

Genius 2721

[Chapter 2721 2726-Reason!](#)

Before ye chen left the house, he thought that this might be a prank. To be honest, he did not know much about these so-called cities.

However, he knew that most of the cities had ghost stories that he didn't know if they were true or false. Sometimes, they restricted the thoughts and thoughts of the people.

In any case, ye chen did not believe in ghosts. The waiter and the others were talking about the monster that came from the forest next to their Stone City.

This was a taboo in their entire city. In ye Chen's opinion, this was absolutely unrealistic. Moreover, he would not believe such words so easily.

Therefore, he wanted to see if this so-called monster was as powerful as him, a cultivator. Or rather, he wanted to see if there was one or two of them.

Ye chen and su Yuhan arrived at the city gate very quickly. From afar, they could see that the city gate was indeed tightly closed today. It looked like a preparation place. After all, many wooden sticks were hung on the gate. The blockade was very tight. At a glance, it was obvious that it had been strictly dealt with. They just did not know what kind of monster was outside the gate.

Ye chen chuckled and walked over to the soldier who was standing guard at the door. He was very serious.

"Why did this big brother suddenly lock the city gate? Weren't they having a Festival these few days? I'm an outsider, I don't even know what happened. "

Ye chen revealed that he was from another place and as expected, he immediately caught the attention of the gatekeeper. He first looked at ye chen and su Yuhan and then explained to them why he had locked the door.

After all, their Stone City was usually very open and friendly to the people in the city or tourists.

Ye chen was quite unlucky. He had just come to play and happened to encounter the most serious situation, which was considered a bit troublesome.

After all, the people in the city wouldn't celebrate too much in the past few days. When they encountered such an event, everyone's mood would be subconsciously affected.

Not to mention welcoming such a Festival.

In short, every time the monster appeared in advance. The city Lord would order the city to be sealed, and all of this was calculated by their mages.

There had been a few times before when something wailed outside The City in the Middle of the Night and crashed into the gate countless times.

Their wood was changed once every three days, so they had to change it twice in total.

It was to prevent it from becoming loose in the day after being hit in the middle of the night. That would be very unsafe.

The Big Brother who was guarding the door was also a very talkative person. He talked without end. In short, he told ye chen and the others everything he knew and roughly understood everything.

"Alright, alright. Then you guys should hurry back to your place. Don't come out. Things have been very troublesome these few days."

The Big Brother immediately called out to ye chen and the others. In any case, it would be better to go to the market for a walk than to stay here. Although there were not many people, they could still have some fun.

After ye chen bade farewell to the Big Brother, he turned around and left. He took su Yuhan to the side road. He did not intend to give up so easily.

After all, he had come here to take a look. He was also very curious about the so-called monster outside.

The two of them quickly turned into an alley. It was the peak of the sun, and almost every family was eating at home.

Therefore, there was no one on the street, and the place they were in was even more spacious. The two of them quickly relied on their spirit energy.

Ye chen jumped out of the city easily and arrived outside the city. He whistled and summoned Peng Fei.

Of course, he wouldn't be asked to find some big monster, but it would be a good opportunity for him to feel what this new thing was.

Peng Fei flapped his wings and arrived. As expected, when he passed by the forest, he slowed down somewhat suspiciously.

However, when he remembered that ye chen was waiting for him, he immediately flew over and saw his master and his wife waiting for him.

"How is it? Why did you stop at that forest? Is there something wrong with the aura?"

Ye chen was very straightforward. Peng Fei nodded. When he passed by the forest, he felt a very strange energy.

It was like a very turbulent force. In short, it should also be a unique kind of demonic beast.

However, Peng Fei did not feel too repulsed by him. In short, the general meaning was that he did not have any hostility. Then, he asked ye chen.

"What's wrong?"

"We were just having fun in this Stone City when we were suddenly notified that a monster was coming. So, we were locked in the city together. Because there were many festivals in the city these days, it was more cheerful. Unfortunately, such a situation suddenly occurred and we stopped. I also want to see what these so-called monsters and demonic beasts are."

Peng Fei's interest was piqued by ye Chen's words, so he also lowered his body happily and carried ye chen and su Yuhan on his back.

Then, it flew up and quickly headed toward the forest.

Ye chen did not want to do anything unnecessary or to uphold justice for others. However, it would not be good if his mood was ruined!

He didn't want to spend the next few days like this, so he decided to help Stone City solve this problem.

At that time, he might be able to live a happier life.

To be honest, he was also puzzled in his heart. Why did it cause so much trouble just to come out and play? he originally thought that he could be an ordinary person after coming out!

Who knew that these ordinary people would have so many problems waiting for him to solve.

As a person with a strong sense of responsibility, he really couldn't shirk responsibility, even if others didn't know it was him who did it.

Perhaps this was what an immortal must do when he was out playing!

Anyway, he didn't have much to do, so he could use it as practice. He wouldn't feel rusty after going out for a trip.

They were very close to each other, so Peng Fei quickly circled above the forest. Ye chen sat on the side and looked down.

The forest looked no different from the ordinary ones, but he could feel the energy fluctuations inside.

It was obvious that there was a demonic beast that lived here all year round, but why did it suddenly appear?

This matter was definitely not as simple as what those few commoners had said. There must be other things hidden in the dark.

In short, now that he wanted to participate in this, he felt more and more interested and interested.

Ye chen let Peng Fei land in a random place, then he jumped down and walked in with su Yuhan.

When he reached the surface, he found that everything seemed to be a little different from what he had imagined, because he still felt a strong energy on the flat ground.

However, it wasn't just one, but many. It was as if they were being controlled, which made people feel magical and confused.

Just as they were walking forward, preparing to find a cave, or to look for the place where the energy fluctuations were the strongest, a loud noise suddenly rang out from the forest.

It sounded like the cry of a mystical beast. Ye chen was stunned for a moment and quickly walked forward. Peng Fei had also shrunk and caught up from behind. His expression was also very serious.

Something was not right. Peng Fei then told ye chen that the cry he had just heard was from a mystical beast.

But it wasn't an ordinary cry. It was the kind of sound that would only appear when one was severely attacked or in a very bad situation.

In short, it was very abnormal!

When ye chen heard this, he immediately quickened his pace.

The two people and one bird quickly ran towards the place where the sound had come from.

As they kept running forward, they soon saw a cave with a very strong energy bomb.

The faint blue light stood there, and there was something wrong with it. Just a glance at it made him feel an indescribable emotion.

Ye chen suppressed the feeling of rejection and strode forward with a frown.

Su Yuhan seemed to be more affected because of her body condition. She slowed down uncomfortably.

"Go and take a look first. Don't worry about me. I'll be done soon. I just need to adjust my breathing."

When ye chen heard this, he gave Peng Fei a look, telling him to stay here and watch over his lover. Then, he quickly walked over and could see that the light in the cave was getting brighter and brighter.

The closer he got, the clearer the roars of the demonic beasts became, which made him feel a chill down his spine.

The worry in his heart was getting stronger and stronger. He knew that something unknown might be happening here.

He had to expose this matter. Why were there demonic beasts trapped here? what kind of conspiracy had caused this situation?!

When ye chen approached the cave, he saw a mystical beast that seemed to be trying to escape. Its body was full of energy. The wound looked as if someone had drawn blood from it. Ye chen quickly rushed over and ignored everything else. He raised his hand and sent out a spiritual energy to wrap around the mystical beast. The sudden power had indeed relieved the mystical beast's pain. It panted and kept trying to open its eyes. Fortunately, ye chen immediately used warmth to put it to sleep temporarily because the recovery process would be very painful.

Then, someone rushed out from behind. It looked like someone was trying to grab the elemental energy back. When he looked up, he saw ye chen standing at the door with a murderous look on his face. He pulled out a knife from behind him.

"Who are you? Why are you here? don't cause trouble. It has nothing to do with you. Don't look and get lost!"

When ye chen heard the other party's arrogant tone, he wanted to do something even more. He chuckled as if he was not affected by the other party at all.

"Why does this big brother have such a bad temper? I'm just passing by, and I saw that Xiao Yao was seriously injured, so I wanted to help him. What's the matter? Or did you cause this injury?"

Ye chen could not stand it anymore, so his voice became colder and colder. He looked at the man in front of him with a hint of killing intent in his eyes, but it disappeared in a flash.

"What does it have to do with you? stop pretending. If you continue to waste my time, I'll leave you here with me. Hurry up and get lost. Let him go, I want to take him away."

"That's not up to you. I have to protect him today!"

After ye chen had finished speaking, he merely raised his hand slightly and the sword in the opponent's hand fell to the ground. It was obvious that he had not reacted in time.

Then, he used his spiritual energy to pick up the sword again. This time, he did not need to say anything more. He raised the sword and slashed at ye chen.

Ye chen was not afraid at all. He dodged the attack very quickly. Then, without even drawing the sword on his back, he began to quickly fight back.

His spirit energy transformed into a similar knife and fought with the man in the air. The man obviously had spirit energy as well, otherwise he wouldn't be able to control the demonic beast.

The brawny man in a hurry quickly fell into a dilemma.

Compared to ye chen, his strength was only able to withstand one or two attacks at the beginning. Later on, he could not hold on at all.

Ye chen raised his hand again and smacked a knife on the man's head. Of course, he smacked it from the side, so he only knocked the man out.

The noise outside obviously attracted the attention of others inside. After a while, two more men came out. They looked similar to the man just now.

Ye chen chuckled, thinking to himself that this was actually an organization!

He really didn't expect that such a shady business would actually happen now. Did these people know what they were doing? how could they be so cruel to demon beasts?

From the looks of it, it wasn't that a demonic beast was going to attack them, but that they were trying to use these demonic beasts 'bodies to exchange for their lives!

It was really infuriating!

He had already figured it out. He also knew that this group of evil-doers in front of him was most likely in cahoots with some high-ranking officials in Stone City, or the mage and the city Lord!

However, the most important thing now was to deal with these few small fries in front of him!

It just so happened that he also wanted to enter the cave to take a look and save those demonic beasts that could still be saved.

"What are you doing? Those who barge in will be killed!"

The man glanced at his fallen companion who did not immediately pull him up. Instead, he said harsh words to ye chen.

"Alright, then let's have a fight. Let's see who's the first to die, you bunch of animals. How dare you try to reason with me!"

[Chapter 2722 Ridiculous Desire!](#)

"Laughable!" Ye chen leaped up like an arrow and charged toward the two people in front of him.

The other party obviously did not expect ye chen to be a person with spiritual energy.

In their eyes, the people of Stone City were at least ordinary citizens, so they had no chance of competing with them.

However, these two passers-by who had suddenly appeared didn't seem to be ordinary. Moreover, they couldn't sense the other party's strength, but they had already reached this stage.

Of course, he couldn't be a coward. He had already said the provocative words!

At most, they would just exterminate the other party!

So what if he killed someone in this desolate forest? If outsiders knew what they had done, the consequences would be even more serious.

Therefore, it was better to cut off the question in advance.

Since ye chen and the others had yet to leave the forest, they covered their mouths.

The two of them were actually a little worried, but I wanted to see you. There were at least two of them fighting, and ye chen was the only one blocking the front.

Su Yuhan, who was behind them, seemed to be in a state of complete disregard, as if she was too weak to even truss a chicken.

Therefore, he was directly regarded as an incompetent person by the two.

It was obvious that the man on the ground did not intimidate the two of them much, so ye chen did not waste his breath.

The blade that he had formed with his spirit energy was like an invisible weapon, and it struck the man's body very quickly.

That person quickly dodged, but because he couldn't see, he was still hit.

He thought that he had just been patted, but who knew that he would fall to the ground all of a sudden, and his whole body was in pain.

When the other person saw this, he quickly wanted to go around to the side and ambush ye chen. Unfortunately, his movements were not fast enough.

They were indeed people with spiritual power, but it was obvious that they had learned some mediocre martial arts. They could not even be considered disciples of a sect.

They might not even be able to defeat an outer sect disciple, and could only scare the common people here!

It only took ye chen a few tricks to inform them and he had already beaten these two people into submission. They were kicked to the corner together with the other one.

Ye chen took a rope from the corner of the wall on the other side and tied the people on both boats together. Then, he used his spiritual energy to reinforce it.

"Let's go. Let's go and see what's going on inside. "

After ye chen had taken care of everything, he turned around and said to su Yuhan.

The two of them nodded and walked into the cave together. It was obvious that something bad had happened in the cave.

They could clearly smell the blood on the hands. This was a very direct impact.

It really made people feel uncomfortable. Ye chen and ye mo could only hold their breaths and try their best to walk forward.

At the same time, he knew in his heart that this matter couldn't be so simple. It was very likely that the so-called demons locking the city gates were all made up.

It was just to cover up a bigger conspiracy and use this reason to make the people in the city not dare to pass through this forest.

Even if they were going back, they would try to take a detour. After all, the edge of the forest was not very far away, and this gradually covered up the matter.

Furthermore, he had heard that this had been going on for several years. It was just very ironic!

If the two of them had not appeared, perhaps no one would have known that there was such a terrifying thing here.

Obviously, the people inside had also sensed the situation of da Dou and the three helpers who had been controlled. So, when they had walked a short distance, they heard footsteps coming from the front.

At the same time, it was still accompanied by the sound of being served, which really made people frown.

They wanted to block their ears completely to isolate such a painful sound.

"Come over here."

Ye chen subconsciously pulled his son to his side and let him stand behind him. At the same time, he hid to the side.

"What's going on? What was so difficult to deal with outside? The three of them can't even handle a passerby, what a bunch of trash!"

"That's right. I think it's better not to use these idiots. We'll just kill them after things are settled."

The two people who walked over were obviously of a higher level than the three people just now. Otherwise, they wouldn't have said such things so casually.

When ye chen heard these words, his frown deepened. She really did not treat human lives as important!

It turned out that this was the atmosphere from the bottom to the top.

"Don't move, I'll handle it. " Ye chen was determined to get involved in this matter.

Therefore, after saying a few words to su Yuhan, he walked out and stood in the middle of the road, blocking the two men.

"The two of you should be going out to find me, right? there's no need to go out anymore, I'm already here."

His tone was filled with the words 'little aunt', but the expression on his face was extremely cold. When the two men saw the situation, they knew that the three people outside had been subdued.

"Since you're so powerful, let me see your strength!"

"Kill them to silence them. If you let me do this kind of thing, I'll do it very conveniently. There's no need to worry about any problems."

After ye chen had finished speaking, he drew his sword from his back and charged at them.

His speed was extremely fast. What the two men didn't expect was that this person was clearly holding a weapon, but he was approaching them at an extreme speed.

Then, ye chen kept his sword and raised his hands to slap the two men in the chest.

"Pfft!"

The two of them didn't react in time, and the force that suddenly rushed over made them spit out blood.

After ye chen was done taking the picture, he quickly stepped back and did not get touched at all. After all, it was still a psychological disgust and disgust.

"Who are you? Why did you appear here to oppose us? Do you know who is behind us? Don't you want your dog life?!"

The man flew into a rage out of humiliation and began to curse. Second ye chen did not show any signs of being moved at this time and just smiled at the man.

"I'm just a passer-by. How would I know who's behind you? why don't you just tell me directly? I want to know if I can be provoked. "

Ye Chen's clear provocation and his intention to test the waters could not be more obvious.

The man opened his mouth and was about to turn around, but he was stopped by his companion next to him. Otherwise, he might bring disaster to himself if he spoke without thinking.

"What's wrong? Why don't you dare to say it? Don't tell me you really think I'm strong. It's fine, I can only beat you, but if you don't say it, you might have to suffer. "

Ye Chen's face went from a smile to a cold one that could not be hidden.

The two of them helped each other up. It looked like they were still fighting face to face, but in fact, they were already feeling a chill down their spines.

He didn't expect this uninvited guest to be so much more difficult to deal with than he had imagined. It seemed that the trouble wasn't just this.

The two of them were quickly taken care of. This time, there was no rope. Ye Chen used his spirit energy to hold the two of them in place and then quickly walked in with Su Yuhan.

He knew that there would be a bigger secret inside that the two of them couldn't tell. He would go and see for himself!

In the innermost part of the cave, a very brutal blood drawing was being carried out.

The space here was not small at all. Other than the few people who were moving in front, there were two people standing next to them who looked like the so-called highly respected city Lord. The other person should be the so-called mage!

The two of them stood there and looked at everything that was happening in front of them with greedy expressions, as if they were doing something very Grand.

When Ye Chen and the others walked in, they were greeted with such a crazy scene.

In the past, he had heard from books that some people would specially collect blood from certain times and then use it to make pills. This kind of pill indeed had a certain effect on the body.

Basically, it could increase one's physical strength or have some other uses. However, no one knew how it was passed down, but it gradually became immortal.

In short, Ye Chen had never believed it. However, this matter became more and more serious as it spread in the room, so much so that many people actually believed it.

Now it was obvious that these two people in front of him with high status were probably doing this.

Furthermore, they had to use their authority to cover up this matter under the blue sky and white clouds. This was simply insane!

Ye Chen, when I saw them, my heart had already softened with a fierce anger.

Although some demonic beasts were indeed very dangerous, most of their right hands only lived in their own area and would not take the initiative to attack humans.

But now, they had rejected all of this and were even releasing their blood to make pills!

It was simply a very cruel method, to the extent of being sent to hell!

As expected, Ye Chen's appearance was quick and attracted the attention of the people there. The moment the Sorcerer saw Ye Chen, he immediately realized that something was wrong.

Because his level was relatively high, he could sense that the person in front of him was definitely not ordinary.

Furthermore, he was much stronger than himself. His face turned pale in an instant.

It was a pity that everything they had created had been completely exposed.

Ye Chen looked at the mystical beasts in the cages and said to Su Yuhuan without any hesitation.

"I'll deal with these people. You release all of them. "

As soon as Ye Chen finished speaking, the City Lord's expression changed. He took a big step forward angrily and pointed at Ye Chen's nose as he scolded.

"Who are you? Why did he appear here? Hurry up and get rid of it, don't let anyone know. "

The City Lord didn't seem to realize the seriousness of the matter. He raised his hand and ordered his subordinates to hurry up and chase them away.

In his eyes, anyone who could affect his Ascension to become an exalted immortal should be eliminated.

"You have to see if you have the strength to send me away, right?"

If they were not going to let these people off so easily this time, it was obvious that this stupid pig was the leader, and the mage beside him must be the one fanning the flames.

The two of them had only caused so much trouble because they were together. It had been several years since then, and they had always been putting on an act, pretending to be mysterious.

The mage was obviously affected by the mayor's emotions. He knew that he should not be in a hurry, and the man in front of him was unfathomably powerful.

However, if they were to be found out by the people spreading the news, they would definitely be pushed down!

If that really happened, then all their efforts would be in vain.

Therefore, no matter what happened today, he would not let Ye Chen and Su Yuhuan leave this place alive.

The two of them must have come out when the city gate was locked, right? Just let them stay in this forest forever!

As soon as Ye Chen finished speaking, I immediately walked to the cage closest to him and used my spiritual energy to quickly open the door.

She let the demonic beast out. It could be seen that its body was already very weak, and it was obvious that a lot of blood had been drained.

The other demonic beasts also started to cry out, hoping that they could be rescued. Su Yuhuan could only speed up.

The people around him were not to be trifled with. When they saw this person move so quickly, they immediately jumped over.

Ye chen would not give him the chance.

"If you want to pass, you'll have to get past me first. You bunch of scum, you should be the ones to die Here forever, not be sent back to the city for judgment!"

This time, ye chen unsheathed his sword from his back and attacked the burly men in front of him.

However, he felt that it was very inconvenient to use his sword, so he put it away and changed to using his fist. Such a scumbag should be knocked down with one punch.

The five people who surrounded him were all subdued by him with just a few punches and kicks. They were just helping out, so their spiritual power was actually not strong.

At this time, when they saw ye Chen's power of one against five, they suddenly panicked.

This included the city Lord who was standing there. He had a feeling that he would be the next one to be beaten up, so he quickly stood behind the mage.

These demonic beasts were brought here with the help of the mages, and they were also given medicine.

Otherwise, how could he be so easily controlled by them to bleed?

Unfortunately, the Wizards could not even protect themselves now. After ye chen had taken down those people, he immediately attacked the two of them.

The city Lord had thought that he could use a mage to block the disaster, but who knew that the mage's hand speed was even faster than his.

At this time, he didn't care about his status and directly pushed the city Lord behind him forward!

"What are you doing!"

The city Lord cried out in panic as he faced ye chen head-on. He did not have much strength in that one palm, so he felt as if his internal organs were about to shift positions!

[Chapter 2723 Public Execution!](#)

Because ye chen was waiting here, su Yuhan's speed became faster and faster. Soon, all the mystical beasts that could walk and did not bleed much were released.

Other than the ones that were injured, the rest of the demonic beasts that were slightly injured jumped out and immediately attacked the few people in front of them.

They did not need ye Chen's help. To be honest, they were very powerful after transforming into mystical beasts. They were also very strong.

If it were not for the control of the medicine, the mage would not have been able to capture these demon beasts.

Moreover, it seemed that these cages were also made of some special metal, which was very troublesome.

The people on the scene immediately turned red. Only the Sorcerer's spiritual power was slightly higher, so he could temporarily block the others from being trampled to the ground by the monster beast that suddenly flew over.

Basically, he looked like he was being beaten up and had no power to fight back.

Ye chen was also pulled aside by su Yuhan to avoid being accidentally injured.

This group of demonic beasts could obviously tell that these two people had come to save them, so after the attack, they turned around and bowed to them in accordance with the standard of the collection.

After all, there were times when these demonic beasts valued relationships more than humans and knew how to repay favors.

Ye chen pitied these mystical beasts who were also suddenly attacked. Therefore, he raised his hands and released ten energy branches at the same time, which surrounded the mystical beasts.

It was as if their bodies were wrapped up in an instant, and these demonic beasts instantly felt the warmth that came from the bottom of their feet.

It was obvious that ye chen was helping them heal.

After all, just the lessons after school had caused them to have scars on their bodies and insufficient vitality.

With the help of ye Chen's spiritual energy, these mystical beasts recovered very quickly. At the very least, they were able to jump around again, even though some people were still a little weak.

However, it would not take long for them to recover. In any case, ye chen also checked on them to make sure that there was no other poison in their bodies.

It could also be said that these two people didn't dare to poison it so easily in order to make the medicinal pill. Otherwise, this matter might become a little more troublesome.

Earlier, ye chen had also supported these mystical beasts. Therefore, although these people were beaten black and blue, at least they were still alive.

Ye chen found some ropes from the side and tied all these people up. Of course, he also used his own spiritual energy to process them.

These people all had spiritual power, so they weren't very strong, but it was easy to untie the rope. In order to prevent any accidents, he had to add some support.

Then, ye chen whistled at the entrance of the cave and Peng Fei quickly barged in.

"Alright, take these people back to the gate of Stone City and lock them there. Then knock on the gate a few more times."

Ye chen was very straightforward. The few people beside him turned pale when they heard this but they could not break free. They knew what they were about to face.

"Alright, I didn't see how much better you look after taking the pills. Look at you, only your glabella is a little black. I guess you're going to be in trouble later, so pay attention to your safety!"

Ye chen chuckled as he stood in front of the city Lord and spoke with great disdain.

The city Lord had already been beaten beyond recognition. He was the main culprit. From the beginning, he must have been the one giving orders.

After all, desire had completely blinded him, and he really thought that he could live forever.

Previously, he had heard from the waiter that this city Lord had only been in power for a few years, and such things had happened after he had taken over.

However, because the city gate was closed every time, they couldn't get out. They thought that the city Lord was protecting them, so he took good care of them.

But in reality, the people in the city didn't know that this was just a plot of the so-called city Lord. Moreover, it was for his own personal gain. It was really abominable!

Ye chen walked over and looked at the process of making the medicinal pills. The containers that had been drained of blood looked very cruel.

The blood of the demonic beasts had many colors. To be honest, it didn't look like a pill at all. It even looked like poison.

He really couldn't understand why these people would want to satisfy their own lives in this direction. Sometimes, wasn't it good to be content?

Not to mention that this wasn't of much use at all. It was simply an alarmist and a situation caused by rumors.

He really didn't know who was so inconsiderate and spread such words to harm those demonic beasts who didn't attack humans.

Peng Fei's speed was of course very fast. He brought these tied up people and very quickly reached the city wall.

Ye chen and the others followed behind. From afar, they could already see the people hanging on the wooden stakes directly opposite the city gate.

The sun was shining brightly on the ground, and the temperature was quite high. They were sweating all the way, making the people standing there even more embarrassed.

The city gate had already been opened up by now. Because Peng Fei had been knocked a few times outside, he had hidden by the side of the people watching over him, so he had carefully gone to the city gate to take a look.

Who knew that he would see such a scene outside? after careful identification, he finally recognized that the person tied to the pillar was the city Lord of Stone City.

The one beside him was a mage, and the rest of them looked familiar. They seemed to be the mage's men. Why did they suddenly run out of the city?

Shouldn't everyone be locked up in the city? It was all to avoid disaster.

To be honest, the people in the city didn't have much feelings for this young city Lord. In comparison, the old city Lord must have done more for them.

However, he was still safe and sound. It had always been calm, and nothing extra happened.

At most, they would encounter monsters like this one, but they were safe each time.

The people of Stone City really spread the news very quickly.

The guard who opened the city gate quickly passed the news to the bored tramps and neighbors who were sitting at the city gate.

In less than 15 minutes, many people had gathered at the city gate. Looking outside, there were no monsters that they were afraid of. Instead, a row of people was tied to the wooden stake in front of them.

Perhaps the others did not recognize them, but they had seen the city Lord and the magician's appearance before. Immediately, the citizens began to discuss it. This was really a big wondrous story!

"What happened? Could it be that the monsters outside the city had caused them to be like this? What's going on? Shouldn't they all be hiding in the city?"

"I don't know. What's going on? should we hurry and save the city Lord?"

The city gate was noisy, but no one dared to come out.

After all, they weren't fools. Someone must have done this to settle these people here.

If they came out rashly, there would be demons waiting for them. Wouldn't that be suicide?

They might be hiding in this flat open space, waiting for them to leave the city!

Not to mention, even the powerful mages were tied up there, so there was nothing the civilians could do.

Ye chen chuckled as he stood not far away where the people were busy. He looked over and even paid special attention to them, sealing their mouths.

In this case, they couldn't speak directly and could only look at each other from a short distance away from the people inside the city wall, but they couldn't get them to come to help.

She must have lost all her face this time!

Moreover, ye chen would control the castellan and reveal everything.

He dared to admit what he had done. He was actually willing to spend so much effort to capture demon beasts and then help his body extend his lifespan. Then he should also be Frank and clear about his intentions.

It was time to put an end to such a preposterous matter. He really couldn't understand. The city Lord didn't look very old, at most in his forties.

He was clearly in the prime of his life, so why did he have to do such a thing?

Ye chen was almost done watching the show and walked over with su Yuhan.

As soon as he walked over, he saw the waiter in the crowd. He moved very close to the front and saw the confused expression on his waiter's face. At the same time, he came over to ask curiously.

"This customer, what are you doing here? Aren't you supposed to be resting in the city? Why did he come out? It's so dangerous out there!"

Ye chen followed his lead and wanted to tell the surrounding crowd.

"There's no danger outside at all. The danger you're talking about is actually something your city Lord has created himself. There's no such thing. Don't be afraid, just come out!"

After ye chen had finished speaking, the surrounding subjects began to look at him doubtfully but no one dared to take the initiative to take a step forward.

At this time, ye chen saw that the time was almost up, so he turned around without any hesitation and took back the spell that was sealed on the People's mouths.

Just as he had expected, the polite-looking city Lord had been completely enraged by ye Chen's actions.

Therefore, although he couldn't say anything, he had been holding back the curses in his mouth. Now that he was released, he blurted them out.

His voice was very loud, and the moment he shouted, the boisterous commoners stopped.

To be honest, ye chen, who was standing at the side, almost laughed out loud. He did not expect him to scold him so harshly at this time. Moreover, he was just short of naming names.

"Quick, come over and untie us. I was threatened by someone. It's those two people. Arrest them!"

The city Lord shouted loudly, then called the guards over. The guards did not know what had happened.

After all, it was an order from the city Lord, so they rushed over.

Ye chen also took the opportunity to remove his spiritual energy, leaving only a layer of rope to tie these people up.

Therefore, they were quickly rescued by the guards but no one dared to approach ye chen.

"What are you doing here? quickly arrest him, or you'll be punished!"

Even ye chen felt pity for the city Lord's current state. It was as if he was about to go crazy. However, even if he kept this kind of person and allowed him to do such things, he would rather be a fool!

"There's no need to arrest him. This is all my fault. "

The city Lord was still very angry just now, but when he suddenly said this, he immediately covered his mouth in a panic.

After all, this wasn't his original intention, but he really didn't know why he had blurted it out just now.

"I didn't say that. Hurry up and catch it. What are you doing there?"

"Whoever dares to touch him will be punished. Stand aside, I don't need you to care."

The city Lord's incoherent words were truly strange.

Of course, this was all ye Chen's doing. He wanted to see how long this city Lord could keep up his pretense. Did he really think that he had no other means?

Now, ye chen was prepared to help the city Lord to take the initiative to speak out his thoughts and bravely admit his mistakes instead of trying to hide anything.

"Alright, now everyone listen to me and return to the city, including you guys."

The city Lord pointed at the mage and the others.

The Sorcerer also realized that something was wrong. He subconsciously looked at ye chen and knew what was going on but there was nothing he could do.

His own strength was only enough to show off in front of Chen Chu. After taking the position of sorcerer, he had been coming up with bad ideas, but in fact, it was not enough. As long as he faced anyone who cultivated immortality, he would reveal his true colors.

Just like now, even if he could see that ye chen was controlling it, the castellan could not interfere and could only be brought into the city obediently.

Then, they walked to the largest square in Stone City. All the residents had gathered there, ready to see what the city Lord was going to say.

And what exactly did he go through to end up in such a sorry state?

To be honest, everyone was just watching for fun. To them, whatever the city Lord did was not something that commoners like them could interfere with.

However, such a novel thing still attracted everyone's attention.

The current city Lord could know what he was saying, but he couldn't control what he was going to say. He couldn't even say the words to explain.

This was because ye chen had completely controlled his mouth.

"I've gathered everyone here today to announce the mistakes I've made, and to tell you where the monsters came from. I'd like to apologize to everyone in the city first!"

After ye chen said all this, he felt that it was a bit of nonsense. Why should he apologize on his behalf? when the time came, he could just let him bear the consequences himself.

This was completely unnecessary, as if he was the one apologizing.

"In any case, I'm the one who caused all this. I'm also the one who caused the monsters outside ghost city. What I'm doing now is to catch some innocent monsters and use their blood to make pills to help me become immortal. In fact, all of this is fake."

[Chapter 2724 Selection Of New City Lord!](#)

After the city Lord finished speaking, his eyes widened and he hurriedly covered his mouth.

But since he had already said it, it was impossible for him not to return for the time being. The commoners had heard it clearly.

The mage standing at the side could only hang his head in dejection, he did not dare to confront the people directly.

Moreover, ye chen was still there.

When the commoners heard the city Lord's words, they immediately burst into a discussion.

They weren't stupid. Of course, they could see that they were being punished.

Sure enough, one would get retribution for doing bad things, not to mention that a person of this status was doing bad things with his own power!

He did not need to continue. Ye chen walked out from the side and said to all the people.

"I've gathered everyone here today to show you the true face of your city Lord. I also want to say that he wasn't forced to do this. "

"It's very likely that he'll use some ridiculous excuse to disguise all this, but in reality, he's the one who caught those monsters that aren't dangerous at all to bleed. "

After ye chen finished speaking, everyone seemed to understand a lot more. Soon, the people began to talk again.

The waiter's mind was very active, and he quickly realized why their city gate would sometimes be hit.

"So, those sounds should be those demon beasts asking for help from the people in the city. Who knew that we were deceived and thought that the demons outside were attacking Stone City?"

After the waiter finished speaking, everyone seemed to have been enlightened.

When they looked at the city Lord whom they had originally respected, their eyes were filled with disgust.

How could such a person be qualified to be the city Lord of Stone City? Their entire town was very close to each other.

Even if it was not a harmonious world, it was still very harmonious.

And now, this city Lord actually wanted to use them to do such a despicable thing, this was simply unforgivable!

Ye chen turned around again and did not control the city Lord. However, he used a small trick and sent a little truth-telling serum into the city Lord's mouth.

This way, she could unknowingly hear what he was thinking. Didn't he always say that he was the most open-minded city Lord?

At this time, he should also express his gratitude!

He wanted to see if he really had the strength to turn the tide with his sincerity and change the situation ye chen had set.

"You stupid and ignorant people, you don't really think you're living well, do you? Compared to the cities outside, your Stone City is a complete waste. There's nothing there!"

"Look at the clothes you're wearing and your so-called Festival. It's so disgusting. You don't even know what you're playing all day. Do you really think you're from a fairy tale with a mask on?"

These extremely vulgar words were blurted out, causing the originally boisterous citizens to be stunned. Didn't their city Lord always welcome them with a smile?

Why did he suddenly become so hateful? it turned out that some people were so two-faced in private.

However, he really didn't want to continue pretending. It was really too ugly to look like this!

Ye chen stood to the side with his arms crossed. He looked at these heavy words. She had spoken the truth from her heart without hiding anything. It was really gratifying!

The commoners were all very angry at the city Lord's words, so they all picked up the things beside them and threw them over.

Even if this city Lord already looked like he had a bloody nose and a swollen face, he did not care about him at all. Anyway, he would no longer have this position in the future!

Ye chen saw that everyone was almost done venting, so he stood up.

"Alright, I'm here today to expose this person. Everyone, please calm down."

"Don't worry about this unrelated person. He's not from your city. It's still a holiday, so don't let him affect your mood!"

Ye Chen's straightforward words immediately stirred up everyone's mood. After all, no one wanted this annoying city Lord to affect their festive atmosphere.

They had thought that there would be monsters, but it seemed that there were no more monsters. Their Festival could continue.

"The city Lord will receive the punishment he deserves. The next city Lord can be elected by your people."

After ye chen said this, everyone finally reacted. Now that the city Lord had been dealt with, they were a city without an owner.

"However, there's no rush for now. I hope that everyone can celebrate this Festival first, and then I'll help everyone find a suitable person to be a city Lord."

Ye chen clearly did not belong here but his words were inexplicably believable. Moreover, after listening to him, everyone could not help but be very obedient.

This was something that no one had realized. This might be the natural-born leader of a ruler, an aura that no one could ignore!

After ye chen had finished speaking, he ordered the heavy voices beside him to take these people away and lock them up in the prison of Stone City.

The city Lord's plan was very good. After all, Stone City was a relatively remote city. Even if something happened, it might not be transmitted back to the capital.

However, ye chen had already expected this, so he quickly reported the matter.

Moreover, the castellan was elected in the name of Stone City, so he had to protect the city before he could continue to be the castellan.

Just as ye chen had expected, the people of Stone City had returned to normal at night.

Although this sudden interlude quickly became a topic that they would talk about after dinner, it did not affect them from continuing to celebrate the festival.

"Alright, we've finally settled this matter. Let's continue staying here for the next two days. After the festival, we'll have two days to help them choose a city Lord. Is that okay?"

Ye chen said, a little embarrassed, but su Yuhan did not care at all.

"It's okay. I think it's interesting. Well, let's not talk about this anymore. I know what you want to say. Let's go out for the festival now!"

For the remaining two days, the festive atmosphere was still very strong, and there were many kinds of street snacks.

Ye chen and the others ate all the way and walked toward the performance with bulging stomachs.

There were many people with many talents, and because they were wearing masks, no one knew who they were or what their identities were.

Therefore, everything seemed to be very pure and without any grudges.

The last few days of the festival passed by very quickly. After all, because of the city Lord's lie, it was delayed by more than a day. The week of the festival passed in a flash.

Now that everyone had lost their city Lord, they no longer had a backbone.

However, they did not know who had made ye chen, a foreigner who knew almost nothing about the world, their temporary representative.

Therefore, the waiter had come up early and knocked on the door of ye Chen's room.

"Master ye! I'll need your help with the city Lord selection today. "

What ye chen did not know was that in the eyes of the people in the city, ye chen, who knew sorcery and was a very righteous person, was very qualified.

Although he wasn't very old, his strength was outstanding. It would be absolutely fair for him to be in charge of this matter!

The most important thing in the city Lord election was to select the capable. After all, everyone was a commoner, and there was no need to look at how much spirit power they had. Most people were ordinary people.

Therefore, they had to choose an outstanding person who had the ability and was willing to make decisions for the people.

Ye chen had already made the arrangements and let the people choose some candidates on their own.

The people had also done it very quickly and had directly reduced the number of candidates. The three ye Chens only needed to pick the most suitable one from the three.

These three people were boss li of the bank in the north of the city, boss Zhang of the grain store in the south of the city, and general manager he of the square in the middle of the city.

The three of them had always been very kind to the people, so the people in the three regions all liked them.

Ye chen nodded after hearing what they said. He still felt a little troubled. After all, all three of them were kind people. He had to choose the most capable one among them.

Ye chen followed the waiter. When he arrived at the square, he saw that the three candidates were already standing there. To be honest, he could tell at a glance that these three were basically wealthy businessmen.

When they saw ye chen, the people immediately began to cheer and watched ye chen stand on the platform above.

"Alright, our Festival is over. What we need to do next is to vote for new results. These three are the three outstanding candidates that the people have chosen."

"I don't think I need to introduce myself too much. After all, I'm an outsider. Everyone knows each other. The next competition will be divided into two parts."

Next, ye chen introduced the rules to everyone. He would give two questions to the three candidates for them to write the answers to.

In short, it was a dispute that would occur in the city, or a property problem.

This kind of thing happened quite often among the common people, and there were no other county magistrates or judges in Stone City who worked for the city Lord.

Therefore, it was best to leave this matter to Master Chen.

In any case, if he couldn't even answer these two questions, or if he didn't answer them properly, he wouldn't have enough ability to take on this position.

After the first election method was announced, everyone was very much in agreement and the people were very happy.

This was because ye chen had said that their answers would be publicly announced. Half of the votes would be chosen by the people while the other half would be decided by ye chen.

The questions had been prepared last night, so they were quickly handed over to the subordinate next to him. He then distributed them to the three people at the three tables.

They were not close to each other, so they could not see each other at all. This was a completely independent answer.

In any case, the person who came up with the questions was ye chen, so the people were not worried about being tampered with.

Ye chen had given them an hour. Within that time, they had to complete both questions and hand them in.

The bell rang and the three of them began to answer. Ye chen observed their way of answering and their expressions as they wrote. To be honest, he found it interesting.

After all, the people who were elected had always been kind and charitable, but it did not mean that they had enough culture and understanding.

Today's event could be considered a Grand one, so the people in the city basically didn't work.

Instead, they all gathered here. It wouldn't take half a day anyway, so the liveliness here looked more interesting.

An hour passed by quickly, and the three of them were almost done.

The one who wrote these was the owner of the grain store, and then the steward. These two people seemed to be more at ease, and the one who was slightly inferior was the owner of the bank.

After the other two stopped writing, the bank owner could only quickly write an ending and then stop.

Soon, their answers were hung on the wall behind the square.

There were good and bad words hanging on it. If you were in the countryside, I would have been very serious.

Ye chen started reading from the first one and finished reading all three of their answers. Then, he already had his own answer in his heart. The people below could also read it.

Ye Chen's two questions were very tricky. In short, it took a lot of time for the three of them to think about it.

Now that the answer was out, it was easy to tell who was stronger and who was weaker.

At the sight of the two people's answers, the boss of the bank took the initiative to say that with a smile.

"I'm just an uncouth fellow who doesn't have the ability to be the city Lord. Just let me leave the stage on my own, so that I won't be eliminated later. Thank you for your votes. From now on, I'll be more serious in doing my job. "

After the bank owner finished speaking, he walked down the stage amidst everyone's applause, leaving only the grain store owner and the manager.

In Ye Chen's opinion, these two people's literary talents were not much different. However, upon closer inspection, it was better to be in charge.

After all, people with positions knew a lot about the People's Affairs.

The owner of the grain store was more inclined to the people around him, so his answer was not as comprehensive as the manager's.

In the eyes of the people, the remaining two people were equally matched, so they had to proceed to the second round, which would also be won by talent.

The problem just now was to solve the problem of the commoners. Now, the next thing to do was to deal with the affairs of the city Lord's mansion as a city Lord.

There were also attacks from the outside world. This time, there was only one question. After the two of them finished answering, they could directly see who was more capable.

"This time, we'll give you a longer time. Even though there's only one question, it's a question that will determine the final candidate, and it's a lot more difficult."

[Chapter 2725 The Final Candidate!](#)

The two of them began to write at the same time. They seemed to be writing very quickly, as if it was very easy.

But in reality, the question was really tricky. He couldn't help but frown and stop writing.

Ye Chen waited calmly at the side. The waiter even brought him a pot of flower tea. When he poured it into the cup, it smelled especially fragrant.

The commoners' discussion didn't leave the two of them alone. They were also analyzing their abilities.

After all, they were the representatives of the two Urban areas, and they were simply reasonable.

However, he was still the General Manager now, so he was more popular. Although he was working under the group leader, he had been doing a good job since the old city Director appointed him as the General Manager.

Moreover, whenever there was a weather problem that led to a lack of food or the survival of other people, he would always be the first to propose a solution.

Furthermore, it would be implemented very quickly. In the eyes of most of the people, the city Lord would not have much of an effect.

In ye Chen's opinion, it was almost the same as what the people saw. In his eyes, this steward was indeed the powerful kind. On the other hand, the owner of the grain store looked more like a weak scholar.

Moreover, it was the kind that was slightly desireless and had no desires. He was seriously answering the questions, but in reality, he was not very keen on getting this so-called city Lord position.

It would be more suitable for him to stay in the grain store like that.

Even though the questions he answered were not bad, ye chen still felt that the supervisor beside him was more capable.

Furthermore, he would be able to manage the stone city in the long run.

Two hours passed by very quickly. When the bell rang again, the two people standing there finally sat down to relax after hearing about the graduation.

After all, it was tiring to write for so long. Ye chen immediately began to ask the people standing under him to pick up their answers.

As expected, the answer this time was similar to what ye chen had thought. After all, the steward had some work experience.

Therefore, when he answered questions in this aspect, he seemed to be even more organized.

As the owner of a grain store, he was a little lacking when it came to answering such questions.

It was obvious that he didn't come into contact with this kind of people usually. In short, it was very obvious now.

As for the commoners who were standing at the side, they could more or less figure out the answer when they saw this.

In any case, after ye chen made sure that it was completely over and that everyone had seen it, he repeated the same trick.

It was like a camel's peak, where everyone began to vote. Of course, it was still anonymous, so they just had to choose the person they wanted to choose.

Soon, the waiter collected these notes and reported them one by one. This time, the owner of the grain store had obtained a few votes for kinship.

The rest of the people voted for the General Manager, but it looked like the two of them accepted the answer very calmly.

Next, ye chen no longer stood in the middle of the stage. He had his own answer and then brought the two people to his sides.

"The fact that the three candidates are standing here today shows that they are powerful enough. No matter what, they are good people in the city. I believe everyone agrees with this. There is only one city Lord to be chosen."

"So, there's no need to consider other factors at this time. In my opinion, the most suitable person is the manager. But I also like your answer."

"Alright, if the two of you have anything to say to the people, or if you have anything to say to each other, you can say it."

After ye chen finished speaking, he took a step back and let the two of them talk.

The manager raised his hand to let the grain store owner speak first.

"I'm very grateful to those who voted for me back then, and I'm very honored to be able to stand here today. Thank you, everyone. I also believe that the director will become a very good city Lord!"

The owner of the grain store was very generous and said very seriously.

After listening to his words, everyone could see that this man was a big Shot. Ye chen could not help but applaud and lead the people to applaud him.

"I didn't expect everyone to choose me as the new city Lord," the General Manager said. "I'll take my work seriously and make Stone City better."

After all these were dealt with, the fake city Lord who was locked in the dungeon, as well as the other mages and the rest, were transferred elsewhere.

In any case, they would receive the punishment they deserved. This was not ye Chen's concern. They were Living a Good Life in Stone City.

Moreover, everyone liked ye chen and su Yuhan very much and had given them a lot of small things.

At first, ye chen had tried to refuse but later, he thought that since Peng Fei would be bringing them along, it would not be too troublesome.

It just so happened that he wanted to return to Stone City to take a look after his trip there.

Although the sect leader of the Azure Dragon sect was an idle position for him, he could not always wander outside.

When ye chen left, he had only told the tunnel that he was going to open temporarily. He did not know if he could help him deal with it. In any case, ye chen had to go back now and it was better to see for himself.

After staying in Stone City for another day, the two of them said goodbye to the people in the city and prepared to leave.

The two of them sat on Peng Fei's back and flew away from the pond. They turned around and looked back at that place.

Although he didn't stay for long, he still felt a little nostalgic. After all, the folk customs of this city were really good.

The commoners also had good relationships with each other. It could be said to be a more suitable place to live and retire.

I've always felt that after I went through this once, I've already thought of the future when I leave the Azure Dragon Gate. I can choose one of these places randomly and enjoy my old age in peace.

Although he wasn't very old, he yearned to wander the world and live in seclusion.

It wasn't like he had to reveal his strength, not to mention that the first half of his life had been really tiring.

He did not want to continue working on these Jianghu matters like this.

There was still a distance to travel from Stone City to the foot of Azure Dragon Gate. Although Peng Fei's wings were large and he could fly very fast, and he did not have enough strength, ye chen did not want him to tire himself out.

They had left Stone City in the afternoon. At night, ye chen had asked Peng Fei to rest before they left. After dealing with the huge lizard in the forest, they returned to the cave to rest for the night.

Without the giant lizard, the forest had returned to its normal state in a few days.

Previously, because of the big lizard, many small animals in the forest were forced to move to other places. The weather in this area seemed to have been greatly affected.

Now, he felt much better. Ye chen took out something from his storage bag without much effort and laid it on the ground again. Just like before, he started a fire to keep himself warm and then fell asleep.

The specialty products they bought from Stone City and some food with a slightly longer shelf life were enough for them to travel for a few days. At the same time, there was some left, which they could take back and give to their families to try.

He had missed his daughter a little when he was out these few days.

Early the next morning, the sun shone into the cave and the outside was filled with the chirping of birds. After ye chen and the others packed their things, they sat on Peng Fei's back and flew.

Originally, they wanted to maintain a constant speed and return to the Azure Dragon Gate, but something happened that caught them off guard.

Just as they sat on Peng Fei's back and prepared to pass by Suzhou and stop for another day ...

However, they did not expect a messenger pigeon to appear before them.

Peng Fei had just stopped by the river outside the city and was about to come down to drink some water when a pigeon landed in front of ye chen.

He raised his hand and stopped at his fingers. There was a small piece of cloth tied to his feet.

Ye chen felt that something was wrong and immediately took out the cloth. He quickly opened it and found that it was from the immortal Flying Dagger.

The content written on it said that because of his sudden departure, the Green Dragon sect was now in a mess. The immortal Flying Dagger liked the days of farming more, so it basically wouldn't go up the mountain.

In short, a rebellious disciple started the trouble, and then more and more disciples were brainwashed, causing things to go out of control.

Therefore, ye chen, the sect leader, had to return as soon as possible. Otherwise, this group of disciples who were not very strong but had a bad temper would really be a little uncontrollable.

The kind of person who helplessly sent out immortal Flying Daggers in the middle of the night after reading it because he didn't want to solve the problem.

So, just because he was the sect leader in name, he had given him all the tasks.

Su Yuhan washed her hands downstream and went to get some water from upstream to quench her thirst.

Moreover, the weather was very good today, and it felt very comfortable to sit here and bask in the sun.

Seeing the unusual situation on ye Chen's side, she walked over and asked with a little concern.

"What's wrong? I just saw you receive a pigeon. Is there any news?"

Su Yuhan wasn't in a hurry, because the news sent by ordinary pigeons wouldn't be particularly urgent, not to mention the immortal-slaying flying knives.

Just like last time, he had used the thousand-mile sound transmission to send a message directly. That would be much faster, so this should not be troublesome.

"There's no big problem. It's just that a few restless young disciples in the sect showed their throwing knives and were unwilling to deal with it, so they asked me to go back quickly. I really owe them."

"I didn't sit in this position willingly. He's not willing to share my burden at all. I'm already out playing, but I still have to solve his problems all day long."

Ye chen said helplessly.

However, it just so happened that they were about to return. At most, they would speed up a little and not stop anywhere else in the middle.

Ye chen did not know what to say. After all, he thought that he had already made good arrangements for Azure Dragon sect, so he would not cause any trouble even if he only came out for a few days.

However, he didn't expect that it was because of him that no one dared to move or break the rules.

However, after he came out, the Azure Dragon sect did not have a person in charge.

Moreover, the higher-ranking disciples only respected ye chen and did not have much respect for him.

In the face of such a problem, they would generally put the matter on high alert.

It seemed that he wasn't too strict. Otherwise, these people wouldn't have taken advantage of his absence to find trouble.

Ye Chen's mind was filled with thoughts about this matter. He turned around and saw his wife sitting at the side. Her brows were slightly furrowed. It seemed that she was also quite anxious to go back.

"What's wrong? You don't seem to be in a good mood. "

Ye chen turned around and held her hand. Then, he pulled her into his arms and asked very gently.

"Of course, I miss my daughter a little. I didn't think much of it when I was outside, but now that I'm going back, my feelings for her have become stronger."

As a mother, su Yuhan had only distanced herself from her daughter time and time again because she wanted to get ye chen back.

After that, she had been by ye chen and her daughter's side. Now that she had been away for almost a month, she missed them more or less.

It was easy to guess that their daughter must have missed them very much. Fortunately, they had prepared a lot of small gifts and some snacks for the child.

"Don't worry, Xiao Wan can handle her own mood. She's not young anymore, and she's in school every day. She doesn't have so much time to think about other things. "

"We're going back soon. I'll send you down the mountain after we get back. "

Ye chen gave it some thought. It would be better for him to settle the Azure Dragon sect's matter on the mountain alone. He could let his wife take care of his daughter's mood and leave the mountain after he had settled it.

"Alright, but you have to be careful too."

"They're just a bunch of kids. How much trouble can they be? it's only because I didn't say anything harsh to them that they're going to this extent. "

As ye chen spoke, he also thought to himself that he would resolve this problem when he returned. He could not allow this situation to happen again.

If he had one more day to settle the other disciples outside, even the Azure Dragon sect, which he managed the least directly, might not be as peaceful as it seemed on the surface.

When ye chen thought of this, he smiled helplessly. After Peng Fei found out about this, he also flew much faster.

After flying for an entire day, they stopped at a cave entrance on a mountain. After flying for another half a day, they would arrive at the Green Dragon Gate City.

Peng Fei was still resting at the entrance of the cave as usual, protecting his two masters well and blocking them off.

At this time, the people who wanted to eat breakfast in the dream of love gathered together because they had also received the news that they were about to return, but they didn't know how many days it would be.

"He's just an ordinary person. As long as we work together, we'll definitely be able to bring him down!"

The leading disciple said.

[Chapter 2726 A Family Reunion!](#)

On the third day after they left Stone City, ye chen and the others returned to the foot of Azure Dragon Gate.

As soon as they entered the city, they went straight to su Yuhan's house.

To be honest, for the two of them, what happened on the mountain was not the anticipation of seeing their daughter immediately. So, the two of them simply chose to return to the city without any hesitation, and then returned to the SU family together.

He brought back many bags of local products from outside. When he entered the SU family's residence, the Butler immediately passed on the news. Then, master su walked over in large strides.

"You're finally back. You left your daughter at my place and went out on your own. Fortunately, Xiao Ruan is very obedient."

After seeing his daughter and son-in-law, master su subconsciously started to praise his niece.

After all, it was very rare to find such a clever and sensible child, not to mention that he was rather bored in this courtyard.

Having a child living here really added a lot of fun.

"Right, school is about to end. Why don't the two of you go and fetch little ruan Tian back with the housekeeper? I see that you've brought him quite a lot of gifts. Have dinner at my place tonight. I'll get the kitchen to make more."

Mr. Su said very politely. After all, how could his daughter not be heartbroken?

Even if he knew that he wouldn't be at a disadvantage if they were out, he had to treat them well since they were here.

Ye chen and su Yuhan immediately agreed after hearing father SU's words. Then, they followed the housekeeper to the school.

The location of the school wasn't very far away from squirrel. It was less than two alleys away, so they soon arrived at the school's entrance.

It was almost time for school to end, so there were a few parents who had come to pick up their children.

"Young miss, Guye, you can just wait here. Little Miss comes here every day to wait for this old servant."

The old Butler retreated to the side after he finished speaking to them. Soon, a loud Bell rang from the school, and the door opened.

Xiao Ruan had no idea that her parents had arrived. She ran out of the school happily and even greeted the other children who had come out of the school with her.

It was just as the old Butler had said. After he came out, he went straight to the tree. However, he did not expect to see two very familiar figures!

"Father! Mother!"

The little girl had actually missed her parents a long time ago, but he also knew that both of them had gone out and were now living at her grandfather's house.

Her grandfather was also very good to her. Although she was still young, she must be very good at hiding her emotions.

She put away all her sadness and unhappiness and pretended that nothing had happened.

Now that he suddenly ran out and saw his parents standing there, everything felt like a dream.

It had only been a month, but it felt like a long time. Compared to her childhood memory, she was growing up and her memory was getting better.

Therefore, the little girl ran over and cried tears of joy. She turned her back to Su Yuhuan and hugged her.

Her round face was flushed red, and her tears flowed out like a broken string of pearls.

Ye Chen panicked and quickly took out a handkerchief from his pocket to wipe her face.

The family of three did not continue to stand at the school. They turned around and returned to the Su family's house.

After having a reunion dinner that night, Ye Chen and Su Yuhuan returned to their rooms to discuss the next day's matters.

It was not easy for the little girl to meet her parents, so she was very happy. She had just returned to her room to rest, so Ye Chen was even more unwilling to let Su Yuhuan leave.

He told her to stay here with the child, and he would go to the Green Dragon Gate to settle things before coming down to pick her up.

No matter what, the Azure Dragon Gate was only a temporary place for him to stay, and he did not like it very much.

Furthermore, Xiao Ruan was not young anymore, so it would probably take a few more years for her to start school.

It was just that when it was a holiday, he would go up the mountain to cultivate.

To the two of them, their child did not need to do much cultivation. They hoped that she could grow up healthy and happy.

After the two of them had finished their discussion, Ye Chen went up the mountain the next morning. He did not let Peng Fei bring him along.

After all, it was only a short distance, and it wouldn't take long for him to reach the mountain by himself using Qinggong.

He didn't choose to enter through the main entrance. Instead, he chose a small path and quietly went up the mountain.

No one else knew about it, not to mention that as long as he concealed his aura, no one would notice him.

Soon, they arrived at the place where the disciples usually trained. By right, everyone should be there practicing their dance in an orderly manner at this time, but at this time, they were very unorganized.

They were like a flock of sheep that had been let loose, and it was not a good situation.

Ye chen frowned, feeling a little uncomfortable. He really did not expect that the management seemed to be so good when he was here.

However, he had only been away for a month, and things had already gone in a direction he didn't know about.

Moreover, from the looks of it, this group of disciples had long been unwilling to listen to his words. It was really laughable, but he could take advantage of this opportunity to teach them a lesson.

He had less than two years left to sit in the position of sect leader. He would definitely not allow such a mistake to happen when he was managing the sect.

Therefore, this group of disciples who had caused trouble for him should be punished.

Ye chen was not as angry as he had been when he had gone to other places to watch the disciples disciplining them.

This kind of anger was more like his own child. In short, he must pull this group of people back!

"I heard that the sect leader will be back in a few days. Are we really not going to put on an act? If he were to see me like this, he'll definitely look for trouble. "

One of the disciples said in a somewhat submissive manner. In short, in his heart, he was still unwilling to collude with this group of people. In his eyes, of course, he still felt that the sect leader's management was not bad.

However, when the eldest disciple heard what he said, his expression changed immediately. He frowned and looked at him.

"You're really too timid. If you're not even willing to do something like this, how can you stand up? you don't really think that the so-called sect leader is very strong, do you? I've never seen him fight anyone!"

He was so bored that he actually had such a ridiculous thought.

Ye chen, who was hiding in the dark, really wanted to laugh when he heard him say this.

"Then what should we do?"

One of the disciples asked, and then they began a new and more intense discussion.

However, he did not know that after talking for so long, ye chen had actually heard all of his words, which could even be considered outrageous.

Ye chen quietly avoided this area and returned to his house.

From the beginning to the end, no one seemed to have noticed his appearance. After the afternoon, when the disciples were training together, ye chen walked out leisurely. He was dressed plainly and was not wearing the sect leader's uniform.

As soon as he appeared, many of the disciples immediately stood up straight subconsciously. The remaining few were the ones who said they were going to find trouble with him in the morning.

Although he was flustered for a moment, he quickly reacted and started to put on a face.

Ye chen went along with the other party's wishes and walked over very naturally. He looked at them with a serious expression, as if he was about to teach them a lesson in the next second. Then, he stood in front of the disciples.

"What's wrong? Was the training a little uncomfortable? I'm still a little too tired. Why do I feel like you guys aren't in the right state?"

Ye Chen's words of concern were like cotton. The other party's punch could only land on a soft body and could not get enough in return.

What they wanted was for ye chen to lose his temper so that they could still have a conversation. This matter would affect the situation that was more advantageous to them.

After all, if all the disciples were gathered together and fought against ye chen at the same time, so what if he was the sect leader? he would have to go down when it was time.

"This is completely useless. What we want is to learn some real skills. Look at you, as a sect leader, you only take us to do such simple training all day long. It's not good for us at all!"

Perhaps it was because ye Chen's softening sounded so easy that these people mistakenly thought that the sect leader was really easy to bully.

That was why they had dared to say such things. To be honest, part of the reason was that they did not believe the rumors that ye chen was very powerful and had settled the things that he had done.

In their eyes, ever since this sect leader took over, he had only been issuing some useless decrees.

Then, they were asked to work, but in fact, they could not feel the benefits of immortal cultivation!

"Then, what do you want to do? Or should I say, if you were the sect leader, what would you do to make it a good job?"

"If I become the sect leader, I will definitely pass on all the things I have learned to my disciples. Only then can I meet the standard of this sect's establishment. Otherwise, what kind of sect is this?"

"We're here to learn about immortal cultivation. What you're doing now is undoubtedly a waste of our time!"

His words sounded very reasonable. After all, the disciples who heard him say this even had the courage to speak up.

He had been submissive just now, but now that someone had taken the lead, he really did look a little powerful.

Ye Chen had not expected this either. He had thought that he had done a good job. After all, he had thought that he could teach these disciples what he could do and then let them gradually step up to the peak that they could stand on.

However, he never thought that in their eyes, everything he had done was for nothing, because they could not understand it at all.

Ye Chen suppressed the turbulent sadness and grievances in his heart and then revealed a generous and appropriate smile.

"This disciple's words do make sense. I also want to know if you have any other requirements?"

Ye Chen's talent had just fallen when a loud muffled sound came from the back of the mountain. He did not think much of it and thought that something had exploded.

However, the expressions of the disciples in front of him changed all of a sudden. It was as if they had heard something extremely terrifying. Their faces were filled with fear.

Immediately after, the sound of running could be heard from behind. A disciple knelt down in front of Ye Chen and said in a hurry.

"Sect leader! Something has happened in the sect master's back mountain!"

"Don't panic. What happened?"

Ye Chen frowned and looked up. He quickly sensed a huge energy fluctuation not far away from the back mountain as if something had suddenly exploded. Something was not right.

"The big lion that was sealed in the back mountain has escaped. We don't know what to do. You should go and take a look!"

This situation happened so suddenly that all the disciples present did not dare to speak. Even that extremely arrogant person had shut his mouth.

Ye Chen was not clear about this but they knew. They had been disciples on this mountain for several years.

They all knew about the terrifying incident at the back mountain. A huge Lion was locked up there. It was usually tightly locked up, and almost no one went to the back mountain.

They were afraid that even the slightest bit of power could cause the big thing inside to explode in anger. Then, they would be in danger.

And now, someone had touched this boundary and triggered that thing to come out!

Although he had not seen it yet, Ye Chen could sense that it was a seal formation stage Lion, a mystical beast, or a spirit beast, on this mountain.

A large part of the reason was probably that he had done evil things before, so he was locked up by the elders of the sect.

It was unknown how many years had passed. Presumably, because of the recent turmoil, the imprisonment of the back mountain was no longer strict.

And he didn't even know about this at all, which was also a very big premise!

"Take me there now. We'll talk about it when we're there. Don't be too anxious. You won't be in danger with me around."

Ye Chen's calm words were like a shot in the arm for the surrounding disciples. The disciple who came to report immediately stood up and led ye chen toward the back of the mountain.

They took a small path that led to the back of the mountain very quickly.

"There shouldn't be any other disciples in the back mountain, right? Are you sure that everyone has been evacuated?"

Ye chen asked seriously as he walked. With the lion's strength, no one in the sect could defeat it. Therefore, he must not let anyone encounter danger before he arrived.

"Basically, they should have all come out. The back mountain is a forbidden area, so not many disciples dare to be there."

This disciple seemed to be the one guarding the back mountain. This matter was a great disaster for him, which was why he was so flustered.

[Chapter 2727 The Lion King!](#)

The surrounding air became unusually hot. Ye chen asked the disciple who had brought him here to turn around and try to see if there were any disciples who had fallen behind on the way.

In any case, with the current situation at the back mountain, no one was allowed to stay here.

He was really glad that he went up the mountain alone. Otherwise, su Yuhan would definitely be worried.

Without any hesitation, he resolutely walked into the road behind the mountain.

At this time, the disciples who had gathered in the training ground had all run up the mountain.

There was a large observation tower on the mountain, which could directly see the situation at the back of the mountain.

Everyone's heart was filled with mixed feelings and they did not know what to say. However, now that things had come to this, they could only hope that ye chen could suppress this trouble!

No matter what, with their strength, they would definitely not be able to defeat him. As for the disciple who was talking back just now, he didn't dare to say a word more.

He didn't expect that such a big thing would happen before he could even pretend for a while.

It was impossible for them to quarrel with ye chen now. After all, ye chen was like a Savior to them.

At this time, ye chen was walking deeper into the mountains step by step. He could also feel that the surrounding environment was getting more and more suffocating. He was about to see this so-called great lion.

The closer he got, the louder the sound became. It was as if the roar had reached his ears.

Ye chen continued to walk forward as if he had not heard anything, but his steps were heavier and heavier.

Because he felt the pressure from the other party, he was using his own strength to resist and return.

This lion's attack power could be considered very strong. Since it was locked up in the deep mountains, it must have cultivated well.

That was why he had been eliminated by the slight energy fluctuation today. However, ye chen would not let him stay in the back mountain for long.

This thing was usually very difficult to tame, so it was best to keep it locked up. If the supplier was willing to be his spirit beast, that would be good.

A golden-haired Lion stood on a huge rock and raised its head, roaring wildly.

Ye chen knew that this meant that he had been discovered, but he did not rush.

He was still walking towards the lion, as if he did not feel the threat at all.

The lion jumped down from the rock and ran madly toward ye chen.

The disciples on the Watchtower were in great danger. They had not expected ye chen to be so bold.

In any case, none of the disciples standing on the distant gazing platform would dare to do this. Even if it was a bet, it was impossible to gamble with their lives.

Moreover, with their strength, they could not even take a few steps into the back mountain.

Even the examples standing here were not enough, because many of them had even gone back to their rooms to hide.

Therefore, ye chen had suddenly become very tall in their impression.

This person was currently bearing the greatest pressure and danger and would help them solve their problems. After all, ye chen could leave on his own.

In the eyes of these disciples, he was just a substitute Zhao Meng, without much responsibility.

Besides, they didn't do anything that was useful to their strength.

Hence, they absolutely did not believe that this person would actually do such a thing for them.

He didn't pull out his sword from his back. He knew that if he did, he would kill the lion directly, so he didn't plan to make such a serious move.

After all, he still had some hope for this matter. If he could use such a powerful spirit beast, it would be much better than being killed or suppressed by him.

Who said that he would not attack forcefully? however, ye chen knew that he had to show his strength from the start and let the other party see the difference between the two.

This way, there was a high chance that he would be afraid. After all, he had been locked up here for such a long time.

If he were to directly suppress it, it would obviously lead to great resistance, so it was best to explain it clearly.

There was almost no barrier in the middle. Ye chen and the lion charged at each other without any obstacles!

Ye Chen's hands parted slightly and an orange light appeared in his palms. It was like a turbulent, shiny knife had appeared in his hands.

The lion considered its flexible body and quickly jumped up, but it seemed to be able to Dodge it easily.

However, he did not expect ye Chen's move to be so strange. Just as ye chen was about to hit him and miss him, he made a turn and went up. With a violent sound, the lion was thrown to the ground.

Although he got up very quickly, the scene just now really showed the difference in strength.

This made the disciples standing on the lookout tower extremely surprised.

How could it be so powerful? that Lion was clearly several times larger than their sect leader!

Meanwhile, the disciple who had been provoking ye chen earlier was so scared that his legs went soft.

He really began to feel fear. At that time, he had resisted the sect leader so fiercely and had even arrogantly talked back, thinking that the other party was a useless person in name.

But in reality, the reality before his eyes told him that all of this was a foolish misjudgment.

The lion was clearly enraged. The fur on its head stood on end and it charged at ye chen again in a frenzy.

Next, ye chen used the clarity of his body to Dodge very quickly. He did not take the initiative to continue attacking. Instead, he began to relax.

The crowd was confused and could not understand what ye chen was trying to do. The lion was the same. It was almost driven crazy but still could not hit him.

Ye chen placed one hand behind his back and drew an air seal in the air, waiting for a good opportunity to press down on the great lion.

He was now very interested in this Lion and intended to take it for himself. It sounded very unlikely but it was a different story when it was ye chen.

This Golden Lion was a high-quality spirit beast that ordinary people wouldn't be able to see. Those who were strong would subconsciously want to own it.

"You can understand what I'm saying right?"

Ye chen took the opportunity to ask directly.

The great lion's eyes narrowed as it looked at the powerful human with hostility.

"I won't hurt you. I just want to have a chat with you, or we can be friends."

Ye chen could tell from the other party's subtle movements that the great lion could understand him, so he made his intentions clear directly. The main thing was that he did not have any hostility.

As a result, the people on the observation tower only saw that the two had stopped fighting when one side was about to go crazy and the other side was so calm that it seemed like nothing was going on!

It was so sudden that everyone was caught off guard.

They had thought that ye chen would be beaten up or the lion would be sealed. However, they did not expect the situation to be different.

"No way, what does this mean? Can words move you with emotion and reason?"

"I feel that something is not right. Let's wait and see. I don't dare to say anything."

The disciples above were making a ruckus, but ye chen and the others below could not hear them at all.

Ye chen strode forward and stopped when he was about two meters away from the lion.

"You don't want to stay on this mountain, do you? I said I'm here to discuss with you, but I just want to tell you how strong I am. You should be able to feel it. I hope you don't look for trouble."

Ye chen did not like to waste his breath, so he made it clear that his main intention was to lock it up here. There would be no other outcome.

Unless the great lion died here, he would be sealed up in the mountain again.

"Are you threatening me?"

The great lion was clearly not one to be forced, so it said angrily. It looked like it was going to open its bloody mouth and eat ye chen in the next second.

Ye chen could hear the displeasure in his voice but he did not take a step back and continued to speak calmly.

"You don't have to be so nervous. I just want to make it clear to you that there are two choices."

"This can't be considered a threat. After all, I personally think this is better for you, don't you think so?"

"Yes, you just need to trust me and become my subordinate. Then, I can give you your freedom."

As ye chen spoke, he took out his whistle from his side pocket and blew it into the sky. A few seconds later, Peng Fei's voice rang out in the air.

The sudden appearance of the Nine-Tailed ROC not only shocked the lion, but also the disciples on the observation tower.

They had seen some demonic beasts and spirit beasts before, but they had never seen one that had evolved like this. Moreover, it seemed to be in very good condition.

When Peng Fei flew down, his huge wings were still very large when retracted, almost the same size as the lion.

Golden fur Lion King had a complicated feeling. He didn't expect the Nine-Tailed ROC, a demonic beast from the sky, to be willing to be a spirit beast under a man's command.

This was unbelievable to him.

After all, he had always felt that those high-level demonic beasts from the sky should have more dignity and soul. However, the one in front of him was a little different.

Peng Fei's relationship with ye chen was like that of a master and a mystical beast, so he was more passive.

However, when he was facing other demonic beasts or other humans, he would have a completely different kind of arrogant aura.

The moment he stopped, it was as if all the small animals around him had lowered their heads.

Even the Golden fur Lion King seemed to be slightly suppressed. After all, Peng Fei's aura was only immune to people close to him!

For example, ye chen and su Yuhan would not be affected much.

"You might not have believed in my strength just now, so I just called him over to show you. Anyway, the choice is in your hands now. If you're willing to stay in this mountain for the rest of your life, I won't say anything."

"After all, I don't really need you. If you follow me, I can at least guarantee your freedom. "

"But you need to appear as soon as I summon you. That's my only request. Of course, I'm sure you can understand the rest of the requests, such as not hurting people and not doing anything against moral principles."

Ye chen stated his conditions clearly. In any case, if it was acceptable, then so be it. If not, he would just have to put in some effort to seal it.

In any case, it was impossible for him to leave the back mountain to harm others.

Moreover, there were so many disciples on his mountain, and each and every one of them was his responsibility.

The Golden furred Lion King glanced at ye chen and then at the Nine-Tailed great ROC.

When the two Spirit beasts' eyes met, it was as if they were communicating in the air.

Ye chen did not bother him because he knew that golden fur Lion King would make the right choice.

Just like that, the air was silent for a long time. The Golden fur Lion King took a step back and retracted the powerful pressure around him. Then, his gaze stopped on ye Chen's eyes.

"I'm willing to be your Mount or your subordinate, but the premise is that we need to fight."

Ye Chen had not thought of this but he did not think it was too troublesome. In his eyes, at most, he would have to exert less effort and then suppress the great lion.

"Of course you can. Let me see if you're good enough. But don't tell me you've already lost your cultivation in the deep mountains?"

Ye Chen said jokingly. It was obvious that he was joking, but the lion did not get angry.

This was because he only needed a result to firmly make him choose Ye Chen. In reality, he was not aware that his heart had already confirmed it.

Very quickly, they separated and stood there, causing the chestnuts to be confused. What was going on?

Didn't he stop just now? Why did they have to fight again? Did something fall apart?

Thus, they began to worry again whether Ye Chen could handle this Lion.

However, it seemed that the giant Roc beside him was also quite strong. He just didn't know if he would make a move in the future.

Everything was new to them. Of course, they wanted to watch the show but they also hoped that Ye Chen could solve the problem.

The next round was a battle. Ye Chen did not hold back much of his strength. He quickly entered into combat mode and then used two very fierce offensive techniques.

"Oh my God, that's too amazing!"

Looking at the disciples on the stage, who thought that they had a chance, none of them dared to say anything.

They had already completely snuffed out the ridiculous thoughts in their hearts.

"It seems that there's a reason why he became the sect leader. I was too careless!"

"That's right. I didn't expect him to be so powerful. It seems that I'll have to learn by myself in the future!"

[Chapter 2728 2733-Visiting The Immortal Flying Blade!](#)

From the beginning to the end, Ye Chen's speed was faster than ordinary people, so in the eyes of others, he was simply beyond God.

The Golden Fur Lion King didn't use his full strength. In fact, he had already decided on the answer. Therefore, he seemed to be using his full strength in this confrontation, but in reality, it was just a bluff.

It was as if he had put on an extremely exaggerated show for the disciples on the observation tower.

After all, this was a rare opportunity for them. In truth, he did not suffer any losses in this deal between Ye Chen and the Golden Fur Lion King.

Therefore, there was no need to refuse. This was also the reason why ye chen could say such words with such certainty.

Finally, this intense battle had come to an end. Ye chen was like a reclusive celestial being, standing on the rock and looking down at the Golden-furred Lion King.

At the same time, it was also a sign that he was about to become the master of this big lion.

To be honest, judging from his age or his past experience, he should not have any qualifications to have such a spirit beast as his subordinate.

After all, he didn't have any background. It was just that his talent was caught by a fortune-teller.

However, it was this seemingly ordinary young man who was slowly displaying his extraordinary strength, and the people around him simply couldn't keep up.

Seeing that it had ended, ye chen gave the lion a name.

"So you've always been called golden fur Lion King? that's too cool!"

Ye chen said in surprise. He had not expected the lion to be so old.

He didn't even have a decent name. When he asked, he could only say that he was called big lion. This might be what others said!

"Then I'll call you Blondie from now on. What do you think? I think it's a good name. "

Ye chen said proudly. However, in reality, his name was not that pleasant to the ears of Peng Fei and the great lion.

However, he finally had a name, not to mention that it was given by his master.

"Alright, the two of you can leave together. Pengfei, you can take him around. In any case, I hope that you can still keep your position. Otherwise, if you run away, I'll find you no matter where you run to."

"I said I would give you freedom, but not everything. You must come back when I need you, and you can't do anything bad."

Although ye chen also felt that it was troublesome and annoying to keep emphasizing this, these words had to be said clearly in advance. Otherwise, it would be more troublesome if something went wrong later.

The Golden Retriever nodded and gave ye chen a promise.

Seeing the lion leave with Peng Fei, ye chen did not hesitate to turn around and follow the small path up the mountain.

Just as he had guessed, all the disciples had basically gathered at the observation tower.

When they saw him coming up, they immediately showed a cautious expression.

In fact, before ye chen revealed his true strength, they more or less had other thoughts in their hearts.

However, it was different now. When ye chen displayed his extraordinary strength, he was no longer the same.

And the strength of the Nine-Tailed shed he brought with him was already a complete slap in the face.

The arrogant disciples had nothing to hide and nothing to say.

Of course, ye chen would not let go of those disciples just because of this sudden interlude.

He could tell at a glance that, besides the disciple who had provoked him, the other disciples around him also looked eager to try.

If it wasn't for the sudden appearance of the lion just now, as long as he admitted defeat, the few of them would definitely continue to speak arrogantly.

"You and the rest of you, stand here. The rest of you, stand in the same formation as before."

Ye Chen's voice was not very loud but these disciples quickly stood up. Those who were pointed out stood there and looked like they were trembling.

They didn't know what they were going to face next, but the sect leader's boldness and strength just now had given them a very strong shot.

"If I'm not wrong, you guys were the ones who wanted to become the sect leader. I didn't expect the disciples outside to work so hard. It seems that you have a chance to become the sect leader after entering Inner Mongolia."

Ye chen still looked like a spring breeze was blowing on his face, but for some reason, it sent chills down the backs of these disciples.

They didn't know what to do until their leader couldn't hold on any longer and knelt on the ground without any dignity.

The others immediately followed after seeing this.

Looking at the disciples in their own sect's Daoist robes, ye chen was really angry but he could not bear to see them.

He couldn't get rid of all of them directly, but he still had to let them suffer a little when it was time to suffer.

Moreover, those who were not strong-willed and were taken away by others were not qualified to be a disciple of the Azure Dragon sect.

So now, he had to let them suffer a little. At least, he had to be clear that sometimes, the rules must not be broken.

If he wanted to question others, he had to at least have the strength and not just speak empty words.

"Sect leader, we know we were wrong. We will never say such nonsense again. We will definitely cultivate properly!"

"That's right. We were also possessed for a moment, so we thought of such a thing. We won't do it again."

These disciples said in a hurry. At this time, they no longer cared about their dignity. They were also very afraid that ye chen would torture them or kick them out of Azure Dragon sect.

That would be a very serious result, and they couldn't afford to bear it.

Ye chen stood where he was, his eyes lowered slightly as he looked at the disciples kneeling there.

"Don't worry, I won't send you away for such a small matter, but you'll definitely be punished. In a while, I'll reduce your strength by one level. As long as you have enough cultivation, you'll probably return to your current strength in a year. "

As soon as ye chen said this, even the disciples who were standing there instantly made some small noises. This was not a small punishment!

If his strength dropped by one level, he would have to cultivate for a long time.

Although these few troublemakers were relatively powerful, but after they were put together, they were almost on par with the other outer sect disciples.

If he tried harder, he would be on the same starting line as the others. In short, it was very cruel.

"Then we were wrong. Can you not punish us like this? we will seriously turn over a new leaf!"

When these disciples heard ye Chen's punishment, they were all flustered. It had taken them a lot of effort to cultivate to this level.

This was something every disciple knew, so a drop in one level could very likely cause all their previous efforts to go to waste.

However, they were not young anymore. How could they not pay the price for what they had done?

Since he had already said that he would be punished, and he had already made a mistake? Ah, it's time to take responsibility.

Therefore, even though they were pleading endlessly, ye chen did not seem to hear them.

Ye chen turned around and called for an inner sect disciple. Then, he brought the rest of the disciples back to the training ground.

The remaining few were left here. To be honest, ye chen did not have the heart to do it.

But at this time, if he didn't have the heart, it would be unkind to himself. So, he went forward and looked at these disciples. First, he lowered the one who had just talked back to him by one level.

The others, on the other hand, restrained themselves a little. In short, it would definitely damage their meridians, but they would recover after resting for a while.

In terms of strength, they could only rely on their hard work in cultivation in the future. After all, the foundation was based on hard work.

As long as they were willing to stand up again, there was still a chance to redeem everything.

In any case, it was impossible for such a thing to happen again in Azure Dragon sect. Ye Chen was certain of this.

He didn't wish for any other major events to happen during his three years in office. He only hoped that these disciples could cultivate well.

After that, they would obtain the strength that they wanted to give them and enter the inner sect with their own efforts.

Only then would he have truly achieved his goal of entering the Azure Dragon Gate.

"Well, you have received your punishment. You don't need to participate in the training for the next three days, but I hope you can go back and reflect on your mistakes."

Ye Chen's serious tone made it impossible for the disciples to ask for help or say anything else. They could only nod seriously.

Then, he left in a daze.

This was indeed a very big test for them, and they could only hope that they could live up to everyone's expectations and walk back!

After watching them leave, Ye Chen returned to his residence.

It was getting late. He planned to go down the mountain the next day, then go to Chen Zhong to buy some things before coming back.

At the same time, he decided to train with the inner and outer sect disciples for the next few days. He couldn't let them miss out too much.

Moreover, they had to correct their attitude. Not only did they have to improve their strength, but they also had to see which path they should take.

Early the next morning, Ye Chen quietly left the mountain and went down the mountain to the city below Azure Dragon Gate.

To be honest, other than going back to Su Yuhan's mansion, he still wanted to pay a visit to Flying Dagger Zhan Xian.

After all, as a sect leader, he really didn't feel that he was special, or rather, he hadn't reached a very good standard.

Therefore, he hoped that he could get some experience from other places.

Otherwise, if the current situation continued, even if he relied on his strength to let these disciples know his ability, they would not easily offend him.

However, it didn't mean that it would continue to stabilize.

In short, this hidden danger couldn't be eliminated just because of one suppression.

This time, it was an outer sect disciple. What if it was an inner sect disciple or another elder next time? wouldn't that be very troublesome?

Therefore, he hoped to gain some experience from where he flew to, or perhaps some advice that would help him be a good sect leader.

He went down the mountain early and went to the market first. After all, the knife-throwing team at the front line had become an ordinary happy old man.

Therefore, he still had to buy something to visit her. It just so happened that he had some spare money on him now, so he could use it to buy some meat and vegetables to bring over.

He strolled around the morning market and bought a lot of things, including some cooked food and two pots of wine. Then, he went to the place where the throwing knives were displayed.

He swaggered over and knocked on the door with his elbow.

A few seconds later, the sound of the immortal flying knife came from the courtyard. From the sound, the old man knew that he must be Living a Good Life now and was in high spirits.

As soon as he opened the door, he first saw ye chen in front of him and was stunned. He did not expect this kid to remember to come and see him. At the same time, he felt a little guilty.

After all, most of the things in the sect should be done by the sect leader himself.

At that time, she had promised ye chen but she did not expect that she would get used to the life of an ordinary person. It was difficult to break away from it, so she had sent a messenger pigeon to ye chen.

The disputes outside were all handed over to the young man in front of him.

Now that he had seen her, he was somewhat embarrassed but ye chen did not mind at all.

"Why did you come to see me all of a sudden? I was just about to ask you when you're coming back!"

"If I didn't come to see you, you wouldn't know anything. It's fine. I've already settled the things on the mountain. I've also tamed the lion behind the mountain."

Ye chen said happily. One could see that he was really proud. After all, this was indeed something to be proud of. As expected, after he said this, the old man from before the new year could not sit still!

"What do you mean by that bad-tempered big lion? he's actually willing to listen to others. I'm really convinced by him!"

In the eyes of the flying Daggers, golden fur Lion King was a huge problem. It had taken a lot of time and energy to suppress it at the back of the mountain. Moreover, everyone had been seriously injured at the time. If it were not for the final blow, it would have been really troublesome. However, now, it had been settled by ye chen with just a few words. How could this be possible?

"What's wrong? You don't seem to believe me. Why don't I call him over now?"

Ye chen said bluntly. After all, he could also hear the old man's surprise.

"Then quickly tell me how you managed to subdue him!"

The immortal slaying Flying Dagger very neatly put away the things ye chen had brought over and brought him into the room.

"Come, have a taste of my green tea. It tastes really good. I wouldn't give it to ordinary people."

The immortal flying blade poured the hot water into the teapot, and a burst of fragrance assaulted his nose.

[Chapter 2729 2734-Letter For Help!](#)

Ye chen happily told the old man about how he had used less than four hours to subdue the Golden fur Lion King. As expected, he saw the admiration in the old man's eyes.

"How is it? Do you want me to call it over for you to take a look?"

"Forget it, forget it. I also have a part to play in golden fur Lion King being sealed in the upper Village. Besides, if he comes here, it won't be good if he hurts the innocent people. I don't want to get myself into trouble!"

The immortal flying blade said while waving his hand. He had already completely integrated into the village life, so he only hoped to become an ordinary person.

Ye chen was only joking. He did not really intend to call the lion over.

"Are there any fun things to do this time?"

The immortal flying blade said with a smile. Although he didn't directly deal with the camel mountain peak, he was very curious about what happened later.

Ye chen did not find it troublesome. After all, he had gone to camel peak to experience the identity of an adjudicator.

Therefore, he told the old man everything that had happened on the mountain from beginning to end. He had never been to these mountains in such a real way.

This time, he went to everyone's place, and the conflict he had imagined was not reduced much. On the contrary, everyone seemed to get along well.

"It's not bad that you can live here, but in another year, you can go back to your mountain and be the sect leader. I also want to live such a life. After all, my daughter is going to school in the city these days!"

Hearing ye Chen's words, the immortal slaying Flying Dagger became anxious. It did not want to return to the mountain and be the sect master again!

"I think your position is not bad. Besides, everyone on the mountain must be very obedient to you now!"

His words did make sense. Ever since ye chen appeared on this mountain, everything seemed to have returned to the right track.

It was as if what the mage said was very reasonable. Indeed, the appearance of such a person could stabilize everything.

"Forget it, forget it. Let's not talk about this anymore. We'll talk about it when the time comes. I probably can't spend all my time in this position anyway. I'll definitely take care of my family more."

When ye chen did not hide anything, this was indeed the most important thing in his heart. In any case, it could not be messed up.

The two of them continued to sit there and chat about what ye chen had encountered after leaving.

"I'm going to my father-in-law's house in a while, so I probably can't have dinner with you. How are you living here? do you need me to subsidize you?"

Ye chen said with a smile before he left.

"I don't need to do this. Although I'm a pile of bones, it's not like I can't make money. Besides, if I really can't do it, I'll take on some assassin job!"

The immortal flying blade said very contentedly.

"Alright, alright, I won't send you off. You can go by yourself. If you need anything, just come find me. I'll stay here."

The two of them did not say anything more and ye chen bade him farewell. He bought some of su Yuhan's favorite desserts on the way and went to the SU residence.

"How is it? have you settled the matter? Have the disciples settled down?"

"It's already been dealt with. It's just a group of teenagers who can't sit still. The punishment has been given."

"That's good. I was afraid that you might have run into some trouble. Why did you only come this afternoon?"

"After I went down the mountain, I first went to see the old man of the immortal Flying Dagger, then I came here."

After the two of them chatted for a while, the Butler had already brought Xiao Ruan back. The little girl had two pigtailed and ran toward ye chen as soon as she entered the threshold.

"Daddy, hug!"

"Alright, alright, alright."

Ye chen scooped his daughter up and was about to take her out to play when he suddenly felt a very rapid gust of wind brush past his ear.

He subconsciously moved to the other side, and then saw a small silver knife nailed to the wooden pillar behind him. A handkerchief was hanging on the handle.

"What is this?"

Su Yuhan was also shocked. She quickly walked over and asked. Ye chen put down Xiao Rou and quickly jumped out of the courtyard. With a flip, he jumped onto the roof.

Sure enough, he saw a black figure not far away. It looked like he had come to deliver a letter.

He quickly gave chase, but he didn't expect the person to quickly rush to the corner, release a smokescreen, and disappear!

Ye Chen's profound eyes glanced in that direction and then retracted. He could not chase after them. It was better to go back and see if there were any clues on the sword that flew over!

He quickly jumped down from the roof. Su Yuhan had already pulled out the knife.

Of course, it was separated by a layer of handkerchief. After all, no one knew if the surface of this kind of thing was coated with poison.

"How is it? What's written on it?"

After ye chen walked over, the two of them laid the handkerchief flat on the table. A few words were neatly written on it, signed off as old ancestor yellow spring.

There was only one location with the word 'dangerous' in it.

"What's going on? Did this old man run into some trouble? When we separated, I said I was taking a few days off. Why is there a problem so soon?"

Ye chen said helplessly. It was really troublesome. Every time he wanted to relax, something would always come to him.

"What should we do now? We have to go and help him, or maybe this is a conspiracy or something. "

Su Yuhan said worriedly. After all, this thing was sent to them in a strange way, and the content was not clear at all. How could they know if it was real or fake?

If he went there rashly and accidentally encountered danger, wouldn't that be looking for trouble?

Ye chen nodded. He had the same thought in mind.

He looked at the handkerchief in his hand. Suddenly, his eyebrows twitched, and a flame jumped out from between his fingers, burning the handkerchief.

At this moment, a golden seal appeared in the air. It was old ancestor yellow spring 's!

Of course, su Yuhan saw it too. There was no doubt that it was old ancestor yellow spring who had sent them the message.

"It seems that he might be in trouble. I'll go and take a look. You stay at home and protect our family."

Ye chen said firmly. After all, this was not a troublesome matter for him. Moreover, he had nothing else to do.

Old ancestor yellow spring was a reliable partner. Since he had come all the way to ask for help, it was reasonable for him to go over and check if he was safe.

"Okay, leave the family to me. Don't worry."

The place that old ancestor yellow spring had written down was not too far away from the Azure Dragon Gate Mountain where ye chen was now.

In any case, if he brought Peng Fei and that great lion, it should be a little faster. They would be able to reach there in less than a day.

"Take a set of clothes and these are all delicious desserts from the city. I just went out to buy them. Pack them all and eat them on the way. Also, this pot of water."

Su Yuhan had bought everything in less than an hour. She packed the package and handed it to her lover who was about to leave.

"No matter what problems you encounter, this is more important than your own safety. I don't want you to get injured again after going out, do you understand? In any case, don't go out for too long this time. "

Su Yuhan grabbed ye Chen's arm and said worriedly. Other than this time, the last time they went out was almost a year ago.

Ye chen only returned when the child had already started babbling and learning to speak.

This time, it seemed like he was just going out to help, but who knew if there would be any other trouble in the middle?

"I know, I know. I won't let myself get hurt. I'll come back as soon as possible. I'll go home as soon as I'm done with the things over there."

Ye chen went to take a look again. After that, he took the bag he had prepared and walked out of the city. He blew a whistle. This time, Peng Fei and the Golden Retriever had come together.

The Golden Retriever was truly an outstanding spirit beast. As he ran, his fur fluttered in the wind.

Its golden fur was exceptionally dazzling under the sun's rays. Ye chen watched as a sun-like fireball rushed toward him.

Ye chen once again sighed in his heart at his decision. He had done a great job.

This Lion could become a spirit beast that submitted to him. This was much better than any other thing.

In any case, they were both taking what they needed, and from the looks of it, Peng Fei was probably having fun outside with the Golden Retriever.

Otherwise, they wouldn't have rushed here together, and at such a fast speed.

Ye chen was prepared to make the Golden Retriever smaller first. Then, they would fly on Peng Fei's body for half a day.

After that, the Golden Retriever would carry him and continue to run. In short, this would save time faster and more directly.

He didn't want to be away from his family for too long, so he couldn't refuse old ancestor yellow spring's request.

Therefore, it would be best to settle the matter within three days. If that was the case, he would be back in a week.

Thus, they began their boring flight. Ye chen leaned on the Golden Retriever's body and sat on Pengfei's back, looking at the distant scenery. Just like that, more than four hours had passed.

They were almost halfway there, so ye chen patted Peng Fei and asked him to put him on the ground.

After that, Peng Fei flew in the sky while the Golden Retriever carried him and continued to run forward. Just like that, it was night time.

They had already covered two-thirds of the journey and only needed to walk a little more tomorrow morning.

Even if he was on the road, he could not not stop halfway. Therefore, ye chen took advantage of the night and rested in a cave. After six hours, he would wake up and continue to fly to the peach blossom forest.

The next morning, the weather was great. Su Yuhan and the Golden Retriever flew forward even faster on the back of Pengfei. The Golden Retriever's body was too huge.

Therefore, it was best to shrink it a little. Compared to the giant Roc, the Golden-furred bird was more obvious. They soon arrived at the edge of the peach Garden.

Ye chen asked them to put him down. Then, the Golden Retriever followed behind him and shrunk into a small lion as they walked into the peach forest.

Very few people knew that old ancestor yellow spring's home was here.

Basically, he would rest somewhere else and only put his Big Ben in this place.

Ye chen was very confused. Who could have investigated so deeply?

Moreover, he had completely coerced old ancestor yellow spring, who was a very stubborn and difficult old man, and could only send a message through a small finger.

When he was walking on the road, he had noticed that there was something wrong with the peach flowers here, as if no one was raising them.

The peach flowers on the tree had all withered to the ground, but it was not the season for the flowers to wilt yet. Moreover, they had just come in, and the flowers in the outer circle were still in full bloom. What was going on?

Of course, there was another possibility, which was the radiation from his ability.

When some spiritual energy burst out, it would directly promote the growth and metabolism of the surrounding area, so it was possible to cause these peaches to fall to the ground in advance.

All these mysteries circled around ye Chen's head, making him feel even more troubled.

But no matter what, he was already here. Even if he had to brace himself, he definitely couldn't retreat half a step.

Besides, they hadn't even seen old ancestor yellow spring yet!

Now, when he was almost halfway there, he heard someone talking in front of him. He quickly hid and pulled the Golden Retriever behind him.

He formed a barrier between the two of them, directly blocking the sound of breathing and footsteps. At the same time, he could also hide his body.

The Golden Retriever was obviously very curious about this barrier. It raised its paw and wanted to give it a try. Who knew that it had only lifted it halfway when ye chen smacked it down. Then, he frowned and warned it.

The big lion looked so powerful and wasn't young, but why was he so playful at this time? it was really a headache.

"Why doesn't this old thing want to say anything? if he keeps this up, I don't think chief will let him live anymore!"

"The more stubborn this old man is, the more stubborn he is. He can't even tell the good from the bad. If he obediently takes out the thing, won't we let him live? What's so good about being tortured like this?"

The two of them had only exchanged a few words, but ye chen could already tell what they were talking about.

At the same time, he also guessed that old ancestor yellow spring was in a bad state, so he had to speed up to save him.

As the two of them spoke, they walked toward ye Chen's group.

Therefore, ye chen did not let go of this opportunity. When the two men approached, he gave the Golden Retriever a look and attacked them from both sides.

With just one hit, the two men were knocked unconscious on the ground.

They didn't see anyone appear. They didn't even react and call out. They just quietly lost consciousness.

Chapter 2730: The fallen patriarch!

Ye chen very nimbly pulled the two little threads behind a hidden rock on the side. Then, he took off one of their clothes and put it on.

After a short while, he had already packed up and walked out from behind the stone.

"Not bad. I didn't expect to be able to change my clothes."

Ye chen said with a smile. After all, this dress was in a completely different style from his own. His clothes were more low-key and slightly darker, but this one was purple. Just looking at it made him look much better.

The only thing he wasn't satisfied with was that it was actually someone else's clothes. While he was tidying up his clothes, he quickly walked forward and quickly arrived at a small river according to the path the two people had taken.

Old ancestor yellow spring had told him that he could find his house if he continued to walk up the river.

Therefore, ye chen did not stop and quickly swam upward. As he walked, he kept an eye on his surroundings to prevent anyone from suddenly appearing.

After all, he was an imposter, one of the people who seemed to be in control of old ancestor yellow spring.

But in fact, one look at his appearance and one would know that it wasn't right.

However, this was nothing to ye chen. Just like that, he calmly walked forward. Soon, he heard the voices of many people in front of him.

It seemed that they were about to arrive at their destination. They had just heard from a Lackey that old ancestor yellow spring had been locked up.

Moreover, it seemed that these people were trying to find something from him!

He was really curious. Did this old thing secretly find some secret manual?

How did he suddenly become so popular?

From this distance, he could see a few people gathered not far away under the cover of a tree. The one standing in front was obviously a leader. It seemed like he was from a small organization.

In any case, the situation was still not very clear, so ye chen decided to wait and see. After all, the other party seemed to have more people than him. It was best not to provoke them directly.

He still remembered su Yuhan's words. She told him that it was best for him to ensure his own safety before he went to save her. He didn't want to cause any unnecessary trouble.

If you can use a simple method to deal with everything, then don't look for trouble.

"The old man still doesn't want to say it. Where did he hide it?"

"Yes, he has already fainted. We don't know what to do."

Listening to the tone of these people and their heights, ye chen felt that these people did not have the strength to defeat old ancestor yellow spring!

"What's going on?" he continued to eavesdrop and soon found out the reason.

"Continue to give him the medicine. Increase the dosage. I don't believe he can resist it with his current body. At most, we'll kill him."

This leader had a way of speaking. He was very strict as if he had broken a jar but it made ye chen feel that he was bluffing.

“In any case, if it really doesn’t work, we’ll just turn his place upside down. I don’t believe that we can’t find him.”

As soon as he finished speaking, two more men came over. They seemed to have just come out of the house.

After seeing him, he knelt down and said,”

“Master Xiao Lin, we still haven’t found anything. I wonder where the old man has hidden it.”

This subordinate was very submissive when he spoke. He was probably afraid of being punished. This man they called master probably had a bad temper, right?

“You can’t even handle such a small matter. I really look down on you. I don’t believe that this old man didn’t leave from the beginning to the end. How could he not be here?”

The more he thought about it, the angrier he became. He ruthlessly pushed the wooden stake standing next to him to the ground and even kicked it.

Ye chen quickly concealed his aura and began to walk around from the other side.

Anyway, he was wearing the same clothes. Even if he was discovered, he could just play dumb. If it really didn’t work, he could just fight again.

The house behind him was the netherworld. The decoration of the elder ancestor’s house was not bad.

Basically, they only used peach trees and bamboo poles.

It looked very fresh and elegant, like a real paradise.

Unfortunately, it did not seem appropriate to use this word to describe the situation, so ye chen quickly went around it.

Sure enough, there were a few people standing guard inside, and the one who had just been scolded walked in with large strides.

He also vented his anger on the soldiers around him, then pushed the door open and went in.

After ye chen took a few looks, he guessed that this was the place where the Imperial power CEO was locked up. At the same time, he moved his hand behind his back and took out a medicinal pill.

This pill was a precious treasure of his. No matter what kind of poison he was poisoned with, it could at least restore him to normal in a short period of time.

Therefore, he would need it to help old ancestor yellow spring come out safely.

In any case, he was going to teach this group of fanatics a lesson for being so arrogant that they even offended old ancestor yellow spring. They were delusional!

“I just heard him getting scolded. Now that he’s come in, he’s venting his anger on us. He’s really a sucker. I’m so angry!”

“He’s just a trash who uses his connections to intimidate others. What’s there to say? forget it, forget it. Don’t bother with him. This kind of person won’t be able to achieve anything in the end!”

The two soldiers who had just been bullied said angrily, but they were not strong enough.

Moreover, no matter what, the other party’s power was greater than his, so he could only talk and not do anything else.

“Brothers, shouldn’t you change shifts? Let me take a look?”

Ye chen walked over confidently. Wearing this set of clothes, he felt much more confident.

Although the two disciples saw that he was unfamiliar, they were not willing to continue staying at the door. Therefore, they were prepared to let ye chen stand here to replace him. However, they did not know why only one person came. Logically speaking, there should be two people watching over him.

On the other hand, LAN province’s plan was not so complicated. If the two of them agreed, he would let them go. If they didn’t agree, he would beat them up in public.

In any case, there was no one else who could see this place. It could be considered a blind spot. If he was careful, he could take care of these two.

“Why are you here alone? shouldn’t there be two of you here to change shifts? And isn’t it a little early today?”

One of them, Xiao Bing, did not have much suspicion but still asked ye chen.

In short, they were subconsciously unwilling to face it. If they continued to stay here, they might be scolded later, but they didn’t dare to leave easily.

“He’ll be here soon. He asked me to come over first. He went to sleep with a lady and will be back in a while. Brothers, please leave first. I’ll just watch over here. There’s no other danger.”

The assistant said with a smile. The two people felt that he made sense, so they nodded and left together.

Ye chen watched the two of them turn around the corner. He quickly turned around, gently opened the door behind him, and slipped in through the crack.

Only then did he realize that this place was much bigger than he had imagined. He had thought that it was just a room, but who knew that he would find himself in a small corridor.

There were several rooms on both sides. In one of the rooms, a disciple stood with his arms crossed. He seemed to be guarding there.

When she saw ye Chen’s clothes after he came in, she frowned.

“Why are you here? unrelated personnel, please leave. This is not a place you should be!”

“Brother, brother, don’t worry. I’m here to tell the leader that we’ve found something about the person’s item. I’m asking the captain to hurry over.”

Ye Chen's words were very serious, as if they were real. When the man heard that he seemed to have made some progress, he suddenly became energetic.

After all, their purpose for coming here was to find the secret manual. If they found it, they could naturally leave.

"Brother, please do me a favor. I'll go in and report to the commander now, is that okay?"

Ye Chen's heart was actually beating like a drum. He had heard the two disciples at the door say something casually and knew that this person should be called commander.

When he opened his mouth to say it, he even felt a little inexperienced, but he still suppressed the uncomfortable feeling in his heart and said it.

"Alright, alright. Then hurry up and go in. Come out as soon as you're done."

The disciple said with a fierce expression. Ye Chen immediately pretended to be respectful, bowing and thanking him. Then, he immediately pushed the door open and went in.

As soon as he pushed the door open, he smelled the strong smell of blood.

Obviously, someone had just been tortured here. It was none other than the person he was here to save, old ancestor yellow spring.

Meanwhile, Ye Chen had been discovered as soon as he entered the door.

The man who was called the commander turned around and glared at Ye Chen. His expression was very fierce. When he saw the person who had come, he asked in an unhappy tone.

"What's going on? Who are you? How did he get in? What are the people outside doing!"

Ye Chen subconsciously glanced around and saw old ancestor yellow spring chained in the corner of the room.

He looked like he was about to lose consciousness, and his head was lowered, so his expression couldn't be seen clearly.

"Psychic, don't be in a hurry. I'm here to deliver news. The treasure that the old man is hiding has been found. The leader just said that there are some clues, so he asked me to inform you to go and take a look."

Ye Chen glanced at the room. Other than the commander, there was only one other person in the room.

Therefore, he could easily take down the two of them without using too many tricks.

However, he still said what he had expected. As expected, the copper Bell's expression changed. She widened her eyes and asked Ye Chen twice if it was true.

Then, he turned around and wanted to run out of the door.

Who knew that when he walked past Ye Chen at the door, he only felt the wind of a palm brushing past his ear and then he lost consciousness.

The other one had his back to them because his duty was to watch over old ancestor yellow spring and prevent him from going crazy.

He suddenly heard the sound of someone falling over. He took a taxi and turned around. Before he could see what was in front of him, he fainted.

Of course, this was all ye Chen's doing. He did not want too many people to see his face.

Then, he quickly walked to a corner, squatted down, and patted old ancestor yellow spring's shoulder.

He had to hurry up. Otherwise, the people outside would probably find out very soon. After all, it was not easy to deal with the change of shifts.

Old ancestor yellow spring raised his head in a daze. When he saw the person in front of him with his half-opened eyes, his eyes seemed to brighten.

Ye chen could not help but sigh in his heart. He really did not expect this old thing to be so smart and would not be willing to suffer losses.

He was really too unlucky to have been reduced to such a state!

"Hurry up, I have a pill here for you to eat. It will let your body return to normal for a period of time. Hurry up and run out with me."

Ye chen took out the pill and patted old president Huang Quan's back without waiting for him to say anything.

When he raised his head and opened his mouth, she threw the pill down and made him quickly swallow it.

Of course, it wasn't over yet. After all, both of old ancestor yellow spring's wrists were tied with iron chains.

Ye chen unsheathed his sword from behind his back and quickly cut it in half. Only then did he finally manage to help the man up.

The latest_epi_sodes are on_the LIBREAD.COM. website.

From the looks of it, he must have suffered a lot. He could only rely on the day after tomorrow to slowly recuperate. He really didn't know how many days of such trouble he had been through.

"You're a good person, but why are you so stubborn? can't you just give them the things? You see, I've already drugged you, but you're the one who's suffering now!"

Ye chen grumbled as he helped him walk forward. He did not know how to be flexible at all. At least protect yourself first!

Isn't this being irresponsible to me?

Old ancestor yellow spring did not reply to ye Chen's words. He only panted heavily and followed ye chen. The pill was indeed very effective.

It quickly dissolved in his body and restored him to normal.

He didn't look as drowsy as before. It must be that the poison that restricted his body's spirit energy movement had already been controlled.

"Thank you for coming so quickly. I didn't expect you to come so soon. I was thinking of staying here for a few more days. At worst, I'll die."

Old ancestor yellow spring, who had returned to normal, spoke more, but ye chen did not want to hear him talk about this.

"It's a good thing you found me. If you found someone else, how could they have recovered so quickly? I'll take you out first. It's not good to stay here for long."
