

Genius 3481

Chapter 3481

Qian De Gui's face changed slightly.

A waste vein meant that the vein simply only had ore in the top layer.

Underneath, there was nothing but mud.

If that was the case, there was no specific use for the vein at all.

And since so many people had said that this vein was a waste vein, it was probably not far from the truth.

"Good, thank you all brothers, next time you are free to visit my place as a guest."

Qian De Gui gave a slight arch of his hand to a few people, and then walked with Lin Mo towards the front.

It was only after the two left that the soldiers let out a laugh.

"It's really still Governor Qian who is so bold."

"That's not true, compared to those guys, it's really meh."

"Forget it, let's go, let's go."

"So much talk, if the top hears us we'll be chastised."

Lin Mo looked around at the mostly turned over land and said softly.

"It looks like they went to a lot of trouble to find the veins as well."

"With the marks on this ground, I'm afraid it's not as close to turning the earth over."

Qian De Gui in front of him pointed to a deep pit not far away and said.

"Wealth and money move people, brother Molin look at that pit."

"At first someone thought as if they were possessed that there would be a copper mine somewhere."

"After digging for half a month, in the end there was only loam and stones."

"If that vein is a waste mine, it's not certain when the next one will appear."

As the two talked, they finally saw a group of people in a circle in front of them.

And they were talking about something.

As Qian De Gui as well as Lin Mo got closer and closer, they turned their heads around.

Their faces were either smiling, or cold, or just touching each other.

Not everyone could get on well with Qian De Gui.

Some people think Qian De Gui is a great guy, but there will be others who hate him.

“Governor Qian, you’re an old hand at looking at veins, come and take a look.”

“We are all waiting for you to come, one by one we can’t get the results.”

“Yes, Governor Qian, you’re known as the number one person in ores on Ling Island, don’t let everyone down.”

Yin and Yang’s voice was interspersed with the language.

Qian De Gui didn’t care in the slightest and walked straight to a bulge in front of him.

The black iron ore had come out of the line and looked very large.

But it was because of this that Qian De Gui’s eyes became even more grave in their gaze.

A normal vein would have to be at least a little deeper into the earth, but this one in front of him.

In the distance there were some raised coherences, all of which were also iron ore.

Qian De Gui patted the ground, it was very dry and hard, how could iron ore protrude from such ground.

So now there must be only one result, and that is that this is but a waste vein.

Most abandoned veins have a spectacular appearance of iron ore at the very top.

But when it is completely dug up, it will be found that there is only the top layer.

“Governor Qian, can you do it, have you judged it?”

“Yes, Governor Qian, what is the condition of this vein, talk to us.”

Qian De Gui stood up and said in a solemn tone, “It’s a waste”

“Wait a minute.”

Halfway through Qian De Gui’s sentence, Lin Mo, who had been standing at the side, suddenly spoke.

His upright figure walked up to the top of the iron ore.

The soles of his shoes stepped on the ground a few times, and a look of enlightenment passed through his eyes.

In the Lin family’s heritage, there was a passage about such knowledge.

It even involved the shifting of the earth’s veins, which every hundred years caused a portion of the ore to be pushed out of the ground.

And because it was something caused by the shifting of the earth’s veins.

It would cause the ground to become dry and hard, but without creating cracks.

“This vein, waste vein or not, we’ll take it.”

Chapter 3482

Hearing Lin Mo's words, Qian De Gui's eyes changed slightly.

But after thinking about it for a while, he did not refuse, but nodded his head.

"Pfft!"

Just as the crowd was baffled, a laugh suddenly rang out from among the ore merchants.

A man with a somewhat feminine face walked out from the middle of the crowd.

He had an orchid finger pinched in his hand and his eyes sneered as he looked at Lin Mo and loudly reprimanded.

"What kind of a thing are you, you fellow, to dare to speak directly out of your mouth."

"So many of us present who have dealt with the ore for decades have said no."

"You, a guy who doesn't know if he's only been in contact with it for a year or not, dare to be talking like that."

"I see, you're not fit to work with ores, instead you're fit to be a duck!"

The feminine man sneered at Lin Mo in a sinister manner, and even laughed at the end.

"Yes, yes, where did you bring someone from, Governor Qian, who is so unruly."

"Arrogant, simply arrogant!"

Those among the mining merchants who didn't get along with Qian De Gui were all sneering at this moment.

They had been displeased with Qian De Gui for years.

Now mocking Lin Mo, who had come with Qian De Gui, made them continuously vent their anger at Lin Mo.

"Since I, Qian De Gui, want this ore, whatever if it's a waste ore."

"Boss Shang, I remember you have a shipment at sea, right?"

Qian De Gui could put up with the mockery he was being subjected to.

But he absolutely could not sit back and watch Lin Mo, whom he had invited over, being insulted by them as well.

His kind eyes narrowed slightly as he looked directly at one of the mining merchants who had just spoken.

The miner looked at the cold colour in Qian De Gui's eyes and the sneer on his face instantly disappeared.

Somewhat fearfully, he lowered his head and dared not continue speaking.

He was now counting on that shipment to be able to continue doing business.

So it hadn't even been said to the outside world.

But now knowing so clearly, that meant it.

He had taken control of his lifeline!

"Chairman Ding, the small mine vein you have there is still continuing to be mined, right?"

At Qian De Gui's word for word words, most of the ore merchants shut up.

Most of their things Qian De Gui actually knew so well.

"Everyone, be quiet for a moment."

Suddenly, a voice came from the back of the room and the crowd's eyes looked over.

It was a middle-aged man in a suit with a pair of glasses above his eyes, revealing a wise feeling all over his body.

"Brother Molin, this is the treasurer of the island lord's residence, and was previously the island lord's attendant, named Ling Zhong."

Qian De Gui whispered in Lin Mo's ear after seeing the suit-clad Ling Zhong.

Ling Zhong's figure gradually approached and spoke with a smile on his face.

"What do you all think of this mineral vein?"

He was at the Island Master's residence earlier when he was handling the finances.

He had received a report from his subordinates that the ore merchants were one and all saying that the vein was a waste vein.

All Ling Zhong immediately headed this way.

Once it was confirmed that it was a waste vein, then all the manpower and resources spent by the island lord's residence this time would be wasted.

All of them would be wasted straight away, and there was no telling how much money they would even lose.

Once Ling Zhong's words came out in, the surrounding mining merchants spoke up one after another.

"Chief Steward Ling Zhong, this out of the vein according to our survey, there is only the top layer at all."

"Yes Chief Steward Ling, this is as fruitful as it can be up here, but a hoe will probably be all dirt."

Just as the group of people were speaking to Ling Zhong.

The feminine man once again pinched his orchid finger and spoke in a shrill voice.

“That’s not necessarily true, the one that the other banker Qian brought is not sure of the great gods of that way.”

“Straight away, he asserted that this place must have a mine.”

“Even directly said the words that they will take this out of the mine vein whether it is a waste vein or not.”

“Chief Ling Zhong, just sell it to them straight away!”

Chapter 3483

When Ling Zhong heard the words of the feminine man, his gaze went towards Lin Mo as well as Qian De Gui.

After thinking for a while, he said to the two men.

“Governor Qian as well as this gentleman, are you sure to take this vein?”

Qian De Gui nodded, indicating that he must take it.

He had spent just one day with Lin Mo, but Lin Mo was always able to surpass his own expectations.

He believed that the decision made by Lin Mo would definitely not be wrong.

“Let’s put it this way, on behalf of the island lord’s house I am sure that there is no way I will let the two of you suffer.”

“According to the prices in days past, this one vein should at the very least be sold for more than a hundred thousand Maple Leaf Coins to do so.”

“But now that this vein is full of an unstable nature, the Island Master’s House has set the original auction reserve price.”

“How about giving you 70% of the price for 120,000 Maple Leaf Coins?”

“After that it doesn’t matter whether this vein excavates a lot of ore or is worthless, it has nothing to do with the Island House.”

Ling Zhong stated the price towards Qian De Gui as well as Lin Mo.

Now that so many people had concluded that this vein was a waste vein, then it was estimated that there was an eighty percent chance.

This vein was a proper pendulum waste vein.

Now since they wanted to buy it, they definitely could not set the price at the same constant as before.

After Qian De Gui heard this price, his eyes looked towards Lin Mo.

“Thank you, Chief Steward Ling, for your kindness, we are willing to purchase this vein for three hundred thousand Maple Leaf Coins.”

Lin Mo's words smashed into everyone's hearts like a stone breaking into the sky.

The feminine man from before and the other mining merchants who were not dealing with him were stunned, followed by a loud laugh.

"I'm laughing my a*s off, this guy is here to cause trouble, right?"

"Making such a fool of himself and blurting out in front of Chief Ling, he really is uneducated!"

"Don't even look at what you are, 300,000 Maple Leaf Coins, even if he was sold he wouldn't be worth that fraction."

Ling Zhong looked at Lin Mo's face a little badly and said in a deep voice.

"This gentleman, please don't joke around."

If it wasn't for the fact that this vein hadn't been sold yet, Ling Zhong would be like turning his head and leaving straight away at this moment.

"Chief Steward Ling, I am not joking about anything, we are willing to bid three hundred thousand for this vein."

"But I hope that the Island Master's House can arrange for patrolling soldiers in this area afterwards."

Qian De Gui didn't say anything, three hundred thousand Maple Leaf Coins was just that.

Such a confident look from Lin Mo also gave Qian De Gui a lot of confidence.

Ling Zhong's face faintly froze, and a thoughtful look appeared in his eyes.

"Good, from today onwards the soldiers of the Island Master's residence will patrol this side every hour."

"But I also hope this gentleman isn't joking, otherwise the Island House will think you're teasing us."

Those mining merchants on the side were all pale at the moment.

Could this one really be that they had looked away.

Lin Mo glanced at Qian De Gui and said in a soft voice.

"Governor Qian, just give the money directly, I naturally trust Chief Steward Ling."

The slightest smile appeared on Ling Zhong's face as he smiled at Lin Mo.

"Don't worry about this gentleman, I will arrange for people to start planning patrol routes once we return."

Qian De Gui nodded and walked up to take out a cheque from his pocket and handed it to Ling Zhong after writing the amount on it.

"Chief Steward Ling, you should know how to use this thing, right?"

"Of course I know, go to Qian's Mining House and ask Miss Xiang'er to exchange it, understand."

Ling Zhong took the cheque in his hand and turned to leave.

To him, today was considered a great day.

A mineral vein was like a gambling stone, full of various factors.

Even if Lin Mo acted as confident as he could, Ling Zhong did not have the slightest idea of leaving the vein to be mined himself.

A small mineral vein would not have been worth the Island Lord's House's time.

"Governor Qian, why don't we open it up for everyone on the spot?"

Chapter 3484

The feminine man stepped out from the crowd and looked at Qian De Gui as well as Lin Mo and said.

He was one of the people within the mining merchants who were not afraid of Qian De Gui.

All had been constantly provoking this Qian De Gui.

"Fine, Governor Qian, then show this lady if what we are buying is a waste mine or not."

Qian De Gui had wanted to let the crowd leave, but Lin Mo suddenly spoke up.

Looking at Lin Mo's calm and steady appearance, Qian De Gui nodded his head.

"Since all of you want to see whether or not the land returned to buy is a waste mine or not."

"Then I will let you all take a look today."

Qian De Gui took out a walkie-talkie and spoke something into it.

In just ten minutes, a group of workers with hoes and drafts as well as rock crushers came forward.

"All of you, carry out the excavation immediately!"

Qian De Gui said to them as he pointed to the vein in front of him.

"Yes!"

The group of workers started digging straight ahead.

Pieces of iron ore were dug out directly by them.

"Governor Qian, what is the use of you digging these ores up there now?"

"Even if you dig up more ore above, it's impossible to dig up ore below!"

The piercing voice caused Lin Mo's eyebrows to frown slightly.

He then walked up to the workers who were digging and said in a deep voice.

"Everyone come to my position immediately and do the digging!"

Lin Mo's voice caused all the workers to look up and hesitantly glance at Qian De Gui.

Seeing Qian De Gui nod his head in agreement, they ran to the spot where Lin Mo had just stood.

Using their picks, they began to dig downwards.

"Look at what he's doing guys, pfft, is this person you brought in, Governor Qian, trying to laugh me to death?"

"Look where you are digging now, not picking a place with ore and digging against a piece of land."

The group of people once again laughed out loud, waiting for Lin Mo and Qian De Gui to make a fool of themselves.

As the workers dug deeper and deeper, it was all mud, with not a trace of ore at all.

One metre, five metres, ten metres

After several hours, a ten-metre deep pit was dug.

But all that came up was earth and rubble.

There were no traces or traces of any iron ore at all.

"Governor Qian, this is ten metres deep, and there's not even a trace of it so far."

"I see, you are being cheated by this guy, 300,000 maple leaf coins yo."

"Tsk, ts, ts, just like that, it's gone."

"You don't even see what kind of a person he is, the head of the bank, would he care about that small amount of money?"

The miners who were at odds with Qian De Gui were now gathered together and talking.

They were even afraid that Qian De Gui could not hear them, so they deliberately raised their voices and said loudly.

Qian De Gui's face was a little heavy as he stood next to the pit.

According to his years of mining ore, he had dug a full ten metres without a single piece of ore.

Under such circumstances, there was no doubt that the vein was ruined.

Qian De Gui looked at Lin Mo at the side and said softly.

"Brother Mo Lin, this vein should really be no more."

"Why don't we just forget about it for today, a vein is just a vein, it's not that big of a deal."

A loud voice rang out from the side again, causing the two men's eyebrows to furrow slightly.

"You see, even the Governor Qian thinks these things are simply impossible."

"I thought that little white boy could have some profound learning, huh."

“Still profoundly learned, I guess he’s a duck that ran away from inside that green house.”

Qian De Gui’s beauty was tightly wrinkled together.

The fact that they were abusing Lin Mo like this made Qian De Gui’s originally calm mood have a little anger at the moment.

“Governor Qian, there’s no need to get angry with those stupid people.”

Lin Mo’s gaze looked at the pit and said softly.

“It’s almost time

“Ding!”

Chapter 3485

The clear sound of gold and iron clashing resounded in the deep cave.

The faces of the few mining merchants who had just looked mocking instantly stiffened.

“How is this possible.”

How could they, who had been digging for years, not hear that this was the sound of iron ore being dug.

There was actually not a single piece of ore mixed in among the ten meters, which meant that there was definitely a vein of ore down here.

Qian De Gui’s face instantly emerged with a thick smile.

“Hahahaha, Brother Molin, you really did see it right, it’s really there.”

As long as an iron ore appeared down here, then it would definitely not be just one piece.

As expected, the sound of the manuscript and iron ore colliding kept ringing out.

A worker climbed up along the ropes, his face full of shock.

“Governor, I’ve been digging for more than ten years, and it’s the first time I’ve seen iron ore of such a great colour and reminder.”

“Even we are now standing on top of that huge piece of iron ore.”

The worker’s words caused Qian De Gui’s face to show thick joy.

That huge iron ore, it seemed that this time’s harvest would definitely not be low.

Qian De Gui’s gaze looked behind him at the few people who had just sneered at him.

“Do you all want to go down and have a look?”

“No need, goodbye!”

The feminine man only felt his face burning hot at this moment, as if he had been viciously slapped.

The entire person directly turned around and left the place.

The few remaining mining merchants who had been taunting with him also fled in disarray when they saw this.

“Banker Qian, remember to take care of us when the time comes to send out.”

“That’s right, such a big ore, I’ll definitely have a look at it when it’s shipped back.”

“Naturally, you all take your time.”

Faced with the mining merchants who had said nothing earlier, Qian De Gui naturally greeted them with a smile.

After seeing them off, Qian De Gui’s face also revealed a smile.

“Brother Molin, tell me the truth, how much can this vein produce?”

Qian De Gui’s gaze gleamed as he looked towards Lin Mo.

Just the first piece that had just started had scared those workers who had been working for more than ten years.

If this continued to be excavated, it was only feared that the output of iron ore would be even more enormous.

Lin Mo pondered for a moment and looked at Qian De Gui and said softly.

“At least million tons.”

Lin Mo’s light words but resounded like thunder in Qian De Gui’s heart.

Ten thousand tons

Or at the very least ten thousand tons

What is the concept of ten thousand tons, the island’s largest vein is now in the hands of the island lord’s house for decades.

Up to now only 10,000 tons of production has been mined.

Even now the person this vein just started is the amount of ten thousand tons.

Even if Qian De Gui is more experienced as well as the government.

He was also shocked by this amount for a while.

Even Lin Mo hadn’t told Qian De Gui yet.

He felt that below this vein, there should be another vein.

And this vein that could produce 10,000 tons of iron ore was only at the beginning.

It was just a bit that had been scraped off that vein when the earth vein twisted.

“Governor Qian, you should know how serious this matter is.”

“The Island House could care less about the fact that we have a small ore vein in our hands.”

“But once the news that this vein is capable of producing 10,000 tonnes leaks out.”

“The Island Master’s House might, no, will definitely figure out how to take this island.”

Lin Mo’s words caused a gloomy expression to appear on Qian De Gui’s face.

“Then Brother Mo Lin you wanted the soldiers of the Island Lord’s House to join the patrol here before?”

“Wouldn’t that make it easier to be exposed?”

Lin Mo smiled and shook his head.

“As the saying goes, it’s dark under the lights, so put out a message in the market tomorrow saying that this is a hundred tonne yielding vein.”

“Since the island lord’s house is selling it in front of which buy more than one person, it naturally won’t be anything more.”

“Plus there are still their soldiers patrolling this way, even less will be suspected.”

Chapter 3486

The next morning was early on Lam Island.

Zhu Tong, who had just gotten up, saw a subordinate running hurriedly outside the door.

“House Master Ling

“What decency is it to panic, is this what I teach you on a regular basis?”

Zhu Tuan reprimanded the subordinate fiercely and waited for him to take a breath before asking.

“What’s going on?”

“A group of people came from Ling Island, saying they were from Qian’s mining company, and brought a lot of goods with them.”

“What did you say!”

“The Qian’s Mining Company on Ling Island?”

“Where is Mr. Molin, is he back yet?”

Zhu Tong, who had just been sitting with a steady face drinking tea, instantly stood up and asked loudly.

Good heavens, only two or three short days had pa*sed.

Mr. Molin, do you have to be so efficient, I still want to rest for two days.

“No, the person who came said it was a delivery team from Qian’s mining company, bringing ten tons of iron ore over this time.”

“Where are the men?”

“The dock of the force workers’ union, they are unloading the goods now.”

Zhu Tong’s chubby figure quickly walked off into the distance and left a message.

“Such an important matter, didn’t you know to tell them earlier!”

The subordinate stood with an aggrieved face.

It was clearly you who said something about being calm and collected when things go wrong and not panicking.

You were the one who scolded me for not being calm and collected enough, and you were the one who scolded me for not reporting the matter quickly.

Perhaps this subordinate could never understand what Zhu Tuan meant.

At the dock of the Power Workers’ Union.

One burly man was continuously carrying the goods from the several large ships docked on the pier.

One by one, heavy wooden crates containing ores were easily reported straight down by them.

Even Hua Qiang himself was resisting three crates directly down by himself.

“The officer still has to be Maureen, saying that there is no more iron ore and getting so much in just a few days.”

Hua Qiang sighed a little emotionally, why didn’t he have such ability himself.

Looking back to the old days, eating and sleeping and fighting tigers.

Every day was a constant wandering between these three things.

Either on the way to fight the tiger or fighting the tiger.

“I blame that tiger for delaying me for so long.”

When Zhu Tong arrived at the pier, the wooden crates on top of the pier had long been piled up already.

“President Hua Qiang, who is the leader of the people who brought the goods here?”

Zhu Tuan came to Hua Qiang, who was cursing at Tiger, and asked.

“The tiger!”

“Huh?”

Zhu Tong heard Hua Qiang’s words with a baffled face, a tiger?

“Ah no, the ones who brought the goods in are over there.”

Hua Qiang also realised that he had said the wrong thing.

He hurriedly pointed to the group of people standing on the pier smoking in the distance.

“Good, then Chairman Hua Qiang, you continue to be busy.”

Zhu Tuan nodded and walked towards the group of people over there.

He wanted to find out what all Lin Mo had done on Ling Island.

It was only then that he could make that fellow Qian De Gui actually send people over with things.

Originally, Zhu Tong thought that Lin Mo would be able to get the business done.

He didn't have the slightest idea that Qian Dehui would send something over.

When he walked into the few people who were smoking on the beach, Zhu Tong said with a smile.

“Hello everyone, my humble self Zhu Tong, is the head of the Lin Island inspector's house.”

“Don't be nervous everyone, I just want to find out how our Mr. Molin of Lin Island is doing at your place?”

Hearing that Zhu Tuan had simply come to ask a question, the group of people breathed a sigh of relief.

“Haha, so it's Lord Zhu, if you have anything to ask, just ask.”

The bearded man at the head of the group let out a gruff laugh and said with a smile at Zhu Tuan.

“I would like to ask how Mr. Molin is doing in your place?”

“Don't worry, Lord Zhu, Mr. Molin is definitely being treated the best he can be at our place.”

“And our island master even treats Mr. Molin as his guest!”

Chapter 3487

Not far from the ore market is Ling Island's building materials market.

Inside were all kinds of construction tools and materials.

Lin Mo decided to go to the building materials market to see if there was anything he needed.

“Brother Molin, the water in the building materials market is not as bad as the ore market, so if you really need anything you can go directly to the building materials market owner.”

“The things he has there are relatively affordable.”

Lin Mo nodded, and then turned around and walked towards the building materials market.

The journey was very calm, without the kind of robbery that had happened a few minutes before, or anything like that.

Lin Mo's name had now gradually spread in this area as well.

Mr. Mo Lin, was said to be a disciple of a high ranking hermit invited by Qian De Gui.

A pair of fire-eye eyes cared not whether you were hiding in the earth or outside, and could distinguish them clearly directly.

He helped Qian De Gui to take a hundred-ton iron ore vein.

So those people had to think about Qian De Gui before they wanted to touch Lin Mo.

This is why the journey was so calm and quiet.

The environment in the building materials market is a bit better than the ore market.

After all, if your home is selling building materials, people won't even look at it if it's too poorly decorated.

When Lin Mo stepped into the building materials market, he immediately attracted a lot of eyes.

There was greed, killing intent, as well as plainness.

Lin Mo didn't bother with them, but strolled around.

There were too many evil people on this island, and if they were killed one by one there was no telling how long it would take.

So as long as they weren't sent to Lin Mo's face of their own accord, he generally wouldn't kill anyone.

"This gentleman, want to come in and have a look, there are a lot of good things here for the little lady."

Looking at the woman dancing in front of a shop, Lin Mo silently left.

Such things were very common in this archipelago.

There is no hiding at all, you come in and buy something and I am yours tonight.

None of these building material shops were to Lin Mo's liking.

Either they cut corners, or they were just using second best or something like that.

The things in the front were of good quality, while the ones in the back were of very poor quality.

Lin Mo's figure gradually arrived at the end of the building materials market and suddenly found a ground stall here.

A man in his fifties was sitting there, with some building materials on the stall in front of him.

Lin Mo took a glance at the things placed on it, electric wires, bamboo

"Boss, how do you sell the things here?"

"How much do you want?"

"If it's good quality you might want a lot."

The man pondered for a moment, stroked the moustache on his chin and spoke.

“Tell you what, I’ll take you to see my goods first, and we’ll talk afterwards.”

“Good.”

Lin Mo nodded, seeing the goods first would indeed save a lot of things to do.

The man led Lin Mo into the pathway behind him.

A damp sensation instantly came over him.

“Boss, it’s so wet in here, aren’t you afraid that the building materials will grow hair?”

This kind of damp place should reasonably be a place for building materials to avoid.

“It can’t be helped, those of us with small businesses can only afford to live in such places.”

The boss led Lin Mo to a large iron door, took out the key in his pocket and opened it.

“This gentleman, see for yourself, everything must be in good condition.”

“It’s all covered with a covering cloth all over to ensure that the moisture doesn’t get in.”

“I’ll go back inside first to get some things.”

Lin Mo nodded slightly and then looked at the building materials in the courtyard that were covered with covering cloths.

When he walked up to the building materials, Lin Mo lifted a foot slightly, but the inside was very dry.

Just as Lin Mo’s gaze swept through, his gaze abruptly stopped.

Lin Mo saw it on the underside of the covering cloth.

The icon of the Hongmen!

Medical Genius Unspeakable Marriage Chapter 3488

Lin Mo’s eyes narrowed slightly and he did not make any sound.

Instead, he walked to the other side and lifted the other foot of the covering cloth.

The icon of Guangde Hall was also reflected in Lin Mo’s eyes.

Suddenly, Lin Mo put the covering cloth down in his hand as if nothing had happened.

“This gentleman, how is it looking?”

The man from before came out of the house and inquired at Lin Mo.

Lin Mo looked at the man and said softly, “I’ve looked at it, it’s not too bad.”

“You can probably sell these goods for twenty thousand Maple Leaf Coins, I’ll offer thirty thousand and buy them all directly.”

Lin Mo directly took out 30,000 maple leaf coins from his pocket and handed them to the boss.

This was also what Wang Laosan had handed Lin Mo as he was leaving.

It was because there was no way to use the electronic products on the island, and payment could only be made in cash.

Some of those with deeper backgrounds were also able to develop payment machines that ignored magnetic fields or something like that.

The man looked at the pile of maple leaf coins handed over by Lin Mo, and a look of wild joy appeared on his face.

He hurriedly took the maple leaf coins in Lin Mo's hand and counted them carefully.

After confirming that it was thirty thousand maple leaf coins, he immediately accepted it with a smile on his face.

"However, I have some questions I would like to consult you on."

The man had just accepted Lin Mo's 30,000 maple leaf coins, not to mention asking questions.

Even if Lin Mo asked him to kneel down and kowtow the man would not hesitate in the slightest.

That batch of building materials was not worth anything at all on this island.

Even the 20,000 Lin Mo said was more than enough, at most it would only sell for 18,000.

"You say it, you say it, I will definitely know everything and say everything."

Lin Mo pointed at the covering cloth for the batch of building materials and asked the man.

"This kind of covering cloth I see preserves very well, and I intend to buy a batch."

"Where did you get this?"

After hearing Lin Mo's words, the man's eyes were covered with a puzzled look.

This

He had expected to ask about some hidden matter.

As a result, he didn't expect Lin Mo to actually just ask where he got his covering cloth from.

"This is where Boss Lauren of the building materials market bought it."

The man still honestly said where he got these cloths.

The man had been forced to buy them by that wretched man.

He even said that they were of good quality and that he was helping himself.

But as far as the man was concerned, they were expensive and far more expensive than five times the market price.

It is simply just to raid the interface of oneself and others.

“Building materials market boss”

Lin Mo recalled Qian De Gui and himself speaking before he came.

If you really can't, you can buy from the boss of the building materials market.

The things he had there were still affordable.

“Where can I find him?”

Lin Mo's words caused the man's face to change abruptly and he said in a low, quick voice.

“You're crazy, Boss Lauren has a bad temper, if you go by yourself.”

“Not to mention that you won't be able to get in at all on your own, you'll even be killed by their people straight away.”

“Do you still need a recommendation from someone to get in?”

The man nodded and continued to speak.

“I'm telling you this much only with you having meta too.”

“If it had been anyone else I wouldn't have even warned him and let him go straight to his death.”

“If you want to meet Boss Lauren, the least you can do is to have a recommendation from someone of notable status above Ling Island.”

Lin Mo pondered for a couple of seconds.

“Do you know Qian De Gui from the ore market?”

“I'd like to know if he's qualified to meet that Boss Lauren?”

Hearing Lin Mo's words, the man revealed a bitter smile.

“Qualified is naturally qualified, but that Qian De Gui is also considered the leader of the Ore Market.”

“If you want him to help you meet Boss Lauren, it's actually not too difficult.”

“One needs to move on and then you'll know.”

Lin Mo nodded and turned straight away, leaving a sentence behind.

“Leave the stuff for now, come and get it afterwards. “

Chapter 3489

After Lin Mo walked out of this small alleyway.

Following the man's words, he continued to walk towards the sparsely populated front.

And a group of people in the distance saw Lin Mo continue to walk forward.

A look of shock appeared on each and every one of their faces.

“Is he going to find Boss Lauren?”

“Do you guys know this guy, he’s too bold, isn’t he?”

“I think he’s just trying to go to Boss Lauren to get himself killed.”

“Why do I think there’s something familiar about his back?”

“That’s what you said last night when you were looking at the girls inside the kiln.”

As Lin Mo continued on ahead, the original green stone road had gradually disappeared.

What appeared was a dirt road filled with dust.

Lin Mo was just walking on the dirt road.

Suddenly.

His figure, which had been moving steadily, stopped.

In the distant gra*s, a man dressed in camouflage and holding a sniper rifle was lying on his back in a distant gra*s bush.

Seeing Lin Mo suddenly stop in his tracks, the man’s face changed.

Because Lin Mo took another step forward, he would be at a range where he could follow the intruder and shoot him.

But he had stopped just outside that range.

This definitely couldn’t be a coincidence.

The man was hesitating whether to shoot Lin Mo directly.

Lin Mo’s gaze suddenly looked towards him.

The two men’s gazes locked across the countless gra*s.

“In just now, your heartbeat was beating much faster than when I was a hundred metres away.”

“So you were building up momentum and had reached the top.”

“If I were to take a step forward, would you have shot?”

Lin Mo’s plaintive voice resounded very clearly in the man’s ears, causing his pupils to snapped.

Since he had been discovered by Lin Mo, the man was no longer lying on the ground.

Instead, he stood up holding the firearm in his arms and looked at Lin Mo in the distance and said loudly.

“Who are you, since you know the rules of this place and still dare to come alone!”

“Inform Boss Lauren that Maureen wants to see him.”

Maureen?

Hearing that name, the man hurriedly picked up a photo album from the floor and flipped through it.

Flipping straight to the last page, he looked carefully at the new photos that had been added today.

After taking another look at Lin Mo’s appearance, he then said aloud.

“Please also wait a moment.”

The man then took out his walkie-talkie and said quickly.

“Boss Lauren, that Maureen is here and wants to see you.”

“Send him in.”

A deep, steady male voice rang out over the phone.

The man in camouflage lowered the gun he was aiming at Lin Mo in his hand and said loudly.

“Mr. Molin, please go straight down this road, our big brother is willing to see you.”

He also used respect in his words, a small person like himself who had previously abided by his duties was still in character.

But now it was time to be more respectful, or else sooner or later he would die in vain.

It has to be said that Lauren’s hand is even bigger than Qiandepi.

He owned all the fields in this area, which were at least several kilometres in length.

Lin Mo walked on the yellow road, the sun shining on his body as if it did not cause a single bit of heat to Lin Mo.

Lin Mo’s figure gradually moved forward and he could already see the huge steel factory in the distance.

A well-equipped soldier ran over from the distance and addressed Lin Mo.

“Mr Molin, our boss is waiting for you in the middle of the factory.”

“And he also said that a good tea has been prepared for you.”

Lin Mo nodded and walked straight ahead.

These people would definitely not be soldiers from the Island Master’s residence.

Lin Mo could tell at a glance that they should be Lauren’s own army that she had formed.

This also left Lin Mo with some doubts, Lauren was a building materials guy.

How was it that he had such great power as well as money to get troops?

“Mr. Molin, I’ve heard a lot about you!”

Medical Genius Unspeakable Marriage Chapter 3490

A deep, steady voice rang out from the distance.

A man with sunglasses on came out of the factory in front of him.

His body was in a tight camouflage suit, which made him look a little more intimidating.

“Mr. Molin, I’ve heard a lot about you.”

Lin Mo looked at the man who had walked up to him and asked in a soft voice.

“Boss Lauren?”

“Haha, that’s all what my men call me, you can also just call me Lauren.”

Lauren waved his hand unconcernedly, indicating that Lin Mo could call him whatever he wanted.

Lin Mo smiled faintly and said nothing specific.

“Mr. Molin please come in.”

Lauren led Lin Mo directly towards the inside of the factory.

The inside of the factory was steeply different from the somewhat empty scene outside.

The strict placement seemed to show off Lauren’s character in general.

“Sit.”

Lauren led Lin Mo to sit down by a sofa.

Placing a cup of tea in front of Lin Mo, he smiled and said.

“I wonder what Mr. Molin is here for on my side?”

“When I was watching the building materials market earlier, I suddenly found a very good shammy cloth.”

“It just so happens that I came to Ling Island this time to buy building materials and all kinds of goods.”

“Only after I went up and asked did I find out that those things were sold to them by you, Boss Lauren.”

“So I came this time to see if those things are produced by you yourself, Boss Lauren.”

“Or did you get them from somewhere else!”

Lin Mo’s slender fingers rubbed lightly on the cup in front of him.

The tone of his voice was very flat, but at the last few words.

A coldness steeply pierced out of his bones, causing Lauren’s face to change slightly.

He gave Lin Mo a deep look.

This fellow, was definitely not as simple as the rumours outside, and even
even more terrifying!

“Brother Molin that’s a joke, what’s so rare about those covering cloths.”

Lin Mo’s fingers that were rubbing on the porcelain cup suddenly stopped and his gaze looked towards Lauren.

Having come to the West Vientiane Islands for so long, this was the biggest clue Lin Mo had found.

Therefore, Lin Mo no longer intended to continue trying to have a conversation with Lauren.

Lin Mo’s finger left the porcelain cup on the table.

“Bared.”

A slight sound made Lauren look away.

The porcelain cup Lin Mo had just touched was now unchanged.

Just as curiosity filled Lauren’s eyes, a neat cut suddenly appeared on the tabletop.

A look of horror appeared in Lauren’s eyes.

This table was made of fine iron.

Even a gun would not be able to make a cut on it, or at most a bullet hole.

But Lin Mo merely stroked the teacup on the table and made a hole directly on the table.

Lauren looked at Lin Mo with a look of gravity as well as importance in his eyes.

He understood that Lin Mo was telling himself that he needed to know the source of those things.

If he didn’t say anything, then the gash on the table might not be on the table anymore.

Lauren’s face was covered with a serious look. Turning to Lin Mo, he said.

“Brother Mo Lin, before, Nie Qing of the Great Circle Gang suddenly sold me a lot of good building materials.”

“And those covering cloths are the ones that come with the building materials, that’s all I know.”

Lauren didn’t want to offend Lin Mo, an expert whose hidden strength was surprisingly profound.

So he directly told Lin Mo all the things directly and in full.

After Lin Mo, who was sitting on the side, heard Lauren’s words.

At once, he knew that that Nie Qing really seemed to be related to the previous cargo looting.

And what kind of role did the Great Circle Gang play in it?

“Many thanks, I owe you a favour, if there’s anything difficult, you can find me at Qian’s Mining Company.”

Lin Mo looked at Lauren and said seriously.

He never owed favours to anyone.
