

# Ghost Doctor 691

## Chapter 691: Primal Chaos spiritual roots

Feng Jiu's eyes flashed with surprise when she heard this. The worst spiritual root? It seemed that even Teacher Lu did not know that these five-element spiritual roots were the earliest to emerge in immortal cultivation. They are known as primal chaos spiritual roots.

She saw inside the ancient space that the primal chaos spiritual roots were the spiritual roots' outset. It had five attributes: metal, wood, water, fire and earth. But it was not easy to control the five attributes in the body. Cultivating with those five attributes were also more difficult than cultivating with a single attribute. That's why it was called adulterated spiritual roots.

Later, after undergoing a transformation, the less spiritual roots would appear and the cultivation would also become less. That was because there was only one attribute in the body. It was easier to control one attribute. However, if primal chaos spiritual roots were combined with primal chaos mental cultivation method, they were mutually complementary and all five attributes could result in a great success.

She closed her eyes and concealed the light inside them, which, like her mysterious body, was indeed unknown. Since they mistook it for an adulterated spiritual root, let's call it an adulterated spiritual root!

"I thought he was a real genius, but it turned out he's a waste."

"How about cultivation at an early stage? It's no use if you can't get to the Foundation Building. Even if you can build a foundation by luck, you won't be able to pass the Golden Core stage. This is the end of your life."

"Indeed. As a generation of immortal cultivators, in order to step into the Great Way of Immortality, how can we stop at the foundation building threshold?"

"Hey, don't you know? I've checked. This kid is from a ninth-grade country. How good can he be?"

"What? The lowest ninth-grade country? Why didn't you say that earlier? I was looking forward to it."

"I meant to tell you, but he said that he was at the peak stage of the great spirit master level. I was stunned for a moment, thinking that the news was wrong."

"Peak stage of the great spirit master? Haha, it's unknown what method this youngster practised to hide his spiritual breath. Even the teacher couldn't even see his cultivation rank. Since he has five-element spiritual roots, maybe he's not even at the great spirit master level."

"Mm, that's a possibility. Otherwise, why did he ran to the Alchemy Division? That division is almost deserted. It can't receive a student all year-round. Only a fool will go there."

"Shut up!" Ye Jing yelled with a cold expression on her face. She felt bad seeing Feng Jiu hung down her head.

When the other students saw it was Ye Jing and that those who talked did not have any disputes with her, the discussion and mockery also stopped.

Feng Jiu, with her eyes slightly drooping, listened to the taunts and then heard Ye Jing's anger. A smile flashed in her eyes. She looked up at Ye Jing and smiled at her to indicate that she was all right.

"All right, stop talking about it. Let's start the class. Today, I'm going to teach you how to use the attributes of your body..." Teacher Lu motioned the people to calm down and started telling them how to use and practice the five elements attributes...

After class, when Teacher Lu was about to leave, Feng Jiu called out. "Teacher."

"Mm? Do you have anything else?" Teacher Lu's face was still filled with regret.

"Teacher talked about the control of a single spiritual root. Would it be necessary for people like me to classify the five-element spiritual roots in my body into five paths of spirit energy?"

Teacher Lu was surprised. He looked at Feng Jiu. "Correct. Adulterated spiritual roots have to be practised in this way. Five elements attributes should be classified first and the points of light of each attribute should be gathered together. However, it is difficult to classify the points of light of five-element attributes without the mental cultivation method that matches the five-element attributes."

## **Chapter 692: I'll cover you**

Feng Jiu smiled and saluted him respectfully. "Thank you for your guidance. I understand."

Teacher Lu nodded and left.

"Feng Jiu..." Ye Jing looked at her with worries in her eyes.

Feng Jiu chuckled. "What are you anxious about? Are you worried that with these adulterated spiritual roots, I won't be able to build my foundation? You forgot, my cultivation is currently higher than yours."

Seeing her still having the same expression without being dispirited from having the adulterated spiritual roots, Ye Jing calmed down. "Mm, the world is so big. There will be opportunities, even if you have an adulterated spiritual root, maybe in the future, there will be opportunities to build foundations and even enter the Golden Core rank."

"Mm, the world is so big, I want to see it!" She squinted and looked up at the sky. In the Eight Supreme Empire, which was far above the nations, there was another person who had a ten-year pact with her.

Ten-year pact? Would she let herself remain in these countries for ten years? The answer was no.

In the following days, rumours about Feng Jiu's adulterated spiritual roots quickly spread. If it were someone else, the academy students wouldn't pay so much attention. However, this was Feng Jiu, the person who exchanged for the rainbow-coloured glazed feather as soon as he entered the academy. He also made the Mystical division students suffered losses without being able to attack back. He was the person that the deputy headmaster attached great importance to. Even when he was a student at the Alchemy Division, he was transferred to the Spirit Division as a sky-rank student.

The public paid attention to almost all of his every move. However, when the news spread, all of them rejoiced in his misfortune.

After the day of registration and attending a class the next day, Feng Jiu did not go to the Spirit division the following days because she was busy with her cultivation. She had no time to inquire about the news.

Guan Xilin had not yet come out of the Mystical Pagoda. But on that day, Xiao Yihan came to visit.

“Little Brother Feng? Little Brother Feng?”

He shouted from outside the cave dwelling, looking with surprise at the big black bear of the divine rank that was guarding it.

He had heard a lot about Feng Jiu these days. Besides a weird horse and a fluffy-like-ball pet, there’s also a terrifying big black bear here, so that those who want to trouble him didn’t dare come to provoke him when he hid inside the cave-dwelling.

Mm, that’s right. He hadn’t seen Feng Jiu walking around in the academy recently. Everyone said he’s hiding and dare not see anybody.

“Big Brother Xiao?” Feng Jiu opened the boundary and came out, somewhat surprised at his arrival.

“Why are you here?”

“What? I can’t come here?”

He smiled. “I just came back from my mission. When I heard you were here, I’m looking for you to go for a drink together. You see, I even brought roast chickens.” He took the two packages of roasted chicken out of the space with a smile.

Feng Jiu invited him into the cave dwelling. Unexpectedly, he waved his hand extravagantly. “We are not outsiders. Come here, let’s drink under the tree. .”

She could only smile and sat on the grass under the tree.

“Don’t you know? I am also a sky-rank student at the Spirit Division. However, when you went to class that day, I was not present. Since I did not meet you and then took a mission outside, I am here to see you. Isn’t that great?”

He took out two small bowls from his bag and poured some wine. “I’ve heard about your adulterated spiritual roots to. It’s no big deal. Rest assured. If someone in the academy creates some troubles for you, just tell me. I’ll help you tidy him up.”

### **Chapter 693: Fury at the Pharmacy Division’s Mountain Peak**

Feng Jiu smiled. “Okay, I’ll remember that.”

She held up the bowl with both hands and looked at him with a profound gaze. “Big Brother Xiao, I respect you.”

I respect you for coming to invite me to drink when everyone else shunned me.

I respect you for daring enough to stand up for me even though we're just a casual acquaintance.

This sentiment was noted down by Feng Jiu.

"Hahaha, come, let's do it!"

He laughed loudly, raised his bowl and drank it up. Two people were drinking, eating meat, and chatting under the tree. On the other side, three beasts were lying on the grass and swallowing until their saliva dried up...

On the other side, the headmaster was tasting tea with the deputy headmaster and Mo Chen. The headmaster and deputy headmaster were talking about the recent events in the academy, while Mo Chen was just listening quietly.

"Sigh! This is really unexpected, Feng Jiu's strength is outstanding and his progress is extraordinary. How can he possess the adulterated five elements spiritual roots?" The deputy headmaster shook his head, somewhat unable to accept the fact.

"Perhaps he had encountered some good luck. Otherwise, how could he advance so quickly? As you and I know, it's difficult for those with the adulterated five elements spiritual roots to enter the foundation building stage. I'm afraid he'll stagnate at the Great Spirit Master rank all his life." The headmaster spoke ruefully while sipping his tea.

"I don't want to believe that such a good seedling..."

"As far as I know, the five-element spiritual root is also called the primal chaos spiritual roots."

Hearing this, the deputy headmaster looked up at Mo Chen, who was currently tasting his tea. "Primal chaos spiritual roots?"

"Correct. I recalled that five-element spiritual roots are indeed the primal chaos spiritual roots. It's the forefather of spiritual roots. But after many years of evolution, five-element spiritual roots rarely appear. Mostly single or double spiritual roots, because five-element spiritual roots are very slow to cultivate. It was gradually known as the adulterated spiritual roots or otherwise named the good-for-nothing spiritual roots."

The headmaster explained and looked at Mo Chen. "It's a long time ago. How did you also know this fact?"

"I have seen it in ancient books. I have also asked my master, who once said that those who possess primal chaos spiritual roots are loved by Heaven." He sipped the tea lightly. His voice was indifferent and slow, but he was thinking about the youth's smiling face.

Knowing that he possessed five-element spiritual roots, would he really hole up inside and dare not go out, as those students said?

Although he only acquainted with the young man for a short time and their friendship was not deep, but he knew that his nature was incomparable to ordinary people. Rather than dejectedly hiding away, he felt that Feng Jiu was more likely thinking about the solution.

A few days later.

On that day, the Pharmacy Division's teachers went up to the headmaster and deputy headmaster in succession. They were seething with anger.

"What's the matter, every one of you is so furious?" The deputy headmaster looked at the enraged pharmacy teachers. He was somewhat surprised. Did anybody provoke those teachers?

"Headmaster, deputy headmaster, this matter must be strictly handled, must be strictly investigated!" A teacher made an abrupt remark indignantly.

"What must be done strictly?" The headmaster was also surprised.

"Headmaster, deputy headmaster. Thieves are stealing spirit herbs. The herbs at several crests of our Pharmacy Division's mountain peak were stolen every now and then. Even our spirit fruits were poached. Some of the older ginseng have been pulled out. The most hateful thing was that chopstick sized young ginseng have also been pulled out. This is going to cut off our mountain peak's root!"

"Who was so bold? Who dare commit such a thing?" They were shocked. "Haven't you made any investigations? No preventive measures?"

On hearing this, several teachers blushed and spoke angrily, "How's that possible? We put some preventive measures, sent students to guard. But things still got stolen. When we sent teachers to guard, those were still stolen away."

#### **Chapter 694: In trouble**

The headmaster and the deputy headmaster looked at each other and pondered for a moment. "What kind of spirit herbs were stolen? Do you have a list? Did you go to the contribution point place to see if some students stole them to exchange for the contribution point?"

"We've investigated, we found nothing. The stolen spirit herbs were of miscellaneous types, mainly spirit ginseng. Now there is less than one-third of spirit ginseng at the Pharmacy Division's mountain peak. We are afraid that if this goes on, there will be a shortage of spirit ginseng in the academy. We'll have nothing to offer to many of our Pharmacists and also Alchemists at the Alchemy Division."

Aware of the seriousness of the problem, the headmaster told the deputy headmaster, "Follow up on this matter. After seeing the situation, transfer a few people from the Spirit Division or the Mystical Division to guard the peak. Be sure to catch the spirit herb thieves."

"Mm, I'll do it now." Old Guan nodded. He looked at those few people and asked, "When does the theft usually occur? Do you have any records?"

"Yes, it's usually at mealtime." One of the teachers answered.

"Mealtime?"

The deputy headmaster was startled. He nodded. "Yes, all the teachers are taking their meals at that time. Naturally, it's the best time to commit a crime. Mm, I know, you go back first. Wait until I go to the

Spirit Division and the Mystical Division to transfer a few people. Then, I'll go to the Pharmacy Division's mountain peak to take a look."

The teachers were relieved. They nodded and assented, leaving together in a group.

On the other side, after cultivating, Feng Jiu finally breathed a sigh of relief after getting clarification about her five-element spiritual roots. After a long absence from the outside world, she entrusted the cave-dwelling to the three beasts. She sat on the flying feather and went to the Mystical Division to ask whether her brother had come out of the mystical tower.

When she came to the Mystical Division, she saw that the deputy headmaster was taking some students from the Spirit Division and some students from the Mystical Division to come out. She could not be rude when she met them face to face, so she went forward and gave a salute.

"Deputy headmaster."

"Oh? It's Feng Jiu! Why are you here?" Old Guan asked with a smile on his face. He felt moved whenever he saw this young man.

"I'm free, so I'm taking a walk, deputy headmaster. What are you going to do?" She looked at the Spirit Division students in the back. They were all sky-rank students, so were those of the Mystical Division.

"Recently, the spirit herbs and spirit ginseng at the Pharmacy Division's mountain peak always got stolen. Those teachers from the peak looked for me and the headmaster. As a result, we plan to send a few students to keep watch who on earth so brave to steal the spirit herbs at the mountain peak."

"Oh, so that's the case. Then, I won't disturb the deputy headmaster." She saluted and stepped aside, waiting for the party to leave. But her heart began to wonder.

Spirit herbs and spirit ginseng were always stolen?

Her footsteps going toward the Mystical Division suddenly paused. She seemed to have thought of something and her lip corners drawn taut. What did her three beasts eat recently?

That wouldn't do. I'd better go back and have a look.

She hopped on the flying feather and flew quickly to the cave dwelling. When she arrived at her cave, she saw only Little Black guarding outside, but Old White and Little Cloud Devouring Beast disappeared. Seeing this, her heart thumped as if secretly telling her that it wasn't good.

The Pharmacy Division's mountain peak and the Alchemy Division's mountain peak were next to each other. If it were done by those two guys, it was really possible at Cloud Devouring Beast and Old White's speed to steal things without anybody knowing.

She sat on the flying feather while looking down from time to time in midair. She felt endlessly anxious.

She recalled that the deputy headmaster took the Spirit Division and Mystical Division's students to the pharmacy division's mountain peak to keep watch. If the two fools happened to bump into the other party, she would be in trouble.

**Chapter 695: Taking them away directly**

When she saw Old White and Cloud Devouring Beast in the mountain road between the Pharmacy Division's mountain peak and Alchemy Division's mountain peak, she couldn't help glowering at them.

Those were really her two guys' deeds!

As soon as she spotted several Spirit Division students patrolling in the herb fields in front of the Pharmacy Division's mountain peak, she felt her heart on her throat. Immediately, she flew down toward the two beasts.

"Neigh!"

Old White waved its tail excitedly and snorted at Feng Jiu when it saw her coming. Unexpectedly, it was tossed inside her sleeve and directly entered her space. Cloud Devouring Beast, standing by its side, was also tossed inside the space the moment it was about to open its mouth.

After sending the two beasts into her spatial space, Feng Jiu quickly retreated from the Pharmacy Division's mountain peak and quietly sneaked back to the Alchemy Division's mountain peak. When she arrived in front of her cave-dwelling, she released her two beasts outside.

"You guys got the guts!" She glared at the two beasts.

"Mistress...." Little Cloud Devouring Beast laid down on its stomach, not daring to lift its head.

"Neigh!" Old White followed, lying down and swishing its tail.

The big black bear, a distance away, watched with his head slightly crooked and sat idly, wondering what had happened.

"Have you eaten all the spirit herbs? Running to the Pharmacy Division's mountain peak to steal spirit herbs without handing them over? How good you two guys are! You have a lot of nerves!"

The Cloud Devouring Beast was stunned. So, their mistress was indignant and scolded them because they didn't hand over the spirit herbs and pilfered it all themselves? The beast took a short pause and spoke, "Mistress, if you want some ginsengs, I can pull them out for you."

"Pull your silly head."

Feng Jiu swatted the beast's head. "Don't you know that even the deputy headmaster got alarmed? If I hadn't gone to bring you back, you'd have been caught and even I'd have been in trouble."

The Cloud Devouring Beast shrunk its head and answered with a low voice. "But, Mistress, there's no food for us to eat here. We could only find food at the Pharmacy Division's mountain peak."

"You can't go there again. Guard the cave obediently and keep people from making trouble here. I'll refine some immortal elixirs for you." She had plenty of spirit herbs in her room that she could use to practice her hands.

Her master was correct. Her mystical spirit body enabled her to cultivate ten times faster than others. Complemented with the primal chaos mental cultivation method, the five-element spiritual roots in her

body were controlled perfectly in less than 10 days. Now, when she cultivated every day, she divided a portion of her spirit energy to warm the green lotus in her meridians.

Her spirit energy had reached the peak level of the Great Spirit Master. She only needed a chance to reach the foundation building stage. But if she stayed inside the academy, getting this opportunity would be very difficult. She had waited a few days for an opportunity to leave the academy and tried her luck.

After making arrangements for the three beasts, she entered the cave dwelling to refine elixirs. It's the first time ever for her both to use the pill furnace and to refine elixir inside the cave. Under the protection of the boundary, the sound of activities inside was kept to a minimum. Almost no one outside knew that she was refining inside the cave dwelling.

Fortunately, nobody knew. Otherwise, the two Alchemy teachers would be too scared to speak. A student who had only been at the Division for a few months would use a pill furnace and refine elixirs. From the evening to the early morning, nearly ten bottles of first-class elixirs were produced for three beasts.

While the three beasts guarding the cave dwelling obediently, the students were hiding in ambush at the Pharmacy Division's mountain peak. They hid among the spirit herbs or the trees. They were ready to catch the thieves as soon as they came. However, after being on the alert for three full days, they had not seen any suspicious figures appear...

### **Chapter 696: Destroying one's reputation**

This day, Feng Jiu arrived at the mission office on the flying feather. She planned to pick a task outside the academy and earn some contribution points. She didn't expect that when she came down from the flying feather, all the students around her were pointing their fingers while gossiping about her.

She thought they were still talking about her five-element spiritual roots, so she didn't take it to heart and continued walking ahead. However, as the students' voices grew louder and louder as if they intended it for her to hear, she stopped and looked at those gossiping students.

"What did you say just now?"

Her gentle voice carried an imperceptible chill. Her beautiful face was also not as bright as usual. It was a rare sight to see her with that cold look in the academy.

She wore a serious expression on her face. Her smile faded, her half-squinted eyes glowed with cold light, and her lips were pulled up tightly giving people a sense of danger. Her voice was so faint and gentle, yet it silenced the people around her in an instant.

No one in the academy had ever seen Feng Jiu like this. It could even be said that people had never seen that side of her since she entered the academy.

Even though she didn't look furious, her bearing was dignified and imposing. Her half-squinted eyes were chilly while her smile was indifferent. Her aura had completely changed. It was as if giving everyone an indescribable feeling that...they're in danger!

“What did you say just now?”

She walked slowly and steadily up to those men. Her gentle voice was suffused with a frightening chill. “Don’t let me ask you for the third time, otherwise, I have a way to keep you speechless forever.”

Upon hearing her words, they were again reminded that he was the Alchemy division’s student and that he had brought down dozens of Mystical division’s students without a sound. Obviously, he was very proficient in using elixirs. When they remembered this point, those several students could only step back. Cold sweat dripped from their foreheads and their voices trembled.

“No, that’s not us who spread that news. The whole academy’s students....all of them were talking about it. We, we only heard about that.”

“Exactly, exactly. It’s not us who spread the news that you sub...subdued Ye Jing...”

“Oh? Then who did that?” She asked softly with a smile that did not reach her eyes.

For women, their reputation and integrity outweighed everything else. Ye Jing was born in a noble family. If such matter spread out about them and the culprit behind it were not ferreted out, how would both of them put their faces in the future?

Subdued Ye Jing? Ah, the person who spread the news not only had dealt with her but also destroyed Ye Jing’s reputation. She was really curious about who did this good deed.

Those students saw Feng Jiu was obviously smiling, but her smile was weird. They could only answer while trembling with fear. “This, how would we know who spread this news? We’ve only heard about it. The whole academy also knew this from a confidential source.”

Feng Jiu shot a glance at those several people and turned toward the Spirit division.

Recently, if she was not cultivating, she spent all her time refining elixirs. She didn’t leave the Alchemy division at all. Additionally, the Alchemy Division was cut off from the news. If she hadn’t come to the mission office today, she would not have known such news had spread throughout the academy.

As she arrived at Ye Jing’s place on the flying feather, she heard an announcement that her teacher called her. So she went back to the Spirit Division. When she was on the way, she was blocked by several Spirit Division students.

“Feng Jiu, the teachers told us to take you to them.”

### **Chapter 697: How could you stay here?**

After glancing at those people, Feng Jiu left with them without giving any refusal. They arrived at a courtyard. As soon as she entered, she saw that in addition to Teacher Lu that she’s already familiar with, there were four other teachers. Ye Jing was also among them.

“Feng Jiu has met the honourable teachers.”

She came inside and paid respects to them. Then, she raised her head to look at Ye Jing. But at this moment, a harsh shout came out from one of the teachers. The bellow was accompanied by the teacher's powerful pressure.

"Feng Jiu, you got the nerve! You know your mistakes!"

When she heard his shout, Feng Jiu lifted her eyebrows and looked at the teacher without a change of expression. She asked, "I don't know what the teacher means by that?"

"You are asking me what I meant? How could you not know?" The teacher snorted angrily. "Let me ask you then. Is the rumour currently circulating around the academy true?"

"What the teacher talked about was the rumour currently circulating in the academy. Naturally, that rumour is false. How can it be true?" She answered indifferently while looking at Ye Jing on the other side. "What's more, I and Ye Jing are friends. From that point, aren't the two of us more clear about this matter than others?"

Ye Jing was still angry at this time. She looked at Feng Jiu. "I explained this to the teachers, but they didn't believe me and insisted to get you here to be dealt with severely."

"Mm, severe punishment is indeed needed." Feng Jiu nodded. When Ye Jing looked at her with incredulous eyes, Feng Jiu added, "This person smeared our names – that's one thing. Additionally, because of that, the academy's name is also damaged. This matter really needs to be dealt with severely."

The teachers started wondering when they saw this. Was this not true? But, if it's not true, why only the news involving these two people that get spread around and not others?

"Feng Jiu, is it really just someone smearing the names of the two of you?" Teacher Lu asked with a frown. Although Feng Jiu only took one class with him, he had a very favourable impression of this youth. His judgment couldn't be wrong. This youth was not that kind of person.

Moreover, Ye Jing herself said that there was no such thing, so he really believed it.

"Mm, there really was no such thing. I and Ye Jing are friends. That kind of thing couldn't have happened. What's more, am I, Feng Jiu that kind of person?"

Teacher Lu nodded. Indeed, he could see that Feng Jiu was not that kind of vile person.

Therefore, he whispered a few words with several other teachers and just want to end the matter. Unexpectedly, that previous teacher angrily spoke, "If there was no such thing, how could the rumour spread? I heard that you and Ye Jing met before they entered the academy. At that time, you took advantage of her in front of the people on the street. You dare say, that's not the case either?"

Feng Jiu and Ye Jing looked at each other. If earlier they had no idea who was spreading such rumours before, after the teacher said this, both of them could point to one single person.

The person in the academy who knew this and happened to be there was only that one. It couldn't be anyone else.

Feng Jiu was not surprised to know that the dirty trick was caused by the little white flower, but Ye Jing was not. After all, they had known each other for many years. But now, she was treated like this. This made her feel bitterly disappointed.

The teacher, who yelled harshly earlier, was furious to see the two people's "casting amorous glances at each other" in front of them. "You're still not acknowledging it? You two are offending public morals! How could students like you continue to stay in Nebula Academy?"

### **Chapter 698: Teacher, You Are Sick**

Feng Jiu turned to look at the teacher with the terrible attitude. When she saw that his face was bright red, his eyes were red rimmed and the blue veins protruding from his neck, she couldn't help herself and smiled.

"Teacher, you are sick."

When they heard this, the other teachers were stunned and the eyebrows furrowed and looked at Feng Jiu in disapproval. Even though that teacher did not have the best temperament, he was after all a teacher. To speak to him in this manner telling him that he was sick, that was really disrespectful.

Ye Jing looked puzzled. However, it was not because she thought that Feng Jiu was being disrespectful, rather that she wondered why she had said that about the teacher.

When the ill-tempered teacher heard Feng Jiu's words, he exploded and screamed at the top of his voice at her, and at the same time a gush of energy charged out towards Feng Jiu: "Feng Jiu! You have no respect for anyone! You are too arrogant, too arrogant! I will lodge a complaint with the deputy headmaster to have to expelled from the academy!"

"Teacher, don't be angry. I am telling the truth. You are sick and you need treatment." She sighed and looked at the teacher whose saliva was spitting out of his mouth and took a step back.

The other teachers noticed at this moment that the ill-tempered teacher's foundation peak energy charged towards Feng Jiu and almost overwhelmed the young boy. However, the young boy's demeanor hadn't changed, and he even smiled.

Upon seeing this, some felt surprised, some felt guilty and some had doubts. Foundation cultivators powers were stronger than great spirit masters by a level. Even if the strength and level of power differed slightly, foundation cultivators had the power to overwhelm great spirit masters, and they could make their blood boil within their body and render them speechless.

However, Feng Jiu was just stood there like nothing affected her, how was that possible?

"Feng Jiu, stop causing trouble." Teacher Lu said in a deep, serious voice as he thought that she was playing a prank on the teacher.

Feng Jiu shrugged her shoulders: "Okay! If you don't believe me then that's fine. However, judging from the teacher's condition, he will collapse within three days."

“You, you...” When the teacher heard this, he was bursting with anger. Had the two teachers next to him pulled him back, he would have rushed forward and attacked Feng Jiu.

“Old Lu, don’t let yourself get worked up over a child. Come over here to sit down and have a drink. Let me speak to him.” Teacher Lu pulled the fuming Lu Tu over to one side to sit down and then went over to Feng Jiu and Ye Jing.

“What are your thoughts on this matter? What’s your plan? If someone was defaming you, then who is that person? Have you got proof?”

After Teacher Lu spoke, the two of them looked at each other, then Feng Jiu smiled and answered: “Teacher Lu, leave this matter with us! We will find the culprit.”

He asked: “How long do you need?”

“One day will be enough.” She smirked as she replied.

“That’s fine. I will give you both one day. Go on then! If this matter is not handled properly, then you both.....” He didn’t continue but gave a warning look.

“Yes, we understand.”

The two of them turned around to leave, however, Feng Jiu stopped in her tracks and turned around to look at the teacher named Lu and said with a smile: “Teacher, I am serious, you are sick. Don’t get too agitated so often or it will be bad for your health.”

### **Chapter 699: Do You Know Who Did It**

Before that ill-tempered tutor had a chance to get mad again, she was already on her way out with Ye Jing. When they got outside, they could still hear the tutors trying to calm him down.

“Why did you say Old Lu is sick? Is he really sick?” Ye Jing asked with uncertainty.

Feng Jiu smiled and replied: “Yes, he really is sick, but he refuses to believe me!” She shook her head and continued: “You should go back first and keep an eye on the little white flower. I will come and look for you later.”

Ye Jing asked in surprise: “Aren’t we going to look for her together?”

“There’s no hurry, we have a day’s time. I need to go back to make some preparations first.” Although she smiled, there was a hint of coldness about it.

“Okay then, see you later.” She turned and left.

After she had left, Feng Jiu use her flying feather to return to the Alchemy Division cave dwelling.

When Bai Ruofei had learned that Ye Jing and Feng Jiu were summoned to the teaching room, her heart pounded with excitement and nervousness. What would happen to them? Would they be expelled? Their reputation was ruined. Everyone in the entire academy would point and stare at them now if they

saw them together. But she hadn't lied. She did see Feng Jiu on Ye Jing's back at Myriad Beast Mountain Range.

"A cheap girl defamed, and yet she dares to hold her head up high everyday, as if she was all important. Ye Jing, let's see how you can keep up your appearances now!" She said with hatred in her voice. Though she was quite pretty, but the jealousy and resentment that showed in her expression made her appear ugly.

At this moment, she heard Ye Jing's voice drift in from outside: "Ruofei, are you there?"

She was startled and jumped up in a panic. She paused for a bit before she walked out: "Ah, Ah Jing, is it you? Why are you here?"

As she spoke she saw a figure dressed in white enter the room, and she smiled sweetly immediately and said: "Ah Jing, you have finally come to see me. You've not been spending much time with me recently so I haven't had anyone to talk to."

When Ye Jing walked into the room and saw her smiling sweetly at her, she froze: "What have you been busy with recently? Have you not been going out for a walk at all?"

"Since you haven't been spending time with me, I have just been cultivating and not gone out much. What's the matter?" Her heart skipped a beat and her palms were drenched in cold sweat.

"Nothing much. Just that recently there's been some nasty rumours going around the academy about me and Feng Jiu." She sat down at the table and looked around: "Where are the other students who live with you? Are they not here?"

Only Sky Rank students were allowed to live alone, and anyone below this rank had to share their accommodation with other students.

"They've gone out and aren't back yet." As she spoke, she poured a cup of tea for Ye Jing and asked: "Ah Jing, why did you think of coming to look for me?"

"Am I not allowed to come to see you?"

"No, no, that's not what I meant." She said quickly. Her heart sank as she looked at the woman with the gentle voice and calm expression.

Surely she didn't know that the rumours were her doing?

Her thoughts were interrupted by Ye Jing's question: "I wanted to ask you if you knew who was behind the rumours."

Bai Ruofei's heart stopped and her expression changed slightly.

## **Chapter 700: Second Rank Truth Medicinal Pill**

"What, what rumours?"

Ye Jing stared at her for a long time, then revealed a gentle smile and said: "That's right. You've been here cultivating so you wouldn't know about it. Let's not talk about that then. I came here today to visit you and have a chat."

Bai Ruofei was secretly sighed a breath of relief as she looked at her sipping her cup of tea. She started to talk about something else....

At the same time, Feng Jiu was in her cave dwelling...

Right after she returned to her cave dwelling, she opened up the pill furnace and started refining pills. Amongst the pill recipes that her teacher had left to her, there was something called the truth medicinal pill. It was a second rank medicinal pill, and based on her current strength and energy, she would have no problem refining it.

While their master was inside the cave dwelling refining pills, the three beasts were sprawled outside staring at the cave dwelling and had not gone inside. Since that day onwards, they hadn't dared to steal the spirit ginseng because the medicinal pills their master refined for them was far more superior. One pill sustained them for half a month and strengthened their inner strength. It was more effective than eating raw medicinal herbs.

The Pharmacy Division's mountain peak's spirit herbs weren't being stolen anymore.

In the pill refining room, Feng Jiu added the medicinal herbs according to the medicinal recipe and controlled the fire source from within her body. After about an hour, the fragrance of the medicinal herbs filled the room, even her mind was shaken by it.

"It definitely lives up to its name of the truth medicinal pill. Even just the fragrance of the pill can make one's mind let its guard down. If this were to be auctioned, I'm sure many people would want to purchase it." She whispered softly. She hadn't refined new pills recently, so she could send these to the black market to be auctioned off.

Even though she was not concentrating, she didn't lose control. When she saw that the pills were nearly ready, she added an extra blast of fire and once the spirit power entered the pill, she removed the pill from the furnace.

"Second rank truth medicinal pills with four marks. It's not bad. Wonder how effective the medicinal pill is?" She whispered softly as she looked at the three pills in her hand. She decided that she should try the truth medicinal pills on someone first, to test their effectiveness. But who should she try it on?

She pondered about it as she walked out of the cave dwelling. She looked at the three pills in her hand and wondered who best to try it out on. Even though she had followed the recipe, but she didn't know where her teacher had gotten the recipe from. In the past, she had followed the recipes and refined some pills that had weird effects. Therefore, even though she knew the pills were not poisonous, it was better to test them out first.

Because the fragrance of the truth medicinal pills was too alluring, the three beasts who were sprawled outside the cave dwelling got up on their fours when she stepped outside. They couldn't resist the fragrance and stared longingly at the pills in her hand."

Feng Jiu chuckled when she saw this and said to them: “These aren’t for you to eat. These are truth medicinal pills. They’re to make people tell the truth. I doubt they will be of any use to beasts.”

She had sat down on the grass and took out a bottle to store the pills. However, before she could pour the pills into the bottle, a large tongue suddenly appeared and licked up one of the pills from her hand. She stared at Old White in surprise and narrowed her eyes.

“Old White you greedy beast! This is a truth pill! It’s not meant for beasts, it’s for humans! And it’s not even been tested before! If you suffer any ill effects, don’t say I didn’t warn you.”

“Burp!”
