

# Ghost Doctor 2015

## Chapter 2015: You Deserve It

“Ah Feng, come over here. What exactly happened? Tell me now.” Chai Second Master came out of his daze and suppressed the shock and called out to Chai Feng who was standing there dumbfounded.

At this moment, even Fan Yixiu and a few others looked at this awkward looking young man. He had actually reversed the situation and saved everyone’s lives?

“Ah Feng, you really scared me. I really thought that you had gone insane, but it was actually your plan after all! How did you come up with this plan? Why do you have such powerful medicine? Those people were Celestial Strong Exponents, and they were all rendered powerless.”

“Brother Ah Feng, you are amazing!”

“Brother Ah Feng, we are so fortunate to have you otherwise our plight would be so tragic.”

Exclamations of surprise and excitement pulled Feng Chai out of his daze. He glanced at Feng Jiu, then retracted his gaze and came to his second uncle’s side: “Second Uncle, this wasn’t my idea, the medicine wasn’t mine either. It was Little Jiu who saved everyone, not me.”

Chai Feng pointed to the young boy who was wiping his dagger: “It was Little Jiu’s idea and it was Little Jiu who gave me the bag of medicine. If it weren’t for him, I’m afraid we would all be dead.”

“It was Little Jiu?”

Everyone looked at the simple and honest looking boy in shock. This young boy was so inconspicuous, how could he...

When she saw everyone staring at her, Feng Jiu, who was wiping her dagger, smiled simply at everyone then lowered her head and continued wiping her dagger.

“Yes, it was Little Jiu. He was the one who gave me the medicine and the plan was his.” Feng Chai emphasized. He looked at his second uncle and said: “Little Jiu said that he would help everyone through this crisis but he wants everything those mercenaries have on their bodies.”

Upon hearing this, everyone was dumbfounded and their eyes fell on the young boy in azure. He wanted all their belongings? That meant they wouldn’t get any?

However, if it wasn’t for his plan and medicine, they would probably be dead right now. His request actually wasn’t too demanding. It wasn’t as if he wanted their belongings, it was just the mercenaries’ belongings that he had wanted.

Their lives had been saved by him, even though they knew that the Scorpion Mercenary Group mercenaries would have a lot of possessions, they wouldn’t expect to fight with this young boy over them. After all, since the young boy could come up with such a brilliant idea and possess such a powerful medicine, this was someone they would want to befriend and not make an enemy of.

“Brother Fan, what do you think?” Chai Second Uncle looked at Fan Yixiu and asked.

“We have no objection.” Fan Yixiu replied. He looked at the young boy in azure clothes: “If it weren’t for Little Jiu, we would be dead right now. We aren’t greedy people and we don’t need these items, they are what Little Jiu deserves.”

Chai Second Master nodded: “I think so too.” He ordered several people to gather the mercenaries’ cosmos sacks, space rings and weapons, and put them into two piles.

“Little Jiu, thank you for saving us with your plan. You deserve all this.” Chai Second Master said. He gestured for him to put away all the items.

Feng Jiu glanced at everyone, then she smiled and walked forward slowly.

### **Chapter 2016: Where did you get it?**

She took away all the space rings, the cosmos sacks, as well as the jade ornaments on the Scorpion Mercenary Group members’ waists. As for their weapons, she gave them to Patriarch Chai. “It’s no use giving me the weapons. Let them keep these! They may be useful later.”

“This won’t do. These are all your...” Before Second Master Chai finished speaking, Feng Jiu interrupted him.

“It’s no use keeping them. I can’t use these many weapons by myself.” She smiled, took out a space ring from her space and handed it to him. “Brother Chai, this is for you.”

“No, no. I can’t take it. It’s not easy for all of us to survive. Keep these things! I can’t take it.” Chai Feng waved his hand and stepped back, refusing to take the ring. Even if Feng Jiu asked him repeatedly to take it, he would still keep turning her down.

Finally, Feng Jiu had no choice but to put the ring away. “Alright! Since you don’t want it, I’ll keep it. When we return to the city, I’ll sell it to get some money.” She smiled with her eyes narrowed.

Second Master Chai ordered everyone to choose one of the weapons and kept one at his side. Seeing the dead bodies on the ground and the stench of blood, he told his people. “Don’t stay here for long. We have to leave now and find a cleaner place to rest.”

“Yes.” Thus, the people quickly lined up and left this place, looking for an area that didn’t reek of blood to sit down and rest.

“Little Jiu, do you still have that medicine?” Second Master Chai asked while wondering. What kind of medicine was it? It could even affect Celestial Strong Exponents. It’s very likely that it’s not refined by an ordinary man.

“No.” She answered with both hands spread out.

“Then, where did you get that medicine?” Second Master Chai asked again, thinking that if they knew where she had bought it, they could also get some for an emergency.

“It’s from the Heavenly Pill Tower in Hundred Rivers City.” Feng Jiu answered with a smile.

“The Heavenly Pill Tower in Hundred Rivers City?” Second Master Chai looked at her in surprise, then at several members of the Chai family around him. Finally, he told Feng Jiu, “We have never heard of the Heavenly Pill Tower.”

Fan Yixiu and several others who sat beside him were silent but thoughtful. Among them, Fan Yixiu was the one who thought it was very odd.

He looked at Feng Jiu and asked, “In Hundred Rivers City? There’s nothing called the Heavenly Pill Tower in Hundred Rivers City before!”

A female disciple next to him remarked, “Eldest Senior Brother’s home is in Hundred Rivers City.”

Feng Jiu’s eyes flickered. Fan Yixiu’s home was in Hundred Rivers City? It seemed there were not many people with the surname Fan in the city. A person crossed her mind, but it went away in a flash.

“The Heavenly Pill Tower is newly opened. It specializes in selling medicinal pills, potions as well as medicinal powder. The pack of medicine that I took out today is good and of top quality. It’s just that the price is very expensive. Some things also can’t be bought with money.”

“Oh? Can’t be bought with money? So, how can one get it?” A person next to him asked, looking at Feng Jiu with surprise.

“With medicinal materials. But, the spirit herbs have to be of a certain age, at least five hundred years old. Its reputation has spread over the city and many people went there to request medicine. It was only by chance that I got this package of medicinal powder.”

“I see.” Suddenly, they were curious about the Heavenly Pill Tower, thinking that they must find a chance to see it when they came out of the Volcano Forest.
