

Genius 3551

Medical Genius Unspeakable Marriage Chapter 3551

Time passed by minute by minute.

Suddenly, Lin Mo heard a very dense sound of footsteps coming from the direction of the Island Master's residence.

Ling Ziyao, who was dressed in a light green dress, quickly walked over.

Looking at the corpses lying on the ground, Ling Ziyao turned to Lin Mo and asked.

"Mo Lin, how are you doing?"

Looking at Ling Ziyao's somewhat caring eyes, Lin Mo smiled faintly.

"Ling Island Master doesn't need to worry, I'm naturally fine."

Ling Ziyao nodded, and then said to Ling Zhong behind her.

"Directly have the troops turn on the fire coverage, I don't want a single prisoner from this group of rebels!"

Ling Ziyao's words were filled with a harsh and murderous aura.

Although he had been somewhat wary of Braden as well as suspicious of him before.

However, he had not expected that the other side had actually hidden so many soldiers in secret.

If not for the timely return of Mo Lin this time

The heart of Ling Ziyao was also born with a sense of backwardness.

Ling Zhong's face was also very cold and stern with killing intent.

These guys actually dared to threaten Miss like that.

Even if Ling Ziyao did not say anything, Ling Zhong would not let them live.

"Activate the highest level of fire strike system."

"Target the forest one mile outside the Island Master's residence and conduct a covering fire strike."

"Remember, don't let the aftermath of the explosion hit the Island Master's residence."

"Copy that."

A voice rang out from the walkie-talkie in Ling Zhong's hand.

Immediately afterwards, Lin Mo clearly saw a dozen missile launchers coming from afar.

The missiles on their bodies slowly lifted up and eventually aimed at the middle of the forest.

The area of this forest was more than ten square kilometres.

Ling Ziyao didn't want to get any precision strikes at this moment.

She wanted to put this forest under direct fire coverage.

When the time comes this area builds a statue of Maureen?

The forest refers to China.

The people inside the rebels saw the chief as well as the adjutant delayed to return.

The face all out appeared puzzled.

According to the general, isn't he just going to kill a foolish boy who doesn't know the sky is high?

How come they hadn't come back by now?

Suddenly, a soldier pulled the clothes of the soldier in front of him.

"Brother Know, do you think it's still too late to run if a missile blows down on us?"

Brother Knowing looked at the soldier who was pulling on his shirt with a speechless expression.

"What's the use of running if the missile is visible to you."

"You're all usually told not to just go and play with women."

"Read more books, maybe run now if at best you blow off an arm or something."

At the end of the sentence, a thoughtful look appeared on Brother Knowles' face.

The soldier, in turn, said to Knowles, "One missile might blow off a leg."

"And what if a dozen missiles came at us together?"

A look of impatience appeared on Brother Knowles' face as he spoke loudly.

"Then we'll just lie down and wait to be turned into ashes."

After Knowing finished speaking, he suddenly saw the soldier lying down straight away.

"What the f*ck are you lying down for?"

The soldier's eyes looked at the sky and casually counted.

"One, three, seven, fifteen"

"Brother Know, that's a total of fifteen missiles, let's lie down and wait to die."

Brother Knowing looked at the soldiers, after looking up at the sky.

He just wanted to lower his head and angrily scold the soldier for deliberately cheating and being lazy.

Nope

Brother Know snapped back to his senses.

His gaze instantly looked to the sky.

One by one, missiles that could already see what they looked like were currently descending at a rapid pace.

And the aim was the area where he and the others were.

Knowles' gaze went to the soldier on the ground and kicked him hard.

"f*ck, there's a missile and you didn't know to tell me about it straight away!"

"Everyone run, there's a missile coming!"

Along with the sound of Brother Knowing's voice, a dozen missiles landed very evenly all around.

"Boom!"

Medical Genius Unspeakable Marriage Chapter 3552

A huge booming sound resounded through the forest.

Dust rose up in the sky, causing the entire Ling Island to shake.

"What is this happening?"

Qian De Gui, who was eating his lunch, was startled and hurriedly walked out of the door.

Upon seeing the huge smoke and dust not far from the island master's residence.

Qian De Gui muttered, "What's happening here again?"

Lauren's factory in the building materials market.

Lauren was sitting in an office with an old man.

The old man's gaze was fully concentrated on the iron table in front of him.

This table was the one that had been opened up by Lin Mo earlier.

"Old man Wang, do you see anything?"

Lauren inquired to the old man with some expectation.

Ever since the last time he saw Molin's finger open up this table with just a flick of his finger.

He had been utterly terrified.

So this time, he had specially spent a great deal of money to invite the other islands.

Wang Lao, who was highly respected in this line of martial arts, came.

Wang Lao's eyes glanced around the table carefully, and his fingers ran over the gaping hole again.

"O Lauren, don't worry."

“All your worries now are just unfounded.”

“Such an existence

The old man’s gaze swept over ah Lauren’s body.

“It hurts a little, but you don’t even make the grade.”

Just as the two men were conversing.

“Boom!”

A loud explosion rang out, and Lauren’s face as well as Wang Lao’s changed.

“Someone, what’s happening!”

Lauren snapped to her feet and yelled out to the outside.

A subordinate quickly ran in and said to Lauren.

“Boss Lauren, there seems to have been a violent explosion over at the Island Master’s residence.”

“According to our spies, it seems that the Island Master’s Mansion has touched off the missile cart!”

A strong look of scorn flashed across Lauren’s eyes.

“Are you guys sure it was the forces of the Island Lord’s House?”

“Positive.”

The handlers nodded very definitely.

“We saw Island Master Ling Ziyao and Mr Molin of the Great Circle Gang not far from the missile cart.”

“It looks like they’re leading this wave of attacks.”

Lauren nodded and waved his hand for his men to go down .

But the original scorn for the Island Master’s House in his eyes had turned into a look of awe.

Which mysterious and unpredictable Mr. Morin was completely united with the Island Master’s House?

Lauren’s gaze then looked towards Elder Wang and said softly.

“Elder Wang, I’ll have someone send you back, and the rest of the final payment will be credited to your card later.”

Wang Lao nodded quietly and didn’t say anything more.

Lauren’s eyes looked through the window at the huge black smoke rising from the distant sky.

“Perhaps it’s time for me to think about finding a place to retire.”

The Great Circle Gang’s quarters.

The current Big Circle Gang was under Xu Chu’s strict supervision.

It had changed from its previous style of being a gang that did no evil.

Instead, it was gradually moving towards a militarised management.

Originally, one single villa was sold by Xu Chu and replaced with a dormitory building.

However, all the members of the Big Circle Gang had a far higher spirit than before.

They were all wearing Xu Chu's newly customised uniforms.

Alongside the design of the Big Circle Gang was a large character Mo.

"Remember, all of you, we owe everything we have today to Mr. Mo Lin."

"That's why we have to be loyal to Mr Maureen."

"Do you all understand?"

Under the hot sun, Xu Chu was standing in front of a group of newcomers to the gang and spoke loudly.

"We remember!"

Xu Chu nodded in satisfaction and looked at the members of the Big Circle Gang who were being trained.

There was no telling when Mr. Molin would return.

Would he have a new feeling when he saw the current Big Circle Gang then.

"Boom!"

A booming sound rang out, and everyone involuntarily raised their heads.

"Keep it all going!"

Medical Genius Unspeakable Marriage Chapter 3553

Xu Chu's yell made everyone sink into training again.

Instead, he quickly ran off into the distance.

"What's going on?"

The scout of the Great Circle Gang who had returned in a hurry reported to Xu Chu.

"Inspector General, just now the Inspector General's House Lord Braden rose up in rebellion."

"The Island Lord's House has directly launched a fire coverage!"

Fire coverage?

A gloomy look flashed across Xu Chu's eyes, "Does everyone know about this news?"

The Great Circle Gang scout shook his head.

“The people from the Island Master’s Mansion simply won’t allow them to get close to a hundred kilometres around.”

“Those guys simply can’t get a single bit of information.”

A puzzled look appeared in Xu Chu’s eyes.

“Since they can’t even get close to a hundred miles, then where did you get your information from.”

“And with such detail?”

A look of excitement suddenly appeared on the face of the Great Circle Gang’s scout and he said to Xu Chu.

“It’s because of Mr. Molin!”

Xu Chu slowly nodded his head.

The matter of Mo Lin being invited to meet by Ling Zixiao during the previous Life and Death Tournament had become a ruckus.

It was probably because of this reason that the people from the Island Master’s Mansion did not stop the Great Circle Gang.

“Next time when you spy, try not to make exceptions if it’s about the Island Master’s House.”

“They can let us in once for the sake of the Island Master and Mr Maureen.”

“But if it goes on for a long time, this face will be useless.”

Seeing that Xu Chu had clearly misunderstood his meaning.

A helpless look appeared on the scout’s face as he explained to Xu Chu.

“Inspector, I didn’t mean that they let me in for Lord Molin’s sake.”

Xu Chu’s face changed slightly, “You used Lord Molin’s name?”

Xu Chu’s voice had gone a little colder as he spoke those words.

“No it’s not!”

“It’s Mr. Molin who has returned, right over at the Island Master’s residence!”

The scout was startled and hurried to tell the whole story.

“Mr. Molin saw me when I went over there earlier.”

“And handed me in straight away, and it was Mr. Molin who told me what had just happened.”

“And Mr Maureen also said that he was very pleased with the current Big Circle Gang and that the inspector was doing a good job.”

“When he is done with his work, he will personally come to the Great Circle Gang.”

After hearing the scout's words, Xu Chu's face fiercely revealed a joyful look.

"You mean to say that Mr. Molin has returned!"

"Right."

"Hahahaha, you can go back now."

"Rest for a month, go get 10,000 Maple Leaf Coins and rest, just say it's from me."

Xu Chu's figure directly turned around and left.

The scout stood in place somewhat bewildered, but after hearing Xu Chu's reward.

A strong look of joy immediately appeared on his face.

He had received 10,000 Maple Leaf Coins and a month's vacation directly for nothing.

The sense of belonging to the Great Circle Gang in his heart grew stronger and stronger.

Xu Chu quickly went back to his room.

A one-room flat.

On top of one, he deliberately took out the clothes he was wearing when he first met Lin Mo.

Changing the vest off of himself.

Revealing the dense scars on Xu Chu's body and the powerful muscles all over his body.

The loose-fitting clothes once again covered Xu Chu's body.

Ever since the last time Lin Mo had expressed his 100% trust in Xu Chu.

Xu Chu had become Lin Mo's loyal disciple.

He would propagate Lin Mo's deeds and greatness inside the Great Circle Gang when he had nothing to do.

At this moment, Xu Chu, who had heard of Lin Mo's return, was also very excited.

He desperately wanted to tell Lin Mo.

He, Xu Chu, had not let down Lin Mo's expectations and trust.

Quickly walking out of the room, Xu Chu said to his men.

"Go and prepare a car for me, I will go down immediately."

"Yes."

Xu Chu grabbed some things and quickly went downstairs.

Happy as a headless child

Medical Genius Unspeakable Marriage Chapter 3554

Inside the island master's residence.

Ling Zixiao had a gentle face as he plied Ling Ziyao with dishes.

Ling Zhong was left where he was to deal with the remaining scattered rebels.

He and Lin Mo, on the other hand, both followed Ling Ziyao back to the Island Master's residence.

Ling Zhong had been Ling Zixiao's subordinate before.

Later, Ling Zixiao was a*sa*sinated by Braden and sent to the Great Wheel of Death.

Without a target, Ling Zhong went to serve Ling Zixiao's sister, Ling Ziyao.

He also helped Ling Ziyao when she disguised her identity as Ling Zixiao.

"Brother, I really can't finish it."

Ling Ziyao looked at the bowl of rice that was almost piled up to the tip of a mountain.

Although the long-awaited care from her brother made Ling Ziyao's heart very warm.

But Ling Ziyao's usual meal size was only a small bowl.

So much could not be finished at all.

"Ah Yao, you're the island master now."

"Eat more, brother is not asking you to be able to be as powerful as Mr. Molin, but we still need to increase our resistance to beatings."

"You don't know, when brother heard that Wu Ping's words today, he almost died of anger."

Ling Zixiao once again picked up a piece of meat and placed it in Ling Ziyao's bowl, speaking bitterly.

And not forgetting to show kindness by putting a chicken leg in Lin Mo's bowl.

"By the way, where did that doggone thing go?"

Looking at Ling Zixiao, who used to be elegant and kind, was now cursing a bit.

A devastating smile appeared on Ling Ziyao's absolutely beautiful face.

That smile was like the warm sun on a spring day, making people involuntarily increase their goodwill towards Ling Ziyao.

"Let it go."

"Uncle Wu is a friend to father in life and death after all, we can't just kill him and let Uncle Wu break off?"

Ling Zixiao's face showed a very uncomfortable expression, looking puffed up with anger.

"How dare you f*cking threaten my sister, if not for Uncle Wu's sake."

“I’ll definitely hang him outside the Island Master’s residence for three days and nights.”

Lin Mo watched the cozy scene between the two and quietly ate his meal without making a sound to disturb them.

“Right brother, you mentioned earlier that Mo Lin found you on that boat, then what happened?”

Ling Ziyao suddenly spoke out, looking at Ling Zixiao with slight anticipation.

“Afterwards ah

Ling Zixiao looked at Lin Mo and smiled heatedly.

“Mr. Molin helped me control the compulsion in my body, and I also got feedback from the compulsion.”

“Then Mr. Molin took me back to the third level, and then we came back.”

Ling Ziyao told a long story about what happened after Lin Mo met himself in a general manner.

Ling Ziyao looked at Mo Lin and said softly with a smile on her face.

“Mr. Mo Lin, it is thanks to you that my brother has returned.”

“The Island Master’s House will be your most reliable friend from now on.”

Ling Ziyao looked at Lin Mo’s handsome and somewhat stern face with a slight look of anticipation in her eyes.

From the original mystery Lin Mo had given Ling Ziyao to the gratitude he felt now that he had saved his brother.

Lin Mo smiled faintly at Ling Ziyao.

“Which is many thanks to Island Master Ling.”

Ling Zixiao looked at Lin Mo and smiled directly to.

“Mr. Mo Lin doesn’t need to address my family sister like that, it’s too polite.”

“It’s fine to call Ah Yao or Ziyao directly.”

Lin Mo hesitated for a moment, “Is it a little inappropriate?”

“Appropriate!”

Lin Mo and Ling Zixiao’s faces froze.

Involuntarily, they glanced at Ling Ziyao who was sitting at one side.

Ling Ziyao also realised that the way she had just spoken out was somewhat inappropriate for a girl’s family.

A blush of shame immediately appeared on her white and tender face.

"I mean, Molin you don't have to be so polite about it."

"You've helped my Island Master's House many times, and even more so, you saved my brother."

Only then did Ling Zixiao nod his head.

However, the look he gave between Ling Ziyao and Lin Mo was somewhat suspicious.

There was something wrong with this...

Medical Genius Unspeakable Marriage Chapter 3555

After eating, Lin Mo bid farewell to the two men and headed outside.

Earlier, Lin Mo happened to see the scouts of the Great Circle Gang.

He himself had planned to go to where the Great Circle Gang was to have a look, and now he happened to have nothing to do.

Lin Mo also wanted to see if Xu Chu, who he had chosen earlier, was capable or not.

"My subordinate Xu Chu, meet Boss Mo Lin!"

He had just walked out of the gate of the Island Master's residence.

A very loud voice rang out straight away.

Lin Mo looked sideways, only to see Xu Chu standing respectfully not far away.

"Why are you here?"

Lin Mo was a little surprised as he looked at Xu Chu and asked in a soft voice.

He had purposely told his scouts earlier that he would be making a trip to the Great Circle Gang.

There was absolutely no need for Xu Chu to come over to greet himself.

"When I heard that you had returned, I was so excited that I ran over here."

"I hope that Boss Mo Lin will not be angry."

Lin Mo looked at Xu Chu and a faint smile appeared on his face.

"There is no need to be so, I don't care much above the formalities."

"You can let go a little."

When Xu Chu heard Lin Mo's words, the tense expression on his face was slightly relaxed.

"Boss Molin, this is the development direction as well as the policy of the Great Circle Gang over this period of time."

"I thought you would need it, so I took the liberty of bringing it over."

Lin Mo's long and slender fingers took the document handed to him by Xu Chu.

Only inwardly, his appreciation for Xu Chu went up a few more points.

This guy was also the person on the West Vientiane Islands who was most in line with Lin Mo's heart.

He was a completely intelligent person.

Turning over the document handed over by Xu Chu, Lin Mo flipped it open and scanned it.

But then Lin Mo's expression became slightly unnatural.

"Where did you see this thing from?"

Lin Mo's finger tapped on a line on the document.

Xu Chu came over and took a look at it, and a smile appeared on his face.

"Boss Mo Lin, you said this."

"This I learned about over in China."

"It sums up most of the concept of socialism through a simple twenty-four words, which I think is pretty good."

Lin Mo nodded and continued to look towards the back.

But the more he read, the clearer Lin Mo's inner conception of Xu Chu became.

"It's really a pity that this guy Xu Chu doesn't go to the military school to become an instructor."

This regulation in Lin Mo's hand was so clear that it could be said to be comparable to the extent of a military school.

Even the neatness of the bed after getting up every morning was outlined.

"Can they abide by it if you customise it so much?"

Xu Chu shook his head, "When I issued this regulation at the time, it was met with explicit resistance from sixty percent of the people."

"But my subordinate felt that instead of changing it slightly, the Great Circle Gang should just do some remodelling from the bottom."

"It became what it is now, a place that carries the name of the Big Circle Gang, but is actually a military school, and I have divided it into other departments."

"Procurement, finance, and most of all, operations."

The two men chatted as they kept walking towards the front.

"Lord Xu Chu?"

"These are the eggs my hens just laid today, you can take them back and cook them, they'll be tonic."

A woman who had burn marks all over half of her face rushed up after seeing Xu Chu.

Her face was so terrifying that it was enough to frighten small children.

Xu Chu looked at the woman and a helpless smile appeared on her face.

“Sister Liu, you should save this egg for yourself for Little Ya to eat.”

“It won’t do for Xiao Ya that child to be so thin.”

The woman looked at Xu Chu and said stubbornly.

“No, that’s what you say every day.”

“You must take it this time, if it wasn’t for you before.”

“We mother and daughter would have been unsure if we would still be alive.”

Xu Chu sighed and helplessly took

the egg from her hand.

“Thank you, then.”

Medical Genius Unspeakable Marriage Chapter 3556

Only after the woman had left did Xu Chu look at Lin Mo and say with a bitter smile.

“Earlier, she and her daughter encountered thugs and it just so happened that I was around.”

“After that which older sister started to keep having to give me eggs and such as a thank you.”

“That’s a good sign, isn’t it?”

Lin Mo smiled and continued to lead Xu Chu forward.

“One, two, three, four!”

Neat slogans rang out in the distance.

This was followed by the gradual sound of neat footsteps, as a team dressed in camouflage uniforms quickly appeared from the distance.

“Boss Molin, this is the fresh blood of our Big Circle Gang.”

“They are all people I have selected from the island who have been trafficked here or strayed here.”

“Without the hostility as well as the fury of the criminals, these people are also the mainstay of our future.”

Lin Mo’s eyes looked at those people whose bodies were covered in sweat.

Their faces were filled with smiles and full of energy.

“Very good.”

After arriving at the office, Lin Mo’s face, which was originally wearing a smile, gradually calmed down.

“How are the things I arranged for you earlier already done?”

Lin Mo had slipped a note into Xu Chu’s hand before.

On that was written the policies that Lin Mo had arranged as well as the developments.

“Boss Mo Lin, I have already investigated the entire Big Circle Gang.”

Xu Chu brought a report over from the table and said to Lin Mo.

“All the ones in this report are guys who have had major criminal backgrounds before.”

Lin Mo opened the report handed over by Xu Chu, and his eyes skimmed over the information on it one by one.

“A has, an S-cla*s wanted criminal in the True Rasta country, once fireproofed a village to ashes and smothered several hundred people all alive to become dry corpses.”

“Jacob Tom, a wanted man in the maple country ss cla*s, once led a hijacking of a high school.

Killed all the boys inside as well as the teachers, leaving only the good-looking girls as hostages, and humiliated all the girls, blowing them all up with bombs at the end!”

“.....”

Lin Mo looked at a message report on the document in his hand.

A cold colour gradually emerged under his eyes.

Such a guy would definitely not live in peace even if he joined the Great Circle Gang.

“The guys on here will all be disposed of directly and secretly.”

“As for the corpses of them and others, just do it for animal care charity.”

The document in Lin Mo’s hand was gently placed on the ground, resounding with a “pop” sound.

Although Lin Mo’s face did not change much.

However, Xu Chu clearly knew that Boss Mo Lin had already killed these people.

“Yes, I’ll have someone dispose of them secretly.”

Xu Chu took Lin Mo’s words to heart.

And decided that when the time came, he would definitely not let this group of sin-filled fellows die so easily.

“How is the other matter inquired about?”

Xu Chu’s face also revealed a gloomy look.

"My subordinate has questioned all of the original Red Stick Wu San's cronies within this Big Circle Gang."

"In the end, we got a result that previously, Wu San and Nie Qing had left together for a period of time."

"But not long after that, Wu San came back and was very annoyed, it looks like he failed."

Lin Mo nodded, "So are there any other clues?"

"Did you find out where the place Wu San had gone before was?"

This was a very remarkable clue, Wu San had once travelled to a place with Nie Qing.

Instead, Wu San came back quickly and was very annoyed, and it looked like he should have failed.

And it was during that time that Nie Qing disappeared, only to come back and spend money lavishly.

It was as if he wasn't even worried about spending all his money.

Where the hell had they gone?

And why did Wu San return from his failed attempt?

What did Nie Qing do during that time?

Medical Genius Unspeakable Marriage Chapter 3557

Xu Chu got up and pulled the office door as well as the curtains all the way shut.

"Originally, my subordinates also thought it was a very simple matter."

"But then it was discovered based on the lines that were pieced together based on the only words and other fragments from those within the gang."

"When the place that Wu San and Nie Qing went to before Death Island!"

Xu Chu's face was all gloomy.

Clearly the existence of Death Island was very oppressive to him.

"Death Island"

Xu Chu nodded his head and pointed his finger at the map of the West Vientiane Islands hanging on the wall.

"The area of Death Island can be said to be among the top within the West Wanxiang Islands."

"If we were to make an estimate based on the estimated area of our Ling Island, it would be roughly the size of four or five Ling Islands, with an area roughly as large as 300,000 square metres."

"But the distribution of forces up there is completely different from our islands."

“There is simply no single official major power like the Island Master’s House as well as the Inspector’s House on Death Island.”

Xu Chu took out a very precisely packaged document from the drawer.

“This document was something I started collecting once I knew that their purpose was Death Island.”

“But for some reason, those usual intelligence dealers as well as the black market.”

“When they heard about Death Island, they all fell silent at once.”

“It was as if the information of Death Island was a taboo to them.”

“In the end, I found an information peddler and spent a huge amount of money to get just a few words from him.”

“The forces of the Isle of the Dead are divided into thirteen neighbourhoods, with each ruling within the neighbourhoods.”

“Some of the neighbourhoods are even very chaotic and not unified, and the other neighbourhoods see them as fat meat in their eyes.”

“Block One has the most power, and again the environment is considered slightly more peaceful.”

“Block two has impartial law enforcement and upholds the rule of law, where even cursing will get your legs scrapped.”

“The chaos of neighbourhood three, where no one is in control and the neighbourhood is full of forces.”

“The economy of Block Four is also the most economically developed in the whole of Death Island.”

“The other neighbourhoods are either barely ruled by one person, or a cluster of several forces.”

“But the last black market block!”

Xu Chu looked at Lin Mo and spoke out all of the guesses in his mind.

“The last block, also known as Block 13, is the home base of the black merchants.”

“Where humans, animals, sharks, and even positions in various countries.”

“There is nothing you can’t get anywhere if you want it.”

Lin Mo also opened the envelope in his hand and read the contents.

It was very fragmented.

This was the first feeling given to Lin Mo.

“Block 13 Black Merchant Morton, Gate 403?”

Lin Mo looked at the two sentences on it with a somewhat puzzled look in his eyes.

Why would that intelligence peddler write these two sentences on top of the intelligence.

Lin Mo looked through all the intelligence and found that there were only these two sentences.

While the other pages were all a blank sheet of paper.

“These are the only two messages that intelligence peddler gave us.”

“He said that if he said any more, someone would come up to claim his life.”

Lin Mo’s hand rubbed the paper gently, a thoughtful look in his eyes.

“He was telling us that if we went to Death Island, we could go to the Black Merchant Morton first and then go to Shop 403 afterwards.”

“Where we will learn what we want on the other side.”

A look of dismay appeared on Xu Chu’s face.

“How did you see that?”

A light smile appeared on Lin Mo’s face, “The intelligence peddler told me.”

“Alright, now prepare the ship for Death Island.”

“Where is a hundred kilometres away from Ling Island, prepare the speed type vessel.”

Xu Chu suppressed the doubts inside him, “Yes!”

Medical Genius Unspeakable Marriage Chapter 3558

At the dock of Ling Island, Lin Mo as well as Xu Chu stood here.

“Your direction of development is very solid, and this can continue.”

“As for the members within the gang for the time being, let’s recruit according to our situation.”

Lin Mo looked at Xu Chu and explained the things behind.

Xu Chu’s ability to do things Lin Mo was still at ease, but he was just worried that there would be some problems with the other party’s control of the direction at the back.

“Don’t worry, Mr. Mo Lin.”

“I will take care of the affairs of the Great Circle Gang.”

Xu Chu nodded, only looking at Lin Mo with some worry.

That place, Death Island, was just too chaotic for Xu Chu.

And with the current development of the Great Circle Gang, there was no way to provide Lin Mo with a boost.

This caused Xu Chu to feel a little frustrated as well as powerless.

Lin Mo gently patted Xu Chu’s shoulder and said softly.

“There is no need to be so frustrated, your development time is still too short after all.”

“But I’m at ease with your ability to get things done, that’s why I’ve always been able to rest assured with the Great Circle Gang.”

Xu Chu nodded silently, only to think inwardly.

I feel that I cannot fail Mr. Molin’s high expectations!

The Great Circle Gang’s ship slowly docked at the pier.

“I’ll set sail first.”

“Mr. Molin, you take care on your journey.”

Xu Chu looked at Lin Mo’s upright back and said softly.

“Molin!”

Suddenly, a delicate voice sounded out abruptly in the distance.

Ling Ziyao, dressed in a gorgeous purple robe, quickly ran over.

Looking at Lin Mo who was about to upload, Ling Ziyao said loudly.

“You must be careful and return unharmed!”

Looking at Ling Ziyao’s red and smiling face from running so fast, the corners of Lin Mo’s mouth unconsciously curled up into a smile.

“Good, I’ll treat you and your brother to dinner when I come back.”

“Of course, you guys pay.”

At this moment, the ever-steady Lin Mo smiled and joked at Ling Ziyao.

He then stopped stopping and stepped directly into the not too big nor too small vessel.

Ling Ziyao and Xu Chu watched as this vessel disappeared into the distant sky.

.....

There was a small island outside of Ling Island.

This was a black market, and most of the black merchants liked it very much.

Small targets, lots of woods, easy to defend and difficult to run away from.

It was a paradise for them.

At the edge of the island, outside a very shabby schoolyard.

A group of black-robed men were standing here at the moment, looking at the information in their hands.

“Is that him?”

“According to the intelligence, the guy who betrayed the information about Death Island without permission is inside.”

The black-robed man at the head of the group said in a cold voice, “Since we’re sure, let’s just deal with him according to the rules.”

Their figures instantly disappeared from the spot like ghosts.

They then appeared in the courtyard.

The gaze of the man in black at the head looked coldly at the intelligence merchant who seemed to have known that they were coming.

“Since you know that we are back, then you should know the price of leaking information about Death Island.”

The intelligence trader looked at them with a somewhat nervous look in his eyes.

But for the sake of his own life, he forced a bland look on his face.

“I only gave him just a few words for what it’s worth, not exactly a leak, I guess.”

“Any mention of Death Island is considered a breach of Block One’s rules.”

“You, as a previous spy of Block One, wouldn’t be unaware of this information, would you?”

The man in black’s words were filled with an icy coldness.

The palm of his hand slowly raised, and a powerful crossbow instantly appeared in the hands of the black-clothed men around him.

The intelligence trafficker who was originally sitting on a chair saw the crossbows in their hands.

“You guys are from the Hundred Soldiers Group, I’m just a third level leak.”

“Why would you guys be the ones to deal with me!”

His face was incomparably white at the moment.

The man in black ignored him and just gently lowered his hand.

“Swoosh!”

Dozens of crossbow arrows were fired at once.

Medical Genius Unspeakable Marriage Chapter 3559

On top of the ship, Lin Mo looked at the navigational chart in his hand.

“If we want to reach Death Island, we still have to pass through Shark Bay as well as the deep sea fetch area?”

Lin Mo looked at the captain in front of him and asked out loud.

"That's right, Lord Molin you may not know the horrors of these two places."

A look of fear suddenly appeared on the captain's face.

"Which Shark Bay alone is responsible for as many as hundreds of thousands of deaths every year."

"There are even several giant ships that have folded inside Shark Bay."

Giant ships?

A curious look appeared on Lin Mo's face.

If it was just some sharks, why were the giant ships all folded and sunken somewhere?

"Not bad, Mr. Molin you should not think that the sharks in Shark Bay are powerless against the giant ships."

"The sharks used to act alone, but the sharks in Shark Bay seem to be very united."

"Thousands of their sharks could be at one time regardless of the other ships."

"Just go and attack that one, and that's the reason for so many shipwrecks every year."

The captain seemed to have thought of something and his face went a little white.

"And the sharks inside Shark Bay are all very huge, each one is about six or seven metres."

"There are even sharks of tens of metres in the larger ones, and their teeth can easily bite through a person's body."

Lin Mo's brow furrowed slightly.

If this was according to the captain, then those sharks were indeed not to be underestimated.

Especially for a smaller vessel like himself.

But they were only a bit of a nuisance to Lin Mo.

If Lin Mo really went on a killing spree, those sharks wouldn't be enough for him to kill.

"No more than worrying, when you get to Shark Bay you can take another boat back."

Lin Mo looked at the captain in front of him and understood that the other party was very reluctant to go.

So he directly spoke out to comfort the captain.

Lin Mo also had some knowledge of how to handle a boat.

Even if he drove the boat alone, he would be able to reach Death Island unharmed.

After hearing Lin Mo's words, the captain's face steeped in joy.

"Many more Mr. Mo Lin!"

This time, if it wasn't for the fact that Inspector Xu Chu's ambassador had run to his home.

The captain really did not want to get this errand, it was just too dangerous.

The annual probability of passing Shark Bay was thirty-five percent.

And the probability of passing through the deep sea area was even lower at ten percent.

That's one of the reasons for the name Death Island.

The island has steep cliffs on all sides.

There was no way to get on, and this was the only way to enter Death Island.

"Mr Maureen, if you are going through Shark Bay to the Deep Sea area."

"Be sure to pass swiftly in daylight, there are great terrors at night"

The captain's tone was very heavy when he said this.

The location of the West Vientiane Islands itself was deep in the Western Ocean.

The formation of this island was also due to very fortuitous reasons.

So in some parts of the island, there are deep sea areas.

There is a distance of more than 10,000 sides from the surface of the sea to the bottom of the sea.

And in such an environment, some terrifying creatures are bred right out of it.

"There was a huge ship before that, relying on its size, crossed the deep water zone directly when it was dark."

"They got halfway across without any problems, but then the next."

"A very large and terrifying tentacle broke right through the sea and climbed onto the ship."

"Immediately afterwards, dozens of tentacles appeared from the sea and climbed on top of the huge ship."

"At that time the huge ship, which was made of fine iron, gradually twisted and broke under the power of the tentacles."

"Of the more than two thousand people on the entire giant ship, only one survived and was seriously injured."

"That horrible creature, according to his account, was one."

"An octopus!"

Medical Genius Unspeakable Marriage Chapter 3560

After a day and a night of driving.

Lin Mo and the captain's position had gradually approached Shark Bay.

“How much further can we reach the waters of Shark Bay?”

The captain’s gaze looked at the sea map on the ship and made a comparison with the surrounding waters.

“Mr. Molin, we still have a dozen kilometres to go before we enter the waters of Shark Bay.”

Lin Mo nodded at him, “Is there any place nearby where we can disembark safely?”

A hesitant look appeared on the captain’s face, “Mr Molin, there are simply no other islands around here.”

As the two men spoke.

“Bang!”

The water next to the ship violently shook violently.

A shell exploded directly in the water, and the turbulence of the water rushed Lin Mo’s boat and rocked it.

In the distance, a flaming ship fled in the direction of the sea.

Behind him, another battleship darted after him.

A volley of shells was fired from the top of the battleship at the burning ship in front of it.

The bombs that had just exploded around the ship had been sent from that battleship.

The captain’s gaze looked at the ship and the battleship that were coming at great speed and his face changed slightly.

The captain’s gaze then looked towards Lin Mo and asked in a soft voice.

“Mr. Molin, what do we do now?”

Lin Mo’s gaze looked at the two ships and shook his head as he said.

“Don’t bother with them, we’ll just go straight away.”

Lin Mo didn’t want to get involved in their feud or anything like that.

As long as they didn’t get involved in Lin Mo’s affairs, then Lin Mo wouldn’t bother with them either.

On the ship that was on fire, a man was looking at the battleship that was in hot pursuit behind him with a heavy face.

“D*mn it, a bunch of dogs.”

“If I go back, I’ll make sure the boss kills you motherf*ckers.”

He cursed and looked at the figures on the battleship behind him.

After seeing Lin Mo’s ship ahead of him, the man’s gaze narrowed slightly, then he quickly turned the steering wheel to make sure the ship wouldn’t load up.

After doing this, the man looked at the ragged crowd of people on the ship.

“D*mn the Human Serpents!”

He did not continue to speak, but concentrated on the battleship that was chasing behind him.

On board the battleship, a man with a beaten, bare-chested face was lazily sipping the red wine in his hand.

“What a stubborn resistance.”

Looking ahead at the ship that kept going even though it was already heavily wounded, he laughed lightly.

“Keep shelling him, but don’t kill him all at once.”

“I want them to be constantly torn between despair and hope, hahaha.”

Suddenly, the man’s gaze looked to the side of the ship where Lin Mo was.

“Are there actually other people?”

But then an amused look appeared on his face and he laughed out loud.

“Tell that ship to stop the boat immediately now and call out all the treasures, or else go feed the sharks inside Shark Bay!”

“Yes.”

The handlers immediately went to the flag bearer to deliver the message.

At once, the flag bearer on top of the battleship stood on high, holding two small flags in his hands and started waving them.

This was the international set of flags in common use.

It probably meant to say leave and surrender now, or else we will attack your side.

The captain who was manning the ship had an ugly expression on his face when he saw the flag bearer on the battleship waving continuously.

He hurriedly turned his head to look at Lin Mo and said sharply.

“Mr. Molin, it’s not good.”

“That warship has launched a warning to us, asking us to stop the ship into surrender immediately, or else they will attack immediately.”

Lin Mo, who was still calm and waiting to move forward, narrowed his eyes slightly when he heard the captain’s words.

Sure enough, in a place like the West Vientiane Islands, getting along properly was impossible.
