

Ghost Doctor 2011

Chapter 2011: Feng Jiu Presents A Plan

The people from the Chai Family looked at the people that had emerged from the forest. There were about fifty or sixty or so members of the Scorpion Mercenary Group, and most of them were Celestial Strong Exponents. They also specialised in looting and used brutal methods. They had amazing combat effectiveness and they feared that if they were to exchange blows, they would suffer serious casualties.

The most important point was that the Scorpion Mercenary Group was more cruel to women and there were many women in their group. If they were to fall into their hands their lives would be living hell and they would be better off dead.

He pondered, then walked forward and bowed respectfully: "My good sir, we have no intention of offending you. If you will allow us to leave safely we are willing to leave some of our belongings for you."

Upon hearing this, the Scorpion Mercenary Group men laughed loudly: "Leave some belongings? Hahahaha! Old man, are you confused? We don't want all of your belongings, we don't want any of those delicate beauties and we will just let you go? All for just a bit of your belongings? Hahahaha! If that was the case, how can we, the Scorpion Mercenary Group, still survive in this Volcanic Forest?"

Feng Jiu who was being protected in the middle looked at the situation in front of her, and saw Chai Second Master trying to make peace and seeking a chance for survival, her eyes flashed and she tugged the sleeves of the young man next to her, whose face was full of worry.

"Little Jiu? Are you afraid?" Chai Feng glanced at the young boy next to him and said in a low voice: "Just watch the situation later on. If we can't defeat them you run away with your senior sisters."

Upon hearing that, Feng Jiu smiled lightly. She pulled him back and motioned for him to lower his head. When Chai Feng saw that, he glanced in front of him. He saw that his Second Master was in discussion with those people, hence, he lowered his head and drew closer to the young boy: "What is it? Tell me."

"Brother Chai, do you think we stand a chance if we fight?" Feng Jiu asked.

Chai Feng shook his head solemnly: "There's no chance of us winning. I'm afraid we will suffer serious injuries and death. The opponents are mercenaries who have combat experience while most of us have only just come out for an experience for the first time. If we really fight, I'm afraid..."

"I have a plan. Will you do as I say?" She whispered. When she saw his puzzled look, she added: "My method might save everyone's lives."

Feng Chai's eyes brightened when he heard this and determination filled his eyes: "Tell me! If I can save everyone's lives I will not hesitate even if it means sacrificing my own life!"

Feng Jiu smiled and whispered her idea into his ear and handed him a bag of things. She looked at him and said quietly: "Success or failure depends on you."

Although Chai Feng had doubts in his heart and wasn't sure if the plan was feasible, there was no other option at the present and he could see that the other party was not going to let them go easily. Therefore, he nodded at Feng Jiu, took a deep breath and held the things in his hand tightly.

At this moment, the leader of the Scorpion Mercenary Group laughed arrogantly: "Kill the men! The women will be brought back to service our brothers!"

"Yes! Hahahahaha...." The men of the Scorpion Mercenary Group responded loudly. They laughed with excitement as they looked at the beautiful women who were being guarded in the middle of the group, impatience unconcealed in their voices.

"Take those ladies home!" The Scorpion Mercenary Group men raised their swords in their hands to the sky and shouted. Just as they were about to take action, they were interrupted by a sudden scene.

Chapter 2012: Insane

"Ahhhhh...."

A panicked and terrified voice sounded and a young man rushed out suddenly from within his team, his arms and legs flailing in horror as he exclaimed.

"No, no! I don't want to die... I don't want to die! No, no.... Ah.... I want to go home, I want to go home... Hooo, I don't want to come out for an experience... I want to go home, Mother... I want to find my mother..."

The sudden cries and exclamation not only stunned the people from the Scorpion Mercenary Group but also the other people whose faces had paled when they heard the Scorpion Mercenary Group men declare that they were going to kill them.

When he saw a decent disciple in such a frightened state, Chai Second Master found himself unable to react for a long while. When the women of the Chai Family and the Nebula Immortal Sect had heard that they were going to take them back to service the mercenaries, their faces paled and could barely stand upright. Now that they saw this big man in such a frightened state, they gritted their teeth and thought to themselves, if they were not able to escape, they would kill themselves!

Even death was better than falling into the hands of those people and having their bodies ruined by them!

When the Scorpion Mercenary Group saw the young man crying and screaming, and even taking off his clothes, they couldn't help but laugh.

"Hahahahaha.... Big Brother, look, we haven't even made a move yet and this kid is scared crazy. It seems our reputation precedes us, hahahaha..."

One of the men from the Scorpion Mercenary Group smiled triumphantly but didn't rush to make a move. Instead, he held his sword in one hand and rested it on his shoulder while the other hand rested on his waist and stood there watching the young man cry his eyes out.

They felt such a sense of achievement upon seeing a strong young man being frightened by them. In the future, it seemed that once they showed up, if people recognised them as members of the Scorpion Mercenary Group, they would surely be so frightened they would wet their pants.

When Chai Second Master saw his own family member acting so foolishly, he was livid and couldn't help but shout: "Chai Feng! Come over here!"

"No... no... I don't want to die, I don't want to die..." Chai Feng murmured and ran in front immediately.

When the Chai Second Master saw this, his face was livid: "Go and get him back!"

Two middle aged men from the Chai Family stepped forward to catch the young man. However, Chai Feng had resisted fiercely and ran around and jumped around: "Don't... don't catch me... I want to go home... I want to go home..."

Feng Jiu who was standing in the middle couldn't help but smile and her mouth opened slightly with a strange dazed expression on her face when she saw the scene in front of her. How unexpected! Chai Feng was quite talented at pretending to be insane. He did seem like he had gone insane with fright, it was beyond her expectations.

She watched as Chai Feng ran around everyone, his flailing arms and scattered clothes directed more at the Scorpion Mercenary Group. Finally, after he had run a lap, he was dragged back by the two middle-aged men from the Chai Family.

"Let me go, let me go..." He struggled in vain.

Upon seeing this, the Scorpion Mercenary Group sneered coldly. Their gazes moved on to the pale faces of the women. The leader of the group smiled lewdly and raised his hand: "Do it!"

As soon as he had given his order, those people besieged them. At the same moment, Chai Second Master said in a deep voice: "The first team will fight! The second team will escort the tribe to safety!"
