

## Genius 3571

### Medical Genius Unspeakable Marriage Chapter 3571

“Mr. Maureen, it looks like we’re being watched too.”

Ryan’s face was a little ugly as he stared at one of the sharks prowling in the water.

Lin Mo looked at Ryan and said, “What did you all do to deal with being targeted before?”

“A powerful fire deterrent.”

Ryan stated his previous solution.

“These sharks seem to think, as long as your firepower is greater than the food they can get.”

“Then the guys will simply give up on you and move on to other targets.”

Lin Mo’s gaze turned to the sea that was constantly circling.

It was as if they were looking for an opportunity to swarm the sharks.

“Is there any firepower on this ship that can deter them?”

Ryan shook his head.

“We’ve used weapons like sonic and such before.”

“But this ship doesn’t have any at all, and has stored firepower that would be used if it were.”

“It would definitely ripple through us.”

Lin Mo nodded, “Then let’s leave them alone for now.”

“They’re just constantly hovering at the bottom of our ship even now.”

“Let’s wait until whenever they’re about to start attacking.”

The sharks prowling underneath the Human Snake Battleship were to Lin Mo.

There really wasn’t a single shark that could last until Lin Mo’s second move.

Therefore, Lin Mo did not have a single worry about those sharks.

Seeing that Lin Mo was not worried, the tension within Ryan’s heart slowly eased down.

Even Lin Mo carried out two sun loungers and two bottles of soft drinks from inside the cabin.

Looking at Lin Mo lying on top of the sun loungers.

Ryan swallowed a mouthful of spit somewhat at a loss for words.

This was Shark Bay!

Thousands of sharks were prowling in the sea below the boat.

When Ryan had passed through Shark Bay before, it was with caution.

Not once had he ever been so relaxed as Lin Mo was now.

Ryan struggled for a few minutes and finally .....

He also chose to lie flat.

Lying on the soft beach chair, Ryan took a sip of the still chilled soda in his hand.

A feeling of refreshment rose up from within.

I've been careful all my life, but I can't enjoy it?

Compared to Lin Mo and Ryan's relaxation on the Human Snake, the other ships were filled with panic.

The other ships were filled with panic and blood at the moment.

One ship was even bigger than the Human Serpent's battleship.

The situation was very bleak at the moment.

Sharks were appearing from all over the sea.

As if they weren't afraid of any pain at all, they hit the deck with great ferocity.

The sailors on deck were killed and injured.

Some of the sailors were bitten off by the sharks.

Some sailors were dragged straight down to the bottom.

The captain in the Cockpit had an anxious as well as serious face.

"Block, fire the rockets and blow up the Damn sharks!"

One of the sailors fired a rocket at once.

But even so, the power of the gunpowder was cut in half when it entered the water.

It took dozens of expensive rockets to kill a few dozen sharks.

The captain's face was in a terrible state.

He was about to give a new order.

A shark suddenly appeared outside the Cockpit.

The bloody maw opened directly at the captain.

.....

On board the Human Snake warship.

Lin Mo took a sip of the soda in his hand and said to Ryan.

"Do you know why these guys are so neatly distributed?"

This was a discovery Lin Mo had made earlier, all the sharks underneath the ships had just started.

It was all the same base number, no more, no less.

But along with the attacks from the sharks and the stimulation of blood.

Some of the boats would have more sharks underneath.

Ryan said with some confusion.

“Isn’t it because of the trend and the leadership of those shark leaders?”

Ling shook his head and spoke with a somewhat deeper gaze.

“How can it be held down if it’s just a few shark leaders?”

### **Medical Genius Unspeakable Marriage Chapter 3572**

Ryan’s expression froze when he heard Lin Mo’s words.

It wasn’t the shark-headed ridge that made the sharks do this.

Couldn’t there be other sharks?

Just as Ryan was puzzled, Lin Mo stood up.

Slowly walking to the edge of the deck, Lin Mo’s gaze looked at the sea.

But it was as if he was not looking at the sea.

At this moment, Lin Mo’s gaze pierced through the sea.

It gathered straight on the behemoth that was lying on the bottom of the sea, resting.

“How could the shark leader possibly overpower hundreds of sharks.”

“To make those sharks listen, there has to be a terrifying presence.”

Lin Mo’s muttering caused the look of doubt on Ryan’s face to grow even heavier.

Suddenly, Lin Mo’s gaze abruptly stared.

The fellow at the bottom of the sea had awakened!

Along with the awakening of the huge shark at the bottom of the sea, the sharks that were still frantically attacking the human ships.

One by one, they didn’t care if there was still food in front of them.

They swam straight towards the bottom of the sea.

Such a scene made everyone blinded.

Ryan’s face was also dumbfounded when he saw such a strange scene.

From Lin Mo's odd words just now to the strange behaviour of the sharks now.

"No need to be confused, it's just that their king has woken up."

Lin Mo gave Ryan a look and explained softly.

"Their king?"

Ryan's eyes were tinged with bewilderment.

He had been on this side of Shark Bay for over a dozen trips and had never known.

The sharks of Shark Bay actually had this thing about a king.

"That's right, that guy was the one who set their distribution before."

"It seems that it knows that this is the way to Death Island, as long as it guards it."

"For them, there will be a constant stream of food running over on its own."

Lin Mo's words caused a look of horror to appear in Ryan's eyes.

If there really was such an intelligent shark king among those sharks.

And according to what Mr. Molin said, that shark king had even awakened.

Could he and the others really still leave safely?

In the darkness of the ocean floor.

The huge shark that had been sleeping slowly moved its body at this moment.

Then without looking, it directly opened its huge mouth and devoured dozens of sharks.

Only after it had finished eating did it seem to be much more comfortable and move its tail.

The huge shark seemed to have sensed something.

It rushed straight and fast towards the surface.

And the sharks that had originally gathered over also quickly followed the huge shark towards the surface of the sea at this moment.

On the surface of the sea, one by one, the people who originally felt they were safe.

When they saw the rapidly growing shadows in the sea, their faces changed dramatically.

"Alert!"

"The sharks are coming again!"

On the Human Serpent warship, Ryan looked at the rapidly enlarging black shadow and spoke in shock.

"Mr. Morin, is that their king?"

Lin Mo nodded to confirm Ryan's suspicions.

“Not bad, if I’m not mistaken.”

“That shark king is a kind of shark that should have been extinct a long time ago.”

“But now it has actually appeared here in the West Vientiane Islands.”

“Their bodies can reach up to tens of thousands of tons, and they are undeniable ocean overlords.”

Hearing Lin Mo’s words, a look of despair gradually emerged on Ryan’s face.

“Mr. Molin, facing such a behemoth .....

“Will we really be able to survive?”

Lin Mo looked at the look of despair on Ryan’s face and a smile appeared on his face.

“Ryan, one must not move to despair.”

“Because no one can give a guarantee that we will have that one chance of survival?”

“Bang!”

A loud sound rang out violently from the water.

All the people on top of the boats all revealed a look of horror at this moment.

Their eyes all looked at the behemoth revealed in the middle of the sea.

“It’s over .....

### **Medical Genius Unspeakable Marriage Chapter 3573**

Their eyes looked at the centre of the sea.

The behemoth that showed some of its body.

The grey-brown skin was full of hardness.

The bloody mouth made everyone feel like it could snap the ship in one bite.

Ryan’s eyes looked at the ma\*sive shark.

No.

Maybe it was out of the shark’s range.

His ma\*sive body was 40 or 50 metres long.

Ryan’s eyes couldn’t help but look angry with fear.

“Nothing.”

A hand rested on Ryan’s shoulder.

Ryan’s heart, which had been somewhat fearful, was actually inexplicably rea\*sured.

“Fire on him now!”

“Or we’ll all be dead by the time he reacts!”

Suddenly, the captain of one of the ships came back to his senses.

He shouted frantically directly at his crew.

The crew looked at the captain and felt that he had a very good point.

So they aimed the ship’s main guns directly at the ma\*sive shark in the sea.

While the others were still in shock, a cannonball slammed into the ma\*sive shark in the sea.

The shell exploded violently into the huge shark’s body.

The power of the shell blew a hideous wound into the body of the shark.

“Roar!”

The pain caused the shark to roar.

Looking at the ship that fired the cannonball to blow itself up, the huge shark rammed straight through.

At once, the ship originally made of steel was directly hit by the huge shark from the side with a huge gaping hole.

The sea water immediately gushed into the interior of the ship along with this gaping hole.

Along with the sea water flowed in, a hideous shark.

Everyone on the other boats looked at the huge shark that had gone berserk with pain.

One by one, they cursed the man who had opened fire.

Now, it looked like they would not be able to leave.

“All hands, aim at the big guy and fire!”

In an instant, these wily old foxes came up with a common answer.

The shells poured into the huge shark’s body like they were nothing.

As Ryan watched this scene, his gaze instantly looked towards Lin Mo.

“Mr. Molin, should we follow the firing?”

Lin Mo shook his head and replied, “Let’s just sail away.”

Those guys saw the huge shark let out a painful scream.

Thinking that an attack like that could cause damage to the latter?

They wouldn’t even know that the Shanghai just like that was only a superficial wound to a creature like the huge shark.

It was just a superficial wound.

As for why the screams of pain .....

You have a wound on your body, take seawater and sprinkle it on.

It is a person to scream out in pain.

The wounds on a huge shark are even bigger.

The area in contact with the seawater was also bigger.

“Yes.”

Ryan went straight to the bridge quickly and turned the ship, which was moving slowly forward, into a fast forward motion.

The fast forward movement of the Human Serpent warship instantly caught everyone’s attention.

“They actually dare to run straight ahead?”

A burly man’s face instantly showed his anger.

But looking at the ferociously huge shark, he didn’t dare to have the slightest distraction of fire.

He just gave a fierce glance at the Human Snake warship that was moving away.

Next time I meet you, I will definitely sink you.

As the human snake battleship faded away, a look of relief slowly appeared on Ryan’s face.

The oppressive feeling that the huge shark gave him was too great.

“Woo!”

Suddenly, the huge shark that was attacking the ships seemed to notice the departing Human Snake Battleship.

They let out a startling whine.

At once, swarms of sharks quickly surged towards the Human Snake Battleship.

Lin Mo’s gaze faintly frowned.

He himself hadn’t gone out to kill it.

Instead, the other side was staring at itself?

“Ryan, activate the main ship’s cannon directly and fire!”

## **Medical Genius Unspeakable Marriage Chapter 3574**

Above the Human Serpent warship.

Lin Mo's gaze looked at the swarms of sharks that were speeding in the distance.

The originally smiling expression gradually froze.

It was said that animals were more sensitive to the crisis of death than humans.

It seemed that these guys had soaked their brains in the seawater.

No, it was outright brainless.

After hearing Lin Mo's words, Ryan hurriedly ran towards the position of the main ship's cannon.

With Ryan's manipulation, the main ship's cannon moved.

The hideous appearance of the snake's head was aimed at the frantic pursuit of the water in the distance.

"Boom!"

The sound of a cannonball being fired rang out at once.

The distant water erupted violently with a stunning splash.

Hundreds of shark back cannonballs were directly blown away, and the aftermath disturbed the sharks that kept chasing.

Lin Mo's face did not change in the slightest as he continued to speak loudly.

"Keep firing!"

Ryan inside the main cannon firing chamber heard Lin Mo's voice from afar.

After taking a glance at the main ship's cannon's stored shells, there were still a full nine rounds left.

He instantly pressed his hand down on the firing button once again.

Boom!

There was another loud bang.

The sharks in pursuit were instantly killed and injured.

The four or five hundred sharks that were chasing the human serpent battleship stopped at this moment.

They began to frantically scramble for the corpses of their companions.

Lin Mo's gaze watched from afar, which caused Ryan to stop his attack.

The huge shark that was surrounded by all of them looked at the other sharks as they scrambled for the corpses.

He instantly roared loudly in anger.

"Woo!"

Although Lin Mo didn't understand the language of sharks.

However, he was able to hear strong anger as well as resignation from the words.

His movements then became even more furious.

Directly with his body, he slammed into the hull of a boat.

The hard ship was directly hit by the huge shark's body and a huge gaping hole was opened.

"Ah, help!"

"Don't eat me!"

The raging seawater immediately poured into the boat along this gaping hole.

A bloodthirsty shark also burrowed through the opening.

At once, the sound of wailing echoed throughout the ship.

This was not all, as the huge sharks, with their powerful bodies, crashed wildly into the other boats.

The ships that had been firing wildly at the shark were killed and injured.

A captain who was furthest away from the huge shark saw this scene.

Inwardly, he knew that if he continued like this, he and his men would definitely die here.

"Turn around and head in the direction of the outside of Shark Bay!"

The captain yelled to his crew.

The boats that were firing continuously stopped their attacks at once.

With the fastest speed of their lives, they hurried towards the Human Serpent warship where Lin Mo was.

But unfortunately, the huge shark in its rage had already set its sights on all the ships present.

When it saw another ship trying to run.

"Woo!"

A furious roar rang out from the sky.

Hundreds of sharks instantly attacked the runaway boat.

The captain thought of the way the Human Serpent warship had attacked earlier and immediately said loudly.

"Little ones, fire on them!"

"If we succeed in getting out of here, then when the time comes I'll take out of the slaves I've captured."

"All the women are taken out for your pleasure."

The captain had the right approach and first made a pep talk for the party.  
It filled them with morale to want to get out of this part of Shark Bay.  
But unfortunately, the main gun on top of the Human Serpent warship was very powerful.  
One blast, even if it exploded in the water, could kill hundreds of them.  
It would have killed hundreds of sharks.  
But the cannon the captain was wearing was not that powerful at all.  
Dozens of dead sharks at a time would only send the sharks into a frenzy.  
The bottom of the ship was constantly being rammed by the rampaging sharks.  
The sharks kept jumping and there were fewer and fewer people on board.  
The final draft, accompanied by the captain being swallowed by a bite from a shark leader.  
The ship, completely wiped out!

#### **Medical Genius Unspeakable Marriage Chapter 3575**

The Human Serpent warships gradually made their way outside Shark Bay.  
The twenty-one search ships that remained in Shark Bay were now down to a pitiful five.  
They quickly ran in five directions, hoping to escape the clutches of the huge sharks.  
But the enraged shark clearly wouldn't give them that chance.  
"Woo!"  
There was another loud bang as its body slammed into a huge battleship.  
A huge dent appeared in the hard hull of the battleship.  
A look of panic immediately appeared on the faces of the people on board.  
"We're being watched!"  
"It's over, it looks like we're really going to die here today."  
"Boss, I won't hide it from you now, I like my sister-in-law!"  
The huge shark mobilised itself and violently crashed into the ship again.  
Watching the scene of a ship being destroyed by the giant shark and everyone being devoured by the sharks.  
Ryan couldn't help but shudder.

Looking at the Human Snake warship, it was still a full half hour away from leaving the waters of Shark Bay.

Ryan turned to Lin Mo with a somewhat ugly face and said.

“Mr. Molin, according to this efficiency of it, it is estimated that at most ten minutes those ships will be destroyed by that shark.”

“But we’re still half an hour away from leaving Shark Bay.”

“They’ll definitely come after us, what now?”

Looking at Ryan, Lin Mo smiled lightly and shook his head.

“The soldiers will just come after us.”

The huge shark in front of him was only so huge because of the environment.

Previously, when it was in the forbidden area at the back of the Sabah divine Mountain.

That hidden existence was the one that was truly powerful.

A huge shark like this in the sea was not that difficult for Lin Mo to tackle.

Although Ryan’s face had dissipated some of his worries because of Lin Mo’s comfort.

But as he looked at the huge shark in the middle of the sea, a look of worry still flashed across his eyes.

“Bang!”

The last boat was directly broken by the huge shark.

Everyone was attacked by the sharks in a frenzy.

The huge shark turned its body and gazed at the Human Snake warship that was still rapidly leaving.

“Woo!”

A deafening roar stopped all the sharks who were still enjoying their meal.

The huge shark’s body charged violently towards the Human Serpent warship.

Behind it were thousands of sharks in dense masses.

If such a scene were placed elsewhere, it would probably be able to scare everyone.

Lin Mo, who was standing on the deck, saw the black shadow attacking frantically below the surface of the sea.

Behind the black shadow were dense fins of fish.

Lin Mo’s eyes changed slightly, and then narrowed somewhat slightly.

Bai Zhe’s palm directly gripped the hilt of Tai Ah’s sword.

It seemed that these guys had really been soaking in the water for too long.

Soaking their brains out.

“Woo!”

The huge shark let out an angry roar.

Thousands of sharks instantly and quickly approached the Human Serpent warship.

“Ryan, fire the entire firepower directly!”

Lin Mo didn’t bother to look at the active shark swarms.

His eyes simply coalesced on the massive sharks.

The main ship’s cannons, which had already stopped, instantly activated again.

A powerful cannonball was fired and exploded into the sea.

Hundreds of sharks were blown away from the raging swarm of sharks.

But the sharks were not as intimidated as before.

Their bosses were behind them.

If anyone dared to stop, it was probably time for the huge sharks to open their mouths and eat.

The special shells in the main gun are rapidly dwindling.

And along with the decrease in shells came the number of sharks in frantic pursuit.

It had fallen from thousands of sharks to the current 400 or 500.

And as soon as there were any slow swimming sharks.

Straight away they were bitten straight down by the huge sharks’ abyssal maws.

Crunch!

### **Medical Genius Unspeakable Marriage Chapter 3576**

“Mr. Molin, there are no more shells for the main ship’s cannon!”

Ryan, who was inside the main ship’s cannon control room, ran out with a jolt and said loudly to Lin Mo.

All ten cannonballs on the original Human Serpent warship had been shot out in the firing just now.

And the remaining cannonballs were all some less powerful ones.

“No harm done.”

Lin Mo’s face did not change in the slightest.

Lin Mo then turned his head to Ryan and said softly.

“There might be some bloodshed later on.”

"I suggest you go back inside the cabin first, otherwise you won't be able to ask for the clothes on you later."

The clothes Ryan was wearing were arguably the most normal clothes on a Human Serpent warship.

Other than this outfit, the others carried more or less ..... neuroses.

A look of hesitation appeared on Ryan's face, "Mr. Morin, you must live within your means."

"If you can't resist that group of guys too, please ..... must call me."

The fear of the huge sharks was all gone from Ryan's eyes at this moment.

There was only an unmistakable look of determination to die.

Lin Mo looked at Ryan's appearance and instantly let out a light laugh.

"I've told you not to move around with despair for life."

"Go back."

Ryan nodded his head in agreement, then quickly returned to the cabin.

Picking a window where he could fully see Lin Mo's figure.

His gaze was firmly fixed on Lin Mo's tall and erect back.

"Mr. Molin, if something does happen to you."

"I will definitely detonate the entire ship and let these D\*mn sharks bury you and me!"

Detonating the entire ship, a feature Ryan had just discovered earlier.

All the energy sources on top of the Human Serpent Battleship had been deliberately strung together.

And the centre of the energy sources was the most important gunpowder store on the Human Serpent Battleship.

The powder magazine on top of the Human Serpent Battleship occupied almost a third of the entire space.

Each of the eleven main cannon shells Ryan had shot out earlier weighed thirty tons.

In addition to these main cannon shells.

In addition to these main cannon shells, there were also a hundred secondary cannon shells on top of the human serpent warship.

Each of them had a capacity of one ton of powder.

In addition, the rest of the grenades, chase shells and rockets were too many to count.

Ryan roughly calculated that if this one human serpent warship detonated directly.

It could even explode into tens of millions of tons of explosive power.

Even if Lin Mo and Ryan's bones would not be left by then.

Then this Shark Bay would also be completely extinct!

Above the deck, the white robe on Lin Mo's body was continuously blown by the sea breeze.

A pair of deep eyes calmly looked at the approaching behemoth below the surface of the sea.

"Woo!"

Suddenly, a ten-meter long shark head suddenly popped out.

It opened its bloody mouth directly and bit at Lin Mo's arm.

"Shatter."

Lin Mo's whisper instantly reduced the massive shark to a puddle of shredded flesh.

At once, blood splashed towards Lin Mo.

But it was inexplicably stopped in mid-air.

In the end, the scattered blood fell helplessly, and the deck was instantly stained red.

"If you still let these guys continue to die."

"I wouldn't mind killing all these little minions first."

There was something strange in Lin Mo's pronunciation, as if he had added something else.

This huge shark Lin Mo had found after his previous observation.

It only slightly had some intelligence.

But it hadn't yet opened its spiritual intelligence and become human.

So Lin Mo used an animal's way of pronunciation to roughly convey his meaning.

If the huge shark had heard it, the meaning might have been.

"If you don't come out, I'll kill all your men."

"Poof!"

The surface of the water broke violently.

The grey skin of the huge shark broke right through the water.

A violent stench suddenly appeared.

"Roll!"

**Medical Genius Unspeakable Marriage Chapter 3577**

The huge shark's bloody maw snapped open.

Along with the huge shark came the sea water it brought out.

The whole sea was in turmoil.

A huge wave formed and followed the huge shark towards the battleship.

The stench of the huge shark swept over him, and Lin Mo immediately let out a furious shout that sounded like thunder.

“Roll!”

At the same time, a huge internal force violently erupted from Lin Mo’s body.

The huge shark’s figure was directly shaken back into the sea by Lin Mo’s outburst of internal force.

The monstrous waves that accompanied the huge shark’s attack remained unchanged.

It continued to pound towards Lin Mo in an overwhelming manner.

“Open!”

Accompanied by Lin Mo’s words.

A sharp, suggesting sky-rushing curved moon sword mane rose up into the sky.

A sword

“Snap!”

Inside the cabin.

Ryan was originally holding a bottle of wine trying to put on his guts.

But when he saw the sword aura that rushed to the sky, his whole gaze was frozen.

The bottle of wine in his hand also unknowingly fell to the ground and shattered directly.

“Is Maureen ..... so dangling?”

The monstrous wave that was originally covered directly towards the Human Snake warship was directly split in half by Lin Mo’s sword.

It instantly fell in all directions towards the two sides, with some seawater spilling onto the deck.

Lin Mo’s eyes suddenly looked towards the sky.

The sky that had been clear just a moment ago was now filled with dark clouds.

“It seems that even the heavens feel that you’ve done too many sins.”

The black shadow below the surface of the sea was nowhere to be found.

But Lin Mo knew that the huge shark must still be there.

According to its vengeful character it would definitely not just retreat so easily.

Sure enough.

“Bang!”

The hull of the Human Snake Warship was suddenly rammed hard.

That massive shark knew that the sea was its own home turf.

It wanted to destroy this Human Snake Battleship at Lin Mo’s feet.

But unfortunately, the wood used to make the keel of the Human Serpent Battleship was very hard.

Even if the huge shark’s body crashed into it with all its might, it did not do any damage at all.

Lin Mo’s gaze went to the left, “Found you.”

The Tai Ah in his hand was fiercely pulled out, and a tens of metres long sword mane instantly cut towards the sea.

The sword mane entered the sea yet it was as if there was no obstruction at all.

A hundred metres below the surface of the sea, the huge shark’s sluggish sense of life and death crisis seemed to finally appear.

It swam quickly in the other direction.

Every time its huge body moved, it could move a long way through the sea.

But to its surprise, Lin Mo’s sword mane came with its own final effect.

As long as Lin Mo still locked onto the huge shark’s breath, then it could not dodge Lin Mo’s sword mane.

The dazzling white sword mane attacked quickly.

Even though the huge shark’s body kept swimming, it still couldn’t dodge the sword mane’s attack.

The sword mane came closer and closer, and finally chopped directly on top of the huge shark’s fins.

“Woo!”

A furious roar with grief resounded at the bottom of the sea.

The massive shark’s fin, which was two to three metres long, was directly cut off by one of Lin Mo’s sword maces.

Bright red blood immediately gushed out along the wound of the fin.

The sea, which was already very turbulent and unstable, was now directly thrown into a tumble.

Even though Lin Mo’s human serpent battleship weighed 30,000 tonnes, it was still constantly falling.

But at this moment, it was still constantly swaying and shaking.

“Woo!”

The huge shark's angry roar gradually approached, and Lin Mo's eyes gradually went icy cold.

The reason why the sword mane just now sliced off the shark's fins.

Instead of its head, it was because it was just a warning from Lin Mo.

If the huge shark had just fled directly.

Lin Mo wouldn't have chased after it for the chase.

But now the other party actually dared to continue to come and attack.

What a way to die.

### **Medical Genius Unspeakable Marriage Chapter 3578**

Once again, a black shadow emerged from the choppy sea.

Lin Mo's brows furrowed slightly as the palm that had let go of Tai Ah grabbed it once again.

"This time, if you come out."

"Surely you will die."

Lin Mo seemed to be muttering to himself.

It was not clear to whom the words were being spoken.

Bang!

The water surface shattered violently.

The huge shark did not bite directly at Lin Mo at first.

Having learned from its previous experience, it directly reversed the direction of its body in mid-air.

The huge mouth capable of swallowing dozens of people in one direct bite opened up.

It fell straight down from the sky and bit towards Lin Mo.

This scene looked simply too shocking.

The teeth inside the huge shark's mouth were all about a metre long.

If it were to take a bite, it was estimated that even if the Da Luo Golden Immortal came down to earth, he would not be able to save it at all.

Ryan inside the cabin saw this scene.

His eyes were covered with red blood.

His eyes looked at the huge shark descending from the sky to bite Lin Mo.

A feeling of powerlessness could not help but arise within him.

But soon, Ryan forced this feeling out of his body.

Maureen had said before, "Be human.

Don't move around and be filled with despair at the current phenomenon.

Ryan's heart was full of belief in Lin Mo.

Maureen could definitely be safe and sound .....

Then Ryan's eyes looked to the large red button on the side.

If there was nothing more Maureen could do.

Ryan would just take this ship and pull this huge shark to bury Maureen with him.

Along with the shark's abyssal maw gradually approaching.

The Tai Ah in Lin Mo's hand also gradually moved.

The internal energy within his body was frantically mobilised by Lin Mo, converging on Tai Ah's body.

Lin Mo slowly raised his head, his gaze morosely looking at the huge shark with its mouth open above his head.

"As I said, this time you will die if you continue to come up here!"

After saying this, the Tai Ah in Lin Mo's hand fiercely shot out his sword.

"Chop!"

This time, the sword aura was even on the verge of materializing to see in general.

The flickering white light of Tai Ah's sword slashed towards the huge shark's body in an instant.

The sword qi that was like a dazzling sun cut straight through the huge shark's body.

This sword played with 90% of Lin Mo's strength.

As the huge shark's body was gradually approaching the Human Snake Battleship, Lin Mo's light lips slowly opened.

"Open ....."

The huge shark's body, which was twenty to thirty meters wide, was wallpapered in the middle with a cut.

The body was directly divided into two halves.

The sword aura did not dissipate and went straight up into the dark cloudy sky.

A huge gaping hole appeared above the dark clouds, which would not heal for a long time.

Blood spurted out wildly from the huge shark's body that had been divided in half.

A raging rain of blood formed above the forehead of the human serpent warship.

This was the reason why Lin Mo did not allow Ryan to stand on the deck.

Ryan didn't have internal power to protect his body, so he couldn't avoid this rain of blood by standing on the deck.

A metre of Lin Mo's body was surrounded by powerful internal energy.

All the blood that fell was bounced off directly by the internal force.

"Bang!"

The huge shark's huge and heavy two halves of its body smashed straight down into the seawater.

A huge splash of water was shot straight up.

Ryan walked out of the cabin somewhat dumbfounded, looking at Lin Mo with a look of shock in his eyes.

Especially when he saw Lin Mo's immaculate clothes that had been spotless until now.

Ryan's voice could no longer maintain his calmness and said, with some trembling

"Mr. Molin, you tell me."

"Are you human or not?!"

Lin Mo burst into dumbfounded laughter, suddenly remembering a joke from earlier.

"I can't believe you saw through it, so I won't hide it anymore."

"In fact, I have lived for tens of thousands of years, and now it is to overthrow the entire world."

Ryan was silent for a moment, "Mr. Maureen, I'm almost thirty."

### **Medical Genius Unspeakable Marriage Chapter 3579**

Ryan's meaning was so obvious that he was close to saying outright.

I'm not a three-year-old child!

Lin Mo smiled faintly and didn't say anything.

He just pointed to the deck that was covered in shark blood.

"You'd better start cleaning up if you still want to get through the deep sea area on this ship."

"Otherwise I think we'll just get to the deep sea area with the smell of blood on board."

"It would be impossible to survive straight away."

As Ryan listened to Lin Mo's words, a look of approval appeared on his face.

Lin Mo patted his shoulder with an appreciative look.

“Go for it.”

He then walked straight into the cabin, leaving Ryan standing alone on the deck.

Ryan looked at the empty deck and the ground that was covered in blood.

He was in a moment of self-doubt.

So the talk of cleaning up .....

was for him to clean up alone!

With that, Ryan started his own cleaning with a mop in his hands doubting his life.

As for going to let Lin Mo disturb these things.

Instead, Ryan could not open his mouth a bit.

He had just solved a life and death crisis.

And it was too serious to go to someone just because of some hygiene issues.

So Ryan was like a hard-working bee.

Taking up a job that he hadn't done for many years, polishing the boat.

Back when Ryan wasn't Mr. Ronald's number one butler.

It was also just in a small slave.

And because Ryan's physique was so thin, he couldn't be sold at all.

He was just left on the ship as a boat polisher.

And a dog to be beaten and scolded at will.

All of this was to be followed by the turning point in Ryan's life.

Mr Ronald, known to the people of Death Island as the elegant gentleman.

His hand was always the same elegant staff in his hand.

The kind smile on his face was enough to soothe anyone's inner turmoil as well as negative emotions.

His woolen coat gives him a very calm and collected look.

The mere sight of him made one feel that he was very reliable.

It was Ryan's duty to take care of anyone who had any intention of doing anything wrong to Mr Ronald.

There are always a bunch of rats in the shadows who want to take a bite out of the elegant and kind Ronald.

Apart from Ryan, Ronald had three other butlers on his staff.

They were called butlers, but they all had blood on their hands for Ronald.

The sky grew gloomy and night fell.

The deck, which had been covered in fetid blood, was now new.

And a tired, sweaty Ryan was sitting casually in one spot.

Leaning on the deck, a happy smile on his face.

It had been a long time since he had felt this good.

Ever since he had become a steward at Ronald's side.

Ryan's life was a million times better than before.

However, his entire body seemed to have rusted.

After resting for a while, Lin Mo, whose internal energy had recovered within his body, walked out from the cabin.

When he saw the deck where his body could reflect light, Lin Mo's face was somewhat emotional.

"Ryan, I really didn't expect you to have such an ability."

"With such a talent, why don't you come aboard my ship from now on."

"I'll offer you a salary of three thousand per month and a ninety-nine sixty work system."

"How's that for a heartbeat?"

A disdainful smile appeared on the face of Ryan, who was sitting paralyzed, when he heard Lin Mo's words.

"A mere three thousand maple coins and you want to buy me off?"

A puzzled look appeared on Lin Mo's face as he spoke to Ryan.

"What are you talking about three thousand maple leaf coins again?"

"What I'm saying is that it's three thousand Japanese dollars."

Ryan's face froze when he heard Lin Mo's words.

He glared at Lin Mo without good grace and said in a somewhat weak tone.

"Go play aside, three thousand Japanese dollars?"

"If you go to a school and find a pupil inside, people won't even give you a job!"

### **Medical Genius Unspeakable Marriage Chapter 3580**

"Hahahaha."

Lin Mo let out a loud laugh.

Ryan didn't have much respect for Lin Mo usually.

Lin Mo also liked this feeling.

When he was at the Martial Union before, Lin Mo felt it.

Everyone was very much in awe of himself.

Wang Laosan, and Er .....

They were in great awe of Lin Mo.

With this guy Ryan, he clearly knew that Lin Mo's strength was very terrifying.

But when facing Lin Mo, his face just couldn't show a nervous look.

Lin Mo took out some smokeless carbon from inside the cabin.

The group of guys from the Human Snake Organisation were simply out on holiday.

There were all sorts of things on the boat.

Even Lin Mo had seen something like a portable pool.

Although he didn't know what kind of use it would be in this sea.

But Lin Mo's heart was still filled with admiration from the bottom of his heart.

Even such an important place as the gunpowder store.

Those guys had even taken out half of the space for these miscellaneous items.

If Ryan had just driven his boat directly into the huge shark and detonated it.

It's not really possible to blow up the other side directly.

He took out a lighter and lit it directly, and Lin Mo sat down in front of the charcoal fire.

He waved his hand at Ryan, gesturing for the other party to hurry over.

"Are you going to roast here?"

Ryan dragged his tired body to Lin Mo's side and sat down on his butt.

The look of weakness on his face was already about to spill out in general.

"Ryan, this body of yours is a bit too weak."

"If you're like this, it won't be easy to live after you've finished looking for a daughter-in-law afterwards."

"I, Maureen, am willing to call you the number one in the fast gunner world!"

Lin Mo looked at Ryan's weak expression and a look of pity appeared on his face.

No man could stand to be told that he couldn't do it.

Even more so when it was a man like Ryan who had not yet reached thirty and was considered to be bloodthirsty.

He actually braced himself to stand up with his somewhat weak body.

Lin Mo looked at Ryan's appearance and said with a smile, "I know a little bit about Chinese medicine in China."

"For the sake of our relationship, I don't care if you charge money."

"Sit down, I'll take a pulse for you."

Hearing Lin Mo's words, an amused look appeared on Ryan's face who had originally braced himself to stand up.

"The Chinese doctor over in China?"

"I heard that thing is very powerful, but it's also very difficult, so many people in China have to."

"Not too many have learnt it, are you any good?"

At the moment, Ryan didn't even realise it.

The opportunity before him was so precious.

The pulse consultation of the Chinese medical saint Molin was something that many dignitaries could not even beg for.

And yet he is still here saying to the Medical Saint that you can't do it.

If the people outside who were crazy enough to seek medical help from Lin Mo heard this.

They could probably put Ryan on the fire and give him a test.

Lin Mo smiled gently, "I'm not asking you for money anyway, so what's the harm in trying?"

Ryan looked at Lin Mo with some caution, "You're not trying to do anything to me?"

"Maureen, Murphy ..... you actually like men."

"Saying that you're checking my pulse, but actually wanting to take advantage of me?"

Lin Mo looked at Ryan, a helpless look on his face.

Well, he admitted it.

Ryan was indeed more naive than the Crown Prince at times.

"Take advantage of your sister, look at the way you look."

"At the time, I wondered if your God's a\*signing face values had omitted you on purpose."

Ryan sat down on his butt and handed his wrist to Lin Mo.

"Maureen, just waiting for you to show off a handful of the magical Chinese medicine over in China."

Lin Mo nodded, and then placed his long, slender fingers on Ryan's wrist.

Feeling the beating of his pulse, the smile Lin Mo had been wearing on his face came to an abrupt end.

He frowned!
