

Genius 4241

Medical Genius Unspeakable Marriage Chapter 4241

Snowdrops has been here for a long time to say the least, and not a short time to say the least.

Right now, the white lotus inside her suddenly went out of control.

Lin Mo instantly associated it with the clay lump that the old woman had just delivered.

It was highly likely that this object was the main factor.

Even to the one that had the warmth that turned away, it was highly likely that it was not an illusion.

Thinking of this, Lin Mo immediately took out the piece of broken flower handkerchief.

“I think it might have been caused by this!”

After saying that, he then lifted the handkerchief straight away, and the human clay lump inside revealed itself.

“This thing doesn’t look like anything special!”

Xuelian said after watching it carefully for a while.

This object did not have any aura to speak of at all, it looked like a completely ordinary lump of clay.

Lin Mo had thought the same thing before.

Whether the old woman’s claim of blessing her health was true or not, he intended to price it for Erniu to bring back.

Therefore, he had not observed it either.

It was only just now that the sudden aura storm in Snow Lotus’ body made him realise that the mud must have a secret that no one knew about.

“Perhaps it has been inflicted with an extremely concealing concealment formation or not!”

With that said, Lin Mo urged the aura within his body and began to slowly surge towards the mud block.

As expected, the moment the aura surged into the clay block, it inexplicably all disappeared a little.

Although the amount was extremely small, not even a hundredth of this wisp of spiritual qi.

Even the keen Lin Mo still caught the tiny anomaly.

“It’s true!”

At this moment, Lin Mo’s curiosity instantly opened up infinitely.

The desire to explore was even more explosive!

Next, he immediately set out to slowly find the loopholes in the formation on top of the clay block.

After that, Snow Lotus joined in.

The Dunhuang Sanctuary did not only produce herbs to make pills.

It is even more involved in the art of formation.

After all, you want to think about those extremely precious herbs from the time they are planted, to the final pills.

The whole process is carried out under the protection of formations.

As the Dunhuang Holy Maiden, Xue Lian's formation attainment was naturally not bad either.

So, with the patient analysis of the two, the formation on top of the clay block was quickly broken open.

"Finally, we can see the true face of the mountain."

Lin Mo, driven by his intense curiosity, unlocked the last masking formation.

Along with the infusion of spiritual qi, all the black silt fell off one after another.

In an instant, the rich scent of medicine instantly filled the surroundings.

Even the whole room slowly coalesced with its white mist.

With just one sniff, Lin Mo felt refreshed and invigorated.

The most amazing thing was that the side effects from the loss of heart blood before were slowly dissipating.

At the same time, the eight-leaved white lotus in Snow Lotus' body suddenly stirred violently.

Even though he had cleanly suppressed it as much as he could.

But the white lotus shadow still burst out of his body and emerged behind him.

In the next second, the white lotus began to shift in a large or small way.

It was as if it was breathing.

And under the "breath" of the white lotus!

The white mist in the room slowly began to fade.

The white lotus, which originally had only eight petals, closed slightly, and a ninth shadow appeared in the empty space.

Although it was extremely faint and faint, the outline could already be faintly seen with the eyes of the Patriarch.

And within the pure white lotus, a hint of green began to emerge.

This is precisely the sign that the White Lotus is beginning to step into the Nine Leaves Green Lotus.

Who could have imagined that just this object would merely exude a medicinal fragrance.

It is enough to bring about such an astonishing change.

Everything has changed so unexpectedly.

After Lin Mo and Xue Lian looked at each other, they both saw an incomparable look of shock in each other's eyes.

"Thousand Year Human Head Crow!" The two exclaimed in almost unison

Medical Genius Unspeakable Marriage Chapter 4242

After recognising the true form of the Thousand Year Human Head Crow.

Lin Mo and Xue Lian were incomparably shocked and could not calm down for a long time.

This object was one of the ten sacred medicines recognised by the entire medical community, and even the world.

Its preciousness could no longer be measured by its value.

Whether it is used for healing or for cultivation, it is an excellent product.

Its main effect is to prolong life.

This last point in particular is coveted by countless great powers and even the world's top powers.

It is also extremely rare.

The last time it appeared was more than 50 years ago.

The royal family of Putu, who acquired it, disappeared overnight.

And it was followed by a three-year-long war of contention.

Countless top powers, involved in it.

Countless killings.

It was only in the end that the Holy Court of the Beautiful Kingdom obtained the piece of thousand-year-old Human Head Crow at the cost of sixteen Patriarchs.

From this we can also see how precious this item is.

Inside the room.

The two were already in shock.

Such a world class divine medicine had surprisingly been so easily obtained by the two of them today.

Everything seemed like a dream.

It was also at this time that Lin Mo snapped back to his senses.

"Not good!"

“Xuelian you cleanly resealed it.”

After exclaiming in alarm, he couldn't care less about absorbing the aura of the Thousand Year Human Head Crow, and left the place in a heartbeat.

As Lin Mo had expected, by the time he rushed to the other room.

Gongsun Tie had already fallen to the ground and blood was gushing out of his mouth.

Lin Mo did not dare to hesitate and hurriedly used his spiritual energy to shake away the surrounding medicinal spirits.

After that, he began to comb his meridians for Gongsun Tie without stopping.

This thousand year old Human Head Crow, although it was a holy medicine for healing wounds.

However, due to the number of thoughts sealed, the medicinal spirit qi emitted within it is naturally a great tonic for normal people.

However, for Gongsun Tie, a patient with half a foot on the doorstep of a ghost, it is a life-threatening talisman.

Not only would the medicinal aura not help him in any way, but it would also cause his physical condition to become even worse because of the deficiency of the tonic.

It was also at the time when Lin Mo was urgently treating Gongsun Tie.

Outside, Ma Bangde, who had arranged for an escort, also rushed over.

As soon as he entered, his body trembled and his eyes kept glowing.

In just the space of a breath, he felt his own cultivation begin to drift up.

The aches and pains that he had experienced while forging the Ten Thousand Heads Sword were also disappearing at a rapid pace.

“Is this some kind of earthly fairyland?”

Not understanding why, he hurriedly began to run his heart technique and cultivate.

In the process, he even breathed heavily and greedily.

Feeling the growing aura in his body, the corners of his mouth grinned to the roots of his ears.

A secret thought crossed his mind.

As expected of Daoist Master Ding, this Mr. Lin is indeed my fortune!

Only after cultivating for a while, he still stood up with a reluctant face.

“If it weren't for the impending great war, I'd be too lazy to bother with you all!”

After complaining, he flew away from the place.

Upstairs, after Lin Mo had stabilised Gongsun Tie's injuries, of immediately followed by setting up an isolation formation in the room.

Only after this was done did he breathe a slow sigh of relief.

It was close, this Gongsun Tie would have been carried away.

If he had died under the medicinal aura of this Thousand Year Human Head Crow, it would have been a real laughing stock.

And just as Suddenly he walked out of the room, there was a commotion from downstairs.

"Holy crap, is this the legendary Cave of Bliss?"

"I feel like I'm about to break through to half-step Zong Shi!"

"I have this feeling too!"

"Old Ma, I can't thank you enough this time!"

"Thank your grandmother's legs, if you have this time to waste your breath, you might as well hurry up and cultivate!"

After being reprimanded by Ma Bangde like this, several other people also instantly reacted.

One after another, they swept onto the ground to cultivate!

Medical Genius Unspeakable Marriage Chapter 4243

It was only after Lin Mo heard the commotion from downstairs that he reacted.

"Holy crap!"

This thousand year old Human Head Crow had been sealed for an unknown number of years.

The medicinal spirit Qi that Solan erupted from casually inhaled, but it was comparable to precious spiritual herbs.

For Gongsun Tie, whose body was close to collapse, it was a deadly poison.

But for a group of martial artists like them, it was a rare cultivation treasure!

What a sin to create!

Lin Mo secretly condemned.

Just in the process of treating Gongsun Tie just now, there was no telling how much medicinal spirit Qi had drifted away from the door and window.

Deng! Deng! Deng!

The sound of hurried footsteps came and Ma Bond and the others were awakened.

When they looked in unison at the stairway, Lin Mo had already arrived in front of them with red eyes.

“Don’t even bother cultivating, hurry up and seal all the doors and windows of this entire room for me before you do!”

He was worried that several people did not know the importance of the matter, and added another sentence.

“If this medicinal spirit energy is dissipated, it’s not really there anymore!”

At these words, Ma Bangde and the others could not be bothered to cultivate.

With quick steps, they frantically rushed towards the surrounding doors and windows.

When they had finished everything, they were still unsure and inspected the place carefully again.

In the process, they also found that one room, where the aura of medicinal spirits was exceptionally dense.

Just as Ma Bangde was leading the way, he was ready to take a look.

Instead, he was kicked directly by Lin Mo.

“Miss Xuelian is inside, if you dare to open the door, your legs will be broken.”

The crowd was curious though.

However, seeing Lin Mo in such an agitated manner, they naturally did not dare to touch the bad luck.

Snap!

The one who reacted the fastest was naturally Ma Bangde, and the one who was the most shameless was also naturally him.

Without waiting for the others to react, he sat down on his buttocks directly in front of the door of the room.

“In order to prevent any of you from having bad intentions, I’ll be the one to keep watch here.”

This reckoning could be heard throughout Death Island.

Director Qiu, Wang Changxing and the others looked at each other, and then an unkind smile spread from the corners of their mouths.

The next second.

Ma Bangde was then lifted up by the arms of several people.

“What are you doing, me Cao, if it wasn’t for me you could enjoy, this treatment!”

“Thanks to my kindness in calling you all!”

“Let go of me, you old Bidens, white-eyed wolves!”

And yet.

No matter how much he rebuked Ma's tirade, the crowd still didn't bother to pay him any mind.

With a flourish, he was thrown straight to the end of the corridor.

Director Qiu clapped his hands.

"Then I can thank you!"

"But one size does not fit all, and I won't let you give such a good thing!"

Anyone who wasn't a fool knew that.

The pill spirit aura at the entrance of the room was the densest!

Who would be willing to let out such a good place.

But it was just when Director Qiu was dejected.

Old Sixth Wang Changxing, with a twinkle in his eye, directly followed Ma Bangde's operation.

A buttock directly grabbed a good position.

Seeing that several people were about to start another round of scrambling.

Lin Mo also finally couldn't help but remind.

"If you guys continue to make such a fuss, this Medicine Spirit Qi will be gone."

Although all the doors and windows had been sealed, this only delayed the rate of dissipation.

It was not possible to completely isolate it.

This statement was made.

Only then did the crowd quieten down.

With an indignant glance at Old Six Wang Changxing, they hurriedly crossed their legs to cultivate.

Taking advantage of this time, Lin Mo once again admonished the crowd.

"Just enjoy yourselves with this today."

"Remember to keep your mouth shut!"

"Also if any of you open this room for me, I'll punish you severely, mind you I'm not kidding!"

The thousand year old human head of wool was quite involved.

Once it leaked out, the fluctuations it caused might not even be less than the Crystal Skull.

Therefore, Lin Mo might not be able to say anything about this matter, for fear of revealing his mouth to others.

Medical Genius Unspeakable Marriage Chapter 4244

With several people entering cultivation.

Lin Mo then hurriedly left the house, and after inquiring about Hu Quan's movements, he headed towards the big mountain.

Just as he approached the waterfall, the sound of screaming came out in his ears.

"Holy sh*t!"

This was followed by a clear sound of falling water.

After Lin Mo arrived, Hu Quan was leading a few people to jump over the waterfall.

Each of them looked as orderly as if they were dumplings.

The only thing that was abrupt was that there were still quite a few people who were not used to coming over.

As they fell, they screamed and screamed.

Once on shore, a few people flocked together and started chatting.

"Ah Brother Hu! How much longer are you planning to jump over here?"

Tomb One asked tentatively.

This time, Hu Quan continued to just hold up a finger in front of the few brothers.

When Tomb One saw this familiar scene, his emotions instantly sank and his face was full of bitterness.

"Again, is it going to keep jumping?"

Only this time, Hu Quan shook his head in an unconventional manner.

"Naturally it can't be all the way here!"

"So what are we going to do next, then?" Tomb One asked with some anticipation.

After these few days of training, it wasn't as if the few people hadn't gained anything.

Although their bodies were all soaked and swollen, no one would be injured by the huge impact anymore.

This also shows that their bodies are becoming more and more hardened.

But such an improvement was far less than normal cultivation for them.

That was why Tomb One had this question.

At this moment, only Hu Quan was seen pointing calmly further up.

"There is another waterfall nearly a hundred metres away on which side, and I have already ordered my men to come and clean it up."

"Crap, forget I said that!" Tomb One's white eyes rolled up, filled with helplessness.

This kind of boring and slow-growing cultivation method was really hard for him to accept.

A few of the other brothers were also reluctant.

If it wasn't for Tomb One holding them down, they would have shrugged it off.

Compared to Tomb One and the others who were tired, Hu Quan was full of anticipation.

These few short days of training, coupled with the four sects of body refining techniques taught to him by Lin Mo.

Now Hu Quan could already clearly feel that his physical body was getting stronger and stronger.

And his qi was also growing exponentially.

Only there had been no time to test it, and he now had no idea how strong he really was.

"Alright, brothers, let's get on with it!"

Tomb One got up and arranged to somewhat reluctantly.

However, before his words could fall, Lin Mo had already quietly arrived behind a few people.

"Mr. Lin!"

Tomb One looked startled at the sight of Lin Mo and hurriedly rose to salute him.

At the same time, his heart was flustered.

If his words and actions had just been seen by Mr. Lin, would it cause Mr. Lin's displeasure.

Thankfully, his worries were completely superfluous.

After Lin Mo nodded, he spoke straightforwardly.

"I'm now taking you all to enjoy a great opportunity, hurry up and follow!"

After saying this, he turned around and left the place.

Behind him, Tomb One Hu Quan and the others were unclear though.

But since Lin Mo had said that it was a great opportunity, how could they possibly let it go.

A whole lot of people grabbed the road and chased after them, a few of them even didn't even have time to put on their clothes and directly darted over.

It was also just after Lin Mo led Hu Quan and the others to rush back to this side of the house.

Outside the main gate, Feng Wu Huo was already waiting.

Lin Mo didn't need to guess to know.

It must have been the medicinal spirit aura that erupted from this Thousand Year Human Head Crow that had attracted this old man over.

As expected, the moment the two sides met.

Feng Wu Huo asked with a face full of curiosity.

“Doctor Sage Lin, I have just sensed a sudden appearance of a dense aura on your side.”

“But Miss Xuelian has made another breakthrough.”

Apart from Xue Lian’s eighth-grade white lotus, he could only in not think of another spiritual herb that could burst out with such pure medicinal spirit Qi.

Medical Genius Unspeakable Marriage Chapter 4245

Lin Mo couldn’t help but smile in his heart as he listened to Feng Wu Huo’s doubts.

Good fellow, on the path!

Not only can he ask himself questions now.

Yet also knows to number the excuses for himself.

“True to form, this reaction of Senpai Maple is just sharp!”

“Not bad, Snow Lotus has indeed made a breakthrough!”

At these words, a look of intense interest instantly spread across Feng Wu Huo’s face.

“I wonder if I can meet the Snow Lotus Saintess!”

“After all, the scene of this eight white lotus breakthrough is something that old me is also curious about.”

He didn’t have any bad intentions purely driven by curiosity.

One had to know that even this holy lotus void in the Dunhuang Sacred Domain had not appeared over for hundreds or thousands of years.

Faced with this legendary heritage treasure, he was naturally curious.

Although Lin Mo did not want to agree, he knew that even if he refused, this old man would not leave straight away.

Once the Six Senses Tong Shen was open!

Lin Mo sensed that Snow Lotus had already finished sealing the Thousand Year Human Head Crow and obediently agreed straight away.

“Since Senior Feng is curious, let’s take a look together!”

As the door was pushed open afterwards.

The doorway was instantly perceived to be large a dense aura greeted him.

In particular, the faint fragrance that was mixed in with it made people feel invigorated with a single sniff.

Tomb One, in particular, was in awe.

In just a few seconds, he had discovered that his cultivation level had actually increased.

Although the increase was not very large, one should know that he had only done it for two breaths.

If only he could cultivate here!

Thinking of that, Tomb instantly widened his eyes and his face was ecstatic.

This was probably the great opportunity that Mr. Lin was talking about!

At this moment, he and his companion could not wait.

Lin Mo also naturally sensed that these few people had changed.

“Alright, if you keep deflating you’re all going to suffocate internal injuries, each prepare to cultivate!”

Seeing that several people were about to cultivate on the ground.

Lin Mo had a reminder, “Go to the door of the third room on the right hand side of the first floor.”

“The closer you are to where it is, the more obvious the effect will be.”

Tomb One’s eyes lit up, “Many thanks, Mr. Lin!”

Before the words left his mouth he led the way and rushed up to the first floor.

The torment of so many days had almost made him autistic.

Now that he had such a good place to cultivate, he was like someone who had been thirsty for days and suddenly saw a clear spring.

On the contrary, Hu Quan fell at the end without slowing down and slowly followed.

“Why aren’t you in a hurry at all?” Lin Mo asked with some curiosity.

“Mr. Lin, wasn’t it you who handed me the body refining technique?”

Hu Quan asked rhetorically.

“Although this place is full of spiritual energy, it won’t do much for me at all, right!”

Er

Lin Mo was filled with speechlessness and couldn’t help but hold his forehead with one hand.

“You haven’t even penetrated the essence of my four sects of body refining techniques.”

“Don’t give old me any ink, hurry up and go cultivate, and remember to use the heart technique on the Body Refining Technique to absorb it!”

After saying that he couldn’t help but raise his foot and kicked Hu Quan directly on his buttocks.

On the side, Feng Wu Huo was curious to a fault.

“Doctor Sage Lin, you wouldn’t have given this person our previous body refining technique to cultivate, would you?”

The words were filled with disbelief.

“Yeah, what’s wrong with that?” Lin Mo asked rhetorically.

Feng Wu Huo recalled some of Nahu Quan’s unbearable natural talent.

Then he thought about that one book of body refining techniques that had been modified by Hate Free, a young girl less than ten years old.

Feng Wu Huo directly gave up on pursuing the matter.

Wasn’t that just complete smashing nonsense?

“It’s good that you’re happy, Mr. Lin, and the most important thing about being human is to be happy!”

From the slight curve of his mouth, it was not difficult to see that he was forcing a smile at this moment.

In Feng Wu Huo’s opinion, this was purely a way for Lin Mo to find fun for himself when he was idle and dull.

It was just a way to pa*s the time.

How could the ancient martial arts be so easily imitated?

Chapter 4246

In the opinion of Maple No Rest.

Lin Mo’s four sects of body refining techniques were a complete joke.

Even if it could be imitated, wouldn’t it be a waste to give it to a person with no natural talent to cultivate?

With such thoughts in mind, he did not say anything more.

Lin Mo naturally also saw his contempt.

Hehehe, just wait, Hu Quan’s fleshly body had now been cultivated to a stage.

It wouldn’t take long for the first signs of greatness to appear.

Light up your dog eyes!

And with that, a brief moment of silence fell over the crowded house!

After a long time, Wang Changxing’s body shook.

A fierce aura then rose up from the ground, like a fierce tiger descending from a mountain, incomparably fierce.

It was also like a dragon coming out of the depths, with an aura like a rainbow.

The sudden change carried directly to the rest of the cultivating crowd.

Feeling Wang Changxing's rising aura, everyone knew that this one had made a breakthrough.

For a while, many people's eyes were envious and their expressions were yearning.

Half-step Patriarch!

Several other power lords were not far from this step either.

Only the realm that seemed so close at hand had trapped them for years.

Especially as they continued to grow older, the potential had slowly begun to flow away.

The further back they go, the less likely they are to break through!

"Calm your mind and hold your yuan in unity!"

Just as several power lords were sinking into envy, Lin Mo's instantly exploded in their ears.

"Now that the Pill Spirit Qi has not yet completely dissipated, this is the best time for you to make a breakthrough."

"Wake up!"

The rumbling sound was like thunder exploding into the air.

In an instant, the crowd came to their senses.

The original confused and negative emotions dissipated rapidly.

Yes, Wang Changxingzhi was just one step ahead of the breakthrough.

It wasn't as if they didn't have a chance.

"Old Ma, go to the ground floor to consolidate your realm!" Lin Mo commanded.

This fellow had just broken through to half-step Patriarch, and was actually still unstable.

If he continued to stay, the others wouldn't be able to cultivate properly.

At this moment, even if Feng Wu Huo was slow to react, he could see that something was wrong.

"Medical Sage Lin, this Snow Lotus Saint's White Lotus Void actually has such an effect?"

This white lotus could enter to kill enemies and retreat to heal wounds.

Right now, if it could also help others cultivate for breakthroughs.

Although it is a legendary companion holy object.

But isn't this effect a bit too counter-intuitive!

Lin Mo saw that Feng Wu Xiu was suspicious, so he didn't bother to explain, the more he said the more loopholes there would be.

This Thousand Year Human Head Crow was too precious.

Especially for a patriarch of Feng Wu Huo's age, it could be said to have a fatal attraction.

Lin Mo didn't dare to gamble?

So then he spoke patronisingly.

"Why are you looking down on the Dunhuang Sanctuary's supreme treasure accompanying the White Lotus?"

"No, it won't take long for the medicine to evolve into the Green Lotus!"

Feng Wu Huo also heard the meaning of the words and hurriedly spoke.

"Old man just thinks that this matter is really too shocking and is a bit uncertain."

Saying that his heart had already set off shocking waves.

Although he had already guessed before that such a large and unusual fluctuation over here might be the evolution of Snow Lotus' companion White Lotus.

But when Feng Wu Huo heard the news for himself, he still couldn't suppress the shock in his heart.

Nine leaf green lotus, ten leaf red lotus, eleven leaf black lotus, twelve leaf golden lotus.

Although in the end the further back you go, the difficulty of evolving this companion lotus is geometrically increased.

But once the twelve-leaf golden lotus comes into being.

This Dunhuang Saintess will leap to become the world's top expert.

And also the topmost physician.

Not only is Golden Lotus ruthless in killing, she is also at the top of the healing and restoration game.

When Feng Wu Huo thought of this, he hurriedly changed the subject.

"If only I could see the legendary twelve-leaf Golden Lotus come into being in my lifetime."

"The old man would not have wasted this life!"

Just as his crazy rainbow farts were going on, the door to the room was suddenly opened.

An even stronger medicinal spirit aura tumbled out

Medical Genius Unspeakable Marriage Chapter 4247

Sheridan slowly walked out of the room.

Behind her is the shadow of a refining lotus flower.

A faint thread of love flickers in the dotted white light.

“Sure enough, the Snow Lotus Sage has actually broken through!”

Feng Wuhuo couldn't help but marvel.

Although he had learned about the relevant records in the canonical case files.

But this was the first time he had seen it with his own eyes in reality.

As the door to the room opened wide, the richer medicinal spirit aura inside leaked out.

This was a complete bargain for the people sitting in the doorway.

Especially Tomb One, who was among them.

From the first moment he stepped into this room, he felt that his inner body's spiritual energy was running extraordinarily smoothly.

It was completely upgraded by several notches compared to before.

Coupled with such a dense medicinal spirit qi, after just ten minutes of cultivation, it was already worth several months of his previous hard work.

Surprised, Tomb Sweeper devoted himself even more to his cultivation.

Not long afterwards.

Amongst the crowd, a frenzy of spiritual energy once again set off.

Someone else had made a breakthrough ahead of the others?

A few people turned their heads with such doubts.

Unexpectedly.

The second one to break through to Half-step Patriarch was surprisingly not a power lord from the three districts.

Instead, it was the young Tomb One.

With a shock to his aura,, Tomb One hurriedly opened his eyes.

At this moment, his gaze was filled with surprise.

When he had followed Hu Quan's training before, he had been worried that his cultivation level had fallen behind.

Little did he know that after this period of inhuman torture, the speed of his cultivation would become so smooth.

He had previously thought that if he wanted to break through, it would take as little as a year, and if more, he would not know when.

He had never expected that he would take that crucial step so quickly.

“I knew it, Mr. Lin would never screw us brothers over.”

Tomb One thought secretly in his heart.

At this same time he hurriedly stood up and came in front of Lin Mo, bending down deeply.

“Thank you, Mr. Lin, for bestowing two chances!”

When these words were spoken, many people were still in a state of bewilderment.

But after Lin Mo was clear, this kid had finally woken up.

During this period of time, the crazy stretching was, on the one hand, to harden the physique of their ten brothers.

On the other hand, through such a connection, it could not only stimulate their potential.

Coupled with his Lin Mo secret medicine juice.

With a variety of factors, this was what allowed this Tomb One to enter the ranks of the Half-step Patriarch in one fell swoop.

“It’s good that you can understand!”

Lin Mo smiled gratefully.

“Go aside to consolidate your realm first! Don’t disturb the others in their cultivation!”

Hearing these words, Tomb One immediately nodded respectfully.

With gratitude in his eyes, he once again bent down and thanked them before heading to the ground floor.

In situ Lin Mo looked at the indignant several power lord’s and reminded them without slowing down.

“The medicinal spirit qi is a limited amount!”

“The later any of you break through, the smaller the chances of this wanting to step into a half-step sect master today.”

Words did not need to be spoken.

As soon as Lin Mo finished speaking, everyone instantly reacted.

Especially Ma Bangde, the old sixth.

Although he was already a half-step Zongzi before that.

But right now, in order to absorb more medicinal spirit qi, he was not only anti-crazy in his cultivation.

At the same time, his mouth also grew big, and sailed out all his strength to start breathing desperately and loudly.

“This one is designated to be a little bit sick in some big way.”

After the crowd secretly spat out a sentence, they hurriedly entered the cultivation state again.

Time pa*sed.

The power lords on the scene, who were already not far from being half-step Patriarchs, began to break through one after another.

It had been less than an hour.

There were five more Half-step Patriarchs on the scene.

To this point.

The power lords of the three districts had entered the Half-step Patriarchs.

The overall strength has been plucked up a notch in price.

And from the head to see for Feng Wu Huo, is full of disbelief

Medical Genius Unspeakable Marriage Chapter 4248

According to the archives.

The Holy Lotus Void of the Dunhuang Sanctuary, that is a supreme treasure for attack and defence mentioned.

It also has this amazing healing effect.

But Feng Wu Huo had racked his brain, yet he could not recall that this holy object could also have the effect of helping others to break through.

In the end, he could not restrain his curiosity and asked in a soft voice.

“Medical Sage Lin, I am alone in my knowledge!”

“This this is the Nine Leaves Green Lotus, does it have such miraculous effects?”

Lin Mo, on the other hand, shrugged his shoulders in a completely patronizing manner, pretending to be uninformed.

“Senior Feng, to think that someone as knowledgeable as you wouldn’t know.”

“How could a junior like me possibly know?”

“But I only believe in seeing the truth with my own eyes!”

With that he raised his hand and pointed at the snow lotus that was a*sisting the others in their cultivation.

As well as those half-step Patriarchs who had just broken through and were still solidifying their realms.

Hearing this, although Feng Wu Huo was filled with doubts, he eventually gave up thinking about it.

It was indeed as Lin Mo had said.

The truth was happening right in front of his own eyes, so what else was there to dwell on.

“How envious!”

“If I, the Seven Deadly Sins, had a natural talent like Xuelian, why should I worry about rising and falling!”

With that said Feng Wu Huo turned his head without a trace, secretly observing Lin Mo’s reaction.

What he did not expect was that Lin Mo acted as if he had not heard him.

His eyes were simply locked on Hu Quan, the least talented person in the room.

“Is this hard to say that he is addicted to playing?” Feng Wu Huo thought to himself somewhat speechlessly.

It was hard to believe that this Lin Mo was really expecting that middle two Four Sects Body Refining Art to be effective.

Time slowly pa*sed.

Ma Bangde, as well as Black Rose Qiu, sensed that the dense spiritual energy around them had been absorbed by the crowd.

They also gave up their cultivation.

Of course although the three were half-step Zongshi, the effect of enhancement was far less intense than the others.

But the gains were not small either!

At the very least, they had taken a big step forward in their pursuit of Zongshi wasn’t it.

“Thank you, Mr. Lin, for the gift of opportunity!”

Several newly promoted clan masters couldn’t be happier at this moment.

This creation had not only allowed them to make a breakthrough all together, it had also given them the hope of stepping through the Patriarchate.

Right now, they were already half-stepping through the Patriarchate, as long as they kept following this Patriarchate would the Medicine Garden still be there?

It was also amidst the giggles of the crowd that Hu Quan, who was set like a rock, finally opened his eyes.

When he got up.

Everyone just glanced over indifferently.

But all those present, even the few other juniors of Tomb One, did not break through like the others though.

Yet they could also perceive no small progress.

Only this Hu Quan, what was the realm like before he came.

It is still the same now.

Those who are careful even breathlessly find that this kid, the realm has actually risen rather than fallen.

This talent, it is better to find a factory to screw.

Cultivation does not suit him.

There are not a few people who think this way, and there are not a few dangles.

It was only because of Lin Mo's face that no one dared to directly pick it out.

As for the person in question, Lin Mo didn't bother to pay attention to these people's gazes at the moment.

Seeing that Hu Quan had ended his cultivation state, Lin Mo immediately stepped forward and asked.

"What, how was the effect!"

Hu Quan first scratched his head in embarrassment, and then revealed two rows of large white teeth.

"The sky is turning over!"

Poof!

A few people couldn't hold back their laughter for a moment when they heard this, and almost burst out laughing.

Older brother, can't you sense your own realm?

In dropping down, it's not even better than some little captain on the front line.

It's all this finished look already.

How dare you still have the audacity to speak up.

Just as the crowd was murmuring in their hearts, Lin Mo actually patted Hu Quan's shoulder with relief.

"Very good!"

With that, he turned his head and looked at Tomb I and the others.

"You come out and try the water for him"

Medical Genius Unspeakable Marriage Chapter 4249

Before the house.

The crowd looked on with interest at the two men who were facing each other in front of them.

In terms of natural talent.

The two sides were not at all on the same level.

In terms of strength

Or don't say it, they are afraid that the tomb ten power slightly can't control, directly invite everyone to eat the seat.

Out of focus among the tomb ten again the same idea.

"Mr. Lin, is this really going to be an exchange of blows?"

He asked with concern as he applied.

Among the ten brothers, his strength was out of the bottom of the pecking order though.

But in terms of realm, that was also a gap of ten streets away from coming to Hu Quan.

The strength of the two of them was not at all on the same level. Once they fought, he was worried that he would kill Hu Quan.

"No harm!"

Lin Mo gestured carelessly.

"Just go ahead and let go!"

"If anything happens to Xiao Hu, the big deal is that I'll buy everyone a seat at my own expense."

Since he had said so.

Tomb Ten couldn't afford to be excusing himself, and set up his stance ready to make his move.

"Master Hu, pay attention to dodging ha!"

Before he made his move, he gave a special reminder.

On the contrary, Hu Quan's side wore an expression that was not far from Lin Mo's.

"Feel free to use your full strength, I also want to see just how far my current self has improved."

After saying that, he even arrogantly hammered his chest.

It was as if he was urging, "Come and kill me!"

The crowd watching the battle exclaimed, "What a guy.

This is totally stupid training!

It's the first time I've seen someone so anxious to die!

Seeing this, Tomb 10 didn't even bother, he arched his body slightly and stomped his feet heavily.

The dust lifted under his feet had not yet hit the ground.

He then closed the distance between the two sides with great speed.

“Punching Fist, Break!”

With a low roar, the huge fist was instantly swung out.

Only, to prevent hurting Hu Quan, he only used thirty percent of his strength.

However, in the face of such a reserved attack, Hu Quan simply stood frozen in place.

He was dumbfounded as the wind of his fist whistled at him.

“Get out of the way!” Tomb 10 shouted.

In his mind even if this Hu Quan was even less talented and weaker.

At the very least, he should still have a brain.

Who would have thought that he had overestimated him and had lost even this basic ability?

Everyone watching the battle also shook their heads when they saw this scene.

Get ready to save the day!

However, Lin Mo had no intention of making a move at all, he just calmly watched what was happening in front of him.

Could it be that he was going to stand by and watch Hu Quan collect his injuries?

Just as the crowd was puzzled.

Tomb Ten’s iron fist had already smashed into Hu Quan’s chest.

Peng!

With the muffled sound of a lifetime!

Everyone in the audience instantly stared in awe.

The expected scene of Hu Quan being blown straight away did not happen.

On the contrary, he was like a rock at the moment, standing upright in place.

On the other hand, Tomb 10 frowned slightly.

Could this Hu Quan be wearing inner armour?

Just as he was filled with confusion, Hu Quan spoke slowly.

“It’s alright, put some strength into it, I can still hold it!”

At these words, Tomb Ten instantly felt that he had been belittled.

“Then you should watch out!”

He warned, swinging his fist again with faint irritation.

Only this time, he increased his strength to use seventy percent of his force.

Since this one was wearing inner armour, there was no need for him to hold back too much.

Otherwise he would be underestimated.

Meanwhile, Hu Quan was laughing out loud.

“Good timing!”

Before the words left his mouth, he also lifted his right arm and closed his five fingers into a fist, facing towards Tomb 10’s fist.

It was accompanied by a muffled sound once again.

The eyes of the few people watching the battle widened at once.

They had never expected that Hu Quan would catch the attack again.

And judging from his expression, he still had some strength left.

This

It’s hard to believe that he’s high on drugs.

Medical Genius Unspeakable Marriage Chapter 4250

Everyone in the audience watched the battle, even though they witnessed an evenly matched encounter between the two sides.

Yet they still did not want to believe the change in Hu Quan.

It seemed to them that if not for the fact that Lin Mo had secretly given Hu Quan medicine just before the battle.

Either that or this Hu Quan had secretly worn inner armour!

Lin Mo also seemed to have guessed what the crowd was thinking.

“Tomb Ten you don’t need to hold back, attack with all your might!”

“And Hu Quan, you shouldn’t hide either, let everyone see your current strength!”

Hu Quan immediately responded, “As ordered!”

After speaking, he was seen arching his body slightly and squeezing his arms with force.

All that could be heard was a stabbing sound!

Hu Quan’s blouse burst straight away.

Along with the pieces of cloth falling to the ground, his well-proportioned but not well-developed muscles appeared in plain sight.

His bare upper body, apart from a little bit of white, did not have anything attached to it as the crowd had guessed.

Tomb 10's suspicion increased a few notches when he saw this.

This could possibly be possible?

Faint had pawned off 70% of his own strength with his physical body!

The strong contrast between before and after deeply irritated Tomb Ten.

Coupled with Lin Mo's command, at this moment, Tomb Ten finally had no intention of holding back his hand and burst out with his full strength.

After both sides had prepared for the battle, Hu Quan unexpectedly took the lead in attacking.

Come on, Tomb X cried out in his heart, his hand already slapping away the iron fist whirring in front of him.

Taking advantage of the gap, he lined up a palm directly on Hu Quan's shoulder.

Hu Quan retreated repeatedly under the tremendous force of the tenth percent.

And when he stabilised himself, the corners of his mouth were already oozing with scarlet.

It was clear that he had not taken this punch well.

Only after Hu Quan was wounded, his face surprisingly showed a look of excitement first.

"Hahahaha, well played, come again!"

Raising a hand to wipe away the blood from the corner of his mouth, he once again bullied his way forward.

The two soon came to blows again.

And Hu Quan adopted a completely desperate fighting style.

Hardly carrying the fist of Tomb 10, he also wanted to leave a footprint on the other side.

Seeing this, the crowd who were originally watching the battle finally noticed the abnormality at this moment.

"This Hu Quan's body can't be made of iron?"

"After taking so many punches, he should have fallen down."

"What a hell, there is no aura fluctuation at all in his moves, he is relying on the strength of his physical body."

"Does running and jumping waterfalls every day really work?"

a*sociated with all the ways Hu Quan had been exercising in recent times.

Many people began to wonder.

The discussion was underway.

Feng Wu Huo's face also gradually changed.

As a Patriarch he had seen more and looked deeper than others.

This Hu Quan in front of him had not used a single bit of strength during the entire exchange of blows.

All of his moves relied on the pure strength of his muscles.

This was something that fitted perfectly with the ancient martial arts of physical arts.

Could it be that Lin Mo's whole thing had worked?

Thinking of this, Feng Wu Huo looked to the side with a surprised gaze.

At this moment, the corners of Lin Mo's mouth had already outlined a smile if there was one.

The scene.

The battle between the two continued.

After Hu Quan had adapted to the change in his own physical body, he immediately began to feel out his fighting style.

Gradually, he went from being beaten unilaterally at first to exchanging blows.

Although he had to take three or five punches before he could find the time to return the favour.

But his body had changed dramatically.

It is more than ten times stronger than it was then.

With both sides exchanging wounds for wounds, Hu Quan was gradually gaining the upper hand.

Ka-ching!

With a sound of bones breaking.

Immediately afterwards, a wail of pain came out from Tomb 10.

Looking around, I could only see that his right arm had completely drooped.

It hung in mid-air swaying helplessly
