

GLOBAL DUNGEON: MY SUPPORT IS TOO STRONG

Chapter 4

Experience Zone? The Students Are Restless

It was numbing to say the least.

Be it the teachers who were paying attention to the situation in the mystic realm or the students who were still participating in the assessment in the mystic realm, they were all numb.

It had only been forty minutes since they entered, but six pillars of light were already coming from the same direction.

Those students were okay.

In the depths of the mystic realm, they only knew that these pillars of light lit up from the same direction. They thought that the members of the same team had just leveled up one after another.

However, the teachers outside had really seen these pillars of light continuously shoot out from Lu Benwei's body within half an hour!

This was simply monstrous!

Now, the teachers were no longer discussing what kind of initial skill Lu Benwei had awakened because they could not tell at all.

In their eyes, Lu Benwei was an existence that could crush everything in the mystic realm after reaching level three.

This was because in this mystic realm, monsters were generally between levels one to five.

The higher the level of the monster, the rarer it was.

In any case, up until now, the monsters that Lu Benwei had encountered were almost all level one and occasionally level two.

However, it was no threat to Lu Benwei.

After all, he was always the first on every test. After defeating the first monster, Lu Benwei was already very familiar with dealing with the monsters.

Therefore, the teachers often saw Lu Benwei encounter monsters. The monsters pounced on him and Lu Benwei killed them!

It was as simple and crude as that.

No matter how experienced these teachers were, they could not tell anything from this battle method.

Thud!

Under the gaze of all the teachers, Lu Benwei's body lit up again.

Level seven...

The teachers no longer cared about the assessment of the other students.

They all held their breaths and stared at Lu Benwei's figure in the holographic projection.

They wanted to see what level this freak would rise to today!

[Ding Dong! Kind reminder: There's still an hour before the assessment ends. Now announcing the current rankings.]

Suddenly, a mechanical female voice sounded throughout the mystic realm.

Immediately after, the entire sky screen in the mystic realm turned into a huge projection. On it was a dense list of students.

No. 1 Lu Bewei: Level seven. Class: Support healing type. Points: 735

No. 2 Qian Bin: Level three. Class: Warrior swordsman. Points: 80

...

“Damn!”

In a dense forest, a burly young man in ragged clothes stared at the rankings in the air. Suddenly, he punched a tree beside him and cursed.

This person was Qian Bin, who was ranked second on the rankings.

His family background was illustrious, and he had been hailed as a young genius since he was young.

However, ever since he entered high school, he had been suppressed by someone for three years!

This person was Lu Benwei.

No matter how hard Qian Bin worked, his results could never surpass Lu Benwei's. He had been number two for three years.

While Qian Bin hated Lu Benwei in his heart, he also deeply despised him.

This was because Qian Bin believed that his family background was tens of millions of times better than Lu Benwei's. As long as he awakened, with the financial support and power of his family, his development would definitely be better than Lu Benwei's.

After all, it was not as simple as talent for a hunter to grow into an existence respected by everyone.

A better family background meant better resources and better opportunities. With these external conditions, many ordinary people had left those peerless geniuses behind.

After knowing that Lu Benwei had only awakened the most useless support class, Qian Bin felt even more disdain for him.

'No matter how good your theoretical knowledge is, it's already extremely difficult for a supporter to advance in the early stages without the support of powerful financial resources. I don't even know if you can last until the Class Advancement ends, so how can you compare to me?

'And not only did I awaken the most popular warrior class, but I also have an illustrious family background. In time, I'll become a shining star!'

In order to trample Lu Benwei under his feet, Qian Bin did not hesitate to spend a lot of money to invite four students of different classes to form a team.

Apart from the support class, their team included the five major classes. It could be said to be the most perfect combination in the early stages.

It had only been an hour since he came in, but Qian Bin had already advanced to level three. This was even faster than the school's previous records.

Previously, a pillar of light had been rising in Lu Benwei's direction. Qian Bin had seen it too, but he did not care.

This was because in his opinion, those who had the ability to kill monsters after entering the mystic realm were mostly teams with a reasonable line-up and strong individual strength. Such teams were basically five-person teams like his. Therefore, those pillars of light should be members of a certain team leveling up continuously.

Now, after seeing the rankings, Qian Bin could no longer hold it in!

So those light pillars from before were all caused by Lu Benwei's only personal upgrade?

The five of them had worked hard for so long to reach level three.

'As a supporter, there was no one to team up with you at all. How did you level up?

'Did he cheat?'

Once Qian Bin lost his temper, the other four teammates looked at each other. No one dared to speak.

After a long time, one of the guys who was usually close to Qian Bin said tentatively, "Brother Bin, did Lu Benwei cheat? How could he level up so quickly?"

"Can you f*cking have some brains? This is a mystic realm, not a game!"

Qian Bin, who was already in a bad mood, cursed when he heard this. After cursing, he kicked that person.

That person did not dare to dodge and took the kick forcefully. His expression was as if his parents had died.

"This level is indeed abnormal. Although the monsters here are all low-level, it will still take some time for a person to take down a monster. Moreover, Lu Benwei is a supporter. He has low defense. It's even possible that he can't kill a monster in an hour. How can he be level seven?"

At this moment, another student who was usually more stable said.

As soon as he finished speaking, another person continued, "I remember the teacher in class saying that anything is possible in the mystic realm. Perhaps Lu Benwei was lucky and happened to enter the experience area."

The others fell silent at that.

The experience area was a special existence in the mystic realm.

Not only were there many monsters here, but their defense was also extremely low. They were the kind that would die with a single touch, and they provided more experience than ordinary monsters.

Thinking about Lu Benwei's class and current level, everyone felt that what this person said was completely possible.

At that moment, everyone's breathing quickened, including Qian Bin's.

The experience area!

Those three words alone were enough to make anyone lose their mind.

"Let's go and meet the top student!"

Qian Bin waved his hand and led the team in the direction where the pillar of light that they had noticed previously lit up the most frequently.

There were many who shared their thoughts.
