

Ghost Doctor 2541

Chapter 2541 Injured

Azure Dragon returned to Xuanyuan Mo Ze's body with a swoosh. Along with its disappearance, the powerful ancient coercion in the air also dissipated.

Mo Chen could see the scene in the air from a distance. When he saw Feng Jiu and Xuanyuan Mo Ze standing side by side on the peak of the mountain, he flew over on his sword.

When he saw that not only Cloud Devouring was injured, but that Feng Jiu was also injured, his eyes narrowed: "Who hurt you?"

"We'll talk about it when we go back." As soon as Feng Jiu had spoken, Xuanyuan Mo Ze held her and went back with her on the flying sword.

Mo Chen glanced at the injured Cloud Devouring and brought it with him, and followed behind Feng Jiu and the others.

In the Feng Manor, Guan Xilin stood on the roof getting more anxious by the second and watched from a distance. He paced back and forth on the rooftop as if time was passing slowly.

Until, he saw a few figures in the distance approaching and he shouted: "They're back! They're back!"

Xuanyuan Mo Ze was wearing a black robe, which was not conspicuous in the night. Therefore, no one could see the injuries on his body. But Feng Jiu's dress was red, and though the dress was stained with blood and wasn't visible, the slashes on her dress were visible to all.

"Little Jiu is injured!"

Guan Xilin's heart jumped suddenly. When he saw them entering the courtyard, he jumped off the roof and walked quickly over to them. Upon seeing that Feng Jiu had a lot of injuries, he turned around and called out: "Ah Jing, hurry up, help Little Jiu treat her wound first."

Ye Jing also stepped forward quickly and came to Feng Jiu's side to support her and said: "I'll help you clean the wound first."

Before Feng Jiu could speak, Xuanyuan Mo Ze said, "No, I'll do it." As soon as he had spoken, he led her into the room.

OON

Guan Xilin watched the two of them enter the room, then he asked: "Mo Chen, do you know who attacked them? Why is Little Jiu so injured?" With her cultivation level of Immortal Emperor, how could she still be hurt by anyone? Could it be that the person's strength was even stronger than hers?

Everyone's eyes fell on Mo Chen at this time. They didn't know the situation, but Mo Chen should more or less know something.

“By the time I arrived, those people had already been killed by Mo Ze. I only know those people’s strength is very strong, and one of them was at the Immortal Emperor level.” He paused slightly, then pondered for a while: “I guess those people may not be from this upper continent.” “Not from the upper continent?” Everyone was a little startled, it was a little strange: “What do you mean?” Their Master hadn’t offended anyone from anywhere else! If it wasn’t the upper continent, then where did they come from?

“Although the upper continent covers a large area, everyone knows how many Immortal Emperor level strong exponents there are. What’s more, the people who attacked them tonight were a dozen cultivators at Immortal Sacred level, as well as an Immortal Emperor level cultivator. It could be seen that this force against them was extremely powerful.”

Upon hearing this, everyone gasped: “A dozen cultivators at Immortal Sacred level?”

It was already unimaginable to have one Immortal Emperor level cultivator, but a dozen Immortal Sacred cultivators?

Immortal Sacred cultivators were by no means ordinary! There were only a handful of Immortal Sacred cultivators in the upper continent. No wonder, no wonder he said that those people were most likely not from this upper continent. Other than the strong exponents under their Masters, there were probably only Immortal Sacred cultivators in the entire upper continent.

Chapter 2542 So It’s This

Leng Hua listened to Mo Chen’s words while she applied Cloud Devouring’s wounds with medicine. He paused for a moment, then asked: “Since they’re not from the upper continent, then who could they be? Could they be from overseas? But Master has never been to those places, how could she provoke those people to the point that they want to kill her?”

Guan Xilin pondered, his eyes couldn’t help but fall on Little Hao’er in the cradle beside him. He said hesitantly: “Little Jiu said that Little Hao’er’s mysterious origin isn’t that simple. Could it be that those people came for Little Hao’er?”

As soon as those words had been spoken, everyone was silent. Also, ever since Feng Jiu had arrived in the upper continent, she had been building her forces here and didn’t have any grudges with people from other regions. How could they send a dozen Immortal Sacred cultivators and an Immortal Emperor cultivator to take her life? Could it really be that this disaster was really caused by the child she had adopted? Mo Chen didn’t speak, he only set his eyes on the child in the cradle. Whether it was as they had guessed, they didn’t know yet. However, they felt that even if they didn’t know, Feng Jiu should know.

In the room, after Leng Shuang had brought in the water, she left the room under Xuanyuan Mo Ze’s indication.

“I’ll help you take off your clothes first.” Xuanyuan Mo Ze said. He looked at the dark red colour on her red clothes and his brows twitched slightly, while his hands were carefully helping her take her clothes off and trying not to tug on her wounds.

Feng Jiu responded and helped him take off her clothes leaving only the innermost garment that covered her private areas of her body. It's just that even if her private areas were on show at this moment, Xuanyuan Mo Ze had no intention of appreciating it. His eyes fell on the wounds on her body, some of the wounds seemed quite deep, the flesh revealed from the cuts of the skin. A cold cold chill flashed across his deep black pupils.

The person he cherished was wounded like this right under his nose, those people couldn't repay this even if they had died a hundred times!

"Isn't the blue lotus in your body able to heal your wounds? Try to use the power of the blue lotus first to cultivate the injuries on your body." He suppressed the killing intent in his heart and spoke to her in a slow voice.

Feng Jiu was thinking about something when she heard his words and replied: "Alright."

She closed her eyes and raised her hands slightly to the dantian in front of her, then she mobilised the blue lotus in her body and used the blue lotus's recovery power to repair the wounds on her body.

However, as time passed, sweat oozed from her forehead and her face became paler and paler. The wounds on her body remained the same as before and there were no signs of repair.

Xuanyuan Mo Ze's heart sank, he was watching from the side and noticed something faintly.

At this time, Feng Jiu opened her eyes and dissipated the breath of the blue lotus. After taking a breath, she raised her head and looked at him, her quiet eyes met his deep black eyes: "It can't repair my wounds. The breath of the blue lotus repels every wound on my body like opposite ends of magnets, it can't be repaired."

Having said this, her heart relaxed, her original guess was confirmed at this time. "Those people are here for the primal chaos blue lotus in your body."

Xuanyuan Mo Ze said in a calm voice while he took some medicine out and cleaned her wounds. Then, he sprinkled some special knife wound medicine and took out some cloth strips and carefully bandaged each wound that had been sprinkled with medicine.

Feng Jiu's eyes darkened slightly, her quiet eyes appeared to be thinking about something...

Chapter 2543 That Old Man

"Only a very small number of people know about the primal chaos blue lotus in my body, and I also believe that those people won't tell outsiders about this. Besides, those people are obviously not from this upper continent, but yet they know about the primal chaos blue lotus in my body, that means..."

A thought came to her mind, but she was reluctant to believe her guess was correct.

Xuanyuan Mo Ze glanced at her, then he said in a low voice seriously: "If it wasn't the few people who know who revealed this, then it's very likely that someone fell into the hands of those people, from which, they learnt about the whereabouts of the primal chaos blue lotus."

His voice paused, then he asked: "Apart from me, who else knows about the primal chaos blue lotus in your body?"

“Old man Hun Yuan, and Zhuo Junyue.” Her voice paused, her eyes flashed slightly: “There’s one more person, the mysterious sweeper old man who gave me the blue lotus those years ago.” “Sage Hun Yuan is willing to protect you with his life, and right now he is recuperating in the Nebula Immortal Sect, so naturally it can’t be him. As for Zhuo Junyue...” “His voice paused slightly and he looked at her.

“Zhuo Junyue has been in the Feng Manor the whole time, and I also believe that he won’t betray me.” Feng Jiu said in a slow voice. She lowered her head slightly and slid her fingers across the wound that had been slashed across her dantian.

“Those people are trying to dig the blue lotus out of my body.” When she said this, the corners of her lips curled slightly, and there was an icy cold light in her eyes.

“Since the old man gave me the blue lotus back then, he wouldn’t tell those people that the blue lotus is on me, even if he were to die, he wouldn’t say anything.”

Her eyes were distant and her expression cold: “However, since those people can find me and know that the blue lotus is on me, they must have learnt the news. My guess is that the old man who swept the floor back then must have died in their hands.”

“Soul Searching Technique.” Xuanyuan Mo Ze said slowly. He looked at her and said, “They must have found out using the Soul Searching Technique.” Although the two of them were only guessing, they didn’t know that the matter was more or less as they had deduced. The mysterious old man who swept the floor back then at Peach Blossom Ridge had fallen into the hands of those people. Those people had used the Soul Searching Technique on him and found out the whereabouts of the primal chaos blue lotus, hence, they found Feng Jiu.”

“This injury is very strange, the power of the blue lotus can’t repair it.” Feng Jiu’s eyes fell on the wounds on her body, her brows frowned slightly: “It seems they came prepared.”

“I’ll tell the people at Hell’s Palace to investigate and find out the origins of those people.” Xuanyuan Mo Ze said, then he turned around and went inside and brought out another dress for her from the clothes trunk.

“Put on your clothes first.”

“Alright.” She responded and put on the clothes with his help. However, when the wounds on her body were tugged slightly, there was a little bit of pain.

“Go to the bed and lie down!” Xuanyuan Mo Ze didn’t let her go out again, but helped her to lie down on the bed inside instead.

“Tell them not to worry so much.”

Xuanyuan Mo Ze nodded, then he walked out and opened the door.

When the people who were waiting in the courtyard saw the door being opened, they hurried forward: “How is she? Are her injuries serious?”

Xuanyuan Mo Ze turned slightly to let them in: “Her wounds have been bandaged and she’s resting on the bed now. It shouldn’t be a big problem, don’t worry.”

Upon hearing this, everyone breathed a sigh of relief and asked: "Do you know who attacked you?"

Chapter 2544 No Return

"It's not clear yet." Xuanyuan Mo Ze said, then strode back inside.

Guan Xilin and the others stepped forwards quickly and went to the inner chamber. When they saw Feng Jiu's pale face, they couldn't help worrying: "Little Jiu, are your injuries very serious? Why is your face so pale?"

"I'm fine, they're just superficial injuries, I just need to rest." She reassured them with a smile and told them not to worry.

Mo Chen stepped forward and saw that she didn't look well, so he came to the bedside and said: "Stretch your hand out, I'll check your pulse."

Upon hearing this, Feng Jiu smiled lightly: "Have you forgotten that I'm also a doctor? I know my body, I'm fine."

Mo Chen looked at her upon hearing those words, he didn't speak again and just stared at her deeply for a moment, then he looked away.

"We were just talking about it outside, we were wondering if those people who suddenly attacked you were coming for Hao'er." Guan Xilin said and looked at Feng Jiu's expression.

She was slightly startled, then she shook her head and said with a smile: "No, it's someone else. And I'm afraid they're not so easy to deal with." Judging from the strength of those people, this time they were definitely just testing the waters. If they were to attack her later, they would definitely be even stronger.

There were always people who moved against her, and she was never afraid of the enemies' strength. However, she didn't expect that this would happen after she had decided to bring Feng Ye home. She was now worried about facing such a strong opponent.

She was worried that her family would be implicated. It had happened once before and she didn't want it to happen again.

"But, why did the two of you go to that place? I heard from Mo Chen that the place is quite some distance away from here and that it is the highest mountain in the area. Logically speaking, with your strength and Xuanyuan Mo Ze by your side, you should be hurt!" Guan Xilin found it a little strange and this was what he didn't understand either.

With Xuanyuan Mo Ze protecting her coupled with her strength, how could she be hurt?

When she heard this, Feng Jiu smiled and said: "The scenery there is meant to be quite nice, so I went to have a look. What I didn't expect was that the people Cloud Devouring saved were their accomplices and they came to us with intent. Those two people wounded me when I wasn't prepared. Therefore, the only serious injury is the one by my dantian."

When he saw that she was still able to make jokes, Guan Xilin couldn't help frowning: "You can still joke when you're this injured. Why did you want to save those people anyway?"

"I had a moment of kindheartedness, I thought that it was minimal effort anyway. I just didn't think that we would rescue a wolf instead of a sheep." She wasn't that bothered. Even if it had happened again, she would have sent Cloud Devouring over to take a look.

Besides, if a weak woman were to encounter such a thing, her fate would be imaginable. Although she was cold-hearted, she was not ruthless. If she had the strength to help, naturally she wouldn't stand aside and do nothing

At her level of strength and status, if she had stood by and did nothing, what difference would it make between her and those devilry cultivators who didn't value human life?

"You all go back and rest! I'm a little tired, I want to sleep." She said softly and told them to go back to rest.

When they saw the tiredness between her brows, they nodded and told her to take a good rest and heal her wounds, then they left. However, after Guan Xilin and the others left, Mo Chen remained, he stood there and didn't move.

Feng Jiu was slightly surprised and looked at him: "Was there something else?"

Mo Chen looked at her and said warmly: "I don't think your situation is optimistic at all. I'm afraid it's not an ordinary injury."

Chapter 2545 Wound

"Yes, it is different from previous injuries. But I've already applied medicine so it should be fine." She said slowly. When they didn't talk about her wounds, she didn't feel it. Now that they were talking about her wounds, the wound seemed hot. Was the wound infected? Surely that was impossible?

She became a little distracted in her thoughts and forgot that Mo Chen was still standing by her bedside.

Mo Chen looked at her expression, then he glanced at Xuanyuan Mo Ze and asked: "Have you seen the wounds? Is there anything unusual?"

Xuanyuan Mo Ze's heart moved slightly. He glanced at Feng Jiu, then said to Mo Chen: "Her body is different to ordinary people and has the ability to repair wounds on its own. However, the wounds this time can't be repaired."

After a pause, he continued: "Now that the medicine has been applied, we will take a look tomorrow! We should know more when we change the medicine and bandages tomorrow."

Mo Chen didn't say anything else after he heard their words, he just nodded: "Then I'll go back first and I'll come back to see you tomorrow."

He turned back to Feng Jiu and saw that she was thinking about something, he said warmly to her: "You have a good rest, I'll see you tomorrow."

"Alright." Feng Jiu came out of her daze and responded, then she saw him turn around and walk out.

“You sleep first, I’ll go out and give some instructions.”

Xuanyuan Mo Ze said, then he went outside and told Shadow One to instruct his subordinates to investigate the matter. When he returned to the room, he saw that she had already fallen asleep. So, he went to take a bath first, and changed his robe that was stained with blood from his body. Then, he returned to the room and removed his outer robe and lay down beside her.

After midnight, the night was deep, but Xuanyuan Mo Ze opened his eyes suddenly and looked at Feng Jiu in his arms: “Ah Jiu, Ah Jiu? What’s wrong with you?”

The room was not illuminated with candles but night pearls, the light was soft and not dazzling. At this time, in the soft light emanating from the night pearls, he saw that Feng Jiu’s forehead was soaked with sweat. Her face was red but her lips were white.

He got up quickly and put on his outer robe, then called out: “Shadow One, go and get Mo Chen here!”

When Shadow One, who was standing outside, heard this, he responded immediately: “Yes!” With a flash, his figure left quickly and went to the Nalan Manor.

In another courtyard of the Manor, Cloud Devouring seemed a little uncomfortable at this time. Its body rolled on the floor and a roar came out of its mouth which woke everyone

up.

Leng Hua, Du Fan and the others came to take a look. When they saw it rolling around on the floor howling, they asked quickly: “Cloud Devouring, what’s the matter with you?”

“The wound, the wound really hurts...” It lay on the ground and didn’t move this time, as if it had lost its strength. It even closed its eyes and just groaned from time to time.

When they saw Cloud Devouring in this state, their hearts sank. Fan Lin, one of the eight Captains of the Feng Guard, stepped forward quickly and checked on Cloud Devouring. When he opened the wound on Cloud Devouring’s body and saw that the wound had a black breath, he couldn’t help but be surprised.

“Why is it like that?”

His face changed greatly. Then, he thought of something and looked at Leng Hua and the others immediately: “You all stay here and watch Cloud Devouring, I’ll go to see Master!” Master was also injured, could she be like Cloud Devouring? Her wounds full of black breath?

“Is it poison?” Leng Shuang asked worriedly as he followed him to the main courtyard. “It doesn’t seem like poison.” He said, and sped up his footsteps. On the other side, Mo Chen who was sleeping in his room, heard a faint movement on the roof. He turned over quietly and got up...

Chapter 2546 What Happened

He was about to make a move after he had put on his outer robe when he heard a familiar voice.

“Young Master Mo Chen, it’s Shadow One. My Master asks you to come over immediately.” Shadow One jumped off the roof and landed lightly outside his room and called out in a low voice.

Upon hearing this, Mo Chen frowned slightly. With a flick of his finger, he lit the lights in his room and put on his clothes. Then he put up his ink black hair simply and walked out and opened his bedroom door. The person outside the door was indeed Shadow One.

“What happened?” He asked. At the same time, he gathered his breath and jumped up onto the roof then headed towards the Feng Manor.

Shadow One followed closely behind him and said: “It seems something has happened to the Ghost Doctor, I don’t know what exactly.”

In the Feng Manor, in the main courtyard, inside the wing room, Xuanyuan Mo Ze untied a bandage on Feng Jiu’s body and checked it. When he saw that the medicine had not only not healed the wound, but that the wound was slightly swollen and exuded a black breath, his heart sank suddenly.

His handsome face was cold, his lips pursed lightly as he looked at Feng Jiu who was so hot that she was unconscious. He got up and went to get a basin of clean water, then he wiped the oozing sweat from her forehead with a small hand towel. He then soaked it in cold water for a while and placed it on her forehead to cool her down.

The sounds of footsteps outside drifted in, followed by Guan Xilin’s worried and anxious voice.

“Xuanyuan, how is Little Jiu? Is everything alright? Cloud Devouring’s condition isn’t very good. How is Little Jiu now?”

“Come in!” Xuanyuan Mo Ze’s voice called out and everyone outside followed Guan Xilin and walked in.

All at once, the room was full of people. Eight Feng Guard Captains, Leng Hua, Du Fan and the others, as well as Guan Xilin and Ye Jing. A dozen people crowded around.

On the bed, Feng Jiu was covered with a quilt with a cold towel on her forehead. Her face was flushed with heat but her lips were pale. Though so many people had come in, she didn’t open her eyes. She just frowned slightly with an expression of pain showing on her face.

“Let me take a look.”

Fan Lin, who knew medicine, stepped forward and checked Feng Jiu’s pulse, then he checked her wound again. After a while, he said to Xuanyuan Mo Ze a heavy look: “She’s the same as Cloud Devouring. There is no sign of poisoning, but the wounds are slightly swollen and there is a black breath exuding from the wounds. My knowledge is little, I don’t know where the black breath is coming from, so I can’t prescribe the right medicine.”

“It seems the black breath on the wounds is to blame.” Guan Xilin said, “In the past, even if Little Jiu got injured, she would always recover quickly. This is the first time I have encountered a situation like this.

“Then what should we do? Her wounds are wreaking havoc, if it’s not treated, wouldn’t it be...” Ye Jing was a little worried. It would be fine if Feng Jiu had been awake, but she had now obviously lost consciousness. Wouldn’t it be more serious if she continued this way?

“Mo Chen has followed by Old Man Tianji’s side so he is proficient in medicine. I have sent Shadow One to invite him over.” Xuanyuan Mo Ze said. His eyes fell on Feng Jiu’s face on the bed. When he saw her

frowning and sleeping restlessly, he took off the cold towel, soaked it in cold water and placed it on her forehead again.

Upon seeing this, Leng Shuang stepped forward and took the basin of water away and changed it. Seeing her Master like this, she didn't know how to help, so she just stood by the side quietly. "Master, Young Master Mo Chen is here."

Shadow One's voice drifted in from outside. Everyone in the room looked towards the door and saw Mo Chen walking in.

When Mo Chen saw everyone in the room, he glanced at them and asked: "What happened?"

Chapter 2547 Fortunate

"The wound has deteriorated, and there is a black qi floating above it. Come and take a look!" Xuanyuan Mo Ze said, and motioned for him to come forward.

When Mo Chen came to the bedside, he saw that though Feng Jiu had fallen asleep, she was not sleeping peacefully. Her face was flushed with sweat and her lips were pale and colourless. At that moment, he stepped forward to examine her wound. He saw that her wound was really slightly swollen and black qi was floating above it

"Are all her wounds like that?" He asked Xuanyuan Mo Ze and looked at him.

Upon hearing this, Xuanyuan Mo Ze said: "I've opened two wounds and they're the same."

Mo Chen checked Feng Jiu's pulse. When his finger touched her pulse, he frowned and looked back at everyone and said: "You guys go out first!"

Guan Xilin and the others left when they saw this so that he could treat Feng Jiu with a calm mind. However, they were uneasy and upset when they saw that Feng Jiu's condition hadn't stabilised.

The two beasts who were guarding Heavenly Pill Tower, Fire Phoenix and Little White, sensed something. After they inquired with the people at Heavenly Pill Tower, they rushed back to the Feng Manor quickly. When they entered the Feng Manor, they saw everyone standing in the main courtyard pacing back and forth and looking at the room from time to time. The two beasts stepped forward quickly.

"What happened? Where is my Master?" Old White asked. When he tried to move forward into the room, he was pulled back by Guan Xilin.

Fire Phoenix next to it stared anxiously at the closed door. It flapped its wings and flew onto the table deep in its thoughts.

"She is injured and her condition is not very good. Don't go in yet, Mo Chen and Xuanyuan are inside." Guan Xilin said. Then Fan Lin and the others said: "Cloud Devouring's condition is similar to Feng Jiu's. Find a way and bring him here!"

"Yes." The eight Feng Guards responded, then turned and walked out.

Upon seeing that it couldn't enter the wing room at that moment, Fire Phoenix followed behind the eight Feng Guards to go and see Cloud Devouring, and Old White followed hurriedly.

In the room, Mo Chen looked at Xuanyuan Mo Ze and said: "Her body has the qi of the primal chaos blue lotus. That primal chaos blue lotus should be in her body!"

Upon hearing this, Xuanyuan Mo Ze didn't say much, he just replied: "Yes." He had also felt it earlier. It seemed that the blue lotus had released its qi automatically because she was injured. It was just that the qi was very weak and it was difficult for ordinary people to detect it.

"If I'm not wrong, those people who attacked you tonight were after the primal chaos blue lotus in her body." Mo Chen sighed softly and said: "Furthermore, her enemy is very strong, the world annihilation black lotus is in their hands. The black qi on her wounds is not poison, it's the qi of the world annihilation black lotus."

Xuanyuan Mo Ze's deep black pupils flickered slightly, then he asked: "Do you have a way to remove the black qi from her wounds?" As long as this qi was removed, the blue lotus in her body would automatically repair her injuries and it would be much easier for her wounds to heal.

Mo Chen smiled slightly and said warmly: "It is fortunate that the people you met tonight were not the one who actually holds the world annihilation black lotus. The swords of those people tonight only contained a limited qi of the world annihilation black lotus, so her condition will not be too serious." He paused, then said to Xuanyuan Mo Ze: "You help her sit up and I will use my power to help her clear the qi of the world annihilation black lotus for her."

Upon hearing this Xuanyuan Mo Ze removed the small cloth on her forehead, then lifted her up and faced her back to Mo Chen.

Chapter 2548 Worry

Mo Chen, who was standing by the bedside, followed the flow of the skill and his body was filled with a white light. The qi formed by this ray of white light surged out of his palms. His palms touched Feng Jiu's back and the source of qi was injected into her body.

If someone could see through it at this time, they would see that the white qi that had been sent from Mo Chen's hands had entered Feng Jiu's body's tendons, then spread out slowly.

The black qi that had been exuding from Feng Jiu's body, and the blue lotus that was resisting the black qi, was gradually forced to flow away from the tendons by the white qi...

As time passed, Xuanyuan Mo Ze saw the black qi on Feng Jiu's wounds that had been bandaged slowly penetrated her clothes and rose from the wounds, then disappeared into the air.

As the black wisps of qi dissipated, Feng Jiu, whose body was hot and her face flushed with sweat, gradually recovered at this time. But, there was a faint paleness in her face that had faded from the heat.

Mo Chen's forehead was also dripping with sweat. Due to his exertion, his breath was a little weak. After a long while, after he had cleared the black qi from Feng Jiu's body, he finally gathered his qi and let out a light breath.

“The blue lotus in her body is working by itself now, you don’t have to worry. She will be fine soon.” Mo Chen spoke slowly. He looked at the faint blue aura on Feng Jiu’s body and said: “I’ll go and take a look at Cloud Devouring! Since Feng Jiu is like that, I expect he is the same.”

“You’ve just removed the black qi from her body, if you exert your qi again, I fear it will be too much for you.” Xuanyuan Mo Ze said.

“That can’t be helped. This set of skill was passed down to me by my Master. Other than me, none of you can clear the black qi of the world annihilation black lotus.” He said with a smile, then he wiped the sweat from his forehead and turned around and walked out.

As he watched him turn around and walk out, Xuanyuan Mo Ze said: “Thank you.”

Upon hearing this, Mo Chen turned his head and glanced at him in surprise and smiled: “You don’t need to thank me. This is only what I should be doing. Alright, take care of her! It’s best to remove all the bandages on her body.”

“Alright.” Xuanyuan Mo Ze responded. After he had watched him go out, he called out, “Leng Shuang, come in.”

When everyone outside saw Mo Chen coming out, they gathered round hurriedly and asked: “How is she? How is she?”

“Don’t worry, it shouldn’t be a problem now.” He said, then his eyes fell on Cloud Devouring, who was lying on the ground.

As for Leng Shuang, she walked in quickly: “Hell’s Lord.” She came to the inner chamber and her eyes naturally fell on her Master, Feng Jiu. She wanted to see how she was doing.

“Go and bring a basin of hot water over.” Xuanyuan Mo Ze instructed while he removed Feng Jiu’s clothes and removed all the bandages.

When she saw that the black qi on the wounds had disappeared, and there was a faint blue qi on the wounds, he was secretly relieved.

“Yes.” Leng Shuang responded and went out hurriedly. Soon after, she returned with a bucket of hot water from the kitchen. She put some of the water into the basin and brought it to the bedside.

“Leave and close the door behind you. Tell them they don’t have to come in, they can go back and rest!” He ordered without raising his head as he used a clean cloth to clean each wound with hot water.

Chapter 2549 Awoken

Leng Shuang stepped back in response, closed the door, and passed Xuanyuan Mo Ze’s words to everyone.

Outside, Mo Chen was healing Cloud Devouring, while inside the room, after cleaning her wounds, Xuanyuan Mo Ze saw that Feng Jiu’s wounds were healing at a speed visible to the naked eye under the blue lotus’ abilities.

The deeper wounds took longer to heal while the shallow wounds healed as they did before. However, when he thought of what Mo Chen had just said, he was not in a relaxed mood.

world annihilation black lotus? The blue lotus couldn't even withstand the world annihilation black lotus? Those people tonight weren't even the ones who had possession of the world annihilation black lotus. If one day in the future, they met the person with the black lotus, what would happen?

"Water..."

In her dazed state, Feng Jiu felt that her mouth was dry. She wanted to open her eyes but her eyelids were so heavy that she didn't have the strength to open them.

When he heard her calling for water, Xuanyuan Mo Ze got out of bed and poured her a glass of water then brought it to her lips: "Ah Jiu, the water is here. Drink some!"

He wasn't sure if she had heard him, but Feng Jiu's lips opened slightly and she drank. After she had drunk a glass of water, she fell asleep again.

Worrying about the deep wound on her dantian, he didn't dare to fall asleep. So, sat by the bedside and guarded her. From time to time, he checked if the heat was dissipating from her body. From time to time, he also looked at the wound on her dantian to see if it had healed.

He didn't rest all night. It wasn't until the first rays of sunlight slowly fell on the ground through the windows did he then touch the short beard that had grown on his chin, and he got up and went to wash up.

After he had washed up, he went back to the bed and checked on Feng Jiu again. When she had recovered in all areas, the wound on her dantian had disappeared, and even the repairing qi of the blue lotus had disappeared, only did he reveal a smile.

He walked out and saw Leng Shuang waiting outside. He asked: "How is Cloud Devouring?"

"After Young Master Mo Chen healed his wounds last night, we helped Cloud Devouring bandage his wounds again. This morning, I undid one of the bandages and took a look. The redness and swelling on his wound has disappeared and it has returned to normal. Though its injuries will take two or three days to fully recover."

Upon hearing this, Xuanyuan Mo Ze nodded and instructed: "Tell the kitchen to prepare some food and bring it over."

"Yes." Leng Shuang replied, but didn't move. Instead, she asked: "Hell's Lord, My Master..."

"She's fine now, she's just not woken up yet." Xuanyuan Mo Ze said as he walked back inside.

Upon hearing his words, the heaviness in Leng Shuang's heart disappeared. She was just about to walk to the kitchen to tell them to prepare some of the foods that her Master liked to eat when Xuanyuan Mo Ze called out again.

"Wait."

"Is there anything else, Hell's Lord?" Leng Shuang asked.

“In addition to some plain porridge, tell the kitchen to also prepare some nourishing foods.”

“Yes.” Leng Shuang answered and left quickly. Feng Jiu only woke up late that night. She didn’t know what had happened after she fell asleep the night before. Therefore, when she woke up and saw that her wounds had been healed and there were no wounds on her body, she couldn’t help but be startled.

“I’ve recovered?”

“Your injuries have healed.” Xuanyuan Mo Ze said. He walked forward slowly and came to her: “Get up and have a wash first. I’ve asked Leng Shuang to prepare some food for you.”

Chapter 2550 Plans

Feng Jiu looked at her wounds and said: “Why did I feel that my wounds had worsened last night?” She looked strangely at the wounds on her body that had healed like before and asked: “Why did it suddenly heal again?”

“Your wounds did worsen last night. I had asked Shadow One to bring Mo Chen over last night. He was the one who helped you remove the black qi of the world annihilation black lotus from your wounds.”

“World annihilation black lotus?” She was startled, she couldn’t help but look up at him.

“That’s right, the world annihilation black lotus.”

Xuanyuan Mo Ze’s deep eyes fell on her, and he said: “Your wounds worsened last night, every wound was filled with a black qi. You were also unconscious. After Mo Chen took a look at them, he said that it was the black qi of the world annihilation black lotus that had accelerated the deterioration of your wounds.”

Upon hearing his words, Feng Jiu’s eyes moved slightly: “The world annihilation black lotus is extraordinary. How did Mo Chen remove the black lotus’ qi on my wounds?”

“He said that his Master had taught him a set of skills and he used that to help you and Cloud Devouring remove the black lotus’ qi. He said that those people’s swords were only contaminated with the black lotus’ qi, they aren’t the one who possesses the black lotus. But what is certain is that the person who wants to take away the primal chaos blue lotus from your body is very powerful.”

Feng Jiu pondered about it. After a while, she said to Xuanyuan Mo Ze: “In that case, I would like my elder brother to take Feng Ye and the others back first and send Feng Ye and Yang Yang back to their Master in Sycamore Mountain. As for me, I don’t think it’s a good idea for me to go back right now.”

Upon hearing this, Xuanyuan Mo Ze glanced at her and asked: “Are you afraid that if you go back this time those people will do something to your Father?”

“Yes.” She nodded: “They’ve finally found some peacefulness there, I don’t want them to worry because I’ve brought danger to them

again.”

“Alright, in that case, you wash up first and I’ll have someone call your elder brother over. “He said slowly. He reached out and tucked the strands of hair that fell on her cheeks behind her ears, then he turned around and walked out.

When they heard that she had woken up, Du Fan and the others came over early that morning. Guan Xilin, who had come over with Ye Jing, asked: “Did your Master say anything?” “No, but don’t worry. The Ghost Doctor is alright now. There’s probably something else going on.” Shadow One said as he walked forward. After a short time, he came with them to the main hall.

Xuanyuan Mo Ze walked out first. He looked at Leng Hua and asked: “Is Mo Chen in the Manor?”

“Yes, he had exhausted a lot of his energy last night, so I arranged for him to rest in the Manor.”

Xuanyuan Mo Ze nodded when he heard this. Then he looked at Guan Xilin: “Sit down! She wants to speak to you.”

“Is she alright?” Guan Xilin asked. Before Xuanyuan Mo Ze could reply, he heard Old White’s voice coming from the room: “Master is fine, don’t worry.” As soon as it had spoken, it came out of the room with Fire Phoenix flapping its wings and flying out behind it.

“She will be out in a while.” Xuanyuan Mo Ze said, then he took a sip of tea that was in front of him.

Not long after, Feng Jiu, who was dressed in red, came out. When she saw that they were all here, she stepped forward and said: “I made you worry last night, but I’m fine now.” She had just sent Cloud Devouring into space to recuperate. Although Cloud Devouring’s wounds had been treated with medicine, it wouldn’t heal for a while yet. The qi of the blue lotus in her body was also a little weak, so it wasn’t suitable for using to heal it either.

Chapter 2551 Not Going Back

Upon seeing that she had returned to normal, and she was in good spirits, they were relieved.

“I asked you to come over because I have some arrangements that need to be made.” Her eyes passed over everyone, and finally fell on Guan Xilin: “Elder brother, because we haven’t found out who the people who attacked me are, I want you to take Feng Ye and Zhao Yang back and let my family spend some time with them, then take them back to Sycamore Mountain.

Guan Xilin was shocked when he heard this: “So, you don’t intend to go back?”

“No.” She nodded and said: “I’m afraid if I go back, I will bring trouble to my family again. So, I want you to take them back for me. As for us, there is no way we can go back right now.”

She didn’t want to disrupt the peaceful life of her family. She didn’t want to bring danger to them. Therefore, the only way to do that was if she stayed here so that she didn’t lead the danger back to the Phoenix Empire.

Upon seeing this, Guan Xilin said solemnly with a serious expression on his face: “Alright, don’t worry! I’ll take them both back.”

“Then you and Ye Jing should go and pack first. I’m going over to Mo Chen’s first. As for Du Fan, you and the others will return to Heavenly Pill Tower first.”

“Alright.” Guan Xilin responded and left with Ye Jing first.

“Master, then we shall go back to Heavenly Pill Tower first.” They bowed, then turned around and walked out.

“Old White, you follow them!” Feng Jiu glanced at Old White who was beside her.

“Ah? Me too?” Old White was slightly stunned. It glanced at Fire Phoenix and saw that it had stopped turning on the table and didn’t move, so it murmured and walked out.

When she saw that they had all left, Feng Jiu and Xuanyuan Mo Ze let Leng Hua lead the way to the courtyard where Mo Chen was resting.

Mo Chen had been sitting cross-legged in the room ever since he had entered the room last night to adjust his body’s qi. When he heard a knock from the outside, he exhaled lightly, then gathered his breath into his body and opened his eyes.

“Come in.”

Outside, Feng Jiu opened the door when she heard his words, and walked in together with Xuanyuan Mo Ze.

“Mo Chen, I have something to ask you.” Feng Jiu came to the inner chamber and looked at him as he walked out slowly, then she went with him to the table outside and sat down.

Xuanyuan Mo Ze glanced at Mo Chen. When he saw that his complexion was much better than it was last night, he gave him a slight nod.

“Did you want to ask me about the world annihilation black lotus?” Mo Chen sat down at the table. After a while, Leng Hua brought them some tea. “That’s right.” Feng Jiu looked at him and asked: “What do you know about the world annihilation black lotus?”.

Upon hearing this, Mo Chen smiled gently. He picked up the tea in front of him and used the lid of the teacup to hold the tea leaves back, then he took a sip and put the cup down and said: “Since you have the primal chaos blue lotus, naturally, you should know about the world annihilation black lotus.”

Feng Jiu frowned slightly: “I only know that according to legend, there were four lotus seeds in ancient times, one was the blue lotus for good fortune, the second was the golden lotus for virtue, the third was the red lotus for karma, and the fourth was the black lotus for world-annihilation. These four lotus seeds are all lotus seeds from the heart of the primal chaos blue lotus. But, the primal chaos blue lotus seed is here with me, so why has the world annihilation black lotus appeared at this time?”

It was clear that the primal chaos blue lotus that was nourished by the spirit energy in her body wasn’t fully formed. Before that, she thought that there was only one such primal chaos blue lotus in this world...

Chapter 2552 Sachet

But, where did this world annihilation black lotus come from? And in whose hands did it fall into?

“The world annihilation black lotus is not the lotus of evil, it depends on who owns it.” Mo Chen said slowly. He looked at Feng Jiu and said: “This time I went back, my Master wanted me to tell you that when the ancient lotus seed appears, you have to collect them. In addition to the primal chaos blue lotus, there are also four lotus seeds in various places. The primal chaos blue lotus is the first of the four lotus seeds, so it has the ability to suppress them. This is something that you must do.”

“Suppress? But why was she filled with the black qi of the black lotus last night? The primal chaos blue lotus in her body couldn’t even suppress the black qi on her wounds.”

Upon hearing this, Mo Chen’s eyes fell on Feng Jiu and he said: “The primal chaos blue lotus in your body has not yet fully formed and developed, am I right? The primal chaos blue lotus that hasn’t fully grown only has the ability to repair some minor wounds. Only when the primal chaos blue lotus is fully grown will it have the ability to revive all things and suppress the four lotuses, as well as the ability to purify.

Having said that, he took out a sachet from space and held it in his hand for a while. Then he handed it to Feng Jiu: “My Master asked me to give this to you when I came back.”

Feng Jiu was slightly surprised. After she took it, she opened it and her expression was a little weird: “Why does it say that I have to go to Peng Lai Immortal and ascend the Immortal Stairs?” She looked at Mo Chen and asked: “What kind of place is Peng Lai Immortal Mountain? Why are there Immortal Stairs there? And he wants me to go alone?”

Having said that, she looked at Xuanyuan Mo Ze instinctively. Going alone meant that he couldn’t go with her? Was this the rhythm for them to separate again? “Peng Lai Immortal Island?” Mo Chen was stunned for a moment, then he shook his head and said: “I’ve never heard of this place before, let alone know where it is.”

“Huh? Is this a map on the back or an array?” She saw an array map on the back by chance and was a little confused.

Xuanyuan Mo Ze took it and looked at it, frowning slightly: “This is a map within an array. If you want to know the map within the array, you must first break the array, then look at the map. If there is no mishap, the map line obtained from this should be the map of Peng Lai Immortal Mountain.”

“Did your Master tell you why I have to go there?” Feng Jiu looked at Mo Chen.

“No.” Mo Chen responded, then said: “But my Master does things for a reason. Since he has asked you to go to that place, then he must have his reasons.”

His voice paused and he pondered for a while, then he said: “Furthermore, I have never heard of this place, I’m afraid this place must be extraordinary.”

Upon seeing this, Feng Jiu looked at Xuanyuan Mo Ze. Her eyes shifted down and she saw the sachet in his hand, then she said: “Let’s go back! I have to go and make arrangements for my elder brother and the others.”

Having said that, she looked at Mo Chen and smiled: “I will take this sachet back and study it. As for whether I will listen to your Master, do let me think about it.”

“Alright.” Mo Chen responded and said: “Then I’ll go back first and have someone inform me if anything comes up.” “I will.” Feng Jiu said. She said to Leng Hua beside her: “You see Mo Chen out!”

“Yes!” Leng Hua responded. She gestured to Mo Chen then walked out with him.

“Let’s finish the arrangements for my elder brother and Feng Ye and the others first before we discuss anything else!” When she saw that he had left, Feng Jiu took Xuanyuan Mo Ze’s hand and the two of them went to another courtyard...

Chapter 2553 Leave

After she had discussed with Xuanyuan Mo Ze and Guan Xilin, Feng Jiu arranged for a group of twelve people to follow and protect them. At the same time, she also sent Fire Phoenix back with them so that it could help to guard and protect her family.

Only then could she truly relax. Although there was some reluctance in its heart to go back with them, Fire Phoenix knew what Feng Jiu valued most, so in the end, Fire Phoenix agreed to guard and protect her family for her.

In the early hours of the next morning, when the sky was still dark, the group left quietly. The group was led by Guan Xilin and followed by Ye Jing, Feng Ye and Zhao Yang and the others. As for why Feng Jiu had changed her mind about going back with them suddenly, Feng Ye was unable to guess the reason why, nor did Guan Xilin tell him.

In the days that followed, Feng Jiu took the sachet and tried to solve the array on the map. The array was very delicate and complicated. She tried many times but was unable to solve it, so she tried again and again.

After three or four days, Feng Jiu finally figured out the array on the map on the back of the sachet after many attempts. The revealed map was really a road map. What she hadn’t expected was that the road to Peng Lai Immortal Mountain was so far.

“Look, it really isn’t on this upper continent.” She handed the map over to Xuanyuan Mo Ze so that he could look at it. He took the map and glanced at it, then said: “Then what are your plans? Are you really going to go?” “The main thing is that I don’t know where this place is.” Feng Jiu frowned and pondered while she looked at the array map: “This sachet was given to me by Old Man Tianji, and there is this inside of it, tell me, how can I not go?”

“Since you’re going, then I’ll accompany you! At least there will be someone to take care of you.” He looked at her and said. He was worried about letting her leave his side this time.

“I don’t know what this Old Man Tianji has planned and it says that I have to go alone.” She waved the sachet and said: “Tell you what! I will go and take a look, and when I get a chance, I will send a letter back.”

She hugged his arm and smiled, her eyes squinted: “Furthermore, if you are guarding Heavenly Pill Tower, I will be rest assured no matter where I am.”

Upon hearing this, he chuckled and shook his head: "You! Alright! Since you have decided, then we will do it your way! During your absence, I will look after the Feng Manor and guard Heavenly Pill Tower and wait for your return."

"However, since you will be leaving, you will have to prepare for it. Also, remember what Mo Chen said. When the right time comes for the primal chaos blue lotus in your body, you must cultivate as soon as possible to make the blue lotus bloom."

"Don't worry! I know." Feng Jiu responded with a smile.

A few days later.

Xuanyuan Mo Ze had wanted her to leave the city quietly, however, Feng Jiu had sat on Cloud Devouring's back instead of travelling on a flying sword, and left the city in a very open manner. It was as if she wanted everyone to know that she had left Heavenly Pill Tower and Hundred Rivers City.

Xuanyuan Mo Ze, who knew why she had done that, wanted to send people to protect her. However, she refused. She had hoped to attract all the hidden dark forces to her so that they wouldn't have time to deal with Heavenly Pill Tower or Xuanyuan Mo Ze.

As she had expected, she was targeted the moment she had stepped outside the city gates...

Chapter 2554 Attract The Enemy

The breaths of several strong exponents behind her entered her spirit intent. She stopped and looked back. Immediately after, she put Cloud Devouring back into space, and in the next moment, she jumped and flew directly on her sword into the sky.

When they saw her flying on her sword, those people also followed quickly. At this moment, the hidden strong exponents released the pressure of their strength. They switched from being hidden to being out in the open and appeared directly behind Feng Jiu.

"Feng Jiu! Hand over the thing!"

The stern shout came from behind and the voice contained a shocking force which made the airflow tremble slightly. However, Feng Jiu was protected by the breath of the Ancient Beasts in her body, so she was unaffected by the coercion.

She glanced back and accelerated the speed of her flying sword, the distance between them wasn't too far apart.

Dressed in a dazzling red dress, she flew on her flying sword ahead while several strong exponents followed closely behind. From morning till evening, when they were passing through a forest, Feng Jiu, who had been flying in midair, suddenly retracted her flying sword and flew down.

The speed of her fall was extremely fast, as if she hadn't condensed a trace of spirit energy to protect her body and adjust the speed of descent. She let her body fall naturally and the cultivators who had been in pursuit of her were caught off guard and shocked by her sudden actions. By the time they had recovered from their shock, the red figure had already disappeared into the dense forest.

"Damn!"

At the beginning, there were only a few people in pursuit of her, but later on, some more people joined the chase. The total number of people totaled to sixteen or seventeen people. And under the eyes of those sixteen or seventeen people, Feng Jiu had slipped away!

How disgraceful!

“Search! You must find her!”

The leader of the cultivators shouted angrily in a gloomy voice as he led the people into the dense forest. With a move of his hand, he signaled to the people behind him to split into two groups to search the forest.

At this time, Feng Jiu had already dodged into space and they couldn't detect the slightest breath that belonged to her.

She ate something and replenished her physical strength in space. Then, she took off her red dress and replaced it with a black one. Her hair was also tied up and it was as if she had become another person.

This seemed to be the first time she wore tight black clothes, but her appearance was pleasing to the eye. She waited in space till the sky outside had gradually darkened, then she walked out of space with a dagger in her hand.

She concentrated on her breath and used her spirit intent, and after she felt movement in her surroundings, she moved quietly. The black clothes did well at concealing her and protecting her. When she came up behind a cultivator, the cultivator didn't even notice it.

She instantly grabbed him and grabbed his life line with one hand, then she asked in a cold voice: “Who are you?”

However, as soon as she had spoken, the cultivator committed suicide by swallowing poison. She watched as the cultivator died in front of her. A cultivator who was at Immortal Sacred level would actually bite into poison that had been hidden under his tongue with no hesitation in order to protect something.

At this moment, her heart froze.

What kind of power was this? That a cultivator at the Immortal Sacred level would choose to commit suicide when he couldn't escape from her?

She felt an inexplicable feeling that the enemy she was going to be dealing against was too powerful, so powerful that she was a little scared...

Chapter 2555 Small Black Token

As she looked at the Immortal Sacred level cultivator lying at her feet, Feng Jiu pursed her lips and stared at the dead man for a long time. Immortal Sacred level cultivators were trained as suicide soldiers? What kind of force was this? Was this force stronger than the Demon Clan?

When she thought of the troubles that she had gotten into one by one, they seemed endless and anger rolled in her heart. She squatted down and searched the corpse.

“What’s this?”

In addition to the interspatial ring on the Immortal Sacred cultivator, there was actually a round ball of yellow mud. Because her line of vision was not good at the moment, and there were people looking for her, she didn’t take a closer look. She placed the round ball of mud back into the interspatial ring and then placed it into her space.

She treated the corpse with medicine and left no traces, then she continued into the forest. In the dark night, the insects in the forest kept chirping, the night wind blew and the leaves rustled.

Unexpectedly, she didn’t meet those people again. As the night deepened, she only heard a faint voice of a secret signal in the forest...

As the night passed, the sky was getting brighter. Feng Jiu, who had rested in space all night, carefully checked the space ring of the cultivator that she had killed.

“Why is there a mud ball? What could be in here?” She looked at the mud ball a little strangely, then she smashed it into the ground only to see that once the yellow mud was smashed and scattered, a small black token inside was revealed.

“So there is something after all.”

She picked up the small black token and looked at it. There seemed to be a symbol of identity, there was nothing else on it except some complicated marks. In addition to that, there were some items for communication and treasures in his interspatial ring.

After she had packed up everything, she took out the road map and looked at it. As she had wanted to lure those people to follow her, but not let them know which route she was going to take, she had deviated from her original route she was going to take.

“Cloud Devouring, you can rest in here!” She touched Cloud Devouring, who was lying beside her and looking at her. She left it in space and walked out of space by herself.

Ten days later.

Feng Jiu, who was dressed in red, stood in front of an endless ocean and watched the waves beating as the water roared loudly. The waves at the back pushed the waves at the front to the shore. And when the salty breeze came along with the waves, she couldn’t help but glance around and look down at the map in her hand.

“Surely not? I have to cross this ocean? How big is this ocean? Besides, will I be able to cross it?” She stood on the beach and muttered. Finally, she looked at the map in her hand again and sighed.

“It’s one thing if I know what will happen after I pass this island, at least I will know how big the ocean is, but the map ends here. Is he messing with me?” She took a few steps back and sat down on a rock by the ocean and stared at the ocean with one hand on her chin.

In her daze, time passed quietly. To her surprise, the ocean was so big that she didn’t even see a single ship.

Her stomach growled, and she suddenly remembered that she hadn't eaten all day! But, where could she find something nice to eat in this place?

She couldn't help but look out to the ocean. The ocean here was so big, surely there would be a lot of seafood in the ocean, right? When she thought of this, she couldn't help but swallow her saliva.

Chapter 2556 There are no fish in the sea

"I've made up my mind! I'm going to have seafood!" She smiled as she stood up, rolled up her sleeves, and proceeded to the beach. After adjusting her spirit energy breath, she walked on tiptoe on the water.

When she reached the deeper section and peered beneath the surface, she was surprised to see that there were no fish swimming in the water. The sea splashed when she shot numerous spirit energy breaths, but no living animals that she could eat emerged.

"Strange! Even if there's a saying, 'Fish won't come when the water is too clear', this is the sea! There has to be some seafood to eat!" She murmured. She tried again and still didn't see any fish or shrimp.

"Hey, Miss, don't waste your time here. This place is unlike anything. Even if you try again, you won't be able to catch a fish."

Just as Feng Jiu was becoming perplexed, an elderly voice mingled with laughter was suddenly heard. She turned around and noticed a grey-haired old man coming her way with a crutch in hand, waving and shouting at her.

She flitted over the sea on tiptoe and returned in a few twirls to the shore. She approached the elderly gentleman and inquired, "Uncle, why am I unable to catch fish in this location? Such a big sea must be teeming with fish!"

"Hahahaha!"

The old man laughed as he held his beard. "I knew you weren't a local as soon as I heard it. I will tell you! Because there are so many sea monsters, no one has ever thought of getting any seafood from this sea."

Feng Jiu was stunned. "Sea monster? What kind?!"

"They've never been seen before. In any case, they're large, man-eating sea monsters. All of the fish and shrimp in the sea have been devoured by the sea monsters, leaving nothing for us." The old man smiled and went to the beach, where he sat on sand that had not been beaten by the waves.

"Normally, only a few people visit this location. You're a young woman. Why are you here by yourself?" The old man stroked his beard. He couldn't help but smile when his beaming eyes fell on Feng Jiu. "Miss, you are so beautiful. I've seen a lot of remarkable women, but this is the first time I've seen anyone like you."

Feng Jiu chuckled when she heard this. "Uncle, thank you for your kind words. I was starving. Because there was a sea nearby, I suppose there would be plenty of tasty food. Surprisingly, I didn't see a single fish."

She paused and looked at the old man. "I don't see anyone else in this area. Where did Uncle come from? What are you doing in this place?"

"Who was it that said there was no one? Have you taken that route?" The old man extended his hand and pointed to a hillside.

At this moment, a few house corners were visible through the mist. It's a little bizarre. She had arrived here on her flying sword and she had a clear view of this part of the land from the air. She said this because she saw no houses in this region, but what was the deal with the roofs on the distant slopes? She was certain she wouldn't miss it.

"There was no one in the area when I first took a look. Why now..." She spoke with doubts. Her gaze shifted from the distance to the old man beside her. She saw, however, that the old man had buried his crutch in the sand in front of him and sat cross-legged as if sleeping or cultivating.

"Uncle?" She called out.

Chapter 2557 Wouldn't it be a pity?

The old man, however, did not open his eyes, and his breath was as smooth as a stream, with no ups and downs. He sat still as if he were sleeping

After a fleeting glance at the strange old man sitting silently as if no one was there, Feng Jiu turned aside and stared at the sea.

She had no choice but to travel through the sea, and since she couldn't fish with her spirit energy breath, she might as well...

Her eyes gleamed and she felt energised. She then removed her boots and red cloak and walked out into the sea barefoot.

The old man, who sat motionless with his eyes closed, seemed to hear a noise and opened one eye to look. He opened his eyes wide with surprise when he noticed the girl had removed her coat and even her boots and was walking barefoot to the sea.

"Miss, don't get upset and do stupid things! You only get one life, and if you die, you will have nothing!" He rushed forward and grabbed Feng Jiu, who was about to walk into the sea.

Feng Jiu's lips twitched as she heard this. She returned her gaze to the old man and said, "I'm not upset, Uncle. I just want to take a look at the sea. It is said that the bottom of the sea is full of treasures, particularly seafood that has never been seen before. Those can only be found in such a deep sea. Wouldn't it be a pity not to explore this rarely seen vast sea?"

"You can't come up if you get in. At the bottom of the sea, there is a sea monster that will eat people." The old man stated once

more.

Feng Jiu chuckled. "You have already told me that, Uncle."

"I certainly did! But why do you still want to die down there? Tell me, a beautiful young lady, why can't you just let it go?" The old man talked to her and painstakingly tried to persuade her. "If you're hungry and just want to get something to eat, why don't you come over to my house?"

"Eh?" Feng Jiu turned to face the old man with surprise. "Go to your house?" She couldn't stop herself from staring at the hillside. "There?"

"Yes, yes, right there. Shall we go?"

Feng Jiu, who was standing in the sea, paused for a moment before asking, "Would that bother you?" This old man was a cultivator with the strength of an Immortal Sacred, so he wasn't an ordinary person. But why did this behaviour strike her as odd?

He didn't question her where she came from, regardless of whether she was a good or bad person, yet he suddenly said that he'd take her to his house? She couldn't have passed the hillside without seeing the houses if there weren't some sort of hidden boundary barriers and arrays there.

Now, the old man said he would take her there. Something didn't feel right to her in any way.

"No, no, I live alone." The old man answered with his eyes narrowed in a smile.

Feng Jiu paused for a moment before walking back. "Well, then, I'll accept your invitation and disturb you." She returned, wiped her feet, put on her boots and coat, and followed the old man up the hillside.

As she suspected, there were arrays and boundary barriers in that place. She followed the old man inside, passing through those barriers and arrays. She was, however, taken aback when she looked inside.

There were only a dozen houses here, but they were surrounded by fruit and vegetable patches. Some kids were running down the path, while others were picking fruit. No one seemed surprised when they saw the old man bringing her in. They simply smiled and greeted the old man.

Chapter 2558: The Illusion Array !

All of this seemed so natural and ordinary, but in this natural and ordinary atmosphere, she had a vague feeling that something was wrong, even though she couldn't pinpoint what was wrong with this space.

"It's odd; why do they wear their clothes backwards?" While walking down the street, she noticed that everyone she saw, whether children or adults, had their clothes on backwards.

"Oh, that's the way it's done around here. Local customs vary from place to place! Hehehe." The old man smiled as he stroked his beard. When he came to a fruit tree, he picked some fruit and gave them to Feng Jiu. "Come on, take these first to pad your belly."

Feng Jiu noticed that the fruit he was holding was fresh and moist. She wiped the fruit and bit into it because she was hungry. It tasted crisp and sweet, especially its juicy flesh, which quenched her thirst. When she looked up and was about to say thank you, she noticed that the old man in front of her had vanished.

“Uncle?”

She called out, a slight frown on her face. She looked around, but everything was still as it should be. The adults and children were occupied, and the children who had been climbing up and down the fruit trees were still playing there.

“Is it an illusory realm?” she squinted as she looked around.

She seemed to have met an old master today. The old man had a peaceful breath and there was no smell of blood. She had not anticipated this hidden old master would trap her in this illusory realm.

Naturally, as it was an illusory realm, there was a way to break it. But what’s with these people? Why did these people appear if it’s an illusory realm?

While she was searching for a way to break the illusion inside the vast illusory realm, an old man with a crutch held a mirror in his hand and gazed at it. There was Feng Jiu’s figure in the mirror...

Two women pulled Feng Jiu down the path. “Let’s go. In my home, there is fruit wine and roast meat. I’ll take you there to eat.’

“Exactly. You can have whatever you want here. Come on, we’ll take you out to eat.”

The two women took Feng Jiu to their home. There, she ate a lot of food and drank a lot of wine. When she said she wanted to leave, she was sent a wine that she couldn’t refuse.

She ate and drank until she was tipsy from the wine and collapsed on the table. The two women simply smiled as they assisted her into the room and laid her down to rest before leaving.

Feng Jiu opened his eyes after they left. This place was so real that she thought she’d walked into a farmhouse. There was no malice among the people here. They were only some ordinary peasant families. Was it possible to create such a place from an illusory land?

She sat in bed contemplating for a long time, unable to come up with a solution.

What exactly was the old man’s intention? Why did he bring her to this location? What an amazing feat to accomplish all of this in complete silence!

She dozed off in bed until it was dark. She jumped to her feet and looked around the room. When she stepped outside of a certain range, she would come across something invisible to the naked eye but very real. It was strange.

How was it possible that these arrays and boundary barriers were so strange? She was perplexed. She was becoming increasingly puzzled, especially since she passed this place without noticing the illusion array laid here..

Chapter 2559 The Guardian

“Why is this so? Isn’t this some kind of illusion array? That is not possible!”

She tried walking back the way the old man had brought her in, but she couldn’t get to the end. The location appeared to be a circle, and after going around it, she would return to the same spot.

It was impossible not to get out with her skill in arrays and boundary barriers. However, this location was clearly strange; it appeared that she had overlooked something.

“This isn’t going to work. I need to think about it carefully.”

She walked slowly, step by step, in front of the small dozen houses, and unknowingly came to a well.

“Have I overlooked a location? What on earth is going on?” She muttered softly. She was thinking about things when her eyes inadvertently fell on the moon in the well; even though her eyes were on the moon, she was thinking about something else.

However, a light flashed through her mind, and she hurled forward. As she looked at the moon in the water, her eyes widened in amazement.

“Backwards? How can it be reversed?” She looked up instinctively, and sure enough, the moon in the night sky was on the opposite side. Suddenly, a thought occurred to her. “I see...”

No wonder those people wore their clothes backwards, no wonder she felt strange, it was because everything here was reversed!

So she should have been inside a mirror, not an illusion array!

Everything was only backwards in the mirror! It was no longer a problem for her to leave now that she had discovered the reason!

She chuckled and sat with her hands on the well’s edge, her voice releasing spirit energy breath. “Uncle, will you take the initiative to let me out or do you want me to break your stupid mirror?”

“Eh? You are aware that this is a mirror?” The elderly man’s astonished voice came abruptly.

Feng Jiu chuckled as she listened to his response. “What else is backwards except in the mirror? If I guess correctly, I should be inside one of the many hand-held magical mirrors?”

“Miss, you’re so smart. How long has it been since someone defeated the old man’s Illusory Moon Mirror?”

The old man remarked with his face wreathed with smiles. His tone was the same as always as if he was simply joking around with Feng Jiu. Instead of letting her out as Feng Jiu had proposed, he smiled, “Now that you know, you can come out on your own! If you can’t find a way out, you’re going to have to stay there for a while.”

Feng Jiu was not surprised in the least. She just smiled and sat by the well, asking, “What are you bringing me here for, Uncle? I’ve been here for quite some time, and my stomach is still empty.”

“Hahaha, how can a person who can come to the Thousand Illusory Sea be considered ordinary? Since you’re here, you have to go through this old man’s hurdle first.” The old man’s cheerful voice reached Feng Jiu’s ear. She heard him inquire, “Where did you come from, Miss? What is your name? How did you find this place?”

Thousand Illusory Sea? Feng Jiu whispered the name in her heart. On the map given by Old Man Tianji, there was a sea drawn here, but he didn't say what it was called. But, based on what the old man just said, could he be the one guarding the sea?

"Miss? Miss? Hey, since you're not talking, I'll sleep first." The old man yawned and tossed the mirror aside.

Chapter 2560 Into the sea

Feng Jiu went still when she no longer heard his voice. She sat by the well, her calm eyes searching for a way out of this place.

She looked up at the crescent moon hanging upside down in the sky and then turned around to look at the well with a spark in her eyes.

Aha! That's it.

Her heart pounded as she figured she had discovered the answer. She stood up and looked at the shimmering water in the well, as well as the crescent moon reflected in it. She couldn't help but smile before jumping in.

The old man who had closed his eyes and fallen asleep abruptly awoke and looked sideways to see a flash of light from the mirror by his side, followed by the appearance of the woman in red.

"Ah? You are out?" He was surprised. He didn't expect that such a young girl could come out of there so quickly. That's quite remarkable.

"Can you talk to me now, Uncle?" Feng Jiu sat with her gaze fixed on the old man.

"What to talk about?! I just want to see if you have the ability to go to sea. I have nothing to talk to you." The old man rested on the sand, his legs raised and his eyes closed. "I'm going to sleep. Do not disturb me."

Seeing this, Feng Jiu was taken aback. "Weren't you asking where I'm from and what my name is?"

"Oh, forget about it. I don't want to ask any more questions." The old man said. He's sleeping here, oblivious to her presence.

The corners of Feng Jiu's mouth twitched. She had the impression that the old man disregarded conventional wisdom.

She looked out into the darkness and saw that morning was still a long way off. So she took a woven mat from space and spread it on the ground, then lay down with a cloak draped over her body to rest.

With the sky as the canopy and the earth as the hut, the sea in front of her and the mountains behind her, she had to admit that sleeping on the ground felt much different here. She felt so insignificant when she looked up at the stars in the sky. She eventually fell asleep while listening to the sound of the waves and the night wind...

She awoke before dawn the next day. She sat by the sea hugging her knees and watching the sun rise slowly from the sea with her eyes squinted.

The feeling of watching the sunrise by the sea was quite special.

It was lovely to see the sun rise in the east and its rays reflect off the water. She stood up, stretched, and returned her gaze to the sea in front of her.

She was still thinking of a seafood feast. This was also an opportunity to see what kind of monster lurked beneath the water.

So, she removed her boots, took off her coat and put it aside, then leapt into the depths of the sea. When he heard the splash, the old man awoke with a start.

The old man sat up. He gazed at the splash in the sea, then at the boots and coat on the ground. He couldn't help but stroke his beard and shake his head. "How bold of her to dive to the ocean's depths! Alright, I'll see what you can do." He resumed his nap, but this time he was awake and watching the waves.

Feng Jiu, who had gone into the deep sea to investigate, felt a sting in her eyes. She had no idea that the deeper she went, the colder the seawater became. It was true what the old man said. There were no fish or shrimp even at the bottom of the sea.

When she could hardly breathe after a prolonged dive, she hurried upstream and rose to the surface.
