeling puzzled.

After all, his center of gravity was already unstable. If he fell, it would be even more serious!

Since it was the other party who provoked him first, he would let them pay the compensation to the restaurant!

In any case, these elders, or the few soldiers standing below, should not be lacking in money.

In short, he was much richer than a poor kid from the desert, so there was no need to pity him. This was called robbing the rich to help the poor.

He would take the opportunity to give the money to the shopkeeper when he drove them away. This way, he could also make it up to them.

After all, the few moves they had just exchanged had almost torn the shop apart, and the tables under their feet had been mostly tilted to the left and right.

In the beginning, the young elder was a little unhappy and wanted to answer but he gradually realized that ye chen seemed to be teasing him.

After two or three palm strikes, there was no offensive power at all. It was as if his punches and kicks had hit cotton.

"How is it? Do you feel that it's very tiring? If you really can't hold on, then stop fighting. "

"Look at those people down there. They're all tired from watching us. Aren't we tired? If you're willing to let go, I'll immediately leave. What do you think?"

Ye chen muttered non-stop as he dodged the attacks from the other side.

This kind of soft attack was also very fatal. After all, the young elder on the other side was already about to explode from his words.

"What's the use of talking so much nonsense? I'm going to take you away today. People like you who do all kinds of evil should be punished. Otherwise, I'll be too ashamed to face my sect!"

The young elder said indignantly but ye chen was dumbfounded. What did this mean? What did this have to do with him?

He had spent so much time in the desert and the secret realm, and he had wasted a lot of time in between.

Now that he had come out, there was still an attack coming from nowhere?

"This little brother, you can eat whatever you want, but can't you just say whatever you want? I definitely didn't do anything that, in my eyes, went against my will, and I would never hurt innocent people. "

"Nonsense, this is just your smokescreen. You're talking nonsense. Don't try to lie to me!"

At this time, the young master had even directly exploded with vulgarities, causing ye chen to be confused.

However, since the other party was not willing to listen to his explanation, there was no need to continue. Thus, ye chen stopped.

Compared to his previous soft-as-hard attacks, he was now charging forward as if a switch had been turned on.

He didn't pull out his sword, but he raised his hand and patted the young elder's shoulder. In an instant, the young elder felt as if his shoulder had been dislocated, and it was extremely painful.

Of course, this was far from enough!

For ye chen, if he wanted to control someone, he had to at least make them unable to move, even if it was only for a short time.

Soon, the other palm hit the other shoulder, and both hands lost their strength.

The young elder tried to resist but was kicked down by ye chen. He had no way of standing up again.

After all, he had estimated the strength of each of ye Chen's palm strikes. It was impossible for him to resist it just because he wanted to.

"I told you to stop pestering me, or you'll be at a disadvantage. Did you really dream of pressing me to the ground? or did you eat too little rice?"

Ye chen was really good at humiliating people. After all, the young elder in front of him looked older than him.

"Just you wait, there will be other people from our sect looking for you. They will definitely not let you go, you demon!"

"What a joke. You guys always thought that my strength wasn't that great, yet you actually gave me such a big name. It's my honor."

Ye chen did not care about his threat at all. In his eyes, ye chen was just struggling at death's door.

If he had the ability, he could really call them over. At most, they would just fight again to see who was better.

"Alright, hold on to the box and continue reading. Or is there anyone else you're looking for? If not, we'll take our leave. "

The soldiers around ye chen and the man who had been showing off just now were just a Fox borrowing the Tiger's might.

Now that this fake Tiger had been torn apart by him, what could his little fox do?

"Elder! Are you alright?"

The man didn't dare to speak. Lemon rushed to the young elder's side and tried to help him up. At the same time, the surrounding soldiers were naturally very observant and moved to the other side.

"Let's go, we should leave. "

He casually threw the bag of money at the counter without a trace.

### [Chapter 2693 Midnight Assassin!](#)

When ye chen and the others walked out of the room, they were not in a good mood.

After all, they hadn't even finished their meal before this happened. Although it was considered an easy escape, it did slightly affect their happiness.

"It seems like there should be someone else's eyes and ears here. Let's hurry up and leave now, shall we?"

Su Yuhan also felt a little uneasy, so she made a good suggestion.

Ye Chen nodded. That was indeed the case. Now that he had returned to the plains, those who had made enemies with him before would probably come looking for trouble.

Therefore, the most important thing now was to ensure her safety. Moreover, he was anxious to see his daughter.

Although he thought of his daughter, he didn't mention it immediately.

Old Ancestor Yellow Spring had wanted to freeload a meal from Ye Chen, but he did not expect to encounter such an unlucky incident.

Therefore, he was not very willing to continue following them. After all, he had other things to do.

He had originally wanted to have a meal before parting ways, but who knew that the meal made by betraying a group of minions from God knows where wasn't a good one.

"Alright, alright. You guys can leave together. I still have other places to go."

He said as he sent Ye Chen and the others to the city gate.

After all, Ye Chen was the only wanted person from the beginning to the end. Why did he have to join in the fun?

"Alright, then you can go. We'll be leaving first."

After Ye Chen waved goodbye to Old Ancestor Yellow Spring, he left the city with the people around him. Due to the sudden situation, he did not know where to go. Ye Chen planned to take him to the Central Plains so that it would be easier to find him. After all, it had been too long. He had been repeating his memories day by day over the years. However, if he really wanted to think about it, he would not be able to remember where he used to live. So at this time, she had no choice but to bring him back first!

If he had enough free time, he wanted to bring Lin Mo there directly. It would be more convenient that way.

At the same time, he really wanted to go home. Now that his wife was standing beside him, he subconsciously grabbed her hand.

Su Yuhan hadn't seen her husband for a long time, so she barely spoke to him since they first met.

However, the warmth from his palm told him that everything was real.

After waiting for so long, he had finally found the person. There was no need to continue wasting time.

"You've never cared about my feelings. You just left like that. "

Su Yuhan pinched Ye Chen's hand hard and said unhappily.

The two of them did not expect that it would be so difficult and troublesome to meet again after such a hasty departure.

It could be said that he had broken through a dangerous situation. Ye Chen did not want to tell Su Yuhan what he had experienced inside.

Otherwise, the other party would definitely feel heartache.

Since they had already come this far, the most important thing was to look forward.

Everything else had already been brushed aside by him. Anyway, he was a person who did things without going against his heart.

Thus, the three of them brought the great ROC out together, and then rode the great ROC together in the open space outside the city and flew into the sky.

Peng Fei was also very enthusiastic about Su Yuhan, who had suddenly appeared. Because he could feel his master's mood, he quickly accepted it in his heart.

"How did you suddenly get a Mount? The last time I saw you was by myself, but it's really convenient this way. "

Su Yuhan said with a smile.

Because there were three people on his back, including Ye Chen and Su Yuhan, Peng Feifei was especially careful.

It was a little slower than when he carried the two of them, but it was really stable without any bumps.

Ye Chen then told him bits and pieces about what had happened to him in the secret technique and the content of the escape.

However, he only dug out all the dangerous places and talked about the two bad guys who pretended to be Immortals.

In short, this matter was of course very interesting and dramatic. After all, it sounded extremely hateful.

As the two of them chatted and enjoyed the scenery, Peng Fei had already rushed to the second town. It was already dark, so they could rest here for the night and continue on their journey the next day.

They went through the same process, and then they entered the city together and found an Inn to rest.

For the past few days, Lin Mo had been trying his best to recall the place he was going to. In short, he could only remember the general idea of the place, and he had destroyed the entire city.

He didn't know if there were any survivors. In short, if he went back now, those people would have been dead for a long time. He didn't know how many years had passed.

"I've come to find you for another matter. "

After dinner, Su Yuhan went back to her room and said to her lover sitting opposite her.

"What's wrong? Is there anything else? Could it be that something else happened while I was away?"

Su Yuhan nodded, then told him about the changes that had happened on the plain during this time.

After ye chen had left, he had gone to explore the world on his own. At this time, the people who had stayed behind had begun to fight for their positions and rights.

Sometimes, a war would break out at the first touch. In just a short year, the Green Dragon sect had launched an attack very quickly.

At the same time, he contacted a few other sects and wiped out the Black Tortoise sect first. Only a few little bei's were left, running around and hiding their names to live.

The rest were left on that mountain.

In short, there were times when some people would really not turn back for power. Even if they lost the lives of their own people, they would not care at all.

Just like that, many people began to wander around, not knowing where to go in order to live in peace.

Su Yuhan had also left her hometown with her daughter because of this large-scale confrontation. She wanted to find ye chen along the way but did not expect that it would take almost a year to find him.

"By the way, where did our daughter go? I still wanted to come back and find you and your mother. I just want to live a good life with you in the future. We don't have to fight for so-called power anymore."

Ye chen said very seriously. This journey had made him understand a lot. The most important thing was that he could not waste his life like this anymore.

Perhaps being carefree was what everyone wanted to do, but sometimes, it was only happy to have a family.

"Alright, let's rest for today. We'll talk when we get back."

"In any case, we still need to keep a low profile when we return. Just like yesterday, there were clearly not many acquaintances in the city, and it was even so far away, but there were still people who wanted to capture you."

Su Yuhan grabbed the man in front of her, her eyes full of worry.

She had finally found him, and she really didn't want to lose him again. That was why she was afraid even when she saw him in danger.

The two of them didn't chat for long before lying back on the bed. They covered themselves with the blanket and fell asleep in each other's arms.

As the night deepened, there was almost no one on the streets. At this moment, two black figures suddenly appeared in the backyard of the inn.

The two black shadows quickly sneaked up to the second floor from the outer wall. They quickly found a room that had been arranged in advance and gently opened the window.

What they did not expect was that they had thought that ye chen and su Yuhan would be the only ones sleeping here. They did not know that the room was given to ye chen.

By chance, Lin Mo was living in this room, while the other two were living next door. Peng Fei was also in this room.

At this time, the child's hearing was much better than a sleeping person's, so Peng Fei immediately opened his eyes and shouted.

The two black figures who had jumped in from the window were also shocked. One of them immediately ran towards Peng Fei, and Peng Fei's body was currently shrunken.

He quickly enlarged his body and grabbed the man's arm. Then, he flew out of the window with the man. The other man in Black didn't even have time to react.

Lin Mo, who had just fallen asleep, immediately opened his eyes and jumped off the bed when he heard the sound. Of course, he also saw the black shadow in front of him kick him.

However, he didn't expect this person to be prepared. He raised his hand and raised a handful of white powder, which looked like medicinal powder.

However, Lin Mo did not care. He would not be affected by such things.

He quickly took a step back, and then a sun and a beautiful wind flew directly toward the Man in Black. At the same time, powder flew over.

He also took off the black mask on his face, and the powder quickly entered his nose.

This really made the assassin completely confused. He was caught off guard and breathed in the powder. Then, his vision turned black and he fainted on the ground.

As for the black-clothed man who was brought out by Peng Fei, he was brought up into the sky. Then, he suddenly opened his mouth, but who knew that the black-clothed man would feel his foot being grabbed.

This made Peng Fei extremely angry, and he immediately stomped his feet, wanting to push his head down.

Just like that, the Man in Black fell to the ground with serious injuries, but he was still breathing.

Ye Chen and Su Yuhang, who were sleeping in the room next door, were sleeping soundly when they heard the sound of fighting outside.

At the same time, he immediately realized that it was the room next door!

The two of them looked at each other and knew that they were definitely here for them.

Therefore, she put on her coat and immediately ran to Lin Mo's room. However, she only saw the Man in Black lying on the ground.

At this time, Peng Fei had also brought in the black-clothed man he had thrown to the ground outside.

These two people's methods were really clumsy. They didn't know what was going on, but they actually dared to come and find trouble with them so boldly. It was really impossible to guard against this!

"What's going on? Why did these two people suddenly appear? are you two alright?"

Ye chen said worriedly. After all, if he had guessed correctly, the problem had occurred because they had changed rooms.

"It's fine. Pengfei discovered it first, and then he grabbed this one and flew it out. The other one fainted because of his own powder. They're really stupid and bad."

Ye chen nodded in agreement.

"I'll go downstairs and ask the innkeeper for two ropes to tie these two up. We'll interrogate them tomorrow morning. They should still be unconscious. "

Ye chen stepped forward and took the pulse of the person who had fallen. He found that although a few of his bones were broken, he had the protection of his spiritual energy and was slowly recovering.

"They won't die anyway. Let's see if they're willing to tell us."

He shook his head helplessly. For some reason, he felt that there must be something else behind this that he didn't know.

Now, it seemed that no matter if it was in the previous city or here, even though they were very low-key, they could not help but be targeted.

Moreover, he was searching so wantonly!

He was now very suspicious that there was someone else besides his wife who was constantly looking for trouble with him, or even set a trap for him.

"Then we shouldn't stay here for too long. Wake them up tomorrow morning. After the interrogation, let's go!"

Su Yuhan was also a little anxious. Logically speaking, she had not heard that anyone else was looking for ye chen. However, the facts now showed that there must be someone who was doing the same, and it was a very big net.

"Who do you think it is? Are you trying to set me up here? are you afraid that I'll go back?"

Ye chen stood by the window and looked at the sun rising slowly outside. He said casually.

Instead, he was looking forward to it. He wanted to see who the person behind the scenes was. At the same time, he wanted to see what the plain was like now.

"It seems that the sky has to change again. However, I will definitely live well and take you far away."

Ye chen looked tenderly at su Yuhan, who was standing beside him, and then reached out to pull her into his arms.

Su Yuhan leaned her head on her lover's body, feeling the sound of his heartbeat and the hard chest, which gave her a sense of security.

The next morning, Peng Fei called ye Chen's name and they walked over. The two of them were almost awake.

She looked at him in a daze and did not know if she was conscious or not. However, when she saw ye chen, she clearly showed a frightened look.

However, from the bottom to the top, ye chen could clearly see that it was desire.

"Tell me, what's going on with you guys? Why are you looking for trouble in the middle of the night? if you don't make it clear, I'll execute you here. "

Ye chen deliberately used a tone to suppress them.

"We're just passing by to Rob, we didn't pick anyone?"

The man who had been drugged by the powder was almost awake now and said angrily.

Ye chen wanted to laugh at him after hearing this. Even if he made up an excuse, there was no need to come up with such a clumsy one. How could it be a coincidence that he found the window so accurately?

### [Chapter 2694 2698-Interrogation!](#)

"Did someone pay you to come? if that's the case, I'll pay double the price. You just need to tell me who it is."

Ye chen walked up and squatted in front of the two men. He looked at the one on the left and then the one on the right.

However, from his behavior, it was obvious that the one on the right was more tight-lipped, while the one on the left seemed to be holding back.

He must have been afraid of losing his life. After all, it was just a small bounty.

If he was not careful, he might lose his life. It would be a little too much to throw it out.

Moreover, ye chen was willing to offer them this condition because he could guess that he must have been hired by someone else.

Otherwise, he wouldn't have found these two idiots without knowing the severity of the situation. So, it must be the bounty.

When they heard ye chen say that he would offer twice the price, it was clear that the two people had some doubts.

After all, this was a huge opportunity in their eyes!

They had never thought that there would be such a big bounty mission, so they accepted it happily.

Who knew that he would meet such a powerful person? if he couldn't complete the mission, he definitely wouldn't get any money back.

However, ye chen was willing to pay twice the amount without losing his name. Was this not a good deal?

"Are you really not willing to tell me? If you don't tell me, I'll feed you to my bird. You should be able to see how big my bird is. If it really grows up, it won't take much effort to swallow you two. "

"Besides, I can kill you two with a raise of my hand, so this is not a discussion, but a question. I hope you can give the most correct answer directly without waiting for me to get angry."

Ye chen had finally explained the two types of threats and promises.

Now, it was up to the two of them to set a trap. Anyway, ye chen had not intended to spend money from the beginning.

If the two of them were willing to tell him who had arranged it, he would let them go.

If they didn't want to say it, they would just leave their lives here.

In any case, these two people were assassins who came to assassinate him, so there was no need to show any groundless respect. He even found it troublesome!

The two of them sat there and thought for a long time. One of them was still unwilling to say anything, while the other was obviously convinced by ye Chen's words. He raised his head and looked at him.

"I'll tell you who did it, and you have to let us go. We need money too. "

After the man finished speaking, ye chen sneered. It was somewhat naive of him to still think of negotiating terms with him at this time.

He didn't even look at what kind of state he was in, and he actually thought of doing this.

"We'll have to see how useful your proposal is. If it's useless, I'll have to reconsider. "

"Perhaps you didn't hear what I just said. I mean, if you don't want to, I'll just destroy it all and throw your bones in the forest. No one will find it."

If someone else had said that, the two of them might have had a chance to refute, but ye chen was different.

Ye chen had a Mount. If he really used Peng Fei's body to transport the two of them out, it would indeed be done without them knowing.

No one could see the person on the bird.

Because they suddenly realized this, the two of them suddenly became nervous. They were definitely not willing to lose their lives here.

After all, they hadn't completed their mission yet. If they returned, they might be killed to keep their mouths shut. They could only leave this place.

After that, all they could do was to hide their names forever. This was the only way for them to survive.

Therefore, the two of them understood that they could only choose ye Chen's arrangement at this time.

"Elder Luo Ying of the Green Dragon sect arranged this for us. He has a huge reward and told many assassins on our blacklist. Whoever can kill you will be able to receive the reward with your head."

Ye chen was quite interested after the man finished speaking, so he took the opportunity to ask.

"How much money is he willing to give you? how did you find me from so far away?"

Ye chen said with a chuckle.

The assassin who was tied up there had already given up. He told ye chen that this was an announcement to all assassins.

It was obvious that elder Luo Ying had realized that an assassin might not be able to deal with ye chen.

Thus, they would recruit two people to come with them, and these two people could split the five hundred thousand gold equally.

This matter sounded very tempting. After all, it had been a long time since they had last met.

His strength wasn't particularly strong in the second year of high school, and these assassins were all hiding their strength.

Therefore, in their eyes, they simply looked down on ordinary cultivators like ye chen.

However, they did not expect ye chen to be so different from before. Moreover, how could he commit suicide so easily?

When they were still wondering why there was such a high bounty to assassinate an ordinary cultivator, they didn't think that it was more beneficial to Luo Ying.

"So, I've only met your first team, and there will be other assassins coming for me, right?"

Ye chen asked jokingly. He did not expect this inescapable net to be cast right in front of him.

"It's like this,"

After all, the news had been sent back, and the two assassins happened to be here.

He had heard from the spy that ye chen and the others had stayed here for a night, so he had come to cause trouble.

He just didn't think that he would be so unlucky to find the wrong room and make such a big mistake.

"He only wants my life? Didn't he say why?"

Ye chen could not figure it out, so he asked with interest.

"You're asking too directly. We're just people who did it. How would we know? anyway, as long as we kill people, we can get money. If we can't kill people, we'll be dead if we go back."

It was obvious that the assassin was already desperate, so ye chen did not say anything more.

Of course, he could understand what she meant, and he didn't want to continue pestering her.

Today, he had already found out who had done it and who had taken his life. In that case, he could go and deal with it.

"Alright, I'll let you go after you two tell me about this!"

After the rope was loosened, the two of them did not dare to ask for anything else.

After all, although ye chen had promised to pay them twice the amount, he would only cause trouble for himself if he were to do so now.

That would be looking for trouble!

The two of them were not fools, so they could only suffer in silence.

Anyway, he had already said his piece, and they probably wouldn't be able to get any big orders from now on.

It couldn't be helped that this kind of overly dark profession would have such accidents from time to time.

Therefore, at times, it was good to leave them alive. At least ye chen was reasonable and did not kill them directly.

The two of them did not say anything and jumped out of the window.

The assassin whose bones had been broken had recovered a little and could walk normally.

However, it would definitely have a certain impact on his body. From now on, he could be considered to be able to live like a turtle in its shell.

In any case, ye chen was not pitiful at all. As assassins, how could they not have money?

You might as well worry about yourself than worry about them.

Lin Mo had initially wanted to separate the pills after they were completed but he did not expect ye chen to be in such a situation.

Therefore, he decided to stay. At least if he encountered such a situation again, he could be of help.

Otherwise, ye chen and su Yuhan would not be able to take care of themselves.

It would be very dangerous if they accidentally fell for it. One more person was one more power.

"I'll go back with you guys first. I'll look for him after things settle down."

Lin Mo was not just a moment away from him. After all, he had been in that place all these years.

He was happy enough that he had finally come out. He didn't have to go to the place he wanted to go immediately.

It was fine to delay it for a few days. Moreover, ye chen was the one who had helped him out and was now a good brother to him.

"Let's go. I'll still be going with you for the next few days. "

Ye chen looked at his good brother's eyes and understood what he meant, so he nodded.

Lin Mo had always been wearing his white coat, and only his eyes and nose were exposed.

Later on, after the poison was removed, he gradually let go and took off the layer of cloth on his head.

It took her a long time to get used to it. After all, she had been like that for so many years.

But now, his appearance didn't change much. He looked like a young man in his 20s, and his appearance was relatively good!

Of course, the three of them knew that they shouldn't stay here for long. After all, someone had already leaked the news of their arrival in this town without them knowing.

And he didn't even find a trace of it.

Therefore, it could be seen that they were actually being monitored all the time. In that case, it was better to leave quickly and openly.

At the very least, he couldn't let the others continue to chase him and fight here. He couldn't possibly encounter two assassins in the same restaurant, right?

If that was the case, it sounded too tragic.

It was better to quickly deal with the trouble and go back to directly end this matter!

Su Yuhan had been there all this time but she did not know why this elder of Azure Dragon sect hated ye chen so much.

They would actually spend such a huge sum of money on a reward!

However, after some reverse research, they concluded that it was likely due to other reasons.

"I think he's trying to set a trap for you. Most of these assassins won't be able to hurt him."

"However, as long as I keep attacking you, I'll be able to get my hands on some of them."

"In short, if he does this, it won't do him any harm, but it'll be troublesome for us. It might even directly slow down our progress."

Su Yuhan's analysis of the situation was very reasonable. Ye chen nodded after listening to her. Indeed, he had also thought of this situation.

"Then let's not stop in the middle. Pengfei can take it if we fly for an entire day. We can let him rest after we return."

"This way, we can avoid any problems in the middle. If we can still take the time to rest when we encounter a place, the danger will increase greatly."

Ye Chen's words made sense, so they sat together and flew back to the plain.

Moreover, ye chen really missed his daughter now.

At that time, his wife had sent her daughter to her father's house to make it easier for her to find him.

They were also considered to be from a famous family, so they would definitely not be threatened.

"I really don't know what you're thinking. You don't care about us at all. Otherwise, why would you not come back for so long?"

Su Yuhan pouted. She really didn't want to be separated from her lover for such a long time.

Even though she could understand ye chen, she still felt a little angry when she thought about it.

"I was indeed a little careless in the previous matter, and I was indeed too hasty."

Ye chen was not the least bit careless when he apologized. He immediately took all the blame for the mistake.

Su Yuhan leaned on her shoulder and looked at the setting sun. It was so beautiful that she almost wanted to stop there at this moment.

Although they didn't say it out loud, they all knew that they would face a huge blood rain when they returned. They could only live in peace after solving all the problems.

When night fell, they lay on Peng Fei's body and slept comfortably, wrapped in very soft fur.

It felt even more comfortable than on the bed. After all, the wooden bed was hard and the temperature was not high.

And Peng Fei's body had his natural body temperature.

By the time the sun rose again and they woke up, they had already crossed countless mountains.

Peng Fei's flying ability was extremely fast and he did not miss anything in between. The few times he stopped before was because he was afraid that ye chen and the others could not take it. Now, it seemed like it was all right.

Ye chen stood up and looked into the distance. He was already familiar with the city and the surrounding mountains were all sects.

"Look, we're almost there."

"Pengfei, let's stop outside this city. We'll enter from here."

"I don't want to care about the others. I want to see my daughter first. Let's go together!"

Ye chen said, feeling a surge of emotions.

### [Chapter 2695 An Acquaintance Of The Azure Dragon Sect!](#)

Because they were so eager to see their daughter, they immediately entered the city after flying down.

In ye Chen's eyes, he had not been back for a long time, so everything on the street was so familiar, but also a little strange.

They were very happy, but they didn't expect that their faces would change when they walked to su Yuhan's father's mansion excitedly.

There was a large seal on the door, and it was obvious that there were no guards around.

Ye Chen's heart turned cold. He had indeed been too naive in his thinking of those hateful people.

Wasn't it enough to get some assassins to do something to him?

He actually thought of such a tricky way to find trouble. It was simply a means that only incompetent people would do. It was very despicable.

He was extremely angry, so he went up and tore off the seal, then pushed the door open.

There seemed to be no one in the entire courtyard, and the autumn wind blew down the fallen leaves, scattering them all over the ground.

It could be seen that it had not been swept for several days.

They hurriedly walked into the hall and found that the decorations here had no intention of being knocked down. There were not many traces of fighting.

Could it be that he had used some other means to take away his family?

Ye Chen's face was ashen as he turned around and saw Su Yuhan standing at the side. His face was pale.

He looked like he was about to faint. He didn't expect such a situation to happen.

Originally, he had only thought of leaving his daughter here so that it would be more convenient for him to go out and look for her.

Who knew that it would cause such a big disaster and even involve his own family?

"Don't worry, I'll definitely bring them all back. I won't let anyone get hurt. "

Ye Chen pulled her into his arms, trying to give her more security.

She had thought that she would be safe and that she would be able to live a good life with her family after she returned.

Now it seemed that there was still someone who wanted to cause him such trouble. In that case, don't blame him for not showing any mercy.

Strength was very useful at any time, even in the current situation.

Ye Chen still believed in his own abilities. He must teach this group of people who coveted his status a lesson.

Ye Chen was not sure himself.

Logically speaking, he shouldn't be a threat. Even if he was powerful, he wasn't prepared to fight for anything.

Moreover, he had just returned and had already taken his entire family away.

If that was the case, then didn't that mean that he had to make a move?

Or could it be that these people had other things they wanted to do?

In short, this matter was very complicated. If they wanted him to become a shareholder, then why did they send so many assassins?

She wanted to assassinate him and told him so many ambushes on the way. It couldn't be that she just wanted to make friends, right?

Could it be that he was testing his strength?

He didn't know how to differentiate the teams in his mind.

In short, he had been happy to see his daughter, and then escape from the world with his wife and child.

Who would have thought that he was being forced to go up the mountain to take a look!

"It seems that you really don't have any ulterior motives just to see me. In that case, you can stay here and I'll take care of the rest."

Ye chen looked at his lover in front of him and said very seriously. Then, he raised his head and looked at Lin Mo who was standing behind.

His own problems had to be solved by himself, and it was time to settle these grudges.

If su Yuhan stayed here alone, he wouldn't feel at ease either, so he wanted to hand her over to Lin Mo and let him protect her.

"Don't worry, I won't let them have their way. I'll also bring my father-in-law and daughter back. You just stay here and wait for me. Protect yourself, okay?"

Ye chen cupped his lover's face in his hands and made her look at him, giving her a sense of security with his eyes.

The matter itself was quite urgent, so they didn't wait long. They tried to ask the people around and found a few of their men who had been working comfortably.

Then, he learned about the cause and effect of this matter from them and confirmed that this was indeed the doing of the Azure Dragon sect. Moreover, they had deliberately left clues behind.

"That night, everyone was knocked out. No one was spared. I don't know where the smoke came from."

"When we woke up in the morning, Grandpa and miss were already gone."

This servant had been working for the song family for more than ten years, so he had a lot of feelings for their family.

He had been doing odd jobs around the area these days, so when he saw su Yuhan, he immediately came forward to express his feelings with tears.

"At first, we were at a loss, but we didn't expect that after two days, the soldiers would drive us all out and then seal the door."

As soon as he said this, ye chen was even more certain of his guess. As expected, this group of people were all connected. However, he still did not know why they were all pointing the finger at him.

However, there was no need to investigate this now. It was better to quickly settle this matter and end it as soon as possible!

After su Yuhan had asked the servants, she felt even more upset and nervous. However, ye chen was there to comfort her.

After a brief inquiry, it was confirmed that they had been taken away ten days ago, and then they were all driven out. In short, all this happened very suddenly and urgently.

Ye chen made a simple calculation of the time. Ten days ago, was that not when he had left the desert?

How could it be so coincidental? or perhaps, someone had already known about his whereabouts since then and had been reporting to them.

These things piled up in his heart, making him extremely irritated. At the same time, his eyes became much deeper.

However, if the other party was not willing to let him have an easy time here, he could not think of escaping easily. In any case, ye chen knew in his heart that as long as he did not die, he would definitely come back again.

"I'm very curious now. Why are they so afraid of me?"

Ye chen clenched his fists tightly. Then, when it was time for bed at night, he settled his wife down and quickly packed his belongings before quietly leaving the room.

Since he had to face such a battle, he decided that it would be better to fight alone.

As a man, the first thing he had to do was to protect his wife and child. Only then could he talk about other things.

If he couldn't even do this, how could he negotiate the other conditions?

Before leaving, he had already told Lin Mo to protect su Yuhan while he left with Peng Fei.

Otherwise, if he relied on his own light attacks to get to the Green Dragon Gate, it would be a waste of energy and time, so it would be more convenient to bring Peng Fei along.

Peng Fei's huge wings flickered in the dark night, and in less than four hours, he had arrived at the foot of the Green Dragon Gate.

Ye chen glanced at it and did not let Peng Fei stay there. Instead, he continued to fly upward and flew directly to the entrance of the hall halfway up the mountain.

Ye chen flipped over and jumped down without a trace of nervousness. He swaggered directly through the door and stepped over the threshold.

The hall was very tall. It was at least 56 meters from the room if one looked up. Ye chen could see this place from the left with one glance but he did not see anyone.

"What's going on? Why isn't anyone here to welcome me? Shouldn't you know that I'll be here today?"

Ye chen said casually. Then, he calmly walked to the front where the guests were sitting and poured himself a cup of tea. As expected, the tea was still warm.

He was still sitting there calmly as if he was waiting for someone. After the time it took for an incense stick to burn, he heard the door behind the hall creak.

The sound of someone's footsteps could be heard as they walked towards them.

When ye chen heard the voice, he put down the teacup in his hand. Then, he held the chair next to him and sat up straight, his eyes looking in that direction.

Sure enough, the figure that appeared next, wasn't this his old acquaintance?

When the immortal slaying Flying Dagger saw ye chen, it revealed a big smile that had not been seen for a long time. Then, it even walked over with a chuckle, wanting to shake hands with him.

"Don't try to get close to me. What is it that you need my help with? or what is it that you want? why did you capture my family?"

Ye chen was not someone who could be easily fooled.

In his eyes, even if this group of people had been friends or enemies before, they might still be standing in the opposite position now. In short, he should not have too much hope in others.

p When the immortal flying blade saw that it didn't get a response from the handle, it didn't feel too embarrassed. It just helplessly retracted its hand and then patted its clothes.

"I had no other choice, so I used this trick to see you. Otherwise, you wouldn't have come here so obediently, right?"

"Alright, then tell me, what do you want? I only want to give you what I can, and I will try to give you what I can. Of course, don't try to force it. "

Ye chen said with a slight frown. He did not want to have anything to do with Azure Dragon sect. At the very least, it would be fine as long as they did not cause him any trouble. Right now, he only wanted to take his family away and did not want to stay a moment longer.

"Perhaps I haven't formally introduced myself to you, but I'm now the great elder of the Azure Dragon sect. I have something to discuss with you."

The immortal slaying Flying Dagger said with a smile. It seemed very sincere. Ye chen was not a fool. Weren't the previous assassinations tacitly arranged by this person? What's the point of putting on an act?

"Then, I'd still like to congratulate you. Congratulations on getting to this position. I've also heard about your turbulent past."

Ye chen said in a perfunctory tone.

He didn't like endless pleasantries, but the person in front of him kept trying to negotiate with him.

"I want to talk to you about making you the sect leader of the Azure Dragon sect."

"What?"

When ye chen heard this, he was so shocked that his jaw almost fell off. What was going on?

Didn't the Azure Dragon Alliance finally unify all the sects after a Herculean effort?

But now, he could actually give up such a big position so easily, and even let a little brat like him take it. Why did it sound like a lie?

"Your words really caught me off guard. You can't even joke like this. Are you playing me like a clown?"

To be honest, ye chen was a little angry. This person really did not care about the occasion and made such a joke. Could she not see how anxious he was?

He didn't want to care about anything that had nothing to do with his life. Whoever the Azure Dragon sect wanted to be the sect leader could be the sect leader. Wasn't he the most suitable as the great elder? Why did he have to choose him!

"Go, go, go. I don't have time to chat with you. If you have time, quickly release my father-in-law and daughter. I haven't seen them in a long time."

Ye Chen's tone was already somewhat unhappy.

He had never liked to deal with people for no reason, so he would rather push away this kind of thing that he absolutely could not accept as soon as possible!

"I will release your family, but I still want to talk to you about this matter, not to discuss it with you. I'm just informing you that you must become the sect leader of the Azure Dragon sect."

"Why is that? You have to give me a reason. You can't let me listen to your story in a daze. "

Ye chen had given up. This man was very stubborn now. If he did not follow his words, he would not be able to see his father-in-law and daughter quickly.

"It's because of your bloodline, your identity, and your current strength. All of these are enough for you to become the sect leader of the Azure Dragon sect. Only you can do all of this."

When ye chen heard him say that, he could not help but laugh!

"Why do you like to flatter me so much all of a sudden? I won't believe you if you tell me all these nonsense. Just tell me what you need me to do!"

He had seen through the intentions of the person in front of him, so he didn't try to hide anything and expressed his attitude directly.

"Perhaps it's hard for you to accept it now, but I can tell you very seriously that only you can take this position, because he's looking for the Azure Dragon's Successor."

"What?"

"In other words, only you can reach this position. No one else can touch it. This is a gift from the heavens. It's a foregone conclusion."

The immortal slaying Flying Dagger also became more serious as it spoke, replying ye chen with a sonorous and powerful voice.

"Maybe you don't believe it, but you'll know when I take you to the mountains. Don't worry about your family and friends. I won't hurt them."

#### [Chapter 2696 The Son Of Heaven's Mandate!](#)

"I don't want to continue joking around with you. Just tell me if you want to let her go or not!"

Ye chen did not think that the position of sect leader would really be given to him, so he might as well be direct.

But what he didn't expect was that things would be so dramatic. It was a completely different path from what he had thought, and he was chosen directly.

"I'll let all of your family members go back. You can come up the mountain with me right now and take a look at them while you're at it. I'll definitely treat them well and not be harsh at all," Wang Yao said.

Of course, the immortal flying blade could understand what he was thinking now, so it was better to take him to see it directly instead of saying it here without any evidence.

"Before we go up the mountain, I'll make it clear to you. I don't care if I agree to my family's request or not, you must send them back safely. Otherwise, your Green Dragon sect can forget about continuing its good life!"

Ye chen did not look very strong. He had an ordinary body but when he spoke, he inexplicably gave off a very strong suppressive force.

The immortal flying blade naturally nodded. As long as he could bring this ancestor up, he could explain the rest later.

In any case, he definitely couldn't continue to waste time here. Otherwise, it would really be troublesome every day.

It must be said that this Green Dragon sect's matter was really rough. From the beginning, when they had discussed together to overthrow these independent sects, they had colluded with several sects that had a desire for power.

In this year-long war, they didn't know how many cultivation disciples they had lost. In the eyes of the high-level officials, they didn't care at all. In short, achieving their goals was the most important.

In short, after this highest goal was finally achieved, all the sect leaders were promoted to elders, but who would be the ultimate sect leader?

This question had been raised two months ago, so everyone began to discuss it.

As the person with the most experience in the Green Dragon sect, the immortal flying blade was actually the most capable person to achieve this position. However, everything changed very quickly.

Just when the immortal flying blade thought that he could completely sit in this position, he never thought that the result he got despite the objections of the masses was completely useless.

Because he simply couldn't take on such a great responsibility, he called everyone over and then went up to the sacrificial altar of the Green Dragon sect. However, he didn't expect that the sky would suddenly be covered with dark clouds.

The situation that day really couldn't be described with words. It was really a mess. They had never thought that things would turn out like this.

He had thought that as long as he became the sect leader, everything would be back on the right track.

Who would have thought that the lightning and wind in the sky would suddenly completely disrupt the sacrificial ceremony at that time? the lightning at that time directly struck the position of the sect leader. Wasn't it obvious that he was not allowed to sit on it?

Thus, in this awkward situation, the immortal flying blade appeared. Although he felt that there was no problem in doing this, this was a tribulation from the heavenly Dao.

He didn't want to lose his life so easily. He had lived for so long, but if there was a problem because of this matter, then he would never be willing!

As a result, after the various sects had a discussion, they found the grandmasters that each sect cared about, and then let them find this person who could take on the responsibility.

At this point, it wasn't up to anyone to take the position. This was because when they tried to push someone they had chosen for the second time, they received the same response.

This kind of thing could not continue, so they could only keep looking for people to help, hoping that they could quickly decide on a candidate.

At this moment, a man walked out from the crowd and opened his star compass. Then, he calculated that the chosen one was in the desert and was about to appear.

They were shocked to hear about it after their reincarnation, but some people didn't believe it, so a few mages gathered together and made a huge array that night.

p This time, the position of this person had been clearly seized. At that time, ye chen was in that position and had even written his name.

None of them believed it at first but when ye Chen's name appeared on the sand, everyone fell silent.

"How could it be him? Didn't he go missing a long time ago? Is he really still alive?"

"That's right, is this calculation accurate? If he's not, then we've wasted our time!"

At this time, someone immediately felt uncomfortable in his heart, so he took the initiative to speak up. However, the response he got was that if he was willing to question, he would deal with it himself. No one would care if he died or not.

All of this had happened too suddenly. Most of the people in the sects were unwilling to accept it, but there was no other way.

"Only he can save everyone. If he doesn't come, we'll be in even more trouble!"

The leader of the mages raised the staff in his hand and said in pain.

They all had the ability to predict the future. If ye chen could not stand in this position in time, then the merging of these sects would backfire on them.

Because no one could hold this position, and if they were to be scattered all the time, it was impossible. They needed a sect leader!

The immortal flying blade had been very angry at the beginning because it hadn't been able to reach that position, but it had gradually accepted it. Moreover, it actually trusted that mage very much and believed in his words without a doubt.

However, he had no idea how strong ye chen was now.

If it was just an ordinary disciple who became the sect master, it would be a huge blow to the others. Everyone would not be lucky, so he wanted to test ye Chen's strength.

The two of them were on their way up the mountain. Ye Chen's brows did not relax after hearing the other party's words, but he found it quite interesting.

When he heard that the other party wanted to test his strength, he must have subconsciously thought of the assassins that he had encountered along the way.

"So, the way you found was to find an assassin to kill me. If I'm killed, I won't be able to do it. If I'm not killed, you'll acknowledge my strength?"

When ye chen realized this, his face turned red with anger.

"So, all the trouble that I've encountered on the road from the beginning to the end, all of it was you who found it for me, and it's so easy for you to do it?"

Ye Chen's fists were clenched tightly. He glared at the elder in front of him.

"I'm doing all this to wear down our sect. I also know that you will be able to get through all this safely, so don't be anxious."

The immortal slaying Flying Dagger knew that it had been a little anxious earlier. It had said too much at once and now ye chen knew the problem.

"I don't know why I've become such a special person, but I definitely have no intention of offending you. I've also never done anything bad. How can you treat someone's life as if it's not a life?"

To be honest, ye chen was extremely angry at the other party's matter-of-fact tone. Why did he have to deal with all this?

He was clearly a person who didn't know anything. Back then, he was full of trouble in the desert and kept holding him back. Now that he was back, he still didn't stop.

Of course, the immortal slaying Flying Dagger could tell that ye chen was not angry but he did not have much time to explain.

In his eyes, no matter what ye chen was thinking, he had to sit on the sect leader's seat when he was ordered to do so or forcefully brought up.

Not to mention that sometimes, one had to make a choice. To become the sect leader, at most, one would lose some unimportant freedom.

But in reality, it was still not very troublesome. He only needed to be in name and handle a little bit of the sect leader's Affairs. He didn't need to know anything else.

The two of them went up the mountain together. They should have been resting, but the mountain was brightly lit at this moment. Because they had learned that ye chen had returned, the immortal slaying Flying Dagger quickly gathered everyone.

He was prepared to discuss this matter today without delay.

Ye chen was the only candidate, and it was their best decision.

In any case, they had used so many assassins to test ye Chen's strength and had indeed received very good feedback. In terms of strength, no one present dared to disagree.

The closed door was pushed open by the immortal slaying Flying Dagger. Ye chen stood behind it and looked around. It was filled with people.

Both sides of the hall were filled to the brim. As soon as the door opened, everyone's eyes were on him. Some were curious, some were surprised, and some were jealous.

Of course, ye chen could feel it clearly. After all, his senses were very strong. However, he did not care at all and even walked forward without looking sideways.

"Where are my father and daughter? I want to see my child now, or I'll mess up your plan. "

Ye chen did not care about others but he was very eager to see his family. He did not care about anything else. His purpose in coming here was to take his father-in-law and daughter away.

His wife was still waiting for him at the foot of the mountain. He didn't want to abandon his ordinary life to come here and experience the disputes of these people, and even become one of them.

"Don't worry, I'll treat them well. I won't neglect them at all. We'll talk after you've dealt with this place."

From the tone of the immortal slaying Flying Dagger's words, he was indeed extremely anxious about this matter.

"Alright, I'll endure for an hour at most. If you talk too much nonsense, I'll throw the table and leave."

Ye chen said very straightforwardly. The immortal slaying Flying Dagger could not say anything and could only nod.

Then, ye chen was brought to the front and sat in the front seat.

"Today, I have brought the candidate for the sect leader that the master has calculated. Now, everyone can freely raise their thoughts and requests."

After everyone had taken their seats, the immortal flying blade made everyone quiet down and then began to discuss business.

"If he wants to be the sect leader, he has to show some strength. He can't just be the sect leader just because the mage said so. If he can't convince us, then even if the heavens come, he can't be the sect leader."

The one who was speaking was currently the most powerful one among the sect leaders, and he seemed to have the strength, which was why he dared to be so arrogant.

Ye Chen had also calmed down at this moment. He knew that he had to deal with this matter properly today to deal with this matter.

His gaze fell on the elder who had just been spouting nonsense, but he did not say anything. He only raised his hand gently, as if it was a very simple action.

However, he didn't expect that the elder who was still arrogant just now would suddenly have his mouth blocked. He couldn't make a single sound and could only squeak.

"I don't really care if I can be the sect leader or not, but if someone wants to disrespect me or hurt my family, I will never let them go."

Ye Chen picked up the cup of tea on the table and took a sip to moisten his throat. He did not speak loudly but everyone present heard him.

"There's no need to be angry. I just wanted to say a few words, so I'll let you stop for half an incense's time. Your mouth will naturally open at the end. Don't think about the profit, or it will only hurt. "

Ye Chen said with a smile, like a Smiling Tiger.

Then, he glanced at everyone and said, "As for the position of sect leader, if you are willing to give it to me, I will gladly accept it. If you are not willing, let me see who is the one who is not willing."

"I've always liked to talk about strength. If anyone can beat me, I'll voluntarily leave the mountain and not get involved."

As soon as Ye Chen finished speaking, the immortal slaying Flying Dagger next to him was the first to disagree. However, when it met Ye Chen's eyes, it was convinced by his serious determination.

"Alright, then let this old man test your strength!"

An elder who was sitting at the back slammed the table and jumped up. Then, he was about to hit Ye Chen a few seconds ago without even looking at him.

Just as the palm was about to hit him, this person suddenly disappeared. Then, he smacked the elder down from behind and returned the palm strike.

The elder was considered one of the stronger ones among the people present, but he vomited blood in an instant. He didn't seem to have any internal injuries, but he was in a sorry state.

"Alright, is there anyone else who would like to try? I'll still accompany you. "

There was complete silence, and no one dared to respond.

### [Chapter 2697 Sect Leader Takes Office!](#)

The immortal flying blade probably felt that the atmosphere was too awkward, so it said with a smile.

"The mages chose him to be our sect leader, and he should be the only one who is qualified."

As soon as he said that, someone immediately retorted him. In short, no one would be convinced until the last moment.

Even though he knew that ye Chen's strength was the strongest among the people present, he could not control his mouth and heart at all.

"Since you want to say that he's the most suitable, then we'll let him take the position. Whether he can take on this role depends on whether he can sit in that position."

One of the elders had long been disdainful of those mages, and perhaps he didn't think that these people could really sit in that position. Except for the immortal Flying Daggers at the beginning, he really wasn't convinced by anyone.

The few Wizards were already very happy to see ye Chen. In their eyes, ye Chen's appearance had immediately made everyone else present lose all their light.

The mages looked at each other and were almost certain that the man in front of them was the one they were looking for.

So, it might sound a bit too illusionary, but only the person in front of him could suppress the position of sect leader. The hands of these people from these sects were almost stained with a lot of blood.

And the big sect that they had formed had been punished by the heavens.

Therefore, it was impossible to let these people choose one of them to be the sect leader. Thus, this position was naturally handed over to ye Chen.

"If that's the case, then tomorrow. Tomorrow, we'll directly pay the sect leader's respects. If we succeed, then there's no meaning to it. If we don't, then we'll continue searching."

Although the immortal Flying Dagger was the leader of everyone, he couldn't consider everyone's situation. It was difficult to sway everyone's opinions. Some things had to be directly proven with facts.

Ye Chen did not say anything else. He was more concerned about meeting his family. Anyway, it looked like these people could not do anything even if they did not want to accept him.

Therefore, he didn't want to get involved in their conversation. Otherwise, it would definitely cause more trouble. In short, it was definitely best to talk less.

This discussion lasted for two hours. Now, no one dared to say anything more. After all, even if they were not convinced, they would not directly provoke or challenge ye Chen.

If he lost, not only would he feel uncomfortable, but he would also be laughed at by others. It would be too embarrassing. He might as well wait for the sacrificial ceremony tomorrow for the sect leader to take office and see if ye chen could do it!

When the conversation was almost over, everyone no longer stayed there and left with their own thoughts.

On the other hand, ye chen was also happy to be idle. After all, he did not say much. Basically, any problems were dealt with by the immortal slaying Flying Dagger alone.

After watching most of the people here leave one by one, ye chen did not intend to wait any longer. He said to the people next to him very straightforwardly.

"I've already settled the things you asked me to do for you. I'll tell you tomorrow, but I want to see my daughter immediately."

The immortal flying blade naturally couldn't say anything more at this time, so it immediately nodded and said.

"Okay, okay, okay. Come with me now. They're staying in my backyard."

After the immortal slaying Flying Dagger finished speaking, it led ye chen to the back. To be honest, it had subconsciously acknowledged ye Chen's strength from the beginning, so it had used the safest way to get him back.

They didn't even hurt a single servant in their family, so it could be seen that their attitude was very good.

As it was already late at night, when ye chen went over, his daughter was already fast asleep while his father-in-law was still awake. When he saw ye chen, he immediately went up to him.

"Are you alright? You didn't suffer any grievances here, right? I'll take you back now. "

Ye chen felt a little guilty. After all, if it were not for him, today's incident would not have happened.

"It's fine. It's no trouble at all. Have you finished your side?"

Su Yuhan's father was a very reasonable person. Even if he was brought here, he did not panic much. When he heard the immortal Flying Dagger say that it was because of ye chen, he was not in a hurry. He just waited here quietly. As expected, the person he was waiting for came.

"Wen has already fallen asleep. Let's go down the mountain together when she wakes up tomorrow morning."

"Alright," he said. Therefore, ye chen also stayed the night. When he saw the Azure Dragon sect send the old man and the young man down the mountain the next morning, ye chen finally had nothing to worry about.

At the same time, the sect leader's inauguration ceremony had already begun. Ye chen had just sent the person off when he was immediately brought over by the other side to attend the ceremony.

As soon as he went over, he saw the great mage standing on top of it and starting to cast a spell.

The elders that he had just met yesterday also stood on both sides.

This time, the immortal slaying Flying Dagger did not go with ye chen. Instead, it let him walk the path alone. Ye chen himself was not in a hurry. He swaggered up and did not look at the eyes around him.

The elders on both sides were sweating in their hearts, because in the previous sect leader succession ceremonies, lightning would immediately strike when one reached this position.

Today's weather wasn't very good, so it would depend on whether there would be any changes later!

Ye chen walked up to the top step against the cold wind. Then, he looked at the chair in front of him and sat down without any hesitation.

There was no violent wind. Instead, the dark clouds that had gathered in the sky suddenly dispersed, and the sun appeared. The sun shone on the ground, as if it was shining on everyone.

When the mage beside him saw this, he was overjoyed and immediately started a fire.

"Everyone greets the sect leader!" He shouted at the people below.

It was precisely because he was the chosen one that the people standing below suddenly realized that they could not control themselves, even if they were unwilling. They actually knelt down.

"Greetings, sect leader!" The loud noise reverberated around the altar. At this moment, a bracelet that refracted golden light suddenly appeared where ye Chen's right hand was placed and he wore it on his hand.

It was a clear display of his identity. The new sect leader of Azure Dragon sect was in charge of all the sects on the plain land.

Initially, ye chen thought that it would not take long for him to accept it. However, he did not expect that after sitting in this special position, he still had to do things directly!

"You have to stay in this position for three years. Only then can you completely unload your heavy responsibilities and let birds fly freely in the mountains."

When ye chen heard the words of the Sorcerer, his expression was extremely displeased. He sat there and felt as if he was going to burn the room down.

The immortal slaying Flying Dagger was also a very underhanded move. He had to act first and report later. After all, he had not told ye chen about it before, so he had to do this.

"Don't worry too much. We'll handle these things for you. I'll immediately have my men bring all your family members up the mountain. You'll be in charge of this now."

"You only need three years, and in these three years, you can use the sect leader in the group to make anyone in the sect do things. No one can refuse."

What could ye chen do? He didn't want to stay here for another three years, but there was no way to change this.

Moreover, the immortal Flying Dagger did things very cleanly. By the time he had just reacted, his family had already been brought up the mountain.

Originally, he did not like any kind of power, and he did not intend to continue fighting for anything. However, now that he had such a status for no reason, he naturally could not waste it.

"You were the one who said that I can do whatever I want and assign anyone, right?"

After ye chen received an affirmative answer, he immediately got to work. Recently, the plains had been destroyed a lot because of the war.

Moreover, many of the crops could not even be used. Since the disciples of these sects had nothing to do and had no place to practice martial arts every day, they might as well go and do some farm work!

His order was quickly issued. Each sect had to send at least 100 disciples to live in the countryside at the foot of the mountain and repair the land for the local people, and they had to do it for free.

In the beginning, there were people who wanted to refuse or slack off, but they were all punished and warned later.

In any case, ye chen did not care at all. He was going to stay here for three years. In that case, these people would at least have to listen to him for these three years. Every year, a new batch of people would go down the mountain.

Just like that, three years passed by like a horse in a crack.

For the past three years, ye chen had lived on Azure Dragon Mountain with his wife and daughter. As the sect leader, ye chen was initially not accepted by everyone. Later, they gradually accepted him and even liked this young sect leader.

The reason for this was that ye chen had been very affable since he had arrived.

He knew in his heart that since he had agreed to this responsibility, he had to at least take responsibility no matter what.

He didn't just ask other sects to delete it, he also wanted to help the people in his own sect. Sometimes, he would also want to go up and help.

In short, the people of the sect had completely forgiven these people and had made friends with many disciples.

As the main character in the previous merger of the Alliance sects, the immortal slaying Flying Dagger did not quite understand what ye chen was doing at first and did not support it. However, as it gradually implemented it, he found it very interesting.

In the end, he even fell in love with the life in the countryside. He didn't like the fighting and killing he had in school and living as an elder of a sect.

However, no matter what, three years had passed as promised. Ye chen once again called all the sect leaders over. All these years, they had been responsible in their respective sects. When there was no war, everything seemed to be much more peaceful.

Although ye chen was still sitting here like he did three years ago, he had now become a sect leader that everyone was convinced of.

"It's time for today. I've decided not to do this essay competition anymore. I hope that everyone can work together."

After much consideration, ye chen decided to announce this news. Moreover, he had indeed worked hard with everyone.

He had thought that everyone would support his departure, but he didn't expect that everyone would stand up and say that they hoped he could continue to be the sect leader.

Because the immortal slaying Flying Dagger had really been free and happy these days, it looked like an old naughty child.

"I think you should just keep this position. At most, you can just put your name on it. After all, everyone has their own management system now."

Of course, the immortal slaying Flying Dagger could see that everyone was sincere and hoped that ye chen would continue to be the sect leader. After all, the past three years could be said to have been peaceful and even harmonious.

Ye chen could no longer refuse. After all, it was just a title. He was also prepared to take his daughter and wife to travel around the world.

"Alright, since that's the case, I'll continue to be the sect master."

After the matter was settled, everyone returned to their respective mountains while ye chen went to the small courtyard where they lived.

As soon as he pushed the door open, a small sound hit his leg, and he fell.

"Father! It hurts!" He was not even two years old, and he liked to run around in the yard not long after he learned how to walk.

"Aiyo, you're so naughty!" He wanted to hold his son in his arms and walk into the courtyard.

His daughter, ah Wen, was already six years old this year. She was happily playing alone in the sand. When she turned around, she saw that ye chen had returned and also ran over to ask for a hug.

"Alright, alright, alright, I'll carry you too!" Ye chen wrapped his arms around ah Wen and pulled him into his arms.

"Alright, alright, stop playing. Clean the sand and dirt off the children's hands. We're going to have lunch!"

Su Yuhan put the dishes on the table and brought a bowl of rice.

"There are many beautiful sceneries in the mountains and rivers. After sending ah Wen to school at the foot of the mountain in a few days, I'll let nanny take care of Little Dragon for a while. I'll take you out on Pengfei to play for a few days."

Ye chen had already planned to do this. Anyway, his position as the sect leader was only in name. He did not need to deal with anything, so he had a lot of free time.

It just so happened that the two children were not very old, so he could take advantage of this opportunity. They would go on a honeymoon and when the children grew up, she would bring them along.

"Alright, I'll go with you."

### [Chapter 2698 An Arrogant Disciple!](#)

It was exceptionally cold on the mountain during the new year. Fortunately, ye chen could use his spiritual energy to heat up. At the same time, the disciples of the sect had prepared a lot of charcoal for the sect master's residence.

These few days, he really wanted to go and buy some things for the new year. Then, because of a Wen, he could find a school that would be convenient for him to go to school during the new year. After all, he was already at this age and it was time to learn some poetry, books, and Chinese characters.

So the couple took ah Wen down the mountain together. Because they didn't go down the mountain often, they were very anxious to come out once in a while. Moreover, this matter was really lively.

Especially when it was almost the new year, the number of things being sold had increased by a lot. There were even some small fireworks, which looked cute and beautiful.

When ah Wen was young, he would not go down the mountain. It was only the uncles in the sects who would occasionally bring him down. In short, ye chen, who was very curious about everything, had prepared a lot of silver taels and was waiting for this time to spend them.

As a result, the family of three strolled around from the beginning to the end of the poem. Along the way, they looked at the gaudy things and really wanted to buy them.

The figurines sold by the roadside were very popular since the temperature wasn't very high these few days. There were many children surrounding them and they looked very fun. Ah Wen opened his hand happily when he saw them. "I want to eat candy!"

"Alright, I'll buy you one."

"Our ah Wen is born in the Year of the Tiger, so let's buy a little tiger head!" Ye chen brought his daughter over to pay. Then, they lined up to draw a very beautiful and lively tiger head for her.

Su Yuhan basically bought some meat and vegetables, as well as some pastries. After all, even if she was living in the green Dragon sect, she still had to prepare everything she needed.

After the new year, there would be guests coming over from time to time. The reason why they came out so late tonight was that they were prepared to go to the SU family's mansion directly after buying things.

She bought some expensive desserts and meat on the way back, but the SU family was rich and didn't need them. Su Yuhan just wanted to show her care for her family.

By the time the three of them finished shopping, the sky was completely dark. It seemed that in less than an hour, the stalls would be closed soon, so they did not continue to wait and quickly rushed to the SU family.

Ah Wen liked his grandfather very much. After all, they had lived together for a long time when they were young, so everyone in the family knew that this was Little Miss. When they saw them coming in, they immediately came to welcome them.

Ye Chen had another matter to discuss with Ah Wen's grandfather this time. He hoped that after they left in a few days, they could leave her here.

It would be more convenient for him to go to school, and he would be safe with the SU family's protection.

When Ah Wen's grandfather saw Ah Wen, he immediately came over with a smile and carried her up. He looked at his little niece very gently.

"You guys are finally willing to come down. How can life be better on this mountain than here?"

"We had no other choice. After all, as a sect leader, he couldn't just leave!" Su Yuhan quickly explained for her husband.

"Alright, alright, I know you two are living well!"

Because it was getting late, they were quickly arranged a place to sleep. They were prepared to rest here for the night and then stay the next day. They would ride the Nine-Tailed ROC back in the afternoon.

"If we go out to take action, I'm going to see how the other sects governed by the other elders are doing."

Therefore, he would only be the sect leader for three years. However, Ye Chen still decided to seize this opportunity and lead everyone to change.

Moreover, he had the ability to suppress those who did not want to do anything.

Su Yuhan had no other thoughts. In her eyes, Ye Chen had a reason for everything he did, and she was willing to do it with him.

Not to mention, it was just going to look at other places in the middle of their trip, so it was quite fun.

To be honest, suddenly becoming the sect leader's wife, no matter what, was quite a surprise. Anyway, it was only a short experience of three years. When the time came, she could leave and live a good life alone.

The two of them talked quietly for a while before falling asleep. They didn't wake up until the next day.

They quickly packed their things and had lunch with father and mother Su before flying back to the mountain.

After eating, Ah Wen fell asleep in Ye Chen's arms. When he woke up again, he was already on the mountain.

During the new year, the disciples also bought a lot of things to celebrate on the mountain. Ye chen distributed a lot of food and some money to them. At the same time, they did not need to train and cultivate as usual for the next few days.

The food that the chefs on this mountain prepared for immortal cultivators was more or less too light. Even if they added some meat, it was not much better. Therefore, ye chen usually cooked alone with su Yuhan.

After this year, there would be another half a year and it would be almost a year's time. Ye chen had not gone out at all but his own disciples basically had no complaints about him. In the beginning, some people would try to provoke him but unfortunately, after being defeated by ye chen in one move, they lost all their face. In short, ye chen had maintained a good attitude from the beginning to the end. If the other party provoked him, he would take it seriously. He had even taught him a lesson.

This was the only way to calm the others down. Killing the chicken to warn the monkeys could be used at any time, not to mention that some of them were really a little too weak.

It would be spring soon after the new year. Ah Wen was already five years old this year, so it was time for him to go to school.

Hence, ye chen called her into the room that day and sat opposite her with su Yuhan.

"I'll send you to grandpa's house at the foot of the mountain in a few days. Then, you can go to school. Father and mother will visit you from time to time, but you must listen to Grandpa, okay? You have to study hard in the school and learn how to read. Don't cause trouble. "

This child of his was much stronger than the children of ordinary families, so they couldn't have any conflicts. Otherwise, what if they accidentally beat up other people's children?

It was actually easier to get into a conflict at this young age, but this was a necessary step for children who were going to school.

Su Yuhan was a little unwilling, but she had no choice. She couldn't leave it on the mountain until it was seven or eight years old!

His grandfather's house was at the foot of the mountain, so it wasn't too far away. It was also convenient for someone to take care of him.

"I'm going to school. That's great! I want to read books and make more friends!"

Ah Wen was still a child, so she was very enthusiastic about all this. Therefore, ye chen and su Yuhan did not wait long. When it was almost spring, they put on beautiful clothes and sent her down the mountain.

"Father and mother are going out to travel, but they will fly back after a period of time to see your learning progress. You can't let us down by then, right?"

"Of course. Wen will definitely study hard and listen to grandpa's words!"

After the little girl finished speaking, she ran to her grandfather's side without any reluctance and grabbed his old hand.

"Don't go out for too long. Otherwise, my little niece will miss you and she will definitely cry and throw a tantrum. When that happens, even my old bones won't be able to take it."

Father su said with a smile.

To be honest, if there were no children in his courtyard, it would be a lot more empty.

Therefore, when he heard that ye chen and su Yuhan were going to send the child to him, he was very happy.

This way, the house would be more lively. After school was over, he could go and pick up the child. Just thinking about it made him feel that it was really a happy family.

Thus, the matter was decided. Ye chen and the others sent the children back and confirmed which school they would go to before leaving the city together.

The first peak they were going to was the chubby elder who had some opinions about him before. However, he had been convinced by ye chen at that time, so he did not say much.

Now, ye chen also wanted to see if the policies that had been implemented recently were being implemented well. He also hoped that the disciples on the mountain could come down from time to time to help the farmers.

The speed of the flying bird was even faster after returning to this place. As a flying spirit beast, there was basically no Pengfei here. In the land of the spirit province, there were only one or two six-tailed Pengfei occasionally.

Therefore, when ye chen and su Yuhan sat on Pengfei and flew in the sky, about to rush to the peak, the passing farmers and disciples all looked up. At the same time, most of them knew that ye chen had come out.

At this time, ye chen still did not know that he was not as respected in other places as he was in the sect on his peak. There were even many people who coveted his position.

At that time, only a few elders had come for the meeting, and the disciples who had held the ceremony were not qualified to participate at all.

Therefore, when they found out that the position of sect leader had been given to someone else, they were all very unconvinced.

Moreover, ye chen did not usually leave the mountain, so there was not even a situation where he had to face it head-on.

This time, after he came out, he was immediately targeted by many experts in the sects. In their eyes, they should quickly remove this sect leader position and let their own sect leader take it.

Therefore, as soon as ye chen had asked Peng Fei to stop, another one came up to him. He did not look like someone to be trifled with. The clothes the young man was wearing clearly showed his status.

The young man was followed by two people dressed as disciples. From the looks of it, they should be under ye Chen's command, although he did not know what the other party was up to.

But in this kind of situation, the most important thing was of course to remain calm, so he had Pengfei fly around on his own and then walked up to him.

"May I ask if your elder is in the residence? Can you lead the way?"

As a sect leader, Ye Chen's attitude was still very good. Moreover, he did not think that if he did not provoke others, they would chase after him endlessly. However, he did not expect to meet someone who was already prepared to cause trouble for him.

"Are you the sect leader of the Azure Dragon sect? Why does he look so young? Do you really have the strength?"

Ye Chen was still unaware of this. As he had never left the mountain, even if some rumors were to spread, they would be denied by everyone. After all, in their eyes, all of this was the doing of those Wizards!

"I am, but why are you looking for me?"

Ye Chen did not immediately turn the other party's offensive tone into anger. He still calmly asked him a question.

"You don't need to know who I am. I want to challenge you now. How about it? Do you dare to try?"

At this time, there were already many disciples surrounding them. After all, the place where Nanzhong came down from was not a small road. Everyone saw this but no one came up, wanting to stop or persuade them.

"Oh my God, eldest senior Brother Han Feng actually dared to provoke that sect leader. Isn't he too courageous?"

"Don't tell me you really believed those rumors? I think he just doesn't have any strength, and this time, I really think that eldest senior Brother Han Feng will win!"

"I'll just wait and see for now. I don't think the other party has the strength anyway. "

The people standing around had already started to discuss madly, each of them felt that what they said was right, not to mention that Han Feng was not a simple person, he was the disciple of an inner sect master!

He was the eldest senior brother that they respected a lot. He wasn't old enough, but his strength was very strong. This was a great advantage in the sect.

Ordinary outer sect disciples like them were very eager to enter, but they didn't know when they would be able to enter. In short, the position of heaven's pride wasn't something that just anyone could sit in. Everyone had their own ideas.

Ye Chen chuckled and replied.

"So what are you doing here? Are you trying to challenge me?"

Ye Chen's nonchalant attitude had clearly angered the young man opposite him. His fists were clenched tightly and his breathing was slightly different.

"Of course, let me see your strength. It's my honor to spar with the sect leader, how about it? You won't disagree, will you?"

It sounded like he was speaking respectfully, but in fact, he was gritting his teeth when he said it.

"Of course you can, and I think your courage is commendable."

After ye chen finished speaking, he raised his hand, signaling for the other party to make the first move.

Han Feng also jumped up without hesitation and raised his hand to slap ye Chen's chest. Who knew that ye chen would Dodge it so easily? he then continued to hit ye chen with two or three palm strikes but he did not expect ye chen to Dodge all of them so easily.

"What's going on? Why did the sect leader keep dodging? What is this?"

### [Chapter 2699 2704-Convicted!](#)

Ye Chen's movements seemed to be casual but in reality, he had easily dodged every move. His eyes were also fixed on the disciple in front of him.

To be honest, just by looking at his expression and movements, one could already tell where he was going to hit next.

This was really the case of a newborn calf not being afraid of a Tiger, so young. Your child only thinks about provoking others all day long.

There was always a higher mountain, and it was far from enough to just see the person in front of him.

The disciple named Han Feng was obviously angered by ye Chen's actions.

He had a heart, but the other party had been hiding like this the whole time. He was not willing to fight back at all, which made him very angry, as if he had been humiliated.

The disciples who were standing at the side to watch the show began to talk again.

After all, in their eyes, this sect leader was not good enough. In their eyes, he was not as far-sighted as this so-called eldest senior brother in front of them.

It was a pity that they had been blinded. Today, it was time to let them see if people should be more humble.

"See, I told you this sect leader is no good. He's been hiding from the start, as if he's not willing to fight at all. This won't do. If he does that, others will think he's weak."

"That's right, that's right. If you ask me, I think it'll be eldest senior Brother Han Feng's match. I don't think the sect leader will win this time!"

Ye chen did not care about the comments at all. He did not even spare them a glance.

Su Yuhan, who was standing at the back, also looked calm.

In her eyes, ye Chen's current behavior was like dealing with a child. He had a backup plan.

Therefore, she was not worried that her husband would lose. As expected, under the fierce attacks of Han Feng, ye chen had been dodging.

This made Han Feng more and more angry, so he immediately rushed forward with a fierce move. This time, even if he hit the front, he would definitely not let this person escape!

However, he did not expect ye chen to hit him head-on without even the slightest stir!

He raised his hand very gently, as if he was doing Tai Chi in slow motion. Then, he suddenly raised his head.

An extremely powerful palm wind surrounded him, and he felt as if his fist was being wrapped.

Then, like a kite with a broken string, his body flew up to a height of about two meters in the air and then fell down hard. He was completely defeated!

How could it be like this? he had clearly prepared everything, and his next palm was going to send this so-called sect master flying.

At that time, her reputation would be even higher, and she would be able to completely trample on the dignity of these parents!

It was a pity that he was the one lying on the ground. Everything seemed to have taken a turn for the better, completely opposite!

The surrounding disciples immediately let out a cry of surprise. This time, no one dared to gossip anymore. In their eyes, this was a battle with a huge disparity in strength!

He thought that Han Fei's eldest brother would win the competition by force.

Who knew that the sect leader would just lightly slap him to the ground, and from the looks of it, it should be very difficult for him to get up in a short time!

Ye chen raised his eyes and looked at the disciples around him. He did not stay for long before he retracted his gaze. Then, he walked step by step toward the so-called eldest senior Brother Han Feng. He looked down at the figure on the ground and said condescendingly,"

"It's only natural that you're not convinced by me, but sometimes you still have to learn all kinds of things. You're only a disciple, no matter what, it's not your turn to provoke me. "

Ye Chen's tone was very flat. In his eyes, he was just reprimanding a disciple.

However, in the hearts of the disciples present, the image of the sect leader had completely subverted their previous imaginations.

It was only natural for a person of this strength to be able to reach this position. And they were just small disciples.

Strength was like an ant to the other party. At first, when he saw ye chen dodging, he really felt that he could not do it.

But now, it seemed that he was completely leaving face for the other party. Who knew that he would continuously anger Han Feng all of a sudden.

To be honest, it was quite embarrassing for such a result to come out.

Han Feng wasn't the kind of person who didn't appreciate people's kindness. He raised his eyes and looked at the man in front of him. He really felt a great shock in his heart.

To be honest, he had always been the center of attention since he was young, and he had always been the green light in the sect.

He had never thought that one day, he would be taught a lesson by someone else, especially when he had gone too far. So, when he was lying on the ground now, he realized that he had really made a mistake.

At this time, he actually didn't care much about his face. He slowly used his elbow to support his body and then stood up in a sorry state.

He looked at the young sect leader in front of him, who should only be a few years older than him, but his strength was much higher than his.

Then, he slowly raised his hand and made a deep bow.

"Sect leader, this disciple is sincerely convinced."

His tone was very serious, and it could be seen that he was sincere in admitting his mistake. Ye Chen glanced at him and then looked away. It was probably a forced response to his poor apology.

Then, he turned around and walked over with Su Yuhua, as if it was just a small interlude that had no effect on him at all.

This time, he came to see how these disciples were doing. Who knew that after just arriving, he would be so intimidated by the other party. It was really ridiculous!

Everyone looked at the sect leader's departing figure and knew in their hearts that this wasn't something that small disciples like them could handle. Sure enough, there was a certain reason for the sect leader inauguration meeting half a year ago.

It was just that ordinary disciples like them couldn't come into contact with it. In fact, at this time, if they thought about it again, they would be able to figure it out.

If Ye Chen's strength was not enough, how could these sect leaders who were later conferred the title of elder sit and wait for death?

They had always been subservient to the strong. If one was too weak, how could one become their commander? Now, Ye Chen's strength had given them a blow.

"So we've always been the fools!"

"No wonder he can be the sect leader. Everything can be traced. I'd better practice my own Kung Fu!"

Ye chen had not told anyone about his arrival. Unfortunately, after the eldest senior brother's antics, everyone on the mountain knew that he had come.

To be honest, ye chen did not hate the sect leader who had offended him last time. Moreover, the last time was just a normal sparring session in his eyes. Therefore, he had subdued the other party in less than two moves.

However, he didn't feel too proud at all. This time, he didn't intend to look for trouble. He just wanted to have a face-to-face chat.

What ye chen did not expect was that the sect leader was not as repulsed by him as he had thought. Instead, the sect leader immediately came out to welcome ye chen upon hearing that he had arrived.

"Younger brother ye, you're finally willing to come out. This half a year on the mountain must have been very sullen!"

Ever since elder Luo had sparred with ye chen, he had been seriously improving his strength.

Moreover, he also had a little more respect for ye chen. Therefore, even if he was at least twenty years younger than him, it was the absolute truth that he could win in terms of strength.

"It's also because this kind of child was still young at the time. Now, he has been sent to school, so the two of us came out for a walk."

Ye chen replied with a smile. He thought that he had been too narrow-minded to measure the heart of a gentleman. It seemed that not everyone was dissatisfied with his position.

It was as if elder Luo had received a guest from afar. He had done a good job. He had heard the news from his subordinates that his eldest disciple had dared to offend the sect master. He had severely punished her and asked him to kneel in the ancestral hall for three days.

"But I didn't expect that I didn't know you were coming in this time, so I didn't make any arrangements. This actually happened. It's my fault."

I said helplessly but ye chen smiled and rejected me.

"It's fine. It's not a big deal. Besides, he should have learned his lesson. He'll change for the better."

He was very confident about this. After all, he had just defeated his opponent in a week. It would obviously leave a big shadow in his heart, which was not a big resistance at his age, but it would definitely motivate him.

The fact that he could apologize in time instead of leaving in anger was enough to prove that this eldest disciple was still confident of becoming stronger in the future.

Some time ago, ye chen had arranged for these disciples to go to the homes of the people to help with farm work in addition to practicing dance.

Although this matter had just been announced and many people had opposed him, ye chen was still the sect master. These people could do nothing but listen.

However, he was also clear that apart from his own disciples, he didn't know if the other sects would really do this.

In short, it would depend on the attitude of the leading sect leader.

Other than traveling, he also wanted to set an example for others. He hoped to tell everyone that this was very useful.

He didn't want to stay on the mountain all the time, as if he was cultivating, but in fact, he could completely separate himself from the world.

After listening to ye Chen's request, elder Luo did not show any panic. Instead, he nodded seriously.

He told ye chen that he was serious about these things. Moreover, even if his own disciple objected to it in his heart, he could not say it out loud. After all, he was a very dignified person as the sect leader.

In any case, this was ye Chen's first place here and it was better than what he had imagined.

Basically, even if everyone was unwilling, they could not directly follow orders from kangcheng gate. Therefore, ye chen was warmly invited by elder Luo to have dinner before leaving the mountain.

Not only did he want to look from the top of the mountain, but he also wanted to go down the mountain to take a look.

In any case, not many of the disciples in these sects had seen his appearance before. It was a good opportunity to take advantage of the current situation to understand their real situation more in-depth and directly.

After the two of them brought Peng Fei up, they had Peng Fei stay outside while they walked into the small town together.

Although it was not as big as the city at the foot of the Green Dragon Gate, it had everything it should have. It was just that the place was a little small.

Ye chen and the others took a few turns and found an Inn. They paid the shopkeeper and checked in.

Lu Zhang had hoped that they would live on the mountain but ye chen was not willing to. Moreover, he felt that there would not be a problem if elder Luo handled the situation.

What he wanted to see was whether these disciples, who were placed in the farming towns, were doing their work seriously.

Since they had arrived at night, they did not go out. After resting at the inn for a night, ye chen left the inn with su Yuhan the next day and bought some food at the market.

After that, they strode towards the fields of the people. These days were good days for sowing, so the villagers in the countryside should be busier. This was a good time for the disciples to help.

After directly facing a piece of farmland, he could see the figures of two disciples in the distance. They were still wearing the clothes of the mountain.

However, it looked a little simpler. Moreover, it was cleaned up very well. He was helping the farmers with their work. His technique was relatively neat.

Ye chen nodded in satisfaction after seeing this. Not bad, it was just as he had imagined. He continued to move forward and the subsequent encounters were also quite good.

However, when he walked past a small forest and came to the land behind, he did not see any disciples. Instead, there were only some farmers working.

Ye chen walked over with some doubts. Logically speaking, someone should have helped this piece of land and there should be enough people. When he left the mountain, he had carefully confirmed with elder Luo.

Elder Luo had handled the matter well and had confirmed that there were enough people, but why didn't ye chen sneak over to this house? when he reached the back of the field, he found two disciples sitting under a big tree behind the sky and drinking tea.

Their clothes were also very clean, and it was obvious that they had not really gone to work. They had only come here to pass the time.

Ye chen felt a little angry but he did not show it. Instead, he walked over nonchalantly as if she was just a passer-by.

"Why are you two drinking tea here? Shouldn't they be in the teahouse? It's so hot and far away here, it's not comfortable at all, right?"

#### [Chapter 2700 2705-Skiving!](#)

Ye chen himself advocated a more simple folk style, so the clothes he wore were also very ordinary. Basically, he was wearing the same clothes as the ordinary people on normal days.

So when he walked over and took the initiative to ask this person a question, although his words sounded like a question, in fact, he didn't feel threatened at all.

Therefore, the two of them only raised their heads to look at him with a disdainful expression.

"What's wrong? Could it be that this piece of land belongs to your family? You don't really think we'll help you with your work, do you?"

"But the disciples in the other fields I passed by just now were all helping seriously. Why didn't you two do the same?"

Ye Chen's question clearly made the two of them feel a little embarrassed but it did not make things better. In fact, they even felt a little angry from embarrassment.

"What does this have to do with you? If you have your own land, go get it. If it's not your family 's, then don't worry about us!"

"I'm telling you, we're disciples of Mount Tai. Even if we're sent here, we don't have to do farm work all day long. Those people are just too stupid. Who would be willing to work without complaint?"

The two disciples were talking one after another, and they had to make themselves quite happy. Moreover, because they were exonerating each other and exonerating themselves, they were not in a hurry at all.

Su Yuhan was also very angry when she heard that, and she said sternly.

"Didn't the sect leader of the Green Dragon sect ask you to help him plow the land? Why are you slacking off here? since you've received this order, you shouldn't be so lazy. "

In fact, although the two of them were dressed in coarse clothes, their temperament was completely different from those ordinary people and disciples.

It was just that these two disciples were relying on the fact that no one was watching them at the foot of the mountain, and the two people in front of them didn't seem to be any powerful big shots, so they dared to provoke them indifferently.

But what they didn't know was that this time, they had really met someone they couldn't afford to offend. And the despicable practice of sitting here drinking tea and eating snacks was also worthy of criticism!

Therefore, when ye chen saw that the two of them had no intention of continuing to work, he decided to teach them a small lesson!

In any case, after walking around like this, he only saw the two of them doing this. They didn't even want to put on an act. Was there any need to save face for each other?

The reason why he let them go down the mountain to help the people with their farming was to reduce the pressure on the people. This way, he could teach them better.

It was also considered a relatively normal social practice activity. Otherwise, it was somewhat unrealistic to stay on the mountain all the time and be isolated from the world.

However, he didn't expect these two disciples to be so insolent. If this piece of land wasn't good enough, when the other crops grew, only this piece of land would remain barren.

Then, the commoners would be the ones who would be in a miserable state, while this group of disciples could just pat their butts and turn around to go up the mountain.

"I don't know if the two little brothers are ready to work today, or are you just wasting time here and will come back to work when the time comes?"

Ye chen stopped his wife and said in a joking tone as if he was discussing something. As expected, these two disciples immediately went overboard.

"That's only natural. Otherwise, do you really think that a disciple of Mount Tai would do such a thing for the common people? When I was at home, I had to go to the mountains to cultivate without touching the sun or the water. It was already very tiring for me, and now that stupid sect leader wants us to do such a meaningless thing!"

"That's right, that's right. I don't know what they're doing. Isn't this just a formality? I'm not willing to do it anyway!"

When ye chen heard their words, he was so angry that he laughed. It was clearly his fault but now they pushed it to someone else. They even made it sound so clear and logical as if it had nothing to do with them.

"So, you two are not going to do it, and you also think that the order given by the sect leader is very problematic, right? then why don't you report it directly to the higher-ups?"

In ye Chen's eyes, their previous huge battle had hurt many civilians. Otherwise, they would not have to waste so much time and effort to help others.

However, these disciples didn't have such a feeling at all. They really didn't have any sense of crisis!

If he couldn't even do this, he couldn't even talk about improving his strength. He could only waste his time among the common people by relying on such a small strength.

Since that was the case, he might as well kick him out directly. Since he was not qualified to sit in this position, he could go back and be his little young master!

"Then why do you want to go to Mount Tai? Can't I just run a small business at home? How tiring would that be?"

Ye chen said this on purpose. He wanted to hear the true thoughts of these two.

"We're not stupid. When I went up the mountain, I put in a lot of effort. My family even gave me a lot of money. I also worked so hard to stay on the mountain for more than a year. Now I've come down to be a commoner. I'm not willing to do that. "

The more the disciple spoke, the more he felt that he made sense. After drinking the tea in his cup, he even wanted to lie down and take a nap for a while. Ye chen, on the other hand, was at his peak of anger.

"I now order you to leave Mount Tai forever. You will no longer have the right to return."

Ye chen looked at the two people's lazy appearance and said very straightforwardly. His voice was not loud but it was enough for the two drowsy people to hear clearly.

As expected, the two of them woke up immediately and came over to look at the man in front of them with wide eyes.

Just based on their status, it was naturally impossible for them to meet the sect leader of the Green Dragon sect. Therefore, in their eyes, they were not that weak. And now that they had seen him here, they were so shocked that they were speechless.

They weren't fools. The appearance of the person in front of them, his image, and his age, wasn't he about the same as the sect leader who had given them this order?

And the woman beside him should be the sect leader's wife!

Cold sweat instantly covered their bodies. After the two men looked at each other, they could see the fear in each other's eyes!

If the person in front of them was really the sect leader, then it would be difficult for them to turn things around!

Their families had already spent a lot of effort to send them to Mount Tai as disciples, and they had high hopes for them. But now, they were actually going to kick them out for such a small reason? This was simply too exaggerated and excessive!

The two disciples' expressions changed a lot, but they were still very afraid of this matter. Under ye Chen's gaze, one of the two asked very obsequiously.

"Who are you?"

"I'm the Azure Dragon sect's sect leader, ye chen. "

When he said his name, the two of them were completely shocked. At the same time, they saw the waist tag on ye Chen's belt!

The man, who they had never looked at before, suddenly became very serious and dangerous in their eyes.

How did it become like this? wasn't this really not giving people a way out?

"Sect leader, we were wrong. We really won't do this again. It's our fault for being lazy. We will definitely work hard on this land!"

The other disciple was quick to react and immediately knelt on the ground. He no longer had the noble air he had earlier and was almost on the verge of tears. He knelt at ye Chen's feet and began to apologize in fear.

Ye chen looked at the two of them expressionlessly. Sometimes, power was very useful. At least, it could make people feel fear, even if he was only a sect leader in name.

"Zhang Meng, can you give us a chance? I'll immediately go help the people farm, is that okay?"

The glasses of these two people were really good. They looked like they were about to cry. Although ye chen could tell that they were just trying to deal with him, their slightly exaggerated acting really made people speechless.

Therefore, he felt that it was quite interesting to watch as a bystander, so he didn't refuse at all. He even smiled and nodded.

"Good, since the two of you have already put it this way, I'll hold onto my decision for the time being. You can now search the entire area. You are cultivators, so your strength should be greater than ordinary people, so your speed should be quite fast. I'll drink your tea here and wait."

Ye chen could not help but say. Then, he walked over and sat on the soft cushion that the two of them had been sitting on earlier. He also let su Yuhan sit beside him.

"Go ahead. I also feel that the sun is quite comfortable, so I'll be your supervisor for free. What do you think?"

With ye Chen's attitude, no one could refuse him. The two of them could not do anything even if they were uncomfortable. They picked up the hammer beside them and buried it in the ground.

The two of them gradually walked further and further away to the other side of the world. Then, they began to plow the land. Ye chen sat there and watched as the teacup was changed into a clean one.

Then, he poured a cup of tea for each of them, as if he was really here to be a supervisor on vacation.

"Can the two of them really repent? If you do a good job today, then we can trust you. "

Su Yuhan looked at the two figures in the distance and said uncertainly. Ye chen only shook his head lightly after listening. He could not tell what she meant and did not know if he believed her or not.

On the other hand, ye chen looked like he was just sitting there and waiting, but in reality, he had already used the sound-transmitting wind to transmit the contents of the conversation between the two people over there.

Although it did not seem very proper, ye chen did not think there was a problem. In his eyes, these people were not worthy of him to talk to them properly.

Sure enough, the voice that came from the wind was the two people talking.

It looked like she was not saying anything and was just working with her head down. However, at least she did say a lot of such small talk. Ye chen laughed when he heard her.

"How could we be so unlucky to have been slacking off for so many days? how did we end up meeting this King of Hell today? hasn't he not come out of the mountain for half a year? Why did you suddenly appear?"

"Yes, yes. I don't believe what he just said is true. He's just a sect leader in name, but he really thinks he has power and influence. If it wasn't for the fact that we don't want to cause trouble, who would bother with him?"

The two of them continued to speak, still expressing the indignation in their hearts, which sounded a little ridiculous.

"When is he going to leave? Don't tell me he's really going to sit there and watch us the whole day!"

"I don't know either. Shouldn't sect leaders be very busy? Why was he so free? Forget it, let's hurry up and work. We're just unlucky. Anyway, we're only working for one day!"

After the two of them finished complaining to each other, they began to plow the land. However, their speed was really slow. On the one hand, it was because they had never done it before, so they were not very familiar with it. On the other hand, it was because they were unwilling to do it from the bottom of their hearts.

As for ye chen, he sat there and looked at them. He felt a little emotional in his heart. Since they were not willing to do what they could do, they might as well go up the mountain and sweep the garbage!

In any case, the disciples who were sweeping the floor would probably want to share their duties with others. He only needed to send a voice transmission and the news would be sent back.

Ye Chen sat there and drank a cup of tea unhurriedly. Then, he picked up the snack beside him and tried it. It was indeed comfortable to sit here!

Compared to the disciples who were working, they were much better. No wonder these two disciples were so unwilling. However, they had only been working for less than half a month, and they actually chose to be lazy?

The rest of the time, they would be eating and drinking on the mountain. Most of the food and drinks were from the tributes offered by the commoners to protect the safety of their land.

But now, they were actually unwilling to do such a small task. They more or less did not deserve it.

Ye Chen's heart was filled with sorrow. This was the mountain closest to his own and the sect leader of this sect was more strict. However, there were still such lazy people who were caught by him.

Then wouldn't those that we don't manage or those that don't have any hard requirements be even lazier?

When he thought of this, he felt a slight headache.

However, since that was the case, he would go and promote them. It didn't matter if he had the time! It could be considered as learning from the other peaks.

Time passed by little by little, and these two people finally got half of the land. This was only one mu and three parts of the land, not much at all.

The sun had also turned from the idle sky in the morning to the other side, and they were about to approach the mountain.
