

Genius Summoner

Chapter 20: Heading to the Center of the Foggy Forest

“Bravo! Haha, how would a descendant of mine be a coward?”

Yun Feng smiled as she walked forward with firm steps. She had to move quickly. When the night came, she wouldn't be able to get out of the Foggy Forest, no matter how talented she was and how powerful her body was.

Since she had made a decision, she must go ahead bravely. No matter what kind of thorns were ahead of her, it didn't matter if she bled or got injured as long as she stepped through!

In the place where the Foggy Forest, the East Continent and the Beast Ridge directly bordered, there were countless Magic Beasts. The Foggy Forest was also divided into three areas based on the level and habitat of the Magic Beasts.

The outermost area of the Foggy Forest was the part that had the lowest level. Magic Beasts from level 1 to level 4 usually lived here. These Magic Beasts were always hunted and killed by humans. Most of their abilities were somewhat weaker, except for those at level 4. There were a few Magic Beasts living in the outermost area of the Foggy Forest that had reached level 5 and were sort of the most superior creatures in this area. Although they could be powerful in the outermost area, they all had to bend their bodies and even dared not breathe when they went to the center of the Foggy Forest.

The central area of the Foggy Forest had Magic Beasts from level 5 to level 7. For humans, these Magic Beasts were strong, unless they had the power of the advanced level. Those with a level lower than the advanced level could only become delicious food in the belly of the Magic Beasts.

Although Magic Beasts were vicious, they didn't easily offend humans. Nobody knew why. Otherwise, it was impossible for humans to become the dominators of the Vast Continent with the abilities of the Magic Beasts.

The level-5 Magic Beasts in the outermost area of the Foggy Forest also wanted to run wild in Chunfeng Town, but they didn't have the courage to do so. Rumor had it that a level-6 Magic Beast in the Foggy Forest once attacked humans without authorization and it was severely punished in the end. Since then, no Magic Beast dared to do anything reckless again.

The behavior of the Magic Beasts didn't mean that they had a peaceful relationship with humans. There were always conflicts between both parties and humans' strong desire for Magic Beasts had never vanished.

Living in the deepest area of the Foggy Forest were some domineering creatures. Nobody had been there and no one dared to. Most humans wandered in the outermost area of the Foggy Forest and only those with a high level would go to the central area of the forest. As for the deepest part of the Foggy Forest, people didn't even want to think about it. Not only humans, even Magic Beasts would turn pale and begin to tremble when they thought about the few Magic Beasts living in the deepest area of the forest.

A small figure flashed through the outermost and central area of the Foggy Forest like a gust of wind. This traveling speed shocked some low-level herbivorous Magic Beasts. Even the Cloud Deers, which had the greatest speed, couldn't see what the black figure was clearly. "Swish!" It went past them just like that.

The black figure was Yun Feng. While traveling through the Foggy Forest, Yun Feng's mental strength surged out like tides, covering a few hundred meters of area around her. Her mental strength subconsciously communicated with the elements in the air and Yun Feng's understanding of the wind element increased by one level without her knowing.

She tried to use the wind element with her mental strength just then and it really worked. The wind element was directly merged into the mental strength and Yun Feng's body sped up to a point that surprised her with the help of the wind element.

"Kid, you've already realized the wind element." What the ancestor said enlightened her. Yun Feng finally understood that the tentative action she did just then had made her realize the wind element, which meant that the magic foundation of the wind element now existed in Yun Feng's mental strength.

Yun Feng's speed increased by one stage. She could almost keep up with a level-5 Magic Beast, a Purple Electric Leopard. Such a figure frightened the low-level Magic Beasts and even caught the attention of a few level-5 Magic Beasts in the outermost area of the Foggy Forest.

The outermost area of the Foggy Forest was the territory of these level-5 Magic Beasts. Even though humans kept breaking in, they didn't care about them, as all humans only wandered along the periphery of the Foggy Forest. However, when Yun Feng showed up, these few Magic Beasts became alert. They had already had a thought of killing her

when they noticed where she was heading, let alone her strength. The place she was going to wasn't anywhere else, but the central area of the Foggy Forest!

Even though the Foggy Forest wasn't strictly divided into three zones, some kind of mechanism was formed invisibly. In fact, the outermost area of the Foggy Forest was a shield. Those level-5 Magic Beasts didn't just become the leaders casually. They also carried the responsibility of stopping humans from entering the forest of the Magic Beasts. If the humans dared to enter the central area of the Foggy Forest, they would kill them!

Countless people, who could be regarded as masters, died in the claws of these Magic Beasts in the last several years, so when Yun Feng was rushing forward constantly, these level-5 Magic Beasts had already communicated with one another. A few black shadows suddenly appeared in a few places in the outermost area of the Foggy Forest. The black shadows carried fierceness and rage, which made the low-level Magic Beasts so terrified that they all returned to their nests and dared not come out.

A few black shadows flashed through the outermost area of the Foggy Forest. They all had the same target, Yun Feng!

Yun Feng kept running ahead. She detected fewer and fewer elements in the surrounding area covered by her powerful mental strength. Apart from a few level-4 beasts, there weren't any other Magic Beasts. Yun Feng was a bit excited in her mind. It seemed that she was almost at the end of the outermost area of the Foggy Forest. She would be able to enter the central area of the forest after a short distance!

Thinking of this, Yun Feng couldn't help but speed up even more. After running forward for a while, her ancestor in her spiritual space, who hadn't been talking, suddenly looked serious and frowned tightly.

"Kid, you're in trouble."

Once the ancestor finished talking, a few elements suddenly appeared in the domain of Yun Feng's mental strength. Yun Feng sensed them carefully and her face turned dark. All three elements were at level 5!

Her feet dared not slow down and she moved even faster. And yet, Yun Feng found that no matter how quick she went, the speed of those elements still surpassed hers and they were getting closer to her constantly!

Yun Feng frowned. Three level-5 Magic Beasts might not pose a threat of death to her right now, but it would certainly be a tough battle. She had never felt anything with level 5 along the way. It looked like they had been hiding somewhere in the outermost area of the Foggy Forest. She was their target. This battle was inevitable!

in the Foggy Forest, those passersby, who had been looking at her, all took a deep breath. The man in the deep pit could only make a few sounds subconsciously at the moment and the arrogance he had back then was completely gone. Meanwhile, he hated himself for provoking this girl.

“Who exactly is that little girl?” A few mercenaries who witnessed the scene came together as their eyes glittered constantly. They were all at level 5, but when they saw what Yun Feng did just now, they also felt a bit terrified.

“Apart from those people at the Martial Arts Institute, nobody else in Chunfeng Town is above level 5, let alone just a little girl!”
