

# Ghost Doctor 681

## Chapter 681: The two beasts' deeds

After discovering the mental cultivation method, she practised it right away inside the space. The spirit aura in the space was stronger than the outside, making the cultivation speed much faster. Therefore, she was immersed in the practice and forgot about the matters in the world outside. She emerged half a month later.

“Feng Jiu? Is Feng Jiu here?”

Ye Jing cried out outside the cave-dwelling. Because the cave-dwelling was protected by the boundaries, she wasn't able to enter and could only call her out from outside.

Inside the space, Feng Jiu heard movement outside and slowly opened her eyes. She had not cultivated for so long, but her spirit became better and better. Spurred by the primal chaos core method, her spirit energy could finally work.

As for the green lotus, it was enveloped by a layer of grey mist due to her practice of the primal chaos core method. The mist prevented the green lotus from automatically absorbing the spirit energy in her body.

“Nourishing the green lotus can't be accomplished in just one day. It's impossible to make it blossom in a short time. In this case, I can only cultivate while nourishing it with my spirit energy at the same time.”

She murmured softly. She got up and looked at the Little Fire Phoenix who was still deep in cultivation. The little guy looked like it's asleep inside a ball of fire. Its figure could only be seen vaguely inside it.

Hearing the call from outside, Feng Jiu emerged inside the cave. She looked down at her wrinkled azure robe. She pulled and stretch at random to open the boundaries and went out.

“Ye Jing? Why are you here?” Feng Jiu was surprised to see her. Unexpectedly, she really did come to look for her.

“Didn't you tell me to come here often?”

Ye Jing smiled and walked toward her. “Actually, I didn't come here today for a chat. The teacher told me to come and take a look. He said that the deputy headmaster asked you to report to the Spirit division. Why didn't you come by after such a long time?”

“Ah?”

Feng Jiu was stunned. She tapped her forehead and spoke with regret, “I totally forgot about it! I've been busy lately. I tend to be forgetful when I'm busy.”

Ye Jing compressed her lips in a smile. “Then, come with me quickly! People in the Spirit division are all curious about you.”

“Then wait for me. I’ll wash up and get a change of clothes. I haven’t taken a bath for nearly half a month. My whole body stinks” She pulled her azure robe and took a sniff with a look of disgust.

Ye Jing laughed gently. “Alright, then I’ll wait for you under the tree. Hurry up.” So she went toward the big black bear that was guarding under the tree and sat beside it.

She was not as afraid of this big black bear named Little Black as she was in the Myriad Beasts Mountain Range. She was at ease because she knew that this beast would not harm her.

Feng Jiu saw her sitting beside Little Black and talking with it. She smiled. Suddenly, as if she recalled something, she looked around. She did not see Old White nor the Little Cloud Devouring Beast.

Where did the two beasts go?

She didn’t pay much attention to them recently and had no idea where they went to make trouble. But after some thoughts, no matter where they went, they should still stick around the Alchemy division’s hilltop. They would not go anywhere else, so she didn’t care much.

About the time it took one column of an incense stick to burn, Feng Jiu put a fresh change of clothes after bathing and told Little Black to guard the cave dwelling. She then left for the Spirit division with Ye Jing.

Shortly after they left, Old White, its belly round after having a full meal, ambled toward home with the Little Cloud Devouring Beasts on its back.

When the big black bear saw the two beasts come back, it ran up excitedly and called out with a loud clamour.

Old White shot a glance at the bear. When it opened its mouth, it spat out a heap of spirit herbs along with roots and leaves.

## **Chapter 682: Do you carry any treasures?**

“Roar!”

When the big black bear saw those spirit herbs, it cried out excitedly. It immediately sat down on the grass and grabbed them. Many of them were spirit ginseng. There was a great variety of ginseng, some were coarse, some were thin. The thinnest one was no bigger than a finger.

One of the three beasts was eating while the other two were watching. It was obviously not the first time this had been done.

Originally, since they came here, there was nothing to eat in the Alchemy Division. They ran to the neighbouring Pharmacy Division mountain peak to steal spirit herbs and spirit fruits.

Besides the spirit herbs, the Pharmacy Division mountain peak also had a kind of spirit fruit. Those who ate it just once would get addicted. Naturally, there would be a next time. Additionally, the two beasts’ ranks were not low and had an incredible speed. When they committed the bad deeds, one of them

stole while the other one was on the lookout. This past month, nobody could catch them making a mess in the mountain peak.

Moreover, Old White had also developed a new speciality in picking spirit fruits and spirit herbs stealthily. As long as the horse swallowed something without chewing it, the stuff can be stored in its stomach. Once the thing was spat out, it would remain intact.

Its stomach was like a portable cosmos sack. However, unlike the cosmos sack, the newly picked spirit herbs would remain fresh even after several days kept inside its stomach.

Little Black became the little brother of the two beasts. It was responsible for guarding the cave dwelling. Naturally, they would bring back things they stole from the Pharmacy Division mountain peak. In just half a month, Little Black was fed every day with spirit herbs and spirit ginseng, which also strengthened its body a lot.

Those at the Pharmacy Division never imagined that the thieves who stole their spirit herbs were not humans but two beasts.

Meanwhile, Ye Jing came to the Spirit Division with Feng Jiu in tow. When they came in, each one of those students fixed their gazes on Feng Jiu. At a glance, they knew that the azure-robed young man was the new student who subdued dozens of students when he visited the Mystical Division.

He was the same person who exchanged the rainbow-coloured glazed feather, one of the three treasures of the Sky Building.

The crowd's eyes paused for a moment on the handsome young man's face. Then, they shifted their gazes toward his waist. It couldn't be refuted that the feather's brilliant lights and vibrant colours made this man's appearance even more outstanding and difficult to ignore.

"The Spirit Division has four kinds of students. The academy valued sky-rank students most. Each of the students passed through a very thorough selection process. You are personally picked by the deputy headmaster. As long as you sign up for registration, you'll be a sky-rank student at the Spirit Division."

As she spoke, Ye Jing took Feng Jiu to the teacher at a registration room. She stopped outside the Division building and told Feng Jiu, "It's inside this building, you go in! I'm waiting for you here."

Feng Jiu nodded. She went to the registration room, recorded her name and other information, and finally left with her jade card.

Seeing the jade card, Ye Jing walked forward with a smile. "Let me take you to the Spirit Division and get you familiar with it."

When they came out, they saw that the outside was surrounded by many Spirit Division's students from different ranks. They stared at Feng Jiu with ill intentions.

Seeing this, Ye Jing was about to open her mouth but she was blocked by a sky-rank student.

"Junior sister Ye Jing, we'd like to have some discussions with the new student. Don't interfere, just watch."

As soon as the student's words fell, several women came out and took Ye Jing to one side.

Seeing this, Feng Jiu could not help stroking her chin and asked, "Do you carry any treasures?"

### **Chapter 683: It's okay to hold each other in the arms**

Everyone was stunned to hear her quip. The sky-rank student, who was leading them, frowned slightly. "What treasure?"

"Aren't you going to ask for my advice? You have no treasures, yet wanting me to give you some pointers?" She cast a glance at that student with an infuriating look on her face, while her voice carried a wild and reckless tone. "If you want to fight with me, you have to prepare your treasure first. Otherwise, who's free to play with you?"

She observed the crowd who glowered at her after hearing her words. She smiled. "You all should do the same. If you want to start with me, you should have treasures ready. If I lose, naturally, I won't demand your treasures. But if I win, hey hey, you understand what it means."

Looking at the students who were itching for a fight and got impulsive, she held back her smile. With her eyes half-closed and her lips slightly curved up, she gave them a warning. "Don't think that you can fight me without any treasures. If you dare to act, I will inform the deputy headmaster. I trust you already knew that deputy headmaster is my supporter. If you have the courage, come and have a match."

Ye Jing, who was blocked by several female students, could not help smiling when she heard this. Bringing the deputy headmaster's into this directly... wouldn't the deputy headmaster be hopping mad after he knew about it?

Originally, people in the academy thought his contribution points was fishy. But from the way he said it now, everyone would think it was secretly arranged by the deputy headmaster.

Those students were astonished. They didn't expect that the young man would have said such an infuriating thing. If they wanted to fight with him, they should take out treasures? And if they couldn't bring the treasures out, he would lodge a complaint with the deputy headmaster?

This, this was simply... too shameless!

"How is it? If nobody got the courage, I'll take off then." As she spoke, she looked at the several female students who were blocking Ye Jing, revealing a charming smile. "Pretty sisters, don't block my beautiful Ye Jing!"

Those female students were startled to see that the young man looked at them with a pair of enchanting eyes filled with laughter. Those eyes were like a mesmerizing whirlpool. They could only look back at her foolishly.

Ye Jing grinned and came forward, holding Feng Jiu's hand casually. "Let's go! I'll show you around. Next time, you'll get to know this area."

Others watched the two leave. Each one of them turned towards the sky-rank student who was leading them earlier. Seeing that he did not speak, they couldn't help but ask, "Senior Li, is that all we can do to him?"

The man surnamed Li stared at Ye Jing who took the young man's hand and clenched his teeth. "Humph! Taking out treasures to fight with him? That's letting him off too lightly. I'll go to find Senior Ouyang. He dares to provoke Junior Sister Ye Jing, the one senior Ouyang likes. This youngster dislikes having a long life!"

Everyone's eyes brightened. So he wanted to put his hands on the Ten Proud Children of Heaven? Then, even if something happened, the deputy headmaster or others would not be able to say anything, right?

If Senior Ouyang helped them dispose of him, that youngster would be tidied up pretty miserably! They got really excited thinking about this.

But Feng Jiu, leaving with Ye Jing, looked down at her arm and raised her eyebrows involuntarily. She saw Ye Jing's eyes were brimming with smiles.

They met many students along the way, yet Ye Jing did not let go of her hand. It made her wonder. Why was the beautiful Ye Jing so bold? Was she not afraid of misunderstanding?

She was puzzling over this question. When she was about to ask, she heard a voice.

"Ah Jing."

A woman in white stood not far away and looked at them. Her eyes fell on their hands, and her eyes shifted slightly.

#### **Chapter 684: Did we bully her?**

Ye Jing heard her call. She saw Bai Ruofei standing not far away. Her smile froze and she nodded at her indifferently. "Ruofei."

After the greeting, she told Feng Jiu, "Let's go!"

Feng Jiu looked at the two women playfully and nodded, "Mm." Without saying anything, she left together with her. However, when they passed by the place where Bai Ruofei stood, she stood in front of Ye Jing and blocked her way.

"Ah Jing, why are you ignoring me these days?" Bai Ruofei said with a slight grievance, stretching out a hand to shake Ye Jing's sleeve softly.

"I've been busy recently."

Even though her face still showed her usual gentle expression, she looked a bit pale. "If there's nothing else," she said quietly, "we'll leave. I'm going to take him to the Spirit division."

"I have nothing to do. Let me join you!"

She looked at Feng Jiu who stood nearby and revealed a smile that she considered to be sweet and pleasant. "So you're Feng Jiu? I'm Bai Ruofei. You can call me Ruofei or Little Fei."

Feng Jiu regarded her with a speculating gleam in her eyes. "I think Little White Flower suits you the best."

“Huh?” She wondered what that meant.

Feng Jiu’s smile deepened. “Mm, it’s definitely Little White Flower. It’s a delicate and soft little white flower that arouses people’s pity.”

When she heard the young man’s explanation and saw the young man’s alluring eyes staring straight at her, Bai Ruofei’s face blushed. She dropped her gaze slightly and caught sight at the rainbow-coloured glazed feather at the young man’s waist.

It was rumoured all over the school that this young man possessed a powerful backer. His strength was unknown but the backer’s existence was true. Otherwise, how could he have exchanged the rainbow-coloured glazed feather that the Ten Proud Children of Heaven couldn’t?

Moreover, the deputy headmaster also went to the Alchemy division to personally find him and insisted on transferring him as a sky-rank Spirit division student. It was reported that he was the only one in the whole academy to dominate two divisions.

He was both a student at the Alchemy and Spirit division. This was something Nebula had not seen in years.

Ye Jing only looked at Feng Jiu without saying anything.

It was Feng Jiu who called her attention to the matter that same day and she only then noticed. When she came back, she naturally noticed that something went wrong. She didn’t expect this treatment since she considered her as a good sister. Recently, she deliberately alienated her.

“I am Ah Jing’s good sister. Her friends are my friends.” She looked at the young man with a sweet smile.

Feng Jiu glanced at the identity jade card at Ruofei’s waist. “Aren’t you an earth-rank student? I heard that different ranks study and cultivate at different locations. Is that correct, Ye Jing?”

Ye Jing nodded. “Mm. heaven-rank students have black jade cards, while earth-rank white jade, mystical-rank green jade, and yellow-rank yellow jade. Different ranks also have different subjects to study. Sky-rank students are considered seeded students. Without exception, we focused on training.”

Hearing this, Bai Ruofei’s face turned from red to white. She looked at Ye Jing in embarrassment. Then she lowered her head. “I, I recalled that I have something else to do. I won’t accompany you anymore.” She whispered, running away with red eyes as if she had been wronged.

Feng Jiu clicked her tongue. “Sigh, this Little White Flower is so quick to cry. Have we bullied her? It didn’t seem so, right?” She asked Ye Jing.

“No, we were just telling the truth.” She glanced at the person who had run away and withdrew her gaze indifferently.

### **Chapter 685: When The Phoenix Star Is Seen, The Foreign Soul Has Entered**

Ye Jing walked around the Spirit Division she knew so well with her and talked about the different areas and the sky ranked teachers. When she looked up and saw that it was getting dark she said: “ That’s it

for today. Remember to come over tomorrow. Teacher Lu's lesson tomorrow will mainly be about controlling spiritual energy running through the body. This is a very important lesson so don't be late."

"I know, I know. I'll be going back first then."

She waved her hand then swiftly removed the feather from her waistband. She sat on it and was about to leave when she thought of something and asked jokingly: "Ye Jing, why are you so nice to me today? Aren't you afraid that I will take advantage of you again? You've been dragging me around with you all day. Many students have seen it too. Aren't you afraid of gossip?"

Ye Jing laughed and replied: "What kind of gossip can there be with you? Go home!"

Feng Jiu raised her eyebrows and smiled: "Or have you reconsidered my suggestion and you're interested in being my sister-in-law?"

She touched her chin and continued: "But you haven't met my elder brother yet though, have you?"

Ye Jing was red-faced with embarrassment and said: "Stop talking nonsense and just go home."

"Hahaha! Okay, I am leaving now. See you tomorrow."

Ye Jing watched as she waved her hand and smiled then prepared to leave, then turned around again and looked at her with a playful smile. She said: "What do you want to say now, I've already told you to stop talking nonsense."

"Hehe, it's nothing. I just wanted to ask, you take the Dispelling Pill like all of them don't you?"

"Other than the teachers, all the students in the academy take the Dispelling Pill."

"Okay, got it. I will bring you some food tomorrow morning." She blinked as she looked at her then set off on her feather as she thought of going to the kitchen tomorrow for food.

In the courtyard of one of the divisions, Mo Chen who was dressed in white sat playing chess with the headmaster.

"So the person Old Guan has been searching for all this time is now at the Alchemy Division. He said that the talent of this young man is exceptional. Hahaha, however, his ability to cause trouble also excels that of others."

Upon hearing the laughter in the headmaster's words, a slight smile sparkled in Mo Chen's deep and calm eyes.

That boy not only caused trouble, but also went to the kitchen to steal food.

"Has there been any news of the person that I'm looking for?" Mo Chen asked quietly, his voice light like flowing water.

The headmaster looked at him: "You're sure that the person is in Nebula Academy?"

"Yes, my teacher said that he's here, so he will be here."

"But..."

The headmaster's eyebrows twisted as he continued speaking: "You don't even know what special characteristics this person has. You just know that she is a sixteen year old girl, and there are thousands of sixteen year old female students in the academy. It's just impossible to find her."

The headmaster's stuttered: "That's what your teacher told you? He just told you to come to the Nebula Academy to look for a sixteen year old girl?"

Mo Chen looked up at the sky and replied lightly: "When the phoenix star is seen, the foreign soul has entered. She came from afar, through the heavens and skies, to be the king of the world."

When he had finished speaking, he was silent as the headmaster pondered over his words. He looked at the headmaster and said: "These are the words from my teacher. We have to find this person."

He didn't mention that his teacher also told him something else. Something that concerned him and her.....

### **Chapter 686: How Did You Know?**

They could never have imagined that the girl they were looking for was at the Nebula Academy at this point in time, disguised as a boy. She had managed to avoid getting noticed, and had already met Mo Chen a while ago...

Early this morning, Feng Jiu had gone to the kitchen and stole some food, then sat on her flying feather and headed towards the Spirit Division. Once she had found Ye Jing, she took her to an isolated area and gave her a bag of piping hot steamed meat buns.

"Here, they're for you." She gestured and put one of the meat buns in her hands.

Ye Jing stared at the piping hot meat buns in shock and asked: "Did you go to the kitchen to steal these buns?"

Feng Jiu covered her mouth immediately and looked around: "Shhh, don't let anyone hear you. What do you mean by steal? I just took them."

Ye Jing pushed her hand away from her mouth and said: "You are too daring. If you are caught, you will be severely punished."

"Hehe, well then you should eat quickly. Once you've finished eating the buns, no one will know." Her eyes crinkled up with mischievously as she spoke.

Ye Jing didn't know what else to do but eat the bun. She passed the bag of buns over to Feng Jiu and said: "Help me eat them up."

"I've already eaten." She had eaten and taken the buns from the basket that held dozens of buns.

"You go ahead and eat. I will keep a lookout for you." She looked around and made sure no one came over.

It was the first time she had eaten stolen food. She felt excited and nervous. Even though the piping hot buns smelled delicious, she couldn't taste anything because she gobbled the buns down so quickly. She wiped her mouth with a handkerchief.

"Ye Jing, when did you know?" She raised her eyebrows and asked Ye Jing who was busy wiping her mouth.

"Know what?" She lifted her sleeves up to check if they smelled of steamed buns and didn't even look up.

"Don't pretend. If you didn't know, why would you dare to be so close to me all the time?"

Ye Jing looked up in surprise then looked at her and smiled: "After I left, something didn't feel right. I thought about it and finally guessed it."

"How did you guess?" She never displayed any signs of being a girl, so how did she guess?

"You can't tell by your mannerisms, but your hands are soft and smooth unlike a man's. And..."

Her eyes landed on her earlobes: "Even though you have covered it up, when you approached me the other day I noticed your earhole and a woman's fragrance on you."

Feng Jiu was surprised. So that was how. No one had noticed such a tiny detail, but she did. She was really attentive to detail.

"It was just a guess at first. If you let me touch you, I will definitely be able to be able to tell for certain." Her gaze fell onto Feng Jiu's flat chest as she spoke.

Feng Jiu wrapped her arms around her chest and smiled: "Don't you even dare think about it."

"Don't worry, there will be opportunities in the future." She smiled at the boy who with feminine features and sighed. Only God knew how shocked she was when she guessed this revelation.

She didn't think it was possible for a girl to display such carefree demeanours and exuberate such sinister charm. But she was able to do it.

She could only accept that Feng Jiu was a person who with ever-changing personalities.

## **Chapter 687: Lessons In The Spirit Division**

The two of them went to the practice field together. As it was Teacher Lu explaining how to control spiritual energy running through the body, other than a few Sky Rank students who were in retreat, most of the students had arrived early and were already waiting for the class to start.

"Look, Feng Jiu is here."

"He is the first student who didn't need to take an assessment to become a Sky Rank student."

"Ye Jing is quite close to him."

“The whole academy knows that Senior Brother Ouyang likes Ye Jing. This lad dares to get so close to Ye Jing, he obviously doesn’t have any respect for Senior Brother Ouyang.”

“Hasn’t Senior Brother Ouyang been in retreat recently? I doubt he knows what has been happening.”

“Hey, he will find out soon enough.”

As Feng Jiu and Ye Jing walked in together, they heard the low whispers of the other students. Seeing this, Feng Jiu smiled and said to Ye Jing: “You have so many admirers! What will I do if they decide to make things difficult for me?”

Ye Jing pursed her lips: “Even without them, there will be others who will make things difficult for you because you became a Sky Rank student without an assessment.”

“That’s not my fault. It’s the deputy headmaster’s idea. To be honest, it’s made my life quite difficult.”

“You’re still trying to make light of things when you’ve been given an advantage.” She smiled and led her to wait at the back. She did not go to wait with anyone else to avoid interaction between Feng Jiu and the other students.

More students turned up, and whenever anyone turned up, they always glanced at Feng Jiu. Their glance showed disdain and contempt, they all felt that there was nothing special about this person and only entered the academy because of his relationship to the deputy headmaster.

“There are only two hundred odd students in Sky Rank?” Feng Jiu’s glance swept across the field quickly and estimated there were less than three hundred people present.

“Only?”

Ye Jing looked at her and said: “Do you know what assessments these students need to go through in order to be admitted into the Sky Rank? Every one of these students are the top ten in their own field.”

Feng Jiu glanced at the spiritual grades of the two hundred odd students, many of them were at the spirit master level. The highest was third-order spirit master level, and Ye Jing was one of those students.

To be honest, the strength of the third-order spirit master level was pretty impressive. The foundation cultivators were generally decades old. Of course, the likes of Gray Wolf was different.

They were born in a different place and were selected by outstanding people to cultivate. They also had medicinal herbs for supplement, so it was easy for them to enter the Golden Core stage.

Here, even if you were from a first grade country, it was not easy to even be one out of twenty people to rise to Golden Core cultivators. Some of the ones who could do it were naturally the Ten Proud Children of Heaven with the help of medicinal herbs. Otherwise, they wouldn’t have been able to achieve this. Many of the cultivators died when they tried to enter into the Golden Core Stage.

“Stop talking. Teacher Lu is here. He dislikes undisciplined students.” She led her to the front of all the students and stood by her side as she watched Teacher Lu approach.

Feng Jiu noticed that the whispering in the training field had stopped with the arrival of Teacher Lu and couldn't help but stare at the teacher.

"What I want to talk about today is the control of the five elements in your body, you....."

As he spoke, his gaze landed on the young boy dressed in the azure robe who stood at the front. When he saw the rainbow-coloured glazed feather on his waistband, he knew who the young boy was immediately.

### **Chapter 688: I'm A Little Embarrassed To Say It**

"You must be Feng Jiu."

He stared at the young boy as he recognised that he was the one whom the deputy headmaster spoke of. His gaze swept up and down the boy quickly and was surprised that he could not detect any spiritual power.

Is it hidden? He was puzzled and tried to use his spirit intent to test the young boy's strength. However, he had not expected that even with the use of his spirit intent, he was unable to detect any spiritual power from the young boy. This really got his attention.

"How are you teacher? My name is Feng Jiu." She stepped forward and bowed respectfully.

Teacher Lu nodded and said: "What category does your spiritual power belong to?" He paused and then continued: "I heard that you are also a student from the Alchemy Division. In that case, it must be fire based? Or is it something else?"

"This..." She thought about it and replied: "I don't think I have tested it yet, I don't remember."

Teacher Lu was startled: "You have never tested your spiritual powers? Even your family? What about your mentor, did he not mention it?"

Feng Jiu smiled: "I have only cultivated my spiritual power and never had a mentor. I just.... Practiced by myself."

When the students heard Feng Jiu's words, they were all startled. Even Teacher Lu's eyes opened in surprise.

"No, no mentor? You rank is....."

He didn't have a mentor and yet he didn't over-cultivate. This boy must have amazing luck!

Upon seeing the teacher's expression, Feng Jiu shook her head and said: "Yes! I practiced based on the luring air method and became a great spirit master that way."

She didn't know how to control the spiritual power. When she fought, she usually used mystical power. She mainly used her spiritual power to channel the energy to refine pills.

Her Little Fire Phoenix had an ancient sacred fire within its body that she couldn't understand. Whenever she used her spiritual powers, it had always been with the spur of her will and intention and there had never been any problems.

Moreover, she hadn't been cultivating her spiritual power for that long. It was just because her body had mystical energy, so the combination of both powers helped her spiritual strength increase faster.

As soon as the students heard her explanation, their faces turned red and their eyes opened wide. They shouted out: "Abnormal!"

What did he mean by becoming a great spirit master just by practising his power?

All the Sky Rank students had been carefully trained and taught by excellent mentors provided by their families. This kid... This kid actually had the cheek to say that he had practised by his own to become a great spirit master! Was he trying to insult them?

At this point, Teacher Lu was also left speechless. He had taught many talented students over the years, but he had never met anyone quite like this young boy who became a great spirit master with no guidance.

In his advancement, he didn't over-cultivate or go astray. The thought of that would make anyone break out in cold sweat!

Even Ye Jing was quite surprised as she thought that Feng Jiu was at most a spirit master. After all, she had chased him through the market streets and she hadn't even been able to defend herself. When she heard what was said next, even her expression changed.

"Then, Feng Jiu, have you only just entered the great spirit master level? What is your great spirit master rank?" Teacher Lu asked, his eyes were full of anticipation as he looked at Feng Jiu. It was really difficult to see through this boy's intentions and thoughts.

"This..."

She glanced at the teacher, and at the red faced Sky Rank students behind her, then looked directly at a wide-eyed student and replied: "I'm too embarrassed to say it." She was afraid they wouldn't be able to take the blow when she told them.

### **Chapter 689: The Peak of The Great Spirit Master**

Upon hearing this, everyone looked surprised. Too embarrassed to say it? Why was he too embarrassed to say it? No matter what, he had already entered the great spirit master level. Even if he was just the first rank, there was nothing to be embarrassed about.

"Oh, it doesn't matter, you can say it! If you don't tell us, we won't know how superior your strength is. It will also help to determine which method of cultivating is most suitable for you." Teacher Lu smiled as he spoke encouragingly to the young boy.

"You don't have to be embarrassed. The students here have all cultivated for over ten years, their family's focus is on training, and under the guidance of famous mentors, and the supplements of herbal

medicines, they are able to ascend to the rank of one to three in the great spirit master level. The fact that you have been able to cultivate by yourself to attain the great spirit master level is already very.....”

“I am now the peak of the great spirit master level.”

He hadn’t finished speaking when he heard the young boy tell everyone the rank he is at. When he heard this, he was stunned and wasn’t able to speak for ages.

Everyone else was the same. They were all shocked at the revelation and stared at the young boy, thinking they must have misheard.

“You, what did you just say? What rank?” Teacher Lu stuttered as he asked her.

“The peak of the great spirit master level. I am just waiting for the opportunity to ascend to the foundation formation stage.” She smiled as she looked at the wide-eyed tutor.

The atmosphere was quiet and stagnant, like everything had been solidified. Only the rustling of leaves in that moved in the passing breeze could be heard.

Feng Jiu looked at each and every one of the students who stared at her eyes wide opened. She smiled in embarrassment and said innocently: “I told you so! I was really embarrassed to say it because I didn’t want to give you all a shock. Really.”

Everyone opened their mouth but no words came out. They were indeed in shock. They were as Teacher Lu said, their families had provided training and support for their cultivation, and there was just no comparison to this abnormal boy.

Ye Jing looked at Feng Jiu strangely. So that day at the market street, she had purposely let her chase her and not retaliated. She had really thought that she was not her match. She never expected that she had already ascended to the peak of the great spirit master level.

From the peak of the great spirit master level, she was only a step away from foundation formation stage. Their strength was just no comparison to hers. There was not one student in the whole academy in the Sky Rank level who had reached the peak of the great spirit master level.

Now she understood why the deputy headmaster did everything he could to transfer her from the Alchemy Division over here.

It wasn’t just her who understood this after hearing her explanation. All the students and Teacher Lu finally understood why deputy headmaster gave her special treatment. With such talent and strength, they needed to focus on her training and cultivation.

## **Chapter 690: Five elements spiritual roots**

Seeing that Teacher Lu took out a device for testing, Feng Jiu paused for a short time then went forward.

“Come here, put your hand on this device and pour your spirit energy aura.” Teacher Lu looked at the young man in front of him with great expectations. He was very curious. What was the attribute of the youth? Would it be a single fire spiritual root?

With his talent and speed of cultivation, his having sky spiritual root had a greater possibility. Only those possessing sky spiritual roots could cultivate their spirit energy at a faster speed.

Take these seeded students for example. Each of them only had a single spiritual root. Otherwise, it was impossible for them to reach the level of Great Spirit Master in their teens and twenties.

When the other students saw Teacher Lu take out the testing device, they could not only come forward and stand encircling them both.

They also wanted to know what kind of attribute Feng Jiu had.

[Since he could refine immortal pills, his body should have fire attributes. Would it be a single fire attribute?]

Ye Jing stood beside Feng Jiu. Watching Feng Jiu stretch out her hand on top of the device and pour out her spirit energy, Ye Jing could not help holding her breath and feeling tense.

Compared with their nervousness and expectation, Feng Jiu felt nothing out of the ordinary. Her master said that she had the mystical spirit body. Her cultivation speed was ten times that of others. As for her root attribute, he didn't tell her anything about it.

Obviously, as long as she cultivated her spirit energy well, the control of her attributes should not be difficult. Therefore, she was not at all worried about what spiritual attribute she had.

After she injected her spirit energy, a burst of flame rose from the device. She immediately thought of getting one of the device to bring back to the Phoenix Empire. This way, her men could also get their spiritual attributes tested.

"Look! Fire attribute. He has the fire attribute..."

Before the student finished his speech, a tiny vortex emerged on the testing device which then formed a wind current. Everyone seeing the change was in a daze.

"Wind attribute? Does he also have the wind attribute? Hiss! Everyone, look! That's the wood attribute!"

Someone cried out in alarm. A verdant life force came into being and the wood attribute emerged. This time, the crowd became quiet because each one had their eyes widened and their face astonished.

They saw that after the verdant life force of the wood attribute emerged, the metal and the water attributes materialized one after another. Finally, even the earth attribute also appeared. Seeing all these, the crowd was so agitated. At last, they could see that all five elements were present. None was prominent, all five elements were equal. All the people in the crowd were speechless.

Who said he was a person of great talent? Who says he's a perverse genius? This was clearly a five-elements good-for-nothing!

Seeing everyone stared at her like seeing a ghost, Feng Jiu withdrew her hand. She felt nothing bad about the five elements. At least, others could only use one attribute while she had five of them.

“Teacher Lu?” Seeing the teacher in front of him sighing with pity, Feng Jiu repeated her question.  
“What happened?”

“Sigh!”

Teacher Lu sighed at the young man in front of him. “What a pity, what a pity. The Five Elements attribute is the worst spiritual root in spirit energy cultivation. It was also known as an adulterated spiritual root. Not only cultivating is slow, but also entering the foundation building is very difficult. What a pity. Truly unfortunate.”

He shook his head and sighed. He felt that such a young man with the Great Spirit Master rank should have met good luck. However, he was afraid that his immortal path would stop here.
