

Genius 4351

Medical Genius Unspeakable Marriage Chapter 4351

Inside the central laboratory.

Lin Mo did not comply with the other party's request to complete that disgusting transplant.

As the sword flashed past.

The sturdy steel wall was instantly cut with a gaping hole more than a person high.

By the time he drilled out straight away, the fallen steel plate was patched back up again.

This was also an option that Lin Mo had left for the old man surnamed Qin.

At the gap, a formation had been laid down.

If that Professor Qin, in the end, chose to transplant it himself.

Then that would be as a reward for him having given so much information.

Let him fulfil his final wish.

If he escapes.

The gaping formation would leave him straight to dust.

Of course whichever choice this old man, made, the solution would only be death.

Lin Mo had already decided since the first moment he entered this place that he wanted this underground laboratory to be completely destroyed.

At this moment.

No one had yet realised that a horrific disaster was coming.

Inside the laboratory.

A group of researchers, still concentrating on the instruments in their hands.

They were not at all concerned about the bitter pleas of the living test subjects around them.

In their eyes, they could not see a single trace of respect for life.

Outside the laboratory.

The security personnel patrolling back and forth, as usual.

For years, the comfort has made them forget to be alert.

In twos and threes, they are either joking around or chatting freely about dirty jokes.

Occasionally, when they passed by the glass windows, they would point at the corpses inside.

Bragging about how theirs had subdued and brought back so-and-so who had escaped.

And as a few of them passed by the central laboratory, one of them suddenly asked a curious question.

“Why has Professor Qin drawn the curtain today?”

The words hadn’t even hit the ground before the captain behind him delivered a slap on the back of his head.

“Tired of living, are you? How dare you talk too much about Professor Qin’s business.”

“If you want to be carried on the lab bench, just say so.”

Being reminded of this by the captain.

The group of security guards hurriedly shrank their necks, fear written in their eyes.

The pace under their feet couldn’t help but quicken a few points.

They left the place as if they were fleeing.

After all, the soundproofing of the laboratory was too powerful.

Professor Qin could only see the shadows of people swaying outside, but could not hear a single sound.

Of course, at this moment, he no longer had any desire to call for help.

The only thing in his eyes was the plague seed that kept rubbing.

“With himself as the experimental subject.”

“Upon success, one will become the first in the research world.”

“The highest honour of the World Research Institute!”

All kinds of sounds kept crossing the mind.

And his eyes then grew hotter and hotter.

“This epoch-making feat will be completed in my hands, Qin Shou.”

As the words fell, he copied a syringe from the side.

After injecting a full tube of adrenaline into his body, his energy, which was still somewhat sluggish, instantly perked up.

His pale face also flushed rapidly.

Of course he knew that this was all the change that had been brought about by the overdraft of his life force.

Right now, naturally, he did not dare to hesitate even a little.

As soon as he peeled off his clothes, the unbelievably sharp scalpel in his hand was pressed against his chest.

As his face turned ruthless, a splash of scarlet gushed out.

With the support of adrenaline, Qin Shou did not pass out from the pain.

At this moment, he could no longer see the slightest hesitation in his eyes.

There was only mad fervour.

By the time the plague seed was delivered to his hideous wound.

The plague seed seemed to sense the smell of blood and instantly rubbed more frantically.

It did not wait for Qin Shou's next move.

The bubbling black plague seed then quickly drilled towards the wound.

In the next second, the pain from the bone marrow spread throughout his body.

Qin Shou's face changed drastically, and his wide-eyed eyes were covered with blood.

Falling to the ground, he tumbled wildly, his whole body strangely twisted

Medical Genius Unspeakable Marriage Chapter 4352

On Lin Mo's side, at this moment, he had already quietly touched the energy centre of the entire underground laboratory.

There were not many people guarding this place.

Three or two of them were lethargically leaning around, either playing fist fights and drinking, or playing cards and fighting.

The entrance was guarded by a master of the clan, so the group could not even raise their guard.

This made it easier for Lin Mo to move.

Taking advantage of the dead end of the light, he quietly approached a few people.

Once he had identified the captain of the group, he picked up a stone and gently threw it over.

Without missing a beat, it hit the captain right on the shoulder.

And with little force, just enough to get his attention.

Lin Mo's purpose in doing so was also to lure this captain, who had a messenger hidden on his body, over first and kill him instantly.

Unfortunately, the plan was perfect.

The display was indeed breathless.

The captain was just tapped on the shoulder in the middle of being stoned.

"Shit, another rock has to fall from the top of this, let's move to the side."

The four of them shifted their positions in a silent movement with cards in hand.

Lin Mo: “.....”

This is outrageous.

You know that the top of the lab underneath this was not only stabilized by a thick steel skeleton.

And there are special protective nets.

The purpose is to prevent any debris from falling.

This kind of building architecture is clear even to Lin Mo.

It was surprising that he, a security captain, was blissfully unaware of it.

After Lin Mo secretly spat out, he threw out another piece of rubble undaunted.

“F*ck, is there an end to this?”

Lin Mo’s heart rejoiced after hearing a furious curse from the captain.

This was always a good time to check the surroundings!

The result.

After the cursing ended, a few people had a change of position under Lin Mo’s breathless annotation.

Lin Mo, the rising temper, also rushed up at once.

Waiting for the third time, after throwing small stones.

That captain finally couldn’t hold back anymore, and the cardboard in his hand was directly thrown to the ground by him.

“No more games, I’m afraid I’ll have bad luck and break my fortune today!”

“Might as well sleep on my big sleep!”

From the beginning to the end, the lazy guards didn’t even bother to look up.

As for checking the situation around them that was even less likely.

Lin Mo also never expected that this group of people could degenerate to such a state.

Fortunately, his hard work had not been in vain.

After hitting the stone three times, the captain cursed and stood up.

And the route he was taking happened to be going past Lin Mo’s side.

Between the two sides crossing paths, the captain didn’t even have time to react before he felt a lightness under his entire feet.

He was dragged into a dark corner.

And his group of men, at the moment, were shouting three short of one.

None of them had even noticed that their captain had suddenly disappeared.

Inside the corner.

After Lin Mo controlled the security captain, he took him to a more remote place.

“Take out the transmission talisman you have on you to contact the outside world.”

“Don’t play any tricks on me, or I’ll simply take your life!”

At this moment, the security captain had a long sword at his throat, so he dared to resist.

Only after hearing Lin Mo’s question, he instantly cried out.

“My lord, you what you said

After stammering for half a day, he only remembered what exactly Lin Mo was referring to.

“That thing, I stay on my body is too much of a nuisance, I’ll throw it in the residence!”

Bull!

Lin Mo breathlessly gave this security captain a thumbs up.

It was logical that something so important, even if it was carried close to the body, should be carefully lost at all times.

This one was good, he had just lost it.

And this broke Lin Mo’s plan.

Originally, he had wanted to study their Five Poison Sect’s transmission method before destroying this underground laboratory.

To make some preparations for dealing with the Five Poison Sect in the future.

Now it seemed that from this man this person was out of luck.

“Good night!”

The words fell to the ground, the security captain on the double glare, full of dead eyes

Medical Genius Unspeakable Marriage Chapter 4353

After finishing the captain, Lin Mo once again returned to the same spot.

Having seen the group’s negativity, he simply walked straight up to the front.

What was laughable was this.

When Lin Mo kept coming to them, the crowd didn’t even notice his sudden appearance.

Part of them were drinking and part of them were cursing and smashing their cards.

In such a state, Lin Mo could only shake his head speechlessly.

With a hook of his hand, the silver needles hidden in the shadows went straight into the back of several people's necks.

In the blink of an eye, the few people present directly froze in place.

In the blink of an eye, Lin Mo dodged and walked directly into the energy centre.

At the same time as his figure disappeared, the few people outside the door also came to their senses.

With a pause of less than a second, the crowd naturally did not realise that they had just been sneaked up on.

The few people who knew it was a snort returned to their previous state.

Inside the house.

Lin Mo didn't bother to pay attention to these people.

Not killing them in the first place was purely to prevent that a large number of deaths might alert other security personnel.

After walking through the long corridor.

Lin Mo soon arrived at the core of the energy centre.

Although this place was equivalent to the heart of the real underground laboratory.

But because it was too hot, there was no desire to stay too long.

Even the maintenance workers who guard the place have fled to join the security staff outside for a drink and a game of cards.

This led to the empty grounds.

Apart from the constantly running power centre, there was not a single person in sight.

This was also convenient for Lin Mo.

After strolling around the entire power generation centre, he casually dropped a few sword talismans.

After confirming that there were no problems.

Lin Mo set up another small formation here.

As long as someone enters this place, they will be caught in the illusion.

This was also to prevent accidents.

It is unlikely that the group of losers outside will come back to this place, though.

"The Five Poison Sect should like this big gift from me!"

After looking around, Lin lifted his steps with satisfaction and left.

Outside.

Without realising it, several people outside suddenly noticed a breeze lift up beside them.

In this underground, a sudden wind would have been an extremely unusual thing.

But to these drunken security members, it was not a concern at all.

Thus, Lin Mo completed his plan exceptionally smoothly.

After he changed back to the disguise of Rod before, he strutted to the lift entrance.

And here, he met another familiar face.

The two big men from before, after seeing Lin Mo, obviously also looked surprised and puzzled.

“Hasn’t this kid been sent to Professor Qin’s lab?”

Professor Qin’s style of acting was almost unknown throughout the lab.

In all the years they had worked together, they had never seen anyone who could walk off his test bench alive.

How could they not be surprised to see an unharmed Lin Mo now?

Of course, accidents are accidents.

When the duo saw Lin Mo walking towards this way, their faces instantly sank.

“Kid, I don’t know what kind of luck you’ve gotten to survive until now though.”

“But this is not the place for you to come.”

“If you don’t want to die, then back off!”

The duo who most guarded the only access to the outside world from the underground laboratory would naturally not be like the group of losers at the energy centre.

Anyone who approached this place other than the Five Poison Sect insiders would only die.

Lin Mo replied with a standard smile in the face of the duo’s threat.

“Remember what I said to you guys when I first arrived?”

At these words, the two burly men visibly froze for a moment.

The words Lin Mo had said back then couldn’t help but come to mind.

“I will make you experience the same pain as they did!”

After the two looked at each other, a disdainful smile appeared at the corners of their mouths

Medical Genius Unspeakable Marriage Chapter 4354

Underground laboratory, exit.

The two burly men who were guarding it saw Lin Mo's wild words coming out of his mouth.

Their expressions were full of disdain.

"Unknowing thing, since you escaped from Professor Qin's side, why do you have to come over here to die!"

The corner of Lin Mo's mouth hooked after he moved his muscles and bones.

"I'm the last of Professor Qin's experimental subjects."

"You dare to touch me?"

At the mention of Professor Qin, a look of fear flashed visibly in the duo's eyes.

Only quickly, they also reacted and their faces darkened.

"Don't scare me with Professor Qin!"

"Since you've appeared in this area, we're perfectly capable of teaching you a lesson in the name of absconding."

"Even Professor Qin can't say anything as long as he leaves you with a breath!"

After saying that, the two burly men guarding the exit walked towards Lin Mo step by step, squeezing their rattling hand bones.

Their eyes were also filled with a fierce aura.

Although they did not dare to harm Lin Mo's life, they still had the guts to beat him half-dead or half-paralyzed.

"Kid, there are a lot of people coming this way!"

"But you're the first one who dares to shout at us!"

"Do you really think that we half-step sect masters are made of clay?!"

Both of them were half-step grandmasters, so they thought that dealing with a weakling like Lin Mo would be a matter of handy.

Just as they were thinking this.

Lin Mo's figure suddenly swayed in front of them.

Before the big man on guard even had time to react, Lin Mo's figure was already lost in his sight.

"Not good, this is an expert!"

One of them cried out in alarm and immediately took up a defensive stance.

Only with the reaction power of the two of them, they dared not even see Lin Mo's figure.

Not to mention defending.

Stab!

Sword light slashes through!

The two men were defenceless and a bloodstain was added to their arms.

It was just that they were puzzled.

They could have been killed here with such skill.

Somehow, it only made a small, shallow cut.

Lin Mo could naturally see their confusion.

He played a sword trick and hid Tai Ah behind his back before explaining in an unhurried manner.

"I am a person who is most concerned about honesty."

"I will not go back on my word when I say I will put you through some of their pain."

The words landed on the guard's face, and the big man frowned.

"What do you mean?"

Although they were not clear about Lin Mo's intentions, a layer of gloom fiercely hung over their hearts at this moment.

There was a vague feeling of something unpleasant.

"There's actually nothing!"

Lin Mo said while turning his head to look in the direction of the laboratory.

"From what Professor Qin said, the plague seed he researched can make people shed their bones."

"That's why I smeared a bit of this substance on my sword!"

"The opportunity has been given to you, I hope you won't let Professor Qin down!"

After speaking, he then stared at the panicked duo with an expression of watching a show.

When the big man on guard heard this answer, his face instantly changed drastically.

They already had some thoughts in this place.

They were naturally very clear about the power of the plague seed.

Once it enters the human body, no one has ever been seen to survive.

The two of them recalled the tragic situation of those experimenters before, and their eyes were instantly covered with blood.

“Bastard, you shall not be well

Just as the words came out, one of them stared in horror.

He had actually lost his voice!

When he looked at his companion, the two of them were not far apart.

Before they could react, the pain in their bodies instantly hit their brains.

For a moment, the two of them only felt that there were countless ants inside their bodies that were continuously gnawing at their internal organs.

The unbearable pain caused the two of them to lie down on the ground and roll frantically.

The most unbearable thing was that they could no longer even wail.

The only thing they could do was to look at Lin Mo with a pleading gaze.

Medical Genius Unspeakable Marriage Chapter 4355

Lin Mo stared at the two people who were struggling frantically before their eyes, worse than death.

There was no hint of softness in his eyes.

Hundreds and thousands of experimental subjects had been sent to the laboratory by theirs before.

There was no need for any sympathy for such accomplices.

If Lin Mo hadn't delayed too long, he would have had the intention of letting all the members of the lab experience it all over again.

Unfortunately, District Three was still fighting the Lawrence family at the moment.

He would have to rush back to sit down as soon as possible after settling this matter.

“Uh, uh

The two-faced big man on the ground was now full of blue veins.

However, they were sealed by Lin Mo's acupuncture points and were unable to speak at all.

They could only stretch their arms out helplessly, hoping that Lin Mo would just understand them.

After Lin Mo crouched down, he lifted his looking finger to his mouth.

“Shhh, the lab has to be kept quiet!”

The duo's eyes glared, as if they had swallowed their last breath directly from Lin Mo's words.

Both eyes doubled over and died from the pain of living.

“Eh!” Lin Mo faintly sighed.

"It's no use giving you guys a chance!"

Muttering to himself, Lin Mo grabbed a handful of dust.

With that, he slapped it towards his face.

After scratching his hair into a mess, Lin Mo checked his puffy image against the glass.

Nodding in satisfaction, he then crushed a small piece of the plague seed he had brought out from the laboratory in his hand.

Again, he applied the crushed plague seed on top of his outer coat.

After doing all this disguise, Lin Mo then walked into the lift with a satisfied heart.

Above the ground.

After hearing the movement of the lift, Zong Shi Chi Lao, who was guarding the gate, subconsciously glanced towards this side.

Only when the person he saw walking out was actually Lin Mo.

Chi Lao's face instantly turned gloomy.

In the blink of an eye, he came flying in front of him.

Without any nonsense, Red Elder squeezed Lin Mo's neck with one hand and lifted him up in mid-air.

"Say, how did you pull it out!"

The icy tone of voice revealed a strong murderous intent.

At this moment, Chi Lao was already flooded with killing intent.

Lin Mo pretended to kick his feet feebly and replied with difficulty with a red face.

"There was an accident in the underground laboratory energy centre."

"Many of the lab's mutated experimental bodies have been released."

"It's a mess down there now!"

After hearing this reply, Elder Akira's frown instantly deepened.

"And how did you manage to escape?"

Red Elder's wariness was heavy as he pursued the question again.

And the dense murderous intent didn't dissipate halfway.

As long as Lin Mo's answer did not satisfy him, he would be the first to strike.

"Professor Qin said that my removal surgery has been successful."

"Said it was to ensure my safety and let me pull it out first."

“As for the treatment they still have to protect, the trial.”

In order to prove the truth of his words, Lin Mo pulled out Professor Qin’s identity tag again.

“This was given to me by Professor Qin!”

Only after seeing this object did Elder Chi drop his guard slightly.

And after he felt the rich aura of the plague seed on Lin Mo’s body, coupled with this fallen appearance of Lin Mo.

He believed Lin Mo for a few moments.

In addition, the situation in the laboratory underneath was unknown.

The old man simply did not have the time to verify Lin Mo’s words in detail.

“You stay here, bring me up!”

“If you dare to escape, I will make your life worse than death!”

After a warning, Chilao flung Lin Mo aside.

In his opinion, with the intensity of surveillance the Five Poison Sect had today.

With Lin Mo’s skills, it was a complete fantasy to try to escape from District 9.

With the lift doors opening.

The old man took a step and walked straight in, rushing to the underground laboratory with an anxious look.

Meanwhile.

Lin Mo on the ground also rose to his feet.

Looking at the closed lift doors, his eyes showed a chill.

Medical Genius Unspeakable Marriage Chapter 4356

Lin Mo did not flee first after he had tricked the patriarchal old man who was guarding him.

After moving his neck a little, he arrived at the counter with satisfaction.

Right now, he had a great gift to give them.

After all, his own neck was not that easy to pinch

.....

The lift descended sharply.

Ding!

Without waiting for the lift doors to stop and open, the guarded Chilao kicked the doors straight open.

Only to be dumbfounded when he saw the quiet scene on one side in front of him.

The scene in front of him did not have the slightest hint of the riot Lin Mo had described.

Damn it!

How dare you deceive the old man.

Old Man Red cursed angrily in his heart, while also giving Lin Mo a death sentence.

Of course seeing that nothing unusual was happening.

He couldn't help but breathe a sigh of relief in his heart.

This underground laboratory had cost the entire Five Poisons Sect countless efforts.

If something were to happen, all the efforts of the past ten years would have been wasted.

However, since he had come down, he was not in a hurry to go up and find Lin Mo's trouble.

It was not like that kid could escape anyway, so he might as well check out the situation at the energy centre first.

After all, there was no wind, no waves.

That kid, who had only just been caught over, knew about the Energy Centre.

This was something that aroused the old man's suspicion.

A few flashes.

The red old man flew to the energy centre.

However, when he saw the lazy appearance of these watchmen, his face instantly turned green with anger.

"You trash! How dare you neglect your duties like this!"

As one of the most important structures in the entire laboratory, the Energy Centre was the heart of the laboratory.

Such an important place, and this group of guards were so lax.

The loud rebuke immediately drew everyone's attention.

Seeing the person who came.

The group of watchmen were instantly frightened and their faces were hurriedly white.

"Greetings, Old Man Chi!"

While panicking, the hearts of the crowd were puzzled.

This old man hadn't entered this place for years.

Now he has come so suddenly?

Red Old Man coldly glanced at the crowd's hangdog appearance and was even more furious.

"Is this how you guys guard the energy centre?"

"Old man is just raising a dog who knows how to watch the door properly."

"You're a bunch of losers!"

After an angry scolding, the crowd lowered their heads and did not dare to look at them.

But there were just those guys who didn't have eyes to see.

A few of the drunken mongrels were woken up and didn't care who was there.

They stumbled to their feet and started to fight back.

"Fuck, that bastard is shouting and disturbing my dreams!"

Hearing this, the companion beside him instantly turned pale.

Just as theirs intended to step forward and cover his mouth.

The man who spoke, his body instantly swelled.

Bang!

After the dull explosion, the person had disappeared from the spot.

As for the crushed flesh and blood, it directly splashed all over several people around.

There was no need to think that such a tactic had come from the hands of the Red Elder after all.

"Anyone else who has an opinion, stand out!"

Red Elder glared with a blazing gaze of anger, sweeping across the room.

After a while, seeing no movement in the scene.

Only then did Red Elder ask in an icy tone.

"Have you seen anyone come in or out of here today?"

The crowd looked at each other and then shook their heads in unison that they had not.

Only then did Elder Red feel a little more comfortable.

"Take me in and have a look!"

Once these words were spoken, how could several people dare to hesitate for a moment.

One by one, they all rolled and crawled towards the gate of the energy centre.

Soon!

Led by the man on guard, the Red Elder also entered the core of the Energy Centre.

Only as soon as he walked in, the man who had been ordered to lead the way ahead bizarrely spun in a circle in place.

As if he was a headless fly, he was completely lost.

“Not good!”

Seeing this, Chilao secretly cried out in dismay.

Someone had actually come to this place!

Medical Genius Unspeakable Marriage Chapter 4357

From the first moment he saw the formation in front of him, he felt something bad in his heart

“Disperse it for me!”

With a furious shout, a gale of wind instantly lifted within the passage.

With a wave of his hand, the simple Vertigo Formation here shattered straight away.

The caretakers who were still dazed and confused were now freed from the formation.

Before they knew what was happening, a cold snort from Chi Lao rang out in their ears.

“A bunch of trash!”

After his angry rebuke, Chi Lao hurriedly walked into the core area of the energy centre.

At first glance, there was nothing unusual about this place.

However, Chi Lao was keen to notice the unusual sword Qi fluctuations.

As his eyes narrowed together, a brilliant light instantly emanated from his pupils.

The sword symbols hidden in the surroundings were clearly visible to him.

Not good!

Seeing this object, a piercing chill instantly derived from the bottom of Chi Lao’s heart.

Without any hesitation, he turned around and ran towards the outside of the energy re.

It was also at that moment.

A dozen sword talismans violently burst out with a dazzling cold aura.

In place, the energy core shook violently before even a few of the guards had time to react.

“Run, this place is going to explode!”

For a moment, everyone present was directly frightened to the point of turning white.

After exclaiming in shock, several people were about to prepare to run for their lives.

The huge furnace in front of them suddenly exploded.

The sky was filled with flames coming from one side.

Several people did not have a chance to scream, and were instantly turned into ashes in the midst of this terrifying explosion.

All at once.

The whole laboratory underneath also began to shake violently.

Those researchers who were still concentrating on their experiments couldn't help but look up curiously.

The fire swept across the ground in front of them.

Both the bulletproof glass and the heavy steel plates looked fragile in the midst of the devastating explosion.

The fire engulfs the surrounding area, consuming it with its destructive force.

Although Red Old Man escaped as fast as he could at the first moment he discovered the sword talisman.

Only, his desperate and frantic speed was like a snail's crawl under the shockwave of this explosion.

Red Old Man's face changed greatly and hurriedly unlocked his chest, saving his life for low protection.

In the next second, he was completely wrapped in blazing fire.

The harmful shockwave swept across the back.

The steel frame that had supported the entire laboratory underneath also became torn apart.

Adding to the enormity of the entire building.

The countless boulders at the top fell as if they were raining uncontrollably.

Not long after.

The laboratory underneath, which was still full of technology, was directly turned into a ruin.

There was wreckage everywhere, tragically.

For a long time.

The whole basement was dimly lit.

Only between the sparks sputtering provided a faint glimmer of light to the ruins.

Beneath the rubble.

After a sparse movement, a boulder was pushed straight to the ground.

The red old man trembled and burrowed out of the waste.

At the moment he was drenched in blood.

The dust mixed with the blood had completely covered his face.

Looking around, Chi Lao felt an ache in his heart.

Only at the moment, he had more important things to do than lament.

“Someone has invaded District 9!”

After crushing the transmission talisman, he described Lin Mo’s foreign trade in detail again.

Only then did he take a step towards the exit.

At the same time, his angry heart could not wait to cut Lin Mo to pieces.

Damn it!

I’ll make sure you’re worse than dead.

Once the lab at the bottom was destroyed, their Five Poisons Sect’s ten years of hard work was also put to the torch.

Thinking of this, Chi Lao’s eyes instantly turned even redder.

Within his constantly trembling body, there was an endless anger suppressed.

Peng!

A ring blasted the lift and he climbed straight up the patio, climbing sharply upwards.

At this moment, even though he was already seriously injured, blood was pouring from his mouth.

But driven by the endless fury in his heart, the movements of his hands and feet did not slow down at all.

Medical Genius Unspeakable Marriage Chapter 4358

As the glare gets closer.

In one leap, Akira jumped straight out of the lift shaft.

However, when he got a good look at the scene outside, his pupils could not help but shrink.

This kid was actually still staying here.

Very well!

Just when he was full of expectation that he could kill Lin Mo with his own hands.

Directly Lin Mo suddenly pulled out the accessory at his waist.

The silent sword qi flashed by.

Chilao only felt the cold hairs on his body explode, if it was an unusual situation he he could still react.

However, at the moment he was already seriously injured and weak.

Plus his life-preserving cards had just been consumed in that big explosion.

Right now, he was facing Lin Mo's biting and swift sword strike.

There was no chance to react at all.

In desperation, Chi Lao could only desperately raise his arm.

Only his pale hands didn't even have time to raise them above his chest before he felt a chill in his neck.

"My neck is so easy to choke again!"

A blurred voice rang in his ears before Chi Lao's consciousness dissipated.

The next second.

His body, which had leapt into mid-air, fell vertically directly towards the lift shaft.

As for the top of his shoulders, they were empty at the moment.

Only blood continued to spill wildly.

Lin Mo had waited here for so long with the aim of slaughtering this Chi Lao.

Since he was from the Five Poison Sect.

It didn't matter if he killed a few more!

After finishing this person, Lin Mo once again swung Tai Ah, and continuous sword qi poured out wildly.

In the blink of an eye, the lift shaft linked to the underground passage was completely destroyed.

At the same time, the outside world.

The whole of District 9 felt the violent shaking beneath their feet.

"Is this an earthquake?"

Many people speculated worriedly.

On the contrary, in the Elders' Council at the headquarters of the Five Poison Sect.

The Great Patriarch, dressed in black robes, suddenly roared out in anger.

"All of you, follow me to capture the enemy!"

As soon as the words fell, countless figures from all over the headquarters instantly leapt into the mid-air and then rushed towards the entrance of the laboratory.

Along with one figure landing on the ground.

All the sect masters of the entire Five Poisons Sect arrived.

"What's going on here?"

The Grand Patriarch asked with a gloomy voice.

At this moment several surveyors, too, hurriedly rushed out.

“My lords, something big is wrong!”

“Our lab underneath has been completely given over to destruction.”

At these words, the atmosphere at the scene froze completely.

But the faces of all the Patriarchs present were incomparably gloomy.

For the past ten years or so, they had pooled all the resources and energy of the entire Five Poisons Sect.

The purpose was for this laboratory plague seed.

The results of this research were on the verge of success.

Now it was suddenly destroyed.

Such an outcome is absolutely unacceptable to them.

“Give chase!”

The Grand Preceptor roared.

“This man must not have left for long, to be seen alive and to be seen dead!”

“Yes!”

After responding in unison, everyone present scattered out in a swarm.

At this moment, the anger of everyone in the Five Poisons Sect had reached its peak.

They would not rest until the culprit who had caused all this was caught and brought back to justice.

All at once.

The entire District 9 was completely buzzing with activity.

But all the members of the Five Poisons Sect moved at the first sign of news.

What no one noticed was this.

In the dimly lit laboratory underneath District 9.

A charred black palm suddenly poked out of the rubble.

Immediately afterwards, the surrounding boulders seemed to lose their gravity and floated in mid-air.

At this point, the silhouette of a man under the ruins was revealed.

At this moment, not a single piece of good flesh could be found on his entire body.

Under the red skin, he looked like a pig that had been roasted.

The air was also filled with the rich smell of burnt meat.

But even so, the man did not react in any way.

Instead, he raised his palm with a starburst on his face.

“Hahahaha, old man I’ve finally done it!”

A huge laugh drifted throughout the ruins

Medical Genius Unspeakable Marriage Chapter 4359

Zone 8.

The busy streets are filled with people moving in and out.

With an ear-splitting scream, everyone’s attention was instantly drawn to the scene.

“There are so many poisonous insects!”

“Help, someone help me!”

“Run, I don’t want to die!”

A desperate scream went up.

The whole street was crawling with snakes and insects and centipedes on pedestrians.

After a few screams, people kept falling down, and finally were completely lifeless.

It took less than three minutes.

The street, which had been bustling with activity, suddenly became dead and silent.

The streets were lined with corpses.

The next second, several figures filled the centre of the corpses.

“Go on!”

With a command, several people instantly scattered.

As for the various poisonous snakes and vermin on the ground, they flew in the direction where the few people had left.

The massacre came quickly.

What’s more, ordinary people didn’t have any time to react, let alone run for their lives.

As soon as the Five Poison Cult people arrived.

As soon as the Five Venoms arrived, the streets around them were littered with corpses.

“Lin Mo!”

There was no warning!

At the same time, but everyone who was in District 8 had this name ringing in their ears.

“If you don’t come out obediently, our Five Poison Sect will keep on slaughtering!”

“If you come out one second later, we will slaughter one more street.”

“Slaughter the 8th and 7th districts!”

“Until we kill you in District 3, I don’t believe you won’t show yourself!”

The terrifying voice echoed in the ears for a long time.

Hearing that it was the Five Poison Sect, the real District 8 was instantly thrown into panic!

They had seen the style of the Five Poisons Sect with their own eyes.

When they say they want to kill, they never delay!

“Have they gone mad, the Five Poison Sect wants to exterminate all of us in District 8!”

“Help, I don’t want to die!”

“Run away, escape from Death Island, this Five Poison Sect has gone mad!”

There were shouts and angry curses one after another.

All the residents in every corner of District 8 were panicking without a step.

There were howls and shouts as they crowded and stampeded on each other.

Meanwhile.

Lin Mo, who was hiding in an isolated tavern with a foot, knitted his brows together tightly.

He had known from the moment he prepared to destroy the underground laboratory that the other party might find out that he had done it.

Rather, what he hadn’t expected was for these people to react so quickly.

At the same time what surprised him most was this.

The tactics of these beasts were so heartless.

In order to force himself to give himself up, he had gone so far as to use the ten million marker population as blackmail.

Of course at the moment he was angry, but he knew the gravity of the situation.

Lin Mo did not dare to hesitate in the slightest and leapt straight up to a nearby tall building with a double stomp of his feet.

“Aren’t you guys looking for me?”

Lin Mo narrowed his eyes and swept through the surroundings.

Although his voice was not loud, the Five Poison Sect members all around him instantly spotted him.

“Hurry up and inform, Elders, that brat Lin Mo is here!”

After waiting for this person to release the news, Lin Mo raised his hand and struck his sword.

The person who shouted responded to the sound to the bottom and split in two.

After killing a few members of the Five Poison Sect nearby, Lin Mo leapt once again and ran wildly towards the far side of the road.

On the one hand, he wanted to lure all the members of the Five Poisons Sect out.

On the other hand, in the face of more than ten sect masters from the other side, especially the Grand Master of the Five Poisons Sect, who was infinitely close to the Holy Realm, Lin Mo did not dare to take things lightly.

Once he was blocked.

There was only one way to die over there.

Not long after.

Lin Mo’s trail was soon spread out.

Patriarchs scattered all over the place leapt in succession and darted in the direction of Lin Mo’s escape.

In a matter of moments.

When people looked up into the sky, they saw several figures passing by like shooting stars.

“Lin Mo, suffer death!”

Under chase.

A roar of rage suddenly recalled from behind Lin Mo.

When he turned his head to look back, the shadow of a palm of more than ten feet was slapped towards his face.

Medical Genius Unspeakable Marriage Chapter 4360

Lin Mo naturally did not dare to be careless in the face of such a swift and furious attack.

Seeing that there was nowhere to dodge, he immediately used his best move.

Sword Transient!

The invisible sword qi whistled forward, and the huge palm shadow was instantly split in two by the wine.

Only before Lin Mo could catch his breath.

That imaginary shadow, in an instant, merged back into one.

What kind of move was this?

Lin Mo's face changed and he hurriedly dodged to the side.

Naive, the opponent's attack was as if it had grown eyes.

In an instant, they followed Lin Mo's figure and continued to charge.

Such a bizarre tactic caught Lin Mo a little off guard for a moment.

Without exception, Lin Mo was solidly struck by this palm.

It was like being loaded onto a speeding train.

Lin Mo's body was instantly sent flying hundreds of metres at an extremely fast speed.

Poof!

As soon as he landed on the ground.

Lin Mo only felt a fishy mouth and nose, a mouthful of blood spurted out violently!

"So strong!"

Wiping away the blood from the corner of his mouth, Lin Mo couldn't help but exclaim.

At this moment, he was finally witnessing that infinitely close to a Saint Realm expert's terrifying attack.

There was no need to guess, this must be the means of the Great Sect Master of the Five Poisons Sect.

Thinking of this, Lin Mo hurriedly took an internal injury pill.

He did not care to regulate his internal injuries and opened his escape with a single healthy step here again.

Only with this one lesson.

Lin Mo did not cover up, and directly used his body technique to move forward at full speed.

And when he left not long after.

The Grand Preceptor, dressed in black robes, also arrived at this place.

Seeing the fresh blood on the ground, he coldly urged.

"Keep chasing, this kid has been hit by my Five Poison Palm, he won't be able to escape much further!"

The words fell to the ground.

More than ten figures leapt into the mid-air once again, starting a new round of chase.

And this Grand Preceptor's words were not wrong.

Lin Mo, who was flying ahead, flew a few dozen kilometres before he suddenly began to feel his body getting hotter and hotter.

At the same time, there was a stabbing pain in his internal organs.

"It's poisoned!"

After Lin Mo swept past a large tree on one side, he hurriedly undid the clothes on his chest.

Only a palm mark with a purple-black gas was revealed before his eyes.

"Damn it!"

"I didn't expect this person to have such a tricky tactic."

Lin Mo muttered a cursed phrase before swallowing a few pills once again.

Only to see the small pill bottle that was already showing the bottom of the bottle.

His face also appeared a touch of gloom.

If it hadn't been for the other Archbishop's unexpected slap, the pills he was carrying would have been perfectly sufficient to last him until the third district.

Now it seemed obvious that it would not be enough.

Turning his head to look at the foot of the mountain in the distance, figures were already arriving.

Lin Mo simply did not have time to deal with the poisoned palm on his chest and once again opened his escape mode.

Only, the other sect masters of the Five Poisons Sect were fine.

There was nothing more than a large number of them.

The only thing that gave Lin Mo more of a headache to die for was the opposing Archbishop.

This person was not only of a high realm.

The attainment in stance was also quite terrifying.

Even though Lin Mo was travelling at full speed, he could not lose the distance between him and this person.

Plus, he had to take pills from time to time to replenish his spiritual energy.

This seemingly small delay also caused the distance between the two sides to gradually shrink.

Lin Mo saw how difficult this person's was to deal with, plus the fact that the other party was constantly chasing after him.

Lin Mo gritted his big teeth and stamped his feet heavily into the earth.

Along with a long dragging mark that appeared on the ground.

He immediately steadied his form.

In the next second, Lin Mo took a deep breath.

With Tai Ah at his waist, he swept out horizontally towards the opposing Grand Preceptor.

Mountain River Chop!

With a single swing of the sword, Lin Mo's body's spiritual energy was instantly drained away.

At this moment, he couldn't care less.

Pulling out the thousand-year-old Human Head Crow in his arms, he fiercely took a large bite.

Although there was some heartache.

But at the moment, I couldn't care less about saving my life!

Once they are caught up, they will definitely die
