[Chapter 2711 2716-Candidate!](#)

Ye Chen had a strong sense of responsibility. Once he accepted this task, he would not let it go easily.

Although the four sect leader candidates didn't seem to be completely at ease with him or have enough respect for him, he didn't mind. At most, it would just be a competition.

The names of the four candidates were Mo Shan, Mo Liu, Mo GUI, and Mo Yue.

Of course, this was a name given by their sect master. After Ye Chen had a brief introduction, he began to announce this news to his disciples.

After all, he had shown his card the moment he arrived. Even if these people were a little unwilling, they could not say anything.

"Brother, do you think he's reliable? Now that he's here, can we still carry out our plan?"

Mo Yue looked at Mo Shan and said with a frown.

The two of them were biological siblings. They had been sent to the mountains together since they were young and had been studying hard in the Traffic Police Department. It was a pity that after the two of them had broken through to the next realm, they had never felt the feeling of rising.

This situation was very unfavorable for them. As far as the strength of the two siblings was concerned, the other two sect master disciples were slightly weaker, so the two of them had already planned it out.

He would use a little trick to take this position.

After all, in their eyes, he was already a proud Son of Heaven, so he should rightfully sit on this seat.

However, if there was such an irresistible obstacle in the middle, he could only do a little trick.

Mo Liu and Mo GUI loved to spar, and they had also agreed to meet in front of the waterfall at the back of the mountain today.

"We just thought that we would be born between you and me. Do you want to be one? If you want to be me, you'll let me be?"

Mo Liu raised his sword and stabbed it, but Mo GUI easily dodged it.

"No need to give way. What's yours is yours. No one can take it away."

Mo GUI did not like to talk much, so most of the time, when Mo Liu spoke for a long time, he would only reply with a few words.

"You! In any case, I don't think that pair of brother and sister are qualified. Forget it, forget it. There's no need to talk about them. "

After Mo Liu finished speaking, he felt that he had crossed the line a little, so he immediately kept his voice and continued to fight.

Usually, the sect leader himself had a clear idea of the strength of the four of them. In short, he had his eyes on Mo Liu and Mo GUI.

However, he couldn't say these things for the time being, because he couldn't say anything at all. He also didn't expect that the disciple he taught with all his life's knowledge would actually do such a thing to him.

And now, he could only be trapped in his own room.

Mo Liu and Mo GUI wanted to see him but they only came once and were sent out by mo Yue and Mo Shan.

In short, the sect leader needed to rest, but in reality, it was only because he had used his Qi to temporarily suppress the sect leader's strength and his reaction that he looked like he was in a vegetative state.

Almost no one could have thought of such a sinister method. After all, only the two of them were secretly plotting this.

Moreover, it was also because mo Yue would usually take care of the sect leader's health that the few disciples who took care of her had all been bought over.

In any case, mo Shan and Mo Yue were determined to get the position of sect master. Who would have thought that ye chen would suddenly appear and disrupt their original very straightforward plan?

Ye chen quickly settled down and had repeatedly asked about the sect leader's current location. He wanted to at least meet the sect leader once. However, when he went to the sect leader's courtyard and opened the door, he saw the brother and sister sitting by the small pavilion.

"Mo Shan and Mo Yue greet sect leader."

The two of them did not hesitate at all. 'It's done immediately. You're just a few words.' Then, they looked at ye chen with some vigilance.

"I'm here because your sect leader invited me, so I want to see how he's doing. Is it convenient for me to meet him?"

As soon as ye chen finished speaking, mo Yue immediately denied it.

"The sect leader's health is a bit poor right now, and it's not convenient for him to meet guests."

Ye chen listened to his words indifferently and glanced at him. Then, he fixed his gaze on the door.

The door was tightly closed, and the two of them were sitting there. It looked like the other nurses were not around.

No matter how much he said, there were still some things that made him feel suspicious, even though the sect leader did not directly express his suspicions in the letter.

However, it was also because he had decided not to come out and looked for someone else.

And it was obvious that someone had the intention to profit, which was why so many things had happened.

He was now seriously suspecting whether the sect master in the room could still think and solve the problem on his own, or whether he had the ability to walk out.

As for what was controlling all this, it was unknown.

In short, the message sent by this camel peak sect leader was already more than half a month ago. After such a long time, he did not know what had happened.

"Are you sleeping? If he's awake, then it shouldn't be a problem to see him, right? at most, I can just see him outside the door?"

Ye chen spoke very generously as if he was discussing with them but in reality, his tone was extremely firm and did not allow any room for doubt.

Mo Shan had been silent all this while. However, he had accumulated a lot of thoughts. Even though he did not show it, one could sense that he was on the defensive.

This made ye chen feel very uncomfortable. At the same time, he began to suspect that these two people were not as good as the other two disciples who had already voiced their doubts on the day he arrived. They could not hide their doubts at all.

He really didn't take himself seriously, did he?

"Our sect leader is currently resting. Because his body has been getting worse and worse recently, he's very sleepy. The two of us just came out after seeing him fall asleep, so it's really not convenient for us to come out now."

"Alright," he said. Ye chen did not continue to force them. His casual reply had left the two disciples at a loss for words. They did not expect him to be so difficult to deal with. How did he manage to get away with it so easily?

"Then I'll wait until tomorrow to see. Anyway, it doesn't matter if it's just a little while. The day after tomorrow, you will begin your competition. I will choose the sect leader fairly, but you two seem to be more concerned about the sect."

Ye chen had said this on purpose to make the two of them lower their guard. As expected, after he said this, the expressions on the two of their faces became more restrained, as if they were relieved.

"How did you adopt us when we were young? so, of course, we're closer to each other, just like our own children."

When mo Yue saw that ye chen had relented, she immediately continued the conversation and explained to him.

When ye chen heard this, he nodded and did not ask any more questions. After a few simple words of greeting, he turned around and left the sect master's residence.

Then, he walked towards the courtyard of the other two disciples. From afar, he could hear the sounds of fighting.

He pushed the door open and saw that the two of them were actually unable to beat each other. This move was only about hitting the point, and there was no direct sense of attack.

Naturally, the two men also saw ye chen and immediately stopped what they were doing. He saluted ye chen.

"I'm not here for anything important. I just wanted to inform the two of you that we'll be having the competition the day after tomorrow."

"By the way, I was just about to go and see your sect leader, but who knew that he actually fell asleep. I don't know how his body has been recently. It's really difficult to meet him!"

"By the way, have you two seen your sect leader recently?"

"We've never visited him before, but we've only exchanged a few words from a distance. Besides, the sect leader's qi and blood are really weak, and his voice is very simple, as if he couldn't breathe."

Mo Liu was also trapped on this mountain with very strict rules, but he had a very warm personality and could talk without stopping.

Mo GUI didn't say anything, but he nodded after hearing what he said. The meaning was the same.

When ye chen heard this, he found it even more interesting. It seemed that there would be something interesting happening at this sect leader election.

He hoped that some of the Foxes wouldn't give themselves away too quickly. Otherwise, everything would be less interesting.

"Alright then. I'm just here to see how you guys are doing. Prepare well. I can see that you two are quite talented."

Ye chen chuckled and turned around. After he left, he kept his expression.

As the head of a sect, he would definitely not allow such a thing to happen in front of his eyes.

Not to mention that this was the coveting of the sect leader's position.

If this was really a conspiracy, then the person behind the scenes wouldn't be easily forgiven with a few words.

And he had decided that he would sneak into the factory's entrance tonight to see what the sect leader was like. At least he had to be confident.

When he came out again, he told su Yuhan that he was going to tell the other disciples in inner and outer Mongolia about this news.

The day after tomorrow, they would gather together to watch the competition.

This way, it would be absolutely open and fair.

Even if he wanted to do something, he would have to consider if he had the ability to do so.

Otherwise, it would bring more than a little trouble.

He walked back to his place while thinking about it. Then, he saw su Yuhan coming back. After they closed the door, they discussed the matter together and decided to go and find out what was going on in the evening.

This matter was definitely not as simple as it seemed on the surface.

When su Yuhan went out to make the announcement, she also asked some disciples about their understanding of the four.

Of course, most of them were inner sect disciples, and outer sect disciples couldn't even come into contact with these people. It could be said that the division of classes in the sect was relatively clear.

From the words of these disciples, he roughly understood that these four people were the type who usually devoted themselves to cultivation.

Of course, a sect like this would usually have a duel within the sect every few days.

Most of them, who were slightly higher and more capable, would set an example for the remaining disciples.

This was their usual performance. Through understanding, they knew that Mo Liu and Mo GUI were stronger.

Although mo Yue's instincts were the strongest among female cultivators, she was still a little weaker than these two.

On the other hand, mo Shan seemed to be the elder brother and should be the most stable and powerful one. However, things did not go as he wished.

He was slightly weaker than the other three, but the difference was not big. At least, in the eyes of these disciples, the difference was not much.

But in the sect leader's eyes, the difference was very clear. Moreover, mo Shan would be punished by the sect leader after almost every battle.

Mo Yue would do it occasionally, but the other two would usually get some looks of praise and praise. In short, there was a bit of difference between them.

After su Yuhan learned about this from many sources, she immediately explained the matter to ye chen when she returned.

After all, there were times when these ordinary disciples would understand more than those on a deeper level. Just like now, they had an invisible understanding of the gap in strength between several people.

According to ye Chen's feeling, these four people should all have some signs of wanting to become sect leaders, especially the brother and sister. They seemed to be extremely eager for this position.

"Tonight, we'll go and see how the sect leader is doing. In any case, we shouldn't be too anxious to alert the enemy, otherwise it won't be easy to deal with."

After the discussion, they pretended to rest after dinner. After sleeping for four hours, they immediately woke up and quietly walked out of the room.

Although they hadn't gone over yet, they had already guessed that there would definitely be many guards, but they didn't know if they were in the open or in the dark.

The two of them had already prepared in advance. They were each dressed in black, so they had their faces covered. From the outside, no one could recognize who they were.

This way, even if he was suspected, he could shirk responsibility. As long as he could not see her face clearly, everything was fine.

The two of them followed the route that they had memorized earlier and quickly arrived at the back of the sect master's residence.

The night was dark and this place was extremely quiet. It was much quieter than the courtyards where ordinary disciples usually lived, as if there was no one around.

Ye chen stood by the wall and jumped in with a flip. Su Yuhan walked around the courtyard.

Ye chen had thought that there would be guards but to his surprise, there was not a single one. He pushed the main door open and walked in.

He was still a little nervous, so he drew his sword from behind him and walked to the bed step by step. He gently used the tip of the sword to cut open the curtain.

To be honest, he couldn't hear any breathing, but when he opened the bed, he found that there was no one on it!

"How is that possible?"

[Chapter 2712 Poison Accumulation!](#)

"How can there be no one?"

Ye chen suddenly realized that the two addresses had been switched. When he asked them tomorrow, they would definitely have a good reason to explain and might even make bogus accusations.

He didn't leave immediately after realizing this. Instead, he began to walk around the room to check.

Anyway, he had already guessed that the other party must have known that he would be coming tonight, so it was impossible for them to send people to arrest him.

However, he had missed. This was really not very fair.

From every angle, this room didn't have any signs of life.

Therefore, the person who lived here most likely couldn't move freely and probably didn't stay here usually.

Yes, yes, yes. Ye chen was very confused. He did not know why these two disciples would go to this extent. Was it really just for the position of sect master?

Just like what they said, they were brought up by the sect leader. Logically speaking, even if they didn't know how to be grateful, they wouldn't harm others.

Could there be something else?

In this world, other than jealousy and grievance, there was another thing that could make people change, and that was desire.

It was very likely that there were other good things waiting behind this sect leader, right?

Otherwise, these people wouldn't be fighting over it with such tit-for-tat.

Especially this pair of brother and sister, it was obvious that they had already laid out a big plan before he came.

Perhaps he should try to find out more by beating around the bush. Perhaps he could get some clues this way?

He stayed in the room for a while and didn't find anything suspicious, so he left.

Su Yuhan came in at the same time. She didn't find anything around the yard, but it was already very suspicious.

Why wasn't there anyone in the sect master's residence, and there weren't any guards around?

Logically speaking, the current sect leader's body was not in good condition, so he should have arranged some manpower.

All in all, all of this shrouding this place indicated that there was a bigger conspiracy behind it.

Moreover, ye chen knew that not only did they have to choose a sect leader, but they also had to rescue the old sect leader.

The two of them did not say anything and immediately returned to their own room. Then, ye chen explained the situation in the room to him and they were both shocked.

Although he had returned a little late, he still rested as usual. The next morning, a disciple outside brought breakfast. After ye chen took it, he asked the disciple to stay.

"Don't go yet, I have something to ask you. "

"Sect leader, please speak."

"Do you have any legendary magic weapons in your sect?"

Ye chen did not hold back at all and asked very straightforwardly. Even if this disciple might turn around and tell others about this, he did not care.

"Sect leader, what are you saying? I don't think so. We outer sect disciples have never heard of it either."
"

The disciple was obviously shocked by what he said, but he immediately explained after he recovered.

I only heard his answer and didn't say anything else. I just waved my hand to let him go and then finished breakfast with my wife.

He didn't have any other plans for today. Anyway, everything had been arranged for the time being. He only needed to start the competition tomorrow.

As he thought about it, he walked out of the courtyard, ready to walk around and see if he could get any useful information.

After all, it was very likely that there were some things that even the younger disciples knew. Moreover, he had to find the current location of the sect leader here.

It was impossible to let this matter rest like this, so he went to the sect master's residence again using the same path he took yesterday. He didn't knock on the door and entered.

Today, he did not see the two disciples here. Only mo Yue was sitting there. When she saw ye chen come in, her eyes clearly showed some panic.

Ye chen could tell that something was wrong with her but pretended not to notice. Then, he strode in with a friendly smile and asked her.

"I wonder if I'll have the chance to visit the sect leader today?"

Mo Yue stood up and bowed to ye chen. Then she said, "Today might not be a convenient day. Our sect leader really needs to rest these few days and absolutely can not be disturbed. That's why I've been standing guard here, afraid that someone will accidentally break in."

These words didn't seem to have any problems, but they were very targeted.

Ye chen laughed out loud when he heard that.

Without waiting for mo Yue to react, he strode to the door and pushed it open.

"Sect master ye chen!"

Mo Yue immediately caught up and tried to stop him, but ye chen was faster and pulled the curtain open.

Who knew that there was an old man sleeping there. He looked very weak, and his lips were pale. His entire person was exuding an abnormal cause.

"Sect leader ye, our old sect leader is indeed resting. You can see that now. He definitely didn't mean to lie to you. Can we move outside and talk? otherwise, if the cold wind blows in, it won't be good for our sect leader's health."

"You don't have to rush me. I really think I can take a look at the old man. I think there's something wrong with his current illness. Just because you can't see it doesn't mean I can't."

Ye chen reached out and placed his finger on the old man's arm, wanting to take his pulse.

However, mo Yue suddenly attacked and was about to hit his arm.

Ye chen would not let him do anything to mo Yue. With one palm, mo Yue was sent flying to the wall and fell to the ground before he could even exert his full strength.

He wanted to cough up blood but ye chen did not exert that much strength.

After coughing twice, he felt his body go numb, but there were no other external injuries.

At this time, ye chen had already placed his hand on the old sect leader's step. Suddenly, his brows furrowed deeply. This was not an ordinary pulse.

It was as if he had been wrapped up by something. She slowly used her spirit power to enter the sect leader's body, then gently broke the shell and penetrated it. Only then did she find that the inside was already surrounded by poison.

This situation was really tricky. If it wasn't him, it was likely that no one else would be able to find out anything.

The consequence of that would be that the old sect leader's illness would become more and more serious until he lost his life.

"Sect leader ye, how is our sect leader? You actually said you wanted to take a look, so what did you see?"

Mo Yue had just adjusted her mood for a while and stood next to ye chen as if nothing had happened.

"Why did your sect leader suddenly fall ill, or why did he suddenly fall unconscious? You should be able to tell me about this. As his disciples, the few of you should be the closest to each other. You should be clear about this, right?"

Ye chen retracted his hand and turned around to look at the female disciple. He asked her in a slightly serious tone.

"We have been like this for a long time. He went out to gain experience and was ambushed by someone. When he came back, he was already poisoned."

"At that time, a few of our disciples treated his wounds together. We thought he was better, but who knew that he would be better. After a few days, when we came to find him in the morning, he was unconscious on his bed. After that, he hardly woke up, at least occasionally."

It was as if this story had been prepared in advance. It was flawless and seemed to have nothing to do with them but ye chen was not willing to believe it.

"So you're saying that he was poisoned by an outside poison that you didn't cure? Or could it be that when you guys detoxified him, you didn't feel any other poison in his body?"

"Sect leader ye, you're being too absolute. After all, we're just ordinary disciples. After removing the poison on the surface, we really thought that there was nothing left."

"Who would have thought that such a regretful thing would happen? we were also very upset. We didn't want to see our sect leader become like this."

"Good, since you said that you didn't know before, then you should know now. Go and call your other three senior brothers over, and then tell them to come here directly. You don't have to worry about your sect master getting a cold wind or something. In his current condition, it doesn't matter even if he is exposed to the cold wind outside."

Ye chen said bluntly and then asked her to quickly find the person.

Mo Yue saw that she had other things on her mind but she would not tell ye chen so even if she was unwilling, she still turned around and walked out.

After he left, ye chen continued to use his spiritual energy to scan the old sect leader's body from top to bottom. The poison had probably gathered in the heart and lungs and was very serious.

It was because of this gathering that his body was unable to bear the burden of a clear consciousness.

What he had to do was to clear the path for the sect Master's Men, who were hard to break through, and also to clear out the poison that had gathered in the middle.

Of course, he wouldn't do all of this by himself, and that was also the reason he called these addresses over.

After confirming the treatment method, ye chen brought the other disciples into the room and briefly explained the current situation to them.

Perhaps two of them already knew the cause and effect of the poison in their bodies, but it was certainly impossible for them to state it clearly.

"Anyway, I just checked your sect leader's body. The poison has already accumulated in his body, and he needs you to help him. This is something you can do, right?"

"Of course you can."

"Sure."

Mo Liu and Mo GUI agreed very quickly, and the other two followed suit.

Ye chen did not waste any time and immediately had them help the sect master up. Then, the four of them sat on the ground in four corners.

Meanwhile, their sect leader was pushed up by ye chen. Ye chen used his spirit energy to make him sit in the middle of the four.

"Ye Chang Menglin's method is useful right? we have tried it many times before. If it doesn't work, will it bring us other bad effects? I hope you can think about it again and again before making a decision."

Mo Shan said with a serious expression. If ye chen did not know about the dirty things behind the scenes, he might think that this disciple was really worried about his sect master.

But in fact, there were many people behind the scenes. Weren't they the ones who pushed for it? Therefore, there was no need to be nice to him now.

"Of course. Do you not trust me now? I'm very confident that I can save him. At the very least, he has to wake up before I can see who you guys want to choose. "

"Otherwise, it wouldn't be good if the sect leader chosen by the old elder, who is ill, doesn't suit his taste. So, let me help him."

Ye Chen's words did not allow anyone to refute him, so the two addresses also fell silent.

Soon, they transferred their spirit power into the old head's body.

Ye chen also led them from the side and began to break through the poison one by one.

The toxins inside were also very strange. Some were stubborn, some were almost inextinguishable, and those that were inextinguishable were quickly eliminated, while the remaining ones curled up into a circle that was getting closer and closer.

Obviously, this was not the main part of the poison. It was likely that ye chen, who had accumulated it over the days, could see the source of this part of the poison. It was likely that it came from the things he ate and drank.

Furthermore, it was also a combination of small doses and became so hard and indestructible.

As for the old sect leader who was sitting in the middle, after they had cleared the other small toxins, he spat out a mouthful of blood. Then, he looked around with his eyes half-open and ye chen went forward to help him up.

His body was very weak. Ye chen had just given him a hand and the old sect leader fell directly on top of him, so he quickly brought the person to the bed.

"Hello, I'm ye Cheng, the sect leader of the Azure Dragon sect. I'm here according to the instructions given by the immortal Flying Dagger to choose a new sect leader for camel mountain peak. Was it you who gave me the news?"

"It's me. "

The old man's body was almost on the verge of collapse. Even though half of the poison had been removed, only the stubbornness on the surface had been removed. The deeper part was still there.

"The ceremony for the selection of the new sect leader will begin tomorrow, and they will have a competition in advance. I will choose the most suitable candidate for the sect leader based on fairness and justice. I wonder what your opinion is?"

After ye chen finished speaking, he realized that he had been a little too hasty, so he smiled slightly and changed his words.

"I'm sorry, I was too anxious. How do you feel now? What's with the poison in your body?"

[Chapter 2713 The First Literary Battle!](#)

The old head, who was lying on the bed, seemed to have recovered some of his half-open eyes, but it was difficult for him to speak.

After he heard ye Chen's purpose for coming, he must have known in his heart that this was the result of the letter he had sent.

He took a closer look at ye Chen's face and confirmed that it was the same person he had seen half a year ago. The people who had surrounded him were his four disciples.

The old head who was lying on the bed seemed to want to say something, but after opening his mouth, no sound came out. He was obviously surprised.

Then, she wanted to say a few words impulsively, but she didn't expect to only hear some very vague voices.

As for what he was saying, no one could hear him clearly.

Ye chen had no other choice. Although more than half of the poison in the old elder's body had been removed, the remaining half was still very stubborn.

It seemed that his current life and movements were affected. At least he was awake.

After ye chen saw what had happened, he turned to the four disciples and gave them instructions.

"Alright, I'll take care of the rest. Now that I know about the condition of the old head, you can go back and prepare for tomorrow's competition. I hope you can bring out your best strength and state."

After ye chen had finished speaking, they could not stay any longer, so they each said a few words and left.

After all, it wasn't convenient to stay here just by looking at the old head's current state. He couldn't communicate anyway, so there was no need to stay here and watch.

Just from the expression he had observed the old elder's face and those small movements, he could tell that there must be something that was difficult to say.

She reckoned that this long-term poison was in his body, and he should be able to feel it himself. Even if it wasn't obvious at the beginning, he should have known about it later.

Otherwise, these events would not have happened. Therefore, ye Chen's guess was that the old sect leader was not clear about his body's situation at the beginning, or he only had a small general idea.

It wasn't until he had a conflict with someone outside that he was injured and accidentally poisoned. Only then did he realize that the problem in his body had easily brought him a disaster that could cost him his life.

Based on ye Chen's observation of the poison earlier and the constant knocking with his spiritual energy, he already knew that this kind of poison should not affect his daily life.

He only had some physical discomfort from time to time, but it was a small number. When he encountered another poison, he would have a very direct rejection function.

This was also the reason why he had been so calm all this time, but when he went out, he was poisoned.

The two lists were not particularly tough, but they could be directly removed.

However, they were like a bomb that had been planted in his body. Before it exploded, it was indestructible.

After ye chen had decided that all of them would leave, he once again inserted his spirit energy into the old head's body, trying his best to remove another layer of the poison.

In short, this was definitely a big project, and it needed to be done slowly. Anyway, he was only helping this once. In the future, he would hand over the rest to the new sect leader who would be chosen tomorrow!

After dealing with most of the matters, he found a few disciples and then strictly guarded the place. The number must be enough.

Moreover, the lights in the courtyard had to be turned on. Only the lights in the rooms could be turned on by a smaller oil lamp.

However, after he left, the news spread to the siblings very quickly. Mo Yue and Mo Shan were sitting in the room.

Now, the sky was filled with worry. They had originally thought that they could control two and at the same time, add a little something to the competition tomorrow.

However, such a huge problem had suddenly appeared. Moreover, ye chen had done everything very well. They did not know how to carry out this plan next.

Besides, there was no other way except to force himself to move forward.

"Tonight, arrange for the two disciples to put something in there. Make sure it's not too much, and make sure they can smell it."

On the surface, these four disciples seemed to be in harmony, but in reality, they had long been divided into two factions.

Although the two people in the previous round looked like they were independent, he really looked down on them a little. These two siblings didn't study their abilities but liked to understand little things all day long.

However, they weren't worried about tomorrow's election, because their strength was there.

No matter how hard the brother and sister worked, it was useless. Unless the two of them came up together to fight one of them, they would definitely win.

At the same time, a seed of doubt was planted in their hearts.

No matter what, although the sect leader was extremely strict and would discipline them from time to time, he didn't treat them badly at all.

However, these two people had been hiding this matter. If it were not for the appearance of Azure Dragon sect's sect leader, ye chen, today, it was very likely that the sect leader would have been worn down bit by bit until he lost his life.

Those words were simply extremely painful to hear.

The assassins arranged by mo Yue and Mo Shan sneaked into the other two disciples "rooms in the middle of the night.

Then, he gently made a small hole and prepared to blow a light puff of smoke into it. Just as they put the small thin bamboo pole in, a black shadow suddenly appeared behind them.

The two of them were knocked unconscious. Ye chen pulled out the small and thin bamboo and put it into the pocket he had prepared.

He also knew that there should be some small evidence in there. In short, if he hadn't suddenly thought of this, it was very likely that the siblings would have won tomorrow.

I really didn't expect them to use such a method. It's a little underhanded, and it's clearly cheating?

Ye chen and su Yuhan quietly moved the two disciples from the back to a room. Then, they tied them up with a rope and stuffed their mouths. They quickly locked the door.

Then, they returned to their rooms to rest as if nothing had happened. They were more or less looking forward to it, because the scene tomorrow would be more interesting.

"Sleep early. You'll be a little tired tomorrow."

In order to avoid any problems, mo Yue and Mo Shan's men asked the two assassins who had poisoned them to leave after they were done.

They would never appear on this mountain again, and they had already been given a large sum of money, so the two of them had no doubts at all and had a very comfortable morning. After breakfast, they came to the arena.

Ye chen and the others were also done packing.

At this moment, the people standing below were all inner and outer sect disciples. They were all gathered here, and they were extremely excited about the upcoming election.

This was because they could also cast their votes. Of course, this was the final stage, and they were only spectators for the time being.

Ye chen was the current acting sect master and no one had actually seen him before. However, when they saw the appearance of this sect master, most of the disciples were very surprised.

They were still the same as everyone else. In short, they all had a little prejudice in their hearts, but this prejudice would sometimes change after experiencing it or seeing it.

They really didn't expect it to be like this. A young man had become their chief sect leader. However, no matter what he was wearing or what he was doing, he seemed very natural and unrestrained.

It was just that the unique appearance of the strong was really tempting. He could not help but feel a pressure that came from his soul.

Following that was the normal process. As the person in charge and also as a host, ye chen first introduced the rules of this duel to everyone.

"For today's competition, I will let everyone compete in two rounds. Of course, these two rounds will be the Civil and martial arts rounds."

As a sect leader, the first thing he had to do was to have enough leadership skills and a certain level of arrangement. Only execution was good?

Therefore, this matter had to be written clearly. If a person didn't have a sense of responsibility no matter how carefree and relaxed he was, no matter how strong he was, everything would be in vain.

Therefore, he had to do a small test before he could answer their questions. Ye chen had prepared five questions the day before yesterday.

These five questions would be randomly placed in a paper basket, and each candidate would pick two questions to answer.

There was no limit to the number of times they had to answer these two questions in an hour.

This would depend on what everyone was thinking. At the same time, it could also prove whether they had leadership skills.

In any case, it was definitely impossible to hand over the management to them in the short term.

Therefore, it was better to ask them such a straightforward sudden problem or long-term problem and get their answer.

The four of them definitely did not have any doubts, so they each sat in a corner, and then each took out a ball of paper with cleverness.

After reading it, ye chen immediately began to write at a high speed. The remaining paper ball was returned to the four questions in his hands and placed back in the middle paper basket.

The next question was whoever answered the first question would be able to quickly take out the second question.

Time passed bit by bit. Looking at everyone's actions, one could tell that there were really a lot of them. From time to time, they would frown.

Ye chen was very pleased to see this. What he wanted was a sect leader who could develop in all aspects. At least, he would not be the kind of person who played tricks behind the scenes.

Anyway, he had almost eliminated the brother and sister from his mind. As for the other two, he would have to see their specific performance.

In short, people with evil intentions naturally couldn't sit on the position of sect leader, this was something that everyone knew.

With the old sect leader laying the foundation, he had been strict with everyone year after year, so it could be considered a gift from the new sect leader.

It allowed him to manage so many disciples without any effort.

The disciples below were very obedient and basically didn't make a single sound. In fact, it seemed that if someone wanted to speak, they would basically use their mouth to transmit their voice, trying not to make any noise.

Mo Liu's writing speed was very fast, and after he saw the two-word writing, he didn't even think much. After reading the question, he directly distinguished the question from the beginning to the end.

He immediately started on the second question as well. In short, two blocked scrolls were already hanging on his back.

He liked the speed and difficulty, but he also hoped that the quality would be good. Therefore, he didn't rush and just waited quietly.

Then, he saw Mo Liu, who was the first to put down his pen. He patted the bell in front of him to indicate that he had finished answering.

Mo GUI sat beside him as if he wasn't affected at all. He was still relying on his friend's steady pace to write.

On the other hand, the other two were obviously anxious by his actions, especially mo Yue.

When she finished the first one, she was slower than the other three, but she didn't expect the second one to be so fast.

When he saw that the other party had stopped writing, he stopped in less than ten seconds or more.

An hour was not a long time. Soon, it was the last few minutes. After ye chen gave them a reminder, he quietly waited for the time to end.

Finally, after an hour, a loud sound was heard from the stage. It was the sound of a Gong being struck, and this also indicated that they had finished answering the questions.

Mo GUI looked like he had planned it out very well, so he put down his pen naturally when he heard the voice.

Mo Shan was a little flustered at the end, but he still finished writing. Then, they put up their own writing in a row.

They were standing at the side in front. Then, the cloth on it was opened, revealing the words written behind them.

There were good and bad characters in the handwriting, and one could almost tell the characters of the people from it. Ye chen did not hesitate and started reading from Mo Liu, who was the first to finish writing.

The handwriting was really good. From top to bottom, it was almost smooth. One could tell how clear his thoughts were from this.

The questions he answered were also done well, so he was a sect leader who was a little out of place.

However, it wasn't impossible for him to be the one, but the camel peak might be more relaxed and less urgent in the future.

"Not bad, not bad. Mo Liu, what you wrote is really good."

Ye Chen was not stingy with his praise.

Chapter 2714: A duel in pairs!

Ye Chen started reading from the first one. Mo Liu's notes were elegant from top to bottom. It looked very smooth. Other than a little bit of eloquence, when it came to answering questions, it was really clear and logical.

He even gave Ye Chen a solution. After reading the two questions, Ye Chen nodded in satisfaction and turned to look at the second one.

Mo Yue stood there a little nervous because she was indeed affected by her Junior Brother.

Although Mo Liu looked like a frivolous person on normal days, he was actually very steady when he did things.

Mo Yue knew that her writing was a little bad, so she was too embarrassed to look up at Ye Chen. She just stood there with her head slightly lowered, waiting for the judgment.

In any case, she knew in her heart that she would never be praised. When she answered questions, she pursued speed extremely, and she did not have too high a requirement for the quality.

There was nothing he could do even if he slightly regretted it.

As expected, Ye Chen did not say anything after reading what he had written. He only nodded slightly and saw a third person.

The last two wrote according to the rules. In general, it was better not to leave anything behind.

Moreover, Ye Chen really did not expect that they would be the fastest.

After all, even though the previous communication and exchange was only for a short period of time, he could see the character of this disciple. He did not expect that he would have such a meticulous side.

Mo Gui's handwriting was the best, and his answers were very official.

In general, if those old scholars were to see it this way, he would definitely be the best.

However, Ye Chen's heart was more inclined to Mo Liu, who seemed to be easier to understand and had more solutions.

Because this was made public, the disciples below could see it. It was their first time knowing that there was such a test method.

This was also the first time he had appreciated the ability of the four lead disciples.

Compared to the inner disciples and the other ordinary disciples, they were indeed a little worse.

There was another reason why Ye Chen had called everyone over. He wanted them to take these people as role models.

'No matter what, it's rare to see the gap so directly. Today, I'll see all of it at once. I'll see to my heart's content and motivate everyone!'

"Alright, everyone has seen the answers of these four."

"Everyone should have a small piece of paper in their hands. Next, you can write down the person you want to choose and hand it over to the person who has come once."

"You have to be fair and just because this won't be made public at all. You don't have to be afraid that people will find out who you chose and threw them in anonymously. After that, they will have no owner."

Ye Chen's words were not only meant for the disciples below but also for the four disciples above.

In short, he had absolute confidence in today's situation, and everyone had a clear understanding of it.

The fact that he could make such an arrangement with such certainty meant that he had not informed

his four disciples in advance.

Moreover, these small pieces of paper had just been given to these disciples not long before the opening.

In short, before this, the disciples of these four sect leaders and these outer sect disciples basically didn't have much interaction.

They also chose based on their current impressions. This way, they were indeed very unified.

Thus, there was a pause for a few minutes and the address below was quickly written. Then, ye chen arranged for them to be placed in the big box in the middle row by row.

Soon, a black wooden board was brought over. Beside the black wooden board, there was a white powder stone that was specially used for writing.

Ye chen wrote down the four of their names and asked su Yuhan to read them out one by one.

After su Yuhan read out the names, the paper slips were taken out one by one and placed in the box next to her.

From the beginning to the end, there were almost 100 disciples' names. After all of them were read out, the square words written on the blackboard clearly showed who had the most votes.

Of course, Mo Liu revealed a victorious smile. His name was the one that was mentioned the most. After all, the answers to his questions were very easy to understand.

Without those complicated languages, one could tell the pros and cons at a glance, and the benefits were written quite a lot.

They also indicated that they would encounter some twists and turns in the process, so they received the most praise.

Ye chen was also very satisfied with this result. Mo Shan, mo GUI, and Mo Yue followed closely behind him.

"Why does he have the highest score? I don't think he usually does anything, but now he likes to put on an act. Does he really think he's that great? I think he prepared all of this in advance!"

Mo Yue said unhappily. Of course, he only used a voice that he and his brother could hear.

The two of them were almost desperate. They looked calm on the surface, but in reality, they would never allow this to happen.

The two of them were also very anxious now. Why hadn't the medicine given to them shown any effect yet?

Mo Shan calculated in his heart. The powder would only take effect after 10 hours. It should be effective in a short while.

Moreover, the effect was not very obvious. Only the poisoned person himself seemed to feel a little bit of it.

This would cause them to lose some of their strength, but it would not affect their other emotions.

In short, he had searched for a long time to find such a good thing. If it did not work today, then all his previous efforts would have been in vain.

In short, he didn't plan to gamble this once. He had already given his men this medicine in advance, and the effect was very good.

They were just waiting for the fight to begin. As long as the brother and sister let the other side win, they would have a chance.

After all, strength was the absolute truth, even if they were not as strong as the two of them after training in private.

At the very least, they had to turn the situation around today. They absolutely couldn't allow the other

party to step on their heads.

After ye chen had the board removed, he stood in the center of the stage again and happily announced the start of the second round of selection.

“This time, two of the stronger ones will be chosen for the final battle. Of course, before that, we will need to draw lots to decide which two will form a group and compete together.”

“Alright, now bring up the lot-drawing cylinder. The ones with red symbols on the bottom belong to one group, and the ones with blue symbols belong to the other group. They will be divided into two stages for the battle.”

After ye chen had finished speaking, the four of them walked forward together. Then, each of them put their hand on one of the wooden sticks and drew it out at the same time.

To everyone’s surprise, they thought that the brother and sister would draw the opposite two, but they didn’t expect that they would accidentally draw the opposite.

Mo Yue and Mo Shan were in one group while Mo Liu and Mo GUI were in another.

Compared to the battle between the two siblings, ye chen would definitely appreciate and look forward to the other group more.

Mo GUI and Mo Liu were usually Frank and open, and their characters could be seen from the recent understanding.

If the two of them were to compete, there would definitely be no exaggeration.

As for the other brother and sister, ye chen did not want to say anything anymore. He had already interrogated the two people who had drugged him.

The two of them were obviously shocked when they saw him. They didn’t dare to say anything and just confessed.

They also expressed that they would leave this place immediately and would not cause any more trouble. This was clearly not a disciple of camel mountain peak.

They were just assassins that the two of them had paid for.

After ye chen found out about the matter, he really felt that this was too despicable.

Of course, he knew this in his heart, but he couldn’t say it out loud. He just pretended not to know about it and suppressed the matter.

In any case, there would definitely be a trial in the end, and he also wanted to see to what extent the brother and sister would be forced to before they were willing to let go.

“Brother, then I’ll let you win this round. This way, you’ll be stronger, and when you win, it’ll look more straightforward for them.”

“Those two will probably find out when they fight later. No matter who wins, there’s no way to change the fact that we’ll get the sect leader’s position in the end.”

Mo Yue analyzed. After seeing her brother nod, the two of them stood up and raised their weapons like the other team.

“I don’t want any unnecessary emotions to be mixed in this competition. I hope that you can take responsibility for this competition seriously and bring out your strongest strength.”

Ye chen had made it very clear. He had almost mentioned mo Shan and Mo Yue by name.

However, although the two of them were thick-skinned enough to hear ye Chen’s hidden meaning, they did not say anything directly and acted as if they did not hear it.

“Alright, let’s start the competition. If one side kicks the other out of the arena or knocks the other on the ground, then uses a weapon to force the other side to not move, it will be considered a victory.”

After ye Chen’s announcement, the disciple beside him struck the gong and the final battle officially

began.

Whether it was necessary to say it or not, the four of them, as the personal subordinates of the sect leader, were very clean and neat when they took action. It could be seen how careful and serious they were in their daily training.

Ye Chen, who was watching from the side, could not help but want to praise them. The four of them were indeed very powerful. They were a level higher than the inner sect disciples he had seen before. The disciples below also found it very pleasing to the eye, especially the beginning part. Basically, everyone was equally matched.

After fighting for almost ten minutes, one side finally began to show signs of fatigue and showed signs of being at a disadvantage.

Ye Chen also perked up. As a judge, he had to watch carefully.

Mo Shan and Mo Yue didn't need to act too much as their brother was stronger.

Therefore, in the second half of the match, it was basically one side suppressing the other.

The two saw that the time was right so they didn't continue fighting. After fighting for a while, Mo Yue's neck was pressed by Mo Shan's sword.

Then, he pressed it on the edge of the ring, and thus, the match stopped.

"I bet on the right person this time. I guessed that senior brother Mo Shan would be stronger. I already thought that he was very strong and had a good understanding of the world."

"It's not a big deal. I think senior brother Mo Gui is the best in my eyes. Just wait and see. He'll definitely win that round!"

"You guys are a little short-sighted. If I had to say something, I've seen senior brother Mo Liu who has been touring the mountains and rivers and practicing non-stop. I feel that he is the most qualified person to obtain the position of sect leader!"

"Forget it, forget it. Stop guessing. Quick, I don't think any of you are right!"

The disciples below were discussing spiritedly, while the two people on this side were also fighting in full swing, no one was willing to give in to the other.

Mo Gui and Mo Liu actually enjoyed this kind of fighting time very much. In their eyes, this was an opportunity to quickly improve their strength.

After all, the other party's strength was about the same as his, or even a little higher.

Mo Gui was really a very steady disciple, and he was also very used to it. He would stop when necessary, just like how they usually communicated. However, the difference today was that Mo Liu had used more strength.

The two of them went back and forth like this. It felt like they had fought many rounds. When Mo Gui took a step back, he was pressed to the ground by Mo Liu.

"You're really bored. But this time, it's obvious that I'm better, don't you think? You can only become my defeated opponent now."

Mo Liu looked at Mo Gui, who was pressed to the ground, and said with a smile.

There was no tension between the two of them. In fact, they were very relaxed. However, it was also clear that the winner of this match had been decided. In the end, the winner of this match was Mo Liu. When Ye Chen saw that the match had ended, he stood up and walked to the arena to announce the obvious result to the disciples.

"The winners of today's competition are Mo Shan and Mo Liu."

"However, I don't intend to fight a second round today, because the four disciples have already spent a lot of effort. If we fight a second round, it will definitely affect the previous opponents. In short, for the

sake of fairness, I have decided. This last written exam will be pushed to the same time tomorrow morning.”

Although ye Chen’s decision was made on the spot, it was understandable. After listening to his explanation, everyone felt that it made sense. After all, Mo Liu’s side had fought longer.

Moreover, it seemed that both of them were sweating, so they couldn’t continue to fight today.

Otherwise, it was obvious that one side would suffer.

“Alright, the remaining two disciples hope that you can prepare well for tomorrow’s competition. The final sect master will be chosen. I hope you will continue to work hard.”

[Chapter 2715 Reveal The Truth!](#)

"Alright, all the disciples can disperse now. We'll come back tomorrow. The remaining four of you can go back and rest."

Ye chen said very politely.

When mo Yue and Mo Shan heard ye Chen's arrangement to not continue the fight today and postpone it to tomorrow, their expressions changed.

After all, their initial plan was to win this round directly today. It was really difficult for them to drug him once. Who knew if they would succeed again tonight?

"It's really troublesome. Because of the arrival of this so-called sect leader, everything has completely deviated from our plan. "

After mo Yue and her brother mo Shan left, they went back to their room and complained.

"We can only take one step at a time now. Anyway, the sect leader will definitely not be able to hold on, so at most, we can just take the position."

Mo Shan's eyes were filled with hatred when he said this.

He had been coveting the position of sect leader for a few years, and the two of them really hated the old sect leader.

Why was he not willing to treat her well after bringing her back? the so-called attitude of treating her like her own son and daughter in the eyes of outsiders, but in fact, she had to bear the so-called atrocities silently behind the scenes.

This sect leader was already very strict, but it seemed like he was only strict, and nothing too excessive.

However, in reality, the four of them were more or less subjected to some physical punishment.

Especially since the two of them had been living under such a strong pressure since they were young, this had caused their minds to gradually go on the wrong path.

In their eyes, the reason why he had become like this was actually related to the old head. Because for a long time, he had been treated unfairly, which directly led to this result.

In short, whether it was due to their personalities or the gradual expansion of their ambitions, the two of them were now completely unable to control themselves.

They only wanted to do their best to change the situation. If they were not strong enough, they could only use some ridiculous tactics to make up for it.

On the other side, after ye chen saw the brother and sister leave, he immediately brought the other two disciples to the side and told them that he had something to discuss.

"I think both of you performed very well in today's game. At the same time, I have another piece of news to tell you."

Ye chen said as he led the two of them to the room where the two assassins from last night were held. The two of them were still tied up there.

Ye chen decided to release them after the matter was over!

Anyway, he didn't go that far, not to mention that he didn't belong to the appropriate division, so there was no need to stay here.

"Sect leader, what do you mean by this?"

After Mo Liu saw the two people who were tied up, he looked at ye chen in confusion and used his eyes to ask.

"I caught the two of them at your door last night, and they were going to drug you two. I think it will directly affect the result of today's game!"

"In any case, I caught it in advance, so I didn't succeed."

Ye chen said these words as if he had not gone through any trouble but the two people standing on the side could already feel their scalps go numb.

If ye chen had not stopped them, they would not have known about this at all.

It could be seen that these two people's Qinggong was really amazing. Otherwise, as long as there was the slightest sound, the two of them would definitely wake up from their dreams.

These were all trained by the sect leader before.

They were almost drugged and the ones who understood them the most were mo Yue and Mo Shan, who were also living under the same pressure.

"It's very obvious who did it. I didn't say it out loud because I didn't want to affect your confrontation. But now it's necessary to tell you two. In short, I suspect that your sect master's current state is related to the two of them. "

"But I don't have any evidence at the moment, and I've only been here for a few days, so I don't know what has happened recently. I hope you two can provide me with some useful information."

As ye chen collected them, he removed the cloth from the mouths of the two people who had fallen to the ground. Then, he had them explain the situation to the two disciples.

"Let's go back to the room and continue our discussion. Just tie these two up and deal with them after the matter is settled."

After ye chen had finished speaking, he let the two of them lead him out and walked into the lobby of his room together.

"I don't know if they will attack again tonight. In any case, you must be careful. Otherwise, the two of you can stay together and try your best to protect Mo Liu."

Ye chen was very straightforward. Everyone knew in their hearts how much would be decided in tomorrow's match.

If Mo Liu lost this match, it was very likely that his position would not be so stable.

"Thank you, sect leader ye. We are clear now."

After mo GUI said this, he continued to say to Mo Liu, "I'll just sit in your room tonight. I'll feel it more clearly if I meditate, so there won't be any mistakes. "

Hearing his senior brother say this, Mo Liu did not have any objections. After all, he could not guarantee that the two people would not be forced to do anything serious tonight.

The three of them didn't talk for too long. After su Yuhan came back, the two disciples went back to their rooms.

In short, they had all made their own considerations tonight. Whether it was eating or sleeping, they naturally had to be more careful.

Who didn't know if there would be a problem again if they were not careful? in this kind of situation where they were almost familiar with each other's time management, it was impossible to be all-pervasive.

"I really didn't expect the siblings to be so crazy. It seems that they must have done a lot of things behind our backs without us knowing."

Mo Liu grumbled unhappily. After all, the new sect leader had only been here for a short time, and he had already found out so many things. They had been here all day and didn't know about this.

To be honest, they were too relaxed. In their eyes, this brother and sister were too good at pretending. They had a good relationship with the sect leader.

Therefore, when they suggested that the sect leader should rest, the two of them didn't think much about it.

But now, everything was clear. It was as if they had thought too simply.

"I'll try my best to protect you tonight. "

Although mo GUI was a man of few words, he only got to the main point. After he finished speaking, he brought Mo Liu to the kitchen.

"What do you mean? You'll have to cook for me personally, do you know how to cook?"

Mo Liu said with a smile.

"Of course."

After saying that, Mo GUI added the flour and started to knead the dough with great flexibility. If Snail had seen him do this before, it would have looked like he had done it many times.

This was interesting!

Therefore, he just sat aside and watched his senior brother, who usually didn't do anything, cook a bowl of clear broth noodle soup in an orderly manner.

She saw an egg, a piece of vegetable, some seasoning, and a clear soup. It looked much more beautiful than she had expected, and the taste was not bad.

"I really didn't expect you to have such skills. Why don't you make two bowls? Only for me?"

Mo Liu said with a smile as he swallowed a mouthful of noodles.

"I've forgotten." Mo Liu could not help but smile at this simple-minded answer. After quickly finishing the noodles, the two of them returned to their room.

"Actually, there's no need to be so serious. I don't think the two of them have reached this stage, right?"

Mo Liu said without a care. It was already dark outside, and it would be time to sleep soon.

"You have to be on guard. You only have one night anyway. You don't have to be afraid. I'm here."

Thus, the two of them settled down. Mo GUI sat on a chair at the side and meditated.

He seemed to have his eyes closed, but in reality, he was very agile and could detect any small sounds within a dozen meters.

Because Mo Liu had his senior brother by his side, he was basically not afraid at all. He fell asleep in a short while. Because he was a little tired today, his light snores could be heard from time to time.

Mo Yue had already been dissuaded by his brother, but his heart was still very unstable, so he quietly walked out of his room in the middle of the night and headed towards Mo Liu's room.

Because it wasn't the two of them and the other two who had competed yesterday, they didn't know what their strength was.

Just by watching from the side, they could only see the two of them fighting, but no one knew how much strength they had.

After all, the two of them should have been poisoned, so he decided to add something more to them today.

At the very least, he had to make him a little weaker in order to have a chance of winning this round with her brother.

In short, Mo Yue didn't believe that they would win for sure, so even if her brother didn't let him do it, he had to try.

At most, he would be exposed. Moreover, his Qinggong could be said to be the strongest compared to the other three.

She had some confidence in her heart. Even if she couldn't win, she could just run away. In short, she wouldn't be satisfied if she didn't try.

The night was so dark that it seemed to be dark. There was only the moon hanging in the sky, not a single star.

The bright moonlight shone on the ground, and a figure stood on the wall and then landed in the courtyard.

It was at this moment that Mo GUI slowly opened his eyes. He could feel the power approaching him, so the sound was so soft that he could almost hear it.

However, he was more alert when he meditated than when he opened his eyes. It was very obvious in the quiet night.

When that unknown figure landed in the courtyard, he could sense that this person's aura was not simple.

If it was someone else, he might not be able to feel it.

For example, the man who was sleeping on the bed now had his entire heart in his stomach and was sleeping very comfortably.

Of course, Mo GUI would not alert the enemy, because he wanted to catch this person on the spot.

Mo Yue carefully walked to the bed, not realizing that she was being watched.

She took out a small knife that she had prepared in advance and quietly made a hole in the window. Then, she poked the thin tube in her other hand.

The powder was inside the room. It wasn't a large amount, so it wouldn't be easily discovered, but it could make the people in the room fall into a state of confusion.

It would be even clearer tomorrow.

However, she didn't expect that just as she was about to blow it in, she suddenly realized that the air was blocked. She only felt the force from the opening on the other side of the pipe bounce back and throw the powder in her windpipe into her mouth.

All the powder ran in the opposite direction, and she was stunned.

She subconsciously spat and wanted to spit out the thing in her mouth. At the same time, she realized that she had been discovered.

So, he dropped the tube and quickly jumped out of the wall. A figure appeared behind him.

Mo GUI held a sword in his hand and quickly caught up. He then immediately retreated, but unfortunately, Mo Yue's Qinggong was very good and she ran very fast.

It only tore her clothes a little, but Mo GUI could tell who it was.

How could he not recognize her? Wasn't this familiar look his good Junior Sister?

Mo GUI walked to the place where his Junior Sister had been standing and saw the pipe on the ground and the White powder scattered on the ground.

He didn't say anything and took out a handkerchief, wrapped it around the tube, and put it in his pocket.

The move he used just now made most of the medicine go into mo Yue's mouth.

Even if she vomited some of it out, she couldn't completely avoid it. In any case, she must have been poisoned by now.

He returned to the room after dealing with the outside. Then, he sat back in his original seat and glanced at Mo Liu who was sleeping there.

As long as there was someone by his side, he was not guarded at all. The noise outside did not wake this idiot up at all.

Mo GUI looked at his Junior brother's sleeping face and smiled lightly. He didn't say anything and even helped him up with the half-covered blanket.

It would be dawn in about two to three hours, so he closed his eyes and fell asleep.

On the other side, as soon as mo Yue returned to her room, she immediately used the spirit power in her body to suppress the spread of the drug.

But what she didn't expect was that this kind of powder medicine would cause her infection speed to increase the greater the range of her spirit energy activity.

Therefore, when she realized this, she already felt weak all over.

The amount she had eaten was much more than the amount she had prepared to float to her senior and junior brothers from the air.

The sky was about to brighten. If she went out exhausted, how could she not be suspected?

He couldn't help but rejoice in his heart that he had lost today.

[Chapter 2716 2721-Strength Skyrockets!](#)

When mo GUI woke up the next morning, he saw the breakfast on the table.

He didn't expect his senior brother to take such good care of him, so after a simple wash, he sat next to him.

"Didn't you sleep too well last night?"

Mo GUI didn't say a word at first, but who knew that he would suddenly blurt out such a sentence, causing Mo Liu, who had just taken a bite of the bun, to choke.

"What?"

"Have some porridge first."

Mo GUI helplessly lifted the bowl of porridge and placed it in front of him. After watching him drink it and recover, he began to talk about what had happened last night.

Mo Liu ate his breakfast while listening to him talk about this. He felt as if he was in a completely different world.

He had a really good sleep last night. Perhaps it was because his senior brother was by his side, so he was filled with a sense of security and didn't feel nervous at all.

Even though he was almost drugged the night before, he didn't care at all.

He didn't even have any memory of what happened last night.

He felt that he had woken up without even having a dream. In general, he had a good rest.

"In short, he's reaping what he sowed. After you finish eating, let's go and talk to sect leader ye about this, okay?"

"Alright," he said.

After Mo Liu and Mo GUI finished their meal, they quickly left the room and headed toward ye Chen's residence.

At this time, ye chen had just finished packing up. After hearing the noise in the courtyard, he could see the two disciples entering through the door.

Then, she heard the two of them talking about what happened last night and that mo Yue was probably poisoned.

The more ye chen listened, the angrier he got. As a sect leader, he knew very well that the discipline of a disciple was very important.

Now, these two seemingly outstanding sect master disciples were actually doing such a thing behind his back to harm his senior and junior brothers.

And even gave the sect leader a slow-acting poison?

Such a thing had actually happened in such a strict sect. If this matter were to spread out, it would simply be a big joke in the world!

Therefore, ye chen would never allow such a thing to happen. At the very least, he could not change what had happened now. He had to try his best to salvage it.

Otherwise, it would be very difficult for him to reorganize these few sects.

"Alright, I've heard about what happened yesterday. In the competition in two hours, I hope you can do your best to get the position that belongs to you. In my eyes, both of you have the strength."

Ye chen knew very well that the votes yesterday were due to Mo Liu's words being very straightforward, spoken, and more appropriate.

On the other hand, it was also because of his personality. In most people's eyes, this person might be a little more relaxed after becoming the sect leader.

On the other hand, mo GUI was a little too rigid. He sounded reasonable, but he gave the disciples an invisible pressure.

That was the reason for such a ranking, and today, it was all based on strength.

No matter what, only a powerful person would be able to convince all the disciples to accept him as the sect leader. Otherwise, he would be the subject of gossip.

"Hmm, don't worry about it. I had a good sleep last night. I'm full of energy today. I'm sure I'll be fine!"

After Mo Liu returned yesterday, no one had left a few meters around him.

It was as if Mo GUI was watching over him like a treasure, and he did not leave his side at all, which indeed made him feel very safe.

"I'm a little afraid that they'll make another move, so you two must be careful and not cause any trouble. "

Ye Chen said.

Mo GUI and Mo Liu did not have much time for Ye Chen either. After a long time, they told him that they had settled it and then immediately left.

Because they were about to start preparing for the final match, they couldn't afford to make any mistakes.

They could not give Mo Shan any chance. Otherwise, it would really affect the future of the entire camel mountain peak.

The time was up very quickly. The disciples of the sect had gathered here again. For them, this was simply a feast for the eyes.

Not only could they watch the battle between powerful people, but they could also directly feel that they could also participate in the election of a sect leader. This was really too happy.

When Mo Yue woke up in the morning, she already felt her body go weak.

With great difficulty, she sat up by holding the table beside her. However, she could not control her tears. The door opened and Mo Shan entered.

"How did you become like this?"

Mo Shan did not sleep well the entire night and was a little nervous. He was prepared to pick up his sister in the morning and head to the arena together.

However, he didn't expect to see this scene when he didn't push the door open after waiting for a long time!

Of course, Mo Yue knew that she would be scolded, but she couldn't stop it. After saying this, she was indeed lectured.

However, the most important thing now was not to gossip.

"You can't use your own spirit power, but if it's an external force, you can suppress it. So now sit here and don't move. I'll help you control it for at least two hours, and then you can hold on until the end."

"Okay, thank you, senior brother."

Mo Yue sighed. She knew she was wrong so she didn't dare to say anything.

Mo Shan quickly transferred a wave of spiritual power to his sister and her condition was relieved.

Mo Shan panted heavily as he sat at the side. He took out a small medicine bottle from his clothes and poured out a pill.

"Brother, aren't we supposed to eat this before we start fighting?"

"I'm a little weak now, but it's fine. I'll be able to use it later. " He said in an unhappy tone.

Mo Yue knew that she was being unreasonable so she didn't say anything else and just waited on the side with her head down.

After a while, the two of them walked out of the room together and headed to the arena.

The two of them had arrived late, and the venue was already full.

Ye chen smiled and greeted them as if he did not know anything. He even waved them over.

"Did you rest well last night? For today's match, you guys can warm up first. For the sake of fairness, I will directly choose the time limit. After this period of time, we will see who has the upper hand and win. "

"You're all from the same sect anyway, so I think it's fine for you to exchange pointers. It's best to put safety first!"

Of course, Mo Liu did not say anything. He was still smiling like a spring breeze.

Mo GUI stood at the back, but his eyes were fixed on his Junior Sister without any hesitation. He was not wrong. This figure was completely the same as the one he saw yesterday, which confirmed the answer in his heart.

At the same time, his heart turned cold. To be honest, although the four of them didn't have a deep relationship, they grew up together.

It was just that their personalities did not allow them to have a deep connection, but this did not mean that they would develop into enemies or enemies.

For example, in this election for the position of sect leader, the two of them actually didn't want to fight for this position. They wanted to improve their strength more.

p However, it was clear that the senior brother and Junior Sister were different. If they were too persistent about this position, they might end up in the opposite situation. In short, it was not very good.

"Alright, you guys can get ready to start."

Ye chen, who was standing on the side, had already noticed that there was something wrong with these two. First of all, mo Yue, who was standing on the side, seemed to be in good spirits.

But in reality, it felt a little empty.

According to what the other two disciples said, she should have inhaled that kind of powder, which was why she became like this.

It seemed that there was indeed an effect, and it was probably his senior brother beside him who helped him stabilize it with spiritual power.

At the same time, he took another look. It was unfamiliar and also strange. According to logic, the normal breathing should be slow and stable.

However, this person wasn't like that. Instead, he seemed to have more breathing than others. Ordinary disciples couldn't tell at all.

However, from where he was standing, he could clearly feel the difference in the frequency. There was only a slight difference.

However, it clearly showed that Mo Shan was not in a normal state.

It was very likely that he had taken some medicine, or that he had received some help from other sources.

"Wait a minute, Mo Shan. Your face seems to be burning. If you're not feeling well, why don't we stop today and continue tomorrow? It's okay to delay it for a day."

Ye Chen still wanted to give these two examples some face, so he said it very tactfully.

He hoped that the other party could hear his shallow lines clearly and seriously think about this matter again. After all, as long as he started voting like this from now on, there was still time to change everything.

Otherwise, he would have severely punished the siblings. Even if they had stayed on Camel Peak for a long time, it was not a reason to keep making mistakes.

Mo Shan's thoughts were normal. If he was not affected by the drugs, he might have chosen to stop.

However, because he had taken the medicine, even if he didn't want to admit it, it had indeed affected him.

Moreover, it was very direct, and it made him want to fight with someone immediately. Therefore, he would definitely not refuse this offer.

Therefore, after hearing Ye Chen's suggestion, he quickly replied.

"Sect leader Ye, Don't worry, I'm fine now. It's just that the food I drank this morning was too hot, so it burned my mouth. There are no other problems."

As Mo Shan was speaking, Ye Chen reached out and touched Mo Shan's face. He was shaken off in a second.

However, Ye Chen could really feel the uncertainties in his body. It was much more fluctuating than it seemed. His pulse was also very fast, which showed that his heart rate was somewhat irregular.

"Disciple of Moshan mountain, don't worry. I'm just afraid that your illness will affect the competition later, so I wanted to take a look at you."

"It's okay if you don't want to. In that case, let's start the warm-up!"

Ye Chen smiled kindly and stood to the side as if he was not worried at all. He had already prepared for the situation later.

As long as one of them tried to attack, he would stop it in time. No matter what, he couldn't affect the safety of the two.

However, Su Yuhuan was also clear that once this matter was settled, he would never let go of anyone who had done something wrong.

These disciples weren't young anymore. Although they weren't as old as him, they were still in their twenties. They could afford what he had done.

From Mo Liu's appearance, he should not have noticed it. After all, the two of them were not close to each other.

Therefore, it would take a while for them to feel it during the fight.

After Ye Chen thought of this, he returned to his seat. He wanted to see what Mo Liu would do in such a situation.

Mo Shan and Mo Liu both went up the arena and the surrounding disciples started to cheer.

As Ye Chen's atmosphere was different from that of their previous sect leader, he gave them a very relaxed feeling.

Ye Chen stood on the stage and struck the drum. The competition had begun.

Mo Liu had always been very steady during a fight. His speed was very fast, and the sword in his hand was very direct, wanting to stab the vital part of the other party.

Mo Shan liked to take things step by step, so it was difficult for him to deal with such a situation. However, things were different after taking the medicine. His body's sensitivity had increased a lot, and his explosive power was strong. The two of them quickly entered a state of full-swing and fought fiercely. The inner tube seemed unable to put them down. The surrounding disciples were stunned.

Mo GUI had already sensed that something was not right. He looked at the sweat on his Junior brother's forehead and his slightly red face. He had a guess.

He turned his head and looked at Ye Chen, who was walking over.

"Sect leader Ye, do you see anything wrong?"

"Of course I can tell. Compared to yesterday's fight, he is obviously stronger today. I don't know if he has completely let go or if he has added something else."

Ye Chen said casually, but he had directly reminded Mo GUI.

After the child found out about the situation, he suddenly became a little nervous and looked at the stage with a worried look.

Mo Liu knew that his opponent was not the usual mo Shan as the battle was getting more and more strenuous. He could only stab his sword at his shoulder.

He dodged quickly, but who knew that the sword would turn very quickly and try to stab him from the back. This agility and strength were not something that ordinary people could do.

[Chapter 2717 The New Sect Master!](#)

Ye chen looked at the hourglass at the side. It was almost done falling. According to the stipulated time, the winner and loser would be decided in a while.

He frowned and looked at the field. If the fight continued like this, it was obvious that mo Shan had the upper hand.

This was completely different from what they had expected. Mo Shan was indeed very ferocious after taking the medicine. He did not show any signs of retreating.

It was as if he had been injected with chicken blood. How could the logistics department, which was performing normally, respond to this?

Even though from the looks of it, Mo Liu was still resisting it very steadily, and there was basically no air leaking out.

His expression and actions were still stable, but he didn't know if he could salvage the situation in the next five or six minutes.

At this moment, Mo Liu had already figured out the moves of the eldest senior brother. To be honest, when they practiced together, he could be considered naive and intelligent compared to the others.

He had come up the mountain a year later than the other three, but he had still managed to gallop ahead. Compared to the other disciples who had come up the mountain with him, he was like a legend.

He only used a year's time to completely enter Inner Mongolia, and he also forced his way to the position of the sect master's disciple.

One's strength was not to be underestimated. As he watched the battle in front of him, he also quickly realized that his senior brother seemed to have taken a drug.

His strength was different from usual. Therefore, he usually sparred with mo GUI and Mo Shan. However, he knew mo Shan's strength.

The sudden surge in power was no ordinary feeling. Others might not be able to see it easily, but he could experience it for himself in this position. It was a perfect deal.

He quickly figured out a set of moves and looked at the hourglass.

He could tell that it was going to end in a short while, and he had to end the battle quickly to save the situation.

Just as everyone was observing the scene carefully, he seemed to have gone crazy. He rushed to the center and stabbed Mo Shan.

Mo Shan was overjoyed.

This Junior Brother was still too young. Using such a move at this time, wasn't it just giving away his life for nothing?

Mo Shan jumped up quickly and wanted to flip to the back. However, Mo Liu had turned around before he could even use the move.

He placed his sword on Mo Shan's neck and kicked his senior brother's weapon out of the arena.

A crisp sound rang out, and the disciples on the scene seemed to have woken up from a dream. They looked at each other in shock.

The hourglass also stopped, and all the sand had turned to the other side.

When Ye Chen saw that the sandstorm had ended, he quickly came back to his senses and sounded the gongs and drums.

This very loud sound immediately woke the stranger up. He looked at his empty hand and then at the sword in front of him. His whole world seemed to have collapsed.

He had never thought that he would end up like this one day. He had prepared for this for so long, but he was easily defeated by his opponent. How was this possible?

They had already taken their medicine, so logically speaking, this match should have been won.

The hourglass was about to end, and this was what he had planned.

Everyone present should be able to see that his strength was a level higher, and he was also very stable, but now he had lost.

Just like that, he lost the competition in front of everyone and lost the sect leader's token!

"Impossible! This is absolutely impossible!"

Mo Shan said as he retreated. He seemed to be greatly stimulated.

Mo Yue had been holding back her words since the morning and had been waiting for the final result.

After all, the drug in her body couldn't make her active.

However, after seeing the results, he didn't want to hold on any longer. A few days ago, the two of them had been very confident that the position of sect leader would be theirs.

However, everything had been disrupted by Ye Chen's sudden appearance. In fact, such a serious incident had even happened.

In short, the two of them felt really cold in their hearts. Since yesterday, they had been suspicious that these people had already found out about their little tricks.

However, he had already decided to give up. After all, there was no other solution.

However, things were different now. They had not obtained the position of sect leader yet.

Moreover, these disciples were also watching from the side. He couldn't change the final outcome.

What should he do? wasn't this a complete bomb?

Ye chen ignored them. The two who looked as if their plan had been foiled happily walked over and pulled the new sect master over by the hand.

Then, he raised his hand high and took out the sect leader's token from his side pocket.

"I'm very honored to be able to witness this match today. "

"Now that we've chosen the person in the final position, let's congratulate your senior brother Mo Liu on becoming the new sect leader!"

As soon as ye chen finished speaking, all the disciples present immediately began to cheer. This was basically in line with the candidate that most of the disciples present had in mind.

The disciples were also looking forward to their lives after having a new sect leader.

However, a slight change would also make everyone more relaxed.

After ye chen had finished speaking, he turned his gaze to the two dispirited disciples. While everyone was still immersed in joy, the expression on his face had completely changed.

"I have another announcement to make today."

"I really didn't expect that there would be such vicious thoughts between the disciples on the same peak where we are so strict. They even harmed others."

"However, sometimes justice fails like this. It will never let the bad guys get their way. So, I'm going to punish the two people here. I hope everyone will take this as a warning."

Ye Chen's sudden change in style caught everyone off guard. After hearing his words, everyone immediately began to discuss it.

After all, this sounded like a very serious matter!

Disciples could actually harm each other. This was too outrageous and too much. It had completely violated the rules of every sect.

"Is there really such a disciple? how is that possible? I feel that our sect has always been pretty good. There hasn't even been a case of bullying!"

"That's right, that's right. Could it be that sect leader ye made a mistake in his investigation? I don't believe it."

The disciples below had already begun to discuss. In their eyes, they had been eating and sleeping with the surrounding disciples every day. The daily training was already tiring enough for them.

Where would he find the time to scheme and scheme?

The entrance disciple event was held once a year. Although there were only a few seats each time, everyone knew that only those with strong strength could enter.

The old head had carefully investigated everything, from his character to his strength.

Therefore, if there was even the slightest problem, it would be impossible to enter the inner sect. But now, sect leader ye actually said this. Was it true? did he have any evidence? Or just suspicion?

Mo Shan and Mo Yue were standing together and their faces were also green.

Sure enough, under their careful planning, they still couldn't escape the investigation of the other party's recent events.

In fact, everything could be traced, but the two of them had been blinded by greed, so they didn't care about these small details at all.

As a result, he had now entered a state where he had no chance of turning back.

Moreover, they had actually lost this competition. Ye chen really did not expect this, and at the same time, he really admired this new sect master who seemed to be lively and relaxed, but in fact, he had grasped the essence of it very well.

And he was very brave to take a dangerous step and then win this game.

"What I'm going to announce today is the things that mo Shan and Mo Yue have done in the past two days that can't be revealed."

Ye Chen's next words were merciless. He told her everything that the two of them had done in the past few days.

And he was very detailed in his explanation, with two other disciples as witnesses.

Not to mention that the two people who drugged him were still locked up in the courtyard behind.

In any case, the crimes of these two people must be exposed. As a sect leader, ye chen was very concerned about this, so he could not easily let anyone who wanted to ignore this matter go.

The strength of these two disciples was very strong, but after being blinded by their ambition, they had actually done such a treasonous thing. This had completely deviated from the purpose they had wanted to confirm at the beginning.

In short, all of this was a huge problem, and he absolutely couldn't let anyone else talk about it.

"Alright, apart from announcing this matter today, I'm also going to punish them. For the next year, these two disciples will be classified as ordinary inner disciples. They will have to face the wall for four hours every day, and then practice with the other disciples."

"After a year, if the city can catch up with us, we can return to our previous position. Otherwise, we'll be demoted," Wang Yao said.

"Of course, there is another punishment that must be given to them. That is, your cultivation will be directly cut off by one level."

Ye Chen's punishment was not serious but it did sound torturous. After all, he was standing in such a high position. He would definitely feel uncomfortable if he were to fall from it.

"I made this decision tonight mainly because the two of them didn't really hurt them, so I'll let them go for now. I hope everyone can monitor them together from now on."

When he said all this from the beginning to the end, the disciples didn't even dare to breathe loudly. After he finished, they immediately began to discuss.

They really didn't think that things would develop to this point.

The cultivation of a level would take several years or even more than ten years. No one could easily climb to the next peak.

And if the disciples under these two sect leaders were suppressed by a level, they would be about the same as the inner disciples.

In short, it completely limited their abilities.

After ye chen had finished speaking, he walked up to the two men without any hesitation and moved his finger.

A light yellow spirit power flowed out from his fingers and forced the two people in front of him to kneel on the ground.

"Can you two accept my decision?"

"I accept."

Mo Shan and Mo Yue were very ambitious, but they had been slapped in the face by reality and could only accept it.

Ye chen placed his hands on their heads and exerted a little force. He tied himself up with a thick rope, and then immediately loosened his body as if he had been separated from his body. He didn't kneel for a moment, and directly used his hands to support himself on the ground.

In such a short time, the two of them had already dropped one level.

"I didn't consider the feelings of this person, but I hope that the two of you can sincerely repent and not let such a thing happen again. The two of you aren't weaklings. Only by becoming truly strong will you be able to convince others."

Ye chen said bluntly to the two of them and then took a step back. At first, I asked a few disciples beside me to drive the two of them away.

They were sent back to their rooms to recuperate. After all, although their levels seemed to be dropping very quickly, the ground would have a great impact on their bodies.

It would take at least a month or two to recover to normal health.

Su Yuhan had been standing at the back since the beginning, watching her lover deal with everything. She felt very happy and at ease.

This man was really dazzling in everything he did, and he used his own way to deal with things fairly. All of this was really too cool.

Ye chen arranged everything in an orderly manner. After all the disciples had returned, the new sect leader and Mo GUI were left behind.

"The poison in your elders' bodies has not been completely cured, so we still have to rely on the two of you. You need to use your spiritual power to break the poison for him every three days. It should be cleared in about three months."

It sounds simple but you said it was because ye chen fed the old sect leader a medicinal pill.

He had specially found several kinds of herbs from the back mountain and then refined them to have the effect of slowly detoxifying. Of course, it required the support of spiritual power.

"I'll be more at ease if I leave this matter to the two of you. "

Ye chen said seriously and patted their shoulders.

[Chapter 2718 2723-Cursed Snake!](#)

Of course, after listening to ye Chen's explanation of the cause and effect, he realized that all of this had been the doing of that pair of siblings.

Although their master was strict with them, he had always been very serious and had never been harsh on them.

However, these two people actually attacked the old sect leader for the so-called sect leader position and the secret manual behind it. This was really too ridiculous!

If this had happened in an ordinary person's home, no one would have been able to accept it. These two were the first to ascend the mountain and had been protected and taught by the sect leader since they were young.

However, they had also become the laughingstock of this camel mountain. He could only hope that they could turn over a new leaf after a year!

"Actually, there's no such thing as a secret manual."

Ye chen looked at the two of them and said very calmly, as if he was just passing on a very ordinary matter.

The two of them were indeed very surprised when they heard this, and their eyes widened.

"That's right. You guys always thought that this secret manual could increase your strength and allow you to surpass others to become the strongest. But in reality, this thing was just made up."

"This is also the plan that your old head deliberately shot to test you. It is to let you keep working hard to defeat his target, and then I will tell you the real result."

"It's a pity that something like this has already happened before we could tell him. Furthermore, this so-called fake secret manual has caused such a dangerous situation. He was almost killed, but fortunately, we managed to save him in time. "

When ye chen said this, he felt very regretful. He had never thought that such a thing would happen in such a big sect.

But fortunately, he had appeared, and this matter had completely passed, so there was no need to continue to struggle.

Anyway, he had to look forward to everything. Besides, he had only told this to the two of them.

At the same time, it also hinted that the two of them could talk to the brother and sister about it in the future, so that they wouldn't have any so-called obsessions about this matter.

There was no use at all. Even drawing water with a wicker basket wouldn't be so unlucky.

I hope they can get over it!

In any case, ye Chen's mission this time had been completed. It could be said that he had chosen a very good sect leader.

There was also a very good assistant next to him. In short, the two of them combined, one moving and one quiet.

It could make their sect better and better in the future, he was very clear about this.

"Alright, it's time for me to say goodbye. I hope that the two of you can work well together in the future and make camel mountain even more outstanding."

Ye chen chuckled but the two young disciples were stunned. They did not expect him to leave so suddenly. The matter had just been resolved and he was leaving?

When ye chen heard the two asking him to stay, he waved his hand and explained to them with a smile.

"You guys don't understand. I'm going on a trip with my wife now. I just took on a small mission in the middle, so I came to complete it. Now, it's time to get back on track and continue to play."

Ye chen said in a very carefree manner. He looked very carefree as if everything was at his mercy.

After hearing ye Chen's words, the two disciples did not force him. Moreover, su Yuhan had already packed her luggage and was ready to leave.

After all, it was ten in the morning, and he had long been unwilling to eat vegetarian food on this mountain peak.

This was really too light. After living in Suzhou for a few days, he felt that the food was really good.

Although it wasn't a big meal, it was still pretty good. His son came here to cultivate his body and mind. Even if there was meat, it didn't taste that good.

In any case, the two of them had been holding it in for so long. Now that the matter was finally settled, they might as well take this opportunity to leave quickly and continue to enjoy themselves.

The two of them decided to go to Stone City when they were free. The stone city was named Siyi, and its outer area was basically made of stone.

The city was not very prosperous, but it was very unique because the craftsmen here were very skilled in making all kinds of crafts with stones.

Therefore, ye chen wanted to bring su Yuhan along to buy some things. After all, he still had a strange daughter at home.

She probably still wanted them to bring gifts back to school!

Since they had already agreed to it, they naturally couldn't go back on their word. Besides, the two of them also wanted to take this opportunity to take a look.

Therefore, after leaving camel mountain peak, the two of them rode on the giant Roc and flew towards the stone city.

Before they left, they also took some dry food and water from the mountain for convenience.

This was because even if the giant ROCs were to fly here and there, it would take almost half a day. By the time they arrived, it was already midnight or dawn.

It was satisfied that he could feel the soft feathers on Peng Fei's body. Just as he was about to fall asleep, he noticed that dark clouds had suddenly gathered in the sky.

It looked like it was going to rain soon. He was shocked and immediately sat up.

And Peng Fei naturally realized this, so he didn't continue flying. Instead, when he saw a forest below, he immediately slowed down.

It then took the two of them and flew into the forest. They found a hidden cave. The forest was very lush with leaves. From above, it was a large patch of green.

In short, they could rest here for the night. In this way, when the sky cleared up tomorrow, it would be daytime when they went to Stone City, and they would not have to find a place to stay at night.

"There's something wrong with this forest. Can you feel it?"

After su Yuhan was awoken by the cold wind, she still had a slight headache. Ye chen helped her down from Peng Fei's body and suddenly felt that something was observing her surroundings.

She raised her head and found nothing, but that feeling filled her sixth sense, and she couldn't ignore it.

That was why she asked.

When ye chen heard this, he immediately looked around but he did not see anything.

He didn't know if it was because he didn't care or because of something else, but he didn't feel that there was any serious threat. Besides, it was just a night's rest here, so it shouldn't be a big deal, so he comforted her.

"It's okay, don't be so scared. What danger can there be? You just need to have a good rest. At most, I'll keep watch for you at night. "

Ye Chen supported her without a care and walked into the cave.

The two of them entered the cave together, and Peng Fei also retracted his body size, guarding the entrance of the cave.

It could take shelter from the rain and protect its master at the same time.

When Ye Chen entered, he took out a blanket from his backpack, which he had prepared earlier. Then, he took out a blanket from his storage ring.

He was well prepared, so he found a flat area and checked for bugs. Then, he covered it with a quilt and a thick blanket and let Su Yuhua sit on it.

As he was tidying up, he was also very pleased. Because the cave Peng Fei had found was on the higher side, he didn't have to worry about rain flowing in.

Therefore, this cave was clean at this time. There was no other problem except for a certain degree of humidity.

He just had to wait for the sun to rise tomorrow and everything should be better.

However, Ye Chen did not expect that when he was about to fall asleep with his arms around their shoulders, he suddenly heard a very soft sliding sound, like the movement of a reptilian snake.

It wasn't surprising to hear such a sound in a place like this, but there shouldn't be any snakes in this cave!

He was still lying there without moving, but the spirit power in his body began to overflow from his body little by little, and then began to inspect it like a pair of eyes.

The situation here had indeed become more meaningful. A snake as thick as an arm was approaching Peng Fei.

Peng Fei, on the other hand, seemed to be sleeping soundly. It could be seen that he was a little tired after flying for half a day, and had no idea that danger was approaching.

When Ye Chen saw this, he immediately woke up and quickly shot an arrow from the side at the snake. He only heard a short cry of pain!

That snake was directly pierced seven inches, and Peng Fei clearly heard the sound, and woke up.

It saw that the snake lying on the ground was obviously a venomous snake. From the distance, it should be trying to bite him.

"Don't move,"

Ye Chen's movements were very gentle. He pushed Su Yuhua away and even helped her pull up the blanket. Then, he turned around and used his spirit energy to walk over without thinking much. He got close to the snake that had fallen on the ground.

He focused his eyes and realized that there was a difference.

This snake's body was not like an ordinary venomous snake. There was a very strange pattern on its body.

Ye Chen subconsciously searched through his memory and remembered that he had read about it in an ancient book. This kind of snake with a special spell on its body should not appear alone.

Moreover, it was very likely that he would bring very good news or extremely bad news.

In any case, the snake would only appear at the same time when these two extremes appeared.

When he thought of this, he could not easily think that it was a good thing.

The sudden rain had left them in the forest, which meant that everything was destined, and he had no idea what would happen next.

Therefore, all he could do was to protect his Big Bird and his wife who was still sleeping behind him. He could not let them get hurt!

Of course, Ye Chen remembered. Before they were gambling mentally, his wife had said that she seemed to have felt something around her. He had not paid much attention at the time. Now that he thought about it, he suddenly felt a chill down his spine.

From the looks of it, there should be some. This was their first time in this forest, so they didn't think there would be any major dangers. However, things were different now.

Peng Fei had already fallen asleep, and he had slept for two hours. The little bit of sleepiness he had just now was completely broken by this sudden incident, making him extremely awake.

At the same time, he immediately looked outside and saw that it was still raining. Although it wasn't as heavy as when they had stopped, it didn't seem like it was going to stop.

It would probably be daybreak in another four hours. If they were still drowsy at dawn, should they leave or not?

Ye Chen picked up a Wukong from the side and started a fire. He looked into the cave. It was not very deep.

Logically speaking, it was only a few meters away, so there should be no problem in the cave.

Then the danger should be in the forest.

Now that the rain was so heavy, he couldn't continue to rest. At most, he would just sit here and meditate.

The break in two hours was neither long nor short. When Ye Chen meditated and opened his eyes again, the sky was already bright. Su Yuhuan, who was sleeping on the side, opened her eyes in a daze and found that her husband was already sitting beside her.

"Why are you up so early? I really slept too deeply tonight, and I feel like I didn't hear anything."

Su Yuhuan sat up and tidied her hair, then put on her jacket.

Ye chen first took out some food from the piece of clothing at the side and placed it by the fire. After roasting it a little, he handed it to su Yuhan.

"Your sixth sense last night was probably right. There are indeed other problems in this forest."

Ye chen did not intend to hide it from his wife. Moreover, he had used one hand to check on his lover's side last night to ensure that he had rested well. So, they could face the danger together today.

He wasn't a male chauvinist, not to mention that su Yuhan's strength wasn't bad, so it was better to let her know.

The two of them had been traveling North and South for a long time. They had experienced countless dangers in the process, and sometimes their lives were threatened.

But didn't they go through this together?

In short, there was no need to be afraid now. At most, he would just fight with the thing hidden in this forest. In short, he would not let himself suffer a loss.

The outside of the cave still looked like a Water Curtain Cave. The sun didn't seem to be coming out, and the heavy rain seemed to have stopped for a long time.

"Last night, a strange snake sneaked into this cave and wanted to attack Pengfei, but I discovered it."

Ye chen brought su Yuhan to the fire and looked at the snake that was already cold.

Su Yuhan only took a glance at it and felt that there was something wrong with it, because she really felt the disgust.

It was as if it was coming from the bottom of his heart.

He suddenly recalled the feeling he had last night. This snake was probably the one that had been spying on him in the dark, and it was obvious that there was more than one.

[Chapter 2719 2724-Black Shadow Attacks!](#)

Ye chen stood at the entrance of the cave and looked at the pouring rain. His heart could not help but pound.

However, before he could think about anything else, he heard a very heavy sound coming from outside, as if someone was walking.

However, this wasn't a human's voice. Instead, it sounded like the voice of a large beast.

That's right, when he thought of this word in his mind, he felt that it was even more appropriate.

The heavy footsteps gradually became clearer. It seemed like they were walking towards their cave.

Of course, he subconsciously thought that they might have accidentally entered this forest and disturbed the spirit beasts that were originally in it.

In short, this kind of situation was definitely unavoidable, and it would happen quite a few times. However, he really didn't think that he could be so unlucky.

It was surprising that such a thing could exist in an ordinary forest, and it might even bring other troubles later.

In any case, he was a little annoyed and annoyed. If it wasn't for the heavy rain outside, he would have left with his wife and Peng Fei.

Who would be willing to stay in this cold and broken cave, not to mention that they had almost finished the food and water they had taken.

Therefore, even if one's body had the ability to not eat or drink for a few days, they came out to enjoy themselves. Why did they have to suffer such grievances?

In any case, he was already filled with displeasure towards the demonic beast that he was going to see in a while.

Based on the small snake from last night, he knew that this demonic beast would not be dealt with properly.

Su Yuhan had also drunk some water and eaten something. Then, she walked over. Of course, she had also heard the sound, so she frowned without any clue.

Peng Fei, who was at the back, didn't feel very comfortable.

From the looks of it, he really disliked this sound, or rather, the repulsion between the right hands. Ye chen glanced at him and roughly communicated with Peng Fei.

It turned out that Peng Fei's body had suddenly felt a very uncomfortable feeling of rejection from within.

So even if he had not seen the beast that made the heavy sound, he had already guessed that it should have some hostile relationship with him.

Otherwise, it would not be so clear. Just by listening to the footsteps or feeling the air, he actually felt such a direct sense of rejection.

Peng Fei stood behind ye chen and su Yuhan, a little angry. No matter what, they were skinny. Their first subconscious reaction after having a master was to protect their master.

No matter what he would encounter later, sometimes he would step forward to protect his master.

Of course, ye chen did not need Peng Fei to be like this. After all, with the strength of the husband and wife, they could easily travel North and South.

However, he didn't know if he would meet a big guy today. In short, he was still looking forward to it.

Just like that, the rain outside became heavier and heavier. The sound gradually appeared on the small path directly opposite their cave.

A black figure walked over from a distance. Ye chen focused his eyes and was, to be honest, shocked.

It was not a normal animal form, or rather, it was a mutant. Its entire upper body was like a snake, but it had two legs and a huge tail that looked like a lizard.

However, he might not have the chance to see such a huge lizard in his life.

At first glance, ye chen had also guessed that this lizard-like mystical beast did not belong here.

Or rather, they might have been locked up here, so they had accidentally barged in. In that case, they could fight.

In any case, he had not practiced for a long time. Even as the sect leader, he had to relax appropriately.

He looked up at the weather, but what he hated was that his clothes would definitely get wet in this heavy rain.

Since returning to the plains, he had not seen such a large monster beast. The last time he could fight it was in the desert.

All in all, this was very interesting to him, so he turned around and said to su Yuhan and Peng Fei.

"Alright, you two don't go out. You stay here and protect her, okay?"

Ye chen said very directly. Anyway, he could handle it alone. If all three of them went out, they would all be drenched in soup. At least he went out alone and only came back to change his clothes.

He didn't want his lover to catch a cold. Besides, he wanted to take su Yuhan out to enjoy the world, to be a carefree person, and to live a free life every day.

He didn't have many chances in the first place, and now that he had finally come out, he was always faced with such terrible situations.

If it were him, he would probably be angry, so he decided to take care of his wife's mood.

After hearing ye Chen's words, su Yuhan was naturally unwilling. After all, she felt that her strength was not too bad and could at least help a little.

Moreover, the demonic beast in front of him was so big that he would be injured if he was not careful.

At that time, wouldn't he just be looking for trouble and adding more trouble?

Peng Fei also looked quite anxious. After all, even though he was only a demonic beast, he still had basic intelligence and thinking ability.

Therefore, after hearing ye Chen's words, he subconsciously felt that his master wanted to protect him and su Yuhan.

As a Mount and as the master's mystical beast, he had to bear this responsibility. However, as soon as the two of them opened their mouths, they were immediately rebuked by ye chen.

He would never let them go out. This was already ye Chen's own decision.

"Okay, don't worry, it's just a monster beast. The ones I've experienced before were much more difficult than this, but in my eyes, it's all the same. You still don't believe in my strength?"

Ye chen said with a smile as if he could easily handle it.

"What if you get injured?"

Su Yuhan said angrily, but in the next second, she was pulled into a warm embrace.

"Don't worry, don't you believe in my strength? Besides, it's more convenient if I'm alone. Besides, in my eyes, I don't have anything on hand. What I want is you, and it's good that you're fine. "

After ye chen finished speaking this time, he gently let go of su Yuhan and left a very quick kiss on her forehead.

Then, as if he had just pulled a prank, he quickly ran into the rain.

Even Peng Fei, who was standing behind, was stunned. He didn't think that someone like him would actually do such a small romantic thing.

However, it immediately looked at the forest outside the curtain of rain nervously with su Yuhan.

Ye Chen's speed was so fast that he drew his sword from his back at the same time.

As expected, the lizard-like demonic beast was treating them as prey.

When it saw ye chen rush out, it immediately opened its bloody mouth and ran over. It even looked a little clumsy.

However, it was only the way he ran that made him look clumsy. When he suddenly flicked his tail, ye chen realized that something was wrong.

This was because the tail's power had stopped the rain, and it could be swung at an extremely fast speed!

He immediately reacted and jumped into the air, stepping on the lizard's head. Then, he turned around and slashed at the tail with his sword.

He didn't hesitate at all. The lizard seemed to have noticed his movement and quickly tried to Dodge.

However, its tail was simply too large. No matter how fast it was, it could not match ye Chen's speed.

After all, the size of one's body really had a huge advantage at this time.

A trail of black blood splattered out from the air and onto the ground. Ye chen was somewhat surprised because the rain should have covered most of the smell but the stench of the black blood still rushed up to his nose.

This made him a little dazed. What kind of poison was this?

This smell simply meant that it would soar to the sky in one go. It was even more aggressive than the tail itself!

Ye chen held his breath. He was determined to end the battle as soon as possible.

He quickly dodged around the trees. What he did just now had obviously angered the lizard.

After all, cutting off its tail would not cause any particularly strong damage. It could grow back, but it would take some time.

Now, ye chen could be said to have touched his reverse scale and made him go crazy all of a sudden. After all, he had been trapped in this forest for a long time.

But at least, he ate those who could be eaten in the forest, and the rest became his subordinates.

For example, the snake from last night had come out to investigate after he had settled it down. Who knew that ye chen would find out?

He was quite unlucky. After all, he had always succeeded in getting rid of the prey he wanted to get rid of.

Moreover, he would often use the rain to keep these people passing by the forest.

The heavy rain forced them to stay here, and then they jumped out of their own trap.

The rain had soaked ye Chen's clothes and hair. He regretted not bringing a bamboo hat with him and had to hurry up and finish this game.

It was just a very stinky lizard, so getting rid of it was also a good thing for the people passing by.

Who knew how many times he had done such despicable things before?

Now, he would let ye chen wipe it out in one fell swoop. In any case, he just had to deal with this huge leader.

The remaining small snakes and animals could no longer gather together. This might be the so-called "to catch the bandits, first Catch the King"!

Ye chen held a sword in his hand. Now, it was almost unstoppable in front of him, except for the heavy rain.

There were precious people in the cave, and he had to protect them well. This lizard had to die today.

The sword in ye Chen's hand was still stained with a little black blood earlier but it had been washed away by the rain. Ye chen was quite relaxed. Fortunately, there was this heavy rain.

Although it was a little uncomfortable for him, he could still clean up all the sins and deeds here.

At that time, the forest would still be lush and verdant, and not be messed up by the lizard.

When ye chen made up his mind to do this, he was even more ruthless. Moreover, this lizard was not to be trifled with.

It used more and more strength in its response, and the two of them were in full swing.

Ye chen relied on his body's advantage and could quickly hide left and right. This way, he would be able to avoid a lot of unnecessary trouble.

The lizard, on the other hand, was seeking its own death. Its body was huge to begin with.

When he encountered an opponent like ye chen, who pointed out every danger to him, he was like a giant Bomb.

In short, his panicked escape and counterattack did not have much effect.

Because of ye Chen's extremely agile body, he dodged very quickly, not giving him any chance to fight back.

"Alright, alright, I'm not going to continue playing with you here. Let's hurry up and get the results!"

Ye chen said impatiently. Then, he quickly jumped onto the lizard's body and stepped on its head.

His sword had long been used by him very nimbly, so in such a situation, it was almost as if the spiritual energy was transmitted through the power in his hand, and then suddenly stabbed down fiercely!

Su Yuhan and the others were watching the situation from the cave. The weather was cold, but they were almost sweating when they were nervous.

She really felt that if ye chen was not done, she would immediately rush out.

There were a few times when Peng Fei wanted to rush out, but he was held back by su Yuhan. She would definitely not let Peng Fei take the risk. Compared to this giant bird, ye chen was definitely more suitable to attack.

On the other hand, ye chen was already at the final stage. His sword stabbed down ruthlessly and the lizard's head was pierced through.

It was obvious that the huge creature had not reacted quickly, and its body was already covered in wounds.

On the other hand, ye chen looked as if he had just been caught in the rain.

However, this was not much different from what ye chen had thought at the beginning. He felt that his strength was indeed just like this. He was not afraid of this big lizard and did not think that he would be attacked by it.

He quickly pulled out the sword, and the big lizard fell to the ground. Su Yuhan and the others could feel it.

Ye chen raised the sword in his hand and washed it with the rain. After making sure that it was clean, he strode back to the cave. The fish in the sky and the assassin slowly came to a stop.

[Chapter 2720 2725-Sealing The City!](#)

Su Yuhan had already prepared a set of dry clothes for ye chen when she saw that it was about to end. Then, she waited anxiously at the side. After the big lizard was finally killed, ye chen deliberately showered for a while to wash away the blood on his body.

Then, he walked back to the rain outside the cave step by step. Because the lizard's death had gradually returned to normal, the sun had already come out in a short while.

All of a sudden, the forest seemed to have returned to a different state, completely different from when they had first arrived.

It wasn't just because of the weather, but also because of the invisible aura that felt very different. In short, it looked very comfortable.

Ye chen immediately changed his clothes, packed up his things in the cave, and followed them out. It was no longer raining outside.

In that case, they would have to hurry to Stone City. They did not expect to encounter such a troublesome incident, but fortunately, it was over.

"Don't worry, I'll definitely bring you to have fun after we enter the city this time. It's absolutely impossible for such a nonsensical thing to happen again. "

Ye chen said, a little embarrassed. Then, he took his lover's hand.

Su Yuhan didn't mind and even hugged him.

"It's okay. I think it's quite interesting. It won't hurt us anyway. Besides, we don't have to care so much when we're out playing. It's fine as long as you're by our side."

In the end, ye chen and Peng Fei sat on Peng Fei's back and chatted. Peng Fei's speed increased even more. He was pregnant with many mountains and just looking at them was tiring.

However, for a demonic beast like Peng Fei, which was almost an advanced version, it wasn't very tiring to run such a long distance.

In comparison, it would definitely be more tiring to encounter an enemy.

Therefore, as a Mount, Peng Fei felt that it was great to be by ye Chen's side. After all, his master would always stand bravely in front of him.

There was no need for him, a Mount, to run around for this, so this was really a very good job.

He was truly grateful to his master. After all, without ye chen, he would most likely be sealed in that forest forever, not knowing what would happen in the future.

And their race might have been completely annihilated at that time.

If ye chen had not suddenly appeared like a Savior, it was clear that the outcome would not have been changed.

Peng Fei continued to fly, gradually slowing down his speed. This way, it would reduce the bumps, and at the same time, it indicated that they were approaching Stone City.

After all, the stone city was surrounded by Plains, so they didn't have to fly over the valleys.

When ye chen and the others looked down again, they could already see Stone City not far away. Peng Fei was flapping his wings and his speed was getting slower and slower.

After that, they dropped a lot and stopped on a flat land beside a forest outside the stone city.

This place was less than half a kilometer away from the city gate. It was convenient for ye chen and the others to go there.

After all, it really wasn't appropriate for a giant like Peng Fei to wander around.

Moreover, he did not really like the city. It was better to let him wander around the mountains and wait for ye chen to call him out when he needed it.

After ye chen and su Yuhan sent Tengfei off, they walked to Stone City together. It was noon now, so they could enter the city to eat its specialty food.

They had heard that the stone city's culture and customs were very good. Now that they had gone there to see it for themselves, the two of them were indeed a little hungry.

When he walked over, he saw the city gate that was wide open. It was obvious that this area should be very safe, which was why it was so open.

The two of them walked in together. In the middle, they were only briefly searched by the soldiers, and then they entered the city together.

This Stone City was indeed a Stone City. From the outside, it was basically built with large stones, but it was almost the same inside.

There were no houses either. Most of them were made of bricks. On the contrary, most of them were made of stone. It could be seen that there was a lot of them.

Soon, the two of them arrived at the market and used the first shop that they saw. Shi TOU was currently pooping.

It looked white, so it must taste good. The two of them went up and asked for the price.

"You only need five coppers to get one."

"Alright, give us one."

Ye chen happily paid the money and watched as the uncle placed the Daddi he had poured aside. Then, he cut it into small pieces and placed them in a bag.

At the same time, he also poured some soybean flour and red sugar syrup into it, which made it look even more delicious.

Two wooden sticks were stuck on it, and the uncle handed it to su Yuhan.

"Quickly try it." Ye chen said with a smile. The two of them ate as they walked forward. They saw more unique delicacies and many of the tools were made of stone.

The two of them went to try some other small things before they walked to a restaurant.

"Let's stay here for the night. The conditions and environment here look quite good, and it's close to the market. Tomorrow, we'll go and see if there's anything convenient to buy and bring back."

"Alright," he said.

The two of them walked into the restaurant together. First, they told the manager at the front desk to reserve a room. Then, they ordered a few dishes and waited at the side, ready to have lunch.

"I just heard the shopkeeper say that they have a Festival in the same city these days. Since we're here, let's go and join in the fun. I heard that there's a small opening ceremony tonight."

Ye chen grabbed a few peanuts and suggested to su Yuhan as he ate.

"Of course you can."

The two of them then called over a bunch of waiters who were idle and asked him about it.

The waiter was also a Chatterbox. Moreover, ye chen had given him a reward. He immediately introduced the special festival in Stone City to them.

It turned out that every year, there would be a holiday that lasted for a week in the last few days of this season. From the first day onwards, it would be the most vigorous. Everyone would gather on the streets and hold lamps in their hands at night. Then, they would come out together to perform.

They would light a huge bonfire in the middle of the city and dance around it.

It was the same on the last day. In the middle days, everyone would wear different masks every night to make friends. In these days, everyone was basically equal, and there was no such thing as poor or poor.

Because they were all wearing the same clothes.

This atmosphere was very intense, and it had been going on for more than a hundred years.

The waiter was beaming with joy when he talked about happiness. In short, he had roughly explained all the things that needed to be done in the next few days.

Ye chen and the others nodded after listening. They were also full of anticipation for this Festival. At the same time, they had to go out in the afternoon to buy a mask.

This way, it would be easier to blend in. According to the waiter, everyone would wear a mask at night.

When the time came, it would seem a little abrupt if they didn't bring it. When in Rome, do as the Romans do, not to mention that they were here to play.

The two of them had a good meal to replenish themselves. They ate the monotonous food on camel mountain peak and then took a nap in the restaurant.

In the afternoon, they went to the busiest market in the area according to the directions given by the waiter.

Most of the places they went to in the morning were places that sold food. The next street would have a lot of small things.

Perhaps it was because there was an opening ceremony in the evening, so there was a lot of shopping in the afternoon.

Moreover, there were many townspeople who were buying these masks, earrings, and clothes on the streets. They were all piled up outside and displayed.

Su Yuhan was very happy to see this. She had always liked these little things, not to mention that she had promised to buy something for her daughter.

With a glance, she already saw a few headdresses that were very suitable for her younger daughter's age.

This was something that couldn't be bought in their world, so they could just buy some new things here.

Ye Chenjiao followed behind. Basically, he only had to pay for the things his wife took.

When the two of them strolled around, they finally experienced this kind of straightforward fun.

The reputation here was very simple, so they didn't spend much money on one round, but they had already bought all the things they needed for the day.

Su Yuhan also bought a lot of other small things, which filled a cloth bag.

Then, the two of them returned to the restaurant with great satisfaction. They put the things upstairs first before going downstairs. They planned to eat less dinner before going out to play with the masks.

It was almost dark outside. According to the innkeeper and the waiter, it would be even redder after dark, and the lights on the street would not go out for the whole night.

After Ye Chen and the others returned to their rooms, they first changed their clothes, then put on masks for each other before going downstairs together.

The masks here were also very unique in design. The patterns on them were rarely seen, but they were drawn from various small things in life.

In short, it looked very detailed and very beautiful. When put together, it would make people's eyes light up. They had already thought it looked very good when they bought it in the afternoon.

Ye Chen arrived at the night market on the street at the beginning of the first lunar month. It was just as the shop owner and the waiter had said. At this time, the street had begun to become lively with people selling snacks on both sides. As they walked forward, they saw a crowd of people gathered together. There was a performance going on.

It looked like a very good performance. Several people were stacked together on stilts.

Ye Chen brought Su Yuhan to the side. As he was watching, he suddenly felt his clothes being pulled.

He looked down and saw a little girl holding a few wreaths in her hand. She was wearing a very cute mask and asked him very carefully.

"Uncle, can you buy this big sister a little flower?"

Her tender voice was simply too cute. Ye Chen could not refuse such a little girl at all, so he took out a few copper coins and handed them to her.

He took a flower garland from her hand, and it was obvious that the little girl wanted to tell him that he didn't need so much money.

However, Ye Chen did not continue to talk to the little girl. He just smiled and patted her head. Then, he turned around and put the garland on Su Yuhan's head.

A garland made of many different kinds of flowers still looked beautiful even in the hazy night.

"How is it? Isn't she pretty?"

Su Yuhan asked with a smile as she had heard their conversation.

"Of course, it'll look the best on your head,"

The two of them were obviously influenced by the lively environment here, and they started dancing with the other city people.

He didn't even know how much time had passed, but he had a very happy night.

After the party, he returned to the restaurant and prepared to have a good sleep, because it was obviously late at night.

Moreover, the waiter said that the next morning, the merchants were basically not open until lunch time.

They couldn't stop for the next few days, but what they didn't expect was that the two of them had just gotten up and were about to go downstairs to order a few dishes for lunch.

He heard the shopkeeper discussing something with the waiter in a frightened manner.

"I don't know what's going on, but the city gates have already closed today. It looks like the city will definitely be sealed for the next few days."

The waiter said angrily.

Ye Chen and the others walked over and asked, "What's wrong? What happened? Why did they lock the city gate? How many days will it be locked?"

"I don't know yet, but it shouldn't be long, probably in three or four days. In any case, I guess our Festival this time won't continue to be lively."

After that, the waiter explained the situation to Ye Chen and the other two guests who had come from afar.

It turned out that these few days were supposed to be revelry days. Everyone was the same yesterday, but this morning, a piece of news suddenly broke out.

According to the rumors, the demonic beasts in the forest had started to awaken.

The mages in the city immediately sealed off the city after calculating this.

This happened almost every one or two years, but this time, they didn't expect it to be a holiday.

"Then what color is it inside? Does he attack Stone City every time?"

"That's about it. Every time the mages calculate it in advance, they will lock the door. Then, every night, they will hear a very miserable sound, as if something outside is trying to break in, and it is very unstable at the gate."

The waiter had actually heard a part of this, but what he said was indeed very mysterious. After all, such rumors would only get bigger and bigger as they spread.

After hearing this, ye chen decided to go and check it out himself. He didn't want such a good Festival to be interrupted by other things.
