

GHOST DOCTOR 361

[Chapter 361 Why dont we join forces?](#)

Luo Yu only felt that his entire person flew out uncontrollably, as if there was a force pushing him from behind. After being pushed nearly hundred meters away, the pressure that made it difficult for him to even breath also dissipated, and he felt that he had regained back all his strength.

"Mistress!"

He looked back and shouted, only to see a complex blood coloured array on where she stood. The fine blood red lines oozed up from the ground and it seemed that the lines had been formed by blood. This large blood array exuded a strong stench of blood and death, and seeing it made his heart tremble involuntarily.

Although he had been a Feng Guard for so long, it was the first time to encounter such a horrible and shocking scene...

He should leave right away, but he saw that his Mistress was still there. Without any further thoughts, he wanted to run back but her voice rang out fiercely.

"Go to the place I said! Execute the order!"

Feng Jiu shouted out, her voice was filled with an awe inspiring pressure and it made him stop in his tracks.

"Mistress..."

His eyes were red, as he struggled with his emotions, he felt absolutely horrible in his heart. If not for him, his Mistress wouldn't fall into such a predicament. If not for him, his Mistress could have escaped...if not....

Reason told him to immediately listen to her command and leave quickly because he was simply too weak. He could not withstand the pressure from a Golden Core experts and if he stayed behind to help her, he would only drag her down. He had no choice but to leave with a heavy heart.

That was his Mistress! It was his Mistress who risked her very own life to save him! How could he leave just like this?

"Quickly leave!"

Feng Jiu shouted and no longer had any spare time to pay any more attention to him. She retracted her gaze and looked down at the blood array at her feet. The array had a complex pattern with intricate lines of flowing blood. She had no idea where the fresh blood came from but the aura of death was too heavy and it would give anyone the creeps.

After Feng Jiu had shouted at him, Luo Yu gritted his teeth and turned to leave...

"Little Fire, I can't move my feet at all, do you know how to break this array?"

She asked the little Fire Phoenix that was in her space through her mind and her gaze rested onto the withered old man that was seated in the middle. "I've never seen that old geezer move away from his position, could it be that... he can't move away?"

"This Blood Soul Array is an evil array and it is made out of human blood. That position which that old thing is seated at should be where the location to break the array is at. Moreover, the exact place where he is seated at should be the eye of the array. That's where the blood qi is the richest and he should be trying to change his fate. If it weren't for you destroying his plans, when midnight strikes, there wouldn't be anyone alive at all."

Little Fire Phoenix's voice that was solemn had a hint of awe and dignity to it. After a slight pause, he continued on: "You'd better be careful, as long as you do not step on these blood lines of the array, you will not be trapped. However, that old thing is determined to kill you, I think that it's best to join forces with those four Golden Core experts to fight back and get rid of him once and for all!"

When she heard this, she also felt that this was the only way left, that was why, her gaze fell onto the four Golden Core experts.

Those four Golden Core experts saw that her gaze had fallen upon them and their eyes lit up immediately. They started to shout at her: "Little Friend! It is impossible to kill him with just you alone, but if you add us into the equation, the situation will change. Little Friend, how about joining forces and fight against a common enemy?"

[Chapter 362 Sacrifice a fragment of soul!](#)

Having said that, the hearts of the four people were tense with anticipation, and mixed with some worry that she would not want to. After all, her strength had been witnessed by them. Even if she can't defeat him, she would still be able to escape. But it was different for them, they couldn't and if she doesn't help them, the four of them would will die here.

When she heard this, Feng Jiu furrowed her brows and said: "Join forces? I have no relationship with you whatsoever, why should I take this risk? Even if I can't defeat him, it is not difficult for me to escape with my strength. But as for the lot of you.....it's hard to say."

The hearts of the four of them sunk and didn't expect her to really have this thought.

For a moment, the four of them exchanged glances. One of them stared at Feng Jiu and asked, "Then, on what terms will this Little Friend help?"

"Heh heh."

She let out a low laughter and she showed a toothy grin as she looked at them with a sparkle in her eyes. "Looking at you guys, it should be that your cultivation had been scattered? You've seen my Blue Edge sword and know so many things about me. If you are not one of my people, why should I take this risk?"

The moment the little Fire Phoenix in her space heard this, he rolled his eyes. What moment was this? She still could think of recruiting people, however, the power of these four Golden Core experts weren't weak, some had already advanced to the middle rank, if they were to really join them, it would indeed be a great asset.

The four of them became silent the moment they heard her words. When she had said it out, the four of them knew what she meant. But even if this little lass was extraordinary, to ask them to bow down and to pledge their allegiance to her, they weren't very willing to.

After all, to be able to cultivate to such a level, they can already dominate and rule over a small kingdom. Although this little lass has good skills, she had not even reached the foundation level.

If they did not agree, no matter how strong they were, they weren't able to escape from their current predicament and would eventually lose their lives here.

After deliberating over it, the four looked at each other and asked: "What do you think?"

"Even our lives are going to be lost, do you still care about a fragment of your soul?"

"Mn, although she is still young, but she has the tyrannical aura of a conqueror. Her future is bound to be extraordinary and it would not be too humiliating for us to follow under her."

"I feel this way too."

"Alright, since there are no other opinions, then we shall sacrifice a a fragment of our soul and present it to her." Once they presented a fragment of their soul to her, their lives were completely in her hands. If she wanted to kill them, all she needed to do was to destroy their souls and they would die before they could even battle.

That was why, presenting a fragment of their souls to her was the best sincerity that they could show her. This was also because as she had mentioned earlier, they know too much about her , if they weren't her people, why should they live?

Once they had made the decision, after they glanced at the withered old man in the middle of the array, they immediately presented a fragment of their soul to her and said: "Today, we offer a fragment of our soul and swear allegiance to you, our Mistress. This should suffice?"

Feng Jiu reached out and placed their soul fragments into their hands before they disappeared into the palm of her hand. The corner of her lips curled up and said, "Very good, inhale this medicine in deeply, it can quickly restore your strength."

She took out a bottle of medicine from her space and threw it at them. At the same time, Blue Edge struck down in front of them and shocked them, cutting the blood pattern on the ground.

"Swish!"

"Bam Bam!"

The four of them were shaken by that sudden strike and they listened to her words and inhaled in deeply. Within moments, they felt spiritual qi in their dantian start to stir....

[Chapter 363 Give me your life!](#)

The power that they had originally lost returned in an instant and life returned to their eyes and with a loud bam of their fist, the whole body's spiritual qi was surging and every vein was flowing with energy.

"Hah!"

With a 'hah', they stretched their taut body which had been restrained. She only saw that one used both hands and seemingly grasp something in midair and the air started to be sucked into their palms, and it was directed in the direction of the withered old man who remained seated.

Another flicked his fingers and ice blades formed in midair and bolted in the direction of the withered old man. The ferociousness of their attacks made her feel that a Golden Core cultivator was really different.

The other two attacked at the same time, while one of them shot out a fist and the other brandished his sleeves and several hidden weapons shot out towards the withered old man. The four of them had formed a circle and surrounded him while they attacked and did not give him any chance to escape. It was just that the withered old man's cultivation was above them.

He initially had his eyes closed but he suddenly opened his eyes. That pair of eyes seemed to have shot out a ray of blood red light and the smell of blood and death qi was extremely dense on him. With a loud 'hah!', both his hands joined the final seal of the array and he raised it up.

"Ah!"

The dense blood qi rose up from his hands and started to spread out as it ferociously slammed into the bodies of the four Golden Core cultivators and sent them flying back like a broken kite.

"Ughh!"

The four of them had been severely hurt by the sinister blood qi and as they were sent flying back, they spat fresh blood out of their mouths. They flew back over ten metres and landed at the edge of the array. The moment they touched the array, it was as if there were many hands that were pulling them to the ground.

Fortunately, the four of them had regained their spiritual strength so they weren't like before where they could not even stand. However, they had been injured by the blood qi and were not able to stand back up immediately.

It was at this moment that after the withered old man swept his gaze over the four of them, his vindictive gaze came to rest on Feng Jiu who stood in the midst of the array without moving. The murder intent in his eyes was startling and his face had contorted into pure rage and maliciousness that wanted to tear Feng Jiu up into thousands of pieces and when the four of them saw this, they were extremely wary.

"Quickly, escape!"

The four of them could not help but shout out in despair, at this moment, they were extremely worried for her; not because they were worried that she held their soul fragments in her hands. After all, with her dead, there wouldn't be any threat to their soul fragments.

They had called out to her because she was so outstanding. They did not wish to see someone who had the tyrannical aura of a conqueror who had a magnificent future have their life extinguished before it was materialized.

"Escape? Ha ha ha ha ha ha! After ruining all my plans, this old man not only wants to kill her, I want her to die-without-a-corpse!"

Each word that he had accentuated was imbued with bloodthirst and maliciousness, and all the killing intent covered the sky and it shot directly towards Feng Jiu like a wave crashing down, wanting to drown her in all the killing intent.

At the same time, the withered old man who had been seated all this while flew up and his hands formed a claw and another burst of cold yin qi rushed towards her. His speed was extremely fast and almost could not be seen. One could only feel that there was an impending sense of doom that was closing in on them and it was so oppressive that it was even difficult to breath.

"Give me your life!"

[Chapter 364 Strong enemy!](#)

Feng Jiu narrowed her eyes as she looked at him rushing towards her. Seeing the dark aura of death enveloping her, although the situation seemed dire, however she was unusually calm at this moment.

If it was just a Golden Core cultivator at the initial stage, she wouldn't be pushed into such a tight situation. However this withered old man was already a peak Golden Core cultivator, he was just a short step away from the Nascent Soul stage. What he cultivated was the dark arts hence, he was more sinister than any other similar Golden Core cultivators.

Or else, the other four Golden Core cultivator wouldn't be in such a difficult situation.

When she had entered the Nine Entrapment Woods, a lot of things had spiraled out of her expectations. Never had she expected to meet with this Golden Core withered old man, not to mention meeting him while he was trying to change his fate. She did not expect to be embroiled in this situation all because she wanted to save Luo Yu out.

In such a moment, she had to be extra vigilant or else even her little life might be snuffed out any moment. That was why, she was being extremely cautious and giving it her all!

In a split second, she took out a medicine bottle and immediately ingested it. All the surrounding spiritual Qi could be seen accumulating with the naked eye and the oppressive pressure that enveloped her seemed to have lessened. The tight grip that held onto her legs also broke away as she jumped up in the air with Blue Edge in hand, she imbued in her spiritual qi and struck out at the withered old man.

"Green Dragon Goes Out To Sea!"

The moment her voice trailed off, Blue Edge reverberated and the sword Qi manifested into a magnificent azure dragon that soared through the sky and headed in the direction of that old demon. A strong gust of wind surged forth and the powerful sword cut through the air and caused the surrounding air pressure to lower and sharp wind blades became like ice cold blades that were blown about and the fierce momentum brought forth a strong ancient oppressive pressure that made people feel cold from the depths of their hearts.

"Aooooooooo!"

The azure dragon let out a loud roar and at the same moment the large dragon's head slammed into the withered old man as its sharp claws glazed by. The withered old man's eyes were opened wide in shock as the black robe had a huge hole just from the blizzing airflow.

Before the dragon's tail could reach him, a blood red glow was emitted from his two hands as a blood red dragon emerged and attempted to swallow the azure dragon.

The two dragons rose up into the air, entangled as they each fought for supremacy. Looking up, two dragons that were condensed by spiritual qi were in the air, biting and snarling as the wind blades surrounding them slashed ferociously and the bloodthirst was intense...

Two dragons were in the air battling it out while Feng Jiu was on the ground battling with that withered old man. In just a few short exchange of strokes, the tattered and torn clothes had been made even more worn out with countless slits from the air blades.

Her cultivation was far lower than her opponent and if not for her speed and skills, there was no way she could fight with him. However, after a few more strokes were exchanged, this huge disparity was even more apparent. She gnashed her teeth and threw four bottles over to the four Golden Core cultivators who were looking at the scene in a daze.

"Drink it and come help me!"

"Bam!"

Because she was distracted for that short span of time when she threw those four bottles out, the moment she finished her words, she was struck in the chest by that withered old man. A powerful death qi suddenly rushed to her and she did not have the chance to dodge. She had no choice but to take that strike head on.

However, it was this palm strike that disintegrated the worn out clothes on her body and revealed the silvery white defense robe she wore inside....

[Chapter 365 Medicinal Potion](#)

The four Golden Core Cultivators caught the bottles she threw out but when they looked up again, they saw that she could not avoid that palm strike and had received a direct blow to her chest! Just as they were worried for her, they saw that that palm strike had sent her flying back ten metres and had smashed those tattered rags into dust and a silvery white robe glimmered before their eyes.

"Hiss! It's actually a defensive magical treasure!"

The four of them sucked in a breath of cold air, they had never expected that she would even possess such a treasure. Moreover, after seeing that although she had been directly hit by a palm strike from a peak Golden Core cultivator, she was not injured one bit. It only showed how extraordinary that defensive magical treasure was!

The four of them had also noticed that when those inconspicuous tattered rags on her body had disintegrated and that silvery white robe was revealed, her outstanding figure could not be masked.

Although her face was smeared all over with soot and concealed her real countenance, her eyes were bright as the stars. From those eyes, there was a sense of self confidence and clarity, her posture was straight and her figure no longer looked like a skinny youth but a slender lady with poise and charisma.

It looks like she really was extraordinary! There was a high possibility that she might not even be a person from this tiny ninth ranked country.

With their thoughts running amok, they finally regained their senses and immediately thought of the moment that she had drank the contents of the bottle and her spiritual qi had increased exponentially. They quickly exchanged glances and looked at the bottle in their hands and downed the contents without any hesitation.

The moment the fluid entered their mouth, from their experience, they immediately recognized that it was a medicinal potion! And it was a very pure one at that! As they felt the potion slid down their throats and when it reached their dantian, they only felt a strange circulation in the abdomen where the potion had passed through. The very next moment, they felt the spiritual qi in their whole body burst forth and felt it rushing in their entire body.

What a powerful potion!

The few of them were shocked and looked at each other with wide eyes. They didn't expect such a small bottle of potion to have such an astounding effect that was even more effective than a medicinal pill! Such an item, even for them, it was something that was rarely seen!

At this moment, they no longer had any other stray thoughts because there was a loud bang that resounded above them as the two dragons smashed and dissipated while the two people were still in a heated battle. It was obvious that the girl in the silvery white robes was not a match for that old man.

Seeing this, they quickly rushed up and surrounded that withered old man and shouted out: "Mistress, you must first retreat! Leave him to us! We'll clean him up!"

Hearing this, Feng Jiu quickly retreated after she avoided the attack from the withered old man. For her current level of a Great Spirit Master, to contend against a Golden Core Cultivator to such an extent and for such a long time was already her limit and her physical strength wasn't able to keep up. If she continued on, even her spiritual qi would be exhausted.

Quickly retreating, she was gasping for breath and took a bottle of medicine out from her space and gulped it down. Her line of sight was on the four Golden Core Cultivator who besieged the withered old man and eventually rested at the eye of the array.

"Little Fire, that old demon's blood qi is should be supplied by that array? If we were to break the array, he would also run out of blood qi to supplement his strength, right?"

She was conversing with little Fire Phoenix in her mind and made up her mind to break the strange blood soul array.

The little Fire Phoenix who was seated cross legged in her space nodded his head and his tender voice that had a hint of dominance resounded: "You're right, but that eye of the array is surrounded and protected by all those ghost wisps, and that skull there also has some offensive powers. To even get close to the eye, you must first exterminate all of them or else you won't be able to break the array."

[Chapter 366 Luo Yu returns!](#)

Hearing this, Feng Jiu's gaze fell on the ghost wisps in the surroundings, watching the flames floating in the air, but did not attack anyone. It seems that it had no offensive powers, but in this strange Blood Soul Array which used fresh blood and souls, how could these strange sinister flames not have any offensive powers?

As for what kind of offensive power would there be? Well, let her give it a try then!

The moment she made her decision, she avoided the bloody lines of the array on the ground and rushed to the middle of the array. Those who were sitting in the array might have been captured much earlier on as their lives were left hanging by a thin thread. Their bodies were not filled with the breath of the living, but a thick stench of death qi.

Some could still remain seated on the ground while some had already collapsed into a heap on the ground. After all, they were battling in the midst of the array and with the powerful pressure and the wind blades that flew all around, those people could not dodge nor could they avoid the oncoming onslaught. Not to mention bearing the burden of the oppressive pressure, naturally some had lost the opportunity to live.

Her gaze on the glazed by those people, her heart was calm.

The world was just like that – cruel and unjustified. Even if one did not wish to die, but did not have the ability to protect oneself, there was no other way and could not escape the fate of the impending death.

"Hah! You actually even dare harbour the thoughts of breaking my Blood Soul Array?"

That withered old man who was besieged by the four Golden Core Cultivators took a few steps back, and from the corner of his eyes when he saw that Feng Jiu wanted to break the array, he immediately waved his hands and chanted a few words. The next moment, he waved his hand and those green wisps each let out a shrill scream and each flame split into two before they flew straight into the eyes of those people.

Those people who were in a daze had a green flame appear in each of their eyes and as if they had been injected with a soul from the ground, they all pounced at her in unison.

"Mistress, be careful!"

Suddenly, a voice came from afar and Feng Jiu was startled. She turned and saw that Luo Yu who should have supposedly left actually came running back. Her expression darkened as she said in angst, "Didn't I ask you to leave? Why are you back? Don't tell me you aren't afraid of death?"

She had spent so much effort to rescue him, yet he had given up the opportunity to survive and ran back. It made her so mad!

Luo Yu beamed at her as he raised his hand which was holding onto something and he shouted back in reply: "Mistress, I came back to help!"

Feng Jiu saw that he held onto something resembling a bamboo tube in his hand, although she had no idea what it was, but when she saw that he was running over, she quickly shouted, "Don't step on those blood lines on the array!"

"Alright!"

He shouted back in reply and as he rushed towards her, he saw that she had turned back to deal with those people that surrounded her. He immediately lit a bamboo tube and shouted, "Mistress, quick! Move away!"

The moment he finished speaking, a bamboo tube in his hand was thrown in front of Feng Jiu. At the same time, he also threw another towards those people who were fighting.

Feng Jiu only saw a spark and the smell of sulphur permeated in the air. The moment she smelled that, she was stunned momentarily and quickly retreated. At the same moment that she had retreated, that bamboo tube exploded in the midst of those people with a loud bang, and the ground trembled beneath them.

"Cough cough!"

She stepped back and coughed a few times from the smoke. She was surprised and wondered where did Luo Yu get his hands on these explosives.

"Boom!"

As for those for Golden Core Cultivators and they the old man, they weren't as lucky. The explosive that Luo Yu threw at them exploded before they could even avoid it.

Only a few shouts of exclamations were covered by the loud explosion and the blown away. When they saw that they were about to fall, they quickly stabilised themselves and turned their bodies. They then turned back and stared ferociously at Luo Yu.

[Chapter 367 Drag you along!](#)

After all, Luo Yu was only a rank of a Martial Lord and when he was being glared at by five Golden Core cultivators, he could only feel strong pressure on him and his heart was shaking uncontrollably.

His whole body could not move under the immense pressure, even words could not be spoken.

Feng Jiu only watched this scene in a daze, because the explosives thrown out by Luo Yu was so powerful that they blew up a large hole in the ground. Some of the blood lines that had been blown away were slowly starting to reconnect and each of those four Golden Core cultivators were covered in a layer of grey and black, and there was even a burning smell coming from their hair.

There was no wonder that the few of them were so angry. If not for Luo Yu being on the same side as them, he would most probably be torn up into pieces by them.

"Hey Brat, can't you aim a little better? You should throw it at that old demon!" One of them pointed at that withered old man who looked as sorry as they did.

After hearing this, Luo Yu froze like a block of ice and only regained his senses after a long while as he nodded his head obediently: "Oh, all right then. The next time I throw it out, remember to dodge, or else..." He swallowed his saliva and did not dare to continue speaking. He suddenly felt that the gazes had become extremely dangerous because of his own words.

"Luo Yu, go out first. Retreat out of the proximity of the array." Feng Jiu immediately took those explosives that he was hugging with his hands. She thought that since she could not go near the eye of the array, why not just throw the explosives directly in instead?

"Alright, but Mistress you have to be careful, these are very powerful." Luo Yu advised before he quickly retreated to hundred metres away. Those were Golden Core cultivators that were battling, he really could not bear the pressure just being near them.

"Continue to keep him busy and wait for me to destroy the eye of his array. His strength would be greatly reduced then!" She shouted to the four Golden Core cultivators and at the same time, she waved the sword in hand and a powerful sword qi rushed towards the skulls that was surrounding the eye of the array.

"Swoosh!"

"Bam bam bam!"

The sword qi formed an arc and slammed into the skulls as a series of bangs resounded out. However, after the dust settled, she saw that those skulls were enveloped under a layer of fresh blood that oozed out from the ground. The originally empty sockets for shot out an eerie red light and one skull floated up and rushed towards Feng Jiu.

She did not expect that the defence of these skulls were so strong and the sword qi from Blue Edge could not destroy them.

In fact, what she did not know was that it was not that these skulls had strong defence, what was strong was the blood that enveloped them. It was the blood that had the embodiment of countless souls that was defending the eye of the array. The eye was its weakness and if the eye was to be destroyed, the array would cease and these countless souls would dissipate. So even if the withered old man did not urge them, even against the ancient oppressive pressure of hers, they had to resist to the end.

Seeing this, Feng Jiu ignited the explosives in her hands and threw them out. She threw one at the skulls, another was thrown at the middle of the eye and she immediately retreated back swiftly. Just as she was retreating, she heard two loud explosions from behind. The explosions were so powerful that the soil from the ground were thrown up as well.

"Puuu!"

The withered old man who wanted to go forward but was forced to stay in place by the four Golden Core cultivators spurted out a huge mouthful of blood and the blood qi started to dissipate as he began to show obvious signs of weakening. His entire person seemed to have aged suddenly at a horrifying speed that even his skin seemed to have loosened and his wrinkles deepened.

After feeling the change of his body, his first reaction was to panic, followed by resentment and hatred. He glared menacingly at Feng Jiu as he shouted into the sky with malevolence: "You broke my advancement, even if it means death, I will drag you along!"

[Chapter 368 Divine Soul Phoenix Flames](#)

After he spoke, he congealed all the qi in his entire body, and the powerful pressure and airflow accompanied by the whistling of blood and death qi started to converge and meld together. He stared at Feng Jiu with bloodthirsty eyes and flew towards her at lightning speed. He was determined to perish with her here!

The overwhelming death qi covered the skies and pushed the four Golden Core cultivators away. They were swept aside and they couldn't help but be shocked. The powerful pressure and qi that he displayed was the full strength of a Golden Core cultivator at the peak!

He was fighting and giving it his all to perish with her here!

As he said, even if it was death, he would also drag her along because she had destroyed all his plans!

"Flee!"

The four people were shocked and were unable to help her. They could only watch helplessly and saw the young lady wearing the silvery white robes standing there motionlessly. They wondered if she was so scared that she could not move, and in their minds, they only had one thought and that was for her to escape. She actually even revealed a strange smile and it really made people think that she had been scared silly.

"Mistress!"

Luo Yu was also stunned by this scene. He wanted to go forward, but he couldn't get close because that withered old man's Golden Core cultivator's pressure was too strong. Even if he was a hundred metres away, he couldn't move, and he could only watch the scene unfold in front of him helplessly.

"Mistress..."

His fist was tightly clenched into a ball, and his heart was twisting in agony. In his opinion, his Mistress should not be able to move under the pressure. At this moment, he felt extremely regretful. If he was careful, maybe she would not be in such danger and would not fall into such a situation.

If she died because of him, when he went back, how could he explain to everyone? For a lifetime, he would be pricked by his conscience...

At this time, he didn't even dare to see the scene in front of him. He was well acquainted with the scenes of life and death. He couldn't imagine seeing her end in blood and gore before his very own eyes, but yet he couldn't close his eyes. He couldn't help but watch. Even if that end is extremely bloody and gruesome, he had to look at it.

But what he didn't expect was that it was not the scene of his Mistress' blood splashing, but the scene that made him extremely shocked...

Donned in a silvery white robe, she stood in the night, like a Goddess, pure and holy. She stood there and did not move. There was no fear on her face and Blue Edge was stabbed in the ground in front of her while both of her hands were weaving a complicated pattern in the air and her lips were moving slightly.

Seeing that upon completion of the pattern, there was a dazzling light on her body, and she emitted a powerful and horrific pressure. At this moment, she looked sharply towards the withered old man. Her voice seemed to be majestic and archaic as she said out: "Divine Soul Phoenix Flames! Destroy!"

Accompanied by her voice, there was a raging red flame that rushed out of her body. The flame screamed and stirred, and manifested into a large magnificent phoenix. It gave a loud cry that resounded in the night. The next moment, the large flame was accompanied by a powerful and horrible pressure that enshrouded the withered old man who was coming directly towards her and burned...

"Arghhh! Nooooo...!"

There was a wail of anguish that came out of the flame, that carried a heavy sense of resentment that rushed into the sky as it echoed in the night...

[Chapter 369 Feng Residence's disaster?](#)

The strength of Feng Jiu's body had been thoroughly exhausted. Once she saw that the old man was burned into nothingness by the phoenix flame and at the moment she felt that the crisis was lifted, she fell unconscious immediately. She finally she could not hold it anymore and fell back in a deep faint.

"Mistress!"

Luo Yu came back from the shocking scene, and didn't even have time to think about where did the phoenix shaped flame come from. Seeing her fall, he screamed and rushed to catch her.

"Mistress? Mistress? Mistress...."

He anxiously called out to her, seeing her lying softly in his arms unconscious and no matter how much he called out to her, there was no response. He became extremely worried and even brought his finger to her nose to check if she was still breathing. Only when he felt her faint breath did he let go of his worries.

At this time, the four Golden Core cultivators also recovered from the shock. They looked at each other and couldn't hold back the shock from the depths of their hearts. When they saw that she had fainted, they quickly walked over.

"What are you doing!"

Luo Yu stared at them with vigilance. He pulled out the Blue Edge that his Mistress had inserted into the ground and kept it in his space. He then quickly retreated back with wariness. If the four of them held sinister intentions against the two of them, with his strength, he was truly afraid that he couldn't protect her.

"You don't have to be nervous, we harbour no malicious intent." One of them said, indicating that he should not be nervous.

"We have recognized her as our Mistress already, so don't be alarmed. Let's first find a place to put her down so that we check on her." Another person said, as his eyes swept by the surroundings with disgust at the dead land that was emitting a sinister aura all around.

The other two also nodded and said: "Yes, this place has too heavy blood qi, let's leave first and discuss later."

Seeing this, Luo Yu thought of the situation in which they had dealt with the old man before, and then he let go of his wariness and nodded. "Alright." Following that, he carried Feng Jiu who was unconscious and quickly left with them to find a place that did not reek of death and blood. They finally found a place far away and came to a stop.

Gently placing her on the grass, Luo Yu asked in a worried tone: "There's no wound on her body, why is she unconscious? Could it be an internal injury?" He was not Fan Lin and had no knowledge of medicine, thus he did not know if she had suffered from any internal injuries or not.

"Let me take a look."

One of the Golden Core cultivators said before he stepped forward and took her pulse. After a short while, he said: "She is unconscious because of excessive blood and qi consumption. It should be the last blow that consumed too much. It's nothing serious, she should wake up after a good rest."

Hearing him say this, Luo Yu nodded his head. He no longer spoke and just stood guard silently by her side.

"Let us treat our wounds first!"

The few of them looked at each other and said, as they walked to another area nearby to change out of the tattered black robe. They then took out various bottles and bandaged their wounds. After that, they took out their water bags and washed their faces simply and returned to where Feng Jiu was as they sat down in the lotus position and started to meditate.

Time passed quietly in the night, and the tranquility that followed after the crisis made everyone feel more relaxed. Perhaps because the powerful pressure that shrouded the place had gradually dissipated, so as the sky became brighter, roars of beasts could be heard.

However, what they did not expect was that Feng Jiu did not wake up when the sun rose, but she had slept for an entire three days and three nights...

And when she was unconscious, in Cloudy Moon City, a sudden disaster came to the Feng family without warning and they were caught unprepared....

[Chapter 370 Captured!](#)

Feng Residence

Deep into the night, all was peaceful and quiet. Midnight was the time when people were most sleepy. Although the Feng Residence had people guarding, however, a blur of a figure snuck into the residence without any sound and came to the courtyard of Old Man Feng.

"Neigh!"

When Old White saw that black robed man had captured Old Man Feng, he flew over and opened his mouth in an attempt to bite him. However, the black robed man threw some powder at him and he let out a groan as he fell back to the ground before he lost all consciousness.

The black robed man glanced back at Old White who was sprawled on the ground before he flourished his sleeves and quickly disappeared into the night....

Early next morning

Guan Xi Lin was at Feng Xiao's room and when he did not see the figure of Old Man Feng, he asked: "Father, Grandfather hasn't come by yet?"

Leaning against the bed frame, Feng Xiao shook his head and replied, "I haven't seen him since this morning, perhaps he hasn't woken up yet!"

During this time of recuperation, with the medicines and pills, his body was recovering very fast. However, his chest would still hurt when he coughed. His strength and vigour had also returned to about 70 to 80%. However because of his internal injuries, he could not even speak loudly without hurting.

It was precisely because of this that his daughter had made the effort to go to the Nine Entrapment Woods and she mentioned something about finding an ingredient to make an ointment for him.

It's just that she had gone for a few days and he wondered when would they be back and could not help but worry if they had met with any dangers.

"Have you been eating all the medicines that Little Jiu had left for you on time? Are there wounds on your chest any better now?"

"Mm, it's better but I can't circulate any qi. Once I circulate any qi, it would hurt." Feng Xiao laughed and said: "Actually, this is already considered very good. If not for Little Jiu's miraculous medicinal skills, I'm afraid I wouldn't even have any life left."

"You don't have to worry at all father, Little Jiu said that he would be able to recover fully. Since she said so, it must be true. However, it takes some time for your body to completely recover, but this is also good. After your wounds have completely recovered, you can cultivate in seclusion. I believe that your strength will improve by leaps and bounds."

Feng Xiao nodded his head happily as he said emotionally, "I really didn't expect my Little Jiu to be so capable. That day, father mentioned to me that she had proposed to move to another country to settle down, but in my view, wherever we stayed will be the same. As long as our family is together and our days are peaceful and safe. That is all I ask for."

"That's right! As long as the family is together, it's better than anything else."

He looked at Feng Xiao as a glint of determination flashed by his eyes and said: "That is why I have to continue to cultivate hard and succeed, I want to enter the Nebula Academy in Green Gallop Country. This way I can think of ways to find out more news about the whereabouts of my parents. I believe that once I step out, I would definitely be able to find them one day!"

Feng Xiao laughed and said in encouragement, "That's right, whatever you do, as long as you try, anything is possible."

Guan Xi Lin suddenly became very curious as he looked at Feng Xiao and after a moment's hesitation, he asked: "That's right Father, how is it that I've never heard you mention anything about Mother? Is she still alive?"
