

Ghost Doctor 671

Chapter 671: I Said I Will Beat You All Up

However, as she retreated, she was blocked by the students behind her.

“You want to leave? If you don’t explain yourself, don’t you think about leaving.” A student said coldly, arms wrapped across his chest as he stared at the young boy in green clothes.

“That’s right! If you don’t explain yourself then you can’t leave!” Another student chirped in and also blocked Feng Jiu’s path.

Feng Jiu stared at them and blinked a few times: “What are you doing? Aren’t you just being bullies? You better not do anything rash!”

Huh, since you dare to wear the rainbow-coloured glazed feather and waltz around the city, then you shouldn’t be afraid of anything.”

One of the students said: “The rainbow-coloured glazed feather is one of the three treasures of the Sky Building. Once it has been exchanged, the news spread far and wide. It is not just us who are looking for you, but the people from the Spirit Division are also looking for you! After all, the Ten Proud Children of Heaven also want to take a look to see how come a young new student who had only just entered the academy has the ability to exchange the rainbow-coloured glazed feather.”

Feng Jiu’s eyes widened and she stared at them with a feeling of being wronged and anger: “ You are all being unreasonable! I earned this rainbow-coloured glazed feather. I haven’t been waltzing around and drawing attention to myself. Besides, it’s meant to be worn on the waistband. Where else would I wear it if not on my waistband?”

“Huh, you earned it? Do any of you believe him?” A student asked the others around him with a smirk.

“We don’t believe!” All the students shook their heads and laughed in response.

“You’re all unreasonable! You’re all bullies!” She huffed as she glared at them and warned: “Don’t be too unreasonable, if you annoy me I will, I will...”

“What will you do?” A student laughed and asked.

A glimmer of light shined in her eyes and she replied: “I will beat you all up.”

“Hahaha! Beat us up? Just you?”

“Well, I really do beat people up.” She replied with a serious look.

“Someone from the Medical Division is telling us from the Mystical Division that he wants to beat us up. Hahaha! Don’t you find this hilarious? You will beat people up? Why don’t you try? I would like to see how you beat people up and maybe teach you a thing or two. Hahaha!”

However, Feng Jiu shook her head and sighed: " But we can't do that, aren't we banned from private fights in the academy? I can't beat you up! If I do, I will get in trouble with my teacher, then what will happen to me? You better let me go! Otherwise, if you keep annoying me, I will really beat you up."

"That's right! Hahaha! Take a look at your surroundings young boy. Haven't you realised where you are right now? You've got some guts to threaten to beat us up in the Mystical Division!"

"That's right! I've been in the Mystical Division for so many years and I have never heard of something so preposterous before! A student from the Medical Division telling us that he wants to beat up students in the Mystical Division. I really want to see this kid fight."

"Come on kid, let us see you throw a punch. Do you know how to punch? Do you need me to teach you....."

The student who was stood in front of Feng Jiu talking had not finished his sentence when all of a sudden, a punch came out of nowhere. It was so fast that he did not have a chance to duck or block it. He only heard the thump of the punch and it all went black as he fell to the floor in a heap.

"Hey!"

"You actually dare to start a fight!"

"Darn kid! You don't want to live do you!"

Feng Jiu massaged her fist as she stared back at the angry crowd of students and replied: "You can't blame me. I have already told you that I will beat people up. You just didn't believe me."

Chapter 672: How Shall I Address You Schoolmate?

The crowd of students stared at the student on the floor who was unconscious after being punched. They glared in anger at the young boy as they thought that he was shameless and sneaky. How could he just punch someone and not even given any warning to prepare?

"You dare to cause trouble in our Division. Come on brothers, hit him!"

"We need to teach him a lesson and show him how lethal our Mystical Division is!"

The students exclaimed angrily and waved their fists at the young boy as they surrounded him. Feng Jiu was startled by the outrage and ambush.

"Hey, don't do anything rash!" She dodged and got through the body of a crowd in an instant. She was about to flee from the Mystical Division when she saw a man and a woman who rode in riding white cranes.

"Ah, it's Senior Sister Zhou and Senior Brother Geng!"

"Yes, they've really come!"

"This kid is going to be in trouble!"

“That’s right. A new student who managed to exchange the rainbow-coloured glazed feather. They must have come to see where the kid has come from.”

“A new student who is able to get the attention of the Ten Proud Children of Heaven, he’s not simple.”

“Hahaha, let’s wait and see how they deal with him. Senior Sister Zhou and Senior Brother Geng are from the Spirit Division and have vast power and support backing them up. Taking an item they’ve set their sights on, this kid is in trouble.”

The two people who had arrived on the white cranes had not come down to the ground but lingered in midair. They looked down at the young boy in green clothes and when they saw the rainbow-coloured glazed feather on his waistband, their eyes glimmered.

The man dressed in white on the white crane stared at Feng Jiu and asked: “How shall I address you schoolmate?”

Feng Jiu looked at the two people in midair with no intention of replying. Instead, she had pushed away the people in her way and was about to leave.

What a joke? He really expected her to answer? What kind of person would use such a condescending attitude to ask a question? She couldn’t be bothered with him.

The students gasped as they watched as the young boy in green clothes glanced at Senior Brother Geng and turned to leave.

This young boy in green clothes was just too arrogant. He actually dared to ignore Senior Brother Geng!

When the man on the white crane saw this, he repeated his question frostily: “Schoolmate, how shall I address you?”

The man’s voice was not only cold, but it was also accompanied by a spiritual power of great strength that moved towards Feng Jiu.

All the students in the Mystical Division felt the strength of the spiritual power in the air. However, the young boy in green clothes acted like it hadn’t affected him and continued to walk away.

“Hey, kid! Didn’t you hear Senior Brother Geng ask you a question?”

“Kid, don’t you know the rules?”

The students from the Mystical Division shouted and moved to surround Feng Jiu once again, blocking her path.

Upon seeing this, Feng Jiu sighed and asked: “What are you all doing? We are all students from the same academy, why are you making things difficult for me? I’m trying to ignore you and move on, but you are still endlessly targeting me. Don’t you know that even saints have tempers?”

These people were not her equal as opponents, but yet, they still continued to push her boundaries. She was naturally kind and wouldn’t normally attack weaker opponents.

Chapter 673: A beauty blocks the way

“Oh? You will get angry? Hahaha, why don’t you show us then!”

Feng Jiu glanced at them without saying a word. No one saw her making a slight movement under her sleeve. She looked up slightly at the leaves gently swept by the wind. She raised her hand in an unhurried motion and let her hair down gently.

A few moments later, she glanced at the students and walked on. She thought that as she was unable to see her brother today, she would come next time! Mm, maybe it’s okay to let her brother look for her instead. He would know she was here when word gets around today.

“Youngster, who gives you permission...”

Before he finished the sentence, the student who was about to pull the azure-robed young man suddenly had both his legs turned soft. His whole body was immediately paralyzed and he fell down flat on the ground.

“Ah!”

“Hiss!”

“What’s going on?”

Exclamations of surprise rang out constantly. Those students situated at the downwind fell to the ground all soft and could not stand up, while the students at the upwind were startled by the scene in front of them. They stared at Feng Jiu one by one.

“It’s you! It’s you, isn’t it? You are a pharmacy division’s student. You must have used depraved means!”

Several students at the upwind were cursing. They saw the azure robed youth had a pellet in his palm. A stream of air blew on it head-on and brushed it away. They instinctively inhaled. It was too late for them to hold their breath. When the air flew into their body, their feeble legs fell to the ground at the next moment.

Feng Jiu looked around at each of the Mystical division’s disciples lying on the ground. She spoke as if having no other choice, “I told you not to block my way but you didn’t listen. What shall I do with you?”

Those students cast an angry look at the helpless azure robed youth. They thought him so despicable. If they could move, they would crush him with one finger!

Feng Jiu looked at them, as if she had guessed what they thought in their hearts, and showed a meaningful smile. “You should be glad that I only used a potion.”

She flipped her sleeve and stepped forward, but a white figure came down and landed in front of her.

“Junior disciple, my name is Zhou Xuan, a student of the Spirit Division. I want to ask you about the exchange of this rainbow-coloured glazed feather in your waist? I can buy it from you at a high price.”

Zhou Xuan, a Spirit division student garbed in a white robe, had a gentle look in her beautiful eyes while looking at the youth in an azure robe. Her voice was gentle and melodious. Her pleasant voice caressed

all the men's hearts and made them feel weak and numb. They wished they had the rainbow-coloured glazed feathers as a tribute and won the beautiful lady's favour.

Feng Jiu looked at the girl in a white robe blocking her way. She was sixteen or seventeen years old. Her face was beautiful and sweet-tempered, while her aura exuded gentleness. Unfortunately, the arrogance between her eyebrows destroyed her sense of beauty and made her beauty lessened by a great degree.

Compared with Ye Jing, Zhou Xuan was much less beautiful.

Also, Ye Jing was not only one of the Ten Proud Children of Heaven, but also acknowledged by the academy as the most beautiful woman. Ye Jing's popularity was not comparable to that of ordinary people.

Aware that the azure robed green youth was watching her, Zhou Xuan endured her feeling of disgust and kept a gentle smile. With soft eyes and bashful expression, she gazed at the young man in front of her.

Previously she only shot him a cursory glance. But after a closer look, it turned out that the young man was outstandingly handsome.

His brows were willful and jubilant. The self-confidence in his eyes was so brilliant that people couldn't move their eyes at first sight.

Chapter 674: An irresistible charm

Perhaps because of the youth's handsome face or because of his deep and mysterious eyes, Zhou Xuan's initial disgust turned into uneasiness. Her face gradually blushed. It was the look of a sheltered daughter's pretty bashfulness.

Under the young man's gaze, her beautiful eyes dropped slightly shy and there was a sense of nervousness in her heart that she shouldn't have.

Feng Jiu did not pay attention to the changes in her expression. She was just comparing the present Zhou Xuan with Ye Jing without any romantic thoughts.

Mm, what's more, she's a woman. Even if she appreciated a beauty, she only enjoyed the sight without feeling moved.

So she smiled apologetically. "I'm sorry, but I like this feather myself and I'm not going to sell it."

Zhou Xuan looked at the young man's enchanting smile. She unconsciously lost her bearing. While in a daze, she whispered softly, "Oh, it doesn't matter. I was just asking."

In midair, when Senior-brother Geng saw Zhou Xuan gazing at the young man obsessively, his eyes turned chilly. With a profound look, a killing intent flashed in his eyes.

It was undeniable that this azure-robed young man's appearance was indeed outstanding. His handsome face was truly rare in the whole academy. It was one thing that he did not show a smile

before. After showing a smile, his face was transformed. No wonder Junior Sister Zhou was crazy about him.

He only wished to have that qualification as this young man to make women captivated.

Those Mystical division students, still lying on the ground under the potion's influence, looked at each other foolishly. Their division mostly consisted of male disciples. At that time, almost all those who fell were male and many of them adored Zhou Xuan's beauty.

But when they saw that the woman they adored was unable to resist and lost her bearing in the young man's smile, they felt more angry than surprised.

It's too repulsive!

He came strutting around in their Mystical division to show off his might. He also used a potion to render them weak and unable to stand. But the most hateful of all was the young man who dared to seduce senior-sister Zhou in front of them as if they did not exist! What a bully!

"Alright, I'll go first." Feng Jiu smiled with her eyes narrowed into a small half-moon. She glanced at Zhou Xuan who was still staring at her foolishly and then walked away.

This time, nobody blocked her way and nobody also moved to stop her.

Everyone watched the azure-robed young man leave with a swagger. On the contrary, there were dozens of students lying sprawled inside the Mystical division ground.

All the academy students she met along the way were staring at her with widened eyes as well as at the rainbow-coloured glazed feather on her waist. It made her really nervous. She was finally unable to stand it and took the feather off her waist.

"Really, they all looked as if they had never seen the world before. Isn't it just a feather, a magic artifact? All of them are staring at it like a hungry wolf looking at fresh meat. Their drooling expressions are really unbearable."

She muttered and took a turn at a small path. When she arrived at a remote location, she tossed the feather. Her eyes lit up as she watched the feather grow larger and brighter before her. She hopped on the feather and then sat down, leaving for her cave-dwelling.

She caused a stir in the academy when she exchanged for the treasure. However, she went away silently. Even those students thought she was a student in the Pharmacy Division...

Chapter 675: I Have An Older Brother

When she arrived back at the cave dwelling, she saw Little Black sat outside guarding the entrance obediently. Old White was wandering around outside, while Little Cloud was laid on the grass and didn't even lift his head to look up when she arrived.

Was Ye Jing not awake yet? She was puzzled as she walked past the three beasts to enter the cave dwelling. Then she saw Ye Jing had already awoken and was sat at the stone table.

“You’re awake?” Since you’re awake, why haven’t you left yet? She did not say these words out loud.

When Ye Jing looked back at the young boy, she saw the rainbow-coloured glazed feather on his waistband and couldn’t help but wonder: “How did you get that?”

Feng Jiu smiled and sat down at the stone table. She removed the rainbow-coloured glazed feather from her waistband and played with it in her hands: “Obviously I earned the contribution points and exchanged it for this!”

Ye Jing was taken aback when she heard this. She remembered how the big black sacred beast had listened to his commands earlier and her lips twitched but she didn’t ask any further even though she found it unbelievable.

However, when she had left the Myriad Beasts Mountain Range with this young boy, all the beasts turned and ran away from them when they saw him. She was unable to explain the strange phenomenon.

This boy did not look formidable at all, and he ran away from her when she chased him in the streets back then. But he seemed to have a way of dealing with beasts.

“Many students have set their sights on this rainbow-coloured glazed feather. You need to be careful and watch your back. They might cause trouble for you.” She warned him in a soft voice.

“Oh, I know.” She smiled but didn’t tell her about the situation that happened earlier. She nearly didn’t make it back.

As she looked at the tall young boy, she smiled warmly and said: “Thank you.” The boy waved his hands and she asked: “You must be the new student in the Alchemy Division that enrolled this year.”

“Yeah.” She took out two fruits from within her sleeve and tossed one over to her.

Ye Jing caught the fruit and continued asking: “I still don’t know your name. Can you tell me what it is?”

“Feng Jiu.”

“I am Ye Jing.” She smiled and continued: “You know that already.”

“Yeah, I know. One of the Ten Proud Children of Heaven and also the beauty of the academy.” She smiled and nodded, then said: “Definitely deserve the label of the beauty of the academy.”

Ye Jing couldn’t help but smile: “What beauty of the academy? It’s just a joke that the students of the academy made up.”

Feng Jiu stared at her for a long time. Her eyes crinkled as she smiled and said: “Can I ask you something?”

Ye Jing felt a little embarrassed at being stared and replied: “What do you want to ask?”

This young boy was so beautiful, but gave people a strange feeling. Although he was staring at her, but his eyes were not filled with covetting and lust, just appreciation. It was really something different.

“Are you engaged to be married? Is there someone you like?”

“What?”

Ye Jing was shocked as she hadn't expected the young boy to ask her this. She blushed. If it weren't for the innocent look in the young boy's eyes, she would have thought that he was interested in her!

“I am not engaged to be married, nor do I like anyone.” She felt embarrassed by this conversation, and she asked: “Why are you asking me this?”

“Ah ha, this is good. Let me tell you!”

She looked at her intently, more satisfied with each passing moment: “I have a brother called Guan Xilin. He is quite good looking and has a strong physique. His personality is great and is responsible and very strong. Would you consider him? He's really good.”

Chapter 676: That Kid Is From The Alchemy Division!

Ye Jing's mouth opened wide in shock, speechless, as she stared at the smiling boy who had suddenly become a matchmaker.

“So? You don't have to give me an answer right away. You can meet him first before you decide. See if you like him, and if you do, you can take things to the next step. I'm only introducing my elder brother to you. I won't do it for other girls.”

Ye Jing couldn't help but chuckle. Once again, her impression of this young boy had changed. Seriously... She couldn't describe it. It was just so strange.

“It's getting late. I need to get back.” She got up and smiled at the young boy as she adjusted her clothes.

“How is your leg? Can you walk? Do you need me to accompany?” Feng Jiu asked her and stood up as well.

She smiled and replied: “No, it's okay. Before you came back, I had already blew the whistle and called for the white crane. It should be on its way by now.”

Therefore, Feng Jiu only accompanied her to the cave dwelling entrance and waited: “I'm serious, do consider it. Otherwise, you might not get another chance.”

When Ye Jing saw the big black bear that was squatting outside the entrance, she asked Feng Jiu unsmiling: “Is it not going home? Why is it still here?”

“Yeah, it doesn't want to leave me.” Feng Jiu replied helplessly.

Ye Jing laughed out loud awkwardly. She looked up and saw the white crane had hovered above her for a bit before landing in front of her. She turned to the young boy and said: “Feng Jiu, it has been a pleasure meeting you. I will come to visit you again.”

Feng Jiu beamed: “It has also been a pleasure meeting you. You're welcome to visit anytime.” She watched her fly off on the white crane and disappeared over the mountain tops.

At the same time, the students at the Mystical Division were recovering from earlier and rushed to the Medical Division. They had intended to look for the boy in the azure robe and exact revenge. However, no one in the Medical Division had heard of that young boy.

“Oh, I heard that the Alchemy Division has accepted one student this year. Don’t tell me that young boy is from the Alchemy Division.”

“Come on, let’s go! I don’t believe we can’t handle him!”

Hence, a large group of people headed over to the Alchemy Division.

While that was happening, the owner of the Sky Building had gone to look for the headmaster and deputy headmaster of the academy to talk about Feng Jiu. He wanted to see their reaction. After all, a new student who managed to obtain one million eight hundred thousand contribution points to exchange a treasure was not normal!

The two men were stunned after they heard the old man’s words. The deputy headmaster stood up and exclaimed: “Who did you say it was? Feng Jiu? You’re sure it’s Feng Jiu?”

“Yeah, it’s a sixteen year old young lad called Feng Jiu. He’s quite a handsome lad.” He nodded and looked at the deputy headmaster. His eyes opened wider and asked: “Is he a relative of yours?”

“Hahaha! What a joke! If only he is my relative. I tell you, I have been searching for this young lad for a very long time. I can’t believe that he has entered our Nebula Academy, and he actually registered in the Alchemy Division. Can’t this boy not learn to refine pills?” When he thought of this possibility, the deputy headmaster got excited.

The old man was baffled and asked: “Why are you getting so excited? He’s just a young boy.”

“Oh, you don’t know anything.” He waved his hand and continued: “Even if I explained it you still won’t get it. I have to go and see him right away.”

Chapter 677: Barricaded Cave Dwelling

The deputy headmaster was grinning cheerfully on his way to the Alchemy Division when he saw a teacher rushing in: “Headmaster, there’s trouble. The students from the Mystical Division refused to listen to us and insist on going to look for someone to teach him a lesson. Nearly a hundred of them have gone to the Alchemy Division.”

The few of them were shocked by the news. The headmaster asked: “What’s happened? Why are they going to the Alchemy Division to settle a score?”

“Yes, one of the three treasures of the Sky Building, the rainbow-coloured glazed feather had been exchanged by a young boy in the azure robe. The Ten Proud Children of Heaven had set their sights in the rainbow-coloured glazed feather. But now that it has been taken by a newcomer, even if they haven’t had much reaction to that, the students of the academy are all enraged to see the young boy showing off by carrying the rainbow-coloured glazed feather on his waist band.”

The teacher wiped the sweat off his forehead and continued speaking: " I'm not sure why the young boy had gone to the Mystical Division. The students in the Mystical Division had stopped him leaving and wanted to know if he had a strong backing behind him. Later on, there was some sort of conflict. There wasn't a fight, but for some reason, the students from the Mystical Division fell onto the floor and lay there for nearly an hour, they were weak and drained of energy."

The boss of Sky Building was speechless upon hearing that.

"After the students from the Mystical Division recovered, they went to the Medical Division looking for the young boy. However, they had never heard of the young boy, so they are now going to the Alchemy Division. There are nearly a hundred of them! There's no stopping them. I'm afraid that something bad is going to happen, so I came to get your advice."

"Ridiculous!"

The deputy headmaster shouted. He knew the boy well, he was strong and has great talent, and is also modest and kind. He would never show off the rainbow-coloured glazed feather and carry it everywhere.

He must have gone to the Mystical Division to look for his elder brother Guan Xilin. The students of the Mystical Division belittled him. Of course it was possible for the young boy to gain nearly two hundred contribution points after entering the academy.

Ahem!

Although this was quite an impossible task, however, it surely wasn't difficult for the young boy who was outstanding in so many ways right? The students in the Mystical Division were being unreasonable. Just because they didn't have the ability to exchange the item, it didn't mean that others weren't allowed to do so.

The deputy headmaster was infuriated as these thoughts flowed through his mind: "They're all rebelling! Aren't there rules?" He turned and told the headmaster before he went to the Alchemy Division with the teacher from the Mystical Division.

The Sky Building boss watched as the deputy headmaster swung his sleeve and walked off in a huff, then turned to the headmaster and asked: "He's really not related to the young boy?"

The headmaster smiled and touched his beard: "Come, sit down and I will tell you all about it..."

Some of the students from the Mystical Division had flying artifacts and some didn't. The ones that did gave lifts to the ones that didn't. Hence, they all arrived at the peak of the Alchemy Division in less than half an hour. They found out from Steward Sun where Feng Jiu's cave dwelling was and rushed over there.

Steward Sun felt that something was amiss and went to inform a few of the teachers from the Alchemy Division.

At this time, Feng Jiu was taking a bath after she had returned to her cave dwelling from seeing Ye Jing off. She had no idea what was happening outside.

The students from the Mystical Division had surrounded Feng Jiu's cave dwelling and shouted angrily:
"Come out young boy!"

"Come out!"

"Come out now!"

Feng Jiu was startled by the commotion outside and had gotten out of the bath to get dressed immediately.

Old White and Little Black were in the nearby forest looking for food when they heard the angry students and rushed back to the cave dwelling. Little Black gave a loud roar and charged at the students.

"Oh!"

The students turned to look when they heard the bear roar and were so shocked that they all took a step back in fear.....

Chapter 678: You made me do it!

"Bang!"

The big black bear fell heavily on the ground and stood guard in front of the cave dwelling, baring its sharp teeth and fixing its stare at the students who quickly retreated from the surrounding area. The saint ranked beast emitted its aura all over its body accompanied by a roar, making the retreating students pale and frightened.

"Good heavens! How could there be a saint ranked big black bear here!"

Those Mystical division students who had surrounded the cave-dwelling were white with fear. They dared not go forward. They couldn't deal with the sacred-rank beast at all. But how could this beast, which should have been in the depths of the Myriad Beasts Mountain Range, come here?

"Roar!"

The big black bear roared angrily but it did not rush forward, because Feng Jiu had told him not to harm the people in the academy. Therefore, its roar was only meant to intimidate and scare them.

Not far away, Old White came over at an unhurried pace. It looked up and glanced at the students around him. Breath sprayed out from its two nostrils. When it saw that there was not even a beautiful woman among the crowd, it flipped its tail in disgust and found a place to lie down.

"Goodness! What kind of horse is that? How could there be such a thing in the academy?"

"Look! There's still a small pet at the mouth of the cave dwelling!"

A student cried out, pointing at a short-legged animal coming out from the cave and laying down at the mouth of the cave. The fluffy Little Cloud Devouring Beast looked so lacking in power that no one could recognize it as a Saint level beast.

"Is this really the place where that Alchemy division's youngster lives? Not a place to raise animals?"

At this time, Feng Jiu, wearing an azure robe with the rainbow-coloured glazed feather at her waist, came out. She cast a glance at the hundred people and smiled. "What are you guys doing?"

"Youngster, how dare you laugh!" One of them saw Feng Jiu came out and immediately glowered at her. "You strutted at our Mystical division, showing off your might. Today, we absolutely won't let you off!"

"Right! Boy, come out! We're going to challenge you!"

"Right! We're definitely going to show you that we're a power to reckon with!"

Feng Jiu smiled gently and leaned back on the cave dwelling with her hands folded across her chest. "Forget it! You're all really too weak. Isn't it too embarrassing for me to fight with you? Go back quickly! In case my Little Black loses its temper, I'm also unable to restrain it."

"Roar!"

As if confirming Feng Jiu's words, the big black bear gave a low roar after she finished speaking.

Those Mystical division students who were about to step forward immediately withdrew. Some were resentful, some were unwilling, and some others stared angrily at the young man in an azure robe.

"Give your all! I don't believe we can't beat this boy up!" A student hollered. He took the lead to dash forward.

When the others saw this, they, too, made their way forward with clenched fists. Half of them laying siege to the big black bear and half of them breaking the barrier of the cave.

Looking at the chaotic scene outside, Feng Jiu was really shocked and hurriedly shouted, "Do you really want to die? My Little Black is a sacred beast. It can fit all of you in a pot to eat."

"Humph! We're going to beat you up! No matter what kind of sacred beast it is! It would be a shame if we came in vain!"

"Right! We're going to beat you up!"

Feng Jiu glared at them. "You all, you are bullies!" What hundred men had besieged her alone? These people had gone too far. They really took her for a ride, didn't they?

"Alright! You all made me do it. Don't blame me, then."

She was panting with rage. As she rolled up her sleeves, she was going to rush out and give them a good beating. But just then, a shout of anger came from the sky.

Chapter 679: It's absolutely impossible

"Stop it!"

The thunderous bellow came from the sky and a powerful pressure swept away at the surrounding area, causing the people below to stagger several steps backwards. Their blood churned as if rushing to their throats. They looked up at the sky in fright and immediately shriveled at the sight.

“That’s the deputy headmaster!”

“Why is the deputy headmaster coming here?”

“Even the deputy headmaster has been alerted about this matter!”

Feng Jiu looked up and saw the old man come flying in with a teacher. In the blink of an eye, he landed in front of the cave-dwelling. When she saw the old man coming towards her, her eyes flickered with surprise, the corner of her lips twitched, and she retreated a few steps backwards.

“Who led the riot here?” The vice headmaster glared at the students who lowered their heads and yelled, “Do you want to be expelled from the academy? Quickly go away!”

When people heard the word “expelled”, they were so frightened that their palms were sweaty. They did not dare to stay. They left in a hurry. Needless to say, all of them ran away and no one stayed behind.

Seeing this, the teacher who came with the deputy headmaster shook his head and sighed. Then he looked at the young man in an azure robe standing at the cave dwelling.

“Hehe, Feng Jiu, ah. Won’t you open the boundary and let me in?” The deputy headmaster smiled with his eyes narrowed into a crescent as he looked goofily at Feng Jiu. Seeing the young man again, he only felt happy.

This young man’s strength and talents he had seen with his own eyes. He was confident that, if he had any say, their Nebula Academy would come at the top of all the academies at the triennial academy competition.

Feng Jiu scratched her head and smiled sheepishly. She then opened the boundary and let him in. “Deputy Headmaster Guan, long time no see.”

“This old man has been waiting for you for a long time and thought you were all right. I didn’t expect you to come to the Alchemy Division.” He walked in with a smile and took a quick look at the cave dwelling. Afterwards, he looked at Feng Jiu. “Are you still refining pills?”

“Hehe, I’m still learning, I’m still learning.”

Old Guan sat down at the stone table and looked at Feng Jiu. “Yes, I heard that you went to the Mystical Division. I also knew you were looking for your brother.”

Hearing this, Feng Jiu was surprised. “Did my brother take the token directly to the academy?” That’s impossible, right? She knew what kind of person he was. Even though he could enter through the back door, based on his personality, he would want to use his own strength.

“Hehe, that’s not true. It’s like this...”

Old Guang smiled and told Feng Jiu about Guan Xilin’s admission to the academy. Finally, he said, “Since he is your sworn big brother, I want to take care of him and let him go temper himself at the Mystical Pagoda. So he is not in the Mystical Division now.”

When she heard his explanation, she was immediately enlightened. "Oh, so that's the case. I thought I made so much commotion at the Mystical Division, yet he still didn't come out!"

"You're buried at the Alchemy Division. I'd like to transfer you to the Spirit Division. What do you think?"

"No! That won't work!"

While Feng Jiu still hadn't answered, two voices were heard from outside. When they looked back, the two alchemy teachers who helped assess her that day rushed in.

"Deputy headmaster, Feng Jiu is the student the two of us recruited. He is the only student in the Alchemy division. We have high hopes for him. How can you transfer him to the Spirit Division? Going there is the only way to bury his talent for Alchemy. This is absolutely impossible, absolutely impossible."

They rushed in, pulled Feng Jiu directly behind them, and stared at the deputy headmaster as if guarding Feng Jiu against him. Both the deputy headmaster and Feng Jiu were stunned.

Chapter 680: Primal Chaos mental cultivation method

After the deputy headmaster recovered from his shock, he told the two teachers, "You don't understand. He won't be buried at the Spirit division. Moreover, before he entered the academy, this old man has met him and gave him the star token to let him enrol at Nebula. Who knew that he would escape to the Alchemy division. Thus, I'd like to transfer him to the Spirit division."

"No, no. If he transfers to the Spirit division, what about us at the Alchemy division? He was the student we have recruited with difficulty. He was the only student in our division. If we transfer him to the Spirit division, would it not be that the Alchemy division...."

The two alchemy teachers were anxious. It was not easy for them to recruit a student, yet the deputy headmaster unexpectedly ordered him to transfer to the Spirit division? How could that be possible?

Outside, the big black bear and Old White looked inside the cave-dwelling then walked away.

The deputy headmaster and the two alchemy teachers were arguing inside the cave-dwelling. Seeing this, Feng Jiu quietly prepared to slip out of the cave. Before she even put her foot out the door, the deputy headmaster shouted loudly from behind.

"It will work! Don't argue, they are all academy students anyway, let's do it this way!"

While the deputy headmaster was speaking, he looked toward Feng Jiu. But he noticed that this young man had reached the entrance of the cave. He shook his head. "Feng Jiu, you can stay in the Alchemy division, but you must participate in the academy's competition."

"Deputy headmaster, that's not very good. I..." She was interrupted before finishing her speech.

"There's nothing wrong with that. It's settled. You can give a report to the Spirit division tomorrow. Mm, that's settled." He spoke and said no more. He went out directly and left on his flying sword.

The two alchemy teachers saw Feng Jiu's puzzled expression and asked her, "What is your rank as a Spirit energy cultivator?" There were so many people in the academy, but the deputy headmaster just stared at this young man. Was his spirit cultivation talent very heaven-defying?

"This...at self-defence level, I presume." She answered sheepishly, as she couldn't use her spirit energy at the moment. Yet, she got squeezed into the Spirit division. All she knew was that it was urgent to find a way to breakthrough.

Then, the two alchemy teachers asked her about her recent basic learning of alchemy. They also told her that if she did not understand, she could ask them. They reassured her that the Alchemy division depended on her here. They will let her work hard. Finally, they left together.

"Sigh! What should I do?" She lay on the grass under the trees outside the cave-dwelling and sighed, feeling a severe case of headache.

Fire Phoenix was still cultivating. Otherwise, she could ask it what happened to the green lotus. But now, she did not even have a person to discuss it with.

"Right, the academy's library may have the answer I want!" She jumped up and went straight to the library.

She stayed in the library for three days and three nights. She stayed the whole time there without coming out of the library. She almost finished reading all the books concerned. Finally, she got a rough idea in the end.

She looked exhausted after three days and three nights without rest, but her eyes shone brightly.

It's the primal chaos blue lotus for sure! With the primal chaos blue lotus, she could cultivate her primal chaos skill. The two were in harmony. Primal chaos skill could nourish primal chaos blue lotus!

With this in mind, she quickly returned to the cave-dwelling, flashed into the spatial space and found a dilapidated book in the skills left to her by her master.

"That's it!"

She looked excitedly at the old book containing the primal chaos mental cultivation method in her hands. Although her master didn't teach her anything, he really left her a lot of treasures. Every skill in it was a treasure that could not be obtained outside even by giving up one's life.
