### Chapter 2731: The so-called secret manual!

Ye chen cleaned up all the iron chains on old ancestor Yellow Mountain's hands and quickly got up with him.

The next thing they had to face was probably to rush out madly. After all, as long as they went out, they would definitely pass by the door in front.

However, when ye chen thought of this, he suddenly realized that this was old ancestor yellow spring's blessing place. Perhaps there were other back doors or something. Wouldn't that be much more convenient?

"Do you have any other entrance or exit in this house? If we go out from the front door, we'll definitely be discovered. It won't take long."

Ye chen had hoped that he would not cause any trouble. After all, the pill that old ancestor yellow spring had taken would only take four hours at most to recover.

This didn't mean that the poison he had planted wouldn't affect his body, so he still hoped to leave this place as soon as possible. At least, he could recuperate first.

However, old ancestor yellow spring didn't think so.

His body was now covered in wounds, and because of this pill, he had become very energetic. He definitely couldn't let this group of people go.

He had always been a person who liked to do things. Once he was offended, he would take revenge in person.

Who knew how long it would be delayed after this!

Moreover, this group of people had suddenly barged into his place and even set up such a disgusting scheme. How could he be willing to?

Old ancestor yellow spring shook his head and said to ye chen, "let these people go."

"No need. We'll go out from the front right now. I have to kill all of them today, or else I won't be able to vent my hatred."

Old ancestor yellow spring's eyes were full of aggression. Ye chen could tell how angry he was at the moment, so he did not pursue the matter and just nodded at him.

"Alright, since you insist on going through this, then let's go out together. I just happen to find this group of little things quite unpleasant to the eye. I really didn't expect that at such a young age, they would actually think of using such crooked ways. Oh right, what exactly are they looking for from you?"

Ye Chen was already curious, so he took the opportunity to ask. After hearing what he said, Old Ancestor Yellow Spring slowly lowered his head and continued.

"It's just that the people of the world are too obsessed with it. They are looking for a martial arts secret manual. I've actually already understood this thing, and the original secret manual might have turned to dust, so it's useless for them to get it."

It turned out that half of Old Ancestor Yellow Spring's strength was due to a secret manual that he had found when he was picking herbs in the mountains.

At first, no one paid much attention to him, because he looked like a weak scholar when he was young.

However, he didn't expect that he would change completely after obtaining this secret manual.

He had been cultivating in the mountains for at least half a year, during which no one in the village had seen him.

However, there were many people who said that he had been possessed by the devil and died on the mountain.

Two months later, Old Ancestor Yellow Spring reappeared in front of the crowd. He was no longer the ordinary young doctor he had been.

He possessed all the power in the manual, and had relied on his photographic memory to obtain the most information.

Then, he buried the book on the mountain. After so many years of exposure to the sun and the wind, or rather, the corrosion in the soil, it had long disappeared.

Old Ancestor Yellow Spring had memorized every word and sentence in the book.

In short, there was no secret manual at all, or rather, the secret manual was the netherworld. The old ancestor himself did not know when this news was found out by a group of people with evil intentions.

So many years had passed, and it had suddenly been dug out, so the Tower Lord of the Imperial City had not taken any precautions at all.

At that time, someone had come to visit him. He was curious as to how someone would know his current address.

However, he didn't expect that this person would actually bring medicine. He had also been careless and prepared a colorless and odorless medicine, causing him to faint.

When he woke up again, he was already tied up. Moreover, the effect of this medicine was extremely strong. He didn't know how much it had been put in him.

In short, she was powerless and had no ability to resist. After that, it was a three-day interrogation.

He was firm and unyielding, using his own backbone to persevere. He didn't say anything, and at the same time, he relied on the only bit of spiritual power in his body that could move to protect his life.

It could be said that he had built a good foundation over the years. Otherwise, an ordinary person would have died after three days of torture.

The two of them didn't make it in time. Besides, the others had already walked out of the door. This time, they had rescued the person and recovered their strength.

Naturally, they swaggered out. A soldier who came up to them immediately showed a frightened expression when he saw them!

"What's wrong with you? Why did you let him out? hurry up and bring him back!"

It was obvious that because of the clothes ye chen was wearing, Xiao Bing had mistakenly thought that he was with her.

And wasn't the person beside him the one they were currently capturing? how did he get out?

Unfortunately, before he could react, old ancestor yellow spring had already lifted his leg and kicked him. He used a lot of strength. After all, he wasn't restricted at all, so the kick sent Xiao Bing flying five or six meters away. Xiao Bing hit the wall hard and fainted on the ground. Obviously, the big movement had attracted the attention of the other side. There weren't many people here this time, but after using the drug to control old ancestor yellow spring, the old ancestor's face turned pale. They tried to use this method to get out of the so-called secret manual, but unfortunately, everything seemed to have taken a complete turn.

For example, the so-called commander and the leader's faces changed when they saw old ancestor yellow spring.

However, he kept consoling old ancestor yellow spring in his heart that he shouldn't have the strength to resist the medicine.

However, seeing how he had kicked someone so far away with one foot, how could he still be that powerless old man?

"I think we should let them live for now. We can ask them who spread the news, and I don't think they're the mastermind."

That was what ye chen thought, so he told old ancestor yellow spring directly. After seeing the old man nod, the two of them began to attack together.

This kind of trash who wanted to reach the sky with a single step despite not having any strength should be taught a lesson. Besides, it was obvious that old ancestor yellow spring had suffered more.

As expected, old ancestor yellow spring looked very valiant and heroic after he regained his strength.

Although he looked like an old man, and the clothes he was wearing looked a little tattered.

But even so, when he made his move, one could still see that his bearing was very extraordinary, and his strength was not comparable to those ordinary small buildings.

It was indeed time for them to suffer a little. Otherwise, they would really think that this old thing was easy to bully!

In any case, ye chen did not intend to fight. After all, this old man was enough to make these little things suffer a little. As expected, in less than a pot of tea, old ancestor yellow spring had subdued this group of people.

They were thrown to the ground and basically didn't have the strength to sit up. They looked miserable.

Of course, ye chen did not sympathize with them. They deserved to be beaten up for their own bad deeds. Leaving them alive was already an opportunity given to them by old ancestor huangquan.

What happened next was more straightforward. They had to interrogate these people about where they came from and whose orders they had followed to cause trouble. Old ancestor yellow spring thought he had kept a low profile.

Ever since he grew older, he basically liked to hide on this mountain and enjoy the beautiful scenery alone, not caring about the outside world at all.

However, he didn't expect that he had already been targeted, and that such a despicable method would be used.

If someone wanted to ask him to be their master, he might really agree.

However, it was impossible to get a green card from him if he wanted to gain strength through such means.

Therefore, it was impossible for such a person to catch old ancestor yellow spring's attention.

When ye chen saw that he was almost done, he strode over.

"Not bad, not bad. I see that this group of people all seem to be quite good at pretending. By the way, where did you guys come from?"

Ye chen looked down at the person who had just been called the so-called leader. Now, he had been beaten black and blue. His hands were behind his back and he looked like he was about to collapse.

"What's the matter? you've been beaten up so badly that you can't even speak. What was he thinking? If I hadn't stopped this old man, you would have lost your lives by now!"

"So it's best if you don't continue to show your faces. If you really don't say anything, then you will be killed without any value."

Ye chen said in a calm tone as if he was explaining something very ordinary. However, in the ears of this group of people, it was simply a talisman that urged them to die.

They subconsciously shifted their gazes to old ancestor yellow spring and were startled by the old man.

Of course, they all knew what they had done to this old man.

Since that was the case, it was better to say it quickly, and maybe there would be a chance to live.

If they did not say anything, they would be no different from what ye chen had said. They would lose their lives immediately and would not have any chance of coming back to life.

“How can it not be difficult? do I really not want to tell you? If that’s the case, then I can’t defend you anymore.”

Ye chen shrugged, then turned around and took a few steps back. With every step he took, he recited a number in his heart.

He knew that someone would call out to him in time.

Sure enough, after he took two steps, old ancestor yellow spring took a step forward.

The man who had been called the commander and scolded by the leader shouted.

“We came here because of the orders of Yangzhou city’s Duke Jiang.”

As soon as he finished speaking, the leader glared at him. To his surprise, old ancestor yellow spring kicked him in the next second, knocking the leader to the ground and knocking him out.

“Continue. Not only do I want to know who sent you here, but I also want to know other things. Tell me everything you know and I’ll spare your life.”

Old ancestor yellow spring spoke straightforwardly. His eyes were a little scary, so the underling began to speak while trembling.

It turned out that master Jiang of yang-Zhou city had been obsessed with this kind of strength improvement recently, and he also wanted to cultivate. Therefore, he had set his eyes on this kind of secret manual to achieve his goal.

He had no idea why, but one day, a very powerful mage came to his house.

Before he entered the door, this sorcerer had already told master Jiang that he had the opportunity to help him cultivate and become a powerful expert.

As soon as he said this, the Sorcerer immediately received master Jiang’s attention, and he was invited to his residence.

After that, the Sorcerer told them where old ancestor yellow spring lived and that he had a very powerful secret manual.

However, before that, he had to be knocked down first to get the information from him.

In short, it would be more troublesome to find something from netherworld’s boss. After all, he was so powerful, so the mage had gotten a bottle of potion from somewhere.

The medicine was colorless and odorless. As long as the subordinate took the antidote first and then applied it on his clothes or hands, he would fall into a coma if elder huangquan smelled it.

The latest\_epi\_sodes are on\_the LIBREAD.COM. website.

The greater the dosage of the medicine, the more serious the suppression of the spirit energy in his body would be.

This was also the reason why old ancestor yellow spring had lost all his strength when he woke up after being drugged.

Master Jiang was also obsessed with this thing. He had given the Sorcerer a lot of money to buy this information.

He even treated the mage like a god of Fortune at home.

In short, she had long lost her heart. Perhaps she couldn't figure it out after getting old!

After the matter was settled, they set off on their own and challenged the leader.

Because he looked like the kind of young man who made people feel that he was very smart, but unfortunately, he was too smart for his own good.

They didn't even know when old ancestor yellow spring had sent someone to ask for help.

They did not notice ye Chen's arrival at all. They had been relying on luck along the way. It was really sinister to rely on the so-called medicine to hurt this old man!

"This mage is quite interesting. I really want to go and take a look. After all the things he has done, he should be someone who knows you."

Ye Chen said with a smile. Although he was in a hurry to go home, one or two days was not too much of a difference.

### **Chapter 2732: treacherous plot!**

The two of them didn't stay any longer. After knocking out the rest of the people, they only lifted the person who had just spoken.

"If we ask you to lead us there now, you should be able to do it, right?"

Old ancestor yellow spring said with a gloomy face. He didn't look like someone to be trifled with.

Ye Chen did not interrupt. At this time, they needed someone as powerful as old ancestor yellow spring to support them.

Tong Ling didn't dare to refute the old ancestor's words when he heard Huang Quan's words. After all, he didn't have the chance to do so. Judging from his current strength, he was just like an ant. He had no chance of winning.

"This Yang Zhou city is quite far from here. I wonder what he's thinking. He's actually willing to travel mountains and rivers to come here and cause trouble. Looks like this person is really dreaming and doesn't want his life anymore."

Ye Chen shook his head helplessly. In his opinion, in order to have strength, other than ambition, one must also have a little talent.

At the very least, one had to have the foundation to be able to do so, and not be able to obtain it just because one wanted to.

He suspected that this so-called sorcerer knew old ancestor yellow spring and was only using master Jiang.

After that, he would ask him to send someone to bring the things over. After all, it was very possible.

Old ancestor yellow spring wouldn't even let him in if he came, which was why he put on such a show.

He felt that it was extremely abominable just thinking about it. Now, he wanted to see if this person who was waiting at home to reap the benefits from the situation could bear the consequences that were about to come.

After ye chen left the peach blossom forest, he whistled and called Peng Fei over.

It seemed that the Golden Retriever and Peng Fei had a very good relationship. When Peng Fei showed up, the Golden Retriever ran out with him, which made old ancestor huangquan, who was standing aside, very envious.

The mortal standing on the other side was so scared that he almost fainted.

"You're really amazing, kid. Why do you always find such fancy spirit beasts?"

Old ancestor yellow spring's eyes were red with jealousy as he watched the lion and the ROC.

The average person would not have such strength. This further proved that ye chen was indeed different.

"How about it, now you choose, do you want to sit on this Lion or the ROC?"

Ye chen said generously. After all, he felt that this was a very refreshing feeling.

Although old ancestor yellow spring liked the lion, he couldn't possibly fly on it. It sounded a little bumpy.

Hence, they still chose the Nine-Tailed ROC.

The soldiers at the side had never experienced such a Mount before, and they were pulled up while trembling.

However, ye chen and the others did not care about this matter. In any case, they would definitely bring him back.

After learning that they were heading to yang-Zhou city, the giant Roc immediately spread out his large wings and began to fly forward at high speed.

The disputes around them passed by their ears. The two of them sat on their friends and chatted for a while, then lay on Peng Fei's body to rest.

After an unknown amount of time, when Peng Fei once again stopped on the ground, he was already outside Yangzhou City.

"How are you going to deal with these people? I think these people are simply looking for trouble."

"The others aren't much of a threat to me, but I'd like to see who this mage is."

Old ancestor yellow spring said with a gloomy face. After all, most people didn't know about this dense group of people. Only a small number of people knew about it.

Moreover, it was only spread when he was still very weak.

In short, in his opinion, she might have been one of those people from that time, so why did she suddenly have such a plan now? it was really ridiculous.

He actually used such underhanded methods to try and snatch the manual away.

It was a pity that it had long since ceased to exist, only existing in old ancestor yellow spring's mind.

"Didn't he want the secret manual? I'll go and show him how useful this secret manual is!"

Old ancestor yellow spring said fiercely. Then, he pushed him with the soldier and almost pushed him to the ground. Ye chen quickly caught him.

"You and him can stay here and write something down. Let's send him back first. Master Jiang will not let him off, anyway."

Ye chen was very straightforward. He was right.

Such a traitor would be criticized by others, not to mention master Jiang's thoughts. He must be a very strict person.

Moreover, after a while, what master Jiang's residence would go through indicated that they would not have a good time.

Old ancestor yellow spring hated the man they held hostage, because he was the one who had interrogated him.

Otherwise, he wouldn't have given in so quickly, for he was afraid that old ancestor huangquan would kill him directly.

The man was getting more and more scared as he watched the approaching martial world. His legs were shaking. When old ancestor yellow spring let him go, he knelt on the ground.

"Please let me off the hook, my Lords. I'm just following their orders. I'm not the General Manager. If he asks me to do this, I definitely won't dare to act rashly against you!"

"I beg you two to spare my life, I really know my mistake!"

These words of repentance were said rather quickly. Unfortunately, ye chen did not think that this matter had anything to do with him.

And old ancestor huangquan would never let anyone who had disrespected him and attacked him go.

"I won't touch you, but I'll take you to the Jiang mansion."

He was not willing to let such a dirty person dirty his hands. Anyway, he was already here, and it was not like he was a few steps away.

"I beg you, my Lords. If you send me there, I'll definitely die. I hope you two can leave me a way out. I really have other people at home!"

"Why didn't you think of this when you were doing so many evil things? why do you only think of pleading for mercy now?"

Old ancestor yellow spring was still very strict and was unwilling to relent. On the other hand, ye chen would at least be a little unable to watch.

Although he didn't sympathize with bad people, he didn't think it was necessary to send them to their deaths.

"That must be the Jiang mansion!"

He raised his hand and pointed to a very luxurious courtyard in front of him.

The soldier immediately nodded, his legs so weak that he couldn't even stand up.

"Alright, I'll let you off a little on account of you bringing us here. Now get lost, or I can't guarantee that you'll keep your little life."

In any case, these words were very direct and gave this person a chance to live. Therefore, he immediately kowtowed twice and ran away in fear.

"Why did you let him go?" Old ancestor yellow spring asked as he watched the man leave.

"I thought you were willing. Otherwise, I wouldn't have seen you stop me." Ye chen said with a smile. He could tell that old ancestor yellow spring was not angry.

They didn't waste any more time and strode straight to the Jiang mansion.

At this moment, old master Jiang and the mage who were still at home did not know that danger was heading towards them.

The Sorcerer also had some magical power, but ye chen and the others deliberately hid their figures and arrived at the Jiang mansion's entrance without a sound.

"I think it's better to keep a low profile. We can sneak in and catch them off guard. What do you think?"

Ye Chen's suggestion sounded very interesting, so old ancestor yellow spring did not refuse.

In his opinion, it was the same, but it was also great to give these people with bad intentions a surprise.

The two of them walked to the corner of the wall. There was no one there, but they entered the courtyard together. The place they entered should be like a backyard.

It didn't seem like anyone lived here, so the two of them walked out of the courtyard and entered the front yard.

Just as they were about to continue walking forward, they saw two servants walking towards them. From the looks of it, they were carrying food.

Even though it was not close, ye chen could tell that the food on the table was very sumptuous. Therefore, ye chen guessed that it must be sent to the venerable one or master Jiang.

This residence was indeed big, and there were many courtyards.

It would definitely be a little troublesome to find them, so it was better to just follow these two people and then go take a look.

Ye chen gave the Imperial power CEO beside him a look, then the two of them quietly followed behind these two scary people. They were just ordinary people, so they would not notice the two people following them at all. Thus, they made three turns and entered the lobby in front. There was a table in the middle of the lobby. There was a lot of gas on it and only two people were sitting at the table.

Just by looking at them, one could more or less guess the identity of these two people. They must be the master of the Jiang mansion and the so-called mage.

Old ancestor yellow spring, who was hiding at the side, found the Sorcerer's appearance a little familiar, but he didn't seem to be familiar with him.

They had probably met before, but they didn't know each other. How did he know where she lived?

This was really strange. Looking at master Jiang's appearance, one could tell that he was not suitable for cultivation. He simply did not have the qualifications.

She didn't know what he was thinking. He was already so old, but he still had such a trick up his sleeve. It was simply ridiculous.

"Why don't we wait for the dishes to be served, then we can go up and eat before we fight. I'm a little hungry anyway."

Ye chen said as he looked over.

Old ancestor yellow spring nodded after hearing his words.

Indeed, they knew in their hearts that as long as the two of them appeared, these two people would not be able to resist at all.

Therefore, when the time came, they could do whatever they wanted.

The only thing he was curious about was whether the mage still had that strange potion, but when that time came, he would just play it by ear, so he didn't have to worry too much.

Hence, the two of them waited at the side. After they were done, they swaggered out together.

He walked straight to the lobby and sat on the chair opposite them without even looking at the other two people at the table.

"Who are you guys? Why did you break into my courtyard? Someone, get the two of them out!"

Master Jiang didn't know them. Therefore, he just saw them sitting here and picking up the chopsticks to eat.

It was just that his very straightforward words of attack didn't make the two of them fluctuate in the slightest.

He didn't know what was going on, but the mage beside him was completely stunned when he saw the two of them. The chopsticks he was holding fell to the ground.

He had recognized the old man as old ancestor yellow spring, but he didn't expect him to appear here!

It was obvious that the plan he had arranged had been exposed. Otherwise, it would not have ended up like this. Moreover, the two people in front of him did not look like they were poisoned.

At this moment, the person master Jiang had called over had already appeared at the door and was about to break in.

Who knew that he would hit a huge barrier when he was running forward? then, he fell to the ground after being shot!

This scene obviously shocked the Sorcerer and master Jiang who were sitting there.

This time, ye chen was the one who did all this because he was not willing to have a good meal by himself. If he was disturbed, he must not flip the table of dishes.

At this moment, master Jiang saw the look that the Sorcerer gave him, and he instantly felt very scared.

The person in front of him was clearly a cultivator!

The latest\_epi\_sodes are on\_the LIBREAD.COM. website.

Judging from the mage's appearance, he should not have been able to defeat him, so why did he suddenly appear here? moreover, he did not look very happy.

Did he offend them?

However, these two people didn't seem to have met before. How could they have offended this kind of immortal cultivator? why would they come to other people's house to eat the Overlord's meal?

"Why aren't you two eating? It's just a table full of food, can the two of us finish it? It's better for the four of us to eat together, so don't waste food."

Ye chen said very politely as if this was his own home. However, in reality, the other two people had no appetite at all, even though they had only eaten two mouthfuls.

"What? didn't you send people to invite me over? Why don't you dare to say a word now? if you only want the secret manual, why didn't you just call me over and ask me for it? you actually used such a method, then you don't have to be afraid of me suddenly appearing, right?"

Old ancestor yellow spring's words frightened the two of them. Only then did master Jiang realize that the man in front of him was the old ancestor yellow spring they were looking for.

However, why was he the only one who came? moreover, his men didn't bring back anything. Besides, they wanted him to use medicine to injure himself and get what they wanted.

He looked at the mage sitting next to him. He didn't look very old, so he must have heard someone else's words and thought of this.

Anyone who was slightly older and knew old ancestor yellow spring would never use such a nonsensical method.

Ye chen could not help but sigh. People nowadays really understood the means to become stronger, even if this matter was very risky and dangerous.

### **Chapter 2733: setting a trap!**

"I'm just very curious about one thing. How did you know where I live?"

Old ancestor yellow spring put down his chopsticks when he was almost done eating. He looked up at the mage, whose hands and feet were trembling.

This person didn't talk much nonsense when he was doing bad things, but now when it was time to make things clear, he was stuck. What a joke.

"You don't have to look at anything else. I've already dealt with those people you brought to cause trouble for me. You should worry about yourself."

Ye chen nodded as he ate the delicious food.

The dispute was no trouble for him anyway, and the poison in old ancestor yellow spring's body was almost cured.

He was no longer affected by it. To put it bluntly, he was just here to watch the fun.

After old ancestor yellow spring had eaten his fill, he glanced at ye chen without any hesitation to make sure that the two of them had eaten their fill.

Then, he suddenly slammed the table, and all the plates on the table shattered.

"Alright, now let's talk about what happened between us."

Old ancestor yellow spring looked like he was here to collect a debt.

After all, to be honest, he had fooled around with a group of ordinary and useless people behind their backs. It sounded like a joke, and it would be too embarrassing if word got out.

Therefore, he had to take revenge. Even if he didn't kill them, he had to teach them a lesson.

Otherwise, what about the injuries on his body?

"Now tell me a solution, and I'll see if I can handle it. In any case, I don't think you have any qualifications to cultivate. You just listened to other people's slanderous words and did this."

please read on website: [MYBOXNOVEL.COM](http://MYBOXNOVEL.COM)

Old ancestor yellow spring's words were very tactful because he knew that there might be someone else behind this sorcerer.

Originally, he wanted to know where this mage came from, but looking at his age and qualifications, he didn't seem to be someone who could manipulate him. So, the origin of the medicine couldn't be so easy, and no one would know where he lived.

"In the beginning, I just wanted to take a casual rest for the sake of the longevity disease. I hope you can let me go and spare my life if I have other thoughts."

Master Jiang knew that he was in deep trouble at the sight of the venerable Master. He was not young and had a lot of experience.

At a glance, she could tell that he had no other way to keep his life except to beg for mercy. It was better to save his life as soon as possible.

Ye Chen and the others were waiting for the young sorcerer to make his stance clear. However, they did not expect the young sorcerer to secretly take something out of his pocket and suddenly raise his hand.

He looked like he wanted to throw it to the ground!

Ye Chen's sharp eyes and agile hands kicked it. The thing did not successfully land on the ground. Instead, it bounced up and was caught by Ye Chen.

He saw that the deposit was a round paper ball, which looked like a smoke bomb.

Good, this person actually wanted to escape. He had already come to this point and still wanted to run out?

"Don't think about running away. Why don't you quickly tell me who is behind you? and why do you know so much? if you tell me earlier, I might spare your life. Otherwise, I'm afraid you'll die here at such a young age. What a waste!"

Ye Chen said with a smile because he glanced sideways and saw that the old man was already a little angry.

If he didn't do something, he might end up killing this young mage.

No matter what, she was still young. Ye Chen felt that perhaps it was because he had become the sect master that he felt some pity for children who looked about the same age as his disciples.

He hoped that he could be spared. At least, he did not deserve to die.

At this moment, Master Jiang also realized the awkwardness of the situation, so he immediately grabbed the arm of the young wizard beside him and urged him.

"Little master, hurry up and tell us who it is. Otherwise, we won't be able to survive. I beg you, I still want to live!"

Master Jiang no longer had any thoughts of cultivating. He had never thought that he would end up in such a situation.

Moreover, the strength that he wanted to obtain was simply not worth mentioning in the eyes of these experts!

Perhaps old ancestor yellow spring's gaze was too oppressive, or perhaps old master Jiang's desire to live was too strong, or perhaps ye chen had given him hope.

The little mage lowered his head in silence for a while before slowly raising his head.

Of course, he was not a fool. He could tell what was more important. If he continued to resist at this time, the result would definitely not be good.

So, other than making decisions for his own life, there was no other choice, right?

"I heard about it from Yang Shi."

Then, the young mage explained what he knew and experienced.

It turned out that he didn't want to obtain such a powerful magical item in the beginning.

Basically, he was not smart enough to do this, and all of this was arranged by someone else. He was just a shield.

The reward was naturally to tell him that he could get this good thing. He had never thought about whether he could really get it. Besides, even if he did get something from old ancestor yellow spring, he wouldn't be able to get everything.

In any case, it was Yang Shi who had given him the medicine and told him where old ancestor yellow spring lived.

He had even brought him directly to Yangzhou City and pointed him to a place, which was the Jiang mansion.

Old ancestor yellow spring had an idea of what was going on after hearing the young mage's words.

He did know this person. He was from the same village as him at that time. He was slightly younger than him by two years, but he was an idle person in the village.

He had never done anything serious, but at this moment, it seemed that there was a surprise that she did not know about!

I really didn't expect that at such an old age, he would still want to take such a thing, and even have ideas on me. It's really hateful!

"So, you listened to his arrangements. How did you contact him? Why don't you just tell us directly? that way, we won't find trouble with you."

Ye chen explained patiently from the side.

He and old ancestor yellow spring were like the good cop and the bad cop. In short, he was the one who was easier to talk to.

It was obvious that the idea was still a little tangled and needed someone to push it. Therefore, after thinking about it, ye chen decided to give him a chance to say it.

After all, people of his age might not be able to see through such insidious things, so they would follow the steps of others obediently.

“You really are a silly child! You can’t even tell? You’ve been used.”

Ye Chen directly pointed out the reason. He really felt that this Yang Shi was a schemer. He was really impressive to have directly targeted a young child like this!

At their age, they were usually tight-lipped and liked to keep most of their words to themselves. They were the easiest to control, and he had taken advantage of this to do such a thing.

After hearing Ye Chen’s words, the young sorcerer seemed to have suddenly realized something and instantly raised his head.

She was so scared just now that she didn’t dare to look up at the two of them.

Now that he realized that he had been deceived, he suddenly felt as if he was burning with anger. After all, no one would be able to stand it if such a thing happened to them.

“I know how to contact him, and he did tell me to check it out for him after I get the item.”

This little mage was indeed too young. He was actually willing to believe such words. If he was a little smarter, he might have run away after getting the item.

Who would be willing to give it to others? After all, it was a secret manual they had obtained from old ancestor Yellow Spring.

“That’s good. Since we’ve already had our fill today, let’s go and meet this Yang Shi!”

Although the situation at the table was already a mess, since they had already talked it out, there was no need to worry too much. Besides, they were already full, so it was fine if the two of them were hungry!

Ye Chen did not want the man to relax before he left. He told Master Jiang.

“In my opinion, you’re still a bunch of old bones. Don’t try this. You don’t have the qualifications at all. You might as well just be a rich family’s old master.”

After Ye Chen finished speaking, he left with old ancestor Yellow Spring and the young sorcerer, not caring about the other party’s expression.

“He would usually make an appointment with me and tell me to wait for him there. Now, I can only send him a message to tell him that I have obtained the item. Only then will he come. Otherwise, he would only be willing to send a message at a different time from me.”

The little love-struck fool had never felt it before, but now he realized that he was indeed a little too stupid.

Such a situation proved that the other party was a very meticulous person. As long as he was played like a fool and had no way to fight back, he would not be able to fight back.

After hearing what he said, they couldn’t help but complain. This child was too straightforward!

Can’t you tell? However, it was also possible that one was willing to hit and the other was willing to suffer. Anyway, he had recognized it now, so he would just lure them out like this!

Old ancestor yellow spring did not say anything. It was ye chen and the young wizard who were talking.

Ye chen suddenly realized that in order to not make the other party suspicious, they should all be in the martial arts world. Therefore, the three of them immediately returned home.

Master Jiang was scared out of his wits. However, after explaining his purpose of visit, master Jiang didn't dare to say a word of sarcasm, even though he was still unwilling to do so.

He was just an ordinary mortal, while the three people in front of him were little mages, but they also had a bit of spiritual power.

Therefore, he had no way to resist. Moreover, he was also involved in this matter.

If old ancestor yellow spring wanted to hold him accountable, he would not be able to escape either. It was not ye chen who kept talking from the beginning to the end.

That was why he imperceptibly pleaded for their lives, otherwise, there would only be more and more trouble.

Ye chen had known old ancestor yellow spring for a long time, so he knew that if this man came to seek revenge alone, none of his family members would survive.

Anyway, when ye chen imperceptibly pleaded for mercy for them, old ancestor yellow spring did not mind, so he went on with his own story.

So, the three of them returned to the Jiang mansion and watched the young wizard send out the letter.

Now, he just had to wait for the other party to take the bait. Anyway, they had nothing to do now, so ye chen was ready to go out for a stroll.

Master Jiang really didn't know what to say to these ancestors who had suddenly appeared, but he couldn't change this fact.

“You'd better be quiet for the next few days and don't look for trouble.”

Ye chen said a few words of warning but did not continue to say anything.

After all, he had heard from the young master that master Jiang did not even know of Central TV's existence.

Because the other party was too sinister and cunning, at that time, he told the little mage that it was best not to reveal it to others and only that he knew it.

He also taught the young sorcerer a few moves, the kind that were quick to learn and only suitable for acting.

That was why his old master believed him so deeply. It was a pity that all of this was a lie.

When master Jiang learned about these things later on, he finally destroyed his thoughts of continuing his cultivation.

“How is it? Has he not sent back any news?”

The next day, ye chen asked the young sorcerer. The young sorcerer shook his head and told him that there should be news in the afternoon or evening.

When it was almost night time, ye chen and the others had finished their meal together and thought of returning to their room. As expected, there was a handkerchief nailed to the table in his room.

This was a letter from the other party. Ye chen and the others quickly rushed over and read the contents together.

The latest\_epi\_sodes are on\_the LIBREAD.COM. website.

Yang Shi still didn't know of their existence, and the contents of the handkerchief were mostly praises for the young master. At the same time, he was probably astonished by the young master's performance.

Old ancestor yellow spring had been subdued so easily by the drug. He must have thought that old ancestor yellow spring was too old to resist the plot.

All in all, all of this sounded very appropriate, and he also believed what the little mage said.

Of course, the most important thing was that the contents of the letter were clearly stated. They would meet at the city gate tomorrow night.

Of course, their meeting would only last for a short while. After the other party obtained the secret manual, it was obvious that they would leave. They might even kill the little mage to silence him.

All of this was highly possible. After all, who knew if there was any guarantee for such things?

When old ancestor yellow spring woke up, he would naturally track them to this place, which would bring them more trouble.

"He's probably asking you out tomorrow to kill and Rob. Anyway, you can deal with him when the time comes. We'll just wait for the opportunity. As long as we see him appear, we'll catch him. You just have to protect yourself."

Ye chen did not hide the danger of this matter.

The Sorcerer was also burning with anger, so he agreed to cooperate with the two.

### **Chapter 2734: Master-disciple relationship!**

"Is that the position? You guys are really in a remote place every month. This place is so deserted that you can chat. It's really rare to find such a place in the city!"

Ye chen said sarcastically as he stood in the distance. It was clear that the person called Yang Shi was really powerful.

Everything was said very carefully, and there was basically no gap that could be broken in.

“Actually, we only met once since I entered the Jiang mansion. We only used paper letters to send messages the rest of the time. In short, he is very careful and basically won’t show his face. This time, he was lured out.”

The Sorcerer’s intelligence seemed to have recovered a little, and he finally realized how despicable this person was.

“That’s right. I think if it wasn’t for this secret knowledge, he would definitely not be willing to show up. Anyway, he only has this one chance. If he fails to grab it, who knows where he will go next time. What bad luck!”

Ye Chen’s tone was a little angry.

At this moment, he suddenly realized that old ancestor yellow spring, who had been with him, didn’t say a word. It seemed like he was thinking about something.

“What’s wrong with you? Is there something that you’re worried about? Don’t worry, if there’s no problem, we’ll definitely be able to catch him. You can rest assured.”

Ye chen thought that he was worried that this person would escape, so he consoled him.

To his surprise, old ancestor yellow spring only shook his head without explaining.

The sky was getting darker and darker, and the appointed time was almost up. The little mage was quite good at acting, looking left and right timidly, and then carefully walked towards the corner of the wall.

Meanwhile, ye chen and the others were watching from a distance. They were probably more than ten meters away. Moreover, the two of them had concealed their auras together to ensure that they would not alert the enemy at all.

After all, how could such a meticulous person not have any defenses?

They might have already surveyed the surroundings before they saw them.

To be honest, ye chen was already a little drowsy but he still forced his head to look in that direction.

Old ancestor yellow spring didn’t relax at all. He was staring at the sky like an owl.

Just as they were feeling exhausted, they suddenly heard a very small and sparse sound.

Ye chen was jolted awake and immediately patted old ancestor yellow spring beside him. However, the man looked much more energetic than him.

The person who appeared on the other side was wearing black clothes. At this time, he was already facing the Sorcerer directly, and the method was to open his mouth and speak somewhat angrily as expected.

“What’s going on? Why did you come so late? It’s already been a while since our agreed time. If I leave, you can forget about this secret manual!”

The person opposite him didn't seem to show any other emotions because he was angry. He only said with some urgency.

"Alright, alright, stop talking nonsense. Hurry up and take it out. I'll show you if it's real or not. If it's real, then we'll be big here. At that time, I'll definitely make you a meteoric rise!"

Ye chen felt that he could hear his little thoughts even from so far away. He really did not hide it at this time!

Who knew what would happen after he got the secret manual!

Perhaps the Sorcerer would die at his hands, but of course, they would not let that happen.

"I don't really trust you now. How can you guarantee that you'll continue to share this with me after you get it?"

The Sorcerer was actually very scared right now, but he only dared to continue to circle around here, because he knew that it would be fine if he didn't take it out, not to mention that he didn't have it on him at all.

"I know her and I'll help you distinguish between the real and the fake. It's not like I'm going to snatch her away from you, so what? Don't tell me you haven't brought it with you? don't you trust me?"

That person's back was almost facing ye chen and the others but from his tone, it was obvious that he was angry.

Ye chen wanted to continue observing, but he did not expect that old ancestor yellow spring, who was standing on the side, would not discuss anything with him at all.

He rushed out directly and aimed his palm at the Man in Black.

The Man in Black fiddled with it. It was obvious that he did not react in time. He only heard a gust of wind from the palm.

He subconsciously dodged to the other side. Only then did ye chen realize that this person's strength was not weak either. It could even be said that he was several times stronger than this young wizard.

Just like those inner disciples of his sect, why were they still not satisfied? And you still want to reach the heavens in a single step all day long?

Ye chen did not have time to think and immediately joined the battle.

The Man in Black obviously knew old ancestor yellow spring, so he turned pale and tried to escape.

It was a pity that the stupid little wizard was still standing on the side of ye chen and old ancestor yellow spring, so he could not break through from another angle.

Moreover, it was very difficult to be attacked from both sides.

Ye chen gave the young sorcerer a look and told him to quickly hide in the side.

The Sorcerer did not dare to stay any longer. He could not afford to offend any of the three in front of him, so he quickly ran to the house behind him and observed the situation from afar.

Here, ye chen and the others punched and slapped without the slightest hesitation. Moreover, their strength was not weak at all.

It was obvious that they wanted to keep this person here and not give him any chance to escape.

At that moment, ye chen suddenly saw the man take out a ball from his clothes. It was very similar to the one he had seen that night.

It was the thing that the paper man who had sent him the letter to save ancestor Hong Chen had taken.

Old ancestor yellow spring also saw it and shouted at ye chen, ""Don't let him drop that thing on the ground!"

When ye chen heard this, he did not even have time to reply. He went up and kicked the hand away.

Because his hand had no strength left, he threw it out.

Then, it was caught in ye Chen's hand.

The man was obviously more anxious, but unfortunately, he had no way to deal with this situation immediately.

After all, it would be a waste of time for him to be caught in the middle. He wouldn't have many opportunities to escape from the hands of these two people. It would be a fool's dream.

He did not even have the chance to escape now, so he could only obediently stay there. Ye chen stepped on his back, leaving him with no strength to resist or stand up.

Old ancestor yellow spring came over and looked down at the man with a complicated expression.

Ye chen had wanted to ask this question earlier but he was afraid of wasting time and making a sound, so he held back. Now, however, the opportunity had presented itself.

Therefore, he didn't hold back his desire to gossip and asked old ancestor yellow spring.

"You should know this person. What's wrong? Could they be old acquaintances? You don't look that old."  
"

Ye chen said with a smile because he had no idea who this person was.

Old ancestor yellow spring didn't get angry or curse at him.

"He is my disciple."

Ye chen was stunned by old ancestor yellow spring's words. When did this old man take in a disciple? Why hadn't he heard of it before?

And didn't he say that this person should be someone of the same age in the village?

It did not seem to match the image of the young man in front of him. Could he be an imposter?

"You've really made me see you in a new light. You've already been expelled from my sect, but now you've actually muddled along to such a state. How laughable."

Old ancestor yellow spring was filled with emotion. He had never thought that he would meet his rebellious disciple in such a situation.

In his opinion, this disciple of his was really strong and talented, but it was only limited to when he had just met him.

In the end, everything really changed.

In the beginning, because of his talent and this disciple's eloquence, he made an exception and accepted this disciple.

He really didn't have any other disciples before, and he thought that he would treat this one seriously.

He wanted to teach him a lot of things he knew, but he never thought that all of this would be a very wrong start.

This disciple approached him only because he wanted to quickly learn from him and even wanted to highlight his things and sell his skills to others. Unfortunately, when he was doing this, he was discovered by the owner of the yellow property building.

In old ancestor yellow spring's eyes, at least one person had to be of good character. Otherwise, he wouldn't have accepted such a person as his disciple.

However, the person in front of him had been pretending all this time and had never truly wanted to be his disciple.

She had taught him for three years, so even a dog should have feelings for him.

However, only a person would be so decisive to cut off this matter. Therefore, after discovering this for the third time, old ancestor yellow spring decided to give up on his so-called only disciple.

At most, he would be all alone and didn't need anyone to take care of him.

At most, he would die in the courtyard of his Peach Blossom Spring when I was unable to take care of myself. That would be the best. It sounded very pleasant,

It was a pity that he wasn't even allowed to enjoy the joy of his old age and did all these things. It was simply disgusting to hear!

It wasn't because even if he didn't have the strength, it was enough for him to go to the World, or to find something to earn money to support himself.

Who knew that this person would actually turn his attention back to him? when revenge breeds revenge, when would it end?

He had taught him so many things, but he had ended up being the one who ate the food instead. Old ancestor yellow spring sighed with emotion.

Some people were really amazing when they put on an act, but when they were really needed, they were like a pool of stagnant water.

"So there's such a thing. It's really dramatic."

Ye Chen also felt that it was a pity. After all, if the Imperial power patriarch's strength was possessed by a young man with ability, talent, and good character, he would definitely become even stronger.

After all, Old Ancestor Yellow Spring was just an old man. However, he didn't expect that his only chance would be used by such a scammer.

It was a great loss for Old Ancestor Yellow Spring to be unwilling to take any other disciples.

Moreover, when Ye Chen was reflecting on this matter, he really could not understand why he would choose to sell it for money.

Old Ancestor Yellow Spring had a lot of money, so why did he have to be a miser?

"Alright, alright, don't bother with him anymore. Let's go back first. I don't want this dark place to be any bigger. Besides, it's almost a night later. I still want to go back and sleep for a while. Otherwise, it's easy to suffer from endocrine disorder if black and white are reversed."

Ye Chen could tell that Old Ancestor Yellow Spring's mood was a little affected, so he immediately made a joke.

After all, there was no need to repeat unhappy things.

Old Ancestor Yellow Spring nodded. Then, they walked forward with the person who was held down. Of course, this responsibility fell on Ye Chen's shoulders.

The Sorcerer was a little scared as he followed behind. He probably wanted to say why he couldn't leave yet, but the surroundings were too quiet, so he could only shut up for now!

Holding the Man in Black hostage, they walked back to the Jiang mansion and entered through the back door.

Ye Chen struck the man's acupuncture point and tied him to a pillar in the room with a rope. Then, he fell asleep on the bed.

"It's fine, it's fine. You go to sleep first. Leave this person to me. He'll be fine without me watching over him. We'll interrogate him together tomorrow. If it really doesn't work, give him some medicine and let him sleep for the night."

Ye Chen knew that Old Ancestor Yellow Spring was probably very resentful of his failure to live up to his expectations. However, this person would not change his mind.

The latest\_epi\_sodes are on\_the [LIBREAD.COM](http://LIBREAD.COM). website.

Old Ancestor Yellow Spring was indeed upset, so he returned to his room to rest without saying anything.

Because that person's pressure point had been struck, he could only be controlled there without the slightest strength to fight back.

Even though he was not weak, he was facing Ye Chen. A hidden powerhouse like him did not have the chance to fully display his strength.

In ye Chen's eyes, even if he was not an ordinary mortal, he was still an ant.

In the world of cultivation, it was actually a taboo to do those things.

However, it might be because he was old ancestor yellow spring's disciple and had no other disciples from the same sect, so he kept breaking the rules!

In ye Chen's eyes, all of this had already become a foregone conclusion. There was no need to continue delving into it.

He would wait and see how old ancestor yellow spring would deal with his disciple tomorrow. In any case, he didn't deserve to be killed.

However, he would definitely have to waste a lot of his spiritual power, or else he would not be able to bear the hatred!

Moreover, this person has really let down his master.

### **Chapter 2735: poor character!**

When ye chen woke up the next day, he saw that the disciple was still sitting there.

However, he straightened his neck and looked like he was unconvinced.

However, it was obvious that he was very sore because he was being controlled.

Ye chen had specifically dealt with him in this way. Otherwise, this person would not have learned his lesson.

After all, judging from old ancestor yellow spring's expression yesterday, he must have been hurt by this apprentice whom he had been teaching for three years.

He didn't expect that such a person would still be unwilling to grasp such a rare opportunity even though he had already become old ancestor yellow spring's disciple.

He even wanted to make quick money from his own master. He was simply hateful and petty!

Ye chen walked over and kicked his leg, then looked down at him.

"It looks like you're still not convinced, but I should be able to let you understand that this matter is not easy to deal with in a while."

Ye chen also knew that old ancestor yellow spring still had feelings for this disciple.

After all, if he didn't sell the thing that his master told him to do, he would be expelled from the sect and might even have his cultivation crippled.

Given old ancestor yellow spring's temper, he was surprised that he didn't receive such punishment. It was clear that they had some ties.

However, it was different this time. After being separated for so many years, this disciple still wanted to drag things out to obtain the remaining secret techniques of his master.

It was truly heartbreaking. After all, old ancestor yellow spring would never tell outsiders about this. For example, ye chen did not know about this!

This disciple also knew that he had done something wrong and was the more problematic party, so he did not dare to say anything now. However, he could still glare at ye chen.

After a while, he didn't know how he would face his own master.

Ye chen was about to give him a few more words of advice when old ancestor yellow spring knocked on his door.

"Are you awake? bring him here. I'll deal with this."

Judging from old ancestor yellow spring's tone, it was obvious that he wasn't in a good mood. It was obvious that his prodigal disciple had hurt him.

In fact, even though he had already been chased out of the sect, he still had some feelings for her.

And now, this arrogant kid had ruthlessly cut off the connection between them.

"Okay, okay, okay. I'm already awake and ready. I'll bring him over now. You can wait for me in the lobby over there."

Ye chen said toward the door. When he heard the footsteps, he turned around and untied the rope, pulling the man up.

As his entire body was stiff and his acupuncture points were sealed, he still did not have enough mobility to resist ye chen.

He could only let ye chen take him away. Even if he was conscious, he could not resist.

He still didn't know that he would have to pay a very painful price for what he was going to do next.

Old ancestor yellow spring was sitting in the main hall. Beside him were master Jiang and the young wizard.

The two of them were still submissive. When faced with strength, money and bluffing would be completely crushed.

When ye chen walked in with the man, he could clearly feel the two eyes on him. They were filled with hatred.

After all, if it wasn't for this person, the two of them wouldn't have fallen into the trap and been played around like fools.

In fact, if ye chen and the others had not appeared, they might have lost their lives.

However, they didn't have the time to deal with old ancestor yellow spring on their side.

Of course, ye chen knew this, so he simply kicked the disciple's calf and made him kneel on the ground.

It had been a long time since the master and disciple met. No one had ever thought that the two of them would meet in such a situation. They had mixed feelings.

However, this disciple didn't seem to have much guilt, so the punishment that should be given to him should still not be reduced.

"You can handle the rest. Since she was your disciple in the past, you should be more familiar with her, right?"

Ye chen had used silent air transmission to tell old ancestor yellow spring that the other three people present could not hear him at all with their cultivation bases.

Then, he sat down on a chair and waited for the end of this matter. As long as he settled this, he could go home.

Old ancestor yellow spring seemed to have been there for a long time. He really didn't know what to say about today's incident.

From the description of the unknown person from the young mage yesterday, he had a rough guess who this person was.

However, he had never been willing to accept this fact. Now that this fact was so direct and cruel in front of him, he could no longer hide.

This young and talented person whom he had thought highly of at that time, he had thought that he would inherit all of his strength.

Then, after he died, they would bury him in a tomb and slowly turn him into dust, disappearing from this world forever.

However, he had never thought that at this most important stage, the example of a mistake would be so different from what he had imagined.

These words instantly created a huge sense of loss. It was very difficult to accept such an outcome, so much so that he really didn't know what to say.

However, in the end, due to emotional reasons, he did not kill this person directly. After all, in his eyes, some issues of principle were simply a big plan.

He would never tolerate his men making such a mistake, and it was time to put an end to everything today.

Otherwise, he didn't know when this matter would end. After he was drugged by these people in The Peach Blossom Spring, he was almost covered in injuries.

However, because this secret manual didn't exist in the first place, they had only worked for nothing.

She did know a lot about him because the relationship between the two of them had been very good in the past two years.

Later on, things changed, so old ancestor yellow spring felt that he had left him a way out.

No matter what the other party said, he would not be too harsh on him. Unfortunately, he had thought too easily.

The person who had suddenly appeared and sold his personal information was actually his eldest disciple, whom he had once thought he would be proud of!

It was really ridiculous to think about it, so he never mentioned to anyone that he had such a disciple.

“Do you admit your mistake now? Tell me, do you know what mistake you’ve made? Tell everyone what you’ve done, one by one.”

Old ancestor yellow spring couldn’t care about anything else now. In his eyes, being betrayed was a very serious matter.

Moreover, he was already so old. In any case, there would be no one to take over in the future. He was not willing to continue hiding this trivial matter.

To tell the truth, he had really suffered a lot, and he felt very aggrieved.

Therefore, he had some thoughts of giving up.

Ye chen had removed the disciple’s acupuncture point but he still could not escape. After all, his moves were taught by old ancestor yellow spring.

How could he use it in front of him?

Wouldn’t that be laughable?

It had only been three years, and he hadn’t even learned half of it, and he had already given up. It was really laughable.

The disciple raised his head carefully and looked at his master. However, he lowered his head in shame.

He knew what he had done better than old ancestor yellow spring.

After he was driven out of the mountain, he had some abilities, so he went to the city to find the commoners.

After that, they would engage in some fraud.

If he could deceive old ancestor yellow spring, how could I, a smart man, not be able to deceive those ordinary people?

In short, with his little ability, he only knew how to do bad things all day long, and his reputation became worse and worse.

If one couldn’t stay in a city and moved to another place, it would be like this. Of course, it wouldn’t last long.

Therefore, after a long period of time, he still achieved nothing even after several years had passed. He could only continue to be single.

There wasn’t even a single person who was truly willing to follow him.

His strength had not increased since he left, and there was even a possibility that it had declined. He could only deceive ordinary people.

If he met someone who was also an immortal cultivator, it wouldn't count at all. What he had learned from old ancestor yellow spring was basically very practical.

At that time, he had used some excuses to cheat the method of these things and then made many small things.

In short, he was smart, but he didn't have a big picture in mind. He only looked at the immediate benefits.

However, even though he wasn't smart, he learned things very quickly and knew how to use these things to exchange for money.

Unfortunately, he was too smart for his own good!

It was impossible for such a thing to last long, and he could only gradually give up such an opportunity to cheat and walk into the abyss of waste step by step.

This disciple's real name was Zhang Wen. He knelt there and spoke word by word, revealing all the things he had done over the years.

Perhaps he also felt that it was ridiculous, but when he looked back, there was nothing that he could bring out.

For a man who was almost in his 30s, almost 40s, this was simply ridiculous.

"Since you've realized your mistake, it's time for me to punish you. I think you should pay back everything you've taken from me. Do you admit that?"

Old ancestor yellow spring's words indicated that this disciple might lose all his martial arts and become an ordinary person.

Ye chen did not think that there was anything wrong with it. After all, even if you were not bad, you did not have the principles that you should stick to. Instead, you only did things that went against your principles.

He was definitely not worthy of being an outstanding person.

"I'll admit it,"

The disciple lowered his head and kowtowed three times to his master in a serious manner, as if he was sincerely admitting his mistake.

Old ancestor yellow spring couldn't hold back the emotions in his eyes. Only a master could feel the heartache of not being able to live up to his expectations!

"I'll drop your cultivation to ordinary Level 2 right now. From now on, you'll have to rely on your own cultivation. I hope you can turn over a new leaf and stop making mistakes. Otherwise, I really can't give you another chance."

In the end, old ancestor yellow spring didn't have the heart to completely cripple this disciple. Instead, he gave him a small chance.

After all, he was still young. There were some things that he could continue to work hard on, instead of wasting his time and living by chance.

He placed his old hand on Zhang Wen's head, and spirit energy slowly flowed out from his fingers.

Zhang Wen felt as if his body had been severely burned by fire. He had no strength to turn back, and he was in so much pain that he began to cry.

He wanted to grab onto something with his hands, but he had nothing to rely on. He could only watch as his strength disappeared bit by bit.

With their momentum, this time, it was a very straightforward end. It could also be considered as an explanation for the mistakes they had made before.

Old ancestor yellow spring was well aware of this. It was really difficult for him to let go of this matter quickly, but he had no other choice now.

He could only say that he had entrusted the wrong person to do this, which led to all these things connecting together.

The latest\_epi\_sodes are on\_the LIBREAD.COM. website.

Ye chen had seen him fall to the ground after his spiritual energy had been absorbed for the first time. He seemed to have fainted.

However, when he woke up again, his body would probably not be as agile as before. In any case, he deserved it.

"Alright, now that this matter has been resolved, do you want to reply that you're going back to your paradise?"

Ye chen asked old ancestor yellow spring. After all, he had already settled the matter he came here for, so there was no need for him to stay here any longer.

"I think I should go back. This matter really makes me feel a little embarrassed. I really didn't expect that one day it would be dug up. It's indeed my fault!"

Old ancestor yellow spring shook his head as if he was the one to blame for most of the problem. Ye chen immediately retorted.

"How can you say that? This matter is clearly his problem. You're the one who did a good deed and led a somewhat intelligent ordinary person to this path. He should have been able to make a meteoric rise, but he couldn't resist the temptation."

Ye chen said, a little angry. He hated this kind of ignorant and incompetent people the most. He had also met those people in his own sect.

However, he really couldn't do it. In short, sometimes, feelings were more important between people.

“I really have to thank you for this. I didn’t expect you to come so soon.”

Old ancestor yellow spring said very seriously. After all, he had thought it would take some time to send his little paper man to deliver the message. He did not expect ye chen to come the next day.

### **Chapter 2736: A strange race!**

They did not stay in Yangzhou City for long. Moreover, he was in a hurry to return with ye chen around!

He had only agreed to come out for a week with su Yuhan, and it was almost time.

If they left overnight, they might be able to return by tomorrow morning or noon.

“There shouldn’t be anything to worry about now. I just hope that you’ll be more careful in your daily work. Don’t be so unguarded that you’ll let a few ordinary people set a trap for you. Look at how things have turned out, it’s really unnecessary.”

Sometimes, ye chen would speak to old ancestor yellow spring in a serious manner. In his eyes, this old man should be very smart. How could he be deceived so easily?

“Alright, alright, I’ll be leaving first.” After the class teacher finished speaking, he swaggered out of the city and whistled for Peng Fei to land on his body. Then, he flew towards the Green Dragon Mountain.

No matter what you said, his speed would always get faster the darker it was. He lay on Peng Fei’s back and felt the violent fluctuations, but he didn’t have the slightest complaint.

Because this way, he would be much faster. He used his spirit energy to stabilize his body.

Then, he maintained his balance. Night fell, and all he could hear was the whistling of the wind.

Suddenly, in the howling wind, ye chen heard a different fluctuation. This sound might not be understood by others at all.

However, he was very familiar with the sound. It was the sound of a small whistle that he had made.

He had given this to Lin Mo before he had separated from him.

Lin Mo had also left in a hurry but ye chen clearly remembered that he had said the same thing.

He could only blow the whistle if he encountered something very dangerous that affected his survival.

Initially, ye Chen’s heart was still eager to go home but after hearing this voice, his expression changed. This could not do!

Lin Mo was someone he had brought out of the ruins, so his body might be different from ordinary people.

If he were to encounter some very normal circumstances, it was very likely that it would bring him some danger.

The tower master urgently called for Peng Fei to stop, and then had him turn around.

The one he made looked like an ordinary little toy, but because he was the one who made it, he exposed a little bit of his spiritual power when he made it.

And this thing was a little useful at this time. Otherwise, the sound wouldn't have been able to travel so far.

When Peng Fei heard ye Chen's words in the wind, he immediately changed direction. Then, the master and servant duo flew Southwest together.

Ye Chen must be very worried now. After all, although the two of them were not very close, they were still friends who had escaped from that place together.

Moreover, he was a very good person. There should be a reason for the things that he did in the past that sounded a little overboard.

And now that a problem had suddenly appeared, it was clear that he had encountered some other danger. His strength was very high.

The only factor was that he came from the secret ruins.

He had gone through a lot of trouble and finally returned. It was very likely that he had not cleaned up the things there when he came back. Before they separated, he had told him that he must not continue to do bad things.

As Peng Fei flew over, he could feel the desolation even more clearly. This place was basically filled with grasslands and yellow Earth.

There was almost no one living there, and this side was where Lin Mo used to live.

Perhaps there had been a city here many years ago, or a transit station or something.

However, as time passed, his Achilles tendon was becoming more and more uninhabitable, so he had to go elsewhere.

Ye Chen grumbled in his heart. He did not know why Lin Mo had to come back to take a look. Why couldn't he just stay with him at Azure Dragon Gate?

Furthermore, with her by his side, at least Lin Mo's body would be safe and nothing would suddenly happen.

The reason for everything that had happened after that was because ye Chen had broken their curse at that time. Therefore, their fates had actually been inexplicably and accidentally linked together.

In short, if he wanted to change himself, he still had to see if the heavens were willing or not. When he was locked up there, it was to make him repent.

And now that the repentance was over, it should have been like this, crossing the final years.

Who knew that he would end up like this? now, he had to go and see if he had encountered any other problems.

Huang Luan's body had come from here. As soon as she made a sound, a Positioning System would naturally appear. Ye Chen followed the fluctuations of this spiritual energy and continued to walk forward with Peng Fei.

It was getting dark over here. On one hand, it was because of the weather. On the other hand, it was because their side was indeed a little different.

Peng Fei did not even need Ye Chen's help when he flew here. He subconsciously became weaker and his flying speed slowed down.

This was because they could sense the dangerous aura here. It was as if they were about to be wrapped up the moment they stepped into this place. This was not a good reason.

However, in order to find the person as soon as possible, they could only suppress this feeling to the minimum for the time being, as if they had no feeling at all. This way, they could quickly enter the state.

Ye Chen sat on Peng Fei's back and activated the defense system. The air around him seemed to have heated up a little because of the change in his spiritual energy.

However, he did not dare to relax at all. They continued to move forward. The sky had already turned dark, and it was as if they had entered a boundless black hole.

However, they were not afraid. Peng Fei followed Ye Chen's sharp instructions and flew forward.

Its target was very clear: the sound of Lin Mo's Mud Whistle.

The sound of the whistle that had only sounded once suddenly rang out again.

Ye Chen furrowed his brows. This was not a good sign.

The only thing they could do now was to get there as fast as possible.

Fortunately, the sound of the whistle could not be heard by anyone other than Ye Chen. In other words, it was impossible for it to be heard from such a long distance.

Even if he was standing right in front of them, they wouldn't be able to hear anything. This was his unique point, and it was also his safest place.

Hefei flew forward rapidly and was about to reach the corner of a mountain ahead. The sound became even clearer.

Thus, Ye Chen drew his sword from his back and prepared for battle.

He could feel that the energy fluctuations were the strongest here, and Lin Mo was most likely right in front of him!

At this time, Peng Fei also quickly shrank his body, and then became an appropriate size.

As soon as they turned around the hill, they saw the scene in front of them. There was a huge open space in front of them, and beside the open space was a cliff.

If an ordinary person were to look at the scenery here, it would be really gloomy and beautiful, but now, they simply didn't have the time to care about such thoughts.

What surprised them even more was that Lin Mo was tied up and her body was curled up.

Only his hands seemed to be gathered in front of his chest, like a cocoon.

Fortunately, he was tied up in this position, so he could still blow the whistle, and the sound of the whistle could not be heard by others.

It looked like an ancient ritual, and it looked like a sacrificial ritual.

The fire behind him was slowly starting to burn, and it seemed like he would be thrown in the next second. How could he do that?

Ye chen was extremely shocked because he knew that Lin Mo was very afraid of the sun. In other words, he was afraid of the high temperature.

If they fell into the fire, they might be turned into ashes without even a chance to recover. This was something that could not be allowed to happen!

Their sudden appearance attracted the attention of the people surrounding them.

In an instant, the faces of these people all fell over. Everyone was wearing a mask.

The base of their masks was white, with strange patterns and lines drawn with black strokes.

In short, it looked very uncomfortable. It was a kind of rejection from the bottom of his heart, like some ancient spell.

Ye chen was also very puzzled. By right, courtesy should be very suitable for the sky here. The darkness completely encompassed him.

This would give him peace of mind and body. Perhaps this was the reason why he wanted to come back.

After all, this old monster didn't need to eat or drink, but he was afraid of fire and heat.

And how did this group of people know?

Furthermore, that old fogey Lin Mo was so powerful. How could he have been captured so easily by these people? what exactly happened before he arrived?

These people did not seem to be very hostile to ye Chen's sudden arrival but they were very cautious.

The three people standing in front of him took a few steps forward in their strange walking posture. Then, the person in the lead looked at ye chen and mumbled a string of words that ye chen did not know what they were.

"I don't understand what you're talking about. I only know that my friend is tied up there. I want you to release him."

Ye Chen's tone was very serious. There was no fear in his voice even though their masks and appearances looked extremely strange.

Lin Mo looked like he was on the verge of death. Blowing the whistle must have exhausted a lot of his energy.

At this moment, ye Chen's appearance seemed to have ignited a little hope, so he slowly shook his head as if trying his best to calm down and speak.

"They don't understand what you're saying. Save me first. I don't even know what's going on."

Lin Mo's voice was very low. Of course, this was because he did not have enough vitality. Otherwise, he would have said it loudly. After all, these people who seemed to be in the forest could not understand.

Ye Chen did not have time to think about this, so he nodded. Without any hesitation, he stepped forward and struck out with his palm.

The people in front of him were shocked and waved their weapons at ye Chen. However, ye Chen raised his sword in his other hand and cut the wooden clubs in their hands in half.

It was very likely that this was their weapon, but it was a little too weak, so they couldn't react in time.

In short, he was fighting very smoothly. These people kept chanting some spells while hitting him.

However, ye Chen had subconsciously blocked his ears.

He was also afraid that these spells in the human world would affect his body. In short, it was one spell after another, and in just a few strikes, these seven or eight strange people who came out of nowhere had been beaten to the ground.

Their expressions were still as vicious as before, but of course, it could also be because of the masks.

Ye Chen had turned a deaf ear to the incantations. Unfortunately, Lin Mo did not seem to have the same immunity.

Not only was he lying there tied up, but even his good ears were completely released. He could not even control his strength to close them and raise ye Chen's hand.

He'd have Peng Fei go put out the fire over there first.

Then, he used his sword to cut off the special rope that was tied around Lin Mo's body and helped him up.

"What's going on? Why is your body so weak?"

"It's all because I was tortured by these people."

Lin Mo shook his head and said helplessly.

He had never thought that he would be so unlucky. He had only wanted to come back to take a look, and then use his sword to travel the world and enjoy the scenery.

However, he didn't expect that when he returned, he would find that his city had disappeared, and there was a strange hill in front of him.

So, out of curiosity, he wanted to go over and take a look. He didn't expect to meet this group of strange people.

This was really a problem that couldn't be chased away, because if he was discovered by the people there, he would want to leave quickly!

The latest\_epi\_sodes are on\_the LIBREAD.COM. website.

After all, he had not communicated with anyone for so many years. Who knew that these people would act as if they had seen a very rare prey?

Many people quickly appeared in front of him and surrounded him.

Then, he tied it up with a rope. Of course, during this time, he kept attacking it with spells.

Lin Mo did not react in time at first, so he fell for the spell.

Ye chen had told him that he would be an ordinary person after this trip. It was best not to do anything bad or attack others.

Unless the other party was hostile to you, so he didn't want to cause trouble and was prepared to leave alone, but he didn't expect the other party to take a fancy to him.

Lin Mo felt his head throb, but due to the effects of the incantations, he gradually lost consciousness. When he woke up, he was tied up.

He could vaguely understand the words these people spoke on a daily basis. After all, he used to be a resident here.

The general meaning was that their race had to offer sacrifices once in a while, and at that time, they had to offer one person to the immortals in heaven.

Of course, this was a very pedantic way of thinking, so they would subconsciously target the passers-by around them. Unless there were no passers-by, they could only choose one of the people in their race who had done many bad things.

This time, Lin Mo had accidentally walked right into the line of fire, as their sacrificial ceremony was in three days.

### **Chapter 2737: dealing with future trouble!**

"They finally have the ability to control people's minds. I suspect that they have been deceived. Otherwise, there would be no such sacrificial activities."

Lin Mo said in a serious tone. He then turned around and looked at the outsiders who had collapsed on the ground.

There was no anger in their eyes, but fear, as if they were about to face something terrifying.

"But we don't even know what they're talking about. We can't understand them at all. How can we help them?"

However, the Sect Master of the Plague Imperial Palace was a Sage after all and had been respected for thousands of years. Even though he was filled with fear, he could still barely maintain his composure and size up his surroundings from the corner of his eye.

Then, he was overjoyed and hurriedly bowed to Star God Chongyang beside him. "Star Venerable, so you're here too."

The Sect Master of the Plague Imperial Palace knew the Chongyang Star God.

In his heart, this Peak Sixth Realm existence was one of the strongest experts in the myriad worlds and starry sky, standing above all Sages.

No matter how powerful this young man who had captured him was, he should be at most on par with the Chongyang Star God.

As long as the Chongyang Star God could speak up for him, he should be fine.

However, just as the Sect Master of the Plague Imperial Palace wanted to continue getting close to the Chongyang Star God, the ancient Star God hurriedly waved his hand and said, "Sage Zhu, with Exalted Immortal around, there's no need to bow a Little God like to me."

The Sect Master of the Plague Imperial Palace was called Zhu Changsheng. When he heard the words of the Chongyang Star God, he was stunned on the spot. He turned to look at Cui Heng in shock and confusion, his face filled with disbelief.

Exalted Immortal?

Little God?

Am I crazy? I actually heard this Peak Sixth Realm Chongyang Star God call himself a Little God?!

please read on website: MYBOXNOVEL.COM

Could it be that this young man who had captured him was a powerful existence who had stepped into the Requesting Realm?!

However, even if he was only a relatively powerful Sage King, there was no difference in realm. Why was the Chongyang Star God so humble?

Or was this... an existence at the Seventh Realm of the Immortal World?

How was this possible? Ever since the collapse of the Heavens, there were still Creators who had stepped into the Seventh Realm of the Immortal World?!

This was too ridiculous!

"Do you need me to help you?"

Lin Mo, who was watching from the side, was a little nervous, so he took the initiative to tell ye chen.

"There's no need for that. It's just an ugly monster, do we need the two of us to fight? Just stand there and wait, I can handle it."

Up until now, ye chen had not felt the slightest bit of strain, so he continued to attack madly.

He used this kind of airtight attack method to make this Taotie have no way to escape.

This stinky thing was indeed getting weaker and weaker. The wounds on his body were gradually increasing, but he could no longer escape.

The Taotie moved its body quickly in an attempt to avoid the attack but all of its actions were like a joke to ye chen.

Anyway, if the other party wanted to play, he could continue to pretend like this. It was nothing.

Their entanglement did not last long because ye chen was not willing to wait any longer. This ridiculous Taotie was only taking advantage of the fact that it would not be affected by the spell to get to this point.

It was a pity that ye chen and the others had appeared now. Therefore, this seemingly mysterious veil of his was about to be completely torn off.

“Alright, it’s time to get rid of you.”

Ye Chen’s lips curled into a smile. He took a step forward and thrust his sword into the Taotie’s body.

The thin and ugly thing staggered a few steps back and forth before falling to the ground.

Lin Mo was about to clap.

The two people bore the uncomfortable feeling and took it back to the side of the group’s mound before throwing it onto the ground.

However, when the people hiding inside heard the noise, a few of them were bold enough to come out and take a look. After seeing the scene outside, they quickly informed the others in the room.

Hence, after a short while, more and more people came out.

Ye chen did not understand what they were talking about but Lin Mo, who was standing at the side, could roughly understand. Therefore, he decided to let him communicate.

Lin Mo spoke to these people in his previous dialect, then roughly explained what had just happened to them.

In short, the behemoth that they had always been afraid of had now been taken care of.

The person in front of them was the one who helped them deal with the danger.

The thing that had been thrown down next to them was the thing that had been hurting them.

These foreign beings seemed to have understood what Lin Mo had said as they looked at the terrifying monster on the ground carefully.

They were also scared, but they were sure that the stinky and black thing had lost its breath.

Some of the more courageous ones had secretly seen this thing before, so they could easily recognize it now. It was indeed this thing.

The news immediately made all the civilians present cheer with joy.

They lifted ye chen and Lin Mo over their heads and threw them into the air. Then, they landed steadily and caught them.

Ye chen and the others had wanted to leave as soon as possible. After all, his family was still waiting there. He had also thought of bringing Lin Mo back with him this time.

In this way, if there were any problems with his body, or if he encountered any other danger, he could help him deal with it in time.

Not to mention, what would it be like to have all his skills in this wilderness?

Furthermore, he had already helped him to get rid of such a huge problem. If he did not return with him to contribute to the Azure Dragon sect, then it would not be right.

Lin Mo had the same thought. After all, he was practically homeless now.

Since they were already out, there was no need to go anywhere else. It was safest to stay by ye Chen's side.

Moreover, before he came out, he had thought that it would be best to stay by ye Chen's side. This way, he could ensure ye Chen's safety.

At night, the outsiders treated them with a generous amount of food and meat. The two of them only left the next day after they woke up.

Peng Fei flapped his wings and flew forward rapidly. Ye chen and Lin Mo looked at the scenery and chatted.

"I really didn't expect to see you in such a sorry state again."

"I had no choice. I just wanted to come back to take a look, but I didn't expect these people to know spells."

Lin Mo felt that he had stayed in the mountains for too long, so he could not focus for too long.

After all, no one could stay in one place for hundreds or thousands of years unless they had no other choice.

Ye chen felt that he had not spent much time on his way here. Who knew that it would take so long to return? it felt like a long time before they finally arrived at a city not far from the Azure Dragon sect.

Ye chen was a little hungry, so he had Peng Fei stop not far from the city. The two of them went down together and prepared to walk around the city.

"When you return with me this time, you will be an elder at the Green Dragon Gate. You are so strong, if you don't come out, it will be a loss. I said that I am the one who is at a loss."

Ye chen chuckled as he and Lin Mo walked in.

Lin Mo nodded. He had no reason to reject ye Chen's idea. After all, he was homeless now. It would be good to find a place to settle down.

However, he might be at a disadvantage because he was an old monster that was almost a thousand years old.

However, he looked like a young man in his early twenties.

However, ye chen was not too worried about this. As long as he had the strength, he could use it anywhere.

They found a restaurant in the city and had a meal together. Then, they discussed the treatment and arrangements that they would give him when they returned.

Ye chen really wanted to be a small hands-off shopkeeper but he had to find someone reliable. Therefore, he had come to Lin Mo.

This man was strong and had a good moral character. He didn't seem to have much desire for the outside world.

Therefore, there was no need to force him to do anything, just let him manage it directly.

Ye chen also wanted to spend more time with his family. He did not want to miss out on his daughter's childhood, so this time, she wanted to stay at the foot of the mountain more.

After the two of them had their fill, they left the place together and set off on their return journey.

The latest\_epi\_sodes are on\_the [LIBREAD.COM](http://LIBREAD.COM). website.

This time, it was much faster. In less than an hour, they had arrived at their destination, the foot of the Green Dragon Gate.

"Let's go. Come to my house with me first. "

Of course, ye chen remembered his promise to his wife, so he had to report to his lover first before coming back.

He had used three days more than he had expected. Although he had used it on Lin Mo, su Yuhan did not know.

The two of them entered the city very quickly. Lin Mo seemed to be quite happy because this place was much more prosperous than the ones they had passed before.

It was like a huge capital city, too much for his eyes to take in.

"Let's go. Come with me to my wife's house first, then I'll bring you up the mountain. "

Ye chen gave him a rough idea of his plan and Lin Mo had no objections.

The two of them passed through these prosperous alleys and arrived at the SU family's mansion.

"You've finally returned!" Su Yuhan ran out of her room as soon as she heard the news!

**Chapter 2738: New city Lord!**

When su Yuhan came out, she saw that Lin Mo had come with her. She didn't ask much and welcomed him with a smile.

In any case, they met up first. After arranging their rooms, ye chen also told his wife about Lin Mo.

"I'm going to bring him up the mountain later. Anyway, the disciples on the mountain are easier to manage than before."

Due to ye Chen's previous arrangements and The Taming of his Lion, the disciples on the mountain were now very respectful of ye chen. They completely regarded him as a god-like figure.

After all, no one dared to convince the lion to be their subordinate. In the past, they only dared to lock it up, and it was with the combined efforts of many people.

Now, ye chen had managed to achieve this by himself. This was something that had not happened in hundreds of years.

"I've been going up the mountain for the past few days so that I can stay with you and our daughter for a while longer. That's why I asked Lin Mo to help me. He can be considered the person I trust the most now."

Lin Mo was a very down-to-earth and honest person. He basically did not need to make too many arrangements before he would follow the rules and do things accordingly.

He was a thousand-year-old demon anyway. How could he not be able to deal with that group of disciples? moreover, he had ye Chen's support behind him. No matter what, there would not be a problem.

After the two of them had finished their discussion, they did not continue the conversation. Then, ye chen brought Lin MoU to the mountain the next day and introduced him to the disciples.

The disciples were all quite surprised. Whether they were inner sect or outer sect disciples, ye chen had called them together and told them that this person would be their second sect master in the future.

Before this, didn't someone say that ye chen could not teach them real skills?

Although he didn't dare to say it now, he had already said it, so there was no need to take it back.

Moreover, ye chen had heard it and would not pretend not to hear it. To them, what this group of disciples wanted was probably the opportunity to enter the inner sect.

If that was the case, he would loosen the policy a little. This way, more people would have more opportunities.

please read on website: [MYBOXNOVEL.COM](http://MYBOXNOVEL.COM)

After hearing ye Chen's announcement, everyone was very excited. This was something they had never thought of.

Although they had dared to talk about it before, it was only limited to this. Now that they had really obtained ye Chen's permission, everyone was still a little uneasy.

They did not feel any repulsion toward this new second-in-command, even though Lin Mo looked extremely fair and clean.

However, he invited five inner disciples to fight against him without hesitation.

Who would've thought that the five of them wouldn't even be able to touch his body even a little bit even after using all of their strength? Instead, the pure white clothes of his fluttered up, and these few people actually fell down miraculously.

They couldn't control their own strength at all. This was just too powerful.

This announcement meeting, which Ye Chen had thought would be a little troublesome, or rather, there would be people who would disagree with it, had been settled so easily.

Lin Mo stood among the group of disciples. It was as if his gloomy mood had been swept away. He looked like a young and suave disciple. Ye Chen could not help but reveal a look of appreciation.

The thousand-year-old monster, who was wearing a white dress from top to bottom, really didn't give people a sense of oppression at this time, but he could use his strength to give everyone an explanation.

When he was almost done, Ye Chen brought Lin Mo back to the backyard and arranged a room for him. Then, he introduced him to an area where the sect's disciples would move around and brought him around.

In short, the number of people in the Green Dragon sect was not small, but each level had a manager.

In short, Ye Chen did not need to spend too much time taking care of all these. He only needed to be a good sect leader. Now that he had brought Lin Mo, there was even less need for him to worry. After arranging everything, he left without any hesitation.

Lin Mo sat on a chair in his room, preparing to take a walk after a short rest. After all, he had not seen enough of the scenery on the Azure Dragon Mountain!

There were many places that he had yet to visit. Ye Chen had finished introducing them and told him to see them for himself next time.

Before he left, Ye Chen had told him that he could recruit two or more inner sect disciples to become his own disciples.

All of these would be allowed. In short, it depended on his own thoughts and whether his disciples were willing or not.

What you didn't expect was that not long after this matter was arranged, there was already a sound from the door.

He had thought that it was someone who was delivering things and clothes. Who knew that when he pushed open the door, he would see two disciples standing there.

These two disciples were twins because they were tall and handsome, and they looked very similar.

Therefore, Lin Mo remembered these two people.

He was a little caught off guard when he saw the two of them visiting.

“Is there something you two want to talk to me about?”

Lin Mo asked doubtfully. After all, he had just taken up this position and was not too familiar with it, so he had forgotten that he was going to take in a disciple.

These two disciples had also come too early, as if they were afraid of missing out on a spot.

“We two brothers have come to acknowledge you as our master. We hope you can accept us as your disciples.”

They were caught off guard and Lin Mo was stunned.

Moreover, even though he was now the second-in-command, it didn't mean that he would get used to it very quickly!

“That's good. The two of you, come in and have a seat.”

Lin Mo said in a slightly distressed manner. However, he still pretended to be very experienced on the surface.

He did not know much about the identity of these two disciples, but they were the most prestigious disciples of the Green Dragon sect.

The two brothers had been sent to the mountains not long after they were born, and they had been under the influence of the Department.

Until now, there were almost no disciples who could beat them in the store, and their master was originally the immortal Flying Daggers.

Now that the immortal Flying Dagger was completely retired, he couldn't continue to help them.

The two of them were quite stubborn, so they were basically only willing to be disciples of people with high strength.

It had always been empty, but now that Lin Mo had appeared, wasn't he a very good candidate?

Such a powerful and pleasing-looking master was simply the master they wanted the most in their hearts. This was what the two brothers thought in their hearts.

“I don't understand these rules, so can the two of you tell me how I can become an excellent master?”

Lin Mo said helplessly. After all, they were already at the door. It would not be nice if he continued to reject them, so he agreed first.

At this time, ye chen had already run down the mountain. He had been outside almost all these days, so he had few opportunities to see his daughter.

Now that he had finally returned, and he didn't have to worry about the rest of the things for the time being, he would take the opportunity to think about the good fortune of having two people together!

After going down the mountain, he took up the position of the housekeeper at home and brought Xiao Rou back. Today was also a holiday, so he didn't have to go to school tomorrow and the day after.

However, master su had encountered some problems in the city recently.

He was the richest merchant in the city, and almost all the people in the city liked him.

He was also the kind of person who was more kind and charitable, so some of the affairs in the city were handed over to him to manage, and he could also be considered as half a city Lord.

After all, this city had not had a city Lord for many years, because there was no clear rule on who would be the city Lord.

Master su had been working hard to take over this position all these years.

It was just that he didn't have a title, so the people all thought that he was the city Lord. All of this in itself could be considered pretty good.

However, he did not expect that in the past ten days, a caravan would suddenly come. After entering, they directly bought the other big house in the city besides the SU mansion.

The arrangements were very detailed. After everything was done, they went to the largest square in the city and settled down. All the people were called over.

They were talking about the news from the outside that a city Lord would be arranged for the city, and the new young man was one of them.

However, master su had not heard of such news at all and thus he went up to ask a few questions. He did not expect that the other party had already investigated the situation in the city before coming.

He also knew that master su was actually a very good person. Although he did everything, he was not a city Lord in name!

Hence, he treated old master su like a chicken and wanted to kill him to warn the rest.

However, his first words were not reasonable, so he decided to use the Imperial court's order to threaten everyone. He had to make him the city Lord and have everyone pay taxes.

Ye chen was stunned when he thought about this. He had never heard of the so-called imperial court distributing these things.

The Azure Dragon sect's city basically had nothing to do with the so-called arrangements of the Imperial court.

In short, they had already drawn a clear line between them, but what was the meaning of this sudden change? Did he want to overstep his boundaries?

Anyway, master su had not been able to swallow these two days because of this matter and he could not tell what kind of person the person was.

Therefore, he didn't know if he should listen to their arrangement and let him be the city Lord.

“Why is it like this? Don’t the people know what you’ve done all these years? Why would they listen to them and make such an arrangement?”

Su Yuhan asked, but she only saw her father shake his head. Ye chen, on the other hand, advised her not to tell him the reason he had told him in private.

After all, the commoners were just ordinary people. In their eyes, there were times when they only needed people who could threaten them.

Most of them didn’t want to cause trouble, so they chose to keep their mouths shut.

This led to the situation developing to this stage where master su should have been an old man who was loved by the entire city.

However, he was unable to get everyone’s full support, because the other party came with a so-called order.

When master su was arguing with him, he could not come up with enough words to prove his strength and status. He could only say that he was a wealthy merchant but he could not say that he was a city Lord.

It was as if he had suffered a loss in silence and was caught off guard. Fortunately, ye chen had appeared in time and master su wanted to ask ye chen about it.

What was the solution to expose the true identity of these imposters who came out of nowhere and then drive them out of the city?

“Don’t worry about these people. It can’t be true. This land of ours is not under the jurisdiction of the Imperial court. It’s protected by the sect, so the position of city Lord is not decided by others.”

“How about this? tomorrow, you invite those people to go to the square with you. We’ll discuss it again. It’s absolutely impossible to let them cheat the people of their money. I think that’s their purpose.”

Ye chen was now confident. Since these people were here to cheat him of his money, he must have a way to make them show their greed.

Once the purpose of doing something was not clear, how could he really have the ability to do the things after that?

Ye chen was listening. When master su finished explaining everything, he had already guessed that this must be a trick of the so-called people who came to the capital.

Then, ye chen explained his plan to master su. In short, he could not sit still and wait for death again.

Otherwise, these people would only take an inch and ask for a yard. They should have always bullied the weak and feared the strong.

“After you call them here tomorrow, ask them a few questions first. Since you want to be the city Lord, what’s the point if you don’t have any real skills? you can speak as the old city Lord.”

“At times like this, you have to play the emotional card so that the people can stand on the same side as you.”

Ye chen knew that these commoners still liked master su very much in their hearts.

If not, he wouldn't have loved to wear it so much. Moreover, Master Song had always been a good person, and now, he had to show that master su was willing to give up his position.

He just needed to test them to see if these people could pass this test.

If it really doesn't work, then let's test our strength!

As long as ye chen was around, no matter how powerful the other party was, they would not dare to make a move. This was something ye chen was certain of.

“Fortunately, you're here. Otherwise, this old man wouldn't know what to do. I've never thought that I would encounter such a scoundrel!”

Master su sighed and didn't know what to say. He was a good person.

At this time, ye chen had to come up with a plan and strength. At most, he would just fight with these people.

These people had obviously come prepared, but they must not have expected that master su had a son-in-law who was giving him advice!

Chapter 2739: scattered in one move!

Early the next morning, master su had already sent out the message and very quickly, all the commoners in the city knew about this news. At this moment, a few people in another large Manor had also started to conspire.

“What's going on? This old man should have been obedient, why is there so much trouble?”

“Didn't you already investigate it? With such a result from the investigation, could it be that this old man still has some other power he hasn't shown?”

They had investigated master su before and he was probably a more open-minded person. Moreover, he was quite old. At this time, he should take the initiative to give up his position to someone else. This way, there would be less trouble.

However, they really did not expect the old man to do something like this at this time. However, they could not refuse.

“Forget it, forget it. Don't think too much. At most, we'll just take one step at a time. Anyway, he can't cause any trouble. At most, he'll go and meet them in the afternoon and then teach these people a lesson. By then, won't the position still be ours?”

The young man who said he wanted to be the city Lord said in an irritated manner.

Soon, it was the time they had agreed on at noon. Master su brought ye chen and su Yuhan here.

The commoners had also gathered over, including the so-called new city Lord candidates.

“Well, may I ask which one of you is the candidate mentioned by the Imperial court? It’s also convenient for us to come out and get to know each other so that the people can recognize our faces. Otherwise, no one will know when you’re promoted.”

Ye chen took a step forward and said with a smile, as if he were the kind of person who was easy to bully.

“It’s me. What’s wrong?”

The young man standing in the middle took a step forward and forcefully puffed out his chest, looking very excited.

“It’s nothing. I was just asking. Since everyone has already taken it, let’s talk about our new city Lord!”

Ye chen did not respond to the other party’s provocative words. He turned around and walked to the center of the square platform, then faced the people.

“Since everyone is here today, I won’t waste any more time. I represent master su to say hello to everyone.”

“We don’t have a city Lord in this group, and master su has been doing a good job. He can be considered half a manager, and he has a certain say in today’s matter. Don’t you all agree?”

Ye Chen’s words were very fair, so the people below immediately responded to him.

When the young men heard them, they were a little unhappy, but they couldn’t stand up to refute them. After all, they hadn’t even sat in that position yet!

“Master Song has toiled for many years. Everyone has seen it and remembered it in their hearts. I believe everyone knows this. Now that this person from the Imperial court has come to say that he wants to be the city Lord, master su has no other thoughts, but the position of city Lord is not something that just anyone can take.”

Although ye Chen’s words were not direct, there was a hidden meaning behind them. However, he was not trying to hide his intentions.

“That’s right, our city Lord must be a virtuous person. Master su is very suitable!”

“That’s right, master su. You aren’t that old and you can continue to be our city Lord. When the next person has talent and strength, you can continue.”

“I don’t know where these people came from, but they said they were the new city Lords, so they are?”

Ye chen, who was standing on top, heard the words of the people below and was quite happy.

Fortunately, his father-in-law was a very responsible and serious person. Otherwise, he wouldn’t have been able to find so many supporters now.

Moreover, this was also a big enough Foundation for him to reveal these people’s true colors later. The emotional card was indeed very useful at this time.

Ye chen understood that he had to know when to stop, so he did not continue speaking and took a step back.

Master su walked to his original position and said to everyone.

“Thank you very much for your love, fellow villagers. Now, we have a new candidate for the new city Lord.”

“In that case, let me test him to see if he’s suitable to be the new city Lord. I believe that no one has any objections, right?”

The moment master su finished speaking, it was logical for everyone to respond.

Moreover, ye chen would be in charge of this matter now.

Ye chen held a folding fan in his hand and walked to the middle of the stage like a scholar.

“I’ll answer the first question. Please don’t think that I’m bullying you. I’m just asking the truth. I hope you can give me an appropriate answer.”

Ye chen did not intend to make things difficult for these people. However, just by looking at their appearance, he knew that they did not have any real talent. They were probably here to cheat him of his money.

This place was very far from the Imperial court, and it was an area under his control.

That was why they had come to try it out as a consolation prize. Since they were already here, it wouldn’t be good if they didn’t show off their talents.

In fact, ye chen was certain that they were not the real reason. Another reason was that the city here was under the Azure Dragon sect’s control.

If there was such news, it would have been sent to him first. If there wasn’t any, then these people were lying.

“Since that’s the case, you can come up with the question!”

Those people were actually a little flustered because they could not prevent what kind of problems ye chen would have. They were afraid that they would be made difficult but they could only brace themselves and face it.

In fact, this was only the third time they had done this. The first two times, they had done it in a very small place, so the news was very limited, and they had not been discovered.

This time, they had finally managed to make a big move but they did not expect to run into an iron plate. Moreover, ye chen did not look like someone easy to deal with.

“Don’t be too nervous. I’m just asking a question about the people. It’s very easy to fight. Moreover, you are all learned people from the capital, so how can such a small matter trouble you?”

Ye chen said politely.

Then, as if he suddenly thought of something, he lowered his head and smiled.

“Aren’t you all very powerful? He should be a top scholar, right?”

“I don’t know if there are any names on the Golden list. If such a person becomes the city Lord in the future, it will definitely benefit our city!”

Ye chen spoke unhurriedly and did not give the other party any sense of oppression. However, he had also imperceptibly praised them very highly.

It was as if he was an outstanding talent of a family of generals that was almost impossible to touch.

Before the city Lord could say anything, his subordinate took a step forward and said proudly.

“Of course, our young master is a Flower Hunter!”

When ye chen heard his confident reply, he thought that it should be true, but he did not know if there was any water in it.

“It’s naturally the best if such a talent comes to our place. Shall we start now?”

Ye chen had a rough idea of what to do, so he began the next part of the event.

He asked his servants to bring up a table, brush, ink, paper, and an inkstone. Then, he handed him to the so-called Tan Hua. Following that, ye chen gave him a question for him to answer.

This person seemed to be standing there with his hands and feet tied, as if he was not very familiar with all this.

Ye chen asked his men to help him deal with this. Then, he dipped the pen in ink and handed it to him.

Even he himself felt that his plan was almost perplexing. It was very seamless, and the other party had no way to refuse, nor could he find any other excuse or reason to avoid this matter.

This was also the point that ye chen had done the most carefully.

The next moment, the city Lord candidate wrote an entire page of words before everyone’s eyes and then stopped.

He had written very little, not to mention that he didn’t have any strength, so all of this could be considered to be made up.

At this time, ye chen had been observing the few people behind him. One of them’s behavior and expression directly caught ye Chen’s attention.

This person looked like a more refined type, but for some reason, he was mixed in with these people.

Ye chen almost laughed out loud when he saw what the person had written at the end.

First of all, the words were scribbled, and the content was almost out of tune. 70% of the questions he raised had nothing to do with it.

At this time, ye chen had a rough idea in his heart. One of these people might indeed be Tanhua.

However, it could only be the person he had been looking at just now. This person could also be the military counselor between them who had come up with the plan.

Otherwise, with their intelligence and ability to deal with things, they wouldn't have had the chance to enter the city to deceive people. They were simply fools who were pretending to be ghosts.

Ye chen quickly hung up the things that this person had written. In the end, the other teammate did not even dare to look up. His writing was almost a mess. Ye chen found it funny. He did not know why they did not let that person talk and directly become the city Lord. If that was the case, he might have been able to fool around with today's trap. Unfortunately, it was all in vain now. The people in the city also saw that something was wrong. If it was really Tanhua, how could he not be able to answer this question? moreover, the words written on it looked like drawn Fu paper, messy and unkempt.

He couldn't recognize what the words were written, they were vague and complicated.

"You're a fake city Lord, right? there's no news from the Imperial court, so this is all just a scheme you've come up with!"

Ye chen saw that the people were beginning to look at each other, so he immediately succeeded in hot-smithing and stood in the middle, shouting angrily at those people.

The moment he started, the commoners below did not plan to hold back. After all, these were just a few young people who were trying to deceive people.

When compared to master su, he was simply asking for trouble. The contrast was obvious.

"What are you saying? How could we be fake? I'm warning you, don't doubt the information we've brought. This stupid question that you've come up with from who knows where doesn't mean anything at all!"

Those people were already panicking, especially the one who had just answered the question. He was very angry and started scolding ye chen.

"Before you came here, you should have known that this city is under the protection of the Azure Dragon Gate, right?"

Ye chen saw that they were still unconvinced, so he asked directly.

When they heard him mention the Azure Dragon Gate, these people who were trying to fish in troubled waters suddenly became a little flustered.

They had investigated before coming here, but they also knew that almost everyone in the Green Dragon sect was on the mountain these days.

It was impossible for them to come down the mountain, and it was impossible for them to know about these things. That was why they dared to touch it so recklessly.

This was something they had not expected. It was truly too unfortunate that they had just entered and had run into ye chen.

"The Azure Dragon sect did not receive any news from the Imperial court. All of this was made up by you."

“Impossible. We came here with the news. So what if they didn’t receive it? I advise you not to rely on your previous Foundation here. If you don’t want to resist us, you can ‘t!”

Although they were still arrogantly saying such things, in reality, they were already a little lacking in confidence.

“Oh, really? But I’m the sect leader of the Azure Dragon sect. ”

“What’s wrong? You can’t be thinking of using the fact that you’ve been living here for a long time to oppress us, right? what sect leader? Azure Dragon sect? Sect leader!”

The person who had been clamoring just now was instantly scared silly by the words that he had repeated.

His eyes stopped on ye chen. He looked at this man who seemed to be about the same age as them. Then, he looked at him and calmly took out the Jade token from his waist.

Although they had never seen it before, they had seen the Jade plates of these sect leaders when they were learning.

Even if the others didn’t recognize him, the person in disguise and Tanhua behind him should know.

“I didn’t receive any news from other places at all. You guys should be swindlers who wander in the Jianghu, right? it’s just that this time, I really didn’t happen to run into you. I’m also here.”

Ye chen kept the sign and his expression became serious.

He really didn’t expect that this group of people would be so difficult just by memorizing one question. It was really easier than he had imagined.

“Sect leader, please spare me! We know we were wrong!”

“We will never do such a thing again. Please give us a way out!”

“We’re willing to do anything for the leader, as long as we’re alive!”

Only in such a dangerous and worrying situation would they suddenly bow and bend their knees, as if they were pitiful people.

However, ye chen would not be so easily deceived by them.

Chapter 2740: Lin Mo’s story!

Ye Chen’s identity was the last straw that crushed them.

In their eyes, people with spiritual power were very different. No matter how bold they were, they would not dare to challenge the Azure Dragon Gate so easily. However, the sect master was standing in front of them.

“I don’t know how many times you’ve done this, but since you’ve come to my place, I won’t let you continue to swindle the people.”

Ye Chen did not say much after that and left everything to his father-in-law.

After all, Master Su was the most prestigious person in the city. Moreover, there was another condition now, which was Ye Chen's identity.

This made him stand out even more. The commoners were even more clear that everything in the future would definitely follow their old Master Su.

Master Su quickly demolished his servants and took all the troublemakers away. He definitely wouldn't kill them all.

However, it was impossible for these people to leave their journey in a short period of time, because they had to watch the lesson that they should be taught face to face. After the punishment was over, they would be sent out of the city.

After the matter was settled, the commoners dispersed and returned to their seats. Master Su also brought his family back to the Su residence.

The couple was very happy. They did not expect Ye Chen to give them such a good face.

Not only did he win back a round for him, but he also did not expect that his son-in-law's position as the sect leader of the Azure Dragon sect would be so useful.

It was almost noon when he got home. He immediately arranged for the kitchen to prepare a table full of dishes to celebrate today's event.

"If it wasn't for you today, I might have been deceived by those people. Fortunately, you saw their strangeness."

Master Su was now very satisfied with Ye Chen. Compared to the beginning, he was a little uncomfortable and unwilling. Now, he really liked to admire Ye Chen more and more.

When Ye Chen heard his father-in-law's praise, he waved his hand humbly.

"They already have evil intentions and want to take the opportunity to snatch this position and collect taxes from the people. By then, there will definitely be complaints and they will not be able to hold on for long."

After Ye Chen said this, he continued to praise his father-in-law.

"If you hadn't been so good to them, they wouldn't have been so united to stand on your side. It's all your merit!"

The female lead was listening to the two of them being in love at the side, and I forgot that I was about to laugh out loud with my polite words.

"Why are you two suddenly using such a serious official tone? You're not allowed to speak like this anymore. You sound so polite. We're family, so why are you talking like two different families?"

After the female protagonist said this, the atmosphere also became more relaxed. After a while, Xiao Rou also ran back from outside. Because it was time for dinner, she rushed back.

This little girl loved to play. All day long, she would climb the trees and climb the mountain with the children in the alleys behind her. She was very unrestrained.

“You’re finally back, my little ancestor. Wash your hands and come over for dinner.”

The female protagonist pulled her daughter to the side, washed her hands with warm water, and brought her to the dining table.

“Father, you finally don’t have to stay on the mountain all the time. I miss you very much.”

The little girl’s mouth had always been sweet and her words were very pleasing. Naturally, ye chen liked her very much.

While the family was having a good time, Lin Mo was having a hard time on the mountain.

Most of the disciples on the mountain didn’t need him to deal with them, but these disciples that he had already taken care of looked very eager to learn.

Long Jiang and long Liang had already packed their things and moved to the two empty rooms next to his.

When Lin Mo woke up in the morning and saw this scene, he was shocked. The moment he pushed open the door, the two disciples stood in front of his door. He had originally wanted to go out, but he did not have a room to stay in. He had almost bumped into them.

The two twin brothers supported him and greeted the elder affectionately.

To be honest, the three of them looked very similar in age.

In fact, Lin Mo was the one who looked a little younger. After all, his looks and figure made him look a little younger than others.

Lin Mo brought his two disciples to the side after breakfast and asked them what they wanted to learn.

Then, he thought about it and thought of a few moves to teach them.

“Master, my swordsmanship isn’t very good, so I’ve always wanted to learn it. I wonder if you have any way to help me improve this move?”

Long Liang took the initiative to ask.

Lin Mo seemed to be a little reserved with this character, so he could not directly figure out how to deal with these two examples. Now that the other party had taken the initiative to say so, he immediately nodded and said,

“I do have a set of sword technique, but it’s quite ancient. I don’t know if I can teach you something that doesn’t belong to your Azure Dragon sect. Anyway, I’ll do a demonstration first.”

Lin Mo pulled out a sword from the side and jumped up very lightly. He performed the sword technique from his memory.

But what he didn’t expect was that when he was halfway through the fight, a figure suddenly looked over from behind. It was long Liang, who had just asked him for advice.

“Master, I feel that just watching is definitely not enough, so I’ll just follow behind you and learn together.”

He grabbed Lin Mo’s slender wrist without putting much pressure on it. Then, he followed Lin Mo’s movements and learned the set of sword techniques bit by bit until he stopped.

Lin Mo really did not expect to be so intimate with his disciple. When he stopped, he felt that his hands were going numb and quickly withdrew from the warm chest.

Long Jiang, who was standing at the side, spoke to him again unhappily.

“Master, I also want to follow them once.”

Lin Mo was rather convinced. Couldn’t the two brothers have just attacked together? Moreover, he didn’t have to stand behind him. Why did he have to practice it twice?

Although the two brothers were twins, one was warm and cheerful, while the other was reserved and didn’t talk much.

Ye Chen did not know if they had learned the whole morning’s practice. In any case, he was covered in a thin layer of sweat. After he was done, he sat at the side and felt that his face was slightly red.

“Alright, now that you two are almost done learning, why don’t you show me the results?”

Lin Mo said to the two of them.

The two brothers, Long Liang and Long Jiang, quickly exchanged a look. Then, they quickly stood up and began to show off the results of their training.

The two of them had excellent strength and Foundation, so they learned the basics very quickly. Not to mention, they were following behind their master, so they almost used their bodies to feel the essence of the movement.

Even though this would take a little effort from Lin Mo, the effect was really good.

“Master, we feel that there are still a few movements that we haven’t fully mastered, so we hope that you can continue to teach us the same way you taught us just now.”

Long Liang jumped to Lin Mo’s side happily and massaged his thin shoulders.

Lin Mo still felt that something was amiss, but he did not say anything.

After all, he was now playing the role of a master. Since his disciple had something to ask, he would definitely not avoid it.

Therefore, he stood up and repeated those movements again and again. During this time, the two brothers were really unwilling to slack off. They kept holding his arm and standing behind him to learn.

In any case, Lin Mo had probably stayed too long with the guys, so he did not interact with many people.

Therefore, he was not very good at doing some things, and he knew that he did not understand these things.

Therefore, by following the steps of the disciples step by step, he had also taught them the moves, and the effect was not bad.

After practicing for the whole morning, the people from the dining room quickly sent the food over at noon. Because of the two disciples' arrangement, the three of them were directly sent together.

"Master, we've always been very curious about your previous experience. Since we're eating now, it's not a waste of time. Why don't you tell us about it?"

Long Liang started the conversation, and Lin Mo began to talk about it while eating.

He was actually a very pitiful child. He had not felt much love from his parents since he was young.

This was because there were simply too many children in the family, and for some reason, he was completely different from the others.

His appearance was very different from the rest.

Compared to the ordinary looks of his other siblings, he was like a lotus that had grown out of the mud.

Of course, he didn't go into detail about this part, but it was because of his appearance that he received even more unfair treatment.

It should have been very likable, but it had become the beginning of a family dispute.

In short, the adults who came later said that he was the cause of this disaster, but he did not do anything at all and blamed all these things on him.

This also led to his feelings being sealed up. Although growing up like this would indeed bring some love from family, it would not be too distorted.

One day, his family almost sold him to a rich master in the city.

Lin Mo knew what the old master looked like and knew that this family was not good people at all. They had only bought a boy back to relieve their bad luck.

However, this would bind Lin Mo to that place for the rest of his life.

He simply couldn't understand why his family's life could be considered relatively comfortable and not to the point of being short of money, yet they still wanted to push him away.

Until one day, he overheard that he was not the child of his parents, which was why he had not been loved since he was a child.

He even did the heavy and tiring work, while his brothers and sisters did not have to do anything and would even go to school.

He was like Pu Yi who was brought here by nature. He never raised his head at home. Even if his looks were outstanding, he could not walk out of the house that treated him like a servant.

He would not usually eat with the other children at home. He would only hold a small bowl and hide in the back of the courtyard. He would just eat by himself and would not be full.

Now that he thought about it, these words actually felt ordinary, as if these things did not happen to him.

And because of the unfair things that happened later, he gradually embarked on a road of no return. He ran away from the marriage.

After that, he was chased to the edge of the cliff by the master and the two so-called seniors of his family.

Who knew that he couldn't jump down directly, and because of this, he was infected with the spirit of a martial arts expert and learned the things that others called evil ways that shouldn't belong to him.

But when Tao Tao returned, he didn't really hate these people, but he couldn't control himself.

The memory of that period was very vague. The evil spirit in his heart had magnified his emotions by one fold, and then it had formed an unchangeable fact.

In short, he didn't completely destroy the city. He only killed some people who had treated him badly in the past.

That city was also very unlucky. An Army passed by and captured the city. Half of the people in the city died in the war.

However, for some reason, all of this had fallen on Lin Mo's head.

Lin Mo had said all this so casually. He seemed to be very relaxed, but the two disciples could feel his tension.

In short, he must have hidden a lot of things about how he had been abused, but he couldn't say it directly.

As Lin Mo spoke, he felt that the mood at the dining table was not quite right, so he looked up and smiled, breaking the atmosphere.

"It's okay. It's been so many years since that incident. I don't care about it at all. Aren't I living well now? Furthermore, I went up the mountain directly to the elder and you two disciples. It can be considered as me accumulating merit."

Long Liang, who was sitting beside him, grabbed his hand. The two big hands wrapped around his hand completely. He could only feel the rising heat.

Long Liang put down his chopsticks and looked at Lin Mo.

"Master, what happened before must have been very important to you, but all the good and bad things are in the past. From now on, you have the two of us as your disciples on the mountain. You can deal with anything you encounter directly."

"The two of us will definitely love Master very much and will definitely not leave him!"

Lin Mo was stunned by Long Jiang's words and did not know what to say. Long Jiang grabbed his other hand and removed his chopsticks.

“I know. I’m no longer the person I used to be. Not to mention, your sect leader has given me such great treatment. I will naturally teach my disciples well!”
