Chapter 1779 - 1779: Immortality (1)

Seeing that Yun Feng suddenly stopped, Qu Lanyi found it a bit strange. He came over and took a look, only to see the flashing light spot on the Finger Spiritual Jade. He suddenly frowned. He had just thought of the guy when the guy appeared. That guy was truly a haunting ghost.

“He doesn’t come with good intentions. He must have a purpose for showing up here,” said Qu Lanyi with a frown. What was the Xuan family thinking? Was Xuan Yi also a freeloader who wandered around this continent? “I’ve been thinking about his purpose in the Summoning Union. Has the power of the Xuan family already penetrated the Summoning Union?”

Yun Feng frowned. Xuan Yi was also Ling. He didn’t give her a very strong feeling. He would always look humble and respectful, keeping the most comfortable distance every time. He was polite but also cold. This was the attitude Ling gave Yun Feng. He was equally friendly and indifferent to everyone. Of course, it was a different story what he was thinking about Yun Feng.

“Yes, it’s best to avoid him this time.” Yun Feng nodded. That guy was also from the four ancient families, so they must know something about the Map of Elements. Even if they didn’t know what this map represented, they knew how precious it was. It was best not to meet him when searching for light element seed. It would be inconvenient to travel with him.

If he wanted to fight for it, it would be troublesome.

Yun Feng looked in the direction of the Finger Spiritual Jade. With the Finger Spiritual Jade, she only needed to avoid his route. The two of them then avoided Xuan Yi’s route and continued moving forward, going all the way to the designated area. This area was now the border between Ovey and Shengyao. Even though it was gradually desolate, there were still a lot of people living there. However, the cities in the area were gradually declining. More small towns appeared. After all, they used to be in the Cashya Empire’s territory and there were quite a lot of people.

The small villages and towns were all scattered. It was obvious that the big cities had declined. Yun Feng and Qu Lanyi didn’t move quickly along the way. They weren’t sure

about the location of the light element seed, so they could only search for any abnormalities. Even though they didn't find anything, they felt the resentment of the residents in this area. The Cashya Empire's destruction destroyed their homeland and changed everything. The empires seized benefits. Who cared about the lives of these residents?

The two of them searched this area carefully for ten days. They weren't fast. They had already searched five or six small villages, but there was still no clues about the light element seed.

"The Element Seed will most likely be in an unexpected place. It depends on luck to find it." Qu Lanyi chuckled. Yun Feng nodded. She certainly understood that. She couldn't be too hasty in searching, or she would definitely miss something important.

"There's another village ahead. I hope we can get useful information there." Yun Feng chuckled. Qu Lanyi nodded and the two of them walked forward together. It was already dusk. Every time they encountered a town, the two of them would stay for two to three days before leaving. Along the way, they both wore the Thousand Shadows Mask and turned into ordinary people.

When they arrived in the town, the night fell faintly. The two of them found a place to stay and planned to go on the street to find out more information the next day. As soon as they pushed the door open and entered the hotel lobby, the lively scene in the lobby was unusually enthusiastic. The weather was getting colder right now. More people liked to gather together and talk loudly, drinking beer even more comfortably.

The hall was very noisy. Some people were flushed from drinking, and some were a bit tipsy. Different topics were discussed happily. After Yun Feng and Qu Lanyi landed, they also sat in the hall and listened quietly, hoping to hear some good news.

"Have you heard about what happened to Old Wang?"

"What's up?"

"I know, I know. His woman, who was about to die, recovered from a serious illness overnight, didn't she?"

"That's right. Old Wang told the outside world that some powerhouse helped him, but I know the truth."

Everyone pricked up their ears curiously. That person burst into laughter and said mysteriously, "Because he found a treasure! That thing can bring people back to life!"

"What?" Everyone was shocked! Yun Feng and Qu Lanyi looked at each other. The only healing power was the light element and the water element besides the potions. What could that old man find?

“Old Wang has always been selling herbs for a living. Did he find some precious herbs?”

The person who exposed the secret shook his head. “If it’s a herb, why would he be so secretive? I’ve seen that thing. It’s even glittering!”

Shiny? How could there be such a healing power? Yun Feng and Qu Lanyi’s hearts raced. Could it be the Element Seed? That was impossible. How could ordinary humans come into contact with the Element Seed and absorb its power? There was only one explanation. It was something nourished by the light element seed.

Since it was nourished, the light element seed must be at the place where that thing was dug out! Joy appeared in Yun Feng’s eyes. Not bad, there was finally some useful information! She would find that old man next and ask him clearly.

That person was still talking. Yun Feng and Qu Lanyi had already got up and left. The two of them walked out of the hotel and asked around. They found the location of this old man. It was a small yard with a rather simple brick house. All kinds of herbs were scattered in the yard. Most of them were ordinary species. It was obvious that the old man didn’t make much money selling

herbs.

Speaking of herbs, after Yun Feng won the Pharmaceutical Contest this time, the mysterious prize provided by the Pharmaceutical Institute was indeed an extremely rare herb. It was the raw material for a Grandmaster Level potion. Dan Qing said that Yun Feng deserved it. However, Yun Feng was a bit disappointed. It wasn’t the herb her master mentioned.

The two of them approached the yard. It was quiet and nobody seemed to be there. Yun Feng was about to say something when a figure pushed the door open and walked out. It was an old man. The old man was slightly stunned when he saw Yun Feng and Qu Lanyi. Then, he frowned fiercely. “I don’t have the thing you’re talking about here!”

Yun Feng raised her brows. It seemed that someone had already been here. “Old man, do you know what we want?” Qu Lanyi said with a smile. Old Wang gritted his teeth.. “That fatty is just talking nonsense! Immortality? If only I had that thing!”

Chapter 1780 - 1780: Immortality (2)

Yun Feng said, “Your wife was seriously ill, but she miraculously recovered in the end. This can’t be fake. I don’t believe in immortality, but I believe that you did find something that made her recover quickly.”

Old Wang was stunned. "Indeed, but I only found one. I gave it to my woman. I don't have it here!"

Yun Feng chuckled. "We're not here to ask you for that thing. We don't need that thing. We're asking where you found that thing. Can you tell us in detail?"

Old Wang was stunned again and looked at Yun Feng suspiciously. "Why are you asking this? Do you want to dig it too?"

Yun Feng was helpless. Qu Lanyi said, "Don't worry. We won't steal your business. If you want, we're willing to pay you."

A hint of mockery flashed through Old Wang's face. "Payment? Do you want to give me something to make me talk? You two aren't simple people, are you? Why? Do powerhouses have the right to look down on others? You look so superior that I'm annoyed just looking at you. Leave my house. I won't tell you anything. Let's go!"

The sudden anger caught Yun Feng and the old man off guard. Seeing the indignant look on the old man's face, Yun Feng guessed. "Old man, did a so-called powerhouse look for you too?"

"Of course! He was acting like he's a god and he's even threatening me. If I didn't tell him, he'd teach me a lesson. Bah! What a shameless thing."

"It seems that someone has already beaten us to it," whispered Qu Lanyi. Yun Feng frowned. It depended on what their purpose was. Was it simply immortality or the Element Seed?

With Yun Feng's strength, it was certainly very easy for her to make an ordinary person spit out what she wanted. However, Yun Feng didn't want to force him with strength. The power in her hand wasn't for bullying and humiliating the weak. She held power in her hand to protect herself and her companions, not to hurt them.

Yun Feng and Qu Lanyi looked at each other. They would come again tomorrow. Even if someone got the news first, it wouldn't be overnight to find the thing. Besides, even if their real purpose was the Element Seed, how would it be so easy to find it? Even if they found it, it wouldn't be easy to subdue it.

They still had time. They weren't in a hurry.

"Old man, we'll come again tomorrow." Yun Feng smiled lightly. Old Wang was slightly stunned. Then, he said, "Again? What are you doing? Are you done?"

Yun Feng pretended that she didn't hear anything. The two of them turned around and were about to leave. There were obviously a few more auras in the air. Yun Feng and Qu Lanyi raised their brows slightly. The so-called immortality attracted murderers after

all. Should they help or not? Yun Feng chuckled and paused. At this moment, a few shadows jumped out from the side and a cold saber was pressed against Yun Feng's neck. Qu Lanyi was the same.

"Don't move, or we'll take your lives," said the few ferocious people in a low voice. The cold blade was stuck to their warm skin. It could be embedded in their skin with a little force. Yun Feng and Qu Lanyi raised their brows and stood there quietly.

"You two are quite obedient. That's right!" Two people stared at Yun Feng and

Qu Lanyi with their knives, while the other three approached Old Wang. Old Wang immediately became anxious and stepped back, hitting the door. He pressed his entire body against the door and didn't intend to open it. Perhaps he knew that he wouldn't be able to escape even if he opened the door. Old

Wang looked at Yun Feng and Qu Lanyi and the person burst into laughter.

"What are you looking at? Those two can't even protect themselves. They can't save you at all! Old thing, take that thing out obediently and I can spare your life!"

Old Wang glanced at Yun Feng and the others. If they weren't weak, how would they look like they were at the mercy of others? Besides, he was too embarrassed to ask for help with his attitude towards those two people just then. Would he really be unable to escape tonight?

"That thing has already been used. There's nothing left." Old Wang said with a trembling voice.

"Old fart! Didn't you hear what I said just then? Do you want to die?"

Old Wang shivered. "There's really nothing else. I just found a piece. It's already used!"

"Used it? That's easy. I'll certainly find it after killing your woman and breaking her body. Hahaha!"

"What?" Old Wang was immediately so frightened that his face turned pale. His lips were trembling and his body was stuck to the door tightly. Yun Feng couldn't help but frown after hearing that. In order to pursue the so-called immortality, they thought of such a bloody way. They were to break her body and took the thing. Since the thing had already entered her body, how could it still be intact? These people were indeed desperadoes!

"Old fart, get out of my way!"

Old Wang grabbed the door tightly. He didn't leave no matter what! A huge hand came from the sky and was about to send his body flying and forcefully enter. Suddenly, a

sharp pain came from the hand. This person shouted and looked around vigilantly.
“Who is it?”

“Brother, what’s wrong? There’s no one here!” The four lackeys around were all a bit confused. The leader frowned fiercely and looked around firmly. Someone was indeed attacking him in the dark just then! He was still scared and didn’t dare to attack easily.

“That old man has already said that there’s nothing left. Even if you break her body, there won’t be any.” A clear voice sounded as Yun Feng spoke. The leader suddenly turned around with unusually fierce eyes. He exerted strength with the knife on Yun Feng’s neck. “Shut up!”

Yun Feng raised her brows. “You’re an outlaw. Do you still want to pursue immortality? Even if you do, you’ll be a scourge of the world and everyone will kill you.”

“What did you say?” The leader was enraged! He strode over. “Did you attack me secretly just then? Kid, you’re quite bold. Do you think you’re capable? It’s easy for me to take your life!”

Yun Feng chuckled and raised the corners of her mouth indifferently. “Really? Then try taking my life.”

The leader’s eyes immediately bulged. He waved his hand and immediately grabbed the broadsword under his hand, slashing at Yun Feng’s neck! “You ignorant girl! You’re courting death!”

“Swish!” The big knife flashed in the air, creating a gust of dark wind. The cold blade slashed towards Yun Feng’s slender neck. Yun Feng stood there and her black eyes glittered. With a crisp sound, the big knife was suddenly cut into two!

The leader widened his eyes. Yun Feng curled her lips and looked straight into his eyes with her clear black eyes.. “How about I break open your body and take a look?”
