## Chapter 2321: No One

They were all in here. How come some people smelled it and some didn't? And they smelled different things, that's indeed strange.

"Take a look! There's roasted meat! It was roasted whole on the fire. That's where the tempting fragrance comes from."

A devilry cultivator pointed to the whole ferocious beast roasted over the fire not far away. The ferocious beast's skin was roasted golden and looked crisp. He took another whiff of the fragrance, which made the devilry cultivator who only had some unripe fruits for two days gulp his saliva.

"There's no one there, but there's so much roasted meat. Is it poisoned?" One of the devilry cultivators said, his eyes were fixed on the oily roasted meat.

"Wow, there's warmed wine next to it? The Phoenix City people are enjoying themselves too much. Where did they get the wine? How many years have I not smelled wine? I'm having a craving for it now."

A devilry cultivator walked over involuntarily with a gluttonous face. "I'd better take a look if there is any poison. If there is no poison, brothers can also fill their stomachs."

When they saw this, their eyes flickered but they said nothing. They watched that person come forward to test the roast meat with a silver needle. Seeing the silver needle didn't change colour after a prick, he couldn't help exclaiming. "The roasted meat is not poisoned!"

He also tried drinking the wine, but it was also not poisoned. Then he told them, "This meat and wine have no poison!" As soon as he said this, he scooped up a bowl of warm wine, drank it, and cut a large piece of meat to eat.

When they saw that he was alright after gobbling the food, they couldn't help gulping and immediately walked over.

"What are you all doing!"

The Devil Lord's gloomy voice came. The crowd halted their steps and looked back at their master.

"Master, there's food ahead." A devilry cultivator answered in a low voice.

"Food? Hmph! You forgot what you were doing here, didn't you? Who told you to eat here? Go search! Find the people for me and wipe all of them for me!"

The Devil Lord's gloomy voice carried a killing intent. Everyone's heart shivered with fear and they immediately answered "Yes!" They then dispersed to search all over the city.

"Why don't you go quickly?" The Devil Lord stared at the devilry cultivator gobbling meat and kicked him.

The man ran away and didn't forget to swallow the meat. At this time, the Devil Lord sat by the fire and asked a nearby devilry cultivator to cut him a piece of meat and scoop a bowl of wine.

While eating the meat and drinking the wine, he cursed with a low voice. "The Phoenix City people really enjoy life! We have no wine. I wonder where they got these good things!"

The devilry cultivator next to him said hurriedly. "Master, after wiping out all the people in Phoenix City, their things are ours. At that time, are you afraid there is no good wine to drink?"

"Hahahaha! You said it right!" The Devil Lord raised his head and guffawed. He waved his hand and said, "You too get a bowl of wine and drink!"

The devilry cultivator's eyes lit up and thanked him quickly. "Thank you, Master." Then he came forward to get a bowl of wine and drank it like water.

He hadn't tasted wine for years, but when he took a sip, he couldn't put into words how wonderful it was.

However, just as they were drinking wine and eating meat here, suddenly, a startled voice came from the city. "How could this happen? How could it happen? Hiss! It's itchy! It's itchy..."

"Hahahaha! I'll kill all of you! Kill all of you!"

### **Chapter 2322: Specially prepared**

The Devil Lord stood abruptly when he heard these sounds. But once he stood up, things in front of him were swaying and there was a buzz in his ears. His vision was also a little blurred. Someone appeared in front of him seemingly wielding a knife. By instinct, he flipped his palm and attacked the person.

"Bang!"

"Puff!"

"Ma, Master..."

The devilry cultivator was shot to the ground by the slap. He felt his breastbone was smashed to pieces, his internal organs injured, and blood pooled inside his mouth. He seemed to want to say something, but until the end, he had to swallow his unwillingness and say nothing.

The devilry cultivator's voice made the Devil Lord sober. He was greatly shocked, but after steadying his mind and having a look, he knew that the man he shot flying was the devilry cultivator next to him who helped him cut the meat and scoop the wine!

The frantic voices behind him, the clashing swords and the smell of battle in the air made him step forward in big strides. In a sweep, his figure headed towards the outside.

When he came to the scene of battle, he almost spurted out a mouthful of blood. All the men who were fighting fiercely in front of him were his subordinates! He had no idea what's going on. Each one of them seemed suicidal, chopping around recklessly. The scene was bloody and a lot of bodies had fallen on the ground.

Seeing this scene, he felt all of his vital energy and blood rushing into his head as if it was about to burst out. He shouted angrily. "Stop for me! Stop it! What are you doing!"

However, his voice could not stop them. Those people were still chopping at each other. They showed extremely cruel and bloodthirsty sides. Their eyes were filled with the determination to kill each other.

He became worried and furious. As his anger surged, he clenched his fists, raised his head and let out an angry roar. "People of Phoenix City! Come out!"

His voice was filled with the Immortal Venerable's mighty pressure and airflow. As his voice spread, the pressure and breath were sweeping the air. A mighty pressure shrouded the place which immediately made the devilry cultivators engaged in the melee hold their heads, scream, and fall down.

At this moment, a figure in red appeared quietly in the night. Her red dress was fluttering in the night wind with her back to the curved moon in the night sky. Therefore, her face was invisible to the Devil Lord below.

"It's you! It was you who did it!" The Devil Lord stared at the figure that appeared in midair. As killing intent burst out from his body, he immediately lifted his vital energy and swept upward.

When he came to mid-air and saw clearly the face of the figure in red opposite him, despite being filled with anger and killing intent, he was also amazed by her.

Her appearance was really unparalleled! The slightly raised eye corners and curved lips all exuded a devilish charm and wantonness. Although she wore a man's clothes, it did not damage her incomparable beauty and grace.

This woman! She's actually even more stunning than the portrait!

"Are you satisfied with the present I have prepared for you?" Feng Jiu curved her lips in a smile. The spirit energy breath in her nonchalant voice spread out with the night wind.

The Devil Lord stared at her. Even though she had a beauty that could cause the fall of a city, he still had an impulse to strangle her!

Suddenly two roars were heard from below.. Two ferocious beasts at the sacred beast rank emerged from hiding. Once they caught a person, they would tear at him...

### **Chapter 2323: There's no escape**

As Phoenix City's cultivators came from behind, they were all flabbergasted at the chaotic scene. They thought they would meet a fierce battle, but unexpectedly, they didn't have to fight at all. These devilry cultivators fought against each other and more than half of them were killed.

Watching those devilry cultivators clashed like mad with crimson eyes, they were secretly frightened. Their Master' skill was terrifying. Luckily, they were on the Master' side. Otherwise, they would likely be the ones fighting with their eyes flushed and completely lost reason.

"Attack! Leave no survivors!"

Elder Gu was issued an order calmly, telling the people behind him to wipe out the devilry cultivators whose strengths were now weakening. Hundreds of people rushed out from hiding with their swords drawn towards the devilry cultivators, joining in the melee...

In the sky, Feng Jiu fought with the Devil Lord. As soon as they exchanged fists, the Devil Lord's face changed as terror struck his heart. "You're not an Immortal Sacred Strong Exponent! You're an Immortal Venerable mid-rank cultivator!"

"So what? Just realize that none of you can escape today!" Feng Jiu attacked him with the Red Armillary Sash. The sash was as fierce and terrifying as the attack of a sword. As the Red Armillary Sash rolled up, a breath carrying the ancient sacred beast's pressure came attacking and hit the Devil Lord's body with a bang.

"Ugh!"

With a groan, his body was shot back and blood spurted out from his mouth. He stared at her with shock and murmured, "It's the breath of an ancient sacred beast! How is this possible? Who the hell are you!"

"I'm the one who can kill you!"

As soon as Feng Jiu said this, the figure in red flashed out again and the Red Armillary Sash rolled out in an attack. Suddenly, a flame burst out from the sash towards the Devil Lord.

The Devil Lord was about to resist, but he was startled to find that the spirit energy in his body suddenly disappeared. The flame rushed to his body with a whizzing sound and burned his hair...

"Aah!"

The sound of fire burning came along with an unpleasant smell. The pain from the burn made him scream. He patted down the flames but couldn't extinguish them. Startled, he took off his robe hurriedly and cut off his hair with a knife.

"I'll kill you!"

His disheveled appearance made him roar out in anger. As he clenched his fists tightly, he then realized that his body had lost its spirit energy for some reason and his body fell down from the air.

Sensing that there's something wrong with his body, he immediately gritted his teeth, reluctantly sacrificed his body, and fled with his Nascent Soul.

Feng Jiu was surprised to see his decisive action to run away in his Nascent Soul form. After all, if one escaped in this form, they had to cultivate from the start. What's more, in a place like this, nobody could advance. Even in the face of death, few people would think of using their Nascent Soul to escape. What's more, this Devil Lord still had not been pushed into a desperate situation and only lost his spirit energy.

Because she didn't expect this move, the Nascent Soul instantly escaped outside the range. However, this place had a protective boundary barrier. Even if he escaped in his Nascent Soul form, he couldn't escape her boundary barrier. She was in no hurry.

Looking down, she saw that the Devil Lord's corpse was trampled by people. With a spark in her eyes, she looked ahead with surprise.

When the Devil Lord's Nascent Soul found that there was nowhere to escape, he actually ran back. With a whoosh, he rushed into a devilry cultivator and possessed the body.

Seeing this, when she was about to kill him, a sharp arrow was shot...

#### **Chapter 2324: A wise move**

"Ugh!"

The Devil Lord let out a muffled groan. The sharp arrow penetrated the devilry cultivator's body, leaving only a bloody hole. The devilry cultivator fell to his death, his eyes were still wide open as if refusing to believe that he was killed like this.

Feng Jiu looked back and glanced at Gu Xiang not far below with a smile. "Well done." Things went much smoother than she thought. Once the Devil Lord died, it was much easier to take over the Devilry City.

Below, when Phoenix City's cultivators saw the Devil Lord's death, their battle intent intensified and their courage mounted as the battle progressed. Not long after, they wiped out all the devilry cultivators.

Elder Gu assigned them to check for survivors. Finally, he reported to Feng Jiu. "Master, there are two hundred and one people in total and there are no survivors!"

"After cleaning up this place, let's get a good rest! Three days later, follow me to take down Devilry City!" Feng Jiu told them.

The crowd were excited. With a resounding and vigorous voice, they immediately answered, "Yes!"

Feng Jiu returned to the courtyard while the others started to clear away the corpses in the city. As the sky was getting bright, some of the loose cultivators observing outside the city were shocked.

Why was there no movement here? Was it already over? Was it possible that the Devilry City's people were lost?

Once this idea was raised, the loose cultivators only thought it was inconceivable.

Three days later, Phoenix City remained the same as before, but the news of the defeat of the people of the Devilry City quickly spread. As soon as the news came out, it finally attracted the attention of several other forces.

Upon hearing the news, the devilry cultivators of the Devilry City fled and abandoned the city, afraid to stay there. The whole Devilry City was empty because it had no ruler...

For this reason, several forces sent their people to sit down and talk, for they felt that Phoenix City's City Lord Feng already posed a threat to them. If they ignored this problem, one of them would be the next to be destroyed.

As the proverb goes, without the lips, the teeth feel the cold. The eight forces kept the balance of power and had nothing to do with each other. But, ever since City Lord Feng seized the Black Mountain City and occupied it, and now wiped out Devilry City, who's next?

They believed it would be one of them next. The person came to look for trouble and was so powerful that if they didn't pay attention, it would be too late for regrets.

The middle-aged man neighbouring Phoenix City also received letters sent by several other forces, but he threw it aside after taking a look.

Seeing this, the old man, who was waiting by the side, could not help asking. "Master? Are we not going to meet them for a talk?"

"What's there to talk about?"

The middle-aged man sneered. "I think those people turned foolish after being isolated here. Their brains became slow. Isn't it clear what to do in such a situation and such changes? What else is there to discuss?"

The old man was stunned when he heard this. He glanced at the middle-aged man and asked carefully, "So, in Master's opinion, what should we do now?"

The middle-aged man glanced at the sky, flicked his robe and stood up. "It's still early in the day. Let's go! Come out with me."

Seeing him stepping outside, the old man followed him hurriedly and rode on a flying sword. Seeing him going towards Phoenix City, he was so scared that cold sweats seeped out.

"Master, are, are you going to Phoenix City?" He couldn't help asking, wondering what his Master had in mind.

### **Chapter 2325: Not a benevolent person**

"That's right."

The middle-aged man stood with his hands clasped behind his back, his clothes fluttering in the wind, and his eyes were looking into the distance. In a low and deep voice, he spoke unhurriedly. "I have to meet Phoenix City's City Lord. Now it's just an opportunity."

The old man's mouth twitched. He had no idea what to say.

His Master was different from the other forces. After occupying the mountain peak, his Master left the matters below for him to deal with. Even when he resided in the city, very few people had seen him. Some of the cultivators who joined later probably didn't even know that he was their Master.

But, in all his years at his side, he had never found his master's decision wrong. He was sure it would be the same this time.

It took them about a day or so to arrive in front of Phoenix City's city gate. Before that, Feng Jiu and others had just come back. She had erected a boundary barrier in Devilry City. Only she could go over it, no one else could enter the place.

As soon as she returned to the courtyard to take a bath, she heard a report from outside that the only Immortal Venerable Strong Exponent among the remaining six forces, the City Lord whose city had no devilry cultivators, came to pay her a visit.

She got out of the bath, put on some clothes, wiped her jet-black hair dry, then went outside.

"Master, the visitor is the City Lord of a neighbouring city. He's the City Lord who doesn't take charge of the city management much. All the people here address him as the Insouciant Venerable Lord. They are waiting outside the city gate now."

"Did he come by himself?" Feng Jiu raised her eyebrows, looking at Gu Xiang.

"He brought an old man with him. I had a look and there was no one else behind him."

"Interesting." She smiled. "Ask him to come into the front hall. I'll be right there."

"Yes." Gu Xiang replied and then withdrew.

Outside, the Insouciant Venerable Lord was invited in, followed by the old man. When they entered the city, they saw the cultivators inside were actually engaged in training. On the side, there were some younger children and youngsters.

Seeing this, the Insouciant Venerable Lord was surprised. He didn't expect that Phoenix City would accept even children and youngsters like that. The Phoenix City Lord was really odd.

"Please come inside." Gu Xiang led the way, took the two men to the hall and then withdrew.

"Master, Phoenix City is really different. I didn't expect them to accept even young children and youngsters. It seems that City Lord Feng is a kind-hearted person." The old man said impartially. From entering the city to now, this was how he felt about the City Lord of Phoenix City.

Although he hadn't met their City Lord yet, would a cold-blooded person offer shelter to those children and youngsters?

"A benevolent person?"

The Insouciant Venerable Lord smiled. "None of the exiled people here are good. She, a woman, can survive here and make those people respect her as their Lord. If she doesn't have some means, how can it be justified? I don't think so. At most, she doesn't kill innocent people at will like other cultivators."

"You said it right."

Feng Jiu came in from outside and her gaze fell on the middle-aged man. "It's not just in here. Even outside, there are few good-hearted people. I don't think I'm a benevolent person, but I won't kill innocent people."

Hearing this, the middle-aged man saw a figure in red walking in and his eyes flickered.

## Chapter 2326: I'm here to find the truth

"It's the first time we meet. It's indeed better to meet in person rather than knowing by reputation. City Lord Feng is truly peerlessly beautiful and outstanding." He spoke slowly while looking at Feng Jiu's face.

As she walked in, her gaze also fell on him with scrutiny. After hearing his praise, she replied, "The Venerable Lord is also extraordinary, having great courage and insight."

She went to the main table and sat down. "Pour the wine," she told Gu Xiang, who had followed her and stood by her side.

"Yes."

Gu Xiang answered, went to the rear to take a jar of wine and two wine cups. He poured the wine for Feng Jiu and the Venerable Lord, and then stood aside with the wine jar in his hands.

Smelling the aroma of the wine, the Venerable Lord's face was wreathed with smiles. "I didn't expect City Lord Feng to have such good wine. I should have come earlier." While talking, he took the cup to drink, but the old man behind him called out.

"Master, this wine..." The old man was worried that Phoenix City's people would slip a drug in the wine.

He knew his subordinate's mind, but the Venerable Lord smiled with unconcern. "Don't worry! Only two of us came here today and we're already inside Phoenix City. Besides, City Lord Feng is so strong that she doesn't even need to use wine if she wanted to do something to us."

With these words, he took the wine and took a sip. The wine was mellow and pleasant. He couldn't help narrowing his eyes while savouring the wine with an intoxicated look.

"I haven't had such good wine for many years since I came to this land."

After finishing the wine in the cup, he looked at Feng Jiu. "City Lord Feng, I'm your guest today. As a host, will you be reluctant to give up this jar of wine?"

Feng Jiu smiled. "Of course not." She motioned for Gu Xiang to put the wine on his table.

Gu Xiang came forward, put the wine jar down, then returned to Feng Jiu. Although he was an Immortal Sacred Strong Exponent, now was served tea and poured wine at his Master's side. At least, among the hundreds of people, only he could always wait upon the Master.

Fortunately, his Master didn't dislike a rough man like him.

The Venerable Lord took a sip directly from the wine jar, acting casual and nonchalant as if he were not a guest in someone else's house, but in his own house. His free and easy manner made Feng Jiu look favourably at him.

Seeing him drinking there with an intoxicated look on his face, Feng Jiu was not in a hurry to ask the reason for his visit. She gave Gu Xiang an instruction, and not long after, Gu Xiang came back with a word and Feng Jiu stood up.

"I don't have other things here, but there are two dishes to accompany the wine. If Venerable Lord doesn't mind, please step outside." She made a sign to invite him to the stone table outside to have some food and wine as well as to chat.

Hearing this, the Venerable Lord stood up with a smile while holding the wine jar in his hand. "That would be great."

The two of them went outside and sat down. Several dishes to accompany the wine were placed on the table. Gu Xiang filled Feng Jiu's cup to the brim with wine.

After taking a sip of the wine, she chatted with the Venerable Lord. "Try these dishes, our chef is quite skilled."

"Pretty good. Not only is Phoenix City's atmosphere good, but also the wine and food here are good. I really didn't come here in vain today. It was right to come here." While eating the food and drinking wine, he spoke again.. "City Lord Feng, I am here today to find the truth."

### **Chapter 2327: Changing his mind**

Hearing this, the old man's mouth twitched. He couldn't help but look away.

His Master was too honest. How could he tell her straightforwardly that he was here to find out the truth?

"But now I changed my mind again."

As the Venerable Lord spoke, he took another sip of wine, then looked at Feng Jiu, saying, "You are entertaining guests with good wine and food. How about this? Let me stay here too. I won't go back. How about you select the people in my city, pick those whom you like and drive away those whom you don't like?"

Feng Jiu raised her eyebrows. "Really?"

"Can I joke with you about this? Really. What do you think?" He took the food and ate, oblivious to the fact that the old man was tugging at his robe from behind.

Seeing this, Feng Jiu smiled and poured another glass of wine. "Do you know what are the conditions I have for staying here?"

"Are there still conditions? Don't we just serve you as our Master? Although we are both cultivators of Immortal Venerable rank and our strength is similar, but it's just the way it is here. What does it matter how strong you are? Why not serve you as our Master? But only on the premise that there's enough wine."

As he spoke, he took another sip. He felt the old man behind him tugging at his robe. He put down the jug abruptly with a loud bang and looked back at him with displeasure. "Tell me if you have something to say. Why are you pulling my robe?"

The old man's face was hot when he received this scolding and shot an awkward glance at Feng Jiu. Seeing that she just smiled and didn't say anything, he opened his mouth in a low voice and persuaded the Venerable Lord. "Master, you can't just recognize her as your Master! Don't you forget, she's a woman. Why do you have to take her as your Master for the sake of this wine? How can this work?"

"Tch!" The Venerable Lord sneered. After a glance at the old man, he looked at Feng Jiu. "City Lord Feng, what do you think is the reason why I should stay and pay allegiance to you?"

Feng Jiu took a sip of the wine with her lips slightly curved. "After seeing the situation clearly, you know that this is the best thing to do." She paused slightly, looked at him, and said, "That's why I said that you are very unusual and daring."

Since he dared to come to her door in such a way, it was enough to see how bold his heart was. If she had such a person, he could help her take care of the affairs of Heavenly Dynasty Palace in the future.

"Did you hear that?" He looked at the old man next to him. "This is the reason why I decided to stay."

In his opinion, this was the way it was here. They couldn't advance in strength and it was impossible for him to leave after being trapped in this place. Since that was the case, what was there to argue about?

The character and conduct of the person in front of him perfectly suited him. But calling Master, why was it difficult to come out of his mouth?

The old man opened his mouth but still didn't say anything after a long time. He was dumbfounded. If he knew that his Master had come here with such an idea, even if he was killed, he would have dragged his Master, not allowing him to come here. But now, did his Master mean that he had no intention to go back? Did he indeed want to stay here?

For a moment, he stood there blankly, feeling that he could not keep up with his Master's thinking. If Venerable Lord recognized City Lord Feng as his Master, then who would be his Master in the future?

Gu Xiang, standing behind Feng Jiu, was also struck dumb. He didn't expect that the Venerable Lord would come to the door and say that he wanted to stay and serve their Master.

If the matter were settled in this way, if it were to spread, it was probable that the other forces would not recover from their shock for a long time and would start to get agitated.

And those people under the Insouciant Venerable Lord would all be taken by surprise...

## **Chapter 2328: Trouble**

Perhaps due to the other party's carefree nature. Since he said he would stay, Feng Jiu didn't say anything. She just instructed Gu Xiang and asked him to arrange a place for the Venerable Lord and at the same time tell this news to his subordinates.

"Some of my people are good. Would you like to go and have a look sometime?" He asked Feng Jiu.

"It's not urgent." She smiled and drank a cup of wine. "As long as you send out the news that you pay allegiance to me, I believe that those people will follow without me going there."

The Insouciant Venerable Lord burst into laughter. "That's right."

The two were chatting and drinking wine until the night gradually went deeper. Feng Jiu then told Gu Xiang, "Please take him to rest!" Then she got up and left.

"Hey, we'll be brothers from now on."

Gu Xiang grinned and reached out to pat him on the shoulder, but when he met the Venerable Lord's glance, he changed the direction of his outstretched hand to pat his own thigh instead. "Let's go, I'll take you to rest." This man had greater strength than him so that he could not help but flinch at the man's glance. Sure enough, his strength was indeed greater than anyone.

As Feng Jiu had said, when the news of the Insouciant Venerable Lord's allegiance to her spread, the devilry cultivators of the other forces immediately panicked. The cultivators from the Insouciant Venerable Lord's city also rushed over one after another after hearing the news.

Even knowing that Feng Jiu didn't accept devilry cultivators as well as evil cultivators, some people still came with a glimmer of hope...

Days went by in this place. In the blink of an eye, a few months had already passed.

The atmosphere was somewhat downcast outside the Heavenly Pill Tower in Hundred Rivers City. The people in charge of the Heavenly Pill Tower gathered in the rear courtyard to discuss things. Even Mo Chen was present. In addition to Mo Chen, there were four other people, Ning Lang, Duan Ye, Luo Fei and Song Ming who were trained by Feng Jiu.

"This matter is odd. After receiving the letter and leaving, we have not heard any news from Big Brother Guan in the past few months. But, unfortunately, the matter that he had sneaked into the four great sects and killed several peak masters has spread these days."

"Now, those four great sects' people are furious. They have also issued a killing order. At the same time, they sent a person to keep watch at our Heavenly Pill Tower. They will catch him and send him to Thousand Unrivaled Peak to pay the lives of the peak masters with his life. We also don't know Master's whereabouts. Young Master Mo Chen, what should we do about this?"

Several people looked at Mo Chen, asking him for his opinions.

Mo Chen glanced at them. "Of course, we should first find Guan Xilin and ask him if he actually did these things. If not, where has he been all this time? As long as we provide evidence to prove that he did not do those things, the people of the Four Great Immortal Sects will not do anything to him."

Song Ming nodded. "I don't think he did it. He didn't have the motive. What's more, there's something problematic about the span of time he left."

Hearing this, Duan Ye looked at them with agreement. "Yes, at that time, he also told me that Feng Jiu is not here now. He wants to guard Heavenly Pill Tower for her. He didn't plan to go out for a while, but after suddenly receiving the letter that day, he gave some instructions and left. He never returned after that. I think it must be related to what happened these days."

"But the problem is, even if we mobilize our people to find him, we can't find his whereabouts."

## Chapter 2329: Gone missing

While the people in the rear courtyard were discussing these matters, in the Heavenly Pill Tower in front, Bai Qingcheng was wiping the cabinets. Yang Xiao Er was watching attentively not far behind.

“You’ve been here for months at least. Why do I still have to tell you how to do all this? The corners of the cabinet must be wiped clean. There must be no dust in these places.” Yang Xiao Er looked at the beautiful Bai Qingcheng with her arms folded around the chest while complaining from the side.

When she saw some guests coming in and staring at Bai Qingcheng, she snorted and said, “What are you looking at lewdly? Have you never seen a woman?”

“Hey, Miss Xiao Er, Miss Bai is...”

Before the man in luxurious attire finished talking, he was interrupted by Yang Xiao Er.

“She? You don’t have to think about her. Every time you come in you have always been staring at her and asking about her from the east to the west. Didn’t you already know her origin? I’m telling you that if it goes too far, be careful that you won’t be able to enter the Heavenly Pill Tower’s door.”

“Yes, I know. I just think that making Miss Bai Ghost Doctor’s maid is really...”

The man in luxurious attire spoke distressfully. Such a delicate and beautiful woman, a daughter of an influential clan, and was originally one of the Four Great Sects’ Heavenly Sun Immortal Sect’s proud female disciple. Now, she was reduced to a maidservant. It’s such a waste.

“Really wasteful?”

Yang Xiao Er spoke, glancing at Bai Qingcheng who was wiping the cabinet. “She deserves it.”

She knew everything about this woman’s origin. People like her should suffer like this. What’s more, she didn’t think that making her Sister Feng’s maid was giving her much suffering.

“If you want to buy something, go in. Don’t wander around.” Yang Xiao Er told the man in luxurious attire. After giving a glance at Bai Qingcheng, she turned around and left.

When the man in luxurious attire saw Yang Xiao Er leaving, he leaned over. “Miss Bai...” Before he finished speaking, he saw Bai Qingcheng, who was wiping the furniture, raise her head and glance at the man with disgust.

“Go away!”

She glared at the man. Her gorgeous face had the look of utter loathing.

The man felt humiliated by her glare. He immediately let out a cold snort, flicked his sleeves and walked out, leaving a sentence, “What the eldest miss of the Bai clan! You’re just a beautiful woman, pretending to be noble and virtuous!”

Watching the man leave, Bai Qingcheng pursed her lips and continued to wipe the cabinets without talking. That day, Feng Jiu said that she would give her a month to deal with things and report here. Even if she didn't want to, she came in the end.

She remembered vividly when her family learned about this news, they were all indignant, while those who were jealous of her in the past were gloating. Her family even came to the sect, hoping the sect to intercede, but in the end, she still came to the Heavenly Pill Tower.

Perhaps because everyone here knew where she had come from, they were not kind to her. They were all cold and indifferent to her. What surprised her most was that everyone here was so excellent and outstanding.

Those people would become the best and famous anywhere, but they were willing to stay in Heavenly Pill Tower and become Ghost Doctor Feng Jiu's subordinates...

### **Chapter 2330: There's not only the path to destruction**

There's still Heavenly Pill Tower's medicinal pills. The moment she saw the medicinal pills inside, she immediately understood why the Heavenly Sun Immortal Sect's alchemist was lost to Ghost Doctor Feng Jiu.

She couldn't deny that she felt repulsive when she first arrived here. But, after staying for several months, although she had no idea why Feng Jiu was never seen, she knew that she didn't feel any more repulsion having such a master now. She was even somewhat worried and nervous that she would always be rejected and given the cold shoulder.

She had no idea where her Master had gone and why her figure had never been seen until now.

Trapped in the floating land, Feng Jiu left the matters at hand to her subordinates to deal with before going into the space and cultivating in seclusion. Two months ago, she had figured out how to break the formation array and boundary barrier of this place. But, since her strength had not yet broken the Immortal Emperor rank, she was still unable to do that.

Another thing was that the devilry cultivators and evil cultivators in this place had not been rectified yet. If the boundary barrier was suddenly opened and the formation array was broken, letting those people escape, they would undoubtedly cause bloodshed outside due to their bloodthirsty nature and fearsome battle strength. She didn't want to see that kind of scene and consequence.

However, what she did not expect was that after continuously cultivating in the space for several months, she had only reached the Immortal Venerable peak stage from the starting point of Immortal Venerable rank.

Today, she came out of the space, walked ahead and met the Insouciant Venerable Lord who was drinking wine under a tree.

"Cang Qing, why are you drinking again? How's the progress of the matters I asked you to deal with?" Feng Jiu walked slowly towards him and asked the Insouciant Venerable Lord.

Hearing Feng Jiu calling his name, he looked back at her. When he saw the breath on her body, his eyes flashed with wonder and his voice had an odd and astonished tone. "Master, have you advanced?"

There were prohibitions and restraints in this place. They had no way to advance. How did she advance? There was a faint breath surging on her body which was already the complete aura of Immortal Venerable peak stage. Such a breath was the first among the people here.

It's just that she had no such breath a few months ago. He didn't know about other people, but she was aware of her original level. Even if she gained more strength, she would definitely not reach the perfect peak rank.

Hearing this, Feng Jiu raised her eyebrows. "You can see it? This is just the Immortal Venerable Peak, not yet stepping into the level of Immortal Emperor."

The Insouciant Venerable Lord's hand that carried the wine jar shook. "Can you still advance and make a breakthrough into the Immortal Emperor? How is it possible?"

"How did you handle those matters?" She stopped beside him and inquired once more.

Only then did Cang Qing come to his senses and take a glance at her. "Rest assured, all was dealt well. Everything inside has been under our control. I have ordered to watch those people below. I was just waiting for you to come out to tell you about it."

He paused to take a mouthful of wine, then continued. "I don't think killing them all is going to solve the problem. Even if there is a war, both sides will lose.. Plus, they have surrendered to us, so I don't think they will only resort to the path to destruction, even though they are devilry cultivators."

### **Chapter 2331: Sacrifice Soul**

"Oh? Then tell me, what is your solution?" She asked with a smile.

"It was nothing, I just told them that it was fine if they wanted to live here, but in order to ensure the peace and safety in the future, they had to sacrifice a piece of their soul and offer it to their Master. With this guarantee, naturally they wouldn't be targeted again."

Upon hearing this, Feng Jiu nodded: "This is indeed a simple and most direct method."

Though this method was feasible, there was one thing he didn't know. Ultimately, she was going to break through the boundary barriers and arrays here and turn this piece of floating land into her territory. And when that time came, naturally it would be impossible for the devilry cultivators and the others to continue staying here.

So, if they weren't able to stay here, they had to leave this place. She believed that none of those people, including Cang Qing, had expected that they would ever leave this place because they thought that they would have to live in this place for the rest of their lives.

Therefore, her worry was that once the boundary barrier was opened and they were all able to leave this place, would the other devilry cultivators, evil cultivators and bloodthirsty and murderous cultivators go from bad to worse once they went outside? Would they become tyrants?

If they were asked to sacrifice a piece of their souls, naturally they wouldn't dare to do evil where she was. However, if they went to other places, she wouldn't know.

However, it was undeniable that if all those devilry cultivators were to sacrifice a piece of their soul to her, they would never be able to attack her or become her enemy, because if she willed it, they would be killed instantly.

Could she let them leave this place in the future if they offered her a piece of their soul? She would have to think twice about this.

Cang Qing was surprised when he saw her deep in thought and asked: "Is this method not feasible?"

Feng Jiu glanced at him and said profoundly: "I feel a little uneasy about it."

Upon hearing this, Cang Qing smiled: "What are you worried about? We are only here, and besides, they wouldn't dare put their lives at risk."

"Then get someone to make the arrangements! Tomorrow, get them to line up tomorrow one by one." Feng Jiu instructed, then turned and left.

When he saw this, Cang Qing also stood up. He swaggered forward and went to make the arrangements for tomorrow...

The next day, early in the morning, because Feng Jiu had left instructions, her subordinates had already arranged everything.

In Phoenix City, the devilry cultivators and evil cultivators, as well as the cultivators who hadn't been selected, had already lined up one by one and talked in low voices.

"I heard that the Phoenix City Lord has come out of seclusion. Today, as long as we offer a piece of our soul as sacrifice, they will not kill us even if we are devilry cultivators or evil cultivators."

"Actually, that's fine with me. I have been afraid for the past few months. We are already trapped in this place without hope of ever leaving, and yet we have to be vigilant and worry that we could be killed at any time, it's not an easy life at all!"

"That's right. Although we are resigned to the inevitable life and death, if we can avoid it, who would want to die?"

"That's right. All I want to do now is offer a piece of my soul to Phoenix City Lord and leave here. When I see her in the future I will make sure I keep my distance as well."

"She's here she's here, don't talk, look, Phoenix City Lord is here."

### **Chapter 2332: Kill Order**

When everyone looked over, they saw a red figure surrounded by a crowd that walked slowly to the chair in front of them and sat down. The Phoenix City cultivators in front of them took a step forward and knelt on one knee respectfully after she had sat down.

“Greetings to Master!”

When they saw so many cultivators, strong exponents and unruly cultivators whose bodies were filled with evil had unanimously knelt down on one knee respectfully and addressed her as their Master, the hearts and minds of the people at the back shook.

They were all villains who had been exiled to this place, they were all strong exponents who dominated when they were outside, they would be looked at in awe as strong exponents wherever they went.

However, here, they all surrendered at the feet of a woman named Feng Jiu and they called her Lord Feng, they surrendered for her methods, for her strength, for her courage, they surrendered willingly!

“You can all get up!”

Feng Jiu waved her hand and a soft voice escaped from her mouth with a breath of spirit energy that passed into everyone’s ears clearly. She raised her eyes and glanced around and all she could see were densely packed human heads. The total number of people came to about two thousand.

“Thank you Master.” Everyone responded then they stood up and retreated and stood guard quietly.

Elder Gu, who was standing next to Feng Jiu, gestured and two cultivators lifted a table and placed it in front of Feng Jiu. Immediately afterwards, she began to take things out and placed them on the table leisurely.

Even Cang Qing who was on the other side found it strange and didn’t know what those things were for, let alone other people.

“Cang Qing, begin!” Feng Jiu said.

Upon hearing that, Cang Qing came to the side of the table and looked at everyone standing in the city and said: “Everyone who has come here today knows the reason for being here today, so let’s not delay anymore and get started! The strongest person will start first.”

His voice entered everyone’s ears, and once everyone heard this, the few Immortal Venerable cultivators who were standing at the front looked at each other and walked forward one by one and came to Feng Jiu.

“Phoenix City Lord, although Insouciant Venerable Lord has already said those words, we still want to hear you say it so we can be rest assured.” A devilry cultivator said as his eyes fell on Feng Jiu’s extraordinary face.

Even though her face was really beautiful and rare, when they looked at her face and thought of her methods and courage, they were unable to be even the slightest disrespectful.

Upon hearing this, Feng Jiu glanced at the few Immortal Venerable devilry cultivators in front of her, then she stood up and her gaze swept behind them. A cold voice came out of her mouth with a breath of spirit energy and a trace of coercion.

“As long as each of you sacrifices a piece of your soul to me, and you won’t take innocent lives in the future or do evil anywhere, naturally, I will not kill you. However, if I find out that you are killing

innocent people and are doing evil, then I, Feng Jiu, will tell you right now: you will be killed no matter where you are!”

Her voice contained coercion, and her manner was imposing and fierce, everyone who heard this was shocked. No one questioned whether her words were just threats, instead, they believed that if they were to kill innocent people in the future and do evil, she would definitely issue a kill order on them!

### **Chapter 2333: You Can Leave**

Maybe her words had shocked them, hence no one uttered another word. An Immortal Venerable devilry cultivator in front pursed his lips and glanced at Feng Jiu as he offered a piece of his soul.

Feng Jiu glanced at him and put his soul away, then she said to him: “Extend your right hand.”

The devilry cultivator was startled, and he hesitated for a moment, then he stretched out his right hand. Next, he saw that she held a writing brush that was dipped in something red, like cinnabar, and drew a flame pattern on the back of his hand, a word was written in this pattern.

“Elder Gu, draw this pattern and write the number just like this.” Feng Jiu said to Elder Gu beside her.

Elder Gu stepped forward and took a look, then he nodded: “Yes.”

Feng Jiu ordered a chair to be brought over for Elder Gu to sit down and handed him the writing brush. She watched from the side while she put away the souls that were sacrificed to her by those people one by one.

On this day, it was evening when they had finally finished collecting the souls of those people. Elder Gu and Cang Qing took turns and drew the pattern and wrote the numbers. They only stopped when the pattern and number had been written on the last person’s hand.

“Master, there are one thousand nine hundred and ninety nine people in total.” Elder Gu reported the total number of people.

Feng Jiu nodded and looked up. She looked at all the devilry cultivators who were standing and said to them: “Since you have all sacrificed a piece of your soul to me, it means that your lives are in my hands. So, let me tell you a piece of news right now!”

When they heard this, everyone’s hearts lifted inexplicably, many people’s expressions changed slightly, they thought to themselves: Was she going back on her word? Was she thinking of crushing their souls and killing them all at once?

Even the people of Phoenix City were taken aback when they heard this and wondered why their Master had been in seclusion for such a long time. What news did she have to tell everyone?

When she saw everyone’s expressions, Feng Jiu’s lips raised slightly and a smile bloomed on her lips, a confident expression appeared between her eyebrows and her quiet voice came out of her mouth unhurriedly.

“The news I want to tell you all is that in the near future, I will open the Great Boundary Barrier Formation of this place so that you can leave this isolated place!”

As soon as the news was announced, there was a sudden silence in Phoenix City. Everyone’s expressions were a look of shock, and after a long silence, there were exclamations and disbelief voices.

“How is this possible? She said she can break open the Great Boundary Barrier Formation of this place? She said that we can leave this isolated place?”

“Ah! How is this possible? I don’t believe it! But, how I wish that were true...”

“Do we really have a chance to leave this place? Can we really leave?”

“The boundary barriers and arrays of this place were created by the Four Immortals Emperors; there are also restrictions in the sky. No matter how powerful she is, she is only an Immortal Venerable strong exponent, she herself was also thrown in here, how can she save us and help us leave? I don’t believe it!”

“No, no, no! It must be true! If Phoenix City Lord said it then it must be true! I believe her! I believe her!”

“Yes, yes, yes, she is so powerful, she must be able to break through the boundary barriers and arrays of this place, she definitely can!”

A disarray of voices sounded, some of the people’s expressions were of excitement, some believed and some didn’t, there were also ones who were dumbfounded, and at this moment in time, all their eyes fell on the red figure...

#### **Chapter 2334: Await The Day**

After she had announced the news, Feng Jiu turned and left. After they watched her leave, Elder Gu, Cang Qing and Gu Xiang looked at each other and they couldn’t help but follow. The others sent the devilry cultivators who were still in excitement away.

Only those few Immortal Venerable devilry cultivators were shocked when they heard Feng Jiu’s words and didn’t want to leave, they wanted to stay and find out more. However, the people of Phoenix City executed their orders and drove the devilry cultivators out of Phoenix City and closed the boundary barrier. They could only stay outside Phoenix City and wait for an opportunity to ask in more detail what was going on in this matter. Could they really leave this place one day?

Elder Gu and Cang Qing followed her until they came inside. When they saw that she had sat down in the courtyard, Elder Gu was unable to hold himself back and asked: “Master, was what you said before true? Can we really leave this place?”

There was an inconcealable tone of excitement in his voice. His hands were clasped together and trembled faintly in his excitement.

“Naturally it’s true.” She said, and watched the two ladies from the Gu Family who were bringing food. She took out a wine gourd from space and drank from it while she ate the food and said: “It’s just that it will take some time.”

Upon hearing this, they glanced at each other and couldn't help but smile excitedly: "As long as we can go out one day, we will wait no matter how long it takes!"

They didn't ask anymore as they had received an affirmation from her. Hence, they believed that they would definitely be able to leave this place.

In actual fact, this place wasn't so bad. It was just that this place had restrictions because it was a place where wicked people were exiled to, it wasn't a place for ordinary people. This place didn't even have grains and any things that small towns outside had.

However, if one day this place could communicate with the outside world, and it had the things the outside world had, this place would become a different place. At the very least, they knew one thing, the spirit energy breath in this place was very strong, and it was precisely because of this that this place had such big boundary barriers, arrays and restrictions placed around it.

They left the yard with excitement in their hearts. When they came outside, the people of Phoenix City surrounded them one by one and questioned them. When they heard the news from them, the loud cheers from the whole of Phoenix City could be heard...

When she heard the cheers in the city, Feng Jiu, who was eating and drinking in her courtyard, couldn't help but smile. She raised her head and looked up at the sky, her eyes moved slightly as she thought of her family and friends.

She hadn't seen them for more than half a year, she didn't even know what had happened to them. She wondered if they were well. She wondered if there had been any news of Xuanyuan Mo Ze, who had gone beyond the seas.

"I actually miss them quite a bit, and there is also Father and Grandfather and the others. I don't even know if everything is alright with them now." She whispered softly and thought how fast time flew by. She thought of how good their lives would be right now if the Feng Family hadn't met with the disaster and Little Feng Ye hadn't died.

When she thought of this, she let out a small sigh. When she can leave this place, she would find a chance and go to see if they were doing well.

That night, she sat in the courtyard and ate and drank wine until the night got darker. When she felt a little drunk, she returned to her room to rest. She slept till noon the next day, and after she left instructions that she was going into seclusion, she entered space and continued to cultivate...

### **Chapter 2335: Breakthrough To Immortal Emperor**

After another half a year, a surge of spirit energy and profound energy coursed through Feng Jiu's body, who was sitting cross-legged in space cultivating. The breath of the primal chaos blue lotus in her dantian also overflowed and permeated the entire space.

She knew from the familiar feeling that she was about to advance! After she had cultivated for more than half a year, she was finally about to break through to the Immortal Venerable level and enter the strength of Immortal Emperor!

She took out the pill she had prepared for breaking through the Immortal Venerable level and entering the Immortal Emperor level at once. This time when she advanced to the Immortal Emperor level, she had to break through to the peak stage in one fell swoop!

Only this would her strength be enough to shock the Four Immortal Emperors. Furthermore, the Four Immortal Emperors had been at the level of Immortal Emperor for many years, she was afraid their strength today would be even higher than Immortal Emperor. Only breaking through to the Immortal Emperor level would they even notice her.

Along with the changes in the atmosphere in space, the sky in space also changed. And while she was advancing in here, the people outside had no idea that it wouldn't take much longer before they could all leave here...

In Phoenix City, Elder Gu and the others were going about their day in an orderly manner. Some were assigned to hunt beasts while some guarded the city and some went and inspected some places outside.

Half a year ago, when Feng Jiu had told them that she would take them out and leave this place, the scent of blood seemed to have lessened. Few people fought over minor things, and those with a higher cultivation level no longer killed those with a lower cultivation level at a whim.

To them, the matters at hand weren't important. The most important thing was to be able to leave this place. Therefore, they waited, waited for that day to come.

Many people often gathered outside the gates of Phoenix City. They waited there because if there was any news, they would be the first to know. However, the gates of Phoenix City remained closed all this time. It was only opened when someone left or entered. Even if they wanted to know the news, if the person in charge of Phoenix City didn't allow it, the news wouldn't reach their ears.

When twelve signal flares were released one after another above the skies of Phoenix City, the people of Phoenix City who were outside rushed back immediately after they saw the signal flares.

Over the next few days, they saw the people of Phoenix City returning to Phoenix City in a hurry. They tried to find out what had happened. However, no one paid them any attention.

"What do you think has happened? Why did the people inside Phoenix City release twelve signal flares in a row to summon the people who are outside?"

"I'm wondering, is the Phoenix City Lord going to open the boundary barriers here? That's why they have summoned everyone back?"

"Do you really think so? It has been half a year since she had said those words, in only half a year she has figured out how to break through the boundary barriers in this place?"

"Otherwise, what else could it be? Now everyone in here is getting along with each other, in the past six months fewer people have been fighting and killing. Other than breaking open the boundary barriers, I don't think there is any other matter that she would summon everyone outside with twelve signal flares for."

"That's true, maybe she is really breaking open the boundary barriers!"

"That's great! We can finally leave this place!"

Excitement and expectant smiles filled the faces of the people who were outside Phoenix City and they couldn't help but whisper to one another in excitement...

### **Chapter 2336: Ready To Break Through**

Inside Phoenix City, everyone was standing side by side and looking at the majestic red figure who walked out slowly. Everyone's eyes fell on her, the respect and admiration they held for her in their gaze was obvious, as she moved, so did their gazes.

Feng Jiu walked out slowly and stopped in front of everyone. As she looked at everyone in the city standing respectfully in silence, her voice came out of her mouth with a breath of spirit energy and spread clearly into everyone's ears.

"I've asked you all to come back because I have something to tell you."

Feng Jiu looked at them and said slowly: "Tomorrow I will prepare to break open the Great Formation Boundary Barrier here. But you have to know that the Great Formation Boundary Barrier was formed by the Four Immortal Emperors, so once the restriction here is lifted, they will surely be alerted. I'm telling you this today so that you can be prepared."

Upon hearing this, everyone's eyes lit up. They said loudly: "Rest assured Master! We will get ready at once! We are not afraid even if we have to fight when the time comes!"

Feng Jiu nodded when she heard this and said: "Wait to see what the situation is like tomorrow and listen to my orders! If we can avoid battle, it's better. Otherwise, fighting against the Immortal Emperors will have severe casualties. Today you will all have a good rest and await tomorrow!"

"Yes!" Everyone responded in a deep voice. The excitement was hard to conceal in their voices. It was likely that no one would be able to calm down and rest today.

"You can disperse!" She waved her hand and gestured. After everyone had gone, she looked at Cang Qing on the side and said: "Go out and let the devilry cultivators know the situation so that they won't act recklessly tomorrow."

"Yes, I understand." Cang Qing responded and nodded before he stepped out.

After Feng Jiu had given instructions to Elder Gu and the others, she returned to her courtyard. She was going to sleep well today as she awaited the arrival of tomorrow...

The devilry cultivators outside had all rushed to Phoenix City when they saw the twelve signal flares. Everyone was excited after they heard the words of Insociount Venerable Lord.

"We understand, please tell Phoenix City Lord that we will follow her instructions tomorrow and we will definitely not act recklessly!" The Immortal Venerable cultivators said immediately.

"Mmm." Cang Qing responded, then he told them to inform the devilry cultivators below them before he turned around and returned to Phoenix City.

On this day, other than Feng Jiu, everyone in here was in so much excitement that they were unable to close their eyes to rest. When the sky brightened the next morning, everyone stared at the sky of Phoenix City.

The next morning, Feng Jiu awoke between the hours of seven and nine. After she had washed herself, she rose directly into the sky and went up towards the sky.

The people underneath, whether inside Phoenix City or outside, only saw the red figure flying in the sky. Her red dress fluttered in the air, it was absolutely beautiful.

Feng Jiu who had soared into the sky had a breath of spirit energy that permeated out of her body that was visible to the naked eye. When the breath of her Immortal Emperor strength was released from her body, everyone below felt the mighty and fierce Immortal Emperor's coercion and momentum. They couldn't help but gasp and exclaim.

"How is this possible? Phoenix City Lord is an Immortal Emperor level strong exponent! Wasn't she an Immortal Venerable level strong exponent? How is she an Immortal Emperor?"

### **Chapter 2337: Break The Restriction**

"Has she always been an Immortal Emperor? Her strength was suppressed?"

"Perhaps she has always been an Immortal Emperor! How else would Insociount Venerable Lord submit to her so easily? How could she have won Phoenix City by killing the Immortal Venerable strong exponent with her own strength? Only the strength of an Immortal Emperor could do it!"

"No wonder... no wonder... no wonder she said she could break through the boundary barriers here. She has the strength of an Immortal Emperor, an ancient contract beast, she also has all kinds of skills, no wonder she can break through the forbidden barrier here so that we can leave here!"

The people below discussed while Feng Jiu who was in the sky formed complex and ancient marks on both of her hands. They were accompanied by the release of the breath of an Immortal Emperor, and the marks on her hands pointed towards the sky. The ancient coercion was accompanied by the mighty and fierce Immortal Emperor's strength as the Fire of Heaven struck out with a whirr and marked the sky.

"Boom! Boom..."

In the middle of the bright blue and white skies, the sky suddenly changed colour and the sound of thunder rang out continuously. A series of lightning flashed across the sky and hit the ground with a crash. Everyone below screamed and exclaimed as they looked at the scene in the sky in shock.

"Boom!"

As she stood in midair, Feng Jiu looked up and saw that above her head, a dark cloud hovered over her closely. The sound of thunder sounded above her head and the lightning shot down past her.

The mighty coercion pressed on her like Mount Tai, as if it was angry at her for trying to break the Great Formation Boundary Barrier. Breaking the restriction here was the same. If it weren't because her

current strength had already reached the peak level of Immortal Emperor, it would have been impossible for her to withstand such a powerful pressure by herself.

However, even if the Four Immortal Emperors' coercion were pressing on her right now, she would also be able to bear it! Today, even if the Four Immortal Emperors were to show up, she would still break through the Great Formation Boundary Barrier and restrictions here!

“Boom! Bang!”

The sound of thunder continued and the wind rose like the roar of a beast, as if it was trying to sweep Feng Jiu who was in midair away. However, all around her a ray of light protected her like a protective shield and prevented the wind blades from hurting her. The lightning and thunder couldn't hurt her either...

“Break!”

A cold shout came from the sky and a flame rose suddenly. The flame connected with the complex and ancient marks that she had formed before. They were accompanied by the impact of a powerful coercion and mental power. At that moment, a crash came from the sky and was followed by a booming explosion.

“Boom!”

When the loud sound blasted out, four powerful breaths of spirit energy dispersed separately and flew to the four corners of the sky, then they disappeared...

When the people below saw the scene in the sky, they were in a daze momentarily, and then, there was a burst of excitement: “It's broken! It's broken! The restriction has been broken!”

The blood rushed to their heads upon seeing that scene. They felt the blood in their bodies boiling when they saw that the restriction had been broken. They knew that as long as the last two boundary barriers and arrays were broken, they would be able to leave here!

At the same time, the spirit minds of the Four Immortal Emperors who guarded the place at the four heavenly corners were alerted at this moment...

### **Chapter 2338: Send You Away**

There was a strange colour in the eyes of the four of them, but only for a moment. They were in seclusion and had continued to sit cross-legged, though their spirits had left their bodies and went to the floating land.

In that floating land, after Feng Jiu had broken through the first restriction, she felt the pressure in the sky disappear. She rose in the air again at once as she prepared to break through the Great Formation. However, at this moment, four majestic voices came from the sky with fierce momentum.

“Who are you?!”

The majestic voice contained fierce power, and the powerful pressure came from the four voices. She was shocked. A trace of blood spilt out from her mouth, and as for the people below, they knelt down with blood spilling out of their mouths the moment the four voices sounded out, they weren't even able to straighten their bodies.

At that moment, they knew that the strength of the Four Immortal Emperors was far beyond anything they could have imagined. Maybe, after so many years, the strength of the Four Immortal Emperors had already surpassed the level of Immortal Emperor...

After Feng Jiu raised her hand and wiped the blood from her mouth, she looked at the four figures in the sky. Her eyes flickered and she spoke: "Feng Jiu greets the Four Immortal Emperors."

The wise and sharp eyes of the Four Immortal Emperors fell on Feng Jiu. Although she was dressed in men's clothing, they were able to tell at a glance that she was a girl who had a mystical spirit-gathering body, and that she was an extraordinary.

Their eyes swept across her body and they looked at her beautiful face, her noble disposition could not be profaned. There was no dark aura on her body, nor evil aura surrounding her. On the contrary, the divine light shone on this person faintly, which made the four of them feel a little strange.

"Feng Jiu, why did you enter this exiled land? Why do you want to break the Great Formation Boundary Barrier that us four monarchs have jointly cast?"

One of them asked. His voice was majestic and captivating, and he locked gazes with Feng Jiu tightly. He looked directly into her eyes, as if he could see right through her.

This was a place of exile, most of the people who came in here were evil people. Even if one of two were sent here occasionally, it shouldn't be someone like her.

Furthermore, this place was jointly set up by the Four Immortal Emperors. A little girl like her shouldn't have been able to break the restriction. This really surprised them, they were in disbelief and couldn't help but try to guess her origins.

"I was teleported through the Dark Portal by a devilry cultivator who had opened it. I've been here for almost a year. Naturally, the reason why I've broken the Great Formation Boundary Barrier cast by yourselves is because I want to leave this place." She said slowly, and looked at the shadows of the four of them.

This was fascinating, what cultivation level was needed to achieve this? Sure enough, she had guessed correctly, the four of them were no longer at Immortal Emperor level.

Upon hearing that she had entered through the Dark Portal, the eyes of the four of them flickered. So this was what had happened. They hadn't expected that a devilry cultivator would still have the ability to open the Dark Portal teleportation array.

After a slight pause, one of them opened their mouths and said: "This is a place where the wicked are imprisoned. If you break the boundary barrier here, they will continue to do evil when they return to the continent. Since you have entered this place by mistake, we can send you away."

Upon hearing this, everyone below was shocked. They were knelt on the ground and unable to stand up, let alone look up at the sky. Therefore, at this time, a wave of despair grew in their hearts inevitably.

Would Phoenix City Lord agree? Since she was able to leave, whether they could leave or not wasn't important to her...

### **Chapter 2339: Remember This Favour**

At that moment, they couldn't help but feel the despair of being abandoned. They felt that the Phoenix City Lord wouldn't take them away because the Four Immortal Emperors had no intention of letting them leave.

However, the people of Phoenix City didn't panic when they heard those words but waited quietly. They believed that their Master would take them away because they knew that their Master was not the kind of person who only cared about herself.

As she stood in midair, Feng Jiu shook her head upon hearing the Emperor's words.

When the Four Immortal Emperors saw that she had shook her head, they couldn't help but be surprised: "You don't wish to leave?" She had just said that she opened the boundary barrier to leave, why did she refuse when they offered to send her away?

"No."

Feng Jiu said and looked at the four people: "I want to leave, but I also want everyone in this place to be able to leave, regardless of whether they are devilry cultivators or cultivators. I have promised them that I will let them leave here. Besides, I intend to take this floating land as my territory and make it mine."

When they heard this, the devilry cultivators below couldn't help but gasp secretly. The Phoenix City Lord was truly audacious. She dared to say such things in front of the Four Immortal Emperors? Wasn't she afraid that the Four Immortal Emperors would kill her?

Moreover, she said that she was going to take this place as her territory, for herself? Would the Four Immortal Emperors agree to that? If this place was to be free of those restrictions and boundary barriers, it would be a good place that was full of spirit energy. Would the Four Immortal Emperors give her such a place?

Only the people of Phoenix City smiled involuntarily when they heard Feng Jiu's words. This was their Master! Domineering and tough!

When the Four Immortal Emperors heard Feng Jiu's words, they couldn't help but glance at each other with strange expressions on their faces: "Not only do you want the people below to leave, but you also want us to give you this place?"

"It's not a gift, it's compensation."

Feng Jiu looked at the four of them and said: "I have been trapped in this exiled place with boundary barriers and restrictions cast by the Four Immortal Emperors for no reason, don't you think I should be compensated?"

Upon hearing this, the four of them were stunned. They stared at Feng Jiu for a long time as thoughts ran through their heads. Finally, one of them said slowly: "It's not impossible to gift it to you, but how can you ensure that all the devilry cultivators and cultivators that are filled with evil breath won't do harm when they go out?"

Feng Jiu smiled when she heard this: "Their spirits are in my hand. As long as I will it, they will die instantly. Moreover, with the exception of devilry cultivators and evil cultivators, the majority of the people have submitted to me and become my subordinates. With my ability, I will be able to manage them well."

The four of them glanced at each other and nodded slightly: "In that case, you may do as you wish! Remember this favour." The four of them gave her a meaningful look.

Remember this favour?

Feng Jiu's eyes flickered slightly, what do the words of those four monarchs mean? Did they want her to repay the favour in the future? With their status as the four Emperors who guarded the four corners of the earth, what favour would they need from her?

"Since we have agreed to help, we will help you till the end. You don't have to waste anymore energy to break the Great Formation Boundary Barrier. We will help you remove the Great Formation Boundary Barrier. But you must remember our words today and don't let those devilry cultivators do harm after they leave here."

As soon as they had spoken, the four of them looked deeply at Feng Jiu, then they waved their hands and removed the Great Formation Boundary Barrier...

### **Chapter 2340: Guard Duty Shifts**

After the Four Immortal Emperors had removed the Great Formation Boundary Barrier, they disappeared into the sky. When they left, the powerful pressure that had enveloped the sky also disappeared. The people below breathed out softly and stood up one after another.

"Has the boundary barrier and restrictions been removed? Really been removed?" Someone murmured and asked, his face was filled with disbelief.

"I'll go up and take a look." Another cultivator was unable to contain his excitement. He didn't care that he was injured, and rose up into the air.

At that moment, Feng Jiu was looking at the surroundings of the floating land. The sight that had originally been hidden by clouds had begun to appear in front of her. Beyond the blue sky and white clouds, there were forests and towns below.

"So I see."

She spoke softly and a smile appeared on her beautiful face. This place was not somewhere else but was in the upper continent. It was just that the ground of this floating place was in the sky above, on top of the white clouds and hidden by boundary barriers and restrictions. That's why the people below were unable to see it, nor could they get inside. And as for the people inside, they were also unable to get out or see past the outside of this place.

“Hahahahaha! It’s really been removed! It’s really been removed!” The devilry cultivators rose in the air one after another and looked at the scene outside. They were so excited that they laughed out loud.

Of course, they didn’t forget who gave them the opportunity to see the sky again and the chance to leave this place. Therefore, nearly two thousand devilry cultivators, whether they were in midair or in the forest below, bowed respectfully to Feng Jiu.

“Thank you, Phoenix City Lord!”

Excited voices that contained unconcealable joy escaped the mouths of the devilry cultivators. Their eyes fell on the dazzling red figure. They looked at her beautiful face as if they were trying to etch her into their memories forever.

Feng Jiu glanced at them and a voice that contained coercion came out of her mouth slowly: “Alright, the boundary barriers and restrictions have been removed, you are free to leave! But once you get outside, you have to remember what I have said.”

“Yes! We will take our leave!” Everyone responded in unison. Some rose directly into the air while some laughed loudly and left on their flying swords, and some flew out magical artifacts...

After a short while, all those people had left and only the people of Phoenix City remained.

At this time, Feng Jiu cast a new boundary barrier and isolated the entire floating land. The difference was that she had left an entrance in the boundary barrier so that one may enter or leave.

After the boundary barrier had been cast, she returned to the center of Phoenix City from midair. She looked at everyone and said slowly: “Now that the devil cultivators in this place have left, I have cast a new boundary barrier around this place. In the future, people without permission will not be allowed to enter. I also need some people to guard this place. Which ones of you are willing to stay behind to guard this place?”

“Master, we are all willing to stay behind!” One by one, every one of the cultivators of Phoenix City answered.

“That’s right Master. As long as you give the order, we are all willing to stay behind and stand guard.”

Upon seeing this, Feng Jiu nodded and smiled: “Tell you what! You have all been trapped in this place for many years, it is a bit unreasonable to ask you to stay behind, so you can take turns in shifts!”

She looked at them: “Elder Gu will pick a few people for guard duty shifts.”
