

GLOBAL DUNGEON: MY SUPPORT IS TOO STRONG

Chapter 16

Battlefield Support, Lu Benwei!

[Heavenly Dog's Fury]

Effect: After use, all attributes within 30 seconds will increase by 20 percent (can be used on oneself or selected targets).

Cooldown: 45 seconds.

Increasing all attributes by 20 percent was enough to increase the hunter's strength by another level.

At the same time, his stamina continued to recover, and his previous fatigue dissipated.

At this moment, they were facing a monster with an extremely strong desire to fight.

[Battle Humanoid Ape. Level: nine]

[Characteristics: As long as alive, the battle continues!]

[Weakness: fragile skull]

Outside the mystic realm, the various authorities clicked their tongues when they saw Lu Benwei's team encounter an extremely difficult combat ape.

"A level-nine Combat Humanoid Ape is an existence that can fight above its level!"

"Be it attack or defense, it's a top existence."

"What's even more terrifying is that the Combat Humanoid Ape has a trace of intelligence and knows that its skull is fragile..."

“These brats are in trouble!”

“Why do I remember that these brats looked so tired just now? Why are they suddenly so energetic?”

The scene returned to the mystic realm.

Lu Benwei’s team fought the Combat Humanoid Ape for a while.

“Retreat!”

Li Tianran, who was in mid-air, retracted his strength and curled up. He somersaulted a few times in the air and distanced himself from the Combat Humanoid Ape.

Zhao Kong also raised his shield and retreated to Lu Benwei’s side.

Seeing that Lu Benwei and the others were suddenly in a group, the ape thought that the five of them were afraid of his mightiness and laughed.

Lu Benwei and the others also laughed.

“This silly monkey still doesn’t know what’s about to happen!”

“Brother Lu, has brother mighty cooled down?”

Lu Benwei licked his lips. “I’ve already prepared it!”

[Heavenly Dog’s Fury] activated!

A ferocious phantom of the Heavenly Dog appeared behind Li Tianran and the others. A surging power descended from the sky and poured into their bodies.

“Rumble—”

The four of them felt their hearts beating like war drums. All their attributes had increased by 20 percent!

“Storm Sting!”

“Knight’s Might!”

“Arrow Strike!”

“Summon: Fireball!”

Zhao Kong and the other three tried their best.

The ape was stunned and even forgot to defend.

Before it died, a thought appeared in its mind: Why were these four suddenly so brave?

After the smoke dissipated, the Combat Humanoid Ape had long turned into a charred corpse.

The judges’ room was as silent as death.

“Why do these brats suddenly look like they’re on steroids?”

Someone’s mouth twitched. “According to the secret outposts in the secret realm, they seem to call this kind of enhancement skill: brother mighty...”

“Did the hidden sentry reveal the name of this nonsensical skill?” an old man in the lead said angrily.

“No, no, no. According to the secret sentry, Li Tianran, Zhao Kong, and the others’ attributes increased by at least 15 percent!”

“All attributes increased by 15 percent?!”

All the authorities in the judges’ room widened their eyes.

Even though they were experienced and knowledgeable, they could not help but be shocked when they heard the number.

It had to be known that it was already quite good to be able to increase a person’s attributes by five percent!

As for support skills that could increase all attributes by 15 percent, it was a group effect.

It could be considered a divine skill!

“This child’s future is limitless!”

“That’s right, that’s right. Increase all attributes by 15 percent. I really want to see what it feels like.”

Many people looked at Lu Benwei on the screen with joy in their eyes.

Of course, there were plenty of snorts.

“But in the end, he’s still a supporter. According to the information, he even changed his class to the most useless magician. His future growth is limited!”

“In the end, it’s still because the support class is too useless.”

The thick-browed old man, who had a good impression of Lu Benwei previously, was unwilling to accept this. “He already has this talent, so how can he be crippled? Just that group attribute increase alone is enough to make many hunting teams envious in the future!”

Someone continued to scoff. “You want to attract the hunting team with just that? Dream on!”

“Everyone knows about the Blue Planet. The most troublesome thing about the support class is its low combat strength.”

“This kid has been surrounded from the beginning to the end. When he’s really on the battlefield, we still have to pay attention to his safety.”

“But...” The thick-browed old man still wanted to argue for Lu Benwei.

Someone continued, “Don’t be naive. For those few seconds of attribute enhancement, it’s better to recruit another non-supporting class.”

His voice barely faded.

On the screen in the scoring room, the phantom of a Heavenly Dog appeared behind Lu Benwei and the others again.

After Guo Hao finished off a level-nine monster, his body emitted light!

“Brother Lu, I leveled up!”

As soon as he finished speaking, Zhao Kong and Li Tianran also lit up.

“I’ve finally reached level nine. It wasn’t easy!”

Li Tianran was the happiest.

Originally, he was the lowest-level existence in the five-person team and was only at level six.

Then, he followed Zhao Kong and Guo Hao and picked up the scraps. He advanced two levels in a row.

“As expected of Brother Lu, you get to eat nine meals in three days!”

Lu Benwei and Guo Hao’s levels did not change.

Guo Hao was level 10 and had yet to complete his Class Advancement, so his level would not increase.

On the other hand, Lu Benwei did not trigger the [Ten Times Profit] buff, so his experience increase was slower.

At this moment, the various authorities in the scoring room were stirred up again.

“Damn, this kid is a cheater, right? How long does the cooldown of this enhancement skill last?”

“It’s only been a minute since just now, but the cooldown time for this group attribute enhancement skill has changed again?”

“Doesn’t this group’s all-attribute enhancement skill have a backlash effect?”

It was common knowledge on the Blue Planet that all attributes enhancement skills had a long cooldown time and had a backlash effect.

They had all tacitly agreed to this just now, so they did not talk much about it.

As for Lu Benwei's group attribute enhancement skill, not only did it have a short cooldown time, but it also did not seem to have a backlash effect.

It could be said to be heaven-defying!

"It's really tempting!"

"I want to capture this kid and study him properly."

The faces of those who had been prejudiced against the support class burned as if they had been slapped.

The thick-browed old man smiled and said, "I told you. Don't underestimate this kid."

"A profession like a magician, which seems to be very useless and can't even learn skills, can actually become such powerful support in the hands of Lu Benwei.

"Although he doesn't have any powerful combat strength, with his heaven-defying talent, he can definitely become the strongest battlefield support!"

After saying that, he took out Lu Benwei's information and changed his name to "Special Class" in the "Admission Level Waiting" column!

However, at this moment, a large hand appeared behind the thick-browed old man and snatched Lu Benwei's information.

Then, the person directly changed the word "Special Class" to "First Class"!

The thick-browed old man was furious. He was an existence respected by tens of thousands of people outside. How dare someone change his decision in front of him?

However, when he turned around and saw who it was, his anger instantly dissipated.

All the authorities present stood up and looked at that person sincerely.

The newcomer was much younger than the old man with thick eyebrows, but his figure was as tall as a mountain.

His thin face looked as if it had been cut with a knife. He looked angry.

“There’s no hurry. Let’s wait a little longer!” the middle-aged man said in a deep voice.
